

January Sales in the Adams Store

We're keeping up a continual procession of wonderful values. Profits are being lost sight of, and a good part of the cost, in our efforts to reduce stocks before inventory day—now less than two weeks away. Homekeepers who have not visited the store during the January clearance, and seen the way furniture and other home things are marked down, are missing the greatest money-saving chances of an entire year. Anything at the special prices can be bought on our "Charge Account" plan without additional cost.

Another Day Monday of the Bedding Sale

More of those temptingly low prices on Beds, Mattresses, Pillows and Bed Furnishings that people have been swarming this store for during the past six days. Here are hints of the reductions:—

Mattresses at \$2.75—Filled with pure sea grass and jute felt. Reduced from \$3.75.
 "Adams Favorite" Mattress, \$4.00—Combination layers of fibre, sea grass and jute felt. Regular price \$5.25.
 "Slumberland" Mattress at \$7.50—All cotton felt filling. Reduced from \$11.50.
 Pillows at \$1.49 Per Pair—Filled with selected feathers; size 21 x 27. Reduced from \$2.50.
 Pillows at \$2.49 Per Pair—Filled with duck and goose feathers; 22 x 28. Reduced from \$4.75.
 Comforters at \$1.25—Covered in art cambric, filled with white cotton. Reduced from \$2.00.
 Comforters at \$2.00—Pure down, covered art saten; double size. Reduced from \$3.50.
 Blankets, \$2.95 Pair—Heavy mixed wool, pink or blue borders; double size. Reduced from \$4.25.
 Blankets, \$2.95 Pair—All Scotch wool; double size; 7 pounds. Reduced from \$5.00.
 Iron Beds at \$12.00—All widths, white enamel, heavy posts and fillers, brass caps. Regular price \$2.25.

Monday We Give You Choice of Several Fine

Other Suites at other prices, all splendid value.

STATE LINES PAY IN SOUTH AUSTRALIA

Large Profit From Government Ownership of Railways—Claimed as Valuable Asset.

ADELAIDE, S. Aus., Jan. 18.—A large proportion of the public debt of South Australia is represented by the capital expenditure on the state-owned railways. At the end of the last financial year this amounted, on the lines open for traffic, to £13,240,000.

What a valuable asset the railways are to the state is shown by the large profit resulting from their working each 12 months. Last year the percentage of net revenue to capital cost was 6.22, and the surplus of revenue

FRENCH MINISTERS RESIGN OFFICE

There Will Be a New Cabinet as Soon as Premier is Chosen to Succeed M. Poincare.

PARIS, Jan. 18.—The French cabinet met today at the palace of the Elysee, under the chairmanship of President Fallieres, when all the ministers formally offered their resignations as a sequel to yesterday's election of Premier Raymond Poincare, as chief executive. President Fallieres, however, requested all the members of the government to retain their portfolios until their successors had been chosen. He did not indicate the states-

BEE TL ES RESCUE THE CHESTNUT TREE

At One Time It Appeared That Valuable Tree Would Be Extirpated From Continent.

It began to look as tho the chestnut trees of the eastern United States were doomed. A little fungus, tentatively named diaporthe parasitica, supposed to be a near relative, if not identical with an Italian species, was reported to have begun the work of extermination about 1894. Fungus E. R. of Italy, does no great harm to the native chestnut trees, and this adds to the mystery of the D. parasitica's virulence for American chestnuts. After its appearance in New York, the blight spread rapidly, and already in many sections the chestnut trees have been practically "wiped out." Government and private scientists have tried in every way to stop its ravages, but in vain. Prof. W. G. Farlow, discussing the fungus last spring before the American Phytopathological Society, took the pessimistic view that "what we know of its life history, unfortunately gives us no reason to suppose that it could be seriously checked, much less exterminated, by any means that could be generally adopted."

In other words, man had given up the fight and resigned himself to seeing one of his valuable trees gradually exterminated by a sort of highly infectious cancer. But at this point nature seems to have taken up the work of preservation. She is a ruthless exterminator in some cases, and a reckless spendthrift of life in all cases, but when it is a question of saving a useful thing her expedients are oftentimes wonderfully ingenious. She has, apparently, arranged matters in the case of the chestnut tree blight, somewhat after the plan set forth by Mr. De Morgan in the following lines:

"Great fleas have little fleas upon their backs to bite 'em,
And little fleas have lesser fleas, and so ad infinitum.
And the great fleas in turn have greater fleas to go on,
While these again have greater st'ill, and greater still, and so on."

According to Mr. F. C. Craighead of the branch of Forest Insects of the United States Bureau of Entomology, a number of beetles (he mentions five) have already developed a taste for the chestnut tree fungus, and gorge themselves to repletion, whereas opportunity offers, upon the parasites caused by the fungus in the bark of the diseased trees. Therefore, says Craighead, "these insects, who not checking the growth of cankers already formed, play a most important part in controlling the dissemination of the disease"—by destroying the spores that carry the infection. It is quite possible that more insects will acquire a taste for D. parasitica. In localities where the beetles were found at work there was evidence of a marked decrease in new infection, among the chestnut trees. From all of which there seems reason to hope that the American chestnut is not, after all, doomed to join the dodo and orinithomyces, at least in the immediate future.

The new tree lives 400 or 500 years. The diaspores of the world number 2424, and one-fourth of them are Asiatic.

The gum used on postage stamps is made largely of potato starch, is purely born of courtesy. There is no legal way for its use.

The public automobiles of Anvers, Belgium, must be fitted with "pedestrian seats" for the protection of pedestrians.

The material excavated from the Panama Canal would build a Chinese wall from San Francisco to New York.

The newspapers, even those professing monarchist and clerical sentiment, comment on Raymond Poincare's election with favor and with a unanimity unprecedented in French politics. It is in fact difficult to find anywhere a dissenting word.

Friends of Jules Fams, the strong-opponent of M. Poincare, in the balloting aver that it was the conservatives who decided the presidency, but to this statement the reply is made that the conservatives possessed 91 votes in the National Assembly and that therefore with every one of them supporting the candidature of M. Poincare, he would still have 86 republican radical votes more than Jules Fams, as he won the election by a majority of 137.

... Strikes on Bangor Road.

BANGOR, Maine, Jan. 18.—The engine and firemen of the Bangor and Aroostook Railroad struck today. The directors yesterday refused to grant an increase in wages, insisting that the earnings of the road would not permit it, and were at once notified that the men would go out in twenty-four hours.

... G. Farlow, discussing the fungus last spring before the American Phytopathological Society, took the pessimistic view that "what we know of its life history, unfortunately gives us no reason to suppose that it could be seriously checked, much less exterminated, by any means that could be generally adopted."

In other words, man had given up the fight and resigned himself to seeing one of his valuable trees gradually exterminated by a sort of highly infectious cancer. MUSIC

The University organ recitals in the Convocation Hall were resumed last Wednesday and will be held weekly throughout the remainder of the season. The player on this occasion was Mr. W. H. Hewlett, of Hamilton, and on the 22nd instant Dr. Herbert Sanders, of Ottawa, will give an unusually fine program. The recitals are entirely free and take place at 8 o'clock.

It has been stated that the only other living pianist besides Harold Bauer, to whom the Beethoven Gold Medal had been presented by the Royal Philharmonic Society are Ignace Paderewski and Emil Sauer. Anabella Goddard, however, had this honor conferred upon her many years ago. She is now living at Tansbridge Wells, Eng.

The following notice referring to Miss Mabel Beedoe, the Canadian contralto, is clipped from The Musical Courier, New York. "Miss Beedoe is one of the artist-pupils of George Sweet, who is fast heading toward the place when she will be hailed as a concert star. Miss Beedoe has a beautiful voice, and it has been beautifully trained. During December she sang at two important functions in New York, one of which was the reception at the Waldorf-Astoria in honor of President-elect Wilson, and the other was the musicale of the Harlem Philharmonic Society, which took place at the same hotel. Miss Beedoe is under the management of London Charlton and is booked for other concerts during the season."

SOCIAL NOTES

Mrs. Frankish, Prince Arthur avenue, is giving a bridge party on the afternoon of the 23rd.

Miss Eva Lessard gave a small tea on Friday afternoon for Miss Muriel Anglin.

Miss Chips Coutlee arrives from Ottawa at the end of this month to spend a fortnight with Miss Eva Lessard.

Mrs. Walker Thomson, 53 Foxbar road, will receive Thursday, and not again this season.

The warrant officers, staff-sergeants and sergeants of the Ninth Mississauga Horse are giving a dance in the Freemasons' Hall, College street, on Friday, Jan. 24.

Mrs. and Mrs. William Ryan, 31 Galley avenue, left on Thursday for a few weeks.

Mrs. A. Pollock Road (Liller Mathew) will give a musical reception on Wednesday, Jan. 22, at 36 Dugan avenue.

At the Aura Lee annual ball, to be held in the Metropolitan Assembly Rooms, on Monday, Feb. 3, the following ladies have consented to act as patronesses: Lady Gibson, Mrs. W. H. Beat, Mrs. J. A. Bremner, Mrs. W. L. Carrick, Mrs. T. W. Dyer, Mrs. A. H. Eastmore, Mrs. E. C. Gosderham, Mrs. Gordon Gooderham, Mrs. Forsyth Grant, Mrs. J. H. Ireland, Mrs. Geo. H. Joffile, Mrs. J. E. Jones, Mrs. E. A. Maddison, Mrs. W. R. Riddle, Mrs. C. Ritchie, Mrs. Geo. J. Webster. Tickets and invitations may be obtained from members of the dance committee: Miss N. Barr, Campbell M. Bresser, Stewart W. Gooderham, Dr. R. Sidney Woollett, Fred Hatty, Percy Jolliffe, C. Forsyth Ritchie, T. Loye Ellogg, chairman.

The Government-house party will attend the Princess Theatre Monday evening to see Mme. Nazimova in "Bella Donna."

The engagement is announced of Miss Violet Crear, daughter of the late Mr. P. D. Crear and Mrs. Crear, Dunedin, Hamilton, to Mr. Herbert R. Gallagher, San Francisco, Cal. Owing to recent bereavement, the marriage will be quietly celebrated at the end of the month.

Mr. and Mrs. Joseph Garner announce the marriage of their daughter, Miss Mabel S. to Mr. William Lowe, on Wednesday, January 15.

Mr. and Mrs. James Sullivan are giving a small dance on January 30.

Mrs. George Fensom has issued invitations to a luncheon on the 24th of January.

The Commodore, officers and members of the Beach Canoe Club have issued invitations to their monthly dance in the club-house, Balmby Beach, on Wednesday, January 23, at 8.15 p. m. The patronesses are: Mrs. E. C. Berkshaw, Mrs. M. H. Van Velsor, Mrs. E. F. Walker, Mrs. W. Fairweather, Mrs. E. P. Watts, Mrs. F. H. B. Lyon, Mrs. C. B. Spratt, Mrs. A. S. Shiley, Mrs. J. E. C. Berkshaw, and the committee—Mrs. F. Hill, Mr. R. Niven, Mr. A. Smith, Mr. L. Edmonds, Mr. W. Lorimer, Mr. E. S. Abbott, chairman.

The Commodore and officers of the Toronto Canoe Club have issued invitations to their annual at-home in Columbus Hall on Thursday, January 24, at 8.30 o'clock. The patronesses are: Mrs. M. A. Thomas, Mrs. Joseph Oliver, Mrs. L. E. Thomas, Mrs. H. C. Hocken, Mrs. E. A. Eyster, Mrs. E. E. King, Mrs. W. A. McNabb, Mrs. T. D. Bailey, Mrs. J. J. Spence, Mrs. A. F. Spratt, Mrs. A. S. Shiley, Mrs. E. C. Berkshaw. The house committee is: Rear-Commodore Mr. W. H. Reid, chairman; Mr. P. Douglas Wilson, secretary; Mr. Jack McGregor, Mr. F. J. Foot, Mr. A. Ross Robertson, Mr. E. J. McDougall, Mr. F. N. Purvis, Mr. William C. Baker and Mr. Melville J. Young.

MRS. KAMMERER'S TEA

Mrs. J. A. Kammerer gave a large afternoon tea at her home in Jameson avenue, in honor of the debut of her pretty daughter, who received with her maiden, wearing a pale pink satin gown with tunic of gold embroidery, adorned, accented with baskets and with crystals, Greek fillet of pearls in her hair, and carried an armful of pink roses tied with wide pink satin ribbon. She was surrounded with baskets and bouquets of roses, violets and daffodils. Mrs. Kammerer wore a becoming gown of black lace over white satin with embroidered tunic and antique garnets. The tea-table was centred with a basket of pink Killarney roses, with violets. The girls assisting were Miss Gwendoline Grier, Miss Davies, Miss Gretchen Van Nostrand and Miss Marjorie Kammerer, who was in charge of the tea-room and wore a gown of old rose satin veiled with black embroidered net. Miss Jean Kammerer, in blue with white and black, and Miss Hope Kammerer, in a pretty lingerie and lace frock. Mrs. Kammerer gave a small dance in the evening for the assistants and a few friends.

CLARK TAYLOR

A wedding took place in Eloor Street Presbyterian Church, on Wednesday evening, when Catherine Florence, younger daughter of Mr. and Mrs. Andrew J. Taylor, and Mr. Francis Way Clark, were united in matrimony. The ceremony was performed by the Rev. Mr. Laing; Mr. Arthur Oliver presiding at the organ.

The bride was given away by her father, and looked very sweet in a gown of ivory satin, trimmed with Limerick lace. Her veil, an heirloom in the family, was also of Limerick lace, draped and caught with orange blossoms. She wore the groom's gift, a pendant of pearls and diamonds, and carried a shower of white roses and lilies-of-the-valley. The bride was attended by her sister, Miss Margaret Taylor, in pink charmeuse, with silver lace and French rosebuds, and a large black hat, and carried pink roses. The groom's favor, a silver cardcase. The groom's brother, Mr. Hollis Clark, was best man, and the ushers were Mrs. M. Drake of Buffalo, Mr. Herbert Taylor of Moose Jaw, Mr. J. D'Esteiro of Kingston, and Mr. Rankin Taylor.

A reception was held afterwards at the home of the bride's parents, which was decorated with pink and white roses. Mrs. Taylor wore a gown of amethyst meteor satin, with hat to match, and Mrs. Clark (mother of the groom) wore white satin, veiled with black. The bride traveled in navy blue, with a black hat and mink fur. On their return they will reside in Bursar.

Who Wouldn't? There were a bevy of girls on the hotel terrace. "Algernon tells me he stopped smoking to please me," said one. "He told me he stopped on my account," declared another. "He gave me to understand that I was the cause of his smoking a third. Silence for five minutes." "Never mind girls," spoke up a mere man. "If I could please a woman, girls I'd stop, too."—London Opinion.

GOOD NEWS For Bad Complexions

The average young fellow wants a clear, healthy complexion just as much as his sister does. It is to his credit that he treats his complexion for it. We treat many men for complexion troubles. Our skin and scalp treatment cures white heads, pimples, blackheads, eczema, salt spots, freckles, redness, discolorations and other disorders of the skin and scalp. We have consultation at office or by mail. Booklet and sample cream mailed upon receipt of 10 cents. To permanently remove that skin blemish.

Super-lucous Hair

There is positively no home remedy. Electrically the only permanent cure. We assure satisfactory results. Alopecia, Moles, Warts, etc. eradicated.

Hiscott Institute 61 College St., Toronto Tel. M. 431 Estab. 1892.

R. S. WILLIAMS & SONS National Chorus

OPEN NEW BUILDING Pleases Buffalo Varied Program Given at Convention Hall by Dr. Ham's Organization.

The visit of the National Chorus, under the direction of Dr. Albert Ham, to Buffalo, on Thursday night was one of those lands-across-the-border affairs that not only endorse Toronto's musical taste, but cement the good feeling which ought to exist between neighbors. It was the first time the National Chorus had ventured abroad and the acclaim which greeted the vocalists should encourage those who believe that Toronto is big enough musically to possess several great singing organizations.

It was unfortunate perhaps that the advertising matter posted in the shop windows of Buffalo, omitted any reference to the chorus. It was all well and good, but it did not fully anticipate the treat that was in store for them. After the concert many were heard to say that they had not known that Toronto possessed a second great choir. They had heard the Mondelosein. However, it was a great pleasure to the chorus to visit Buffalo, and it is safe to say that when the chorus re-visits Buffalo it will sing to a much larger audience than was present on Thursday night.

The program was miscellaneous in character and high-class in every respect, but perhaps the number which gave the most pleasure was Coleridge Taylor's "Sacrifice," which gave great opportunity for delicate expression and coloring. The rendition of this magnificent composition was even better than at the concert in Toronto, for the singers suffered greatly from the superheating of the hall. The address of the chorus was "The Spring Song," by Hugo Wolf and special mention might also be made of Dr. Ham's "The Siren" and Parry's "Blissful Pair of Sirens."

Of the orchestral numbers, it is not necessary to say anything except to remark that they gave infinite delight to the audience and Mr. Darnoch was given three or four rousing ovations. The playing of the Goldmark "Scherzo Op. 45" Previous to the concert a banquet was given at the hotel where the choir stayed and an address of welcome was made by Mr. Jones, representing the mayor of Buffalo. Mr. Jones was particularly gracious in his remarks. He is a former Toronto man who has won a high place in the musical world. The address was replied to by Mr. Noel Marshall and Mr. D. E. Hanna, vice-president of the Canadian North-western Chorus. Both are vice-presidents of the National Chorus and take a lively interest in the choir. In the stimulation of the musical spirit of Toronto, a special train conveyed the chorists to Buffalo and brought them back about four o'clock in the morning.

RONSON-BROWN

Miss Clarissa Marjorie Brown, youngest daughter of Mr. and Mrs. R. Brown, 244 Queen street, east, was united in marriage on Wednesday evening at 8 o'clock to Walter Clifton Ronson, of the civil service of Ottawa. The ceremony was performed at the home of the bride's parents under an arch of palms and pink peony roses by the Rev. Mr. Peacock of the Knox United Methodist Church. The bride was attended by her cousin, Miss Elizabeth Griffin, of Syracuse, while the groom's bridesmaids were Misses Hammond Brown, brother of the bride.

The bride's costume was of white satin draped with pearls and carried a bouquet of white roses and lily-of-the-valley tied with white liberty satin ribbon. Her traveling costume was black velvet and hat to match. The bridesmaids were attired in pink chiffon over pink Killarney roses, and the groom's gift to the bride was a ring of pearls, to which, and to the best man a Masonic ring. The house was decorated with evergreens and palms and a large number of relatives and guests were present.

The young couple left for Ottawa where they will take up residence.

Good News for the Owner of a Player-Piano

Every owner of a player-piano will be glad to know about our Music Roll Department, as we have just completed the most comprehensive service in player music ever attempted in Toronto. We know the difficulties you have met with in getting the proper music for your player-piano, and we feel that one visit to our player-music department will now satisfy you that you are getting the best.

We have a beautifully fitted-up, large comfortable room in which is arranged the most complete library of player music in Canada. Small sound-proof rooms in which to try over music to suit the main room, both \$5 and \$8 note players being at the disposal of our patrons. A very competent and well-known musician in charge of the department, and will be glad to help you in making your selection and also in the interpreting of the various music if you desire her assistance. She is familiar with everything from the heaviest classical music to the latest popular songs, and can help you in many ways to derive far more real pleasure from your player-piano than you have ever experienced before. Make it a point to run in and see our Music Roll Department the next time you are down town.

Mrs. F. MacD. Denison To Head Delegation

Toronto Woman Will Attend Suffrage Convention in Budapest, Hungary.

On June 15, the seventh conference of the International Women's Suffrage Alliance will convene in Budapest, Hungary, continuing five days thereafter.

Flora MacD. Denison, president Canadian Suffrage Association, will head the delegation from Canada, and any one qualified either as delegate or franchise delegate, should communicate with her at the national headquarters, 27 Carlton street, Toronto, as calling arrangements will have to be made at an early date.

The affiliated National Women's Suffrage Association of the following countries will be entitled to 12 delegates: Austria, Australia, Belgium, Bohemia, Bulgaria, Canada, Denmark, Finland, France, Germany, Great Britain, Hungary, Iceland, Italy, Netherlands, Norway, Portugal, Russia, Serbia, South Africa, Sweden, Switzerland, and the United States of America. Applications for affiliation with the Suffrage Association in Poland, Roumania, Galicia and China.

For the first time in the women's movement it is expected that Hindu, Buddhist, Confucian, Mohammedan, Jewish and Christian women will sit together in a congress uniting their voices in a common plea for the liberation of their sex.

Cleanliness—The First Necessity

WHAT happens to your laundry after it leaves your house? Under what conditions is it washed? Does it come back thoroughly cleansed and sterilized, or does it carry harmful germs? Laundrymen are largely ignorant of the science of laundry. They operate 341 squalid shops in Toronto alone. Their ways are not our ways. What we consider necessary and important they think unnecessary. Their ideas of cleanliness are peculiar to themselves.

Taber Treatment means abundance of clean water—pure toilet soap—right standards of cleanliness—drying in warm, clean atmosphere—proper use of collars—dull finish on collars and cuffs. Taber Treatment is the highest standard to which laundrying has been raised. It meets Canadian's high standard of cleanliness.

SPAN OVER MERSEY NOT AN EASY TASK

Plans Are Discussed For Bridge at Least Two Hundred Feet Above High Water Mark.

LIVERPOOL, Jan. 18.—A bridge across the Mersey, Mr. Chase, M. Inst. C. E., said lately at a meeting of the Liverpool Engineering Society, was a fascinating subject, but to design the most economical bridge would be a work of time.

One of the difficulties of the site was that on the other side of the water the country was divided into parts by the float, and therefore one bridge would not serve for all the width. The site he had chosen gave the shortest span, and he had already spent some time in considering a bridge of the required span. The first point to be considered was the height necessary to clear the shipping along the bridge had been made so high for shipping reasons, the author had taken 200 feet above high water as being necessary. If the shipping interest would consent to less the cost would, of course, be reduced. A transporter could be erected, but the width of the river was so great that the time taken by return traffic would be too long to satisfy the re-

ORIGIN OF LLOYDS INSURANCE CHANGE

Members of Famous Society Take Their Own Risks and Will Hazard a Guess on Anything.

Lloyds, that famous society of London, where insurance can be obtained against any known risk, had had a long and romantic history.

Altho incorporated by act of parliament as late as 1871, the institution itself dates much further back.

Many people suppose that the corporation itself undertakes the insurances, but this is not the case, as the business is conducted solely by its members, and so long as they conform to the rules of the society, they are free to follow their own views.

The institution originated in a coffee house owned by one Edward Lloyd, in Tower street, London, where underwriters met and transacted business.

Edward Lloyd, who was a man of great enterprise, became the founder of that wonderful system of maritime and commercial intelligence that has been so developed by Lloyds.

In 1696 he published a newspaper on shipping news, which succeeded splendidly for some time, but when the author ventured to criticize the attitude of the house of Lloyds with regard to silks, the paper was suppressed, and it was not until 1728, or 30 years later, that he was allowed to re-establish it.

At one time the coffee house became connected with various gambling enterprises. The lives of certain unfortunate people, who had to pay the penalty of violation of their country's law, were insured as a speculation. Also, whenever any great statesman became ill, his life was insured.

Some 50 years after the establishment of the coffee house, the Seven Years' War broke out. During this war, it seems, the marine insurance became of national importance.

The first great risk that Lloyds had had to face, in this war, was on his majesty's frigate Lutina, which was wrecked in October, 1759, at the entrance of the Zuyder Zee, while carrying gold to the value of £375,000 to pay the British soldiers just then fighting the Dutch. It was a tremendous risk to meet, since the society was not then anything like as wealthy as it is now, but Lloyds paid, trusting to luck to recover what they could of the lost gold, which they did to the extent of about £300,000, one-third of which the Dutch Government allowed them to keep.

The high position that Lloyds holds in marine insurance dates from the time the American colonies broke away from the mother country. In 1774 the members of the coffee house removed to the Royal Exchange. From then until the battle of Waterloo, in 1815, England was almost continually at war, and it is declared that Lloyds was to be credited with a great measure of the British success at sea. "If," it has been said, "it had not been for the patriotic zeal of underwriters in insuring the supplies that were brought to England, it would have been impossible to bring commodities into the country."

It may be mentioned that the business of Lloyds does not consist only of insurance on marine, as policies covering practically any risk can be obtained. Violinists have been known to insure their fingers for large sums, and dancers have insured their feet against accidents which would render them unable to follow their profession.

It is customary in England to insure the weather on days when important ceremonies are to be held. Almost every theatrical manager insures the life of the King, in order to cover the loss which would be incurred thru the closing of the theatre during the time of mourning.

The greatest natural wonder in Argentina, which attracted visitors from great distances, is now gone. This was the famous rocking stone at Tandil, in the province of Buenos Ayres. This huge rock was poised on the edge of a cliff so delicately that a person could easily cause it to oscillate by pushing against it. Even the strong winds that blow from the pampas would cause it to move perceptibly. Nevertheless, according to tradition, at one time Senor Rosa, a much hated Spanish governor, tried with a team of sixty oxen to pull it over, without succeeding. It had been predicted that when the rock of Tandil fell it would mean new glory for the Spaniards and he wanted to help history on a little. Now it has really fallen, and the cause of its fall is a matter of much argument. Large numbers of visitors would carry nuts and bottles to the rock and would amuse themselves by placing these under the rock and then tilting it and making it crack them.—Pathfinder.

The Home of Music

THE WILLIAMS & SONS CO. R.S. MUSICAL INSTRUMENTS OF QUALITY LIMITED.

THERE are no commercial processes whatever by which a business can win large success---can become the leading house in its line -- except these: Its goods must be the best. Its methods must reflect honesty and fair dealing. Its prices must represent true economy.

Loyally have the people of Toronto supported the Williams Company in its enterprise. In the growth of the business from a modest, local retail concern in 1849, to this present magnificent establishment, is reflected an unprecedented measure of public approval.

As a partial return for this support; as an acknowledgment of the obligation we feel we owe, we have erected this new building. In its every detail we have attempted to create a structure in harmony with the highest ideals of musical art; an edifice of which Canada can be justly proud, and which will reflect this country's cultured taste.

With all its imposing dignity and beauty, it is not, however, what the new Williams home is, but what it stands for that has direct personal interest for the people of Toronto. Here is an establishment such as this city has always needed and never had. A great music house, centrally located, perfectly appointed and containing all the standard musical instruments demonstrated to be the best the world provides.

Here are small instruments—Mandolins, Violins, Banjos, Guitars, Auto-harps, Accordeons, Harmonicas—in all styles and prices from the best manufacturers. Here are band instruments—the famous Boosey & Co., Cousnon, Noblet, Courtois, Jeuffroy, Buffet, and our own Williams Class "A" and Class "B," second to none.

