WHY DOES THE GLOBE COOK THE FIGURES?

We have been unable to gather from what source The Globe gets the figures which it attributes to Mr. Arnold in an article which alleges that he estimates as high as \$21 a head of the population for revenue on the street cars in 1921. They appear to be, like the figures we are familiar with in The Telegram, produced from "whole cloth," or that mathematical faculty which operates thru the hatred of some man in public life. We really thought The Globe was above this kind of misrepresentation, but it presented a table on its front page yesterday for which we would like an explanation. We will quote that portion of it which deals with the year 1913 onwards:

Table with 4 columns: Year, Revenue, Population, Rev. per head of Pop. Rows for years 1913 to 1921.

The Globe declares these figures as to future population and earnings are taken from Mr. Arnold's own estimates. We have table No. 8 of Mr. Arnold's report before us, and The Globe certainly did not get any of the figures estimated from it. Here are Mr. Arnold's figures from Table No. 8, as reported to the mayor:

Table with 2 columns: Year, Gross earnings. Rows for years 1913 to 1921 (eight months).

The Globe's figures are therefore eight or nine millions in excess of Mr. Arnold's official figures as given to the mayor. Instead of \$21.67 per head of the population, Mr. Arnold's extreme estimate is \$16.52 per head, which is not an extraordinary estimate when the greater area of the city is considered.

But The Globe has actually cooked the figures of Mr. Arnold's table and added \$3,456,124 to his estimate in order to make a point and deceive the people. We will gladly retract this statement if The Globe will explain why it so misrepresents Mr. Arnold's table. But we can imagine the diatribes of The Globe about common honesty had The World produced such a falsification of an official estimate.

BORDEN WILL CALL ON BRITISH AMBASSADOR

Premier When Visiting Washington Will Not "Talk Shop" With President. (Special to The Toronto World.) HARD LUCK

BRITISH WARSHIP WILL PROTECT OIL FIELDS

Lord Cowdray Says His Interests Must Be Guarded—Only Offence He Committed in Mexico Was to Invade Territory of U. S. Oil Barons, He Declares.

LONDON, Nov. 21.—(Can. Press.)—Lord Cowdray, who has large oil, railway and other concessions in Mexico, in an interview today said he had learned with great interest from the newspapers that a British warship had been despatched to the Puerto Mexico terminus of the Tehuantepec Railway, which he owns, because while that line is still running, the Mexican Government lines which join it have been cut and therefore several hundred thousand employes for whom he is responsible, could only be aided by a warship.

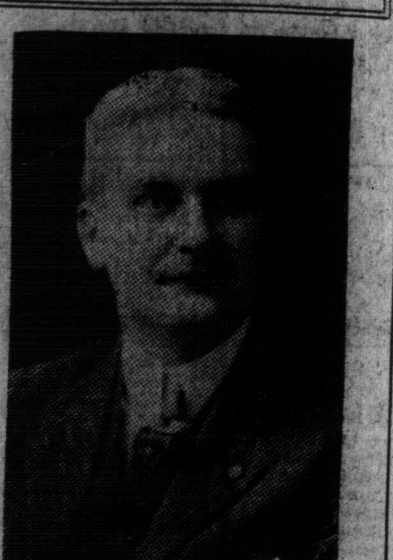

Asked if he would be satisfied with the protection that could be given his interests at Turpan by the United States battleship Louisiana, Lord Cowdray answered: "Certainly. It is bound to protect my interests."

An Old Concession. Lord Cowdray expressed the opinion that he had made a great mistake in keeping quiet so long under the charge that he was "a concession monger." He said the last oil concession he had obtained from the Mexican Government was at a time slightly under eight years ago. His company had the right to bore on any government land, a right which, he added, had not been exercised to the limit. Any request he had made to the Mexican Government since the granting of the last concession, Lord Cowdray said, had been for facilities to carry on his oil business, such as the building of railways and pipe and telegraph lines, and for certain customs exemptions.

War of Oil Barons. "The real offence he had committed in Mexico," Lord Cowdray continued, "was in daring to invade the territory of the Waters-Pierce Oil Co." Since then, he said, he had been bitterly pursued and had been the victim of a press bureau which misconstrued his operations. "Certain portions of the American press," he added, "have accused me of being a concession monger. President Wilson apparently does not remember that the American Government assisted in the building of the transcontinental railway in exactly the same manner that the Mexican Government has assisted my operations in Mexico, which is in a state that still necessitates governmental assistance for her development."

"I went in as a pioneer and had to have some guarantee back of the enormous sums I was spending to develop my oil properties. I might say at the same time I am not seeking and never have had an oil monopoly either in Mexico or Colombia."

SOME FRANK TALK EXPECTED FROM LIBERALS

Rank and File of Ontario Reform Association, Which Meets in Toronto Next Friday, Not Entirely Satisfied That Funds Are Used for Salaries to Mackenzie King and Others.

The meeting of the Ontario Reform Association, which takes place in Toronto next Friday, is likely to bring out some frank talk and interesting developments. As is usual at such meetings, organization will be the chief topic of discussion. An effort will be made to considerably extend and strengthen the present Liberal machine. An effort will be made to raise funds and to put the organization on a more businesslike basis.

The Liberal party in Ontario has three men who have been drawing pay for doing party work. Hon. W. L. Mackenzie King has been receiving an annual salary of \$2500 a year. F. G. Inwood has been in receipt of \$2000 a year and W. F. Summerhayes has also been on the payroll. All Not Satisfied.

