Montreal, April 6 .- There was a small sized riot at the corner of St. Denis and St. Catharine streets this evening in which a couple of hundred Laval vere engaged. The trouble started a student standing with a number of others on the corner to refrain from spitting on the sidewalk. The student's response was an attack on the policeman. Another policeman on a passing car saw the tumult and jumped off and went to his fellow officer's assistance ment. Senator Davis moved a bill to provide for the incorporation of railway charters by the railway commission, instead of by act of parliament, as at present. That was similar to the best practice, in the United States. The number of the students had the students had the state of the stat

During the melee a big crowd of citizens were attracted, and some of them paid the toll for their curiosity by egg-bedecked garments. The fire brigade was also called out, but their services were not required, the police having gained the upper hand. One of the co-injured quite seriously.

Bridge to be Built Across the River to Park

"The Exhibition company has been offered practically free of charge very fine grounds to the far west west of the city. The proposed donors are Mr. W. J. Tregillus and J. Hextall, and the property is a portion of that part of the west of the city known as Bowness. It is on the south of the Bow river and directly across from the park now known as Shouldice Park.

"The advantages of this place as exhibition park is that the railway runs right past it and freight and passengers could be brought in that way. Then again it is directly across from the park to which a railway will be projected at an early date. Arrangements are being made to have a bridge span the river very soon. That will bring the park in direct communication with the street railway, with practically no additional expense."

We quote from Mr. W. J. Thorold, of London Press Association:

(Albertan, March 11, 1910):—"To me the city presents the most remarkable future. I am told that in Calgary and vicinity, there will be commenced construction of works requiring an ultimate expenditure of TWENTY-FIVE MILLION DOLLARS, and of this sum the C.P.R. will expend Sixteen Million Dollars on the extension of their branch lines. The balance is to be expended in civic improvements and the construction of other branch lines into Calgary. Such an expenditure as this can only result in Calgary becoming one of the foremost cities in the Canadian or American West."

Try and realize what this will mean for Calgary. As a city expands, land suitable for gardening, or property that lends itself to home building, becomes greatly in demand and valuable. The near future will see such property commanding prices double what we are asking.

\$100 PER ACRE AND UPWARDS

Calgary's progress during the last few years has borne out the saying, "There is no tomorrow." Putting of until "Tomorrow" in Calgary realty has spent a lost "Yesterday" in thousands of instances. The future will bring regret to many who let OPPORTUNITIES pass. Others will take advantage of present offerings and invest, reasoning out the truth of Mr. Thorold's statement: That Calgary will become one of the foremost cities of the Canadian or American West, with the consequent increase in values.

Beautiful Displays of Fashionable Attire and New Merchandise

The Attractive Features at the Big Store This Week

THE fashion event of the season, "Horse Show Week," was formally opened in brilliant style last evening, adding another wheel in the machinery demonstrative of western progressiveness, and marking also the turning point of the season in real earnest at this store.

New goods are revolutionizing the store. We take this medium, therefore, of extending to our many out-of-town friends who are visitors to the Horse Show, a hearty invitation to visit the store and inspect and admire the various style themes for the new season which we present in wonderful array today. The showing embraces the latest conceptions in suits (men's and women's), dresses, coats, skirts, waists, etc., etc.

It's a showing and fashion display that will add still further laurels to this popular store, and still more firmly establish it as Calgary's vane of fashion.

The great inflowing of new goods taking place this week will make a visit to the big store one of particular interest to everybody. The spring' stocks of wearing apparel--embodying the latest style-features accepted as authoritatively correct and among them many exclusive conceptions, imparts an interest that will be at no time so acute as it is at present, when every woman--and man, too-- is keenly alert as to what's what in the world of

THE SALE FOR TAXES

Sprucevale School District Case Soon to Come Before the Supreme Court.

THE DISTRICT IS NOW INSIDE CALGARY LIMITS

Man Found Another in His House and Home.

