MANY HAPPY RETURNS.

Request For Information Not Yet Complied With-Resignation From Board of Governors Not Due to Matters Now Under Discussion.

Hon. S. H. Blake revived the "new | theology" disturbances yesterday when printed booklets of a communication to Chancellor Burwash of Victoria University were made public, under the caption "The Teaching of Religious Knowledge in University College Ultra Vires," It is charged that:

(a) There is no provision in the statutes governing the university or University College for instruction in or giving out certificates in theological subjects or religious knowledge by either of these bodies.

(b) Instruction in both of these sub-

jects is being given.

(c) This work was allotted to the federated universities and colleges.

(d) These latter bodies have therefore ground for complaint and the right to demand that this illegal interfe.ence with their rights shall cease. In a prefatory note Rev. Dr. Elmore Harris refers to the "acute situation"

Hairis iefers to the "acute situation" in University College, and says:

"Nearly two years ago my attention was called to the teaching of religious knowledge and to the character of such Biblical teaching in University College by one of the professors of an affiliated college. He informed me that he had obtained very definite information from a scholarly minister who attended some of the lectures on "Religious Knowledge" that tures on "Religious Knowledge" that the students were being indoctrinated n the most radical type of higher

Soon after this a brilliant young student of the university complained to me personally regarding the attitude toward the Bible as taken by the lecturer in that subject. In the meantime, other students had made Col. Duncan B. and Robin Cooper and

"A deputation consisting of Dr. N. United States Senator E. W. Carmack. death last evening of Harry Dormer W. Hoyles, K.C., Rev. Principal Mc-Laren, Rev. Dr. Carman and myself was left of the testimony of S. J. Bin-Gutta Percha and Rubber Manufacwaited on the president regarding the illegal and clandestine character of this teaching. The president was extremely courteous, but has not seen fit to take any action in the matter.

Was left of the teaching of the defence's mysterious reduction to the defence of the defe hit to take any action in the matter. Hence the only recourse was to approach the board of governors thempselves thru the chairman, Dr. Hoskin. The matter has been drifting along for a considerable length of time, and, as an alumnus of the University of Toronto, I think that immediate action should be taken to put an end to an illegal state of things.

"The religious teaching and examinations in both Old and New Testaments were introduced into University College thru the department of oriental

College thru the department of oriental languages, and in contravention of the Federation Act of the University of Toronto; and it does seem very strange that there should be a disposition on

of governors of the university, was seen at his residence, "The Dale," in

Resedale, last evening. "This thing has been sprung upon us." he said. "I have been chairman now for 22 years, and now this has to happen. I wouldn't have had it hap-pen for worlds. I am very much worried about it."

Dr. Hoskin would not discuss the matter at present, further than to vouchsafe the information that a comnittee had been appointed and had had the whole matter under consideration The Result of the Borderburghs Byfor several weeks. The personnel of the committee is composed of Sir Wm.
Meredith, chancellor; Dr. Hoskin,
chairman of the board; Dr. Falconer,
by-election for the Scottish Border president; Dr. D. Bruce Macdonald, Judge Snider, J. W. Flavelle, Dr. Byron E. Walker, Dr. D. W. White

and Rev. Dr. Teefy.
Dr. D. Bruce Macdonald acts as chairman, and was in consultation with Dr. Hoskin when The World man callas the press was concerned. As Dr. Hoskin expressed it, the matter was one which could not be dealt

with in a hurry. The work of the committee would be thoro. He could not say when they would be able to Have Asked For Information.

President Falconer had nothing to say for publication. He was under the mpression that Mr. Blake's letter to Dr. Hoskin was sent shortly after his (Mr. Blake's) resignation from the board, the nothing had been said as to the connection between the two occurrences. The committee which had the matter in hand was making a oro and dispassionate investigation proceeding thru Thamesford at about the whole matter, both of the legal thirty-five miles an hour, at 6.30 p.m., point which Mr. Blake raises as to the authority of the university to furnish instruction in "religious knowledge" and as to the nature of the teaching. The committee had met last week and would meet from time to time until the macter was disposed of.

nd would meet from time to time under the macter was disposed of.

The committee had requested Mr. Blake to furnish them with the names of his informants, but so far as he knew no names had been furnished.

Mr. Blake's published letter came, therefore, as somewhat in the nature therefore, as somewhat in the nature delayed about 40 minutes by the derail-

university of the size of Toronto the ment. immittee meetings of one kind or another. It was therefore impossible for my question to be rushed to a con-

the university, who is one of the Continued on Page 7.

TWENTY PAGES-SATURDAY MORNING MARCH 6 1909-TWENTY PAGES **OUEEN VICTORIA'S DIARY WOULD FILL 100 VOLUMES**

Kept Private Journal From Age of 13 Until Near Death Which Will Never Be Wholly Published.

LONDON, March 5 .- Lord Esher, deouty governor of Windsor Castle, whose 'Letters of Queen Victoria" were published in 1907, gave an interesting lecture at the Royal Institution to-night on Queen Victoria.

The lecture was given with the permission of King Edward, and contained much new information concerning the late queen.

From the age of thirteen and until within a few days of her death. Lord Esher said, Queen Victoria kept a daily private journal, which will never be published in its entirety. These works, recording the daily life events of the queen, would fill 100 volumes. All were written in her small, running hand. Her entire correspondence and papers when arranged and com-

pleted will fill 1250 volumes.

Lord Esher said that the journal showed that from her childhood Victoria took herself most seriously and that as queen she always had the cour-Who Declares That the Bible Teaching at University is Both Illegal and Dangerous. age to act alone and "with confidence in my country." Her influence was uniformly thrown on the side of peace, the speaker declared, and there was no single instance in her whole reign where Victoria could be shown to have favored war or to have encouraged

those anxious for war.

"We owe to Queen Victoria," said
Lord Esher, "the reinstatement of the
monarchical principles in the eyes of all grave ad earnest men, I have had exceptional opportunities for examining at first hand the inner history of Evidence Given to Disprove Story her reign, but I found no trace of any grave mistake committed by Queen Victoria in her capacity as sovereign."

ATLANTIC CITY IS THE IDEAL WINTER RESORT

Golf, Roller Chair Riding, Baseball, Swimming Pools, Horseback Riding and Other Amusements.

Perplexities often arise when one is endeavoring to decide upon a resort in which to spend the winter and early

spring.

It is therefore with a great deal of pleasure and confidence that the hotel men of Atlantic City brought that resort to the notice of those who would find a delightful retreat. Atlantic City is neither warm, nor is it cold. It is the place of happy medium, which appears to be just what a great majority of the people are searching for, and thus Atlantic City's popularity and success.

and success. There is a delightful climate in At-

There is a delightful climate in Atlantic City. It is different from any other resort on the New Jersey Coast; it is even different from the climatic conditions of the mainland of Atlantic County, which is but a little more than five miles away.

No one has ever found a solution of the atmospheric problem of Atlantic City. The resort is located on Absecon Island, a little more than five miles out from the mainland. It is warmer than any other point in this section of the country. Snow rarely makes its appearance, and even when it does it seldom lays more than twenty. it does it seldom lays more than twen-ty-four hours. The salt air and the warm winds which almost invariably follow a snow squall cut the white covering and it is quickly melted and

runs away.
Some say that Atlantic City is warmed to a certain extent by the Gulf Stream. Some laugh at this idea and declare it too far removed from the same removed after the same re that current to be even remotely af-fected. But whatever the reason, the fact still remains that Atlantic City is anywhere from ten to fifteen and twenty degrees warmer than New York, Philadelphia and other cities in the

winter.
Another big feature is the boardwalk It extends from Absecon Inlet to Vent-nor, a little more than six miles, di-rectly along the ocean, and in some places the waves wash beneath it. This great ocean esplanade is kept clean, brilliantly illuminated at night and well policed. Women unattended and children are as safe on the At-lantic City boardwalk and as free from molestation as the they were in their own homes. Roller chair riding— and there are thousands of these luxurious er. Apply Box 91, World.

loose characters that hang around. It is stated that a confidence man, who has a continental fame, is allowed to parade the streets, it has been revealed thru the shooting of the constable that members of the police force, except a few in the centre of the city, are not provided with lanterns at night.

The Kinrade Case.

The police claim that the burgiar who shot the constable is not the murderer of Miss Ethel Kinrade, althout the gur in each case who behinds the gur in each case was a dead shot. The medical evidence that will be given at the Kinrade enough will show that the first two provides will show that the first two provides will be given at the Kinrade enough will show that the first two provides with lanterns at night.

built roads that are a boon to the automobilist and horseman. The and the mainland are connected by 60 foot wide boulevard across the mea dows, which is one stretches of road in New Jersey. There is no city or resort in the world which is better illuminated at night. Nearly all the large hotels have

their own supply of water drawn from artesian wells. Atlantic City also boasts the finest train service in the world. There are more than a hundred trains a day, in and out of the resort, and they are the fastest operated in any section of the world.

The leading houses—The Marlbor-ough-Blenheim, The Traymore, The Seaside House, The St. Charles, Galen Hall the largest and finest in this country and visitors are well taken care of.

Mrs. Livingstone's Thorobreds. COBOURG, March 5.-At the stables at the Wellwood Farm here, recently purchased by Mrs. Livingstone of New Jersey, there are 13 brood mares, one two-year-old filly and ten year-old imported stallions: Stanhope II., by G. Florizel II., full brother to the King's Derby winner, Persimmon and Dia-mond Jubilee. Among the brood mares there are three by imp. Leamington's Sensation; one is by Locohatchee son of Onondaga, out of a Top Gallant mare. Another is G. Salvator's rival; Tea Tray, out of Cinderella, dam of Plaudit and Hastings, one of the great-est sires and one of the best race horses of his day. Two are by Strat-ford, another by imp. Leamington; one of these mares is Madeline, whose mo-ther was a well-known race mare. The other Stratford mare is Cuirass. Another is of Mr. Cassatt's breeding. namely, Athleen, a ten-year-old bay, by The Bard, out of Athlark G. Gilroy There is one imported mare in the lot lot is Dal, a chestnut, by imp. Mortimer, out of the Leamington mare, Ka-

TAXICAB ROMANCE IN

STILL OPPOSE THE BILL

C. L. & W. Railway Seems Hardly for the General Advantage of Canada.

OTTAWA, March 5.—(Special)—The photo of this, Could have sold this property in or proposition to night again attacked the bill of the Canadian, Liverpool and Western Railway, Major Sharpe (N. Ontario) showed to what absurd lengths this house had gone by pointing to a local electric railway at Oshem declared by this parliament to be for the general advantage of Canada. The representations of the guested declared by this parliament to be for the general advantage of Cash—THE OWNER OF this property is retiring; cheap at \$60 more; nine-roomed house, which had been declared by this parliament to be for the general advantage of Cash—THE OWNER OF this property is retiring; cheap at \$60 more; nine-roomed house, which had been declared by this parliament to be for the general advantage of Cash—THE OWNER OF this property is retiring; cheap at \$60 more; nine-roomed house, which had been declared by this parliament to be for the general advantage of Cash—THE OWNER OF this property is retiring; cheap at \$60 more; nine-roomed house, which had been convenient to design to the general advantage of Cash—THE OWNER OF this property is retiring; cheap at \$60 more; nine-roomed house, which are requiring that the bills of lading be printed in both languages.

