NOTES FROM LIVE TOWNS

Interesting News From Lakeville
And Up-River Town of
Andover.

Lakeville, N. B., Dec. 2.—The Rev. Mr. Lewis, who is working in the interest of the home for delinquent women, spoke to a fairly good congregation on Sunday afternoon in the Baptist Church. A committee was appointed from each of the four denominations to solicit funds for the home that is being built at Moncton. This certainly is a worthy cause and should have a hearty response, just a little self-denial and the thing could be easily done.

Our local sportsmen returned last week, one party consisting of H. T. Jones, Handford Tracy, Dr. Wright, and W. Cheney brought three deer and a large moose while Ed. Moore and H. Williams got a deer each.

W. F. Armstrong returned from Bangor where he disposed of a lot of turkeys.

W. W. Wilson is shipping pigs and poultry each week to St. John where the market has been fairly good.

Miss Marjorie Wright has resigned as teacher of the school. All are loath to part with such a pains-taking and successful teacher as Miss Wright has proven to be.

Marjorie Barker visited her home here on Sunday last.

Quite a number from here attended the bean supper at Bloomfield last week.

Arthur Carvel is spending a few days in Boston visiting his brother.

Mrs. Howard Lindsay and children returned home last week from spending a month with friends in the same city.

Mr. and Mrs. John A. Walters visited their daughter at Knoxford over the week-end.

Our sick neighbors are not improving as rapidly as we would wish.

W. F. Anderson is having a radio installed.

Twin boys arrived at the home of Mr. and Mrs. Thomas Emery on Tuesday—Wendell and Weldon.

The Wilmet Parish Sunday School convention meets here on December 10th.

The Red Cross Society are getting to work again in real earnest. The secretary in her last report forgot to mention the thirteen quilts made, three of which were given to local families and the other ten were sent to headquarters, four to be presented to the quadruplets, and the other six to wherever the secretary in St. John finds need for them.

Andover.

Mrs. J. J. Scott and Miss Mona Scott spent the past week in St. John, guests of Mrs. Bonnell.

Miss Griffin of Guysboro County, N. S., is relieving manager in the Western Union while Miss Scott is taking a two-weeks' vacation.

W. H. Baird who has been doing the mason work on a large school building being erected at McAdam Junction, returned home this week.

Mr. and Mrs. Harold Tatlock have been visiting Mr. Harry Tatlock in Plaster Rock. They also spent a few days in Fredericton previous to going there.

Mr. and Mrs. Blanchard Murphy left on Thursday for St. John, intending to spend the remainder of the winter there.

The St. James Auxiliary was entertained at Mrs. S. P. Waite's on Wednesday evening.

Mrs. E. E. Holt and Mrs. Gellison of Fort Fairfield were guests of Mrs. Guy G. Porter and Mrs. S. P. Waite on Wednesday.

On Thursday evening, Mr. Guy G. Porter was host at a stag party at his residence.

Dr. A. F. McIntosh was called to his home in Ontario on Saturday by the death of his father.

A sad accident occurred here on Saturday morning when the young son of Mr. and Mrs. Wallace MacLeod fell from the branch of a tree, breaking one arm in two places and one bone and a dislocated wrist of the other. Only a short time has elapsed since his recovery from a long illness of typhoid fever and much sympathy is felt for both child and parents.

On Friday afternoon Mrs. James Porter entertained the Methodist Ladies' Aid. A number of outside visitors were present and a delicious lunch served to about twenty-two.

Mr. Earl McNish who has been spending a week with his mother at the home of Mrs. Alicia Kelly, left on Monday for Ashland where he has a position with the American Realty Co.

The Basket Ball girls gave a social evening and dance on Friday evening at the home of Mrs. Mac-

A STREET DISTURBANCE

Brings up the Question: Is a Jail A
Necessity in the Town
Of Hartland?

Last Saturday evening there occurred on our Main street, an altercation the seriousness and possible far-reaching results of which make every man turn this question over in his own mind and settle it at once.

This argument arose out of an auto accident which occurred on the River Road below Victoria Corner on Saturday evening. Two gentlemen from town happened along and assisted in restoring the car to its normal position. On returning to town later they were accosted by the man whose car had been turned over and suffered a severe lecture together with Police Officer Murdoch for several misdeeds alleged to have been perpetrated by them. The "indignant" motorist even went so far as to defy Officer Murdoch even daring him to arrest him. But what could Officer Murdoch do under the circumstances? Truly he might have put the wristlets on the man but where would he then put him? It would have been necessary to procure the services of an automobile to enable the officer to place the offender in confinement at Woodstock. This did not seem to be a plausible solution however, so the matter rested there.

The case will be heard before the Magistrate in the near future.

Do the people of Hartland realize the far-reaching results which may spring from such a flagrant violation of the laws of the land? In the audience were several young boys of the mischievous age who were perhaps given their first lesson in "the powerlessness of the law in Hartland." Is it not a shame that such an episode and it was a regrettable one, should have happened in our town for want of nothing more than a suitable place in which to place a violator of the laws?

