ST. JOHN, N. B., WEDNESDAY, JUNE 1, 1904

JAPS WILL ATTACK

NO. 72.

### JURY DIVIDED SIX TO SIX IN THE HENDERSON CASE.

Waxner They Could Not Agree on Acquittal or Conviction of the Man Whom Captain Porter Accused of Swindling Him Out of \$500--Interesting Trend of Case in Address of Prisoner's Counsel.

and push The jury in the case of the King vs. will most Hurd Blair Henderson has disagreed, six place. A against six. They retired at 5.40 o'clock the right Monday afternoon and after being out

ment poor the right Monday afternoon and after being out Monday afternoon and after being out until 7 o'clock returned to announce that Nictaw, Monday forenoon was occupied with the hearing of evidence, and in the afternoon the address of counsels for prosecution and defence were delivered. In the morning the witnesses were James A Belyca, Mrs. McKinnon, Mrs. Nina Smith Miss Gertrude Porter, Detective Killen and W. A. Hurd, of 24 Pitt street. Miss Porter said she had seen Georg McKenzie at her father's house but could

not positively identify the prisoner as

Mr. Currey's Address.

Mr. Currey, said a verdict should be reached solely by the evidence. By cross-examination there had been much light thrown on the case. He put Capt. Porter

paratively early age, to retire with a competence from the world. But his active unind could not slumber. He must be doing something. He frequently did business. Mr. Currey then related fully Capt. Porter's first meeting with accused. In the alleged transfer of property, he asked, did Capt. Porter play the part of a shrewd man of business? There had not been a word of writing, there had been no searchings of the records. Was it natural, in view of Capt. Porter's reputation? The captain was too keen to pass over \$500 without some written acknowledgment. His conduct was hardly becoming a man of his reputation for business foresight. If he did part from his money it must have been for some other consideration, real or imaginary, than the lot. The speaker did not believe the jury would conclude the prisoner guilty. Could the pusiness aftuation? He had practically all infernoon to consider the formalities is usuly attending the transfer of a large usin of money. He had ample time. When For a e found out that he was in danger of PBNI sing the money, that he had no proof to BA1 the other's legitimate ownership of the The t, he went anywhere but the proper ace. He did not visit the registrar's of No vin an office. He went to different

rwas not ignorant of the existence of was for the just any tile isses but could the jury be certain he was accused ished.

Ye rincit was attempting to create valuable evice to be subsequently used. The energy case was foreign to Capt. Porter's the first on the ability and the strongly is supported by the strongly is the strongly is the strongly in the strongly is the case was foreign to Capt.

M. V. found in the prisoner's room. Mr. rrey said it could not reflect on the aking of counterfeit money. It merely reld good dollar bills and brown paper. It was nobody's business. In his room had also been found a small sum of money, a follower. These articles were what any man might own. They had nothing to do with the case in hand. Mr. Currey expressed his opinion that the jury could do nothing else than acquit the prisoner.

The Crown Prosecutor. Hon. Mr. McKeown said the state-ments of Mr. Currey concerning Capt. Porter would bear criticism. Capt. Porter had been practically accused by Mr. Cur-rey of committing a crime. He had sought to repudiate the changes by making coun-

solely by the evidence. The prisoner was not on trial for passing bogus money, nor was Capt. Porter on trial for any offence. Mr. Currey had fallen into error. He had thought it not imprudent to dilete or Capt Parter's record. Mr. Currey late on Capt. Porter's record. Mr. Currey

statements of Capt. Porter.

Mr. McKeown quoted from the evidence contrary of what Mr. Currey had Porter took no man's word, was suspi and always on the alert in the fe somebody getting the better of him. A cording to the evidence Capt. Porter ha sworn to exactly the contrary. The general effect of Mr. Currey's contentions was Mr. Currey had alluded to the conversations between Capt. Porter and accused at the former's residence. From the general tenor of the defendant's could sel the effect of what he said would be the conversations of the defendant's could be a few that he said would be the converse to the

out Capt. Porter's integrity, that he en

which corroborated Mr. Currey. Mr. Mc Kaown quoted further from the evidence and pointed out that in several respect Mr. Currey was in error. Continuing, the crown representative pointed out that the jury would take it law from the bench. He gave example of failse pretences and entered into a brief

icity.

It was frequently the case when a man, eager for sudden fortune or seeing riches in some questionable procedure, would be suddenly caught in temptation and overturned. Mr. Currey had borne down on the accuser and had striven to strip him of every remnant of respectability. Mr. Currey's imputation that Capt. Porter's sole concern was for the recovery of

ter's sole concern was for the recovery of his money was hardly just.

Some men, said Mr. McKeown, laid skilful traps for the unwary. Their cunning was almost inhuman. They kept avoiding the law. They were the despair of all well regulated police forces. A man might enter St. John, establish himself, fleece his victims, then depart. Law was a good thing as a man's protector but it was an awful thing as his persecutor.

The court unquestionably held Geo. McKenzie as the man accused of the crime. He had been identified as Geo. McKenzie. During the pre minimary examination Capt. During the pre-immary examination Capt. Porter had identified him. He was before the court as Hurd Blair Henderson. It was for the jury to determine the gunty person. Crime such as that of which he was accused should not remain unpun-ished.

Judge Forbes complimented the counse on the ability which they had shown on the ability which they had shown. He strongly impressed on the jury that they must be governed solely by the evidence and not be influenced by any rumous which they might have heard or rumors which they maght have heard or by private opinion or suspicion. His honor reviewed the evidence and com-mented upon the rapidity with which the-trial had progressed. Much business had been disposed of with great promptness, which afforded him every satisfaction. He felt indebted to the police force for clever work in connection with the case. He congratulated St. John in having so efficient a force. In conclusion, his honor mentioned that he would be absent during

the August circuit court and that his place on the bench during that court would be taken by Judge Carleton.

The jury retired at 5.45 o'clock and at 7 returned with the announcement that they could not agree. They stood equally limited air for conviction and six for aclivided, six for conviction and six for full Tuesday morning, when it will be determined what course will be pursued. ter charges. The jury should be guided

Bourassa Claims That Lord 2,000 Cossacks Said to Have Been Defeated in Korea--Report Not Credited That Kuropatkin is Going to Relief of Russian Stronghold-Czar Dissatisfied With His Premier Tells Parliament That the Generals. High Commissioner's Utterances

> London, May 31 .- The attack on Por Arthur, the Chronicle's Tokio correspond

> time to see the capture, probably about June 20. The correspondent also says that 10,000 Russians have been sent up the Liao River in junks to Tie Ling, The Morning Post's Shanghai corres pondent wires that several Japanese trans

London Summary of the Situation

London, May 31.—The reports published ween General Kuropatkin and Viceron Alexieff at Mukden and of the southern movement of the Russian vanguard below Wafengtien have given rise to rumors that perialist gospel. To the question asked in the senate the secretary of state replied very properly, I think that the govern-ment were in no way responsible for the utterances of Mr. Preston and did not Wafengtien have given rise to rumors that General Kuropatkin has yielded to the wishes of the Alexieff party and is attempting to relieve Port Arthur. Among sober papers here, however, the idea that General Kuropatkin would venture on such a dangerous and hopeless movement, is not taken seriously.

According to correspondents at Japanese headquarters up to May 29, nothing important had developed beyond outpost encounters. Japanese troops are largely wish to be understood as siding with one party or another in England. Lord Strathona, speaking on the 14th of May, ex-pressed himself very strongly, as he has

encounters. Japanese troops are largely engaged in building roads and bridges. n countries. On previous occasions, the The Standard's correspondent says that General Kuroki gave a luncheon to foreign military attaches to celebrate the victory on the Yalu while almost simulan imperial council. Of course, I have the greatest respect for Lord Strathcona and for his personal opinions on British or imperial politics, but it seems to me rather taneously the Japanese army was informed of the Kin Chou victory. The same imperial politics, but it seems to me rather improper that the official representative of Canada should be understood as taking an active part in British politics and as siding with one or the other political parties in England. I think it is also undesirable that it would be understood that such atterances are endorsed by the Canadian government, which are understood to correspondent indicates the reason for de-lay in the operations. He says that the force that landed at Takushan appears to have struck the fringe of the rainy sea-son. The downpour has been very heavy. Kuropatkin, the Telegraph's St. Peters-burg correspondent says is fighting two burg correspondent says, is fighting two enemies, one at home, the other in Manchuria. While his military reputation is undergoing a terrible ordeal he is also ac-cused of failure, as minister of war ,to cabinet has an opinion to express it must express it in Canada and under responsibility to the parliament of Canada. It seems to me that some declaration might make proper preparations for war. The emperor is alleged to be so dissatisfied that he would dismiss both Alexiff and Kuropatkin were it not that he fears the effect be made to Lord Strathcona's speech similar to that which has been made in

the upper house with regard to the speech of Mr. Preston."
Sir Wilfrid Laurier—My colleague, the on public opinion.

The correspondent also asserts that the agreement is drafted whereby Germany promises armed support to Russia if necessary to prevent England and the United States from attempting to submit the Far Sir Wilfrid Laurier—My colleague, the secretary of state, speaking in the other house expressed the view that the government is not responsible for any act or words spoken by any one of its officers if they do not act in their official capacity. Lord Strathcona, we are all glad to know, occupies in addition to his position as high commissioner for Cunada a very high position in the several and political world's of Great Britain. He has expressed his views East question to an international con-gress and declares that the recent relaxation of anti-Jewish laws is the outcome of the desire of the minister of the interior to conciliate American opinion.

Russians Can't Credit Cossacks' Defeat. St. Petersburg, May 31, 2.50 a. m.—Threported defeat of Cossacks at Ai Yan think it possible that the Japanese me General Mistchenko's command which ha government of which he is an official.

In answer to Mr. Taylor, Mr. Fisher said that the government was not taking recently been raiding in Korea. It is formed of comparatively raw recruits though now tolerably hardened by the trict of Sashatchewan or any part thereof.
In reply to Mr. Casgrain, Sir Richard
Cartwright said that negotiations were three months campaigning. It is conceivable that they might have been defeat now going on between Armstrong & Co. with a view of establishing line of steamers between Canada and France. command which accompanied him on the famous ride through Manchuria. These men are esteemed here as the hardesi riders and the most reckless fighters in the in the Trans-Baikal army. "The National Zeitung, Berlin, makes plea for a good understanding with Britain and says: 'Germany does not envy England, Canada, Egypt, India or South

Africa. Germany never expects to become a colonial power. "Hon. Edward Blake, M. P., speaking at Longford said: 'The choice lay before him of giving up either the representa tion of his constituency or his professional work. He had decided to give up the latter, remaining their representative as long as they wished him to do so. Speak-ing of the new land act, he said the farmers must never forget that they had at their backs the old safeguard, unsatisfac-tory as it was of a judicial rent. They need not buy land upon any terms the landlord demanded."

### AMERICANS EMPLOYED ON G. T. P. SURVEY

Evidence Before Government Commissioner Discloses This Fact.

Montreal, May 30—(Special)—Judge Winohester, of Toronto, the commissioner appointed by the dominion government to appointed by the domainon government to investigate the charges made that aliens have been employed on the Grand Trunk Pacific surveys and Canadian employes were discriminated against, opened his inquiry in the court house here today.

