## British Gains in France, on the Asiago, in the Air--French Capture German Positions at Soissons

Gen. Foch Anticipates Proposed German Drive Towards Paris or English Channel Ports, and Strikes First, Catching Germans Unawares and Gaining Important Territory.

The front of the attack was 6000 yards in length and lay approximately between Vieux Berquin, on the orth, and Pont Tournal, which is 2000 yards northwest of Merville, on the south.

British Needed More Room. West of Merville the British and German lines here ad been jammed up almost against the edge of the Nieppe forest in places, with the result that the British felt a lack of elbow room for operations. It was in order to acquire more leeway that today's assault was

The objectives settled upon lay along the winding little stream known as Plate Becque, which bowed out toward the east in a semicircle back of the German lines. Prussians and Saxons were holding this zone, with a series of strong machine gun posts linked up with barbed wire.

The first stages of the drive were comparatively easy. In fact all the final objectives were reached without much difficulty.

At two strongly fortified farms near the centre of the line the enemy fought stubbornly, but was unable to stand out long against the furious onslaughts of the British, who attacked them from all directions.

The losses among the storming infantry for the en-Lire engagement were extremely light, which was due largely to the fact that the show was over before the enemy was able to organize serious resistance.

As a special feature of the program British troops on the left of the columns carried out a simulated attack of their own, which had an amazing result, adding nearly half a hundred prisoners to the bag. German Morale is Low.

The morale of the prisoners taken today was not high. These men and others captured recently in this sector have appeared to be much disheartened by their failure to get bigger results in their offensive. They had expected to get ahead much faster than they have.

These men have professed to believe that the United States was not going to be able to render much assistance to the allies. The helplessness of the United States is being preached assiduously to the troops by the German high command, and this propaganda has undoubtedly been having its effect among the men in the trenches.

With the German officers naturally it is different, for they have no delusions on the subject.

and the fighting proceeded thruout the day. By late afternoon, when this despatch was filed, the French had advanced considerably, taking a number of prisoners, and more were coming in. The allied troops had reached the outskirts of the Fosse-Bas-Cutry and St. Pierre Aigle, where a most determined struggle was progressing. The Germans had been ejected from a portion of the forest of Villers-Cotterets southward to St. Pierre Aigle. The French artillery was completely dominating the enemy guns.

### EX-CZAR'S DEATH CONFIRMED AND DENIED AT SAME TIME

One Report Says He Was Murdered, While Another Announces That He is in Good Health.

Amsterdam, June 28.—Western German papers just received here seem to regard the reports of the death of Nicholas Romanoff as authentic. The Russian newspaper, Novaia Zhizn, edited by Maxim Gorky, is quoted by The Hamburg Fremdenblatt as printing a Kiev report that Nicholas, while in a train with Red Guards, complained against being transferred from Ekaterinburg to Moscow and that he got into a dispute with his escort and was murdered.

The despatch adds that the daughters of the former emperor were under guard in another coach and that the fate of the former empress and the former crown prince is unknown.

A Berlin despatch says that, according to a telegram received there from Kiev a member of the soviet government announced that the reports that former Emperor Nicholas had been brought before a revolutionary tribunal and that he had been KERENSKY A FUGITIVE FOR SEVERAL MONTHS assassinated, both are incorrect. The government official added that Nicholas and his family were in good health.

The order gives the officials the right to sell, mortgage or vote upon the shares. Thomas Murvey, of the department of secretary of state, says that it is in the public interest that the business should be conserved and carried on, and that it should be under the control of the Dominion so that it could not be used for the benefit of the enemy, and to offset Canadian property held by the enemy.

It was intended that D. McK. McClelland, the Toronto manager of Price. Waterhouse & Co., should be appointed comptroller, but owing to his absence in England, and the necessity of taking some steps at once, someone to be determined upon will be named in the meantime.

The assets taken over include any right to name directors on the boards of the Brazeau Collieries and the Rocky Mountain Collieries. #### PROGRESS WITH RAILS **OVER BLOOR VIADUCT**

During the past two days good progress Rev. H. A. Berlis, minister Rhodes has been made on the work of the Bloor Avenue Presbyterian Church, returned street viaduct. The double line of rails yesterday to Toronto from Chicago, where between Broadview, west, and the main viaduct, along the approach, are now laid within a few yards of the bridge. A gang of men is now busy coating the car track bed allowance along the entire length of the main viaduct, previous to laying the ties and wood blocks. The concrete sidewalk on the south side of Castle Frank road, and the approach to the main viaduct, is now practically completed to the foot of the Rosedale bridge. The raising of the ground level on the west side of the fill-in is almost completed between Glen road and the head of Bioor and Sherbourne streets, and the work of widening the fill-in is steadily progressing from the entrance at Bloor sirect to Glen road. A number of teams are steadily engaged in dumping earth at the narrowest parts.

