LIGHT RUNNING AND DURABLE.

TWO CONSIDERATIONS.

EXCELLENCE.—That any Sewing Machine should have so many points of Superiority as are claimed for the "Royal" seems to many minds incredible. The fact is, the inventor started right, and the superiority of the "Royal" is the natural result, and explains the extraordinary lead it has taken over Machines formerly regarded as the best.

FIFTY PER CENT SAVED.—No power is so costly as that of human muscle, and fifty per cent of the power required to run other Sewing Machines may be saved by using the light running "Royal"—It is the most simple Lock-stitch Shuttle Machine in the world and wears longer than any other

CAUTION.

Don't be misled by Agents trying to sell other Machines when they say "the Royal won't wear well." They know better—we all know that friction destroys,—the almost entire absence of friction in the Durable, Light Running Royal, is the result of its simplicity.

THE

ROYAL SEWING MACHINE,

Combines with the best points and tasty design of the original 'Gardner,' all the well known and long tested principles of all the prominent Canadian and American Machines. It is unrivalled for USEFULNESS, STRENGTH and DURABILITY; is adapted for all kinds of work, from lightest muslin to heaviest cloth or leather.

It is easy to run,

Easy to learn,

Very silent,

Carefully built,

Well finished.