Here are the best, foreign and domestic modern Pianos and Player-Pianos—the famous old Chickering, for 82 years the piano standard—America's pride—the piano that has probably received more honors than any other instruments made. The New Scale Williams (64th year), a piano conceived, designed and constructed by Canadians, in a Canadian factory—an instrument used and endorsed by over 60 per cent. of the famous artists coming to Canada—a piano that possesses many exclusive features not found in any other instrument in the world; also the Haines Bros., Marshall & Wendell, Everson, Ennis & Co., Krydner, Columbus, Preston and others.

Here can be found the world's two leading talking machines—the famous Victrola, which has immortalized the voices of the world's greatest artists; and the Edison Phonograph and Amberola—the personal product of the world's greatest genius, Thomas A. Edison, who has just invented a new disc Amberola, the tone of which surpasses any instrument on the market at the present time.

Here also are the marvellous Wurlitzer Electric Piano-orchestras, embodying a complete orchestra in one instrument, playing automatically or by hand. And, most valuable of all, here can be seen (but not purchased) one of the greatest collections of antique instruments in existence, many of which are absolutely priceless, as well as Mr. Williams' collection of rare old violins, the envy and admiration of great musicians throughout the world.

And here the R. S. Williams & Sons Co. pledge themselves to perpetuate those principles upon which this vast business has been reared—principles which are the foundation stones of its marvellous success.

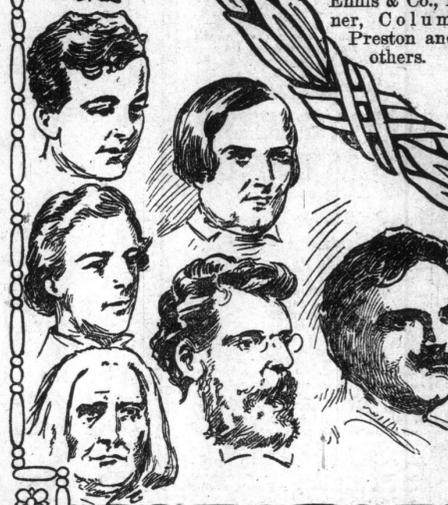

One price for all—and that the lowest.

One quality throughout—and that the best.

Williams' methods reflect honesty, liberality and fair dealing.

Williams' service stands for promptness, courtesy, and complete satisfaction.

OUR FORMAL OPENING will be held Tuesday and Wednesday, Jan. 21 and 22. You will be cordially welcomed. Continuous Musical Programme until 10 p. m. Both Days.

Dog and Lion Fight In African Bush

Story of an Exciting Adventure Which Befell a Big Game Hunter.

Mr. H. Wynne Silva sends The National Mercury the following graphic account of a big game shooting incident on the Pongola River, in the Umombo district.

Some years ago I sent you an account of the shooting of two lions on the Pongola River by my brother, Mr. E. B. Silva. I am now able to furnish you with the details of another lion hunt in which I myself had the good fortune to participate.

On the 6th of this month I was down on the Umombo low yield with Mr. E. B. Turnley of Umombo. We were there with the intention of hunting lions solely. The extraordinary drought which has prevailed almost unbrokenly since last May has brought all the big game down to the vicinity of the Pongola River, and the lions have, of course, followed them.

In Distress. "What can that wildebeest be shouting like that for?" "Oh," he answered, "that's nothing; they often do that." Turnley said at once, "That's not the sound I hear in distress—I can hear by its voice."

My own experience, extending over many years now, has taught me that, except in very rare cases, if you are to be misled in hunting matters, ask a native, so I said, "Let's go and see."

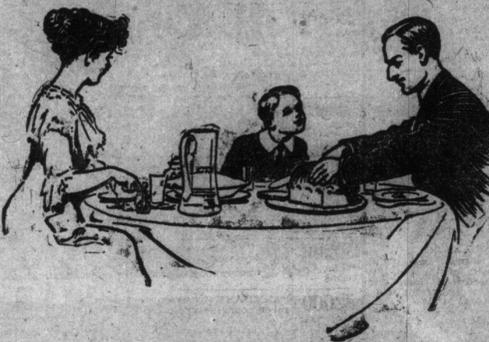

With that we hurried forward in the direction of the sound. We were approaching a strip of bush, which we afterwards found to be about 300 yards long, by perhaps half a mile or so, and we rounded the corner we saw a wildebeest lying on its back, with one leg waving in the air.

We ran up at once to look for blood, and found it immediately where the lioness had entered the bush. I said to Turnley, "Don't worry; she's badly hit, and won't go far. Let's blot out that poor devil of a wildebeest before we do anything else."

We then turned our attention to the wounded lioness, and it was here that we made, possibly, our one and only mistake. Certain lion experts at Umombo say that we should have rushed into the bush at once on the blood spoor.

It is always very easy to be wise after the event. Anyway, when Turnley turned to me and said, "What do you think we had better do?" I said, "Well, that's only a small bush; if he's stopped in there, she's probably dead. If, on the other hand, she's run on, we shall only be wasting time chopping our way thru there on the blood spoor, while all the while she is clearing off in another direction."

A DAY IN THE LIFE OF A BOY

SUPPER WITH DADDY

"Daddy, did you have Lawrence's Bread to eat when you were a little boy?" "No; when I was a boy we ate the bread that mother used to make. It had hard crusts and was heavy in the middle. It often gave us indigestion. We did not eat as much bread as we eat at one meal now since we buy from Lawrence's Bakery."

MOST EVERYBODY USES IT.

Lawrence's Home-made Bread

24-Ounces Loaf—Only 6c—Delivered Fresh Daily.

See this great story which shows how good the bread you buy is. It is sold by Telephone, "College St." and a fresh loaf will come on the next delivery.

See Lawrence's Bakery, Toronto.

up, obviously hit, and ran for the bush. Turnley fired again, but whether he struck her with his second shot we shall never know for certain, the lioness was a mystery. To me the whole thing was a mystery. To me the whole thing was a mystery. To me the whole thing was a mystery.

Another Chance This Week To Get This Five Volume \$12 Set for \$1.98

You need this set. Parents, how about that boy and girl at school? You say they have the necessary text books. Well and good. But have they a reliable set of REFERENCE BOOKS at HOME to aid them in their school work?

This is the greatest bargain in books ever placed before the people of Toronto. Five handsome volumes of Everybody's Cyclopaedia, bound in English cloth, for the small sum of \$1.98.

The coupon below must be presented with each order. See Announcement on Page 3, Editorial Section.

In thick bush. The two boys—to their credit he is spoken—followed us, and we charged that bush head down. It was just a tangled mass of thorn and prickly cactus. When I mention this afterwards, in cold blood, we had to chop our way out again with a cane knife, that one of the boys fortunately carried, it will give some idea of what it was like.

But it is marvelous what excitement we do, and what noise in the air. The lioness again, about 500 yards from the scene of his first encounter. Turnley and I sprinted all we knew, but the lioness had evidently had enough of "Bill," and cleared right off before we got there. We tracked her for something like six hours thru bush, field, following the blood, and then the spoor became too faint to follow, and we had to go home, with our tails down.

Queen's Own Cadet Corps. The Queen's Own Cadet Corps, is to have an open night on Monday night in the combined officers' room in the armouries. Capt. Mitchell will give his interesting illustrated lecture on the "History of the Queen's Own Rifles," showing views of the English trip, while Major R. K. Barker will cover the trip of the Imperial Cadets.

Dr. Martel's Female Pills. Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

WESTMOUNT PARK WELLAND

The Choice Residential Section of Welland. Every Lot a Safe Investment. Every Lot a Beautiful Home Site.

The holidays being over, and entering upon the new year, it is our intention to clear off these lots in the shortest time possible. The prospect for Welland's future is still improving, with its increasing number of factories and its population; the enormous amount of money to be expended on the Canal making it one of the most interesting points for investment in Canada. There are many subdivisions on the market, but our advice is to consider carefully where you invest your money. If we cannot convince you that our property is a safe and sure investment, we will not ask you to buy. Call at our office, or write for particulars.

Warden Park via Civic Car Line

The Civic car line now running on Gerrard Street East comes within a mile of Warden Park. The Danforth Avenue line will go much nearer in the spring.

There is no better way to begin the new year than by buying Warden Park lots at the present prices of from \$10 to \$20 per foot. They are bound to go higher as soon as the new car line begins operation. Don't wait and let the other fellow make all the profit.

You Can Buy 50 Feet by Paying \$50 Cash
THE BALANCE IN MONTHLY PAYMENTS OF \$14.
To our New Year purchasers who buy direct from us, we will allow the regular discount of 2 1/2 per cent. commission until further notice.

GLEN ROAD (Corner Howard St.)
Just finished, in the same superb style as the first. Five Rooms and Bath, including 2 good Bedrooms. Now ready for occupation. Apply to Janitor or telephone North 1923.

Big Decrease in Note Circulation

OTTAWA, Jan. 18.—There are four outstanding features disclosed in the monthly bank statement issued by the finance department today. With the exception of a decrease of five million dollars in note circulation, as compared with last month, the money situation seems to have changed very little during December. The total number of notes in circulation in December amounted to \$110,048,357, as against \$115,048,357. On the other hand, public deposits were slightly greater than last month, the figures being \$278,777,218, as compared to \$276,528,372 in November. The greatest amount of notes in circulation during the month was \$120,038,377. Current notes held during the month were \$94,832,258.

Emperor of Austria And Supposed Lunatic

VIENNA, Jan. 18.—The recent critical condition of European politics has attracted considerable interest to a little-known incident in the early life of the Emperor Francis Joseph. Shortly after his marriage, in 1854, His Majesty was chasing-hunting with his brother, the Archduke Maximilian, in the Tyrol. Returning one evening along a narrow path on the face of a precipice, they were suddenly confronted by a man, haggard and wild-eyed, who called upon them to stop, as he had a message to deliver. The stranger had all the appearances of a lunatic; but when, having been invited by the emperor to deliver his message, he began to speak, he showed no signs of mental deficiency or of peasant origin. Hurriedly he imparted to the monarch and his brother, state secrets which the emperor supposed to have been only known to himself and his ministers. Passing from the present to the future, the man foretold a series of tragic disasters which would befall the young monarch; then, rushing past his astonished audience, he completely disappeared from view. Anxious to know by what means the man had discovered state secrets, the emperor retraced his steps in order to meet the members of his hunting party, who were following him. But, after 19 h., are lion. Robert Jeffrey and Mr. H. P. Eckardt.

Stranger With Knowledge of State Secrets Makes Several Predictions

It was 10 o'clock when we left the island, and were taken to get our train. I asked to be permitted to go on the boat personally, and to get some supper, as neither my wife, child, nor self had had a thing to eat since 8 o'clock that morning. This was refused, and we were bundled into a slow train for Buffalo. This train had neither dining cars nor washing conveniences; also, we had only an additional \$5 on each ticket in order to go first class; and it was not until 7 o'clock the following night, when we reached Toronto, that we were able to get anything to eat. The English people, however, fared much better than the foreigners, for the latter not only received incivility, but in some instances brutality was shown these unfortunate creatures. One case I saw personally occurred just as we were getting off the ferry at the railway station. An Italian woman had three children, which had the appearance of a bed. She carried a child in each arm, and the other hung to her side. In some way or another, she managed to balance her parcel on her head. In getting off the boat the ceiling happened to be too low for her to get through, and instead of the "men" helping her, she was given a hard push and knocked over. All the above facts I can vouch for and prove, and they all occurred in sight of the magnificent monument called "LIBERTY."

The honorary governors who will visit the Toronto General Hospital, during the week commencing on January 19th, are lion. Robert Jeffrey and Mr. H. P. Eckardt.

STOCK MARKETS

FINANCIAL NEWS AND STATISTICS

STOCK MARKETS

WALL STREET IS ALARMED OVER CLOUDS ON FINANCIAL HORIZON

Underlying Conditions Are Sound, and Bankers Are Optimistic, But Market Reflects the Untoward Factors in Evidence—Uncertainty Will Continue For Some Time to Come.

NEW YORK, Jan. 18.—In the thirteen business days since the beginning of the year the New York market has been subjected to considerable unrest and consequent fitful price movements. This has been due to such diverse factors as anticipations of an unfavorable decision by the supreme court in the Minnesota rate case, adverse developments in Europe in the Balkan peace negotiations, more or less alarming utterances from President-elect Wilson, and fears of drastic changes in tariff and corporation law when the Democrats assume the reins of government at Washington.

It is to be said in this connection that there is, in reality, nothing to be alarmed about. Underlying conditions are certainly more satisfactory than a month ago, and there is ample reason for greater confidence because the already familiar unfavorable conditions have been amply discounted by low prices; also, the improvement in the money market must eventually have a stimulating effect upon securities. Funds are now returning from the interior quite freely. Crop demands have moderated. So, too, have the requirements of legitimate trade, which is showing the contraction usual at this season.

Outlook is Fairly Favorable. There is a steady demand for investments, which will become more marked as the month advances. Bonds are better positioned to a certain extent, and this is to be accepted as a favorable omen. With conditions in Europe showing signs of clearing, and prosperity assured on this side of the Atlantic, there would be no hesitation were the political exigencies out of the way.

Just what those carrying on such a campaign can hope for is not clear; but the anonymous tips can have actual effect on a stock is inconceivable. Yet Wall Street beings are human beings, and possibly it is because the tippers are students of human nature as well as of the stock market that they wind up their typewritten arguments with a few panned words, offering this confidential advice: "Get aboard before the train starts." There is something personal about these few words which makes one hesitate before casting the sheet into the waste-basket.

Recent tips given by the anonymous tipster have followed a sharp movement in a certain stock, and, however, after the movement ended.

By the "financial district" is meant the section south of Liberty street and east of Broadway. Twenty years ago, Beaver, William, Exchange place, Stone, Pine, and Cedar streets were full of three and four-story dwelling houses, in which one or two families lived. These have been almost entirely supplanted by skyscraper office buildings, and the "sleeping" population has migrated. Twenty years ago the "day" and "night" population of the district referred to were almost equal. Today the "sleeping" population is numbered with 200, while the day population has about 5,000 to almost, if not quite, 800,000.

In order to verify this all one has to do is to go abroad at noontime into any of the streets mentioned and stand near the platform in the large office buildings, and watch the continuous outpouring of humanity.

Horses, trucks and autos have been threading their way through the crowd so that many a broker wondered if he ought to inform his insurance company of the extra hazard he was taking in working on the curb. Nevertheless, everyone has taken it philosophically, and when recently the steamrollers were at work on one side of the crowd, and the asphalt was being cooked, a large number of other, the brokers said for the first time in any cold weather the right conveniences have been obtainable outside, for they have steam-heat on one side and an open fire on the other.

The director of the Washington Mint has estimated the world's gold production of 1912 at approximately \$465,000,000, the greatest in history. The amount represents an increase of \$5,000,000 over the output of last year.

The record of gold output of the world since 1908 is given below:

Table with 2 columns: Year and Gold Output (\$). Rows include 1912, 1911, 1910, 1909, 1908, 1907, 1906, 1905, 1904, 1903.

MONEY TRUST NOT AN IMPOSSIBILITY

Wall Street Disagrees With Morgan—Currency Reform Is Badly Needed.

NEW YORK, Jan. 18.—Mr. Morgan in his testimony before the Pujo Committee said a money trust was impossible, but in some Wall street quarters a different view is expressed. In these places it is contended that a money trust is possible, as long as the currency system is without flexibility, and that legislation which would give the currency system that quality would obviate for all time the possibility of a money trust. Democrats will be wise in their generation if in the first regular session they adopt well-considered and effective measures to reform the currency. It is conceded, however, that the matter is too big to be taken up with tariff revision, at the extra session in the spring.

August and September on the Curb.

The chart shows the course of prices for Brazilian Traction on the Toronto Stock Exchange since the shares were first dealt in on the curb. It will be noted that the high point of 100 1/4 was reached in the last week of September, 1912, before the stock was listed, and that the high record since that time was attained in October, when par was reached. On the recent upturn the highest level was 95 1/2. The lowest point was recorded at 85, on October 13, the day of the memorable semi-panic in the Canadian exchange. That day was a holiday in Wall street, and consequently, when the depression in Europe over the Balkan outlook became acute, our markets became more or less demoralized. The chart clearly shows the remarkable profit-taking opportunities which have been afforded in the security.

STIMULANTS OF BUSINESS

A half dozen cases of good wine and ten boxes or so of Havana perfectos, judiciously offered in the period of an operating year, may be productive of a measurable amount of new business, a stimulative of old business, or even serve to retain business that shows signs of slipping away to competitors, but they can never be held to be legitimate items of expenditure for corporate purposes while the Inter-state Commerce Commission of the United States continues to exercise supervision of accounts.

To witness: A certain express company, reporting to the commission, entered the above items on its expense accounts. The commission took exception to them and the company sought to justify the entries on the ground that they were expenditures incurred by salesmen in the course of business, that they had been passed upon by those duly authorized and should be allowed to stand. The entries were finally placed in a special account.

All of this happened several years ago, but the interesting fact to note is that the special account did not appear in subsequent reports. And no special significance attaches to the relation of the above incident except perhaps that certain stimulants of business, however good in themselves, are not likely to be regarded as "good" by the commission.

When the Wire Leaked

"Bad telephone service is sometimes a good thing," cryptically remarked a broker. "The explanation of that remark is an experience I had recently. Reading had broken heavily and I rushed to the phone to call up a client to advise him to sell out and take a loss of several points. The man, looking extremely blue at the moment. "Instead of getting my man, Central threw me in on busy wire and before I could straighten matters out I overheard a conversation that was worth several thousand dollars. It concerned Reading, the man on one end of the wire confidently advising that others hold on to his stock and not be scared by the break. Considering the incident, useful and moral practice in certain cases, the same is nothing wicked in it, per se, and its usefulness is not difficult to explain. If the Waldoir contracts to give a dinner of five hundred covers on a certain date its steward may buy forty dozen quail from the dealer in Washington market, for delivery in time for the dinner. The dealer has not a quail in his store, but he sells the quail to the consumer, and he thinks will be a profitable price. He believes that he can secure them from shipments arriving in the market. If he does so, well and good; but he takes the chance that a snowstorm may hold up his game until it is too late for delivery. In such a case he buys from such dealers as may have quail in stock. In fact, he covers his shorts, sometimes at a loss, in an honest transaction. This is a completed short transaction. It brings together the dealer in the Waldoir. In fact it is part of a free market, helpful alike to producer and consumer. The same is true of any contractor. He sells every stone and girder of a building short when he makes his contract and covers as best he can. The dealer in the stock exchange in the same way finds a buyer for stock at a price which he thinks leaves him a margin of profit. He believes he can find a seller and he sells the stock. If he can cover, well and good; and if not, he borrows the stock from some broker, who gets the use of the money and gets the stock returned to him when the short account is covered. Here again it will be seen that the buyer is afforded the opportunity of taking immediate advantage of the market and what may be his superior judgment. I suppose, however, in the judgment of the foreigner, is in the other side of the world, with all his securities locked up in a safe deposit vault in New York. He can still sell his stock and borrow it, exercising his judgment, which disagrees with that of the buyer, where he might have suffered serious loss had he been compelled to wait until his return to New York. The foreigner is selling short on the market, and he makes his deliveries good on arrival of the mail. Everybody Convinced. And why not? Buyer and seller are alike convinced. The free market is created in itself a genuine element of value to the security. There is not a market for anything in the world in which the practice does not necessarily exist. The attempt to legislate it out of existence in Germany was a failure; and the only result was to place such letters upon the market in Berlin as to produce three panics for one in Wall street and six for one in London, whose market is the freest in the world.—Wall Street Journal.

PHILOSOPHY NEEDED ON THE NEW YORK CURB

Streets Around the Outside Market Have Been Battered and Banged of Late.

NEW YORK, Jan. 18.—Anonymous tippers have been actively at work lately, and hardly a day's Wall Street has gone by without bringing a type-written sheet advising the purchase of one stock or the sale of another. For some time one of the large railway issues was persistently "banged" in this way; now another stock is being persistently "billed."

Just what those carrying on such a campaign can hope for is not clear; but the anonymous tips can have actual effect on a stock is inconceivable. Yet Wall Street beings are human beings, and possibly it is because the tippers are students of human nature as well as of the stock market that they wind up their typewritten arguments with a few panned words, offering this confidential advice: "Get aboard before the train starts." There is something personal about these few words which makes one hesitate before casting the sheet into the waste-basket.

Recent tips given by the anonymous tipster have followed a sharp movement in a certain stock, and, however, after the movement ended.

NOTHING REALLY REPREHENSIBLE IN PRACTICE OF SHORT SELLING

Stock Exchange Is Ever the National Scapegoat Across the Border, But Its Usefulness Is Not Difficult to Explain—Short Sales a Necessity of the Age.

When the national scapegoat—the stock exchange—is discussed by popularity hunting politicians or by newspapers with motives more honest, but with an amount of knowledge, the practice of short selling on the stock exchange is unparagonably denounced. The layman is excusably ignorant on the subject. Unquestionably, short selling is an entirely legitimate, useful and moral practice in certain cases, the same is nothing wicked in it, per se, and its usefulness is not difficult to explain. If the Waldoir contracts to give a dinner of five hundred covers on a certain date its steward may buy forty dozen quail from the dealer in Washington market, for delivery in time for the dinner. The dealer has not a quail in his store, but he sells the quail to the consumer, and he thinks will be a profitable price. He believes that he can secure them from shipments arriving in the market. If he does so, well and good; but he takes the chance that a snowstorm may hold up his game until it is too late for delivery. In such a case he buys from such dealers as may have quail in stock. In fact, he covers his shorts, sometimes at a loss, in an honest transaction. This is a completed short transaction. It brings together the dealer in the Waldoir. In fact it is part of a free market, helpful alike to producer and consumer. The same is true of any contractor. He sells every stone and girder of a building short when he makes his contract and covers as best he can. The dealer in the stock exchange in the same way finds a buyer for stock at a price which he thinks leaves him a margin of profit. He believes he can find a seller and he sells the stock. The attempt to legislate it out of existence in Germany was a failure; and the only result was to place such letters upon the market in Berlin as to produce three panics for one in Wall street and six for one in London, whose market is the freest in the world.—Wall Street Journal.

WALL STREET DISTRICT IS A CITY IN ITSELF

Financial New York Has Had Many Changes in the Past Two Decades.

NEW YORK, Jan. 18.—In no section of an established, populous city anywhere in the world has the "waking and sleeping" population changed numerically, so completely, in 20 years as in the financial district in New York in the past two decades.

By the "financial district" is meant the section south of Liberty street and east of Broadway. Twenty years ago, Beaver, William, Exchange place, Stone, Pine, and Cedar streets were full of three and four-story dwelling houses, in which one or two families lived. These have been almost entirely supplanted by skyscraper office buildings, and the "sleeping" population has migrated. Twenty years ago the "day" and "night" population of the district referred to were almost equal. Today the "sleeping" population is numbered with 200, while the day population has about 5,000 to almost, if not quite, 800,000.

In order to verify this all one has to do is to go abroad at noontime into any of the streets mentioned and stand near the platform in the large office buildings, and watch the continuous outpouring of humanity.

Horses, trucks and autos have been threading their way through the crowd so that many a broker wondered if he ought to inform his insurance company of the extra hazard he was taking in working on the curb. Nevertheless, everyone has taken it philosophically, and when recently the steamrollers were at work on one side of the crowd, and the asphalt was being cooked, a large number of other, the brokers said for the first time in any cold weather the right conveniences have been obtainable outside, for they have steam-heat on one side and an open fire on the other.

The director of the Washington Mint has estimated the world's gold production of 1912 at approximately \$465,000,000, the greatest in history. The amount represents an increase of \$5,000,000 over the output of last year.

OTHERS WILL ADVANCE

After strenuously advising the purchase of PETERSON LAKE and CHAMBERS, and seeing them double in price, we ask our clients to give us credit for our forecast. We are now prepared to state that other mining stocks are likely to witness similar advances. These others we are not prepared to name publicly, but will do so by letter on request. PETERSON LAKE and CHAMBERS still show remarkable strength and will gather further momentum. We still say: hold these stocks for higher prices.

A. J. BARR & CO. Members Standard Stock Exchange. Phone—Main 5492-5493. 55-58 KING STREET WEST.

THE COMING SILVER CAMP

With the advent of the railroad into Elk Lake, which will be an accomplished fact within two weeks, the Elk Lake camp should produce at least a dozen shipping mines. The future of this camp was assured by eminent engineers before the government consented to build the railroad. Elk Lake is producing ore equal to anything found in the Cobalt camp. One from the Donaldson, purchased by the Beaver Consolidated, will run from four to eight thousand ounces per ton. Working under extreme disadvantages, 30 miles from a railroad, a number of pioneer companies, on the verge of success, were compelled to suspend operations owing to lack of funds. With a railroad at their door, pay ore in sight, these properties should quickly develop into paying mines. I have for sale several properties adjoining and surrounding the Donaldson, with machinery and plants complete, which can now be purchased on very reasonable terms. These prices will be advanced after the entrance of the railroad. Further particulars apply. Principals only. ROOM 12, 56 KING STREET WEST.

COAL OUTPUT LAST YEAR GREATEST ON RECORD

Production of Anthracite Did Not Reach Its Usual Volume, However, Owing to the Strike.

All previous records for the production of coal in the United States were beaten in 1912, if both hard and soft coal be taken into account. But the production of hard coal fell below that of many previous years. Assuming that December shipments were the same as in December of the previous year, the total shipments of anthracite for the year 1912 amounted to 63,751,508 tons. This is a smaller tonnage than for any year in the last six, except 1909, when the shipments were 61,969,885 tons. If the quantity sold to local trade and employees be put at 3 per cent. of the shipments—a proportion that has held, approximately, in recent years—then the total marketable output of anthracite in 1912 was 65,694,943 tons, as compared with 72,000,000 tons in 1911. This does not include the coal used in the operation of the mines themselves. Idleness of the mines for seven

NEW CAPITAL ISSUES IN LONDON MARKET

New security issues placed on the London market for the year 1912 reached a total of £211,000,000, as compared with £191,759,000 for 1911 and £267,439,100 in 1910. The following table shows the flotations of new capital in England for a series of years:

Table with 2 columns: Year and Amount (£). Rows include 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912.

THE GULLIBLE SCHOOL TEACHER

While we can trust the patient school-teachers through this broad land to "teach the young idea how to shoot," the teachers themselves have much to learn, when it comes to financial knowledge. Judging by the numerous cases of wild investment among school teachers of reputation, it is fortunate that financial lore is not part of our public schools' curriculum. It is a known fact that promoters with the army of school teachers and find plenty of purchasers. It was not long ago that the staff of one of the New York schools formed a pool to buy a few hundred shares of a glaring fake. The women teachers are the easiest, and one promoter boasted recently that after selling thousands of shares of what he termed a "failure" to lady teachers, in and around New York, many of the same women bought shares in another company which he admitted "was doing none too well."

