The Bristol Races.

"Gold Nut" Shows Her Speed—Pugilistic.

Wednesday was a big day for Bristol and the Egyptians and Canaanites. Bristols first big races were successful from the sportsman's standpoint, and the many who came with the bloody intentions of mutilating some other persons physiognomy must not have failed to be entirely satisfied.

The excursion train from Woodstock brought upward of 300 people many of whom were from Hartland, Peel, and Florenceville. The train in charge of Conductor William Davis and Driver Whenman was delayed two miles above Hartland by an accident to the engine, so it did not arrive at Bristol until the races were well under way.

The races were called as announced by the dodgers and the result was as follows;

2 29 CLASS.

Lady Glen	1-1-1
Montrose	3-2-2
Annie	2-4-3
Leah	4-3-4
Black Beauty	5-5-5
Trixy	6-6-D

Lady Glen, brown mare owned by Earnest McLean, Woodstock has proved herself a valuable horse. It is said \$700. was offered for her on the spot. Her time was 2:27½, 2:27, and 2:26.

FARMERS' RACE.

Dotty G.	1-1-2-1
Cora S.	2-2-3-2
Lulu Bell	3-3-5-5
Harry W.	4-5-4-4
Blanch	5-4-1-3
Harry D.	6-6-6-D

The winner in this race was a grey mare owned by John Scott of Spring Hill. Her time was 2:51½, 2:48½, 2:48½. "Blanch" who won the third is owned by C. R. Grant of Woodstock and made her mile in 2:46½.

2:24 CLASS

Goldnut	1-1-1
Mattie C.	3-2-2
Lady B.	2-5-5
Bye and Bye	4-4-3
George S.	5-3-4

Goldnut is owned by Thomas J. Boyer of Woodstock and he has good reason to be proud of his possession. Her time was 2:29, 2:27½, 2:26. The friends of Lady B. will rejoice in her success. Fort Fairfield people expected Mattie C. and George S. to take first and second money—but they didn't. Mattie C. has been taking first money right along all summer, however, and good work is expected of her next Saturday at the Fort.

The track was in poor condition; cuppy and stoney.

The band did excellent service, and in the evening gave a very enjoyable concert to a full house.

Had it not been for the presence of Sheriff Foster and Jailor Jones human gore would have flowed freely over the park, as it was there is reported three broken ribs, and one fractured leg, many sore heads, and many disappointed pugilists. It was the toughest crowd, as a whole, one could find in a long day's travel.

For Smuggling Eggs.

An exchange says that "C. M. Sherwood the prominent Centreville merchant, has been ordered to appear before the United States grand jury at Portland in September to answer a charge of smuggling eggs across the line. Mr. Sherwood is under bonds of \$1000. which have been furnished for his appearance."

Having inquired into this case the ADVERTISER learns the following particulars: While attending camp-meeting at Robinson Mills Mr. Sherwood was accosted by an officer who presented a warrant for his arrest on the above mentioned charge. Mr. Sherwood was given an hour in which to secure bail, the officer very considerably agreeing to take two good American citizens as such. But Mr. Sherwood took advantage of the hour's freedom, and let his legs furnish bail. He struck across lots for Canada, and before being missed was safe (?) on his native soil. Officer Chandler of Bridgewater and the Bangor detective called on Mr. Sherwood at his store at Centreville the next day and persuaded him to accompany them to Bangor where good bail was secured.

Fort Fairfield Races.

There is to be a big race at Fort Fairfield next Wednesday, when such horses as Irvin M., Mattie C., George S., Westbrook, Earl Minto, William A., etc., will lower their records. The races are gotten up under the auspices of Father Manning who is to hold his annual picnic on that day. Everything points toward a big day at the Fort Fairfield park.

Services Tomorrow.

Miss M. McLaughlin, teacher at Red Rapids has spent three weeks of her vacation with friends at the Harmony.