This afternoon the judge proceeded to the Grand Trunk headquarters where he examined the voluminous correspondence in corporation with the employment of men examined the voluminous correspondence in connection with the employment of men on the Grand Trunk Pacific surveys and also heard the evidence of J. R. Stephens, the chief engineer of the Grand Trunk Pacific surveys, and of W. H. Goodman, the chief draughtsman. The evidence of these officials showed that a number of these officials showed that a number of Americans are employed on the survey. Both Mr. Stephens and Mr. Goodman themselves are Americans.

Mr. Stephens came from the Santa Fe system a couple of years ago and is getting \$6,000 a year salary, while Mr. Goodman also is an American and has been in the company's employ about a year. Stephens furnished the names of the following Americans who were employed on

Stephens furnished the names of the following Americans who were employed on the G. T. Pacific survey: C. C. Arsdol, stationed at Edmonton, division engineer; T. C. Taylor, North Bay; W. E. Colladay, west of Winnipeg; W. Mason, draughtsman; E. R. McNeill, engineer, and C. E. Perry, engineer at Thunder Bay.

It was stated in the house of commons that Mr. Perry had been discharged but Mr. Stephens said that this was not the touth. Mr. Perry had not been discharged and was still employed on the surveys. Mr. Stephens also declared that no Canadians had been refused work on the surveys except those who were not qualified for the work. The inquiry shows that the Grand Trunk have about twenty parties of some twenty each, or a total parties of some twenty each, or a total force of about 400 out on the surveys.

Judge Winchester has decided to go from here to North Bay and then to

monton and expects to have his report ready for the end of June. Steamer Admiral Grounds Near Newcastle Dalhousie, N. B., May 30-(Special)-Steamer Admiral left here on Saturday with a full cargo for Gaspe ports. She went aground at New Carlisle wharf and received some damage to her paddle boxes. She will be towed to safe port for re-

### CLOSING EXERCISES OF MOUNT ALLISON INSTITUTIONS.

Ladies' College Graduates and Prize Winners -- Male Acad. emy Students Make a Good Showing -- Honors to Be Conferred Tonight on Rev. J. A. Rogers and George Johnson of Ottawa.

the students of the Ladies' College was given on the college lawn. A large number of visitors witnessed the drill, which was without doubt the best ever seen at Mt. Allison. The evolutions of the young ladies, gowned in white, made as pretty a spectacle as one could wish to look at. siastic work of Miss Carver, th to her is largely due the great success which attended the drill this morning. At 10.30 Beethoven Hall was filled to

with muted violins, was dainty and deli-cate. The Rondo in C major, played by Miss Jannie Faulkner, is an exacting com-position, but was very creditably per-formed. The reading of Miss Gwladys Woodbury, Halifax, was given in a splendid style and elicited hearty applause.

Miss Pridham delighted the audience with renedering of the beautiful song,
Love Faileth Nevermore. Her voice is a sweet mezzo-soprano and shows careful training. Miss Gee acquitted herself well. Miss Treen, of Sydney, played with great facility and solidity of technique. Miss Strothard played with charming clearness

and finish.

Miss Lennie Lusby, of Amherst, aged ten years, is particularly bright. Her perfect intonation and strong pizzicato, are nothing short of remarkable for one

The Norwegian Bridal Procession which The Norwegian Bridal Procession which demands considerable technical power, was ably played by Miss Smith, of Sackville. Miss Fraser pleased her audience with her rendering of Les Sylvans. Chopin's delightful waltz was given full justice at the hands of Miss Alma Carter, while Miss Mowat in her organ solo displayed considerable ability in the management of that instrument. that instrument.

Ladies' College Closing.

Sackville, N. B., May 30—(Special)— The anniversary exercises of Mt. Allison Ladies' College' were held this evening in the presence of a large concourse of peo-ple. Rev. Mr. Strothard, of Chatham, led

Orchestra number began with a slow orchestra number began with a stor-movement, gradually gathered speed and ended in a rousing allegro. Selection was played with great breadth and decision. Miss Nina Robertson, of St. John, read Miss Nina Robertson, of St. John, read an essay, The Value of an Ideal, which evidenced considerable reading and thought as well as literary ability of high order. Miss Robertson had a splendid platform presence and spoke clearly and distinctly. The popular reading, Meredith's Aux Italiens, was delightfully given by Miss Helen Perley, who received a most flatter-ing encore, to which she was compelled to respond. She is second graduate of Mt Allison elocution course and has exception al ability.
What Pictures Mean to Us was the sub

ject of a well written and pleasingly read essay by Miss Mabel Killam. Rev. Mark Guy Pearse presented diplohas to the following graduates: Graduates in Arts, M. L. A.

Violin-Teacher's Diploma.

\$\frac{844,000}{0}\$, while we have obtained in subscriptions from the generous friends in Canada to the amount of about \$\frac{815}{0}.000\$, you will see that the mortgage will be a formidable one. Neither has our development been confined to the external appliances for work. The new department of household science has been opened, and during the year a school has been successfully conducted with an attendance of forty-six. A course of study has been formulated, which is designed to prepare our graduates to teach in the public schools of these provinces. In this connection it may be of interest to some of you to know that the board of education for New Brunswick, at a recent session, decided to accept our diplomas as a sufficient qualification for New Brunswick teachers of household science, when employed under the public school system of this province. The course requires a first class teacher's license or its equivalent as a matriculation standard, and then demands two years of thorough work in addition.

This jubilee year is witnessing a new departure in other important departments of our work. The elecution department, under the energetic management of Miss Carver, is commanding recognition from the Emerson Onlies continent devoted to the study of oratorical expression. The graduates from our school can now enter upon the senior year of the Emerson course.

In the art studio definite courses of study have been formulated, and arrangements been made to grant teachers' diplomas to those who satisfactorily complete the required work in drawing and painting.

Miss Hannah Fair, of Limestone (Me.), mrs. P. D. Bourgoine, white muslin.

Miss Nellie Burgess, black muslin, red

Miss Bertha McCluskey, white muslin.
Miss Bessie Fraser, black muslin.
Miss Annie O'Regan, blue organdie.
Miss Annie Fraser, black muslin.
Miss Cassie Mulhevin, white muslin and

Among the gentlemen present were Messus. Hallett, West, McGibbon, Pud-dington, Woods, Maye, Poitras, Fraser, Collins, Evans, Kelly, Le Clair, Burgess, Estey, Mulherin, McCormac, Bixby, March, Wilson, McCluskey, Day, Weatherhead and Rev. and Mrs. Archibald and Miss Har-

per, of Richmond, spent a few days in town at the Curless hotel. Rev. Mr. Bradley exchanged pulpits with Mr. Archibald on Sunday.

#### AMHERST.

church at that place. They returned home this evening.

Mr. and Mrs. G. W. Cooke and Misses Leghe, Forrest, Lewin, Terrio and Grant spent the 24th at St. Jrseph's college.

Miss Florence Terrio leaves this week to spend a month with friends in New York.

A very interesting promenade band concert was given on Wednesday evening in the winter fair building. An excellent programme of music was rendered and a large number present. The "Busy Bees" of Christ church served ice cream and cake and was in charge of Mrs. Fullerton, assisted by Misses Blanch Ambrose. Eva Smith, Ida Moss, Blanch Forbes, Beatrice Fuller and Elsie Crosswell.

Mr. and Mrs. George Hewson, of Oxford are spending this week in town the guest of their son, Mr. H. H. Hewson and Mrs. Hewson, Church street.

#### DIGBY.

Digby, May 26.—Mrs. George Mitchell and Miss Mitchell, of Boston, are occupying rooms at "The Pines" and will stay until the last of August.

Mr. C. Percy Turnbull spent the 24th with his brother in St. John.

Mr. Eber Turnbull, sr., returned on Wednesday from a trip up the St. John river.

Miss Annie Tupper has returned to Digby for the summer.

High Sheriff Smith has gone to Boston on a vacation trip.

High Sheriff Smith has gone to Boston on a vacation trip.

Mr. and Mrs. Jonathan Lettenay have been visiting St. John.

Mrs. Meokel went to St. John to see her son, James Meokel, who has since been transferred to the Bank of Montreal at Guelph (Ont.)

Major and Mrs. Daley returned from their annual fishing trip with a good catch of trout.

Misses Bond and Hunt are attending the teachers' convention at Middleton. Mrs. H. L. Dennison and Mrs. H. Green returned Saturday from an enjoyable visit D. A. R. has been d'smissed. F. Jones, of Bear River, for plaintiff, and E. H. Nichols, of Digby, for defendant.

Tern schr. Helen, Capt. Saunders, tow ed from Bear River last night and anchored off Digby, with lumber for Cienfuegos.

Three accidents have occurred in this
vicinity this week. George the six year
old son of Alexander Wentzell, of Bear River, while playing with a hay cutter Monday, had the misfortune to cut one

of his fingers cff.

Hayden, son of Delbert Trevoy, had two
fingers of his left hand badly cut by a nowing machine. St. Clair Perry met with a painful accident at H. T. Warne's mill, Hill Grove, While operating the shingle machine his

inger was caught by the saw, taking the

### SYDNEY.

Sydney, May 25.—The holiday was certainly an ideal day for starting the picnic season and was taken advantage of by many.

A jolly driving party chaperoned by Mrs.
Ed. Shaw and Mrs. Tom Mason went to the Currey cottage at the Forks.

Miss Anna Currie, of Heilifax, is visiting her sister, Mrs. C. J. Burchill, Park street.

Miss Ross, of Pictou, N. S., is visiting Mrs. Mason Lovers' Lane.

Miss Katie Farquharson arrived home on Friday evening from visiting friends in Springhill and Halifax.

Dr. Curry, of Sydney Mines, spent the holiday with friends in Sydney.

Mrs. Crowell, Charlotte street, left this week for Boston, where she will remain about a month. isit to Quebec.

# BAYONETS WON KIN CHOU HEIGHTS FOR JAPS.

from Their Guns and Sixty-eight Cannons and Ten Quick-firers Were Captured -- Victors Lost 3,500 Men--Czar's Troops Lost Heavily, Too.

Tokio, May 29, 6 p. m.—The details of day was spent by assailing forces crossing the fighting at Kin Chou emphasize the heroic tenacity of the Japanese in their Talien Wan Bay opened fire on the Japanese

conduct at Nanshan Hill.

Nine successive times the Japanese charged the fortified heights in the face of a storm of death-dealing missiles and in their last effort they carried the forts and trenches only after a bayonet to bayonet conflict with the Russians, who made a desperate despairing struggle to beat back the oncoming hordes.

The final assault of the Japanese, in which they at last succeeded in taking possession, was marked by the most desperate hand-to-hand encounter that has thus far characterized the war.

The Japanese left wing throughout the entire action until night, was exposed to

an entire action until night, was exposed to an entillading fire from the Russian infan-try, a gunboat on Talien Wan Bay, and four nine-centimetre guns posted at

#### Japs Fired Last of Their Ammunition. At a critical moment the ammunition of

the artillery ran low and it was decided to cast the remaining ammunition into one

Fortunately, however, at the moment this decision was reached, the Japanese squadron in Kin Chou Bay, which had ceased bombarding when the infanry had first moved forward, suddenly resumed the shelling of Nanshan Hill. Then it was that the issues of the day were determined—at a moment when the outcome was fluttering between success and defeat for Japan—and an almost certreat. With all the Japanese guns center

ing their fire upon the Nanshan forts and ches the Cape infantry sprang over crificed their lives in the preceding fruitless charges. The entire line rushed forward toward the Russian left where the fire of the Japanese squadron has bombardment, and it was there that the first breach was made in the human wal

It was the fourth division of the Osak men that stormed the Rusisan left. It had once been said that Osaka men were not

Talien Wan Bay opened fire on the Japanese left at 10 o'clock in the forenoon

Five Russian steamers attempted to land | A. their crews near Hung Tu Ai, but the third division stopped them. In the meantime four heavy guns at Tafangchen found the range of the third division and kept shelling it until 7 o'clock in the evening. The artillery with the third division vain endeavored to reach these guns but failed on account of the darkness. In the main attack the Japanese artillery continued shelling Nanshan Hill, seeking to destroy entanglements and otherwise clear the way of the infantry but every time the in-fantry advanced the awful Russian fire drove them back.