STOCK MARKETS

Underlying Conditions Are Sound, and Bankers Are Optimistic, But Market Reflects the Untoward Factors in Evidence—Uncertainty Will Continue For Some Time to Come.

NEW YORK, Jan. 18.—In the thirteen business days since the beginning of the year the New York market has been subjected to considerable unrest and consequent fitful price movements. This has been due to such diverse factors as anticipations of an unfavorable decision by the supreme court in the Minnesota rate case, adverse developments in Europe in the Balkan peace negotiations, more or less alarming utterances from President-elect Wilson, and fears of drastic changes in tariff and corporation law when the Democrats assume the reins of government at Washington.

It is to be said in this connection that there is, in reality, nothing to be alarmed about. Underlying conditions are certainly more satisfactory than a month ago, and there is ample reason for greater confidence because the already familiar unfavorable conditions have been amply discounted by low prices; also, the improvement in the money market must eventually have a stimulating effect upon securities. Funds are now returning from the interior quite freely. Crop demands have moderated. So, too, have the requirements of legitimate trade, which is showing the contraction usual at this season.

Outlook is Fairly Favorable. There is a steady demand for investments, which will become more marked as the month advances. Bonds are better positioned to a certain extent, and this is to be accepted as a favorable omen. With conditions in Europe showing signs of clearing, and prosperity assured on this side of the Atlantic, there would be no hesitation were the political exigencies out of the way.

Just what those carrying on such a campaign can hope for is not clear; but the anonymous tips can have actual effect on a stock is inconceivable. Yet Wall Street beings are human beings, and possibly it is because the tippers are students of human nature as well as of the stock market that they wind up their typewritten arguments with a few panned words, offering this confidential advice: "Get aboard before the train starts." There is something personal about these few words which makes one hesitate before casting the sheet into the waste-basket.

Recent tips given by the anonymous tipster have followed a sharp movement in a certain stock, and, however, after the movement ended.

By the "financial district" is meant the section south of Liberty street and east of Broadway. Twenty years ago, Beaver, William, Exchange place, Stone, Pine, and Cedar streets were full of three and four-story dwelling houses, in which one or two families lived. These have been almost entirely supplanted by skyscraper office buildings, and the "sleeping" population has migrated. Twenty years ago the "day" and "night" population of the district referred to were almost equal. Today the "sleeping" population is numbered with 200, while the day population has about 5,000 to almost, if not quite, 800,000.

In order to verify this all one has to do is to go abroad at noontime into any of the streets mentioned and stand near the platform in the large office buildings, and watch the continuous outpouring of humanity.

Horses, trucks and autos have been threading their way through the crowd so that many a broker wondered if he ought to inform his insurance company of the extra hazard he was taking in working on the curb. Nevertheless, everyone has taken it philosophically, and when recently the steamrollers were at work on one side of the crowd, and the asphalt was being cooked, a large number of other, the brokers said for the first time in any cold weather the right conveniences have been obtainable outside, for they have steam-heat on one side and an open fire on the other.

The director of the Washington Mint has estimated the world's gold production of 1912 at approximately \$465,000,000, the greatest in history. The amount represents an increase of \$5,000,000 over the output of last year.

The record of gold output of the world since 1908 is given below:

Table with 2 columns: Year and Gold Output (\$). Rows include 1912, 1911, 1910, 1909, 1908, 1907, 1906, 1905, 1904, 1903.

MONEY TRUST NOT AN IMPOSSIBILITY

Wall Street Disagrees With Morgan—Currency Reform Is Badly Needed.

NEW YORK, Jan. 18.—Mr. Morgan in his testimony before the Pujo Committee said a money trust was impossible, but in some Wall street quarters a different view is expressed. In these places it is contended that a money trust is possible, as long as the currency system is without flexibility, and that legislation which would give the currency system that quality would obviate for all time the possibility of a money trust. Democrats will be wise in their generation if in the first regular session they adopt well-considered and effective measures to reform the currency. It is conceded, however, that the matter is too big to be taken up with tariff revision, at the extra session in the spring.

August and September on the Curb.

The chart shows the course of prices for Brazilian Traction on the Toronto Stock Exchange since the shares were first dealt in on the curb. It will be noted that the high point of 100 1/4 was reached in the last week of September, 1912, before the stock was listed, and that the high record since that time was attained in October, when par was reached. On the recent upturn the highest level was 95 1/2. The lowest point was recorded at 85, on October 13, the day of the memorable semi-panic in the Canadian exchange. That day was a holiday in Wall street, and consequently, when the depression in Europe over the Balkan outlook became acute, our markets became more or less demoralized. The chart clearly shows the remarkable profit-taking opportunities which have been afforded in the security.

COMMERCIAL REPORTS AND COMMENT

GRAIN MARKETS

RECAPITULATION OF THE COBALT STOCKS RIVALRY PALMY DAYS OF THE BOOM

Reminiscences Called Up by Recent Remarkable Spurt in Mining Market—No Clouds on the Horizon—Porcupines Are on the Bargain Table.

Reminiscences of the palmy days of the Cobalt "boom" have been called into being of late by the action of the mining markets, which have displayed more real energy than at any time in the past two or three years.

It is fast getting back into its pristine stride. Future is Bright. The market has made a remarkable spurt of late but it is quite evident that a clear road is still ahead, and on this account further improvement is expected.

The various day-to-day advances which have occurred in the market of late seem quite large when present prices are compared with those which obtained a month, six months ago and a year ago.

The Week's Sales

The total sales of stock and value of the shares dealt in on the Standard Stock Exchange during the week ended Jan. 17, are as follows:

JOHN REDMOND QUITE SATISFIED

Says Measure Will Be Entirely Acceptable to the Irish and the Colonies.

By W. B. Thompson.
LONDON, Jan. 18.—"Are you satisfied," Mr. John Redmond was asked, "with the home rule bill, so far as it has gone?"
"I am completely satisfied," he replied, "with the progress of the home rule bill up to the present. The snap defeat of the government was a mere ludicrous incident. It had, of course, its conveniences, by reason of the fact that it wasted six or seven days of valuable time, but it had not the remotest effect on the fortunes of the bill, the third reading of which in the house of commons will be in the nature of a new year's gift to Ireland. There is not a particle of opposition to the bill amongst the masses of the English people. The democratic forces are enthusiastically in its favor, and the Unionists have utterly failed to arouse any act of hostility to it—so much so, that they are fighting all their battles by election on insurance and other questions."
"Do you think," the interviewer con-

THE BEST NERVE FOOD

Doesn't Stimulate, But Feeds.
"The only cure for nerves is self-control." We have all heard people say that. It sounds good. But is it true? Take an example. Here is a starving man. He is dying for lack of food. His whole system is crying out for sustenance to keep life in his body. Would you tell him to control his appetite, to exercise self-control, and his craving would vanish?
Then why deny your starving nerves the food that they crave? They are weak because Nature has not been able to keep them built up, try as she may. You are using up your nerve force so rapidly under your present-day method of living that you couldn't expect Nature to keep up the terrific pace. Nature is at the end of her resources, and your nerves are asking for food.
Feed them.
There is no better nerve tonic to be had anywhere than Sanguinol. It doesn't stimulate; it feeds. There is no alcohol or harmful drugs in its composition. It is made of iron, magnesium and phosphates. The first two are the materials of which the life-giving red blood corpuscles are made. The phosphates are what the nerve cells and tissues are composed of.
Try Sanguinol and see what it will do for your tired nerves. And not your nerves alone, but your blood, your digestion, your general health, will be built up and revitalized. Sanguinol is sold at the Owl Drug Stores: 770 Queen East, 1521 Dundas Street, 421 Parliament Street, 322 College Street, 290 Easthurst Street, 1215 Bloor West, 432 and 874 Yonge Street, VanZant Drug Stores and E. A. Saggio, College and Ossington.

tinued, "that the financial provisions will provide a nucleus on which Ireland, before many years are over, can become independent of English money?"
"Yes," said the Irish leader, "I feel quite certain that in a comparatively small number of years, Ireland will be quite independent of English money. Under the bill, Ireland agrees that all increase in the produce of existing taxes due to the natural, increasing prosperity of the country, are to go towards wiping out the present deficit which has been created by English mis-government in the past."
"How long do you think it will be, under favorable conditions, before the Irish chancellor of the exchequer has a surplus?"
"Mr. Redmond thought for a moment. "If the natural revenue of the country continued to increase at the same rate as it has increased for the past ten years—and it is only reasonable to expect that the increase will be very much greater—the entire deficit will be wiped out in less than ten years."

Satisfies Irish.
"Do you think that the home rule bill will give Ireland a degree of autonomy which will be considered satisfactory by the Irish who have so keenly supported the home rule cause in the United States, Canada, Australia and elsewhere?"
"Mr. Redmond grew emphatic. "Most unquestionably yes," he replied. "The bill has been accepted as a reasonable and adequate measure of autonomy for Ireland by the Irish people in the United States, Canada, Australia, and elsewhere."
"If the house of lords, as is generally expected, vetoes the bill, when do you expect that the first Irish parliament of the twentieth century will meet?"
"If the house of lords exercises to the full the powers of delay they still possess under the Parliament Act, they can postpone the home rule bill coming into law until May, 1914. This is the limit of their powers."

Bonds for Dynamitar.
SAN FRANCISCO, Jan. 18.—Bonds to the amount of \$143,500 for the redemption of dynamite, convicted at Indianapolis of complicity in the national dynamite conspiracy, and now in the federal prison at Leavenworth, Kansas, were forwarded today to United States District Attorney Miller, at Chicago. The bonds were approved last night by United States Commissioner Tretlow's wife, Mrs. Ingeborg Tretlow, scheduled \$70,000, the largest bond offered.

National Chorus and New York Symphony

Great Crowds at Massey Hall to Hear Local Choir and Famous Orchestra.

Dr. Albert Ham and the management of the National Chorus are to be congratulated upon the unqualified success of the two joint concerts of choir and orchestra given at Massey Hall during the past week. The chorus was in every way superior to any that has before sung under Dr. Ham's baton. The voices were of excellent quality in all the sections. In the first number Parry's ode, "Eliet, Pair of Sirens," a very exacting work for double choir, the chorus revealed to great advantage all the essentials of good choral singing, phrasing, attack and quality of tone. So great was the success of this number that it was repeated at the second concert, when, it was sung with even more confidence and assurance. The glees, "Strike the Lyre," by Cooke, the Irish composer; "A Morning Song of

Written on Faces—Tired, Aching Feet

A TIZ Foot Bath Is One of the Joys of Living.

A Free Trial Package Proves It. No comfort anywhere. Swollen feet rob the day of all its sunlight. But it's a TIZ foot bath tonight. Tomorrow is all smiles and fleet-footedness.

TIZ Stops All This Foot Misery—Try a TIZ Foot Bath Tonight.
TIZ is a wonder to draw out all those acid poisons that sag down into the legs and feet. TIZ shrivels a hard corn into nothing, drives away bunions, reduces your feet to fit your shoes and enables you to run like a deer or stand and drill like a soldier. Get a box of TIZ, 25 cents at any drug, at department or general store, or send to Walter Luther Dodge & Co., 123 S. Wabash Avenue, Chicago, Ill., for a free trial package. Not to try TIZ is to invite misery. Don't waste time with substitutes.

Prize," Bruch, "A Spring Song," Hugo Wolf, "A Love Song," Bantock, and the madrigal, "My Bonnie Lass, She Smiled," with the noble waltz work for double chorus; "In Exitu Israel," formed the choral program of the second night. The choir was at its very best and the pieces were sung with all the energy, verve, delicacy and nicety of shading for which the National Chorus is noted. The orchestral program of the first night was devoted entirely to Wagner, and the interpretations made by Mr. Damrosch were a revelation in finished style, dramatic expression and picturesque, descriptive tone. In the opening number, the "Eleanore" Overture, the music seemed to come from one grand instrument, so perfect was the ensemble. In the prelude to "Lohengrin," "Sounds of the Forest," from "Siegfried," and the "Good Friday Spell," the playing was remarkable in its delicacy and other quality, and the prelude to "Die Meistersinger," brought the first concert to a majestic close. The "Pastoral" Symphony, Beethoven, was the big orchestral number of the second night. As its name implies, it is expressive of that happy and contented feeling which the lover of nature feels in the presence of the loveliest of things. The last movement was really notable in its tone depiction of the thunder-storm, the lowering sky, the fury of the tempest, returning sunshine and refreshed landscape. Special interest centered in the novelty of the program, Ravel's "Ma Mère l'Oie," the performance of which created quite a sensation in New York. The composition is unique in form and style and its reception was most enthusiastic. The concert was an immense success both artistically and in point of attendance and appreciation and Dr. Ham and those whose enterprise was instrumental in bringing Mr. Damrosch and his orchestra from New York, may well be proud of their achievement this year.

PNEUMATIC TIRE SUBSTITUTES.

It is safe to say that no subject has received more careful thought and attention from inventors within the last year than the tire problem. But for one of the scores of recently patented devices is quite equal to the pneumatic tire, due to the number of moving parts which are subject to wear and breakage. Furthermore, there is a great tendency to rattle and jar whenever a small obstruction is met by the tire. So, the pneumatic tire, which has not been entirely solved, much work is being done, and it is apparently only a matter of time until we may expect something even better than the present pneumatic tire.
One woman owns and operates a farm in Texas which is larger than the United States has 88 establishments producing gold and silver leaf which give employment to 1552 work-

ANOTHER CHANGE FOR A CYCLOPEDIA

Our readers have shown such an interest in the cyclopedia offer that another opportunity will be given them this week. Clip the coupon from another page of this issue and present it with \$1.98 for the complete set of five beautiful volumes.
Everybody's Cyclopedia is beyond doubt the most useful set of books

Banish Those Ugly Pimples

Skin Cleared in a Short Time by Stuart's Calcium Wafer, the Greatest Blood Purifier Known.

Pimples, blotches, skin eruptions of all kinds are simply the impurities in the blood coming to the surface. All the external treatment in the world won't do a particle of good unless you purify the blood. And there's nothing so humilitating as a face that's all "bruced out" and spotted.
Stuart's Calcium Wafer will clear the most obstinate complexion, because they get right into the blood and remove the cause of the trouble. The blood is cleansed of all impurities and foreign substances, and these are quickly eliminated from the system. You'll notice a wonderful change in a few days—you will hardly know yourself in a week.
And Stuart's Calcium Wafer are absolutely harmless; to any one. Their ingredients are just what a physician prescribes in most cases of skin eruptions and poor blood. These wafers are put up in a concentrated form, which makes them act quickly and thoroughly.
Begin taking Stuart's Calcium Wafers today and then look at yourself in the mirror in a few days, and find all these awful pimples, blackheads, acne, boils, liver spots, rash, eczema and that muddy complexion rapidly disappearing, and your face cleared like the petals of a flower.
You can obtain Stuart's Calcium Wafers at any drug store at 50 cents, and there is now no reason why any one should be disgraced by pimples or any other skin eruption.

Doctors May Help Insurance Scheme

British Medical Association Releases Members From Pledge Not to Serve.
LONDON, Jan. 18.—The members of the British Medical Association today decided by a majority of 115 against 25 votes to release the British doctors from the pledge they had given not to serve under the National Insurance Act, which provides a monetary allowance and medical attendance to the working classes during sickness.
The opposition of the doctors to the scheme of state insurance was highly pronounced, and it was expected that they would have much to do with the doctors' resistance, especially in London.
The minority at today's meeting was composed entirely of London practitioners and the campaign against the act continues in the metropolis.

NEW PROCESS OF PAPER MAKING

A new paper-making process described to the Paris Academy of Sciences has suggested new possibilities for the French colonies. Paper is made by folding cellulose, the elastic envelope of vegetable cells, and the new process is claimed to yield a paper of excellent quality, pulp per acre every month, while the product of a pine forest, cut every sixty years, is only half a ton of pulp per acre annually.
Timber Supply of the Tropics.
One thing which the prophets of the world-wide timber famine forget is the supply of tropical timber in a hundred jungles, waiting the demand of the white man. Until recently the coarser, common use of tropical timber were hardwoods known outside the tropics, Mahogany, ebony, teak and rosewood were brought to northern cities for use in cabinet work; but the same ships which brought these tropical woods carried back pine for ordinary use, and can be had at a moderate price for use of modern lumbering methods. Twenty years in the tropics will grow a forest larger than can be produced in a century in the north.
With the full utilization of the hot lands of earth, the timber famine will be indefinitely postponed.—Chicago Journal.
Price—hundred dollars was recently paid for the good will of a humble coffee stall in London.
In France 21.24 per cent. of the population engaged in farming while in England the percentage is 5.65.
Charlottenburg, Germany, has four-store hotels for horses which will accommodate 2900 animals.

DRINKS FOR HIS NERVES

You Who Never Touch Liquor Cannot Understand a Strange Nervousness in Some People Which Nothing Else Will Alleviate.
Nine-tenths of all those who drink liquor would gladly stop if their nerves would allow them to. Very few men, however, desire nervousness, and few women desire nervousness because they are naturally vicious.
There is a kind of nervousness that is not due to any physical cause, but to the accumulation of alcohol in the system. That is why men keep drinking when they know just as well as you do that it is ruining their mental, physical and financial. They simply CAN'T STOP.
The condition of nervousness is due to accumulated alcohol in the system. Before they can or will stop drinking liquor every trace of this poison must be driven out. The Gatlin treatment is the only one in the world that will eliminate this poison; other methods are treated instead of CAUSE. The Gatlin dose away with the CAUSE, and with it goes the desire, nervousness, and all other effects of alcoholic poisoning. But, THERE'S NO TIME to waste in curing any case by either Institute or Home treatment.
Come to the Gatlin Institute for three days and you will return home without more desire for any liquor you had the day you took your first drink.
You will be treated under a legally executed contract to cure in three days or the full fee shall be refunded on leaving the Institute.
Write for books giving full particulars and copies of contract.

M'CARTY TO MEET BURNS IN CALGARY

Ex-Champion Wants to Win Title Back—Match All But Arranged For Easter Week.

CALGARY, Alta., Jan. 18.—There is a strong probability that Luther McCarty and Tommy Burns will meet in Calgary about Easter to battle for the heavy-weight championship of the world. Local negotiations have reached a stage where little remains to be arranged but the minor details. McCarty, it is said, started his pugilistic career as the result of a few words of advice from the Canadian champion, and the meeting of pupil and teacher for the world's honors will have a peculiar interest.

RUSSELL FORD GOOD FOR MANY YEARS TO COME

New York Highlanders Twirler Should Show His Old-Time Form This Year—Best in 1910.

NEW YORK, Jan. 18.—Remember the little nursery rhyme: "What goes up must come down!" There are many instances that might be cited to show that this time-worn adage applies to the ups and downs of athletic existence as well as the laws of gravitation. Also that the faster anything shoots up just so much faster must it fall before it finally hits earth or water.

RUSSELL FORD, WHO HAS BASEBALL FANDOM GUESSING

He was one of the most marvelous hitters that ever broke into the game as a first-year man. This was in 1910, when his club finished second. That year he won 26 victories and met defeat 26 times. His average was .313, but six times his average was .300. The following year it dropped to .267, but in 1912 he won 26 games and lost 21. In 1913 he expects to win 26 and lose 21.

ST. PAUL, Minn., Jan. 18.—Wm. Brennan, umpire, today signed and mailed to President Lynch of the National Baseball League his contract for 1913. It is understood that the contract provides an increase of \$1000 over Brennan's salary last year.

Cambo 105, Cordie F. 105, Healy 105, Sethana 105, Bobby Cook 104, Nelson Stett 112, Ballif 105. Apprentices allowance claimed.

British Players For Golf Championships

American Games May Be Moved Up to Allow Britishers to Compete—A Good Move.

BOSTON, Mass., Jan. 18.—A suggested change in the dates of the national open golf championship from June 4 and 5 to some time in September, in order that several British players may participate, will be agreeable to the officials of the Country Club, on whose links the event will be held.

DATES ANNOUNCED FOR POLO GAMES

NEW YORK, Jan. 18.—The dates of the polo games for the international polo championship are formally accepted by the English challengers in a letter received from the Harrington Club. The club expressed the hope that the competition would be so close that a third game would be necessary.

Prominent Authorities Dead

RUTLAND, Vt., Jan. 18.—Ripley Dean, author, died at her home in this city. She was a native of Charleston, S. C., and was in her 88th year.

Raid by Turkish Cruisers

CONSTANTINOPLE, Jan. 18.—The Turkish cruiser Hamid, after carrying out a raid on the Greek island of Plopi, in the commercial centre of the Cyclades, in the Greek archipelago, arrived at Burret today.

By "Bud" Fisher

ICE RACING IN SPRING WEATHER AT MONTREAL

Delorimier Park Meet Drew Big Crowds—The Sunday World Expert Reviews the Racing—Toronto Horses Did Well.

MONTREAL, Jan. 18.—(Special to The Sunday World.)—Something unusual for a Montreal ice meeting for the trotters and pacers, was experienced by the large attendance which was at Delorimier Park to see the races put on by the Montreal Driving Club. Generally speaking, in January our weather is the order, but today was almost like balmy spring. The track was very sloppy, but the going was good, as the management had a good body of ice, and the only inconvenience to both horses and drivers was that the latter needed oilskins.

To Help Stallings.

The Boston Nationals should make a much better showing this year under the new manager, George Stallings, than last year's showing under Johnny King. Stallings has proven his worth as a major league manager. Among the new pitchers signed by the Devons is Ralph Strand, who played with Seattle last year. He was practically unbeatable in the last month of the campaign. A year or so ago the Boston Red Sox bought his release for \$4500 of which \$2500 was paid in cash to bind the bargain, but in some way the deal fell thru.

GREAT RACE IN THE UTILITIES LEAGUE TORONTO TEAMS FOR THE A.B.C. TOURNEY

Teams Are Bunched For First Series Honor—Apple League Also Close—Bowling News and Gossip.

The Utilities Tappin and Apple Fivepin Leagues are now in the limelight around the Toronto Bowling Club, since the close of the first series in the Business Men's and T.B.C. Fivepin Leagues last week, and it might be interesting to know that the first-named pair of leagues are putting up a good deal more exciting finish to their initial series than their other rivals, while the former league seems to be the watchword in each.

Eddie Sutherland Looking After Local Clubs—Bowling Doings on the Athenaeum Alleys in All Leagues.

The American Bowling Congress tournament, which will be held this year in Toledo, from Feb. 23 to March 12, promises to be the best in the history of the bowling game, according to Secretary A. L. Langtry, who states that arrangements have been made to accommodate the largest number of bowlers that ever took in the event.

Monday's Hockey.

- O. H. A.—Senior—Collingwood v. Toronto Cane Club at the Arena at 8:30 p.m.—Intermediate—Bowmanville at Whitby. Junior—London at Brantford. Strathroy at Chatham. Toronto at Frontenac. Platon at Belleville. Port Hope at Cobourg. St. Michaels v. St. Andrews at Arena at 8:30 p.m.—Junior—New Hamburg at Galt. Waterloo at Preston. Chesley at Owen Sound. Jennings Cup.—Group A—Junior Meds at Junior School. Dents at Junior Arts. Group B—Knex at Wycliffe. Trinity at Forestry. M. V. M. A. League.—Senior—Sherborne at Woodgreen. Queen City League.—Junior—O. K. at St. Marys. Beaches League.—Senior—Royals at Doris. Junior—Queens at Woodgreen. General Finance League.—Senior—Trusts & Guarantees at London & Lancahire. Toronto Hockey League.—Senior—Lambton at Athletes. Rosedale at High Park. West End v. Burekas. Financial League at Bank of Montreal. Mercantile League.—Senior—Fairbanks at Athletes. Freshairian League.—Parkdale at Eriksine. Deer Park at St. Pauls. Public School League.—Minor, Senior—McCall at Collingham. Crawford at Brown. Beach Hockey Looks Good.—The Beaches Hockey League commenced their schedule last week and have made a good start. In the senior series only one game was played. The Beach Club seniors won a close hard fought game from the Strollers by the score of 2 to 1. The Strollers have a well-balanced team, but Beach Cane looks mighty good with their win away from home. The Beach Cane line-up includes Salzer, Sanderson, Max Sisco, Gibson, Howard, Givens, Joe O'Hara, Butterworth, Freddie Mills, Freblook, Malloy, Gay and looks a well-balanced outfit. The strong Broadview Y.M.C.A. line-up in front, and in the rear, are the Beach and it should be a great game. In the junior series, Beaches and Corwells each have a victory to their credit.

MOST ANY OLD COMBINATION MAY BE CRIBBED FROM RESERVE LISTS

A glance at the reserve lists of the various major and minor league clubs discloses many players with odd names, which give the Winter Sports League dopsters plenty of fuel during the snowball season. The humble pencil pushers who score the games would delight in a line-up composed of Moe, Nee, Ess, Eng, Briz, Ten, Ott, Uty, Aiz, Upp and Ray. The hard-working club owners would wear a contented smile with Money-maker, Goodman, Bunting, Flag, Esq., Wilf, Hipful, Hit, Doubles, Triplett, Nickel, Farthing, Pence, Shilling and Ten Million signed up for the season. The hopeful fans would hail with delight a fighting lineup like Corbett, Sullivan, McCoy, Nelson, Ike Weir, Jack Ryan, Sharkey, Jefferies and McCarty. All these names are found in the 1912 baseball directory.

Here's Dewey, Sampeon and Schiel, and a Duke, Prince, Kaiser, Earle and King. An infield composed of Stone, Rock and Block would look good on any diamond. These, too, are found in the array of ballplayers. Long and Short, East and West, Cole and Wood, Hill, Glenn and Dale, Billiard and Zoole, Wolf and Fox with Nicodemus and Lazarus sprinkled between, completed the list of a few odd names found on the reserve lists for 1913.

Circuit Clouts

Maximilian Carnarius, better known as Max Carey, left fielder of the Pittsburgh Pirates, is to be married to a St. Louis girl on January 22nd. They met four years ago when Max was a student in St. Louis seminary. An agreement has been reached between Frederick Clarke, manager of the Pittsburgh Pirates, and the Utica club of New York State League, whereby Clarke will turn over his surplus material to Utica in exchange for an option on the club's players who are not drafted. Big Jack Powell, the veteran pitcher of the Browns, who has been released to the Louisville club of the American Association, has been pitching in St. Louis most of the time since 1895. In 1902 he jumped the National League for the American League, and in 1903 the Browns traded him to the Yankees. He returned to the Browns the following year, and has been there ever since. Christy Mathewson, who has been with the Giants since 1900, succeeded Powell as the dean of major league pitchers. John Hayden, manager of the Louisville Colonels, has decided to cancel the reported sale of Charles Schneider, with Buffalo.