The was an important change, remarked Committee Committ

the bill of the Toronto, Niagara and Western Railway Company relieved the company of the obligation to make any outlay on construction for five years.

The bill gives the company an extension, Under the old set it was a second as market garden; one can disconnect the company and the second control of the prettiest and healthlest spots in Canada, especially if you are not strong; this is like Deer Park is to Toronto; been used as market garden; one can disconnect the company and the company are company and the company and Haughton Lennox complained that The bill gives the company an extension. Under the old act it was required that the company should expend 15 per cent. in two years and complete the road in five years. Mr. Turriff agreed. He would prefer to see a clause in the general act which would cover all cases of renewal. Mr. Graham also balance, \$1500, on mortgage; possession at but in perfect order; gas and good barn; the road in five years. Mr. Turriff agreed. He would prefer to see a clause in the general act which would cover all cases of renewal. Mr. Graham also was content to have the 15 per cent. requirement inserted. David Henderson persuaded the minister that the provision should not be put in. The company had spent \$280,000, he said. The bill therefore went thru.

How Dilatory Lover Was Made to Propose in Ruce for the Union Station

Union Station

Union Station

To-night or never." and Mary.

"To-night or never." and Ma

"Are you really going west?" he stammered.

"Certainly," she replied.

"For long, Miss—Miss Mary?" he blurted out.

"For eome time," she replied indefinitely.

Into the taxicab he assisted her after she had hurriedly placed her hat boxes, hand grips and other feminine traveling eccentricities. A way went the taxicab and the meter got down to work on the moving schedule.

There was silence for awhile. Bloorstreet was passed, and the springs bounced them gently over the car tracks.

"Mary, where are you going?" he asked.

"That is my affair," she said, somewhat curtly.

His suspicions were aroused. She was going west to get married he told himself.

There was another painful period of the money; only two miles from electric railway and five from Mt. Albert; splendid market; these not far from Newmarket; owner of this going into business; never been rented; one hundred acres working land; no better for crops; 30 of the best pasture, 10 in hardwood, beech; creek at each end of farm; never dries up; water tap in barn, which is very large and equipped with all modera appliances; heavy stone, alone would cost \$2000; house nearly new, roomy, cost \$2500; furnace and pump supplies bath; all all work done; possession March; could have sold, but need \$3000 down; school close. You will find it difficult to find one like this; sold one not far from this, and within six months purchaser was offered five thousand more than he paid me for it, but refused.

bounced them gently over the case and bounced them gently over the case of them gently over the case of them gently over the case of the gently over the gentl

been declared by this parliament to be for the general advantage of Canada. The representations of the Quebec government should not be ignored. To the last clause of the bill Nantel (Terrebonne) proposed an amendment requiring that the bills of lading be printed in both languages. This was an important change, remarked Committee Chairman McIntyre, and he ruled that notice was necessary. Mr. Monk then moved postponement and as this was the easiest way out of the difficulty it was agreed to.

Muskoka-Lakeview.

Racing King's Plate . Baseball Eastern League . Hockey Stratford 2

Lindsay 7,

Note and Comment

While extraordinary attention has been directed to the Canadian turf recently the local owners have kept cool under the circumstances, and have actually made fewer nominations for the four On tario Jockey Club stakes that close or March 1, entries for which are given herewith. The King's Plate shows a alling off, 34 to 37, while the Stanley Produce Stakes has a gain of seven, and the Maple Leaf Stakes one. There are nine less in the Breeders' than one year

In the O. J. C.'s feature race of the geting, and the richest of the year, Mr. seagram seems to have a strong hand. if numbers count for anything the race is all over but the cheering. At all events, if there were a winter book made on the event, the Waterloo stable would to-day likely figure favorite at even money or

But there may be a hot one or two moder cover among the other 27, that the uniet speculation the next few days, or the early trials a little later, will be sure

The list of King's Plate entries, however is a good one, and surely better in quality, if fewer in numbers, than last spring, and thus the first appearance of the names of some Woodbine performers indicates that the devotees of the sport of kings will enjoy the best of racing, May 22 to June 5.

With Toronto training in Chatham, Pat Powers evidently thought it warm enough to open the season up here, and the Maple Leafs may enjoy the unique experience this season of playing their first championship games at home.

with the aid of his own press agent. Hugh McIntosh, the Australian impressario, has left England for New York to talk fight with the retired champion. He thinks Jeff and Jack Johnson the best possible attraction for his club at Rush-

A little bird interrupted Jimmy Murphy of the Torontos yesterday in his heart-to-heart talk with Art Warwick and Braden his two stellar lacrosse players. The lacrosse manager's greeting to the flyer was more of a command than anything else, altho it fluttered around there long enough to learn that Art Warwick is just recovering from a broken collar-bone, the enough to learn that Art warwick is just recovering from a broken collar-bone, the result of a bad fall, while the retreat to the door was met by the advance guard of Hibernians on their way to conflab with the man who made megaphones famous, as to the best way of celebrating the Seventeenth of March should St. Michaels win the senior O.H.A. championship.

gergoll, which, according to the dope, would just about give Lindsay the intermediate championship. Lindsay will take as kindly to the big ice at Stratford as the locals will, they being every bit as

Stratford has the habit of having two teams in the finals, two years ago it was senior and junior, both landing the bacon, while last season, altho both were in, they were forced to be content with the junior championship. This year both intermediate and junior are represented and it behooves the juniors once again to uphold the hockey record of the classic city. However, their chances will be better known after to-night's game with the known after to-night's game with the

Ontario Jockey Club Stakes Nominations for Four Events

Mr. Seagram Has Seven Candidates for the Guineas-No Less Than 91 Named for Stanley Produce.

The entries for the King's Plate, to be run on Saturday, May 22, the opening day of the spring meeting of the Ontario Jockey Club, show about the same Canadian owners striving once more for the guineas given annually by His Majesty the King. Mr. Seagram tops them all in numbers, with seven, while John Dyment and the Valley Farm Stable have only two each. The Waterloo turfman thus has a long lead right off the reel and unless something phenomenal turns up among the smaller stables 1909 looks like a repeat year. There are three less altogether than last season. The Stanley Produce Stakes show liberal nominations, including Mrs. Livingston of Brockville, seven more than in 1908, while the Breeders' Stakes and Maple Leaf Stakes are about the same.

Following are the entries for the O.J.C. Stakes that closed March 1:

King's Plate, the oldest fixture run. The King's Plate, the lodest fixture runs and the same this continent for guiness. The state of the continent for guiness. The state of the opening day of the same this opening and the same. The state of the opening day of the spring day of the sp

result of a bad fall, while the retreat to the door was met by the advance guard of Hibernians on their way to conflab with the man who made megaphones famous, as to the best way of celebrating the Seventeenth of March should St. Michaels win the senior O.H.A. championship.

When Ingersoll had six goals of a lead over Stratford, Stratford were declared down and out by many, but they overcame the majority and won out, but somehow you can't help but think that Lindsay's five goal margin last night is as good as seven would have been to Ingersoll, which, according to the dopewould just about give Lindsay the intermediate championship. Lindsay will take as kindly to the big ice at Stratford as

Season Starts April 21 and Toronto May Open at Home-Schedule Withheld.

The day was devoted mainly to heartime score being 3 to 0. From the start ing reports from various committees, to the finish both teams dug in, hammer tion, and making minor changes in the

to the time limit only about 15 minutes were played in the second half.

Highfield had the better combination, but were unable to shoot. The work of Vallance in goal for Highfield was the feature. The teams:

St. Andrew's II. (2)—Goal, Paisley;

point, Carmichael; cover. Phillips; rover, Cameron; centre, Wright; left, Bell: right, Wilson. Highfield (0)—Goal, Vallance; point, Higgins; cover, Storm; rover, Matheson; centre, Ferrier; left, Scott; right, Body.

Referee-McKinley. Toronto Chess Club. At the Toronto Chess Club last evening. Mr. Newell Banks, the checker champion of the United States, and a string of chess players played simultaneous games

at 11 boards, winning 4 games, losing 6 and drawing 1. He won from F. L., H. Sime, L. H. Bowerman, H. Carter Mr. Stearns; lost to A. N. Other, J. S. Morrison, P. J. Greayer, W. Melliship, Miss E. Sims, Miss H. D. Banks; and drew with Mrs. G. C. Warburton.

The members of the Toronto Ski Club are requested to turn out at the old Rosedale slide this afternoon at 2.30. Rosedale Golf Club.

The Rosedale Golf Club will hold

their annual meeting this afternoon at 3.30 in the Confederation Life Building. CANADIAN

SALES EVERY TUESDAY AND FRIDAY, PRIVATE SALES EVERY DAY.

THE GREAT HORSE MARKET OF CANADA

SALES BIGGER AND BETTER THAN EVER BEFORE.

SPECIAL SALE ON 32 10 11

TUESDAY, MAR. 9TH 200 HORSES

-HEAVY DRAUGHT, GENERAL PURPOSE, EXPRESS AND DELIVERY HORSES, WORKERS, DRIVERS, CARRIAGE AND SADDLE HORSES. A great number of SERVICEABLY-SOUND HORSES that have been used in city will be sold on Tuesday and Friday, WITHOUT RESERVE.

Our Annual Red Ribbon Speed Sale

OF OVER 150 HORSES, TROTTERS, PACERS, ROADSTERS, HACKNEYS, CARRIAGE and SADDLE HORSES

ON THURSDAY, MARCH

At 11 o'Clock

Many of the greatest Harness Horses in Canada have been sold at our former Speed Sales, but this will exceed all former sales, both in number of entries and in prospects offered to buyers.