## CASUALTIES

Each nurse wears a locked bracelet of silver links, which are fastened to a small identification tag of silver, which is marked with the nurse's name in the centre and in the lower corner A.R.C.—U.S. They also wear a similar tag and chain round their necks. In case they are killed the latter chain and tag are taken in charge by the government and oventually sent home to their family. The bracelet is left on the wrist.

Each nurse carries a government insurance policy, generally about \$12,000, on which they pay out of their salaries about \$7 a month, according to their age. In case of death their beneficiary will get \$50 a month for twenty years. If they are incapacitated from wounds or illness they will get \$50 a month until able to take up their duties again.

He recognized the speech as being directed, largely in allied countries, especially England, to encourage those who may be inclined to be war weary, to believe that tolerable terms might be secured, and that, if these terms were not accepted, the war would go on indefinitely.

Lord Robert pointed out that Dr. von Kuehlmann, understanding somewhat the British mind, had been careful not to threaten, but had mentioned the german gains in the German gains in the matin streets of the city and as they swung thru the main entrance to the grounds the huge crowd cheered vociferously.

self? I knew that George would not be questioned, yet I had deliberately sent him from me because of doing something I knew he thoroly disliked. Then, too, I wondered again, as I so often had done, just why George had married me. He had frankly said he hoped to make me over and that had been all. But that did not give me a reason for making love to me, for wanting to marry me. Was it that the love a man had for a woman never lasted like hers did for him?

George was totally without sentiment. He disliked any fuss made over him and hated emotion of any kind I was naturally emotional, and in spite of my efforts had not been ablit to always think refore I spoke or acted. Now, I thought bitterly, I shall have to learn to count ten before open my mouth. Perhaps then I won's say things to annoy and anger my husband.

When George told me he was going out on business I never thought of rebelling and until Mr. Reeves would take me home. After a visit to my namesake who was asleep we played bridge, a three-handed game. Kurtz and Evelyn were both in such some humor, did so much to make the evening pleasant that the time slipped by very quickly.

About 10 o'clock we had a chaf...g dish supper, and I ate so heartly they both declared they didn't believe I had had any dinner. I hadn't eaten anything, but I said nothing to them of the reason.

It was after 11 when Kurtz left me at home. I had not taken my hat off when George came in. If he was surprised to see that I had been out, he was no more so than I was that he came home so early.

"I went over to Evelyn's for the evening," I said without waiting for any questions. "I was lonely and we had such a nice evaning."

to know that the money raised by the various branches in Toronto and now handed to the widow of the late Fred Moss, former secretary of the Riverdale branch, amounted to almost \$500. That his work for his branch was thoroly appreciated by every branch of the association was shown By Associated Press.

The British troops in Flanders, and the French forces further south apparently have anticipated the proposed German drive toward the English channel ports or Paris, and struck first.

Altho slight details of the manoeuvres thus far have been revealed is defended by General Foch, the allied commander-in-chief, as they were carried out synchronously. The strategy of the double stroke is apparent when it is realized that a successful German thrust where the British struck would have menaced the channel ports or a similar move in the south would have placed the French capital in jep-secretary might yet have been living had he not succumbed to overwork, and the branch is going to prevent any such possibility today.

TWO GAMES TODAY.

The Saturday half-holiday baseball fans have a treat in store this afternoon. Jack Dunn and his well-balanced Baltimore Orioles are the attraction at the Island Stadium with two games on the card. Dunn always has a strong team and those who-attend today are at least assured of some good baseball and considerable excitement no matter how the results go. Dunn's team, like all the others in the league, its made up of young players, and as Dunn has a reputation of "digging" the good ones out of the bushes, he promises that he has several who will make the big league grade soon. The Orioles and Leafs have grade soon. The Orioles and Leafs have been see-sawing in and out of third and fourth place for some time now. The series will give one or the other an advantage, as it is made up of only three games and one team must take the short end. On Monday Tom McCarthy brings along his Newark Bears for morning and afternoon games. Reserved seats and combination tickets are on sale at Moodey's.