The rank and file of the party are not entirely satisfied that the funds of the party could not be spent to better advantage. Just how strong this feeling is will not be known until the meeting is called to order. Certainly there is bound to be some criticism of the work which the organizers have done during the past year. It is expected that Mr. King and his associates, who have usurped the Liberal leadership of Ontario, will put up a strong defence to maintain the control of the organization. They will point to the result in South Bruce as evidence of their usefulness and ability in party management. The other side, however, claim that Mr. Truax was not elected by the Liberal organization, but won thru his own efforts and in spite of the organization. The time apparently is ripe for an interesting family discussion in the Liberal ranks.

TRIO OF BANK SWINDLERS WORKED BRAND NEW SCHEME

Charles Ross of Montreal, Last of Three, Arrested Last Night for Alleged Fraud on Imperial Bank.

In the arrest of Charles Ross of Montreal by Detective Armstrong of a fraud charge last night, the local police have ransacked up the third of a trio of the cleverest bank swindlers in the country. Ross is credited with half a dozen aliases and it is not even certain that Ross is his right name. On Tuesday evening last Charles Kahn and William Rilly were taken into custody on temporary charges of vagrancy, pending the arrest of Ross. The trio's operations in Toronto bank swindling. Last week Kahn and Rilly opened a joint account at a branch of the Imperial Bank, depositing \$300 in cash. About an hour after the deposit was made Kahn cashed a cheque for \$150, and later in the day Ross, this time using the name of Charles Rosenberger, proffered a cheque for \$150, signed jointly by Kahn and Rilly, and closing out the account. The bank cashed both cheques, and shortly after the second \$150 had been turned over to Kahn he rushed into the bank asking to see how much was at balance on his account. He was informed the account had all been drawn, and was shown the second cheque, which he vehemently declared to be a forgery, and the bank should not have cashed it. Examining the cheque, he pointed out to the bank manager that in an ycase it was dated a day ahead and could not legally be cashed until the day after. Kahn secured the services of a solicitor to have the bank make good the \$150 cheque which he declared was a forgery. The claim of the police is that the three were working together in an attempt to defraud the Imperial Bank out of \$150.

A New York Success Re-Staged. Since last season when "The Poor Little Rich Girl" was presented in New York City, Klaw and Erlanger, the owners, had the play re-staged and made more elaborate in scenic and electrical effects by George A. Highland, the man who staged "Oh! Oh! Delphine."

TORONTO WILL HAVE 8 SEATS UNDER REDISTRIBUTION BILL YORK COUNTY AS ONE RIDING

Fifty Thousand Will Be Unit of Population — South York Will Be Merged in Toronto — Etobicoke and Scarborough Townships Also Will Come Into Toronto — Russell, Stormont, One of the Lanarks and Brockville to Go.

(Special to The Toronto World) OTTAWA, Nov. 21.—It has been definitely decided that the government will bring in its redistribution bill at the forthcoming session of parliament, and The World today was informed of the government's proposals regarding Toronto and the Yorks. The unit of representation for cities will be about 50,000, and so Toronto, with a population of 400,000, will have eight seats. South York will be merged in Toronto, and the major portion of the present constituency will form one of the Toronto seats. A portion of Centre York may be merged in Toronto. Four seats which Ontario will lose as a result of redistribution will be in eastern Ontario, where the proposal is to cut off Russell, Stormont, one of the Lanarks and the pocket riding of Brockville. There will be several new constituencies in northern Ontario.

One Riding of York. It is proposed to put the Townships of Etobicoke and Scarborough, which are now in Centre York, with a population of 11,000, into Toronto, and the balance of 15,000 into one rural riding, which would be York County. Either this will be done or it will be decided to merge a portion of Centre York in Toronto and make two rural ridings, North and South York. North York, which has now a population of 22,215, would under the former arrangement have a constituency of 37,000, which would bring it somewhat above the unit for rural constituencies. The rural unit will be about 30,000. Of course, the proposal is subject to revision, and there may be an alteration when the government comes to consider the whole bill.

MAKERS OF BOMBS ARE ARRESTED IN CALCUTTA Discovery of Bomb Factory Clue to Inner Circle of Anarchists.

CALCUTTA, Nov. 21.—(Can. Press.)—A police raid on a suspected house in Calcutta today led to the arrest of four men and the discovery of a bomb factory. A quantity of correspondence found in the building is believed to give a clue to the inner circle of the anarchistic conspiracy which has resulted in many recent outrages, including the attempt to kill the viceroy with a bomb at Delhi last December.

MAN WANTED FOR MURDER AT THE SOO POSING AS SNAKE CHARMER WHEN CAUGHT

Joseph La Rue, for Whom Special Reward Was Offered After He Broke Jail, Will Now Stand Trial.

Joseph La Rue, a sullen-featured French-Canadian, sat for a few moments last evening in the office of the provincial police in the custody of a special officer, while arrangements were being made for his removal to the Soo. He is charged with murder and will face in addition the charge of jail-breaking, having decamped suddenly in that manner early in the spring. La Rue was the subject of a special reward proclamation issued by the Ontario government months ago. Following his escape the provincial officers were cleverly evaded and the fugitive made his way across the line. Two Detroit detectives on the look-out for suspicious characters recognized La Rue in a moving picture theatre, where he was posing as a snake-charmer and he was arrested at the close of the performance. Special extradition arrangements were made and Provincial Officer Foster took him in charge. The charge on which he is held concerns the murder of his wife, while living in the Soo region.