The list of tried and green Trotters and Pacers is a remarkable one, and a superb lot of smart Roadsters, Hackneys, Carriage and Saddle Horses will be sald. We will sell at this auction

A Grand Consignment of Hackneys from The Oak Park Stock Farm, Brantford, Ontario including the Champion Imported Stallion "CRAYKE MIKADO" (fealed 1904); also the fine Imported Stallions "WARWICK ALBERT" (foaled 1904) and "JIBILEE PERFORMER" (foaled 1904), with a large number of Hackney Mares

A Splendid Shipment of Registered Trotting Horses Consigned by The Spruce Hill Farm, Ilderton, Ont.

will also be sold at the Speed Stle. Amongst them are "LORD OF THE MANOR" (trial 2.08), black stallion of "Mambrino King" (the grandsire of "MINOR HEIR" 1.59 1-2), one of the greatest-bred and finest show horses in Canada, and winner of first prizes all over Canada; with many other grand young mares and geldings.

Mr. W. A. LAWRASON, of Preston, Ont., also has A LARGE ENTRY OF TROTTERS AND PACERS OF THE BEST CLASS

ding "DIXIE GIRL," black filly, foaled 1906, with engagements in the ng stakes: Kentucky Futurity (\$21,000). Kentucky Stock Farm (\$60 or Review (\$10,000), American Horse Breeders' (\$10,000), and various of Mr. G. A. Brown of Learnington, Ont., is shipping a carload of extra st

speed and road horses.

"SIDNEY POINTER" (2.07 1-4), sire of "ANGUS POINTER" (the greatest pacer of his time), will be sold at the Speed Sale. This is a unique opportunity to buy the most famous sire of speed alive in Canada to-day.

Also "THE ORNAMENT," bay trotting stallion by "HEIR-AT-LAW" (sire of "MINOR HEIR," 1.59 1.2).

Our fine Catalogue of this sale speaks for itself. Catalogues are now read and may be had on application at The Repository, or will be mailed on request.

Auction Sale, Friday, March 12th,

OF ALL CLASSES.

"WINNING RACING" INFORMATION

For the past month I have been receiving information from one of the leading jockeys at Los Angeles. This information is absolutely the best obtainable. Up, until now have not had a horse do worse than second.

The prices are not big, being from even money to 6 to 1—sometimes a little better. I do not receive a win daily, but three or four times a week. Now, I'm not guaranteeing any sure 20—1 shots, but will guarantee that you can make money if you are satisfied with small prices and horses that win. If you are interested, my price is \$5 for three days. But send no money in answering this nd. Correspondence strictly confidential.

SPRING CLOTH

MADE-TO-ORDER SUITS and OVERCOATS---NEWEST PATTERNS---LATEST DESIGNS IN FASHION

Why not leave your order to-day for a spring suit or overcoat? All the new patterns direct from the mills are on view, and we do not hesitate to assure you that they are even better tnan last season's-more classy. Also our facilities for handling your orders to-day are exceptionally perfect. The tailors in big workrooms have become accustomed to heavy business. Each suit or overcoat is individually attended to. The manager also personally examines every garment before it leaves the premises, and gives with it a certificate guaranteeing it of imported cloth and properly tailored and finished, or the money paid to be refunded to the purchaser.

Made-to-Order Suit or Overcoat

EDITORIAL.

A despatch from Montreal, dated March 4, states that a Canadian woolen mill was obliged to close its doors because the Canadian protective tariff was not heavy enough to make the game worth while. And the tariff against British woolens is thirty per cent.

It's quite a compliment to the old country mills to find that British goods, even when handicapped with this prohibitive tariff, can make good in a foreign land. But the point is that the public have been buying imported woolens because they have found that it pays to pay for quality. You pay more for Scotland woolens because they are superior. No mill outside the British Isles can produce absolutely high-class quality woolens. The same thing has foreed most every United States manufacturer of woolens to drop high-class lines and deal entirely in the chenper grades of cloth. We know this because we have had experience in America.

G. MILLER, Manager for Canada.

NO MORE

Ours is a mill-to-man proposition which enables us to give you for fifteen dollars absolutely one hundred per cent more value for your money than what you can secure elsewhere. This argument should appeal to you. You take no chances in dealing with us—we number on our customers' lists nine thousand of the best and neatest dressed men in Toronto. We absolutely guarantee the style and fit of our clothes. If you're not satisfied you may get your money back. Out-of-town men should try our mail order proposition.

The Varsity boxing and wrestling tournament starts this afternoon at 2.30 in the gymnasium. Following is the boxing draw:

Heavyweights—Phillips, ist S.P.S. v. R. F. Meadows, 3rd Arts; C. R. Murdock, 2rd S.P.S. v. W. H. King, 3rd Arts; C. R. Murdock, 2rd S.P.S. v. W. H. King, 3rd Arts; Jas. Pearson, Vict., bye.

Middleweight—F. V. Nichol, 1st S.P. S. v. S. C. Dyke, 4th Arts; W. H. King, 3rd Arts v. R. R. Rose, 4th S.P.S.; A. W. Pae, 3rd S.P.S., bye.

Welterweight—D. Black, 4th Arts v. W. E. Doherty, 1st S.P.S.; W. J. McLean, 2nd Arts v. C. W. West, 1st

Was in excellent shape. As predicted, O. B. Bush, the marvelous western skating phenom, annexed two of the three senior open events, and outclassed the field of starters. Bush fell after leading, almost the entire distance in the quarter mile, Fred Robson of the T.R.C. finishing first. The following are the results:

Senior, one mile, open—1, O. B. Bush, Edmonton A.C.; 2, Fred. J. Robson, Toronto Rowing Club; 3, Lorne Marshall, Broadview S.C., 2, G. Charlton, Broadview S.C., 2, Lorne Marshall, Broadview S.C.; 3, G. E. Fergusen, Broadview S.C.; 3, G. E. F was in excellent shape. As predicted, O.

addition to a handsome cup valued at \$500, donated by the Windsor Hotel Company. It is for three-year-olds and upwards, and is at one and one-eighth miles.

The Blue Bonnets Handicap, for three-year-olds and upwards, is at one and one-eighth miles, and has an added value of \$1200, as has also the Jacques Cartier Stakes, a selling event at one mile, for three-year-olds and upwards.

The Prince of Wales Steeple-mase Handicap, over the full course, also

WHAT'S WHAT IN MEN'S DRESS

The Book of Styles published by the Semi-ready Company tells just when the dress suit should be worn, and why the Tuxedo jacket has gained so many admirers. It tells "what's what" in men's dress on any and every occasion.

Altogether, it's a little booklet worth having, aside from the fact that it illustrates by photogravure some 32 models in the Semi-ready stores. There are others. Buying a dress suit for \$25 and delivering it in an hour, is the way of to-day-

made from colored shirting material, some with soft MAIN FLOOR-QUEEN STREET.

The Woman Who Wears Eatonias Is Correctly Shod---is Stylishly Shod---is Comfortably Shod

CORRECTLY because Eatonias are made for every and all occasions and seasons - made of calfskin with heavy soles for wet and cold weather; made with light kid with light soles for Spring and Summer wear or for dressy wear, or if you prefer the combination, here are kid with heavy soles, patent or plain toecaps, high heels or lower heels, patent or plain vamp.

STYLISHLY, because the Eatonia is designed and made by men who make a study of boot styles; men who know every pulse beat of the boot world, and who are quick to adopt any style improvement. The new Eatonias show the most popular styles for 1909; toes seem somewhat narrower, vamps shorter; thus giving a neater look to the foot.

COMFORTABLY, because in making Eatonias, only lasts are used that have been tried and tested and have proven satisfactory; lasts made after the natural shape of the foot.

Critical Taste Pleasers in Women's EATONIA Spring Boots

For fine dressy wear, the material in this boot is cut from choice small hides of fine goatskin, beautiful dressy leather, light hand-turned soles, popular Cuban heels, blucher tops; also same shape in

buttoned. Price.....

Another style is a fine patent leather boot which we consider the greatest value ever offered in this class of shoe, the tops are dull kid, blucher cut, Goodyear welted soles, dressy, up-to-date

NEW OXFORDS HAVE ARRIVED We have a beautiful range of women's Oxford ties, Eatonia quality in patents, vici kid, tan kid and calf. See some of these new ones Monday.

Funeral will take place from her King-street east, Toronto.

Funeral will take place from her King-street east, Toronto.

Funeral will take place from her King-street east, Toronto.

The future is in the Sermon on the Mount and in the New Testament. The ancient system of tests and terrors is losing its ascendency. Christians more than ever must show in their lives the fruits of good living and well doing The time has gone by when literal acceptance of every verse and chapter of the Old Testament is necessary to

sound Christian standing.
It would be foolish to deny that Rev Dr. Carman has great authority with the Methodist denomination. Moreover, he has always the courage of his opincond section. A rifle lying nearby first caused a suspicion of foul play, but the injuries set that at rest. He had and for Methodists there would be little tickets Dryden to Winnipeg. His name satisfaction in a contest which would on the unfoaded 1902 Winchester, with subject the general superintendent to

MILES OF POLES DOWN

Immense Damage by Storm in the East-ern States.

PHILADELPHIA, March 5.-Not since the blizzard of March, 1888, have the wires, both telephone and telegraph, been so completely prostrated south of Pi lladeiphia.

On the Pennsylvania Railroad between Washington on the south and Susquehanna River, 40 miles north of Baltimore, 80 miles of poles and wires are down. Here and there a pole is are down. Here and there a pole is standing, and here and there one is cally partly down, but the remainder are either uprooted and lying flat on the ground or snapped off, some in the middle and some close to the ground.

Baltimore despatches say that from 30 to 40 miles in all directions, poles and wires lie in a mass of tangled wreckage. Miles of poles and wires will have to be built entirely. It is estimated that at least 100 miles of electric wires lie prostrate within the limits of that city and more than 550 imits of that city and more than 500 poles are down. The monetary loss is estimated at \$250,000, not including the loss of receipts to telephone, telegraph, electric power companies and railroads, the latter being placed at figures fully as high as those of the former. The bulk of the loss falls upon the railroads. roads.

Thousands of men have been working all day in a desperate endeavor to

ing them first referred to a committee, has taken definite shape.

Mr. Gordon of Kent gives notice of repair damages.

The Freylinghusen Lancers of Newark, N.J., returned to that city shortly before noon to-day. Like many others they reached Washington several hours, of the other. eral hours after the cereme over, but as they have not failed to parade at every inauguration since 1868, they decided to go thru their schedule just the same. Accordingly they fell into line late last right and marched over the entire route of the parade, winding up at the railroad station, where they boarded their train and started back to Newark.

KIER HARDIE HOWLED DOWN Oxford Students Kick Up Big Fuss and Throw Eggs and Oranges.

OXFORD, England, March 5 .- At a neeting of the University Fabian So-

over the Marathon distance, 26 miles 385 yards, at the 69th Regiment Armories tonight. The specially-prepared track was in excellent condition and measured 11 laps to the mile.