The T. and D. directors are prepared to receive entries for the Dunlop Shield competition. As this competition is open to all clubs who are directly or indirectly affiliated with the O.F.A., and is emblematic of the city championship, all information regarding this competition can be obtained from E. Spencer, 180 Jones avenue, to whom entries must be made on or before Monday, July 8, on which date entries will positively closed and the draw for the first round be made.

London, Ont., June 28.—Norman W. Tovell and Frank Goforth, the Toronto Royal Canadian Yacht Club bowling pair, won the Shea Trophy here this afternoon, defeating W. J. Ashplant and J. A. Connor, of the London Rowing Club, by 14 to 11. The Shea Trophy is the consolation event of the annual Thisties Scotch doubles tourney, which concluded with the playing of the game.

Goforth eliminated Brown, of the London Thisties, in the semi-finals, while Connor defeated Farrow, of Ottawa.

In the game for third and fourth prizes Shannon and Farrow, of Ottawa, defeated Barbour and Brown by 14 to 13.

LAWN BOWLING AT BUFFALO. The International Lawn Bowling Association will hold its annual tournament at Buffalo on July 29, permission having been granted by Mr. John F. Malone, commissioner of parks, to use the park greens as heretofore.

The annual meeting will be held Monday evening, the 29th, in the Layfette Hotel, as usual. Tuesday evening the boys will bowl as long as light permits and on Wednesday evening it is planned to give the visiting bowlers a two-hour trip on the lake with music, dancing and other entertainment.

BRANTFORD BOWLERS.

Brantford, June 27.—Keen interest is being shown by Brant County bowlers in the coming Dominion Day tourney of rinks from this county. The first Lloyd Harris trophy was won by the Heathers. The same club now has two legs out of three for the second Lloyd Harris trophy, and with Paris, has won two matches for the Telephone City trophy. There is, therefore, a good chance for them to get away with the two trophies in the holiday meet. Paris, too, has a chance to permanently win the Telephone City trophy, as they have also won two games, the trophy having lasted since 1912. The other clubs not represented in the running are putting up strong rinks to get away with one leg on the bowls.

COBOURG BASEBALL.

Cobourg, June 28.—In the Inter-Church Baseball League here, the Alpines of the Methodist Church won from the Presbyterians by a score of 7 to 4, and thereby carry off the trophy the cup donated by Mr. Sam Clarke, M.L.A.

In a game in the Town League (senior) the Town won from Comrades by a score of 13 to 8.

### **FOOD REGULATIONS SOURCE OF PROFIT**

Citizens of Toronto Complain to Food Board of Exhorbitant Prices.

That Toronto restaurant keepers cil of the Canada Food Board to boost prices, while the amount of food is decreased, is the contention of many citizens of Toronto, to judge by the number of complaints received by Dr. Hastings, honorary food control-

Dr. Ottawa, assistant to Dr. Hastings, speaking to a reporter for The World, said: "We have no power to prosecute for overcharging at present, but the complaints have been so numerous that Dr. Hastings has asked Mr. Thomson of the Canada Food Board to have an order-in-council passed giving power to municipali-ties to control prices. If that is done, then we can act, and we will be glad

Dr. Ottawa said he was under the impression that Toronto would soon have some millionaire restaurant keepers at the rate they were charging. He gave an example that he considered too high a price:

"I was in one of the restaurants the other day and an old man ordered selves to the amount of \$60,000 with

che other day and an old man ordered to ached eggs. The two eggs were on a piece of toast, but the toast was so small the eggs hid it entirely. His check was 30 cents, for I looked to see. So did the old man, and then he put on his glasses to see if it could be right. His mouth worked, but he said nothing out loud. He wanted a cup of coffee, but the thirty cents was evidently his limit, so he ate his eggs alone."

With poached eggs on toast, as an example, The World found two on

Further investigation shows that as far as the poached eggs order is concerned, at least, one of the troubles comes from the interpretation of

"Bread may not be used as a garnish, except under poached eggs," reads the food laws. "Not more than two ounces of bread at one meal," further says the law. Are the pieces of bread used as the garnish to be included in the two ounces or are the garnish pieces to be allowed extra? There is the difference of opinion that is waiting for some one to clear up.