WALTER MAUGHAN AGAIN PROMOTED

C. P. R. Official Goes to Montreal as Assistant General Passenger Agent on December First.

Two important changes in the officials of the Canadian Pacific Railway go into effect on the first of next month in the advancement of Walter Maughan, assistant district passenger agent at Toronto, to the position of assistant general passenger agent, with headquarters at Montreal, and the advancement of C. F. L. Sturdee, chief clerk to Mr. Stitt, the general passenger agent at Montreal, to succeed Mr. Maughan as assistant district passenger agent at Toronto. Walter Maughan entered the service of the C.P.R. as ticket clerk in the old York street ticket office in March, 1892, where he worked for four years, and then was transferred to the city office as city passenger agent. He was appointed assistant district passenger agent on Oct. 1 of this year. C. F. L. Sturdee is a C.P.R. employee of 18 years' standing, starting with the company as clerk in the passenger department in St. John, N.B. Three years later he was transferred to the Toronto office as excursion clerk, and twelve years ago was transferred to Montreal as chief clerk to the general passenger agent.

Exclusive Features in Men's Winter Coats. Men who would be well dressed should see the unique showing of winter coats at Dime Store, 110 Yonge street. These coats are superbly tailored from the choicest imported materials, including many of the famous Hawick and Galashiels weaves from Scotland. There is a variety of chinchillas in blues, greys and browns, also an exclusive line of blanket cloths, naps and frieses. The superior workmanship, combined with the distinctive touches imparted in each individual coat, leaves nothing to be desired. The prices are extremely moderate for such handsome garments, ranging from \$22 up.

WEST SHORE RAILWAY PROBE CASE TO ABRUPT CONCLUSION

Minute and Account Books of Defunct Company Are Missing, Witnesses Cannot Remember Things and Investigation Has Come to Inconsequential Ending.

To the intense disappointment of municipal representatives from the shore counties of Lake Huron, where the ill-fated West Shore Railway was launched on its brief disastrous career, the investigation before the Ontario Railway Board yesterday came to an abrupt and inconsequential conclusion. The effect of this was the more apparent because of the meteoric flash of evidence at the previous sitting which promised some startling information on the management of the enterprise. Procedure was impossible, however, and the hands of the prosecuting counsel were tied by the lapse of memory of the chief witnesses and the mysterious disappearance of the minute and account books of the company.

J. W. Moyes, the controlling spirit of the railway enterprise and the office of the late S. C. Smoke, who deny any knowledge of the whereabouts of these documents, and on them practically the whole hope of tracing the huge expenditures was based. The evidence of the last day, however, went to show that the existence of the Huron Construction Company, which was under contract to perform the work, was even more "ghostly" than the chairman of the board thought. One of the directors of the company, who was directed to perform the work, was in fact in ignorance, although associated with it every day. Robert, the railway engineer, was learned to have been on the payroll of the construction company as well, and that his salary in nearly every case came from the latter. The reconciliation in this matter had been left to Mr. Moyes.

Mr. Moyes was evidently the whole works, remarked a member of the court.

Could Gain Nothing.

As to the personnel of the construction company the court could apparently gain nothing. The fact stood that at a meeting of the railway directors the tender of these people swept all before it, and was adopted with no discussion. The minutes of that meeting were not entrusted to the secretary nor those of any following. Although it was a business custom for him to handle this matter he had never acted in that capacity, but left it to Mr. Moyes and Mr. Smoke on their advice. He was a secretary in name only.

Mr. Proudfoot commented rather bitterly on the silence maintained by Mr. Moyes, who above all held the knowledge that would have hastened the inquiry. In adding for a postscript he made it clear that there would be some very energetic work done in the search for the missing papers. The firm of Watson and Smith had volunteered assistance possible, and it was hoped to also gain some of the payrolls which had also, for some strange reason, been taken out of the secretary's hands and gone to the Toronto office, whether they had disappeared.

The sums which Mr. McEwan could remember as having passed through his hands totaled \$145,000, of which the bulk had gone to the construction company and the rest into the Moyes trust account.

A Severe Gilling.

The examination of John McEwan, of Goderich on the directorate, took the nature of a severe gilling. Mr. Proudfoot, who was incensed over the freely confessed ignorance of Mr. Moyes and his associates as to the present location of the account books, Mr. Moyes appeared according to subpoena, but declined absolutely any knowledge of papers that might throw light on the investigation. He was replaced in the box by Mr. McEwan.

His first statement was in the effect that the supposed secretary of the railway was that in name only. He had never kept the minute books or entered the business therein. Mr. Moyes and Mr. Smoke had handled all these matters as he knew that the minutes were written beforehand and passed afterwards.

He spoke of a meeting on April 7,

Thousands of women suffer from headaches, backaches, dizziness, languor and nervousness. Few realize that their misery all comes from the bad state of their blood. They take nothing for these head aches, another for their stomach and a third for their nerves. And yet all the while it is simply their blood that is the cause of all the trouble. Dr. Williams' Pink Pills will cure because they actually make new, rich, red blood, which reaches every organ and every nerve in the body, carrying with it a new health and new strength. Mrs. W. M. Acorn, Charlotte, N. H., says: "Before I began the use of Dr. Williams' Pink Pills I was one of the most miserable women living. For more than three years I lived a life of constant dread. I was taking weak pills that I could not be left alone. If I walked from one room to another my heart would palpitate so violently that I feared I would faint. I was continually sending for the doctor, who told me I had no blood and that my nerves were shattered. Notwithstanding his treatment I did not get any better. I could not keep anything on my stomach, and the least thing would make me sick. Then my trouble was complicated with rheumatism, which became so bad that I had to be lifted like a child, and the pain was almost unbearable. I was in this deplorable condition when I bought and read of Dr. Williams' Pink Pills, and got me a supply. When I had taken half a dozen boxes I felt much better, and could go about the house. I kept on taking the pills until I had used twelve boxes, and I can truly say that my blood is now in good condition. I do not think I would be living now but for Dr. Williams' Pink Pills. I wish I could persuade every woman who is sick to follow my example, for I have proved that these pills are the most desperate cases, and I consider myself a living witness of the fact. You can get these pills from any medicine dealer, or by mail, for \$2.00, or by sending for a box of pills from Dr. Williams' Medicine Co., Brockton, Mass."

