

REVOLVERS DANGEROUS

And Policemen Must be Careful About Drawing Them.

Grimby Man Sent to Jail For Striking Chinese.

Samuel Easter Committed For Removing Surveyor's Stake.

It was not until an epidemic of crime had swept over the city, about five years ago, that the local police were supplied with revolvers. According to a remark made by Magistrate Jeffs at the Police Court this morning, if the police are too ready to draw their weapons they will be taken away from them. The case which led up to this remark was that of Walter Hanley, 355 John street north, who was charged by P. C. Emerson with acting in a disorderly manner. The policeman said that while patrolling his beat about ten minutes to three this morning he saw a crowd of young men at the corner of Wellington and Strachan streets acting disorderly, throwing stones and making a great noise. He arrested Hanley.

The defendant said that he was at the place spoken of by the policeman, but was waiting there to see the circus come in. There were several boys there, he said, and two of them went into a nearby box car to sleep. After they had succeeded in embracing the goal, Morpheus the young man who was waiting around outside began to pull the car with stones. It was then that the policeman appeared, and the crowd ran in all directions. Hanley said he was just thinking of stopping when the officer pulled out his gun, fired it off in the air, and yelled to him to stop. He was afraid that he was against orders, isn't it? immediately.

"Well, I suppose he just fired it to stop the man."

"I want you to make enquiries about that. If the men are going to fire their guns off that way we will have to turn them away from the street. Turning to the prisoner he said: "You have been arrested and spent part of the night in jail, and I guess that is punishment enough. You can go."

When Charles Mahoney, a citizen of Grimby, got out of jail yesterday, after paying his fine of \$2 for being drunk, he thought to fortify himself against the assaults of his conscience by taking aboard another load of wet goods. He fell in with a Chinese, who was proceeding quietly up the street with a laundry bag over his shoulder. The defendant stopped him and demanded a cigarette. After some difficulty the Celestial made him understand that he did not use such articles. The refusal seemed to throw Mahoney into a rage, and he proceeded to sweep the sidewalk with the laundry staff. P. C. Springer happened on the scene, and Mahoney was promptly taken into custody.

"Why did you strike him?" queried the magistrate.

"Because he began to curse me in his own lingo. I know something about the language, and I am not going to stand that kind of talk from him," replied Mahoney.

"One thing the authorities will not stand in this city is rowdiness on the streets. You must not molest citizens who are going about their business. You will have to go to jail for one month," were the stunning words of his worship to defendant.

Some amusement was created when John Larkin was told to stand up and plead to a charge of theft. Both John and his counsel, A. M. Lewis, stood up at the same time, and both pleaded at the same time, but differently, John saying he was guilty, but his counsel was of a different opinion, and said that he was not.

The magistrate remanded Larkin for one week for sentence.

Samuel Easter, 36 Allenson street, was charged with removing stakes that had been placed by surveyors on his lot. Walter T. Evans appeared for him and declined to elect. The stakes were placed there by Mr. Whitty, an employee of Tyrrell & MacKay, who was surveying for Mr. Hutcheson's neighbor. The magistrate said that it was clearly against the law to remove surveyor's stakes, and Easter was sent up for trial. He was allowed out on \$500 bail, furnished by himself.

CHOIR OUTING. MacNab Street Church Singers Had a Jolly Picnic.

Last Saturday afternoon, amid ideal weather conditions, the members of MacNab Street Presbyterian Church choir, accompanied by the Rev. H. B. and Mrs. Ketchum and a few friends, held their annual picnic. The party, to the number of forty-five, left the Terminal Station at 2.30, by special car, and had an enjoyable run to Winona Park. There they repaired to the shores of the lake and spent a few delightful hours, devoted to sports and pastimes. The appetites thus cultivated were amply antiquated by mine host of the park, and the company sat down to a bountiful repast. Loyal and appropriate toasts were proposed and responded to and prizes were presented to the successful contestants in the athletic events.

A graceful compliment was paid to Miss Margaret Bruce McCoy, leader of the choir, when she received a splendid bouquet of roses from the male members. The balance of the evening was spent in dancing and singing and the party returned home, thoroughly enthusiastic over the day's entertainment, which was unanimously voted a complete success.

Genuine Calabash Pipes. South African Calabash pipes are light in weight, very durable, smoke cool and dry, and color well. They are sold in all sizes and shapes at peace's pipe store, 107 King street east.

Nearly Drowned.

(Special Despatch to the Times.) Brantford, Ont., June 29.—Walter Hunt, a 16-year-old boy, got beyond his depth in the Grand River last evening and went down in the sight of his comrades. Ex-fireman Alex. McRobb, after the life boat crew had been summoned, rescued the boy's body after it had been in the water for ten minutes. After an hour's valiant efforts by Foreman Kingswell and the life-saving crew life was restored, and the lad was taken home little the worse for his experience. He was unconscious over an hour.

BUFFALO BILL HERE TO-DAY.

Great Wild West and Far East Shows In Town.

With one hundred redskins and seven hundred other people, Buffalo Bill and Pawnee Bill, with their Wild West and Far East arrived early this morning from Toronto where the exhibition gave two performances yesterday. Shortly after the arrival the tents and two hours afterward, as if a witch had cast a sweep of a magic wand over the ground, there was a white canvas city with men from every quarter of the globe strutting around as if they had always been there.

One of the great attractions on the show grounds long before the performance started was Buffalo Bill, who, to his intimate friends, is Col. William Frederick Cody. Men and women stood at the door anxiously to catch a glimpse of the old scout. He had long white hair, but the whiteness of his hair does not mean that he is old, for Cody looks as youthful in the face as he did twenty years ago and the hair only adds to the picturesqueness of the man. Fathers have told their boys about him and they themselves have been told of the daring of Buffalo Bill. Hence it is not to be wondered that many a man stood in awe as he looked at the man who had killed his first Indian in a single handed combat when he was only 15 years old.

"Thirty-two thousand persons saw the exhibition in Toronto and we hope that as many will see it to-day in Hamilton," said Pawnee Bill (Major Gordon W. Lillie). "From the crowd on the grounds I should say that races of no races the tent will be full, as it is the coolest place to come on a hot day. Our tent is open we cover only the seats with canvas to protect the patrons from the rain and hot sun. This means that there is always a delightful breeze. We have six hundred horses and elephants, camels and burros and a herd of buffalo with the show this season. There are a score of new features in the Far East part of the show and all the old features have been preserved with the exception of the combined exhibitions in this city. That of the evening, which starts at 8 o'clock (the doors open one hour before that time), will not be curtailed features will not even be hurried. This is another reason for the tremendous successes of Buffalo Bill's Wild West and Pawnee Bill's Far East.

IN GOOD HANDS Woods-Norris, Limited, Take Over "Economic Advertising."

Commencing with the June issue, Economic Advertising, a monthly magazine published in the interests of advertisers in Canada, will be published by the Woods-Norris, Limited, Toronto, who have taken over the publication. Mr. T. Johnson Stewart, the founder of the paper, has joined the staff of the Woods-Norris agency, and will continue to edit the magazine.

Economic Advertising, the only publication of its kind issued in Canada, has already made a host of friends, being strongly endorsed by a large number of successful advertisers. The policy of the publication is as broad as the advertising field, the only reason for its existence being the promotion of successful selling campaigns through publicity. The earnestness and enthusiasm which have marked the sure and steady development of Woods-Norris, Limited, will be exercised in the interests of general advertising through the pages of the magazine. Every manufacturer, manufacturer's agent, wholesaler, sales and advertising manager will find this publication well worth their attention, and, as one big advertiser states, "Worth ten times the price."

HOLIDAY ON THE WATER. Most people are now considering what will be the most enjoyable way of spending Dominion Day. A trip to Toronto by boat is the thing. A short or long stay in Toronto can easily be arranged as desired, as a service of eight trips each way will be given. No crowding will be allowed as steamers leave so frequently that this will not be necessary. Those wishing to spend a portion of the day elsewhere could add materially to the pleasure of the day by combining a trip to Toronto. The trip by moonlight leaving here at 7.30 p. m. returning leave Toronto 10 p. m., should be most delightful. See ads on last page of this issue.

Miss Ida C. Hamilton, Charlton avenue west, left to-day for Long Island to attend the Marshall Fry's Art Institute to continue her studies for the summer.

MISS KINRADE AND MONTROSE WRIGHT

Were Married In New York Yesterday and Will Go to England and the Continent In a Short Time.

Miss Florence Kinrade and Clare Montrose Wright were married in New York yesterday.

This morning the Times received from Mr. T. L. Kinrade, father of the bride, the following announcement:

MARRIED IN NEW YORK.

The marriage of Miss Florence Belle Kinrade, daughter of T. L. Kinrade, principal of Cannon Street School, Hamilton, Ont., to Mr. Clare Montrose Wright, B. A., of Victoria University, Toronto, took place yesterday (Monday, June 28, 1909), in New York City. The ceremony, which was very private, only the nearest relatives being present, was held in the Madison Avenue Methodist Church, and was performed by the Rev. Dr. Wallace McMullen. The bride, who was handsomely gowned in white, was given away by her father. Mr. and Mrs. Wright left the city on their honeymoon soon after. It is understood they may spend some time in England and principal European cities.

The announcement will be a surprise to all, and yet it is what was expected, the devoted attention shown by Mr. Wright throughout the Kinrade murder inquest and his frequent declarations of his unshaken faith in Miss Kinrade leaving no other conclusion possible.

