FIGHTING ON LAND STILL PRELIMINARY TO THE BIG BATTLE

KITCHENER'S OPINION IS THAT WAR WILL LAST FOR EIGHTEEN MONTHS

Terse Reply to Question -- Russians Said to Have Five and Half Million Men Placed--The Land Fighting

London, Aug. 14—"Eighteen months," was the laconic reply of Lord Kitchener, when asked, at a dinner given at the Mansion in Belgrave Square last night, to give his opinion on the duration of the war.

PRACTICALLY MARTIAL LAW

What practically amounts to martial law was proclaimed this morning in a special issue of the London Gazette, which gives a long list of new rules for the public. Under these, private persons may not light a fire on a hill; may not spread alarming reports; must, if ordered, keep indoors at specified times; must, if ordered, keep all lights out.

The authorities may order the destruction of any house or property and, finally, the power of court martial is given the authorities in certain cases.

LORD KITCHENER

RUSSIA'S 5,500,000 MEN

London, Aug. 14.—(9.45 a.m.)—A despatch to the Central News from Rome says that, according to reliable information from St. Petersburg, Russia has mobilized 5,500,000 men on the German and Austrian frontiers, half a million on the Turkish and Rumanian frontiers, while 3,000,000 men are held in reserve.

London, Aug. 14.—Today all is reported quiet along the front according to official statements from France and Belgium.

Belgian accounts of yesterday's cavalry encounter, known as the battle of Haelen, give the total of German casualties as high as 4,000 killed and wounded. No German report of the engagement has come to hand.

The Belgian staff believes the German movement at Haelen was an attempt to reach Brussels, which today is stated to be "no longer in danger."

French official reports say the Belgians captured 2,000 German prisoners at Liege and the French have taken 1,500 along the frontier. The Belgian government has requested France to provide places of internment owing to lack of room in Belgium.

Aviators are taking a very prominent part in scouting for the armies in the field and are suffering severely, according to reports. Belgian authorities report the destruction of three German aeroplanes and the death of two of their pilots, while French reports recount the narrow escape of a French aerial scout from German flying machines which hunted him.

GERMANS CONTINUE TO FALL BACK

London, Aug. 14.—An Exchange Telegram from Brussels says that the right wing of the German army is still retreating harassed by the Belgian outposts. During the night several skirmishes accentuated the German retreat.

Germans Routed

Brussels, Aug. 14.—The Belgian war office announced today that a column of 400 German soldiers had been routed by Belgian troops in an engagement at Groot-Bets, in Brabant province, and forced to retreat. This town is directly east of Louvain, headquarters of the Belgian army.

London, Aug. 14.—(12.45 p.m.)—A despatch from Brussels to Reuters' agency says that a battle near Eglise north of Namur, which occurred yesterday at Nouville-Favers on the Namur-Tiremont railroad line, was very keenly contested.

The Germans, according to the despatch, were mostly cavalrymen. They were surprised by the Belgians, and sustained very severe casualties.

The despatch adds that three German aeroplanes flying over Diez, were brought down by the Belgian artillery. Two of the aviators were killed by being dashed to earth, and the third was terribly injured.

Brussels, Aug. 14.—Via London 1.25 p.m.—No movements of importance have taken place since Wednesday's serious engagement between the German and Belgian troops, according to official announcement here today. The communication adds:—"The situation of the Belgian forces remains favorable."

Berlin, Aug. 14.—(Via Rome and London)—No important news as to the war, was made public here today. A special train conveying 300 Americans and five automobiles started for Holland this evening.

Paris, Aug. 14.—An official despatch from Bern, states that a number of German soldiers and their officers sought refuge in Swiss territory after an engagement with French troops.

GERMAN LOSS AT BATTLE OF HAELEN 3,000

Belgians Again Stand the Test and Win Victory

FIRST TIME UNDER FIRE FOR MOST OF SOLDIERS

Success Followed up Near Namur and Enemy Retreat Further -- Brussels No Longer in Danger as Was Feared Few Days Ago

Brussels, Aug. 14.—(Via Paris, 12.25 a.m.)—The German casualties in the engagement at Haelen, Wednesday, were 3,000 dead and wounded. The Germans apparently sacrificed their men without any scruple. During the night, the Belgians fell in droves.

The same carnage occurred on the road from Threux to Haelen, where the German cavalry exposed to the galling guns of the Belgians fell in droves. (Continued on page 2, first column.)

mans and Belgians occurred yesterday between five and six o'clock in the evening at Groot-Bets, five miles south of Haelen. The Belgian troops fired heavily on a detachment of 400 Germans who retired hastily.

In Liege

Brussels, Aug. 14.—News from Liege states that Germans, evidently fearing an attack from the west, have strongly entrenched themselves on the right hand side of the Meuse. In the city itself, also streets are barricaded and machine guns placed so they can sweep the principal streets. On the right bank, houses have been loop-holed and put into a state of defense, in order, if necessary, to cover a retreat of the invading army across the frontier into Germany. Later information is to the effect that the morale of the German soldiers at Liege is very bad and they are completely disheartened by the numerous defeats inflicted on them by Belgians. This message has been severely dealt with by the censors.

On the Vosges

London, Aug. 14.—The Paris correspondent of the Exchange Telegraph Company telegraphs an official statement issued by the French minister of war at midnight. Referring to the fight on the ridge of the Vosges Mountains, he says:—"The French troops held their positions on the mountains for five days, despite vigorous attacks of the Germans who were superior in number. At one point the Germans brought, beside their weakened troops, some formation of reserves, but the latter were unable to resist the French attack, and were obliged to lay down their arms. The entire division surrendered. The French troops held the valley of the Bruche."

Woman Captures Spy

Belgian Headquarters, via Brussels, Aug. 14.—Yesterday the victorious Belgians captured two German spies on motor cars. The retreating Germans seemed to have behaved with great brutality, venting their rage on helpless inhabitants, as they retreated. One plucky Belgian woman was responsible for the arrest of an audacious spy. While traveling in a train towards Antwerp she occupied a seat in a compartment in which was a man who carried a basket containing two pigeons. During the journey the man scribbled some notes on a sheet of paper with a pen and attached it to the pigeon's leg. The bird was then released. Realizing that she had to deal with a spy, the woman bravely attacked him and shouted for help. The guard of the train hurried to the scene and secured the spy and a second pigeon.

Coal Shortage at Honolulu

Honolulu, Aug. 14.—One of the results of the European war felt here is a growing shortage of coal. The British steamer Niagara, which arrived here yesterday from Vancouver bound for Australia, is being held for admiralty orders. The British steamer Marama of the Union Steamship Company's line, is due here today from Australia, bound for Vancouver with freight and passengers.

To Invest Antwerp?

London, Friday, Aug. 14.—The Daily Mail's correspondent in Maastricht, Belgium, says that all the retreating force at Liege is now systematically besieged and bombarded, the Germans having abandoned the idea of taking them by storm. They believe that this will sweep on to Antwerp taking Brussels en route, and have made arrangement for a methodical investment of Antwerp.

The correspondent says the Germans yesterday advanced from Hasselt toward Antwerp. Belgian troops were sent out against them and many were killed and wounded. The Belgians were retreating, and Nieuw and old forts were taken by the Germans.

England and Japan

Tokio, Aug. 14.—Japan and Great Britain, it is said, have not yet reached an understanding concerning Japan's attitude in the war. Lengthy communications have passed between Tokio and London, defining Japan's progress in the crisis, and it is believed touching on Japan's status in the European peace conference at the conclusion of the war.

BRING THE LOCAL REGIMENTS UP TO WAR ESTABLISHMENT

Another Call For "Volunteers--Foreign Service Men of 62nd Began Drill Today

Another call is being sent out for volunteers for the local militia for the home defense and foreign service. All the units in the city are asking for men. Each regiment is expected, according to orders from Ottawa, by secret to war establishment, which is considerably greater than in time of peace. The volunteering will not be ceased until the orders to mobilize at Val Cartier, Quebec, have been issued. It now seems indefinite whether the first orders regarding the provincial mobilization at St. John will be changed, so that the rural corps will train only at Quebec, while the local units will undergo seasoning here.

