AMERICAN WOMEN TOO PREVIOUS
Committee Has Taken Regal Thanks
for Which It Has No Shadow
of a Claim.
London, July 24.—The presentation, July
22, of a medal commemorating the work
of the hospital ship Maine to King Ed-
ward by the Duchess of Marlborough, Mrs.
George Cornwallis-West, Mrs. Ronalds and
other American women of the Maine Com-
mittee, with King Edward's reply to the
members of the committee, in which he
thanked them for bringing their valuable
services to a culmination by presenting
the ship to the British government, threat-
ening to become an international incident.
The Atlantic Transport Company and the
friends of Bernard N. Baker, president of
the company, are generally very indignant.
C. F. Torrey, managing director of the
Atlantic Transport Company, today sur-
prised himself as more than surprised to
see that King Edward has been misinformed
regarding the actual donor of the Maine,
and said what surprised him more
was that the ladies had not thanked the
King for the gift, knowing full well
that at no time had they owned the ship,
and that President Baker alone was en-
titled to such thanks.
Mr. Torrey said Mr. Baker was not even
informed of the intention to present this
medal to the King, nor up to today had
any intimation been conveyed to him that
such a presentation had occurred, nor has
any expression of regret been made that
misunderstanding occurred as to the
donor of the vessel.
"The whole transaction is on a par with
the late Queen's visit to Mrs. George
Cornwallis-West," said Mr. Torrey,
"who appropriated the emblem presented
by the late Queen to the vessel. It will
surprise us if this flag is now presented
with equal eclat, to Queen Alexandra."
Threat there has been no such ap-
preciation on the part of some of the
Maine Committee or Mr. Baker's assist-
ants, and with respectful observation the
committee has taken into itself the regal
thanks for which it has no shadow of a
claim.
TUGELA BUGLER HURT.
While Practising for Duke's Visit
He Has His Leg Broken.
Cape Town, July 24.—While practising
at the Green Point camp today for the re-
ception of the Duke and Duchess of Corn-
wall and York, English Duke and Duchess
accident. His horse bolted and stumbled,
and fell. Duke's leg was broken and the
horse suffered a similar injury. The an-
tismal was shot. The Duke's leg was
broken three times at the battle of
Cullinstown, while sending his orders.
He was one of the first to cross the Tugela
after sounding the order to advance. When
he returned to the camp he was severely
wounded. Queen Victoria presented to him a silver
medal. He was afterwards sent to
the South African War. He was
killed in the battle of Tugela. He
spent some time in Netley Hospital,
England, where he was visited by mem-
bers of the royal family.
COOLLY RECEIVED.
Citizens of Louisburg Greet Lord
Minto With No Cheers.
Louisburg, C. B., July 24.—The Gov-
ernor-General arrived by special train at
11 o'clock this morning, but received no
official reception. He was escorted to a
team by Rev. M. Draper, and driven to
the old barracks. The crowd was
the people at the station. The cause of
the cool reception was that, as was
long the guests sweep by with their
searchlights. Sharks abound, and the
British guards will shoot on suspicion, yet
several of the Boers have escaped from
their detention camp.
On the night of July 9 H. J. De Toit,
M. L. Louw, J. P. R. R. and J. J.
du Guise, Boer prisoners, evaded the
guards and the sharks and reached the
shore, half a mile away, by swimming.
By daybreak they had reached the south-
ern shore of the island. Here they ap-
proached a colony making him for
freedom. He charged them with being Boer
prisoners, and they admitted it. The col-
ored men at once informed the guards at
Warwick Camp, and the escaping pris-
oners were captured.
A night or two after three others tried
to escape by paddling ashore on planks.
They were seen, however, and shot
by the guards. One was wounded, and
returned to the island, while the other
two were caught.
Further, the law provides that you
cannot arrive here with further con-
signments of poor prisoners of war for
confinement.