We feel sure that some place could be found wherein it would be possible to fit up a cell or cells in which to keep over-night prisoners or until their case could be heard.

If such a place is not available and we cannot afford a jail, then we must suffer the consequences of having our young people brought up in an atmosphere which every now and then evidences a return to the days of lawlessness.

MARKET REPORTS.

The potato market is very weak. English market also easier. Hay market weaker. Oats firm.

A startling fact is that there were 200 cars of potatoes from the United States shipped into the Canadian West last month. It would seem that this is the time for the government to make duty equal. The railways have done their share in the reductions of rates.

Potatoes, per bbl., 70c to 75c.

Hay, per ton, \$10.50 to \$11.00.

Oats, per bushel, 50c to 55c.

Butter, per pound, 30c to 35c.

Eggs, fresh, 45c.

IMPORTANT MEETING.

At Woodstock yesterday, Dec. 2, officials of the C. P. R. and C. N. R. with the government transportation specialist, R. L. Wheeler, of Ottawa, met the local shippers of potatoes, for the purpose of discussing better car service and lower rates on potatoes to all Canadian points. Needless to say this was a very important meeting and good results are expected to follow.

RECENT DEATHS OF INTEREST

William Curtis Dies Suddenly—Dr.
Macintosh Recieves Word of the
Death of his Father in B. C.

Another sudden death occurred Thursday evening, when Mr. William W. Curtis passed away. While making a purchase in the drug store of Estey & Curtis, he suddenly fell backward to the floor and at once expired. The cause of his death is given as heart-failure. He had suffered a severe heart attack a few weeks ago, but from which he soon recovered, and on the day of his death he seemed to be in good health, and spirits.

Mr. Curtis was born in Maine nearly 68 years ago, but he had spent his early youth in this vicinity and later went west locating in Montana, where he spent most of his years. He returned in 1909 and since then has been a resident of Hartland and vicinity where he has been held as a man of sterling worth and character, respected by all. He was a brother of the late Dr. I. B. Curtis. He is survived by five half brothers and four half sisters. Arthur Curtis of Boston is a nephew and Mrs. O. B. Kenney and Mrs. R. W. Cameron are nieces.

The funeral was held at the residence of Harley Clark, where he had been making his home, on Saturday afternoon, conducted by Rev. W. P. Haigh, and was largely attended. The pallbearers were Mayor McFarland, J. E. McCollom, A. R. Foster and H. N. Boyer. Interment took place in Greenwood Cemetery, where his remains were laid beside those of his brother, Dr. Curtis. The late Mr. Curtis gave much of his time and work to the building up of Greenwood Cemetery as a memorial to his late brother, and that work will now serve as a memorial to him.

Mr. E. Macintosh.

Dr. L. DeC. Macintosh has received the sad intelligence of the death of his father, Mr. E. Macintosh, which occurred on November 20, at St. Mary's Hospital, New Westminster, B. C. Mr. Macintosh had been a native of Ontario and only two years ago had gone to the West to reside with his daughter, the wife of Alderman B. Stanley Ross. He was 72 years of age and had been in declining health for some time. The body was brought to Ontario for burial, accompanied by his son-in-law, and the funeral services were held at Dundell, Ont., on Monday, Dr. A. F. Macintosh of Andover left on Friday to be present at the funeral.

He is survived by four sons and two daughters: Dr. L. DeC. Macintosh of this town; Dr. A. F. Macintosh of Andover; Dr. A. A. Macintosh of Spencerville, Ont., and E. C. Macintosh, farmer of Toronto. Mrs. R. Baldwin, living in Ontario and Mrs. B. S. Ross of New Westminster.

Mr. Macintosh was the son of Allan Macintosh, the horticulturist who developed and gave his name to the famous Macintosh Red apple. His daughter, Mrs. Ross, cherishes a small branch cut from the parent tree whose descendants may now be found in every apple-growing district of Canada.

GREER-KINNEY.

On Wednesday, November 26th, at St. Paul's Manse, Woodstock Edmund Greer, son of Edward Greer, Coldstream, and Bernice Juanita Kinney, daughter of Andrew Kinney, Florenceville, were united in marriage by the Rev. S. R. Prince, B. D., pastor of St. Paul's Presbyterian Church. The bride's costume was of navy blue polart twill, with black picture hat, faced with gold. She was attended by Mrs. Ray Cook, matron of honor while the groom was supported by Mr. Ray Cook. Mr. and Mrs. Greer left on a honeymoon trip by automobile.

YORK CO. LUMBER MILLS HAVE HAD A BUSY SEASON

With one of the biggest cuts ever made in a season completed, Stanley Douglass, Limited are closing operations of their lumber mill at their plant at South Devon today.

Between eight and nine million feet of logs have been cut this year and it is planned to continue operations of the planing and resawing portions of the mill until early in the new year, if conditions remain favorable.