In the meantime the Russians had reinforced their right under cover of the two field batteries previously withdrawn from Nanshan with fresh infantry, whose fire

#### Critical Position for Japs.

Very critical at this time was the position of General Oku's forces for at the wavering of the line under the reinforce-ment of the Russian infantry came reports from the Japanese batteries that the ammunition was almost exhausted. General Oku reports that he knew he could not hope to continue the battle much longer and so decided to make an assault in force tain repulse was converted into victory so and so decided to make a assault in lote complete that the forces of the Czar were regardless of casualties. Then the artillage of the complete that the forces of the Czar were munition and the first division courageously assaulted the Russian centre only to be besten back. During this time the fourth regiment artillery had been pounding the Russian left. Suddenly the Japanese squares dron began pouring shells into the Russian left and its noisy awakening was succeeded by the onslaught of the fourth division on the demoralized left wing of the defenders

and the victory was won.

The beaten forces, badly shattered, retreated toward Port Arbhur, exploding the treated toward as they receded. the enemy consisted of one line division, two batteries of field artillery, some fortress artillery and marines.

General Oku concluded his report by heartily thanking the navy for its co-op-eration. The Japanese captured a num-ber of Russian officers and men.

Japs Charged to the Cannon's Mouth. Washington, May 28-The Japanese le gation this afternoon received the follow-

ng despatch:
"Tokio, May 28—The following are fur ther details of the attack on Kin Chow: The attack on the enemy at Nanshan hill commenced at 2.35 a. m., of the 25th. The enemy's defensive works were of almost permanent nature and their artillery most permanent nature and their artillery consisted of fifty guns of various calibres and two quick-firing field artillery companys. Their infantry ranged in two or three lines in covered trenches with loopholes, and placed machine guns on important points and offered a stubborn resistance. We ranged all our field guns upon the forts and the enemy's principal artillery, and silenced eleven of them, while quick-firers previously retired to Nankwanklin until night, our artillery concentrated fire upon the enemy's trenches and trated fire upon the enemy's trenches and our infantry forces advanced within four or five hundred metres from the enemy's position, but the wire entanglements and

us.

"Finally our infantry forces approached within 200 metres from the enemy's position and tried several charges, but these proved unsuccessful, officers and men all falling within twenty or thirty metres from the enemy's position. Thereupon our artillery began a heavy firing, and in the evening during severest cannonading, the last charge was made and the breach was opened with great difficulty through was opened with great difficulty through which we gained the whole height, expelled the enemy, and captured all the guns in the forts. One of the fortunate incidents in the attack was the discovery of a mine wire at the eastern foot of Han-shan Hill, the cutting of which prevented

division, taking advantage of the enemy's left wing, which was weakened by the bombardment from our fleet at Kinchow Bay, finally succeeded in carrying the enemy's position, while other divisions immediately following it up. Thereupon the enemy retreated in confusion, exploding magazines at Tafangshin. The trophies of the battle consist of 68 guns and 10 machine guns, besides other things. Our casualties are estimated at about 3,300. The enemy left on the battlefield over 500 dead bodies."

#### A HINT TO MOTHERS.

### SUMMER SCHOOL OF SCIENCE.

Meeting Opens at Charlottetown July 12, and Continues for a Fortnight.

For seventeen years, during the het weeks of July and August the members of the summer school have gathered at a sen side town and spent a happy fortnight in pursuit of that knowledge when we may not gain from books. For the school is not a hure prince as some have thought not a huge picnic as some have thought, in which social pleasure and recreation are the principal objects aimed at. It is as earnest and sincere in its work as any other school, but the student is lead and

encouraged and not forced.

It is true that the school is a place of sociability and happiness, that everybody enjoys themselves and that year after year the same people gather at what is lery opened fire with the remaining am- to them the most pleasant of holidays Many of these people are teachers gaining new methods and fresh inspiration for their work in the class room, but there are others among them, tourists from the states, who include the summer school meeting in their vacation and are not less diligent in pursuit of some favorite branch.

diligent in pursuit of some favorite branch This year the school will meet in Char-This year the school will meet in Charlottetown, July 12th to 29th, and a large
attendance is expected. James Vroom, of
St. Stephen, is president, and the secretary is Principal J. D. Seaman, of Charlottetown, who has held the post for the
last ten years and to whom the success
of the school is largely due.

The faculty is as follows:
Botany (structural)—D. W. Hamilton,
Kingston (N. B.) (Field)—James Vrooin, Chemistry-W. W. Andrews, L. L. D., Sackville.

Matthews, Truro. Geology-L. W. Bailey, L. L. D., Fred-Kindergarten-Mrs. S. B. Patterson,

Drawingand Manual Training-F. G.

Truro (N. S.)
Literature (English)—Mrs. Eleanor Robson, St. John. Physics—W. R. Campbell, M. A. Truro. Physiology and Hygiene—S. A. Starratt,

Yarmouth.

Zoology (invertebrate)—E. W. Bailey,
Fredericton. (Vertebrate)—Philip Cox,
Ph. D., Chatham. Among the prominent men who will give evening lectures are Prof. Ramsay-Wright, the distinguished siclogist of Toronto University, and Prof. Prince, dominion commissioner of fisheries. These genetlemen will be in charge of the marine biological station at Malpque (P. E. I.), and the lectures will probably be on the work of

It has always been the aim of the directors to bring the best possible men for the evening lectures as they are attended by large numbers of the residents of the place who are unable to take regular classes in the morning. The atternoons are devoted to field and laboratory work and two whole days will be given up to excursions. It is expected that the old French fort, St. Peter's Island and Goverbiological station at Malpeque.

J. M. Duncan, of Charlottetown, is the

local secretary, and all who intend going can procure suitable board in private families at from \$3 to \$5 per week. Ap-plications should be made to him at once The fee for attendance at all regular classes is \$2.50. Standard certificates should be obtained when purchasing tickets and these when counter-signed by the secretary entitle the holders to fre or rduced return fare.

New Brunswick teachers who attend the summer school will be allowed (with the consent of the trustees) an extra week's vacation. Students may obtain credit from the authorities of the Turo Normal School and of Mount Allison University for work done at the summer school and cer-tified to by its officers.

### \$400,000 LEGACY TO NEW YORK CUSTOMS WEIGHER

New York, May 25—The World this morning says: "After toiling year after year for more than thirteen years at \$2 day as a custom house weigher in the Havemeyer sugar refinery. Williamsburg, Patrick J. Hennessy, of 82 South Third street, Williamsburg, has suddenly found himself to be the heir of \$400,000. Hennessy became cognizant of his good fortune through the following "personal"

day and Friday of tercentenary week wa read. Each feature of the tercentenary pr

gramme was taken up. It was decided to ask the Gentlemen's Driving Club what progress is being made with the driving and teamsters' parade.

yachtsmen were busy with their yachts that it would be too much for the club to prepare and navigate the Champlain-ship, and secure and costume those to take

It was finally left to L. P. D. Tilley to arrange the latter portion, and the R. K Y. C. will do the rest. The names of Mr Tilley, T. T. Lantalum and J. N. Sutherland were mentioned in connection with

the assumption of the character of the moted Frenchmen.

Mr. O'Brien read a letter from the Boston public library officials regretting they could not help in information relative to costumes of the Champlain period. It was left to a meeting Wednesday to look into the military and naval programme. A place for the boys' brigade is to

be made in the programme.

It was announced that the firemen in their parade would have some historical representations.
Opinion was expressed favorably to the

ominion government providing a statue of Champlain to be placed in this city. Some present thought the government should be asked to furnish a statue. This

Designs of medals were submitted and

t was decided to order 1,000 from White-nead & Hoeg, Montreal. These will be Mr. Frith reported the harbor regatta arrangements progressing well, except the four-oared professional race. It was practically decided by the comnittee to abandon that race.

Summing up the situation, Mayor White said much had to be done and he urged. that the ictizens take hold and ass

# S. S. CONVENTION

IN CAMPBELLTON

The Sunday school Tour Party have just closed their visit to this most nor erly point of their trip. They have let chind them grateful remembrances in hearts of pastors and people. Rain fell during most of their time in town and this essened the attendance at some of the essions. The quality of Alfred Day's adlresses won high commendation from both pasters and laymen. Once more we have duction nor high religious aim does the association in any degree lower the work of the church. The singing of Messrs. Tullar and Mere

dith and their development of song among the people gave great delight. Geo. Haddow, a veteran worker of Dalhousie, made a tender allusion to the re-tiring field secretary. He recalled his own motion of thirteen years ago by which Mr. Lucas was elected and viewed the years of successful labor. The resolution was adopted by a standing vote. Rev. H. E. Thomas, of the Methodist church, a man in high standing among the people, was chosen as the new president. Mr. D. C. Frith was re-elected as secretary-treasurer. Mr .Lucas congratulated Mr. Frith, and expressed appreciation of what he had been to the county and to himself. Miss Marjory was re-elected as recording sec-retary. The Tour Party left for Moncton on Saturday morning, where they spend Sunday and Monday.

### OPPOSITION MEETING.

Rally of Seventeen in Fairville to Chose Delegates to Nominating Convention.

Electors of Lancaster met in Orange Hall, Fairville, Monday night to nominate delegates to an opposition convention soon to be held, when an opposition can lidate n the local bye-election will be named Shortly before 9 o'clock, a count was made of those present. There were 17 including chairman and secretary.

E. J. Neve presided. Robert Cather-

E. J. Neve presided. Robert Catherwood was secretary. The following delegates were nominated: William Golding, Robert Catherwood, John Irvine, William Johnson, Alfred Clark, Dr. J. H. Grey, J. W. Stevens, E. J. Neve, Wilfred Betts, William Ruddock. It was moved and seconded that E. J. Neve act as permanent

Miss Berla Frances Whidden, daughter of Editor Whidden, of the Calais Times, is to be married to Arthur D. Ganong, of St. Stephen, June 8, says an exchange.

# FIVE FAIRVILLE DWELLINGS

List of Maritime Commissioners to Fire Threatened Destruction of Village, But Brave Battle by Local and City Firemen Subdued the Flames.

> A fire which started in Oscar Tippett' barn, Fairville, about 6 o'clock p. m., Fri \$8,000 worth of property, on which there is not much more than \$3,000 insurance. Five dwellings and four barns were destroyed. Assistance from the St. John department is credited with preventing the village from being fire swept for the third time within a period of fourteen

The burned buildings:

The burned buildings:

Two and a half story frame dwelling, Main street, owned by James Stevens; shop on lower floor occupied by Mrs. Finniss as home bakery. Totally destroyed with contents; building insured for \$1,000 with W. White in the Manchester Company. The larger part of the contents of the building are destroyed and uninsured.

A stable in the rear totally destroyed with the most of the contents. This building and contents are uninsured.

Two story frame building, Main street, owned by James Ready and occupied by Patrick Gleeson; totally destroyed; building partially insured; contents mostly destroyed and uninsured.

