THE EASTERN CHRONICLE.

ENGLAND AND FREE TRADE.

Our local contemporary again contends that the depression in trade, particularly amongst the agricultural classes, in England, is some how or other due to free trade, or, at any rate, to not having a sufficient amount of protection. We, on the other hand, never insinuated that the ebb and flow of trade and commerce in any country was due exclusively to legislative enactments of that country. Leave trade and commerce alone, and let them stand or fall, giving each and all a chance to succeed by their own exertion and skill. Now, there may be a depression in agriculture in England at the present time. But compare the state of the English farmers to-day with the state of their predecessors when they had protection, and we cannot but come to the conclusion that, in spite of the trade depression, the lines have fallen, fairly well, to Hodge. How is it that Great Britain pays her farmers to-day higher prices for their produce than any other country? The profit of agriculture in England have been reduced, but when we consider the great changes that have taken place within the last half century, the vast improvement in agricultural machinery, the opening up of new countries, and foreign competition from the United States and the Colonies, the facilities offered to-day by rapid transportation, the English farmer holds his own fairly well. In spite of all these things, however, Great Britain has suffered less than any other nation as a whole, and it is doubtful whether even agriculture in Great Britain is not more profitable than anywhere else.

England's prosperity lies in her foreign commerce, and foreign commerce has free trade. Foreign commerce has made England what she is and has been for more than a hundred years. The life of the world, the mistress of the seas, the most powerful empire in the world. Never will the British people go back to the dark and dismal days when they had protection. Never will they commit political and commercial suicide by abandoning free trade. It is quite true there are alarmists and demagogues in the motherland who propagate their peculiar fallacy, and endeavor to impose their silly theories upon the minds of the British population, but fortunately the people of England, both Conservative and Liberal, know the value of a good thing, and they will maintain it, too, in spite of the protection adjectives that now and then find their way into print. And it will be a good day for Canada, when she throws off the shackles of a moderate protective tariff, a system repudiated by Sir John Macdonald and all the Tory leaders, until it was employed by them as an election campaign trick. Had Canada the same tariff all along as she had in Alexander McKenzie's time, eighteen years ago and we would not likely have a deficit of \$7,400,000 staring us in the face to-day. We would not have so many abandoned farms and farmers vainly striving to make both ends meet; we would not have had the smaller industries, the creation of the mechanic and laborer, to say nothing of the larger ones, sacrificed to the ever voracious maw of the protection octopus. And it is not likely either that we would have been compelled to listen to the twaddle, invented by half educated minds, about the "decadence" of agriculture in England and the need of a system of protection to save it, a system that was utterly condemned and cast off by the people of Great Britain more than half a century ago.

THE ARISAIG PIER. We understand there is general dissatisfaction about the new pier at Arisaig. It appears the fact is, John Thompson promised that whenever the last hundred feet would be built that a dredge would at once be sent to remove all the sand accumulated on the inside of the wharf, and make it possible for schooners to load and discharge cargoes. It is quite useless in its present state, and would be of some benefit if properly dredged. There was a thousand dollars put in the estimates for the Arisaig pier. Why not use it? Why not expend it for the purpose for which it was intended? Everybody that knows anything whatever about the place knows that the new pier there, in its present condition, is of no practical use except to the lobster fishermen. The tramway from the old mine, that leads to the old pier, has been quite a boon to the public and looking at the appearance of the place, persons that are well acquainted with the locality say that another pier, directly opposite only a short distance between, seems an absurdity. Surely, the fact of Antigonish County having returned an opposition member, can have nothing to do with the unexplained delay in the completion of the Arisaig pier. The wharf is a public benefit, and when finished will be a great benefit to the fishermen and coasters generally, at that place. If it was considered worth while beginning it, it ought to be worth while completing it. The people in and around Arisaig, to say nothing of those who load and unload cargoes there, expect it. And we are sure that we voice their sentiments when we say that they expect the Ottawa government to faithfully carry out their original contract and finish the pier.

Dr. T. H. Rand has resigned the chairmanship of McMaster university, Toronto. The resignation will be accepted, but an effort is likely to be made to induce Dr. Rand to accept the chair of philosophy, made vacant by the resignation of Prof. Thomas Trotter. Dr. Rand is a Nova Scotian, a native of Kings county. He was superintendent of education in Nova Scotia about a quarter of a century ago. A Tory member in the course of a speech in the House the other day said nothing but the tariff prevented the country being "flooded with the manufactures of the neighboring republic and other lands." He did not know, probably, that for the years 1870-1874 inclusive, these imports were \$270,000,000 against \$225,000,000 for low tariff period 1875-8.

SIR RICHARD CARTWRIGHT SCORES THE GOVERNMENT.

In resuming his speech in reply to Minister Foster, on the 7th inst., Sir Richard Cartwright maintained that the amount of taxation taken from the pockets of the Canadian people per year was \$60,000,000, despite the fact that only about \$30,000,000 found its way into the public treasury. He declared that the Canadian artisan was twenty-fold more heavily taxed than was his brother mechanic in England. He cited the cotton industry to show how much money went into the treasury, and how much was lost between the mill-downer. On that industry there was \$3,000,000 taxation, yet only \$1,000,000 was contributed for the purpose of revenue. In England taxes were imposed on the richer classes, and with the exception of a small tax on some fruits, the British workman had not many taxes to pay. With the exception of anthracite coal and tea, everything that the Canadian workman used was taxed. Canadians were taxed \$10 per head, or \$50 per family, making a total of nearly \$60,000,000. The population of Canada, he said, had grown in ten years, ending 1881, only 5 per cent., only one-quarter of what it ought to have increased.

The increase in the population of free trade England and Wales during the same period was 11,65,100. Turning to the last census returns, he characterized them as gross frauds, and gave several instances to prove his charge in regard to the alleged increase in industries. The newly imposed sugar duty, he said, was an instance of how the protective tariff took the taxes from the people, and yet did not find their way into the treasury. The revenue from this new duty would amount to only \$1,300,000, yet the tax was \$3,000,000. It was high time they had heard the last from the government of the sham loyalty fraud. The evil effects of high protection was to-day witnessed in Canada as it was witnessed in the United States. He advised the government to become friends with the people of the United States, instead of stretching out after other territories and chasing fish Atlantic services and cable schemes.