Meanwhile operations of the companies mill at Stanley for the manufacturing of hardwood is being commenced and sixty men are engaged now on the Nashwaak, getting out hardwood.

Speaking of preparations for the coming season's wood operations, Mr. Douglass said that arrangements had been completed for getting out a supply of logs for the company's mill at South Devon that would be equal to their record cut of this year.

Fraser Companies, Limited, are still operating their Victoria Mills, and after which they will prepare for lath sawing operations during the winter. The usual quantity of logs will be cut this winter for 1925 sawing.

The Hawkins Lumber Company's mill at Nashwaak has closed for the season, but will saw lath this winter and will have the usual season's operations next summer.

FACT AND COMMENT

(From The Youth's Companion.) If the postman seldom stops at the little house that sheltered you when you were a boy, whose fault is it?

The Reefs that Polps rear, the Peaks untrod, The Towers of Men—alike are Works are God.

To be thankful for something you already have is better than being thankful for something you expect.

A small boy who asked a gardener how he got the water into watermelons received a reply that was worthy of his question. "I plant the seed in the spring," said the gardener.

About the year 2000, says an authority on biometry and vital statistics the population of the United States will reach its greatest height at 197,274,000. Thereafter it will decline, which is good news if the number of automobiles is going to increase in proportion to the population.

One of the advantages of producing electric current from water power is that it is comparatively free from the uncertain charge of wages. An interesting example is an automatic plant on the headquarters of the Deerfield River in Vermont. Although it has a capacity of sixty-five hundred horsepower, it runs without attention except from an engineer who visits it occasionally to inspect the machinery fill the ailing apparatus and set the governing mechanism to produce the desired amount of power. Should serious trouble arise with the generator the plans automatically shut down and remains idle until some one comes to set it right.

An inscription that is also a sort of dedication ornaments the outside of the new palatial home of science recently opened in Washington, District of Columbia. It reads: "To Science, Pilot of Industry, Conqueror of Disease, Multiplier of the Harvest, Explorer of the Universe, Revealer of Nature's Law, Eternal Guide to Truth." This house of wonders is unique among scientific museums in that visitors to it are urged to handle and use any of the exhibits. If you want to use a microscope, a spectroscope, or an X-ray machine, you may do so. You can study germs or astronomy; the most delicate and exact instruments are at your disposal. The object is to interest people in fundamentals of science.

King George V is to have a new car—or rather five new cars. The automobile he has been using was built in 1910. The new limousines are especially adapted for state occasions. They have extra head room to permit His Majesty to wear his field marshal's helmet with the long plumes, and the windows are extra large to allow admiring subjects a better view of their sovereign. The cars are painted in the royal claret, picked out with vermillion, and the royal arms are emblazoned on the doors and on the back panels. The extra mountings are of bronze, the upholstery is in blue morocco, and the interior fittings are in silver. Truly "fit for a king."

NORTH SHORE TOWN SCENE OF MUCH GAYETY

New York has nothing on Newcastle, (excepting size) in the way of amusement in the evening, solemnly declares the Union Advocate in a recent issue. The article goes on to say that one evening last week there was a dance in the town hall, a public card party in the court house, a special picture attraction at the Empress Theatre, a company playing at the Opera House and a meeting of the North Shore Hockey League. Can you beat that for a small town? This week there will be benefit nights for the Miramichi Hospital in the Opera House with a special picture and during four nights the Mac Edwards' Players will be engaged at the Empress Theatre. This kind of thing certainly does not appear as if there were any hard times in this section, but there is a long, hard winter before us, and it is just possible that we will be obliged to pay up for all the present gayety.

LARGE POTATO SHIPMENTS OUT OF CHARLOTTETOWN

During the past week over 50,000 sacks of potatoes, about 150,000 bushels, were loaded in steamers at Charlottetown and left for different markets. Of this quantity the Canadian Beaver took 23,000 sacks of seed bound for Brooklyn, N. Y.; the S. S. Broughton took 15,000 sacks, table stock, bound for London, Eng.; Gunner Hilbert took 11,300 sacks and 550 barrels table stock bound for Cuba. Of the above quantity, all was supplied by the Potato Growers' Association with the exception of six or seven thousand sacks. Besides the above, four carloads of seed potatoes were shipped by rail to southern points. Since October 20th the Potato Growers' Association has moved from the province one hundred thousand and four hundred sacks of potatoes, two-thirds of which was seed.

"Eczema All Over Arms Suffered for 12 Years"

Mrs. Murray Hough, Warton, Ont., writes:

"I had eczema for twelve years. Every once in a while it would break out and spread all over my arms. I tried all kinds of treatments to relieve it, but without success. One Spring it broke out and nothing gave me relief, even the salve I got from the doctor did no good. At last I tried Dr. Chase's Ointment and it healed the eczema in a short time. That is over a year ago, and I have had no return of the trouble."