chance of European intervention, and that
they must fight the war out to the bitter
end and on their own account.
CONCENTRATION CAMPS.
London, July 24.—A Parliamentary paper
issued today gives numbers of persons
in the concentration camps in South
Africa in June as follows:
White, 58,410.
Colored, 23,482.
There were 777 deaths among the whites
in the camps, the list including 578 chil-
dren.
The deaths among the colored persons
numbered five.
SENT HER SYMPATHY.
Glennwood Springs, Col., July 24.—As soon
as Mrs. John Hays Hammond, wife of
the mining engineer, who was at one time
under sentence of death in Pretoria in
connection with the famous Janssens case,
heard of the death of the wife of Presi-
dent Kruger of the Boer Republic, she
sent the following telegram to President
Kruger:
"Accept my heartfelt sympathy in the
loss of your noble, true wife."
REFUSED THE GREYS.
Ottawa, July 24.—Fifty war horses were
brought in Ottawa this week for the British
army in South Africa. Capt. Mordley
and another officer were in the city on
Monday and Tuesday, and out of 100 horses
they selected 50. The other 50 were
from 100 to 1200 pounds in weight and
from 14.5 to 15.5 hands high. The officers
would not take the greys, as they offer too
good marks for bullets.
ATTEMPTS TO ESCAPE.
Hamilton, Bermuda, July 24.—The Boer
prisoners of war confined on Darrell's is-
land make almost nightly attempts to
evade the patrolling gunboats Medina and
Medway, and gain the mainland by swim-
ming. The water between Darrell's is-
land and the beach is calm, and all night
long the gunboats sweep by with their
searchlights. Sharks abound, and the
British guards will shoot on suspicion, yet

ANTI-SEMITISM IS FEARED
All Classes in England Are Accused
of Showing an Ever Grow-
ing Hostility.
STREET ATTACKS CITED AS REASONS
These Have Been Made in Poor
Districts, Yet Higher Circles Are
Said to Sympathize.
New York, July 24.—The Herald's Lon-
don correspondent wires: Anti-Semitism
is on the verge of an open and widespread
outbreak in England, according to Mr.
Isaac Suwalsky, editor of the Jew, an East
End Yiddish newspaper. He asserts that
the daily attacks on poor Hebrews in the
streets of Whitechapel are symptoms of the
hated existing in the highest political
and social classes of the kingdom. During
the last three months the Whitechapel
Police Court has been regularly called upon
to punish persons for bodily assaults on
Hebrew peddlers and housewives. Several
hundred cases have been lately reported in
the highways of the district, and the testi-
mony in most cases has been that the
cause of the attacks, the victims being in-
distinguishable from the ordinary Hebrew
peddlers, was their race. At street cross-
ings policemen are kept busy rebuking
crowds of Jews and their children for
using brutal taunts and for deliberate
attempts to run them down.
Mr. Suwalsky says that anti-Semitism is
aggressively entrenched in the United
Kingdom, and reaches from the slums of
Whitechapel to the offices of Prime Min-
ister. Both political parties are definitely
pledged to it. The Conservatives espouse
it as the guide of immigration reform, while
the Liberals employ it when they persist-
ently assert that the Boer war is waged
in the name of the Jewish race.
"There is at present more hatred of He-
brews in the West End, in the East End
and in the London suburbs than there is
anywhere else in the world," he says. "The
Hebrew-haters for amusement, but the
cause of the people of Downing-street and
Parliament are anti-Semitism. The He-
brews are suffering from the country's ex-
cessive patriotism. It is not to be expected
that the uneducated and ignorant of every-

