PRACTICAL USE OF PUBLIC LIBRARY

Interesting Address Is Given Before Journalists by Fred Landon.

Libraries are the accumulated wisdom of the past, declared Fred Landon, head of the public library, yesterday afternoon in the first of the special lectures arranged by Dean Sherwood Fox of the Western University, in connection with the course on journalism which is being conducted at the Y. M. C. A. for three days a week for the next ten weeks.

Mr. Landon's lecture was of intense interest and delivered in such a manner as to give to his hearers a most valuable store of information on the practical use of a public library and of the great advances in the organization of modern libraries, so that they may render the greatest possible service to the busy man or woman who has occasion to seek information on obscure subjects in a brief space.

Following the list of various methods of classification, the leading public libraries were found to be the Dewey system the best and most satisfactory.

Mr. Landon before proceeding to explain the system, the numbering of the system devised by Melville Dewey is classified as follows: 1. General works, encyclopedias, dictionaries and such books.

In each of the separate classes, the first ten numbers were again divided by the addition of decimal figures.

Fiction, which stands by itself as a separate department, is classified by length, but in a very clear and instructive manner, the use of the card index catalogue system, whereby the reader has opportunity to find a needed book is provided for the reader, all books being classified under the name of the author, his title and its subject.

A very interesting part of the lecture was Mr. Landon's description of how to decide whether this or that book is the one that will quickest give the information desired by the reader. In this regard he explained the varying value of titles, the date of publication, the table of contents, the appendix, the illustrations, etc.

He also explained the use and value of the Book Review Digest, the Cumulative Book Index and the Readers' Guide. The three big encyclopedias, the Encyclopaedia Britannica, the Americana and the Nelson Looser, were reviewed by the speaker, and their special features briefly described. The general reference of periodicals as a method for keeping in close touch with the everyday development of the world, the history, etc., and of government reports were also reviewed by Mr. Landon.

WAITRESS OBJECTS TO BEING CALLED "FAT LITTLE HOG"

Magistrate, After Hearing the Evidence of Both Sides, Dismisses Case.

For calling her a "fat little hog," Peter Downey charged Peter Downey in police court this morning with using grossly insulting language toward her. The case was dismissed.

Magistrate A. H. Graydon said that this did not apply to the waitress in the employ of Downey and was to be paid at the rate of \$5.00 per week, but that she only drew \$1.75 for three days' work. One day she left a small butter plate in a cup and it stuck there so that it had to be broken and at that time Downey had said to her, "You fat little hog."

Downey said he did not call her that name, but admitted that he said that if she worked at his place much longer she would be as fat as a little pig.

Some timely and interesting comments on the proposed pay-as-you-go policy of civic finance, which in the belief of several of the adherents and others in civic circles, would be a good plan to be adopted in London, are contained in a report received by the local advisory committee of the Citizens' Research League from the Institute Headquarters in Toronto.

The Institute, being affiliated with fifty or more similar institutes in the United States, as well as several cities in Canada, is a body of civic-minded citizens who are interested in the improvement of civic conditions. SEWER CASES WILL OCCUPY ATTENTION OF REVISION COURT

Knollwood Residents Object to Paying Extra Cost of Winter Work.

Several appeals of more than usual interest will come before the court of revision at its first meeting of the year this afternoon. One of the most important of these deals with the Knollwood sewer system. Residents of that district claimed that the charges for the sewer were excessive, because it was laid during the winter, the extra cost being as high as \$100.00. On the other hand, it is claimed by the city engineering department that the people asked that the work be done immediately and were willing to pay the extra cost.

Another case deals with the charges for the laying of a sewer. The city engineering department contends there was a sewer on the street before, but only a drain.

There are numerous smaller cases which will give the court a long session.

WELL AND GET THE BEST. With the announcement that the Board of Education will advertise for a man to fill the position of its late secretary, much discussion has arisen as to the adequacy of the salary paid to this officer of the board in the past.