Locally, it is believed the marriage will bring about two things—the end of the Kinrade case, and the close of Mr. Montrose Wright's career as a Methodist probationer.

MRS. CLARE MONTROSE WRIGHT, NEE KINRADE.

PLAYGROUNDS

Committee Has Arranged Apparatus For Hess Street.

The Executive Committee of the Playgrounds Committee, Mr. R. T. Steele, Mrs. John Crerar, R. K. Hope, Mrs. Hawkins, Mrs. Woolverton and Mr. J. M. Eastwood, met this morning at Hess street school, and inspected the grounds preparatory to installing the apparatus. There will be giant swings, parallel bars, baby swings and sand piles for the little children. The committee was invited by Mr. A. S. Cruickshanks to address the children, and the opportunity was thus afforded of their learning all about the happy time in store for them on their playground at Hess street school during the summer months. Subscriptions from citizens interested in this praiseworthy movement are coming in every day. Mr. R. K. Hope is the treasurer, and he will be glad to receive any subscription, which will be applied to the equipment of the necessary apparatus. When everything is in readiness the members of the School Board, the parents of the children and the contributors will be invited through the press to be present at the opening of the playground.

OBITUARY.

Late Mrs. Stewart Had Been Married 63 Years.

The remains of Mrs. George Crowe were laid at rest in Hamilton Cemetery this afternoon, the funeral taking place from her late residence, Carlisle street, Kenilworth. Rev. Cyril Dyson conducted the services. The floral tributes were numerous and beautiful.

MAY SAVE CITY MANY THOUSANDS.

That Is City Hall's Opinion of the Course Taken by the Cataract Company.

Opinion is divided in the City Hall to-day as to the outcome of the injunction proceedings begun yesterday by George S. Kerr, acting for Robert S. Morris, stock broker, a ratepayer of the city of Hamilton and a stock holder in the Cataract Company. The aldermen agree, however, that it is the surest and speediest way of settling the power question. The action may save the city many hundreds of thousands of dollars, for if the courts hold that the Cataract contract is binding, it is pretty safe to conclude that the city will not contract with the Hydro-Electric Commission, at least not before the people have another opportunity of passing judgment on the question.

It is believed by the city officials that the grounds on which the plaintiff alleges that improper voters' lists were used and that the Hydro plebiscite, instead of having a majority for it, had a majority against it, is that the deputy returning officers permitted tenants who voted on the controllers by-law to vote on the Hydro plebiscite, which they had no right to do. City Clerk Kent says the instructions to the returning officers were very explicit. This morning as an illustration he looked up division 1 in Ward 1 and found that only five tenants in that division voted. They voted on the controllers by-law only, as they had a right to do.

There is a possibility that a scrutiny

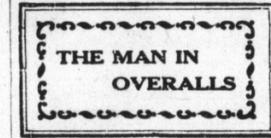

of the ballots will show that in other divisions tenants voted for the Hydro plebiscite. Mr. Kent points out that by-law 853, which the plaintiff asks to have quashed, has already served its purpose. This by-law was to provide for submitting to the electors the Hydro-Electric plebiscite. The only part of the proceedings that the city officials appear to be inclined to treat seriously is the injunction which will decide the validity of the by-law. The case will come up at Osgoode Hall on Monday next.

Although the Finance Committee yesterday afternoon practically decided that it could spare no money this year to assist the Board of Health in establishing a central distributing station in the main mills campaign for babies during hot weather, the Medical Health Officer, Dr. Roberts, had not despaired of getting the scheme under way. As a last resort private subscriptions will be resorted to.

The Technical School Committee on Monday night will meet and appoint teachers for the institution.

Building permits were issued to-day as follows: Thomas Heximer, brick house on Holton avenue, between Main and King streets, \$2,300.

F. H. Hall, four brick houses on Burris street, between Delaware and Poplar avenue, \$6,000. John Bleskey, brick addition to 198 Victoria avenue north, \$200.

How much will I put you down for the Y. M. C. A. fund?

Crops are looking fine. I told you not to worry.

We hear a lot about the ravages of the white plague and what to do to fight it. But the daily drainings go on and nothing does to check them.

Hurrah! the school is closed.

The boy's parents should now instruct him to spare the birds.

There is so much City Hall money to spend this year that an overdraft should be out of the question. But we shall see.

This would be a good time to have the playgrounds opened. They would keep Johnnie off the street.

The "don't spit-on-the-sidewalk" injunction is not as well respected as it used to be.

With so many young, raw men on the force, it is a wonder to me that there are not more complaints.

What's the matter with the Spec? Here it is jumping on John Milne, the President of the Conservative Association, and charging him with running an unfair moulding shop. Will John stand for that?

Well, sonny, did you get promoted?

What are you going to do with yourself on Thursday?

The statement is made that some of the skeleton regiments at Niagara Camp were stuffed with American substitutes from Buffalo. Is that true?

The Herald refused to bite. I don't believe it would risk \$10, to say nothing of \$10,000, on the correctness of its power figures.

The new Methodist pastors who have come to the city will find the Old Boy pretty active here. He is up to all the tricks, and if they want to beat him they will have to get up pretty early in the morning, and be in no hurry to go to bed.

Mr. Flatt's advice is, "Go west, young man." He is building up quite a town, too.

How would it do to get some expert advice as to the Jolley Cut? It appears sadly in need of something.

So far none of the bookies have applied to Mr. McMenemy for assistance. They are all living at the best hotels. Is your money helping to pay the bills?

Two months' holidays. All the school ma'ams should have roses in their cheeks by the end of that time.

Now if it had been a chicken fight, the Herald might have put up its money.

Street car companies are not supposed to be any worse than any other company that allows its men to go out on strike, but street car strikes always bring the indignation of the people. Why? Is it sympathy for the men or because they have got to walk?

Mr. Overalls Man: Dear Sir,—Have you heard the new fog horn just lately installed in a certain building on Wellington street—a mere abominable bed-zob of a thing you never heard, unless you have been on an ocean liner, when in a thick fog. We hear of public nuisances, but just think of bearing such a horrid noise five or six times a day on a street, right among private residences. Tell you, Mr. Editor, it is a perfect nuisance, and all just to tell about 50 or 75 men and women when to start and when to leave off work. Sir, if you can do anything to help stop such a nerve-shat-

tering noise, I for one, shall be grateful. Yours truly, Richard Atkinson, 145 Wellington street north, Hamilton, June 28th, 1909.

ORDAINED.

Solemn Ceremony In St. Mary's Cathedral Chapel To-day.

An ordination service was held in St. Mary's Cathedral chapel this morning at 9 o'clock, when Bishop Dowling ordained to the priesthood Rev. F. Hiney, of St. Mary's Cathedral; Rev. P. Padden, of Walkerton, and Rev. A. Capps, of Brantford. The Bishop was assisted by Dean Mahoney, Rev. Father Coty and Rev. Father Bonomi. The new priests were assisted during the service by Rev. Father Kehoe, Kenilworth, Ont.; Rev. Father Donovan, Dunville, and Rev. Father Benninger, of St. Jerome's College, Berlin.

At the conclusion of the ceremony the Bishop gave a very instructive address, after which the numerous friends of the ordained priests who were present went forward to the sanctuary to receive the blessing.

The priests who were present, besides those mentioned above, were: Rev. Father Engwert, Hamilton; Rev. Father Ferguson, Freeton; Rev. Father Savage, Markdale; Rev. Father Montag, Walkerton, and Rev. Father Cummings, of Brantford.

Two morning the three young priests will celebrate their first mass. Rev. Father Hiney at St. Lawrence's Church; Rev. Father Padden at St. Joseph's Convent, and Rev. Father Capps at St. Mary's Cathedral.

Criminal Cases Before Judge Snider This Morning.

Harry Goodman, charged with stealing a suit of clothes from Morris Moore, appeared before Judge Snider this morning for election. He pleaded not guilty, declined to elect, and was therefore remanded to jail.

Alfred Petman came up for trial on a charge of stealing some goods from William Hendry. In his preliminary trial before Magistrate Jeffs he pleaded guilty and Crown Attorney Washington, thinking he was merely up for sentence, was unprepared. As the prisoner now pleaded not guilty he asked that the case be laid over until the necessary evidence could be produced. A remand of a week was granted.

Two Polanders, Frank Domino and Seppon Panock, charged with stabbing Tony Grabitch, were tried. The particulars of the case were recently published. The prisoners swore that Grabitch had made the attack, and was the cause of all the trouble.

His Honor Judge Snider considered that it was difficult to determine who was to blame; in his opinion the complainant had been looking for the trouble he got. He dismissed the charge of assault, but imposed a fine of \$20 or thirty days in jail on Panack for carrying a revolver.

NOT TO-MORROW.

We will not close to-morrow afternoon. We will be open all day and evening, closed all day Thursday. Kindly favor us as early as possible with to-morrow's order. INHUMAN MOTHER.

SEVEN YEARS IN PENITENTIARY FOR CRUELTY TO HER CHILD.

Mrs. Lajoie Sentenced at Hull—Little Girl's Body a Mass of Bruises—She Sobbingly Tells Court the Bruises Were Caused by Falling.

Ottawa, June 28.—Seven years in the penitentiary was the salutary punishment meted out this morning by Magistrate Goyette, of Hull to Mrs. Nelson Lajoie, of Aylmer, found of fiendish and long-continued cruelty to her ten-year-old daughter, Lena. In the inhuman mother's arms when sentence was pronounced was a baby of eight months, and there are eight other children, the eldest but fourteen years of age, for the father to look after while the mother serves her term.

