

CITY OF OTTAWA ONCE MORE FIRE-SWEPT; MANY FAMILIES ARE RENDERED HOMELESS

The Fire Fiend Made a Clean Sweep of the Rochester-ville Section, 175 Buildings Being Destroyed.

The Firemen Fought Flames for Six Hours.

ENGINES SENT FROM MONTREAL

An Area of 100 Acres Burned—Loss Estimated at \$400,000—May Be Work of Firebug.

Ottawa, May 11.—On April 26, 1900, Ottawa and Hull were visited by a fire which destroyed \$10,000,000 of property.

Saturday fire swept the Rochester-ville section of the city, which was also swept clean in 1900.

The first started at 3:30, and was not under control until 9:30. Roughly estimated, 175 buildings were burned, and as many families rendered homeless.

Ten million feet of lumber were burned. Fortunately there were no casualties.

The fire burned unhampered for some time, owing to the breakdown at the city pump house, which took 40 minutes to repair, and as there was a high wind the houses were licked up one after the other.

The fire started in the lumber yards. It was another big loss to credit to the product of Mr. Booth's mills, and the result is likely to be that lumber piling within the city limits will be forbidden in the future.

There has not been an inch of rain in Ottawa this spring, and everything was dry as tinder, which, fanned by the breeze, greatly facilitated the terrific sweep of the flames.

There are rumors of incendiarism, but whether the crime can be brought home to the supposed party or not remains to be seen. A man named White was arrested shortly after the fire broke out on a charge of drunkenness, but the police seem to think he may know something about the origin of the blaze.

He was seen at a fire which destroyed a big hay shed near the C. P. R. station at noon, and was later seen near the place where the fire broke out in the afternoon. He is a ticket-of-leave man, having been sentenced to ten years about eight years ago for incendiarism in the Chaudiere. He is alleged to have made threats against Mr. Booth.

It is not known that any one saw him start the fire, but the police had him under surveillance for months as a probable fire bug, and he is said to have sent several false alarms from the lumber district during the year.

The fire started right in the heart of the lumber yard, and it seems impossible that it was anything but incendiarism.

The blaze soon worked its way over to Carling avenue, and fanned by the north wind, swept up street after street. That area, having been swept clean in 1900, is built up very closely, so that 175 would be about the right number of buildings destroyed.

The houses were frame and brick veneered, very few expensive, all being the homes of mechanics and laborers. It is understood that nearly all were insured, the lesson of the value of insurance having been well taught three years ago.

Those burned out were victims of the big Hull-Ottawa fire. The fire covered an area of 75 to 100 acres. There were no churches or factories in the destroyed area.

For a time it looked as if the whole upper section of the city would go.

becoming a practically than in Gladstone's fiercest days. Home rule by any other name will smell just as sweet in Ireland, and Ireland will live within a decade if Dunraven lives.

Within a decade you will see him sitting in Dublin as premier of an Irish parliament. All the forces and influences of the British Government are working to prevent the alliance between Ireland and England, and if an Irish parliament in Dublin is necessary it will be conceded."

While the Tory press is asserting there is no connection between the boon of Irish tenants to the ownership of their farms and ultimate home rule, the possibility of the latter was carefully considered by the Government before it accepted the terms of Wyndham's bill. Home rule for Ireland is never an afterthought to any Tory member of the Government who cares to admit to political reasons.

THE MONKS FIGHT THE FIRE.

When the fire crossed Division street on the east, people commenced to move from houses half a mile distant, and indeed all that saved Upper Town was the high bluff which skirts the foot of Division and Albert streets.

This saved bluff stopped the progress of the fire three years ago.

Not until 9:30 was there any assurance that the Chaudiere flats would be saved. Across Wellington street, the northern terminus of the ferry, were piles of lumber surrounding the C. P. R. depot, and leading down to Booth's mills and other industries and Chaudiere Falls.

Fortunately there were no casualties, but several persons seriously ill had to be hurriedly removed, and one, an Italian boy, died shortly after.