LOCAL AND PERSONAL ITEMS

"What a Wife Learned," on Wednesday evening, proved to be a picture of real merit. Played by such stars as Marguerite de la Monte, John Bowers and Milton Sills, the picture was an intensely interesting one from start to finish. The play hinged on the proposition as to whether a wedding ring could hold together both a happy marriage and a career. The heroine in the role of a playwright found it practically impossible. Many climaxes were arranged throughout the most stirring one being an immense flood scene, when a great dam gave way. This was associated with a thrilling rescue by the hero. "Babes and Boobs," a Larry Semon comedy was screamingly funny. On Saturday evening, Tom Mix put a lot of energy and action into "The Lone Star Ranger," a play of the cattle country, where the hero, himself a renegade, paid for his pardon, by cleaning up the worst bunch in the country. Tony, his wonderful horse, helped as usual. A two-reel comedy was also shown. Read page 7 for forthcoming attractions.

Mrs. Herbert Agnew gave a party for the pleasure of her little daughter Hilda, on the occasion of her eighth birthday. A number of her young friends enjoyed one of the best times of their young lives. The room and table were very prettily decorated for the occasion, and a dainty supper followed a season of games and merriment. Rev. E. Bridgewater will preach on Sunday, Dec. 7, as follows: St. James, Centreville, matins, 11 a. m.; Good Shepherd, E. Florenceville, evensong, 3 p. m.; St. Barnabas, Greenfield, evensong, 7.30.

Rev. H. R. Bell's services for Sunday, Dec. 7, will be as follows: Centreville, 11 a. m., and 7.30 p. m.; Carvell, 3.00 p. m.

Rev. W. P. Haigh of Hartland will conduct a musical entertainment in Sherwood's Opera House on Thursday evening, December 4th.

W. H. Smith of St. John was in town on Saturday.

Mr. and Mrs. S. W. Burpee, and Miss Dancy Burr were in Woodstock on Saturday.

Mr. and Mrs. W. B. Webb and Mr. and Mrs. Frank Upton spent Saturday evening in Woodstock.

Dr. F. M. Brown left on Friday for Boston.

H. G. White of Aroostook and Frank McKenzie of Grand Falls, spent the weekend in Centreville.

C. R. Cliff spent Saturday and Sunday with his son, D. F. Cliff at Mars Hill, Me.

Mrs. Elmer Burpee of Jackson town spent last week at her father's, C. A. Long. The latter is convalescing at the Fisher Memorial Hospital at Woodstock.

Rev. C. Y. Lewis of Ontario, spent part of last week at the Kennedy House.

The electric car made its last trip for the season on Saturday morning. Service by it being discontinued until spring. The old passenger train schedule has been resumed on Tuesday, Thursday and Saturday mornings.

George Gilwear, C. N. R. electrician went to Newcastle on Saturday.

The mill below town is now running and the six o'clock whistle speaks very plainly at supper time.

WOULD LIKE TO SEE THIS WAR SPREAD

The Fredericton Mail in a recent issue says: The action of a Chatham Chinaman in returning to pre-war prices for washing and doing up collars has led the Chatham Gazette to enquire if a tong war has broken out among the celestials. It thinks it might be well for a special policeman to patrol the Chinese quarter until the tong war has subsided. If the tong war results in nothing more serious than a reduction in laundry prices, the Town Council can afford to let the heathen rage. It is hoped that this kind of tong war will spread to Fredericton and other places where the laundrymen, white and yellow, have not been apprised of the fact that he great war ended 10 years ago.

LET'S BE FAIR.

(Edmondson Observer) During the past year the merchants and storekeepers in Edmondston have experienced, with the rest of the province, the depression which has been the lot of all in business.

Now we are at the threshold of the Christmas season, a time when we all open our purse strings a little more freely.

We are going to buy presents for our families and our friends, we are going to buy things for ourselves. We may buy things to better enjoy the festive season of Christmas.

There is a great temptation to purchase from catalogs and to send to Moncton, or Toronto, or Montreal, for goods. Distant fields look green, and there is a certain excitement in opening a parcel. There is also a temptation to go across the river and send orders to mail order houses in the United States, or to purchase from firms residing in Madawaska. All we plead for is fairness in this. Let us think of the town, let us play fair with our merchants who are paying heavy taxes and are residents of the town. Let us get all we can from them. Let us spend our money at home. Let us show a civic patriotism and support our own merchant industry. By so doing we are helping them, the town, and ourselves.

In many cases we can purchase our goods just as cheap, and in many others we can buy more reasonably. We can examine the quality and we can see what we are buying.

Buy at home for Christmas. Buy all you can at home before you go elsewhere for your goods.

Look in on your own merchant and see his goods and examine his line, and inspect his quality, you can do it so much more satisfactorily than you can by looking in a catalog and purchasing that way.

Don't buy your Christmas pigs from catalog pokes, buy them from the well-lighted, well-stocked, efficiently served, courteous merchants of your own town, and you will please them and you will be better pleased yourself.

