MARRIAGE OF ALICE ROOSEVELT

With all the Pomp of an Imperial Court a Democratic American Girl Was Wedded Today---Oriental Magnificence and Splendor Rivalled by Costly Decorations of the White House---As a Brilliant Spectacle This Wedding Eclipsed Anything Ever Seen in Washington.

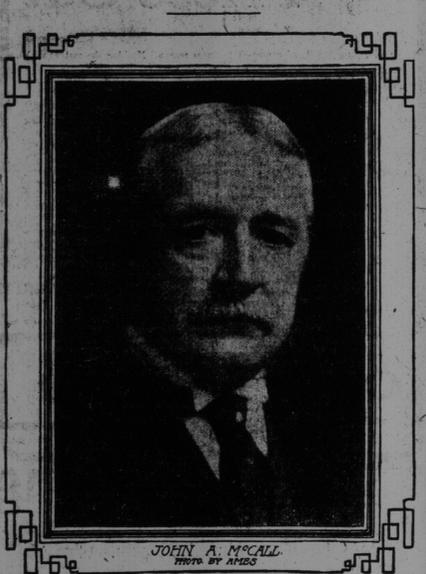

WASHINGTON, Feb. 17.—In the beautiful white and gold east room of the White House, a few minutes after noon today, the venerable Right Rev. Henry W. Satterlee, Bishop of Washington, of the Protestant Episcopal church, pronounced the fateful words which united in marriage Alice Roosevelt, eldest daughter of the president of the United States, and Nicholas Longworth, representative of congress from first district of Ohio. The ceremony, the simple, beautiful and impressive ring service of the Episcopal church, was witnessed by one of the most brilliant and distinguished assemblages ever gathered in the White House. Approximately one thousand persons were invited, but no list of the guests is furnished for publication.

Over 17 in colors, red predominated. Banked back of the platform, and next to the windows were palms, selected for the beauty and closeness of their leaves. This group of palms was fringed at the base with purple and pink abodeolons was stationed the marine band orchestra under the leadership of Lieutenant William H. Stephens. A special programme had been selected, for the most part, by Miss Roosevelt. During the wedding, the reception, and the breakfast which followed, the band rendered the programme.

These around the platform, to points on the east wall. Mrs. Roosevelt was a superbly richly designed, heavy cream-colored brocade, on which were figures of gold and brown interlaced with threads of gold. The gown was in Princess style, with long train of the same material. The trimmings were of brown chiffon, embroidered in blue and gold. The yoke of the bodice was formed of embroidered chiffon, as were the trimmings on the elbow sleeves. Exquisitely designed points on the skirt were made of blue and gold embroidery. She wore diamond ornaments.

with rare old point lace and the elbow sleeves were finished with the same tiny white gloves. A voluminous tulle veil almost completely enveloped the bride. The president passed through the two lines of ushers, who had separated at the platform and presented his daughter to the waiting bridegroom. Together they ascended the platform, where Bishop Satterlee performed the ceremony, after which the party proceeded to the state dining-room, where a buffet wedding breakfast was served to the bride party and guests.

ALL HOPE ABANDONED; FORMER PRESIDENT OF NEW YORK LIFE DYING

JOHN A. MCCALL, FORMER PRESIDENT OF THE NEW YORK LIFE INSURANCE COMPANY.

LAKEWOOD, N. J., Feb. 17.—Physicians of John A. McCall, the former president of the New York Life Insurance Company, announced today that almost all hope for his recovery has been abandoned. Mr. McCall was much weaker today than at any previous time during his illness, this condition being due largely to the fact that for several days he has been unable to take small quantities of liquid nourishment. Members of his family have been told to be prepared for the end very soon.

ROBBERIES AT RENFORTH

There Have Been Several There Recently---Capt. E. C. Elkin's Cottage Visited.

Some little time ago it was reported that a number of summer houses at Renforth had been broken into by some miscreants and household effects stolen. Last week the pretty suburban villa was again visited by depredators and Capt. E. C. Elkin's residence was the one to suffer. A number of things were removed from the house and up to the present time the thieves have not been located. The residents of Renforth held a meeting a few days ago and decided to take united action against the depredations. Steps were taken to apprehend the culprits, and a reward of \$25 is offered for information that will lead to their capture.

IT IS NOT SMALLPOX

This is Opinion in Regard to Westfield Case---Lumbermen say Camp is Not Quarantined.

MONCTON, Feb. 17 (Special)—Clarence Milburn, of Hopewell Cape, who was working for William Floyd in a portable saw mill near Salem, Albert Co., met with an accident yesterday morning that resulted in a broken leg. The injured member was set by Dr. McFarlane of Fairville, and Mr. Rose is now recovering at his home. It is reported that small-pox had broken out at the camp, where it has not been quarantined. The place being shut off from intercourse with the surrounding country. The men living in Queens county and who left the camp 24 days ago, have developed no symptoms of the disease, and it is now quite certain that no camp was the incubation of the germ. Some of the men belonging to the developments have followed their visit. In short, it is generally conceded that the announcement of small-pox at this place was entirely without foundation.

LATEST FROM CHINA

Today's despatches deny that there is any danger of an uprising in China. The Chinese minister at Washington says there is no cause for anxiety. The Chinese minister at Washington says there is no cause for anxiety, but it is aimed at the government of China, and not at foreigners, and the latter are in no danger.

THE TRAGEDY NEAR SYDNEY

SYDNEY, N. S. W., Feb. 17.—(Special)—There are no new developments in the burning tragedy at Dominion No. 1, although it is expected that important evidence will be forthcoming at the inquest, which was further postponed until two o'clock this afternoon. The people of Dominion, notwithstanding the opinion of the crown prosecutor here, still believe strongly in the theory of foul play.

THE TIMES NEW REPORTER

WASHINGTON, Feb. 17.—(Special)—We don't call her Alice any more, she is plain Mrs. Longworth now, and the press correspondents are discomfited. The wedding was a very democratic affair. The folks just dropped in and said "Howdy, Alice," "Howdy, Nick," and sat around and had a real American good time. All the talk about dukes and duchesses, and princelings, and ties and feathers, is pure imagination. We are a democratic people. We venerate the log-house and the plow, blunt man. We venerate the golden folly of the effete monarchs of the old world. Give us plain gray and our own Colonel Mann. That's all we ask.

A SPLENDID PROGRAMME

Knights of Pythias Have Prepared Good Entertainment For Their Anniversary.

Holder, Brown, Grady, Bonnell and Dicker. Reading—G. C. Jordan. Selection, banjo—Scott Holder. Song—Reginald Mallinson. Selection, mandolin—Prof. W. C. Bowen. Song—A. Chipman Ritchie. D. Arnold Fox accompanist.

AT THE OPERA HOUSE

The Waite Comedy Company will close their engagement at the Opera House tonight with a production of "The Gates of Hell." As a special feature of tonight's entertainment, Mr. Waite will present to some patrons occupying a one-act comedy, that has been selected and laid aside, a five dollar gold piece, as a souvenir of the last performance. As a novelty, he will award a five dollar gold piece to the homeliest man in the audience tonight. There is considerable merriment attached to this last performance.

BALFOUR WILL BE OPPOSED

L. S. Montague, son of Sir Samuel Montague, the well-known banker, will be the Liberal candidate for the city of London against former Premier Balfour.

EX-POLICE CHIEF DEAD

MONTRÉAL, Feb. 17.—(Special)—Lieut. Col. Geo. A. Hughes, for thirteen years chief of the police force of Montréal died this morning. His death had been expected for months. He saw active service during the Fenian Raids and fought in the Pontifical Zouaves against Garibaldi in Italy.