Sir Richard made an able and scathing criticism of Minister Foster's budget speech. He dealt in facts and figures and exposed the fallacy of Mr. Foster's arguments. He moved the following amendment: That the estimates for the fiscal year 1894-95 amount to the sum of \$38,317,152, in excess of any further supplementary estimates which may be brought in. That the said sum of \$38,317,152 is in excess of the amount expended in 1893-94 by \$4,500,000. That the deficit for the year 1893-94 amounted to \$1,210,322. That the deficit in the present year is estimated by the Minister of Finance at \$4,500,000. From statements made by ministers of the crown in this House it appears that our obligation for railway subsidies and other public works now in progress will involve a further outlay of \$20,000,000. For railway subsidies now voted, \$8,720,000; for the Trent Valley canal, \$5,000,000; for the Intercolonial Railway and minor works, \$1,000,000; for the St. Lawrence canal, \$5,000,000; on which sum together with the subsidy provided by statute to be paid on account of bringing about the completion of the charges on our already heavy annual charges \$1,400,000. That inasmuch as enormous sums of money are exacted from the people of Canada, and are not paid into the treasury, and inasmuch as the people are thereby rendered poorer and more heavily taxed, and inasmuch as the tariff is of the utmost importance to the well-being of the community that not only should the present extravagant expenditure be diminished, but that the said subsidies should be restored to the people as speedily as possible to restore the equilibrium between revenue and expenditure, as recommended in the speech from the throne, the existing tariff be so modified that it may be made a tariff for revenue only.

NEWFOUNDLAND. The seal fishing season just ended has been one of the most successful on record. Two-thirds of the steamer engaged and remarkably well and the remainder made an even better success. The value of the catch is estimated at about \$500,000. This will prove a wonderful benefit in the way of bringing about the recovery of this colony from the recent commercial disaster. The movement against union with Canada is spreading rapidly. Petitions opposing confederation are receiving large numbers of signatures throughout the colony. Confederal questions in all contingencies in the coming general election. The disruption of the government party is probable, as all but cabinet ministers oppose confederation. Sir Herbert Murray, British relief commissioner, has his measures for the assistance of distressed Newfoundland and fishermen fully matured. He will make advances to aid the holders of fishing vessels to buy them from merchants owing them, and also arrange for cash purchase of fish paying half now and the balance at completion of the fishery. The customs fishery returns, especially prepared for him, set forth that 269 vessels and 14,572 persons were engaged in Labrador fishery this year, and that about 20,000 persons were dependent on those actively engaged in the fishing. The fishery only engaged in the last year, owing to the impossibility of obtaining the requisite supplies, unless immediate steps be taken to restore Newfoundland's credit. The Rev. Wm. Gregg, D. D., who has been a professor in Knox College, Toronto, since 1872, and is well known as a leader in the Presbyterian Church and as the historian of the Church in Canada, has resigned his professorship on account accepted with much regret. About one thousand iron and steel workers at Pittsburg, Pa. are on strike for higher wages. The strike is sure to extend and may become of national importance.

THE DOMINION PARLIAMENT.

SEVENTH PARLIAMENT—FIFTH SESSION. House of Commons.

Last Weeks' Doings at Ottawa. There will be no revision of the voters list this year. Mr. Mills, of Annapolis, made a motion to disfranchise the employees of provincial governments in federal elections. It was in favor of Isaac Antiquish, made his maiden speech in the House. When he resumed his seat he was congratulated by Mr. Laurier and other members of the Opposition. Mr. Costigan promised to introduce a bill to amend the act to encourage the development of the deep sea fisheries and the building of fishing vessels. The Minister of Justice introduced a bill to facilitate the transit of lunatics from penitentiaries to provincial asylums, and to amalgamate the offices of constable and inspector of penitentiaries whose present accountant ceases to hold office. The Minister of Justice proposed to supplement his budget statement as to the details of the National Policy as to the details of the Kingston and Smith's Falls railway, to which \$250,000 had been voted; the Hudson Bay railway, which had been entered into in 1891, \$1,000,000, and the Atlantic service subsidy voted, \$700,000.

In resuming the debate on the budget Sir Richard Cartwright was loudly cheered by his constituents, and on an occasion toward his end he was loudly cheered for fifteen years—the acknowledged collapse of the National Policy as a property matter. He would have had a great deal to say about the acknowledged collapse of the National Policy as a property matter. He would have had a great deal to say about the acknowledged collapse of the National Policy as a property matter. He would have had a great deal to say about the acknowledged collapse of the National Policy as a property matter.

The 5000 Best Books. When a woman sends her subscription to The Ladies Home Journal special privileges seem to go with it. Besides the fact that our work is published in the magazine, she can take the fullest advantage of a perfect educational plan by which she can educate her daughters or arrange for the best college in the country free of charge, and now the Journal has been referred to it that she can buy her books—each a single book at a time—at prices never obtained only by large buyers. There comes to us from this magazine an artistically gotten-up illustrated booklet of over 600 pages called "5000 Books," which serves as an easy guide to the best books in any department of reading. The guide is very well done. The best literary experts of New York, Boston and Philadelphia were engaged by the Journal to select the five thousand books which it presents as the most desirable for a home library, and their work has been admirably carried out. Very clear, explanatory comments are given by these men of books and booklets that are given not less than 100 portraits of leading authors. No book will, perhaps, do so much to extend good reading as this guide, so carefully gotten-up, so beautifully bound, and so generously offered, free of any charge, by the publishers of The Ladies Home Journal. "5000 Books" is unquestionably the best and easiest guide to a wise selection of books that has been issued for a long time.

MIND'S FINEST FILLS are rarely equalled. In giving judgment at Sydney in a case of common assault, which came before Judge Dodd, and which assault had been provoked by some small gossip, the judge pronounced the delivery of his judgment with the following remarks: "The tattler is the curse of the community. It were in my power, I would prefer to pass judgment upon the tattler who provoked this rather than upon the accused." This will be a warning for those talkers who have a penchant for dissecting without just cause the reputations of decent people with whom, unfortunately circumstances compel them to mingle.—Reporter.

The Rt. Hon. Sir Robert Peel, who was chief secretary for Ireland from 1801 to 1805 is dead.

Hand in Hand go grease and indigestion—that's why physicians condemn modern hard. Hand in Hand go health and Cottage—that's why Cottolene has received the endorsement of the leading lights of the medical profession. When you feel that it would be a pleasure to eat any kind of pastry or fried food, without fear of indigestion, get Cottolene. See that the trade mark—steer's head in cotton-plank—wreath on every tin. Made only by The N. K. Fairbank Company, Wellington and Ann Sts., MONTREAL.

"Cancer is contagious," declared Dr. Guellou, of Rheims, to the congress of French surgeons held recently at Lyons. "The transmission may be direct from the body, but it is effected more frequently through wearing apparel or table utensils, in two cases it was through a tobacco pipe."

The jury in the case of Clara Ford, the malato woman accused at Toronto of murdering Frank Westwood in October last, was at once liberated. She went on the stand in her own defence and swore that detectives had forced her to make the confession at the time of her arrest.