The principal event was preceded by a five-mile race for professionals, in which seven men started. This was won by Jimmy Curran of Ediaburgh, Scotland; Percy Smallwood of Wales second, Samil B. Myers of Boston third. Time 28.564-5. Curran won easily by fifty yards.

Up to and after the fifteenth mile White maintained his lead, but when he falfered a trifle, Maloney went after him angradually cut down his lead. At the end of the eighteenth mile Maloney was only thirty, yards behind White, whom he soon passed, Another mile saw Maloney two laps in the lead, the little Dublin runner having stopped almost to a walk. During the twentieth mile Maloney went farther ahead so that when the twentieth mile was completed he was eight laps ahead. White quit at this stage of the race, having run to the limit of his endurance. The time for the twenty miles was 2.05.30.

Horse Trainers Here. MONTREAL, March 5.—(Special.)—Maupas and Selva were to have met at Sohmer Park to-night in a match, best two out of three, Graeco-Roman style, but Selva did not put in an appearance, and is snowbound some place between here and Toronto. A local man named Beauchamp went on with Maupas, but was no match for the clever Frenchman, who disposed of him in two straight falls, first in 23 and second in 18 minutes.

New Attraction s at Eaton's Millinery Showing

It is a spring day in the hearts of women when the leading stores anace their early spring showings of the new millinery. And such was the particularly with the announce case particularly with the announcement of the millinery opening which began on Monday of this week in T. Eaton Company's store. For, despite the untoward weather, the company's millinery department was crowded day after day and hour after hour with ladies eagerly inspecting the new spring hats and expressing delight in their brilliant beauty. In fact, as the manager of the department submitted, it was the best millinery opening week in the history of the store.

The department covers 20,000 square feet of floor space—the entire Yongestreet front, second floor. It is spacious and well lighted. The hats are shown

Europe on the Amerika on May 13. Mrs. Beardmore will spend the sum-mer with her mother, Mrs. Mackenzie, at Cacouna on the St. Lawrence.

Mrs. George F. Clare (nee Allison
Awde), 101 Woodlawn-avenue, will restreet front, second floor. It is spacious and well lighted. The hats are shown in cases and on counters in bewilder-ing, delectable and tempting profuceive Tuesday next, afternoon and the last time this season.
Mrs. F. Robbins Smith, 164 Madi-

outstanding feature of the T The outstanding feature of the T. Eaton Company's spring millinery showing for 1909 is the wide range of imported and copied hats to choose from. There are all sorts, shapes, styles and sizes to suit all tastes and all physiques becomingly. The millinery workrooms of the T. Eaton Company were kept busy during the week, making original creations from the making original creations from the Paris, London and New York models, and many of them rivalled in beauty

has returned from her visit in Chithe models themselves.

The predominating styles are French novelty shapes, the new bonnet designs, and the extreme French styles (models day next for the last time this seaonly)—large shapes and big, brilliant plumes, making a really stunning effect.

The new spring hats are trimmed mostly with ostrich feathers, ospreys, flowers and the new satin duchess and last Thursday afternoon, which was arranged by Mrs. Tyrell, when the velvet ribbons, in long streamer effect. The prevailing colors are prunelle, the new Dutch and Bosphore blue, bols soli, marjolaine, mogol and gravier, in the most brilliant and the most delicate

T. Eaton Company is noted always for giving value and having sur-prises in economy for the buying pubof the T. Eaton Company was crowded next at the Toronto Conservatory of Music Hall, when B. Haddon Cham-And if the millinery department able result when those who delight in beautiful and radiant millinery read be given.

The Tyranny of Tears' will be given.

Miss Nora Hayes will give a violing the extraordinary announcement for Miss Nora Hayes will give a violing that the state of the the extraordinary announcement for next week's showing, beginning on k's showing, beginning on recital at the Conservatory Music Hall on Monday next under the patronage of Lady Clark, Lady Moss, Mrs. C. N. Monday? The special—and most affiring feature—next week in the millinery
department of the T. Eaton Company
is that all French hats in this spring
showing will be reduced to half price.

Excitement Running High CHOIR HOMEWARD BOUND BURDENED WITH PRAISES

Last of the Chicago Concerts Only Emphasizes the Excellence of the Toronto Organization

CHICAGO, March 5.—(Special.)—Toronto should have a wreath of bay and a civic reception for Dr. Vogt when he comes home. He is not a Marathon runner, nor a crack shot, nor a champion heavyweight, but among the glorious things that make human life worth while and redeem our civilization from utter futility, he our civilization from utter futility, he has given Toronto a name and a place in the world of enduring realities, and critic after critic has added his tricritic after critic has added his tri-bute of praise to the genial testimony. The New York criticisms were wide-ly circulated in Chicago before the arrival of the choir and this begot somewhat of a deliberative attitude. But it did not last a moment after the first performance, and the news-paper nocices, no less gushing and demonstrative, were more penetrating demonstrative, were more penetrating and discriminating than in the eastern

MUSICIANS AND ACTORS IN MIDSUMMER'S DREAM

Ben Greet's Co. and Russian Orchestra in Combined Performance.

Only a fair-sized audience witnessed of lovers appeared only in a playful the Ben Greet Players last night in light. But Mr. Greet made his presenta-Massey Hall. The company was seen in Shakespeare's "Midsummer Night's Dream." and, in view of the fact that the RussianSymphony Orchestra (fortyfive instrumentalists) of New York was reque, and in the scene of the death of Pyramus and Thisbe developed into a with Greet and played Mendelssohn's sort of amateurish horseplay. incidental music to the great dramatist's comedy, it was rather surprising that Massey Hall was not filled with gied their roles with dignity and with

No doubt the auditors were expectant

To Be Dyspeptic Is To Be Miserable.

and the ensemble of the band was not-ably effective in precision, unanimity and in shading. This was especially errors in diet, over-eating, too free indulopparent in the intermezzo (Allegio
oppasionata), which has a very beaugence in stimulants and over-taxing the tiful melody for the wood and brass, stomach with indigestible food, eating too winds and basses. The same quality was rapidly without chewing the food suffici-ently, indulging in hot biscuits, pastry, was exquisitely carried by the horns pickles, confectionery, etc.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, faintness, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic. Burdock Blood Bitters regulates the stomach, stimulates the secretion of the saliva and gastrie juice to facilitate digestion, removes acidity, purifies the blood, and tones up the system to full health and vigor, and thereby cures dyspepsia and all its tributary diseases.

Mr. Amos Sawler, Gold River, N.S., writes:- "I was greatly troubled with dyspepsia, and after trying several doctors to no effect, I commenced taking Burdock Blood Bitters and I think it is the best medicine there is for that complaint."

For Sale at all Druggists and Dealers.

for the beautiful Mendelssohn music, which the Russian Symphony Orchestra played most delightfully, the Ben Greet company would sadly have sent way at the close a rather disappointed

There is no time when the grotesque appropriate as in the midst of dities. And it seemed that Mr. absurdities. Greet and his colleagues conceived Shakespeare's cornedy, not as a comedy of pure fun, but rather as a travesty of human nature; mortals indeed are fools, and under the madness of love they are exceedingly foolish, but in Shakespeare's imagination the dreams tion of the comedy much too cynical a criticism of human nature and life. At any rate, the acting thruout seemed to be based on a conception which degraded the comic to the level of the gro-

onsiderable art; they were indeed ef-ective. George Vivian as Puck was fective elever: Milton Rosmer as Oberon was bleasing, and Ruth Vivian as Titania spoke her parts as an elocutionist. The dances and choruses of Peablossom and the fairies were well done.

The Mendelssohn music, however

nade the evening a genuinely pleasant Modest Altschuler, conductor of Russian Symphony Orchestra, showed himself a thoro musician, and got from his band the nicest interpretation by safe reading of the score. The horns and basses played with sonorous tone, nd basses. The Wedding March (Allegro Vivace) also was played effectiveby the orchestra. And thruout the neidental music, the Russian Symphony Orchestra displayed qualities which made one regret that they were

The policy of the committee had been

HON. S. H. BLAKE SAYS BIBLE TEACHING IS ILLEGAL

Charges That Course of Instruction Has Been Smuggled Inte University College.

Hon. S. H. Blake has addressed an pen letter, issued in pamphlet form, nd entitled 'The Teaching of Religious Knowledge in University College Ultra Vires," in reply to a communication from Chancellor Burwash.

Mr. Blake's letter begins: I am obliged to you for all the trouble you obliged to you for all the trouble you have taken in going over the matter covered by my letter of Dec. 22 last to Dr. Hoskin, a copy of which I sent to you. Your letter appears to be divided into two parts—the first leading up to the conclusion at which you have apparently, after full consideration, arrived as to the position formulated by me concerning the illegality of religious teaching in University College, which is thus clearly, expressed by you: "I quite agree with you that it is ultravires in University College."

You make a further statement in which I trust all interested in this matter will heartily agree: "I am sorry that it should be transferred to the department of Orientals, as, if this work is done at all, it should not come in by the bear dear".

is done at all, it should not come in by the back door." * * * Surely, as attention has now been called to the matter, this stigma should not be alowed to rest on those affected by it onger than may be necessary to re-

move the illegality.

No more need have been said on this part of the subject, with which you seem to have so satisfactorily dealt, but for your statement: "I think there are some aspects of the question which have escaped your notice," But I do nove escaped your notice of the contrary. I find all the points taken by me verified by you, as follows:

"From 1849 the prohibition against

the teaching of Divinity was in force. In 1850 a power was given, limited to instruction by each religious body, to its own students. In 1885 an option was given to affiliated colleges, other than University College, whereby their certificates that students had attended lectures and passed examinations in certain defined subjects should be accented as a portion of their general certain defined subjects should be accepted as a portion of their general examination work. This was the origin of the recognition of theological work in the university. I suppose that the action was legal or not ultra vires. In all this I agree, but up to this point the only "recognition of theological work in the university" was that from that date the affiliated colleges might that date the amiliated colleges might teach, examine, and give certificates in certain subjects, which certificates should be accepted without question in the general university examinations of the students presenting them."

The Mistake.

* * * The mistake you appear to me to make is in assuming that because certain options in theological subjects are included in the curriculum of the university (while, so far from provision being made for teaching and examination in the same, this work is relegated to the federated universities and colleges), the university has liberty to teach and examine in such subjects! That is virtually to give the university and University and University College a power to "teach and examine in theological or religious subjects," the the act only curriculum, and so far from empow r examine, expressly relegates

or examine, expressly relegates that branch of the work to the federated universities and colleges.