CONGRATULATIONS

Alice and Nick walked to the station and went up to Canajoharie for a spell, and there was a great shower of rice. Mr. and Mrs. Roosevelt expect to be some time here now, because Alice was always a home body, and helped her mother a lot in the house-keeping. But they say she got a good man, and that's a great comfort in these times when everybody is looking for a divorce. They do say Alice might have had a Sultan of something, but she wouldn't go back on Nick. She's a genuine American, Alice is—and so is Nick.

carried a superb shower bouquet of white orchids. The delicate blossoms were arranged in cascade form, the stems being tied with white chiffon satin ribbon with long bows. The ushers, who were in couples, separated as they reached the platform and the president passed through the two lines and presented his daughter to the waiting bridegroom, who stepped forward to receive her. Together they ascended the platform, where Bishop Satterlee, in the imposing robes of his office, already was standing.

PLUCKY GIRL'S NARROW ESCAPE FROM DROWNING IN WATERS OF LILY LAKE

Miss Enid McDiarmid, daughter of Miss McDiarmid, had a narrow escape from drowning yesterday while out snowshoeing at Lily Lake. Selection, string quartet—Messrs. Holder, Donald, Smith, and Messrs. Hoyt. Song—Harold Allison. Song—Harold Allison. Selection, vocal quartette—Messrs. Holder, Brown, Grady, Bonnell and Dicker. Reading—G. C. Jordan. Selection, banjo—Scott Holder. Song—Reginald Mallinson. Selection, mandolin—Prof. W. C. Bowen. Song—A. Chipman Ritchie. D. Arnold Fox accompanist.

E. B. EDDY LEFT LARGE ESTATE

OTTAWA, Feb. 17 (Special)—The estate of the late E. B. Eddy is valued at \$300,000, beside the real property. The charitable bequests amount to \$7,500, the county of Carleton Protestant General Hospital gets \$5,000, Protestant Orphans' Home, \$1,000; Protestant Home for the Aged, \$1,000, and Miss Annie Lewis' Home for Convalescent Children, \$500. In addition to this \$10,000 is left to the town of Bristol to hold in trust to be devoted to maintaining the Eddy burial place.

PERSONAL INTELLIGENCE

Arthur Finlayson, of Fredericton, passed through the city today en route to Moncton. Miss Bridges arrived today from St. John's.

THE EVENING TIMES, ST. JOHN, N. B., FRIDAY, FEBRUARY 16, 1906.

My Friend The Chauffeur.

(Continued.)

"No. There's just enough of you to fill an aching void," said I, partly. But he didn't seem to mind at all, and was very kind in telling about frescos and things, although he calls himself ignorant. He has forgotten the boat in his advertisement perhaps, or he's trying to live up to it as well as he can when his chauffeur isn't available.

"We stopped so long at the Certosa that the sun had gone far down the west as we walked through the beautiful, strange gateway to the roadside rest-house of our car.

"Where crowds come from in the country it is as mysterious as where pine and hairpins go to; but anyhow, there was a wide ring of people round the automobile in which our hired creature sat going on and on, and I was standing on the sidewalk, and when we arrived on the scene, with our hands full of cents made and bottled by the banished monks, quaint pottery, and photographs of frescos, general interest was transferred to us, but only for a moment. Even Mada's beauty failed as an attraction beside the starting-hum of the car, when the Chauffeur turned it.

"Don't you see many motors here?" asked Sir Ralph of our deposed guard, and he shook his head. "Not one a month," he said, "though they say that some of the rich ones in Milan use them. I do not know where they go."

"And as he spoke a big one shot by heading for Alessandria and who knows, but for Cuneo? When we came to think it was the first we had seen since Venetian, though on the French side of the Riviera the things had been a pest to everybody who hadn't one.

"We watched the sinking sun turned a million tiny clouds floating up from behind the world into rose-pink parrot-bustles, which by-and-by were silvered round their curly edges by a wonderful light kindled somewhere in the east. It grew brighter and brighter as the rose-colored suns first took fire down at the western horizon, and then burned to ruddy halos. When half the sky was alight, a great glowing mass of light, glistering white, and flattened out of the perfect round on one side, like the wings of the biggest beetle in Mamma's long rope.

"Even in America I never saw the sun-glow so quickly quenched by a white torrent of moonlight. But on this night it was not white; it was soft and creamy, like mother-of-pearl. And as the opal gleam of the sky darkened to deep amethyst the stars came out clear and sparkling and curiously distinct one from the other, like great hanging lamps of silver, diamond-encrusted.

"All the world was hushed in this creamy light, while the sky accented with jewels like the flashing of a spangled fan, as we drove into the outskirts of Milan.

"It had been lucky for us that there was a moon, as we had a crumpled brass waffle in the place of our big lamp; but the feet of the town lights, orange-yellow mingling with the white radiance pouring down from the sky, was wonderful and mysterious on arched gateway, on dark facades of tall buildings, on statues, on columns, on fountains. Coming in out of the country with the noise and rush of the big city seemed appalling. Electric trams dashed obliquely and flashed in all directions, making a pandemonium

passed your automobile at Pavia, and thought of joining you at the Certosa, where you no doubt were at the time; but I decided that it would be more satisfactory to you to keep on your feet, as you promised, Comtesse, and come to this hotel, so I ventured to have my place laid at your table and order a few extra bottles which I thought you would like. Have pity, I beg, on a starving man, and make yourselves ready in twenty minutes." (To be continued.)

WHAT SULPHUR DOES For the Human Body in Health and Disease.

The mention of sulphur will recall to many of us the early days when our mothers and grandmothers gave us a daily dose of sulphur and molasses every spring and fall.

It was the universal spring and fall "blood purifier," tonic and cure-all, and mind you, this old-fashioned remedy was not without merit.

It was like being shot out of a cannon, and then expects strangers to know by instinct just where and when it changes.

"That's the worst of this party of Maida," he heard him shout over the din to Maida. "Any town that chooses makes a different rule for itself and its suburbs, and then expects strangers to know by instinct just where and when it changes."

It was like being shot out of a cannon, and then expects strangers to know by instinct just where and when it changes.

YVETTE GUILBERT ARRIVES FROM EUROPE

New York, Feb. 15.—By the arrival of the North German Lloyd steamship Kaiser Wilhelm II at Sandy Hook Light at quarter before seven o'clock Tuesday the trans-Atlantic record on the westward passage may come within an ace of being smashed again. The Kaiser Wilhelm II, which is commanded by Capt. Hogermann, was not due to arrive at the Hook until one or half-past one o'clock in the afternoon, but the ship beat this by more

than six hours, making a remarkably fast voyage.

The Kaiser Wilhelm II brings more than 1,400 passengers, 400 in first cabin, 200 as second class travellers and more than 800 in the steerage. Among the cabin passengers is Yvette Guilbert, Paris' well known music hall singer, who is revisiting the country for a tour of the vaudeville circuit.

TAFT JOKINGLY ACCEPTS "PRESIDENTIAL NOMINATION"

Washington, Feb. 15.—At the annual Lake Ahumahi banquet Monday night the undertone, half jocular, half in earnest, that ran through all the toasts and responses was the candidacy for the presidency of Secretary of War Taft, an alumnus, one of the speakers of the evening.

Chief Justice Brewer, in the first speech of the evening, referred to him as the man "who sat upon the lap of the president's absence" and as "the man, the American people have since decided the right man to sit on the whole cover."

Other speakers alluded to the secretary, and the secretary himself referred humorously to his nomination and election by the body. He said: "I am delighted at being nominated and elected president of the United States here, and I accept the honor with out qualification. Among the women and the residents of the district, who have no voice, I appreciate my popularity. I had other ambitions, but under the circumstances I will no longer be looking into the health of Justice Brewer and other members of the Supreme bench."

