Cough-Cures

Are abundant, but the one best known for its extraordinary anodyne and expectorant qualities is Ayer's Cherry Pectoral. For nearly half a century this preparation has been in greater demand than any other remedy for colds, coughs, bronchitis, and pulmonary complaints in general.

"I suffered more than eight months from a severe cough accompanied with hemorrhage of the lungs and the expectoration of matter. The physicians gave me up, but my druggist prevailed on me to try

Ayer's Cherry Pectoral.

I did so, and soon began to improve; my lungs healed, the cough ceased, and I became stouter and healthier than I have ever been before. I would suggest that the name of Ayer's Cherry Pectoral be changed to "Elixir of Life, for it certainly saved my life."

"—F. J. Olden, Sault Ste. Marie, Quebec.

"My doctor's medicine did me no good. I tried many remedies, but received no benefit, until I used Ayer's Cherry Pectoral, and, as a last resort, did so. From the first dose I obtained relief, and, after using two bottles, it was completely restored to health."—F. Adams, New Orleans, N. J.

Ayer's Cherry Pectoral.

Prepared by
DR. J. C. AYER & CO., Lowell, Mass.
Sold by all Druggists. Price 25¢ per bottle, 50¢ per dozen.

General News.

Three boys killed a monster octopus or devil fish at Seattle, Washington Territory last week.

The Buddhists of Japan propose to establish a bank in order to obtain funds for the propagation of their religion.

Four hundred families on Achill Island are compelled to eat diseased potatoes to keep from starving.

Chinese advices say that over twenty Christians were killed at Loong Tui Tain by members of a heathen society.

A young man named Ball, left one of the ranches near Calgary some time ago to look for cattle, and has not been seen since.

A New York doctor has returned from Berlin, where he has investigated the Koch consumption cure. He brands it as a great discovery.

The sentence of Morin, the Montmagny murderer, has been commuted to penal servitude for life. He was to have been hanged last week.

The spinners in Clarke's Thread Factory went out on a strike on Thursday, and the owners have shut the mill down for an indefinite period.

As a Paris wedding procession was on its way from church it was fired at and both bride and groom were killed. The assassin escaped. It is supposed he was a rejected suitor.

Michael Regalia, a young sculptor of Quebec, had his skull smashed with a whiskey bottle by a drunken carter at Hebertville and is said to be dying. The assassin escaped.

The latest reports from Pine Ridge agency in Dakota are to the effect that the soldiers are hugging their camp fires, while the Indians stand a good chance of freezing to death.

According to the Cincinnati Gazette, a genuine Russian Count and a real German Baron are engaged in running the elevator at a hotel in that city. Both are cultured, but have become impetuous since arriving in America.

The Indians of Nebraska, are making things lively in that state. Great swarms of them are roaming over the country, pillaging the ranches and driving all the cattle they can find away.

United States soldiers are after thieves, but have done nothing yet.

All Western Iowa has been excited over a big corn-husking match. Two champions worked ten hours over a field of corn, averaging 40 bushels to the acre. The result was that each contestant hunked and cribbed about 150 bushels, the prize being awarded to the husker whose corn was freed of husks.

After one year's experience of attempted prohibition the city of Lowell, Mass., last Tuesday rejected its verdict by giving nearly 6,000 majority for license, the license vote being nearly three to one. The city of Washington by a scratch a year ago, gives a round 1,000 majority for license this year.

Owing to the dullness in the coal trade and large stocks on hand, the Delaware, Lackawanna & Western railroad have shut down all mines in the vicinity of Wilkesbarre for an indefinite period. Thousands of men were thrown out of employment. Much suffering will prevail among the miners as a result of the shut down.

According to the will of an Englishman, the late Mr. Allen Fraser, his estate at Hebertville is designed to become "a monastic brotherhood of painters, sculptors, and literary men, and a trial school for young artists. Thirty young men are to be comfortably lodged, boarded and clothed, on condition that they bind themselves to study art for four years.

Advices from Cape Town state that on November 8th the Portuguese seized Muta's kraal and hauled down the British flag, hoisting the Portuguese ensign in its place. A detachment of the British South African Company's police subsequently surprised the Portuguese, drove them out of the place and captured two of the Portuguese leaders. The prisoners were conveyed to Fort Salisbury. The police replaced the British flag.

The "Man about Town" of the New York Star describes a novelty in public worship introduced in a Brooklyn Methodist church. It consisted of "five cantaries, in as many bright, new wire cages, hanging in a room, about fifteen feet above the heads of the worshippers. The birds twittered and sang all through the morning service, but no one seemed to object to them. Even the preacher appeared to forget their chirpings during the delivery of his sermon.

A lady who was travelling in Europe in 1880 picked up a small pebble near the cross, by the village of Ober-Amunzberg, to preserve as a memento. Eight years later, in relabelling this fragment of limestone from the village of Passion Play fame, she chanced to turn the pebble so Her husband fell in a certain angle, and was astonished to find that in that view a wonderfully sorrowful face like that of the Christ showed itself.