The June exhibition of the Toronto Horticultural Society last night in the Forester's Hall was an exceedingly beautiful one, the flowers were exquisite and the difficulty was to leave the hall, it was so attractive, and the inmates of the convalescent hospitals are much to be envied, they being the recipients of the flowers after the show. The splendid display of roses and poenies by Mr. G. Baldwin, F.R.H.C., showed that the superintendent of vacant lot gardens can grow flowers as well as vegetables. Miss Blackwell, Rowancroft Gardens, Meadowvale, brought in 50 vases of peonies, which she arranged in a pyramid surmounted sby a bunch of crimson beauties; she also showed a table of perennials, which was most artistically arranged. Dr. Brethour took several prizes for splendid roses and peonies. Among those showing flowers, fruit flowers and

The Quality Goes Clear Through

## ACCURACY

THERE you have the secret of Gray-Dort goodness—accuracy, balance, precision, smoothness, scientific design - everything that makes for harmony in a motor car.

Take the motor for example. Designed by Etienne Planche, perfecter of the world-famed Peugot motor. Built by a corps of engineers who devote to it the care given to the costliest motors. Simple and strong; yet so accurate, so finely co-ordinated, that it gives unusual power, speed, smoothness, long-life.

Every other working part is the same. The transmission, the brakes and operating parts-all work smoothly, with watch-like accuracy. And you know the life of a good watch.

. The same spirit of harmony makes the body lastingly handsome — the tonneau comfortable and roomy—the driving easy and untroubled—the frame sturdy and safe.

Trouble, as known to most motorists, is absent from the Gray-Dort. It demands the minimum of attention and repairs. Care in manufacture has made it to be relied on serving not only well and long. but serving season after season unfalteringly.

Undoubtedly Canadian motorists are coming to the Gray-Dort. Ultimately you will join them.

The new Gray-Dort embodies all the good features that won instant success for former models. The 4-cylinder motor is a triumph of smooth, economical speed and power. The chassis is sturdy and quiet. The springs are long. The upholstery is deep. The equipment is absolutely complete from electric starting and lighting to the tools. New lines of beauty have been give this model. The five-passenger touring car is \$1,195; the three-passenger fleur-de-lys roadster is \$1,050; the Gray-Dort special, beautifully finished and with extra details of equipment, is \$125 above the list. All prices are f.o.b. Chatham.

HIGHLANDERS' BAND HEARD AT ARMORIES

Highland and Lowland, auld Scotia's bairns were out between two and three thousand strong, when Lieut. Slatter and his band of the 48th Highlanders 2gave an inspiring program at the Armories last night. Just how firm a hold this fine musical aggregation has on the Toronto public was seen in the rapt attention given each number by the audience. hundreds of whom stood thruout the entire evening, and by the hearty applause given at the close of every selection.

All the old airs were given place, "Annie Laurie," "Scots Wha' Ha'," "Auld Lang Syne," together with echoes from Erin as heard in the everbeautiful "Killarney," the program being varied by the patriotic songs of today, "Sussex by the Sea," "Take Me Home to Blighty," and the rest. There were also a number of medleys and a fine rendition of the "Red, White and Blue," with cornet solo. The fife and drum band was a wonderfully attractive feature as it march-

ed around to the strains of its own music, all the small folks following as they did the Pied Piper of Hamlin. Variety was given by the Scotch reel danced by Pipers Thompson and Fraser and Drummers Easten and Downey and by the "fling" and splendidly expert "sailor's hornpipe," danced by Stuart Downing. The two Downing Brothers also gave the Irish jig in costume. Helen Penrith, who made her first

appearance with the band, gave two vocal soles, revealing a soprane voice of good quality and volume, her success winning her hearty applause. The proceeds of the evening were for the Prisoners of War Fund.

## Summer Care of Pullets

By Harry G. Forster.

I have been asked what I consider to be the hardest thing about raising chicks successfully, and I state without hesitancy—crowding. Of all the out in the poultry calendar—and there are many of them—this is the nost universal and hardest to correct. I still recall with sadness a lot of extra-fine pullets I had raised up to their twelfth week. I had almost lived with them day and night, and was proud of their fine development. They seemed safe from all danger of loss. I did notice that they would crowd into the corners of their colony houses where I had moved them from the brooder house. All had gone well the first few nights, and I found nothing wrong in the mornings.

To be sure, however, I placed pieces of roofing paper about a foot high across the corners, but failed to fill the small spaces in back. The morning after doing this I went out to find that as many pullets as possible had crowded into these spaces, and lad twenty-seven beautiful pullets smothered to death as a souvenir of my carelessness.