MR. G. W. ALLAN.
Asked for some account of the late
George W. Allan, one who knew him well
today the enigmatical remarks:
"The death of Senator Allan removes
from our midst a man of great sterling
worth, and of unexcelled and unpretend-
ing piety, a man indeed who by exam-
ple rather than precept, made no little
impression on the men and manners of the
city in which he lived his long life of 79
years. Born to comparatively affluent cir-
cumstances, when Toronto was but a vil-
lage, he had a careful bringing-up, and, in
early life, was imbued with the best man-
ners of the European Continent and in the
East. He was Mayor of this city before
the great majority of its present in-
habitants were born. If not possessed of
poetical brilliancy, he was gifted with a
rare amount of common sense, a keen
regard for truth, justice and propriety,
and his presence and address. There was
no better chairman that he of any public
dinner, and he had a happy knack of
always saying the right thing, and say-
ing it well, on such occasions. His first
marriage to a daughter of Sir John Ber-
yshaw Robinson, then by far the most im-
portant man in Canada, had early part
in the way of meeting the master
minds of the country, and it is needless to
say he was a stiff and uncompromising
Tory in politics. He filled many public
offices with credit, but it is as a private
citizen that he is remembered to whose
benefit the poor and to whose wants
and to the spiritual, he was a lifelong
and untiring minister. George Allan was
a good man. Few better have died in this
or any other city, and his children's best
heritage is the unswerving name and hon-
orable record handed down to them by a
father, of whom this city has every reason
to be proud. He was venerated in many
walks of life, and an example in them all.
As a statesman and educator, as a patron
of the arts, as an ardent naturalist, as a
philanthropist, a churchman, friend
and counsellor, the deceased Senator was
connected with an immense number of
temporal and spiritual concerns, and he
was in no way less successful in the un-
limited confidence and respect of every-
one of them. When he was in a posi-
tion to do as he pleased, he was a man
of princely munificence and liberality.
His guiding star throughout his life
was principle; but he made no sancti-
fied distinction between the Jew and the
Gentile. He was a large-hearted, un-
selfish, and unambitious man, who had

tion."

Hamilton, July 24.—(Special)—There was

this evening about 10 o'clock. Two boys
climbed the Canadian Club flagstaff, po-
ling up about 50 feet.
They were ordered down by P. C. Reynolds.
Like David Crockett's cool, they wouldn't
come down, and Special Officer
Nicholas came along and threatened to climb
up after them. They then came down.
Constables Reynolds and Bennett arrested
them. When the two officers started
off with them the crowd joined, and a
dozen toughs swooped down on him and
kicked him in various parts of his anatomy.
P. C. Hawthorne came to his assistance
and was the first to be hit. He was
struck on the head by a brick thrown from
the crowd, and he fell. The two boys
arrested for trespass are David Pow-
ers and William Smith.

WISHES TO SOOTHE RUSSIA
Germany's Policy About to Undergo
a Decided Change.
St. Petersburg, July 24.—The sojourn
of Count Osten-Sacken, the Russian Ambassa-
dor to the German court, in the Russian
capital has been prolonged.
I have gone authority for saying that
this is due to Germany's desire to relieve
the strained relations between the two em-
pires arising from Russia's strong dis-
approval of Germany's policy in the far
east.
Before me I have a confidential communi-
cation from Berlin telling, on the best au-
thority, of the anxiety that exists there
for that recognition of the old-time good
relations with Russia.
I quote the following sentence: "Ger-
many's policy is about to undergo a de-
cided change in so far that it will lean to-
ward Russia instead of toward England, as
it has done lately."
Count Osten-Sacken is considered the one