The lady, Mrs. Bacon, has shown the stone to Rev. S. F. Smith, D. D., of Newton, and to other well-known people, all of whom have noted the wonderful face.

A fact that all men with grey and many shaded whiskers should know, that Buckingham's dye always colors an even Brown or Black at will.

Mrs. Gladstone's Kindness.

The Great Statesman's Wife Treated a Pretty American Girl.

A pretty American girl recently called upon Mrs. Gladstone at her London home. She carried a most favorable letter of introduction as a member of a well-known American family. Her brightness and sparkle attracted the wife of the great English statesman, and for an entire afternoon and evening she lived in the Gladstone household. She confessed to Mrs. Gladstone that her visit had a purpose—that of writing an article on the home-life of her hostess for an American magazine.

"But, my dear," said Mrs. Gladstone, "your people are interested in Mr. Gladstone, they do not know me."

"That is just why I came," replied the girl, "in order that Americans may learn a little more of you."

At the tea-table, Mrs. Gladstone joined with his wife in entertaining the American girl, and few ever given a better opportunity of seeing the Gladstone home-life.

The quiet part which Mrs. Gladstone has played in the career of her famous husband is known to only a few. While thousands of articles have been written of Mr. Gladstone, none of an authoritative character have been printed of his wife. Even her portrait is seldom seen in the English shops, rarely in the prints. She has always felt that public interest in her own country and across the sea was centered in her husband, and that in order that his greatness might stand out more strikingly, she has each year further retired from public view.

A freshness will, therefore, attach itself to the story "A Day with Mrs. Gladstone," as it will be told by her bright young visitor in the Ladies Home Journal, of Philadelphia during the coming week. This article will be one of the series of "Unknown Women of Well-Known Men," which this excellent magazine will contain during 1891.

An Experimental Hanging.

Two drunken men John Hoffman, almost a giant, and Tony Fechner, a pigmy, while drunk in Brooklyn, decided to settle a dispute about the pain of death by hanging by a practical experiment. The dwarf agreed to be the subject, and the stalwart consented to act as executioner. A rope tied a hatchet were procured, and a clothes pole was selected as a gibbet. The noose was put around Fechner's neck and the other end of the rope thrown over the pole. It being understood that the hanging man was to whistle when he had enjoyed a sufficient experience to settle the dispute, he was hoisted by Hoffman, soon his tongue began to protrude and his eyes started from their sockets. Whistling was out of the question, so Hoffman fortunately no signal to cut his friend down. Fortunately about to prove absolutely successful, the rope broke, thus saving the pigmy's life.

Mother and Babe.

GREYSTON, I have used Hagar's Pectoral Balsam for a bad cough and was cured by one bottle. My babe only two months old had a cold and cough, and on giving him some of the medicine he was cured. Mrs. E. J. GORDON, Florence, Ont.

A Bill Nye Joke.

Bill Nye, the humorist, is plaintiff in a lawsuit against the poet, James Whitcomb Riley, his chum for years in the work of making Americans laugh. Nye and Riley have been a money making combination for years, but Mr. Nye charges that, while his own humor was always dry, Mr. Riley's was too frequently wet. In Louisville, he says: "Early in the year Mr. Riley poured out to me a quantity of his 'Whispering Willows' which I had honored the shrine of Euterpe, and the result was that when the hour arrived at which the combination should appear to amuse the public, Mr. Riley presented a very willow form to the audience. Hence Mr. Nye's actions. The combination went in train and recently Mr. Nye, hairless as ever, ascended to the office of Walker Bros., No. 35 Broadway, who first formed the Nye and Riley combination, and put them on the road. To them Mr. Nye told his tale of woe. There was sad writing for some hours, and then an adjournment till to-day. The action, which is for the sum of \$30,000 from Mr. Riley, will be tried at Indianapolis. The evidence is only taken at Napa.

A Friend's Face.

A FRIEND'S face often looks sour and gloomy from the effects of misery-making biliousness or liver complaint. If we tell him to use Burdock Blood Bitters, he does it, the face soon brightens with returning health and happiness. B. B. never fails.

—William Wallace Blanchard, was hanged at Sherbrooke, Quebec, on Friday last for the murder of Charles Calkin, some time ago. Remi Lacombe, who was hanged in the same place on Friday next.

Essly Caught.

CROUP, cold, sore throat and many painful ailments are easily caught in this changeable climate. The never failing remedy is just as easily obtained in Hagar's Yellow Oil, which is undoubtedly the best of all the many remedies offered for the cure of colds & pains.

