FINAL SETTLEMENT IN SIGHT.

Beaver Brook Claims Once More
Being Arranged by Ottawa
Law Clerk.

INCREASED OFFERS.

The Men Weary of Delay, Are
Generally Accepting—Some
May Refuse.

Mr. Harry Alward, assistant law clerk of the Department of Justice at Ottawa, came to Newcastle on Wednesday to make another effort to settle with the victims of the Beaver Brook accident which occurred nearly six months ago. Three months ago, Mr. Alward settled thirteen of the twenty-six claims; the higher claims remaining undisposed of. This time Mr. Alward has had greater success. He has arranged with Caius McLellan to accept \$460 dollars in full payment of damages; Wm. Black, \$400, and Charles LeBreton, \$375. Mrs. Thibodeau will get somewhere near \$300; Alfred Witzell, \$250; James Wright, \$150; George Campbell, and the others who did not settle in April, \$120 each. Mr. Alward, who has been in Moncton since Saturday returns to Newcastle to-day. All the parties will probably settle, although one or two may still hold out. The Pulp Company have not as yet offered to pay the men anything.

WHITE-BOVARD.

A very pleasant event took place at the residence of Conductor and Mrs. William Bovard on Saturday evening at six-thirty, when their daughter, Miss Bertha B., was united in marriage to Mr. Frederick G. White. Miss Isabella D. Hill was bridesmaid, while the groom was supported by Mr. E. W. Bovard. The ceremony was performed by Rev. S. J. McArthur in the presence of only the most intimate friends of the contracting parties. The bride was tastefully dressed in navy blue Venetian cloth, and the bridesmaid in a suit of similar material. Mr. and Mrs. White will spend their honeymoon in Queens County.

GRANT TO HOSPITALS.

To Deal With Storage of
Immense Potato
Crop

The Local Government met in Fredericton on Thursday and Friday.

Acting under authority of legislation passed last session, a survey was ordered on ten acre lots for miners at Minto, Sanbury Co.

The premier submitted a report on the recent hearing at Ottawa before Deputy Minister of Railways Butler on the application of the Atlantic Quebec and Western railway for authority to build across the northern part of the province from Edmonton to Metapedia. The contention of the province was upheld.

It was ordered that a survey of twenty-five acre lots be made in Madawaska county to be used for settlement purposes. The land was recently inspected by Abram Alward, of the Agricultural department, who reported it well adapted for settlement.

It was decided to procure \$1,000 copies of a new hand book of the province, lately prepared by Dr. Hannay. It is a volume of 160 pages, profusely illustrated and containing much valuable information. It was also decided to purchase 4,000 copies of the new colored map of the province lately prepared by Colonel Loggie.

It was decided to organize a separate colonization branch which would be under the control of either the department of agriculture or the crown lands department, and would direct special attention to providing suitable land and looking after settlers. The branch will be managed by a secretary or some other official in touch with that class of work. Hon. L. P. Farris and Hon. W. P. Jones were appointed a special committee to deal with the matter of storage of potatoes. N. S. Dow, of the agricultural department, had received instructions to meet the shippers at Woodstock and also to consult the C. P. R. as to the prospects for handling the crop, which it was anticipated would aggregate 3,000,000 bushels. The government take these steps, to prevent a possible heavy loss to the farmers from a glut in the market, which would follow the lack of buildings in which to store the crop. It may be necessary to put up storehouses, as the cold storage facilities will likely prove inadequate.

At the suggestion of St. George's Society a resolution was passed ordering the national flag to be hoisted on the government buildings here on fine days in future. The report of Mr. W. H. Thompson, who attended the enquiry into the Crystal Stream disaster, was submitted and referred to the Marine department at Ottawa, which has control of all matters relating to shipping.

An order in council was passed apportioning grants to provincial hospitals as follows:
St. John General Public ... \$2,800
St. John Maternity ... 250
St. John, Silver Falls ... 250
Chatham ... 700
St. Stephen ... 600
Campbellton ... 600
Tracadie ... 600
St. Basil ... 600
Moncton ... 700
Fredericton ... 700

Total ... \$4,400
Next meeting will be on August 15th.

TO INVESTIGATE DISPUTE.

On July 29, Justice George Patterson, New Glasgow, has been appointed a three member, and chairman of the board of investigation into the dispute between the C. P. R. and the L. N. E. R. The board will sit on Wednesday next.

Organs

Mr. David Russell, owner of the St. John Telegraph and Evening Times has announced that he has sold those papers to Mr. John F. McKane of Newcastle, and that the cash has been paid over. This is the outcome of the Conservative agitation in favor of establishing an organ in St. John, to replace the Sun lately sold to the Liberals. The idea at first was to start a new paper, but Russell being willing to sell, it was decided to buy the aforesaid journals, which will now be straight Conservative organs.

CONEY ISLAND

FIRE-SWEPT.

New York, July 28.—Coney Island, the playground of New York's millions, was visited by a disastrous fire early today and seven blocks in the amusement zone were destroyed. A lucky shift of the wind to seaward aided the firemen and probably saved the whole picturesque area, but not until \$1,000,000 damage had been done.

Three persons were injured, one of them, Gottfried Masserli, a fireman, probably fatally.

The large congregation present at St. Mark's, Douglastown, was greatly delighted Sunday evening by the solo sung by Mrs. McGlashen.

There will be a strawberry and Ice Cream festival at the Temperance Hall, Douglastown, to-morrow (Thursday) evening. Doors open at 7. Admission ten cents. Proceeds in aid of The Manse Fund. Don't miss it.

OPPOSITION ASSOCIATIONS.

The following officers have been elected for the opposition associations in this county:
Hardwoods—Hardwicke—President, Jeremiah Sullivan; vice-president, Daniel Lewis; secretary, Ernest Fleigher.

Bay du Vin—President, Thos. H. Williston; vice-president, Wm. McLeod; secretary, J. G. Williston.
Tabusintac—President, Wm. Hierlihy, sr.; vice-president, James Styliem; secretary, J. W. Robertson.

Bartibogue Bridge—President, W. Berrie; vice-president, Wm. Morrison; secretary, Donald Ross.
Riviere des Caches—President, L. P. Robichaud; vice-president, Aime D. Savoy; secretary, Fred. Robichaud; treasurer, I. P. Savoy.

I. C. R. EMPLOYEES'

RELIEF AND INSURANCE.

Seven deaths are reported by Secretary Paver of the I. C. R. Employees' Relief and Insurance Association for the month ended July 25, with insurance amounting to \$3,250. The deaths were as follows:—Owen Doyle and L. D. French, Moncton, \$250 each; Chas. Lloyd, Moncton, \$1,000; N. Fournier and Alex. Couture, Lewis \$250 each; Thomas Fitzmaurice and George Bannister, Halifax, \$1,000 and \$250 respectively. In addition to these deaths, two employees, members of the Temporary Employees' Accident Fund, were killed, namely Silford Connel at Cedar Fall, and Alfred Gowing, Truro. The fees and levies for the month are: Class A, \$2; Class B, \$1.20 and Class C, 80 cents.