Two story frame building, Main street, owned by Jane Tippetts, totally destroyed; insured for \$400 in the Commercial Union, A. C. Fairweather, agent; building occupied by Oscar Tippett's family and Mrs. Burgess; furniture uninsured and mostly destroyed.

Two story frame building, Ready street, owned by James McKinnon, occupied by Edward Crannie and William T. Hayes, totally destroyed; building insured for about \$500; furniture badly damaged and uninsured.

Two story frame building, Ready street, owned by Richard Stuart and occupied by Daniel Sexton. Building totally destroyed; insured for \$500 in Queen Insurance Company, Jarvis & Whittaker, agents; furniture partially destroyed; no insurance.

Large barn with contents, owned by James Ready, in rear of Ready street, totally destroyed; partially disured with T. B. & H. B. Robinson.

Barjs owned by Oscar Tippetts, Jas. McKinnon and James Stevens totally destroyed; not insured.

Five dwellings and four barns were totally destroyed, had considerable of tis furniture damaged in moving. He is insured for \$400 in the Kerstone.

It was near 6 o'clock when the fire wa discovered in Oscar Tippett's barn in the rear of his mother's house in Main street, which house he occupies. The alarm was quickly sounded on the Main street bell and the Fairville firemen were very soon on the scene with their hose reel and steam fire engine. A high wind was blowing from the south and when the firemen flames. The barn was soon beyond being saved and as the building was in the rear of others on the south side of Main street, opposite the Ready Brewery i was thought the village was doomed to

The Fairville firemen worked hard, but could not check the progress of the flames, for while the fire from the barn caught the two-story frame Tippet house in front in Main street, it also caught the two story dwelling No. 5 Ready street, owned by James McKinnon, and occupied by two families. Edward Cranning and William by James McKinnon, and occupied by two families—Edward Crannie and William T. Hayes, millmen. About the same time the house 117 Main street, owned by Mrs. Jane Tippett and occupied by Mrs. Burgess, and Oscar Tippett, the Fairville horseshoer and blacksmith, caught from the barn.

It was plain that unless there was help from the city the village was to suffer heavily. A couple of good streams were being played on the flames, but the fire had control and the citizens were terror-

Many families in close proximity to the burnt district had removed their fur-niture with considerable loss by breakage.

### The Fire Spread Quickly.

The flames spread quickly. From to McKinnon dwelling on Ready street the caught a two-story dwelling adjoining owned by the Stuart estate, and occupied by Daniel Sexton, a lumber surveyor. Then the flames caught the McKinnon barn, a large barn owned by James Ready, and the two-story dwelling owned Ready, and the two-story dwelling which by James Ready and occupied by Patrick Gleeson; and the two-story dwelling, and stables owned by James Stevens, 167 Main street, caught next.

The large three-story dwelling and store on the corner of Main and Ready streets, also owned by James McKinnon, had

also owned by James McKinnon, buildings on each side and the rear burn-ing, but it was saved by grand work of

In Ready street the use of carpets and mats and a generous deluge of water checked the fire at the residences of Marshall Keefe and Mr. Givenny, while in Main street, a two story dwelling owned by James Ready and occupied by Lawrence Sears, a barber, was saved in the same manner. The fire was kept to three dwellings in Main street, two in Ready street, and four barns. In the rea of the barns are vacant lots.

#### Has Nineteen Children.

This will neces sistate a new photograph.—Summersid

### ILLICIT DISTILLING.

County Where Case Against Geo. Guthro is Being Tried.

Collector T. H. Belyea and John T.

Kelly, of the inland revenue department came home Friday from Kent county where they had been called to take part in the prosecution of George Guthro, of Acadiaville, who had been arrested on charge of running an illicit distillery.

Complaints had reached the department and as Mr. Kelly was well known in Kent basing made previous seizures there, at and as Mr. Kelly was well known in Kenthaving made previous seizures there, an official from Toronto came down to huntout any "private still" which might be operating. Last Saturday he and Constable Ferguson, of Harcourt, went to the house of Guthro, found some apparatus which they regarded as suspicous, seized it and arrested Guthro. The case came up before Magistrate Davis at Richibucto. Mr. Winslow of Chetham was counsel for the pro-Argistrate Davis at Richibucto. Mr. Winslow, of Chatham, was counsel for the prosecution, and the prisoner was defended by Messrs. James and Carter, of Ruchibucto. He pleaded not guilty and his counsel raised a point against the jurisdiction of the court. It seems the line between Northumberland and Kent counties runs through Guthro's farm and he claims the house is in Northumberland.

The case was adjourned pending settlement of the question of jurisdiction and Mr. Winslow will have survey made for it is the determination of the inland revenue department to carry the case to the end as it is proposed to spare no expense to put down all ellicit distillation of whiskey in this province.

Guthro said the apparatus found was not for distilling whiskey and that is why the St. John man was sent for. Mr. Kelly testified that it was similar to apparatus

testified that it was similar to apparatu whiskey.
Guthro has been three times

of violation of the excise law. He has been remanded to jail on the present charge. MOUNT ALLISON CLOSING EXERCISES BEGIN.

St. John Girl Wins Lady Smith's Prize-- Names of the Graduates.

Sackville, N. B., May 27—The closing exercises began very auspiciously last evening with an organ recital by Miss Edna G. Whitman, whose work was deserving of microspraise. Miss Whitman was assisted by Miss Jennie Marsters, reader, who gave her selections in a way that gave much pleasure. The following difficult programme was carried out:—

tonight. There was a large attendance, and
the address was much appreciated. Senator
Wood acted as chairman.

### REV. A. D. ARCHIBALD CALLED TO REXTON,

Chatham, May 29 .- Rev. J. Morris Mac Lean returned today from Rexton, where it a meeting of the Presbyterians of Rex ton and Richibucto held last evening, moderated in an unanimous and heart call to Rev. A. D. Archibald, now station ed at Richmond (N. B.), The stipend \$800 per annum, payable monthly, and two weeks' holidays every year. It is probable a pro-ra-nata meeting of the Presbytery of Miramichi will be hel in about two weeks to receive and dea with the call, which it is hoped Mr Archibald will accept.

# DALHOUSIE COLLEGE

dds a Department of Civil Engineering-A Gowing Institution.

The cess of Dalhousie's School of Mining as led the university to add a new partment, namely, a department of civil engineering. Through the generosity of several public-spirited citizens of Halifax, it has become possible to add another professor to the staff already existing, and the appointment will be made as soon as a properly qualified specialist can be found. This will be the third professor added to the staff in three years. The new appointment will greatly strengthen the whole department of Pure and Applied Science, of which the School of Mines is a part, and increase the popularity of the technical side of the university.—Halifax Chronicle.

Invitations are out for the wedding of Charles Vincent of the North End to Miss E. Vincent, also of the North End, which is to take place on Wednesday, June 1.

eached the city Friday for the equip-nent of the 3rd Regiment of Artillery, of which Mayor White is commanding

water lots which the company desired to secure for yard room the company should transfer to the city the 1,600 foot strip along the Beacon bar, which is now owned by the company.

Mr. Downie stated on Saturday that the company object to this provision in the agreement. They desire to retain the 1,600 foot strip in question.

The mayor replied that unless this transfer is made the agreement cannot be concluded.

The company also saked that the agree.

### P. R. A. ANNUAL MEETING.

Arrangement of Matches for This \* Year; Review of Year Just Closed.

The Provincial Rifle Association of New. Brunswick held its annual meeting Friday evening at the headquarters of the 62nd Fuisilers with Ineut. Col. Loggie, vice-president, in the chair. The apport of the president, in the chair. The report of the council, which was accepted, dealt at some length with the proceedings of last year, with the success of the New Brunswick team in winning the maritime trophy, acknowledged the prizes presented by Hon. William Pugsley, the Colman Company, London (Eng.), by the president, Col. McLean, and the vice president, Lieut. Col. Loggie. It also made reference to the death of Major John H. Parks, long time president of the association. The election of officers resulted as follows: President, Lieut. Col. H. H. McLean; vice resident, Lieut. Col. T. G. Loggie; numbers of the D. R. A. council, Lieut. Col. J. J. Tucker, M. P., Lieut. Col. Son. James Domville, Major C. T. Willer, G. G. F. Guards.

R. H. Arnold, Major D. H. Fairweather, Lieut. Col. March, Major J. T. Hartt, Major A. E. Massey, Capt. S. P. Anderson, Major O. W. Wetmore, James Hunter, Lieut. E. S. Kirkpatrick, Capt. James Manning, Major J. A. McDougall, Major J. D. Chipman, Capt. H. Parlee, Capt. F. B. Carvell, Capt. James Pringle and Capt.

W. E. Forbes.

It was decided to have the maritime match shot at Sussex on June 9 and to hold the annual matches commencing

A special meeting of the council will be held at camp Sussex on June 30 to complete the prize list and frame regulations.

#### CHARGED WITH SMUGGLING

Milltown Young Man Arrested and Taken to Portland. Me. Calais, May 27.—Tuesday night Deputy United States Marshal Norton of Portland and Inspector of Customs James O'Brien of Calais arrested Raymond E. Young of

Milltown (N. B.) on a charge of smug-gling. It appears that last fall Officer O'Brien seized a horse and wagon with a load of sugar being smuggled into the state at Milltown. The driver, Young, managed to escape into New Brunswick; later the horse and wagon were sold. Since later the horse and wagon were sold. Since that time the officers have kept on the lookout for Young, against whom an indictment had been found in the United States court. Monday evening he, with some friends, went to Allen Todd's camp at Meddybemps. Before going Young went into a store in Milltown and bought a whip, incidentally remarking where he was going. This came to the knowledge of Inspector O'Brien and he and Mr. Norton went to the camp and arrested their ton went to the camp and arrested their man. Young was not a smuggler in the sense of the word, and it is said he was delivering the sugar, some 50 pounds, to one of the customers of the store in which

Rev. C. T. Phillips, pastor of Waterloo five years, has tendered his resignation which will take effect September 30th Saturday, Mr. Phillips went to Midland and Norton, where he administered the sacrament of the Lord's supper to the church of those places. G. F. Boulster, of Midlands, officiated yesterday at Waterloo street church.

Many Injured in Coaching Accident.

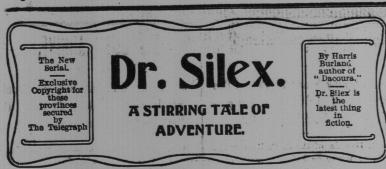

New Haven, May 30—A tally-ho on which were 15 young people from the Grace M. E. church of New York city, C. C. Avard, editor of the Sackville Tribune, will leave early in June, on a visit to the World's Fair.

The schooner Morancy, Captain Scott, arrived at Eastport Saturday from New York.

Grace M. E. church of New York city, who were seeing New Haven under the guidance of Ashley Willis, of this city, was overturned on State street, today and several of the party severely bruised. Edward Willis, international secretary of the Young Men's Christian Association of New York, was among those hurt.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., WEDNESDAY, JUNE 1, 1904.

Murmurs of astonishment went round the ring of men. They had been addressed in their own language, not spoken as I had tried to speak it, but perfectly, and with the accent of high birth and the tones of authority.

"I will tell you why," she continued."I am a woman, and this true gentleman has defended me with his life, and would rather die than tell my secret. I am a woman, and I am not afraid." She buried her face in her hands to hide her blushes.

There was a loud burst of laughter from the spectators, and they crowded round her with rude stares and coarse jests. Or beuil held out his hand, and raised me to

my feet.

