GRANT FOR DREADNOUGHTS NOT DEATH-BLOW TO CANADIAN NAVY ISSUE ONE FOR NEXT ELECTION

When Government Makes Appeal in Natural Course of Events People Can Decide Whether They Wish Warships as Nucleus of Local Fleet, Official Statement Points Out.

OTTAWA, March 24.—(Can. Press.)—The following statement, in reply to that of Sir Wilfrid Laurier, was given out by the government this evening: "It cannot be too strongly emphasized that the clause which Sir Wilfrid Laurier and his followers have been obstructing during the past two weeks is the first clause of the resolution which Sir Wilfrid Laurier proposed by way of amendment on Dec. 12 last. Every member of the opposition, including Sir Wilfrid Laurier himself, voted for that clause on Feb. 12 last as part of his amendment. There has been no display of brute force in the debate except on the part of those who first voted for this clause and then obstructed its passage.

"The clause in question which thus forms part of Sir Wilfrid Laurier's resolution proposed on Dec. 12 last is as follows: "From and out of the consolidated revenue fund of Canada there may be paid and applied a sum not exceeding \$5,000,000 for the purpose of immediately increasing the effective naval forces of the empire."

Question Narrows Down. "If Sir Wilfrid desires to recede from this declaration set forth in his resolution, then at most the question between the parties is whether this sum shall be devoted to the provision of three battleships for immediate and effective aid to the naval forces of the empire, or whether it shall be employed in establishing a Canadian naval service. If the contracts are let with the utmost despatch for the construction of three battleships, they would not be ready to be placed in commission before the next general election.

COMPROMISE IS HINTED AT BY PREMIER

Dreadnoughts Will Not Be Completed Until After General Election, and if People Then Express Desire, They May Become Nucleus of Canadian Navy

OTTAWA, March 24.—(Special.)—Mr. Borden's manifesto, in reply to Sir Wilfrid's, is significant in this, that it seems to point the way to a possible compromise. The prime minister figures that the three dreadnoughts will not be completed till after the next general election, therefore they may become the nucleus of a Canadian naval service instead of passing under the immediate control and direction of the admiralty. Should they be recalled to Canadian waters for use in the Canadian navy, it follows that they must be manned and maintained by the Canadian Government.

Mr. Borden's proposal, in a word, is that the three dreadnoughts shall be held, as it were, in solution to be precipitated on British or Canadian waters as the case may be thru the reaction of a general election. Viewed from this standpoint, the government may claim with reason that passing the naval bill will not commit Canada even to an emergency contribution.

What of Canadian Navy? But, round and round again, we come to the crucial question: Does the government intend, when the time for an election comes, to favor the establishment of a Canadian navy? If we are to have three dreadnoughts we must have three fleet units, yet Mr. Borden condemns two fleet units as involving an extravagant outlay of \$150,000,000.

The manifesto habit in which the party leaders seem to have fallen indicates to many that they are feeling their way cautiously, and that some reasonable compromise is still within the range of possibility. Of course, much will depend upon the word brought back tomorrow by the members who have had a brief opportunity during the Easter recess to learn the views and sentiments of their constituents.

There are persistent rumors of a coming compromise on the naval bill. Continued on Page 3, Column 4.

FLOOD SITUATION IS SERIOUS IN GUELPH

River Speed, Swollen by Heavy Rains, Overflows Banks and Many Houses Are Completely Surrounded by Water—Great Damage to Factories.

GUELPH, March 24.—(Special.)—The River Speed is on another rampage and threatens to outdo the flood of last week, in fact, the water is much higher tonight than it was last week, and is just about equal to what it was a year ago on Easter Sunday. The water in the river began to rise about 10 o'clock this morning, and since then has been rising steadily. It rose a couple of feet in as many hours.

The flood is the effect of the incessant rains of the past few days, augmented by that of last night's down-pour. Residents in the north part of the county declared they never saw the rain fall so heavily as it did last night.

All along the river from Goldie's mill down the banks are overflowed and immense damage is being done to property and many men thrown out of employment. At the Taylor-Forbes works the men went out this morning when the water first started to come in, and an hour later it was a foot deep. The water is pouring in in a stream thru the carpet mills and is overflowing into the Canada Textile Co.'s building. Many residences are completely surrounded by water, and men who went to work this morning are returning to their homes tonight in boats or by means of horses and bugles. It is estimated that the damage to property will be more than last year.

GALT INDUSTRIES CRIPPLED. GALT, March 24.—(Can. Press.)—For the third time this season the Grand River has overflowed its banks. Following the rain of last night, the water rose steadily until this afternoon it encroached on adjoining lands, flowing over retaining walls and flooding the basements of industrial plants and residences along the banks. Several plants were forced to shut down owing to the water having crippled their mechanical equipment. Never before have riverside manufacturers suffered so much loss from high water as this year, and it is possible that further damage will be done before the river, finally subsides.

BERLIN IN FLOOD ZONE. BERLIN, Ont., March 24.—(Special.)—The Grand River overflowed its banks today. The water was about two feet above normal and at 8 o'clock was still rising.