FORGING ORDERS.

The examination of Aiden Major on a charge of forging orders on J. K. Fleming, M. P. P., was concluded in Harland, Thursday before Justice John Barnett. The lad was sent to jail to await trial at the regular sitting of court. It came out in evidence that he had been a member of a third class crew, and that he had been a member of the crew of the tugboat "The Fish Hawk" when it was captured by the Revenue cutter "The Fish Hawk" and the crew were taken aboard, and Major was arrested.

STATEMENT ISSUED.

Party Feeling in the Smith Case
Leading to Unpleasant Charges
and Counter Charges.

The Woodstock Press has intimated that there was some interference on the part of Deputy Sheriff Foster with the jury in the case against B. Frank Smith, opposition M. P. P.

There still is a great deal of excitement over the Smith case and the incidents in connection therewith, and it would not be surprising if the attempt to ruin the reputation of Deputy Sheriff Foster should result in a warm time for his accusers.

In addition to the affidavit of Juror Frank Burpee, made a few days ago, the remaining jurors, William Hayden, Charles E. Carman, James Watson, John N. Emery, Howard P. Clark, J. W. Palmer, Allison W. Shaw, F. W. Britton, Elisha Palmer, George Melville and David Alexander, have made the following statement over their signatures, which document is in the possession of the deputy:—We the undersigned members of the petit jury in the case of the King v. B. Frank Smith, tried at the July term of the county court, hereby individually certify that Albion R. Foster did not, either before or during the progress of the said trial, influence or seek to influence us as to the verdict we should render therein.

Each man of the jury expressed himself as willing to make affidavit in the result of the Smith's trial was a disagreement of the jury, which stood 9 for acquittal and 3 for conviction.

The Press charges are to the effect that Foster tried to induce one or more of the jurors to vote for conviction, merely because Smith is opposition in politics.

In the Police Court last week, two hotel keepers were fined for selling liquor, two first offences being acknowledged by one and one by the other. On complaint of John T. Brooks, James Murphy, laborer, was fined for assault.

Popular Pastor on eve of Departure

PURSES OF \$600.

Before Return will Visit, Ireland,
the Continent, Egypt and
Palestine.

An informal and pleasant event on Wednesday evening was the presentation by the congregation of St. Mary's parish to their pastor, the Rev. P. W. Dixon, of an address and a purse of over \$500.

A week or so ago, when the congregation definitely learned that their pastor had concluded arrangements to leave next week on an extended visit to Ireland, the land of his birth, and to other European and Eastern countries, there was a spontaneous movement among them to testify in tangible form to their love and esteem for him. A committee of young men of the parish was accordingly formed to receive subscriptions, and in a few days the handsome purse mentioned was in hand.

It had been intended to make the occasion a public affair, but at the earnest request of Father Dixon, when he learned on Tuesday what was about to occur, it was decided to make the presentation informal, and accordingly it was delegated to a committee composed of Messrs. P. Hennessy, J. D. Creaghan, M. Bannion, John Morrissey, P. B. Wheeler, C. Craig and John Dalton. On Wednesday evening the committee waited upon Father Dixon at the Glebe House, and Mr. Hennessy read the following address:

"Reverend Father: It is beyond our power to tell with how much genuine joy the announcement of your European tour was received by each and every one of St. Mary's parish. Hearts harder than ours could not be unresponsive to your devotion for the thirty years. We realize more fully than we can express the debt incommensurable that we and our children owe you. Yours has been a labor of love and self-sacrifice, and we only wish that it were given us to repay a hundred-fold the blessings that you have ever scattered on our pathway.

"As a very inefficient token of our grateful loyalty we beg you to accept this purse of gold. If our hearts were our bankers, it would contain thousands instead of hundreds.

"The hope that your voyage may be a pleasant one lies deep within us, but deeper still is the trust that you may return to us soon, greatly invigorated by your well-earned rest.

(Signed) The Parishioners of St. Mary's. The address was engrossed on silk and beautifully illuminated with a design including maple leaves, shamrocks, roses and fleur-de-lis. It was prepared by the talented Sisters at the Convent, and is a very artistic piece of work.

Father Dixon, in reply, thanked the committee, and through them every member of the congregation, for this unexpected and handsome expression of their good-will. It did not need this purse nor this address to convince him of the loyalty and devotion of his people. He had had those during the thirty-six years of his pastorate, and they had helped to lighten his work. He had always felt proud of the active faith and generosity of the people of the parish. They were following in the footsteps of their fathers. He indulged in some interesting reminiscences of the early years of his incumbency of the parish. Many changes had taken place since then, and many of the boys who in those days attended Sunday School, and sat at the feet of their elders for instruction, were today heads of their own families in the parish, and bringing them up according to the excellent example of the good old men of those olden days.

In referring to his proposed travels, Father Dixon said that he would first visit Ireland, his native land, which he had not seen since leaving it forty-three years ago. The Green Isle place of course he the most interesting place to him, and he spoke of the glories of Irish history, the many historic and

secret spots within its borders. After spending some six or eight weeks in Ireland, he would be joined by the Rev. Father Richard of Rogersville, and together they would visit England, France, and other European countries, spending probably a couple of months in Rome. They would also spend several weeks in the Holy Land and countries around about, and he would probably be absent until next March.

In closing the reverend gentlemen again thanked the congregation for their magnificent gift, and assured them they would be remembered by him daily in his prayers and in the Mass.

After ice cream and other refreshments had been served, and some pleasant conversation, the delegation withdrew.

Father Dixon was also presented with a purse of \$100 and a complimentary address at Douglstown last Sunday. The members of the A. O. H. took a prominent part in the presentation. Father Dixon has no more devoted parishioners than those at Douglstown, as his acknowledgment of their presentation said.

Father Dixon left on Monday morning, and will sail from Halifax on the steamer Dahome. He will be joined in Ireland by Father Richard about the first of September. The reverend gentlemen have the best wishes of all classes and creeds in the community for a pleasant and beneficial trip and a safe return.

KEIR HARDIE EXPLAINS SOCIALISM.

Its Platform is Food for Children,
Work for the Strong and Com-
fort for the Poor.

Toronto, July 22.—"Socialism is an intellectual movement which does not appeal to the instincts of the individualist or of the incompetent, but to the instincts of a man who loves his fellow man and desires to see a truer conception of life prevail than obtains at the present moment. Socialism assumes a higher type of humanity. It is the embodiment of the Sermon on the Mount in every day business life community."