"If it was for a woman," he said, "it was well done, and well borne. I will stand by you both—but how shall we

"Aye," cried the others, "how shall we know?" and one of them knocked the cap from her head.

"This is no woman," he cried. "We must see more than a head of curly hair," and he laid his hand on her shoulder.
"Stand back, you brutes," she cried, lifting her hands from her face, and dealing him such a stinging blow on the cheek that the marks of her five fingers stood out red upon it. "Take me to one of the women of the house, and she will satisfy you."

"Aye, aye," they laughed, "a good excuse, my young cockerel; but the women of our house care not for the company of

and a falling back of men. Then a gigantic black-visaged knight sprang to the struggling girl, and dealt her tormentor such a terrible blow in the face with his spiked and armoured fist, that the fellow dropped like a log to the ground, and his features were battered and torn out of all recognition. I looked at the knight's face and recognized it. It was Count Guy of Marmorel himself.

Marmorel himself.

"Take that man and hang him from he battlements," he said quietly. "But 'et him come to his senses first, so that he

"So much the less trouble," the knight answered; "remove him; and hark you, my soldiers, I do not take prisoners to provide sport for your idleness."

They removed the body, and the crowd dispersed to different parts of the room leaving us three.

"I have heard," he continued slow'y, looking hard at the Princess, "that there was only one woman on your ship. Is that so?"

"There were two," I replied. It was not necessary to tell him that one was dead. "And which of the two is this?" he

said.

I hesitated, but the Princess raised her crimson and tear-stained face from her hands, and drawing herself up proudly, looked straight into his eyes.

"Sir Guy," she said quietly, "you are a knight and a gentleman. I fear no ill from you. I am the Lady Thora de Brie, and you received your knighthood at my father's hands."

#### CHAPTER XXII. A Bird in a Gilded Cage.

From the hour that the Princess declared herself to Count Guy of Marmorel, we ceased to be companions in adversity. For suite of rooms for her own private use, that she was clothed as became her high station, and that a dozen attendants administered to her wants. They compared ministered to her wants. They compared her to a bird in a gilded cage, and did not spare their jests on the matter. I learnt from them what manner of man Count Guy was, and that he was not in Count Guy was, and that he was not in the fourth an elderly person of somewhat forbidding aspect. The youth with me learn the truth. the habit of bestowing favors for nothing, and as I listened to their coarse laughter and inuendoes, my heart grew cold within

the darkness. The town itself was a biaze of light, and the summit of every hill was was crowned with fire. The first impression I had of this wonderful sight was that these flames served only to magnify the sense of the great darkness over the land, but when my aver grown accust and the sense of the great darkness over the land, but when my eyes grew accustomed to the light I realised that every detail of the landscape was clear to me. The Asturnians had very nearly succeeded in turning night into day, and it was possible for them to carry on the ordinary pursuits of life through the Arctic winter.

One of these pillars of light was just outside the castle walls, and I took the

opportunity of examining it more closely. It issued straight from the rocky ground through a buck-lined funnel some four feet in diameter, and went roaring and spurting skyward to a height of over forty feet. The heat from it was so great that although it was twenty yards away from me, I could scarcely put my head out of the window. I noticed that a great steel hid several inches in thickness swing downwards on hinges from the side of the funnel, and that long steel chains trailed away from it over the ground. The bricks and part of the lid were white hot. The fire was lit by the simple expedient of

fire was lit by the simple expedient of leaving a burning torch by the edge, retir

ing to a distance, and raising the cover by chains. It was extinguished by the mere A peculiar feature of these fires was the clockwork regularity with which they were lit and extinguished—a regularity which, I understood, had not been broken for five centuries, and which was as sacredly observed the patients. centuries, and which was as sacredly ob-served as any tenet of the national re-ligion. I learnt that in the far past a wise Archbishop of Avranches—the representa-tive of the Pope in that remote island of the north—had proclaimed the curse of God on all or any who might disturb the regular sequence of antificial day and might, and either light or extinguish the fires for their own private ends. This proclama-tion, prompted by the wisdom of man, had come to be regarded as an edict of the Almighty.

Almighty.

I could see at a glance the origin of the flames. They were simply jets of natural gas, which poured out from some sulphur-

country had existed for eight centuries, and might well last another thousand years.

The Asturnians, however, provided in this manner with an artificial light which enables them to pursue their occupations during the winter months, lived a life not the ladies' chamber.

during the winter months, lived a life not very different in scope and character from that of their ancestors in Normandy. They have made but little progress in anything but the art of war, and the continual feuds between rival lords, and between nim come to his senses first, so that he may repent for his sins."

Half a dozen men laid hold of the prostrate figure. The blood was pouring from his forehead, and his face was terrible to look upon. "He is dead, my lord, said one of them; "the spike of your gauntlet has pierced his brain."

"So much the lare trouble." the spike to that he was the spike of your gauntlet has pierced his brain."

They removed the body, and the crowd dispersed to different parts of the room, leaving us three by ourselves. The Princess had buried her face in her hands and was trembling from head to foot. Count Guy turned sharply to me.

"Who is this wench?" he said slowly; "your wife? your—
"Stop, Sir Guy," I cried, "I amake to be a land of the remarkably rich in fruit and and plants spring up with the rapidity of mushrooms. The corn is sown in May and reaped in August. In the same period trees bad, and blossom, and bear fruit, and lose their foliage. Vines and olive trees, stunted but prolific, are in abundance. Fish swarm round the coast a species of musk ox and the coast and always are remarkably rich in fruit and cereals. The earth is a veritable hotbed, and plants spring up with the rapidity of mushrooms. The corn is sown in May and reaped in August. In the same period trees, stunted but prolific, are in abundance. Fish swarm round the coast a species of musk ox and the coast and the remarkably rich in fruit and cereals. The earth is a veritable hotbed, and plants spring up with the rapidity of mushrooms. The corn is sown in May and reaped in August. In the same period trees, stunted but prolific, are in abundance. Fish swarm round the coast and plants spring up with the rapidity of mushrooms. Guy turned sharply to me.

"Who is this wench?" 'he said slowly;

"your wife? your—

"Stop, Sir Guy," I cried, "I am but her servant."

"I have heard," he continued slowly, looking hard at the Princess, "that there was only one woman on your ship. Is that so?"

"There were two." I replied. It was not the swarm round the coast. A species of musk ox and a multitude of hares and birds supply as much flesh as the nation can consume. A kind of spider, which appears to be almost too abundant, spins a fine substance which is scarcely distinguished from silk. This provides clothing for the rich. The poor depend on skins and the feathers of birds, which they weave into wonderful garments.

they weave into wonderful garments.

The more barren parts of the island are rich in gold, silver, iron, copper, and lead. But for the six months of darkness, which at present would weigh heavily on my nerves the island seems to be a most de-

I propose, Cordeaux, at some future date, to write you a detailed account of this nation and country. For the present I am unwilling to interrupt the course of my narrative with more than these few passing remarks.

When a fortnight had elapsed, I receive

ed a summons to attend the pleasure of the Princess Thora. An effeminate and silk-clad youth brought the message, and, with an escort of two soldiers, conducted

me to her private apartments.

I passed through three ante-rooms. The a whole fortnight I never set eyes upon her sweet face, but I heard the soldiers say that she had been given a magnificent was handsomely decorated, was empty save for a couple of brilliantly-dressed pages playing some game at a table in the corner. The third, at the door of which we knocked, contained four members of

us?" he said with a siy glance at one of the great fires which and I saw for the first time how these extraordinary people had succeeded in creating an artificial daylight for themselves. The Princess and Sir Trule de Brie had previously told me of the great fires which during the winter night blazed for twelve hours out of every twenty-four, but now I had an opportunity of seeing the strange of the said with a siy glance at one of the great was the girls. The old lady rose with an air of exceeding dignity, and knocking at the girls. The clied at the room, entered and closed it behind her.

I looked round the room and almost felt inclined to turn back. My heart was chilled at the sight of so much form and the vessels were lying quite close to the forts. The English flag still fluttered in the breeze, and "night after night search light of the room, entered and closed it behind her.

I looked round the room and almost felt inclined to turn back. My heart was chilled at the sight of so much form and the vessels were lying quite close to the forts. The English flag still fluttered in the breeze, and "night after night search lights played over the town and castle, and threw white lines across the room in which I slept.

For hours in the day-time, by the light of the great fires, I would watch the small black specs moving along the decks of the woman, of a proud and dignified manner indeed, but not set apart in a world of her own, or fenced about with pomp and the vessels were lying quite close to the full the distance that lay between me and the woman in the breeze, and "night after night search lights played over the town and castle, and threw white lines across the room in which I slept.

For hours in the day-time, by the light of the great fires, I would watch the small black specs moving along the decks of the woman in half a mile of the shore, thought the vessels were lying quite close to the full the day-time and the vessels were lying and the vessels were lying the was still a passage to east and well and t

light.

The Princess was not a one with Count

The Princess was not a one with Count Guy of Marmorel, and for that I gave much thanks. A slender, fair-haired girl was in attendance on her, and the two were laughing together on a couch as I entered. Count Guy stood a few paces off. He was clad in complete armor, save for his plumed helmet, which lay upon the table. He was apparently lost in thought. He did not look up as I crossed the room, but gnawed his moustache and frowned.

My dear lady rose to her feet, and stepping forward a pace or two to meet me, stretched out her hand. I bent upon one

the ladies' chamber.

I noticed, however, that I was never al-

lowed to see the Princess alone. The fair haired girl, who was, so I learnt, no less haired girl, who was, so I learnt, no less a person than Count Guy's daughter, the Lady Margaret de Marmorel, was always in attendance. She was a charming girl, sweet both in face and temperament; and I lost no opportunity of making myself pleasant to her, though I often wished she would leave us a little to ourselves. Count Guy, on the other hand, had many interviews with my lady alone. On those ocon some excuse or other, and no page or lady-in-waiting ever interrupted the interviews. And every time the knight strode views. And every time the knight strode through our room on his way to her chamber, my mind became a seething hell of doubt, suspicion, and despair. I clenched my hands, and averted my face from his, and would have sprung at his throat, if common sense had not prevailed and whispered in my ear that my death would in no way improve the situation.

whispered in my ear that my death would in no way improve the situation.

Yet when he returned from these visits, my heart beat fiercely with joy and hope, for he generally came back like a thunderstorm, with darkened brow and flashing eye, and a look on us face that boded ill for anyone in his path. I chuckled with savage glee at every little sign of his wrath and discomfiture. My lady was evidently not too kind to him.

For a whole week I had the wild idea in my head that Count Guy was attempt.

With questioning eyes. It was evident that his love suit was not prospering as he would wish. He turned round, and, closing the door, walked across the room to her side.

"You are alone?" he said quietly, giving a swift glance round the apartment. I shrank closer to the wall, and began to wish that I held some weapon in my hand. It was probable that someone outside had told him that I was in attendance on the Princess.

"Your daughter is not well." she ans-

For a whole week I had the wild idea in my head that Count Guy was attempting to dishonor my dear lady, and that she had spurned his advances with such firmness and regularity that she had driven him to a state of mind bordering on madness. I had started with this idea, founded on a fairly accurate estimate of Count Guy's character, and had not stopped to reason the matter out. But one day, after Count Guy had gone in, I happened to be in the ladies' room and saw the Lady Margaret come out. With an arch smile on her pretty face, and like a flash of lightning a new and more with an arch smile on her pretty race, and like a flash of lightning a new and more reasonable suspicion entered my mind. The Lady Margaret was evidently helping her father in his campaign. It was hardly likely that she would assist him in another, warman's downfall or even that he likely that she would assist him in an other woman's downfall, or even that he would ask her to do so. Count Guy was a widower. Perhaps he intended marriage; though at first sight marriage with the sworn enemy of his "lord, the king," seemed an unlikely and even impossible event. But on turning the matter over in my mind, a sudden idea struck me, and I resolved to watch and wait until I could learn the truth.

forbidding aspect. The youth with me stopped and bowed.