The main facts of the case, which are fortunately unparalleled in the history of the local Police Court, have already been published. Evidence given to-day showed that Mrs. Lajoie had for years half starved the child and had, without reason, most cruelly beaten her day after day. The latter, a frightened and stunted little waif, was called to give evidence, but evidently in awe of her mother, sobbingly told the court that the marks and bruises all over her body were caused by falls and not through being beaten. Neighbors, however, testified to having seen the child brutally beaten, and declared that Mrs. Lajoie had refused food to the little girl who, half famished, searched around the yard for old bones or potato peelings.

Medical testimony was to the effect that there were seventy scars and bruises on the child's body when she was taken to the hospital in a very emaciated and ravenous condition.

Her finger joints were deformed through putting her hands over her head to ward off blows from a club in the hands of the inhuman mother. The reason given for the latter's hatred of the child was that she resembled too much a disliked sister of the woman's husband. The Children's Aid Society has taken charge of the child.

ST. MARK'S.

Presentation to Rector at the Consecration Social.

Last night saw the winding up event of the consecration of St. Mark's Church, when a large number of the congregation and their friends gathered on the lawn to enjoy a social evening. The grounds were beautifully decorated and lighted with electric lights, and when the many friends had gathered the spectacle was an attractive one. Refreshments, consisting of cakes, ice cream, strawberries and lemonade, were served, immediately after which his lordship Bishop DuMoulin gathered the party around him, and on behalf of the congregation presented Rev. Canon Sutherland and Mrs. Sutherland with a silver plate and Mrs. Sutherland with a bouquet of white carnations.

In addressing the rector and his wife his lordship said he was very happy to be present on the happy occasion in which such great cordiality reigned. Under such favorable circumstances one often thought of the garden of God. This was the social climax of the consecration of St. Mark's, and he was happy to have the pleasure of honoring the rector, whom it had had so good fortune of the church to have had so long. For this reason and on account of the excellent work done it gave him great pleasure to make the presentations, and he hoped the good work would continue with increased success.

In reply Rev. Canon Sutherland said he was wholly taken by surprise. He thanked the congregation for the kind appreciation of his services, and hoped the good feeling would grow deeper as time went on. The programme consisted of several selections, which were excellently rendered by the following: St. Mark's orchestra, under the leadership of Mr. D. McCluskie, and the members, Arthur Chittenden, J. Snyder, H. A. Blythe, Reginald Britton and T. Lovely; bass solo, J. Scott; tenor solo, A. Blayden; bass solo, B. Boyd; comic song, T. Jocelyn; mandolin solo, H. Rawlings; quartette, St. Mark's male quartette; choruses, "O Canada," and "Tenting To-night."

Mr. Reginald Britton, choirmaster of the church, acted as accompanist. The following reverend gentlemen were present: His lordship Bishop DuMoulin, Rev. Canon Sutherland, sub dean; Rev. R. Cordeur, Rev. R. S. Bennetts, Rural Dean C. G. Bell, Rev. John Fletcher, Rev. J. G. Davis, Archdeacon Forrester, Archdeacon Clark and Rev. Canon Abbott sent their regrets that they were unable to be present.

GOOD TEMPLARS' SOCIAL.

At last night's meeting of Britannia Lodge, I. O. G. T., in the Salvation Army Hall, Barton street east, John Porteous, D. G. C. T., presided, and received two propositions for membership. The report of the Rambling Club presented that the rambling which took place on Saturday afternoon to Chedoke had been the best yet held.

T. B. W. McNaughton, G. S. J. W., submitted a report on several changes that had been made in the constitution at the recent Grand Lodge session. The body members served ice cream, strawberries and cake. The following contributed to the programme: Recitations, Miss Madeline Austin, D. Campbell; humorous reading, George H. Lauder; songs, Mrs. J. Porteous, Mrs. R. Slade, Miss M. Morgan, Messrs. J. Porteous, R. Slade, Jas. Brown and Chas. Baxter. Next Monday evening Miss Harriet Hazen, the popular organist, is due to entertain.

WON DIPLOMAS.

The diploma list of Miss Glescoe's junior first grade, Caroline street school, was omitted from the regular list. It is as follows: Jennie Morgan, Gordon Cunningham, George Hand, Margaret Theobald, Eva Montgomery, Charlie Johnson, Gladys Wilson, Herbert DeLman, Gerald Hopkins, Eleanor Robinson, Grant Boyd, Helen McLaughlin, Fred Hand, Charlie Armour, George Tuckett, Frank Smith.

AIRSHIP LANDS.

Biberich, Germany, June 29.—The airship Zeppelin L, travelling from Friedrichshafen to Metz, landed here this morning on account of the overheating of its machinery, which caused a fusing of certain metal parts. The landing was effected during a rain storm without difficulty.

BOMB IN THEATRE.

Barcelona, June 29.—Bombs were exploded at midnight last night in two of the Barcelona theatres. Fortunately no play-house already was empty, but the other was crowded, and the audience was thrown into a panic. One man was fatally wounded.

Many a man who complains that he never gets what is coming to him would be in jail if he did.

ARE UNITED.

Wesley and Gore Leagues Bring About Union.

The leagues of the former Wesley and Gore Churches met in the school room of Central Methodist Church, last night to unite. There was a very large turnout of members, and the meeting was a very unanimous one.

The evening opened by singing "All Hail the Power of Jesus' Name," and prayer by Rev. L. Couch; also a solo by Miss B. Carey.

The following officers were then elected for the coming year: President—Mr. R. Jones. First Vice-President—Mr. A. Moore. Second Vice-President—Mr. R. Campbell.

Third Vice-President—Miss N. Gray. Fourth Vice-President—Miss M. Finch. Corresponding Secretary—Miss I. Dickson. Secretary—Mr. J. Lucas. Treasurer—Miss E. Modeland. Pianist—Mrs. A. Cooper. Mr. H. Galla, Miss M. Cowan. Superintendent of the Intermediate League—Miss A. Goddes. Assistant—Miss R. Cummings. Charge of Junior League—Mrs. H. Campbell, Miss B. McKenzie, Miss L. Stapleton.

After the officers had been elected the members spent a very enjoyable social hour together, cream and strawberries with cake were served, and a short programme rendered. Mr. R. Bowes, the newly elected president, gave a short address, thanking the league for their confidence in him. He hoped they would prosper in the days to come. This was followed by a piano solo by Mr. H. Gates, recitation by Miss Holmes, solo by Mr. H. Summers and a solo by Miss B. McKenzie.

The spirit displayed by the young people was a most harmonious one. All entered into the union with a kindness and earnestness which must surely bring success. There were about 120 members of the two leagues present to join their forces under the name of Central Methodist League.

EDITORIAL NOTES.

At \$5 a head the craphooters got off cheaply. Was the game worth the fine? The drowning season this year has been prolific of tragedies...

Rich gold finds are reported from Lac la Rouge, Sask., and a new Klondike is hoped for. One sample is said to have yielded \$30,000 to the ton.

The proverbial Irishman's flea does not seem to be in it with the Hydro crowd when it comes to trying to hold them down to power prices.

There is a remarkable disinclination to noising abroad unlucky bets on the races. Have you heard of anybody losing? What a snap the bookies must have furnished to the boys!

And the Herald is not even confident that the Hydro power will not cost \$9 more than the Cataract's \$16 figure. What a sweet-scented guardian of the ratepayers' interest it is!

Mr. Hugh Lumsden, chief engineer of the N. T. R. Commission, has resigned, having found the duties of the position too onerous. His resignation followed a refusal of leave of absence and increased salary.

And not to get revenge on the Spec, not even for sweet charity's sake, will the Herald, which rants so much about the Hydro "cheap power scheme," risk \$1,000 that the "cheap" Hydro power will not cost \$9 more than the Cataract!

AUSTRALIAN TELEPHONES.

From time to time we have heard a good deal about the great success of Australia's Government telephone system. At the time the telephone question was considered in the Dominion Parliament, the Australian "success" was a stock subject for discussion by the "ownership" organs...

Under the new arrangement the subscribers to Australia's Government telephone service in a city like this will pay a flat rate of \$17.50, plus a call rate. If his call aggregate 3,000 a year this charge will be \$30, or \$47.50 in all.

Toronto Telegram will now be bereaved of its dearest grievance against the Government.

Prof. Sec, astronomer in charge of Mars Island naval observatory, California, disputes the long-held theory that the moon is of earthly origin...

Twenty-one of the most prominent of New York's clairvoyants, psychics, palmists and trance mediums were arrested the other day and held in \$1,000 bail, under the code, which classes all persons pretending to read the future...

British papers to hand all speak approvingly of the vigorous opposition given by Mr. J. A. Macdonald, of the Globe, to the proposition to pledge the Press Conference to advocate compulsory military training...

Talk of "competition" referring to Hydro power is the veriest nonsense. It is already admitted that Hydro power will be dearer than even the highest price mentioned in the Cataract contract...

The Herald after all its boasts that Hydro power would be cheaper than the local company's supply "cravals" when it is cornered. The Spectator invites it to put up from \$500 to \$1,000, it to put up like sums, the winner to award them to any charities it may select...

The Finance Committee, while recognizing that the Board of Health's scheme for furnishing pure milk for infants during the summer months would probably largely reduce infant mortality, is unable to see its way to voting the \$700 necessary to carry out the scheme...

WHERE? (Toronto News.) Money remains plentiful and easy. TOO MUCH TO DO. (London Free Press.) Radcliffe, the hangman, complains of overwork. An overworked hangman is not the reputation Canada seeks.