It is some time since we have seen anything in your valuable paper about

the little town of Riley Brook. Although the correspondent has been silent there has been great excitement in different ways- salmon fishing, picnic excursions, bicycling, buildings going up and being finished, gold hunting and a lot of other things too numerous to mention. Salmon fishing and haying is the order of the day at present. Sports have been going from New York, Boston, Bangor and Fort Fairfield. Some parties have been very successful and others not so fortunate. Owing to high water the fishing has not been so good as common.

Mr. and Mrs. J. Dorsey of Fort Fairfield have been visiting here three weeks. They have taken in all the amusement they could find in lake and river fishing. The rustivating has improved their looks wonderfully—they are nicely tattooed with the Tobique insect, and their complexions have a brownish tint, and, withal, they are hale and hearty. They will return home with pleasant memories of the past. On the night of the 1st Mr. Dorsey held on his line an 80 pounder. From 6 to 10 p. m. large crowds assembled on the bridge and shores with lanterns and torches to see the monster landed. He, the salmon, succumbed at last. E. P. Ross, being handy with gaff gave him the death blow and laid him in the canoe.

A Woman's Suffering.

Was Troubled With Palpitation of the Heart.
Extreme Weakness and Nervous
Headaches.

In the little hamlet of Montrose, Welland County, resides a lady who gives much praise to the curative power of Dr. William's Pink Pills. The subject of this testimony is Mrs. Richard Hanna, an estimable lady who has resided in that locality for many years. A reporter seeking an interview with Mrs. Hanna found her willing to give full details, which are given in her own words. Five years ago I was taken ill. I attributed the trouble at the time, to an injury sustained by a fall. Time went on and I did not get better. The symptoms of my complaint were palpitation of the heart, extreme weakness stomach troubles, and terrible headaches. I was very nervous, had no appetite, and experienced much wakefulness at night. Finally I was compelled to take to my bed, being too weak to sit up any longer. In this condition I was treated at different times by three doctors, and took a great quantity of medicine but realized no benefit. Not one of my neighbors thought I would get well. In the meantime I thought that death would soon end my sufferings. One day Mrs. Smith of Port Robinson, came to see me and persuaded my husband to procure for me some of Dr. William's Pink Pills, and he purchased six boxes. After taking the six boxes I had improved very much and was able to be up, though yet too weak to walk. I sent for another six boxes and as a result consider my cure complete. I can relish food better, sleep soundly and stand more fatigue than I could for years previous. Although I have passed the meridian of life I feel as healthy as when I was in my twenties. With great pleasure and a grateful heart I give this testimony.

The public is warned against numerous pink colored imitations of these famous pills. The genuine are sold only in boxes, the wrapper around which bears the words, "Dr. William's Pink Pills for Pale People." If your dealer does not have them they will be sent postpaid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

Salt for Animals.

Salt makes animals more lively, strong, and capable of resisting disease. Their flesh is harder, and the functions of the organs are more regular. Their digestion is better and they can subsist on fodder that otherwise might be injurious to health. Moreover, with the assistance of salt they can extract more nourishment from a given amount of fodder, since the flow of the digestive liquids is more copious. Hence, salt is of special importance.

An Insulting Parrot.

Bayard Taylor relates the following about a parrot once owned by a lady in Chicago, says Our Animals Friends.

When the great fire was raging, an owner saw that she could rescue nothing except what she instantly took in her hands. There were two objects equally dear, the parrot and the old family bible, and she could take but one. After a moment of hesitation she seized the Bible, and was hastening away, when the parrot called out in a loud and solemn voice, "Good Lord, deliver us!" No human being could have been deaf to such an appeal. The precious Bible was sacrificed, and the parrot was saved. He was otherwise a clever bird.

In the house to which he was taken, there were among other visitors a gentleman rather noted for volubility. When the parrot first heard him, it listened in silence for some time, then, to the amazement of all present, it said very emphatically, "You talk too much!"

The gentleman at first embarrassed, presently resumed his interrupted discourse. Thereupon the parrot laid his head upon one side, gave an indescribably comical and contemptuous "H'm-m!" and added "There he goes again!"