The secretary referred to the newspaper criticism of his public life and suggested that public opinion ultimately reached a just conclusion.

P. E. ISLAND BANK SOLD

Canadian Bank of Commerce Has Bought Merchants Bank of P. E. I.

Halifax, N. S., Feb. 16.—(Special)—The Merchants' Bank of Prince Edward Island has sold outright to the Canadian Bank of Commerce. The Merchants' Bank's head office in Charlottetown and branches will be continued as before, with the old staff of officials. The negotiations were conducted by V. C. Brown, of the Bank of Commerce, and G. E. Beer, of Toronto, acting for the Merchants' Bank. The Merchants' Bank head office is at Charlottetown, and its branches are at Summerside, Souris, Alberton, Montserrat, and Sydney. The bank's paid up capital stock is \$200,000, and it reserves \$200,000. It has been paying a dividend at the rate of eight per cent. per annum.

The shareholders will receive cash for their stock, and the bank announces that there will be no change in policy compared with that pursued by the purchased bank.

HADN'T CAUGHT UP

A man who was travelling through the Ozark Mountains on horseback stopped before a typical Arkansas farmhouse to inquire the way. "What's the news?" asked the mountaineer, as he leaned his long beard thoughtfully.

On finding that what had become a part of history was new to him, the traveller asked why he did not take some weekly or even monthly periodical, that he might keep in touch with the world at large.

"Wal," said the old man, "when my pa died, ten years ago, he left me a stack of newspapers that high"—indicating a height of about three feet—"and I ain't done a-readin' of 'em yet!"

LATE E. B. EDDY LEFT PARTNERS BIG BEQUESTS

One Quarter of the Estate to Be Divided Among the Four—The Rest to Relatives—F. W. Hodson Out.

Ottawa, Feb. 16.—(Special)—It is said that among other things the will of the late E. B. Eddy provides for a division of one-quarter of the whole estate among the four members of the Eddy firm associated with the late head in the business. These are W. H. Rowley, J. J. Gormley, George Milten and S. S. Cashman, and the bequest to each is very substantial. The rest of the estate goes to the family. This will has not yet been probated.

The Standard Bank gives notice of its intention to increase its capital stock from \$1,000,000 to \$2,000,000.

The resignation of F. W. Hodson, live stock commissioner, had been accepted.

Indigestion

Stomach trouble is not really a sickness, but a symptom. It is a symptom that a certain nerve that enable you to walk and talk and eat, but that automatic stomach nerves over which your mind has no control.

I have not room here to explain how these tender, dry nerves coming find open to the stomach. They worry breaks them down and causes indigestion. Slow motion down and causes dyspepsia. How neglect may bring on indigestion, heart, and other troubles through dyspepsia. I have not room to explain how these nerves may be reached and strengthened and vitalized and made stronger by a remedy I spent years in perfecting. It is known by physicians and druggists everywhere as Dr. Shoop's Restorative (Tablets or Liquid). I have not room to explain how this remedy, by removing the cause, usually puts a cure, but sends to indigestion, belching, heartburn, flatulence, nervousness, dyspepsia. All of these things are fully explained in the book I will send you free when you write. Do not fail to send for the book. It tells how the solar plexus governs digestion and how, for all of us, at some time or other, have indigestion. With the book I will send free my "Health Token"—an intended passport to good health.

For the free book and Book 1 on Dyspepsia. The "Health Token" Book 2 on the Heart, 3 on the Stomach, 4 on the Kidneys, 5 on the Blood, 6 on the Lungs, 7 on the Bowels, 8 on the Urinary System, 9 on the Skin, 10 on the Nervous System, 11 on the Female System, 12 on the Male System, 13 on the General System, 14 on the Hygiene, 15 on the Diet, 16 on the Exercise, 17 on the Sleep, 18 on the Work, 19 on the Rest, 20 on the Life.

Dr. Shoop's Restorative

Prepared in both liquid and Tablet form. For sale at forty thousand drug stores and is often reached by a single package.

Last evening was the closing of the light in the York Theatre assembly rooms. From 3.30 to 6.30 the children were there, including the orphans of St. Patrick's and St. Vincent's homes, of whom some 200 were there. All seemed engaged themselves to the utmost, and their bright faces and cheerful voices expressed their gratitude better than any speech could have done.

Furniture Prices Cut

A reason for it, of course—a business reason. Nothing the matter with the Furniture. We want the room for New Spring Samples, want it bad enough to sacrifice patterns we are going to discontinue.

The Styles are just as good as the newer goods—and Furniture Style anyway is largely personal taste, so you need not fear getting anything out of date.

These Pieces at reduced Prices and our advice is buy early.

Sideboard	... \$10.00 now \$15.00	Chair	... \$7.00 now \$8.50
China Cabinet	... \$20.00 now \$25.00	Rockers	... \$4.00 now \$4.50
Bedroom Suite	... \$12.00 now \$15.00	Hall Rack	... \$1.00 now \$1.50
Dressing Table	... \$18.00 now \$22.00		

No guessing about the quality of Furniture you buy, you know if an article we sell don't prove as we say, it will be made right. That's safe buying, isn't it? Goods stored until required.

CHURCH UNION IN ONE RESPECT IS ASSURED

Clergy of Different Denominations Unite in Endorsing Psychine.

Psychine, in its great work of healing those diseases that lead to consumption, and even consumption itself, has naturally come under the notice of a large number of the clergy, and many of them have felt it their duty to let the public know what splendid results come from its use.

- REV. JAS. ODERY, formerly of Broadway Tabernacle, Toronto. "I have found Psychine to be one of the best remedies for throat and chest troubles that I know. It is prompt, efficacious and reliable."
REV. W. H. STEVENS, Paisley, Ont. "Psychine seemed just the stimulant my system needed. I shall add my testimony as to its efficacy at every opportunity."
REV. R. M. BROWNE, Amherst Head, N. S. "I have often recommended Psychine since taking it myself, for I believe it is a cure for it to Psychine you specify."

Where sickness is there the minister of the gospel is found. His is the opportunity to note how the sufferer got relief, what furnished the relief and what caused the cure. Large numbers of the clergy of Canada recommend Psychine. They know, out of their experience, that it is the greatest preventive of consumption, the greatest builder-up of weak men and women science has found to the world.

PSYCHINE (Pronounced Si-Keen)

REMEMBER, Psychine cures Consumption, but its greatest work is the cure of those diseases that lead to Consumption. Psychine cures Colds, Coughs, La Grippe, Pneumonia and Catarrh. At all druggists \$1.00 Per Bottle.

THE SCHOOL AGE

The following paragraph appears in the annual report of the St. John School Board to the Chief Superintendent of Education:—

As are able and willing to work and conduct themselves properly. In cases where the candidates will be subjected to a rigorous test.

The first and obvious criticism of the compulsory education bill is that it does not compel the opening of schools in several hundred districts in the province which are now without schools of any kind.

There are indications of an awakening interest in temperance work in this province. A gentleman who is active in the work informs the Times that he has discovered in the province generally a disposition to pursue a more vigorous policy than for some years past.

Despite the fact that a large portion of the press of the United States has thrown an air of martial barbarism over the event, there is a real feeling of interest in the happy event which occurred at Washington today.

MANUAL TRAINING

Mr. R. B. Kidner, Director of Manual Training in this province, in his annual report to the Chief Superintendent of Education, reports steady progress.

The late E. H. King, in his will, provided that upon the death of his wife \$100,000 of his estate should go to the Montreal General Hospital, \$50,000 to McGill University, and \$25,000 to the Ladies Benevolent Society.

UNION BANK OF HALIFAX. A statement which must be very gratifying to the shareholders, is the annual statement of the Union Bank of Halifax, which appears in today's Times.