FIREMAN LOST BOTH LEGS
Joseph Ryan of the G.T.R. Received
Injuries That May—
Prove Fatal.
BAD ACCIDENT AT LITTLE YORK.
The Unfortunate Man Has a Wife
and Infant Child Residing
in Belleville.
Grand Trunk Railway Fireman Joseph
Ryan was run over by an engine in the
company's yards at Little York last night,
and received such terrible injuries that it
is feared he cannot recover.
His right leg was cut off just above the
ankle and the other limb was so badly
crushed that it was found necessary to
amputate it after his admission to St.
Michael's Hospital.
Ryan, for several months past, has been
on the run between Toronto and Bel-
leville, under Engineer James Carroll.
Yesterday afternoon he left Belleville on
a heavy freight and reached the station
at Little York about 9 o'clock last night.
His engine No. 982, immediately after
shunting the cars, was taken over to the
chute to cool up. The engine had nearly
been supplied with coal when someone
called out that engine No. 982 was back-
ing down the track, and Engineer Carrol
did not pull out. There would surely
be a collision.
Carroll started his engine, with the re-
sult that Ryan, who was standing on
the tender, was knocked from his
feet to the tracks. Before he could rise
the engine had backed up. The injured
man was carried to the station plat-
form, where Dr. Walters, who was called,
temporarily dressed his injuries, and or-
dered his removal to this city for treat-
ment.
Word was sent to the police officials here,
and the ambulance, in charge of Police-
man Robert Beatty, was in waiting when
the special arrived.
Ryan was taken to the hospital, where
Dr. Walters and Dr. Bruce L. Richardson,
railway surgeon, amputated the left leg
just below the knee. Ryan, who is 29
years of age, has a wife and one child five
years of age. He has been married only
a little over a year.
At 2 o'clock this morning, Dr. Richard-
son visited Ryan, and his face was im-
proved, and that he might recover. His wife
and child were notified, and she is expected
in Toronto today.
SECTIONMAN KILLED.
Cornwall, July 24.—Edward Perry, sec-
tion foreman on the G.T.R., was killed
by being struck by the International Lim-
ited express, passing Cornwall at 10:30
o'clock this morning. Mr. Perry was in-
jured on the track at the time, and was
lying in the middle of the rails, with his
head down. The sectionman yelled to him
and the engineer blew his whistle, but
he did not take heed. He was badly cut up,
one of his legs being severed. His body
remains lying on the track, and he was
deceased about 50 years of age, married
and highly esteemed.
TWO MEET DEATH.
Married, Que., July 24.—Mr. Roux, an
unfortunate, died, aged 29, belonging
to Sherbrooke, and Miss Bechard, aged
about 24 years, of Compton, were cap-
tured on Monday. They went into the stable
to get the horse in order to hitch it up.
When she took hold of the halter the ani-
mal turned on her and knocked her down,
afterwards trampling on her. One of her
eyes was gouged out, her face was badly
cut and several ribs were broken. Her
screams brought help, and the horse was
driven from its victim.

ONE CENT
BISCUIT COMBINE IN VIEW
New York Capitalist Said to Be
Amalgamating the Plants
of Canada.
THIRTY CONCERNS INVOLVED.
Three or Four Factories in Each
Large Centre to Form Corpora-
tion to Control Prices.
Montreal, July 24.—(Special)—According
to rumor Canada is to import the trust
idea from the United States, with a bis-
cuit trust as a forerunner of others.
A year ago it was reported that the
biscuit manufacturers of the Dominion
were to enter into a combine, and to-day
an item comes from New York to the ef-
fect that Thomas F. Harvey, who found-
ed the Cheung Gum Trust, is amalgamating
the biscuit plants of Canada. It is
said that about 30 concerns are inter-
ested in the deal, but that the amount of
capitalization is not as yet determined.
Inquiry of biscuit manufacturers in Mon-
real elicits the fact that from time to
time during the last year or so some Amer-
ican capitalists have been sounding lead-
ing firms in Canada as to their willingness
to form a combine, but without any definite
result one way or the other.
The manufacturers are reticent as to the
details of the scheme proposed to them or
the identity of the Americans who are so
anxious to foster the operation of
trusts over the line. It is understood,
however, that the idea was to take over
two or three or maybe four concerns in
each large centre, and combine them into
one gigantic corporation, which would be
able to control the price in Canada.
Manufacturers speak to give the im-
pression that nothing would come of the
negotiations.
LIFE IN VENEZUELA
General Rold Assassinated By Gen-
eral Zapata, Who Flew
Cuba to the Bolivar, July 24.—General Rold,
Governor of the Yurusti district, covering
the region of the gold mines (Calleo,
Guasipati, etc.) was assassinated last week
for political reasons by General Zapata,
who took possession of the arms of the
garrison of Guasipati, where the assassina-
tion took place, and carried about a hundred
men with whom he fled.
These occurrences similar to others which
have lately been taking place daily in
Venezuela, give some idea of the state of
the country.
THE SENATE AND SIR WILFRID,
The death of Hon. Mr. Allan creates a
vacancy in the Canadian Senate. He was
the senior of that body and its most re-
spected member. Those who follow polit-
ics are already guessing at the name of his
successor, and the effect that his death
will have on the Conservative majority.
Nominally the Conservatives have still but
a dozen votes to the good; three deaths
will remove this; but as a matter of fact
a Conservative majority will not be re-
corded again for some years. Nearly all
the older men are Conservatives, and in-
crease of death will in consequence be more
active in their ranks.
Sir Wilfrid Laurier has in mind the early
reorganization of his cabinet, especially
from an Ontario standpoint; and with Hon.
R. W. Scott's portfolio at his disposal any
day, and Sir Richard Cartwright probably
willing to escape some of the cares of
office, he may see his way to elevating
Hon. George W. Ross to the Senate, with
substant rank or asking Sir Richard to go
there as the government leader in place
of Mr. Scott; and Mr. Mills. Mr. Mills
is willing to go on the bench; perhaps,
therefore, Sir Wilfrid will be in a position
to ask both Sir Richard and Mr. Ross to
enter the Red Chamber. Mr. Allan's re-
sidence was in the city, and he was a
member of the Senate, and his death is
a loss to the country, and it does the claims of a
number of more or less prominent Liberals,
who are M.P.'s or were M.P.'s, or who failed
in becoming M.P.'s, will have to go for
a more suitable time of recognition.

