MR. DEPEW ON THE WAR

Stirring Words By the Great Railroader at a Methodist Church.

A Few Years Ago the United States and Great Britain Were Ready to Fight—Now They Are Staunch Friends—The Anglo-Saxon Nations Ready to Stand Together for Peace, Liberty, Humanity and Civilization—London Times on the Situation.

New York, May 16.—Special patriotic services were held last night in the Union Methodist Church in West 45th-street for the Empire State Society of the Sons of the American Revolution.

"A few years ago," he said, "this country and Great Britain faced each other, ready at a nod to engage in mortal battle. Today the English people stand our staunchest friends.

"The two great English-speaking countries standing shoulder to shoulder are the most inspiring and magnificent spectacle of the century. We speculate as to the ultimate result of the war. Here already is its result: The union of the Anglo-Saxon race, of the only nations where there is government by the people and liberty of the people; the nations shall and to the end of the world, for the brotherhood of man."

Confidence Restored, Spain's Hopes Revived, But There is Nothing to Gaily be Prolonged Resistance.

London, May 16.—The Times this morning says: "The indecisive nature of the United States' offensive measures against Cuba and Porto Rico and the moral effect exercised by the sudden appearance of the fleet in the Gulf of Mexico, have done much to revive the hopes of the Spanish people and encouraged them to prompt constructions."

NULTY'S FAREWELL TO HIS FATHER, An Affecting Scene in the Cell—Mr. Bruchese Has Comforted the Prisoner—Tom Resigned to His Fate.

Montreal, May 16.—Michael Nulty, the father of Tom Nulty, the Rawdon murderer, who is to be hanged on Friday at Joliette, visited his son on Saturday, and again asked Mr. Dugas, the Crown Prosecutor, for the body of his executed son. Mr. Dugas was unable to promise him anything officially, but assured the unfortunate old man that the favor would, if possible, be granted him.

ARE AWAKE

to your own interests, you will never buy a poor bicycle, simply because you can get it for almost nothing. It is poor policy to buy anything solely because it is low priced. It is sheer madness to buy a bicycle on this basis, because you are forced to risk your life on it. Many a dream of pleasure has been wrecked by a poor wheel. Even if you are lured under the guarantee, that's poor comfort when you're spliced your trip. Every wheel sold here is tested by an expert. It must be right or we won't allow it to go out. Our prices are not high. We are selling good wheels at

As shoe bargain for the women

When we tell of a shoe bargain it sets the whole town talking. And why shouldn't it. Where else do buyers have the opportunity to get so much shoe goodness as we offer for the money. Each succeeding time we make an offering we seem to outdo all previous efforts.

Some days ago we told of buying J. D. King's sample lines of men's footwear. Now we come to the front with the balance of that purchase—the Women's Sample Boots. Any woman who can wear a No. 3 3/4 or 4 boot, and buying from this lot, will never have cause to regret the purchase. Two and a half to five dollar boots for two dollars. Here are the details. On sale Wednesday morning at 8 o'clock—

425 pairs Women's Fine Sample Boots, manufactured by J. D. King & Co., in all the newest styles, shapes and best materials, selected from choice

Bear in mind these are all strictly high-grade and stylish footwear, and comprise some of the newest and latest styles for present wear. Choose the poorest boot in the lot and you are sure to get a bargain. At 8 o'clock the goods are placed on sale.

Extra Specials in Underwear.

There is no place in Toronto like "Eaton's" for Underwear. People all around are talking about the splendid stock and praising the complete and unequalled assortments we are showing. But we are determined to make them talk more than ever by offering such values that no one will think of staying away. This is how we are going about it—

On Sale Wednesday Morning:

- 65 Dozen Ladies' White Cotton Gowns. Two clusters tucks, two rows insertion, Mother Hubbard style, frill of fine embroidery on neck, down front and sleeves, 54 to 60 inches long, regular \$55. 50 Dozen Ladies' Corsets. Made of fine cantilla, 3-piece strip, boned bust, filled with fine steel wire, flossed top and bottom, finished with fine silk embroidery, 2 side steels and 5-book clasp, sizes 18 to 30, colors white and drab, regular price 75c to \$1.25. 50 Dozen Children's Gingham Dresses. Made of best lawn, Mother Hubbard style, trimmed with frill of fine Swiss colored embroidery, sizes 1 to 5. Special Wednesday at 35c.