Red Sox Champions Slow in Signing Up

BOSTON, Jan. 18.—Few of the champion Red Sox have as yet appended their John Hancock's to agreements to play ball for the local American league team in 1913, and as there are none under long-term contracts now, President McAleer has virtually a whole club to sign up before the season begins. Of course, the Red Sox players feel that they, as members of the very best club in the land, are entitled to some consideration above the ordinary. President McAleer is perfectly willing to advance the salaries of his ball players within reasonable bounds, but that he will consent to grant all that may be asked is more than doubtful. He feels that the players who had the opportunity to make a lot of easy extra money in the world's series last fall should be moderate in their demands in the club the following season. At the same time, he feels that he will have no particular difficulty in signing the players to mutually satisfactory contracts before the spring training trip begins.

Hamilton Tigers Play West End Y.

The O. B. A. championship season opens at West End on Saturday, Jan. 19, when the West End senior basketball team clashes with the famous Hamilton Tigers. The latter have on their lineup such heroes of the gridiron as Reddy Dixon, Paddy McNeilly, Sam Ma nson and others, who also possess rare ability as performers on the basketball court. There is a possibility of Gray and McKeown, former players of the Hamilton Y.M.C.A. team, being on the Jungle Kings' team, and with Arnold at centre, and the other players they appear to have a formidable aggregation. The local five are training hard, and if condition and team-work count, should just about twist the tails of the Tigers. Tait and Montgomery form a defense that is hard to beat anywhere, and with Man, Munro and Farrell to choose from for the forward line, they have, with the addition of Jack Blairidge, the former Hamilton star, at centre, a team that will make the Wiskie-Wee-Wa-Wa's travel in a huff to pull out a victory, and the patrons of this popular winter sport are assured of a good evening's entertainment. Indoor Baseball.—A feature of great interest to indoor baseball fans will take place Monday night at the gymnasium in the game between C. O. R. and G. Co., 48th Highlanders. The teams have at different times been winners of the Currie Cup donated by Major J. A. Currie, M.P., and their game, which is purely an exhibition, is being put on to demonstrate to junior teams in the armories how indoor baseball is reduced to a fine art, and when properly played by men whose names are familiar to outdoor City League fans, is just about as interesting as the outdoor game. Albert Cadman and Bob Cook are the stars of the Queen's Own and W. Jones and Will Thorne, the Highlanders. The game will commence at 8 p.m. and there is no charge for admission. The side galleries are reserved for ladies and their escorts. There will be a big crowd of regimental rooters on hand.

Philadelphia Club Changes Hands

William H. Locke, formerly secretary of the Pittsburgh National League Club, recently bought control of the Philadelphia National League team. This photograph was taken at the consummation of the deal in Philadelphia. Those in the group are, from left to right (standing): M. Clemmons, Jr., and William F. Baker; (sitting): Alfred B. Wiler, retiring president; Charles F. Rumbold and William H. Locke.

BEER

Is the greatest beverage made by man

WHY IS IT that beer remains the world's greatest manufactured beverage, in spite of the endeavors of science and vast appropriations of money to produce "soft" and other drinks to take its place? There is only one reason—beer is the purest, most healthful and satisfying beverage for all occasions.

Cosgraves

GOLDEN GATE BEER

Absolutely pure in flavor and quality—demonstrates the real goodness of beer. It combines all the valuable qualities of other good beers with a peculiarly delicious flavor produced only by the Cosgrave process. Try a glass next time you are thirsty. That's the best test.

O'ROURKE KEPT BETTING EVEN IN BIG FIGHT

Palzer's Manager Threw His Money Round Like Drunken Sailors and Wagers Were at Evens.

NAT GOODWIN A LOSER

Won Money on McCarty But Switched in Palzer Match and Dropped a Roll—How it Was Worked.

By W. W. Naughton.
SAN FRANCISCO, Cal., Jan. 18.—A remarkable circumstance in connection with the Luther McCarty-Al Palzer fight for the white heavyweight championship was the manner in which the rival betting factions held each other to even money wagers from first to last. There never was a case like it, probably. Very often a pair of pugilists will sell at even money in the days preceding their match. At the last moment, however, there is pressure of money from one side or the other and one of the men will go into the ring a pronounced favorite. The philosophy of all this is that one of the men has always commanded the greater support but that his backers have held off to the last so as not to pull the market. Then in order to place their money before it is too late they loosen up and offer odds. With Palzer and McCarty it was even money a week in advance of New Year's Day. It was even money the night before and it was even money when the men were taking their corners. After the third or fourth round it is doubtful if an offer of 3 to 1 would have lured a Palzer man.

Now that it is all over the sports are trying to explain how it was that the hopes sold even. The majority appear to think that Tom O'Rourke, Palzer's manager, was largely responsible for the stubbornness of the market. Palzer and O'Rourke arrived in Los Angeles in time to see McCarty defeat Jim Flynn. When that bout was over and the Palzer-McCarty contest arranged O'Rourke at once began to inquire for bets. He was willing at first to give little odds but he soon found that it wasn't necessary. Had Goodwin's opinion of McCarty. The Los Angeles betting man had a wonderfully good opinion of McCarty after seeing the way he handled Flynn and they not only met the even money bets but made McCarty a slight favorite. O'Rourke and his friends were always ready to cover bets and presently the Los Angeles began to think they remembered that O'Rourke is a very old-timer at the pugilistic game and that he has developed and managed many world's champions. They argued that the silver-haired gentleman from New York is the last person in the world to throw money away foolishly and that when he planked down his coin in support of his judgment it was time for the other side to proceed with caution. Before very long men who had won on McCarty when he beat Flynn followed O'Rourke's lead. O'Rourke's eagerness to back his man practically paralyzed the betting. It kept at evens with comparatively little doing in the waning line right up to the ring time. Now you will hear some of the sports saying that if any other man but O'Rourke had been behind Palzer the odds would have been 10 to 7 in McCarty's favor and that many who would have remained loyal to McCarty would have remained loyal to McCarty and won large sums. Nat Goodwin Switched. A laugh is going the rounds at the expense of Nat Goodwin, who was one of the biggest winners when McCarty defeated Flynn. Goodwin was one of the first to greet Tom O'Rourke when he came to town. From being much in O'Rourke's company Goodwin became enamored of Palzer's chances. He turned his back on McCarty, in a betting sense, and the switch cost him about five thousand dollars. Goodwin sat close to the ring on New Year's Day and happened to be

DR. STEVENSON, 171 King St. East, Toronto, Ont.

In the centre of a group of McCarty admirers "Shame to take the money," said Nat, taking out his memorandum book and calling off some of the wagers he had made on Palzer. "I have forty three hundred placed at even money and it's like robbing people." "Then another man said he was willing to be held up for a couple of hundred and yet another for a hundred. Nat had added at least seven or eight hundred to the total of his wagers.

Oh, You Traitor.
After the third round had passed, Nat's face was a study. He said he was up against it and made a dismal attempt at looking unconcerned. To make it worse, Billy McCarty glanced over Nat's way as McCarty was passing out of the ring and yelled at Nat. "Oh, you traitor!" "Everyone who saw the contest between the big hopes thought there would never be any occasion to send the men together again. It was the general opinion that McCarty had proved himself Palzer's superior at every point of the game. Palzer, it appears, thinks he should be given another chance. He does not claim that he was not at his best in the matter of condition, altho there is reason for believing that bilious attacks and a throat affection kept him from training as thoroughly as he might have done. Palzer thinks he could have done better if allowed to fight his own way. He says that O'Rourke caused him to change his style, thinking better results would follow if he jabbed and countered in the manner that McCarty does. "They had me trying a new style of boxing the last days of my training and it was too late to teach me new tricks," Palzer is quoted as saying. "I would like another chance at McCarty but they must let me tear into him in my own style."

Whether this kind of a plea will get Al a return match remains to be seen. At present the feeling is that McCarty can lick Palzer no matter what style the latter adopts.

Oscar Mathisen.

This is Oscar Mathisen, the Norwegian skier who in February last made three new world's skidding records at Christiansia, Norway. He won the 500-metres event in the international contests in 44.2-10 seconds, which is two-fifths of a second better than the record made by Mathisen in 1908. He won the 1500 metres event in 2 min. 20.8 sec. and the 10,000 metres in 17 min. 46.3-10 sec. The previous record for the 1500 metres was made by Mathisen in 1908, and was 2 min. 20.4-5 sec.

FRED WELSH CLAIMS CHAMPION HONORS

Includes Wins Over Ritchie and Wolgast Before They Held Title—Says Nelson Forfeited.

Freddie Welsh, according to marked copies of English sporting papers just received, has proclaimed himself lightweight champion of the world. Welsh, in a long, signed statement in one of these papers, declares that he is the first Briton to earn a clear right to the title since Kid Lavigne won it from Dick Burge on Derby night, 1896, at the National Sporting Club. Lavigne, Burge out in 17 rounds, and thereby won the world's lightweight championship. With considerable ingenuity, Welsh shows why he has recovered the title lost by Burge. In the first place he defeated Matt Wells for the championship of Great Britain and Lord Lonsdale belt. Welsh got a hard-earned decision over Hugh McEneaney, champion of Australia, in twenty rounds at the National Sporting Club of London, in Thanksgiving Day, 1911. Welsh received a verdict in twenty rounds over Willie Ritchie at Vernon, Cal., when the latter was called upon to take the place of Ad Wolgast, then champion, who had suddenly become incapacitated with an attack of appendicitis. Welsh doesn't base his claim to the world's title because of his victory over Ritchie before that latter had been justly entitled to the championship when Battling Nelson as title holder positively refused to meet him. He tries to strengthen his argument with the statement that on Jan. 18, 1908, in a fight with Paddy McFarland, Milwaukee, he actually knocked out Wolgast in two rounds, a feat that he agreed to suppress at the earnest request of the man who recently surrendered the title to Ritchie. Knocked Wolgast Out. Welsh's story of how he stopped Wolgast contains many positive statements. The Briton says he was in Milwaukee training for his first bout with Paddy McFarland, which took place there on Feb. 21 of that year. Welsh was in the gymnasium working on the gloves for a friendly bout. At first Welsh says he refused, but Wolgast insisted he finally agreed to go three rounds in the presence of half a dozen persons, including Frank Mulhern, then Wolgast's manager. Love taps prevailed until just before the first round ended, when Wolgast suddenly let fly a haymaker with his right hand. The blow, intended for a knockout, grazed Welsh's jaw, but that was all. In the second round Welsh says he fainted Wolgast into a lead and then crossed him on the point

The Sale That's Rousing Toronto

Our Mid-Winter Sale, which was inaugurated on Monday last, has been one wonderful success, and the extraordinary values given will be continued right to the end. The stock must be reduced and converted into cash. We want more room for Spring goods, and must have it.

SEVENTEEN YEARS IN THE MAJORS IS NAPOLEON LAJOIE'S RECORD

Larry is Good For Many Years Yet and Cleveland Will Not Let Him Out as the Winter Gossip Would Have us Believe—A Few of His Achievements.

By W. J. Macbeth.
NEW YORK, Jan. 18.—The assertion that this age of baseball is one of speed goes unchallenged. We had irrefutable evidence of it a very short time ago when Pittsburgh cup loose from Mike Donlin. Now comes a rumbling from the middle west that Cleveland is to sacrifice its great king, Larry Lajoie. Next thing we know of Hans Wagner and Sam Crawford will be getting the hook because they fall off a pace or two in sprinting form.

Fred Clarke was evidently justified in sending Donlin to Philadelphia

the world forget all about Ty Cobb's performances with the ash. Lajoie is a free hitter, like Hans Wagner. He is just such another kind of player except that he is the direct opposite in everything but effectiveness. Hans is awkward and clumsy in his manoeuvres even if he is sure as death; Lajoie is all grace and poise. But both of them are deadly swatters, and as Lajoie is a pitcher for a home run as to single off one right in the "grove."

It does not seem that Cleveland could ever part with Lajoie so long as he is able to stand up with the aid of a crutch. That 388 he clouted in 1912 assures him some big league berth for some time to come. But if Larry ever does leave Cleveland let

even the Mike hit away above .300 in 1912. Mike is slow and dispirited, too in a way. But for Cleveland to pass up the great Lajoie sounds too foolish to attract attention. Why that young fellow Lajoie is just beginning to find himself in the big tent. And do you think for a minute the Cleveland club does not realize this? Do you think the Cleveland club would dare to sell such a favorite even if it wished to do so? Do you think Lajoie would consent to be bartered like a "push leaguer" after seventeen years in the big ring?

Lajoie Has Slowed Up.—There are a few questions that furnish food for sound reflection. Larry Lajoie has slowed up undoubtedly during the past seventeen years, but he is far from being any sort of derelict. Last year he played 117 games, and hit for the remarkable average of .368. Under these circumstances, having enjoyed one of the very best seasons of his brilliant career it is very unlikely that Cleveland would consent to part with Lajoie to any club. He has become a Forest City institution.

Many of Lajoie's friends would like to see him transferred to some other club, especially one which has some chance for the pennant. For the big Frenchman has never yet figured on a winning team or shared any of the spoils of a world's series. Wagner, Crawford, Cobb, Donlin and all this wonderful veteran's contemporaries of the old and modern schools have had their share of the big glory and big gravy. Several times Larry has come closer, notably in 1908, when he managed the Blues. That year Cleveland, Detroit and the White Sox fought such a finish that the pennant was not decided until the very last day. The sad part of the affair from a Cleveland standpoint was that Lajoie that year, when his services were so badly needed, had the worst season of his big league career. Larry played in every game, but he batted only .282, and fielded far below his standard. Only one other time in his life did the big Frenchman fail to rap .300 or better. In 1907 he fell shy of the coveted notch by only one point.

Seventeen Years in Big Show.—Lajoie broke into fast company when he was 21 years old. He had early broken up the New England League as a member of the Fall River team, when the Phillies netted him. He played five seasons for the Quakers, hitting as high as .375, and never lower than .328. In 1901 during the war between the major leagues, Lajoie, with a bunch of his team mates, jumped to the Rival Athletics. That was the best season of his career, for in 131 games he batted away at a .422 clip. The Phillies in the meantime went to the courts and secured an injunction to prevent the "deserters" appearing with the Athletics. It was finally decided by the courts that Lajoie and his pals had no right to play in Pennsylvania with any club other than the Phillies. For this reason Lajoie was sent to Cleveland, the Naps assuming his war-time contract.

Lajoie has been in Cleveland for the past eleven years. He managed the team for five years, throwing up the job in 1909 after a pennant possibility took a bad cropper. Immediately he resigned Lajoie's own game improved. The past three seasons he appears to have been as fit as ever. Lajoie has always been a great honor and a credit to the sport, but he inadvertently figured in a breath of scandal in 1910. That year, he and Ty Cobb were fighting tooth and nail for the league batting leadership as an automobile was involved as a prize. In the last game of the season in St. Louis "Red" Corriden, the player recently sent from Detroit to the Chicago Cubs in order that Frank Chance might come to the hilltop, played away back on the grass, at third, every time Lajoie came up. Larry each time beat out a bunt. He got five hits in as many trips to the plate. But the conduct of Third Baseman Corriden and some of the Browns was so palpably favorable to Lajoie that Ben Johnson held an investigation. It was believed that Lajoie had beaten Cobb for the honors. But when Ben announced his official figures Ty was ahead by a fractional point, .385 to .384. Ben fixed it up so that each got an auto and there were no hard feelings.

A Graceful Player.—Lajoie has always been one of the most graceful players the game ever knew. No play ever looked hard for him. A finished fielder he was a lion of defense. His offensive charm laid in his great batting eye, for Lajoie was never noted as a speedster. He used to be pretty fast, you know, but never a Cobb or a Josa Devore. If Larry had been speedy he'd have made

us hope he hooks up with a real ball club. It would be interesting to see just what this grand old fence-breaker would do in the blue-ribbon classic of the sport.

20,000 MEMBERS IN CYCLE FEDERATION

Motorcycle Organization Rises Rapidly—Had Only 1,000 Members Five Years Ago—Growing Every Day.

Springing from a membership of a little more than 1,000 just five years ago, the Federation of American Motorcyclists today has close to 20,000 members.

These figures show something of the growth of motorcycling in the United States. And the figures, particularly in the last two or three years, offer some suggestion of the great interest in motorcycling today.

Motorcycling is increasing in all of its phases. As a pleasure vehicle it is constantly growing in popularity and in the business world it has become a permanent fixture. Its commercial supremacy is strikingly illustrated by the recent order of the postoffice department asking for bids on motorcycles to be used thruout the country in the postal service.

The Federation of American Motorcyclists is the A. A. A. of the motorcycle world. It was "born" in the rooms of the Alpha Motorcycle Club, in Brooklyn, N. Y., September 7, 1903, when forty-four men responded, who became charter members of the M. A. M. Its first president was R. G. Betts, of New York.

The first annual meeting was held July 8, 1904, and at that time the organization boasted 192 members. The next annual meeting was held August 3, 1905, when there was 569 members. June 28, 1906, the membership was 822, and one year later, June 17, 1907, the membership had passed 1,000—standing then at 1,146. At the annual meeting June 30, 1908, the membership had increased to 1,822.

Dr. J. Patterson, who was elected president of the F. A. M. last July, hopes and believes that the membership will be close to 20,000 by next July. His predecessors have set "doubling" records for him and he expects to keep it up.

The F. A. M. governs the sport of motorcycle racing, its competition chairman being Dr. J. P. Thornley, of New York. It promotes and protects the rights of motorcyclists and motorcycling, and facilitates touring thru a newly established touring bureau. At its last annual convention the organization went on record as opposing the use of the open muffler, tank-riding and speeding. Thru its influence a movement to end these evils has swept thru the country. G. B. Gibson, of Westboro, Mass., is secretary-treasurer of the F. A. M., and E. M. Estabrook, Bangor, Me., is chairman of the membership committee. Both have been prominent and untiring in the growth and work of the F. A. M.

Heine Peitz Develops Cardinals' Pitchers

Veteran Catcher Brought Out Latest Twirling Possibilities of Boston, Fromme and Suggs.

ST. LOUIS, Jan. 18.—Manager Miller Huggins is related over the acquisition of "Heine" Peitz, who will coach the Cardinals' young pitchers next spring. "Peitz developed 'Rube' Benton last spring for 'Frank' O'Day," said Huggins today. "He turned the 'kid' over to Peitz, who made him a great twirler in less than one month's time." Peitz also made Arthur Fromme and George Suggs twirl the best ball of their big league careers for the Cardinals last season. "The brilliant" pitching of Benton, Suggs and Fromme put the Cincinnati club in the pennant fight for two months and made the Reds a

Pre-Inventory Sale

\$20,000 Worth of High-Class Haberdashery

At Sensational Reductions

Hundreds of men in and around Toronto wait for this big twice-a-year event, the same as the thrifty French wait with expectancy for the big annual Bon Marche sale in France. great money getter. Fromme never pitched any ball for Cincinnati until Peitz showed him how to use his stuff. "With Peitz and Larry McLean to coach my coil twirlers I think the club is strongly fortified behind the bat. Wingo is the best young receiver in the business and McLean will be hard to beat if he only behaves himself. It's up to Larry to promenade the straight and narrow path or retire from the big ring. This will be his last chance. He was labeled for a week when Mr. Harry Irvish Culbertson, the concert manager, and Miss Violet Hatch were the contracting parties. Mr. and Mrs. Culbertson have gone to California on their wedding trip, which will also be combined with important concert bookings.

Kit's Column

A Weekly Letter of Comment and Opinion.

(Copyrighted.)

When a man of 92—a student, a writer, and scientist tells us that the world instead of having progressed for the last few thousand years has been standing still, it is apt to make one sit up and think. I have always been led to understand that to be stationary meant retrogression; an Irish way of putting it, I fear, and that not to advance is to go back, but doubtless your more subtle mind will gather my meaning. Not long ago a rather brilliant man of letters said to the writer that he thought the world today was a better place than it had ever been before. "Not better, I imagine," I said, "but more respectable on the outside. We have put a lid on vice, but think of the vast underworld where immorality and murder, and crime of every sort, range riot. Think of the white slave traffic." But my friends did not see it that way. Now comes Russell Wallace, almost a centenarian, with his new year's message of concentrated pessimism.

Evils of Today

The evils of today on which this old philosopher and pessimist lays most stress are graft in all cases—man preying upon man, adulteration in every commodity, rottenness in every industry; cruelty to the poor, and to the children, and "lies everywhere." He might have added the craze for speed. Of the commercialized traffic in women he does not speak at all, and this, to my mind, is the blackest blot on the world today. "These lies," goes on Mr. Wallace, "in our midst today horrors never known before, and dreaded diseases known before." This last assertion comes as a surprise. Surely if we have advanced in nothing else, we have in medical and surgical knowledge, in clean living (even to "swatting the fly") in hygienic knowledge, and control of such diseases as diphtheria, and in the large measure of sanitation. Perhaps our learned and ancient philosopher had had more than a sufficiency of Christmas turkey and plum pudding, for he gave that interview to the London reporter, and was thereby suffering from the depression of indigestion. His bitter pill had not agreed with him. He certainly was of an indigo tint himself, like the man that said, bitterly, "Who's the use of anything? Nothing."

Is Too Much Optimism Injurious?

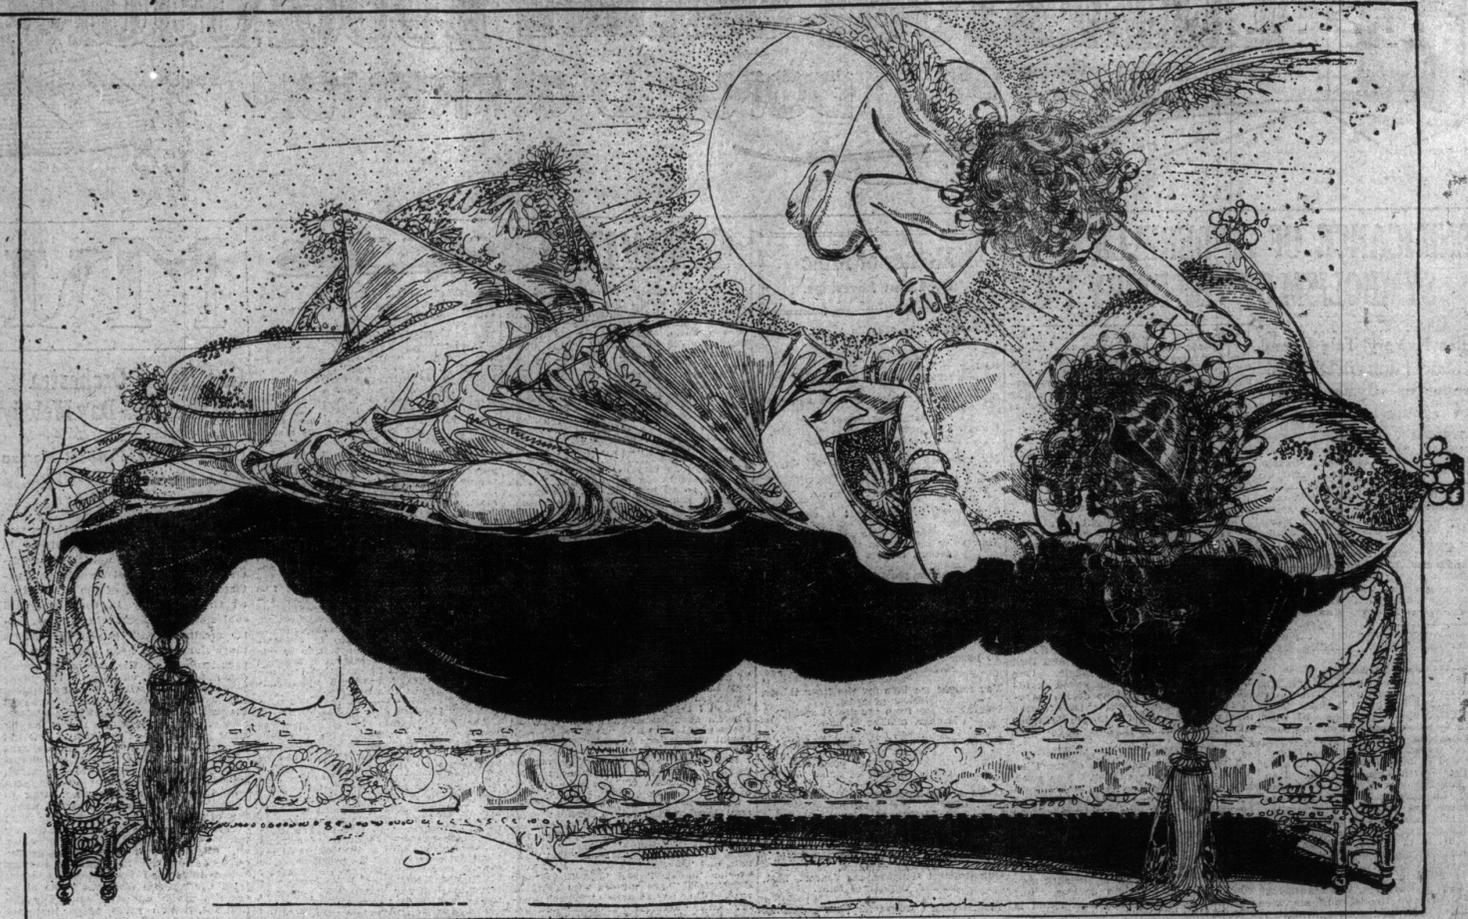

But again, while no one desires to take the pessimistic view of life, has not optimism, the other extreme, been rather overdone of late? Have you not known some scientific person or other who with breezy, insouciant cheerfulness bored you to death at times? Too much "good cheer" gospel has been preached and written. The old saying, "you can have too much of a good thing" (as champagne for instance) carries a ring of truth with it. Sob-brothers as well as solisters have made crosses pointed out of the "good cheer" business, and have cozened money out of other people's purses by shouting it. Too much of a good thing, in fact, is a sin in this regard, and no doubt, shall sin again. When life is hardest and most bitter with me I used to burst into paragraphs of "good cheer." Alas! Such merry and insistent optimism does not always fit in a world in which so many have to struggle. I begin to believe that this sort of talk—or too much of it—is unwise. And it does not quite fit our human needs. I have gods about my work many a day when God's gift to me would have been rest eternal. To give of yourself all the time—like him who giving all "gives none at all"—seems to me, sometimes, a wasteful doctrine. A grin forced by the "good cheer" thought is not a laugh from the heart. It is only a bitter tear dried in the making.

IT STICKS and that is what has made Seccotine a household word as the strongest adhesive the world has known. SECCOTINE enables you to repair practically any article and make it like new again. It is the housewife's most useful little friend. Cuts a few pennies and saves pounds. Always ready for use, and it comes in one, done easily, cleanly, quickly, and dandy detection. Sold everywhere in 25c., 15c., and 10c. Tubes. Write to-day for a FREE SAMPLE and LADIES' BOOKLET at the sole Distributing Agents for Canada— HAROLD F. RICHIE & CO., 22, Church St., Queen City Chambers, TORONTO.