AND WRONG. (Brantford Expositor.) The growing tendency to relieve and commute death sentences, which have been passed on guilty criminals after a just trial, is sickening and dangerous.

A DOUBLE PLEA. (Ottawa Journal.) However, we must assume that there are many decent Chinese, and we know that not all of the missionary girls who volunteer to teach Chinese are fool girls.

EH, ANTI-HAMILTON JOHNNY? (Hamilton Spectator.) How would John Milne like to have an Ontario Government Commission appointed to start a foundry to make stoves, because he employs non-union workmen?

SWEET AND BITTER. (Toronto Telegram.) Hamilton district boasts of an output of strawberries which are bright and sweet, in which respect they differ from the same district's output of newspapers.

THEIR MISTAKE. (Toronto Star.) Four more drawings from canoes are reported to-day. These tragedies are due to the mistaken notion young people have that it's other persons that should be careful and other canoes that are dangerous.

BURIED. (The Green Bag.) The managing editor wheeled his chair around and pushed a button in the wall. The person wanted entered. "Here," said the editor, "are a number of directions from outsiders as to the best way to run a newspaper. See that they are all carried out." And the office boy, gathering them all into a large waste basket, did so.

MONOPOLIES. (Kingston Whig.) The Whitney Government is great on monopolies. It has a monopoly of morals and manners; it gives to the Hydro-Electric Commission a monopoly of power...

and to the T. Eaton Company a monopoly of school books, and to the municipalities and the people a little later it may give a monopoly of trouble.

I. C. R. DISMISSALS. (Montreal Gazette.) A hundred employees of the Intercolonial were discharged at Moncton. As was to have been expected, this action of the commissioners has drawn forth a great protest...

ONE ON WILLISON. (St. John Sun.) The Toronto News declares that Hon. Mr. Lemieux's system of rural mail delivery has been found unworkable. The fact that the system is working most satisfactorily in this Province places the News in somewhat the same position in this regard as that of the learned scientist who was demonstrating conclusively several years ago the impossibility of a steamship crossing the Atlantic at the same time as the first transatlantic steamer was completing her voyage.

THE BEST SUMMER JOB. In days like this, When perspiration Lines my brow And desperation Fills my soul...

I would not care To be a baker In June's hot days, Nor candlemaker In factories I would not toil, Nor do I long To till the soil, I would not be An engineer, Although the pay Is good, I hear, It's much too hot To be a preacher, I'd rather be A swimming teacher.

Of all the summer Jobs there is, His is the most Delightful biz, His working clothes Are cool and cool, He has the river For his school, And, sitting by The water's brim, The gentle breezes Comfort him, And when he works His arm is placed Around some lovely Maiden's waist.

Good Short Stories

"I suppose you know," said the Kentucky colonel, "that Harrodsburg has done and gone prohibition? Yes, you wouldn't think it, but it has. Pappy had on them these people these directions not to give a drink to nobody what hasn't been bit by a rattlesnake."

One of the speakers at the dinner given in Cleveland by the National Educational Association was Booker T. Washington, the distinguished negro leader of the South. In the course of his remarks he told the following story about a southern minister who was evidently rather long winded:

"One Sunday morning, while the minister was in the midst of his sermon and had reached the point when he was shouting, 'And fourthly, dear brethren, a man poked his head through the door and said in a low voice:

"Don't get too much excited, parson, but your church is on fire!" "All right, Brother Jones," said the parson, "I will hasten out. But possibly you'd better wake the congregation!"

A physician engaged a nurse, recently graduated, for a case of delirium tremens. The physician succeeded in quieting his patient, and left some medicine, instructing the nurse to administer it to him if he "began to see snakes again."

At the next call the physician found the patient again raving. To his puzzled inquiry the nurse replied that the man had been going on that way for several hours and that she had not given him any medicine.

"But didn't I tell you to give it to him if he began to see snakes again?" asked the physician. "But he didn't see snakes this time," replied the nurse, confidently, "he saw red, white and blue turkeys, with straw hats on!"

GOOD WORK TELLS. John E. Riddell has been awarded the contract for the re-slating and galvanizing iron work on the Christ's Church Cathedral; also the slating and the ventilating of St. Paul's Church Sunday school; roofing the Hovers Lithographing Company building, the Y. W. C. A., the Carnegie Free Library, Dundas, the Morton & Sons' new factory, and has completed the Wagstaffe Co., Limited, the Chadwick Bros' addition, High School, Dundas, and installed several large metallic skylights and ceilings and fire proof doors.

FUTURE OF ART SCHOOL

Again Considered at Joint Meeting of Board

And Sub-Committee Appointed to Get Information.

Library Board to Sell the Present Building Only to City.

A joint meeting of the Technical Committee of the Board of Education and the Art School Governors took place last night in the Board of Education rooms, City Hall, to discuss the advisability of transferring the Art School classes to the Technical School.

The discussion was rather lengthy and at times heated, and that, coupled with the warm night, did not appeal to some of the members who stayed for the entire meeting, and they were quite restless.

Arguments were frequent over small matters, and one was brought on by some of the members of the Technical Committee accusing the Governors of the Art School of being pessimists, which the Governors resented.

F. J. Howell acted as chairman. The meeting was somewhat late in starting. Mr. Howell explained that the Technical School Committee had been instructed by the Board of Education to confer with the Art School Board for the purpose mentioned.

Dr. Lyle explained that the members of the Art School committee did not know where they stood in the matter, and as the Art School was practically closed, they were anxious to find out.

Mr. Neyland, who is at present away, would not consider anything less than \$3,000 a year, he stated. The Art School members should be appointed to look over the books of the Art School and report.

Two motions were submitted to the same effect: That a sub-committee of the Board of Education meet the governors of the Art School and try to arrive at some settlement.

The chairman did not think the Technical School would be able to accommodate the 300 members of the Art School in addition to 325 scholars, and if anything was to be done it should be made so that arrangements could be made to accommodate the larger number.

Architect Peene thought the cost of fitting up the top flat in order to accommodate the art classes would be about \$3,500.

The motion that finally carried was moved by Mr. Thos. Hobson and seconded by Mr. J. Orr Callaghan, and approved as follows: That the members of the Technical Committee of the Board of Education and the governors of the Art School are of the opinion that it is desirable that the Board of Education should assume the work of the Art School with a view to carrying on the work in as many branches as practicable, and that a committee be appointed from this committee and from the governors of the Art School to endeavor to recommend a proper basis of carrying on the work, and that the mover, second, F. J. Howell, Dr. Lyle, Adam Brown and F. J. Leishman compose the committee.

Mr. Callaghan brought up a matter which, although it did not rightly belong to the meeting, he thought was important, and the time most opportune. It was in regard to the retaining of the Library building. He asked that every member use his influence to retain the building.

Mr. R. C. Fearman explained that the intention of the Library Board was not to sell the building to an outside party, but to the city, to which it really belonged, at a reasonable price.

The business of the joint committee being disposed of, Mr. C. R. McCullough said he thought that although the work of the Art School might be taken over, the part the members of the Art School Board had taken in the interest of art would always be remembered by the city.

Dr. Lyle thought it proper that he should reply to such a compliment, and said that, although the Art School was practically dead, the tomb was not only garnished but had the inscription in gold letters.

The sub-committee then met to try and arrive at a decision. They were unanimous that a statement of the Art School be submitted to the joint committee at a meeting to be held on Friday.

The Technical Committee will meet on Monday evening to discuss regular business.

MR. LUMSDEN.

Chief Engineer of National Transcontinental Resigns.

Demanded Leave of Absence and Increase of Pay.

Ottawa, June 28.—The resignation of Mr. Hugh Lumsden, chief engineer of the National Transcontinental Railway Commission since its organization some five years ago, has been received by the Minister of Railways, Hon. Geo. P. Graham. The resignation has not come unexpectedly. For some months it has been known that Mr. Lumsden has been finding the constant duties of his position somewhat too trying, and some time ago he notified the commission that he must have leave of absence and an increase of salary. The commissioners, while anxious to meet all reasonable demands of their chief engineer, have it is understood, been desirous that he should make closer personal inspection of the work in actual progress along the line under the district engineers, instead of sticking so closely to his administrative work at headquarters in Ottawa.

Recently a board of arbitration under the terms of the Government's contract with the Grand Trunk Pacific, has been at work adjudicating on the differences which have arisen between the engineers of the commission and the engineers of the company with respect to the classification of the cuttings along the route.

It is understood that the Grand Trunk Pacific has shown considerable reluctance to meet the wishes of the commission in having these differences submitted to the Supreme Court, that the G. T. P. instructed its chief engineer to undertake the arbitration now in progress. After the arbitrators, early this month, had gone over the work the Transcontinental Commissioners received complaints, both from the district engineers and from the contractors against the alleged hasty and arbitrary methods of the arbitrators.

The attention of the arbitrators was drawn to these complaints and an intimation was given to Mr. Lumsden by the commission that unless adequate time was taken to examine the classifications and hear the representations of the district engineers the result might be that the award of the arbitrators would unjustly reduce some of the classifications, thereby reducing the rental which the G. T. P. would have to pay the country for the use of the road. On the other hand if the contractors afterwards succeeded by appeal to the courts in making good their claim, then full payment would have to be made them for higher classification, while the G. T. P. would reap the advantage at the country's loss. Any hasty work on the part of the arbitrators would prejudice the commission's case against the contractors in any possible legal action to secure redress from the arbitrators' award.

This expression of the commission's desire that there should be no arbitrary methods about the adjudication now under way was followed by Mr. Lumsden's resignation.