"Is it her Highness' pleasure to receive us" he said with a sly glance at one of the girls. The old lady rose with an air of exceeding dignity, and knocking at the door on the far side of the room, entered and closed it behind her.

I looked round the room and almost felt inclined to turn back. My heart was lights played over the town and castle,

during the winter night blazed for twelve hours out of every twenty-four, but now I had an opportunity of seeing the strange spectacle with my own eyes.

As far as the eye could reach long columns of brilliant flame leapt up into the darkness. The town itself was a blaze of tight, and the summit of every hill was was crowned with fire. The first impression I had of this wonderful sight was that these flames served only to magnify the sense of the great darkness over the sense of the grea

ment with a warm glow of heat and the story of Count Guy of Marmorel. She I am afraid. We can afford to lose a men. Numbers must tell in the end. But why talk to me like that? You know the reason of my mactivity. You know why I have spared your followers. You know why I, Count Guy of Marmorel, have forfeited my sworn honor as a knight." never spoke of him, except in terms that could have been applied to any kind and

but graved his moustacles and frowned.

My dear lady rose to her feet, and stepping forward a pake or two to meet me.

Any dear lady rose to her feet, and stepping forward a pake or two to meet me.

Setteched out her hand. I bent upon one her as the said in English.

"My dear friend. How much you have seen from the said in English.

"My dear friend. How much you have seen from the said in English.

"Tan ropad afready," I replied, the said the seen from the seen from "mine," and may unable to find a said from "mine," and may unable to find a said from "mine," and may unable to find a said from "mine," and may unable to find a said from "mine," and may unable to find a said from "mine," and may unable to find a said from "mine," and may unable to find a said to my feet, and I dosking her little hadd from "mine," and my feet, and I dosking her little hadd from "mine," and my feet, and I dosking her little hadd the form on the face which did not escape the keen.

"She langled, but there was a tender look of the said the seem of the said the said the seem of the said the

"If he finds you here, he will kill you," she cried, looking up into my face. "Quick, Dr. Silex, you must hide. For my sake, for my sake." She looked at me in such a way that no resolution of man could have held out against the ap-

I slipped behind some hangings which covered a small recess in the wall, and she held out her hand. I kissed it, and a moment later the door opened, and I shrank into my place of concealment. Through a small rent in the damask, no bigger than a threepenny piece, I saw Count Guy, tall, handsome, and soldier-like, on the threshold. He was clad in complete armor, as if prepared for war, complete armor, as if prepared for war, and his dark face was lit up as though

CHAPTER XXIII.

A Traitor to the King.

For a moment he stood in silence. The Princess bowed stiffly, and looked at him with questioning eyes. It was evident that his love suit was not prospering as he would wish. He turned round, and, closing the door, walked across the room

ART MUSEUM DISPLAY

s a Great Credit to Instructors and Students-Rev. Mark Guy Pearse

> Sackville, N. B., May 29—(Special)— Closing Sunday at Mount Allison was well observed today. This morning Rev. David Hickey, of Barrington (N.S.), delivered the annual sermon before the theologic union. The attendance was large and the address highly spoken of. The music was very fine.
>
> This afternoon the farewell service of

the Y. M. C. A. was held in the college chapel. A large number were present and the service most impressive.

Tonight the Sackville Methodist church Tonight the Sackiville Methodist church was filled as it was never filled before. Fully 1,400 people were present, many being obliged to stand during the entire service. The music was furnished by a choir of fifty voices and an orchestra of seventeen pieces, under the direction of Prof. Wilson and Dr. Archibald. The Baccallauresta segment was delivered by Rev. our nouse care not for the company of boys."

"You devils," I cried, struggling to be free from the grasp of Orbeull's arm. "Have you no shame? If you know the standard of the binds was, you would bite your tongues out before you spoke. I tell you Company of the shall have a word for some of your household, if you have a spark of home in your vile bodies."

"Nay, nay," they erice of them again group will be the risks attached to it."

"Nay, nay," they erice of your poke. The hard words point for your household, if you have a spark of home in your vile bodies."

"Nay, nay," they erice of them again group will be the risks attached to it."

"In Lady Thora," he continued, "ja you have been for my lord the kind the whole island was but a nothing the post-part of the post-part of your household, if you have a spark of home in your vile bodies."

"Nay, nay," they erice of them again group will be supposed the interior of your household, if you have a spark of home in your vile bodies."

"Nay, nay," they erice of them again group will be supposed the interior of your household, if you have a spark of home in your vile bodies."

"Nay, nay," they erice of them again group will be supposed to the risks attached to it."

I aid, speaking the language as best I contact with my dear lady. I was clothed the risks attached to it."

I and not not not not the estingtion of your household, if you have a spark of home in your vile bodies."

"Nay, nay," they erice of them again group will be supposed to the risks attached to it."

I and a group of the will not have a spark of home in your vile bodies."

"The Lady Thora," he continued, "ja you can be a small proper the prices, and at thempton in the prices, and at thempton in the price of your will be supposed to the risks attached to it."

I knew that he spoke idly, for it was the price of your for meeting and miningly in the prices. The price of your for it has the file of your household, if you have a spark of home in your vile bodies."

"I have the the prices, study and there is

Rev. Wilfred Gaetz, of Parisboro, wan attend the Mt. Allison closing this year. Mr. Gaetz has recently accepted the invitation of the Amherst Methodist church the instor in July, 1905. Mr. Gaetz has recently accepted the intration of the Amherst Methodist church to become its pastor in July, 1905.

Mrs. Stark and Miss Stark, of Waltham (Mass.), arrived in town Saturday, and are the guests of Prof. and Mrs. Hammond. They will remain in Sackville during the summer, while Prof. and Mrs. Hammond are abroad.

Last evening about eighty of the friends of Miss Tillie Tingley, teacher at midgic, assembled at the residence of Mr. and Mrs. Nathan Sears, it being the eve of Miss Tingley's departure for Alberta (N. W. T.), where she has secured a position as teacher. She was presented with an address and a handsome brooch.

Word reached Sackville recently of the death in New York of Duncan Trueman, who formerly lived on Weldon street, Sackville, with his father, the late Charles Trueman. Deceased, who was about forty

his pictures. This promising artist makes an admirable exhibit, his paintings from the casts being specially noticeable for fi-delity and color. The gems of his collecroom in the art museum in which he reproduces the pictures and statuary with that artistic insight and fine perspective.

There are a large number of pictures in black and white, chiefly drawings from the casts and the work appears to be of a high character. Among the many good things there worthy of more than a passing glance are pictures by Misses Turner, Ruggles, Gee, E. Borden, G. Borden, Cassidy, Jardine, Humphrey, Richardson, Langstroth, Carr, Killam, Balmain, Mur-

ray, Johnson and B. Luther. The painting from casts has been made specialty this year and is considered to rank next in importance to painting from color having been in most cases admirably caught. Particularly good pictures have been done by Misses Killam, Perley, H. been done by Misses Killam, Perley, H. Wood, Dexter, Illsley, G. and E. Borden. There are but few copies which indicate plainly the march upward. Those that will attract attention are "Cattle in a Sterm," by Miss Turner; "Coast of Cornwall," by Miss Dexter; "Corner in Barbizon," by Miss Gee, and "Sunday," by Miss Ruggles. Other good pictures are by Misses Carr, Langstroth, Prouse, Tompkins and Cassidy.

ins and Cassidy. The china painting department which is under the capable direction of Miss Fanny Harris, is larger than usual but has (Ala.) The china painting department which

an admirable display of work. Among the pretty things that will attract are a the pretty things that will attract are a black vase with gilt dragon by Miss Porter; biscuit jar, Miss Cassidy; seaweed plates by Ge and E. Borden, poster plate, Miss Turner, marmalade jar, Miss Humphrey, nut bowl, Miss Burchell; mug with child and bird, Miss Crowell; delf blue plate, Miss Johnson.

In the paintings from still life much In the paintings from still life much faithful work and no little ability is dis-played. Among those specially worthy of mention are studies by Misses M. Killam, H. Perley, A. Harlow, M. Ruggles, E. and

The great centre of attraction is, how-ever, in Prof. Hammond's studio, where are displayed an unusual number of pic-tures from his masterly brush. Chief of tures from his masterly brush. Chief of these are three splendid pictures that are part of a scheme of mural decoration. On the easel is a long picture, a view of Vancouver harbor, the town in the distance and the blue mountains to the left. On the south wall is hung a painting of Lake Louise, in which the cold white of the glaciers on Mt. Temple and Mt. Victoria is depicted with care and skill. On the west wall hangs a magnificent view Last Night and Electrified a Vast
Audience.

Sackville, N. B., May 29—(Special)—
being Sunday at Mount Allison was well served today. This morning Rev. David ckey, of Barrington (N.S.) delivered to toria is depicted with care and skill. On the west wall hangs a magnificent view of the Tantramar Marsh, where it stretches "miles and miles" and in the background a finely painted figure of a man plowing. The perspective in this picture is marvelous. There are also a large number of paintings and studies shown, interesting and beautiful which would make an hour spent in this studio delightful and enriching.

Late Rector of Greenwich Given a Gold Watch and Purse by His Parishioners -- Other News of Interest

Greenwich, Kings Co., May 26—The parishioners of the parish of Greenwich met in the hall at Round Hill on Tuesday evening, May 24, when the following address was read by James Hannay on behalf of the parishioners:—

parishloners:—
To the Rev. H. A. Cody:

Rev. and Dear Sir,—We the members of the congregations of the churches under your pastoras, care in the parish of Greenwich and outlying parishes, feel that we cannot part with you without expressing once more our regret at the severance of the tie that has united us for the past seven years. During the period you have labored among us your work has been abundantly blessed and our esteem, and affection for you have steadily increased until we feel that in parting with you we are losing one whose place can hardly be filled. But we are consoled in a measure by the reflection that elthough

are Misses Daisy Weddall and Jennie Payson, Fredericton; Miss Toole, Memramoook; Mrs. Harvey Treen, Sydney; Miss G. Crane. Halifax; Miss G. Eaton, Canning (N. S.); Mr. and Mrs. J. R. Taylor, Derchester; Rev. W. Galez, Parrsboro; Mrs. Thes. Reach, Miss Roach, Nappan (N. S.); Rev. 5. C. Berrie, Jacksonville, president N. B. & P. E. I. conference; Mrs. Masters, Windsor; Rev. J. C. Donkin Bear River; Mrs. Comber, Woodsteck; Mrs. R. N. Colter, St. John; Mrs. George M. Clark, Rexton (N. B.); Miss Helen Read, Mrs. J. W. Webb, Halifax; Mrs. Stephen Ilsley, Berwick; Mrs. B. A. Mowat, Campbellton.

Art Museum Exhibition.

The art museum was opened to visitors yesterday morning and shows an excellent exhibition of the students' work in the past school year. In the breadth and seriousness of the work there is a steady advance, the exhibits displaying every year less copying and more and better original work. The sketching class in color is a novelty and many successful of more on the casts of Moncton (N. B.), who, after only two years' work, has arrived at the distinction of having one wall given over entirely to his pictures. This promising artist makes an admirable exhibit, his paintings from the casts being specially noticeable for fi

week.