Old Fairy Tales Made New

The Sleeping Beauty and the Prince

By Nell Brinkley

And when Beauty sleeps, the true Prince—Love—can waken her heart and her soul with a kiss.

and very many women have "souls that are sick with trouble," and hearts that are withered with sorrow.

A Curious Letter

The following tumbled out of the post box a day or so ago: Toronto, Jan. 8, 1913. My Dear Kit— Your columns being apparently widely read, I ask you respectfully for space in which to write about what might be termed an "indiscreet" or "delicate" subject. It is this: When a man, subject to that terrible disease, periodic drinking, wants to straighten up, he can walk into an hospital, state his case, and get treatment. Not so a woman. And there are women who, time to time, to this same disease, are a secret drinker—when the fit is subsiding, they go to a sanitarium or other public institution. For very shame she cannot go there, "to her doctor, who has to fight it out alone taking such drugs and medicines as she can procure. Would it not pay to have a decent private hospital, not branded with any name, such as such unfortunate might be brought round to sanity and health again? No woman can possibly go to a sanitarium, or other public institution, at home sooner. Nor could she manage for herself any of the so-called advertised Home treatments. In fact, often finds her only way out in suicide. The following true story you will not print, please. I send it in justification of my plea and for your eyes, only. Yours, etc., NEMO.

P.S.—My card with name and address is enclosed.

Canada's Own

In his delightful essay on "Canadian Womanhood and Beauty" in the January issue of the Canadian Magazine, Dr. Logan pays generous tribute to the list of many Canadian women of intellectual brilliance. And I am glad to note the names of some of my kindest friends, as Mrs. Virginia Sheard, Miss Marjory MacMurphy, and Miss Jean Graham. Women of genius all, and their names are well-deserved and encouraging. The Canadian Women's Press Club embraces a number of women and girls who are doing very fine, sterling and laborious work on our daily papers—too often, poorly paid work also. I should like here to offer a little tribute to "Cornelia," whose daily budget of work is amazing and amazingly well done. "Cornelia" is the "lady" on our papers whose names I do not know, but whose work forms part of the daily reading. All these Canadian women whose names and work are rarely mentioned. Canadian women in paths of intellectual and artistic achievement, wonderful work, and are helping in no small way to develop their beautiful motherland.

The Woman And The Beauty Doctor

"I may be only a beauty doctor," said the frayed lady with the account book, "but I could give pointers to most of the city doctors, all the same, about reducing the weight." She was preparing to treat a 200-pound patient when the present modes are far from favoring. Now as I know the stout lady rather well, and she asked me to accompany her, and not the process, why it was with much interest (to tell the truth one has of late been putting on an extra pound or so. Let's be frank at all hazards)—that one watched the proceedings. First the lady was vigorously massaged all over. Then she was wrapped

in a blanket face down on a rug, and that we run to see the stage beauty, rolled over and over. Then she was obliged to roll herself over—no light job. All the time the little frayed if one has smashed a throne and gained a rope of pearls worth a poor king's ransom. A delicious non-interference about "Gaby" was written by a "newspaper girl" who happily is a friend of mine, Selah!

The Beggar

He came in the back door brusquely, but little about the suave politeness which generally recommends his profession. "It's four days since I've eaten," he said, pathetically. A familiar odor floated thru the hall. "Four days!" we said, in alarm. "But does that familiar odor last four days?" He blinked. I will give him God's grace for that. Then—pleadingly—"It's the onions you smell, lady. I picked one out of your garbage can, Ma'am. 'Selp me, I did." He shifted from one old boot to the other. "You are English?" "Yes—London." "And why are you begging?" "It's the country, Ma'am. Nobuddy wants the Henglishman. 'E's 'ated 'ere." "But the whisky—along with the onions?" He turned and shuffled out. Poor Rat! I clumped after him. "Here's the price—" I said—"of a sandwich." No letters of any account, therefore no Post Box this week. Besides, I am not too well.

Advertised Nonsense

I don't think I will try to reduce. I should like to be rolled upon a rug and thither. Nor do I want to "diet and exercise." But "rest." Ah, that's different. And do rest, one has to women about certain advertised commodities should not be overlooked. There are too many patent foods, cure-alls, face-creams, digestive tablets, and "beauty" preparations. Women, above all others, "fall" for them. The poorest working women—with the immense families of the trusting and decent poor—buy every sort of advertised oil or liniment warranted to cure every ill. Such people are real "Christian Scientists." They believe—and they pay. Why, man, we must sometimes exercise our common sense. We cannot live in the fanciful world of dreams. One might wish we could. But that is impossible. Do you ever, friend, if you have passed the fires, the delightful strength of youth, and grow unwontedly tired for nothing—do you ever long for just rest? Not to talk, or write, or do anything but look at the snow or the sun, or listen with closed eyes to the hum of sleet on the window. That means being ill and tired, and that is supported by a careless public (who buys your output for a penny) never to be tired. However, on the whole, neither here nor there. Here vapors.

The Gaby

Some one did or did not interview Gaby Desly. That little king-eater has no use for the unfortunate reporter who pounds the pavement in front of her hotel for hours and hours. I remember when I was assigned to "interview" Julia Arthur when that lady was starring in "A Woman of Quality." Some years have slipped by since. Quite a few, in fact. I remember the long wait and wanderings—and the paucity of the interview when at last I got it. But those ladies of the footlights! Oh, those dear, peculiar, particular ladies! And the more peculiar they are the more we run after

them. It is almost a dismaying fact that we run to see the stage beauty, rolled over and over. Then she was obliged to roll herself over—no light job. All the time the little frayed if one has smashed a throne and gained a rope of pearls worth a poor king's ransom. A delicious non-interference about "Gaby" was written by a "newspaper girl" who happily is a friend of mine, Selah!

The Fox and the Crab

A Chinese fable. Retold from "Chinese Fables and Folk Stories," by Mary H. Davis and Chow Leung. A proud fox once met a crab, and he said, "Crawling Thing, did you ever run?" "O, yes," said the crab. "I have run from the mud to the grass and then back to the river again." "Why! that is no distance to run!" said the fox, sniffing the air. "Look at all your feet. If I had as many feet as you have I could run at least six times as fast as you do. You are a stupid, slow creature. I never heard of anyone with so many feet running so slowly." The crab looked meekly at the fox and said: "Would you like to run a race with such a stupid creature? Of course you ought to run faster than I for you are so much larger. And then you have such a fine, bushy tail; you hold it up so high, it helps you to run faster, too." The fox looked proud and satisfied with himself, and said: "Yes, I will run with you. Still the race will be so easy for me. I shall not need to try. You know you are such a stupid creature, at best. And no one can get ahead of me. Why, even men say 'as slow as a fox.' So do what you will, stupid one." "If you will let me tie down that beautiful tail of yours I am sure that I can win the race," said the crab. "When I put the weight on, I will call out 'ready' and we will start," said the crab.

Mme. Ferrabini's Double Triumph

Madame Esther Ferrabini, the famous Italian prima donna, of the Montreal Opera Company, who has been singing very little this season, owing to her devotion to the baby girl that the stork was good enough to present her with last September, last week came back to her own when she sang two roles in which she has never before been heard in Canada, and in such a way as to secure a triumph. One of these was Aida, which she took on a few hours' notice, and the other was Zaza, in Leoncavallo's opera of that name. A work which the composer dedicated to her. Of the Aida performance the distinguished critic of "The Montreal Star" says: "One of the most remarkable performances of Aida ever given on the stage of His Majesty's Theatre was that of last night, with Mme. Ferrabini in the title role, instead of Miss Amiden. Our present interchange of artists with Boston may have its advantages, but a missed train, a wreck, or a sudden attack of sickness, necessitates lightning changes which test the resources of an opera company to the full. Consequently, all praise is due to Mme. Ferrabini for stepping into the breach at the eleventh hour yesterday morning, considering that she had not sung the music for five years and actually had never appeared in the part before. No one, however, would have suspected this from her admirable performance last night. In fact, and probably owing

to the extra spurt put upon her energies by the exigencies of the moment, she has never sung better this season. Her upper tones seemed to have regained much of their former brilliancy and power and her wonderful use of the mezzo voice, tied over many a difficult moment. All the intensity which she infuses into her acting made the part literally vibrant with emotional impulse. A remarkable performance and one that should go down in the annals of the Montreal Opera Company as a memorable achievement."

Lauder's Salary Three Thousand Per

Scotch Comedian Comes to Massey Hall on Fifth American Tour. When Harry Lauder, the famous Scotch comedian, comes to Massey Hall, on January 28, he will again be under the direction of William Mor-

ris, who may be said to have "made" Lauder in this country. Mr. Morris has engineered three other tours of Lauder in the United States, some times as an independent vaudeville manager with a circuit of theatres, and again as an equally independent manager with a circuit of theatres. Robert Grau speaks of Mr. Morris as one of the few in a generation who show extraordinary tact in theatrical management, and names as the others P. T. Barnum, J. H. Haverly, and the late Sam E. Shubert.

HAIR DYES

SHOULD you decide to use dye make certain it comes from a reliable firm. Many fine heads of hair have been ruined with injurious hair dyes. LITERATURE SCIENCE EDUCATION WITH THE GOSSIPS

EDITED BY DONALD G. FRENCH

SIGNIFICANCE OF CINDERELLA SYMBOLISM OF THE FAIRY TALE

Popular Nursery Tale Found in Many Forms in Different Languages—Symbolic Ideas and Truths as Taught by Different Versions.

Most of the fairy tales and classic myths viewed in the prosaic light of fact are regarded as fantastic imaginings, but when we make a closer study of them and seek for the symbolic meaning we find frequently some beautiful truth as the original intention of the tale.

There is a Scandinavian version, "The Princess in the Cave." This story is of a king's daughter hidden in a cavern to escape the dangers of war. With her are buried seven maidens and provisions for seven years.

Related to Isis, the Mother, we know who Cinderella is in the nursery. But deep down in the nursery of time she meant far more.

Little Talks On Poetry

1.—Making Us See

"He that hath eyes to see let him see," that is in a great measure the message of the poet to us. The poet is the great observer, and not only does he see things as they are—objectively—but he sees them in their relation to the soul of man; he sees their spiritual significance.

In saying that the poet sees things we mean it inferred that he has the power to make us see also. Not that he is a mere painter, William Hazlitt, that excellent English critic of a past century in comparing painting with poetry says, "Painting gives the object itself; poetry what it implies. Painting embodies what a thing contains in itself; poetry suggests what exists out of it, in any manner connected with it."

This, then, is the principal reason for the use of word-pictures in poetry, for the frequency with which poets turn to Nature for their illustrations. The concrete picture sets the imagination; it starts the mental process by which we see the thing as it is, and we are made to feel, as if we were actually there, the impressions and experiences "existing out of" and "connected with" the thing pictured.

The poet does not concern himself with the detail of the scientist, or even the idealistic detail of the painter. If he wishes us to see a rose, he does not measure the size of its petals, nor count its stamens—he will use "My love's like a red, red rose," and the complete rose, we must supply the details ourselves.

Mother of Mine

By Lilian Leveridge.

There shines no pearl in the deep, deep sea, Mother of mine, So fair, so rare as your love to me, Mother, mother of mine.

The stars may wane and the sun grow pale, Mother of mine, I know that never your love shall fail, Mother, mother of mine.

My wayward feet in the far-off days, Mother of mine, You led in over the safest ways, Mother, mother of mine.

The sweetest truths that a child may know, Mother of mine, Your voice instilled the long ago, Mother, mother of mine.

You taught me praise and you taught me prayer, Mother of mine, And simple faith and Father's care, Mother, mother of mine.

You bade me rise from the common clod, Mother of mine, To purer heights on the hills of God, Mother, mother of mine.

You taught me love for the finer things, Mother of mine, I drank of joy from the secret springs, Mother, mother of mine.

I've wandered forth in the world afar, Mother of mine, Your truth was ever my Father's star, Mother, mother of mine.

God's loving-kindness each morning is new, Mother of mine, I thank Him most that He gave me you, Mother, mother of mine.

Your children arise and call you best, Mother of mine, Our sweetest treasure, the nearest, best, Mother, mother of mine.

This wreath I weave for your crowning, dear, Mother of mine, God bless you for many a year, Mother, mother of mine.

A storage battery train of three cars, built for a Cuban railway, was recently tested on the Erie Railway, New York.

A new life preserver, which has been invented is attached above the shoulder instead of beneath the arms. It keeps the head out of the water, and fully prevents overbalancing.

The Handyman's Treasure. Popular Mechanics Year Book for 1912 contains 595 articles on easy ways to do very hard things. Nearly every article is illustrated with working drawings and written in clear, simple language, so that anyone can follow the directions.

Romance of the Wishing-House. Once upon a time there was a little, little boy in pinafores, who lived with his father in a big hotel, and never knew the country he was born in.

WITH THE GOSSIPS

What Society Women Read.

A London (Eng.) Journalist has been investigating the reading habits of the society women of the great metropolises of the world. The gist of his discoveries is given here, partly in the words of his informers, and partly from his own comment.

"Breakfast History of Egypt and Prof. Giles' 'Civilization of China'—and, oh, yes, dear Mr. Markino's 'John Bull'—these are the books that are read in the parlors of the East. And then, of course, we read Mr. H. G. Wells. He more than any one else has helped to break down the silly old conventions. I don't want to sound pedantic, but he's such a splendid raconteur. You mustn't sneer too much at society women for being frivolous. Frivol, like everything else, has its good side. It is because we are what you call superficial that our minds are always open to new questions. We've never got a new vision of life, and so we jump about from one thing to another and don't get stogy. That is our advantage. We are not as serious as the provincials, who are nothing but a mass of prejudices. And after all, our frivolity leads us into such serious subjects. Heaps of us read Strindberg's works—I love his 'Confessions of a Soul' for instance.

"Science, popularized and interpreted by Sir Oliver Lodge on the 'Foot of Sir Isaac Newton's Science' from an 'Easy Chair,' always finds a heap of readers. 'And I think you will find we all like Fabre's book on spiders; but, then, all books about animals,' she went on with quaint unconscious humor, 'are delightful. I love Chalmers Mitchell's 'Childhood of Insects' and 'The Life of a Butterfly' by Dugmore, or 'The Life-story of a Hare.'"

"The realist women like novels. They read 'Havelock and Locke,' and at present 'are crazy' over Mason's political novel, 'The Turnstile.' The three Bessons, and Wells, Hichens, Arnold, Benoni, and 'The Unbearable Basington.' 'I am writers who must be read,' she said, 'and I think you will find we all like Fabre's book on spiders; but, then, all books about animals,' she went on with quaint unconscious humor, 'are delightful. I love Chalmers Mitchell's 'Childhood of Insects' and 'The Life of a Butterfly' by Dugmore, or 'The Life-story of a Hare.'"

"The society woman shakes her head when poetry is mentioned. An author is referred to in writing, that they cannot publish a poem of more than twenty or thirty lines, 'no matter how beautiful,' 'no matter how long.' Some of them say never under any circumstances. And most editors are forced to select verse from the standpoint of popularity rather than excellence.

"Third.—Prices paid for the few poems accepted are less than one-tenth, sometimes scarcely one-hundredth, what either painter or sculptor would receive for a work requiring an equal amount of talent and time.

"Fourth.—The poet who makes \$200 a year through his art is fortunate. This he must do in a very few years, and in very remunerative occupations.

"Fifth.—If he or his friends raise money for a book, the poet is fortunate. The poet's books number 321, and biography and literary history 606.

Maurice Hewlett is about to publish a volume of verse entitled, 'Helen Redeemed and Other Poems.' 'The Trial of Mrs. Maybrick,' is the name of the new volume in notable English verse which William Lodge is publishing, and which is edited by H. B. Irving.

What Book Is This?

Weekly Prize Competition.

The accompanying illustration represents a well-known book. Name the book and the author, and describe in a single sentence (not exceeding 75 words) what the book is about. For the best answer received we will give a volume of English classics to be selected by the winner.

There will be ten pictures in the series, one picture will be published each week. No person can win more than one prize. Two weeks from date of publication will be allowed for answers. Address: Literary Editor, Sunday World, Toronto, and mark envelope 'Book Contest.'

It is announced in New York that Richard Strauss, the most-talked-of composer of the present day, will tour this continent next season. His visit will be one of the unique features of the season as his interest will be equal to that of the most devoted opera-lover, literature or to the orchestra. Besides appearing as 'guest conductor' with the leading American orchestras, he will play as an accompanist at recitals of his own songs. It is seven years since Dr. Strauss visited America. In 1905-1906 he appeared in all the great American cities with pronounced success. His three operas, 'Elektra,' 'Die Rosenkavalier' and 'Ariadne auf Naxos' have been since composed and given to the world.

Blessings light on him that first invented sleep! It covers a man all over thoughts and all, like a cloak; it is meat for the hungry, drink for the thirsty, heat for the cold, and cold for the hot. It is the current coin that purchases all the pleasures of the world cheap, and the balance that sets the king and the shepherd, the fool and the wise man even—Cervantes.

MUSIC

Gas House Orchestra Makes Mid-Day Melody

Daughter of J. Pierpont Morgan Takes Players to Opera as Her Guests.

That the great industrial corporations are interesting themselves in music as a means of uplifting the tollers in the industrial domain is illustrated in the plant of the Consolidated Gas Company in the congested east-side, New York, where an orchestra composed entirely of gas workers plays during the noon hour. The superintendent of the company knows every man and woman in the place personally, and he has recently heard several of the men talking about music, and so impressed was he by their knowledge of music and interest in everything musical that the thought of organizing some kind of a musical society came at once into his mind.

Another indication of a revival in poetry is the publication (in Chicago) of a monthly magazine of verse, entitled 'Poetry.' It is offering \$250 in one or two prizes for the best poem or poems written during the year. In order that it may not go the way of many magazine ventures a fund of \$5000 a year, for the magazine, has been pledged by the promoters and supporters of the magazine. It will publish from ten to twenty-five pages of original verse monthly, with several pages of reviews and comment on the progress of the art of poetry in America and Europe. These statements given in its prospectus serve to show the 'status' of poetry in the current literary market.

The popular magazines are printing 'continuously less verse, and rarely verse beyond page-and-length and importance. Their editors blame the public, asserting that there is no demand for poetry. But that is not the case. Poetry has no organ to speak for it, and its public does not know where to find it.

Madame de Pasquali With Schubert Choir

Noted Prima Donna Replaced Tetractini at Great Christmas Eve Festival.

Madame Bernice de Pasquali, the wonderful coloratura prima donna of the Metropolitan, who has been engaged as one of the soloists for the Schubert Choir Festival, in February, was the prima donna at the Christmas Eve celebration in San Francisco. Mme. Pasquali replacing Mme. Tetractini. The call says of her singing: 'Mme. Pasquali, the famous song bird, was the soloist. An audience of 100,000 people was held spellbound with her wonderful singing. Her pure and powerful tones soared over this sea of people. The diva sang the 'Bird Song,' from the 'Pearl of Brazil' and the fine obligato, imitating the nightingale, was played from the tower, 250 feet above the singer. Pasquali sent back her answer in notes as true and high as the flute. Back and forth went the cry and answer—pleading, plaintive and soft, yet so clear that it carried far on the night air.

Pasquali received a great ovation, and is today the idol of California. 'This 'Bird Song' and the 'Christmases' of the Schubert Choir program, in addition to the recitative, 'Ah, fors e' lui' and the lovely cavatina, 'Sempere benedice' from Verdi's 'Traviata,' last time Mme. Pasquali sang the role of Violetta in 'Traviata,' at the Metropolitan and New York Music Club. After the singing of the aria Mme. Pasquali received an ovation, and her beautiful ringing D in 'Sempere benedice' was a revelation to all who recall. No European singer was ever received with greater demonstrations of delight. She will also sing six English songs, in addition to the opera 'Lorelei.' The first subscription lists will close at Massey Hall on Feb. 1.

Strauss to Make American Tour

Composer Signs Contract For Series of Concerts on This Continent.

It is announced in New York that Richard Strauss, the most-talked-of composer of the present day, will tour this continent next season. His visit will be one of the unique features of the season as his interest will be equal to that of the most devoted opera-lover, literature or to the orchestra. Besides appearing as 'guest conductor' with the leading American orchestras, he will play as an accompanist at recitals of his own songs. It is seven years since Dr. Strauss visited America. In 1905-1906 he appeared in all the great American cities with pronounced success. His three operas, 'Elektra,' 'Die Rosenkavalier' and 'Ariadne auf Naxos' have been since composed and given to the world.

Winifred Hicks-Lyne

Concert Soprano and Teacher of Singing. Studied in London, Eng. France and Germany.

Winifred Hicks-Lyne, a young soprano, who has been singing in the Metropolitan Opera House, will play as an accompanist at recitals of her own songs. It is seven years since Dr. Strauss visited America. In 1905-1906 he appeared in all the great American cities with pronounced success. His three operas, 'Elektra,' 'Die Rosenkavalier' and 'Ariadne auf Naxos' have been since composed and given to the world.

ALBERT DOWNING

TENOR. Studio—Nordheimer's.

Philharmonic String Quartet

Open for Concert Engagements. Address: Hambourg Conservatory, 100 Gloucester Street.

Hambourgs Give Last Concert of Season

Final Recital Brings to Close Notable Series of Performances.

The concerts given by the Hambourg Society have been a series of artistic triumphs from beginning to end. The three principals, Miss Grace Smith, pianist; Mr. Jan Hambourg, violinist; and Mr. Boris Hambourg, cellist, have proven themselves worthy of a position among the very best concert artists. Their playing at all times has been characterized by dignity, breadth, delightful finesse and flawless ensemble. The last concert was no exception, in fact as the series progressed there was noticeable a greater unity, oneness of purpose and thought, until the very climax of the perfect ensemble was reached in the Monday night performance. Owing to the illness of Mr. Zusan Caplan, the classical violinist and the Cesar Franck quintet was omitted. This, with the Brahms double concerto for violin and cello, and the Arensky Trio in D Major, made up the concert numbers, all of which were given an excellent rendering, the reception of the last with Prof. Hambourg at the piano, being somewhat in the nature of a sensation. Mr. Jan Hambourg chose as his solo the great Bach Chaconne, in which he revealed remarkable virtuosity and once more established his high rank with the really great violinists. Mr. Boris Hambourg, in a group of solos for cello, was under an inspiration. Never before had he seemed to so completely lose himself in the enchantment of the music as he did at this last concert, when he simply drew the audience under the power of his magic. To the others who contributed so nobly to the success of the series, great praise is also due. Among these assisting were: Mme. Kathryn Innes-Taylor, always a welcome soloist; Miss Edith Fitch, whose singing was much appreciated; the excellent series of concert artists in the orchestra, both well-known and popular; Mr. Zusan Caplan, Broadus Farmer, violinist; Joseph Sheard and Paul Lisak, cellists. As the accompanist for the series, Miss Mary Campbell, is deserving of special mention.

As the accompanist for the series, Miss Mary Campbell, is deserving of special mention. Her playing has always been of the very highest order, sympathetic, unobtrusive, always adding strength and support to the soloist, and as an accompanist to Mr. Boris Hambourg, her playing throughout bespoke the true artist. Toronto as a musical centre has been perceptibly raised by the residence here of the Hambourgs family, and it is hoped they will be able to give us many more of their brilliant recitals in the future.

New Instruments Proved Useless

Boston Symphony Orchestra Attains Perfection by Ceaseless Experiment. That nothing is left undone to get the finest results from the Boston Symphony Orchestra is illustrated by an incident which happened a number of years ago. Mr. Gerick was then conductor of the orchestra, and he got an idea that if the entire string choir had instruments of the same make, he would get a homogeneity of tone such as he had never been able to secure before. The suggestion had only to be made and it was felt that only to a certain celebrated firm of violin makers in Vienna 30 violins, 10 violas, 10 cellos, and 8 double basses. The cost was enormous, and Mr. Gerick's experiment was a complete failure. Many of these instruments are stored away in the loft of the Symphony Hall, Boston, covered with dust; some have been sold to other orchestras, but the money invested in them was practically irretrievably lost. It is, however, experiments of this kind which have made the Boston Symphony Orchestra in the world. If there is a new instrument of popular make, from which better results are expected, that instrument is bought immediately. The store room in Symphony Hall is littered up with new-fangled wood-wind instruments and new-fangled tympani, and the like, which have been purchased and then, on trial, found wanting. No expense has ever been spared, and it is felt that, if one experiment out of a dozen is successful, the expense involved in the failures is more than justified. And it is the same with men. A conductor of an orchestra may know of a certain particularly fine artist in Europe. He informs the management that he wants him, and more often than not the contract is made by cable. All this costs money, but results justify it. The Boston Symphony Orchestra, today, Jan. 18, as an orchestra of a certain particularly fine artist in Europe. He informs the management that he wants him, and more often than not the contract is made by cable. All this costs money, but results justify it. The Boston Symphony Orchestra, today, Jan. 18, as an orchestra of a certain particularly fine artist in Europe. He informs the management that he wants him, and more often than not the contract is made by cable. All this costs money, but results justify it.

Enormous Sale For Eugene Ysaye Event

Violinist a Wonderful Magnet—Features of Symphony Orchestra Program. The announcement of the coming of Eugene Ysaye, the Belgian violinist, has no doubt had some effect on the subscriptions for the Toronto Symphony Orchestra concert on Thursday, the 23rd inst., as the orchestra's program for that evening has been increased. Mr. Ysaye is a wonderful strong magnet to the orchestra, but the largest they have ever had for any single event. That Ysaye is a wonderful strong magnet is beyond doubt, for, without exception, every city he has played in since coming to America in October, has greeted him not only with crowded houses, but the wildest enthusiasm as well. It was previously announced that he would play the Beethoven concerto with the orchestra, but at the request of many of his admirers, he is also booked to give the Violin concerto. Mr. Ysaye, too, is thus experiencing that just appreciation which his dauntless labors merit, for his orchestra has only a few available dates to the end of the season, and this season has eclipsed all previous records in the number of bookings—and not only that—the monetary return from the out-of-town concerts is considerably increasing, as his work and his worth are being realized. For the Symphony program on the 23rd Mr. Ysaye is giving the symphonic poem, "Vitruvius," from the pen of the Bohemian composer, Smetana. This is his first production by the orchestra. He is also repeating Wagner's "Lohengrin," and the Berlioz "Tie-tit," "Dance of the Furies." The plan will open to the public on Monday morning.