Mackenzie and Mann Acquire Railway

MONTREAL, March 24.—(Special.)—It is now an assured fact that Sir Rodolphe Forget's road, the Quebec and Saguenay, has been sold to Mackenzie and Mann, with a federal government bond guarantee, but it is also stated on first-rate authority that the Canadian Northern people will extend the system first to Tadoussac and finally to Belle Isle.

MORGAN REGAINS HIS HEALTH SLOWLY

He is Still Suffering From Nervous Prostration, But the Malady Has Run Its Course, His Interest in Life is Returning and He Sleeps Twelve Hours Daily.

Special Cable to The World. ROME, March 24.—(Copyright.)—A rumor having gained currency here that J. Pierpont Morgan had completely broken down mentally as well as physically, The World correspondent sought authentic information from members of the family who are with him here at the Grand Hotel, and who accompanied him back from Egypt.

Herbert L. Satterlee, the husband of Mr. Morgan's eldest daughter, who came on from New York and went to Cairo to meet his father-in-law, spoke with great frankness, saying: "Once and for all, the rumor is absolutely without foundation. Mr. Morgan has been and still is suffering from the effects of severe nervous prostration, but the malady is following its normal course, and today his condition is far better in every sense than it was when he was in Egypt. For three weeks at Cairo Mr. Morgan scarcely slept at all. He was greatly depressed and would sit listlessly, taking interest in nothing."

Acute Phase Passed. "The acute phase of the malady has now passed. At his present rate of improvement he should be completely restored to health within a month. All his vital organs have been carefully examined and their functions watched. Everything is sound and action normal.

He intends to remain in Rome a little longer. Then Mr. Morgan will carry out the same program he has followed for the past 25 years, going to Aix les Bains about the middle of April, and afterwards to Paris, returning to New York well before autumn."

VESTRIES HELD IN ANGLICAN CHURCHES

Reports Presented Showed That the Past Year Had Been One of the Most Successful From Every Stand-Point—Increases in Stipends Granted, New Churches Planned.

Judging by the reports presented at the vestry meetings of nearly all the Anglican churches in Toronto and the immediate neighborhood, the past year was one of the best in the history of all churches. Increases in the stipends of rectors were given in many churches, including St. Paul's, where Archdeacon Cody was given an advance from \$600 to \$800. Increases also were voted for the rectors of St. David's, St. Thomas', St. Mary the Virgin, St. Mark's and many others. St. Stephen's Church is growing so rapidly that a committee was appointed to decide whether a new site will be purchased or a new building will be erected on the present site at the corner of College st. and Bellevue ave. The congregation of St. James decided to install a new floor thruout the church at a cost of \$30,000. In some of the churches no meetings

TERRE HAUTE IS DEVASTATED BY STORM

Eighteen Known Dead, Hundreds Hurt, and Property Damage is Nearly a Million Dollars—Army of Homeless Persons Cared for by Charitable Institutions.

TERRE HAUTE, Ind., March 24.—(Can. Press.)—Eighteen persons known to have been killed, 250 more or less seriously injured, 275 homes destroyed and other property damaged, estimated at nearly a million dollars, was the toll of the tornado that devastated Terre Haute and vicinity last night. Tonight the officials in charge of the rescue work say the list of dead will be increased as the searchers clear away the debris of wrecked buildings. Hundreds of homeless tonight are being cared for by charitable institutions and citizens, while the wrecked district is being patrolled by company E, first regiment Indiana National Guard and the local police force. The militia was ordered out early today by Governor Baileston, who directed the relief measures from Indianapolis.

Downpour of Rain. Relief work today showed that hundreds lost everything they owned, and their suffering was made more acute by the rain. The downpour, while adding to the discomfort, was probably the greatest boon the stricken district could have asked, for it extinguished immemorial fires which broke out immediately after the tornado had passed. The rescue work was carried on fast and tonight it appears that all the homeless are being cared for by charitable institutions and citizens.

SUFFRAGETTES CHAINED DOORS

Blacksmith Had to Be Called to Release Labor Men From Convention Hall.

Special Cable to The World. LONDON, March 24.—(Copyright.)—When refused admission to the Labor party's conference in Manchester today a party of militant suffragettes speedily held an amusing, if ineffective, revenge, by cluding the police and stewards and slipping a heavy chain thru the handles of the doors and fastening the ends with a patent padlock. All attempts to break the chain or force the padlock failed, and a blacksmith with an ax had to be called to reopen the door. Meanwhile, unaware of the fact that they were imprisoned, the delegates were acclaiming the rights of women to the franchise.

Another attempt by the militants to burn a house was discovered at Beckenham, a suburb of London, fortunately in time to prevent serious damage. Sylvia Pankhurst, who was released from the Holloway Jail last week, is in a nursing home as the result of the forcible feeding that became necessary when she refused to eat. Blood vessels in her eyes have burst, with bad results.

MINISTERS WILL GIVE EVIDENCE

Sir Rufus Isaacs and Lloyd George to Appear Before Marconi Committee Today.