"Referring to Trinity College, with which institution you say you are working in this matter, you state that the position you contend for was made a sine our non of federation by Trinity; that it asked that the option should be offered in all four years, and, as there was a prejudice against the term 'theological options,' that the Oxford designation, 'religious knowledge,' should be you have there the words, 'in theology'

of this matter. work is done at all, it should not come with as little compunction as if it were n by any back door.

ployed for this purpose.

out of the work by the acts. the character of the teaching.

of your letter be shortly and correctly summed up as follows:

"(a) There is no provision in the statutes governing the university or University College for instruction in 'religious knowledge' or 'theological subjects' in either of these bodies.

"(b) Instruction in both of these subjects is being given.

(1) Nothing is more probable than that our Creator, who is hereafter to be our Judge, should give the His creatures a revelation of His will concerning them, and lay down rules and from you is in the conclusion that the course of study which you describe life, for obedience to which they shall one day be answerable to Him.

ferred to. The theological colleges may for this reason look forward to many tended without error.

Represented Peel County in the Legis-lature for Some Years.

BRAMPTON, March 5 .- The people of all the County of Peel were pained to hear to-day of the death of Mr. John Smith, who until lately repre-sented them in the Ontario Legislature. His death was caused by pneumonfa, contracted at a stock sale held on

Monday of this week.

John Smith was born at Inverness Scotland, in the year 1831. With his father, the late Andrew Smith, in the year 1832, he came to the United States, remaining at Caledonia in the State of New York for a few months. State of New York for a few months, and then with his father he came to Canada, settling in Caledon Township. Peel County, the family acquiring a number of farms in Caledon and the adjoining Township of Chinguacousy. Mr. John Smith moved to Brampton in 1884. The deceased was one of the hest known farm and live stock auctioneers in Canada. In his earlier years as a farmer on an extensive scale he did much to introduce good stock into the county. He was liqui-dator of the Haggert Bros. Manufac-turing Co. He was a staunch Liberal. and upon the retirement of Kenneth Chisholm, the local member for Peel. Mr. Smith was elected at the by-elec-tion held in that year, and continued

explosions. Some insurance companies paid the losses as a matter of grace, while others did not. At present people didn't know if their policies covered loss caused by such explosions. The bill was to make this clear.

Hon. J. J. Foy said the bill could go to the legal committee, where the insurance companies could be heard. It appeared to be adding an additional risk, in which case there would no doubt be an increase in the insurance rates.

Hon. A. G. Mackay, North Grey moved the second reading of his bill in relation to the ejection of municipal officers.

It was advanced a stage without discussion.

A. E. Fipp's bill to enable Rideau Club, Ottawa, to issue debentures was also read a second time. The empty of the read of the cost of the restriction of the cost of the read of the read

FARMING AND LIVE STOCK PAGE

SOME SUGGESSFUL SALES LENG'S GRADE COWS HIGH

Demand for Shorthorns Seems to Be on Increase Guelph, Woodstock and Pickering Sales.

The provincial fat stock sale took place at Guelph on Wednesday. There was a large number of very young bulls, but the quality was commented upon as above the average. The sale upon as above the average. The sale totaled \$2020, being an average of \$72.

Prof. G. E. Day, in opening the sale, referred to the successful shorthorn sale in Toronto, and looked to a future betterment in prices.
Joseph Barnett of Brooklin, Ontario County, had the best bull of the sale, it being bred by W. D. Dyer of Columbus. The following prices were

the fairness of a composite test of cream, but as our work is not completed, we should prefer saying very little about it at present. We find that in some cases there might be quite a difference between actual fat delivered, as determined by daily test, and the feet which might be available by means fat which might be credited by means of a composite sample. However, on the whole, I am inclined to think that. unless creameries are prepared to put a special man in to do the testing, or have the samples sent to some central point, which is almost impracticable, my judgment is that the composite

sampling is the only practicable method of testing in creameries as operated "Where creameries have 200 to 500 patrons, to test samples from these twice a week would mean that one man would be employed at it all the This is undoubtedly the best time. way to do testing, but I do not think it practicable under present conditions. It is altogether likely that the varithat the test of the composite sample at the end of the month will represent fairly well the average test of indi-vidual samples. If aliquot samples were taken from each delivery of cream, say, 1 c.c. for each pound of cream, it would no doubt tend to give better results with the composite sampling, especially in cases where there is considerable variation in the weight of oreas delivered. We have to better

WHEY BUTTER IN EAS. BRY CN. TARIO.

Considerable whey butter is being nade in factories in eastern Ontario. The proprietors of the factories, the makers, and the patrons have different agreements as to the basis upon which the butter is made. In the E. W. No. 16 factory at Kenmore the proprietor, Mr. Eager, has made whey butter this year in an experimental way. He arranged with the patrons to equip the factory for the manufacture of the butter at his own expense, with the ations which occur in daily delivery ations which occur in daily delivery understanding that he would give them tend to counterbalance each other and \$100 for season's production of butter. understanding that he would give them Whey cream was drawn to this factory from the Marvelville factory in order that there might be a larger

make of the butter. Ault Bros. of Winchester equipped one factory this season for the manufacture of whey butter and drew whey cream to this factory from three other factories in their combination. But-ter was made three times a week. In was arranged that Ault Bros. Would receive all the returns from the sale of the butter during the first four months and that the patrons would receive half of the proceeds during the last two months.

J. D. McPhail of Russell, Ont., the

owner of some ten factories, has tried the manufacture of whey butter this necessary machinery and the third was furnished with an auxiliary equipment. It is reported that the results obtained in the manufacture of wher

The last word in Motor Car construction in its class.

It's a STEVENS-DURYEA

That is all you need know about a car.

The Ideal American Make

True worth of an automobile is based on its antecedents---mechanical excellence---economy of maintenance---durability.

Word-of-mouth endorsement of highly pleased Stevens-Duryea owners has spread the fame of this remarkable car---expanded its distribution from Atlantic to Pacific, and over seas as well.

The Stevens-Duryea Fours and Sixes have fewer parts to twiddle and fuss with than any four or six cylinder automobiles in the market. They are the speediest cars of their size in existence, and the only cars that do not somewhere or other show the blight of mediocrity.

SOMETHING OF SILVER

Old Report Published which Threws Light on Character of Deposits in Old Mine

The theory is now widely accepted that the silver belt in newer Ontario will be traced westward to the shores of Lake Superior, opposite the former of the shores of the superior opposite the shores of Lake Superior, opposite the once-famed Silver Inlet. The Canadian Mining Journal presents the reprint of an old article on Silver Inlet, excusing itself by the occurrence there of silver with nickel and cobalt; also the influ-ence of graphite on the silver deposition, together with the existence of gas in the ancient rocks of Canada, may receive some explanation in the paper of Mr. Hixon on a "Theory of Volcanic Action and Ore Deposits." The very age of the article may be considered as some reduction of the fault of its reproduction in the face of the general rule of the institution as to the acceptance only of original papers.

In explanation of certain portions of the article, and of the remarks as to the proper attitude of mind for mining men on theories of ore deposition it is advisable to mention that the paper was written particularly to oppose the views of an authority from Nevada who had denied the possibility of any connection between the graphite and the silver, challenged the production of any evidence to the contrary from any other mining country, and maintained that the proper direction to look for silver in future was in the slate country, not within or near the diorite.

As regards the character of the gas met with, the suggestion of its being carbonic oxide rather than the more obvious assumption of carburretted hydrogen, cannot be taken as settling the question; altho it can be stated that

the alternative was considered at the From the private manner in which this property has been owned and worked, very few details of the mine have been made public; altho the vein, as developed, is in many respects remarkable and the conditions of occurrence of the silver are well worthy of attention. In the following paper it is proposed to give an account of some of the most striking features of the vein, with a comparison of the conditions determining the deposit of the

on a small bare rock, 70 feet by 80, three-quarters of a mile from shore and exposed to the full sweep of Lake Superior, has controlled the extent of the workings. It is not proposed here to describe the difficulties to be overcome in order to work a vein actually underwater at its outcrop on a bare rock over which the waves of Lake Superior freely washed in every storm. Suffice it to say that at a great cost the matter was accomplished an artificial island built up of cribs and thousands of tons of rock, a watertight cofferdam sunk, and a shaft and customary workings opened,

This opening of the lode by a single shaft has limited the workings, so that although the mine has been in active operation.

The color of the full sweep of Lake Superior is the surest in the workings, so that although the workings are to those who might call for it. She was believed to furnish it to any sufferer, mail the coupon if you are a full work of the workings opened,

The color of the silver is trief feeling, I am happy to know that I am well again.

The metelleved me of my constant towed to extent of the work that I am well again.

It was surely a god send to me, and I thank Him that there is such a wonderful medicine on earth for the work of the womb, profuse scanty or painting that the workings and I have not words to excend the work of the womb, profuse scanty or painting that the work of the womb, profuse scanty or painting that the workings and I have not words to excend the work of the womb, profuse scanty or painting that the workings and I have not words to excend the on a small bare rock, 70 feet by 80, three-quarters of a mile from shore and

altho the mine has been in active operation some six years, the present depth is only about 650 feet, with a maximum extension of about 500 feet. From this small excavation, but really confined to a mere portion of it to be subsequently described, about \$2,500,000 in silver have been taken; and there is no reason why as much more may not be hereafter extracted.

The immediate country rock around Silver Islet consists of a very silicious slate, with a slight dip to the east. Thru this slate a number of diorite dykes cut, running in a general northeastery direction. These dykes are required to assist in this graphers are required to assist in this surfer and how they can easily cure themselves at home, without the aid of a bout the country form of the physician.

There is hardly a country, city, town or village in which there does not reside some grateful lady who has been relieved after years of suffering and permanently worth of her edicine. So has fulfilled this promise, but as she is still receiving from female diseases another \$10,000.00.

There is hardly a country, city, town or village in which there does not reside this promise, but as she is still receiving from thousands upon thousands of women from all parts of the world, who have not yet used her remedy, she has decided to give away \$50,000.00 more large them. The standing better than the slates the action of the small crags of diorite left above. The small crags of diorite left above. It is intended for piles as well as the disease peculiar to women. It heals disease membrane surfaces, no matter day's delay.

I want to tell you flatly and plainty this remedy has cured more bad casts of piles of all kinds than all the so-called matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that any woman, or man either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that any woman, or man either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to an either for that matter, who suffers from any to

Send No Money. Just Your Rame and Ad- Why Men Desert Their Wives sertions and Divorce Due to

In the past few years Mrs. Miller has | to those who are suffering and unable to Several years ago Mrs. Miller learned pecially prepared for the speedy and perof a mild and simple preparation that cure of leucorrhea or whitish discured herself and several friends of fe-

I should have taken better care of the self, I suppose. I was sick and suffered is no one but a woman can ever know how I suffered. I was irritable. I couldn't be to my husband the wife that I ought to have been. He, being a man, couldn't understand. We drifted apart. He sought his pleasures elsewhere. Finally there was nothing but the divorce court that could settle our differences.