All of which proved to me that it is never too late for a chicken to do mething foolish. If the nights are over ywarm the birds will spread out naturally, but even in the middle of summers cool nights are not unknown, and it is then that the fatal crowding occurs.

The question of roosting is much a far the wiser thing to do. When the broise with the beat galaced in their fattement his of the broilers are placed in their fattement his cornect, of colored plumage or other formities, off-colored plumage

ing stock, and the difference between prices by the pound and by the head will show on the right side of the led-

selves, much of the danger of crowdevery bird is roosting, there is that constant danger of crowding; I cannot emphasize it too much. For that reason I have made it an invariable rule to visit my chick houses every evening to be sure that all is well. If there is the slightest danger from prowding cats, dogs, rats or other chicken foes, one should always close the houses. Even if the birds missone or two hours of the early morning one or two hours of the early morning for range, it is best not to take a chance by leaving the houses open.

A Profit in Pullets.

At this time of the separation of the saxes it would be a good idea to make the culling job as complete a one as possible. There is no use in carrying over pullets into maturity if they show conclusively that they will they show conclusively that they will not be good layers. Many a pullet

Newsprint Controller Issues Order and Continues Pooling Arrangement.

Ottawa, June 28.-R. A. Pringle, K.C. ottawa, June 28.—R. A. Fringle, R.C., controller of newsprint, in a formal order just issued, continues until Sept. 1 the price of \$2.85 per hundred for newsprint in carload lots. The order also continues the arrangement for the pooling of the comparative losses sustained by the makers of newsprint who supply Canadian customers at a lower figure than is obtained for the ex-ported article. The order is in part as

manufacturers of newsprint paper do supply to the newspapers thruout Canada, newsprint paper in rolls at the rate of \$2.85 per hundred pounds in carload lots, \$3.25 per 100 pounds in carload lots, \$3.25 per 100 pounds in sheets in carload lots, and \$3.50 per 100 pounds in sheets in less than car-load lots of two tons and over, f.o.b. the mills of the various manufactur-ers, for a period of two months from July 1, 1918, to the last day of August, 1918 subject to the condition that if July 1, 1918, to the last day of August, 1918, subject to the condition that if the price fixed by this order is too high or too low, there will be a revision of price from May 1, 1918, and the manufacturers or publishers will be required to pay into such chartered bank as may be designated by me any sum or sums of money which may be found to be due by them owing to such a revision."

The order provides that manufactur ers shall, when called upon, furnish accurate figures showing the total tonnage of newsprint paper produced and shipped by them during the two months' period covered by the order, and the tonnage produced and shipped for the Canadian and export market respectively, together with prices f.o.b. at the mills both for paper for export and paper for the Canadian trade.

REPRESENTATIVE SALES.

Dunn & Levack, Among a few of the representative live stock firms whose sales were

live stock commission business 321 stocks and feeders costing from \$8,50 to \$11.50 per cwt. for the light to common animals.

They sold 28 head, averaging 700 lbs. aplece, at \$11 per cwt.; 30 head \$725 lbs., good quality, at \$11.50; 20 head more, 600 lbs., at \$8.75; 25 grass cows at \$8.75; 25 light heifers, butcher cattle, at \$10; 26 head, 1000 lbs. aplece, at \$12, and 35 more, 650 lbs. aplece, at \$3.75, together with 26 head, 800 lbs., at \$3.50.

Mr. Kennedy said the stocker trade throut the week had been very draggy with a lower tendency, especially for the common cattle, which were hard to cash in. He looked for a steady trade for the choice short keep feeders, but the outlook for the light and common cattle would go lower.

Rowntree Bros.

And some of the sales were as follows: 20 cattle, springers and milkers, for \$2265; 2 for \$279, 2 for \$255, 7 for \$714, 5 at \$450, 2 at \$192, 6 for \$574, and 4 at \$600. The firm regarded the milker and springer trade as quiet, but fairly steady.

A brief summary of the week's trading shows that in three days (Monday, Tuesday and Wednesday) of this week, there were 4879 cattle on the Union Live Stock Market, of which 3543 were on sale on Monday.

Monday's receipts were largely butcher cows and medium, common butchers off the grass, and for the really good butcher cattle there was a strong demand at steady prices. All other classes showed a decline variously estimated at from \$\frac{1}{2}c\$ to \$2 per lb, from the week before. Some are inclined to think that this statement is a trifle high, but that is the way it looked to The World.

