Mother's Girl, There exists often a very beautiful ompanionship between the mother and her daughter. The intimacy is frank. free and sympathetic. But some day the mother feels as if something had chilled this intimacy. The child is

silent and sad, and seems to shun her mother instead of seeking her. This change very often occurs when the young girl is crossing the bor-der line of womanhood. She is morbid, nervous, fearful, as she enters

upon this new experience. The use of Dr. Pierce's Favorite Prescription at such a time will do more than restore the normal

balance of mind and body. It will establish the womanly function upon a basis of sound health, as well as

improve the appe-tite, nourish the nerves, and promote the general physical health.

throng.

the general physical health. "Two years ago my daughter's health began to fail," writes Mrs. Dan Hall, of Brodhead Green Co., Wis. "Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170-the picture of good health, until about the age of fourteen; then in six months she was so run down her weight was but 120. I felt I could not give her up as she was the only child I had, and I must say. Doo tor, that only for your 'Favorite Prescription' my daughter would have been in her grave to day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be." The Common Sense Medical Adviser, IOOS pages, in paper covers, is sent free

LOWI

Peruna is a tonic to the mucous membranes of the whole body. It gives tone to the capillary circulation which constitutes these delicate membranes. Peruna is a specific in its operation upon the mucous membrane. It is a tonic that strikes at the root of all catarrhal affections. It gives tone to the minute blood vessels and the terminal nerve fibres. Catarrh cannot exist long where Peruna is used intelligently, Peruna seeks out catarrh in all the hidden parts of the body. Paul Landrum writing from Atlanta. Ga., says:

branes.

"In January last I began the use of your Peruna and Manalin for what was termed organic heart trouble. At that time I could scarcely walk to my place of business without stopping to rest and on arrival felt completely exhausted. Had severe pains in my heart and general dizziness. After using the first bottle of Peruna I began to improve and today I cel that I am a sound man and I work ourteen hours a day without any bad eeling."-Paul Landrum.

A. M. Ikerd, an employee of the C. B. & Q. R. R., West Burlington, Ia., writes: "I had catarrh of the stomach and small intestines for a number of years. went to a number of doctors and got o relief. Finally one of my doctors sont me to Chicago and I met the same ate. They said they could do nothing for me, that I had cancer of the stomach and there was no cure. I almost thought the same, for my breath was something awful. I could hardly stand it, it was so offensive. I could not eat anything without great misery, and I gradually grew worse.

"Finally I got one of your books, and oncluded I would try Peruna, and thank God, I found a relief and a cure for that dreadful disease. I took five bottles of Pernna and two of Manalin, and I now feel like a new man. There is nothing

better than Peruna, and I keep a bottle in my house all the time."-A. M. Ikerd. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a

The birthday of the Japanese Emperor was fittingly celebrated on Monday by the sapanese Young Men's Society in their hail on Fort street. The meeting v as presided over by R. Enomoto. The hall was decorated for the occasion with Japan-ese lanterns, flags and chrysanthemums. The proceedings Monday evening were al-together of a national and patriotic char-acter. Many natifolds sneeches were detogether of a national and patriotic char-acter. Many patriotic speeches were de-divered, one of the most important being that given by A. Wanibe. The enthusiasm of the gathering was intense, and the hall resounced from time to time with cries of "Banzai" (long live). The Japanese National Anthem was sung with great spirit by those present. A banguet was also given at the conclu-sion of the meeting at which a pleasant time was spent.

POINT ELLICE BRIDGE.

Pile Driving for the Foundation to Begin in a Few Days.

The city engineer has an all-absorbing task on mis hands this week, the considera-tion of the tenders for the Point Eilice bridge superstructure, which were referred to him last night. To the Times this morning he said he could not say when his

morning he said he could not say when his report on the subject would be submitted, as he had not then seen the tenders. Work on the foundation of the bridge will be commenced in earnest in a few days and carried on with all possible dis-patch. The pile driving plant is ready, the engine that was used on the James Bay cofferdam being employed. In this connection the city engineer said they had co-blaed the pile driver and steel derrick $\pi_{a, \cdot}$ would effect a saving of fifteen del-lars hay. The ples for each pler will be diffeen ... and cut off at the surface of the mud, coherdams being constructed around eich area to keep the water out while this ach area to keep the water out while this s being done. There will be three piers

SEMT'MONTHLY MEETING

Held Wednesday Night.