A rather peculiar case is to come un before the next sitting of the court en banc at Calgary. The case as far as can be learned is as follews.

Early in the year the Sprucevale school district No. 209, held a sale of land for arrears of taxes. This sale was confirmed by Judge Stuart under an order dated March 1. The property was chiefly in Bankview and South Calgary, which was taken into the city by the act of 1907, establishing the Greater Calgary. A. Von Melecki was the secretary. the secretary treasurer of the school district and as such assessed the property in the school district before it was taken over by the Calgary school district.

seekers day," explains the rush. Nearly other original owners of property and making appeals against the safe for are attacking the legality of the sale Under the act the owners have one year and thirty days in which to redeem the property but as many of then made an appeal to the judge yesterday against the confiscation of their property Judge Stuart issued an order yesterday to the lands title office to

not issue any titles to the lands until May 4 when the court en banc will sit to hear all appeals, and to give every one a chance to appeal. chief ground of appeal is that the sale of lands was held without the confines of the school district, contrary to the ordinance, and that in many cases no notices were received by the owners of the property. An an

instance of this: A man took up a homestead across the Red River, and locked up his house and furniture in Calgary. When he came back a few days ago, he found his house occupied by another party, who was using his furniture and on inquiry he found that his property had been sold, although he had received no notice that such proceedings were going to be taken. This part of the Sprucevale school district was taken into the city in 1907, in the Greater Calgary bill, but was not included in the Calgary school district until the beginning of 1909.

In the office of Lent & Jones there

is also a peculiar case in regard to taxes in local improvement district No. The taxes were first paid on a certain property as acreage which amounted in 1907 to \$2. The same property was afterwards assessed as lots \$66 were paid. The improvement district are now claiming taxes for the same year and in addition \$1 per lot same year and in addition \$1 per lot. for costs which will amount to \$2.40 default the owners have been notified that the lots will be sold for

The above facts have been procured from the legal firms interested and in case the sale proceedings are gone on with there is apt to be considerable litigation in regard to the titles to the

Another case is on file in Lent & Jones office where one man is assessed and taxed for lots 35 to 38 in block 26, and a second party assessed and taxed for lots 37 and 38 in the same block Two dollars costs are added in each case and the notice is signed by John Perrie tax commissioner of the department of public works.

The above facts will give some idea loose the assessment of property is being made in the outskirts of

Marseilles, April 6 .- The strike of naval reserves because of the employent on French liners of Arabs and thers who are not French subjects, is causing serious inconvenience and financial loss. A score of ships bound for the Mediterranean ports, Africa, and the east are unable to sail. Six torpedo boats are assuming the mail service while naval marines are held

G. Herron, under secretary of the navy, characterized the strike as not a labor struggle, but a revolutionary movement, started by a few agitators, who have terrorized the men.

The naval bill, which has been drydocked since the first week in March, was dug up again tonight by a notice of motion from Sir Wilfrid Laurier. The notice reads: "There shall be a depart-ment of the government of Canada which shall be called the department of the naval service, over which the minister of marine and fisheries the time being shall preside, and that the governor-in-council may appoint an department at a salary of \$5,000 per annum, and such other officers and clerks as may be required for the due administration of such department at such salaries as under the civil ser-vice amendment act, 1908, are appropriate to the divisions and subdivisions of the service to which such officers and clerks may be assigned.

Homeseekers on the Way.

Mrs. W. J. Hammond, Hamilton, Ont., writes: "I beg to say that I have used Dr. Wood's Norway Pine Syrup for my youngest girl who was troubled every winter with bronchitis and very severe colds. At night she would keep us all awake with her coughing until I tried your Syrup, which gave her instant relief. After the first bottle was finished I got more, and always kept a bottle in her room at night. Dr. Wood's Norway Pine Syrup is certainly a wonderful thing in a case like the above mentioned and no one can praise it too highly. I have taken every opportunity to recommend it to all my friends and relatives."