ST. JOHN MAN CLAIMS HE WAS DEFRAUDED. A case will soon be ventilated in the

A case will soon be ventilated in the courts of New York in which a former St. John man, Edward L. Temple, appears as the plaintiff. It is said he met James Keith Fisher some time ago and that Fisher made representations to him that he had discovered the lost art of tempering conners that he persuaded Temple to ing copper; that he persuaded Temple to buy a half interest in the discovery for 85,000; that Temple gave Fisher \$500 in cash and notes for the balance. After he had redeemed one note for \$500 he became suspicious and demanded his money back and it was refused; that he then laid an information against Fisher, who was arrested.

of a small photo of the seminary building. After the singing of the national anthem the guests of the afternoon were all enthusiastic in praise of this part of the exercises.

Saturday evening brought the usual special feature of entertainment. Prof. Welter Bradley Tripp, of the Emmerson School of Oratory, Boston, under the auspices of the A. A. A. R., gave an elocutionary recital in College Hall. This recital was of very high merit and those who did not attend were very unfortunate, although the large hall was full to overflowing and showed how the people were gathering from far and near. The three provinces were well represented as well as many from different parts of the United States.

Sunday was the great day. Early in the morning people were to be seen coming from all the surrounding country to attend the baccalaureate sermon. At 11 o'clock the graduating class in bachelor of arts in the customary cap and gown filed into College Hall in solemn and stately procession to the strains of The War March of the Priests, played by Misses Lillian Strong and Faulein Price, to the specially reserved seats in the front and centre of the hall. Dr. Trotter, president of the university, presided. Special music was rendered by the large choir composed of voices from the town as well as from the institutions. A solo rendered by Miss Archer, teacher of vocal music in the seminary, was very touching in its rendering. The anthem, Hark, Hark; Angelic Voices, was by far the best that has been given in the down for a long time. The hymns used for the service were 0, Worship the King, Mighty God While Angels Bless Thee, O'Jesus! King Most Wonderful. The choir was composed of fifty voices strong. Rev. Prof. Calvin Goodspeed, D. D., of McMaster University, was the preacher. His text was I Cor. 16-138 and his subject Christian Strength. He said in part:—

The first condition of this strength is in the taking. But alertness of heart is more needful to strength if possible, for it is this alone which will make one sensitive to motive

#### Daniel N. Vanwart.

Daniel Nelson Vanwart, aged 55 years son of the late David Vanwart, of Kars Kings county, and senior member of the grocery firm of Vanwart Brothers, died at his home, corner Charlotte and Duke

Mr. Vanwart's death was wholly unex pected. Up to Saturday noon he was juite conscious, though suffering intense y. A week ago he was at his work in the shop in which he has lost but one lay's duty in two years. any's duty in two years.

The erysipelas, however, took a more serious turn, spreading throughout the body. Saturday afternoon he lost consciousness and though his attending phys-

sciousness and though his attending physician, Dr. Sheffield, assisted by Drs. Inches and Holden, were faithful to the last, the worst resulted.

Mr. Vanwart leaves a widow, daughter of the late James Isbister of this city, and one child, Roy A. Vanwart, who is associated with the grocery house. John W. Vanwart, of the firm, is an only brother and Mrs. Emma Clark, of Sussex, widow of Rev. J. Wesley Clark, late Free Baptist clergyman, is a sister.

Saptist clergyman, is a sister.

More than a quarter century ago th ate Mr. Vanwart started a small grocery n City Road and later in Dock street. Then he moved his business to Charlotte treet, near where the present establishment is situated. By close attention to he details of trade he worked up conhe details of trade he worked up considerable custom, and more than twentyone years ago admitted his brother to
partnership. One of the evidences of the
irm's success are the three substantial
corners at Duke and Charlotte streets,
which are owned by the Vanwart firm.
A genial, painstaking merchant, honorable citizen and lavish friend. Mr. Vanwart was much esteemed. His sole rewart was much esteemed. His sole re laxation from the ardors of his business vas an eccasional trip to foreign climes, having travelled throughout Europe and America extensively. He was planning a year's journey in the Old World at the time of his final illness.

#### Miss Helen Emery.

After illness of but two months, Miss Helen Emery died Sunday at her moth-er's home, 58 Eliott Row. She was 21 years of age, the youngest daughter of the late James Emery, and is survived by her mother, three brothers and two sisters, and to them the sympathy of many friends will be extended.

The death occurred yesterday at the residence of her son-in-law, J. G. Trimble, 200 Paradise Row, of Anna M., widow of Brown Harrison, who was so well known in Kings county for many years as the manager of the savings bank at Sussex.

The late Mrs. Harrison was in-the 82nd year of her age, and she and her husband had a very wide circle of friends in the years of their active life. She is survived by three sons: Lemuel, of Newtown; Fletcher W., of Boston, and Herbert C., f Vancouver; and four daughters: Mrs. John Mace, of Sussex; Mrs. (Rev.) J. E. Gosline, of Barrington (N. S.); Mrs. John G. Trimble, of St. John, and Mrs. J. F. McLeod, of Wollaston (Mass.) The late Mrs. McCready, of Apohaqui, was also a daughter. The death occurred yesterday at the

Amherst, May 30—(Special)—A telegram received here this afternoon by C. W. Hewson, M. D., announces the death this morning at Dr. Gardiner's private hospital, Montreal, of Laura, wife of E. E. Hewson, barnister, of this town.

About three weeks ago Mrs. Hewson, accompanied by her husband, went to Montreal. A week ago last Thursday she underwent a delicate operation and up to Saturday most encouraging reports were received by her friends here and it was not until this morning that danger was anticipated. An early telegram announced that all hope had been abandoned and that while suffering no pain she was peacefully sleeping her life away. This was followed shortly by the sad news of her death.

Deceased was a daughter of Capt. Moorehouse, of Sandy Cove, Digby county (N.

Deceased was a daughter of Capt. Moore-house, of Sandy Cove, Digby county (N. S.) She was married to Mr. Hewson about eight years ago. They have one son, aged six. She was a highly educated and refined lady, a graduate of Mount Allison and a member of the Methodist church, and held in high esteem by all who knew her, and the deepest sympathy is expressed for Mr. Hewson in his termible bereavement. A brother, who is an officer on one of the large ocean line steamers, was expected to arrive in Montsteamers, was expected to arrive in Montreal on Saturday and was no doubt with her at the end. Mr. Hewson is vice-president of the Hewson Woolen Mills, Amherst.

At 5 to clock this atternoon are partially destroyed the house on Douglas avenue owned by D. W. Douglas, and occupied by D. D. Betts. The house was completely gutted. The loss will be about \$1,500, partially covered by insurance. The contents, which were badly damaged by water, were removed. Mr. Betts had no insurance. His son, Arthur, thinking his mother was in one of the upper trooms. mother was in one of the upper rooms, broke through the windows, severely cut-

On a warrant issued by Justice Casey,
C. C. Southwood was this afternoon avrested by Detective J. H. McIver and lodged in jail, charged with stealing 861 from his chum and roommate, Alex. Smith. Fifty-five dollars of the stolen funds were found in the accused's valise but he denies all knowledge of how it got there, although he acknowledges that the money is not his. The two men, who are working in sewerage construction, room together at a boarding house kept by Wisley McDougal. They both came from Truro here.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., WEDNESDAY, JUNE 1, 1904.

# IMPRESSIONS OF WORLD'S FAIR AS SEEN BY ST. JOHN PRESS MEN

The Vastness of It—A Few of the Features—As to the Cost of Seeing It-The Inside Inn-A Sunday in St. Louis and Some Facts About the City-Canada to the Fore.

The Talgraph representative who went to the Worlfl's Fight at St. Lonis with the press party opisionally conducted by Geo. If. Mam, of the Canadian Pacific Railway, has been asked, by many persons, who thinks of going to the fair, these two guestions.

In the fair really worth going to see:
What is it likely to cost, to spend a few days or weak three?
To the fair of these questions the an St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as the presentatives of eventuring and countries to spend dimension to the greatest of the Worlfl's Fair thus far held, whocher at St. Louis is by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at St. Louis as by far the greatest of the Worlfl's Fair thus far held, whocher at the presentatives of eventuring and countries to spend direct the presentatives of eventuring and countries to spend direct the presentatives of eventuring and countries to spend the presentative of the presentati

For example, the grounds comprise 1,240 acres. Approximately they form a rectangle two miles long and one mile wide. The surface is not level, but hilly. It was a magnificent park, and the buildings were erected among the trees, destroying as few of them as possible. This greatly heightens the beauty of the place. The heightens the beauty of the place. The Intramural railway, which traverses the grounds, has a right of way seven miles long and fourteen miles of tracks. The hills had ravines on the area traversed add greatly to the picturesque effect of the whole scene. While the most important buildings are grouped toward one side of the park, there are buildings and other exhibits all over it, so that there is much ground to be covered. In this the railway, on which the fare is ten cents,

railway, on which the fare is ten cents, is of great assistance.

With regard to the buildings, an idea of the size of some of them and the vastness of the exhibits they contain may be gleaned from the fact that the Palace of Agriculture has 21 acres of space and nearly seven miles of aisles. It is the largest exhibition building ever erected. There are hundreds of buildings, large and small, on the grounds. Among the very large ones are the following: Agriculture, Transportation, Varied Industries, Machinery, Electricity and Machinery, Manufactures, Education and Social Economy, Horticulture, Mines and Metallurgy, Liberal Arts, Fine Arts, Forestry, Fish and Game, U. S. Government and Fish and Game, U. S. Government and Administration Buildings. It would be practically impossible to walk through all parts of these buildings in a day, without stopping at all to inspect the exhibits in

erected by the different states, as well as others by Great Britain, Canada, France, Belgium, Brazil, Mexico, Siam, Nicaragua, Italy, Austria, Argentina, China, Japan,

lage, the camps of Indians and of the aborigines of Japan, the walled City of Jerusalem, in whose narrow ways the visitors may almost lose himself, the mining displays in the Gulch, the camp of the Boers, the live stock exhibit, U. S. Marine

In Festival Hall is the largest organ in the world. Queen Victoria's Jubilee presents, the Vatican treasures, the wonder ful exhibits made in various buildings by Japan, the British pavilion modeled after the Orangery at Kensington Palace, the French Pavilion, modeled after the grand Trianon at Versailles, the art treasures in sculptured marble from Italy, the magnificent paintings from the old world in two dining rooms, one on the American plan, seating 1,700 people, and one on the European plan seating 800. The two are only divided by a long screen. Several times when the press party were there it nificent paintings from the old world in the fine arts building, the massive sculpture and statuary which decorates the grounds and buildings, the magnificent and unrivalled electrical display—these and a thousand other attractions rare and wonderful, command the visitor's at-tention, and almost weary him with the ing sights to see a couple of thousand people or more sitting at table, while a great crowd strolled about the office and vast profusion. There are said to be nearly a thousand buildings, large and small, de likewise.

An idea of the extent of the building

on the grounds.

Canada's exhibits are among the striking features in several of the buildings, notably in agriculture, mines and metallings, horticultural, fish and game; and

luirgr, horticultural, fish and game; and she has also a very creditable fine arts exhibit.

The Physical culture department and the Stadium, which sents 27,000 people, will be of special interest to all who eajoy at liketic sports.