WOMEN'S COLUMN

W. T. C. U. Anniversary in Windsor, N. S.

The Windsor Tribune of Dec. 5th contains an interesting account of an entertainment given by the W. T. C. U. of that town. Mrs. Green the Pres. of the time occupied the chair, the Secretary, Miss Elsie Smith read a report and a fine address was delivered by Miss Tremblon of Hantsport, who had charge of the work among Sailors in the Maritime W. T. C. U. And an excellent paper was read by Mrs. T. B. Smith of Windsor. A principal feature of work in that time, was a series of receptions for young men, held every Saturday evening during the winter. The 'Supper of parlor and social work, assisted by members of union, made their socials as pleasant and attractive as means and time would allow, hoping to counteract to some extent the allurements of the bar-rooms. Quite a number of young men and women assembled every evening in which socials were held, and to the gratification of Union, a large re-education of boys from the town as well.

The teachers of the town have produced the Path-finders series of Scientific temperance instruction for their use in the Schools. It is worthy of note that this anniversary was the thirteenth of the Windsor W. T. C. U. It was consequently formed three years after the great crusade which was the origin of the great W. T. C. U. We insert extracts from Mrs. Smith's able paper:

"The 19th is woman's able paper," said Victor Hugo, and no thoughtful mind can fail to perceive that wonderful as is the record of discovery and progress in science and arts, in philosophy, and religion, in this century more marvellous still is the change in the position and influence of women. At the beginning of the century, if woman was allowed to have a mind, it was a question whether it was worth cultivating and men would have been astounded, had it been foretold that to-day the highest schools of learning would be open to her, and she leading in the foremost ranks. Fifty years ago even it was a question among learned classes as to the advisability of sending missionaries to the heathen, but it was decided that if a minister did choose to go, he must go alone, no woman could accompany him. To-day hundreds and thousands of women are working in the mission cause; and today three-fourths of the philanthropic, scientific, literary and every woman's sort of work would suddenly cease if thousands of women were not actively engaged working with head and hand themselves cheering and encouraging to patience and perseverance those who would otherwise sink or fall under the pressure of a very few weeks and good men were beginning to see that total abstinence was the only safety from intemperance to-day beside the other great T. A. Societies, over a quarter of a century ago W. T. C. U. women are inculcating this principle of good motherhood that they work not upon the canvas that shall perish, or the marble that shall crumble into dust, but upon mind and spirit which is to last forever, and which to bear for good or evil through its duration the impression of a mother's plastic hand. If mothers have such power, while it is not ours to say, what manner of man or measure are needed for the country's good in general and the destruction of the liquor traffic in particular, it certainly is within our vocation to help to form such a thorough temperance sentiment in every community as shall demand effective legislation and make total prohibition possible; here is an undertaking worthy of our best energies and which does depend largely on the influence in the home, the church and in society of the systematic work of united Christian temperance women, and here the best mothers in the humblest home may do her part by engraving upon her children's mind a hatred of intoxicating drink and the traffic, with an loving and prayerful sympathy with those engaged in conflict of the foe.

The hand that rocks the cradle rules the world we are told. If that were truth there would be a prohibitory law, and we would have no drinking men abroad nearly a quarter of a century since John Stuart Mill gave the weight of his opinion in favor of the franchise to women, and it cannot be denied that public opinion has been moving in that direction since his day. Both the great political parties in England are now committed to the extension of franchise to women. A Liberal conference on parliamentary reform, held at Leeds in 1883 presided over by Mr. John Morley, passed a favorable resolution by a large majority. The National Union of Conservative associations at Oxford, England, recently adopted a resolution that the time has arrived when parliamentary franchise may with perfect safety be granted to women householders.

Nearly all colds are slight, at first, but their tendency is to lower the system that the sufferer becomes a really victim to any prevalent disease. The use of Ayer's Cherry Pectoral, in the beginning of a cold, would guard against such a danger.

—The executions for \$200,000 filed in New York against the Duchess of Marlborough had to be returned unsatisfied as the Duchess has no property there in her own name.

—In a life of 70 years the blood travels 4,000,000 miles. Impure and unhealthy it carries disease with it. Purify your blood with B. B. B.

—The Imperial Council of India has under consideration a measure to prohibit men over fifty years of age from marrying girls under twelve years.

Agricultural Notes.

Potato-growing experiments in France show that the crop from whole seed is about seven hundred weight per acre more than that from cut seed, allowing for the difference in weight between the two sorts.

The railroads of Kansas, have agreed to carry provisions free of charge to northwest Kansas, where much distress exists on account of the failure of the corn and wheat crops last season. There are 6,000 families in that section of the state that are in need of aid.

The British Government on Thursday introduced in the House of Commons a supplementary estimate of £5000 for the purpose of enquiring into the situation in the western part of Ireland arising from failure of the potato crop and for making preparations for relieving the distress among the inhabitants.

A noted horseman and recognized authority says as his opinion from the time the training season opens, there is knocked out daily over a hundred thousand dollars worth of horse flesh, through bad management and hard tracks. Surely the road for the roasting horse breeder is not strewn with roses.