All brand new goods, remember, and not an unworthy article in the entire collection. Such a triple combination from one department in a single day ought to produce the biggest selling we have seen for many a day. Just one word of advice: Come here early if you want to share in the money-saving this opportunity affords.

IT SHOULD NOT PREVENT PREFERENTIAL TRADE.

It is fortunate for Canada that the Anglo-American alliance is likely to be brought about while a strongly protectionist sentiment is in power in the United States. If the American Government were composed of freetraders the alliance might be arranged on such terms as to preclude all possibility of a preferential trade arrangement between Britain and the colonies, but McKinley rules at the White House, and the best of us in the protectionist movement in the United States. IS THERE GOLD IN THE PHILIPPINES?

United States Senator Teller has received a letter from a Colorado miner who says that the Philippine Islands may be found very rich in gold. In 1876 he traveled from Manila to Singapore with a man who had gone from Montana to the island of Luzon in the Philippines for the purpose of investigating reports of great gold discoveries. The results of his investigations were far ahead of anything he had anticipated and he believed the wealth of gold in that country was beyond estimating. He had gone to the Philippines with the intention of mining if the situation was promising, and when he found it was that he could not possibly leave Manila before he had secured the necessary permits to do so.

THE FLEETS AT MIDNIGHT.

No man can tell what an hour may bring. It is impossible to make any prediction as to where the Spanish fleet will be in the morning. The Americans, too, may be trying to take a lesson in secrecy from the Spaniards, and the reports telegraphed as to the destinations of the different American fleets may not be strictly accurate, but as nearly as can be judged from the various reports it is probable that the fleet at midnight is about as follows: Schley's flying squadron, which left Newport News, Va., Friday afternoon, is somewhere in the vicinity of Charleston, S. C. Admiral Sampson's fleet has probably got through the Windward Passage between Hayti and Cuba, and is now somewhere to the southwest of Cuba looking for the Spaniards or making to port Cienfuegos, while the leading vessels of the Spanish fleet are somewhere to the north of Curacao. The Spanish warships Vizcaya and Maria Teresa left Willemstad, Curacao, at 6 o'clock Sunday evening. The four other Spanish vessels, which were off the harbor, disappeared about noon on Monday, but early Monday evening one of the torpedo boat destroyers was sighted again. The Spanish destroyer Terror was reported disabled at Fort de France, Martinique, where the American auxiliary cruiser Harvard was also laid up, but the latter vessel was reported to have been repaired and to have sailed for the Cape Verde Islands on Monday night. The American warships Montgomery and St. Louis were reported to be somewhere in the vicinity of Martinique watching for the Terror, while the American auxiliary cruiser Yale sailed westward from St. Thomas, in the Danish West Indies, Sunday evening and was supposed to be making for the Caribbean Sea. The American warships Oregon, Marietta and Buffalo, formerly known as the Nictheroy, have been coming up the South American coast from the Pacific Ocean, and being last reported off northern Brazil are probably now well on their way toward Martinique, where they are said to have been ordered. The Spanish fleet may be going south to meet them or it may intend to make a fast run to Cienfuegos or Havana. The Cape Verde fleet includes the four armored cruisers Almirante Oquendo, Infanta Maria Teresa, Vizcaya and Cristobal Colon, each of about 7000 displacement, and the torpedo boat speed, and the three torpedo boat destroyers Terror, Furor and Pluton of twenty-eight knots.

SUBURBAN AGGRESSION.