Special Cable to The World. LONDON, March 24.—(Copyright.)—The highest interest has been aroused in political circles by the announcement that Attorney-General Sir Rufus Isaacs and Chancellor of the Exchequer Lloyd-George are to be called at witnesses before the Marconi committee tomorrow to testify concerning the dealing in shares of the American Marconi Co. This step, it is understood, has been taken on the initiative of the ministers themselves, but the Tories are eagerly looking forward to the proceedings in hope of some facts being elicited compromising to the honor of these prominent members of the government.

The chief examination will be conducted by Lord Robert Cecil, son of the late Unionist prime minister, Lord Salisbury, who besides being a clever politician, is an exceedingly able lawyer. He has been devoting his Easter holiday to getting up the case and, according to the Unionists, has prepared an exceptionally strong brief. The generals, however, are confident that both the attorney-general and the chancellor will come triumphantly thru the ordeal.

HUNDREDS DEAD AND INJURED THOUSANDS WITHOUT HOMES TOLL OF TORNADO APPALLING

One Hundred Lives Lost in Omaha City Alone, While Thruout Nebraska and Iowa There Are Many More Victims—Hospitals Are Overtaxed, and Rescuers Are Actively Engaged—Graphic Tales of Survivors.

Special to The Toronto World. OMAHA, Neb., March 24.—Several hundred people were killed by Sunday's cyclone in Omaha, and 250 injured, 350 houses demolished, 1250 buildings damaged, 11 churches wrecked, 8 schoolhouses wrecked, and tremendous property loss otherwise. About fifty people were killed outside of Omaha and big property loss.

Leigh Leslie, Resident Correspondent. OMAHA, March 24.—(Can. Press.)—More than 200 persons were killed and 400 were injured in a wind storm that demolished 450 homes, damaged hundreds of other buildings and caused a monetary loss of \$5,000,000, according to reports available up to a late hour tonight from the main path of the tornado in and near Omaha.

Most of the casualties were in Omaha, which was stricken as never before. Nearby towns in Nebraska and across the Missouri River in Iowa also suffered severely. Wires were snapped off in all directions, and it took many hours to gather and circulate news of the disaster.

Fire broke out in the debris of many wrecked buildings in Nebraska's metropolis, and these were menaces for some time, as the fire companies were hindered by fallen walls and blocked streets. A heavy rain followed the wind, however, and drenched the hundreds of homeless persons, but also put out the flames.

CENTRED IN OMAHA CITY. Of the 202 known dead within the area covered by the storm, 152 were residents of Omaha. The remaining dead are scattered over a considerable range of territory.

Perhaps 1500 persons are homeless. Aside from this, 3000 buildings were damaged, many of these being churches and school buildings. Eight of Omaha's public schools were wrecked. All forms of communication were almost annihilated by the wind, and only two or three wires were in working condition when daylight relieved a night of high tension, which a times almost became panic. Soldiers, state and national troops, poured into the city during the day to aid in bringing order out of what for 24 hours had been chaos. Tonight the guardians of the peace are patrolling the residence districts, aiding the police to maintain order and relieve such cases of suffering as are not beyond hope.

HOSPITALS CROWDED. The hospitals in Omaha tonight are full of injured, many of whom have not yet been identified, apparently because their friends are either dead or among the injured. Tonight the stricken section of Omaha is patrolled by government troops from Fort Omaha, and the state militia. Gov. Morehead has taken personal charge of the state troops. There has been little or no looting. The business men are co-operating in every way. The Omaha hotels have thrown open their doors for the injured. Every train into Omaha today brought scores of physicians from nearby towns, who had friends and relatives here, and they made up one continual stream of visitors to the morgues and the hospitals.

COURSE OF DEVASTATION. The storm appeared to have started at Fifty-fourth and Centre streets. From there it traveled north, veering slightly to the east to Leavenworth street. Then it took a northeasterly course to Fortieth and Farnham streets, sweeping its way thru everything. Still traveling a little east of north, it covered a course from Fortieth street east to Thirty-fourth street, a distance of six blocks.

Striking Bemis Park, where the homes of the well-to-do Omahans are located, the storm turned sharply to the east and passed along Parker and Blonde streets to Twenty-fourth street, where its path was six blocks wide. In the latter section the damage is complete. Finally at Fourteenth and Spencer streets, the storm swept over the Bluffs, high above the Missouri River, demolished the Missouri Pacific roundhouse, leveled the big trestle of the Illinois Central Railroad over Carter Lake, wrecked number of buildings near the Rod and Gun Club, a fashionable outing place, and disappeared to the northeast.

TABLE OF CASUALTIES and the electric power was shut off immediately to prevent further loss of life. With the arrival of daylight a trainload of militia from Lincoln and the presence in the city of Governor Morehead, the work was systematized, and to-night indications are that more day will end the search for bodies, and will even witness a general attempt at rebuilding work.