The prize offered by the American Agriculturalist, this year for the largest quantity of potatoes grown to the acre, goes to a Wyoming farmer, who shows a record of 974 bushels, while the second prize is taken by a Colorado man, whose acre yielded 847 bushels. Evidently there are no small potatoes about either of these crops.

Prof. Cook of Michigan Agricultural College has recorded the conclusion, after several years of careful experiment that spraying plum trees with Paris Green or London purple is not to be relied on for a protection from the work of the curculio. His work thoroughly and persistently followed up as recorded in bulletin 66 from that institution.

Sheep should now be shut in from the fields, whether the snow covers the ground or not. The dead frozen grass is poor sheep fodder. Better far a feed of good, bright, early cut hay with a ration of roots or ensilage to go with it. Farmers ought to learn that the reason they do not have fat sheep is that they are not properly cared for. There is too much go as you please in sheep husbandry.—Maine Farmer.

From the Bulletin of crops of Ontario, it is learned that the average yield in bushels per acre in that province for the year 1882 to 1890 has been as follows:

Fall wheat, 19.8; Spring wheat, 15.2; Barley, 25.8; Oats, 34.4; Rye, 16.2; Peas 20.3; Corn (in the ear) 64.5; Buckwheat 22.3; Beans, 20.5; Potatoes, 117.9; Mangel Wurzel, 42.7; Carrots, 347 Turnips, 391; Hay and clover, 1.41 tons.

A cable dispatch from London says: "Those engaged in the United States cattle trade are doing their best to aid the outcry against the admission of Canadian cattle. They declare the animals on the coast, which caused all the commotion, would not have been allowed to leave a United States port, and that the United States inspector would have refused to allow the Linda to carry the last heavy cargo of cattle she took from the St. Lawrence. The animal which caused the inspector to detain the balance of the cargo was, on examination, found to be suffering from a serious disease, but not a contagious one."

—A writer in the Turf, Field and Farm, states that Nelson was about the only trotter of national reputation at the Chicago Horse Show, and the Horseman of Chicago thus describes the horse and his surroundings while there: "The box where Nelson holds a daily and nightly levee at the horse show, is draped in national colors, as befits a king of the American trotting turf. He is a horse of useful, substantial, compact and just form, with a handsome head and neck; powerful, well laid shoulders, a cylindrical and shapely barrel, a strong back and smoothly rounded muscular quarters. His legs are marvellously clean consisting of the many fast miles he has gone of late, and he has good feet. His form is one of symmetry and power. He is a horse of sweet disposition and level head, virtues that can only be fully appreciated when you are thrown into contact with an equine crank. The kindly horse with Maine is really the star of the show, and many a delicate career and high laudation are being showered upon him nowadays." The horse and owner are back in the old quarters at Sunnyside, waiting for another season, when if no accident befalls them the record made by Maud S. will be wiped out.

Just why so many people suffer pain when a remedy of known and certain effect like Hagar's Yellow Oil may be had at every drug store, is not very clear. This peculiar pain soothing remedy is a prompt and pleasant cure for sore throat, croup, colds, rheumatism, lame back, etc. Price 25 cents.

Did you ever buy a horse and not have some minkings at his points till they were fully trottin? Not so with Ayer's Sarsaparilla; you may be sure of it at the start. It never disappoints those who give it a fair and persistent trial.

He—That man yonder was once wealthiest man in the Mormon Chdre She—"What broke him?" He—sudden change in fashions.

CHIGNECTO POST AND BORDERER

SACKVILLE, N. B. DEC. 18, 1890

We are offering the CHIGNECTO POST and BORDERER from the first of November till the end of 1891, for one dollar payable strictly in advance.

The Local Election.

The government supporters had a field day in Moncton on Wednesday last week. On that day, Hon. Mr. Blair was in the city, and with several of the district politicians, held court to see how matters stood.

The Nova Scotia Coal Trade.

The returns of the shipments of Nova Scotia coal to the St. Lawrence shows the pleasing increase of 25 per cent. over the business of previous years—a total increase of 121,796 tons over last year's sales.

Dr. Koch's Cure.

Never before, probably, in the history of modern medicine, has any discovery calculated to benefit humanity, excited such universal interest.

In the late issue of the Argosy a rather unjournalistic reference is made to the report of the football concert, which appeared in the Post.

The Americans are having no end of trouble with their Indians. The red men are going on the war path on account of the treatment they have received from the government.

An English writer has truly said that there is only one way of settling the dispute between Capital and Labor and that is to fight it out.

The Year's Harvest.

SECRETARY LUGRIN'S REPORT—CROPS BELOW THE AVERAGE.

Mr. Chas. Lugrin, Secretary for Agriculture for New Brunswick, has issued his November crop report.

THE WHEAT CROP.

The quantity of wheat raised in the province this year is estimated at 92.2 of a full crop, and the quality at 75.8 per cent. of prime quality.

THE OAT CROP.

The quantity of the oat crop is estimated at 66 per cent. of a full crop, and the quality at 73 per cent. of prime.