That Mr. McElheran's salary never, at its highest figure, attained a figure much above that of skilled workmen, despite the great responsibilities attached to his post, is probably due mainly to the fact that he had grown up with the job.

In addition to the purely secretarial duties of the position Mr. McElheran was purchasing agent for the board; was responsible for the obtaining and distribution of school supplies. He was practically the administrative head. These were the purely official phases of his work, but beyond and above all this was the great fund of experience in educational administrative matters which he had gathered during his more than a quarter of a century of service, experience which was always unstintingly at the service of the board or any individual trustee.

That to secure a man capable of filling the position adequately the board must pay a much higher salary than heretofore is recognized by most of the trustees. Some, however, are of the opinion that a matter of \$100 or \$200 more will secure the man they want, but the majority favor placing the salary at near \$1,000 more on the principle that if you want value you must pay for it.

Should the suggestion of some of the trustees that the secretary be also treasurer, a position at present held by City Treasurer Bell, be carried out, the responsibilities of the position, already very heavy, would be greatly increased, and the salary which would attract a man capable of filling the post would have to be correspondingly large. Altogether, the situation would appear to be one which the board must, in the interests of efficiency of service and the safeguarding of public interests, face in no parsimonious spirit.

HOW LONG WILL MEAT STOCKS LAST? If everybody in Canada eats the accustomed amount of meat each day the present supply in cold storage, without replenishment, will last just three and a half weeks.

The Internal Trade Division of the Bureau of Statistics, Ottawa, reports stocks in February totalling \$23,000,000 pounds. As the whole nation is estimated to consume \$23,000,000 pounds a week, it can be seen that the stocks in cold storage and in process of cure, if all available, would last less than a month.

is a somewhat narrow margin between supply and daily requirements, though, of course, it is not. It brings to the attention of even the city dweller

the necessity for a steady, all-the-year-round stream of meat animals from Canadian farms to the packing plants for their proper preparation for market. This steadiness insures the foods being carried forward to the consumer without interruption, for there are two compelling reasons why unduly large stores of meats may not be held long. The first is that storage space for bulky carcasses of meat is strictly limited, and the second is that, even under the best known refrigeration, perishable fresh meats, when held, quickly deteriorate and lose sale value to the holder.

An examination of the official cold storage returns in the Dominion for the last seven months shows that meat holdings over this period have only averaged two and a quarter weeks' supply for the whole population. The figures include all meats being prepared and held for the export trade. They follow in an easily understandable table:

Table with columns: Month, Pork, Beef, Mutton, Lamb. Rows: August, September, October, November, December, January, February.

To each and every one of the lights of home take their distinct and beautiful meanings, whether their loveliness has been dimmed by years that have carried away golden dreams and left but memories, or made more meaningful and sacred with the coming of every twilight or lit with all the wonder and brilliance of dreams of the yet-to-be.

FISHING THE THAMES. Dear Sir—Having been informed that the fishermen have applied for net seine licenses for use on the River Thames between Chatham and Lake St. Clair for the season of 1921, I thought it advisable to refer to a few matters in connection with same.

The first Canadian contingent left Canada during the South African war on October 29, 1915, fifteen days after war was declared.

Who named Cape Desolation in Greenland? Name six colleges under the control of the Roman Catholic Church? How many good-sized lakes has British Columbia? Which is the largest Canadian river emptying into the Pacific Ocean? How many government buildings has Ottawa?

How does Canada rank among Britain's overseas dominions? What is Canada's public debt? How many universities has Canada? What are the provincial districts of the Northwest Territories? Where was peace signed at the end of the South African war?

EVERYTHING. A LIBRARIAN'S LAMENT. [New York Tribune.] She wore the traditional tortoise-shell cambré windshields. And she had the American's blithe assurance as she stepped up to the library window.

BEAUTY—THE VANISHER. [Edith M. Thomas.] She laid on me a certain homeliness. Not theirs who up and down the world may roam.