D. R. B. Engineer On Yonge Street

George W. Mountain, chief engineer of the Dominion Railway Board, accompanied by other officials, took leave yesterday afternoon that part of the board's work for the year. Mr. Mountain, who has been in the service of the board since 1908, was the only member of the board to be re-elected for the coming year. He will be succeeded by Mr. J. W. Moyes, who was re-elected for the coming year.

1911, where the tenders for construction were received. That of the Huron Company had been chosen and later Mr. Moyes had produced the agreement which was passed. On the estimate of Engineer Roberts, \$22,500 was the price per mile agreed upon. Moyes represented 120 shares. Smoke and Ewan 10 apiece and Sinclair and Williams, two (Goderich men, held ten apiece, but these were later bought up by Moyes and their connection ceased.

Known No Directors.

To vindicate the term of "ghostly," which the court ascribed to the Huron Construction Company, the secretary in the box stated that he knew absolutely nothing of its personnel, although he did business with it every day. He went to the parliament buildings on one occasion to find out if Moyes whom he had asked had said that he did not know.

The affirmation of the railway and the construction company appeared in peculiar fashion in the next few moments. Roberts, the railway engineer, was acknowledged to be the directing power of the construction company, whose employ was he?" asked the court.

Separate Accounts.

The witness said that he had at one time advised the keeping of two separate wage accounts, for Roberts and Moyes had thought it good suggestion but that it would work out all right this way.

When the railway ceased, \$1500 was owing to employees and the minute book he had seen only as a bundle of typewritten papers.

IMPORTANT PICTURE SALE.

What is the most important sale of the work of British artists that has yet happened in Toronto will take place on the afternoon of Thursday, November 27, at 2.30 p.m., in the splendid art gallery of Chas. M. Henderson, 114 Broadview St. The entire stock of oil paintings and water colors accumulated by the well-known collector, Mr. Henderson, in Montreal, Toronto and Winnipeg during the past ten years. Mr. Henderson has found it necessary, owing to increasing demands on his time in London, to place the management of his Canadian business in the hands of his son, Mr. Albert Henderson, and to restrict his field to the production of those artists whose productions are the exclusive specialty of the Henderson gallery.

This collection is rich in typical examples of the work of the Victorian and later schools of British artists. It is comprised of landscapes by Sir Alfred East, R.A., president of the Royal Society of British Artists, now of international reputation, and Sir Ernest Albert Watkiss, president of the Royal Society of Painters in Water Colors, whose works are known and admired wherever the special English school is known. Still others represented are Sir Lawrence Alma-Tadema, interpretative reproducer of ancient Roman life and far removed in time, the famous Glasgow school has a worthy representative in James Paterson of the Royal Scottish Academy. Other British artists included are Thomas Faed, R.A.; Frederick Goodall, R.A., and many others. Works by J. M. W. Turner, J. R. MacGillivray, Mauve, Le Sidaner and others are also included. This whole collection will be on view in Messrs. Henderson's gallery on Wednesday, November 26, and the important illustrated catalogue will be furnished on application to the auctioneers.

A Smooth, White Skin That Defies Weather

(From The Woman Beautiful.)
During the coming months of biting winds and intense cold, you who would keep your skins smooth, white and velvety, should turn your attention to an invigorated wax. This wax will so effectively remove a chapped, roughened or discolored surface by gradually absorbing the weather-beaten cuticle the complexion is left in perfect condition, and even the beauty of expression appears more pronounced. If your skin is pimply, freckled, coarse, sallow or overworked, why not shed it? One ounce of ordinary medicinal wax is to be had at any drug store. It will completely remove the most unsightly complexion in less than a fortnight. Use the wax nightly, like cold cream, washing it off mornings.

If weather, age or poor health has marred your face with wrinkles, here's good news. You can quickly remove every line by using a harmless, refreshing face lotion prepared by distilling half pint of water with a few drops of another skin. The more you use the appearance, even after one application, will astonish you. It will remove all the skin's impurities and give you a smooth, clear complexion.

At the last regular meeting of the General Ministerial Association of Toronto, Rev. Dr. Wilson, in speaking of the disaster and loss of life on the Great Lakes, moved the following: That we extend our sympathy to all families bereaved in the recent disaster, and heartily commend the action of raising by public subscription a fund for relief, and that a copy of this resolution be sent to the press.

Being seconded by Rev. Dr. Turnbull, the resolution was unanimously passed.

EFFICIENT HOUSEKEEPING
BY HENRIETTA D. GRAUEL
DOMESTIC SCIENCE LECTURER

Turkey Lore.

It sounds very simple to direct housewives in search of the wherewithal to make a feast to "select a young, tender turkey." In reality it is difficult to choose a fowl from among the heaps of dressed poultry offered on market at this season. The best plan is to select a live turkey and fatten it on good feed for a week before killing it. Where this is not practical the following tests may be helpful:

Pinch the skin of the bird where the wing joins the body. If it breaks easily, the turkey is probably young. I say "probably," because poultry dealers have a habit of plugging the dressed fowls in scalding water to "plump" them. This practice makes the skin tender and deceives the purchaser.