THE BUCKWHEAT CROP.

Buckwheat is estimated to have yielded 62 per cent. of a full crop, with quality estimated at 81.2 of prime.

CORN AND RYE.

The summer was unfavorable for corn, the returns averaging only a little over 60 per cent., with quality about the same.

THE BARLEY CROP.

Barley did very much better than this year, the average yield for the province being about 80 per cent. of a full crop, and the quality 80 per cent.

THE FRUIT CROP.

Apples are not an average crop, the returns show an average yield of 73 per cent. of a full crop, with quality 85 per cent.

THE POTATO CROP.

Potatoes are estimated to have yielded 77.4 of a full crop on a large average than usual. The quality is put at 82.2 per cent. of prime.

THE ROOT CROP.

Turnips are reported as yielding 80 per cent. of a full crop, with quality at 84 per cent.

WESTERNLAND COUNTY CROPS.

Table with 3 columns: Wheat, Quantity, Quality. Rows include Wheat, Oats, Corn, Rye, Potatoes, Turnips, Carrots, Apples, Plums.

WESTERNLAND COUNTY CROPS.

Table with 3 columns: Wheat, Quantity, Quality. Rows include Wheat, Oats, Barley, Corn, Broom-corn, Potatoes, Turnips, Carrots, Apples, Plums.

OBSERVATIONS ON THE YEAR'S CROPS.

The quality of all grains was greatly injured by their sprouting after being cut. Potatoes are excellent for table purposes, but perhaps not so good for stock.

A. Tait, Shediac.

The potato crop was considerably damaged by rust, causing many of the tubers to be rejected.

A. C. Raworth, Upper Cape.

The potato crop was satisfactory. The quality of the potatoes is excellent.

A. C. Raworth, Botsford.

Turnips, carrots and beets were a fair crop. Fruit is not much grown here.

W. W. Keith, Berry's Mills.

Carrots 100, quality 90. The hay crop was a good one and well saved.

Howard Freeman, Point de Bute.

Hay was about an average crop in quantity, but late hay on the marshes was not well got.

On Tuesday last the magazine on board the government steamer, New-land, on her way from Halifax to Briar Island, exploded, killing three men and injuring several others.

Maritime Matters.

The St. John Telegraph has been sold to a company for \$50,000.

Chetwynd, at Halifax, charged with forgery and defrauding the customs and McKay and Ross, the accused partners, have been committed for trial, and bailed.

W. B. Carvill, a prominent citizen of St. John, died last week, aged 31 years. He was a son of the late Geo. Carvill, and was a partner in the firm of Geo. Carvill and Sons.

Chas. A. Moore, druggist, of Digby, deliberately placed a revolver to his head, last Tuesday, and pulled the trigger. He had been drinking hard up to a few days before his death.

Hon. Mr. Laurier, Hon. Mr. Davies, and Hon. Mr. Gilmore addressed a Liberal audience in St. John on Monday last. Unrestricted reciprocity was the theme for the evening.

The schr. Moakwa was launched from Syre's ship yard, St. John, on Saturday last. She is 500 tons, and was built for Messrs Bennett Smith & Sons, Windsor, N. S., for plaster trade.

The Str. Stanley has been ordered from Ottawa to take out the vessels in Summerside Harbor which are ice-bound. Freight has accumulated to such an extent at that port that another steamer is badly wanted.

A seam of coal two and a half feet wide was discovered on the Nash-week river, not far from Fredericton. This is regarded as the most important coal find ever made in central New Brunswick.

Messrs C. M. Bostwick and Co., St. John, West Island merchants, have bought 70,000 acres of lumber land, the estate of Wm. J. Davidson, on the Salmon River, for \$100,000 and other considerations, and will go extensively into the lumber business.

During a violent snow storm on P. E. Island, a farmer named Higgins and his wife lost their way while driving from Charlottetown. Next morning when they were found, Mrs. Higgins was frozen so badly that she died soon after, and her husband is not expected to live.

The steamer Loanda, of the new line running from St. John and Halifax to Bermuda, Barbadoes, St. Thomas, Antigua, Martinique, Dominica, Trinidad, St. Kitts, St. Lucia and Guadeloupe, sailed on her pioneer trip from Halifax on Thursday with a large cargo of fish, potatoes, canned goods, butter, etc.

Marshall F. Gillow, a young man with several alibis and a woman not his wife, with whom he had been living, committed suicide at Halifax, N. S., last week. The woman took poison at the same time, but she will likely live. It has been discovered that Gillow had forged a relative's name for several amounts and fear of arrest prompted him to do the deed.

John Sivewright, Swedish Norwegian consul at Bathurst, N. B., calls on the provincial authorities to take steps to arrest the parties accused of the murder of a Swedish sailor named Williams, who was driven from his boarding house at Bellefleur in the night by a one ruffian, and it is alleged, foully murdered. The authorities say the whole story was gotten up to fool the consul.