Later in the week butcher cows suffered a further decline. The built trade held good, and milkers and springers found a dull market, and the selling was slow. In view of the fact that a good many grass cattle are to come out shortly, a lot of them of ordinary quality, the present seems a good time to ship out this class.

Around the commission houses

Around the commission houses the opinion is general that the good quality cattle will hold pretty steady.

In the sheep and lamb market there has been a fairly liberal supply, and sheep are considerably lower, with the outlook not very bright, but even at the present figure they are commanding a good price and selling for all they are worth.

The hog trade has been marked by a good deal of steadiness, more so than usual—18c lb., fed and watered: 18½c lb, weighed off cars, and 17½c, f.o.b. cars, country points.

London. June 28.—Representatives of allied nations attended the solemn celebration of the Serbian national day in London today. For the first time in history priests of the Eastern Orthodox Church officiated at a service in an English Episcopal Church. The service was held in the Church of Storyleboro, on Cheapside, one of the most ancient shrines of the Church of England.

Three Serbian priests of the Greek Church, in full robes and mitres and accompanied by incense bearers, officiated with the assistance of a bishop of the Church of England. The Eastern Orthodox liturgy of St. Chry

For the most part, attention centred on the fact that excessive heat and dryness in the southwest had not yet been broken, and on the contrary appeared likely to widen out to the east. A comprehensive private property which likely to widen out to the east. A comprehensive private report which emphasized unfavorable aspects of the crop in Oklahoma. Missouri, Kansas and Nebraska gave further stimulus to bullish sentiment, and so likewise did current opinions that the rural movement of corn would soon drop to small proportions owing to preference for wheat shipment.

One difficulty about investments of this kind, of course, is the uncertainty whether the company might not have to take a loss in selling if it needed the cash in a hurry. Even in the Victory bonds, for instance, there is one point against the seller is be reckoned with.

Whether or not it is good policy to use cash balances in investments in this way, rather than submit to a loss in transferring funds to New York, at 2 7-16 premium must be determined by a number of factors chief-ly the chances of the cash being required in a hurry.

CANADIAN CAR FIGHT IS RAGING FURIOUSLY

Montreal, June 28.—The statement issued by the directors of the Canadian Car and Foundry Company on Thursday in reply to charges brought against them by a committee of shareholders acting in opposition, has elicited an interim reply from the committee in which a summary of the charges was followed by a sketch of the happenings since the issuance of the committee's original circular. The reply states that the company is not being attacked, but that the directors alone are being called to account, and that the wish of the directors to let the committee's appeal to the courts the committee's appeal to the courts decide the points in question is neither logical nor courageous.

**RUSSIAN SITUATION PUZZLING MARKET** 

Prices Hesitant From Outset, With Pressure Against Leading Issues.

New York, June 28.—For want of more definite or specific reason, the dull and irregular course of teday's stock market was ascribed to foreign despatches on the Russian situation, which were so bewildering as to limit the district the professional element.

despatches on the Russian situation, which were so bewildering as to limit trading to the professional element.

Prices were hesitant from the outset, occasionally becoming heavy on pressure against investment rails and recognized industrials. Abrupt fluctuations in specialties like General Motors, Sumatra Tobacco and other issues under pool guidance were not conducive to general improvement.

United States Steel was less prominent, and moved in a more limited area, closing at a loss of almost a point. Related shares were influenced by the sluggishness of Steel, forfeiting much of their uneven advantage in the stagnant final hour.

During the intermediate session, metals came forward briskly on announcement that the question of copper prices would soon again come before the war board. Several of the less prominent oil issues, notably Royal Dutch and Sinclair, were substantially higher, but the market as a whole lacked leadership or bullish initiative. Sales amounted to 425,000 shares.

Further relaxation was manifested by time money and call loans were easier than at recent week ends. Fore-casts of tomorrow's bank statement varied, indications, however, favoring an expansion of reserves.

WOMAN SAYS SON IS NOT DEFAULTER

The World yesterday from Mrs. New-

Toronto:

"I see by this morning's paper that you have my son, Private H. Newton, 22 McCormack avenue, down as a defaulter. Now, I fail to see how he is a defaulter when he enlisted two months ago and is not yet 20 years of age. He left for overseas about the 19th of the month, from Niagara camp. I have already lost one son in action, and it is hard enough to give them up without having him called a defaulter. I wish it denied thru your paper."

The lists of defaulters, as published in The World, are supplied by military headquarters, and The World has no means of verifying them further than has been done by the officials there.