A pathetic touch was given the scene by the removal of two or three dead bodies, one of which was that of Hon. David Mills, the family residence being only a block removed from the eastern limits of the fire. At 6 o'clock the militia were called out, and did splendid work as a bucket brigade in extinguishing sparks and incipient fires on lumber piles, and the roofs of houses.

As it was quite evident that the city was in for a bad searching, Mayor Cook wired to Montreal for help, and a detachment of the brigade with two engines arrived about 9:45 o'clock.

They were welcomed as a relief, for the tired Ottawa brigade had been on duty since 12 o'clock, as they had hardly got back from fighting the fire near the C. P. R. station when the alarm for the big fire sounded. The first fire did about \$5,000 damage.

The city churches were deserted to-night, the people being out watching the fire.

As near as can be estimated the results of the fire were 175 buildings and 10,000,000 feet of lumber burned, the total loss being in the neighborhood of \$400,000, with considerable insurance.

Later—Chief Powell says that the police suspect White of starting the fire in the hay sheds, but that he did not start the big fire, as he was under surveillance by a detective all forenoon. He was sentenced Jan. 10, 1897, to ten years for incendiarism, and was released on Oct. 17, 1901, on ticket-of-leave.

AN UNFORTUNATE DISTRICT.

The area traversed was almost precisely that which suffered in 1900, although the direction was the opposite of what it was before. In 1900 the fire started in Hull and crossed the river to Ottawa, shearing its way through the doomed district in a southwesterly direction. Yesterday the fire started in the southwestern corner and spread in the wings of a southwesterly wind almost to the Union station of the Canadian Pacific Railway.

The progress of the flames was eventually checked by the pulling down of a few houses at and near the corner of Margaret and Preston streets. It is freely asserted that had this plan not been adopted earlier in the struggle a considerable area might have been saved.

As it was, there were no explosives available for the work, so that the houses which it was determined to clear out of the way had to be partially destroyed, and the debris hauled down. More than one untoward circumstance contributed to the dimensions of the disaster, the chief of them being a fire in the water main, which it required forty minutes to repair. Even after the temporary patching up had been effected the streams from the branches were so miserably weak that they could not be relied upon to reach the upper portion of two-story buildings. They lacked the tearing force which sponges out flame even after they have taken firm hold of a wooden building.

THE MONKS FIGHT THE FIRE.

His progress in the east was stayed, save for a few wooden houses becoming a practically than in Gladstone's fiercest days. Home rule by any other name will smell just as sweet in Ireland, and Ireland will live within a decade if Dunraven lives.

Within a decade you will see him sitting in Dublin as premier of an Irish parliament. All the forces and influences of the British Government are working to prevent the alliance between Ireland and England, and if an Irish parliament in Dublin is necessary it will be conceded."

HOME AGAIN FROM FRANK

Mr. and Mrs. E. W. Cameron had a Narrow Escape From Landslide.

Brantford, May 9.—Mr. and Mrs. E. W. Cameron have returned to Brantford from Frank, N. W. T., the scene of the recent terrible disaster. Mr. Cameron attributes the cause of the disturbance to a terrific landslide. His home narrowly escaped being buried in the great mass of rock which swept down upon the houses all around his own. When the shock came Mr. Cameron, who was in bed, quickly dressed and rushed out into the darkness, only to find his neighbors buried under a solid mass of earth and rock 15 feet in depth. The place is now entirely deserted.

It will be with regret that a wide circle of friends will learn of the demise of Mrs. Higinbotham at Walker. For many years the deceased resided in this city and was a faithful member of Brant Avenue Church. A husband and one daughter, Mrs. E. W. Cameron, survive her. Mrs. Cameron had just returned from Frank, N. W. T., and was only in time to bid farewell as her mother passed away.

MR. ALEX. SMITH RESIGNS

Liberals' Chief Organizer to Practice Law Again.