In young birds the cartilage at the tip of the breast bone will bend easily, and this is a better test than above.

Having caught your turkey, clean it immediately and hang in a cool place until ready to stuff. Then rub it inside and out with salt, pepper and soft butter. Stuff the breast first and sew that opening up, then stuff the body lightly and skewer or sew the large opening shut.

Our best teacher, Experience, says that one hour's baking for every three pounds of turkey is the proper time allowance. After the first hour the oven should not be very hot, but the heat should be kept up.

A covered roasting pan is the ideal utensil for baking the turkey, for there is no loss of aroma thru evaporation and no basting is needed. These roasters save their initial cost quickly in the decreased amount of fuel used with them.

If you are too fond of turkey why not have a brace of rabbits or a fine plump duck this season and invest the money you would have spent for a turkey in one of these roasters? Most people, I believe, would prefer to retrench in some other way than at the expense of a beautiful feast. Yet, I do wish every woman who has to cook might have all the implements that make her work simpler.

But to get back to our stuffed turkey—If you must bake the creature in an open pan fasten thin pieces of fat pork over the breast and legs with small skewers; wooden toothpicks will do if they are smooth and strong. This keeps these parts from drying out and gives richness to the flavor of the gravy.

THE GARDE
CONDUCTED BY RACHEL R. TODD, M.D.

A Game Just Taking a Look Around.

I found this game in an old magazine. It will be of interest to nursery mothers who take time to enter into their children's fun, understanding that this way is the best and easiest form of discipline.

Since "The Telephone Game," requires nothing but our mouths and brains it can be played when I am ill or busy with my mending and sewing. However, I can see how letter paper and pencil will add to its educational value in making figures, and in time, in writing. We simply call to each other from room to room when it is more convenient.

First I am the lady and she is the store, then she is the lady and I am the store. When I am the lady, and ordering, I ask the price of each article and correct her when she gives prices ridiculously high or low, telling her what they ought to be. In fact I ask all sorts of questions as to my purchases, and she is rapidly getting an idea of the current prices of foods and clothing.

When she calls me up I insist upon her speaking just as she would in a real telephone. She must ask first if she has the number she has called for, then give promptly her own name and address. Then she says she would like to have me "charge and send the following order," or send it C. O. D., as the case may be. Then she gives me her order.

I ask, for example, how many yards she wants in each article; if the materials must match, and how many pieces she wants in the new china set she is ordering; and I explain the difference between the various articles. When she asks how she can get herself into all sorts of imaginary tight places, to see how she can get herself out of them.

We use the different departments of the store until we have furnished the house and sometimes this runs on for days. Then we supply the kitchen and pantry, while later we give clothing and occasionally Christmas presents, always being careful to keep our prices in imaginary buying places to what we can really afford, and lower. The times are such that this is not a bad idea in itself.

She is sometimes discouraged over our daughters later in life, because of ignorance along these very lines, when it is often we mothers who are really to blame. We must teach them and we must begin early. Children have a great deal more intelligence than we give them credit for, and they might as well be absorbing something worth while along with their childish play.

The honorary governors who will visit the Toronto General Hospital during the week commencing on Nov. 23 are: Messrs. Thomas B. Greening and John D. Ivy.

A DAILY STORY FOR CHILDREN

The Little Gray Mouse

Once upon a time a little gray mouse lived with its small brown cousins in a warm nest made of soft old rags and bits of cotton. The little brown mice laughed and made fun of the gray mouse because its fur was gray, and not sleek and soft like theirs, and they ate and drank and only laughed and kept right on bringing home dainty bits of cheese, pieces of sugar, and any thing he could find that he thought they would like.

You see he was older than his cousins, and he was allowed to go about by himself. They had often teased to go too, but their mother had never allowed them out of her sight, for she told them there was a great big animal called a cat that was always looking for little mice, and would be very quiet, and not move, until the little mouse was right close to its big paw, then it would reach out quick, grab the poor little thing and eat it all up.

One day they begged so hard to be allowed to go with their gray cousin, and the little gray mouse begged too, and said he would take care of them, that their mother said they could go, but they must be very, very careful and watch out for the cat.

What fun it was to run and escape! Their cousin showed them about. He found the nice pieces of cheese and they ate and drank and were very happy. But the little gray mouse was quiet, and just ran around and around. The gray mouse could have gotten away, for he had been there a great many times, but he wouldn't leave his little cousins. He ran straight for the hole and they scattered after him, and the cat after them all.

The little gray mouse let them all go, but he started in, but too late. The cat's sharp paw was on his tail and held him fast. What could he do? "Pug-tug" perhaps he could get away. "Pug-tug-tug" he tried, but he was free, but half of his beautiful tail was gone.

How could he go home to his cousins now? It was bad enough to be gray, but gray and no tail, what should he do. Just then he felt something soft and turned to see his brown cousins beside him.

They said: "Poor cousin we will never laugh at you again, for you saved our lives and now you are here to save your own life, and we shall always love you, little gray cousin."

Christmas Notes from Various Departments in the Kay Store

A collection from Austria of quaint and interesting Art Objects in China and Pottery is displayed on the First Floor. We predict a quick sale of many of these pieces to people who like to give unusual and exclusive things at Christmas.

Some marvellous copies of Persian, Chinese and other Eastern Rugs have arrived from England, and may be seen on the Ground Floor.

A fine collection of Carved Furniture, reproducing the designs of Stuart and Jacobean days, in high-back Chairs, Settees, Tables, Dower Chests, etc., for halls and living-rooms, is arranged on the Second Floor. See illustration.