The North American review for May contains an interesting article by A. F. Weber on "Suburban Annexations," which shows that in all the great urban centres of Europe, America and Australia the suburbs are growing much more rapidly than the city proper. He points out that in England and Germany the great cities are not so ready to annex their suburbs as in America, and that consequently many of them appear to be growing slowly, although if the suburbs were counted in they would make an altogether different showing. For example the last German census only showed an increase of 6.2 per cent. for five years in Berlin proper, while the increase in the suburbs was 62.2 per cent., and the population of Liverpool actually fell off between 1881 and 1891, although its commerce greatly increased, because its people moved to the suburbs. In Australia more than two-fifths of the entire population live in the capital cities, but they are not concentrated near the business centres, being scattered over a large area. Thus in Sydney over 1,075,631 live in the city proper, while 2,758,311 live in the suburbs. Mr. Weber considers this "bias of the suburbs" a most cheering movement of modern times, as the suburb unites the advantages of city and country, giving the people fresh air and clear sunlight, green foliage and God's blue sky, in place of hot, dusty, smoky, germ-producing city tenements and streets.

Bond Street Ladies' Good Work.

The Ladies' Society in connection with Bond-street Congregational Church, gave a promenade concert last night. A program of music was given, assisted by the original Glionna-Macdonald Italian orchestra, and then an adjournment was made to the basement, where refreshments were served. The Ladies' Society have been busy all winter in looking after the needs of the poor, and Charles Pupper and Mr. Foster have each other and are conspiring to struggle each other. Clarke Wallace, W. F. Mackenzie, Mr. Bennett and the prominent element of Toryism are engaged at the present time in leading the party in dangerous ways, while Sir A. C. Carson and Mr. Bergeron are following the current. This is all that remains of the old party of Macdonald and the Tory.

A Little Book of Sketches.

A tastefully printed and neatly bound little book entitled "Fire and Frost" comes from the Bryth Press of Toronto. It is a collection of stories, dialogues, sketches and poems by Ethelbert F. H. Cross. In one of the essays entitled "Grievous and Patriotic" the author, criticizing Canadian writers, says that the sterility of Canadian literature is due to an excess of patriotism. Several of the sketches are quite witty and the little story, "A Guest from Erin," is particularly worthy of praise, but some of the things in this little volume would be better out than in.

Many of the North American Indians

were magnificent specimens of physical manhood. This was due, largely, to their active outdoor life. Nevertheless, they had the wisdom to know that an active life in the open air would not keep a man healthy if he did not take care of his diet. They were therefore very particular in their food habits. They ate what they could get, and they ate it when they were hungry. They did not eat when they were not hungry, and they did not eat when they were full. They ate what they could get, and they ate it when they were hungry. They did not eat when they were not hungry, and they did not eat when they were full.

with him only three armored ships, the Indiana, Iowa and New York, with a total tonnage of 20,000. The American fleet has more big guns, while the Spanish fleet has a larger number of small quick-firing guns. The Spanish fleet is somewhat faster than Schley's, and is believed in some quarters that the fast Spanish fleet intends to dodge around and keep out of the way of the Americans until another squadron that recently left Cadiz has time to cross the ocean and join the three warships that are reported off Martinique, thus making a really formidable fleet to reinforce Admiral Cervera. Another theory is that the fast Spanish fleet will evade Sampson, and reach Cienfuegos or Havana in time to destroy the weak fleets now blockading those ports before Schley and Sampson arrive. This would raise the blockade, and some authorities on international law hold that when a blockade is broken by a superior fleet it cannot be established again within ninety days. This would give Havana plenty of time to get in provisions from neutral countries on neutral ships.

POLO TO FORSAKE CANADA.

He Promises to Leave Montreal for Madrid on Saturday Next.

Denies That the American Government Objected to His Remaining in Canada—Sympathetic Tarte Remains the Fate of the Conservative Party—Tom Nulty Views the Election of the Galwea From His Cell Window—Montreal News. Montreal, Que., May 15.—(Special.)—Senior Polo y Bernabe gives off officially that he will leave Canadian shores on Saturday next by a Dominion Liner for Madrid. He adds that Saturday last was the date decided upon for his departure from Canada, but that there had been so much business to transact in connection with the re-arrangement of the Spanish Consular service in America that he could not possibly leave Montreal before last Saturday. The ex-Ambassador denies with indignation that the American Government would be ridiculous enough to object to his presence on the soil of a neutral power. However, he will sail for home with his staff on Saturday.