This morning at 9 o'clock about 110 of the volunteers for European service in the 62nd regiment, paraded for duty at the armory, and active drilling was at once begun, with sergeant instructors from the permanent force, "H" Co. R. C. R. in charge. The artillery batteries, stretcher drill, and other details of the battery stationed at the last night, were also present.

BRING TURKEY TO REALIZATION OF OBLIGATIONS

Allies Take Up Her Purchase of German Cruisers

BUSINESS IS VIOLATION OF THE LAW OF NATIONS

Grave Results May Follow, is View in Italy and That Nation Probably Will Issue a Warning to Turkey

Paris, Aug. 14.—The allied governments opposed to Germany and Austria-Hungary have agreed to bring Turkey to a realization of its obligations as a neutral power in connection with the purchase of the cruisers Goeben and Breslau from Germany.

Rome, via Paris, Aug. 14.—The news that Turkey had purchased the Goeben and Breslau reached here tonight. This new development was discussed with interest in the political circles where it was held that it was fraught with the possibility of grave results.

It was said in semi-official quarters that the vessels would be a strong weapon in the hands of Turkey if Constantinople abandoned neutrality. The belief was expressed that the purchase means a new position on the part of Turkey, and in favor of Germany and Austria-Hungary, which is especially important as bearing on the interests of the Balkan states.

A Fave

The Tribuna says that the preparation made at Messina for a "mobile death" by the officers of the German cruisers who, before sailing from the port, made their wills, left the public unprepared for the fact. Seeing the impossibility of escape from the Anglo-French fleet if they followed their original idea of molesting the transports moving French African troops, the German cruisers sought refuge in the Aegean Sea, where, with the complicity of Turkey which continues to make love to Germany the two vessels contemplated how they might paralyze British commerce in the Mediterranean and interrupt traffic with India.

"But, closely pursued, they had no alternative to taking refuge in the Dardanelles and disarming. Instead Turkey purchased them. This is not considered permissible according to the law of nations. Never has a nation at war sold her own ships, which already had been used against an enemy. During the Russo-Japanese conflict many Russian ships entered Chinese and American neutral ports, but they were disarmed and there awaited the end of the war."

Italy to Act

London, Aug. 14.—A despatch to the Daily News from Rome says: "Italy probably will demand an explanation as to the future use of these ships, and also warn Turkey that she will not allow the equipment of the lower Mediterranean to be threatened, as Italy is determined to prevent complicity."

CHANGE OF STEAMERS.

A slight accident to the Eastern Steamship Corporation's steamer Bay State, on the Boston to Portland route, necessitated the taking of the Governor Dingley from the St. John route for a few trips to take the place of the Bay State. In the meantime the North Star is taking the sailings of the Dingley.

It is reported that Dr. Karl Liebknecht, German Socialist leader, has been shot for refusing military service.

REPORTED FIGHT IN SOUTH CHINA SEA AND GERMAN VICTORY

Other Cables Say German Fleet There is Cornered by The British --Again Rumor From North Sea

Shanghai, Aug. 14.—A naval battle has been fought in the South China Sea, and has been won by German warships, according to reports received here. Two warships carrying many wounded and showing marks of a severe engagement, limped into Hong Kong today. The reports telling of their arrival did not identify them definitely, but they are believed to be either the British cruisers Hampshire and Minotaur or the French cruisers Duplex and Montcalm.

The German ships with which they are said to have engaged in battle are believed to be the cruisers Gneisenau and Scharnhorst.

Each carries eight 8.2 inch guns and the cruiser equipment of smaller guns. The Hampshire is a less formidable craft. Her tonnage is 10,850, and her four largest guns are 4.75 each.

The Duplex and Montcalm are of 7,578 and 9,367 tons respectively. Each carries eight 6.4 inch guns and smaller ones. The German cruisers Scharnhorst and Gneisenau are sister ships, displacing 11,420 tons. They were launched 1906.

Shanghai, Aug. 14.—A despatch from Hong Kong, received by the Exchange Telegraph Company in London last night, said it was reported in Hong Kong that the British fleet in the Far East had cornered the German Far East squadron. The correspondent added that weight was given to the report by the fact that shipping along the coast was being resumed on a normal basis.

The British cruiser Monarch has a displacement of 14,600 tons and was completed in 1908. She carries four 9.2 inch guns and smaller armament. The Hampshire is a less formidable craft. Her tonnage is 10,850, and her four largest guns are 4.75 each.

The Duplex and Montcalm are of 7,578 and 9,367 tons respectively. Each carries eight 6.4 inch guns and smaller ones. The German cruisers Scharnhorst and Gneisenau are sister ships, displacing 11,420 tons. They were launched 1906.

A BRIGHTER VIEW

London, Aug. 14.—A despatch to the Chronicle from West Hartlepool says that the captain of the Danish steamer Hvidsten declares that he passed seven sunken German ships fifteen miles off Spurn Head, at the northern entrance of the Humber. Only the masts of the vessels were visible above the water, but the captain believes they were German cross-seas.

ANOTHER RUMOR OF NORTH SEA FIGHT

London, Aug. 14.—A despatch to the Chronicle from West Hartlepool says that the captain of the Danish steamer Hvidsten declares that he passed seven sunken German ships fifteen miles off Spurn Head, at the northern entrance of the Humber. Only the masts of the vessels were visible above the water, but the captain believes they were German cross-seas.

Gallant Act of Belgian Lieutenant

London, Aug. 14.—The Daily Mail's Brussels correspondent sends the following:—"Lieut. Van Dooren is the hero of a thrilling episode at Grand Zelic, Belgium. The village was being threatened by the Germans and the Belgians could not spare troops, so Lieut. Van Dooren went by motor car to Grand Zelic, hid in a dyke, and crawling along it until he was only a few feet from a German battery, jumped out and shot the officer in command. He was then about 600 yards from his own men. Next he caught the horse of the officer and galloped back to the Belgian lines amid a hail of bullets. The horse was hit but the lieutenant escaped unhurt."

WHEAT TAKES DROP THE WAR AND SHIPPING MATTERS

Chicago, Aug. 14.—Wheat slid down in price today owing largely to a decline in Liverpool. The fact that earlier quotations across the water were due in part to advices of two steamers having sailed for England from American ports and of prospects of further sailings in the immediate future was ignored. Demand here was lacking, regardless of reports that farmers were storing wheat instead of selling. The opening, which was 4-1/8 lower was followed by a decided further drop.

Quebec, Aug. 14.—No information is available since last night as to the position or destination of ships leaving the river or entering the straits or gulf. The signal service of the marine department has been instructed to give no information whatever except to the military authorities who now control the signal service.

Fear of detection of ships through spies informing hostile battleships of the route of prize boats, caused this decision.

London, Aug. 14.—A wireless despatch received at Falmouth from the American line steamer St. Paul, which left New York last Friday for Liverpool, said the steamer was due to arrive at her destination tonight.

Washington, D. C., Aug. 14.—Amendments to the shipping law, designed to open the American registry to foreign ships in the European crisis, as agreed upon by house and senate conferences today, have the approval of President Wilson. White House officials said today he would promptly sign the bill.

MUTINY ON GERMAN STEAMER IN SOUTH

Rio De Janeiro, Aug. 14.—A mutiny broke out among the crew of the German steamer Bluecher which, after sailing from this port for an unknown destination, returned a short time later. The local police were called on board to quell the disturbance, the reason for which has not been divulged.

Lying in the port of Pernambuco, are several German liners, with 5,000 German steamer passengers on board. The captains fear to proceed owing to the danger of capture by British warships.

CARRANZA'S MEN MAY OCCUPY CAPITAL OF MEXICO TOMORROW

Mexico City, Aug. 14.—It is reported that an advance guard of 1,000 constitutionalists will enter the city to guard the foreign legations. It is said unofficially that the army of occupation will enter the city Saturday.