The Victoria Trades and Labor Coun--The German barque Artemis, which arrived in the Roads several days ago ing to the Victoria Terminal Railway Company and its employees at their regular meeting:

gular meeting: Whereas, the Victoria Terminal Railway Company is, seeking for extension of time from the city of Victoria for completing certain contract with said city; and whereas a by-law needs to be submitted to the ratepayers for validating such exten-sion; and whereas, said railway company is paying its laborers the small sum of \$1.75 per day of 10 hours: Therefore be it resolved. That, in the opinion of this council, no workingman should vote for such by-law unless it con-tain a clause providing for a minimum wage of \$2.00 per day of not more than nine hours: Be it further resolved. That a copy of this resolution be sent to the daily press of the city, chuckling the Vic-toria Terminal Railway Company. The request of the Dominion Trades

The request of the Dominion Trades Congress that the Trades and Labor

Council take out a charter from it will be inquired into by a committee. The Trades and Labor Council is affiliated with the Trades Congress, but at the

latter's last convention it was decided that councils must take out charters as federal unions. The same committee will also report on the relations between the council and the American Federation of

The Carpenters' Union communicated a resolution passed at their last meeting objecting to non-union men being employed on two new buildings being erected

was instructed to act with the Carpenters' Union in bringing about the employment of union men on these works and

the payment of union wages. The following communication from an Evoy, Fernie; A. R. Wilson, Fernie; G. Simister, Fernie; A. Colville, Fernie; A. Faulds, South Wellington; Thos. Budge, Provincial Home, Kamloops, B. C., inmate of the Provincial Home, Kam-

lcops, was read during the meeting: Provincial Home, Kamloops, B. C., October 22, 1992. Gentlemen of the Trades and Labor Council:--I see in the Daily Colonist of October 17th, that you are at a loss to know what is best to be done with Chinese children in the way of educating them in your schools. Pardon me if I am tres-passing on your opinions. I am one of the old pioneers of British Columbia, and I take some interest in its future. I am of the opinion Last if they are educated in the public schools it will be very detri-mental to British Columbia. They will be called into court to interpret the Chinese inguage, wherein I know they never will do justice. I have seen one of these cases where a Chinaman was called to interpret, and he told me that he would not commit the Chinaman, and in my opinion that will prevail in all cases. Your case would do very well if your children were taught the Chinese language; then the Chinamen could do no demage in court. I hope, gentlemen, you will not think it out of place in me to write these few lines on this subject. JOHN B. SEELEX.

JOHN B. SEELEY.

Local ping pong players will be interest-d in the following extract taken from the sradford Observer Budget of October ASSOCIATION FOOTBALL. INTERMEDIATE LEAGUES.

PING PONG. NEW RULE.

INTERMEDIATE LEAGUES. The writer of the communication pub-lished yesterday misunderstood the mean-ing of the paragraph which appeared some time ago relating to the playing of two Victoria teams for the intermediate cham-plonship. That had reference only to the city league, and had no connection what-ever with the provincial intermediate league. The writer stated that no intima-tion has been given any outside teams of any proposed meeting of the intermediate provincial league. Local members of the executive of that association aftirm that a meeting was called for the 25th of last moeth, and all outside associations which were thought to be likely to enter were communicated with. There were no en-tries received, however, and the inatter was dropped. The Cumberland club, it is true, was the only association that took active steps 'ast year towards forming a league, but then the local clubs feel that there would be a loss of far too much time and too great expense involved in playing at Cumberland "The ping pong association has effected "The ping pong association has effected an important alteration in the existing rules regarding the service. In future the server shall play the bail on to his own court, making it bounce once thereon, and thence over the net to the opponent's court. This, it is expected, will obviate all difficulties hitherto experienced by um-pires in deciding whether a particular ser-vice was irregular, and will also put a check to the extremely fast service—so fast as to be in many instances unplayable —prevalent in many quarters last season."