Karl Creelman's Progress.

Word has been received from Karl Creelman the young Truro, N. S., cyclist, who left home some weeks ago on his world circling cycle trip. Writing to his friends in Montreal from Chicago on July 29th Creelman says: I had to come down through Michigan to this city, as the roads north of Lake Superior are rough and rocky. From here I go to Winnipeg wheeling across the prairie to Vancouver.

Wheeling in Michigan, according to Creelman, is hard work.

When Creelman left Montreal he took the shore of the St. Lawrence to Toronto, going across the country to Detroit, and as stated wheeling across Michigan to Chicago. He will go from Vancouver to Hong Kong, the Philippines, and Australia, and thence his route is to South Africa, up to Alexandria and back home by Liverpool. He expects to be gone three years.—Gazette.

A Sad Case of Rip Van Winkle.

An old lady, Mrs. Hogan of Toronto 78 years of age, came to this country 65 years ago where she has lived ever since, supporting herself in various ways. Succeeding in saving enough for her passage money, she started back, six or seven weeks ago, to spend the rest of her days in her old home. Arriving there she found a large tree growing where the homestead had stood and that she was a stranger to all, and searching all she might, she could not find any that remembered her. She being penniless, and the Irish being a warm-hearted people, enough was given her to convey her back to Canada, where she arrived a few days ago.

BLACK SHEEP.

RICHARD BURTON.

From their folded mates they wander far,
Their ways seem harsh and wild:
They follow the beck of a baleful star,
Their paths are dream-beguiled.
Yet haply they sought but a wider range,
Some loftier mountain slope;
And little recked of the country strange
Beyond the gates of hope.
And haply a bell with a luring call
Summoned their feet to tread
Midst the cruel rocks, where the deep pit-fall
And the lurking snare are spread.
Maybe in spite of their tameless days
Of outcast liberty,
They're sick at heart for the homely ways
Where their gathered brothers be.
And oft at night, when the plains fall dark,
And the hills loom large and dim,
For the Shepherd's voice they mutely hark,
And their souls go out to him.
Meanwhile, "black sheep! black! sheep!"
we cry,
Safe in the inner fold;
And maybe they hear and wonder why,
And marvel, out in the cold.

Death in Headache Powders.

The daily papers have of late contained reports of death in various cities attributed to self-administration of unknown remedies. The other day a woman in Pittsburg died twenty minutes after swallowing a powder for the relief of headache. This is said to have been the fifth death, in that city alone recently set down to the same cause. Such instances teach the nostrum-loving American people but slowly. The report of the physicians who have recently an autopsy in the case of a lady at Detroit is said to show, says The Medical Record, that death was hastened by the use of secret headache powders. It would seem but right that the ingredients of all nostrums sold in the drug stores should appear upon the package. This would in a measure insure both the druggist and the purchaser. When both are ignorant of what is being administered, great damage often results. Sure some legislation is called for.—Scientific American

Our TORNADO Threshing Machine

ADMITTED THE BEST.

We have a good many unsolicited letters like this one from Mr. Grant: CENTRAL SOUTHAMPTON, York, Co. 17, Dec. 1899.

CONNELL BROS., Woodstock, N. B.,
DEAR SIRS.—As we are about through with this season's threshing and as I am aware you feel interested in the machinery you manufacture, no doubt it will be pleasing to you good reports of same. The TORNADO Threshing Machine manufactured by you that we bought from you in August last has proved to be the best Threshing Machine that has been in this section of the county. That is the unanimous verdict of every man that the machine has done work for. She has threshed for thirty men in this section, and men that never were satisfied before were more than pleased with the work the machine did they were satisfied they got all their grain and well cleaned, even the women were pleased because they did not have a crew of men around several days threshing a small quantity of grain.
The Machine has threshed this season about ten thousand bushels of all kinds of grain and I am happy to inform you that there was not one thing broken about the machine, not as much as a tooth. She has threshed over a bushel a minute, and with a suitable team, she will thresh 300 to 400 bushels a day. It is gratifying to me to congratulate you for perfecting and manufacturing the best two horse power Threshing Machine in the Dominion of Canada and may be in the world.
Wishing you a Merry Christmas and a happy New Year, I remain,
Yours truly,
(Signed) H. C. GRANT

Pulp and Paper.