GRATEFUL-COMFORTING. EPPS'S COCOA BREAKFAST-SUPPER. By a thorough knowledge of the natural laws which govern the operations of digestion and assimilation, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided for our breakfast a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up, and strength acquired to resist every tendency to disease. Hundreds of subtle poisons, which find their way into every vessel, and remain there, dooming us to a slow but certain ruin, can be effectually dislodged and expelled from the system by Epps's Cocoa. It is a powerful purgative, and keeps the bowels regular, and by keeping the system thus purified, it is a powerful purgative, and keeps the bowels regular, and by keeping the system thus purified, it is a powerful purgative, and keeps the bowels regular.

U. C. T. U.

The regular meeting of the New Glasgow, W. C. T. U. will be held in the vestry of United Church, on Tuesday, May 21, at 8 P. M.

Death in a Police Court.

A pathetic and tragic incident occurred in the Jefferson Market police court, New York, one day recently. Mrs. Ellen Sullivan fell fainting, and died almost instantly, just as she was about to make complaint before Justice Tindal against her son, John, and have him committed for intoxication for a month. Mrs. Sullivan, who was a hard-working Irishwoman, sixty-one years old, went into the Charles street station, accompanied by her son, John Sullivan, thirty-one years old.

"I want to have my boy committed for a month," she announced to the sergeant at the desk. "It almost breaks my heart to do it, but he has been drinking heavily for two weeks, and if he is put away he will be hell straight up and go to work again."

The young man said he was perfectly willing. He thought it would do him good. He showed the signs of prostration and prostration. Patrolman Perkins took the two to Jefferson Market court, and the mother sat in the court-room until noon waiting for her son to be arraigned. She was in evident grief and agitation. Finally the complaint had been made and the prisoner called for at the bar. Mrs. Sullivan was called up. There were tears in her eyes. "Oh I can't do it; I can't do it," she cried. The poor woman staggered back from the bench in front of the judge's bench and clutched at her heart.

She was led staggering back into the corridor at the side of the court room. There she fell on the floor, and efforts to revive her were fruitless.

Christian men have dollars at stake. Liquor dealers have dollars at stake. Which are the most valuable?

An English Judge on the Mischiefs Caused by Drink.

A striking letter upon the ruin wrought by strong drink from Mr. Justice Denham has been read at a meeting of the Liverpool branch of the Church of England's Temperance Society, from which the following extracts are taken: "The sort of evidence I can give only goes to prove what no one denies, viz., that intemperance is the greatest curse and the most potent cause of misery from which this nation suffers. Twenty years of judicial life and forty-six years of constant attendance in the criminal courts as an advocate or judge are enough to enable any man to form an opinion as to the extent of the mischief caused by drunkenness. Not a day passes in the criminal courts without some evidence of it. I suppose between 1872 and 1895 I must have tried many thousands of cases of violence and cruelty, murder, manslaughter, murder, and savage wounding, kicking and assaults. Of these I am sure I speak well within the mark when I say that more than one-half were directly connected with excessive drinking. But beyond this I have painful recollections of ruined homes and separations of husbands and wives, consisting too large a portion of the work of even civil tribunals, all arising from indulgence in drink and the consequent demoralization. I can recall miserable histories of the number of men and women who have yielded to temptation in this respect, lost everything that was worth keeping—character, money, health, and even life itself—old schoolfellows ruined and disgraced—clergymen driven from their parishes—soldiers and sailors degraded and dismissed after having served their Queen and country for a time—domestic servants losing good places—drivers of public and private vehicles unable to obtain employment for want of character for sobriety, or tried for manslaughter by reason of bad driving while drunk—babies smothered to death by drunken mothers—children shivering in freezing lodgings for want of clothing and coals, which might have been bought with money wasted in whiskey, brandy and gin; more than one member of my own profession, whose abilities and prospects have seemed to destine him for high preferment, dragged down to penury and degradation, disease and premature death, or worse, by this fatal habit acquired early in their career. Of all these things I could have spoken, and not half exhausted the instances in which I have had proof of the effects of drinking to excess."

Alcohol Weakens the Body.

Without doubt men who drink no spirits hold out better than those who drink. Armies made of men of the former class march better, hold up longer, under fatigue, enjoy better health, can bear exposure better and consequently are free from drunkenness, suffer little from disease and crime. It lessens the power of resistance in exposure to great cold and becomes dangerous to use it. It may excite for a time, but it always is followed by great depression. This has been clearly demonstrated in Arctic explorations. In exposure to great heat the evidence is equally conclusive against its use. The array of testimony is indisputable.—Medical Brief.

Leonard Scott, the New York publisher, died recently at the age of 85. He was born and brought up at Fywer Hill, parish of St. David, Charlotte county, N. C. Of that neighborhood he gives a description in his 1866 volume entitled "Reminiscences." Readers of *Blackwood Magazine* thirty or forty years ago will recall the name of Leonard Scott & Co. as the New York publishers.

A Y. M. C. A. class gave an exhibition of drill recently in reconstituting the apparently drowned. That is a sensible and useful training. It is better to teach one small class of boys how to rescue a drowning person and reanimate him when rescued than to command an army of juveniles in military drill in church basements.

The London Pall Mall Gazette says that in consequence of the floods in Madagascar the difficulties of transportation by reason of the rough country and insufficient troops, the French campaign against the Hovas has been temporarily suspended.

High Sutherland says the work of constructing the Hudson Bay railway will proceed with vigor as soon as the plans are ready. The government is committed to the enterprise, he says.

BOSTON LETTER.

Old man winter has departed from the lap of spring. And the gentle maiden looks sunny and cheerful after tendering the old man the reins. Already she has herself in her gayest garb, rejoicing at his departure. The public garden and common are covered with carpet of the greenest green. The trees are putting forth their leaves, slowly at first as if wishing to make sure that the outside world was warm enough to receive them. On the 21st of April the first dandelion showed its welcome self and shortly thereafter came the first crocus of the season. As harbingers of spring they were of equal prominence; but the straw hat re-appeared and away the more attention of the two. The 26th of April was a warm day, the warmest for that month since 1889, and the second warmest ever recorded in Boston. Well it was 80° in the shade and coming after a season of stormy and cold weather such temperature made overcast a burden and winter-dannels a torture. This day saw open cars on the street much to the smoker's delight and the connoisseur's misery.