Toronto, May 11.—After ten years as chief organizer for the Dominion Liberal party, during which time five successful general campaigns were fought, Mr. Alexander Smith, B. A., is about to retire and take up the practice of the law at Ottawa. The five campaigns were the Ontario election of 1894; Dominion election, 1896; Ontario election, 1898; Dominion election, 1900; Ontario election, 1902. Mr. Smith is of Highland Scotch parentage, and was born in Bruce County. From the Walkerton and Collingwood High Schools he went to the University of Toronto, graduating in 1888. When working on Toronto journals he studied law, and was called to the bar in 1893. The same year he became Liberal organizer, and in that onerous and responsible position has continued until now. He will begin the practice of law at Ottawa immediately, going to the capital this week, and by occasional visits to Toronto will conduct the office work at the headquarters of the Ontario Liberal Association until his successor is appointed.

ACCEPTS BONUSES TO BUILD SHIPS

Dominion Steel Company to Establish Plant.

City of Sydney Offered \$250,000 and Provincial Government \$100,000.

Montreal, May 11.—Definite arrangements were concluded Saturday between the Dominion Iron and Steel Company and the Government of Nova Scotia, the City of Sydney and the Dominion Government, whereby the Steel Company will accept from the two first-named the bonuses offered for the establishment of a shipbuilding plant, and from the last-named the bonus offered for the construction of a dry-dock.

For some time Mr. James Ross, president of the Steel Company, and several of the directors have been considering the feasibility of carrying the manufacture of steel to its most finished product, and while it is not intended that any provision for the necessary capital should be made at the present time, it was decided that it would be in the interests of the company to take advantage of the business that was being offered.

During the past few months the Government of Nova Scotia and the City of Sydney have been receiving offers from various English companies with regard to the bonuses, but Premier Murray, of Nova Scotia, and the City of Sydney were desirous of making an arrangement with the Dominion Iron and Steel Company.

By the present arrangement the steel company will receive \$250,000 from the City of Sydney and \$100,000 from the Government of Nova Scotia for the erection of the shipbuilding plant. Towards the construction of a dry-dock there is an offer of \$1,000,000 from the Dominion Government. The announcement was made yesterday by Hon. Mr. Murray and confirmed by a prominent director of the steel company, who became publicly important, as it is the first definite statement made by the promoters of the Dominion Iron and Steel Company. As soon as the Dominion Government has approved the plan, they will carry out plans that will give Canada a shipbuilding plant established and conducted entirely by a Canadian, where he will invest the entire capital of which is now practically controlled by Canadians.

INFRACOINS OF ALLEN LAW.

Seattle, May 11.—K. Krausenzon, a special agent of the Treasury Department, has arrived here on route to Alaska, where he will investigate the alleged numerous infractions of the alien law.

HEALY FOR THE BAR.

London, May 11.—The Times this morning announces that Timothy M. Healy, National member of Parliament for the northern division of Louth, is about to be called to the English bar.

VENEZUELA'S NEW MINISTER.

Madrid, May 11.—The Herald says: Madrid, of Venezuela, has left Barcelona for London, and will be accompanied by a special agent of the Treasury Department, who will investigate the alleged numerous infractions of the alien law.

WEATHER BULLETIN

Monday, May 11.
Sun rises: 4:53 a.m. Moon rises: 7:43 a.m.
Sun sets: 7:20 p.m. Moon sets: 5:24 p.m.

TOMORROW: FINE AND WARM.

The weather today has been fine in nearly all parts of the Dominion. In Ontario and Quebec the temperature has been between 70° and 80°, and in the other provinces about 80°. No pronounced changes are expected for tomorrow. Minimum and maximum temperatures: Dawson, 24-46; Victoria, 45-66; Kamloops, 46-63; Winnipeg, 24-46; Port Arthur, 42-66; Parry Sound, 48-78; Toronto, 44-72; Ottawa, 44-78; Montreal, 44-72; Quebec, 42-78; Halifax, 34-62.

FORECASTS.