MONCTON TO BROADCAST TIME SIGNALS

Time signals from the Dominion Meteorological Service Observatory on Douglas Avenue, St. John, will be broadcasted from the C. N. R. Radio Station at Moncton every Tuesday and Friday night in the following code:

Time signals will be sent as follows: Beginning at 9h. 58m. p. m. Atlantic time, dots are made each second up to and including 9h. 58m. 57s., then a pause of two seconds is followed by a dot at 9h. 59m., then a pause of two seconds follows. The clock then makes dots each second up to and including 10h. 59m. 59s., a pause is then made, followed by a dot at 10 h. p. m. Atlantic or Standard time of the 60th meridian west longitude. The signals go to Moncton from St. John over the Western Union wires direct from the master mean time clock of the Observatory. This clock automatically transmits the time signals without the intervention of human relays over a loop line connecting the clock with the land line direct to the wireless.

The lag or armature time of the sending has not yet been determined but for the short distance between the Observatory and the C. N. R. Radio Station, it will probably not exceed one or two hundredths of a second.

"PUSSYFOOT" JOHNSON HEARD IN MONCTON

Moncton, Nov. 26—Rev. Ben Spence W. E. "Pussyfoot" Johnson, famous Ontario prohibition worker, and prohibition lecturer, addressed a large audience in the First Baptist Church this evening. Senator C. W. Robinson presided. Rev. Mr. Spence spoke of conditions in Ontario and advocated the strengthening of provincial prohibition legislation by securing Dominion legislation. He appealed for support of the World League against alcoholism.

Mr. Johnson reviewed the prohibition movement in various parts of the world. The United States had scrapped the license system after it had proven to be a failure. Prohibition law was being enforced better than the license law ever was, he said.

He said that, under the licensing system, there were more than 200 institutions in the United States where they dived to cure alcoholic and drug victims. Under prohibition, the number had been reduced to 16.

The Congress elected early this month, he said, was the driest in the history of the country.

Mr. Johnson said there was about as much chance of the United States going back to the old licensing system as to human slavery.

He spoke of the progress of the prohibition movement in eastern countries and said the time was close at hand when liquor business must get off the earth.

WHY KEEP DOWN TAXATION?

To the casual observer, it is well at times to stop, look and listen to the sound of the accumulating millions as they pile up in ceaseless pyramids of federal, provincial and municipal taxes and as we watch them grow, there is a feeling gradually creeping into our souls, where shall it end, and to whom shall we go for relief? First, of all let us consider that we as individuals are the ones who are responsible for this increase, together with our predecessors who have passed along to succeeding generations, the burdens which they have left, plus those of our own making. Our national debt now stands at a figure exceeding two billions of dollars, to say nothing of the debts incurred by the provinces individually and the towns and cities within their borders. The intention of this article is not to go into the question of national expenditure as that is a subject all in itself and is rather remote in some particulars, although we bear our share of it through the medium of most everything that we eat, wear or use. As pointed out in a previous article the debt of our Town and School district now stands at \$73,000.00, or a per capita tax of \$73.00 per head for every man, woman and child in our Town. This, however, is not an excessive amount in comparison to the property held, although it cannot be said that it is distributed on a basis of equality numerically. Since the town has been incorporated there has not been over an average of three males who have come to a taxable age, who have remained permanent residents and taxpayers, this goes to show that there is a leakage in our population which will cause us serious reflection as to why we should keep down taxation. We do not wish to draw any comparisons with any other Towns or Cities in the matter of indebtedness, only to say that we should profit by their mistakes and endeavor to not make any worse ones. As a trade principle, the matter of taxes enters very largely into the question of more or less business. Every farmer who trades in our town, helps to pay them, as the prices of goods must always be sold contingent upon overhead, if the business houses are to maintain a healthy and prosperous condition. Again, if taxes are too high, people will desist in investing capital in communities where this condition obtains, thus helping to retard our expansion commercially. At the present time we are not overtaxed, but let us be very careful lest we arrive at that condition before our eyes are open to that fact. We have a great many things as a small town to be thankful for, which larger places are enjoying at a greater cost, let us therefore stimulate thrift by keeping taxation at a minimum.

"Well, I came down with flying colors anyway," remarked the painter who had just fallen off the scaffolding with a pot of paint in each hand.

MOTHERS LIKE TO TREAT COLDS WITH VAPORS

Direct Treatment with Vaporizing Salve Immediately Reaches Inflamed Air Passages.

It is no longer necessary constantly to dose the children in treating croup, bronchitis, sore throat, or deep chest colds. Many Canadian mothers now use the "outside" remedy, Vicks VapoRub, for the cold troubles of all the family, because it is just rubbed over throat and chest—there is nothing to take. When so applied Vicks gives off medicated vapors which are inhaled directly into the inflamed air passages, loosening the phlegm and making the breathing easier.
At the same time Vicks is absorbed and stimulates the skin like a liniment or plaster and thus aids the vapors inhaled to "break up the congestion."