These sentences spoken with conviction, formed the keynote of an address which James Keir Hardie, M. P., leader of the British Socialists and chairman of the Labor party in the British House of Commons, delivered before the Canadian Club, when an opportunity was taken of his brief stay in the city to entertain the labor leader to luncheon.

Four hundred members of the club and their friends assembled to hear him.

Mr. Hardie was applauded again and again as he described the work cut out for the independent labor party, the majority of whose members are Socialists. "Whether you agree or disagree," he said, "Socialism is a

factor to be reckoned with, both in the old country and here.

"The advent of the labor party was some 16 or 17 years ago, when the work began. But at the last election, when thirty members of the party were returned, the country woke up to a fact the existence of which they had overlooked."

As to the programme they concentrated first of all on the provision of meals, at public cost, for starving school children. They had been endeavoring to secure that every child who went to school should be sure of at least one square meal during school hours. (Applause.) They were also endeavoring to have the L.C.C. amended so that work might be provided for those capable, unemployed. And they felt strongly about old age pensions. These were three immediate items of their program for food for children, work for the strong and comfort for the poor. (Applause.)

PRESENTATION TO MR. SMALLWOOD.

On Wednesday Mr. Cameron Smallwood, who was so badly injured in the recent train wreck on the Indiantown branch, was presented with a purse of about \$100. The purse was collected by Conductor Vye and chief despatcher McNutt, two popular railway men, and was cheerfully contributed to by a large number of railway men and citizens. Mr. Smallwood received very serious injuries in the wreck, but his many friends hope to see him on the road soon again.

Our Option on this small block of Underwriters' Stock expires August 6th, 1907—Subscriptions Post-marked at a later date will be returned. Do you realize that investments of a hundred or a thousand will grow rapidly into hundreds and thousands and millions of dollars? The over-conservative and skeptical will smile—they will laugh at these predictions, some will even consider this a joke—but remember Cobalt, if you please, two or three years ago? Then it was a "vision," it was a "dream," "a flash in the pan," "a bubble," somebody was "crazy"; but now it is different. Those crazy men are now classed among the smartest and keenest business men of the day. The actual value of a few mines are worth at the present date more than one hundred millions of dollars. These are facts.

In presenting this investment for subscription we appeal to the good judgment of sensible persons as to its merit.

It embodies, we believe, a correct method for developing and establishing successful and paying mining enterprises.

We desire to conduct, first of all, a successful Mine Development. We intend this to be done in a way that will be absolutely fair and honest, and bring the largest profit possible to those who co-operate with us.

We, therefore, desire this proposition to be well understood by investors. We wish it to be known just how we propose to develop, establish and operate dividend paying Mining Companies by and through this investment.

THE PLAN.—The plan involved in this proposition is that of uniting or consolidating the investments of a limited number of persons into one sum, and under one management, to be used in acquiring and developing Mining properties in this wonderful region.

THE PRINCIPLE involved in this investment we believe, is one of absolute fairness to all interested. The "promotion interest" common to all mining companies, and which is the great unfair feature to investors who put their money into stocks of these companies, and whose money develops and makes the mine, if a mine is developed—does not exist in this proposition. There is no "promotion interest" set aside, and against the interest bought and paid for by the investors.

In this proposition the investors, and all the investors, become promoters. They take the "promotion interest" and all the interest. They own the whole enterprise. No matter how large or small the investment—all stand on an equal basis. Our field of operation is probably one of the greatest, and without doubt the richest, mineralized region in the world.

For its basis, upon which we will establish and build up several great producing, paying mining companies, we will exploit and develop in a mining-like and careful manner extensive mining properties now known to us, and other properties which we may acquire for the mutual benefit of all investors in this Company.

SUBSIDIARY COMPANIES.—The Larder Lake Exploration and Development Company will incorporate a series, not to exceed five, of Subsidiary Mining Companies upon only the real proven properties acquired.

In each and every Subsidiary Company incorporated, whether Mining, Milling, Smelting, Water Power, or Electric Light, the Exploration Company will take 90 per cent. of the capital stock of each Company so incorporated, and will put 10 per cent. of the Capital Stock of each Company in its treasury. It will probab-

ly never become necessary to sell any of this Treasury Stock.

Out of the total Capital Stock of each Subsidiary Company, the EXPLORATION COMPANY will retain 50 per cent. as its "Holding Stock." This will always control the Company. It will take and hold 40 per cent. for the mutual benefit of all stockholders in the EXPLORATION COMPANY. This 40 per cent. will be known as "Selling Stock," and as a market is created it will be sold, and the proceeds received will be distributed pro rata to the stockholders in the Exploration Company, as their interest may appear.

The stock of the Subsidiary Companies will be listed on the New York Curb and Mining Exchanges of the country, and started at 50 cents a share, where it can be bought and sold according to the daily market quotations. This will afford a channel by which stockholders can sell the 40 per cent. "Selling Stock" from time to time, if they wish.

PROPERTIES.—Many different mining properties will be acquired and developed as stock in the EXPLORATION COMPANY is subscribed for. All properties will be described, and reports submitted regarding same, as soon and as often as they can be examined by the engineers.

The mining properties that will be acquired for this proposition will be located in the gold and silver belt, extending from the Montreal River through Northern Ontario, eastward into Quebec, and will include proper properties in the Lady Evelyn District, the new Montreal River Silver District, Cobalt District, and the gold districts around Round Lake, Larder Lake, Lake Abitibi, and in the great undeveloped mineralized section of Quebec lying just east of Larder Lake and extending northward to Lake Abitibi.

We shall try and make every dollar count, and make as few mistakes as possible. We hope to create such an interest in this enterprise with investors, that will result in extensive and widespread co-operation.

Under this plan nobody can truthfully say that it is not a great mining investment. We want every investor to feel a personal interest in this Mine Development. The investors in this Company will own this enterprise, and we want them to co-operate with us and our associates to make it a great success.

We are now organizing THE LARDER LAKE EXPLORATION AND DEVELOPMENT COMPANY with what we consider sufficient capital (\$500,000). We now have options on, and propose to acquire five distinct and separate properties which will be incorporated at \$100,000 each (100,000 shares—par value \$1.00.) The Exploration Company will at all times hold a control-

ling interest in each of these companies, so that sixty per cent. of the dividends earned and declared will be paid into the treasury of the parent company, and the other forty per cent. distributed among the stockholders on record. This in our opinion will enable us to pay dividends and large ones in the very near future.

The Board of Directors of THE LARDER LAKE EXPLORATION AND DEVELOPMENT COMPANY will be composed of only engineers of national repute setting a precedent in this line—Mr. Robert Morton will be president, which fact in itself guarantees conservative and able management.