A survey party, who were working within

and too great expense havoived in playing at Cumberland. There are several teams in Victoria which would be glad to take part in any unterweighte begreat out of the part in any Intermediate league formed, but as so little interest has been taken in the matter by Mainland teams it was felt that after the city league was completed the winning team could go to Nanalmo and play the intermediate champions for the cup. If others wished to enter, however, entries should have been sent in at the meeting on October 25th, so that unless some im-mediate action is taken by the executive there can be no league this year.

GAME POSTPONED.

The match which was scheduled to take place next Saturday between the Capital and Victoria West Association football teams has been postponed. This was done at the request of the latter, who wish to keep their players in good trim for the basketball game which will be played in the evening between the James Bays and Victoria West teams.

_____ BASKETBALL,

INTERMEDIATE GAME. INTERMEDIATE GAME. On Friday evening at the drill hali the first of the schedule of intermediate games will be played between the Capital City and James Bay teams. The latter has a very strong team this year, and have con-fidence in their ability to win. The Capi-tals, however, have a quick light lot of players, who will give the Bays a hard tussle; and they are just as confident as their opponents of coming out victorious. A hard game is therefore looked forward to.

RUGBY FOOTBALL,

IMPORTANT PRACTICE. IMPORTANT PRACTICE, Members of the Victoria intermediate Rugby football club are requested to at-tend practice at the Caledonia grounds, commencing at the usual time, on Saturday afternoon. This is the last opportunity they will have of playing together before meeting Nanaimo on the 10th at the Coal City, and the game will be one of the hardest of the season, as the Nanaimo tam is remorted to be excending line atternet. s reported to be exceptionally strong.

HANDBALL

FINALS ON SATURDAY. The finals in the singles of the handball tournament, which has been in progress for some time, will take place at the gymnasium next Saturday afternoon. Pet-tingell and Smith are the contestants. Play will commence at 3 p. m.

ATHLETICS.

SEMI-ANNUEL MEETING.

SEMI-ANNUEL MEETING. There was a good attendance at the semi-annual meeting of the Fernwood Young Men's Association, which was held Monday evening. Reports were preesnted from the retiring officers showing the club to be in an exceedingly prosperous condi-tion. The election of officers for the ensu-ing term resulted as follows: Honorary president, A. G. McGregor, by acclama-tion; honorary vice-president, J. G. Brown; president, W. P. Marchant; vice-president, J. H. Griffiths; secretary, E. A. Gallop; subscription clerk, H. Neelands; treasurer, A. Peden.