MARRIAGE OF FORMER HARTLAND YOUNG LADY

St. John, N. B., Nov. 27—A pretty wedding was solemnized yesterday in St. Peter's Church at 5.30 when Rev. James Cloran C. S. R., officiated and Miss Grace M. Donkin, daughter of Mr. and Mrs. J. E. Donkin of Main street, Fairville, was united in marriage to James C. Cole, son of Mr. and Mrs. Albert Cole, of Chatham, N. B. The bride was becomingly attired in a navy ensemble suit with rust colored hat and wore an Isabelle fox fur and a corsage bouquet of Opheelia roses. She carried a white prayer book. The bride was attended by Miss Winnifred Kean, who was dressed in a navy blue suit with hat to match and carried an old-fashioned nosegay of golden Ophelias and white ranunculus.

After the ceremony the bridal party motored to the home of the bride's parents, where a dainty wedding breakfast was served. The room was very attractively decorated with potted plants and cut flowers. Red and white streamers hung from the chandeliers to artistically arranged tables which were centred with yellow crysanthemums.

The groom is an employee of the C. P. R. and the bride was formerly a member of the staff of the millinery department of Manchester, Robertson, Allison, Ltd. The popularity of the bride and groom was evidenced by the numerous and beautiful gifts of cut glass, linen and silver which they received. The best wishes of a host of friends are extended to them for their future happiness. Mr. and Mrs. Cole left on the 7.25 train from Fairville for a wedding trip to Montreal and Quebec and on their return they will reside at 111 Main street, Fairville.

HEAVY LOSS BY FIRE.

Fire broke out at 4 o'clock on Friday morning in Dunbar's Foundry and completely destroyed the moulding shop, containing a lot of new patterns and some valuable castings. The origin of the fire is unknown. It had a good start when seen by the watchman. The firemen were able to confine the blaze to the moulding shop, saving the other buildings.

The loss will be severely felt owing to the many orders on hand and the throwing of many men out of employment. A small insurance was carried but the loss is in the neighborhood of \$5,000.

A large number of workmen are being employed and it is hoped to have a temporary building erected this week, and a large one will be erected in the spring. The firm has been working at night on orders for the new lath machines, some of the patterns of which were destroyed by the fire—Woodstock Press.

TIMELY RAIN PUTS ELECTRIC CO. ON SAFE SIDE

The Aroostook Falls Power Co. is now on "easy street" as regards water. Supt. Brown informs the Star-Herald that the rain of Sunday and Sunday night raised the water so that 2.13 feet are now running to waste over the flash boards, more than he has ever known before at this time of year.

Supt. Brown thinks this will suffice to put them through the winter, even without more rain, or thaws which are pretty sure to come.—Presque Isle Star-Herald.

U. S. POTATOES TO ENGLAND.

Orin J. Bishop and Clifford Wheeler of Presque Isle late last week shipped to England the first carload of Aroostook potatoes ever sent there. It went by way of Portland. Mr. Bishop is negotiating to send further lots of potatoes there, the deal involving, if it succeeds, some 5,000 to 10,000 carloads to Great Britain—Fort Fairfield Review.

AROOSTOOK POTATOES IN THE OLD COUNTRY

Lewis S. Bean and Orin J. Bishop of Presque Isle started Saturday for Boston and New York, sailing this Wednesday morning for London, England to see what can be done to establish in England a market this season for good quantities of Aroostook potatoes. They intended to be gone a month or more. Mr. Bean was accompanied by Mrs. Bean. Mr. Bishop has been communicating with dealers in

London for some little time in regard to a market there for some of our Aroostook potatoes this season and finds the outlook sufficiently promising to make worth while to investigate the matter further, the prospects seeming good that large quantities of our stock may be used there at such prices that they will net our people a little more than the American market seems good for. All hope that this potato-marketing mission may be brilliantly successful.—Fort Fairfield Review.

Rev and Mrs. Fenwick are leaving the Jacksonville circuit and are going to Hamstead, where Mr. Fenwick will have charge of the U. B. Churches on that circuit.

"The Hoosier Schoolmaster," the screen version of Edward Eggleston's famous novel, will be shown at the Neighborhood Theatre Thursday evening. The story is laid in the Flat Creek District of Indiana ten years before the Civil War and gives a faithful and thrilling picture of the time. The Indiana Club of New York, which was given a pre-view of the picture, declared that they wished there might be other pictures as good, depicting the early history of Indiana. It is the love story of Ralph Hartook, the school-master and Hannah Thompson, the "bound-girl." "The Hoosier Schoolmaster" has sold over half a million copies since it was first published in 1871. It was adapted for the screen by Eve Stuyvesant, Oliver Sellers directed.

DUAL MURDER AT FOSTERVILLE, N. B.

Fredericton, N. B., Nov. 26—Charged with the murder of his two nieces, Cynthia and Neyessa Foster, aged 10 and 14 years, Harry Williams of Fosterville, was brought here this evening and lodged in the county jail, awaiting preliminary examination tomorrow morning.