The fact that Commissioner Matthews is preparing figures on the pulp and paper industry and is getting expert testimony on the spruce product and its possible exhaustion in time, has brought the different papers in the state to interview some of the leading lights in the pulp and paper profession.

President Chisholm of the great Rumford Falls and Jay concerns, as well as Senator Jones, have been interviewed of late and they scorn the idea of anything happening to the spruce. They go on to show that they are using less spruce than the saw mills and that it is not possible for years innumerable to exhaust Maine's spruce supply.

Commissioner Matthews told the Kennebec Journal Wednesday that he was glad to have all these points brought out, as he wishes to give an unbiased report on the subject.

"In relation to the amount used as compared with the saw mills I must say that I do not take much stock in that on account of the fact that the pulp mills cuts so much smaller," said Mr. Matthews. "The saw mills take nothing but the large sticks while the pulp mills will take anything that is spruce, and thus, comparatively, they clear greater tracts of land and spoil the growth of much more than the saw mills. I am glad, however, to see all the points brought out as it will assist in getting up a valuable report on the subject."

Boats for Tobique.

Fredricton Gleaner:—J. J. Moore, the Phoenix Square boat builder, has just about completed two hunting canoes for Tobique parties. They are 16 feet long, lapstreak canoes, built especially for the hard usage which a canoe receives in navigating the shoals and rocks of Upper Tobique waters, and having a new feature of Mr. Moore's designing—a false bottom of hard wood which can be replaced when worn and the boats will be as good as new. Mr. Moore will begin on Monday upon two other boats of similar character, but of larger size, also for Tobique.

The "Holy Ghost and Us" representatives have struck Littleton and are raising havoc among the good people of that town. They hold their meetings under a tent which is crowded at each service, with men and women who seem to be carried away by the new religions belief. One widow, to whom there was left considerable property, has given it all over to those who are promulgating the new faith. Young and prosperous farmers have been so worked upon that they have slaughtered all their hogs and burned the meat as it is against the teachings of the new doctrine to have them about as they are considered to contain the devil. Some of the cool headed citizens who have attended the meetings are alarmed at the state of affairs the new teachings are causing among their townsmen.—Times.

Havana Tobacco Is Scarce.

There is danger of an early famine of Cuban tobacco, according to a dealer and maker of cigars who talked to a Commercial reporter on Thursday, the present supply of Havana tobacco can't last much longer. It will take at least a couple of years, so experts say, before another crop can be obtained from the devastated island and until that time manufacturers will have to use what they have on hand or some substitute.

At present genuine Havana tobacco costs good money and the price is going up steadily. As yet there has been

no material advance in the price of cigars, although one or two dealers have put the cost of their goods to retail dealers a little higher.

Conscience Money.

Deputy Collector of Customs, W. F. Jenks, was the recipient of the following communication, this week, from a man in the province whose conscience troubled him:

My Dear Sir:—Having been in your town about a year ago or more I bought a pair of 75 cent rubbers and at the time residing in Woodstock I feel that to be clear before God I must send you the duty. May God bless you as he has me is my prayer. Enclosed find 20 cents. Yours.—Mr. Jenks informs us that there is a conscience fund at Washington which has been built from cases like the above. But a very few men are afflicted with the same disease as the writer of the above.—Houlton Times.

United States Commissioner William A. Jones makes the interesting statement that "a full-blooded Indian lunatic never lived." After inspecting the site recently purchased by the government for an Indian Insane Asylum in the Indian Territory, he says, "The occupants of the hospital which will soon be opened will all be mixed breeds. Probably there never was a case of insanity in any tribe until the malady was introduced by mixing with the whites."