MISTAKEN IDENTITY. [Western U. Gazette.] "Did you see Bliss Carmen when he was in town last week?" "No, but I saw him pitch a bird in a game against Hamilton at Tecumseh Park last summer."

L'IMMORTELLE. [Karamanoh.] It's for spring you know I'm longing, And her kisses of dusky blue, For her heart of earth stirring With the old, old joy that's new.

LET'S. [Alfred Arnold.] Let's work and play, Let's live our day, Nor brood of cares or frets, Let's sing our song, And push along, Nor mind the weather: Let's!

COULDN'T BE HAD. [New York Tribune.] A man looking early was brought into a suburban police station just outside of Philadelphia and a petty charge was put upon the blotter. He pleaded innocence.

The coming Referendum

Vote and Vote "Yes!" on April 18

THE Ontario Temperance Act as a war-time measure was an unqualified success. On October 25, 1919, the people of Ontario voted by an overwhelming majority in favor of the permanent continuance of the Ontario Temperance Act, prohibiting the sale of intoxicating beverages.

The "Bootlegger" Must Go

On December 31, 1919, came the repeal of the Federal Order-in-Council—which was also a war-time measure—prohibiting importation, manufacture and export of intoxicating beverages. Thus it became possible for individuals in prohibition provinces to import liquors for consumption in the home; thus the "bootlegger" is able to offer the same for sale contrary to law, and thus the expressed will of the people in this province is being defeated.

Importation Must Cease

Everything that applied in the last vote against the sale of intoxicating beverages within this province applies equally to the Use of them, and their importation for beverage purposes should also be prohibited. Hence arose necessity for further legislation and another Referendum.

Shall the Importation and the bringing of intoxicating Liquors into the Province be Prohibited? YES! Ontario Referendum Committee

Sold by all London druggists. In Sarnia, by Ferguson Bros.; in Lucknow, by G. Armstrong; in Kincardine, by F. Van der Loo; in London, by J. J. Van der Loo; in Peterborough, by J. J. Van der Loo; in Toronto, by J. J. Van der Loo.

Presented a mystery to the local authorities. The boxes were those of a man about five feet seven inches tall. There was a decayed suit of clothes on a skeleton, a Panama hat, brown shoes and gold rimmed glasses. Nearby was a cane and a small empty bottle. The label of the bottle bore the name of a drug store in Providence, R.I. In the suit were four gold teeth. An empty wallet was in the clothing, and also a sandy haired gold watch.

Medical Examiner Gray said the man probably died last summer, but could not determine the cause of death.

FINDING SKELETON PUZZLES AUTHORITIES

STONINGTON, Conn., March 2.—The finding of a skeleton yesterday near the Lord's Point bridge in this town...

Are You Human?

A little baby. A little child. Don't they appeal to you? Doesn't your heart yearn to pick them up, to cuddle them close to you, to shield them from all harm? sure it does else you're not human. Being human you love them. Their very helplessness makes you reach out in all your strength to aid them. In health there's no flower so beautiful. In illness there's no night so black.

Save them then. Use every precaution. Take no chance. When sickness comes, as sickness will, remember it's just a baby, just a child and if the Physician isn't at hand don't try some remedy that you may have around the house for your own use.

Fletcher's Castoria was made especially for babies' ills and you can use it with perfect safety as any doctor will tell you. Keep it in the house.

Children Cry For Fletcher's CASTORIA

A Word About Truth.
"Great is Truth, and mighty above all things." So says the Old Testament, yet it is equally true to-day. Truth shows no favors, fears no enemies.

From the inception of Fletcher's Castoria, Truth has been the watchword, and to the conscientious adherence to this motto in the preparation of Fletcher's Castoria as well as in its advertising is due the secret of its popular demand.

All imitations, all substitutes, all just-as-good preparations lack the element of Truth, lack the righteousness of being, lack all semblance even in the words of those who would deceive.