The annual statement shows that the net profits last year, after providing for bad and doubtful debts, were \$168,151.74.

THE TIMBER INDUSTRY. While the lumber operators in the southern part of this province have been making time for weeks and waiting for the snow that has at last come to their rescue, there seems to have been a most successful season on the head waters of the great rivers, the St. John, Miramichi and Restigouche.

IT'S UP TO NICHOLAS Premier Witte Tells Czar to Choose Between Durnovo and Him—One Must Go.

St. Petersburg, Feb. 16.—Information has reached the Associated Press that the desperate struggle which has been raging in the government between the reactionary and the progressive forces is approaching a culmination, and must end within a few days in the resignation either of Minister of the Interior Durnovo, who is leading the movement for thorough-going reorganization, or of Premier Witte and several other members of the cabinet.

The question at issue is the withdrawal of the extraordinary powers conferred in governor generals throughout the empire, which in many cases, it is alleged, have been exercised for the repression, not only of political disorders, but also of the political activity of the Liberal parties.

Minister of Agriculture Kutler, The Associated Press has been informed on excellent authority, has resigned. The announcement of the acceptance of his resignation, which was due to influential opposition to his project for expropriation of private lands and their division among the peasants, may be expected shortly.

The Associated Press was authorized today at Count Witte's chancellery to positively deny the report that Count Witte had already resigned, but the words of an official, high in the premier's confidence, that he could vouch for the fact that "at the present moment the report is untrue," indicate that there may be something in the wind.

A GENERAL AGITATION TO REVISE THE AUTHORITIES

A Desire is Abroad for a Clearing Up of Uncertainty's Concerning the Tenets of the New Testament—Action by Church of England Clergy.

(Boston Transcript.) Nearly a year ago some theologically broad clergy of the Church of England drew up a statement declaring the need for research concerning the tenets of the New Testament, similar to the research that has been making the past twenty years concerning those of the Old Testament. There was in England a revelation from Swedenborg, such as had been carried on, and the tone of the manifesto was one of protest against a popular feeling that should have upon investigation. A month ago some broad clergy of the Episcopal church in this country took up this manifesto; retained the English references in it, and sent it generally to leading clergy and laity, requesting its dissemination. Many signatures have thus far been obtained to it, and these and the manifesto have just been published. The signatures are said to be those, not of scholars exclusively, although in the two hundred as published are the names of many clergy eminent for their learning, but who are known to be liberal in their theological views. Not all are as advanced as Dr. Heber Newton, who is, by the way, one of the signers, but many of them are, in their respective dioceses, set down as their door to Unitarians. Those who favor the manifesto do so on the ground that scholarship must be maintained. They say there is the need of revision of the authorities of the New Testament as has been found of those of the Old. They say that there is danger to the faith of the church, and intimate that they are quite as safe to be treated with that faith as their critics. On the other hand, the conservatives point out that there is little need here to repeat the English protest. Notably is prevailing research or attempting to do so. The manifesto asks for liberty. The reply is that the broad people have all the liberty there is. Conservatives point to the fact that in most other bodies at this time there is an attempt at religious revival and the winning of souls, but that among broad Episcopalians there seems not to be that for the heart out of what Gospel the critics have thus far permitted to remain. The plea for the manifesto is in this vein: That modern scholarship and research have eliminated and cleared up much that was hazy concerning the Old Testament—discovered it, the conservative retort; and now, in spite of the current setting the other way, it calls for similar treatment and like clearing up of the New Testament. MUCH INTEREST EXCITED. Within the Episcopal church itself of views exist which regard the circular letter just signed by two hundred clergymen and laymen referring to the present status of biblical studies, pointing out the peril of building faith on the details of the New Testament record, especially the history of scholarship, and declaring that the various historical and literary questions at issue must finally be settled in the open, trained, and searched. The inference is that pending such settlement, an attitude of toleration and patience is demanded. The manifesto is now in the hands of all the clergymen of the church throughout the country. It is understood that no effort will be made to obtain a large list of signatures, but that a select number of persons were asked to append their names, and that the large percentage of those thus asked gladly consented. They include men in all parts of the country. One recognized among the local signers, who have all ways stood for breadth of churchmanship.

THE CLAPSLEY CASE. There is no connection other than that of coincidence between the forth-putting of this letter and the reported removal of agitation against Rev. Dr. A. S. Clapsley, the Rochester rector whose liberal theology has aroused so much comment in church circles and led to an official investigation. That is, the letter would doubtless have gone forth irrespective of this particular case. Nevertheless, Clapsley naturally hailed the document as strengthening his position and in his sermon a fortnight ago when he reviewed the same of action and declared that he is by right a minister of God and intends to stay where he is, he pointed out that the cause of extreme historical criticism and spiritual interpretation of creeds was no longer a matter concerning about himself. He went on to say: The publication of this document hits the whole matter out of the hands of personalities into that of principles, and your rector instead of standing alone for these principles in the Episcopal Church is seen to be the only one of many. The direction of this movement for larger liberty is now the common trust of the ablest men in the church; and your rector is content to leave these interests, which are very dear to him, in the custody of those who may have the matter in charge.

THE ELLIS COMPANY. Miss Brothers, Miss Booth, Miss Francis and Miss Sumner, all capable people, are with the Ellis Co. and will open at the Opera House next Monday night in support of Edward Ellis, in the great international success, "The Rajah," a powerful farce comedy drama, by Wm. Young. Mr. Ellis is happily cast as the "Rajah" and the men of the company all have strong parts. The Ellis Company will play only four nights next week, Monday, Tuesday, Wednesday matinee and night and Thursday night, when by special request for one night only, "A Struggle for Life," which made such a big hit, will be given.

A Fredericton gentleman informs the Times that since 1876 the Fredericton rollers and the St. Andrew's club of this city have played 46 games. Of these each has won 21 games, and there were five draws, so that the two clubs break even after thirty years of pleasant competition.

SICK HEADACHE

Many varieties of headache exist, those most prevalent being sick or bilious headache, nervous headache, headache from constipation, etc. Headache is an effect of disease, the cry of the suffering body for relief from some depressing disorder. Undoubtedly the cause must be removed in order to cure the headache permanently. Wrong action of the stomach, liver or bowels is responsible for nine out of ten cases of headache. In sick headache (a very common form) there is sometimes nausea and vomiting and usually constipation. In nearly all forms of headache Burdock Blood Bitters has proved itself a specific—a medicine that has cured where all others failed. Keep the stomach, liver and bowels in perfect working order by the use of nature's regulator and tonic, Burdock Blood Bitters, which cures all forms of headache by removing the cause. Miss L. Smith, Morrisburg, Ont., writes: "I desire to let you know how much good Burdock Blood Bitters has done for me. I was troubled with headaches all the time, and could get no relief, until a friend told me of your Burdock Blood Bitters. After taking two bottles of it, I can say that I am completely cured." B.B.B. is for sale at all druggists and general stores. Do not accept something "just as good."

WAYS OF FRESHENING FADED WINTER FINERY

A New Hat Just Now Helps Greatly in Brightening up an Otherwise Worn Looking Costume, and the Between-season Chapeau is Wonderfully Attractive With Its Combination of Felt and Straw and Its Picturesque Trimmings Giving Promise of First Spring Styles.

How the Up-to-Date Girl Gives Character to the Machine or Hand Embroidered Bodice Pattern by Following the Various Outlines With Ruchings and Quillings of Velvet or Lace—The High Girdle Which Gives the Very Short-waisted Effect Seen in Madame Roland's Portraits, to Enjoy a Vogue.

The winter has reached a point when it is almost universally necessary to supplement a wardrobe with new garments. The most plentifully supplied winter outfit at this period shows wear and tear, and so those much on the carpet of fashion need to look about for entirely new things, or for accessories which will refresh without too much contrast of newness.