STREET WATERING. To the Editor of the Times:

Sir—I think when people and men start to talk about a better Hamilton, I think we must get right at the Mayor and Council, and to think of allowing men to water the streets on a Sunday, instead of allowing the men a day of rest, after working six days a week. I think they should have a day of rest, because there is a Lord's Day Act, and Bacon Street or any other street can do without water on a Sunday, as in Ottawa and some other places in Canada, and I find that this Mayor and city are the worst in Canada, and I am talking about what I see, and hope he will try and mend his way. Thinking you for space, I am, Believer in Lord's Day Act, Ben Smith, 6 Wright avenue, Hamilton, June 28, 1909.

County Crown Attorney Drayton declines to accept the position of Corporation Counsel of Toronto.

INDIVIDUAL ALDERMEN WILL BE HELD LIABLE

If They Plunge the City Into Damage Actions by Repudiating Existing Contracts.

Prominent Citizen Takes a Hand In Power Matter and the Council Stops Short.

The legal fight over the power question is on, and before the smoke of battle clears Hamilton will know exactly where it stands with regard to the contract, and just how free it is to wastefully plunge into the Government's scheme, the cost of which will not be known until years have expired.

The defendant, and the plaintiff by his counsel undertaking to abide by any statement which the court may make as to damages, in case this court shall hereafter be of the opinion that the defendant corporation shall have sustained any by reason of any order which the plaintiff ought to pay.

"This court doth order that the defendant corporation, its servants and agents shall and they are hereby restrained until Monday, July the 5th, 1909, at 11 o'clock in the forenoon or until such time as any motion to be on that day made to continue this injunction shall have been heard, from entering into a contract with the Hydro-Electric Commission for a supply of electricity for the defendant at Hamilton in the terms of a resolution passed by a special committee of the council of the said defendant corporation on June 26, 1909, and from doing any act or taking any proceedings towards ratifying the said resolution by the council of the city of Hamilton during the term of this injunction. (Signed) Judge Monk."

PEITITION FOR RECOURT. The petition for scrutiny says: "In the County Court of the County of Wentworth, in the matter of by-law 'to provide for the submission to a vote of the electors of the question as to entering into a contract with the Hydro-Electric Power Commission of Ontario."

"To His Honor, the Judge of the County Court of the County of Wentworth, the undersigned, Robert S. Morris, of the city of Hamilton, financial broker: "1. Your petitioner is a municipal elector of the city of Hamilton, and was entitled to vote and did vote upon the above mentioned by-law which was submitted by the council to the vote of the qualified electors thereof on June 7, 1909."

"2. On the 14th day of June, 1909, the clerk of the corporation of the city of Hamilton declared the said by-law to have been approved of by a majority of the qualified electors of the said municipality and certified under his hand to the council of the said corporation that a majority of the qualified electors so voting had approved of the said proposed by-law."

"3. Your petitioner submits and alleges that the said declaration and certificate are incorrect; that the said by-law was not in fact approved of by a majority of the electors of the said city of Hamilton qualified by law."

"4. The said clerk certified that 2,294 votes had voted in favor of the by-law and that 1,084 had voted against the said by-law."

"Your petitioner therefore craves that a scrutiny may be had by your Honor of the ballot papers obtaining the votes given by the electors at the election submitted therein as aforesaid."

The Judge fixed Tuesday, July 6, as the day for holding the scrutiny.

WRIT OF SUMMONS. The writ of summons follows: "The plaintiffs claim is for an injunction restraining the defendant corporation from entering into a contract with the Hydro-Electric Commission for a supply of electricity for the defendants at Hamilton, in the terms of a resolution, passed by a special committee of the Council of the said defendant corporation, on June 26, 1909."

"And for an order declaring that by-law 853, to provide for the submission to the vote of the electors of the questions as to entering into a contract with the Hydro-Electric Power Commission of Ontario was improperly submitted, and that the voters' lists upon the submission of the said by-law were improper lists; that a majority of the votes properly cast for the by-law, but that a majority of the votes so cast were against the said by-law."

"And for an order quashing the said by-law 853 to provide for the submission to the vote of the electors of the question as to entering into a contract with the Hydro-Electric Commission of Ontario."

It was perhaps the liveliest session this year's Council has had. The ginger was supplied by Mayor McLaren, who called Ald. Wright to account for statements made by him in his famous circular.

After all the other business had been cleaned up Mayor McLaren arose to a question of privilege and called the attention of the Council to the statements made in Ald. Wright's circular issued during the campaign before the by-laws were voted on, and which he declared contained statements that were gross untruths. He did not know who the author was and was interested only in that part that referred to the Council because the circular contained the name of a member of the Council. "You hear a great deal on the street and take it for what it is worth," he said, "but you take it for granted that a man in the Council is to be taken at his word in his power to know whether he is making an honest and true statement before attaching his name to it. I would like to ask the gentlemen of the committee if there is a shadow of foundation of fact in the statement made at the bottom of the first page. No alderman ever applied to me for information that was not given as such as any other alderman."

"It is a deplorable and a terrible thing if any one willfully slanders his fellow aldermen. I will give \$500 if he proves the truth of it in any way."

His Worship here made reference to the statement in the circular that the Cataract contract was drawn by the Cataract solicitors in the interest of the Cataract Company.

"The members of that committee,"

said the Mayor, "were Aldermen Peregrine, Allan, Cooper, Jutten and myself. I ask them if they say this as a true statement of the way they do business. I want to ask them if they are prepared to accept it as a true and honest statement?"

ALDERMEN DENY IT. Ald. Allan—So far as I am concerned it is absolutely false. I did not pay much attention to it, because I knew it was not true, and I knew the man who made the statement, and know that he did not know whether it was true or not. Our solicitor and City Clerk Kent assisted in the drawing up of the contract. It was not drawn by the Cataract.

Ald. Peregrine—I can easily understand how in the heat of a campaign one may become over-zealous. I am not very thin-skinned and usually consider where a thing comes from, especially in this case, because I know the man, or have an idea that I know the man, who inspired this. I am surprised that any one should lend themselves to such a thing. Resorting to strategy of this kind in matters of such importance to the city, I think, places one a long way below the level of an alderman or decent citizen. I don't object to legitimate criticism, but I expect a man to adhere to nearly the truth under all circumstances. I don't like to be misguessed.

The circular in some respects, Ald. Cooper said, was not true, because it just went so far and stopped. Certain clauses in the contract came from the Cataract, but to say that the contract was drawn by the Cataract was not a fact. "If the contract was not right," he said, "I would blame our city solicitor for it. I had heard that he had stock in the company, and other things. I can say I was surprised at the earnest way, and the hard way, in which he guarded the city's interests in this matter."

Another appreciative tribute to the work of City Solicitor Waddell was paid by Ald. Jutten, who declared that he did not consider for one minute that the contract was drawn by the Cataract solicitors. "If any member of this Council," said Ald. Jutten, "had criticism to make of this contract, he should direct it to the place to make it, and not under his own signature a few days before the election in a circular sent broadcast throughout the city." Ald. Jutten scored those members of the Council who sat silent when criticism of the contract was invited, and then went around after telling people it was rotten.

MAYOR AND HOPKINS CLASH. His Worship then referred to the statement which declared that on the other side of the Hydro contract was gotten up in the name of the people and approved of by City Solicitor Waddell. "The honor of Hamilton is involved, and I don't want it degraded," said the Mayor, as he called on the solicitor for a statement.

Mr. Waddell fully explained how the contract had been drawn. The committee, he stated, had declared, had exercised their best efforts to fully protect the city. The statements more than that the solicitors of the Cataract saw that the clauses in the Brantford contract, which were asked for by the city, were inserted were untrue.

Paying a compliment to City Solicitor Waddell, Ald. Hopkins pointed out at the same time that the Mayor himself had said that Mr. Waddell was Hydro when the Council was Hydro and Cataract when it was Cataract. "People who live in glass houses should not throw stones," he said.

"How do you apply that?" inquired the Mayor. "You should not find fault with Ald. Wright when you yourself made that statement," was the reply.

The Mayor—Mr. Waddell is the agent of the Council, and takes his instructions from a majority of the Council. When a majority of the Council favored the Hydro he naturally took his instructions from them. When they favored the Cataract he had to take his instructions that way.

Ald. Hopkins—I was not aware of that. I must confess that on the day of the vote I did tell people that the by-law was rotten and that I would vote against it.

The Mayor—There was a time to say those things, and it was not then. Ald. Hopkins—I don't think any statement I made in fact approved of by a majority of the voters so cast were against the said by-law.

SOME WARM REPARTEE. The Mayor—Do you mean to tell me that when a man publicly and deliberately lies against his colleagues that you consider it all right?

Ald. Hopkins—As to whether it was deliberate lying you seem to have a perverse opinion. Ald. Hopkins proceeded to explain that when the courts declared clause 31 made the contract null and void it was only natural to suppose that Ald. Wright thought he was justified in making statements he did. "I say the blame rests on yourself," he added, addressing the Mayor.

"If you know so little about the running of the Council and the working of the committees after the time you have spent," began His Worship.

Ald. Hopkins—Your statement is objectionable.

The Mayor—I can't help it.

Ald. Hopkins—It is an objectionable remark, and should not be made on this floor.

Ald. Jutten—I can say that Ald. Hopkins made no such statement to me as he says he did on the day the vote was taken.

The Mayor—I may say that two days before the vote Ald. Hopkins came into my office, and I asked him what he thought of the by-law. He told me he supposed it was as good as we could get. I told him that was not the point, that now was the time to pick out any flaws he found. He went away and I never heard any more about it.