Considerable Strik has been caused in town this week by the announcement that Senor Morezo, the tenor, has become a member of the staff of the Hambourg Conservatory of Music, and will at once take up his duties at that institution. Mr. Morezo is Dutch by birth, having been born on the frontier of Holland. His ancestors, however, were Spanish. He is having come to this country after a series of successes both in opera and concert in Italy, France, Germany, and England. He was the tenor soloist with Mary Garden on her extensive tour, and in the States has appeared with marked success at the Pater-Sonne Festival, the New York Hippodrome, the Mozart Society, and various other clubs and social affairs in and about New York. He will be remembered locally as one of the most delightful soloists at the arena. Senor Morezo will teach in English, German, French, Italian and Spanish, all of which languages he speaks fluently. He is a man of wide culture and education.

At the funeral of the late ambassador of the United States to Great Britain, Whiteley Reid, a profoundly impressive musical program was given under the direction of Miles R. Farrow, organist of the Cathedral of St. John the Divine, where the services were held. In addition to the organ prelude and postlude, the Chopin "Funeral March" and the "Dead March" from Handel's "Saul" were given, and the anthem "Ye, Who Walk," from Sullivan's "Light of the World." The hymns were a translation of a Greek canticle beginning "Thou Eternal Bowers," and John W. Chadwick's "It Singeth Low in Every Heart."

Good audiences are still in evidence at the Metropolitan Church organ recitals which are given daily by Mr. Wheelon. In all forty-one organ pieces were played at these noonday recitals last week, a number of original compositions and arrangements from orchestral scores, the final program being the Overture to Zampa, Herold; Capriccio Anghese, Sorbelli; and in F, 1st movement, Silas; Intermezzo, Tschalkowsky; Old English Air, Best; On the Loch, McCumby; Gavotte, Op. 20, Maguire.

John Philip Sousa's latest comic opera, "The Glassblowers," now rehearsing, will have its premiere at New York on Tuesday evening. The opera, which is the work of the composer, is the prima donna of the production.

Leopold Godowsky, the eminent Austrian pianist is giving a series of progressive recitals at the Auditorium in that city, recently.

It is with the consciousness of no hereditary bias that the artistic as well as the financial advantages of the afternoon were ascribed to Mr. McCormack, as contrasted with Mr. McCormack, who gave a recital on the same afternoon. His voice is more beautiful, as well as more powerful, and the evidence of exquisite musical refinement, as well as the liveliest sympathy and responsiveness of the literature he exploited. Irish folk songs is perhaps richer in these qualities than any other music of any other people, and such were the demands of his audience in the matter of repetitions and encores that the presentation accorded it was exceedingly liberal.

Miss Kathleen Farlow, the Canadian violinist was the soloist at a recent concert of the Imperial Russian Society, Moscow. Report says that she played the "Grazzow," very difficult concerto with unflinching beauty of tone, skill and finish. Fresh, sweet and wholesome is every tone of her playing. The influence of her great master, Leopold Auer, was felt in the style and rendering of the works she performed. She was appreciated enthusiastically, and her encores were received with endless applause.

The Toronto String Quartet, Canada's foremost chamber music organization, will give its second concert of the season on Wednesday evening, January 23, in the Conservatory Music Hall. The program will consist of numbers by Beethoven, Grogg, Dvorak, and Raubachner. Individually, the members of this quartet are amongst our leading soloists, and their ensemble work, as a result of several years of intimate and unintermittent association, is of the very highest order. The program chosen is a most attractive one, and the players merit the patronage of all lovers of chamber music.

This Attractive And Useful Design For Needleworkers Can Be Transferred Without Recourse To The Old And Obsolete Tracing Paper Method Which Is Unreliable At Best.

Our Embroidery Design

A Simple Design for Pin Cushion Cover.

Transfer the pattern to sheer lawn preferably the handkerchief quality. Make both sides alike, but embroider the flowers on the top only. To pad the small petals use cotton padding...

BY THE WAY

BY "THE WAIF"

The Star asks, dejectedly, "What is there about the name of Gaby which reminds one of Sam McBride?" Association of ideas, just, dear Star. It is doubtless because we hear from Sam...

The objection, of course, to having sort of bludgeon laws made which may decide that, after a certain thing is not, per se, criminal or even a misdemeanor, it is, in the eyes of the majority, a "naughty" thing, and to be forbidden, is that, practically, in all such cases, the law is made by those to whom that particular "naughtiness" makes no appeal.

little kiddies between nine and fifteen years of age, killed themselves because they had failed in their examinations. The first and probably the likeliest reason to occur to one reading of these wretched little self-murderers, is that they were treated either actively unkindly or under some machine-like, unsympathetic rule.

When I was last in England I occasionally heard men, in railway carriages and places where they talk, discuss Lloyd George and all his works. It appeared to me that only those in most hearty disagreement with every thing he proposed to do, or did or did not, took more than a casual, perfunctory or silent interest in him.

share in the cost of protection of their produce if, and when, afloat, against the warships of any foreign state with which the "Empire" might be engaged in armed argument.

This protest, trumpet-tongued, went forth from Brandon's proud elect.

Quoth he, "Well!" they're a pretty crew. Of that they give me proof.

"Let us lead the world in Peace, These fearsome wars abandon Let hideous strife and turmoil cease."

"We disapprove of battle ships We're strong for arbitration, Peace, If you must build—build cattle ships And glorify the nation."

Some of New York's detectives are occasionally attacked with the idea that the only really efficient way to trap and arrest a criminal is to start in by doing everything that a sensible officer would NOT do.

Doctor: "You must be careful, the influenza is not so very dangerous, but it may have extremely unpleasant consequences."

That Tired Voice Needs prompt attention, lest through neglect you do it a permanent injury.

EVANS' ANTI-SEPTIC THROAT PASTILLES

strengthen and heal the overstrained or inflamed tissues of the throat and give prompt and permanent relief.

FRACTIONAL PARTS.

"That's where it strikes me the hard-est. When ONLY TWO-FIFTHS OF ME AND THE OTHER THREE-FIFTHS OF ME DOES!"

In a matter of such wide substantive import as Canada's contribution to the Empire's navy, one would judge that, in whatever light, politically, any person might regard the Dominion's liability, otherwise to shoulder part of the burden at least such arguments, for and against it, would be advanced, after thought, with honesty.

The Globe takes a different view, which appears to crystallize its general ethical outlook. The sentence is worth studying closely, and, for the sake of applying its principle to other matters of debate, remembering it is this: "A DECISION BY THE LIBERAL PARTY TO PREVENT THE PASSAGE OF THE BILL THROUGH THE COMMONS WOULD THEREFORE UNQUESTIONABLY BE GOOD TACTICS."

Col. Roosevelt seems to have run "party" mad. He has lately issued a statement bordering generally slandering the Republican party.

The Montreal Suffragettes have issued a pathetic little document which starts out: "In order to draw attention to the Quebec marriage law, which must have been framed by a particularly unpleasant imbecile with a strong objection to Women."

It seems an astonishing (the phrase not) thing that The Globe cannot, even in its consideration of a plain plan of concerted Empire-wide, approach it in that spirit:

There have been a considerable number of cases of suicide among Austrian school-children—some of them as young as nine years only. In one school seventeen of these poor

THE CZARINA OF RUSSIA.

This royal lady is now almost a helpless cripple. The inflammation of the nerve substance has increased and so effected the Czarina's limbs that she cannot walk. She is moved from room to room in the palace while recumbent on a couch.

The Waste of the Girl

BACK in the Old Country there came to a Little Girl a Vision of a future in the Land of Promise. Obedient to her Vision she saved and scraped and scrimped thru lean years, barren of all joy, until she had enough for a steerage passage. Also the amount over that the law appears to believe spells SAFETY.

When she arrived the authorities looked her over to see if she had tuberculosis or any other ills or isms. NO ONE SEEMED TO CARE WHETHER OR NOT SHE HAD A SOUL TO LOSE. She passed thru the Gates of Promise unchecked, uncared for—HER FUTURE ALL HER OWN. For the authorities she became as a grain of sand upon the seashore. She fared forth to face alone, UNGUARDED, THE LEAN WOLVES OF VICE WHO GARNER IN THE UNPROTECTED AS FUEL FOR THE PASSION OF THE DEGENERATE.

The girl soon found a job. Sixteen hours a day she labored at it—a heart-sick stranger in a cold-heart house. She was regarded as a little less than a human being—an ignorant foreigner. She was condemned to peer at the Joyous Life of the Land of Promise thru the steam of the wash-tub or the back window of the dingy little kitchen. The Lights and Laughter and Warmth of the fore-part of the house of the woman who drove her thru the weary days became as Hell-echoes in her heart. They drew tears from her weak eyes as she sat munching the scraps of the feast of Dives at the corner of the little table piled high with the debris thereof. They nauseated her unwilling stomach. FOR HAPPINESS IS JUST AS NECESSARY TO DIGESTION AS THE GASTRIC JUICES. Her task finished she dragged her weary limbs to her hard little bed and cried into her pillow until the gray dawn announced the beginning of another Day of Work.

And her Lonely Heart began to crave for some object around which to twine its affections. One came to her in the shape of a Smooth Sneak who peddled milk and his oily pleasantries at the back-doors of the wealthy. The Girl became Sick and Nervous and Distraught. She began to oversleep in the mornings. And broke things. And neglected her duties. One day, in a burst of rage, her mistress turned her into the street without warning. The Girl had been sending her money back to Help an aged Father and Mother in the Old Country. SHE WAS PRACTICALLY PENNILESS WHEN SHE WAS TURNED OUT.

The Girl Dodged in and out of and wasted weary hours in an employment bureau. BUT SHE DID NOT LOOK GOOD TO ANY OF THE WOULD-BE EMPLOYERS. Her lack-lustre eyes, anaemic appearance and flaccid lips all told their own story. BUT SHE STILL LOOKED GOOD TO THE SNEAK. There came a day when she fell an Easy Victim.

WHY TELL THE STORY OF THE NEXT FEW MONTHS? It can be easily mentalized. There came a day when she could no longer hide the physical evidence of her seducer's shame. She believed it to be her own. Down among the filthy tenement rookeries of the city called the Good she found a corner in a house so full of other wretched beings that she could pass unobserved. THE FEW BILLS SHE TENDERED FOR A MONTH'S RENT WERE EXPLANATION ENOUGH FOR THE HAG WHO ACTED AS GO-BETWEEN FOR THE WEALTHY FIEND WHO CRAMMED THIS CEMETERY-FILLER FROM PUTRID BASEMENT TO REEKING ATTIC.

Why try to enter into the mind agony and physical anguish of the Girl in those weeks of WAITING, WAITING, WAITING? Can you who have become a Mother in the midst of Love understand the length of those cold, lonesome days? Can you sense the physical dread, the shudder of those stirrings of the Unborn Babe? Let us draw a veil over the Bitter Moment robbed of its chief palliating Joy—the knowledge of the agonized Beloved, the co-author of the Life about to Be, waiting just beyond the Closed Door of the Solemn Chamber.

A BABE BORN IN THE CITY CALLED THE GOOD, TWENTY CENTURIES AFTER CHRIST, WITHOUT CLOTHES FOR ITS LITTLE LIMBS, WITHOUT FRIENDLY HANDS TO GIVE IT SUCCOR. A MOTHER IN TRAVAIL WITHOUT TENDER HANDS TO WIPE THE DAMP FROM HER BROW OR MOISTEN HER PARCHED LIPS WITH WATER.

But aid came to her thru the Waiting of the Starving Child. Help that Helped Automatically with Reproach and Suspicion in its eye. Within a few weeks the Girl, now no longer Girl, commenced to drag her attenuated limbs from daily task to daily task, a charwoman in the service of Mothers who were Mothers in Wedlock only thru the Grace of God. And they Know. THEY

TOOK PAINS TO LET HER KNOW THAT THEY KNEW.

Meanwhile, the Child Struggled with Existence in a Creche. It began a life graded with mathematical precision. AND THE GIRL CAME TO HATE THE BABE THAT SHE COULD NOT SUCKLE. IT HELD WITHIN ITS FRAIL LITTLE BODY ALL THAT SHE HAD LOST. It was a Miniature Sneak. Then came a time when other women whispered of Another Life. An easy Life. THEY TOLD HER THAT SHE HAD ALL TO GAIN AND NOTHING TO LOSE, AND THE LEAN GRAY WOLVES OF VICE ALSO WHISPERED AND CAJOLED. There was yet a freshness about her that was marketable. Is it any wonder that she Went?

THE ALLOTTED SPAN OF LIFE ON THE WOMAN OF SIN IS FIVE YEARS. THE GIRL LIVED ONLY TWO.

Other Little Girls are looking toward the Land of Promise with the Light of Hope in their eyes. They also will come unchecked and uncared for. Other Sneaks will satiate their Foul Instincts. HOW LONG WILL OUR CARELESS GOVERNMENT continue to POUR ITS VIRGIN OFFERINGS INTO THE MAW OF THE WHITE SLAVER?

Story of Co-operative Movement in Great Britain

THE history of co-operative stores in England dates from 1844 when a store was opened by the poor weavers of Rochdale, near Manchester. Twenty-eight weavers put in \$5 apiece and rented a rickety old warehouse in Toad Lane. Here their common funds laid in a stock of flour, butter, sugar and oatmeal. At the end of the year they divided the modest profits in proportion to the size of each man's account at the store—and the seed had been sown.

From Rochdale the idea spread to Manchester and soon stores sprang up everywhere as fast as workmen realized how much cheaper and more independent it was to take the distribution of the common articles of life into their own hands. The private traders fought bitterly, and organized a boycott by the wholesalers.

In 1863, in the midst of England's cotton famine caused by the American war, the Co-operative Wholesale Society was founded, and from then till now the triumphant progress of the co-operative stores has never been checked.

It will be seen that everything started with the determination of some hard pressed customers to take matters into their own hands and ensure themselves and their families decent food, independent of the treely used

oppression of the capitalist and the trust. It was an archimedean lever by which they controlled the process of distribution to suit themselves. But everything of course, could not be done from the side of retail distribution. The private traders got behind their ramparts with their attack on their sources of production, so the only defense was to start producing themselves.

So today one finds all over England not only these stores where workmen are clubbed together to buy what they need at pretty near cost price and of guaranteed quality, but factories and farms, dairies and workshops, all working in unison in a huge co-operated project to carry the consumers' control over the things he needs straight back thru all the stages of production.

The whole business has grown up to colossal proportions. Besides the great mills in England, there are tea plantations in Ceylon, grain elevators in Canada and plans under way for cotton plantations in British East Africa and Nyassaland.

But the material aspect of the movement, however enormous, is still not at all the most important. It is a deal more significant to read that \$450,000 is spent annually for education and libraries among co-operators than to marvel that they divide up fifty millions a year profit. Of this latter sum, each of the 2,780,000 mem-

bers receives about \$18 a year, but he gets a great deal more than that out of the spirit of the thing.

The co-operators have started three things in England, two of which have now been taken under state control, and the third is fast inclining that way. The common interest and incentive of co-operators founded a free library in Bolton long before anybody felt the need of running these things in the name of the community. Over England, marking the only way to an education for thousands of working men and women. Today they have been bought out by the town councils, but they have rendered a service forever invaluable in first stirring public opinion to some realization of whither common effort was to be directed.

The same thing precisely happened in the case of technical schools. Evening trade schools were set up everywhere by the co-operators as a necessary part of far-seeing co-operative effort. Again the town councils saw the public advantage and the co-operative societies are today relinquishing their hold on technical education with the sure knowledge that they are passing it on to broader public control.

Improved Municipal Administration

In his comprehensive and progressive address Mayor Hocken touched on many points of immediate importance to the citizens of Toronto. He starts his term of office with the very great advantage of intimate acquaintance with the present problems that have to be solved and indeed no mayor has been better equipped in that regard than Mr. Hocken. Then again he has faith in the city and in its progress. A city of a million is not an idle dream of a distant future—it is close at hand and the duty and responsibility of providing for its advent rest with the citizens of today. Fortunately there are signs everywhere that the old village notions which have prevented or retarded really desirable improvements are passing away. The pessimists, the timid who are always shivering with apprehension that Toronto will suffer a change for the worse and from an advancing become a decadent city, are not so prone as they were to prophesy the coming of things of evil. Mayor Hocken looks ahead with hope, confidence and courage. His program is extensive and on lines that will commend themselves to all who have a proper pride of citizenship.

Among the points touched upon by the mayor was the improvement of administration. He thinks it essential that the members of the board of control should specialize in their work—not that one should be placed at the head of each department or interfere with the executive head of the department, but that he should co-operate and confer with the chief officials and enter the council prepared with ample knowledge of the administration of his department and able to explain the official recommendations and fully inform the council with regard to every important project submitted for approval. This is a valuable and thorough practical suggestion that scarcely needs commendation. It is in fact an adaptation of the commission form of civic government that is extending so rapidly in the United States and which rests on the principle of direct personal duty and responsibility. Division of responsibility almost invariably means inefficiency. Mayor Hocken observed that under the present system each member of the board is supposed to give his attention to the whole range of civic administration and that it is physically impossible for any man to cover so wide a range with satisfaction to himself or benefit to those he represents.

Two informing and suggestive articles on the subject of city government are published in the current number of the Queen's Quarterly. One by Mr. William Bennett Munro, author of an able volume on the "Government of American Cities" asks the question "Should Canadian Cities Adopt Commission Government?"—the other by Mr. F. O. Willhoft, deals more generally with municipal government and at some length with the German system. The outstanding feature of both articles is the small part filled by the form of government as compared with the character and personality of the councilmen or commissioners. Speaking of the English system Mr. Munro says that divorced from its own environment it would command scarcely a word in its favor. "There is scarcely a single vice in local government which the letter of its legal provisions does not permit. It is full of anomalies and clumsy survivals. Where any feature of it has been tried elsewhere the result has been almost invariably a disappointment, yet the fact remains that the affairs of English cities are better managed on the whole than those of large municipalities in any other country, not even excepting the German Empire, where there is a very assertive pride in the efficiency of local administration. That is because sound local traditions have been developed and these have determined the course of municipal management."

In England the council is supreme and in its hands are centralized "all the powers and functions of urban government." It is really the parliament of the city and the number of its members is very large, that of Liverpool for example having 136 members. Each of the numerous branches of civic activity, including in the great majority of cases all the public services, gas, electricity, transportation and so on, is controlled by a large standing committee, usually presided over by a man who has served a long term of apprenticeship and thoroughly conversant with the affairs with which it deals. Looking to English experience it cannot be contended that administration by council committees is intrinsically defective. "It is," says Mr. Munro, "used everywhere in the cities of England and the continent; the independent administrative board has no place in any of them. Sometimes the committees are large; sometimes they are made of representatives from three or four different local authorities. But neither their size nor their procedure seem to have proved insuperable obstacles to promptness in the handling of municipal business." Mr. Munro adds that "in the last analysis the whole problem of managing a city's affairs with skill and economy is very largely one of personnel."

In his account of the German system Mr. Willhoft observes that it must be admitted that the Germans have reduced municipal government to a science. The mayor or burgomaster in German cities is a man who has made municipal government his life work and is specially trained for his chosen vocation. "He will probably begin as mayor of a small town and may end his days there if he does not receive a call to a larger place. . . . That such a burgomaster, with a liberal training, an unquestioned social position, a good salary and a pension for life should give good service to a city is not to be wondered at, especially when he is given authority to appoint or discharge the heads of the departments, and is responsible only to the council." Germany has two general systems of city government. "Under one system adapted from the French law, the mayor is the chief executive and at the same time chairman of the board of aldermen; under the other system the mayor and a council together form the executive body. The two systems seem to work equally well." Here again the form is shown to be relatively unimportant. Mr. Munro regrets that in some Canadian cities—Toronto among them—there has been, during the last decade or more, a tendency to move away from the traditional English plan of centralizing all the powers and functions of city government in the hands of the council and to do precisely what most American cities have done without very satisfactory results. In so far as commission government represents in essence a return to the old fashioned English system and departs from the American principle of checks and balances it has Mr. Munro's approval, but if the policy of separating legislative from executive authority is not adopted, the reason for the demand for commission government disappears.

TAKING CHARGE OF THE SCHOOL

Juries and Murderesses

In the whole civilized world during the year 1912 no woman was executed for murder. In fact, there were fewer women convicted than in any previous year and it is now almost impossible to get a jury of men to convict a woman of murder. Wherever there is the slightest opportunity to bring forward the "unwritten law" the defendant escapes the extreme penalty. It was suggested that women should form the jury when one of their sex was the defendant, but all the women defendants who have been asked have stated that they prefer men to be their jury.

In Philadelphia on December 14, Mrs. Freida Hartmann Trost was convicted of the murder of her husband. She was the first woman convicted of murder in 27 years in that city.

Chicago had numerous cases where women were tried for murder, but not a single one was convicted of murder in the first degree. Prominent among the trials were:

Mrs. Louise Vermilyea charged with killing her husband. In this case the jury disagreed, but in the case of Mrs. Florence Bernstein, also charged with killing her husband, the defendant was acquitted as were also Lucille McLeod, accused with killing William Nieman, and Mrs. Minnie Williams, charged with murdering her husband.

In Boston in June a man and a woman were both convicted for the same murder and while the man is to suffer the extreme penalty the woman's sentence has been commuted to life imprisonment.

The old law "A life for a life" thus often defeats its object. Guilty persons go scot free because of the reluctance of many juries to send a woman to the gallows, whereas were there no possibility of the death penalty being inflicted the juries would not hesitate to convict on the evidence.

Linking Up Australia

In November last Lord Denman, governor-general of Australia, turned the first sod of the new transcontinental railroad that will link up Western Australia with South Australia and the other states of the commonwealth. It will shorten the time occupied in the transportation of passengers and mails between the United Kingdom and the eastern states of the island continent by about two and a half days, and will also aid materially as a measure of home defence. In South Australia the line will open up proved mineral districts, and vast areas of fertile pastoral land.

This undertaking is the most important railway work to which the state has committed itself. Its length will be 1063 miles, of which 601 miles will pass through Southern Australia. It is proposed to build the line as far as possible by day labor at an estimated expenditure of a little over \$20,000,000. Very great interest has been taken in the project throughout Australia, and the ceremony was attended by the premiers of the states immediately interested and representatives of the federal and state parliaments.

In his address Mr. King O'Malley, minister of home affairs, mentioned that the sod for the first 16 miles of railway between Sydney and Paramatta ever constructed in Australia was turned on July 3, 1850, but the line was not opened for traffic till Sept. 26, 1855. The commonwealth has now twenty thousand miles of railroad as against 24,000 miles in the United Kingdom. This is something of a feat when it is remembered that Australia's population is even now only four millions and a half, or about a tenth of that of the mother country.

No Tax on Food—Yet.

The decision of the British Unionists to abandon for the time the proposal to tax food does not mean that the party has entirely given up the idea of a preferential arrangement with the colonies. Apparently the view of the majority was that such a radical change in the fiscal system of the mother country should not be brought about without first consulting the people. The question will, therefore, be submitted to the electorate at a general election in the future. The Unionists will be in a better position than formerly for this reason: the food taxers can hope for no preferential duties from the present radical government and those opposed to food taxes will now be free to turn out the present government on other grounds, knowing that the Conservative Government will not impose food taxes without the authority of the people.

Mr. Austin Chamberlain, like his father, is a confirmed food taxer, but he announces that he will remain loyal to the party while still holding the view that a change in the British fiscal system is essential to Great Britain. The acceptance of the ultimatum of the free fooders looks like good party politics on the part of Mr. Bonar Law.

Britain's Telephones.

By the award of the court of arbitration the government of Great Britain will pay to the National Telephone Company of the United Kingdom (a private company) over \$62,576,300 for the transfer of its system to the state.

When the British postoffice inaugurated the government system it made an agreement with the National Telephone Company to take over its lines in 1912 at a valuation. This valuation has just been fixed by the arbitrators.

The National Telephone Company operated all the local exchanges, the trunk lines being owned by the government. The extension of the government system to cover the whole of the National Company's exchanges and into all the rural communities will mean the nationalization of the whole telephone system of Great Britain. It will mean, it is expected, not only a better system all round, but cheaper rates.

Wilson a Progressive

President-elect Woodrow Wilson has indicated definitely in a speech to the presidential electors of his own state that he stands as a Progressive and that he will put only Progressives on guard in the nation. To quote a striking sentence of his address:

"The people of the United States have turned their faces in a definite direction and any man who does not go with them in that direction they will reject, and they ought to reject."

The president-elect thus shows that he is going to carry out the will of the people expressed at the polls on the 5th of last November. We may look for a strong Progressive cabinet and an administration for four years at least that will guarantee the nation a relief from the burdens that the reactionaries of the past have imposed upon it.

Crusts—q—Crumbs

It would be as easy to fill seven columns as two with replies to letters and enquiries, but I can only deal with typical questions, and if any correspondent does not hear at once I must ask him to be patient and in due season he will hear if he faint not. I must first acknowledge Dr. Peebles' letter from Highland Park, Los Angeles. He writes as follows:

"Editor: Crusts and Crumbs—Accept my thanks for the editorial review of 'Reincarnation.' I read the review with interest, admiring your fraternal spirit, and yet I thought that you discussed Dr. Peebles more than you did either the facts or philosophy of Reincarnation. As it is a generally conceded fact that consciousness, intuition, reason and unprejudiced judgment constitute the basic foundation of knowledge; will you kindly inform me if you know Reincarnation to be a truth, or do you hold it as a sort of hypothesis? Again, can you, or will you kindly give me some space in your excellent journal to review your review of this discussion of mine with Dr. Denmore and W. J. Colville? I have been a Theosophist for my organization (sic), pretty much all except the Reincarnation, and Karma theory attached thereto after Madam Blavatsky and Col. Olcott left America for India."

Dr. Peebles thinks I paid more attention to him than to Reincarnation, and its facts and philosophy. Well, I was reviewing Dr. Peebles' pamphlet, and it was his opinions that were under examination, not the facts and philosophy of Reincarnation. I am talking about those nearly all the time. And now he writes me to walk up to the gallows and be beheaded. Is that quite fair? It will be remembered that he has declared in his pamphlet that no one ever believed in Reincarnation who was not laboring under a hallucination, or was the victim of "vague and dreary speculations." He has Moses and the prophets. Why should he wish me to rise from the dead and testify to him that I have lived before? And yet, as he has asked me, I will reply that on the basis of "consciousness, intuition, reason, and unprejudiced judgment" I know Reincarnation to be a truth and I add unhesitatingly to others "as a sort of hypothesis." Dr. Peebles can call me a hallucinated idiot, if he chooses, but that style of discussion does not advance one anywhere. Of course I would be an idiot if I believed anything like what Dr. Peebles says people believe about Reincarnation. The Lord only knows where he and Mrs. Ursula Getefeld got their ideas about Reincarnation. I am forced to suppose they obtained them from spiritualistic sources. At any rate Madam Blavatsky never taught such ideas as Dr. Peebles fathers on Reincarnationists, nor does William Q. Judge, nor Dr. Jerome Anderson, nor Dr. Franz Hartmann, nor Charles Johnston, nor Mrs. Keightley, nor Alexander Fullerston, nor Herbert Coryn, nor D. N. Dunlop, nor Angle Besant, nor William Kingsland, nor Max Heindel, nor A. P. Sinnett, nor Ralph Shirley, nor George R. S. Mead, nor George W. Russell, nor Dr. J. D. Buck, nor Mabel Collins, nor Eustace Miles, nor Ella Adelle Fletcher, nor Walter Old, nor Rudolf Steiner, nor Orlando J. Smith, nor Theodore Pascal, nor Louis Figulier, nor J. W. Brodie-Innes, nor Sir Edwin Arnold, nor Anna Kinford, nor Edmond Holmes, nor any of the other scores of representative writers who have discussed this theme. Just imagine appealing to Crusts and Crumbs after this array!