Then there is the Pike, a very broad, paved roadway over a mile long, with a double row of electric lights running down the centre from end to end. On either side throughout its whole length are places of ententainment, such as Ancient Bonne, Baby Incubator, Battle Abey, Boers, Cairo, Ceylon, tea garden, Chinese village, elif dwellers. Constantinople, extremely a mines, French village, Galveston flood, glass workers, Hagenbeck's trained animals, with the exhibits, mysterious Asia, Ferris where every provision for convenience and service, ladder fire escapes, fire extinguishers at every 100 feet, numerous wide exits, so the every provision for convenience and safety. Rooms may be secured in advance, Frish village, Moorish palace, U. S. naval exhibits, mysterious Asia, Ferris where every provision for convenience and secure railway, Tyrolean Alps, under and over the sea, water chutes and numerous modern convenience and sover the sea, water chutes and muserous modern and seems of the attractions. All these charge administion fees, ranging from 10 to 50 ents. The Pike is at its best in the evening, and going to and coming from it the peape ple are able to enjoy the magnificent electrical illumination of the Cascades and the buildings around the Plazar of St. Louis is open after the displaced of the cascades and the buildings around the plazar of St. Louis is open as the entities of the present order mill population, and a general holiday aspect per provised the above mentioned conditions went into the city. They found many the centred display to the conditions of the cascades around several and the cascades and the buildings around the Plazar of St. Louis is open for imperiod of the cascades and the buildings around the Plazar of St. Louis is open as the provisions of this form and pro

shops, especially those selling fruits and other eatables. Places of amusement were also open, and the street vendors of world's fair souvenirs and other trinkets world's tair souvenirs and other trinkets had their wares displayed on the side walks. Boys were selling flowers, and bootblacks plied their trade. The street cars were doing a large business. Some members of the press party who went to church said that there were large congregations and impressive services, but

went to church said that there were large congregations, and impressive services, but this did not appear to effect the life of the streets. In the afternoon thousands attended a league ball game, and a ride around the city in the street cars showed minor games in progress on vacant lots, with groups of spectators. In short the citizens are allowed a great deal of latitude in the matter of Sunday amusements. The theatres in the evening had fairly large audiences.

St. Louis has a population of 750,000. It is not as impressive in outward appearance as some other American cities, and there is perhaps less attention paid to the cleanliness of the streets than one would like to see; but it has many claims to disby the fair management makes up an economical day's expenses for a visitor having a room in the city as follows: tinction. It is not as great a steamboat centre as in former years, the railways having taken much of the business since bridges were built across the Mississippi to connect it with the shore of Illinois. Breakfast. \$ 25 Oar fare to the grounds .05 Admission to grounds .50 Dinner on grounds .35 But it has still a large river traffic. With regard to its position as a business centre, and the gateway of the southwest, the of the largest tobacco factory in the world. The biggest brewery in America is situated in St. Louis, and the beers of this city are sold in all parts of the globe. The largest shoe house in the world is to dental expenses on the grounds, the charge would still only be \$3 for the day. But very few who go to St. Louis would expect to keep their expenses down as fine as that. The circular gives another itemised bill which is nearer the mark: city are sold in all parts of the globe. The largest shoe house in the world is to be found in St. Louis, and the city is one of the biggest points on the Globe for the manufacture and wholesaling of shoes. In each of the lines of wholesale hardware, wholesale drugs and wholesale woodenware, the city possesses a concern which surpasses in volume of business any house in a similar line on earth. St. Louis is the greatest horse and mule market, and a e greatest horse and mule market, and a the greatest horse and mule market, and a leading saddlery market of the world. The biggest chemical manufacturing plant in America is situate here, and so is our country's greatest cracker factory. The city also leads the country in the manufacture of white lead and jute bagging. It has the largest brick works, the largest sewer pipe factory and the largest electric plant on the continent, and it manufacture of the plant of the continent, and it manufacture when any city in "Suppose, you desire to remain six days. In that time you can devote one morning to one main building, and afternoon to another, and so on, from Monday to Satures more street cars than any city in urday, inclusive, passing the evenings on The Pike, or attending outdoor concerts and seeing the grand electrical illuminations. The grand total for the week is but \$29.10 for the cost of a week's sightthe world, shipping them to all sections of the globe. In the jobbing of dry goods, millinery, hats and gloves, and groceries, St. Louis ranks among the foremost cities on the continent.

The visitor to St. Louis will find the course this is also an estimate to

coachmen ready to entertain strangers. One of them wanted \$4 to take three press men from the city to the fair grounds. The street car took them for 15 cents the regular coach fare in the city is 28 ents per mile for each person; and 75 culty in relieving their minds and their cents per hour for one or two person within three miles of the court house.

appeal to the visitor of moderate means, and many such will go to the great fair

verandahs waiting for an opportunity to

The Inside Inn is in itself one of the features of the great fair. It was built within the grounds for fair purposes, and will be torn down at the close. It is 400x Of Canada's exhibit one of the official publications of the World's Fair managenent says: 800 feet in dimensions, and is three stories bigh. There are in it five miles of corridors. A corridor runs along each side of its entire length, and these are con-

in the Dominion Department of Agricul-ture and makes a regular business of par-ticipating in all expositions. It is a part of her established policy to show to the world the vast resources of her provinces and territories whenever opportunity of fers. Canada, therefore, comes equipped for a fine display at the Universal Exposi-tion of 1904. She has built a beautiful pa-vilion upon the broad avenue north of the Palace of Agriculture and in all de-partments of the Exposition the name of Canada will be conspicuous. In the New York Daily News not long ago Sir Thos. Shaughnessy said:

Shaughnessy said:

"Keep your eyes on Canada. She is well worth studying at this important period of her growth. Canada is growing every hour. She is becoming active and is making great strides in the direction of prosperity. Her people are pushing ahead with the ambitious purpose to build up industries all over Canada, and they are going to do it. Canada is going to be one going to do it. Canada is going to be of the greatest, if not the greatest agric may be gathered from the fact that it took three minutes brisk walking to go from the rooms occupied by the St. John tural centre of the world, and it is toward this end that Canada is working. By making Canada a great agricultural centre. There is not the slightest doubt in m

### "MARY JACK" HUMPHREY, SURVEYOR, KILLED BY TRAIN NEAR SOUTH BAY.

Body Fearfully Cut and Broken, Found Near the Track Sunday, and Coroner Macfarland Will Hold Inquest-Until Recent Years Deceased Wore Women's Clothing.

The body of James Humphrey, who was more familiarly known as "Mary Jack" Humphrey, was found beside the C. P. R. track at South Bay Sunday about

and Charles Humphrey, uncles, residing in Fairville, were notified of the death, but it is said they declined to assume charge of the body. So undertaker Beatteay, of west St. John, was instructed to take the body to his warerooms and prepare it for burial. Coroner Macfarland will hold an

### inquest this evening at Fairville.

months ago to a young woman of Freder-icton. He having been employed near Clarendon Station their home has been Humphrey finished his work

there. Humphrey finished his work Thursday last. "Mary Jack" Humphrey was about 30 "Mary Jack" Humphrey was about state years of age. Only a few years ago that Man's clothing was doned. From childhood until a few years ago girls' and women's clothing were worn and it was a strange sight to see Humphrey clad in woman's attire standing on a pile of lumbary and the standing of mentaking a survey ber among a gang of men taking a survey of the deals His companions were chiefly men and boys and "Mary Jack" was a very prominent figure on the skating pond in winter with the boys, or about the saw mills during the summer. Deceased's parents, Mr. and Mrs. Geo. Humphrey, live

The inquest into the death of James Humphreys, found dead near the C. P. R. track, South Bay, resulted in a verdict to the effect that he had been accidentally struck by a train and that no blame could be attached to anyone.

Coromer McFanland presided at the inquest, which was held in Fairville. The first witness was Herbert Brenan, who told of finding the body.

Dr. J. H. Grey, of Fairville, testified that he examined the body. The right leg was broken in three places. There was a severe scalp wound and a compound fracture of the skull.

Wm. Hanlon, a boy, swore he saw deceased at Milford crossing Saturaay night. The deceased was drunk and he was advised not to continue walking along the

The deceased was drunk and he was advised not to continue walking along the track. The advice was disregarded.

John Steers, engineer of the suburban train, testified that his train left St. John at .55 o'clock Saturday night and passed the scene of the accident at 10.10 o'clock. He saw nothing on the track.

Elred Stewant and Martin Cameron, trainmen, swore that during the trip they had not seen anyone on the track.

Policeman Lawson, of Fairville, told of identifying the body and empanelling a jury. The witness found on the body \$7.43, a railway conductor's round trip ticket and a letter from Wm. McCormack, of Clarendon.

of Clarendon.

The jury did not long remain out. Chas Corsey, of South Bay, was foreman, and the other jurymen were Arthur Taylor, Chas. Lord, Wm. Lowrey, James Logue, James Love and Bedford Long.

# THE MACDONALD SCHOOL.

Applications by Pupils from All Parts of the Province.

New Institution at Kingston Opens Up Opportunity for Hotel and Store-Proposed to Establish a Summer School.

The Macdonald central school building at Kingston has been comp

rangements are in progress to furnish it with the most modern and up-to-date school appliances for manual training, domestic science and other branches of mod-D. W. Hamilton has been engaged for some weeks with a crew of men grading

and planting the spacious grounds with trees, shrubs and flowers. Prof. Robertson is expected to visit Kingston in June.

Many applications on the pant of intending pupils are being received from all over the province, including a number from St. John city.

It has been proposed to establish a sumfrom St. John city.

It has been proposed to establish a summer school in Kingston as the facilities connected with the institution will be so advantageous and the Kings County Institute desired to hold its sessions there

stitute desired to hold its sessions there this year.

The great need of the village is a good notel and there is an excellent opportunity for some enterprising person to establish one there at once, as more ample accommodation will be urgently needed, not only for the pupils and teachers of the school, but for summer schools, educational meetings and the large number of visitors that the institution will attract to the place.

Kingston in former times attracted many summer visitors, because of its beautiful and healthful situation among the hills and woods. Its fresh water lakes and streams have long been well known to fishermen. Its surroundings are picturesque and restful, yet within easy reach by boat and train.

It is expected that there will be telephone connection within the year, and there are many advocates for establishing a creamery in the near future.

a creamery in the near future.

A good hotel, the Telegraph is told, would be a paying investment and that an up-to-date store is also required.

### THE PRICE MILLIONS. Milton Price of St. John Hopes to

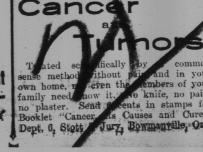

Prove That They Should Come This Way.

A Fort Fairfield (Me.), letter to the

Bangor Commercial says: "The item which has been going the ounds of the newspapers in regard to the eath recently of a man by the name of Modreka Price, in Baltimore, a bachelor, eaving the sum of \$6,000,000, is of interest several of the Price family in this town and in Caribou. It seems this wealthy man was formerly from New Brunswick and was taken into a rich family in Baltimore His benefactor died, leaving Price his vast wealth. H. Milton Price, a young lawyer, of St. John (N. B.), is at work on the case and hopes to prove that the money belongs to the New Brunswick branch of the Price family. If he succeeds, Rev. J. W. Price, a former pastor of the Fort Fairfield M. E. church, now located at Atkinson, will doubtless come in as one of the heirs. It is said that Modreka Price left no will."

President Francis, the head of the St. Louis exposition, was photographed thirty-seven times on the opening day. Let's all hope that his smile is the sort that doesn't come off.—Cleveland Plain Dealer.

Dean Hole, the author of many charmin books, which have delighted two generation is now in his eighty-fifth year.