THE QUESTION OF THE EXHIBITION

There has been considerable talk about the city in regard to the possibilities of an exhibition here this fall, and some city business men, as well as some from country districts, have expressed an opinion that St. John should follow the example of Halifax and call the fair off. When asked about the matter, this afternoon, Richard O'Brien, president of the Exhibition Association, said that the directors had met and decided that there was no reason why the exhibition should not be held, particularly as public opinion seemed to be in favor of it.

GERMAN LOSS AT BATTLE OF HAELEN 3,000

(Continued from page 1.) The German infantry and cavalry had a similar reception near Colfaekien. The success of the Belgian arms is considered particularly important here, as most of the Belgian troops participating had not been under fire before.

The situation, which was somewhat critical Tuesday morning, when the German patrols had arrived close to Brussels, was held to be rapidly improving from the standpoint of the Belgians twenty four hours later.

The victory described above was followed by new and successful engagements near Noville-Taviers and Egebe about nine miles north of Namur on Wednesday and Thursday. These operations proved that the Germans are retreating further and that the allies being steadily reinforced, are resolutely pushing ahead.

Brussels is no longer in danger, but the situation a few days ago was such that the eventuality of its occupation by the Germans was considered.

London, Aug. 14.—The Daily Mail's Brussels correspondent describes the engagements which have passed another good test. He says that an intermittent fire of heavy guns was audible all morning.

Montreal, Aug. 14.—The Daily Mail's correspondent in Brussels wired late last night that Germans again advanced along the road to Diest in an attempt to retake the machine guns and field guns which they had lost and that they were again driven back with serious losses.

General De Sellers, chief of the Belgian general staff, has arrived in Brussels to inform the authorities of the day's success. Some Germans who were captured thought they were fighting the Bulgarians. The only German prisoner who seemed to know he was in Belgium was a sergeant.

WOODSTOCK BASEBALL PLAYER INJURED Woodstock, Aug. 14.—Goring Ood of the Woodstock team, was seriously injured yesterday in a ball game between Woodstock and Houlton, was taken to the hospital last evening. He will recover.

THE WAR

Were in Danger. Montreal, Aug. 14.—It was reported here today that a squad of the Fifth Royal Highlanders on guard about the Soutanges Canal at Cedar Rapids, fired upon a party of six men who approached the guard last Monday night.

Canada May Get It. Montreal, Aug. 14.—The small freighter Resowal, from Antwerp, landed a Belgian aeroplane at Quebec yesterday for a man named Landry. It has been suggested that the government may take over the flyer for military purposes.

Austrian Steamer at Quebec. Montreal, Aug. 14.—The Ida, of the Austro-American line, has reached Quebec with a cargo bought and paid for by Canadians. The ship is held there and may be seized, but it is expected the cargo will be taken out and delivered.

Consulate Closed. Montreal, Aug. 14.—The Austro-Hungarian Consulate here was closed this morning. The staff was dismissed and the doors locked. Consul Hahn von Hannehheim says he does not know whether or not he will attempt to reach his own country by way of the United States.

REPORT SAYS GERMANS HANG CIVILIANS WHO ARE CAUGHT FIRING ON THEM The Belgians behind the barricade opened a murderous fire, and all the dragoons were either killed or captured. The Germans then tried to reduce the resistance at this point by a cross fire from a battery but after an interval ceased firing and, owing to similar repulses on other positions on their front, withdrew in disorder, according to some accounts, to the other side of River Gette.

Only two Belgians were wounded. In front of the barricade the dead Germans lay like a hedge. London, Friday, Aug. 14.—The Daily Mail's correspondent in Brussels wired late last night that Germans again advanced along the road to Diest in an attempt to retake the machine guns and field guns which they had lost and that they were again driven back with serious losses.

CHOOSING NAVY MEN IN CANADA FOR SERVICE

Rear-Admiral Kingsmill, who is busy in Toronto choosing Royal Navy recruits and ex-naval men for active service.

RECRUITING FOR NIOBE HAS CLOSED Notice has been given by the Naval Authorities that recruiting for the cruiser Niobe has temporarily closed. Inquiries at the dockyard elicited the information that the present status of the Niobe was as a volunteer training ship for the navy; men would be trained as they progressed. There was a good response to the call for volunteers and there are at present at the dockyard a large number of men under training. It is not definitely arranged when the Newfoundland reservists will join the ship.

GERMAN PRISONERS More Than 400 at Champigny on the Way to Poitiers Paris, Aug. 14.—Yesterday fifty Uhlans, prisoners of war, passed by Champigny on the way to Poitiers. To judge by their expression the Kaiser's soldiers did not seem at all distressed by their fate and grinned broadly when caricatures of the German Emperor were shown to them.

CHANCELLOR ADMITS GERMANY WRONG

London, Aug. 14.—English refugees from Berlin brought along a Berlin newspaper containing a report of the German chancellor's speech in the Reichstag on August 4, a speech that newspapers outside Germany did not get, but showing the subtleties of the German's campaign plans. The speech reads in part: "We are now in a state of necessity, and necessity knows no law. Our troops have occupied Luxembourg, and perhaps we are already on Belgian soil. That is contrary to the dictates of international law. It is true that the French government has declared at Brussels that France is willing to respect the neutrality of Belgium as long as her opponent respects it."

"We knew however, that France stood ready for invasion. France could afford to wait, but we could not wait. The French government upon our flank on the Lower Rhine might have been disastrous. So we were compelled to override the just protest of the Luxembourg and Belgian governments."

"Anyone who is threatened as we are threatened, anyone who is fighting for his highest possessions, can have but one thought—how he is to hack his way through."

ARTILLERY BRIGADE OF KINGSTON OFFERS SERVICES TO A MAN

Royal Canadian Horse Artillery Ask to Be Sent to Front as a Unit. Kingston, Ont., Aug. 14.—The 9th Brigade, Canadian Field Artillery, led by Lieut.-Col. Rathburn, and composed of the 9th Battery, Kingston, 8th Battery, Ganouque, and the 84th Battery, Belleville, have been ordered to Valcartier training camp. The Royal Canadian Horse Artillery in command of Lieut. Col. Paine, D. S. O., will also leave at the same time.

The 9th Brigade will go about 200 strong. It is understood that every officer in the brigade, together with a majority of the men, have volunteered for foreign service. The brigade may retain its identity.

The R. C. H. A., both A and B Bats, have recruited up to war strength, and it is said that the officers have sent in a request to the militia department to be sent abroad as a unit. Every officer and man in the brigade has petitioned the government to be sent on the first contingent.

According to a high military authority here, it is expected that the Canadian contingent after a short training at Valcartier, will be sent to Aldershot for a two months' training before they are sent to the front.

EUROPEAN WAR IS BOUND TO ADVANCE PRICE OF SUGAR

World's Output 16,000,000 Tons, and 50 Per Cent. is European Beet Sugar

(Montreal Financial Times) The European war will, in the opinion of Canadian sugar experts, exert an immediate and far reaching effect upon the world's price of refined sugar.

Then there is the direct risk of war and probable devastation of thousands of acres of beets by the war armies of the Continent.

There is hardly a shadow of doubt that war will curtail the production of beet sugar culture and from the growth and harvesting of the new crop to begin in October of this year.

Back in the Franco-Prussian war of 1870 the beet sugar production of Europe was but 1,000,000 tons. Today it is more than five times greater and has increased two or three times as fast as the growth in population.

Back in 1911 and 1912 when sugar went to 3 1/2 cents in this country, there was a large shortage in the European about 2,000,000 tons, a decline of nearly 25 per cent.

It would not require a very great prolongation of the war to cut down the 1914-15 European beet-crop by 20 per cent. to 25 per cent. and the question then arises how high would sugar go here? Some very good judges say that three cents would look low.