Trainload of Doctors. Des Moines sent a special train, with forty physicians and those arriving at noon helped out the local staff, who had been at work since six o'clock last night. Nurses and medical supplies were also brought on this train. Money is already pouring into the city; the city organs are taking the lead in providing funds. State and religious bodies are falling in line, and offers of help are coming from all quarters of the U.S. The child-saving institute, at 691 South 42nd street, was a veritable death-house after the storm had spent its force. Every available room was pressed into service, and one after another the dead and injured were brought into the house. A pathetic sight was the body of a girl keeping watch over the young girl mother, Mrs. John Newman, who had been killed instantly. As the body lay on the porch of the institute, awaiting suitable burial arrangements, the daughter held the body of her mother.

Found Mother Dead. "Mother was ill, and confined to a room on the second floor of our home, No. 4224 Dewey avenue," she said. "When the raging winds hit the house it toppled over, as if built of paste-board. Mother and myself were buried in the wreckage. As soon as I could pull myself from the debris I began a search for her. Board after board I lifted; I tugged and pulled at them until my hands were bleeding. Finally I reached her. I bent down to raise her, but she was dead."

Coincidence among the injured at the child institute was that all were badly cut about the face, while the bodies were comparatively free from wounds. Ugly-looking scalp wounds marked every injury.

Whole Family Wiped Out. Cliff Daniels, his wife and their two children were killed. Continued on Page 3, Column 2.

LADY NEVILLE IS DEAD. Special Cable to The World. LONDON, March 24.—(Copyright.) Lady Dorothy Neville, a noted society leader and the authoress of many poignant books of recollections of English political and social life, died today.

Rescue work started as soon as the people were able to hurry to the stricken district, but the night's work was by the light of lanterns, and little work was accomplished. The storm took down all the wires in its path.

were held, but some will be held tonight and others at different times during the next few weeks.

St. James' Cathedral. Very encouraging reports submitted at the annual meeting of St. James' Cathedral. The wardens reported the gross revenue mounted for all purposes to \$38,242.53, which included \$18,240.50 for missions and church building funds in the city and northwest. General purposes accounted for \$19,999.03, and \$10,000 for the debt of the cathedral.

St. Monica's. The annual financial statement of St. Monica's showed receipts amounting to \$2081.88 and disbursements of \$2028.72, with a balance of \$53.16. Plans were made for the raising of sufficient money this year to wipe out the existing mortgage of \$800.

St. Luke's. Although without the services of a permanent incumbent for seven of the past months of the past year, excellent progress was reported at the annual vestry meeting of St. Luke's. Receipts for the year were \$12,131.51, with disbursements of \$6,026.05, leaving a balance in the bank of \$17,146.46.

St. Paul's, Bloor Street. Reports showing a splendid increase in the departments were presented at the seventy-first annual vestry meeting of St. Paul's Church, in the school room on Bloor street, last evening.

Church of the Redeemer. At the Easter vestry meeting of the Church of the Redeemer, Bloor street, the vestry reported a marked growth within that church during the past year.

St. David's Church, Englewood. The year was marked by a steady increase in all branches. The total receipts were \$2240. The rectory's stipend was advanced to \$1200. W. MacKenzie was appointed rector's warden.

St. Michael and All Angels. Rev. W. J. Brain, rector of the Church of St. Michael and All Angels, shared in the advances made by his congregation.

committee the question of appointing a man at a suitable salary to take charge of the clerical work of the church and organizations connected with it.

St. Clement's. The congregation of St. Clement's Church decided to go on with the erection of their new church, to be built on Jones avenue this year, at a cost of \$25,000.

St. Thomas' Church. The vestry meeting last night at the Church of St. Thomas, Huron street, was well attended, and the financial statement presented showed a thoroughly satisfactory condition of affairs.

St. John the Evangelist. One of the most commendable achievements of the young men of the parish, the St. John's choir, is the purchase of a new organ.

St. Simon's Church. In spite of the great efforts put forth by the wardens and members of the congregation, the financial statement for the year shows a deficit of \$1,200.

St. Martin's Church. A very creditable report was received at a night at the vestry meeting of St. Martin's Church, in the school room on Bloor street, last evening.

St. Barnabas' Church. St. Barnabas' Church, Halton and Perth streets, concluded a very prosperous year in its mission work.

St. Peter's. St. Peter's Church, which celebrated its centennial anniversary this year, has a ledger of \$2,118 on the right side of the account.

St. Bartholomew. St. Bartholomew's Church presented a very modest sheet as far as expenses went, but the balance of \$38.07 was on the right side.

St. Stephen's. The question as to what is to be done about building a new church was discussed at the vestry meeting of St. Stephen's Church, last night.

St. George's the Martyr. The necessity of new quarters for the Sunday school and different church organizations was emphasized at the annual meeting of St. George's the Martyr.

Paige Model Glenwood 5-Passenger Touring Car. \$1700.

PAIGE 36
is a next year's car

LEAVING aside all argument as to what car will be the leader last year, or what car will be the leader next year, the Paige "36" answers the question as to which car is the leader—the big extra value car—this year. It is a next year's car, and the car-buying public knows it just as well as the automobile trade knows it.

There is no other car now that gives so much in size, power, quality of materials and construction, up-to-date design and so much in equipment, for its price.