The royal party will visit the Little Chaudiere Rapids and then descend the Chaudiere falls, plunging into the basin below Parliament Hill. The journey will be made in a crib of square timber well constructed and beautifully decorated. Lumbermen, attired as voyageurs, will occupy bank canoes and sing old French Canadian boat songs.

A MATRON'S TROUBLES.

Granoose Lessens Them and Makes Her Life Much Easier. The responsibilities of the matron of an institution where a large number of children are cared for are many and varied. By no means the least of these is the selection of a food that will agree with the various stomachs of the little inmates, for as a rule, a food that will agree with one will prove entirely unsuitable for another. In this, however, as in everything else, there is an exception, and the exception in this case is Granoose. It is so well cooked, so carefully prepared, so easily digested, and contains such a large amount of nutriment that it has proven itself an ideal food. Mrs. R. B. Cate, matron of the Washington, D. C. Hospital for Foundlings, experimented with different foods for a long time, and finally tried Granoose. Her experience is best given in her own words, and is as follows: Sanitarium Health Food Co., Battle Creek, Mich.

LOCAL TOPICS.

The National Auto Shipper's Association will meet in Toronto, Aug. 7. Headquarters will be at the Rossin House, and 300 delegates are expected. The Knights of the Grip will be at Alton on Aug. 2 and 3, and an elaborate program has been prepared for both days. The program will be a rather unique piece of job office furniture, and it holds a good time for the drummers who take in the holiday. An important meeting of the master platers will be held this afternoon at the Builders' Exchange, Yonge-street Arcade, at 3.30.

A Dental Paradox

The dental work for which you pay less than a fair price costs more than it is worth. This rule is supported by the A, B, C of reasoning. The goodness of dental work depends upon the skill of the dentist, and skill is never cheaper than fair. The value of dental work—present and future—depends upon its goodness. We preach fair prices—and practice the best work. Cheaper service cannot be as good. That is certain. Yet such service is always cheapest. That is sure.