There are other factors working for high prices for sugar in the United States than the European war. There is a drought throughout the West Indies. There will almost surely be some shrinkage in the 1915 Cuban crop of sugars. Call it 10 per cent. and it would amount to 200,000 tons, a total ample large to profoundly affect American consumptive demands and put sugar up. Then there is an assured shortage of 100,000 tons in the Java crop, bringing that to 1,550,000 tons. At times Java sugar sugars are imported directly into New York and Boston.

In the United States there is every reason to believe that the decrease in the beet crop of the different states will fall aggregate 75,000 to 80,000 tons. Estimates vary between these figures. The Louisiana crop will be 28 per cent. less than last year, a cut of 60,000 tons. The Louisiana shrinkage and the smaller domestic beet sugar crop are both the direct outcome of the lowered tariff.

For probably the first time in the history of Independence Hall in Philadelphia the bell in the old tower was tolled on Monday in honor of a woman. In memory of Mrs. Wilson the bell was rung at one-minute intervals for fifteen minutes, beginning at two o'clock.

VIRGINIAN REPORTED Steamer Virginian, inward bound, was off Cape Race at 6 o'clock this morning and is due at Quebec at 3 p. m. Saturday.

GOING TO THE FRONT Irving D. Appleby, of Nauvogueville, who has been owner and manager of the Appleby farm there, has transferred his interest to his brother, Clyde H. Appleby. The former has volunteered for active service with the Canadian contingent as a member of the staff of No. 2 Signalling Co., and will likely leave for Quebec in a few days.

COME AGAIN After a most enjoyable stay in St. John the visiting Sir Knights of St. Omer's Commandery, Knights Templars, left this morning on the steamer North Star, of the Eastern S. S. Co. line on their return to Dorchester, Mass. They formed in line in front of the Royal Hotel, their headquarters during their stay, and with their band leading paraded to the pier. Local Knights accompanied them. All the visitors expressed themselves as delighted with the trip, and heartily praised the hospitality of the local members.

SUGAR UP AGAIN The day that sugar does not advance in price is an exception. The wholesale grocery markets now. It went up another 50 cents a hundred today. Molassee, gone up five cents a gallon. Granulated combed has gone up fifty cents and salt twenty-five cents a sack. Sugar today is \$7 wholesale here, and \$7.50 in New York.

ST. STEPHEN RECRUITS (St. Croix Courier) Captain Geo. P. Ryder, of Company F, 71st Regiment, called for volunteers for service on Saturday and met with a ready response.

Volunteers for service in Canada and elsewhere for service abroad were asked for and seventy in all responded and passed the examination.

Captain Ryder has decided to accept, for the present, only those who volunteered for service wherever wanted, the list being composed as follows: Lieut. G. Stewart Ryder, Frank H. Ryder, John P. Ryder, Christopher McKay, Chester M. Russell, Chas. Worth, James H. O'Brien, Robert E. Miller, Cecil H. Bailey, Edward J. Boyd, Albert McWha, Chester McLaughlin, Colin P. THE WAR NEWS.

The German armies have been held in check for still another day, or at least they have not during the last twenty-four hours gained any important advantage. The splendid resistance offered by the Belgians continues to be the great feature of the campaign in their country. Last night's cables show that the correspondents are still in some doubt as to the immediate objective of the German campaign, but there appears to be a general agreement that the first great battle will be fought on the Belgian territory. There is no reason to doubt the report that in the engagement at Haelen yesterday the German attack failed completely and the German troops were compelled to retreat in disorder. It is also reported, however, that a German army has been massed for attack upon the Belgian defences between Liege and Louvain. It is feared that the Germans will violate the neutrality of Holland by attempting to force their way into Belgium by that route. A Dutch army has been massed on the frontier as a precautionary measure, and it is also said that a considerable area has been flooded by opening the dykes to prevent the passage of German troops. The German guns continue to pound the forts at Liege, and the fear is expressed that the latter may run short of ammunition and fall into the hands of the enemy. Thus far, however, they are safe, and are being defended with the remarkable bravery and determination which have marked the Belgian soldiers throughout the campaign.

of Austria has been one of struggle between contending races, and there have always been elements of disintegration, which still exist, and which may be expected after the close of the present war to change once more the map of the Austro-Hungarian Empire. Last night's cables reported serious disaffection among the Austrian troops of different races in Bosnia. This is a condition which is likely to become more aggravated as the war progresses.

THE COST OF WAR.

Professor Charles Richet of the University of Paris has given the following estimate of the armed forces of Europe in case of a general war.

Table with 2 columns: Country, Men. Austria 2,600,000, England 1,400,000, France 8,400,000, Germany 8,800,000, Italy 2,800,000, Rumania 800,000, Russia 1,000,000. Total 25,800,000.

Professor Richet also estimates that the cost of a war in which these nations would be engaged would be in the neighborhood of \$50,000,000 a day. This would include the food of men and horses, the pay of the soldiers and the workmen in arsenals and forts, transportation of men and provisions, expenditure for ammunition and equipment, loss of trade, destruction of towns and help for the poor. Whether this estimate be anything near correct or not, it is perfectly obvious that to keep millions of men in the field with a daily great destruction of life and property must call for an immense expenditure of treasure. When to this is added the cost of naval warfare, the general effect of a prolonged struggle upon the world's finances must be of a world-blighting character. Lieut-Gen. Nelson A. Miles, the great American soldier says:—

"I entirely agree with those who predict that this will be one of the bloodiest wars of all history, and that it may very probably be the last great war." He adds that the war debts simply cannot be borne by the people, and that this gives reason for the hope that the day will come when a congress of nations will be established for arbitration, to which all nations will be obliged to submit their differences.

THE ROADS TO FRANCE.

To understand the plan of the German campaign against France it is necessary to know that there are three great routes leading from the Rhine, which is the base of German operations, into France. The first of these starts at Cologne, crosses the Belgian frontier and ascends the River Meuse from Liege, to enter France by a natural gap between the head waters of the Rivers Oise and Sambre. The distance from Liege to Paris by this route is about one hundred and ninety miles. If the Belgian forces should be driven back from Liege they would concentrate at Namur, where it is said they have already been reinforced by French troops, so that the capture of Liege would not by any means clear the way for the German army to enter France. It must fight every inch of the way.

The second natural route to France starts at Coblenz on the Rhine, and proceeds along the valley of the Moselle River to the border of Luxembourg. Crossing Luxembourg it enters France by a gap at Longwy; but is then confronted by a line of French fortresses along the River Meuse of which Verdun is the most important in that vicinity. The third route starts at Mayence, and runs to Strasbourg, whence it turns west toward the French frontier, crossing near Lunéville and Nancy; but behind these towns are the French fortresses of Epinal and Toul. This route passes through Alsace. It is by these three routes the German armies are now endeavoring to invade France, and here will take place the first great battles of the war.

Montreal Mail.—After this war, the ranks of the Canadian militia ought to be gone over and cleared of those who join merely to parade the streets or to win prizes for shooting. Better a small militia, well trained, than a large number of poseurs.

A Montreal paper says:—The grain situation in port continues to become worse. A record number of thirty-seven lake steamers, with more than 2,000,000 bushels of grain were in the harbor of the canal yesterday, waiting to unload their grain into the elevators. This could be done but slowly, as few ocean liners were loading.

No Sign of Incendiarism

A board of inquiry, consisting of F. P. Gutelius, general manager; J. T. Halsey, superintendent and L. R. Ross, terminal agent, all of the Intercolonial Railway, together with Chief of Police Clark, started an investigation into the L. C. H. elevator fire yesterday. It will be continued this morning. Mr. Gutelius said last night that, from the evidence submitted, he did not think that incendiarism was the cause. He said the total loss would be in the vicinity of \$400,000. No plans could be announced as to the reconstruction of the elevator but Mr. Gutelius said that temporary repairs would be made to the station immediately.

Two little boys, brothers and inseparable comrades, look so much alike as to arouse frequent comment. "Are you little fellows twins?" recently asked a pedestrian meeting them in the park. "No, sir," the oldest answered, after a moment of thought, "we're Methodists."