Investors have been pouring their money into over-capitalized mining companies, they have been plunging about wildly in the hope of some day "striking it rich" never stopping to think for one instant that the greater part of their money never reaches the ground, as a rule seventy-five per cent. of the money invested in stock schemes goes into the broker's hands. He pays his salesmen 20 to 50 per cent. on every dollar turned in, he must get his own commission and engineers must be paid.

We never have had associated with us a stock sales man, we require no commission and our engineers will be our directors, so that every dollar invested with us on this proposition will be honestly used in the purchasing and development of the different properties.

We are now offering for subscription the first allotment of stock in the LARDER LAKE EXPLORATION AND DEVELOPMENT COMPANY—every one hundred shares entitles the holder to forty shares of stock in each of the subsidiary companies to be incorporated, making in all 200 shares of stock in five separate companies, which, as soon as development work is started and dividends announced, will make the stock of the Larder Lake Exploration and Development Company almost invaluable. This first allotment of only 50,000 shares (\$1.00 par value) will probably be largely over-subscribed in a few days.

The next allotment will be put out September 25th, 1907, at 75c. per share or higher.

This price (15c.) will positively be withdrawn Aug. 6th, 1907. If this allotment is over-subscribed remittances will be promptly returned. Checks, drafts and money orders must accompany all applications and be made payable to the financial agents.

Interim certificates will be promptly returned to subscribers. The stock certificates of the Company representing the shares purchased will be issued and delivered as soon as allotment can be made, after the 6th of Aug. to all subscribers who purchased at the first underwriting price prior to that date.

Don't wait! Be wise! Act NOW! NOW IS THE TIME! Here is an opportunity that excels that which you had two or three years ago at Cobalt. Perhaps you will say as you did then, "How do we know they have got any silver up there?" Perhaps you say now: "How do you know there is any gold at Larder Lake?"

BETTER TERMS.

We are glad that the Dominion government have agreed to substantially increase their offer of indemnity to Mrs. Thibodeau and to the men most badly hurt in the Beaver Brook disaster last winter. As the Department of Justice was not legally bound, it appears, to pay any damages, the government's action is largely due to the persistent efforts of Mr. W. S. Loggie, M. P., who has left nothing undone to secure compensation for the sufferers. The moral claim of the latter was too strong to be ignored, and some indemnity has been granted them.

It is now in order for the company in whose service the men were when injured to show that there can be an exception to the rule that corporations have no souls. They should pay the men something for their loss, for it was while working for the company that the men met misfortune. They are, morally, as bound to pay damages as the government.

Our laws regarding liability for accidents are radically wrong. The working men have far too little protection. Their labor builds up the country, but when old or injured they are too often cast aside and left to die in poverty and neglect. This should not be so, and need not be so. It will not be so, when the workingmen awake to the full realization of their powers and assert their rightful authority in the halls of legislation.

HAYWOOD NOT GUILTY.

The long trial of William D. Haywood, secretary of the Western Federation of Miners, the Mining department of the World (a labor union which declares that to the worker belongs the whole product of his toil) is over at last. The man who in February, 1906, was, along with Chas. H. Moyer, Geo. A. Pettibone and Vincent St. John, kidnapped in Denver and illegally taken into Idaho to stand trial there for the murder of ex-Governor Frank Steunenberg; the man who was kept in prison in Idaho fifteen months before being brought to trial, and during that time was along with his associates stigmatized as an "undesirable citizen" by President Roosevelt and even by such an eminently respectable Canadian journal as the Montreal Witness; the man who Governor Gooding is said to have declared should not leave Idaho alive, has after a trial of nearly three months, in a state and before a judge and jury of the government's own choosing, been declared not guilty. The prosecution, which was the state of Idaho, backed by the government of the United States, left no stone unturned to convict Haywood and to prove that the whole Western Federation of Miners had entered into a conspiracy to murder Steun-

nenberg in revenge for his calling out the militia against them several years before. The defense, however, were able to show to the satisfaction of both judge and jury that no such conspiracy existed and that Alfred E. Horsley alias Harry Orchard, the real murderer, was for killing Steunenberg reasons of his own which had nothing to do with the Western Federation or their officers.

In ruling that no evidence offered by the defence to show that there had been a conspiracy on the part of the prosecution to ruin the Western Federation should be considered by the jury, Judge Wood evidently thought only of shielding the Mine Owners' Association and their protégés, the governments of Idaho, Colorado and the United States, and not of prejudicing Haywood's case; for, his charge to the jury was decidedly in favor of the defendant.

Vincent St. John was released several months ago. Moyer and Pettibone are still awaiting trial. But as the most evidence was thought to be against Haywood, and he is proved innocent, the case against the other two is not likely to be anywise serious. Friends of justice will rejoice that the evident conspiracy of the Mine Owners' Association has failed to accomplish its purpose.

OTTAWA HOUSE, CUSHING'S ISLAND.

The popular and delightful spot known as the Ottawa House at Cushing's Island in Portland Harbor, Maine, was refurbished and reconstructed in all departments last year. The management this year are catering to the many Canadians who annually go to the seaside for their summer trip, and a more delightful spot than Cushing's Island could not be chosen. Sea bathing, golf, deep sea fishing, pure air and cool and pleasant evenings are some of the attractions. Through Pullman cars, Chicago, Toronto and Montreal to Portland, and further particulars with handsome illustrated literature may be secured on application to J. Quinlan, Bonaventure, Station Montreal.

A SOLDIER'S GRAVE.

Discovered in London, Ont., in Out-of-the-Way Cemetery Corner.

Dr. H. J. Morgan of Ottawa has been instrumental, with the assistance of Mr. G. B. Harris of Eldon House, London, Ont., in discovering the grave in that city of an officer who took an active part in the defense of the western frontier of the Province of Ontario (then Upper Canada) during and subsequent to the rebellion of 1837. The grave was found to be in an out-of-the-way corner of the English cemetery, and in a capital place to be covered with coal ashes. All traces of it would inevitably have been lost within a few months. Upon a stone, which was found to be broken in three places, was the following inscription:

"Colonel the Honorable John Maitland, C.B., commanding the London and Western Districts, Lieutenant-Colonel of the 32nd Regiment, and youngest son of the Earl of Lauderdale. Died at London, Upper Canada, on the 18th January, 1838. Erected to his memory by the officers of the 32nd Regiment, which he commanded for upwards of twenty years, as a mark of their esteem and regard."