CANADA SUSTAINS A DISTINGUISHED LOSS THRU THE DEATH OF SENATOR ALLAN

One of Toronto's most distinguished citizens passed away yesterday, when Hon. George W. Allan, Senator, died at his home in Moss Park. Death came almost unexpectedly, although for some time the aged Senator had not been in the enjoyment of really good health. Since last January he had been ailing somewhat. He suffered an attack of grippe, and had to stay in the house for nearly two months. At that time his illness was looked upon as very serious, but he rallied and seemed to regain strength. The Senator was weak for some time afterwards, but he recuperated, and was able to go to Ottawa, where he remained until the close of the session. On his return to Toronto Mr. Allan was apparently well, and was able to attend to his duties in connection with the Canada Co. until Tuesday evening, when he went home apparently in his usual health and retired early. He did not complain of indisposition. He got up at about 8 o'clock yesterday morning, and after dressing, complained of feeling faint. He lay down to rest, and Dr. J. H. Cameron was summoned. Senator Allan became suddenly worse, and expired a few minutes after 10 o'clock. Mrs. Allan and her daughter, Miss Audrey Allan, were at the bedside when the end came. As a mark of respect to the deceased many of the public buildings were lowered to half-mast.

A USEFUL LIFE.

The late Senator Allan was the son of the late Hon. William Allan, a well-known public man of old Upper Canada. He was born in 1822, in the house in which he died, and was therefore in his 78th year. His mother was Leah Tyre, a daughter of Dr. John Gamble, a surgeon of the Queen's Rangers Regiment, and a U. E. Loyalist. During his earlier years, Mr. Allan was educated by private tuition, and was afterwards sent to Upper Canada College. While attending college, he joined the Bank Rifle Corps, and took part in the expedition of 1837. The following year he returned to his studies and remained at college until 1838, in which year he passed an examination in law. He entered the office of Messrs. Gamble & Boulton, and was called to the bar of Upper Canada in 1839. Before entering upon his practice, he made a tour of Europe, and visited the continent of France, the Nile, and the Alps. On his return to Canada, he became prominent in

public life, and, in 1849, was elected as a representative for St. James' Ward in the City Council. In 1855, he was returned as Mayor, a position which he held for the one term. In 1857, he was elected to the Legislature for another year, and he was made the recipient of a complimentary address, containing the signatures of many men prominent in business and commercial circles. Among those who signed the address were Sir Oliver Mowat, in 1858, he was returned by a large majority to the Legislature and Council of Old Canada, a post which he held until Confederation. During his term, he was for many years Chairman of the Private Bills Committee in the Legislative Council.

Speaker of the Senate.

In 1867, by royal proclamation, he was called to the Senate, and, in 1888, was appointed Speaker of that body. This position he occupied until the close of Parliament in 1891. For many years he was Chairman of the Committee on Banking and Commerce. In all the deliberations of that body he always took an important part, looking first and last to the interests of the country.

A Privy Councillor.

In 1891 he was called to the Queen's Privy Council of Canada. Senator Allan was one of the original members of the Royal Canadian Institute, and, besides being a contributor to the Journal of the Institute, had filled the chair as president. Since its establishment, he had been closely identified with Trinity College. For many years, he had held the office of Chancellor of the college. In 1877 he received the degree of D.C.L. from Trinity. Mr. Allan took deep interest in Canadian art, having held for many years the office of president of the Ontario Society of Artists and chairman of the Art Union of Canada.

Interested in Canada.

About 10 years ago, Senator Allan commissioned Paul Kane, the celebrated painter, to visit the Northwest and paint the scenery of that region. The scenes include nearly 100 pictures, every one of which is a faithful and artistic representation of the life in the country at that time. The collection to-day is of great historical value. As president of the Horticultural Society of Canada, he labored assiduously. For over 25 years he held that office. In 1857, he was elected Mayor of Toronto, and, in 1858, he was elected to the office of Mayor of the City of Toronto. In military matters he had long been interested, being an honorary member of the Queen's Own Rifles, and a member of the Lieutenant-Colonel of the old regiment of Garden's 40th Regiment.

Mr. Allan was an adherent of the Church of England. For a long time he attended All Saints' Church, but of recent years had been a member of the Midway Church, Ottawa; Conservative Club, London, Eng.; St. Andrew's Society, a manager of the latter body; a director of the Working Men's Home and of the Upper Canada Loan and Savings Company until its absorption, vice-president of the North American Life Insurance Company and chief Canadian commissioner for the Canada Company. Other positions he had held were: Vice-president of the Boys' Brigade, president of the Toronto Mechanics' Institute, president of the Historical Society and president of the Toronto Conservatory of Music. In April, 1837, on the completion of the twentieth anniversary of the Toronto Conservatory of the University of Trinity Hall College, the graduates and undergraduates presented Senator Allan with an address recording their grateful sense of his services to the university. At the same time, they presented him with a portrait, taken in his robes as Chancellor of the University.