Ald. Hopkins—You did not tell all. When you asked if there were any objections, I said that if it was the best you could get I supposed you could not do better.

Ald. Cooper—We are not here for hard words. I suggest Ald. Wright be heard.

ANOTHER HOT CLASH. Ald. Wright—I suppose I have been duly hanged and quartered. I want to say that that circular with my name signed to it had my approval. It was not my intention when I said to cast any reflection on the City Solicitor. What I said I said in good faith. The point I want to emphasize is that there were clauses drafted by the Cataract. What about clause 50?

The Mayor insisted that it was not a matter of individual clauses. "This was evading the issue. Ald. Wright made a statement that the contract was drawn by the Cataract and he asked him to deny it or stand by it."

Ald. Wright—It doesn't matter what you think. You have had your say four or five times. Sit still until I have my say.

The Mayor—I am simply asking a question, if that contract was drawn by the Cataract solicitors, I am willing to hear you for a whole evening, after you answer that.

Ald. Wright—This is the first time I have ever seen a man as obstinate doing the arguing, the suggesting and the whole blamed business. I propose now having my say.

"Do you want to, like an honest man, apologize or be branded as a man not fit to be in the company of honest men?" was a pointed query from his Worship, that brought Ald. Morris to his feet, appealing for fair play. Ald. Wright, he declared, was willing to answer, and should have a chance.

MOVING PICTURE SHOWS. The by-law fixing the district in which moving picture houses may locate provoked discussion. Ald. Jutten scented monopoly, and he asked that the by-law be given a six months' hoist. By restricting the establishment of other places the few in existence were given a monopoly. This entertainment appealed to a large class who could not afford more expensive amusement.

Ald. Morris opposed this. "Many of these places," he said, "are fire-traps, they raise insurance rates and, more than that, they are not fit for children to see. I think the chief of police should inspect them very rigorously, and see that the pictures and plays are at least decent. I think we should place all possible restrictions on them."

Ald. Jutten agreed that the places should be made as safe as possible and the entertainment clean. He said he took an occasional peep, and saw nothing to offend anyone's tastes.

The moving picture houses had a strong champion in Ald. Robson. "I have visited these places every other day for the last five or six weeks," he said. "I went especially to see if there was anything objectionable, and could find nothing to offend the morals of anyone. I was thunderstruck."

The Mayor and Ald. Clark advocated a larger license fee.

Ald. Cooper thought there should be a by-law preventing gramophones going all day. He was informed that there was already a by-law governing this.

The by-law was finally referred back for further consideration.

WON'T RESTRICT FRUIT SALE. Ald. Cooper asked the opinion of the city solicitor as to the legality of the by-law prohibiting the sale of foreign fruits on the streets. Mr. Waddell said it looked very much like discrimination. He and he doubted if it was legal. The council decided to prohibit indefinitely the consideration of the by-law.

ODD ENDS. The council approved of the spending of \$500 for the macadamizing of Sophia street, from Florence to York street.

EMMONS--COOK. Happy Matrimonial Event at Freelon Last Week.

A very pretty wedding was celebrated on Thursday, June 24, at Sunlight Farm, near Freelon, when Miss Mabelle Margaret Bell Cook, only daughter of Mr. and Mrs. James Cook, became the bride of Mr. John Alexander Emmons, of Mountburg. At 3.30 p. m., to the strains of Mendelssohn's wedding march, played by Miss Agnes Cowie, of Valens, the bride party took the place. Hazel Radford, artistly constructed between two spreading trees on the lawn. The charming appearance of the bride was the subject of general comment as she appeared leaning on the arm of her uncle, Mr. W. C. Reid, of Fergus. She was richly attired in a gown of cream peep de soie, with full veil and coronet of orange blossoms, and carried a large bouquet of cream bridal roses. The maid of honor, Miss Edna Kitchen, of Galt, was handsome attired in mauve mull with satin crossbar. The bridesmaid, Miss Jennie E. Adams, of Hamilton, wore a beautiful princess dress of pink silk mull with Irish crozier lace. Both wore large picture hats and carried pink roses. The groom was supported by his brother, Mr. Bert Emmons, of Brantford. The flower girls, Hortense Kerr, of Carlyle, and Mabel Hamilton, of Strabane, were dressed in pale blue mull. Hazel Radford, of Hamilton, Centre, was ring bearer, and wore pink mull. Rev. J. Calvin Reid, B. A., B. D., of Atwood, cousin of the bride, assisted by Rev. Mr. Smitherman, of Freelon, performed the ceremony in the presence of about 175 guests, after which a sumptuous dejeuner was served in a large tent on the lawn. The duties of waitresses were deftly performed by Misses Charlotte and Mary Jane Robinson, Miss Elsie Valens and Miss Sadie Coburn, all of Valens; Misses Ada and Edith Walker, of Strabane, and Miss Ethel Mound and Ada Hillborn, of Freelon.

A very large number of costly presents expressed the good wishes of the guests and other friends. The groom's present to the bride was a gold pocket and chain set with pearls, to the maids of honor pearl bracelets, to the bridesmaids and to the ring bearer a ring. At 9 p. m. the young couple took the C. P. R. train for Detroit and points west, taking with them much content

and the hearty good wishes of their many friends.

Miss M. Mahaffie, of Hamilton, received the guests, who were from Detroit, Guelph, Galt, Fergus, Hamilton, Strabane, Milton, Brantford, Toronto and other places.

CANOE AGAIN. A Popular Young Lady of Hanover Loses Her Life.

Hanover, June 28.—A drowning accident happened here this evening when the Saugen River claimed for its victim Miss Alice Wright. After tea Miss Wright, in company with another young lady and two young men, went to bathe in the Saugen. The party went half a mile down the river in a canoe, and then went into the water. It appears Miss Wright was attempting to swim across, but got tired. One of the young men went to her rescue, and he would have also drowned had not the other young man rescued him in the canoe, but not before they had lost hold of their companion.

Miss Wright was a graduate nurse from a Kenora, Ontario, hospital. She was engaged to be married to a young doctor, who is in England at present. She was a popular young lady. Her father, Mr. Wm. Wright, has been in the grocery business here for many years. The body was recovered to-night in very deep water.

Welland, June 28.—Robert Welch, Port Robinson, was drowned there on Saturday afternoon, the body being recovered two hours after. It is not known how the accident occurred. Probably the boy was playing on the canal bank and fell in.

The Cow Will Make Quebec Rich. Sir Lomer Gouin, K. B., contributor to Collier's of July 3rd the fourth article in the series, "Canada of the Future," as it applies to Quebec. Quebec's remarkable growth in dairy produce and other agricultural figures are prophetic of Sir Wilfrid Laurier's forecast, that "the 20th Century belongs to Canada."

STATIONARY ENGINEERS. Hamilton Branch, No. 2, of the Canadian Association of Stationary Engineers, has elected the following officers: A. Cousins, President.

WOMEN'S COLLEGE PRESIDENTS AND THEIR WORK FOR THE SEX

The Strong Personalities of Leading Female Educators

WOMAN'S strength of character, high ambition and executive capability nowhere, perhaps, find their crowning embodiment as in the women presidents and other high officials of American colleges.

In no country has womanhood ever done so much for womanhood as in the United States, where education for women ranks with education for men. And to no persons is more credit due for the growing independence and strong character of American women than to those of the sex who head women's places of learning.

The achievements of these women are worthy of profound admiration. So notable have been their attainments that foreign countries have bent to give them laurels. Miss M. Carey Thomas, president of Bryn Mawr College, took the highest degree, "summa cum laude," in Zurich—the first woman ever to win this honor. Two years ago, Miss Agnes Irwin, dean of Radcliffe College, had the degree of LL. D. conferred upon her by Andrew Carnegie, representing St. Andrew's College, of Scotland.

Among other notable women college heads are Miss Caroline Hazard, president of Wellesley; Miss Mary Emma Woolley, president of Mount Holyoke; Miss Marion Talbot, dean of women, University of Chicago, and Miss Margaret Harvey, of Sage College, Cornell.

At the time of the Civil War there was but one college which women could enter in the United States—Oberlin, Ohio—which had been open for women since 1833. More than 450 colleges and universities in this country are now open to the fair sex. And what is most significant is the fact that in colleges where a generation ago there were scarcely any women students the female enrollment is now about one-third.

Vassar was the first college opened exclusively for women. Smith and Wellesley followed. In the beginning these colleges admitted special students, and Vassar and Wellesley had preparatory schools.

In 1891 Smith College ceased to admit special students. These departments were closed at Mount Holyoke, Wellesley College and the Women's College of Baltimore. A Smith and Bryn Mawr preparatory schools never had any existence.

Of the colleges which offer the notable opportunities for advanced study for women, Bryn Mawr stands high. Of colleges which preserve old traditions Mount Holyoke is conspicuous, while of the co-ordinate colleges, Radcliffe and Barnard—the first of which is affiliated with Harvard and the latter with Columbia University—are prominent examples.

One of the strongest personalities among women educators is President M. Carey Thomas, of Bryn Mawr, Pa.

President Thomas possesses a strong character and decided convictions; withal she is a charming and most gracious woman. Educated in the sciences, she believes, should make their influence felt in public affairs. She takes a vital interest in the public elementary education.