A New York lawyer recently made a trip from New York to Boston by trolley. The trip took twenty-nine hours, exclusive of stops. Two hundred and five miles were covered by trolley and fifty-two by trains hauled by steam locomotives. Thirty different lines were passed over. The country is now being gridironed with such an extensive series of trolleys that it is possible to take long journeys with comfort at minimum expense. There is no smoke, but little dust, and the transportation charges are usually much less than on steam roads. Speed is also reduced, so that the country can be well observed. All the northern part of Italy is covered with a network of steam tramway lines, many of which have now been converted to electric roads. Milan is the center of this system. It is possible to go from that city enormous distances by the "vapore," and it furnishes an ideal means for seeing the country.

The kissing bug may be identified by the fact that it has no eyes. At least, since a certain girl claims that one of the bugs kissed her, it has been decided that the bug must be blind.

Ira A. Willard, of the Hotel Perth, Perth Centre, N. B., is about to turn his house over to Mayberry and Rogers and he will go to Van Buren and conduct a hotel. It is said that F. A. Howard of the Commercial hotel at Grand Falls is looking for a purchaser or a lessor, with a view of possibly going out of the business on account of the ill health of his wife who now is in the hospital.

A Maine farmer says he no longer fears a drought, since he was wise enough to plant onions with his potatoes. "The onion," he says, "drew tears from the eyes of the potatoes, which water the land."

An enterprising cat, owned by Niven C. Kalloch of Warren, recently gave birth to a kitten with three eyes, two noses and two mouths. Forming a trust of the senses proved too much for the feline and it died within three days. Mr. Kalloch has mounted the freak and added it to an interesting collection of mounted birds which he possesses.

The County Sunday School Convention came off yesterday. A good number of delegates from different parts of the county were present, and a very profitable Convention was held. Field Secretary Rev. A. Lucas was present and took a prominent part in all the meetings as usual. His addresses were very earnest and helpful. The nominating committee returned the old officers almost as a whole; they had done too good work to lose them. They are, Rev. J. F. Estey, Pres.; T. H. Manzer, Sec. Treas.; Mrs. Mary Prescott, Rec. Sec.; and an executive committee who are F. C. Bloodsworth, A. Peoples, G. L. Corey, W. S. Lowe, J. Stewart. There were present at the convention Rev. Messrs. Ross, Myers, Demmings, and Gratz, besides the president and field secretary. The next session will be held at Upper Kintore in August next.

Child as Nurse.

When Miss Nightingale was a child, she had many dolls; and her great hobby was to affect to believe that they each in turn caught a serious illness; and needed the most careful nursing. There was one rag baby that had fever so badly that her life was despaired of; and little Florence would only go to her own bed one night on the positive assurance of her nurses and her mother that they would watch beside the sick doll. And watch they had to, with a vengeance. For if any of the nurses tried to go away, thinking Florence was asleep, the little lady was alert in a moment, and would not lie down until duty was resumed. Early in the morning Florence rose to take her share in the nursing, and then the others were allowed to retire. She was soon able to say that the rag baby was much better. — Cassell's Little Folks.

The farmers of the United States have long needed a good work on Swine, a practical, concise and common-sense book without any padding or humbug about it. They have it in the form of No. 5 of The Biggle Books called Biggle Swine Book. It is profusely illustrated with photographs direct from life of the different breeds of hogs, etc., etc. Much attention is given to western and eastern practices, in the diseases of hogs, especially to cholera, to feeding, breeding, butchering and the carving of meats for home use and market.

There are 144 pages printed on the best paper and bound handsomely in cloth. Some breeders have thought it was not possible to make a good photograph of a hog but the score or more of handsome engravings made directly from photographs will go far to dispel this illusion. All the leading breeds are shown and briefly discussed in the text. See announcement of this and other Biggle Books in another column of this number of the ADVERTISER. The price is 50 cents, free by mail; address, the publishers, Wilmer Atkinson Co., Philadelphia.