It was quite clear to me when I reviewed Mrs. Ursula Getefeld's book about fifteen years ago that she knew nothing about the doctrine of Reincarnation. There was no reply to my review. Dr. Peebles so far as my knowledge goes, is in very similar case. Here is an example. He states that Reincarnation and Karma were attached to Theosophy (I presume he means that), after Madam Blavatsky and Col. Olcott left for India. Now, the first book of Madam Blavatsky's, which I read was "Isis Unveiled." It was published in 1877 before Madam Blavatsky went to India. Here are some references to Reincarnation, which were quite plain to me when I, a new student, first read it. There are others, but I never collected them all. Isis, Vol. I, pp. xiii, xxxvi, 8, 51, 98, 179, 251, 277, 298, 302, 303, 307, 315, 316, 323, 324, 346, 348, 349, 351, 357, 368, 388, 487, 488, 489, 491, 512 (which all implies Reincarnation and would be senseless without it), 578, 602; Vol. II, 85, 112, 133, 145, 182-4, 274, 280, 285, 455, 508, 534, 563, 565, 566, etc. Dr. Peebles objects that it came from India. If he can mention any spiritual or philosophic or even spiritualistic idea that did not come from India, his objection might have some weight. As it is simply religious ideas that does not come from India is at once in need of a sponsor. Indian origin is a proof of respectability, just as we boast, if we are able to, that we are born of poor but honest, or rich but not dishonest parents.

Dr. Peebles asks me to give him half my kingdom any week if he will break new ground, and not merely repeat the old objections, to the extent of 600 words. And I hope he won't think, because I mentioned a lot of names, that I am offering Reincarnation on authority, for I am not. These writers give their views on the subject, and I mention them because I never found in their pages any such distorted ideas as Dr. Peebles and Mrs. Getefeld have got hold of. I think it would be well if Dr. Peebles read Orlando J. Smith's "Short View of Great Questions," or "Reincarnation and Christianity," or "A Gleaner of the Church of England," or some other non-Theosophical study of the question. It will help to disperse the mind of the evident bigoted and prejudiced sky or some 10, as the Madam Blavatsky or some 10, other modern period has invented the idea, while it is as old as life itself, and Proteus should be his warrant. Suppose the idea is current in India, then why not read Vivekananda or Abhedananda, or Rama Prasad on the subject, to mention only one or two of the many who have written upon it? Dr. Peebles does not do himself justice by taking the view of Reincarnation, which puts his pamphlet in the same class as Mrs. Getefeld's absurd volume.

L. Miles writes to say that he has heard persons talk to him after death, and recognized their voices. "One expressed an opinion directly opposite to my belief," he remarks, "for spirits vary in their opinion the same as we do here." I should fancy that the more evidence was available, the more difficult it is for some people to make up their minds, either here or hereafter. I have heard of judges who keep back their decisions for months, being unable to decide upon the evidence given them. I know people who are the more undecided the more they read or hear, and I have some acquaintances who have been asking me the same questions for twenty years, and who still have a much higher respect for their question than for any answer they have had during that time. I am not saying they should have accepted my answers, but I do say that a man who cannot get an answer to his question in twenty years must have a powerful lot of darkness inside him, or else be more concerned about putting questions than about getting answers. My correspondent writes: "I dreamed I found my diamond on Yonge street, I thought sure I had it in my pocket. I looked, and lo! it was not there. I went to Yonge street and found it within ten or twelve inches, where I saw it in my dream." Some people will declare this to be a remarkable coincidence. Others will declare the thing never happened, that Crusts and Crumbs has fallen for a plant. Others will talk about subliminal consciousness. Others again will assert that the soul knows, and can express a sensitive brain in ways otherwise with the knowledge that is of importance, or at least of interest, to it. Some correspondents also say "that no life can be without a nourishing support," and that, therefore, "a spirit must hustle for his grub."

Of course this last view is the result of a partial knowledge of what life is. One man has to eat five meals a day in order to satisfy himself that he is living. Another, perhaps, can comfortably on two. Various orders of ascetics can get along on one meal a week, or less. It is beginning to be recognized that there are other sources of vitality, if not of nutrition, than food. The breath is a rich life-giver, and we probably derive more of the vital principle from our breathing than from our eating. Life, one learns, is of different orders. There is one life of the lobster and another of the goat. And still another of the wise man, all depends upon what one means by life, whether it needs such "nourishing support" as our correspondent seems to think. Life is recognizable by the creation, preservation and maintenance of form. But form is as wide in its range as the universe. Some forms in the mineral kingdom, crystals, and such elemental life need no food. The vegetable cell does not apparently work for a living, but sustains itself on the material around it. The crystal maintains its form for millions of years if undisturbed, and who can say enjoy during its millenniums of cosmic endurance. Some people seem to think that the power to move about freely to facilitate this we should be able to pick up a living anywhere. This is the true, warm ideal, and the basis of the judgment passed upon humanity as miserable worms. The worm is a highly useful creature. It consumes chiefly of an elementary canal, through which it passes clay and its excrement, with the result of forming loam for the farmer. It is worth some 10 cents a pound, and the world would be much poorer if it were not so. We are simply most of us elementary canals with little other purpose than the production of new forms of matter, new chemical elements, according to the intelligence we bring to bear upon our vital processes. But the more advanced we are intelligently and spiritually the less of this transmutation we pass on from the lower levels of life.

Advertisements on the right side of the page, including 'Crusts - q - Crumbs' and 'Doct...'. The 'Crusts - q - Crumbs' ad is a large, stylized advertisement for a publication or service, featuring the title in a decorative font and a small illustration of a person. Below it, there are several smaller advertisements, including one for 'Doct...' and another for 'Public A... Smellin...'. The text is partially obscured and difficult to read in many places.

Dropping the Food Taxes

Why the Unionist Leaders Have Modified Their Tariff Policy.

BY JOHN FOSTER FRASER

LONDON, Jan. 28.—I wish so many Unionists would not lose their heads and begin running round like a lot of frightened hens the instant there is a difference of opinion as to the means by which an agreed policy should be brought into practice.

All sections are at one that legislative machinery should be devised to provide that as competitive foreign nations levy a toll on British goods entering their markets, we should impose a small toll on foreign goods coming into this land, and that a system should be devised whereby the various nations within the British Empire should have a preference in their markets for goods produced in their own countries. It is not that we should have a preference in our markets for a small duty being imposed on wheat grown outside the empire.

Not a Heavy Burden.

At first there was a pledge that the duty would be so infinitesimal that the poorest family in the land would not be burdened more than a penny a week. The Liberals at once raised the cry that the Tory party had been misled to imposing a tax on bread, and that it was a heavy burden on the shoulders of the poor.

A later pledge given by the Unionist leaders was that the price of bread would not increase in the price of bread notwithstanding the duty. This was not a heavy burden.

Doctors Condemn Oily Liniments

Public Are Warned Against Strong-Smelling, Oily Liniments Containing Harmful Acids and Ammonia.

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say that a thick liniment can't penetrate, can't sink through the pores and reach the seat of the pain.

Recently a number of these white, oily liniments were analyzed, and the results showed that they contained an enormous percentage of harmful acids, and such irritating chemicals as ammonia. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, sets up inflammation, and causes needless trouble.

GLADSTONE ADDRESS SWAYED COMMONS

Interesting Figure in British Parliament is Grandson of Former Great Liberal Leader.

WESTMINSTER, Jan. 28.—One of the most interesting figures in the present parliament is that of the new member for Kilmarnock Burghs, W. G. C. Gladstone. He has only been a few weeks in the house, and yet he is credited with having done something which has been done so seldom that the practical impossibility of it has come to be regarded as a parliamentary superstition.

More than half a century ago Macaulay succeeded in changing the opinion of the house by a single speech. That change, however, was effected over a question, the Copyright Act, which was not a burning one politically, and Macaulay was one of the leading Englishmen of his day, with a great parliamentary, political and literary reputation. Mr. Gladstone, standing up a week or so ago in the House of Commons, in which party spirit has developed to a most regrettable extent, succeeded in reducing the normal government majority to a perilous extent, on a burning political issue.

PRINCESS PATRICIA OF CONNAUGHT. This beautiful daughter of the Duke and Duchess of Connaught had planned a visit with her parents to New York to be entertained by ten hostesses. But the illness of the Duchess has postponed the visit. The names of the ten prospective hostesses are at present an interesting society mystery.

Let us, as dispassionately as we can, consider the course of events. Mr. Chamberlain's proposal was made following his visit to South Africa. The colonies did good work during that war. But if you read Mr. Chamberlain's speeches on his return from South Africa you will find in them a note of disappointment in the fact that the path of safety was a local, parochial spirit rather than a spirit of imperialism. He recognized, as others had recognized before him, that as the Britons born across the seas became further removed in immediate kinship from the mother-country, there would grow up a national spirit which might eventually in national independence. That would have been bad for us. He was imbued with a tremendous enthusiasm, which he communicated to his fellow-countrymen. He recognized, as others had recognized before him, that as the Britons born across the seas became further removed in immediate kinship from the mother-country, there would grow up a national spirit which might eventually in national independence. That would have been bad for us. He was imbued with a tremendous enthusiasm, which he communicated to his fellow-countrymen.

What We Owe Germany.

The world has been moving rapidly in the last few years. A new, often, which can have no other purpose than challenging our supremacy on the continent. What we owe Germany is not a matter of sentiment, but a matter of fact. The growth of imperialism in the empire. Slowly, steadily, but surely, the dominions have come to see, that if in a great naval conflict with our neighbors across the sea, we were to be defeated it would be a day for them.

Take Australia as an Instance.

Any one who has studied public opinion in Australia, apart from pleasant things said by Australian visitors to our shores, knows that there was an increasing sentiment that the less Australia had to do with Great Britain the better. The way had not to be cleared. It is being cleared, but it is regrettable that some Unionists, instead of quietly thinking the matter out, seemed inclined to abuse each other for taking the wrong course.

Story of Co-operative Movement in Great Britain

Continued From Page 1 Editorial Section.

The venture now in its evolutionary stage is a far more vital matter than either of these—the business of housing. Here again the co-operative effort has been amazingly effective. Upwards of 35,000 houses are now owned by co-operators themselves or leased from their societies to the system pursued. All the "garden city" and municipal housing projects have sprung from the co-operative movement. There are now over 100,000 houses are the direct fruits of some sort of communal effort.

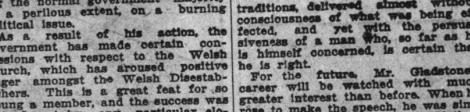

The foraging into the future seems to be the mission of co-operative pioneers. The spirit of accumulated experience pervading the whole movement is the most quickening agency among Englishmen today for better and fairer industrial conditions. There is real enterprise here which even the sceptic from Missouri can recognize and appreciate.

traditions, delivered almost without consciousness of what was being effected, and yet with the persuasiveness of a man who, so far as he is himself concerned, is certain that he is right.

For the future, Mr. Gladstone's career will be watched with much greater interest than before. When he rose to make the speech, he was simply the grandson of his grandfather. When he sat down he was a man whose promise of that speech, was destined to make his mark in the house.

The Merry Countess Is Charming Comedy

Strauss Melody "The Blue Danube" included in Musical Hit Coming to Alexandra.

"The Merry Countess" mounted and with the entire original cast and ensemble direct from the historic Casino Theatre, New York, comes to the Alexandra Theatre week of January 27. "The Merry Countess" enjoyed the most successful run of any musical comedy produced in the metropolis during the season and was repeatedly taken up by Gotham's smartest society. It will be recalled that the stamp of unqualified approval upon the production when they paid a fabulous sum to have the comedy performed at their Newport home for the exclusive edification of their wealthy friends and guests.

The score of "The Merry Countess" is conceded to be the most striking school ever launched in this country. It contains that charming melody "The Beautiful Blue Danube" and many other immortal Strauss measures that have gladdened the hearts of young and old for two scores of years or more. In order that the most intoxicating music might be fittingly interpreted, a veritable army of eleven Dolly Sisters and Martin Brown, and Lyssa Graham, all of the highest calibre from the Lyric Theatre, London, were imported with the result that the ensemble of the production is well nigh incomparable.

The cast includes Joe Collins, Maurice Parkes, Fritzie von Busch, Forrest Huff, A. W. Esauvich, Gladstone, Tom A. Shala, Mabel Burgess, Frank Ross, Frank Farrington, George Lyman, Rex Fenner and many others. In addition to this formidable original chorus of bewitching beauties from the foremost concert of the fashionable metropolis are

HOME-MADE ELECTRIC FOOT WARMER

How to Make it.

In response to several enquiries with regard to an electric foot-warmer which I mentioned in replying to a reader's query on the subject of dynamo lighting equipments, I have pleasure in giving details of this little device.

is now found, and the wiring started from the centre of the plate and connected to each end. This is easier than starting from one end and wiring to the other.

The electric foot-warmer, on the contrary, requires no preliminary heating; it can be put into operation in a second, and when heated up it maintains a constant temperature.

A simpler but not so effective way to wire the slab is to cut little slots along the edges of the slab at intervals of 1/4 in. and wind the wire round the slab. Wound in this fashion, the plate will take longer time to warm up, as the wires are equally divided between front and back, the terminals being at the extreme corners, and the plate must be covered before the flex is attached, otherwise there is danger of short-circuiting and consequent damage to the battery.

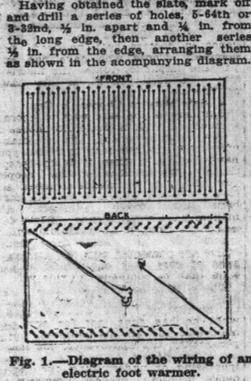

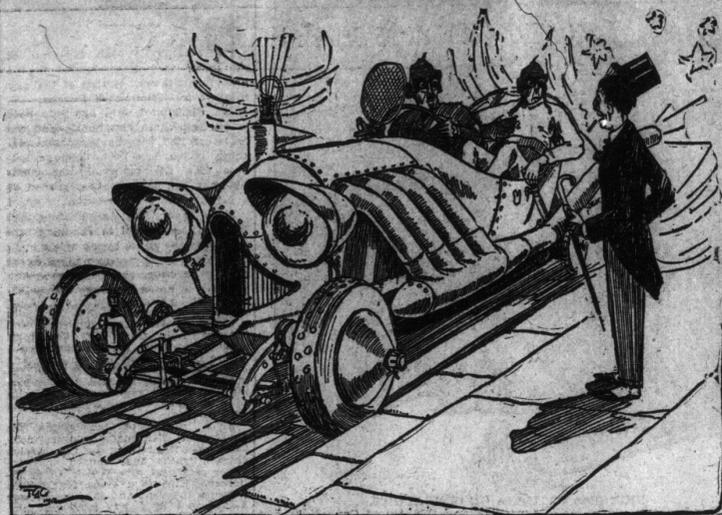

Fig. 1.—Diagram of the wiring of an electric foot warmer. They may, of course, be drilled all in line, but if arranged as shown there is less tendency for the plate to break along the edge.

Fig. 2.—The home-made electric foot-warmer in its felt casing. The flex and plug are seen attached.

The materials required for its construction are easily procured, and consist of a slab of slate 10 in. x 4 in. x 1/4 in., about 23 ft. of galvanized wire 20 gauge, a yard or so of stout double flexible electric cable commonly known as "radiator flex," common cheese-cloth 1/4 in. long, screwed 1/4 Whitworth.

"DEAR LORD! IT HATH A FIENDISH LOOK!"—COLERIDGE. —Auto Car.

SUNBEAM MAY RACE AT INDIANAPOLIS

Famous English Car With French Pilot May Come For Big Meet.

INDIANAPOLIS, Ind., Jan. 18.—The presence of the famous French driver, Guyot, seated at the wheel of the famous Sunbeam racer, the English car which until recently held the records for the Brooklands track, made on the 500-mile race to be run at the Indianapolis Motor Speedway, Memorial Day.

Electric Starters

The automobile show of 1912 was a "self-starter" show. That is agreed. In a year the desire for any kind of a starter has crystallized into a demand definitely for electric self-starting and lighting. That is the "key-note" of the 1913 show.

A New Type of Auto Salesman

The automobile salesman we once knew was chiefly distinguished by his capacity for "standing the racket," his ability to go without sleep and his intimate acquaintance with head waiters and night policemen.

A CONDUCTOR'S OPINION.

Auto Editor, Sunday World: As a conductor on the Street Railway, I also have read with interest the correspondence that has appeared dealing with Toronto traffic.

The Cost of War

LONDON, Jan. 18.—An interesting compilation of the cost of the war in the near east is given in the current number of The Economist.

Motoring Fashions and Fancies

Angora soft caps, scarfs and jackets come in sets to match, and are quite popular with young girls. The jackets are Norfolk model, and the hats are the "Tama," with pompons.

LOTORBOATING

REVIEW OF NEW YORK SHOW

Interesting Discussion of 1913 Cars and Accessories

The big New York Motor Show is at present in full blast. A New York motoring writer gives the following interesting review of the exhibition:

The saying that pleasure cars have at length been standardized is so true as to be almost trite. So much thought so much study by engineers of the highest ability and, finally, so much money have been expended to perfect the modern "common carrier" that the day of the startling or radical innovation may safely be said to have passed. Revolutionary changes, such as that which substituted the shaft and bevel gear for the chain as a general medium of power transmission, are not to be expected. The era of minor adjustments to meet conditions determined by experience has arrived. It is a period of refinement.

"Freak" Features Absent

When the Supreme Court of the United States proclaimed the rule of certain reasons in the disposition of certain famous trust cases it did not establish a monopoly. The courts have no corner on "freak" features. It is a vital factor in the automobile world and plainly evident in the present show. Hence the "freak" features, the "quirks" and "idiosyncrasies" of the minority, are conspicuous by their absence. In other words the effort of the designer for the year to come has not been directed toward a sensation or a tour de force, but rather toward the further development of a product already in a high state of perfection and efficiency.

In spite of these basic facts, there are a number of specific tendencies of motor car construction and design which mark the show of 1913. Some of these are of a general nature, others are of a specific nature, and some are of a particular nature. The most noticeable of these are:

1. The "Freak" Features Absent. As mentioned above, the "quirks" and "idiosyncrasies" of the minority are conspicuous by their absence. In other words the effort of the designer for the year to come has not been directed toward a sensation or a tour de force, but rather toward the further development of a product already in a high state of perfection and efficiency.

MODERN METHODS IN HANDLING COAL

PHOTOGRAPH SHOWING HOW THE KNOX MARTIN TRACTOR IS USED WITH INTERCHANGEABLE BODIES, ENABLING THE TRACTOR TO BE KEPT CONSTANTLY AT WORK WITH A HIGH EARNESTING CAPACITY.

Important British cars have been equipped, at least optionally, with this form of running gear, and some of the most famous of them are expected to follow suit. One potent objection to the innovation is likely to be that it is a costly repair. If a wooden wheel breaks or loses a spoke, in nine cases out of ten it can be repaired at the nearest wheelwright's. With the modern wire wheel which is possible to be said, but the present steel wheel presents a more difficult problem for tinkering, and a break usually means a trip to the factory. Designers of last year, and created a great deal of interest at the show. A foreign time it is a large and a possible radical improvement, but neither in this country nor abroad has it increased greatly in favor, and it finds a crucial point in the present year. One at least of the high class trucks makes use of this form of drive, but those who represent other makes say that it has retrogressed in public estimation, and is not likely to be an important factor in the season that lies ahead.

On the other hand, the system of four-speed transmission, which is not a novelty by any means, but which has been specified by many of the exhibitors of 1912, appears to be gradually gaining more adherents in the ranks of automobilists. Four speeds are undoubtedly better than three, if the ratios between the various speeds are correct. This is in question, and mistakes in this regard have led many to misjudge the advantages of the extra speed. The principle of transmission is now on the gain in America.

This problem of number of speeds is closely allied with that of number of cylinders. Flexibility can be attained both by dropping back from fourth to third speed, and by the employment of a six-cylinder engine. This is plainly a premium on flexibility among American manufacturers, and the public which absorbs it, already mentioned, are being employed. There are certain advantages which inhere in each. Thus a four-cylinder engine, broadly speaking, will show a good deal of flexibility when fitted with four-speed trans-

mission, and will show a high degree of carburetion in addition. In the last named regard and in speed the four-cylinder motor has the advantage of the six. The six, however, carries over the flexibility point. American road conditions are in that respect, and it is a great measure responsible for the constantly increasing favor of the six-cylinder motor. Its flexible character is especially appreciated on roads where bumps and "thank-you-maams" are frequent and familiar factors. A surface of this nature means that the brakes must be frequently applied, and progress is often a succession of startings-up and slowings-down rather than the smooth glide without touch of gear or brake which is possible on countless long stretches in Europe. It is in this constantly variable progress that the six-cylinder shines, and it deserves for this reason the growing esteem in which it is held. Six-cylinder cars are in the majority of the leading makes, and showing at least one chassis fitted with this type of engine. The Henderson, largely the handiwork of Mr. Ricker.

He continues as a stockholder, and in an advisory capacity as a member of the board of engineers of the Henderson Motor Car Company. In commenting on his proposed change Mr. Ricker explained that his connection with the Henderson company in the first place was largely due to his intimacy with "the Henderson" and the opportunity afforded to design a popular priced car embodying the features that the trend of the automobile trade.

That Ricker and the Hendersons have succeeded in the now well-known fact that many of the innovations of the Henderson car are included in the list of dominating new features of the New York show. Prominent among these are: Electric start, long stroke "en bloc" motor, desirable wheels, left drive, single lever centre control, cowd dash, gas tank under cowl, spring suspension, and proper distribution of weight, car fitting.

Henderson Changes

Chester S. Ricker, chief engineer of the Henderson Motor Car Company, Indianapolis, designer of the Henderson car, having completed his work in connection with the installation of electric starter on the Henderson car, has resigned his position with that company to take effect Feb. 1.

In connection with this announcement comes the further interesting news that the six cylinder Henderson model will make its appearance in the near future, carrying a motor of approximately 40 horsepower. The Henderson car is being designed by the handiwork of Mr. Ricker.

He continues as a stockholder, and in an advisory capacity as a member of the board of engineers of the Henderson Motor Car Company. In commenting on his proposed change Mr. Ricker explained that his connection with the Henderson company in the first place was largely due to his intimacy with "the Henderson" and the opportunity afforded to design a popular priced car embodying the features that the trend of the automobile trade.

CARELESS PEDESTRIANS

In his annual report, Chief of Police Kohler of Cleveland gives considerable amount of space to the discussion of the traffic problem. In regard to pedestrians he has the following to say. It is a hopeful sign that the custom of placing the blame for all street troubles on the motorists is gradually falling into disuse.

While it must be admitted that the drivers of a great number of vehicles, being human, are prone to mistakes and carelessness, close observation teaches that by far the greater amount of carelessness and recklessness is displayed by the multitude of pedestrians, who are compelled to cross and recross the public thoroughfares. The fact that more persons are not seriously injured or killed daily is a matter of surprise to those who are supervising the regulation of street traffic. The officials upon whom the public places the responsibility of caring for careless and reckless pedestrians and drivers, as a rule, fail to receive the moral support necessary in cases of this character, and some clubs and other organizations have seen fit to encourage recklessness by criticising the efforts of the officials and defending those whose reckless acts has made arrests necessary. To this and the leniency shown in the cases of drivers responsible for reckless driving or injury or death can be attributed more accidents than any other cause.

HOW TO CHOOSE A CAR

Overconfidence is one's judgment and the natural proneness to rely upon the recommendations of others, without regard to their ability of experience, are responsible for many unfortunate automobile purchases. Therefore let us deliberately consider the influences and emotions expressed in the purchase of a motor car. Your friends all have their favorite cars. Those who have never owned an automobile but who have seen them in advertisements and hearsay for their knowledge, have their favorites.

Some owners are trading or selling their old cars this year for new ones. Some will go back to the makers of their old car for newer models. Some will buy a car with another car of the same make as their old car. Yet these two types of buyers have owned precisely the same cars. It is responsible for such contrary opinions.

Such things shake one's confidence with regard to the make of any automobile. It reflects the viewpoint of the individual, and does not indicate the quality of the car.

The motorist has read the catalogues. From his own viewpoint, he has interpreted the meanings as he understands them. He has heard what his friends have to say. He has been around to the salesmen of the Indianapolis, designer of the Henderson car, having completed his work in connection with the installation of electric starter on the Henderson car, has resigned his position with that company to take effect Feb. 1.

In connection with this announcement comes the further interesting news that the six cylinder Henderson model will make its appearance in the near future, carrying a motor of approximately 40 horsepower. The Henderson car is being designed by the handiwork of Mr. Ricker.

He continues as a stockholder, and in an advisory capacity as a member of the board of engineers of the Henderson Motor Car Company. Madame Nazimova In "Bella Donna"

Distinguished Russian Actress at Princess Theatre This Week.

The most sensational success of the present season in New York City has been unquestionably scored by Madame Nazimova, in "Bella Donna," the big four-act play which James Bernard Fagan has made out of the novel of Robert Hitchens. Not only is "Bella Donna" said to be a big play, but the role of Mrs. Chepstow is said to afford Madame Nazimova with the greatest opportunities this distinguished Russian actress has had since she made her first appearance in the English language.

Mrs. Nazimova, as Mrs. Chepstow, in "Bella Donna," at the Princess Theatre this week.

This Week at the Theatres

PRINCESS—"BELLA DONNA." ROYAL ALEXANDRA—"ROYAL ALEXANDRA." GRAND—"WAY DOWN EAST." SHEA'S—"VAUDEVILLE." STAR—"TIGER LILIES." GAYETY—"WINNING WIDOWS." STRAND—"PHOTO PLAYS, SINGING AND MUSICAL NOVELTIES." GARDEN THEATRE—"MOVING PICTURES."

As Othello

As Hamlet

Robert B. Mantell at Alexandra Theatre

Celebrated American Actor Opens a Shakspearean Festival Tomorrow.