MADE A RECORD ABROAD

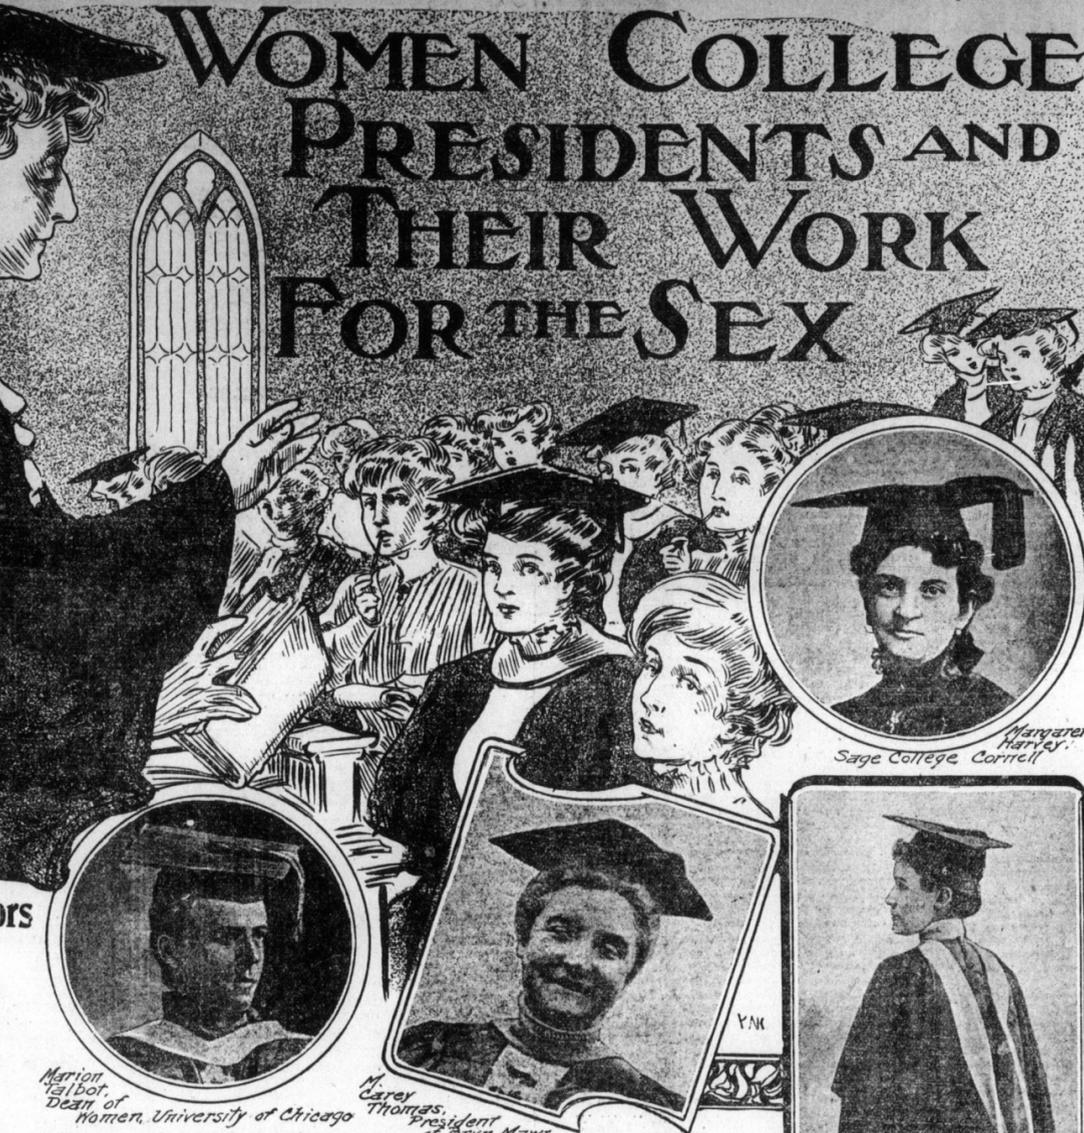

Miss Thomas was graduated from Cornell, where she was one of the first women to enter after it was made coeducational. She then took up advanced courses at Johns Hopkins University, but as this institution offered no special courses for women, she went abroad and studied at Leipzig.

She specialized on Greek, English, old French and the Teutonic languages. At Zurich Miss Thomas passed a trying oral examination, and the philosophical faculty of the university were amazed by her accomplishments. The highest degree, "summa cum laude," was conferred upon her. She was the first woman to win this distinction.

But Miss Thomas had by no means completed her training. She went to Paris and studied for a year at the Sorbonne and University.

Upon her return to Baltimore, in 1884, she took up the work of preparing Bryn Mawr for its great career. She made a thorough study of the work of college organization. In formulating the work of Bryn Mawr she decided on what is known as the "group system." In 1895, upon the resignation of President Rhoades, Miss Thomas was elected president of the institution.

Under her management Bryn Mawr has become a

leading institution of higher learning for women in the United States. With rare business ability Miss Thomas combines a strict adherence to the highest standards of learning.

Miss Thomas is emphatic in championing higher education for women. In the early days, she says, the prejudice against higher education was bitter and strong. When she was a child in Baltimore no women and very few men had ever been to a German university, and when she grew up, imbued with a desire for the higher learning, relatives and friends opposed her.

But since 1870, she declares, women have pursued their quest, sometimes with opposition, until now the highest education is recognized as their right.

The claim has often been made that college women come from the leisure classes, and that at least 50 per cent. of them do not marry.

Miss Thomas asserts that most of them do not come from the leisure class, so called, and supports

her claim by statistics of one-third of the women graduated from twenty-two of the most advanced colleges in the country, 25 per cent. of whom came from families with a total income of less than \$1200, and 46 per cent. whose families had a total income not exceeding \$2500.

Of the women who do not marry Miss Thomas says they would not marry, anyway—that education has nothing to do with it.

Before entering educational work, Miss Caroline Hazard, president of Wellesley, had control of the large business interests of her father, a big woolen manufacturer of Rhode Island. Miss Hazard is a combination of educator and business woman—an embodiment of the strong, intellectual American woman with great executive ability.

Miss Hazard is a tall, pleasant woman, with a strong face, a face indicative of a great mentality. Her work at Wellesley has shown a wide and deep grasp of college needs. She is often spoken of as

Caroline Hazard, President of Wellesley

one of the most intellectual women in America. Of Quaker descent, Miss Hazard has written a number of books about the Narragansett Friends, also assisting her brother, Rowland G. Hazard, in literary work. Miss Hazard took a semi-college course at Brown, of which corporation her father was a member. She was appointed president of Wellesley in 1899.

Age, experience and absolute application to work are necessary to the development of the successful educator of either sex. One of the most remarkable women college presidents is Miss Mary Emma Woolley, who was appointed president of Mount Holyoke College, Massachusetts, at the age of 35. She ranks among the most successful women of the country.

THOROUGHLY PREPARED

Miss Woolley's education was thorough. After taking a preparatory course of study in the high schools of Providence and at Meador Seminary, she entered Brown in 1891, and there won the degree of B. A.—one of the first two women to win the degree.

When she entered the college the question of co-education was being discussed in a spirited manner, and not a few persons discountenanced the aspirations of the young woman. At Brown she made a special study of history. Latin and Greek, Hebrew and German took up a great part of her time also, and in German she received the degree of Litt. D. at Brown and L. H. D. in 1900 at Amherst.

For five years Miss Woolley was head of the department of biblical history and literature at Wellesley. She was appointed president of Mount Holyoke in 1902.

Years of study at home and abroad have developed Miss Woolley into one of the most keen, thorough and competent educators of the day. She has studied the

Longest 2-cent Journey in the World

Handling Letters on a Fast Mail Train

TO TRAVEL 14,000 miles for two cents—has the world ever seen a cheaper fare?

Under the new postal rates between the United States and Great Britain, a letter can now make that journey under a two-cent stamp.

It can start from Manila—or any point in the Philippines—voyage across the broad Pacific to San Francisco, speed over the continent to the eastern seaboard and then wing its way over Atlantic billows to Great Britain, where its destination may be the most northerly postoffice in Scotland.

And all for two cents!

SUPPOSE you were in Manila—or in any other city of the Philippine islands—and wanted to send a letter to a friend in the north of Scotland. You could send the letter under a domestic 2-cent stamp if it passes through the United States.

That means that your letter, under the simple guarantee of a 2-cent American stamp, would travel something like 14,000 miles.

If a letter leaves the Philippines for Europe by any other route than through the United States the rate is five cents. But journeying by way of the United States, the rate is now only two cents.

This is due to the recent arrangement between America and England, by which the postal charges per letter between the two countries were reduced to two cents, or the domestic charge in America.

A letter going from Manila to London, or to the most northerly postoffice in Scotland, would have to travel more than half way around the globe. The distance from Manila to San Francisco, by the usual route of mail steamers, is 6943 miles. From San Francisco to London is 6690 miles. Yet the letter may continue several hundred miles further, into the north of Great Britain.

Under the new arrangement a letter can be sent from any point in the Philippines to the north of

Scotland as cheaply as one can mail a letter to the Mayor of his city. It is the cheapest long journey the world has ever known.

There is a great deal of labor about the transportation of a letter from the Philippines to Great Britain by way of the United States. The postal rate on letters between the Philippines and Great Britain by any route than through the United States remaining at five cents, a great part of the mail is expected to pass through this country in the future.

Out of the letter box in Manila the postman takes the letter and carries it to the postoffice. There it is separated from the local mail and turned over to the foreign department. Clerks tie the letters together in bundles, put them in heavy mail bags, and they are sent aboard ship.