Today—Light to moderate east and south winds; fair.
Tuesday—Moderate easterly winds; fine and warm.
Temperatures.
Stations. S. a. m. Min. Weather.
Calgary 36 20 Clear
Edmonton 36 20 Clear
Winnipeg 36 20 Clear
Parry Sound 42 48 Fair
Toronto 46 46 Fair
Ottawa 46 46 Fair
Montreal 46 46 Fair
Quebec 46 46 Fair
Rath Point 46 46 Cloudy

RAIN IS FALLING OVER THE LAKE SUPERIOR REGION.

Rain is falling over the Lake Superior region, but elsewhere in Canada the weather continues fine. Pressure movements continue to be very sluggish. Local temperatures: Saturday—Highest, 75°; lowest, 41°.

HE IGNORED SIGNALS

Engineer Meets Death Through Carelessness.

Bound Brook, N. J., May 11.—By the derailling of a freight train on the Philadelphia and Reading Railway a quartet of white ears of this place today, Engineer Shirley, of Philadelphia, was instantly killed. With the exception of the fireman, who was cut and bruised, the other trainmen escaped injury. The train was running on a siding, and the danger signals were set against the engineer. For some unknown reason he passed them and ran into a derailling switch.

MR. ALEX. SMITH RESIGNS

Liberals' Chief Organizer to Practice Law Again.

Toronto, May 11.—After ten years as chief organizer for the Dominion Liberal party, during which time five successful general campaigns were fought, Mr. Alexander Smith, B. A., is about to retire and take up the practice of the law at Ottawa. The five campaigns were the Ontario election of 1894; Dominion election, 1896; Ontario election, 1898; Dominion election, 1900; Ontario election, 1902. Mr. Smith is of Highland Scotch parentage, and was born in Bruce County. From the Walkerton and Collingwood High Schools he went to the University of Toronto, graduating in 1888. When working on Toronto journals he studied law, and was called to the bar in 1893. The same year he became Liberal organizer, and in that onerous and responsible position has continued until now. He will begin the practice of law at Ottawa immediately, going to the capital this week, and by occasional visits to Toronto will conduct the office work at the headquarters of the Ontario Liberal Association until his successor is appointed.

MONTREAL STRIKE VIRTUALLY ENDED

New Proposals Which Are Sure To Be Accepted.

MAY WEAR UNION BUTTONS

Labor Bureau to Be Abolished—Leaders Must Not Interfere With the Men.

Montreal, May 11.—It is practically certain that an agreement will be reached before many hours by which the great dock strike will be settled. Since Friday night's meeting negotiations have continued, and several important conferences were held yesterday. It was pointed out to the shippers that if they were willing to waive the clause prohibiting the wearing of union buttons and agree to abolish the labor bureau, the greatest obstacles to a settlement would be removed. Negotiations were continued until a late hour last night, and it was afterwards learned that the shippers seemed disposed to make some concessions, and that a satisfactory offer will be submitted to the men today.

BASIS OF SETTLEMENT.

The basis upon which the strike is expected to be settled today as the result of last night's conference is as follows: Abolition of non-union men not be discriminated against by foremen. Men receive the right to wear union buttons. Workmen molesting others to be discharged, whether union or non-union. Employers retain the right to employ men according to merit. Union leaders will not be permitted to solicit workmen. Old employees to receive first consideration. Representatives of men to have the right to submit grievances before the steamship companies. Increased scale of wages agreed upon previously. Agreement to be for the year 1903.

TO RELIEVE CONGESTION.

In the meantime efforts continue to relieve the congested condition of the wharves. The Allan liner Bavarian sailed Saturday, and the Dominion liner Canadian sailed yesterday. Both vessels carried a good cargo, and a large number of passengers. There were two additions to the vessels in the port yesterday. The Dominion liner Ontario, and the Lake Erie, of the C. P. R. Line.

Two dock laborers from Liverpool, Horace and Jeremiah Egan, fell down the hold of the steamer Monterey Saturday night. Jeremiah Egan was killed, and his brother was badly injured.

TEAMSTERS ARE STILL OUT.