In Manitoba. A survey party, who were working within seventy miles of Winnipeg, spent a most disgreeable night recently. Their work had led them through thick wood. Two tents were erected in the timber. The large one was used to shelter the chain, root men and cook, the smaller one was the temporary home of the chief. Provi-sions, in the shape of beef and pork, had arrived and were hung up in some trees near to the tents to keep them sweet and ood. The party, on the alght in question, had retired early to their blankets. A world howl, almost as of a human being in disress, aroused the occupant of the single tent from what Charles Dickens de-scribes in Pickwick as "the arms of at hand, sounded the horrible shrlek. Put-ting on his boots and hurriedly attiring himself, he went to the front of the tent and again listened. The cry was repeated he called to the occupant of the other tent, who came out at once-for they also had been aroused by the same cries. Not one of the woods did not come from their front. Them they knew their friends. Theordnance of the cany may repeated to the left of the ocyote or prairie wolf. The ordnance of the cany may repeated to the bark of the coyote or prairie wolf. Way of treatment charges. The next of the zinc ores consigned to Kansas will come over the Slocan branch, the Canadian Pacific Railway Company having been asked to furnish three 30-ton cars. "This shipment, it is said, is part of 1,000 tons that have been contracted for by Thomas Joics, the representative of the Lanyon Zinc Company, of Iola, Kari-sas, who has been in the Slocan for several weeks looking into the possibilities of that section as a zinc producer. Four proper-ties have contracted for the shipment of 250 tons each. These are the Bosun, Slo-can Star, Payne and Ivanhoe, Although the basis for settlement at the smelter has not been announced, it is claimed that it is much more favorable than the Antwerp rate, under which considerable of the Bosun ore was marketed. "The general opinions throughout the Slocan is that a very profitable market is opening up for the owners of silver-lead properties, in which considerable percen-ages of zinc occur in the ores, and that the zinc company represented by Mr. Jones is not the only one that will be in the mar-ket. It is thought the ore will be allowed to enter the United States free of duty. "At the Bosun mine, near New Denver, arrangements are being made for the doubling of the reve. er he had few equals and no superior took occasion to thank them for their The electric light was turned on for in the principality: he had the makings first time on Friday evening Lieut.-Col. Wolfenden well deserves the mark of distinction he has just reof a genuine orator able to bend the masses to his will Those who knew him best might criticize him, had cause oc- ceived. He has served his country in between the city council and the light casionally to do so sharply, even bitter-ly, but they could not dislike him. His personality was too irresistible; his a notable example of faithfulness and his career is a notable example of faithfulness and his career is a notable example of faithfulness and his career is a notable example of faithfulness and his career is the streets. personality was too irresistible; his a notable example of faithfulness and frankness of avowal in the matter of loyalty. His services are as follows: had a Hallowe'en party in the city hall Joined the Royal Engineers June, 1855; on Friday evening. The little folks had deficiencies left the critics dumb. "In capacity he was a giant; his ver- was appointed lance corporal, 1856; pass-

The prisoner was also about to tell what he did with the fifty dollar bill, but refrained from doing so on the ad-vice of his counsel. Mr. Moresby asked that the magistrate take into considera-tion Sutter's respectable connection, and also his previous good character. He had been employed by Mr. Carthew and at Mount Sicker, and was always will-ing to work when it could be found. He also pointed out that it was evident that the prisoner didn't intend to rob-the Swede when he started out, and that it had occurred in a drunken row. We, the undersigned, wish in a few words to convey to you our appreciation i of the able manner in which you have dis-charged the onerous dufies devolving upon you in the position you so faithfully and 1 efficiently fill in this territory. The government of Canada is to be con-gratulated on having at the head of the customs of the Yukon a man of such sterling qualities and fidelity to duty. It is specially to the interests of Cana-dian manufacturers and wholesale ship-pers that the customs regulations be car-ried out to the letter. The increase in the volume of business is the strongest proof in this direction of faithfulness and effi-ciency. In replying to the address Collector that it had occurred in a drunken row.

In replying to the address Collector The magistrate observed that many this did not affect the seriousness of the prise, expressed his appreciation of the honor done him. He said he had always believed that the policy of the Canadian

crimes. Preceding the statement by the government was to give whatever aid prisoner, Mr. Moresby, his counsel, ocwas possible to Canadian merchants, and cupied the greater part of the morning he had followed this out. But in doing so he had also followed out what he be-vented an incubator of wonderful nain his address. He did not put his client in the box nor produce any witnesses for lieved to be a policy of the government the defence, but claimed that the eviin this part of the country, and had endence submitted on behalf of the prose-cution was not sufficient to justify a deavored to give the American shipper conviction. He then went exhaustively 1 fair show.

The Yukon was only of value to the Dominion in so far as it was developed, of his triumph, leaving the door of the into the evidence. There was absolute-In none he said, to show that the accused knew the Swede had a fifty dol-lar bill in his possession before they went to the Leland house, which knocked on the head the suggestion that the others; the revenue, of course, always robbery was premeditated.. There was being first protected.

He had simply endeavored to do his also nothing suspicious in the defendant's conduct at the Leland house, or duty for the whole territory, and while it would have been observed by Detec- away hoped to refute certain statements tive Palmer, who was in there at the that had been made in regard to Dawsame time. son and to bring her to the front.

Mr. Moresby also contended that if Mr. Busby is now in Vancouver. Martinsen was robbed at all it might