The farmers in this vicinity say that dry rot has attacked their potatoes, says a Chatham paper. One farmer says he stored 100 bushels in his cellar, and hasn't 50 bushels of sound ones now. In most cases it is scarcely possible to discover the disease before cooking the potato. One farmer says his is so badly diseased that the hogs and cattle refuse to eat them.

The noon train from Pictou, Monday, was intercepted in its progress on the Pictou side of the bridge, which had been broken down. The head-light and smoke stack of the engine were carried away, and the train backed to Pictou for another engine. There was no afternoon train, owing to it being a doubt as to the propriety of crossing the bridge in so high a gale.

Passengers from Pictou came via the Landing in the evening.—Trades Journal.

The Maritime Commercial Travelers' association held its annual meeting at Halifax, Wednesday night. T. C. Allen, of Halifax, was elected president. The New Brunswick vice president was Mr. J. H. Jackson, of the Hochelago Mill, will be Gen. Supt. and the concern will go into operation on the 1st of January.

The strain put on street car horses every time the car is started from a state of rest is well known to be very severe, and to tell heavily upon the life of the animal.

The Moncton cotton factory is now run by the Dominion Cotton Mills Co., capital \$5,000,000, A. G. Cannon, president, and Mayor Grenier (of Montreal) V. P. The Co. has bought several grey cotton mills for \$3,500,000, a million less than their first cost. Mr. Cannon says the Hochelago Mill, will be Gen. Supt. and the concern will go into operation on the 1st of January.

Personal and Political.

Foreman Hatfield, a government supporter was elected to a Local House from Yarmouth last week.

It is said that King Kalakoa of the Hawaiian Islands is now on his way to Washington on a mission to sell out his kingdom to the United States.

The funeral of the late Dr. Henderson, past grand master of the grand lodge of Masons of Canada took place at Kingston, Ont. on the 10th.

Benjamin F. Shaw, creator of the idea of the seamless stocking and inventor of the loom to make it died at Lowell Mass., on Thursday, aged 68.

Joe Coburn, the prize fighter died in New York on Saturday evening last, of hasty consumption. It is surprising how many athletes die of consumption.

Rev. A. Pittman, of St. George's church, Toronto has created a sensation by advocating street cars on Sundays, Sunday amusements and defending the theatre.

The Irish envoys in New York have issued another manifesto defining their position and accentuating their opposition to Parnell. It is signed by all the envoys except Harrington.

The Senate resolution looking to the removal of Gen. Grant's remains from Riverside Park, New York, to Arlington, has been defeated in the House of Representatives.

Paradise, Conservative, has been elected in Napierville by 31 majority. This was a grip stronghold for thirty years. At the last election they had a majority of between 200 and 300.

The negotiations for a treaty of commerce between Austria, Hungary and Germany are making no progress, the conference in session at Vienna having thus far failed to reach a result.

St. Cecilia's Tupper called to Ottawa Saturday that two other vessels had been prohibited from carrying live cattle to England. The cargo of the Corea was suspected of pleuro-pneumonia.

Very Reverend Richard William Church, D. C. L., dean of St. Paul's London, died on Tuesday at Dover. The deceased was the author of many works on Spenser and Bacon, as well as an essay on Dante.

Through recent customs enactments, seeds coming into Canada will be subjected to duty.

French statesmen regard the present economical condition of the country as unusually favorable. The harvest of wheat was the largest for a decade, the exports and imports have increased and the savings banks have nearly \$600,000,000 on deposit.

The Pottsville Dispatch says that Oliver iron and steel works will be closed for an indefinite time. No explanation is given, and the excitement is great. The carrying will prove of great advantage to the firm, by enabling them to make better time in reaching a market for the material of which it is made as superior to wood.

Several well known railway men in the United States have been summoned to appear before the Federal grand jury in Chicago, for granting rebates to customers. Mr. Van Horn and Sir Joseph Hickson deny, most emphatically, that their companies were concerned in any thing of the kind, and express the wish that the guilty party should be found and brought to book for granting rebates.

According to the London Economist, a very high auction, it is estimated, has been a shrinkage of nearly \$300,000,000 in the market value of the principal British investments in South America since the outbreak of the war.

The above Furnace with Radiator is made wholly of heavy cast iron and CANNOT POSSIBLY CRACK BY EXPOSURE TO HEAT. Last for 20 Years Without Repairs. Fully Warrant every Furnace to give Complete Satisfaction. CHARLES FAWCETT. SACKVILLE FOUNDRY. Sackville, N. B., September 25th, 1890.

EVERYONE ACKNOWLEDGES NOW THAT TREMAINE'S DRUG STORE AMHERST, Is by far the Best Place in the Two Counties TO BUY DRUGS, PATENT MEDICINES or TOILET ARTICLES. They do not pretend to carry the Largest Stock, but they DO Carry The Freshest and Best And a FULL ASSORTMENT. You can always depend upon what you get there. It is at this store that Extra Attention is given to compounding Prescriptions, as they make a Specialty of such work.