Already a great number of pieces of Pottery, Fancy Furniture, etc., have been put aside for delivery to certainfortunates on or about Christmas Eve. The display of such articles on the First and Second Floors is a most interesting one.

A number of Fine Antique Clocks, and many handsome modern productions in fine oak or mahogany cases are displayed on the Second Floor. Some are fitted with Westminster or Whittington chimes.

The Men's Wardrobes on the Third Floor are marvels of compactness and convenience. If you want to please a man at Christmas give him one of these articles.

The display of Portable Electric Lamps, Lamp Shades, etc., on the Fourth Floor is decidedly worth seeing. It includes many novel and artistic designs that would be highly appreciated as Christmas gifts.

Put Oriental Rugs down on your list of gift things for Christmas. They are highly decorative, endlessly durable, and come in great variety of sizes and prices. They are displayed on the Ground Floor.

KING'S PRIZE WINNER FORMALLY APPOINTED

OTTAWA, Nov. 21.—The appointment of Private Hawkins, the King's prize winner at Eley's this year, to a position in the Customs department at Toronto was definitely made by Hon. J. H. Reid this morning. Col. J. A. Currie, M.P. of the Highlands, Hon. A. E. Kemp and other members presenting Toronto, heartily espoused the cause of Private Hawkins and met with a ready response from the minister of customs.

IMPERIAL FEELING IS RULING STRONG

England and Dominions Must, However, Intermingle More Freely.

LONDON, Nov. 21.—(C. A. F.) Speaking at a reception given by the Victoria League to members of the parliamentary association, who have just returned from a tour, Lord Emmott returned in the highest terms to the imperial sentiment that he had found in everyone of the dominions overseas.

Continuing, Lord Emmott said that when he looked to the future he was forced to realize that in some forty or fifty years a great proportion of the population in the overseas dominions would be made up of those who had not seen the United Kingdom or had not personal knowledge of it. It would, therefore, be all to the good if we visited the dominions more and encouraged their people to visit us more.

Lord Emmott said that he had the pleasure of pointing out on one or two occasions that the people of the dominions were not always accurately informed on our affairs, but there was not the slightest doubt that more interchange of visits was absolutely necessary for in that way only could they become more informed about our affairs and the better they understood one another, the greater would be the empire's gain.

CHURCH STARTS FREE OF DEBT.

QUELPH, Nov. 21.—(Special.)—The congregation that has been worshipping in Knox church branch for the past two years held a meeting to perfect further the organization. Rev. Dr. McMillan, who presided, intimated that the congregation of Knox had decided to hand over the property unconditionally and free of debt to the new congregation. The new church will be known as St. Paul's.

COAL GARS JUMPED SWITCH
ST. CATHARINES, Nov. 21.—(Special.)—Two coal cars in the fore part of a heavy freight train jumped a switch in the Merriville yards of the Grand Trunk today and ripped up the track and platform between the rails, but no person was injured. Traffic was interrupted but for a short time.

"ACCIDENTAL DEATH" RETURNED
ST. CATHARINES, Nov. 21.—(Special.)—A verdict of accidental death was returned by the jury in the inquest into the death of John Vesagie, who was killed on a Niagara, St. Catharines and Toronto Railway train at Thorold a week ago. The jury recommended that the company take precautions against use of the trestle as a footpath by the public.

The Boxing Draw Final Bouts Tonight

Fifteen bouts constituted the city amateur championship boxing tourney's second night's program at the Arena, and nearly every one of them brought out clever boxers. Five were decided by the short route, but the rest were well fought battles as a rule.

Sixteen semi-finals and finals will wind up the twenty-first city amateur tournament tonight in the Arena Gardens, and the visitors from Boston, Buffalo and Hamilton look like taking down the bulk of the prize.

Toronto (leaders of the Eastern League) will have Hamilton City as their opponents at Scarborough Beach today in what promises to be the keenest contest of the season in Toronto. This game will decide the championship of the pro league and the resting place of the Long Challenge Cup. Hamilton City are coming over on the 12:15 train, accompanied by their loyal band of rooters, and will have every player epic and span for the game. Toronto school boys will be admitted free to view today's game. A prompt start will be made at 3.15. Referee Repton will have charge of the game. Following is the line-up of the rival teams: Hamilton City: Goal, Coombes; right back, McCulloch; left back, Hunter; right half, Gray; centre half, Gowen; left half, Gardner; outside right, T. Wilson; inside right, R. Wanda; centre, Howison; inside left, S. Wilson; outside left, Eadie. Toronto: Goal, Williams; right back, Campbell; left back, Brownlee; right half, Marshall; centre half, Grant; left half, Cowan; outside right, Forrest; inside right, Coker; centre, Scott; inside left, Sinclair; outside left, Rowe.

Wyckwood play St. Giles in a league game at Cedarvale Park. All players are asked to take note. St. Giles players take Avenue road car to terminus, then St. Clair car to Vaughan road, walk north: Will Mr. Milep kindly take this notice as to place and time? Kick-off 3 p.m.

In the M.Y.M.A. Football League section B, Clinton play Westmoreland this afternoon at 3 o'clock on Bickford Park. As the two teams are tie for first place and the winner goes in to the semi-finals, a good game is expected. All Clinton players and supporters be on hand early.

BASKETBALL

A meeting for the purpose of forming an Intercity Basketball League will take place Tuesday evening, 25, at eight o'clock, at St. Andrew's new club rooms, 71 Simcoe street. Mr. Verral requests nicely announced whether the Cadets will make application to be admitted. Cadets favor the step. The commandant will have to approve of it.