Along with this welcome change in nature, business also is assuming a more cheerful aspect. About ten days ago 25,000 of the mill-workers in Fall-River were made happy by an increase of wages. This increase was voluntary upon the part of the companies and all the more welcome because unexpected. The advance is about 15% makes a difference of some 5.00 per cent in the pay-roll of that city. All along the line there are signs of returning prosperity. Travelling companies—barometers—report an ever-increasing confidence among business men and the placing of more and more orders for the coming year. Some years ago Boston is to Boston in particular.

I hope what I have to write will come to the eyes of some thoughtful young men who are contemplating a visit to this country. Let them read carefully and heed what I have to say. I know some of the young men who are here in so far as my desire goes to prevent my countrymen from taking any hasty or imprudential steps towards emigration. I have seen business men assuming such a healthy tone, it does not at all follow that there is any reason to believe that there are any fold reasons why this is so. I will point out a few. During the hard times of the past 18 months there were thousands of men thrown out of employment in Boston and surrounding towns. What did these thousands do upon finding themselves unemployed? A large number looking not where or how to better their conditions lived in the city, seeking work at anything, and everything that came in the way. These were among the first to get work when it came. Many more left the towns for the New England farms where they could secure board and clothing and probably a little money for their labor. These too being near at hand are and were ready when employment came. A few round faces to different European ports, were greatly reduced, a circumstance of which many of our young men are visiting friends and their old homes. That these and many more are coming across this spigot is easily seen by the crowded cars as they arrive on this side. It needs but half an eye to see that the circumstances alone enumerated, combine towards making the market for the wage earner a poor one. And this will continue doubly for some time to come. But I venture to say that three months from now the prospect will be much brighter for the man to live by manual toil. The man who has been unemployed in the winter of the building line. The extension of Columbus Avenue to Franklin Park is the latest of the enterprises of the city. This extension runs through the business part of Roxbury, and will necessitate the tearing down of several hundred buildings that be in its path. The subway when fairly under way will give employment to many thousands of men for a long time. All this is to come and when these things do come there will be work for all to come. That will be two or three months hence.

In conclusion of this subject I would earnestly entreat the young Nova Scotians to remain at home, for a time at least. There is much work to be done during the spring season, and they will be much more profitably employed in doing it than in coming here. Pick stones, pull stumps, plant potatoes, do the work of the farmer, and so on. Do not just now. And what applies to Boston applies to New England cities and towns in general.

Indeed, there are many of Nova Scotia's strapping sons working in and around this city that would do better of their hands never crossed the line. They may not see the good times they are having, but how many of them are earning, and how many of them are wearing, with the great majority things are different. I know from what I have seen myself. There are good mechanics in Boston, who have been here for years and who cannot in the spring of the year lay their hands upon \$25 of their own money to save them. They are not extravagant. They are not drunkards. They live like good men, live to outward appearances, and for a fact most of them are able young men. Nevertheless what I have said is true. How is it? Well, I will explain. They work steadily for only seven months in the year. And if they are doing outside work for the rest of these months is broken by bad weather, etc. They must wear decent clothes. They must have a little Sunday recreation by going to some of the many beaches for an occasional afternoon. And of course, if their girls are in the town they must not forget to take them along too. A little ice cream, etc., will soon take the little shining dime away from the man who has earned them so sorely. This is not always as I have stated it. And yet there is nothing unbecomingly out of place or extravagant in what I have written. Not at all. Again board is high. It costs \$3.50 a week to get decent table board. You have to pay \$1.00 a week for a respectable room. Your washing amounts to a considerable in the run of a year. Socks, underclothes, shoes, overalls, all these things cost money and one must have them. Now the man to receive but \$8 or \$10 or \$12 a week finds when he has paid out of his weeks wages for some of the different items above mentioned, that he has but a precious few dollars left. Some of these men may, if very economical, live by a rainy day. But there comes a time in mid winter when his work ceases and he is compelled to put up with three or four months of very full times, and oftentimes no work at all. This drains the poor people's bank that was never very plethoric.

There are many who succeed in getting situations that give them work the year round. If the wages are decent, in such a situation a man of economic habits should lay aside a few dollars every week. Many of them do so, as a rule. Nova Scotians are much sought for to fill positions of confidence and trust. In business and industry they are the equals of any and the superiors of not a few. Hence it is that the Business offenses get the preference where many are looking for the same situation.

All pleasure is not purchased at the price of pain, but a great many dreary people think it should be.

A GREY COUNTY MIRACLE.

AN IMPORTANT STATEMENT FROM A WELL KNOWN FARMER.

He Tells the Story of Eight Years of Suffering while Vainly Seeking Medical Health—How This Great Boon was Finally Obtained.

From the Montreal Monitor

Knowing the Dr. Williams' Medicine Co. to be an honorable and reliable firm we had never any reason to doubt the entire truthfulness of the articles appearing from time to time setting forth the particulars of remarkable cures effected by the use of their Pink Pills. There is scarcely a locality in Canada which has not furnished a case of more or less prominence, and if the particulars, as stated, were not accurate, it would be impossible that the public would not find it out and thus the remedy would be discredited. There is therefore every ground to believe that the statements are accurate in every particular. We have now been put in a position to verify one of these cases for ourselves, and the result has been most satisfactory. Pink Pills no word of praise not uttered in the case. Messrs F. Clark & Co., druggists, of Montreal, who have sold very large quantities of these famous pills, drew our attention to the case giving us the name of Mr. Henry Lamb, a well known and respected farmer of St. Vincent township. Having some acquaintance with Mr. Lamb we sought an interview, and the following is the substance of his testimony: "About 8 years ago I suffered from an attack of inflammation of the stomach, causing extreme pain and uneasiness. I was attended by Dr. Clarke, of Montreal, who brought me a cord, and I have always given him the credit of saving my life on that occasion. The effects of the attack however remained, and I fell into a state of chronic poor health, which completely unfitted me for my ordinary work. I was really dragging out a miserable existence. I suffered for over seven years from a constant pain in my stomach, as well as from weakness and continued debility. I tried many remedies which I thought might be suited to me, but without relief. I at length decided to try Dr. Williams' Pink Pills. I soon felt the pain in my stomach relieved, and after I had used ten boxes the pain was entirely gone and I now feel like a new man. I can now work half a day at a time without fatigue, and as I am still using the pills I confidently expect, as I have every right to do, from the great results thus far, to be able to do my work as readily as I was 17 years of age. Before the attack eight years ago, I always enjoyed good health. I have stated my experience to many people and invariably recommend a trial of Dr. Williams' Pink Pills." The above is the substance of Mr. Lamb's story, to which the Monitor may add that we consider him a reliable and trustworthy person who would make any statement which he did not know to be correct and truthful.

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood, and restore shattered nerve power. They are a specific relief for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the grippe, palpitation of the heart, nervous prostration, all diseases depending upon vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood, and restore the glow of health to pale and sickly cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature.