That's the sad story that eight out of every ten women who have passed through the ordeal of the divorce court, as well as the countless thousands of deserted wives who are not divorced, know deep down in their hearts was the real cause of their trouble.

A sick wife a neglected home, and the publicity and disgrace of the court room to end it all. There wouldn't be half as much talk of the divorce evil in the world if only every wife and mother would realize her duty to preserve her health and strength.

No woman has the right to expect her husband to devote his leisure hours to his home and her when she is leading a dragged-out hopeless, down-in-the-mouth existence, that would discourage the greatest optimist on earth.

Mrs. Cora B. Miller's marvelous home remedy has done more to prevent divorce than all the messages to congress and conventions in the world. The woman who is bright and cheerful and well has a home that reflects her own good feeling, and discontent finds no place therein.

Mrs. Miller's aid and advice are as free to you as God's sunshine or the air you reathe. She wants, to prove to you her cammon-sense home treatment will cure you just as surely as it cured her years as in her humble cottage.

If you are a sufferer from any female trouble, no matter what it is, send the coupon below to Mrs. Cora B. Miller at once.

Life is a Joy to the Strong and Healthy

Look around you at the happy faces of the women who are strong, Estimates Now Down to 18 1-2 Mil healthy and well developed and ask yourself the question-"Why should I not be well and enjoy life?"

Many of these women have known the suffering which results from thin blood and exhausted nerves, and many of them have been lifted from that condition to health and happiness by the upbuilding and invigorating influence of Dr. A. W. Chase's Nerve Food.

Mr. S. KING, Stratford, Ont., writes:—"My wife has used Dr. Chase's Nerve Food to such good advantage that people are asking her what she has taken to make her so well and healthy looking. Her nervous system was all run down and she had the resulting symptoms of headache, sleeplessness and indigestion. By forming new, rich blood Dr. Chase's Nerve Food has built up her health wonderfully and made her strong and well."

Dr. Chase's Nerve Food

Is different from any medicine you ever used. While most medicines tear down the tissues of the body this great restorative treatment cures theroughly by building up the system and thereby overcoming in nature's way the many ills and weaknesses which accompany low vitality. 50 cents a box, 6 for \$2.50, at all dealers, or Edmanson Bates & Co., Toronto. MEN, NEW LIF THE GRAND PRODUCT OF NATURE

Dr. McLaughlin's Electric Belt with its Free Electric Suspensory for Weak Men

This grand restorer of life carries strong current direct to the weakened parts, and is a positive cure for all weak-nesses in men. It develops and expands all weak organs and checks unnatural drains. No case of failing vigor or de-bility can resist the powerful Electric Suspensory. I have cured thousands of weak, impotent men, and I can cure you, if you will write me. You are a broken-down man as a result of living a reckless, fast life; your errors of youth and dissipation in manhood have drained the vital force from your body. Before you are forty life will have lost all its pleasure for you unless you stop this drain now. It is a grand method, and every man who has ever used it is praising it. BE CONVINCED BY THE OFFER I

MAKE YOU.

After I Cure You, Pay Me

Every man or woman who comes into my office gets a practical illustration of my method of treatment, and goes away convinced that the claims that I have made for it are true. After seeing original letters from the cured (letters which I am permitted to exhibit), their doubts are dispelled, and they know that my Electric Belt makes strong men out, of weak men, gives new life and ambition to men who formerly were weaklings. They read grateful letters from men and women who were cured by my Belt of rheuma-evidence of wonderful cures of locomotor

ataxia and some forms of paralysis. Every day brings fresh evidence of the wonderful cures.

My Cures Prove The Truth of My Arguments. Listowel, Ont.

Dr. McLaughin.

Dear Sir.—About three years ago I bought one of your Electric Belts for Rheumatism in the legs, and after a few weeks' wear of the Belt I was so much better that I left it off. My wife was troubled with Neuralgia in the head, which was so severe as to almost drive her out of her mind. At my suggestion she tried your Belt for it, and it gave her almost instant relief, and she has had no return of the severe pain since. I consider it was worth many times what I paid for it, as I had tried many kinds of medicine and many doctors, and they had all failed to even give relief. It is the best thing I ever saw for Neuralgia and Rheumatism, and I can heartily recommend it to all who suffer from Rheumatism, and I can hear sincerely for your help, I remain, these troubles. Thanking you sincerely for your help, I remain, WILLIAM BROCK.

Acton West, Ont. Dear Sir .- The Belt you sent me completely cured my back. I only used it one week; since then I have never had any return of the pains. I can truly regumend your Belt. RICHARD R. SPOONER.

FREE BOOK .- Write for my beautiful Illustrated Book, showing how my Belt is used. I want you to read this little book and learn the truth about my arguments. If you suffer from rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, varico-cele, or any ailment of that kind that unmans you, this book contains information you should know; it explains my method thoroughly. I send it closely sealed, without marks, free, upon application. If you are not the man or woman you should be, call or write at once. CONSULTATION FREE.

1 HAVE A BOOK ESPECIALLY FOR WOMEN ALSO.

Dr. McLaughlin:

Dear Sir.—Before buying your Belt I had Sciatica so bad that I was unable to walk across the floor. Being persuaded by my family to try one, athough I had no faith in it myself, I consented to get one, nore to stop them from bothering me, as I had given up all hope of even to stop them from bothering me, as I had given up all hope of even being able to walk again. After using the Belt one hour I was able to walk across the room, and in three days I could walk out doors. Now, to walk across the room, and in three days I could walk out doors. Now, to walk across the room, and in three days I could walk all the credit.

Yours truly.

Dr. McLaughlin:

Petersburg Ont.

Petersburg. Ont.

Dear Sir.—I am very thankful to say that I feel much better, both
in strength and health. My back is not like it was, for I can 65 a
day's work now much easier than I could before using your Belt. I
now wake up in the morning feeling fresh, not like before, when I had
that languid feeling. I have more life in me now. I am well satisfied
with the Belt. I only wish I had obtained it before.

Dr. McLaugalin:

Cedarville. Ont bith the Belt. I only wish I had obtained it before.

A. RICKAD.

Dr. McLaughlin:

Dear Sir,—I now write to tell you what your Belt has done for me.

The pains in my back have ceased aftogether, and I have had no lossed since wearing your Belt. I feel like a new man, and I thank you a since wearing your Belt. I feel like a new man, and I thank you a thousand times over for fixing me up in so short a time.

AVERAGE OF PRICES Shows Little Change, But the Future Is

Heron & Co. say in their weekly let-The it cannot be said that the Cobalt market is in a particularly cheerful market is in a particularly cheerful mood at the moment, the developments of the week include many encouraging features, and were it not for the uncertain condition of the security markets generally, Cobalts would go ahead fast enough.

kets generally, Cohalts would go ahead fast enough.

As it is, the average of prices shows little change from a week ago. The advances that occurred in various issues, notably Otisse. Chambers-Ferland, Temiskaming, Amalgamated and Beaver, largely offset the declines elsewhere.

The new discoveries on Otisse and Chambers-Ferland are of much importance to those properties. The buying in Trethewey has been of excellent character, and seems to presage another thandsome distribution of profits. The rumors of a new find on the Amalgamated, and control being sought by Buffalo capitalists, may put the stock considerably higher. Peterson Lake is being pressed for sale from apparently well-informed sources, but should rally sharply. The rumor that Nova Scotia may shut down temporarily seems in-

may shut down temporarily seems in-spired for market purposes. Silvers Limited is now listed on the at 343, 400 at 34, 500 at 344, 500 at 344, 200 Silvers Limited is now listed on the Toronto and New York curbs, and the market for the stock is rapidly widening. Several new veins of great richness have recently been uncovered on the Armstrong claim, where a force of some thirty men are at work. An active campaign in the stock is being inaugurated, and, with conditions favorable, a quick advance may be lookeds for soon.

OPERATORS and PROSPECTORS

OPERATORS

The present opportunities for investing in real mining properties, passed in the history of the great silver camp. This is but natural under present conditions—every day bringing forth new-and valuable discoveries in the great silverland. Our business is to secure these properties direct from the prospectors and men in the field, and our representatives on the ground have enabled us to secure some of these on very favorable terms and at reasonable prices. We have a splendid list of properties ranging in value from \$500 per claim to \$250,000. The former are usually claims staked during the winter on which calcite leads are found in the diabase around Obuskong. Spawning and Hanging Stone Lakes. These properties are practically undeveloped, and when the snow leaves and real prospecting takes place, may produce some of the wonders in the camp. The higher-priced properties show mineral in place, and range in value according to silver in evidence, fecation, etc. We endeavor to secure an engineer's report on all silver properties, as well as owners' statement. We also insist on reasonable terms and conditions.

If advertised list does not contain what you want, write or wire us—stating amount you desire to invest, and we will endeavor to satisfy your requirements.

We have the latest maps of Gow at real values have never been sur-

requirements.

We have the latest maps of Gowganda and Silver Lake districts, as well as all township maps.

We do not confine our efforts to Gowganda and Elk Lake district, but have properties for sale in Coleman, Bucke, South Lorraine, etc.

MAPS

We have the most complete and up-to-date map of Gowganda and the Silver Lake district. This we mail to out-of-town customers upon receipt of price, \$1.25. Every owner and prospector should have one.

PROPERTIES FOR SALE

We submit herewith a partial list of properties. In addition to the following we have two or three companies holding large acreage who wish to sell out. One of these has issued 25,000 out of a million shares. The other has issued 150,000 out of a million shares. These can be purchased on reasonable terms. We are also negotiating for control of a shipping mine in Colema. with arge

1—A magnificent forty-acre claim in diabase and keewatin formation, with one six-inch calcite vein, heavily charged with native sliver. Excellent sliver samples taken from this vein. Several others of cobalt and bloom, all assaying from 100 to 350 ounces to the ton in silver. This property should make a shipper by spring. A snap at \$50,000.

2—Forty-acre claim in Speight, Montreal River district. Formation diabase and gabbro. Five veins on this property show native silver—four on the surface and one in the shaft. We have an engineer's report on this property. This is an excellent, medium-priced claim, and in the opinion of the engineer who inspected it can be made a shipper in three months.

this property. This is an excellent, medium-priced claim, and in the opinion of the engineer who inspected it can be made a shipper in three months.

3—Splendid forty-acre claim situated among the good ones in James Township. Eight veins from 4 to 12 inches wide uncovered, five of which show native silver. Owner wants \$55,000, but will accept part payment in stock, preferring to retain interest in property.