BLUE SHIRTS GET MARITIME PRO STAR

Jack Walker Signed Up--Cadets for the Intercollegiate--Hockey Gossip.

The Beaches Hockey League will reorganise for the season at 1913-14 at a meeting to be held at the home of the secretary, on Friday, Nov. 22, at 8 p.m. sharp, when all last year's clubs and any new ones are earnestly requested to be represented, as the selection of officers for the coming season and several other important matters will be dealt with. Any further information in regard to this league may be had by applying to the present secretary-treasurer, F. D. Smith, 217 Woodbine avenue or by phoning Beach 906, any evening.

The Toronto Rowing Club Senior O. H. A. team have completed arrangements for a trip to Cleveland, where two games will be played with the C. A. C. seven on Friday and Saturday, Dec. 12 and 13. Ten players will be taken on the trip, and a large number of the club members will accompany the team.

Manager Murphy of the Ontarios on Thursday night received word from Howard McNamara of Sault Ste. Marie, Ont., to the effect that he would be in town in a few days to talk over the matter of signing for the coming season. George McNamara will also be with the Ontarios, provided a suitable contract is offered him.

President Quinn of the Toronto N. H. A. team is in receipt of the signed contract of Jack Walker of Fort Arthur, Victoria in the Maritime Provinces League, and was considered the fastest forward in the league. Walker has been notified to report here for practice with the rest of the players on Dec. 10.

The cadets of the Royal Military College have decided to enter the senior series of the Intercollegiate Hockey Union. When the commandant of the college approves their wishes, they will make a formal application for admission to the series.

Burlington is expected to enter a team in the O.H.A. intermediate series. Jack Burrell, who played left wing for T.R. & A.A. last winter, and Laird, the Toronto Canoe Club Junior O.H.A. goalkeeper, are both slated for the Toronto Rowing Club team this season.

Prof. M. B. Baker of Queen's University, president of the Intercollegiate Hockey Union, will likely call a meeting of the union in the course of a week's time. Where the gathering will be held is not known, but it is likely it will be held in Kingston, as it is the most central place for Varsity and McGill representatives, and very convenient, of course, for Queens and R.M.C. The question as to whether or not R.M.C. will enter the ranks will in all probability be settled at this meeting. It has not been definitely announced whether the Cadets will make application to be admitted. Cadets favor the step. The commandant will have to approve of it.

With the National Hockey Association paying \$250 per season for referees, whether they work or not, there will be a brand run on the part of would-be officials. The scheme will be considered tonight at the annual meeting of the pro union. Eight will be appointed, and the referees will be subject to call at short notice by the president of the association, after the manner of umpires in baseball. The matter next in importance to be discussed is that of penalties. The complicated and ineffective system of last season was entirely unsatisfactory.

Eddie Gerard upset the expectations of the Ottawa Hockey Club when he turned down the offer which Ottawa made him two weeks ago. Gerard, who was offered a two-year contract calling for \$5000, informed that club that he intended to remain amateur and play with New Edinburgh. He is anxious to paddle and compete at football and contends that the offer is not worth the sacrifice of the other sports.

CHESS CLUBS PLAY FOR EDDIS SHIELD

The first of the series of matches of the season for the Wilton C. Eddis Shield between the University and Toronto Chess Clubs, will be played at the rooms of the Toronto Chess Club, northwest corner of King and Jarvis on Monday evening, the 24th inst., at 8 o'clock. All players are invited.

Among those to play for the Toronto Club will be: J. S. Morrison, Dominion champion; Sidney R. Gate, city champion; Wilton C. Eddis, club champion. The following Toronto Club players are named to be present at 8 o'clock: W. L. Branton, W. C. Eddis, E. B. Froese, F. J. Greaser, W. F. O'Hara, M. Sim, F. L. H. Sims, P. T. Butler, E. J. Greenstreet, Bishop W. D. Reeve, Rev. Francis M. Dean, Rev. A. L. Crews, W. H. Salsbury, J. Branney, J. L. Clark, W. H. Perry. On the University side will be found such well-known players as Professors Mayor and Fernow, also Messrs. N. S. Shenstone, S. F. Shenstone, C. H. Freeman, the last three former University champions, and R. B. Hunter, former University and city champion. THE PHILLIES' PROGRAM.

PHILADELPHIA, Nov. 21.--William F. Baker, president of the Philadelphia National League Baseball Club, announced today that the Phillies would train next year at Wilmington, N.C. Baltimore, Jersey City and other minor league clubs will meet the Phillies in the practice games.

ANOTHER "BIG" LEAGUE.

CHICAGO, Nov. 21.--Formation of a fourth "big league," to aid in a reported fight of organized baseball against the Federal League and its invasion of protected territory, is under way, according to a story printed here. The new circuit has the backing of organized baseball, says the story, and is to have teams in Pittsburgh, Cincinnati, Columbus, Indianapolis, Detroit, Cleveland, Milwaukee and Chicago. It will have a schedule not conflicting with the American or National League, but will not be so careful about staging attractive rivaling the Federal games. George Tebeau of the Kansas City Association Club is named as the one who has planned the circuit.

SWIMMING EXHIBITION.

Geo. H. Corson, who is without doubt one of the best instructors in the country will give a free exhibition in the West End Y.M.C.A. tank tonight at 8.30. To all men who are interested in this art, this will be the time to see one of the best swimmers in action. The following will be a few of the strokes and fancy swimmer. 1. Imitation of the porpoise and dolphin. 2. Australian crawl. 3. Trudgeon. 4. Revolving or spiral strokes. 5. English overarm. 6. Marching. 7. Racee's turn. 8. Swimming with hands and feet tied. This exhibition is free to all men.