Priestley's Dress Materials

Every lady should be interested in the fact that the Priestley's Dress Materials are to be had from the better class of dealers throughout Canada. For beauty, texture and enduring quality, they are unequalled. Manufactured as they are in pure wool, and in silk and wool inter-wool, these goods have a soft richness which is a perfect delight to a lady's taste. Priestley's goods are mostly in black, and in black and white. A gown in Priestley's fabrics retains its style and beauty as long as there is anything of it left, hence they are the most economical for all classes.

See that the goods you buy are stamped every five yards with Priestley's name. No others are of their manufacture.

CARBONATED BEVERAGES

They Know a Good Thing When They See It. It Will Pay You To Always Buy The Best.

No Beverages are more Wholesome, Thirst Quenching or Palatable, and the highest medical authorities endorse and recommend them, as per extracts below:—

U. S. Dispensary on Carbonic Acid Gas.—The advantages of carbonic acid as a vehicle are, that it renders medicine less disagreeable to the taste and more acceptable to the stomach, while, by its stimulant impression, it obviates the debility of the digestive organs consequent upon the use of alkaline medicines.—Page 892, Fifteenth edition.

Professor Charles F. Chandler, Chemist at the New York Board of Health; Dr. Julius Shole, Professor of Analytical Chemistry in the American Institute; Dr. George F. Backer, Professor of Physiological Chemistry, Yale College; Dr. Charles A. Seely, Professor of Medical College, and numerous other eminent authorities, all speak in the highest terms of the beneficial effects of "soda water" upon the system as generally prepared for the trade.—Mineral Water Treatise Review and Guardian.

What the American Oculopendia says: "Carbonic acid water (soda water) improves the taste and increases the salutary effects of drinks; is the best antidote for alcohol, and lessens the desire for spirituous liquors. It has a generally exhilarating effect upon the system, essentially promotes digestion, checks too acidity in the stomach, and is a much esteemed remedy in febrile diseases."

The use of carbonated beverages or waters as an addition to wine or alcoholic liquors is highly commendable, as they greatly mitigate, or wholly obviate, the retarding influence of such liquors on the digestion of starch.—Dr. I. Bursey Yes, in Popular Science Monthly.

Waters highly impregnated with carbonic acid gas are grateful to the stomach, increase the appetite, and are diuretic, hence their utility in dyspepsia, hypochondriasis, and gout.—Dauglish's Medical Dictionary.

Many testimonials of highest authorities might be added to those above, but as these are from those whose attesting are of the highest in the world—chemistry and therapeutics—they are conclusive.

FRANCIS DRAKE,

NEW GLASGOW, N. S.

J. H. Stewart, Antigonish, Agent for Antigonish and Guysboro Counties. He will carry a full line at factory prices.

I. MATHESON & Co.,

Engineers,

NEW GLASGOW, N. S.

The Eastern Chronicle.

NEW GLASGOW, N. S., MAY 16, 1905. "HAS THE NATIONAL POLICY MADE YOU RICH?"

Tory curs like chickens come home to roost. For years the Tory press has harped on the deficits under the Mackenzie administration...

The total deficits under the Mackenzie administration barely exceed one-half the deficits announced in one day by Minister Foster. Toryism and deficits go hand in hand.

Premier Greenway and Attorney-General Sifton of Manitoba go to Ottawa this week, to have a personal interview with the Governor-General, at the latter's request, on the Manitoba School Question.

Tory curs like chickens come home to roost. For years the Tory press has harped on the deficits under the Mackenzie administration...

The Manitoba Legislature, which has been adjourned from March 29th, reassembled last Thursday. Premier Greenway asked for a further adjournment until Thursday, June 15th, in order to give the government time for further consideration of the suggested remedial legislation.

"Equal rights to all, and privileges to none." Such is the motto sent out over the circular recently issued by the Orangemen of Nova Scotia, and which we publish by request in this issue.

Pictou cattle disease is an expensive affair to the taxpayers of the Dominion, as the Auditor General's report for 1893-94 shows.

It is quite a little help to the Vets. however. NOMINATION IN ANTONIGISH. As predicted in last week's CHRONICLE the Liberal Convention, which met in Antonigish town last Saturday to nominate a candidate to fill the vacancy made by the resignation of Mr. C. E. Melrose, M. P., in the Local Legislature, nominated Angus McGillivray, who for several years was Speaker in that body.

The choice was a unanimous one, coming from a large delegation representing every section in the County. Mr. McGillivray accepted the nomination, and delivered a short but spirited address, thanking the Liberal Party for the honor conferred upon him. He referred to the excellent manner in which the affairs of the province were being conducted under the administration led by Hon. W. S. Fielding.

Whatever may be the opinion of some people on political matters, all we are sure, will agree that Antonigish has made a wise choice in choosing Hon. Angus McGillivray to fill the vacancy. Mr. McGillivray is a gentleman of large experience in political affairs in this province, and will do honor to those whom he will represent.

There is some talk of Mr. C. E. Whidden receiving a nomination from his Tory friends in opposition to Mr. McGillivray, but as our friends of the Tory party must know it will be a "walk over" for Mr. McGillivray, they would show their good sense to elect him at this juncture by acclamation, rather than put the country to the unnecessary expense of an election.

OTTAWA LETTER. FROM OUR OWN CORRESPONDENT. OTTAWA, May 11.—Another week has come and gone and I have no doubt that many of you, those who have not been made too poor to use sugar in your tea and coffee, have during the week had a forcible illustration of the increased taxation and expenditure of our public monies has necessitated. The fact is you paid more for your sugar this week than you did last, and every housekeeper in Canada must have realized there must be a reason for it.

What do the men who are responsible for increasing your national debt \$140,000,000 who are responsible for an increase from \$23,000,000 to \$38,000,000 in your annual expenditure who have doubled your taxation, who have stood by and aided and abetted dishonest contractors to rob the treasury of millions of dollars who have reduced wages and savings, care for your personal welfare who you should stand so persistently by?

What does John Haggart, Sir Adolph Caron, Outimet and the whole gang of them care about? Do you know that you are called loyal to the party and in the future as in the past will be ever ready with your vote to swear them out of any scrape they may get into?

Do you know that you are called loyal to the party and in the future as in the past will be ever ready with your vote to swear them out of any scrape they may get into?

THE DOMINION PARLIAMENT. SEVENTH PARLIAMENT—FIFTH SESSION. House of Commons. On Wednesday, 8th, the House went into committee on Charles's Lord's Day Observance bill.