Special Locals. A Man had a narrow escape from being run over by the train at Amherst, on Saturday. Rev. Mr. Talbot of Moncton has been formally inducted into the incumbency of St. George's Church. The Marine Examiners at St. John have granted master's certificates, coasting trade, to R. J. James, St. John and Frank M. Buck, Dochester. The late James Crossin, was one of the directors of the Cumberland Coal & R. R. Co. The flags were at half mast on the buildings on Saturday. The sch. T. W. McKay, of Parrboro and the Martin, collided at Partridge Island pier, Cumberland, Co. and both vessels were somewhat injured. The friends of the Rev. D. C. Lawson intend holding a donation at his residence, Westmorland Point, on Monday Evening, December 22nd. All are cordially invited. A woman named Sophie Smith, has been accused of a crime of the charge of being the mother of a child found on the marsh some weeks ago. She has been sent up for trial. Mr. W. J. Robinson, of Moncton, is now travelling in France for the benefit of his health. He is feeling much better, and writes to his friends interesting accounts of his journeyings. SCHOONER "GLADYS," Capt. E. Leggett, from New York for St. John with coal, arrived at Hopewell Cape on Sunday in a disabled condition. Both her fore and main masts were broken to splinters, and the vessel was exhausted, and vessel very badly laced up. The bark Etta Stewart, left Parrboro on Saturday, in charge of two consignees to St. John. They had not gone far when they were compelled to put back, owing to a heavy fog. The bark now lies with 9 feet of water in her. A SPINNING minter named Miller, was fined \$5.00 and costs for wilfully destroying the property of the company. He was a brake holder and after two horses, talking and sitting every shoe. Who can beat this? Postmortem. THE DEDICATION OF THE NEW BAPTIST CHURCH, in Sackville, is postponed to January 4th, 1891. Will all take notice and govern themselves accordingly. Baptist Services for Dec. 21.—Bethel 10.30, A. M.; Wood Point, 7 P. M. Wm. E. Hall. PERSONALS.—E. Woodworth, Editor and Proprietor of the Parrboro Leader, was in town yesterday. Says the Acadian Athenaeum F. H. Knapp, B. A. '89, who graduated in law at Ann Arbor University in the spring of '89, has since decided to enter the University. His friends in the East wish him every success. TO ADVERTISERS.—Owing to our desire to oblige advertisers who send their changes in late on Wednesday, we have been late with the early mails on several days. While it is the desire of the Post to accommodate all, yet in future no advertisement will be accepted later than 12 o'clock on the day previous to publication. Next Thursday being Christmas, the Post will be issued Wednesday afternoon. THE EPWORTH LEAGUE.—A Sackville branch of the Epworth League of Y. P. S. C. E. was organized recently with a membership of upwards of thirty. Rev. F. W. Harrison was elected Pastor, Prof. Andrews, Prast, Mrs. Wood, vice President, Miss Amelia Trueman Secy., Treas. and J. A. McDougall Corresponding Secretary. The regular night of meeting will be Thursday evening after prayer meeting one week and Sunday evening the next week in place of the regular service in the Methodist church. STRANGE DISAPPEARANCE.—On Tuesday the 9th inst., Joseph A. Bickerton mason, living near Ogden's Mills left his home with an axe, apparently to go to the woods. Since that date nothing has been seen of him. On the morning of that day he left his home remarking in a jovial manner that it would be the anniversary of his birth. He had on at the time he was last seen a new black striped, a new velvet helmet, a pair of refined brown pants and blue vest. He is a well complexioned, heavy dark mustache, no whiskers, and has a scar on the right cheek about 40. Any person knowing of his whereabouts will confer a favor by communicating at once with Mrs. J. A. Bickerton, Lower Sackville. MISSESSARY ANNIVERSARY.—The annual Sunday school anniversary was held in the Methodist church on Sunday evening last, when the following programme was given:—Mrs. A. Cole; recitation—Miss Ethel Smith; addresses—"Missions"—Prof. Brecken and Andrews; music by the Sunday school assisted by the choir; solo—"The Children's Home"—Mrs. Harrison; "The Children's Home"—Mrs. Wells and Miss Doull and Messrs Doull and Dobson. The programme was well carried out and while it would be invidious to criticize, special mention is due the solo by Mrs. Harrison and the quartette, which were excellently rendered. Next Sunday the choir will sing some new Christmas music. MR. ALLISON NOTES.—The examinations for the fall commenced on Tuesday, and all the students are consequently working full time for preparation. The many friends of Harry Sheffield, the popular B. A. of '89, will regret to learn that he was compelled to leave his studies at Edinburgh on account of delicate health. Tuesday he left his home in St. John for Colorado, in hopes the climate will prove beneficial to him. Prof. Andrews who went to Boston for the purpose of selecting chemical apparatus for the laboratory returned on Saturday last. He visited the School of Technology and Harvard University, and speaks highly of the courtesies extended him in both places. With the valuable selection he made in the way of instruments, the laboratory of Mr. Allison will be second to none in the Maritime Provinces. All the students are looking forward to the Grand Reception which will be held on Saturday evening next. The closing exercises of the institutions will be held in Lingley Hall on Monday evening next. The usual programme will be rendered. Nearly all the students will go home for the Christmas holidays. K. D. C. Worth million.