Notice the size of the Paige "36". It is really a big car. 116 in. wheel base. The touring body is as roomy as probably any 5-passenger body you ever saw. The seats are very wide and deep, with 10-in. tilted cushions. There is leg-room to spare. The doors are wide: rear, 21 inches; front, 19 inches.

Think what it means when, for \$1700 you can buy a Paige car equipped with the famous Gray & Davis Electric Starting and Lighting System, and with Bosch Magneto.

With its left-side drive and center control the Paige "36" is in step with the best of the high-priced cars.

We can't tell you in an advertisement how good and how much the Paige "36" really is.

VALLEY FARM HORSES HAVE WINTERED WELL

Trainer Eddie Whyte Has Thirteen in Preparation for the Spring Races.

HAMILTON, March 24.—The stable of Hon. John S. Hendrie and the province-bred division of George M. Hendrie's string have wintered in excellent shape at the Valley Farm, in charge of Trainer Eddie Whyte. There are 13 head in the lot, six of which are 2-year-olds. They are an exceptionally fine-looking lot, with little to choose between them, judging from appearances.

The star of the string is Tankard, who was purchased along with Micocouki and Sweet Story from Albert Simons early last summer. In 12 starts as a two-year-old, he won three races, was only once unplaced, and promised to be better than ever this year. He has wintered well. White Sage has fully recovered from his injury which forced his retirement early last summer, and the King's Fate candidate, Rockspring, is also going along soundly again. He went wrong during his plate preparation last spring and was retired. A splintered hock was the cause of the trouble, and its removal was successful. Rockspring showed some creditable performance, and it is to be hoped he will "stand up," for he is the only nomination in the race for the greatest this year from the Valley Farm.

The stable will receive their spring preparation at the local track, which will commence as soon as the track conditions are favorable. They also trained here last year.

There has been a general weeding out of the string since last fall. Powderman was disposed of to Hugh Wilson, with the expectation of making a high jumper for the show ring. R. Morgan of Saskatoon, Sask., got De d'Or and Comola, two of last year's disappointments, to the King's Plate. Comola died en route to the west. Brant now a three-year-old, was sold to a failure for racing purposes. The filly Golden Syrup is now the property of a Toronto army officer, and is being used for saddle purposes.

THE HORSE MARKET AT MAHER'S HORSE EXCHANGE.

The horse market can be said to be on the drab side. While a fair number of horses are being disposed of, it is impossible for the buyers to make any profit. The western buyers do not appear to want any horses and the barn had a run today of 200 horses, but they must come from the country and are in demand to create any kind of a lively market. The management reports the following prices: Sound, 1400-pound blooded, \$250 to \$285; heavy, \$40 to \$75. 1400-pound blooded, \$190 to \$220; expressers, \$140 to \$185; city horses, \$40 to \$75. The following have been sold: three or four choice carloads for Thursday's sale. Out-of-town buyers were: S. Doolie, Bishop's Mills; Bowling, Pontypool; H. L. Jones shipped a carload to Preston; J. Cranston, Hamilton; Thos. Cronin, Mount Albert; W. Gammon, Napton; P. K. Weaver, Berlin; W. E. Shantz, Berlin; M. C. Murphy, Pickering; Mack Napier, Napton; New Glasgow, N.S., shipped a carload of extra heavy stock; S. J. Peer, Norwich; J. A. Jenkins shipped a carload to Kingston; Murray Nell, Hamilton; H. Day, Hamilton; Geo. Fitch, Hamilton; W. H. Mercer, York Mills; E. H. M., Albany. City buyers were: A. D. Peters, F. Dennis, J. J. Walsh, John Ritchie, A. Abbott, Chas. Price, McGill, W. Harris & Co., City of Toronto; C. H. Jones, Ed. McCull, S. Watson, Jos. McNeil, Bird, Bert V. Wheeler, Peeler, C. R. Harris & Sons, M. Rawlinson, Ltd., Wm. Hare & Son, Chas. Cominsky, Grafton; J. Fleming, Douglas, E. McLelland, Park, Blackwell & Co., Abel Boyd, John Monal, T. Barrett, J. Lynch, H. Carter, Wm. Menary, D. Edmonds, Wm. Horsley, J. Ritchie.

PAIGE 36 SELLS HERE AT \$1700 DUTY PAID.

As the result of an error in the advertisement of Automobile and Supply Co., Limited, published in The Sunday World of March 23, the price quoted for the Paige Model Glenwood five-passenger touring car was \$1275 instead of \$1700. We are pleased in announcing this correction, and draw attention to the fact that for \$1700 you certainly cannot buy a car of superior value. There is no car now that gives so much in size, power, quality of materials and construction, up-to-date design and so much in equipment for its price.

Great Bargains in Tobaccos and Smokers' Goods

Undoubtedly this is the most important sale of its kind ever held in Toronto. No man who smokes can afford to miss it.

All sorts of smokers' articles, such as Humidors, Cigar Rests, Ash Trays, Cigar Cases, Cigarette Cases, Pipes (single and in sets), Match Holders, Combination Stands, for den tables, etc., and a great stock of Walking Sticks have been greatly reduced in price.