Of the officer above mentioned an account is published in Dr. Morgan's "Celebrated Canadians" (Quebec, 1862). He was the third son of the eighth and the brother of the ninth and tenth Earls of Lauderdale. Born March 5, 1789, he entered the army in 1797 as ensign in the 62nd Regiment, and was present with that corps in the expedition to Copenhagen, under the command of Lord Cathcart. Subsequently he served in Spain and Portugal under Sir John Moore, and was in the Peninsula (1810-11) as A.D.C. to Sir William Houston. Returning to England, he was appointed A.D.C. to his uncle, Gen. Sir Thos. Maitland, and accompanied that distinguished officer to Malta on his being appointed commander of the forces in the Mediterranean and Lord High Commissioner of the Ionian Islands. Here Maitland was appointed inspecting field officer of the forces. In 1814 he obtained a majority in the 26th Regiment, and in 1815, when not quite 26 years of age, he was gazetted lieutenant-colonel of the 32nd Regiment, which command he continued to hold till his death. Coming with his regiment to North America in 1830, it was his good or evil fortune, according to the view taken by the reader of the circumstances, to be present in Canada throughout the rebellion of 1837. In 1838 he was placed in command of the London and western districts whose militia forces he organized. His most brilliant exploit was the repulse of a band of American brigades at Point Pelee Island, Lake Erie, on March 3, 1835, for which he received the thanks of Queen's C.B. Contrasting a severe cold on the march to and during the attack on the island, he died, unmarried, a victim to consumption, at the time and place above mentioned. One of his subalterns in the 32nd was the future hero of Lucknow, Major-General Sir John Inglis, K.C.B., a Canadian. Col. Maitland is described as having been a man of a kind and gentle disposition, whose constant study was the promotion of the comfort and happiness of the officers and men serving under him. On the occasion of his death Sir George Arthur, the lieutenant-governor of the province, issued a general order expressive of the esteem and respect entertained for him by all classes of the community. It is now proposed, with the permission of the officers of Col. Maitland's old regiment, to remove his remains to the new cemetery at London, and to have the broken tablet placed in the English cathedral of that city. As the body when interred was deposited in a lead coffin, there will, it is hoped, be no difficulty in carrying out the first of these intentions to do honor to the memory of a brave and gallant officer.

Moving Canada In France.
Monsieur Leo Lefebvre of Paris, France, sent to Canada by the French Government in order to secure moving pictures for public exhibition there, has secured the only Toronto picture he secured was the busy King and Yonge street corner. He has been in Canada four months and a half, and will return to this continent next week. He will take moving pictures from Seattle northward, and will test the rigors of the Alaskan climate.

His present trip has been devoted chiefly to the lumbering industry. He has taken pictures of timber in every stage of manufacture in the various mills, and has visited some of the greatest mining camps of the West. His experiences in British Columbia were somewhat arduous. He had his delicate instruments carried to camps to which a footpath was the only means of access. The roads were at times rough and dangerous, but he believes the pictures secured will be well worth the trouble.

Besides these very instructive views, Mr. Lefebvre has taken a number which illustrate the beauty of Canada. These include views of Niagara and other Falls, the Thousand Islands, the Rockies from a C. P. R. train, etc. He has also a set illustrative of the cod-fishing industry.

The trips being taken by this French Commissioner are a sign of the progress of France along the lines of free education. The pictures are to be exhibited at what are known as the "Cinematograph populars," which are free illustrated lectures, to which any citizen may gain admittance. The subjects treated include many branches of study, agriculture, geography, the arts, and should prove most useful in raising the standard of national intelligence. "People in France have no idea that Canada is so big," declares Mr. Lefebvre, whose views will be a splendid immigration agent for the Dominion wherever they are shown.

The Kaiser's Appetite.
Escoffier, a famous French chef, who was the German Emperor's favorite cook on his cruise last summer, tells a Paris reporter that the Emperor eats more at breakfast than at dinner, and that his favorite dish is chicken stewed with tomato and pakra dressing. Every chicken served at the Imperial table bears on its breast the Imperial crown and eagle made of stiff white sauce.

KENT NEWS AND NOTES

News Items Gleaned from Leading Places of the County.

HARCOURT.

Harcourt, July 29.—What might have proved a fatal accident occurred here Saturday afternoon. As the Ocean Limited was pulling out, Samuel Harper, a news agent in alighting collided with three trunks which he had previously piled on platform. The two top trunks gave way and hurled him beneath the moving train, but by great presence of mind, he laid very still and whole train passed by. Fortunately he escaped, without injury, except for a bad shaking up and was able to resume his duty.

Harcourt, July 29.—Robert Fahey, of Bass River was killed by electric wires in Hallowell, Me., on Saturday. He was twenty-five years old and unmarried.

GRANGEVILLE.

Grangeville, July 24.—The people of this place held a strawberry festival and bean supper on the afternoon of Friday, July 19th. The proceeds were over forty dollars, to aid in building the Baptist church in this place.

P. S. Jones, painter, who has finished his work here, has gone to Moncton, where he will finish the summer working at his trade.

Miss Greta Fryers of Moncton is the guest of Miss Beulah Colpitts during the month.

Miss Victoria Boyde has come home from Moncton, where she has been the guest of Mrs. C. Lockhart for the past few weeks.

Miss Margaret Boyde is now visiting her sister, Mrs. Lockhart in Moncton.

MORTIMORE.

Mortimore, Kent Co., July 27.—Not seeing any notes from this place for some time I thought I would write a few.

Miss Ella Ward and Mrs. Frank Ward and son Harold of Moncton arrived Saturday to visit their father, Mr. John M. Ward.

Mr. Peter Campbell of Bass River

er spent last week with friends here.

Mr. Charles H. Ward spent Friday in Bass River.

Mr. Charles Fleiger of Chatham is visiting his cousin Miss Margaret Cameron.

Mr. Leonard Barnes and Miss Ida Barnes visited Mrs. Douglas Barnes last Sunday.

Mr. R. M. Wilson of Bass River spent Friday here.

Mrs. William Livingston and daughter Mrs. Havelock Smith are visiting friends in Bass River.

Mr. John M. Ward spent Wednesday of last week in Moncton.

Mrs. Lawson and grandson have returned to their home in St. John after spending a few weeks with the former's parents, Mr. and Mrs. Chas. Lyon.

COAL BRANCH.

Coal Branch, July 29.—Thomas C. Spencer has returned home from Blackville.

Mrs. Margaret Page went to Moncton on Monday to visit friends.

Coun. and Mrs. Brown spent Saturday in Harcourt.

Mrs. James Rogers of Clairville has returned home from Upper Blackville.

Mr. and Mrs. W. D. Stewart of Moncton spent Sunday with friends here.

Miss Mae Howard has returned home.

ONLY WOMEN LEFT.

Buda Pest, July 26.—The lure of America as a land of wealth to the people of Hungary has brought about a curious state of affairs in Kerisova, near Lugos, which at the last census had a population of 3,500.

One by one the male residents of Kerisova emigrated until the mayor was the only adult male to remain. Finally he also took ship at Fiume.