Local Matters. A MAN had a narrow escape from being run over by the train at Amherst, on Saturday. Rev. Mr. Talbot of Moncton has been formally inducted into the incumbency of St. George's Church. Round Town. OFFER SUPPER.—The Moulders' Union of Sackville intend holding an oyster supper at the Temperance House to-morrow evening. Several outside of the Union have received invitations. SERIOUS ACCIDENT.—On Tuesday Master Walter Lund, son of Mr. Chesley Lund was riding on a load of hay near Salem, when the team suddenly stopped and the tongue of a sled following the one he was riding on, struck him on the side of the face making an ugly flesh wound near the ear, which required several stitches. Dr. Trueman, dressed the injury. THE CHRISTMAS ANNOY.—The Argosy comes to us this month in the form of a specially, fine illustrated number. Besides unusually interesting reading matter there are photo-gravure engravings of all the professors and cuts of H. A. McKowen, M. P. P. and Mr. Speaker White. The cover is very attractive, and is by the Maritime Lithograph Co. The Argosy will take first rank among the college journals of the Dominion. SUPPER.—The Crown Prince arrived in Sackville yesterday with 150 bbls oil for M. Wood and Sons.—Schooner True recently purchased by Capt. Egan, has been laid up for repairs at Wood Point. This is the same vessel that was wrecked on the middle ground some time ago. —Schr. Richard Peterson, 142 tons, Capt. P. Koefe, cleared from Rockport with the following cargo: 10 bbls. corn meal, 10 bush. corn, 100 bbls. linseed and 300 bbls. "Acme" feed. THE Mt. Allison Fair. The fair held by the Alumni Society in the new conservatory of music, Mt. Allison on Thursday and Friday of last week, was one of the grandest affairs of the kind ever held in Sackville. The main floor had been very tastefully decorated with spruce and bunting for the occasion, and both were erected as which refreshments were on sale. During the progress of the fair, on Thursday evening, oysters were served. It is impossible to enumerate the many useful and artistically made articles which adorned the tables, but special mention should be made of the display of fine quality which accounts for the rapidity with which some of the articles did disappear. One of the main features of the fair, and which attracted no little attention, was the display of paintings, which were exhibited paintings by Miss Creagar, Miss Alcorn, and some of the students, and which spoke volumes for the artistic skill of the institution. THE CONCERT. On Thursday afternoon and Friday evening was not well attended, on account of the bad weather, but all lovers of classical music who attended were given a treat in the rendition of Mendelssohn's "Midsummer Night's Dream" by the musical faculty of Mt. Allison. It is impossible to do justice to the rendition of the above mentioned work, which was given under the able direction of Prof. Mack. The following were the performers:—Violin—Miss Joan Landers; piano—Miss M. Vroom, U. Cannon, C. B. Barre, O. Dobson, M. Duffy, F. Hardwick, L. Hearty, M. Hay, L. Hay, S. Hughes, M. Large, D. Lewis, M. Lugin, M. Kowalski, H. Mosher, H. Nicholson, A. O'Brien, H. Oliver, M. Pattison, M. Rigards, E. Smith, J. Smith, M. Smith, N. Thomas, E. Troy, N. Tweedie, A. White, E. Woods. Nova Scotia Coal Shipments. UP THE ST. LAWRENCE DURING 1890 SHOW AN INCREASE OF 123,000 TONS OVER 1889. The Trades Journal publishes a statement of the coal shipments from Nova Scotia to points in Quebec during the past season, compared with 1889, as follows:—

Table with 2 columns: Coal Type, 1889, 1890. Total increase from N.S. mines, 121,796.

GET A FLAG. The movement for hoisting the Canadian flag on the schoolhouses on anniversary of noted events in our history is spreading rapidly throughout the Dominion and the hearty approval of all patriotic citizens. Already has done its share in bringing this movement, by awarding a handsome flag to one school in each county of Ontario, and the number of requisitions from all parts of the Dominion as to how flags can be obtained by other schools is increasing. THE DAILY EMPIRE has determined the publishers of THE EMPIRE to offer a handsome CANADIAN FLAG to every school in the Dominion which has a subscription to the DAILY EMPIRE for one year. The WEEKLY EMPIRE has recently been incorporated into one paper, and now, without doubt, the best weekly newspaper in Canada, with the reputation of THE DAILY EMPIRE as the leading morning journal of the Dominion, and go in for a flag for your school. Send for sample copies and special clubbing list, and go in for a flag for your school. ADDRESS THE EMPIRE, Toronto.