Bearing this in mind, the shops at this time invariably display a genre of millinery which distinguishes any season. The heaviness of the winter is lightened, without, however, too much leaning toward the flowery prettiness of spring, hat materials and trimmings ending the year with a happy between-season result.

A new hat is a very freshening influence, and such models as now come under the head of ready-to-wear hats are not only comparatively inexpensive, but often exceedingly pretty. Yarn materials, taffetas, piece lace and a very successful melange of silk and straw bring to accomplish a number of these hats, the prettiest of which show none of the picturesque a la mode front made by the high rear trimmings that have had such a vogue in the past. The chapeau Watteau, as many of these perky hats were called, has wearied by sheer excess of prettiness. The use of the hat in its intermediate movement, yet not entirely indicative of spring styles, yet displaying a certain change in character, has been the future shadow to some extent.

For practical wear some little expat on the turban order, made in a variety of ways, are very effective. These are simply trimmed, one model of brown broad showing a crown scarf like those of the past, another of brown velvet ribbon and a great pink rose. This was put under the edge of the hat at the side.

Oddly shaped wings accompanying a crown band of pheasant feathers trim another smart street hat, which was a side tilted shape of dark changeable green taffeta.

The hats made of yard materials are easy enough to fashion, though it requires a certain knack to cover the buckram frames properly. Sometimes at the edge of the brim, over the top of the crown, there is a velvet, silk or tinsel gimp, and the newest way to put on the shorter feather trims is to attach them to the straight, so that the plume bows with walking. Some of the willow feathers are used in the way, and though such plumes are extremely dressy, one is sometimes seen in a little French walking hat. A sort of Tyrol shape is one walking style which claimed the right to the willow plume. A simple scarf draped round the jaunty shape and finished at the side in a bow formed the only other trimming.

The mushroom shape, which was so admired for a time this winter, presents very admirable qualities for every day, and it is now shown in coarse straw in colors appropriate to the season. Velvet ribbon gathered at the top in a very neat trimming, shired under the edge of the brim and bunched at the back in an elaborate cache peigne, is the sole trimming of these hats.

A very dressy hat combines something of the colonial with the shepherdess shape, this last feature coming in through a high trimming of flowers or ribbon at the side. Such hats are made of straw or taffeta brim, with velvet or silk composing the simple drapery of the top.

Small roses and silk chrysantheums in a solid hedge against the brim and hair is the side decking of the smartest of these hats, one of which, with the others described, is here shown.

Next in importance to fresh millinery at this season, is the odd bodice, which may supplement some omission or help to continue a skirt whose proper waist is no longer in condition to wear. There is always talk of odd waists being shelled, but indications for spring and summer point to a renewed interest in them. In fully made and half made state, the shops display more styles in odd waists than may be counted. The more exquisitely contorted ones, whatever their materials, are naturally dear, for a vast amount of hand work still embellishes everything.

Many varieties of lace are also still used in a single bodice, with the entirely new kind of introducing a touch of delicate color here and there over the garment. For example, a waist of lace net and plain net, decorated with a wonderful flower design of Irish lace, showed here and there tiny baby roses of pale pink. These were in the Irish also, a stock, sleeve edge and girdle of pale pink satin ribbon repeating the delicate note.

The lingerie bodices put up in boxes are most desirable purchases for those who stock and long cuffs of these are already complete, putting the waist together in a simple matter. Happily, too, finer materials are now seen in this form. Particularly fashioned waists of net, embroidered silk, and beautifully worked cashmere, show often a very elaborate collar or high trimming as well as the cuffs and stock. These details are finished to the last stitch, and the most patterns on which they appear are very fascinating to the girl who is beginning to make her own clothes. The simplification of the

feet is an encouraging feature and the lines marked out permit girls of individual tastes and skill to get them off with elaborate trimmings. This additional embellishment is very necessary for the cheaper bodices, which run so often to a single and not too smart design, but one which may be made sometimes quite special and charming by means of a little extra trimming.

In the bodice drawing on this page are shown two ways of individualizing ready-made or half-made waists.

At the left of the picture is a house bodice of yellow taffetas trimmed with white lace inserting and ruchings and bows of bronze velvet. Without the velvet, which is also here used for a high girdle, this waist was offered at \$3.95. Since the added decoration only follows the line of the original one, the extra smartening is the easiest possible matter. In reckoning the quantity of velvet, especially that used for the ruching, it is necessary to buy three times and a half more than measured cuts for.

The second waist is of hand lace, fancy lace and plain net, and the added decoration is shown by the dark band, trimming the fringes and the girdle. Pale rose taffetas forms the girdle and bias bodice, and the things are made of the same silk in reversible form.

The plain crossed bodice of the seated figure is one that is very simple for tailored coat gowns. It is in a deep shade of green—a green with almost black red tones—and the pretty gimp and sleeve ruffles are of white mull.

The value of any accessory which will smarten a rather commonplace waist, and which at the same time may be bought ready-made, is something the home sewer should never forget. Everything from a stock to the tiniest little bow may be bought ready to put on nowadays, the smaller ornamental coming in card form and selling by the dozen. All these ready-made fixings tremendously facilitate the making of a waist, and mere incidental touches, such as bows and eyes, drapes, tapes, etc., are already, so to speak, put on.

Ornamental bodice trimmings are specialties with some shops, and at this time

the most splendid of them are greatly reduced. Among these may be found vast quantities of machine embroidery which are very handsome. These are most often put on bib-fashion, the back of the collar in front—especially if the lower cut is round—and if there are large cuff pieces as well they are placed at the elbows of smart sleeves, even if the arm coverings themselves go to the wrist.

Sometimes beautiful suspenders may be had which a little extra ornamentation or individual arrangement will turn into something quite splendid.

Such a decoration is here demonstrated in the bodice drawing, the gown with which it is used being a Princess model of pale grey veiling and white lace. The suspenders, with their long each ends, and the cuff pieces of the sleeves, are of heavy embroidered ribbon in black and white with faint touches of pale blue. These touches are aided by hand, and around all the decorations there is a piping of pale blue over one of black.

The rosettes placed at the waist are of solid blue.

For theatre and dinner gowns, when it is not desirable to have them cut low, there are delightfully gay little gimpes of embroidered tulle and spangles. These give quite a sparkling touch to a white gown, and if there are long cuff pieces as well or bishop undersleeves, such accessories are precious indeed. With them a gold girdle would be in keeping, made in the simplest form of narrow tulle braid, or solidly of piece tissue or wide ribbon.

Apropos of girdles, a French journal writes of the coming season: "We shall doubtless see a great many costumes such as Madame Roland's portraits depict, which give a shortened line to the waist, and are very becoming to some figures, though they may not be generally worn. The straight front corset will still be worn, and so will the long, slender bodies in Louis XVIII style with large sleeves and a good deal of width around the shoulders, from which fall deep berthes."

Notwithstanding this last advice—which doubtless concerns a single style—there is much evidence in fashion circles that sleeves are to be smaller. The nation's legs employed for tailor gowns are definitely small, and a slight padding at the shoulder stands them up there in quite an antiquated way. More dressy sleeves, some of which are suggested by late models, will run to most artistic drapings, shirtings, puffs, etc. These will likewise show often additional trimmings, lace sleeves, gairlandings of ribbon, rosettes, bows, etc.

He who has a good word for no one cannot have the word of God for anyone.

Many a man thinks he is virtuous because he feels virtuous when he sees others happy.