As a result of this exodus of males the women of Kerisova have just elected a young woman to the position of mayor, and other female residents have been elected to fill the remainder of the municipal offices.

A MATTER OF ECONOMY.

If the thousand and one things about the house that make money go fast—the little things that don't seem to count—were bunched together in one, it would not be so difficult to stop the leak. But they are usually such trivial things that it takes more than a sharp and ever-watchful eye to keep expenses down.

In flour, for instance. We buy a flour that our grocer recommends. He doesn't know for what particular purpose we want it—and it sells pretty well—so he sends it to our homes. The flour may be good, but perhaps it takes a long time to knead. Or it may take more flour to make bread. Or we may want it for cakes and pastry and it won't give the light, appetizing cake, or crust in the pie that we expect. Most of us have found trouble of this kind.

If we had time to compare one brand with another, some household leaks would be avoided, and some household tempers would disappear. There is a big difference in flour. Some flour turns out a perfect baking, seems to do equally well for bread and pastry. Blended Flour—made from Ontario fall wheat, blended in just the right proportions—makes baking a pleasure, and is winning unexampled favor in the kitchens of careful housekeepers. It makes better bread, lighter cakes, more wholesome pastry and biscuits. Note it good housekeepers, and use Blended Flour next time.

GIRL WANTED.—A young lady with good common school education—One with experience at typewriter preferred—to learn to operate typesetting machine. Good salary from start for right girl. Apply at once in own handwriting to The Advocate Office, Newcastle.

BAD BURN QUICKLY HEALED.—"I am so delighted with what Chamberlain's Salve has done for me that I feel bound to write and tell you so," says Mrs. Robert Eytton, 457 John St., Hamilton, Ontario. "My little daughter had bad burn on her knee. I applied Chamberlain's Salve and it healed beautifully." This salve allays the pain of a burn almost instantly. It is for sale by all druggists.

NOTICE.

Flintkote Roofing.

Is a prepared roofing. It is made of the highest grade of wool felt obtainable. It is saturated with compounds which render the felt absolutely waterproof.

It does not grow brittle and hard with cold in winter. It will not soften up and run with heat in summer. It is absolutely unaffected by acid, alkali or gas fumes. The compounds used in its composition and the heavy coating of flint on the under side make it practically fire, roof, and add greatly to its life. It is sold by the carload to railroads and mills. Has more all-round good points than any other roofing made. Flintkote roofing can be laid at a trifling expense, and if properly laid and cared for will last for years. Inside each roll are packed sufficient nails, caps and cement for laying, for which no extra charge is made. Each roll contains 216 square feet. We allow the 16 square feet for laps and make no charge for same.

"What have you learned?" she asked in a low voice, half fascinated by the danger into which she knew that she was running.

"That I love you," he answered, standing squarely in front of her and announcing the fact with a deliberate honesty which was rather startling. "I was not sure of it before, so I stayed away from you for three weeks; but now I know for certain."

"Oh, you mustn't say that!"

She rose hastily and turned away from him. There was in her heart a sudden feeling of regret. It was the feeling that the keenest sportsman sometimes has when some majestic monarch of the forest falls before his merciless rifle—a sudden passing desire that it might be undone.

"Why not?" he asked. He was desperately in earnest, and that which made him a good sportsman—an unmatched big game hunter, calm and self-possessed in any strait—gave him a strange deliberation now, which Millicent Chyne could not understand. "Why not?"

"I do not know—because you mustn't."

And in her heart she wanted him to say it again.

"I am not ashamed of it," he said, "and I do not see why I should not say it to you—or to any one else, so far as that goes."

"No, never!" she cried, really frightened. "To me it does not matter so much. But to no one else—no, never! Aunt Marian must not know it—nor Sir John."

"I cannot see that it is any business of Sir John's. Of course, Lady Cantourne would have liked you to marry a title; but if you cared for me she would be ready to listen to reason."

In which judgment of the good lady he was no doubt right, especially if reason spoke with the voice of £5,000 per annum.

"Do you care for me?" he asked, coming a little closer.

There was a whole world of gratified vanity and ungratified curiosity for her in the presence of this strong man at her elbow. It was one of the supreme triumphs of her life, because he was different from the rest. He was for her what his first tiger had been for him. The danger that he might come still nearer had for her a sense of keen pleasure. She was thoroughly enjoying herself, and the nearest approach that men can experience to the joy that was hers in the joy of battle.

"I cannot answer that—not now."

And the little half-shrinking glance over her shoulder was a low minded, unmaidenly invitation. But he was in earnest, and he was, above all, a gentleman. He stood his ground a yard away from her.

"Then when," he asked, "when will you answer me?"

She stood with her back turned toward him, looking out over the smooth waters of the Solent, where one or two yachts and a heavy black schooner were creeping up on the tide before the morning breeze. She drummed reflectively with her fingers on the low stone wall. Beneath them a few gulls whirled and screamed over a shoal of little fish. One of the gulls had a singular cry, as if it were laughing to itself.

"You said just now," Millicent answered at length, "that you were not sure yourself—not at first—and therefore you cannot expect me to know all at once."

"You should know at once," he argued gravely. "If it were going to be 'no.' If you do not say 'no' now, I can only think that it may be 'yes' some day. And"—he came closer; he took the hand that hung at her side, conveniently near—"and I don't want you to say 'no' now. Don't say 'no'! I will wait as long as you like for 'yes.' Millicent, I would rather go on waiting and thinking that it is going to be 'yes' even if it is 'no' after all."

She said nothing, but she left her hand in his.

"May I go on thinking that it will be 'yes' until I come back?"

"I cannot prevent your thinking, can I?" she whispered, with a tender look in her eyes.

"May I write to you?"

She shook her head.

"Well—I—I— Now then," he pleaded, "Not often. Just to remind you of my existence."

She gave a little laugh, which he liked exceedingly and remembered afterward.

"If you like," she answered.

At this moment Lady Cantourne's voice was heard in the distance calling them.

"There!" exclaimed Millicent. "We must go at once. And no one—one, must know of this."

"No one shall know of it," he answered.

CHAPTER IX.

THOSE who for their sins have been to Loango will scarcely care to have its beauties recalled to memory. And to such as have not visited the spot one can only earnestly recommend a careful advance.

Suffice it to say, therefore, that there is such a place, and the curious may find it marked in larger type than it deserves on the map of Africa, on the west coast of that country and within an inch or so of the equator.

"This is not cheery," Jack Meredith observed to his servant as they found themselves deposited on the beach within a stone's throw of the French factory.

"No, sir, not cheery, sir," replied Joseph. He was very busy attending to the landing of their personal effects and had had only time to be respectful. It was Joseph's way to do only one thing at a time, on the principle no doubt that enough for the moment is the evil thereof. His manner implied that when those colored gentlemen had got the baggage safely conveyed out of the boats on to the beach it would be time enough to think about Loango.