A young artist once persuaded Whistler to come and view his latest effort. The two stood before the canvas for some moments in silence. Finally the young man asked, timidly: "Don't you think, sir, that this painting of mine is—well—tolerable?" Whistler's eyes twinkled dangerously. "What is your opinion of a tolerable egg?" he asked.

A young practitioner appeared before a pompous old judge, who took offense at a remark the lawyer made criticising his decision. "If you do not instantly apologise for that remark," said the judge, "I shall commit you for contempt of court." "Upon reflection, your honor," instantly replied the young attorney, "I find that your honor was right and I was wrong, as your honor always is."

GARDEN PARTY.

A garden party was given on the grounds of Mr. Grant, Wall street, yesterday afternoon and evening under the auspices of the Ladies' Aid of the Zion Methodist church. The arrangements were in charge of a committee composed of the following members of the society: Mesdames McFarlan, Pendleton, McLean, Keithlen, Cameron, Carr, Champion and Colpitts. These ladies also acted as waitresses. The candy table was in charge of the Misses Doris Chapman, Helen Keithlen, and Hazel Pendleton, and the ice cream booth was looked after by Mrs. Keithlen and Mrs. Bailey. About three hundred attended the pleasant function and it proved a financial success. Tea was served by the ladies from 6 to 8, on the many tables that were strewn around the spacious grounds, which were very daintily decorated for the occasion with bunting and flags. Several of the tables were hidden in little arbors, that are situated at different parts of the lot, and presented a very pretty scene to the eye. After supper was served by the ladies the usual games were enjoyed by the merry-makers. The ladies of the aid wish to thank Mr. Grant for his generosity in loaning to them for their party his spacious and well-laid-out grounds. The party returned to their homes about 9 o'clock.

Rioters to Stand Trial. William Edlinton was the first of the alleged rioters in the recent strike to be committed for trial. He was brought before Police Magistrate Ritchie yesterday afternoon. He had previously pleaded not guilty. His counsel, Francis Kerr, had nothing to say other than to remind the court of the prisoner's plea, which was committed.

Thomas Shannon and William Chambers, two others arrested on similar charges, were also brought in. Policeman Ward testified against each. He told of seeing Shannon throwing stones, and he also saw the other man in the crowd. Neither Shannon nor Chambers had anything to say. They were remanded.

girdle at the front. At the back it may be finished in either square or round effect. Lapels and cuffs are of satin to match the hem of the foundation, but the collar may be of plain silk or linen. To make the suit requires 4 yards of 36-inch material, with 2 1/2 yards of 36-inch material for the trimming. The braid does not extend around the back of the coat, but 8 yards 3/4 inch wide will be required for the decoration of bolero and tunic.

Although the effect is exceedingly simple, the cutting of the jacket is difficult because of the importance of preserving the lines. This novice can soon

give to the design an amateur appearance by taking liberties with directions. First the material should be folded evenly. The front back and sleeve section, marked "A," is placed on a lengthwise fold with the collar just to the left of it. The cut is arranged on a lengthwise thread. For the short, straight back, instead of the round effect, the lower part is cut off as indicated by small "o" perforations. The under-arm and sleeve seams are now closed as notched, leaving under-arm seam free below large "o" perforation. Press seams carefully with a hot iron, but do not stretch. Place sleeve placing "T" on small "o" perforation and tack. Press front, creating small "o" perforations, bring folded edge to 1 inch inside of double "o" perforations; roll over on outside of double "o" perforations for rows. Center-front indicated by large "o" perforation at lower edge.

Close cut seam as notched to small "o" perforation; sew to sleeve as notched. Sew either collar to neck or to shoulder, as attached, roll collar as desired.

Stitch on braid and sew in lining; then attach fancy buttons or any other desired decoration.

HOW GUTELIUS RUNS THE I.C.R.

General Manager Before Dominion Commission

COL. LOGGIE A WITNESS

Describes Crown Lands Leasing System - Commission Off To Fredericton This Morning

General Manager F. P. Gutelius, of the Intercolonial Railway, was the chief witness before the Dominion Royal Commission at its last session at St. John board of trade yesterday afternoon. He and Col. G. T. Loggie were the only witnesses of the afternoon. Both had prepared summaries of the work of their departments for submission to the commissioners and they were examined on these by the members.

Mr. Gutelius gave an historical resume of the government lines including those of Prince Edward Island with dates of their acquisition, length, etc. The statement went on:

"The management of the Canadian government railways is vested in the minister of railways and canals, who is responsible for their proper administration to the federal house at Ottawa.

"The active operations of the government railways are conducted by a general manager, with offices at Moncton (N. B.), who supervises and directs all departments of the railway service, and who has powers usually vested in the executive of railway corporations, subject to the provisions of the government railways act.

"Departments are: traffic, transportation, engineering, accounting, legal and claims, mechanical, purchasing, stores, tie and timber, fuel.

"Directly responsible to the general manager is a general traffic manager, with charge of freight, passenger, baggage, parlor, sleeping, and dining car departments, and tolls and charges affecting the revenue of the railways, and general superintendent, with charge of all the railways, property and in charge of, and responsible for, the safety and efficiency of the transportation operation thereof.

Others responsible to the general manager were the chief engineer, comptroller and treasurer, general solicitor and claims agent, superintendent of rolling stock, purchasing agent, general storekeeper, general tie and timber agent and general fuel agent.

Answering Mr. Tatlow Mr. Gutelius said that he consulted the minister of railways only so far as capital expenditure was concerned and important exceptional circumstances. For the rest he was in the position of the executive officer of the board of directors in an English railway company. The Intercolonial Railway had in the last four or five years paid its way if interest on the capital were left out of the reckoning.

"That is you are paying your running expenses only," asked Mr. Tatlow.

"Practically," said the witness.

"Are any regulations made for the control of the expenditure out of revenue on capital account?"

Bettering the Road.

"We are devoting any surplus of the gross earnings to improvements and betterment of the road."

"By betterment do you mean capital expenditure?"

"It is very difficult to draw the line between them and it is not drawn very closely."

The general manager also answered many questions on the routine work of the government undertaking saying that they were now strengthening the bridges, putting in heavier rails, 85 lbs. to the yard as against 80 lbs. to the yard and doing various work of what he insisted in calling "betterment."

"Do you ever get any criticism of the policy of the management," asked Sir Jan Laugerman.

"Oh, yes, plenty, but it usually comes from the opposite political party."

"Is it not possible that the working of the line is interfered with by political party policy," asked Mr. Lorimer with a pointedness that was quite Scottish.

"Well, I don't see how two ministers of railways of differing political parties should not have the same railway policy," was the answer.

Details were then given of the wages paid, of the hours an dthe system of pensions by deductions from wages in vogue on the line. Mr. Gutelius said that in minor matters the employees of the government owned railway got advantages in the way of overtime and free transportation that were not given by the company owned lines of the dominion.

Mr. Tatlow—Is your wage bill bigger in proportion than the others in Canada?

"It is."

Col. Loggie's statement was an interesting one and the members of the commission seemed impressed with its value. In fact there were few questions in ad-

Visitors Were the Hosts

The visit of the St. Omer Commandery, Knights Templars, to St. John was brought to a fitting close last evening with a banquet at the Masonic Hall. F. B. Crane was toastmaster and excellent speeches were delivered by Mayor Frink, George R. Kennedy, Dr. W. B. Wallace, J. Herbert Crockett and Guy S. Ham. George L. Stark, on behalf of the visitors presented a cut glass punch bowl to Laibson Thompson. Major McKean and Ralph March contributed to the programme and D. Arnold Fox was accompanist. The St. Omer band rendered several selections during the evening.

LA MARQUISE MADE FONTENOY

The Story of Austria's Wars—A Severe Rebuff—A Motto of Wide Application

Emperor Francis Joseph's manifesto to his people on the subject of the declaration of war against Serbia, has a pathetic note in it, for he was anxious to finish his days in peace, and had used his power and influence often to preserve it.