Bound hand and foot, the lifeless bodies of the girls were found last evening at their uncle's shack in Fosterville, with bullet wounds in the head, the horrible discovery being made by their father, Ward Foster who had gone to Williams' shack to see why the children delayed. The murderer, although cautioned about incriminating himself, is said to have admitted the slaying. When he was brought here he seemed perfectly indifferent regarding it. The elder of the two girls had been assaulted.

PRICE WEBBER'S VERSATILITY

According to the Kennebec Journal "H. Price Webber, the veteran actor, furnished the boys many a laugh with the humorous stories told in his inimitable manner with his selections on the concertina."

Everybody in New Brunswick who knows H. Price Webber—and there are not many who do not—recall him as a linguist and vocalist of very fluent delivery, but few knew him as a concertina artist. Many people may have had a suspicion that he could perform on the Jew's Harp; in fact there was a rumor in Fair Vale, where the veteran actor spent a portion of the summer, that the unearthly sounds which came from the banks of the Kennebecasis on several nights were indicative of Webber on the shore with the bagpipes. However, there was no proof of the story.

Since he went to Augusta, Maine, he has been one of the busiest of men. The people of the "Pine Tree" State are always in good humor near Christmas time or after the state or federal elections and they stage local entertainments, praise each other up to the skies and get an opportunity of using Humphrey Price Webber as their coach. All of which makes Webber happy as well as his auditors.

WOMEN MORE FORGETFUL, RLY. INVESTIGATION SHOWS

Most of Articles Found on Trains left By the Fair Sex—Lost Goods Form Curious Aggregate—About 70 per Cent of Parcels Left Behind are Returned to Their Owners.

Women are more forgetful and careless than men, in spite of what the Mrs. Jiggs and others of her ilk have to say about it, according to the Canadian National Railway Investigation Department in Moncton. They have the things to show, found on trains, stations and on platforms, says the Kings County Record in its issue of this week. The article continues: They have women's umbrellas, handbags, vanity boxes, jewel boxes, raincoats, and mirrors, all the little things that add to the charm and are purchased almost anywhere. The finds, too vary according to the season and for the next few weeks there will be a flood of neckpieces and scarves and wraps left by women who are not yet used to wearing them all the time.

The weather man, moreover, is responsible for other losses. In the spring it is not unusual to have 20 or more pairs of rubbers handed into the office during a month and when Old Sol banishes the clouds and rain ceases, the women are again forgetful and their lost umbrellas make quite a heap. Already this year some 45 or more have been collected and left unclaimed, with only four or five of them having the appearance of belonging to men.

But men are not altogether innocent, though they only leave behind 30 per cent of the articles that are handed in to the office. Pipes and traveling bags, shaving mirrors, brushes, and rubbers particularly the latter, are among the things picked up.

Jew's Harp and Gramophone Records. Once in a while something unusual crops up, for instance there is a fishing rod left perhaps, by some disgruntled follower of Isaak Walton or by some erring husband who perhaps had to visit the fish market before he talked to friend wife. And again there is a book on the Gospel, entitled "The Divine Plan," left, it may be, by some aged minister, one of the kind who fumbled for his rubbers when awakened from his philosophizing by the announcing of his station, forgetting the Bible in his anxiety to obey his wife's injunctions to be careful not to catch a cold. By contrast, one finds "Pick Merriwell's Darling," blood-curdling, thrilling.

The music lover is carried through the evolution of instruments down the ages for there is a primitive Jew's Harp and a bundle of gramophone records for the jazz artist.

There may have been a pseudo-tragedy when mother arrived home with her babe and found that she had left the carriage or the sled or the sled for they have all been there, on the station platform. Again there may have been shedding of tears when Daddy arrived home and found that he had left little Johnny's rattle in the train, or worse still, his complete outfit of clothes.

Russian Refugee's Passport. Speaking of clothes, some one left a full basket of them on the station platform. Another person left a lard pail.

Sometimes there is a little romance as there are letter picked up—letters that have been carried a long long while and were apparently much cherished for they are worn with many readings. They remain unclaimed.

Again there are tales of adventure and travel, war and revolution, tales that carry one to India, to Russia, to Constantinople, or to Marseilles and Paris, Cherbourg, and Moncton station. They are contained in a kit bag and the suit case that were found not so long ago in a second class car. There is a pith helmet as well.

On opening the first, the officers found letters in Russian written to a British soldier from some place in Russia to Constantinople. There are views, too, of Bolshevik persecution of children, of his regiment, the Buffs of India and again at the Dardanelles pictures of Paris and Marseilles. Strangely enough, while the suitcase contains the kit of a British soldier, the light duck tunic and other articles of wearing apparel used in warm climates, it bears the name of Turgieff, Marseilles, and not as the letters show M. Byran. It holds a League of Nations passport for a Russian refugee.

About 70 Per Cent. Returned. That he was young is shown by his picture and that he is small is shown by his clothing, but where he went or how he happened to leave his belongings behind is a mystery and will probably always remain so because the department has been unable to obtain any trace of him.