It had been arranged by letter that Jack Meredith should put up, as his host expressed it, at the small bungalow occupied by Maurice Gordon and his sister. Gordon was the local head of a large trading association somewhat after the style of the old East India company, and his duties partook more of the glory of a governor than of the routine of a trader.

Of Maurice Gordon's past Meredith knew nothing beyond the fact that they were schoolfellows strangely brought together again on the deck of a coasting steamer. Maurice Gordon was not a reserved person, and it was rather from a lack of opportunity than from an excess of caution that he allowed his new found friend to go up the Ogowe river knowing so little of himself—Maurice Gordon of Loango.

On reaching the bungalow Meredith was pleasantly surprised. It was pretty and homelike, surrounded by a garden wherein grew a strange profusion of homely English vegetables and tropical flowers.

Joseph happened to be in front, and as he neared the veranda he suddenly stopped at the salute; moreover, he began to wonder in which trunk he had packed his master's dress clothes.

An English lady was coming out of the drawing room window to meet the travelers. She nodded in answer to the servant's salutation and passed on to greet the master.

"My brother has been called away suddenly," she said. "One of his sub-agents has been getting into trouble with the natives. Of course you are Mr. Meredith?"

"I am," replied Jack, taking the hand she held out; it was a small white hand—small without being frail or diaphanous. "And you are Miss Gordon, I suppose? I am sorry Gordon is away, but no doubt we shall be able to find somewhere to put up."

"You need not do that," she said quietly. "This is Africa, you know. You can quite well stay with us, although Maurice is away until tomorrow."

She was tall and fair, with a certain stateliness of carriage which harmonized wonderfully with a thoughtful and pale face. She was not exactly pretty, but gracious and womanly, with honest blue eyes that looked on men and women alike. She was probably twenty-eight years of age; her manner was that of a woman rather than that of a girl—of one who was in life and not on the outskirts.

"We rather pride ourselves," she said, leading the way into the drawing room, "upon having the best house in Loango. You will, I think, be more comfortable here than anywhere."

"I see you have all the new books."

"Yes, we have books and magazines; but, of course, we live quite out of the world."

She paused, leaving the conversation with him as in the hands of one who knows his business.

"I," he said, filling up the pause, "have hitherto lived in the world—right in it. There is a lot of dust and commotion; the dust gets into people's eyes and blinds them; the commotion wears them out; and perhaps, after all, Loango is better!"

"If once met a Sir John Meredith," she said suddenly.

"My father."

He paused, drawing in his legs and apparently studying his neat brown boots.

"Should you meet him again," he went on, "it would not be advisable to mention my name. He might not care to hear it. We have had a slight difference of opinion. With me it is different. I am always glad to hear about him. I have an immense respect for him."

She listened gravely, with a sympathy that did not attempt to express itself in words. On such a short acquaintance she had not learned to expect a certain lightness of conversational touch which he always assumed when speaking of himself, as if his own thoughts and feelings were matters for ridicule.

"Of course," he went on, "I was in the wrong. I know that. But it sometimes happens that a man is not in a position to admit that he is in the wrong—when, for instance, another person would suffer by such an admission."

Are you using the best Flour?

What if the flour that you are now using, does make pretty good bread? Isn't there room for improvement? Couldn't the bread be whiter, sweeter, tastier? Couldn't the pies and cakes be lighter, more inviting? And does the baking always turn out exactly right?

If there is room for improvement, there is a need of

BEAVER FLOUR

"Beaver" Flour straightens out all baking difficulties. It is two flours in one—blended. Way out in the Northwest grows the Manitoba Hard Wheat that makes rich, good, strong, flour—wholesome, nourishing bread. Ontario wheat is lighter, somewhat in nutrient strength—but it makes the lightest wheat cakes, pies and pastries. "Beaver" Flour combines these two baking qualities, because it contains just the right proportion of each. The wheat we use, being nature's best, requires no chemical treatment to purify.

Don't be satisfied with just good bread. Have the best that any good cook can make. That means to use "Beaver" Flour.

END OF THE NIVEN CASE.

Acquitted by Jury on Both Counts,
After a Short Deliberation.

MISS HINTON FREE.

The Lady in The Case Is Also Acquitted.—The Evidence Given.

The case against Henry C. Niven on two counts, for adultery and for unlawful conjugal union, was tried on Wednesday and Thursday, the jury returning their verdict about noon on Thursday. The jury found him not guilty on both counts.

The jury was composed of the following gentlemen: Wm. Buckley, Joseph Johnston, Edward Hickey, John H. Fleiger, John Sinclair, Edward Keating, John B. Bell, John A. Buckley, Matthew Carroll, James F. Maher, George Barrow, Michael Jardine.

Lauchlin McDonald, the first witness for the Crown, in his evidence deposed that on the 4th and 5th of May last he had stayed during the night in Mr. Niven's carriage shop. There were there at the time himself, his 12-year-old daughter, Hattie, Wm. Brown, defendant, and a girl known as Minnie Hinton. He went to sleep about 10 p. m. on a shake-down in the large room upstairs in the carriage shop, just outside of the door of the smaller room, which he swore was occupied at the time by Niven and Miss Hinton. He swore Niven had not come out of that room from about 10 o'clock p. m. until 8 o'clock a. m. the next morning, Sunday.

Hattie McDonald's evidence was to much the same effect, but was shaken somewhat on cross-examination as to the situation of their beds in regard to the door.

Minnie Hinton, also known by several other names, occupied most of the time of the court on Wednesday. She was a very disreputable witness, and was seldom at loss for an answer. The gist of her evidence was that she had been

Granite Mountain Stock advanced from 10 cents a share to \$75.00 in two years, and paid \$14,000,000 in dividends.

These are only a few examples; there are thousands of others.

While success cannot rightfully be judged by money standards, the fact remains that in the eyes of the world the extent of a man's success is the extent of his capital.

The worth has no use for a poor man or a loser.

The person who has reached middle age, wholly dependent upon

his individual efforts for his livelihood, is accounted a failure. He no longer commands the respect of the multitude but receives instead their scorn or pity.

Have you ever thought of these things?

What are you doing to make yourself independent?

Your hand or brain devoted to another man's cause can never make you wealthy.

Nor can your dollars.

The man who only saves is at best a plodder.

He should invest his dollars. Look about you.

There are successful people on every side.

Have you ever wondered how they made money while others have not?

Excluding those rich by inheritance, and those rich by fraud, there remains countless thousands of men and women who, starting practically without a dollar, have built up for themselves wealth or a handsome competence, and are no longer dependent on their hands for support.