The store has been sold and we must vacate—hence the reason for selling off the stock.

SERIOUS LOSS IN MONTREAL FIRE

MONTREAL, March 24.—(Can. Press.)—Damage roughly estimated in the neighborhood of \$75,000 was caused early tonight by a fire that destroyed the shed of the Merchants' Montreal Lines on the canal at the foot of St. Thomas street, damaged the Pier 21, and destroyed a large number of boats and barges. The fire broke out a few minutes before 6 o'clock.

The City of Montreal furnished a spectacular blaze. The fire raged from stem to stern of the upper deck and climbed the mast on the foredeck. The City of Montreal, a large steamer of the Merchants' Montreal Lines, and during the season of navigation between Montreal, Toronto, Detroit and Toledo. She was out of commission for the greater part of the coming season. The steamer is valued at about \$100,000, and it is estimated that the damage done to her by the fire will be in the neighborhood of \$20,000.

The ten horses, damaged and burned, belonged to G. E. Jacques and Co., and were valued at about \$4,000.

The fire spread so rapidly that there was no opportunity of saving any of the animals from the flames. Not one of the horses was injured.

GRANT FOR DREAD-NOUGHT'S NOT BLOW TO CANADIAN NAVY

Continued From Page 1.

In case it should then be the will of the Canadian people to recall these ships and make them part of a proposed Canadian naval service, it will be perfectly feasible to follow that course. There seems, therefore, no ground for opposition and certainly none for objection.

It is absurd to assert that there has been any attempt to gag discussion, inasmuch as the clause in question has been almost continually under the opposition and they have taken full advantage of it. Not only have they done this, but they have accompanied their opposition with threats and taunts, which have gone unrebuked by any leading man of their party. As a sample of many such utterances the following may be quoted: "Opposition's Taunts."

"The spectacle presented by the government of Canada today is a regrettable one," government fresh from the people, with a normal majority in this house of 46 or 48 as helplessness as children. The present bill has now been under consideration for some time and the government are unable to pass it. What will the people say when they see what they have already said—that it is time that they again went before the people, and if they do not, the result will be known to no one better than to themselves. This is the first time in the history of Canada that a government has been tied up in such a manner as this government is today; they cannot move hand or foot and will not be allowed to draw or amended and they go before the people and obtain their verdict as to what they should do." (Unrevised Hansard, p. 386-7.)

Important Measures Blocked.

It is quite true that many very important measures now upon the order paper are delayed and hindered by the obstructive tactics which the opposition have practised in respect of this bill. The banking act, the act to encourage and assist the improvement of highways, the act for granting aid for the advancement of agriculture and other equally important proposals, as well as the harbor improvements and other important public works throughout the country, are made impossible because of the pretension of the opposition that they and they alone

in, but empty obstruction is a drag on the country.

"Speaking at Magog on August 9, 1911, Mr. Fisher said: "So long as a small majority or any group can take up the time of parliament in order to hear themselves talk, it is impossible to avoid waste of time, and I give my pledge that, if the Laurier Government is returned again, the rules of the house will be changed. I consider present conditions inimical to the proper conduct of public interest."

"On August 21, 1911, at Knowlton, he said: "It was the intention of the government, should it be returned, to so change the rules of the house that such obstruction would in future be impossible."

"Unless Mr. Fisher is absolutely unworthy of credit, the late government regarded an amendment to the rules as absolutely necessary. Sir Wilfrid has not denied this."

"The issue is very simple. The government, having the responsibility of public affairs imposed upon them by the people, should not be allowed to tolerate together and Murray later misused the money and complained to the public, with the result that Mr. Fisher's name was given to one of his houses."

ESTIMATES CUT TO REDUCE RATE

Board of Control Has Tough Proposition in Paring Accounts.

HOUSING PLAN PASSED First Unit of Model Dwellings Can Now Be Erected.

Carving estimates kept the board of control busy yesterday morning and afternoon. Permanent improvements for the parks were reduced \$132,000, leaving \$151,000 to spend this year.

"The assessment department is allowed an automobile for the real estate business. We will keep the tax rate down, but it will only be by a vigorous slashing of the estimates," Mayor Hughson said.

Approval of the first unit of the Toronto Housing Company was given. This unit is to be established immediately north of the old General Hospital.

More Cheerful Tone in Wall Street--C. P. R. Up Three Points

STRONG OPENING AFTER HOLIDAYS

Good Bank Statement and Crop Prospects Gave Some Encouragement.

SMALL BUYING POWER

Further Postponement of Minnesota Decision Gave Market Setback.

NEW YORK, March 24.—(Can. Press.)—When the stock market opened today, after the triple holiday, there was a brisk demand for stocks for about an hour. Leading shares were advanced a point or more. Then trading fell off and during the remainder of the session the market was flat. Early gains were cut into for a time, but toward the close stocks moved up again and final figures were at about the high point of the day. Speculative sentiment was more cheerful owing to several favorable developments over the holiday, but there was the same absence of buying power, which has been a feature of the market for several weeks. Buying seemed to come principally from the short interest, and when covering operations were completed trading all but stopped. The possibility that the supreme court might render a decision in the Minneapolis rate case today made bears apprehensive of the effect on the market in which the short interest is believed to be heavy. This was partly responsible for the covering operations. When word came from Washington that the decision would not be handed down the list sold off.