The extraordinary course adopted by Lieut. Governor Schultz, Manitoba, in coming to Ottawa, and obtaining a letter from Dr. Boninot and communicating it to Premier Bowell for publication, caused Mr. McCarthy to give notice that he would move the adjournment of the House in order to bring before the House the facts of the case.

There was a large attendance at the opening of the House on Thursday, in expectation of the discussion of the conduct of Lieut. Governor Schultz and Dr. Boninot, clerks of the House, in regard to the Manitoba School Question.

There is no love lost between Haggart and Outimet. The latter remembers the way Haggart followed up his (Outimet's) cousin, St. Louis Curran, in a scandal, and political pressure called a trace.

Returning to the House we find that the work of the past week reflects no credit upon the government. They are making a desperate effort to win a lost race; to regain lost ground and to come to ahead of the home stretch. But they don't own the winning horse this time and they cannot jockey the other fellows.

Sir Kirk Cartwright's criticism of Foster's budget speech was one of the most complete and effective arrangements of the government's policy that has ever been listened to in the House of Commons.

The prima question to ask yourself, Sir Richard says, is, "how does my present financial position and how do my present surroundings and my present position compare with my position and surrounding ten years ago? Am I going ahead, or am I drifting behind? Can I get any more to-day for my farm as I could eight or ten years ago?"

Sir Richard says is the starting point to satisfy yourself on these points the way another and then proceed to look for the present position, whether it has improved or whether it has been retrograding.

Sir Richard says the government's own figures to prove that the present high customs tariff you are taxed \$60,000,000 a year, which includes the amount you pay annually pay to the treasury in customs duties, and the tribute you pay into the pockets of the manufacturer where you are forced to purchase goods of domestic manufacture, protected by a duty ranging from 70 to 90 percent upwards.

You do not appear to realize these facts nor the extent to which you are being robbed by our iniquitous tariff until one day before you are in black before you are white by those who are working at Ottawa willing and say victims. The customs house officer does not enlighten you nor does the leader of the domestic goods you buy remain silent of the price he is taking of you. You pay your money but you never question how much—what tariff has added to the cost of the article you purchase, whether at home or abroad.

But what is this statement we read in the government press of the tip the sugar refiners received that their duty was to be raised? Then again we read of certain wholesale grocers having received a kind hint of what was coming. The fact is the government organ, on the 11th inst., referring to the wholesale grocers of Hamilton says—"near all the wholesale grocers have received a hint that the duty on sugar would be raised and all had a large stock on hand."

Now will any farmer or consumer of sugar say this is a fair deal. The duty was raised as Minister Foster says to raise more revenue. The favorite wholesale men are wanted to put in large stocks before the duties go into effect. The result is that while on his large stock he has no increased duty to pay, he charges his farmers and other consumers the amount of the increased duty. The government gets no more revenue, although the consumer has to pay the increased rate to which the wholesale man has advanced the price of his goods. The case is a clear one. No one but the government could give the hint to the wholesale men. The citizen put modestly when it says "nearly all" the wholesale men, were given the tip. It would really be interesting to know who the distinction was drawn when the government gave this valuable tip. It is hardly to be supposed that they would give a tip to their political enemies.

Anyway it is for you to say whether or not the government, according to the statement of their own organ, has dealt fairly with the farmers and other consumer whose vote they are paying power of farm products at the present time as compared with 1878. In 1878 20,000,000 bushels of wheat paid the total amount of the taxes taken out of your pockets through customs and excise to meet the interest on our national debt while in 1893 60,000,000 bushels are required to meet that interest account. In 1878 20,000,000 bushels of wheat paid the total amount of the taxes taken out of your pockets through customs and excise to meet the interest on our national debt while in 1893 the amount of money that is being taken out of your pockets by high customs and excise duties, taxes, and through the excessive prices the highly protected manufacturers has been able to charge you, will exceed \$60,000,000 which, at present prices would require 120,000,000 bushels of wheat to pay. Your indebtedness and your taxes have increased; your purchasing power has diminished.

Under Y. M. C. A. auspices in James Church hall to-night.—17. Y. M. C. A. BELLING FRIEND.—The following pledges were secured this week.—J. W. Carmichael & Co., \$300; Mrs. E. Grant, \$50; estate of Annie Sinclair, \$50; M. H. Fitzpatrick, \$100; H. T. Sutherland, \$75; A. C. Bell, \$30; James Stewart, \$25; J. Conrod, \$25; Mrs. Wm. G. Matheson, \$10; James Ross, \$15; Angus Caron, \$10; W. Conn, \$1; A. B. Gray, \$10; James Fraser, \$5; Alex. Fraser, \$10; John Jenkins, \$5; John R. Turner, \$20. Total to date, \$4,311.00.

IT'S AN INJURY. To read when what you need is entertaining, and you don't have to strain your eyes to read. If you know that day by day, slowly but surely, you are permanently injuring your sight by neglecting to provide yourself with suitable glasses, wouldn't you hasten to have your eyes tested and fitted? Perhaps you don't require glasses. Perhaps, again, if a pair were carefully adjusted to your eyes now, it might save you a lifetime of regret. Call at once; don't delay. No charge for testing.

S. EASTWOOD, Optician, Office, Eastwood's Jewellery Store, New Glasgow, N. S. R. MAYNARD, Practical Tailor. Is still to be found at the old stand, opposite Oddfellow's Hall. THE... Provost Street, NEW GLASGOW, N. S.

The Earth. We do not want it, neither do we undertake to bury every man in one line of business who wants so much of it as to set the sole of his foot upon, but what we do want is for the people of Pictou County to know that we are selling Parlour Suites, Chamber Suites, and every other article in the house furnishing line, lower than any other dealer in the county, or outside of it. Also, that our own upholstery furniture is done on the premises, we handle nothing in the way of slop work, made in Canada, or hand-made in ten dollars and upwards. Please give us a call when you want anything in our line, and we will satisfy you. FRANK GARRETT, 58 PROVOST ST., NEW GLASGOW, N. S.

For the Household.