4—Excellent property adjoining Moosehorn, in Township of James. This property has a native silver discovery, but the statutory work on this claim was performed on the adjoining property. It is an excellently-situated property adjoining a producer.

5—Two silver properties in Silver Lake district. These claims are said to have silver in quantity and are among the best in the district. Reasonable terms can be made. Persons desiring a shipper at an early date should look into this at once.

6—Three splendidly-situated claims, joining and in close proximity to Mann, Bartlett and Fairburn properties, right in the heart of Gowganda's famous mines. These should make mines.

7—Forty-acre claim in the rich Gowganda ridge, said to carry eightinch ctleite and silver vein. This is one of the properties that have made Gowganda famous, and will be sold on reasonable terms.

8—Seven forty-acre claims in James and Smyth Townships, one of which adjoins three native silver properties and has passed government inspection. The others are in close proximits to Motherlode and Moosehorn Mines. Twenty-five thousand dollars, spread over six months, buys three-quarter interest. We have a claim in James at \$4000 also, which is situated near Downeys.

9—Four claims west of Obuskong Lake; good calcite veins and aplite leads; adjoining claim has silver: no development work, but splendidly situated. First buyer gets these opportunities at \$3000.

11—Two directly south of Beaver Lake; all diabase and keewatin. These claims are directly south of Beaver Lake; all diabase and keewatin. These claims are directly south of Beaver Lake; all diab

PROSPECTORS

PROSPECTORS

We have unexcelled facilities for handling mining properties, and have an extensive clientele, in Canada, the United States and Great Britain. This clientele is daily increasing, and we are desirous that it should. In order, however, to mainfain the position of leadership we have established for sale of mining properties, we believe it advisable, to state openly so that all claim-holders may understand, the information we have forwarded to many prospectors who have written us to sell their claims.

1—We must have an owner's statement clearly setting forth formation of claim, description and number of veins showing values.

2—Send particulars as to title, giving number of claim and stating number of days' work actually performed. Also if surveyed.

3—Do not have your propositions loaded two or three times their actual value by middlemen and others. We do not and will not offer properties this way.

4—We do not accept for sale all properties offered, and do not demand an option until we have real buyers in sight.

5—We believe you would make more money out of well-located and undeveloped claims by placing the same under working options. These properties at present sell from \$500 to \$5000. Suppose you place same with real operators who will accept an interest in your property and proceed with continuous development, you reserving an unassessable interest. If it proves to be a mine, you will have an independent fortune—if otherwise, you are only out of pocket cost of staking and recording. We have placed several properties this way, which we consider fair to all parties interested.

MAPS

We are having a map of the

We are having a map of the Montreal River section, including James, Smyth, Micke, etc., specially prepared for our customers. This we will sell at \$1.25. We also have latest township maps at 75c.

Kerr Lake District Probably the Richest Silver Section in the World.

The fact that Crown Reserve and Kerr Lake have stood very firm in the recent heavy Cobalt market is impressive. It is a maxim in speculation pressive. It is a maxim in speculation Rebate of Interest on Bills Discounted that the stocks that stand strong in Profit and Loss Account. a weak market are sure to rise in a strong market. There is of course a reason for the remarkable strength 68 shown. Both the Kerr Lake and Crown Reserve are blocking out ore at a great rate. These two properties, it is believed by people who ought to know, will by June have, fully \$20,000,000 of ore actually in sight. Both Kerr Lake and Crown Reserve are getting ready, it is now currently reported, to further increase the dividends they now. pay. Kerr Lake pays 4 per cent. quar-terly, and Crown Reserve is paying 16 per cent. half-yearly. Crown Reserve will probably begin paying quar-

terly dividends soon.

The Kerr Lake District is probably the richest silver producing district of equal size in the world. The 200 acres odd, comprising the Kerr Lake, 57 acres, Crown Reserve 28 acres, Lawson 40 acres, and Hargrave 80 acres, will undoubtedly produce enormous

The Lawson is known to be fabulous. y rich. Crown Reserve and Kerr Lake are now well ahead in their develop-ment, but Lawson is still in litigation. and will not be free for operation until fall. Hargrave has been tied up in litigation for nearly four years, and but recently secured its titles, and started to open up its very valuable

property. The properties in the Kerr Lake district, including Kerr Lake, Crown Retrict, including Kerr Lake, Crown Reserve, Lawson and Hargrave, will when devoloped probably produce as much as \$10,000 a day. The mining operations in this district are under the direction of skilful engineers, and as the territory is known to be very rich, the return to investors is likely

COBALT AND GOW GANDA INVESTORS!

The attention of the investing public should be directed to the extremely low prices at which the Cobalt stocks are now seiling. Very large returns on capital can be secured by picking up some of the issues at their present market price. Temiskaming pays over 15 per cent. at the present price; Cobalt Central pays over 18 per cent., and others range from 10 to 15 per cent.

There is no other form of investment by which like returns can be obtained, and at the same time afford security for the money invested.

Not only have the investors security for their investment, but they have at all times an open market whereby they can obtain their capital return by the re-sale of their security. Why should you allow your money to remain on deposit in the banks

at 3 1-2 per cent, interest, and requiring, in the majority of cases, a time notice for the withdrawal of your funds? The Northern Ontario silver mining securities have not only made a The Northern Ontario silver mining securities have not only made a place for themselves amongst the investments of to-day, but they have demonstrated the fact that it is the richest mining camp in the world, and the cheapest to operate. The fact that we have often cited in our advertisements that silver can be produced from the mines at a cost of &c per ounce, whereas there is no other country in the world that can produce from its silver mines at a lesser rate than 40c per ounce.

The Cobalt Camp is in its babyhood days, and is now about four years old, but its growth has been phenomenal, and will be greater as develop-

ment work progresses, and the opening up of the new sections becomes fea-The "Captains of Finance" have been attracted by the wonderful results obtained by investments in these. Northern mines. On account of the depression in copper, some of the large copper men have seen fit to place a large amount of their money in the Northern Ontario mining fields. This has taken place within the last six months. The control of the Kerr This has taken place within the last six months. Lake Mines being, we believe, the first instance of large capital invest-ment by copper interests.

Hundreds of thousands of dollars of the finest machinery have been purchased and installed in the working mines, and hundreds of thousands of dollars of machinery are on order to be delivered for the operation of new properties. All this points to one thing, and that is "Progress," and "Progress" and "Development" are the outcome of "Opportunity," which has been offered to us by the discovery of these vast new silver lands.

Our Advice

Our advice, after a great deal of consideration and thought, and by watching the development of the various properties, is to say to the Investors of to-day, "BUY SILVER SECURITIES": be sure that in buying you do not purchase worthless stock or get into wildcat promotions. We are endeavoring to protect our clients' interest in every way.

Enormous profits are made out of mining speculation for the first promoters or operators of mining claims. Why not become one of the ground

We are at all times ready to obtain any information we can for the use of anyone asking it, and believe that we can advise our clients and prevent them making serious losses.

We Offer

Shares in a GOW GANDA SYNDICATE to investors. This Syndicate Shares in a GOW GANDA SYNDICATE to investors. This Syndicate is for the purpose of exploiting 120 acres, being three forty-acre claims in the Gow Ganda district, lying south of Spawning Lake. They are in diabase formation, and have every indication of proving valuable properties. The Syndicate is composed of one hundred shares of \$500 each, payable \$100 cash, and the balance in four monthly instalments of \$100 cach, without interest. \$10,000 is provided for the development of these claims, and as soon as development work warrants a Company shall be formed, having a Charter Capital of \$2,000,000, in two million shares of One Dollar each. One Million Five Hundred Thousand shares of the stock of the Company will be paid to the Syndicate for the title to the property, and this means that each Syndicate share will neceive 15,000 shares of the capital stock of the Company. The balance of 500,000 shares will be left in the Treasury for future developments.

Call in and see us in relation to this proposition. We think it a fair investment, and one in which you will not lose the money invested. It also affords the investor an opportunity to see what is being done on the proposity from months to month, when the months is proposed. property from month to month, when the monthly payments are made, Some instances of syndicate operations in the Cobalt Camp are as follows:

Crown Reserve Syndicate consisted of 30 shares of \$1.000 each. For each share in this syndicate 30,000 shares of the stock of the Crown Reserve Mining Company were given, and at the present market price this means a return of \$84.000 for each \$1,000 syndicate share. The Right-of-Way mining shares sold at 15c, and are now selling at

\$4 per share, and have already received 40c per share in dividends. We might also quote Buffalo. Coniagas and Hudson Bay, which was sold at 25c per share, and which is now selling at \$275.00 per share. WE THINK IT WILL PAY YOU TO INVEST IN ONE OF THESE

Cobalt and New York Stocks On Margin

We carry the leading Cobalt stocks on margin, and also deal in New York stocks, Chicago Grain, etc. WE WANT YOU AS A CLIENT. If you do not care to come down and see us, ring us up over the Telephone. Main 6294. and we will be pleased to give you all information possible.

Liverpool Grain and Produce.

J. J. Craig, East Wellington, is promoting a bill to give municipalities full control over telephone and telegraph poles on country roads.

W. F. Nickle, Kingston, will move that the city solicitor of Kingston be allowed to continue his private law practice.

Hams—Short cut steady, 46s 6d; shoulders, square, firm, 41s.

Tallow-Prime city easy 28s 3d. Tur-Tallow—Prime city easy 28s 3d. Tur-pentine—Spirits steady, 28s. Hosin—Com-non steady, 7s 10½d.

New York Grain and Produce.

New York Dairy Market. NEW YORK, March 5.-Butter-Fancy, and Miss Dickson, and Mr. and Miss fresh steady; other grades easy; receipts, 4657; creamery, third to first, 21c to 27½c; creamery, held, common to special, 20c to Cheese-Firm, unchanged; receipts, 1342, Eggs-Easy; receipts, 14,874; state, Penn sylvania and nearby, fancy, selected, white, 25c; do., fair to choice, 23c to 24c; brown and mixed, fancy, 22½c to 23c; do., fair to choice, 21c to 22c.

CATTLE MARKETS Cables Steady—Hogs 5c to 10e Lower at Buffalo and Chleago.