\$200.00 GIVEN FREE IN GOLD PRIZES

GRAND EDUCATIONAL CONTEST

We offer \$200.00 in gold to those sending in the largest lists of correct words made from the twelve different letters used in spelling the four words:

Armour's Extract of Beef

\$100.00 in gold will be given as the first prize.
 \$25.00 in gold will be given as the second prize.
 \$10.00 in gold will be given as the third prize.
 \$5.00 in gold will be given to each of the next five.
 \$2.00 will be given to each of the next twenty.

CONDITIONS

The only following 12 letters—A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, are to be used in spelling the four words.

No proper names, foreign words or names of persons, towns or places are to be used.

Words spelled the same, but having different meanings, may be used but once.

All contestants must attach to their lists 12 words taken from a list of "Armour's Extract of Beef." Failure to do this puts the list out of competition.

The names of the winners of these prizes will be determined by judges whom we shall appoint.

No list will be accepted that reaches our office later than 8 o'clock, April 30th, 1906.

Write only on one side of the paper. After making out your list, state the number of words it contains, with your full name and address at the top of each piece of paper and mark on the outside of the envelope "Educational Contest Department," and mail to the address as below.

Armour's Extract of Beef is sold by all druggists and grocers. If you cannot or will not supply you, a small jar will be mailed you, post paid, on receipt of 25 cents in cash or stamps.

COMPULSORY SCHOOL BILL IS EXPLAINED BY PREMIER

Educational Matters Took Up the Time in Provincial Legislature Last Night—Mr. Hazen Favors a More Drastic Measure.

Brownville, N. B., Feb. 16.—The house met at 4 o'clock.

Hon. Mr. Swenney presented the petition of the city council of Moncton in favor of the bill.

Hon. Mr. Tweedie introduced a bill to provide for compulsory attendance at school. He said that bill is divided into two parts, the first part dealing with rural districts, and the second part dealing with cities and towns.

Before the act shall become operative a vote shall be taken by the ratepayers at the city or town council in cities and towns. As to rural districts the bill provides that where a majority of the qualified voters present have voted in favor of a resolution that the provisions of the act may be taken at each annual meeting until adopted.

It shall be the duty of the trustees to ascertain the names and ages of all children residing in the district between the ages of seven and twelve years, and to ascertain how many of the children have attended school for the number of days provided by the act.

As a means of enforcing the act in rural districts the act does not provide for the appointment of school officers, but the mode of enforcing it is by making the parents or guardians of children who have been absent from school for a longer period than that limited by the act to pay the sum of \$2 for each child who has attended school during the period of the act.

Provision is made for requiring parents and guardians from this liability if, by reason of delicate health or other sufficient cause, they can show satisfactory evidence of the non-attendance of the children.

Part two of the act, relating to cities and towns, shall be brought into force by resolution of a majority of the city or town council, and when it has been brought into force the board of school trustees are to perform the duties assigned to them by the second part of the act until the adoption of the act has been repeated, which can be done only by a two-thirds vote of the city or town council.

If it is resolved that the act be not repeated, which can be done only by a two-thirds vote of the city or town council.

It is provided that every child between the ages of six and sixteen in the city or town shall attend school for at least 120 days in each school year, unless there is sufficient excuse for non-attendance.

Provision is made that any child more than twelve years of age who passes a satisfactory examination in grade seven of common school work, and any other child more than thirteen years of age who has attended school sixty days during fourteen consecutive weeks in the preceding year, if necessary requires him to work, and who shows that fact to the satisfaction of the board, and obtains a written permission of the secretary of such board for such employment, shall be exempt from the requirement as to such attendance.

The act makes very full provisions for carrying into effect these requirements, and also makes provision for exemption from liability of the parents in case of satisfactory excuse, such as illness or inability of the parents to clothe the children in suitable condition to enable them to attend school.

Penalties are provided for neglect of parents or guardians to send their children to school.

Provision is made that it may be an excuse if children attend a private school where they receive suitable and satisfactory instruction.

The second part of the act provides penalties for enforcing attendance. Provision is made for the consolidation of schools after they had been established, the conveying of children to the Kingston school last year alone cost \$7000, exclusive of the equipment. The school at Kingston cost about \$40 per pupil, while at Fredericton the cost was about \$12 in Moncton \$12, in St. Stephen \$14, and in St. Andrews \$13. This excessive cost was a staggering one. The danger to educational interests by forcing districts not in sympathy to join together was emphasized by Mr. Hart, who illustrated his contention by the case of a district in St. Croix, Charlotte county, where the chief superintendent had gone so far as to recommend the chief superintendent to withhold the county grant because the district did not put the upper and lower districts together.

Mr. Maxwell, in concluding the motion, dealt with the recommendation of the chief superintendent of education for an increase in the county school fund and the increase of the provincial grant to teachers, the latter a matter he (Maxwell)

had continuously advocated for years. It was of vital importance to the province that a high grade of teachers should be secured and retained, but this could not be accomplished so long as our instructions were out of date as far as the law is concerned.

Mr. Hazen said that the statement had been made that the law is out of date as far as the law is concerned. He said that the law is out of date as far as the law is concerned.

BUYERS FOR WHOLESALE HOUSES

Many people were now taking their children from the higher grades of the public schools and sending them to business colleges and commercial institutions to fit them up to enter the busy world of life.

Hon. Mr. Hill concurred generally with Mr. Hazen, but objected to the statement that the school is out of date as far as the law is concerned.

PLAIN TALK (Washington Post). In Washington, not long ago, Andrew Carnegie was in conversation with a friend when reference was made to the servant "problem." Mr. Carnegie mentioned the fact that in many Scotch families the old man-servant is something of an institution. Such a servant usually enters the employ of a particular family when he is a boy, and adheres faithfully to his place for a long time, and resigns only when the infirmities of years crowd upon him. Mr. Carnegie went on to tell the following: "A lady in the north of Scotland had in her employ a crusty old scold, long in the service of her family, who gave her no end of annoyance by an impudently disregard of her instructions. At length, the situation becoming unbearable, the mistress summoned him and said: 'Really, I can stand this no longer. You must seek another place. At the end of the month you leave my service.' 'At these words an expression of grim amusement spread over the countenance of the servant. 'No, ma, my lady,' said he, 'I drove you to the limit to be baptized, I drove you to your marriage, and I'll stand to drive you to your funeral.'"

MORE CHANGES FOR THE I. C. R.

No More Suburban Season Tickets Will Be Issued, but Commutation Tickets Will Be Substituted.

Ottawa, Feb. 16.—(Special)—Hon. R. H. Emmerson is still centering his attention on the intercolonial. Among other things he has decided to abolish suburban season tickets and will issue in their stead commutation tickets the same as is done by other railways. The minister has also decided to change the system of audit and book-keeping and adopt the same system as is now in force on the Pennsylvania road, which is said to be the best in the world.

BRAIN POWER

How it May Be Strengthened and Increased. The brain is a great nerve battery that presides over all the powers and impulses of the human body. Very frequently as a result of poor blood it becomes enfeebled and a general weakness of the entire system follows. No remedy possesses the marvelous brain strengthening power that Ferrero's has demonstrated in thousands of cases. It contains an abundance of phosphorus and iron which are essential in the formation of red vitalizing blood, and in this way supplies the brain with extra power to perform its numerous and important duties. Ferrero's is the best preparation for brain workers, and those inclined to a sedentary life. It improves the appetite, induces good digestion, regulates the bowels, and helps the stomach to do its work. Lawyers, ministers, and those whose occupation entails much thinking and brain labor, will find Ferrero's of immense value, because of its power to stimulate mental activity. Students who take Ferrero's regularly, find it not only clears the brain, and makes it more receptive, but makes them strong in body as well as mind. Very few are so strong and healthy that a course of Ferrero's would not benefit. It is good for the young and old alike, and is prepared in convenient tablet form, price per box 50 cents, or six for \$2.50, sold by all druggists, and N. O. Polson & Co., Kingston, Ont., and Hartford, Conn., U. S. A. Rev. J. Edward Hand arrived in the city yesterday from Middleton (Conn.). Miss Sarah Harrison left last night for her home in Hartford (Conn.), after a visit to her sister, Mrs. Alex. Watson. Adjutant Thompson, of the Salvation Army, arrived in the city last evening from Nova Scotia. A BAD BRUISE. Often causes a good deal of trouble. The best cure is a prompt application of Ferrero's, which instantly stops the pain, prevents swelling, removes all blackness, and restores the circulation. Ferrero's is antiseptic, prevents blood poisoning. No limit to its strength, so penetrating, so swift to destroy pain. You rise a lot of comfort by not using Ferrero's. For nearly fifty years it has been the standard family remedy of Canada.