Robert B. Mantell, the only actor now on the American stage preserving the great traditions of the long line of distinguished tragedians, which include Forest, McCullough, Booth and Mansfield, and the only one who has had the courage in recent years to attempt such formidable roles as "Richard III," "Othello," and "Hamlet," will open a week's engagement at the Alexandra Theatre Monday evening with a performance of "Hamlet." During the course of his engagement, Mr. Mantell will be seen in one of his great Shakspearean roles and the Richelieu of Sir Edward Bulwer Lytton, the one creation of modern English drama, considered worthy of a place beside the heroes of Shakspeare.

NOTICE

See the Huge Display "Ad" for the Grand Opera House on Last Page of Illustrated Section

"Way Down East" Always Welcome

Famous Rural Classic the Offering at the Grand Opera House All This Week.

"Way Down East," with its pretty story and quaint characters of New England life, will be the attraction at the Grand this week, with the usual Wednesday and Saturday matinees. Playgoers who have seen the play will undoubtedly gladly renew their acquaintance with Squire Bartlett, who believes in living according to the scriptures, motherly Mrs. Bartlett, the squire's wife, Anna Moore, who was more sinned against than sinning, David Bartlett, the squire's sturdy son, Kate Brewster, the

The Drums of Oude At Shea's Theatre

Powerful One-Act Play of Indian Mutiny Heads the Bill This Week.

Heading the bill at Shea's Theatre this week will be the most important dramatic production in vancouver, David Belasco presents for the first time in America "The Drums of Oude," a powerful one-act play of English life in India during the Sepoy Mutiny, or, as better known, the Indian Mutiny of 1857. The tabloid drama is by Austin Strong, and the scene is laid in the tower of an ancient palace in India, where a handful of English soldiers, with the women and children, have bestowed themselves and prepared for the coming of the Sepoys. Under the floor of this tower-room is the secret powder magazine, with 40 tons of explosive. To obtain this is the purpose of the mutineers, who are in possession of the city a few miles away. The Sepoys had taken advantage of the absence of the regiment usually stationed at this location. Unless the regiment return in time to blow up the powder and thus save the women and the children from the awful fate of falling into the hands of the mutineers. A love story finds its way into the tower. Mrs. Jack Claryton, a widow, comes to be with her young son, a young boy, who is the son of the late Major Claryton. The scene is lit and the fire creeps closer and closer to the powder magazine, when the bag-pipers are heard in the distance and the happy ending of the story is one of the most powerfully dramatic moments ever seen on the stage. Belasco has made this production with his usual care. In the cast are E. J. Radcliffe, Jack Standing and Eleanor Scott L'Etelle.

On the same bill Manager Shea has secured Ben Deeley and company, assisted by Marie Wayne, in "The New Bell Boy." Mr. Deeley is the writer of many song hits and is a favorite with Sheagoers. Miss Wayne is dainty and pretty, and capably assists Mr. Deeley with Enamel Erico. Mosher, Hayes and Mosher have not been seen by Sheagoers since their European success, and come here direct from the Alhambra, London. Harry Puck and Maybelle Lewis are nimble-footed singers, with new songs and dances, and Madge Mastland, a singing comedienne, will be seen here for the first time. One of the special attractions on the bill is the "Act of Makeup," Mr. Mantell's Othello, which is a starting character, showing his extraordinary accomplishments in the art of makeup. Mr. Mantell's Othello is considered the finest that has been done in the English-speaking stage in many years, while his Richard III is his masterpiece, rivaling his "King Hamlet," which is generally so regarded. Hamlet is a pet role with Mr. Mantell, as with most actors who have played it. The Dana is always elusive and keeps challenging an actor to better and better work. Hamlet was the first role in which Mr. Mantell began seeking his fortune as a Shakspearean star after he had decided to abandon romantic roles, and this fact lends additional charm to the character for him. Mr. Mantell's Shylock is considered by William Winter, dean of American dramatic critics, the best now visible on the stage in this country. Robinson Locke, the veteran Toledo critic, who remembers the acting of the old giants of American tragedy, recently observed that Mr. Mantell's exit after the trial scene was the best piece of tragic acting he could recall. In addition to Othello, Shylock, Hamlet and Richard III, Mr. Mantell will present King Lear, Macbeth and Richelieu during his Toronto engagement.

"Winning Widows" At Gayety Theatre

Something New and Novel in Burlesque Promised For This Week.

One in search of something new and novel in the fun line, would do well to go and see the musical burlesque, "The Winning Widows," written by Frank Kennedy and Paul Eubank, which is to be the next attraction at the popular play house, the Gayety Theatre, commencing next Monday matinee. "The Winning Widows" contains more than the usual quota of features, novelties and light

SCENE FROM THE GREAT PASTORAL PLAY "WAY DOWN EAST," AT THE GRAND THIS WEEK.

Famous Critics on Robert B. Mantell

All Consider Him the Finest Shakspearean Actor in America.

Othello, Shylock, Hamlet and Richard III are four of the great characters in a repertoire of seven which Robert B. Mantell will present at the Royal Alexandra Theatre this week. The two heaviest of these, Othello and Richard III, belong to Mr. Mantell exclusively in America today. For their interpretation they require a tragic power which Mr. Mantell alone of modern American actors seems to have developed to a high degree. The physical contrast between Othello and Richard III is a striking one. Othello is of a great, heroic physique, while Richard is comparatively small and deformed. The transformation of Mr. Mantell from the one to the other is a starting character, showing his extraordinary accomplishments in the art of makeup. Mr. Mantell's Othello is considered the finest that has been done in the English-speaking stage in many years, while his Richard III is his masterpiece, rivaling his "King Hamlet," which is generally so regarded. Hamlet is a pet role with Mr. Mantell, as with most actors who have played it. The Dana is always elusive and keeps challenging an actor to better and better work. Hamlet was the first role in which Mr. Mantell began seeking his fortune as a Shakspearean star after he had decided to abandon romantic roles, and this fact lends additional charm to the character for him. Mr. Mantell's Shylock is considered by William Winter, dean of American dramatic critics, the best now visible on the stage in this country. Robinson Locke, the veteran Toledo critic, who remembers the acting of the old giants of American tragedy, recently observed that Mr. Mantell's exit after the trial scene was the best piece of tragic acting he could recall. In addition to Othello, Shylock, Hamlet and Richard III, Mr. Mantell will present King Lear, Macbeth and Richelieu during his Toronto engagement.

Sheehan Grand Opera Company

Leading Tenor of "Madame Butterfly" Will Head Artists Coming to Princess.

One of the most interesting announcements of the New Year is the coming to the Princess Theatre of Joseph F. Sheehan at the head of his own organization of operatic stars for the week of Jan. 27.

It is safe to say that there is no more popular artist before the American public today than Mr. Sheehan, and his host of friends in this city, who remember him as leading tenor of Henry W. Savage's company, will hail with delight the opportunity of once more hearing him. It seems strange that during the five years which Mr. Sheehan has headed his own company—which is proclaimed by press and public to be the finest organization presenting English opera in this country—that he has never before been heard in this city, where he has so many friends and admirers.

To those who remember Mr. Sheehan as leading tenor and star of "Madame Butterfly," also the annual visits of the Savage Grand Opera Company, there is no need to eulogize Mr. Sheehan. To those who have never had the pleasure of hearing his marvelous voice, there is a rare treat in store.

Mr. Sheehan has created practical English opera in this country, including Lieutenant Pinkerton in "Madame Butterfly," Othello, Rudolph in "Bohème," and others too numerous to mention, many of which he has been heard in by music lovers in this city.

The operas for the coming engagement will include the most popular operas in the company's repertoire, as follows: Monday, "The Love Tales of Hoffman"; Tuesday and Saturday nights, "The Love Tales of Hoffman"; Wednesday and Saturday matinees, "The Bohemian Girl"; Thursday evening, "The Chimes of Normandy."

Yeomen of the Guard At Royal Alexandra

Under the Auspices of the Daughters of the Empire a Sumptuous Production Will Be Given.

The Columbia Conservatory of Music has engaged the Royal Alexandra Theatre for the week of April 14, for the production of Sullivan's beautiful opera, "Yeomen of the Guard." The principal roles will be sung by 15 of our best local artists, in addition to which there will be a chorus of 85 well-trained voices and an orchestra of 30, under Mr. Alfred Bruce. The staging of the opera is in the hands of Messrs. Stanley Adams, who has had extensive experience in this class of work in Europe and England, and A. T. Pike, who is well known locally for his ability in this line. The performances will be given every evening throughout the week, and every evening the production is given under the patronage of the Daughters of the Empire, and the proceeds will be handed over to the scheme for the alleviation of consumptive and for the obliteration of the dread disease. No pains or expense are being spared in making these performances notable. Costumes and stage settings will be the best procurable, and with almost nightly rehearsals from now until April, a high-class performance may be confidently looked for.

The station master on the Eastern Indian Railway had been given strict orders not to do anything out of the ordinary without authority from the superintendent. This accounts for his sending the following telegram: "Superintendent's office, Calcutta: Tiger on platform eating railway porter. Please wire instructions."—Tit-Bits.

Big Mistake.
Bluffers bowed into the club, jammed his hat down on a table with a fierce, resounding bang, and flung himself into an easy-chair.
"What's wrong today, Bluffers? You look bad."
"I'll never forgive myself. I kicked a man out of my house last night!"
"Kicked out? I've kicked out many a one. Young fellow, I suppose?"
"No; past middle age."
"Well, these oldsters have no business to be coming round courting young girls. I would have kicked him out myself."
"Yes, but I have found out since that this man wasn't courting my daughter. He was after my mother-in-law!"
Tit-Bits.

Russian Actress On Ideal Women

Madame Nazimova Gives Her Idea of a Fascinating Woman.

One of the joys of the interviewer whose work takes him among the big people of the stage is said to be the distinguished Russian actress, Madame Nazimova. She always has ideas, and they are fresh and abundant.

Sometimes, they are pungent and her phrasing of them is invariably crisp. Madame has only spoken the English language for seven years but she has learned it well, for she began with the interview, Madame Nazimova, being questioned about her own sex and her ideals, said:

"Every woman is fascinating whether she is married or single, ugly or pretty, fat or thin. I do not think there is any one type of woman more fascinating to the men than others. This is most fortunate for our sex. Men are attracted by their opposites and, strange to say, to women who apparently represent everything that they would seem not to care for. My ideal type of woman, however, is one who combines a masculine brain with the feminine charm. I see a great many women who affect certain masculine traits who wear high boots and put on a mannish-looking hat, but such things have nothing to do with the development of intelligence. They are all wrong. The woman who would be completely fascinating should understand and retain ideas and thoughts presented to her. But even that is not enough. She must digest those ideas, and transmitting them in her own mind and thru the power of her own personality send them forth again as her own. I can imagine how Madame de Staël fascinated all the men who came near her and there is a woman of today, Baroness Berta von Suttner, who, to me, is the ideal of this kind. She was the winner of the Nobel prize, you remember, and wrote 'Lay Down Your Arms.' When she first appeared in society it was her great physical beauty which impressed people, now it is her charm, her brain, her high and unflinching purpose that makes her one of the most fascinating women of the times. Age does no credit for such a woman. No one

Al. H. Wilson in His New Song Play

Popular Singing Comedian Coming to the Grand Opera House Next Week.

Like a breath from the vine-clad hills of Germany is said to be the atmosphere of the play, "It Happened in Potsdam," in which Al. H. Wilson, the German dialect comedian, will appear at the Grand next week. It is an adaptation from the French by Cyril Reed, described as a dainty love romance set in a frame of mirth and comedy, with the scenes laid in the quaint town of Potsdam, the former abode of Frederick the Great and the present summer residence of Kaiser Wilhelm. The story is written along the usual Wilson lines of refinement and there is nothing to offend the most exacting of theatregoers. As a German-comedian it has been Mr. Wilson's master-in-life to make people laugh, and in the character of Metz von Kistz he is not called upon to do anything of a more serious nature.

Amundsen's Story Wins Popular Favor

World Famous Explorer of South Pole at Massey Hall.

For years and years, explorers and scientists had toiled and suffered in the endeavor to disclose the mysteries of the land that lies back of the mighty ice barrier of the Antarctic. Beginning with Captain Cook in 1778, hardy explorers spent their energies in the endeavor to penetrate to the South Pole. Shackleton and Captain Scott tried it and earned fame thru reaching points "farthest south." Then the world was startled by the report that Captain Roald Amundsen, the Norwegian explorer, had achieved the coveted goal.

Amundsen reached the South Pole on Dec. 14, 1911, and planted the flag of his country there in the heart of King Haakon's Wilds, where there is no doubt, and where every direction is due north. At Massey Hall on Jan. 25, Amundsen will be here to tell the absorbing story of his successful expedition, and those who have heard him say that it makes the best story of polar travel and exciting adventure that has been related by any explorer living or dead. The transparent honesty and frankness of his narrative and his unselfishness in sharing the credit with his faithful comrades have won the hearts of his auditors everywhere. Amundsen's lecture will be illustrated by moving pictures and colored slides depicting interesting incidents of his memorable journey.

Al. H. Wilson in His New Song Play

Popular Singing Comedian Coming to the Grand Opera House Next Week.

Like a breath from the vine-clad hills of Germany is said to be the atmosphere of the play, "It Happened in Potsdam," in which Al. H. Wilson, the German dialect comedian, will appear at the Grand next week. It is an adaptation from the French by Cyril Reed, described as a dainty love romance set in a frame of mirth and comedy, with the scenes laid in the quaint town of Potsdam, the former abode of Frederick the Great and the present summer residence of Kaiser Wilhelm. The story is written along the usual Wilson lines of refinement and there is nothing to offend the most exacting of theatregoers. As a German-comedian it has been Mr. Wilson's master-in-life to make people laugh, and in the character of Metz von Kistz he is not called upon to do anything of a more serious nature.

"It Happened in Potsdam" is quite different from the events which happened to our friend Metz in other parts of the globe when he appeared in other plays. True, he makes love to a charming young girl in his new play, and it is also true that he sings several new songs during the performance; but this is as it should be, for no Wilson performance would be complete without a dash of romance to the story of the play and the injection of several live songs and waltzes by the star. The love element centres around Metz von Kistz, Manager Ellis, has provided appropriate stage settings for the play, and the original coloring and happy-life color-schemes of the second act give one a good idea of the luxuries to be enjoyed in the far east. The story of the play is punctuated here and there with several humorous incidents.

A Cheerful Prophecy.
They had just become engaged. "What for it will be," she exclaimed, "for me to share all your griefs and sorrows?"
"But, darling!" he protested; "I have none."
"No," she answered; "but when we are married you will have"—London Opinion.

Social Notes

The president and members of the Literary Institute of Trinity College have sent out cards for their annual conversations and dances on Thursday evening, Jan. 23.

Mr. and Mrs. George Hees have issued invitations to a dance on Friday, Jan. 24, from 9 to 12 o'clock.

Mr. and Mrs. William Taylor, Owen Sound, announce the marriage of their daughter, Helen, to Mr. Floyd A. McGhie, Hamilton.

Mr. R. Home Smith will not return from the south until the middle of February.

Mrs. Ernest Watt (Miss Madge Crawford), will hold her post-nuptial reception on Monday, at 865 Roxboro street east.

Miss Dahlia Davies and the Messrs. Davies are giving a small dance on Jan. 23.

The second dance of the University Schools will take place on Friday, the 24th inst. The following are the patronesses: Lady Gibson, Lady Whitney, Lady Meredith, Lady Walker, Lady...

DRINK CURE A MIRACLE?

No. Just Sound Science. Many drunkards are sent to jail when they need a medicine. Drink has uncleanly its constituents, inflamed their stomach, and nerves, until the craving must be satisfied, if it is not removed by a scientific prescription like Samaria.

Verbal bidden a number of friends wended their way on last Saturday afternoon to the pretty cottage of Mr. and Mrs. H., who in her characteristic thoughtful way, arranged this social hour, to pay court to her household guests, Miss M., her great-aunt; Miss R., an aunt, and Miss S., a friend—all of Wisconsin.

THE DUCHESS OF VENDOME AND HER LITTLE SON, PRINCE CHARLES PHILIPPE.

Lord Francis Scott, of the Grenadier Guards, youngest son of the Duke of Buccleuch, and also Captain Grant, of the Rifle Brigade, have been appointed aides-de-camp to his royal highness the Governor-General of Canada, and arrived in the capital recently.

Society at the Capital

Lord Francis Scott, of the Grenadier Guards, youngest son of the Duke of Buccleuch, and also Captain Grant, of the Rifle Brigade, have been appointed aides-de-camp to his royal highness the Governor-General of Canada, and arrived in the capital recently.

Mr. and Mrs. Arthur Guise have arrived in the capital, to spend two or three weeks with Mr. and Mrs. Sandford Fleming. Mr. Guise was one of the A. D. C.'s in Lord Minto's retinue, and Mrs. Guise was formerly Miss Hazel Mackintosh, Mrs. Fleming's younger sister.

Mr. and Mrs. George Hodgins of New York have arrived in town, and will in future reside in Ottawa. Mr. Hodgins is a brother of Col. W. Hodgins of London and formerly of Ottawa.

Miss Lamoine entertained at a most delightfully arranged luncheon in Montreal, who were in town for the marriage of Miss Hope Wurtelle to Mr. McDougall, among them being Mrs. Andrew Allan, and her daughter, Mrs. Russell Cowan. Others present were Mrs. Walter Beardmore of Toronto, Mrs. Harry Cassell, Admiral and Mrs. Kingsmill, Hon. Nesbitt and Mrs. Kirchoff and their daughter.

Mr. A. W. Fleck gave a very interesting and jolly dinner dance at the Royal Golf Club recently, when the dinner was arranged as a progressive affair, the men changing places at each course. Beautiful American Beauty roses adorned the table, and the guests were principally the debutantes of this season and the younger society men.

Mr. C. Berkeley Powell, president of the Country Club, entertained at a very well-appointed luncheon, at that rendezvous given especially in compliment to Mr. Lewis Waller, the celebrated English actor, and his leading lady, Miss Madge Fetheridge, and the latter delighted those present with several charmingly rendered songs.

Mrs. Frank Cochrane entertained at a charming dinner dance at the Country Club one evening recently, in honor of her visitor, Miss Irene Doolittle of Boston and Miss Edith Cochrane, Mrs. Cochrane was handsomely gowned in black satin with jet and lace trimmings, and Miss Edith was prettily attired in pale green satin; Miss Doolittle wearing pale blue. Dancing was carried on in the reception room and dining room, and the pretty sun room was utilized as a sitting-outlook, all rooms being very artistically arranged with quantities of roses and green shrubs.

The Countess of Aberdeen and Miss...

Made-to-Order Corsets lend a charm and individuality to the figure that cannot be obtained in any other way

THE women who are most careful of their appearance have corsets made to order because only when made to order is it possible to get the best fitting, best looking and most comfortable corsets. Customers of the Woolnough made-to-order corset department are constantly praising the fit, comfort and appearance secured for them and invariably are pleased with the prompt, courteous service they receive. Made-to-order corsets moderately priced at \$6, \$10, \$15.

WOOLNOUGH—CORSETIERS 286 YONGE STREET, Opposite Wilton Avenue

Mrs. Clarke Bowker of London, Ont., Mr. Charles Fellows, Tuesday afternoon, Mr. W. A. Allan, and several others.

Mr. and Mrs. Harry Biggar of London, Eng., who have been the guests of Lieut.-Col. and Mrs. J. Lyons Biggar, have gone to Arrispor, to visit Dr. and Mrs. Cranston.

The engagement is announced of Miss Maud Grace Arnold, daughter of the late Mr. King Arnold and Mrs. Arnold of Wilbroad street, to Mr. George W. Peck of Montreal, son of Mr. and Mrs. John W. Peck of Montreal.

Mrs. Walter Long entertained at a charming tea during the week, when her guest of honor was the well-known authoress, Miss Macnaughton, who is spending a few days in the capital. Among the guests were Miss Violet Asquith, who remained in the capital as a guest at Government House after the late Lieut.-Col. H. Allen Bate and Mrs. Bate, and grandson of Sir Henry Bate, which will take place at St. Joseph's Church, on Tuesday, Feb. 19, at 2 o'clock, with a reception afterwards, at the residence of Sir Charles Fitzpatrick.

Invitations have been sent out for the marriage of Miss Margaret Fitzpatrick, youngest daughter of Sir Charles and Lady Fitzpatrick, to Mr. James Montague Bate, eldest son of the late Lieut.-Col. H. Allen Bate and Mrs. Bate, and grandson of Sir Henry Bate, which will take place at St. Joseph's Church, on Tuesday, Feb. 19, at 2 o'clock, with a reception afterwards, at the residence of Sir Charles Fitzpatrick.

Miss Edith Cochrane and her guest, Miss Irene Doolittle have gone to Toronto to spend a short time.

Hon. J. D. Reid, Minister of Customs, returned from England early in the week, and Mr. Reid, who went on Tuesday, will join him shortly at the Roxborough.

Mr. and Mrs. George Sweeney, of Toronto, with their young son, are guests of Mrs. Sweeney's parents, Mr. and Mrs. Charles Keefe at "Edimur" Rockcliffe. Mr. and Mrs. Chas. Keefe have left to spend a few days in New York.

SCIENTIFIC BRIEVITIES

The German Research Institute for Coal at Mulheim will deal with such problems as the varied manufacture of coke, gas, water gas and power gas, the quality of products, the direct conversion of heat into electricity and any plan for getting more from coal.

Progs survive pressures of 300 atmospheres, according to Professor Leonard Hill, but at 400 atmospheres their muscles become opaque and disorganized. Bacteria are killed by a pressure of 4000 atmospheres.

Two remarkable surgical cases—one in New York and one in Washington—have gone on record recently, in which sufferers from stomach trouble have had their digestive organs repaired very much as if they were only cases of rheumatism in a house. In each case there was an ulcer, which had interfered with the outlet to the stomach, the ulcerous condition repaired, and an entirely new hole cut into the stomach, which was then connected up with the piping system. As a result, in each case the subjects are now able to digest anything without suffering.

The chemistry of flower colors has been under close observation by a special committee of the British Association for the Advancement of Science for several years.

NORDHEIMER "Human Touch" PLAYER-PIANO PERFECT AS THE HAND. The phenomenal success of the Nordheimer "Human Touch" Player-Piano is due to the fact that it reproduces the exact touch of the human hand on the keys, and is therefore the one instrument which is not mechanical. The player action is simple, strong, durable, free from complications, and absolutely guaranteed, and behind the action is the Nordheimer "Quality Tone" Piano, the standard of Canada.

MRS. WARREN'S TEA. A delightful tea was given on Monday afternoon at the Metropolitan Assembly Rooms by Mrs. W. A. Warren, in honor of Mrs. Rudel Warren, who looked pretty in a frock of steel blue embroidered crepe de chene with white lace and bouquet of violets and lily-of-the-valley, a bouquet of the same flowers being worn by the hostess, who was extremely handsome in violet nixon with coin spots, gold embroidery, white lace and diamond ornaments. An orchestra was in attendance, and the tea-table was prettily decorated with pink roses and silver and pink shaded candies surrounded by willows flowers being worn by the assistants—Mrs. Alton Garrett, Mrs. McMillin, Mrs. Arthur Massey and Miss Stewart.

day — Telling me of an end - less sor - row should you
 ev - er go a - way — Something al - ways keeps me
 guess - ing Some-thing keeps me in a whirl; — Something keeps you
 in my dreams dear, Something tells me your the girl.

rit.

rit.

D. C. al. Fine

There's something
 for a day, A long-ing seems to grow — strong —
 you're the girl I'm count-ing on so strong —
 With you on
 I would
 nev - er would
 feel "blue"
 But when you leave me
 I'd like to say that
 all
 will be
 re - ne -

Moderato con sentimento

CHORUS

It would not be so hard to part, I
 I need a pal to steer the ship, then
 you're stream

It would not be so hard to part, I
 I need a pal to steer the ship, then
 you're stream

There, that seems to care, And all ways lets me know
 deck the ship can't wreck, just say you'll come a long.

And all ways lets me know
 there, that seems to care, And all ways lets me know
 deck the ship can't wreck, just say you'll come a long.

The jumbled letters given above represent the names of four great Rivers in Canada, which every Canadian should know. To help yourselves then we have arranged the first letter in each name. The first is St. Lawrence. Now guess the rest and send us in your little bit of all your names in your very neatest and best handwriting.

HERE ARE THE SIMPLE RULES GOVERNING THE CONTEST.
 1. This competition is absolutely free. You are not asked to spend a cent or buy anything in order to enter. 2. Only one person in a family will be allowed to compete. 3. No employee of ours or relation of employee will be allowed to enter. 4. Children under 12 years of age will not be allowed to compete. 5. Write only on one side of the paper, and sign your full name and address clearly. 6. All letters must be fully prepaid in postage. 7. Prizes will be awarded according to handwriting and general neatness of the correct replies received. 8. Prizes will be awarded to the person whose name is first in general neatness of the correct replies received, having absolutely no connection with this firm. Their decision is to be accepted as final. 9. There is a simple condition to be fulfilled by all contestants. As soon as your reply is received, we will write advising you if correct, and informing you of this condition. Get your solution in to-day.

The above illustrations represent the cutting of 15 in., 18 in., and 20 in. girders by the Oxy-Acetylene Process. This work was accomplished by the L'Air Liquide Society, the head office of which is Paris, France, with Canadian offices at Montreal and 335 Queen St. West, Toronto. The Oxygen, the chief gas used in connection with Acetylene for the cutting of steel manufactured by the Claude Liquide Air Process, is guaranteed between 98 and 99 per cent. purity, this Oxygen is the purest and lowest priced in the market today.

This Company manufactures Oxygen and Nitrogen by the Claude Liquide Air Process and have several plants in France, Germany, Italy, Spain, England, Belgium, Russia, Sweden, and the only Liquide Air Oxygen plant in Canada which is the largest in America, and their most recent installation is in Japan.

Tomorrow Will Be a Rousing Bargain Day
In Tisdall's Great \$1.00 a Day Reduction Diamond Sale

\$16.00 is the amount to be deducted from the regular Factory Price of any Diamond Ring or Pin, displayed in our window. These should be irresistible price concessions to anyone desiring a Diamond for themselves, or for speculation. It is your great opportunity to secure Diamonds below the market price, and from an investment standpoint is safe and sound, as Diamonds are increasing in value from 15 per cent to 20 per cent. each year.

We are endeavoring to dispose of our entire remaining Holiday Stock of Diamonds by Feb. 1st., and for this reason we reduce the price of every ring or pin in our Diamond Stock \$1.00 each day until sold.

At this stage of our sale many stones are going at ridiculously low prices, but every stone we sell at a loss, we consider the money lost well spent in advertising, beside after our enormous Holiday trade we can afford to sacrifice our remaining stock of Diamonds to turn them into cash.

Make it a point to see our window Monday, and if you have the ready cash, no doubt you will avail yourself of one or more of the many wonderful Bargains displayed therein.

We keep open every evening.