This seems to be one of those summers that can't do anything but put on hot weather, but it isn't so bad if people have clothes. Archambault's suits are the greatest value in sight, and \$18.00 is the motto of the establishment.

NO CARS ON THE SAND BAR.

Street Car Men Say the Proposed New Route is a Myth. A story outlining a new street car route along the lake front to Hanlan's Point was ridiculed last night by several gentlemen in a position to speak authoritatively.

A subsequent car ferry across the eastern gap, after the Don has been diverted, and a railway on the Island to Hanlan's Point were deemed too remote for serious consideration.

An official of the road said that the story was "all rot." He pointed out that this was not what the County of York wanted, or what there was any agitation for. He considered the obstacles were insuperable.

"Look what we would have to overcome," he said. "There is no road on the lake front, and a right-of-way across water lots would have to be obtained, and we should be fought at every step. You may depend upon it that when the company invests money in extension it will be into the county and not where there is already an adequate service."

As to a ferry and island railway, the official called attention to the arrangement with the city a few years ago regarding a western connection with the island as a prelude to the scheme now mooted.

Another street railway man said he had never heard of the lake shore project. He did not believe there was anything in it. He had heard, tho, that the present service was to be maintained through the whole year, instead of being reduced to a 12 minute service after the summer season.

President Martine, who has mind the lake shore project is said to have "particularly appealed," has been out of the city lately, and is still absent, but is expected home to-day.

TARTE ORDERED OFF.

Ottawa Police-man Made no Exception of Minister of Public Works. Ottawa, July 24.—A Dominion policeman is said to have ordered the Hon. J. Israel Tarte off the grass in the park a few days ago. The minister was strolling about the park, and left the cluder path to cut across the award. "Keep Off the Grass" signs are conspicuous thereabouts, and the police have orders to see that they are obeyed. He ordered Mr. Tarte to return to the park.

"Do you know who I am?" asked Mr. Tarte. "I am the Minister of Public Works." The officer, however, refused to make any exception to the rule, even for the Minister of Public Works, and Mr. Tarte proceeded to obey the mandate.

MONUMENT TO THE QUEEN.

Pedestal Will Be Set in Time for Duke of York's Visit. The statue of the late Queen Victoria, which is to be placed in Queen's Park by the Province of Ontario, will be 9 feet 2 inches in height, and including the pedestal, 18 feet 2 inches in height. It will represent the late Queen in a sitting posture, and will be a copy of the statue set by Hook Kong in 1897, for which the Queen gave a special sitting. The pedestal will be 9 feet high, and will be placed in position at an early date, in order that His Royal Highness the Duke of Cornwall and York may lay a stone on his visit to Toronto in October. The exact site has not yet been chosen, but it will be somewhere in Queen's Park, in front of the Parliament Buildings.

D. T. McIntosh, the granite man, returned on Tuesday from England, where he consulted with the sculptor, Regal, regarding the statue, and made all arrangements for its receipt here. He is particularly interested in the pedestal, which, at the base, will be 15 feet by 10, and, all the statue will not be here for six months.

Mr. McIntosh says the pedestal will be in position, with a first-class foundation, inside of three months. The statue will represent Her late Majesty exactly as she was about five years ago.

Creasm as a Medicine

Very few householders know the value of cream as a food. It is most valuable in the case of invalids as a nutrient, in developing animal heat and force and in fish-forming properties. Even by the highest medical authorities it is conceded to be better than cod liver oil, and as an antidote against consumption it knows no equal. Clarified cream is clean, fresh and sweet. Delivered to all parts of the city. City Dairy, Spadina Crescent.