Favorable Advances

The unexpectedly good bank statement and favorable advances as to crop prospects gave a more cheerful cast to speculative sentiment. A reaction in loans of about \$80,000,000 had been effected in the last three weeks, and for the first time in several months an increase in surplus over the corresponding week of the previous year was reported. Time money was easier and advances from abroad indicated that the period of stringency was drawing toward an end. Expectations of peace in the Balkans in the near future also helped to strengthen the market, although Europe was still having a holiday and foreign business did not figure.

THREE POINT MOVE IN CANADIAN PACIFIC

Spurt in the Shares Viewed as Favorable Indication in Financial Circles.

A sharp advance in C.P.R., which sold up to 226 3/4 in New York, against 223 1/2 at the close last week, attracted a good deal of attention in Toronto yesterday. The three-point spurt was accepted as an indication that Wall Street was more cheerful, and that European situation, the fact that Canadian Pacific is so widely held abroad making the stock a trustworthy investment for foreign conditions. At its top for the day the security was a full eight and one-quarter points above the recent low of 218 1/2. The high for the year to date was 256 3/4, being a price reached before the rights came off.

ANOTHER STAMP MILL FOR SWASTIKA CAMP

The Pike Lake Gold Mines, Limited, which holds a group of four claims adjoining the Swastika in the Swastika district, is making arrangements for the installation of a ten-stamp mill this spring, according to an announcement made by A. W. Jackson of Buffalo and Indianapolis, who was in Toronto yesterday. This will be the second stamp mill in Swastika.

STANDARD OIL DIVIDEND

NEW YORK, March 24.—The directors of the Standard Oil Company, a Standard Oil subsidiary, declared a dividend today of \$4 a share, payable May 23, 1913. The dividend is a year ago \$3.80, and last year \$3.50. The value of the stock and last year sold at \$165 and \$165 and as low as \$55.

BANK CLEARINGS OF THE CONTINENT

No Change in Position of the Canadian Cities—A Poor Record.

There were no changes in the standing of the Canadian cities in the bank clearing record of the continent last week. Montreal maintained its customary rank of eighth, Toronto tenth and Winnipeg fourteenth. Pittsburgh came to the front with a move from ninth to six, but it merely exchanged places with San Francisco, and so did not affect the position of the other centres.

Clear Evidence of Trade Reaction

That business has been materially curtailed of late by the money stringency is plainly evident from the record of bank clearings. Last week's figures for the Dominion totaled \$163,047,761, an increase of 5.7 per cent. over the same period of 1911, the smallest improvement of any week for the present year. In the week previous the gain was 8.8 per cent., in the week March 6 it was 11.1 per cent., Feb. 27, 6.7 per cent., Feb. 20, 10.8 per cent., Feb. 13, 22.4 per cent., and Feb. 6, 20.1 per cent. It will be noted that there has been a gradual decrease in the improvement.

Small Gains in Railway Earnings

Another Evidence of Reaction in Activities Throughout the Dominion.

While gross earnings of the Canadian railroads continue to show a satisfactory improvement over last year, the increase is by no means as favorable as that earlier in the year. It would seem, therefore, that herein lies another evidence of the reaction in trade, and stock market and real estate activity reported all over the Dominion.

CRUCIAL WEEK IN MONEY MARKET

Erickson Perkins & Co. had the following: After this week's strain in money is over there is a chance for a little ease abroad and this may be reflected here. Money was no higher here. It was reported that time rates showed a slightly easier tone. Forced liquidation in certain specialties appeared to have run its course. A number of them were reported as lending at a premium, a general way the outlook is a little better and good stocks may now be bought on all drives. Take profits on bulges.

STRONG TONE IN WHEAT MARKET

Chicago Pit Forced to Make Its Own Prices at Opening.

OTHER CEREALS STRONG

Wires in Western Storm Belt Prostrated—No Market in Britain.

CHICAGO, March 24.—Bulls bought considerable wheat today, and this caused strength throughout the session. The close was firm, 1/4 to 3/8 higher. Corn closed the day at a net advance of 1/2 to 3/4; oats were a shade lower to 1/4 higher, and provisions showed a gain of 1/4 to 1/2.

STAMP MILL IS BUSY AT ST. ANTHONY MINE

Ratio of Extraction Highly Satisfactory—Good Ore Body Discovered.

The president of the St. Anthony Mining Company reports that the ten-stamp mill is again in operation, and is handling from 90 to 100 tons per 24 hours, and is making a little better than 90 per cent. extraction. This varies owing to the fact that, no matter what the grade of ore is that is being treated, the amount of gold in the tailings remains about a fixed quantity, so that on the lower-grade ores the per centage drops down to about 85 per cent., and on high-grade ore runs up to about 97 per cent.

PERKINS TO RETIRE FROM U. S. STEEL

Morgan People Will Take Entire Responsibility—Possibility of Dissolution.