SCOTT ACT IN ST. JOHN

N. B. Temperance Federation Starting Temperance Campaign.

Temperance workers will meet here on Wednesday next to discuss among other things the advisability of seeking to have the Scott act put in force in St. John. The meeting will be that of the New Brunswick Temperance Federation, and there will be two sessions, afternoon at 2:30 and evening at 8 o'clock, in the temperance hall, Market building. First, the meeting is to complete organization of the recently formed federation, and beside this and the discussion of the Scott act matter, the proposed amendments to the present liquor laws will be taken up. Rev. Thomas Marshall, president of the federation, said yesterday that the situation relative to St. John was in brief that the liquor law in this city must be better carried out than at present. One point in the amendments to the present law suggested to the government is made to prevent the sending of liquor into Scott act counties and this is one of the matters to be discussed at Wednesday's meetings. The general situation in New Brunswick and the future of the campaign into which the federation has started will be talked over. Mr. Marshall said it was likely that in the next local elections in New Brunswick the federation would be found carrying a hand for temperance and moral reform. The federation is made up of representatives of the temperance societies of the province and while Wednesday's meetings will not be largely attended, Mr. Marshall said they will mean much to the cause.

H. G. Hunter, the resident engineer on the water extension, who has been continuing to his room with illness for the past week, left yesterday for Boston to see his physician, and take a few days' rest. THE LONGWORTH-ROOSEVELT WEDDING TODAY

Miss Alice Roosevelt

Nicholas Longworth

Theodore Roosevelt Jr.

The East Room in the White House

Quincy A. Shaw

New York, Feb. 16.—The wedding of Miss Alice Roosevelt at noon tomorrow, in the White House, has excited upon the popular fancy to a tremendous degree. Probably no royal wedding ever attained the enormous mass of comment and publication that the marriage of Miss Roosevelt and Mr. Longworth has evoked. Thousands of columns of newspaper matter has been published. The most trivial details have been elaborated upon with a fulsome nosiness that is, for the most part, in the most execrable taste.

Every little detail about the bride and her husband-to-be has been amplified to the point of disgust. It cannot be denied, however, that there is a great popular interest in the wedding, and it would probably have been impossible to avoid the extraordinary publicity. The bride is the daughter of the amazingly popular president—ruler of what is now one of the great nations.

Roosevelt himself, as his intimate friends know, would gladly have dispensed with most of the fuss. He has done about all he could in absolutely refusing any official information about the wedding except the barest details and most of the gaudy printed imagination. There will be no official list of guests and no official list of presents.

The president also desired that there be no official presents sent from other countries. It is even whispered that if he had had his way the wedding would have been celebrated very quietly indeed. But since Roosevelt has a will of her own, and like most girls would be in her place, is not averse to the great amount of attention she is receiving. She is known among her intimates as somewhat, if not quite headstrong, and her heedlessness has given her father and stepmother some anxious moments.

Longworth is Rich, That's All. In fact the president and Mrs. Roosevelt will both give great signs of resentment when the fair Alice is estrified off their hands. The president was never very enthusiastic about Nicholas Longworth, man about-town, as a son-in-law, but he has accepted the situation gracefully. Longworth is a dilettante, a flatterer, a man of pleasure, not achieving anything, almost that the president is not. He is a fair example of the very wealthy class of young Americans, and he has done more than most of them in making a bluff at public life. He has a barrel of money, and he was himself sent to Congress by Cox, of Ohio, a notorious and venal state boss. He has not taken his congressional duties very

seriously. He is thirty-six, and has seen a good deal of life. Miss Roosevelt is twenty-two, and has seen a few things herself. Probably no bride, unless she were a royal princess, ever received the bewildering, magnificent and costly presents that has poured upon the White House inmate of tomorrow, and probably no bride has ever had her wedding so much talked about.

Washington, Feb. 16.—In the east room of the White House tomorrow Miss Alice Roosevelt, daughter of the president, and Representative Nicholas Longworth of Ohio will be united in marriage. The historic room, which has been the scene of many brilliant events, will be decorated more elaborately than upon any previous occasion, yet with extreme taste. The work of preparing the east room for the wedding continued throughout today, and was practically completed by tonight. Late in the day the wedding was rehearsed in the east room. None but the wedding party was present. The president was engaged at the time in conference with Secretary Bonaparte, and Admiral Sanks at the executive office, and was not at the rehearsal. Nor was Bishop Henry Satterlee, who will officiate tomorrow. Mr. Longworth, accompanied by his box man and the ushers, walked from his home to the White House where they joined Miss Roosevelt and the other members of the wedding party. A large section of the United States Marine Band, under the direction of Leader Santelman, played the music for the rehearsal. Throughout the day express wagons and private messengers were continually arriving at the White House with wedding gifts. Presents have been pouring in constantly for some time from all sections of the country and from almost every quarter of the globe. The presents have

been on exhibition to immediate personal friends of the bride and groom. It is estimated that there will be about 600 guests present, and it is possible that some of the number may have to be placed in the green room, although it is believed by those acquainted with the capacity of the house, that the east room will be sufficiently large to hold all the guests. After the ceremony and the reception of the guests by the bride and groom has been concluded, a buffet wedding breakfast will be served in the state dining room. The White House grounds will be closed throughout tomorrow and none except those who have been invited will be

Representative Longworth's residence at Washington D.C.

COAL MINERS STILL SPARRING FOR TIME

New York, Feb. 16.—The demands the anthracite miners are to present to the railroad and other companies operating the coal mines of the anthracite district were considered today at an all-day session of the sub-committee of seven appointed by the miners yesterday at their conference with the coal president. When the sub-committee adjourned tonight no statement was made as to details considered, nor was any intimation given as to the time the miners will require to properly frame up their case. The sub-committee of seven appointed yesterday by the operators remained inactive today, awaiting the proposals the miners will have to offer. These two sub-committees will consider every detail of the problems affecting the anthracite industry before the full conference of miners and operators is again convened. John Mitchell, president of the Mine Workers of America, would not brook today the silence he has steadily maintained as to the miners' demands, nor would he consent to discuss the embargo in the Pittsburgh district. The action of the miners in Pittsburgh today in declaring the presidency and vice-presidency of the district vacant, brought no comment from Mr. Mitchell for publication. He was in constant communication with the district leaders at Pittsburgh, however, and declared that whatever action he might take in the fight would naturally be made public at the convention, and not elsewhere.

EARNINGS DECREASED

Net Profits of Dominion Coal Co. Have Fallen Off During the Year.

MONTREAL, Feb. 16 (Special).—The net earnings of the Dominion Coal company are shown by the advance copies of the annual statement issued today to be \$1,573,000 for year, as compared with \$1,622,000 for 1905. The decrease is explained by the increased requirements of the Dominion Iron & Steel company, which under the present contract are unremunerative. The balance sheet shows a total surplus of \$2,140,000, as compared with \$1,774,000. Of this \$1,740,000 is written off for depreciation, leaving a net balance of \$386,000. On the capital account there was spent during the year \$470,000, including \$102,000 on cars. It is announced that the directors have deemed it wise to postpone a payment of the dividend on common stock for the present. An additional \$2,000,000 second mortgage bonds are likely to be issued to cover the capital expenditure of the past year and future similar expenditures.