As steamship lines are run as much for the purpose of carrying mails as conveying passengers and freight, the letter that is journeying across the Pacific under a simple 2-cent stamp must have charged up to it its proportion of the cost of the trip.

There are the wages of every person on board except the passengers; there is the cost of fuel and

other things, all of which help swell the enormous expense of running a big steamship.

Arriving at San Francisco the mail is placed on a fast mail train and begins promptly its long rush across the continent. It is 3250 miles from San Francisco to New York, and the average time of a mail train is 105 hours, or four days and nine hours.

From the train in New York the mail is transferred to the postoffice, and later on outgoing steamships for another ocean voyage.

The postal authorities give the distance between New York and London as 3740 miles, and allow between seven and eight days for a letter to get from one point to the other.

On an average, 40,000 letters addressed to places in Great Britain and Ireland pass through the New York Postoffice daily. This represents the mail from all parts of the country, with the exception of that collected in Philadelphia, Chicago, Boston, St. Louis and Cincinnati, which cities make up their own foreign mail.

A letter requires thirty-three days to make the journey from Manila to New York, and forty-one days from Manila to London by way of New York.

systems of the women's colleges in connection with the universities of London, Oxford and Edinburgh. She is of Revolutionary ancestry, an associate editor of a historical magazine and a member of the Rhode Island Society for Collegiate Education for Women.

Among the women educators of the West, Miss Marion Talbot, dean of women of the University of Chicago, has risen to a high position in the field of learning. Miss Talbot has had an exceptional training in science.

Her first training was obtained at the Boston University and the Massachusetts Institute of Technology. When a young woman Miss Talbot applied herself assiduously to study, and after passing through these institutions went abroad and studied for a number of years.

At the Chicago University are many mature women students. With her experience and training Miss Talbot has succeeded admirably with them, winning and holding their confidence and esteem.

Another woman whose success has been little short of phenomenal is Miss Margaret Harvey, dean of Sage College, Cornell University. Miss Harvey is a woman of charming manners. For many years she has championed higher education.

Miss Agnes Irwin, dean of Radcliffe College, is one of three women who have received the degree of LL. D. from St. Andrew's, Scotland.

Miss Irwin has been dean of the college since its organization in 1894. She is a woman of 67, with a pleasant, strong face, bright eyes and black hair just turning gray. She is a great-great-granddaughter of Benjamin Franklin.

CHARMINGLY MODEST

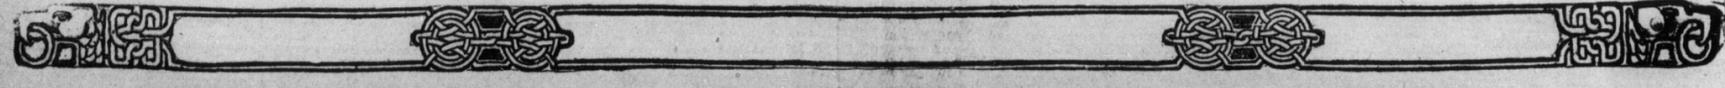

When the exceptional honor was conferred upon her by the Scotch university, she said: "How St. Andrew's came to the conclusion that my knowledge of literature and education was sufficient to entitle me to a degree I do not know. There is very little interest to any one in the life of a school teacher. I have done nothing but teach and give advice to students. Such a life must be prosaic, no matter how valuable it may be."

This statement indicates the charming modesty of Miss Irwin, one of the most brilliant women of the country. Before becoming dean of Radcliffe she taught in a private day school in Philadelphia for twenty-five years.

One of the most brilliant women educators of the country was Miss Alice Hanson Luce, who has been in Berlin since 1904. Miss Luce was dean of the woman's department of Oberlin for a number of years. She is a graduate of Wellesley. Her education was finished abroad, where she received a degree of doctor of philosophy from Heidelberg University. Oberlin was the pioneer of co-education. Miss Luce took charge of the woman's department in 1898.

According to old traditions, a man was thought the best executive at the head of a woman's college. Women have proven their efficiency as educators, and in only a few institutions is the old tradition adhered to. Men are still the chief executives of Smith and Vassar.

What characterizes the women at the heads of educational institutions is a remarkable business and executive ability, combined with high scholarly attainments and rare culture. These women are embodiments of the American ideal of independent, gracious and cultured womanhood.

NO MONEY TO SAVE LIVES.

Finance Committee Shelves Pure Milk For Babies.

No Extra Fees For Jurors In the Kinrade Case.

Smoke Nuisance Complained Of—Railways to be Watched.

Last summer over a hundred infants died from gastric diseases alone. We have a scheme costing \$700 by which we believe that death rate can be cut in two. Do you think it is worth while?

At the meeting of the finance committee yesterday afternoon the Medical Health Officer, Dr. Roberts, fired that question at the aldermen. He was there with a large and influential deputation for a fighting hot summer months, urging the city to grant funds for the establishment of a central distribution station, to ensure a pure milk supply for infants during July and August.

The aldermen expressed sympathy, but decided the city could not spare the money. They will advise those interested to bring the matter up next January, so provision can be made in the estimates. In the meantime they decided to shelve the question. To let it down they laid it over for two months.

SMOKE NUISANCE.

J. P. Dougherty and George McLaughlin, who complained about the smoke at the head of West avenue, Ald. Cooper said the smoke nuisance was as bad in other parts of the city. It was decided to employ an engineer to investigate and keep watch. If the railway is not obeying the regulations of the Dominion Railway Commission they will be prosecuted.

OTHER BUSINESS.

The application of Charles Smith, the late city messenger, for a further grant, was shelved. Mr. Smith received a grant of \$200 when he retired.

The Board of Health was instructed to get an estimate on the cost of collecting garbage once every two weeks on the mountain top and in the annex.

The council will be recommended to pass a by-law to prohibit rag picking or removal of disturbing refuse placed on the city dump by scavengers.

Hamilton will back Toronto up in the campaign to have the Welland canal deepened, providing Burlington channel was deepened at the same time.

DESERTS MOUNTAINOUS. Ranges Are Independent and Rise Directly From the Plains.

What people do not know about deserts includes the surprise that they are mountainous. The mountain character, as Dr. Charles R. Keyes, the geologist, avers, has many novel and instructive peculiarities.

So characteristic is this aspect that in the South African deserts it is appropriately denominated the "inselberg-landschaft," or island mountain formation.

The chief feature of the desert regions like western United States and Mexico is the interrupted plain rising about 5,000 to 7,000 feet above the sea.

Through the dry regions of America mountain ranges are completely and evenly surrounded by level plains as if by the sea.

Although the earliest outbreak of typhoid fever attributed to the eating of oysters was reported in 1816, and, especially since 1880, many other cases have been placed on record, but it is as yet known positively upon which a determination of the sanitary conditions of shellfish can be based.

The location and extent of all beds have been mapped out, visits to the beds have been made and 128 samples of water and 204 samples of oysters have been examined bacteriologically.

The July issue of Busy Man's Magazine is brimful of breezy, entertaining articles that are sure to please its many readers.

The Strand Magazine for July makes an excellent companion for the sea-shore. There are stories by Hall Caine, Frankfort Moore, Pett Ridge, Mrs. Baillie Reynolds, E. Nesbit and others.

Montreal Trimmed Toronto Yesterday, 3-1. At Montreal—With George Winter opposing "Doc" Newton on the firing line, Montreal defeated Toronto 3 to 1 at Atwater Park yesterday afternoon.

Winnipeg, June 29.—The fifteen-mile race between Sellen, Meadows and Acoose, which was fixed for last evening after the unsatisfactory ending to the fixture Saturday, was again indefinitely postponed to-day, the reason being given that rain made it impossible.

The greatest event of the automobile year is the annual tour of the American Automobile Association for the Glidden Trophy, in which 50 cars will compete. The tour will leave Detroit on July 12 and finish in Kansas City on July 20.

At Guelph last night the Shamrocks of that city defeated Orangeville in an intermediate C. L. A. game by a score of 10 to 2.

London, June 29.—The Thames Rowing Club, having adopted short oars with broad blades and swivel rowlocks, has taught its crew to row in the Belgian style and made a public appearance at the Walton regatta that was nothing short of startling.

At Guelph last night the Shamrocks of that city defeated Orangeville in an intermediate C. L. A. game by a score of 10 to 2.

Next Saturday's race will be the last of the old bird series and the longest race of the season. It will be from Battle Creek, Mich., a distance of 310 miles.

ROUND-UP FAILS. Spokane, Wash., June 29.—A second attempt by Canadian officers in charge of the Pueblo bison herd at Revelli, Mont., to load the animals for shipment to the Dominion, after several weeks' work, resulted in corraling only 170, or half the number of bison purchased by the Canadian Government last year.

That Earthquake. "O, George!" exclaimed Mrs. Ferguson, wildly, "do you think it disturbed the foundations of the house?"

You'll Make No Mistake. By looking at the top-notch suits and trousers the Fratlic Club is showing, a recent big purchase gives you a chance to save \$4 to \$8 on a suit.

Trip to Europe in a Balloon. Across the Atlantic in a balloon is the hope of Prof. Henry H. Clayton, for six years the meteorologist at the Blue Hill Observatory.

Where Extremes Meet. Professor, which do you consider the head of the family—the husband or the wife?"

Paradoxical as it may seem, doctor, the head of the family is the one that has to foot the bill.

GEORGE ROSS, C. I. S. O.

Joy, George Ross, with "three times three."

From happy Hamilton and me! Upon this well won honor! None else, on either land or sea, Deserved to win it sooner.