Report comes to me from good sources that it has been arranged for George W. Perkins to retire from the Steel Corporation next month, and to transfer to the Morgan people the entire responsibility for the Steel Corporation. Wall Street has about made up its mind that if the government prevails in the dissolution suit, it will be a good thing for Wall Street and possibly for the shareholders, if they can have one share to represent the plant, one share to represent the orelands and one to represent the transportation interests, and the fourth share to represent the financial interests.—Adams in Boston News Bureau.

CANADIAN MARKETS CLOSED

The Toronto and Montreal Stock Exchanges and the mining markets, as well as the London (Eng.) and European stock exchanges, were closed all day yesterday over the Easter holidays.

OPPOSITE VIEWS OF U.S. STEEL REPORT

Net Earnings Per Ton Smallest on Record—Pessimist Versus Optimist.

Opposite views can be taken on the report of the U. S. Steel Corporation for the year ended Dec. 31 last. A favorable construction can be placed on the pronounced increase in the working assets of the corporation, but on analysis it will be found that this increase did not come from earnings, but from the policy of the corporation to cut down expenditures for new construction and acquisitions. In brief, the corporation spent only \$13,780,000 in 1912 for additional property, extensions and new construction, compared with an average of \$47,500,000 a year during the four preceding years.

The unfavorable feature can be found in the small net earnings per ton of steel sold. There was produced "for sale" last year over 12,500,000 tons, an increase of 3,000,000 tons over the preceding year and nearly 2,000,000 tons over the high record established in 1911.

HORSESHOERS TO ASK FOR A BILL

Want Legislation to Prevent Novices From Carrying on Business.

NEW OFFICERS CHOSEN

George Church of Hamilton is President of Flourishing Organization.

"To secure the proper training and education of apprentices and to secure legislation that will prevent unqualified men imposing on the public and injuring valuable horses by unscientific work," the Master Horseshoers' Association of Ontario at its annual convention, held here yesterday, drafted a bill which is to be submitted to the Ontario Legislature for adoption. This bill will fix the time of apprenticeship to two and a half years, during which a three months' course in the foot formation of the horse and diseases affecting the foot must be taken at the Ontario Veterinary College. Before obtaining a license as a qualified horseshoer it would, under the terms of the proposed bill, be necessary to pass an examination of a board composed of members of the master and journeymen's associations. In this way before obtaining a license to start in business for himself a horseshoer would have to be proficient in theory and practice.

CONFISCATED VEAL AND FINED SHIPPER

CORNWALL, March 24.—(Special.)—Dr. W. E. Crain, medical officer of health at Crystler, has been doing excellent work in carrying out the new Health Act. For some time quantities of veal have been shipped from Crystler and other stations for human consumption. Recently Dr. Crain seized 1000 pounds of this meat at Berwick station. The doctor consulted Dr. Molony, district officer of health, Cornwall, a charge was laid against one Page of Crystler, and a conviction was secured before James Pollock, J.P., who fined Page \$25 and costs. The justice also ordered the destruction of the meat.

MEETING OF STORMONT CONSERVATIVES

CORNWALL, March 24.—(Special.)—A meeting of the Stormont County Conservative Association will be held at Pinch on Saturday, March 29, at 1:30 p.m., for the election of officers and other business. HORSESHOERS TO ASK FOR A BILL

Want Legislation to Prevent Novices From Carrying on Business.

NEW OFFICERS CHOSEN

George Church of Hamilton is President of Flourishing Organization.

"To secure the proper training and education of apprentices and to secure legislation that will prevent unqualified men imposing on the public and injuring valuable horses by unscientific work," the Master Horseshoers' Association of Ontario at its annual convention, held here yesterday, drafted a bill which is to be submitted to the Ontario Legislature for adoption. This bill will fix the time of apprenticeship to two and a half years, during which a three months' course in the foot formation of the horse and diseases affecting the foot must be taken at the Ontario Veterinary College. Before obtaining a license as a qualified horseshoer it would, under the terms of the proposed bill, be necessary to pass an examination of a board composed of members of the master and journeymen's associations. In this way before obtaining a license to start in business for himself a horseshoer would have to be proficient in theory and practice.

MEMBERSHIP INCREASE

During the past years the association has had an increase of membership amounting to about 30 per cent. and possesses a substantial balance over its expenditures.

Members, who extended a welcome to the convention on behalf of the city, declared that the flourishing condition of the association proved that the horse shoeing industry was not putting the horseshoer out of business.

CONFISCATED VEAL AND FINED SHIPPER

CORNWALL, March 24.—(Special.)—Dr. W. E. Crain, medical officer of health at Crystler, has been doing excellent work in carrying out the new Health Act. For some time quantities of veal have been shipped from Crystler and other stations for human consumption. Recently Dr. Crain seized 1000 pounds of this meat at Berwick station. The doctor consulted Dr. Molony, district officer of health, Cornwall, a charge was laid against one Page of Crystler, and a conviction was secured before James Pollock, J.P., who fined Page \$25 and costs. The justice also ordered the destruction of the meat.