He has witnessed many wars, and is the oldest officer now living who can boast of having commanded an army in the field. He received his baptism of fire in the battle of Santa Lucia, prior to his accession to the throne, when barely eighteen years of age, while serving under Field Marshal Radetzky. His advent to the crown only a few months later found Austria in a state of insurrection, Vienna in the hands of the rebels, and the imperial family and court in hiding within the walls of the stronghold of Olmutz. His first task was to recapture Vienna, which was accomplished only with a good deal of bloodshed, and then he found himself confronted by the revolution of all Hungary, which was crushed with no little difficulty, with the assistance of a Russian army. Four years later his troops occupied the Wallachian principality, and it was his ultimatum to Russia, in December, 1853, that compelled Emperor Alexander II. to come to terms and thus bring the Crimean war to a close.

In 1859 Austria was once more at war with France and Italy. After the first Austrian defeat, Francis Joseph hastened to the front, assumed control of the army, and commanded in person at the great battle of Solferino.

In 1864 Austria joined Prussia in the war upon Denmark, to compel the latter to surrender the duchies of Schleswig and Holstein to the father of the present German Emperor, in accordance with the decree of the German Confederation, and two years later Emperor Francis Joseph found himself engaged in war against both Prussia and Italy. The last campaign after that, until the declaration of the war with Serbia, was that which the emperor had to undertake thirty-four years ago in order to establish his hold upon the Ottoman provinces of Herzegovina and Bosnia, which had been assigned to his care and administration by the Congress of Berlin of 1878. It was an occupation which was vigorously resisted by both the Modern and Serb population.

The wars of 1859 and of 1866 were disastrous to Francis Joseph, for in the first he lost his Italian province of Lombardy, and was compelled to submit to the dejection of the Hapsburg dynasty, and the annexation of the latter to the kingdom of Italy, while the war of 1866 cost him the city and province of Venice, which, although he had defeated Italy at sea and on land, he was obliged to the battle of Sadova, to abandon to the late King Victor Emmanuel.

Neither defeat nor loss of territory has ever interfered in the slightest degree with the affection of the Austrians for their emperor. Indeed, the popular manifestations of loyalty have always been particularly pronounced whenever the Austrians had some great sorrow or distress, and Napoleon III., one day commenting on this, declared that Francis Joseph was the only monarch in Europe who did not risk losing his crown through the defeat of his arms, and who could afford to return to his capital after suffering military disaster, assured of a more affectionate welcome than ever by the population.

When Napoleon III. was defeated at Sedan in 1870 his subjects, especially the inhabitants of Paris, overwhelmed him with acclamations, and promptly proclaimed the downfall of his throne, the exile of his dynasty, and the establishment of the present republic.

A Deadly Rebuff. Lady Barclay, who was arrested the other day at Buckingham Palace, while endeavoring to force her way into the presence of the king, in order to place in his hands a letter from Mrs. Pankhurst, is the wife of that Sir Thomas Barclay with whom in 1908 the subject of so remarkable a notification by the English Foreign Office. Sir Thomas, who is so well known in connection with his imposed work on behalf of international arbitration and peace, had given both the crown and government in England a good deal of trouble and annoyance by the impression which he was able to create abroad, that he had some warrant for speaking in behalf of one and the other. The notification issued by the Foreign Office in behalf of Edward VII. to the English and foreign press, ran as follows:

"A Vienna newspaper has published the account of an interview with Sir Thomas Barclay, in regard to the present political situation, in which it is said that he is in the special confidence of the king. The Foreign Office has no information as to the authenticity of the newspaper account, but is authorized to say that any statement made by Sir Thomas Barclay can only represent his personal views; that he is not in any way in the confidence of the king, or of His Majesty's government, and that the king is not even personally acquainted with him."

Sir Thomas, who was knighted while president of the English Chamber of Commerce in Paris, regards himself as one of the chief authors of the Anglo-French alliance, a view which is not shared either by his sovereign or by the English government.

Would Sell Many The London County Council, which is now the supreme authority of the British metropolis, (comprising twenty-nine boroughs, each headed by a mayor, the smallest of the boroughs being the City of London, presided over by the Lord Mayor), has recently adopted a coat-of-arms, and is now engaged in the selection of a suitable motto. The one recommended by the general purpose committee

USE THE WANT AD WAY

mitter is Loci duleo no atitit. "Th sweetness of the place holds us." It taken from Tacitus, who, referring to the withdrawal of the Romans under Suetonius from London, in the reign of Queen Boadicea, speaks of the "sweetness of the place" and of the reluctance of the Romans to leave the city.

It is understood that this motto will be adopted, and will be included in the armorial bearings which King George is now about to sanction.

But there are already some who attribute a double meaning to the motto and who insist that it will be construed as referring to the fondness of the citizens for office and their reluctance to surrender it.

CHILD FALLS 45 FEET; ONLY SLIGHTLY HURT

Boston, Aug. 13.—Ana Monaco, aged three years, of 91 Prince street, had a remarkable escape from death at noon when she fell forty-five feet and escaped with only a broken nose and a broken elbow.

The child was playing in the hallway on the sixth floor of the Princess street building when she strayed over the area-way, and fell to the first floor, a distance of forty-five feet.

At the hospital an examination disclosed the broken bones. It was said that the child would recover.

CANNOT LOCATE THE CANADIANS WHO WERE AT EUCHARISTIC CONGRESS

Party of Priests Unable to Get From Havre to England—Canadians in London Volunteer

London, Aug. 14.—W. L. Griffith, secretary of the High Commissioner's office, says that many Canadian officers and doctors now in London are volunteering for active service. It was certain that the War Office would accept the services of the former, but there was some difficulty in regard to doctors volunteering for the Army Service Corps, as they were not licensed to practice here, but Hon. Mr. Perley expects to adjust the difficulty.

Applications for assistance by stranded Canadians were being scrutinized in the most lenient spirit.

John A. Reid, Agent-General for Alberta, announces that the War Office is accepting Alberta's offer of half a million bushels of oats. Many Canadians have not been located, and it is not even known whether they are on the continent or in Britain. There is a great discrepancy in the statements as to the whereabouts of the Canadian contingent to the Eucharistic Congress at Lourdes. The Ontario government office thinks they are now in Rome, while the High Commissioner believes they are at Havre. It is known that a party of priests, now at the latter port, wished to return by the steamer La France, but the sailing has been cancelled.

Mrs. Finch, of Edmonton, has been located in Brussels, but her husband, who is in Manchester, is unable to get his wife across. Chief Justice Harvey, of Alberta, arrived at Stockholm in the clothes he stood in, but lost all his baggage in Germany.

Hon. Duncan Marshall, minister of agriculture for Alberta, had been studying agricultural conditions in the Netherlands and Denmark, and just refrained from proceeding to Germany before war was declared. The government has requisitioned the Glenarm Head, a regular freighter to Montreal.

"POLLY OF THE CIRCUS"

Telling, as it does, the story of the odd romance of a pretty little circus rider and a village pastor in the Middle West, "Polly of the Circus," with Elsie St. Leon, will be presented at the Opera House for four nights and Thursday and Saturday matinee, commencing Wednesday next. It is a drama as original as it is refreshing, and is one of those rare plays that appeal to all classes. Since "Polly" was first produced, hundreds of thousands of persons have been moved from laughter to tears in following the fortunes of the wistful little girl, from whom comes the title "Polly of the Circus," and her ministerial admirer. The reproduction of a circus in full swing in the third act, is one of the greatest pieces of stage realism. Dainty Elsie St. Leon will be seen again in the title role. The scenic production is remarkable and the third act setting, where an actual sawdust ring performance, with all the incidents and accessories, is shown, is especially notable.