There is no change in the situation of the striking teamsters since Saturday. The men claim that there have been no secessions from their ranks, but that they are firm in their determination not to resume work until their demands are granted by the companies and master carters. President Ledue announces that an organization will be formed of the drivers of vehicles of every description in the City of Montreal. Each different class is to have a separate union, but all will be affiliated and work in harmony.

Some of the transport companies have cabled to England for men to replace the strikers.

LATER.

Montreal, Que., May 11.—An agreement has been reached between the striking longshoremen and the shipping interests, and the strike is over.

DISABLED IN MID-OCEAN.

New York, May 11.—The Cunard Line steamer Ivernia, which arrived today from Liverpool and Queenstown, passed on May 6 the British steamer English King which signaled, "Not under control, machinery disabled." The steamer did not require assistance, but was making repairs. The English King is en route from Antwerp for Boston.

HUNDREDS VIEWED REMAINS OF HON. MR. JUSTICE MILLS

Body Will Be Taken to Palmyra in Government's Car.

WILL BE BROUGHT TO LONDON

Rev. Dr. Rose Pays Eloquent Tribute to the Dead Statesman—His Biblical Knowledge.

[Special to The Advertiser.]

Ottawa, Ont., May 11.—The people of London will have an opportunity to pay their last tributes to the late Justice Mills on Tuesday. The body will leave this city by the C. P. R. at 11 o'clock tonight, and will be transferred at Toronto to the Grand Trunk, reaching London at 11 o'clock tomorrow morning. From London the remains will go by Michigan Central to Ridgeway, where they will be all night. The funeral will proceed in the morning to Palmyra, ten miles distant. The Government has ordered the railway the use of a private car, and the offer has been accepted. Rev. A. A. Cameron, of the First Baptist Church, Ottawa, will conduct the services here, and Rev. Mr. Walker, of South London, at the grave.

From all parts of the Dominion telegrams of condolence have reached the family. Among them are messages from Hon. G. W. Ross, Sir C. A. P. Pelletier, former Speaker of the Senate, and Lady Pelletier, besides many from London.

The remains were viewed yesterday by hundreds. At the head of the coffin reposes a wreath from the Justices of the supreme court; at the foot a floral anchor sent by the members of the press gallery.

DR. ROSE'S TRIBUTE.

Rev. Dr. Rose, in the Dominion Church, yesterday morning, paid the following tribute to the memory of the dead.

"I am prompted alike by considerations of personal regard and the sense of national loss to refer to the sudden death of our esteemed fellow-citizen, the Hon. Mr. Justice Mills, of the supreme court of Canada.

"The successor of Sir Oliver Mowat in the high office of Minister of Justice, it is noticeable that he should so soon follow him into the great spirit world. Though not a young man, he had every right, humanly speaking, to anticipate several years of good service. From Judge Mills in the position of grave responsibility and trust to which he had been so recently called.

"The Canadian bench has been severely bereft within the past two or three years, and the Federal Government, is confronted with a task of no trifling character in filling the vacancy which death has made in the judiciary.

AN ARDENT BIBLE STUDENT.

"This is not the place, nor am I the one to pronounce an eulogy upon the late judge. But I may be permitted to refer to one aspect of his life-work which the press may not generally emphasize. Judge Mills was an ardent Bible student; he was more, in the best meaning of the term—he was a reverent critic of Scripture. He had a thorough knowledge of the Bible, and he expected an enormous influx of settlers within the next few years. The lands which have been sold are in Manitoba and the Northwest.

KANG YU WAY'S DAUGHTER

Young Lady Desires to Stay Two Months in Canada.

Ottawa, May 11.—Collector of Customs Milne, of Victoria, B. C., wired to the department of trade and commerce that Miss Kang, daughter of Kang Yu Way, head of the Chinese Reform Society, had applied for a passport to visit her father, who is in the steamship Maru, and desired to remain in Canada for two months. She is a student tourist, and has the necessary visa to enter the United States. The law imposing a poll tax upon Chinese entering Canada authorizes the authorities to exempt students or tourists, and under this provision Mr. P. C. T. O'Hara telegraphed to the collector to allow Miss Kang to land.