NEW YORK March 5.-Beeves-Receipts, 1078; steers in fair demand and case. steady: bulls steady to firm: thin cows steady; buils steady to firm; thin cows steady; others slow; steers, \$6.65 to \$6.70; buils, \$3.75 to \$1.80; one exita buil, \$5.25; cows, \$2.25 to \$4.85. Liverpool and London cables quoted live cattle to-day steady at 12½c to 14c per 1b., dressed weight; refrigerator beef at 10c to 10½c

Calves—Receipts, 492; market 50c to 75c lower; veals \$6 to \$10.25; no choice here.
Sheep and Lambs—Receipts, 1035; sheep steep and Lambs—Receipts, 1935; sleep steady to lower; lambs quite demoralized; almost no demand; bulk of the stock un-sold; sheep, \$4.75 to \$4.75; no good sneep here; ordinary lambs, \$7; holding at \$7.75 to \$7.90 for best. Hogs-Receipts, 3917 head; 1½ cars on sale; nominally steady.

expert's figures on farm reserves, created a stampede amongst longs to realize. Market closed apparently weak at low price of day. Situation from supply and demand standpoint unchanged, and we continue to advise purchases of July on all good declines.

Oats—Lower in sympathy with wheat, but held well, and are on their merits. The September, option has great possibilities. Buy September,

J. R. Heintz & Co. wired R. B. Holden; Meat—We have had a very broad and Wheat—We have had a very broad and Wheat—We have had a very broad and Sheep and Lambs—Receipts 21,000 head; slow; sheep steady; lambs 5c lower;

rell, considering the weakness in wheat.

There was a lot of realizing by commistion houses.

Oats—We believe in taking profits on week were as follows:

City and Union Yards for the present week were as follows:

City. Union. Ti. Oats-We believe in taking profits on Cats-We believe in taking profits on the strong spots, for we think they an he replaced at lower figures.

Ennis & Stoppani wired to D. Urquhart,

Hogs

MORALITY MATTER OF SIZE Little Figures of Billiken O.K., But Big Pictures—Horrors.

Immorality is a matter of size. Little sins don't count, but big ones must

This seems to be the ground principle of the methods of Staff Inspector Jas. Stephen, censor of theatrical, posters and arbiter in matters of art and

and arbiter in matters of art and morality for the city.

The posters adorning the signboard; and fences telling of the coming of "The Blue Mouse" to the Royal Alexandra Theatre bear a large figure of the grotesque Chicago God of luckiness, "Billiken." But it doesn't show in Toronte. "Billiken" is scratched by order of the morality department, despite the fact that it has allowed miniatures of the merry god to be displayed in store windows all over the city for months past.

city for months past.

This the inspector explains by saying that the pictures and statues affike are revolting, but that because the statues are small they have, slipped thru the meshes of the morality net.

CURBING THE AUDITOR To Be Relieved of Authority to Refuse to Pay Accounts.

The Ontario Government will amend the Audit Act to the extent that the authority for absolute refusal to pay any account is taken from the provinany account is taken from the provincial auditor. In future, should he object to paying any account, the matter must be referred to the treasury board, who will decide whether his objection is well-founded or otherwise. Largely owing to the difficulty which has arisen with regard to the payment of the expenses of the provincial detectives, the bill provides that the auditor shall consider the certificate of a minister suffi-

of the season was given last night when the Huron Old Eoys' Association held their ninth annual reunion at the Temple Building. The president, T. G. Soole, gave an address, and a splendid account was given by Miss

New York Grain and Produce.

Free Receipt For Weak Men

Gentleman Will Send It Confidentially Free and Sealed, to Every Weak and Unable Man Who Writes for It.

I have in my possession a prescription for nervous debility, lack of vigor, weakened manhood, failing memory and lame back, brought on by excesses, unnatural drains or the follies of vouth, that has cured so many worn and nervous men right in their own homes—without any additional help or medicine—that I think every man who wishes to regain his manly power and virility, quickly and quietly, should have a copy. So I have determired to send a copy of the prescription, free of charge, in a plain, ordinary sealed envelope, to any man who will write me for it.

or it.
This prescription comes from a spe-This prescription comes from a physician, who has made a spetial study of men, and I am convinced it is the surest reting combination for the cure of deficient manhood and vigor-tailure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, so that any man, anywhere, who is weak and discouraged with repeated failures may stop drugging himself with harmful patent medicines, secure what, I believe, is the quickest acting, restorative, upbuilding, SPOT-TOUCHING remedy ever devised, and, so cure himself at home quiet. ng. SPOT-TOUCHING remedy ever de-rised, and, so cure himself at home quiet, y and cuickly. Just drop me a line like his; Dr. A. E. Robinson, 2022 'ck Bidk. Detroit, Mich., and I will send you a copy of this splendid receipt, in a plain, ordin-ary sealed envelope, free of charge.

be much improvement until about the end of this mon,, when the spring trade tors, at retail should be under way. The sortat retail should be under way. The sorting trade during the past week has been quiet. In drygoods the outlook is still cheerful and, altho the movement has so far been moderate, there is likely to be an excellent enquiry for staple lines on account of the light stocks retailers have in most parts of the country. Values are generally steady, altho a firmer tendency is reported for ginghams, prints and cottons. Orders for heavy hardware lines are fair and when navigation opens there is likely to be a brisk movement. The movement of staple groceries is fair. The demand for canned goods is brisk and prices are firmly inclined. Sugars and teas are steady to firm. Country trade is quiet and collections are only fairly good. Country produce keeps fairly steady with receipts about normal. Hides are quiet and inclined easier, while leather holds a steady tone.

Toronto reports say: The volume of trade in all lines continues.

mand for general lines and collections are satisfactory. Local industries are showing increased activity. There is already talk of better prices for lumber and the boom in railroad building, which seems to be assured for the coming spring, is doing much to help the general sentiment. Renewed activity in real estate seems general in all coast cities.

Buffalo Broker Guilty. Buffalo Broker Gullty.

BUFFALO, March 5.—The jury in the case of Harold G. Meadows, of the defunct brokerage firm of Meadows, Williams & Co., on trial on the charge of grand larceny, after being out all night, returned a verdict of guilty this morning. The brokers failed last August for over a million dollars. Meadows was accused of wrongfully appropriating \$72,000 belonging to William E. Silverthorne, a lumber merchanty of this city.

SMALL IMPROVEMENT NOTED IN THE NEW YORK SECURITIES

Trading is Small But Prices Are Firmer on Wall Street Toronto

trength to the market not altogether cceptable for any other reason. In

quiet, but yesterday's strengthening in Sao Paulo was continued and this stock sold at 155, as compared with 151 3-4 on Thursday.

A slight improvement in the New York stocks during the late trading was an influence on local transactions, and while not inculeating any numbers.

and while not inculcating any purchases it had the effect of strengthening and while not inculcating any purchases it had the effect of strengthening quotations and withholding possible Glassco, 14 West King-street, as follows. L.-P. 10 @ 231

Conferences still proceeding between anthracite miners and leading opera-

substantial new orders, mostly in U.S. movement, which prices still higher.

The Railway Steel Spring Co. makes an annual report of a very unfavorable nature. Its net earnings, \$975,000, or only a little over 40 per cent. of what they were during the previous year. After paying interst, \$766,000 earned did not pay preferred dividends by \$179,000, whereas during the year there was an addition paid out of \$404,000 in common stock dividends, so that the profit and loss surplus was cut down nearly \$600,loss surplus was cut down nearly \$600,-000, and now stands at \$2,270,000.

000, and now stands at \$2,270,000.

*Extension of the reaction is likely in the stock market to-day. We would not follow it down to the last supporting limit. Too much stock offered on the advances toward upper limits heretofore indicated, and the technical condition assumed control, as suggested might be the case. On approach to supporting levels, as may be indicated in detailed stock gossip, daily operators should buy with a stop order for a turn, as this is a trading market, in which the best possible results will be gained by purchases of railroads on declines and sales of industrials on railles.—Financial Bureau.

The market is again in a precarious position. Only strong support will preposition. Only strong support will preposition. Only strong support will preposition breaking hadly. There will be

UNDERTONE HAS IMPROVED.

World Office, Friday Evening, March 5.

Business came pretty much to a standstill at the Toronto Stock Exchange to-day, and prices of speculative issues, except where actual stocks were involved, were entirely in the hands of insiders. The absence of offerings gave the market an improved undertone, which was taken advantage of in some instances to advance prices. The movements in the market were entirely due to the technical conditions of holdings, and these apparently favored some slight improvement. The market closed exceedingly dull, but with an improved undertone from HERBERT H. BALL. that of last night.

Bon Ton and Royal Worcester Corsets

The Secret of the Perfect Form

THE WORK of fashion is hard to define, but it is always unmistakably apparent in all wearers of Bon Ton or Royal Worcester Corsets. Many a smart figure has its beautiful lines distorted through incorrect corseting. This need not be if you do your figure justice by wearing the Bon Ton or Royal Worcester Model intended for it.

The woman cultured in present dress fashions at once recognizes in every detail of this charming corsage some definite purpose intended to mould the figure into gracefully becoming lines.

Bon Ton and Royal Worcester Corsets are invariably acknowledged to be the fashionable Corsets of the day.

This store is the sole agent for Bon Ton and Royal Worcester. Corsets in Toronto. You are cordially invited to visit the department and see the new models, one of which is intended for your particular figure. Expert corsetiers here at your service.

Bon Ton Corsets, models for every figure, \$3.50 to \$14.00

Royal Worcester Corsets, models for every figure, \$1.25 to

Roya! Worcester " Grand Dowager," model for stout figures, \$3.00 and \$3.25 a pair.

Boots.

We have just received a shipment of Boots from John Cave & Son, London, day \$2.75.

First Showing of the \$25 Suits for 1909.

AST year we made a great reputation for our \$25.00 suits for women. We laid stress upon that line, and we achieved a gratifying measure of success.

This year we hope to make a still greater reputation for our \$25.00 suits. We think that success will follow in larger measure

BUT we don't know. We want YOU to tell us. We want a unanimous verdict. Come and see them. Let us describe three of them very briefly

to give you an idea.

French Venetian, including the new grey toned colors, broadcloth finish, lined with white silk, long pointed coats, trimmed with satin buttons, skirt to match.

English worsted, hard Bradford finish. stripe effects, in the new tones, long square cut coat, lined with slik, ornaments and buttons, panel skirts

3 piece Suit of chiffon Panama, navy, green and black, cutaway coat, lined with silk serge, trimmed with novelty outtons, circular cut skirt, two full rows buttons, jumper bodice, taffeta and Dresden trimmings.....

Ladies' "Countess" Boots

Ladies who display keen taste in deciding the details of their gowns and hats give equally scrupulous attention to the selection of their footwear, for they recognize its importance in the make-up of the complete costume. This

they recognize its importance in the make-up of the complete costume. This is true whether their gowns be inexpensive or costly, and whether their preference be for conservative or extreme fashions.

But no matter how discriminating their taste may be, the wearers of "Countess" footwear are certain to find in them all the dainty designing and all the fine qualities of materials, workmanship and finish they can desire.