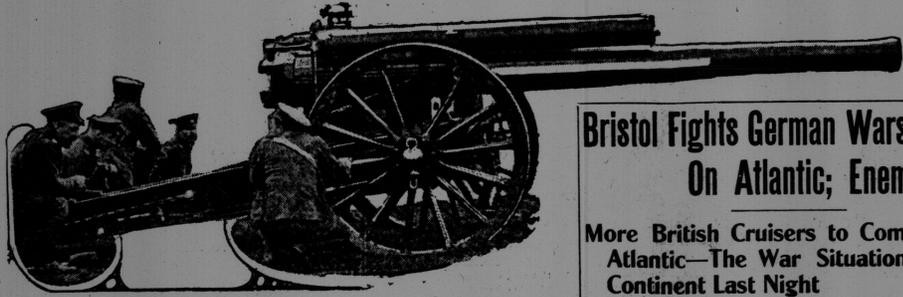

CARELESSNESS CAUSES MANY FOREST FIRES

A Large Percentage of Forest Destruction Caused by Campers and Sportsmen.

(Conservation.)

An investigation by the New York Conservation Commission as to the origin of forest fires in the Adirondacks shows that fully 85 per cent. of the fires which occurred during 1913 were preventable. If smokers had not carelessly thrown burning cigars or tobacco upon the dry vegetation, one-third of these fires would not have occurred. If fishermen had been more careful with their rods and tobacco, nearly one-fifth of these fires would not have occurred. Of the 688 fires reported, only 78, or 11.3 per cent were caused by locomotives, while nearly 10 per cent were reported as being due to the carelessness of campers.—C. L.

Exactly eighteen hundred dollars was raised among the women of Halifax Tuesday as the first day's canvass toward this city's share of the fund pledged by the women of Canada for the outfitting of a hospital ship for the use of the Empire's armies and navies in the present war.

Yesterday's Frederickton Gleaser says—Frederickton's contribution to the fund of \$100,000 to equip a hospital ship which the British Admiralty has accepted as a gift from the Women of Canada will probably reach \$1,800. At noon today it was announced that contributions in Frederickton amounted to \$1,800, with a number of the forty women who were busy collecting still to make their returns this afternoon.

Bristol Fights German Warship On Atlantic; Enemy Flees

More British Cruisers to Come Across Atlantic—The War Situation on The Continent Last Night

Halifax, Aug. 13.—For half an hour on Thursday night last, H. M. S. Bristol, the smallest British warship in the North Atlantic fought a long-range duel with the Karlsruhe, the largest and fastest of the German cruisers which have been trying to intercept British shipping on the North Atlantic.

Fleeing from H. M. S. Suffolk, which interrupted the Karlsruhe coasting at sea from the North German Lloyd's Kroepfing Wilhelm, the German cruiser was intercepted by the Bristol, southwest of Bermuda, and for half an hour a long-range running fight took place in the blackness of semi-tropical night.

Racing through the heavy swell at a terrific clip, the ships exchanged broadsides without inflicting very much damage, the conditions being very unfavorable for accurate gunnery. Although the Bristol's consort was at least 100 miles astern, the German would not stand and fight. Altering his course he gradually drew away from the Bristol, owing to superior speed, and after half an hour was out of range of the British ship's six-inch bow-chaser. All through the night the chase lasted, but somewhere in the darkness the German doubled on his pursuer and made off south to San Juan, where he put in for coal some days ago.

Details of this action, the first single ship fight in which a British man-of-war has engaged in these waters in 100 years, were brought to Halifax yesterday by H. M. S. Suffolk, the flagship of Rear Admiral Cresswell, commanding the fourth cruiser squadron.

A big fleet of British cruisers is now on the way to Halifax to assist in guarding the trade routes. They are mainly ships of the Drake class, of about 15,000 tons displacement, mounting a main battery of 9.2 guns with a heavy secondary six-inch battery. The first of these ships, the Good Hope, will be in Halifax tomorrow.

Earl Kitchener, the British secretary of state for war, has warned the British press against the publication of news, other than official, relating to naval and military movements, infringement of which order will mean suspension.

Italy is reported to have mobilized about 250,000 troops on the Swiss and Austrian frontiers as a precautionary measure. All the passages over the Alps are strongly held. At the same time the Italian foreign office has summoned home for a conference on the war situation its ambassadors at Paris, St. Petersburg, London and Berlin.

A number of wounded troops have arrived at Southampton from Belgium, and although their nationality has not been made known it is supposed that they are British.

The Austrian troops have entered Russian Poland, where German troops also have entered, and Russian forces have captured the Austrian town of Sokal, in Galicia, by assault. Two regiments of the Austrian cavalry were annihilated by Cossacks.

The American ambassador will take over the Austrian embassy in London, the Austrian ambassador having departed.

London, Aug. 13.—It seems evident from all reports received here that the Belgian forces are doing well in their encounters with the Germans, but this news must be reduced to its proper proportions and the fact that little if any emanated from Germany must be considered.

Some of the force at Liege, it appears, are still holding out against the Germans to such good purpose that the latter are constructing batteries preparatory for long siege operations. So long as these forts hold out, this part of the Meuse remains closed to the Germans.

Canadian Artillery.
Ottawa, Aug. 13.—The detail of the artillery division of Canada's expeditionary force was announced tonight by Col. Morrison, director of artillery. It will consist of three brigades of eight-pounder guns each, making a total of fifty-four guns, with one heavy battery of four sixty-pounders additional. The total force will be 23 officers, 772 men, and 746 horses for each brigade, making a grand total of 69 officers, 2,816 men and 2,182 horses for the three brigades. The heavy battery for the

As a result of the work of committees appointed from the Daughters of the Empire during the last two days the sum of \$1,132.73 was last night forwarded to Frederickton by Mrs. Simpson Jones, local treasurer of the fund toward the establishment of a Canadian hospital ship. The collectors everywhere met a hearty response, and there were few refusals. The donation of \$200 by the Women's Canadian Club here is not included in this amount. One of the most appropriate donations was \$25 collected in the parish of Kingston by Mrs. W. S. Carter and Mrs. Gordon Lawrence, which was altogether unexpected.

The Gurney-Oxford is a Remarkable Stove

BUYING a stove is not something to be decided off-hand.

Cheapness is not the consideration. Quality is.

If a stove is extravagant in fuel it should not have a place in your house.

The Gurney-Oxford is a truly remarkable stove.

The Economizer, fitted to the stovepipe, gives you complete control of the fire always. One turn of the handle dampens the fire down to a spark that consumes practically no coal at night and between meals.

The fire is supported on grates that present a large surface to the air. This means perfect combustion and economy.

The heat from the fire box goes through a series of divided flues, over and around the oven, and not up the chimney.

Will you come in and allow us to show you the many good points of the Gurney-Oxford Stove?

Commission to Call Premier To Prove Alleged Payment By Railway Contractor

Mr. Carvell Says He Knows The Time, The Place and the Amount of Payment by Corbett To Fleming—Mr. Corbett Still Out of the Country—Hearing Adjourned to August 25

The royal commission to inquire into the Valley Railway charges met again this morning but adjourned until August 25 without taking any evidence.

One of the most interesting matters argued was the necessity of Premier Fleming's appearance. Mr. Carvell said that he was prepared to show the time, the place and the amount of a payment by James H. Corbett to the premier.

Mr. Carvell still held out for the production of the St. John & Quebec Railway Co. books from the New York office and gave notice that, if the books were not on hand when the court resumed, he would be prepared to move for the commitment of the officers of the company for contempt.

During the interval before the next session a special audit of the books to July 31 and more comprehensive reports by the engineers will be prepared.

When the commission came to order the chairman asked if there were any more witnesses.

Mr. Carvell said he would ask Ross Thompson for progress estimates to July 31, and he would also ask the privilege of examining Premier Fleming.

Mr. Carvell said that he did not intend to call the premier and did not think he should be asked to give evidence, but if the commission wanted him, Mr. Fleming would come without subpoena.

Mr. Carvell said that Premier Fleming had been subpoenaed and urged that he be brought to court.

Continuing, he told of James H. Corbett having been subpoenaed, but Mr. Corbett was being kept in Pennsylvania.

Mr. Carvell said he could give the time and place and the amount of a payment made by Mr. Corbett to Premier Fleming in a St. John hotel.