Another Unique Tailoring Special

We are glad to be able to announce another important Saturday and Monday offer of Suit or Overcoat, made to order, for only \$10.

This is made possible by the fact that our buyer recently secured a lot of Suitings and Overcoatings from an English Mill at a bargain price--less than half regular value. The saving on these Suits and Overcoats, therefore, is on the cost of the cloth, not on the workmanship. The regular value is from \$18 to \$22. The Sale Price:

Suit or O'Coat Made to Order \$10

We guarantee every garment we make to be satisfactory in every way. Come as early in the day as possible. Remember that this special is for Saturday and Monday only. The goods will probably all be sold by Monday night.

CRIME DECREASE SHOWN IN REPORT

Falling Off in Number of Cases Reported in Ontario.

The report of Joseph Rogers, superintendent of provincial police, records an appreciable decrease in the number of cases handed during the year.

Mr. Rogers is inclined to attribute the falling off of offences as traceable to the increased surveillance of the Porcupine district by Inspector Boyd and an augmented staff.

Under the liquor license regulations, 235 prosecutions, 179 convictions, and 38 discharges were registered.

There were 191 prosecutions under the game laws, and 27 convictions.

A METROPOLIS IN THE MAKING

ELBERT HUBBARD

Once upon a day I wrote a booklet entitled "A Little Journey to the Home of James Oliver." James Oliver is the man who invented the Oliver Chilled Plow.

The last Saturday in October was a beautiful, Indian Summer day. It was too fine a day to work, and so I cranked up the machine, and in fifty minutes I was in Buffalo.

Foundations were being put in for piers, docks, railroad terminals. I saw a thing which was the sight of a lifetime—a metropolis in the making!

Port Weller will be a place to work, a place to live in, and a place to make money. Here the crude products of nature will be transformed into things of use and beauty.

Wise is the man who invests in Port Weller property. The man whose name this city bears is only the chief spirits in the making of the place, and happy will be Chief Engineer Weller in the rich privilege that is his of building a monument to himself, and at the same time adding to the happiness and the prosperity and well-being of a great number of people.

Ships from London will pass through here to Port Arthur and bring back the treasures of the prairies, passing through Port Weller out to the great salt sea, and over to Great Britain.

Within a radius of 40 miles of Port Weller there is a population of over two million people. Canada can never go back, and neither can Port Weller.

"Buy land anywhere, and buy it quick," is the advice of James J. Hill, which means that the supply of land is limited, while there is no limit to population save food supply.

But there is a choice of land. Valuable land is where many prosperous people are. No, my little holdings in Port Weller are not for sale!

If you are interested in Port Weller and would like some further information, it will be yours for the asking. Fill this in and mail at once.

Weak and 5/8 mainly on offloading the loss...

ALL GRAINS DIPPED TO LOWER LEVELS

Reassuring News From Argentina Contributed to Easier Tendency at Chicago.

CHICAGO, Nov. 21.—Wheat closed weak and 5/16 to 1/2 net lower today, mainly on official figures largely reducing the loss in Argentina. Forecast for better weather caused an easier close in corn with prices at a not inconsiderable decline.

Official figures at hand today indicated that the loss on wheat in Argentina would be only five per cent, on a million and a quarter acres, in addition to the weakening cause, the market was depressed by prospects of large world shipments for the week.

Corn Heavily Unloaded. Heavy selling of corn by one of the leading shorts took price on predictions of better weather, which was expected to facilitate the movement of the crop. Prospects of increased arrivals in Kansas City and continued large receipts at Omaha were especially prominent among the bear arguments.

Prices continued weak and the market was narrow all day. The drop in hog prices at the yards was followed by heavy selling, which was said to be for local packers.

Advertisement for Dr. McLaughlin's Electric Belt. HAVE YOU A WEAK STOMACH? If so, you find life nothing but misery. Tortured after your meals by pain or an uneasy sensation in the stomach, with gas and belching, with constipation and a half-dead feeling, you can get no enjoyment out of business or pleasure. You need not suffer this way. My Electric Belt will cure you. As soon as you put it on you will find relief and by using it regularly for some time you will be entirely cured. Life will again become a pleasure instead of a burden. I have a very number of genuine testimonials from those who have been cured of this distressing malady. Read the following letter and you will then have no reason to doubt that Electricity, properly applied, can also cure you.

Press.)—Passengers who reached New York today from Naples, had a bad scare on Monday night, when an alarm bell sounded in a pantry and started a fire which spread rapidly to the saloon passageway and the foyer compartment. Officers and crew seized fire extinguishers and put out the flames after half-an-hour's work. A steward was severely burned.

Self-attained. The fruit is packed in boxes and banded high against the walls. The Northumberland and Durham exhibit was awarded first prize, and the honor was a well-merited one, for the apples shown are as close to perfection as it is possible to get. Their coloring is excellent, while the packing could not easily be improved upon, each of the 300 boxes containing 100 uniformly perfect apples. Those who arranged the exhibit deserve the highest congratulations. The Halton County display was close second. In fact, the

Looking for Things That Count

The treadmill of existence is for those only who do not aspire. The amount of money in one's purse has little to do with the enjoyment of many of life's best things. For instance, "The Russian Wedding Feast," by Makoffsky, has lent inspiration to many, many thousands during the last six weeks. Tonight it leaves its gallery on the third floor, much to their and our regret. They have found in it something that counted toward making the dull days brighter. For today only the opportunity remains. Do not let it pass.