WHEAT MOVES UP ONCE MORE

Despite Bearish Character of Statistical News.

Demand From Europe for Cash Wheat Apparently Strong Again With Higher Cables—Provisions Advance All Round—American and European Visible Supply.

Monday Evening, May 16.

Despite the fact that to-day's statistical news for the past week was bearish in character, wheat took another upward turn to-day.

The decrease in the American whole supply is small, the world's shipments are large and there is a good quantity of the cereal in hand, but nevertheless there seems to be a renewed European demand for cash wheat and cables went higher.

At Liverpool spot wheat closed 24 higher on Saturday, and futures from 1d to 3d higher. At Paris the market was practically unchanged.

Corn manifested buoyancy at Chicago on the strength of the demand for American visible, and upon reports that the western crop is retarded.

Corn futures were up 10 to 12 higher from 3/4 to 1c and were steady to 1d higher at Liverpool. Oats are higher.

Receipts of wheat at Minneapolis and Duluth to-day were 815 cars, against 650 the corresponding day of last year.

Total clearances of wheat and flour to-day equalled 605,000 bushels.

Exports at New York to-day: Flour 9142 bbls, wheat 16,519 sacks; wheat 131,973 bushels.

Ocean freight rates have this month declined in New York from 10s to 8s morning.

Imports of grain into the United Kingdom the past week totalled 2,320,000 bushels of wheat, 1,188,000 bushels of maize, and 128,000 quarters of flour.

July wheat puts at Chicago \$1.05, calls \$1.15. September puts 80c, calls 85c.

July corn puts 30c, calls 35c.

A New York wire says: The price of the wheat crop is retarded. Corn futures were up 10 to 12 higher from 3/4 to 1c and were steady to 1d higher at Liverpool. Oats are higher.

WALL ST. SECURITIES SAG.

Sales on Foreign Account and War Uncertainty.

Caution the List to be Heavy, and With Some Exceptions Losses of From a Fraction to 1-4 Points are Recorded—Quotations and Gossip.

Monday Evening, May 16.

London cables losses of 1/4 to 1/2 point in American rails to-day, and this together with the weakness in the Wall-street market, led to a general decline in the market all day.

The uncertainty regarding the lists at sea was also a disquieting feature. At the close the stock market showed signs of a fraction to 1/4. As exceptions Metropolitan traction was firm and Sugar sold 1/4.

Canadian securities were lower to-day in sympathy. On the Toronto Board the highest bid for C.P.R. was 1/2 below Saturday's bid for C.P.R. The bank list bids were down from 1 to 4 points ex-dividend.

At Montreal C.P.R. final bids were 2 1/4. Cable 3/4, Richelieu 3/4, Montreal Railway 3/4, etc., below Friday's closing.

Consols are unchanged in London.

12 Paris 8 per cent. rentes closed at 102 3/4.

At London Spanish 4's closed at 83.

At Paris Spanish 4's closed at 83 1/4.

At New York U.S. bonds closed: U.S. new 4's, reg., 122 1/4; do. comp., 122 1/4; U.S. 4's, reg., 119 1/4; do. comp., 119 1/4.

The amount of bullion paid into the Bank of England to-day was £275,000.

In the United States failures for the past week are 246 and in Canada 24, total 270, against 283 last week, 278 the preceding week and 283 the corresponding week last year, of which 201 were in the United States and 69 in Canada.

A cable from London to Messrs. A. E. Ames & Co. to-day gives the following quotations: C.T.R. 74 and C.T.R. 74.

A New York dispatch says: The remarkable strength Sugar has displayed is due to a large short interest in the stock.

There has been a good deal of covering in it since it crossed 135. Rhode Island strength is due to buying by spot in stock and reiteration of previous reports that directors will meet at a meeting put off on 5 per cent. and possibly 6 per cent. or more, or an extra dividend of dividend.

The Dominion note circulation on April 30 was \$2,028,140, an increase of \$48,000 for the month.

Railway Earnings.