WHEN ALL HOPE WAS ABANDONED

Elisear Cote found in Dodd's Dyspepsia Tablets a Speedy and Permanent Cure for His Stomach Troubles. "I suffered for four years from stomach trouble. I consulted three doctors and they told me that I had Dyspepsia and no remedy would help me." So says Elisear Cote, of St. Hedwige de Clifton, Que. But Mr. Cote found a remedy that those doctors did not know. It was Dodd's Dyspepsia Tablets and it cured him. He says: "Then I quit the doctors and started to take Dodd's Dyspepsia Tablets. After the first box I had no more trouble. It is now two years since I took them and I am well. I do all my own work. I am never tired. That's why I recommend all who have stomach troubles to use Dodd's Dyspepsia Tablets. Dodd's Dyspepsia Tablets digest the food themselves. This gives the overworked stomach a chance to rest and naturally comes back to its normal healthy condition."

THE VALUE OF CHARCOAL

Few People Know How Useful it is in Preserving Health and Beauty. Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose. Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system. Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectively clears and improves the complexion, whitens the teeth and further acts as a natural and eminently safe cathartic. It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh. All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered willow charcoal, and other harmless anti-septics in tablet form, or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey. The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweetened breath, and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit. A Buffalo physician, in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in the stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some cases a patient preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Thomas Crockett, of Riviere du Loup, was at the Royal last night. Mr. Crockett was formerly superintendent of the Lenoirville railroad and is now the largest manufacturer of railroad ties between Montreal and Quebec.

Leading Canadian Physicians Endorse The Canadian Discovery

Fruit-a-lives

DR. FRANKFORD ROGERS, Ottawa, a physician who has enjoyed one of the largest practices in that city, states: "I have no hesitation in recommending 'Fruit-a-lives' or 'Fruit Liver Tablets' as the fact of these tablets being made from a laxative material extracted from ripe fruit appeals, and has appealed to my judgement, and I have used these tablets extensively in my practice and always with most gratifying results. The proprietors of this medicine do not hesitate to furnish the formula of the tablets to physicians, and hence any physician can use these tablets and recommend them without loss of self respect. The formula of 'Fruit-a-lives' is certainly a magnificent one, and in my experience no medicine ever used by me has given such excellent results in constipation and stomach and liver trouble as 'Fruit-a-lives' has. That these tablets act beneficially on the kidneys and skin is beyond doubt and in many cases where the skin was sluggish and inactive and the complexion had 'Fruit-a-lives' have given the most pleasing results." Dr. D. J. COZZOLLO, member of the medical staff of the General Hospital, Ottawa, and who has extensive experience, states: "I have used 'Fruit-a-lives' or 'Fruit Liver Tablets' with most beneficial results in obstinate constipation and biliousness, and found their action mild and non-irritating, and yet more curative than any medicine ever used previously. I strongly recommend 'Fruit-a-lives' to those suffering from these complaints." At all druggists or sent postpaid on receipt of price. 50c a box or \$3 boxes for \$1.50. Calais Schooner Anchores

Newport, R. I., Feb. 16.—The schooner Marshall O. Wells, Captain Lawrence, of Calais (Me.), while leaving harbor today for Fall River, for cargo, struck on a sand spit off the south end of the harbor, and she was still aground at dark tonight, but was lying in an easy position, and no danger was anticipated. An attempt this afternoon to pull the stranded craft off was unavailing, though a tug from Newport and buoyboats from the Cape Cod station tried to get her together. Another effort to float her will be made tomorrow morning. The schooner is of 85 tons and carries a crew of thirty men.

PROVINCIAL SANITARIUM

Medical Men Will Meet the Government on Tuesday—Talk of a Site.

The delegation of medical men appointed to interview the local government on the question of founding a sanatorium for the care of tuberculosis cases, will go to Fredericton Tuesday morning and meet the members of the government in the executive chambers of the department building Tuesday morning.

The New Brunswick medical council met in the capital Monday evening, and the members have been requested to wait over and swell the delegation that will wait on the government and urge the need of a sanatorium being established.

MYSTERY OF LIFE

Large Attendance at Tabernacle Church Last Night—Rev. H. F. Waring's Sermon.

There was a large attendance at the Tabernacle church last evening. Rev. H. F. Waring spoke on "The Mystery of Life."

From the lowest manifestations in God, all life is mysterious. Though if we could get to the heart of the mystery and should find that there all life is the same because of its different manifestations, we may speak of the different kinds. In our present physical condition we are to aim not simply for the development of the physical, but for the dominion of the spiritual.

The future life depends on the present. Death is not an incident in life. When the physical cage is broken at death we sink or rise, as we have grounded in the couplet that speaks Sunday evening on "Character as Capital," and will conduct the services all next week.

POLICE COURT

Palmer Assault Case Heard Again This Morning.

In the police court this morning, Martin Cleave and Andrew Stack were fined \$8 each for drunkenness. Thomas Doherty for being drunk and swearing to the police.

The case of George Palmer, charged with assault on the night of the 15th inst., was continued this morning. The defendant was represented by Stephen Palmer.

Chris. Nichols conducted the case for the defence. He called a young boy named George Meneau, employed by Palmer, as his first witness. Chris. acted as interpreter, as the witness he said, could not speak English.

The witness threw very little light on the subject, and many estimated that he could talk English.

Wm. Lawton was called by the defence and stated that he had seen the defendant in the English language.

It was stated by the defence that a street car conductor was present at the time of the mix-up and that he would testify. The case was then adjourned until twelve o'clock, but up to one o'clock the witness had not arrived.

GREAT SKIT ON "CENTRAL"

The engagement of the New York Opera Company will terminate in York Theatre this evening with the elaborated production of "The Telephone Girl," which is one of the best pieces written of late years.

The caricaturing of "Central" is a regular tit-bit for the audience, and always brings out generous applause. It is in the piece that Jack Henderson does his best of his kind ever seen in St. John.

This afternoon the theatre is crowded with children to hear "Jack and the Beanstalk."

CARNIVAL TUESDAY 27TH.

It will be glad news to many to learn that Tuesday night, the 27th, has been set apart for a repetition of the grand ice carnival held in Victoria Park early this week. The weather last Tuesday evening kept many away.

ANOTHER POSITION

Miss Marie Allen has been selected by the employment bureau of the Currie Business University, Ltd., to fill the position of stenographer for the New Brunswick Telephone Co., Ltd.

PROBATE COURT

Thaddeus J. Scribner and Frederick P. Kirkpatrick, the executors of the estate of the late Jane Scott, filed their accounts on the amount of \$4,000 yesterday afternoon, and presented a petition for the passing of claims.

REMARKABLE HOUSEHOLD

In Consists of Three Members Whose Ages Total 238 Years.

A citizen who returned recently from Johnston, Washademoak, tells of a household there which is remarkable for the age of its occupants, all three of whom are women.

Mrs. R. Hetherington, head of the house, is seventy years of age; while her boarder, Mrs. Mary Ann Starkey, is senior by five years. But most notable of the trio is Mrs. Fairweather, who has seen eighty-three winters and does practically all the work around the house, besides caring for the cows, milking and performing other outside duties. All are hale and hearty in their "weight of years," and although they have indulged in eating during past seasons, the steel blades have never allowed to rest their year on account of the uncertain condition of the ice.

The trio are in excellent spirits and give promise of weathering many winters to come.