And you! Mothers, mothers with the fate of the World in your hands, can you be deceived? Certainly not.

Fletcher's Castoria is prepared for Infants and Children. It is distinctly a remedy for the little-ones. The BABY'S need for a medicine to take the place of Castor Oil, Paregoric and Soothing Syrup was the sole thought that led to its discovery. Never try to correct BABY'S troubles with a medicine that you would use for yourself.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

GENUINE CASTORIA ALWAYS Bears the Signature of

Chas. H. Fletcher

Ward off pains and stiffness

After exposure
AFTER being bent at your feet, lifting heavy weights or "sloshing" around in the wet on a rainy day, it's a good thing to have a bottle of Sloan's Liniment handy at home or in the shop.

Apply it freely, without rubbing, to the strained muscle, rheumatic joint or aching back, and quickly comes grateful warmth and relief.

For 39 years, Sloan's, the World's Liniment, has been the enemy of rheumatic pains, neuralgia, lumbago and the hosts of "external" aches and pains that lie in wait for the person exposed to the weather or subject to heavy and continuous work.

All druggists have it.

GOV'T TO CARE FOR FEEBLE-MINDED. TORONTO, March 2.—Premier Drury today assured a large deputation that the government would go as far as possible towards dealing with the feeble-minded problem. Mr. Drury said that the government was ready to provide institutional accommodations for patients whom the doctors see fit to send. We have the present time accommodation for many more patients, believe we have accommodation for 1,000 more than we have. He pointed out that Ontario is available for more and they had another institution to set aside for the purpose.

FERGUSON CLASHES WITH RANEY IN DISCUSSING TIMBER PROBE. Attorney-General Says Peter White, Conservative Party Counsel At Timber Inquiry, Was Dismissed For "Insolence and Truculence" in Letters to the Department—Ferguson Terms the Probe a "Persecution" and a "Public Scandal."

[Special To The Advertiser.] TORONTO, March 2.—Pressing his motion for a return of all correspondence relating to the appointment and dismissal of Peter White, K.C., as counsel for the Conservative party at the timber probe, Hon. G. H. Ferguson, Conservative leader, revived the whole timber controversy on the floor of the Ontario Legislature yesterday. Liberals in the House were able to attack during the afternoon session the heated controversy between Government and Conservative forces. They denoted by their vigorous applause, however, entire sympathy with the Government's effort to retrieve whatever losses in timber revenue the province may have sustained under the Conservative regime. Peter White, K.C., according to Attorney-General Raney, was dismissed as Conservative party counsel at the timber probe because of his insolence and truculence in letters to the prime minister. Whatever the merits of Mr. White's argument, it was not his insolence and truculence in letters to the prime minister that caused his dismissal, he said. He said that Glyn Oester, K.C., counsel for the Shelvin-Clark Company, was guilty of the same "insolence and truculence" when he showed at the Riddell-Latchford commission to bring forward the defence of his clients.

ASKS FOR CORRESPONDENCE. TORONTO, March 2.—Clashes between Hon. G. H. Ferguson, Conservative leader, and Hon. W. E. Raney, attorney-general, continued at noon's session of the Ontario Legislature. The Conservative leader resumed the debate on the motion of Charles McCrea, Sudbury, asking for a return of correspondence regarding payment of counsel fees to Peter White, K.C., who acted as counsel for the Conservative party for some time at the timber inquiry being carried on by the royal commission composed of Justice Riddell and Litchford. Hon. Mr. Ferguson cited precedents for the payment by the government of all counsel fees in such cases, and asserted that Mr. White had done excellent work in bringing out information valuable to the commission. This has been the most outrageously unfair commission that has ever conducted an inquiry," Mr. Ferguson declared. As to the attorney-general's treatment of Peter White, Mr. Ferguson said: "The attorney-general says, 'You are being paid by the government. I tell you or get off the job.' The only thing left for Mr. White to do was to resign, which he did. Mr. Ferguson added, Mr. Ferguson found fault because R. T. Harding, his former counsel in the timber inquiry, had not asked questions bearing on the administration of the lands and forests under the Liberal regime.