There are many suitcases, belonging both to men and women; parcels obviously the property of women; coats, left by men, hats by men and one woman left three of the latest creations of the milliner behind her. There are women's coats and gloves galore with now and then, a bit of children's clothing. There have been axes, overalls, silk scarves, and silk hats, almost everything that is found in the ordinary pawn shop, handed in

BUT YOU OUGHT TO FEAR HIM HOLLER WHEN THE PAPER DOESN'T COME.

My father says the paper he reads aint put up right; He finds a lot of fault, too, he does, perusin' it all night; He says there ain't a single thing in 't worth to read, And that it doesn't print the kind of stuff the people need; He tosses it aside and says it's strictly bum, But you ought to hear him holler when the paper doesn't come!

He reads about the weddin's and he snorts like all get out; He reads the social doin's with a most derisive shout, He says they make the papers for the women folks alone; He'll read about the parties and he'll fume and fret and groan; He says of information it doesn't have a crumb— But you ought to hear him holler when the paper doesn't come!

He is always first to grab it and he reads it plumb clean through He doesn't miss an item, or a want ad—That is true; He says they don't know what we want, the darn newspaper guys: "I'm going to take a day some time and go and put 'em wise; "Sometimes it seems as though they must be deaf and blind and dumb." But you ought to hear him holler when the paper doesn't come!

BOYS FOUND SKELETON.

St Stephen, N. B., Nov. 26.—While out hunting yesterday two young lads discovered a skeleton of a man in a clump of woods about a mile and half back of Milltown, Me., near what is known as Stonewall off of South st., which runs between Calais and Milltown. The boys immediately notified City Marshall Kerr of Calais, who had the skeleton brought to the undertaking rooms of Ernest School, of that city, and is conducting an investigation.

The skull and teeth show that it was that of a young man, whose age might range from 16 to 25, and that he had been dead seven or eight months. The only means of identification was a red shoe and woollen socks found nearby. Up to the present no identification has been made.

About eight years ago last April, a young man about 16 or 17 years of age, John Kilman, who resided at Milltown, N. B., suddenly disappeared and no word was ever heard from him afterwards. The description given of him as to build and age, compares well with that of the skeleton but nothing definite is known as yet.

to the department office at the station. Articles have been sent from the department during recent months as far south of New York and as far west as Saskatchewan when claims were received for them. About 70 per cent of the articles are returned to those who lost them, by the department.

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Selget's Syrup" after meals makes your digestion sound, so

STOLEN COAT
TAKEN FROM
WEARER'S BACK

If you had secured a nice new winter overcoat and were wearing it for the first time, and cutting some figure and a policeman came along and took the coat away from you, how would you feel asks the Sackville Post in its last issue, which continues—

Well, that is what happened to a Sackville youth the other evening. Here is the story: A traveler had been displaying his goods at one of the sample rooms in the town. At the tea hour he locked up and went away but when he returned in the evening he discovered that one of his samples was missing. The traveler reported the loss to Marshal Teed, who promised to be on the look-out for the missing coat. Saturday evening he met a young man on the street who was wearing a rather attractive looking coat. Questioned the young fellow said the coat came from Moncton, but when pressed hard by the marshal, he finally confessed that the garment had come from the sample room in question and he surrendered it on the spot. The coat will be forwarded to the traveling man.

ATTORNEY HELD
AT HOULTON FOR
EMBEZZLEMENT

Houlton, Me., Dec. 1.—A. S. Crawford, Jr., a Caribou attorney, was arrested Monday noon as the result of an indictment found against him by the grand jurors for the crime of embezzlement. Mr. Crawford was surprised at the arrest as he claimed he supposed the matter had been settled and the case closed. Bail was placed at \$2,000, which was furnished and Crawford was allowed to go. No other indictments have been made public. Capiases have been issued and are in the hands of the deputies and as soon as the prisoners are apprehended, the indictments will be made known. Some people are of the opinion that surprises will be sprung, while others claim that the cases are for minor offenses.

Armand Soucy, a life-long resident of Edmundston, died at his home near the Catholic Church on Sunday last. The funeral was held on Tuesday morning at the Immaculate Conception Church. The late Mr. Soucy was a son of the well-known Police and Town Officer S. Soucy, and was aged thirty-four years. He leaves a wife to mourn his loss. Mr. Soucy has never been well since he returned from overseas at the close of the great war. The Observer would add its sympathy to the sympathy which has been expressed by the many friends in Edmundston and elsewhere to the relatives and near friends in their bereavement.

The new post office to be built on the corner of Church St. and Canada Rd., for which the Public Works Department recently called for tenders, will be completed within fifteen months. There were a number of tenders for this building, which will cost in the vicinity of \$55,000, the successful one being John Flood & Son of St. John, N. B.

We are informed that some minor operations will be commenced immediately, such as hauling stone, etc. and that in the spring the work will commence in real earnest.

There were some local tenders and a number of tenders in the Counties of Madawaska and Restigouche.

The plans for the building are on display in the post office. The people of Edmundston have been very patient in regard to the poor accommodation we have had here, and the pro-