A little salt in the starch will usually prevent its macking when you go to iron. When you want to whip eggs to a froth put a tiny pinch of salt in them. Both should be as cold as possible to froth well. Tea or chocolate should never be served with fried foods. Always serve coffee with fried oysters, fish or lobster, also with cheese. To test if ham that you are cooking runs a sharp knife in along the bone. If it comes out milky looking the ham is not done; if clean, it is. For lobster cutlets to be made when this fish is scarce at certain seasons of the year, the canned lobster will and can be used to the greatest advantage. Any grease spots on wall paper can be removed by rubbing them carefully with gasoline. A soft cloth should be used. Rub gently a little piece at a time. Long-handled feather brushes should be hung always in a cotton bag on a nail. This prevents them from breaking the feathers and is an excellent plan for their safe-keeping. Creams may be taken out of skirts which have been wrinkled in packing by hanging them on the clothes line, stretched to their utmost width. They will soon be as smooth as though they had been ironed. Plaster coats in their natural state are best freed from dust by covering them with a thick layer of starch. When the starch is dry brush thoroughly with a stiff brush and it will be found that the dust has been removed with the starch. Lamps should be filled every day and chimneys washed once a week. To procure a perfect light let every lamp have a new wick once a month. Just before lighting rub carefully the body or stand of the lamp, so that all small oil is removed. For small rooms a plain cartridge paper should be used. It gives a fine tone and adds to the effect of space, making an excellent background for all kinds of pictures. A deep fringe adds much to its decorative effect. This sort of papering suits any kind of wood, and if the tint is well selected, like that of terra cotta, it will when finished prove very satisfactory. VERMONT MEAT PIE.—Take any piece of cold meat, such as cold steak or cold of any kind. Chop, as if for hash, Flavor with a little grated onion, salt and pepper and a teaspoonful of Worcestershire sauce. If you have got cold butter use that. But if not brown a piece of butter the size of an egg. To this add two table-spoonfuls of flour, enough boiling water to make a rich sauce and pour over the meat. Line a deep dish with rich pie crust and bake a half hour. ARTIS PUNTO.—Slice very thin some good cooking apples. Butter a deep dish and fill nearly to the top with the apples. Take about a pint of flour; with this put a piece of butter about the size of an egg then add a little salt, a teaspoonful of baking-powder, and mix with enough milk to make a soft dough. Spread this over the apples and bake for an hour in moderate oven. Cover the first, that it may not brown too quickly. When cooked turn out in a platter and sprinkle with nutmeg. Serve hot with sweet cream. NEW LAYER CAKE.—Take two eggs, half a cup of butter, one of sugar and one and a half of flour, a half a cup of milk and a table-spoonful of baking-powder. Mix as for any cake and bake in layer tin. For the filling take one cup of raisins, one of either hickory or butter nuts and half a cup of currents. Chop all together. Roll one cup of sugar until it threads, and beat into the whites of one egg which has been beaten very stiff. Beat until cold and stiff. Flavor with lemon and stir in the raisins and nuts. Spread between the layers and on top. KNOWS WHEREOF HE SPEAKS. Golden Words That Heads of Families Should Heed.

President A. O. Skinner of the St. John A. A. speaks to the point. To preside the bridge that bears you safely is only fair and right. That is the view expressed by Mr. A. O. Skinner, president of the Opera House Club, and also president of the St. John Amateur Athletic Association. Mr. Skinner importer of and dealer in carpets in the lower provinces. He is a brother of C. N. Skinner, ex-M. P., recorder of the city of St. John. To use a current phrase, what Mr. Skinner says "goes." He says that Dr. Manning's german remedy, one of the list of famous remedies manufactured by the Hawker Medicine Co., St. John, N. B. "As a general household medicine, I know of nothing to equal Dr. Manning's german remedy. It seems to me there is almost nothing it is not good for. My family sometimes laugh at me for being so enthusiastic over it, but we would not think of being without it in the house. I find it good for cramps or sore throat, or cold or hoarseness. I am troubled with a little indigestion and distress at times after a hearty meal. The german remedy always relieves me. My daughter was so hoarse from cold only the other day that she could scarcely speak above a whisper. I gave her a dose of the remedy and it cured her in 15 minutes. I have a boy who is subject to rheumatism. He is always relieved by rubbing with german remedy. Every summer when we go to the country we take several bottles. Then we feel safe. If one of the children is troubled with colic, this remedy gives relief at once. If any one gets hurt, we have this liniment at hand. It will give relief from the pain of blood poign, bee stings, fly bite, or anything of that kind. Up at the Cedars, on the St. John river last summer, the Indian colony near there suffered from a severe epidemic of diarrhoea. I sent them a supply of german remedy with directions for use, and it cured them all in a couple of days. And so I might go on. As I said at first, I believe Dr. Manning's german remedy was no equal as a general family medicine, and if its use were more general there would be smaller bills to be paid on account of illnesses or injuries to members of families. "I may add," said Mr. Skinner, in conclusion "that we are never without Hawker's balsam of tolu and wild cherry for the cure of coughs. It is an excellent remedy. The children like it, and it is good for them."

MINARD'S HONEY BALSAM is a sure cure K. D. C. Relieves distress after Eating.

Stray Wood.

Two little stores stood side by side, Trade thrived in one, in 't'other died; 'T'would not be very hard, I think, To tell which one used FRANK'S Ink.

The following letter is from United States, and speaks for itself: Mr. Dennis A. Bourgeois: My dear sir,—I have been laid up all winter and not able to work at all from Rheumatism. Since I have been using the Prussian Oil you sent me I am cured, and am working every day. I am sending you \$1.00 to pay for that one and three others. There are a good many here who want some. What will a dozen bottles cost me? It is a grand medicine! Good as Gold; and I wish it could be made in this country, so we could get it without so much trouble." I remain your friend, Use it prove it!

PHILIP J. GAUDET. A woman would recognize an ideal husband if she should get one.

A SUCCESSFUL EXPERIMENT. MR. T. HAZLEHURST, OF BRANTFORD, USES A SPECIFIC REMEDY WITH GREAT EFFECT. Brantford, May 6.—Interest has been revived here, through the published despatches about the Kent case and the extraordinary recovery from diabetes of Mr. T. Hazlehurst, an esteemed resident of the town. This gentleman suffered very severely from the complaint, losing a great deal of weight, and trying a number of remedies without success. At last when completely run down, he determined to try Dodd's Kidney Pills and in an incredibly short time recovered his health and strength. He attributed his recovery entirely to the use of this valuable remedy, and has recommended it in several cases with marked success.

A RAILWAY SUGGESTION.

We would suggest to Superintendent Laurie, if it is not against the rules of the Railway, that some idea of what the summer time table on the I. C. Railway is likely to be, should be submitted to the Mayor and Council of the town, so that they might suggest improvements, if any were needed, looking towards the interests of the town. We understand that a proof-sheet used to be submitted to the president of the Board of Trade, before that body ceased to exist. Now, since the Council is the only representative body in the town, we think they might take time enough to look into this matter, if the Railway authorities will only take them into their confidence a little. Time tables are often arranged much to the disadvantage of this town, and after they are once issued it is next to impossible to have them altered. Now is the time, when it is being made up, to look into this matter. The Board of Trade of Truro has several times lately looked to their interest in the running of trains, and by last Tuesday's *Truro News* we notice that a delegation waited on Superintendent Price and requested certain changes in the proposed summer time table. By this we understand that the proof sheets have been submitted to them for their consideration. We hope that Superintendent Laurie, with his usual desire to forward the interests of the town, will try and have the summer arrangement submitted to the Town Council for their consideration, before it is too late. We believe the Council will be very anxious to receive, and if any communications will then be received, a committee could be appointed to act on them.