Premier E. C. Drury asked: "Would it not have been possible during the fifteen years your party was in power to have conducted all the necessary investigation?" The premier added that he marvelled at the way Mr. Ferguson was running the House. Hon. Mr. Ferguson replied that "some people are marveling at the way the premier is not conducting the affairs of the House." Mr. Ferguson, referring to the timber commission, said it was a public scandal that the attorney-general should have appointed a member of a former government of Ontario to investigate the affairs of a succeeding government. The attorney-general stated that it was a wide open inquiry, and that there was not a word in the order-in-council limiting the inquiry to the Conservative regime. He said he had seen the evidence taken by the timber commission. Mr. Raney said he had not seen on partisan work reported by the commission. Speaking of a letter written to him by Peter White, K.C., referring to a convention held in Toronto last December, Mr. Raney characterized the letter as "insolence and truculence." He said the government would not allow any man in its pay to talk in that way. Mr. J. C. Tolmie, Windsor, asked: "What are Mr. White's duties?" The attorney-general replied: "As much as Mr. Harding's; to bring out the facts."

The men pleaded guilty, but questioned the amount of liquor they were alleged to have taken from Landa's house. Landa today told the court he had all the doors of his house locked on the night of the theft, and that the men forced entry at the point of a gun.

WAS OLD ACQUAINTANCE. TORONTO, March 2.—The death of an old acquaintance with Hon. Peter Smith, provincial treasurer, was the "farm," Andrew H. Peppatt told the Legislature public accounts committee today. He was \$80 for an eight-day job, including travelling expenses, in connection with the redemption of Ontario provincial securities in England. Mr. Peppatt went to England and arranged with Lloyd's for a loan of \$50,000. It cost the country \$4,000 for Mr. Peppatt's services and expenses, and this was the item which the committee was investigating. Mr. Peppatt admitted that the Bank of Montreal might have looked after this business just as well. The provincial treasurer,

MANITOBA URGES LIFTING EMBARGO. The Legislature Unanimously Backs Doherty—Fear For Cattle Trade. WINNIPEG, Man., March 2.—Renouard of the British embargo on Canadian cattle was unanimously urged by the Legislature at this afternoon's session on the grounds that there is no disease in Canadian cattle which justifies the continuance of the ban, and that the uncertainty as to future markets for live stock in the Dominion is having a paralyzing effect on the cattle raising industry of the west. Mr. Doherty, federal minister of agriculture, will be notified of the decision, and the minister of agriculture for Ontario, Hon. Manning Doherty, who is leaving for England to make representations to the authorities, will be informed that he has the backing of Manitoba.

HARDING'S ACCOUNT FOR \$50,000 COMES BEFORE COMMITTEE. TORONTO, March 2.—R. T. Harding, late counsel for the timber commission was today asked at the public accounts committee of the Legislature to explain the \$50,000 account which he had in connection with the famous timber investigation. He explained that he was formerly partner of H. H. Dewar, K.C., which partnership was dissolved in October, 1918. He formerly resided at Stratford, Ont., and was for 21 years a friend of the present provincial treasurer, Hon. Peter Smith. Mr. Harding declared that his appointment as counsel to the timber commission was a complete surprise. Attorney-General Raney was responsible for his appointment. Hon. Ferguson said that it was essential to know with whom witness had discussed this matter before his appointment. He said that in December, 1919, he had a conference with the attorney-general, the Shelvin-Clark Company affairs, but that was prior to the appointment of the Riddell-Latchford commission. Mr. Harding said he had received the appointment of the attorney-general, Mr. Harding said he had to engage accountants to assist him. He made no arrangements with the Government, but the accountants assisted him. He made no arrangements with the Government, but the accountants assisted him.