These people have made money first by working for and earning dollars, and then by putting their dollars to work.

You are cheating yourself and your family when you do not save from your earnings and put your earnings to work.

Suppose you put your savings in a bank. The bank pays 3 per cent. How can it? Because it invests your money so that it will bring much more than 3 per cent—

enough more, so that most bankers become very wealthy on the difference between your interest and theirs.

And what if they invest wisely and lose all, as they sometimes do? Why, it's your money and your loss—not theirs.

You have not the control of your own capital—do not even know they are doing with your money.

You are making your dollars work for others. Why don't you make them work for you?

The banker invests your dollars; pockets their earning power, and gives you 3 per cent.

Why don't you do your own investing and make the profit for yourself?

You may think you have no opportunity.

But you have.

Opportunities are at every hand. No man or woman exists that has not had some opportunity for financial advancement.

The trouble is most opportunities wear rubber shoes, and the public sleepily refuse to hear them.

One of the world's most successful financiers, when asked how he made money so fast, replied:

"I have an agent at the elbow of every opportunity and never let one pass without paying me tribute."

Don't you realize that every great fortune had its humble beginning. That just a few dollars have grown to millions?

Look at Andrew Carnegie. He saved up \$500.00 and made his

first investment in Adams Express Company stock. It paid him big interest almost from the start.

Mr. J. A. Follansbee's gasoline boat met with an accident recently and has been hauled out for repairs.

The young man who, last week, was nearly killed near New Mills by falling off the Ocean Limited, on which he was beating his way, was Wallace McKinnon, of Chatham.

Mount Allison Academy and commercial college, which open on Sept. 3th, offer excellent course of study at reasonable rates. For full particulars and free calendar, write to J. M. Palmer, M. A., Principal, Sackville, N. B.

The trial of Thomas David in Fredericton for murder recalls the fact that the last hanging in York County occurred, in November, 1831, when an American by the name of Smith was executed for killing a man in a lumber camp. John London, a mulatto, acted as hangman.

Ten new hopper cars have been ordered for the Central railway. The work of repacking the line is rapidly nearing completion, the fill at Cumberland Bay being practically the last one to be done. Then little will remain unfinished except the ballasting. The demand for coal from the Grand Lake region is increasing.

The annual meet of the New Brunswick Tennis Association will take place at Sackville on August 6th. All the tennis clubs in the province are invited to affiliate with this association. W. P. Allison is president and W. T. Wood of Sackville, secretary. A large number have signified their intention of taking part in the tournament.

Rev. J. B. Ganong, field secretary of the N. B. and P. E. I. Sunday School Association, will spend the last ten days of August in this county. A County Convention will be held on Sept. 4 and 5.

In the Chatham police court on Thursday morning, Thomas Coughlan was fined \$10 or one month in jail for attempting to travel on the steamer Miramichi from Newcastle to Chatham without paying his fare, and \$6 or 28 days for drunkenness. He arrived on the eleven o'clock boat, and while Manager McDonald went to the court to get a warrant for his arrest, Mr. Coughlan simplified matters by getting drunk and being run in.

Notwithstanding the fact that the cost of publication, postage and living has enormously increased, the publishers of the Advocate have not increased the rate of subscription or advertising, but hereafter we will be obliged to adhere strictly to the published rates. We must also ask all subscribers who are in arrears to remit at once. All who are three years or more in arrears will be forthwith cut off and their accounts given to a collecting agency for collection.

NOTES OF THE WEEK

Through the kindness of the following gentlemen, the following have been secured for the benefit of the St. John's Hospital: North B. - Michael Hogan, Herbert M. Bennett, Peter Hogan, William M. Hogan, Joseph Kingston, Jere M. Hogan, Peter O'Shea, South B. - William O'Shea, John Foran, R. J. Hogan, Col. Payne, John Matchett, J. M. GIBB, Hazen McTavish.

On page two will be found the announcement of the Larder Lake Exploration and Development Co. For any one interested in silver, this looks like a good investment.

The blueberry crop on the North Shore promises to be an unusually heavy one. Preparations are being made by canners and the market for these berries is good. K.

Rev. N. Savoie of Rogersville has been appointed assistant curé to Rev. Father Maguire, who has charge of Newcastle parish in the absence of Rev. P. W. Dixon.

The railway commission is sending out new operating rules as prepared by the railway companies, to the representatives of the trainmen, as to get the opinion of the railway employees upon them.

We call the attention of our readers to the adv. of the British Columbia Amalgamated Coal Co., on another page. For the small taxer this looks like a good proposition.

The attention of our readers is called to the advertisement of The J. D. Creaghan Co., on page five. Their mid-summer sale is the opportunity for bargains, which should not be missed.

The Chatham Board of Trade has elected the following delegates for the Maritime Board meeting to be held in St. John Aug. 22nd: W. B. Snowball, James Beveridge, W. S. Loggie, W. L. T. Weldon, with George Stothart, J. L. Stewart, Mayor MacLaughlin and G. E. Fisher alternatives.

There are three notable anniversaries connected with St. John's - the discovery of the river, the founding of the city by the Loyalists and the anniversary of the first settlement effected by the English on the river. The latter occurred on Sept. 20, 1758; and the St. John people propose to celebrate its 150th anniversary next year.

While at breakfast, Saturday morning, the guests of the Robertson House Bathurst, were astonished to see two deer grazing in the garden in front of the hotel. Being disturbed, they ran to the garden of Mr. Gellis, where they stayed for some time. They eventually ran to the river and swam across the harbor to the village. Game is very plentiful in this vicinity.

L. T. Marechal, K. C., of Montreal, a well known advocate, Dr. Daniel, M. P., and H. A. Powell are guests of Mr. and Mrs. John McKane, to enjoy some fishing on the North Shore. This is Mr. Marechal's first visit to the lower provinces, as he is a very busy man. He is delighted with this region, its scenery, climate and people.

The case of the province of New Brunswick, v. the Lovitt estate to collect succession duties on \$90,000 deposited with the St. John branch of the Bank of British North America, and which on argument before the New Brunswick bench, was decided in favor of the province, the duty being assessed at \$3,000, has been appealed by Mr. McKeown. The case will come up before the next sitting of the supreme court of Canada in October.

The Catholic picnic at Redbank on the 23rd was a success in spite of the bad weather. A handsome sum was realized from the day's outing, which was enjoyably spent. The tug-of-war between North B. and South B. teams resulted in a victory for the men of the North. The teams were composed of the following: North B. - Michael Hogan, Herbert M. Bennett, Peter Hogan, William M. Hogan, Joseph Kingston, Jere M. Hogan, Peter O'Shea, South B. - William O'Shea, John Foran, R. J. Hogan, Col. Payne, John Matchett, J. M. GIBB, Hazen McTavish.