"NATIONAL PROTECTION."

Taking as his text, Dent, xiii, 8, Rev. Mr. Croft, last Sunday evening, showed how the rules and regulations laid down in the Mosaic Economy were wonderfully admirably suited to people like the children of Israel, a people that had been in bondage for over 430 years, then forty years in the wilderness, and after that taking possession of a land that had been promised to their fathers. In a climate like that of Syria, Palestine or Egypt, and amid customs and manners peculiar to Orientals, battlements or guards around the roofs of the houses were absolutely necessary to save lives and prevent accidents. In like manner nations and individuals required battlements. Facts and figures were given in regard to the havoc and destruction caused by strong drink in this Canada of ours. It would be better for the people of Canada, better socially, politically and morally, to have a battlement of national protection on all sides, that would prevent or help to prevent any further havoc or destruction being wrought amongst our people, while the millions that are now annually wasted—waste that would be saved and applied to better and more practical purposes.

Relief in Six Hours.—Distressing Kidney and Bladder diseases relieved in six hours by the "New Glasgow Scotch" remedy. This new remedy is a great surprise and relief to thousands of sufferers from urinary passages of male or female. It relieves retention of water and eases the bladder immediately. If you want quick relief and cure this is your remedy. Sold by A. C. Bell, drugist, New Glasgow—Oct. 9, 84.

HE DECEIVED THE PEOPLE.

AND IS IN THE PENITENTIARY FOR A YEAR. (From *The Lowell Morning Citizen*.) At Atlantic, Iowa, on May 7, C. M. Ailor, alias "Cip," Ailor was convicted of deceiving the people by selling worthless compounds, which he represented to be Hood's Sarsaparilla, and was sentenced by Judge Mayo to one year at hard labor in the Iowa State Penitentiary. Ailor's methods were those of a travelling fakir. He has been travelling through Missouri, Nebraska and Iowa, making stands of a day or more in each town, representing himself as an agent under salary from C. I. Hood & Co., and selling his concoction at one dollar or fifty cents per bottle, giving with each sale various other worthless articles. Citizens of Griswold, Iowa, became suspicious and ascertaining from a druggist that Ailor's compound was not Hood's Sarsaparilla but mere dyed colored water had him arrested. Three indictments were found against him, the jury convicted him after only thirty minutes deliberation, and he was sentenced as above. This incident suggests the wisdom of purchasing medicines only of reputable dealers whom you know. Hood's Sarsaparilla never sold by peddlers, and such offering it should be at once reported to the authorities or to C. I. Hood & Co., Lowell, Mass.

Frost and Wood's Farming Implements for sale by S. C. Turner. Live stock taken in exchange—May 21.

Cataract relieved in 10 to 60 minutes.—One short puff of the breath through the blowers supplied with each bottle of Dr. J. C. Catnach's Powder, diffuses this powder over the surface of the eye passages. Pains and inflammation cease, the eye is relieved, and the sight is restored. Sold by A. C. Bell—Oct. 9, 84.

We must reduce our stock of rattan chairs, and we have made a few more, so they must go. Gordon & Keith's Branch.—17.

SHILOH'S VITALIZER.—Mr. F. S. Hawkins, Chairman of the Board of Health, writes: "Shiloh's Vitalizer is the best remedy for a debilitated system I ever used." For Hypertension, Liver or Kidney trouble, it excels. Price 75c. Sold by G. H. Brown on Sutherland, New Glasgow—April 1, 85.

Fr. Phelan, of St. Louis, the famous priest who lately made such a hit, and a Christian charge against the society of Christian Endeavour, has been repudiated by a number of the R. C. clergy. Rev. James C. Byrne, president of St. Thomas' Catholic College, of St. Paul, Minn., says:—"It is high time that some one should repudiate Phelanism, and therefore, I say, I do not defend him or his utterance, nor his style, nor his manners, nor his spirit, nor am I aware of anybody in this neighborhood who has any sympathy with the whole or any fraction of his characteristic methods."

Heart Disease Relieved in 30 Minutes.—Dr. Agnew's Cure for the Heart gives perfect relief in all cases of Organic or Sympathetic Heart Disease in 30 minutes, and speedily effects a cure. It is a perfect remedy for Palpitation, Shortness of breath, Smothering Spells, Pain in Left Side and all symptoms of a diseased heart. One dose convinces. Sold by A. C. Bell, drugist, New Glasgow—Oct. 9, 84.

Patent washing machines only \$2.00, the best every sold for the money. Get one on trial from Thompson & Sutherland.—17.

Rheumatism cured in a Day.—South American Rheumatic Cure. Rheumatism and Neuralgia, radically cured in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The medicine greatly benefits. 15 cents. Sold by A. C. Bell, drugist, New Glasgow—Oct. 9, 84.

Sir Robert Ball, the Astronomer Royal for Ireland, is said to believe that the time is approaching when posterity will be able to construct machinery that will be operated with heat obtained by the direct action of the sun's rays.

DECLINE IN NOVA SCOTIA IRON

On Tuesday last agents in Montreal for the Nova Scotia furnaces notified the trade that prices on Canadian pig iron were reduced. The decline is a radical one, being equal to 75c to \$1 per ton, and practically means that American iron is to be shut out of the Eastern Canadian markets if the Canadian iron masters can do so. Up to the time of this announcement Nova Scotia pig iron was selling in Montreal at \$16.90 to \$17 per ton, but now the range is \$15.75 to \$16.25. It is understood also that the Nova Scotia furnaces are not content with the Montreal market alone, but intend to make a strong effort to strengthen their foothold in Western Ontario, or as far west as Toronto at any rate.—*Hardware.*

SHILOH'S CURE is sold on a guarantee. It cures Incurable Consumption. It is the best Cough Cure. Only one cent a dose, 25c, 50c, and \$1.00 per bottle. Sold by G. H. Brown on Sutherland, New Glasgow—Oct. 1, 85.

Stewart & Mitchell, Halifax, Agents for Nova Scotia and Prince Edward Island.

ECORN.

STEWART.—At New Glasgow, May 9th, to Mr. and Mrs. James Stewart, a son.

MARRIAGE.

REID—ANDERSON.—At Little Harbor, 8th inst., by Rev. J. H. Maclean, James R. Reid, of Riverton, to Margaret G. Anderson, of Little Harbor.