Mr. Carvell said that he wanted to see the New York books before examining Mr. Fleming, but if Mr. Corbett could not be brought to court to prove the payment he wanted to examine Mr. Fleming to see if he could prove it by him.

Regarding Mr. Clarke's statement that the government did not own the majority of the stock in the railway, Mr. Carvell said that this was merely a quibble. The court had Mr. Gould's evidence that he had sold the additional bonds and if the transaction had not been completed and 51 per cent of the stock transferred to the government, it would be the government's property.

Mr. Carvell suggested that the report of an independent engineer on the completed sections should be secured. Regarding the books he must insist on their production, and he gave notice that, if they were not on hand when the court resumed after adjournment he would move for commitment for contempt.

ENQUIRY INTO CAPTAIN'S JOKE

E. T. C. Knowles Took Evidence and Forwarded it to Ottawa

That what might pass as a joke in time of peace may be regarded as serious when preparations for war are in progress is demonstrated in the fact that yesterday afternoon was begun an inquiry into a brief comment intended in fun, but which was taken from another viewpoint by officers of the local militia.

When the men of the 8th Regt. C. were moving their battery to Fort-ridge Island to entrench themselves last week, and placing their guns on a scow in Lower Cove, the drudge Fielding steamed by.

Seeing the cannon being placed aboard and the arrangements for the defense of the port being made, Captain Lewis of the drudge is reported to have uttered something to the effect that "There are two German cruisers outside in the bay." The artillerymen paid little attention to the remark, but the matter was taken up by Col. B. R. Armstrong, commanding officer, and a departmental order was received for the holding of an investigation. E. T. C. Knowles, K. C., presided as commissioner, and the evidence of several witnesses was taken. A report on the matter will be forwarded to Ottawa, and no further announcement will be possible until a reply has been received.

Former Yarmouth Man Will Be Head of One Contingent

Word to Relatives Here Tells of Selection of Captain Bingay for Service

Maritime provinces people will be interested to learn that a former resident of Yarmouth, N. S., has been selected to command one of the western detachments that will make up the contingent which Canada is forming to send to the assistance of the monarch in the war with Germany and Austria.

Mrs. Geo. H. Palmer, formerly of Fredericton, and now a resident of Montreal, who is visiting Mrs. R. S. Cowan, 44 King square, received word this morning from her daughter, Mrs. Bingay, in Fort Arthur, Ont., that her husband, Captain Lloyd Woolley Bingay, has been selected by Lieut.-Colonel J. A. Little, officer commanding the 96th Lake Superior Regiment, as the man to head the Fort William and Port Arthur contingent, and he will leave with Mrs. Bingay in a few days for Quebec to join the main division there.

Captain Bingay was this coveted honor from a large number of officers of the Canadian contingents.

Mrs. Bingay is well known here. She was formerly Miss Violet Palmer, daughter of the late Geo. H. Palmer, of Fredericton.

Two Cases in Divorce Court Here

A short session of the Divorce Court was held today commencing at twelve o'clock.

In the case of Walter H. Appleby vs. Maggie Appleby the petitioner gave evidence. The parties were married in St. John on September 18, 1913 by Rev. H. Pierce and lived together for a little more than two months. Afterwards the wife returned to her home at Grand Lake, A. A. Wilson, K. C., is the petitioner's solicitor.

Hearing in the case of John J. Melanson vs. Mary Melanson was also had. The petitioner in this case alleges statutory grounds. These parties were married on April 17, 1908.

Dr. A. E. Macaulay gave evidence. G. Earle Logan appeared for the petitioner. Both cases will be resumed at three o'clock this afternoon.

FOR THE ORPHANS. The following amounts are thankfully acknowledged by the treasurer of the St. John Protestant Orphans' Home—C. J. Jones, \$10; executors of the late A. A. Holly, \$50.

POLICE COURT. James Burns, a seaman on the schooner "Minnie Stinson" charged with absenting himself from the ship without leave, was remanded to jail in the police court this morning.

One man, charged with drunkenness, was also sent back to jail.

USE THE WANT AD. WAY

ONE SENT UP; ONE IS FREED

Alibi For John O'Brien in Riot Case Proven

CHAMBERS COMMITTED

Shannon and Day Are Remanded—Interesting Evidence and Comment in the Police Court

One of the alleged rioters sent up for trial and released from custody on his own and his father's recognizance and some pointed remarks by the magistrate on the situation, were the features of the preliminary hearing in the case of Thomas Shannon, William Day, William Chambers and John O'Brien today. O'Brien was allowed his liberty after his counsel, Francis Kerr, had proved a complete alibi; Chambers was committed for trial, and the other two were remanded.

In the Shannon case, Policeman Lucas testified that he heard Shannon inciting the crowd at the head of King street by shouting "back" and "pull him off the car." Policeman Ward said he saw Shannon throw a stone about ten o'clock on Market Square.

G. H. V. Belyea appeared for Shannon, J. A. Barry for Day, and H. J. Smith for Chambers.

The magistrate pointed out the seriousness of the offence with which the prisoners were charged and said that the public did not take so serious a view of the matter as they should, considering the view the law takes of it, referring to the fact that there were women taking part in the riot, the magistrate said: "I am sorry we have not one of them here."

"I would say that if any of these men are proved guilty and the law is carried out, it will be a long time before the mayor will be called on again to read the riot act in this city."

Contradictory Evidence. Some evidence very contradictory to that presented yesterday was heard in the O'Brien case.

Arthur Martin, a brakeman on the L. C. R. said he was a special constable on the night of the riot. He was on a car that was attacked in Dock street but he did not know anyone who threw stones. He did not remember seeing either of the men named in the indictment. Northrup cut the rope to the trolley pole. He swore that he did not let people enter the car that it was Northrup the boxer, who cut the trolley rope. He struck at and hit Northrup with a baton. The witness said he had not received any threat but he had trouble with another man since the riot.

Asked by the magistrate he said he was asked to come to court one day and was working.

Lucas—Did you not tell somebody that you would not come? Witness—No.

Lucas—What reason did you give me last night for not appearing in court before?

The witness said that he told Lucas last night that the union men on the railway were displeased because he was working as special constable and he was afraid he would lose his job with the railway if he came to court.

Alibi for O'Brien. Witnesses were called by Mr. Kerr to prove an alibi for O'Brien.

John O'Brien, the defendant's father said the prisoner was left in charge of the "back" between six and seven o'clock and the prisoner then went upstairs to get his supper, returned to the store afterwards, possibly 7:15 and remained for a short time. He left the store about 7:30 and went down Mill street. He was in and out of the store several times during the evening.

The prisoner's mother corroborated this testimony.

George V. Parker, a barber, said he saw the prisoner in his store on the evening of the riot about 7:30 o'clock. It was just after the parade went past. He remained until about ten minutes to eight and went across the street and down towards the station. His own doorway about 10 o'clock.

Albert Smith, a restaurant keeper who was in the barber shop while O'Brien was there corroborated Parker's testimony.

The defendant, sworn, said after he left his father's store he went to the barber shop and was not off Mill street all that night and did not throw any stones.

The magistrate said this evidence was sufficient to allow the prisoner his liberty and he was allowed to go.

The case of Bedford L. Hines, an alleged rioter, was set for tomorrow morning at nine o'clock. As he is a deaf mute the services of an interpreter will be required.

SELLASIA HAS CROSSED OCEAN

Battle Line steamer "Sellasia," from the Tyne, is reported as arrived off Pugwash, and is expected to dock this afternoon.

BROUGHT BACK

An instance of the perseverance of the United States immigration officials in carrying out their duty is furnished in the final act in a case which has engaged their attention since April. Last April they turned over to the sheriff of Westmorland Henry and Margaret LeBlanc, the latter the widow of Henry's brother, and the sheriff took them to Moncton on a warrant.

The case has been referred to before, the man and woman going to the States, he leaving wife and children and she leaving her children. The officials traced them and now have brought them back from the States.