A PANAMA CANAL OFFER.

Panama, Colombia, May 11.—It is currently reported here that the Panama Canal Company has offered the Colombian Government \$12,000,000 of the \$10,000,000 the company receives from the United States Government for the canal property.

WARSHIPS FOR DUBLIN.

London, May 11.—Vice-Admiral Lord Charles Beresford has notified the mayor of Dublin that the Admiralty has ordered him to take the Channel Squadron to Dublin on May 18, and to remain until May 22. This is the first time in many years that the mayor of Dublin has received such a notification.

FORESTERS PROTEST.

Toronto, Ont., May 11.—The Canadian Order of Foresters of the British Columbia branch has entered a protest against the provisional board of control regulations recently adopted regarding scarlet fever.

INFANTA'S LIP CUT.

Madrid, May 11.—The Infanta Isabel, an aunt of King Alfonso, who was kicked in the face by her horse after the animal had reared, had her lip so badly split that it was necessary for a doctor to sew it up. She is progressing satisfactorily.

HAS NO POLITICAL SIGNIFICANCE.

London, May 11.—The admiralty says the sudden sailing of the British cruisers Drake, Brilliant and Rainbow, from Portland for Gibraltar, is not connected with events in Morocco and has no political significance whatever.

BILLS AS NEST LINGING.

New York, May 11.—Emmett Hamilton, assistant cashier in the Bayonne Bank, Avenue D and Thirty-third street, Bayonne, found a shortage of \$10 in making up accounts yesterday.

When ready to go home he picked up his hat, when out fell a bird's nest. In the lining of the nest was the missing money, two five-dollar notes. A pair of sparrows were familiar visitors at the Bayonne bank, having full entrance to the place.

One of the birds picked up the money when nobody was looking.

A ROYAL BETROTHAL.

London, May 11.—The betrothal is announced of Princess Alice, the favorite granddaughter of the late Queen Victoria, to Prince Andreas, fourth son of the King of Greece.

A HUSBAND FOR THE PRIZE.

Rome, May 11.—An Italian named Tasino, who thinks cooking the chief virtue in a wife, organized a macaroni contest for young girls, the one who cooked the best dish of macaroni to become his wife. One hundred and twenty-three young girls entered the contest, which lasted three days. One of the last comers was declared the winner.

DUNRAVEN FOR IRISH PREMIER

He May Preside Over the First Dublin Parliament.

HOME RULE WITHIN FEW YEARS

Nationalists Are Admired by Government and Can Have Almost Anything They Ask.

London, May 11.—It is apparent that the time is not far distant when the Earl of Dunraven, who was once a contestant for the honor of lifting the America's Cup, will be the leader of the Irish Nationalist party and within a decade be the premier of an Irish parliament, sitting in Dublin.

The authorship of the idea of the present Irish land purchase bill, which has brought Ireland and England closer than in centuries, is generally attributed to Dunraven, although the parliamentary parent of the bill is Col. Shawe-Taylor, who does not own an acre of Irish land, while Dunraven is a large owner. The Irish land bill, which has made political bedfellows of the radical Irish Nationalists and the most stubborn of British Tories, is meeting approval everywhere, despite its ultimate cost to the English treasury. This bill, conceived and expounded in circumstances unique in the history of Ireland, is an epoch-making measure in the highest sense. It is backed by a consensus of parliamentary opinion never before concentrated on any point, and Irish legislation, and is backed almost unanimously by the Irish people.

England and Ireland are no longer enemies. Redmond, Healy, O'Brien and Davitt are names spoken with praise by Tory leaders. A Tory member of Parliament said tonight: "While home rule is a phrase not used much nowadays, it is closer to

WILL ERECT A STATUE

Monument to Sir Oliver Mowat for Toronto.

Toronto, May 11.—It is understood that steps will be at once taken by the Ontario Government towards the erection of a monument to the memory of the late Sir Oliver Mowat. It is proposed to ask the House to pass a preliminary vote of at least \$5,000 this session and the bronze will probably be ordered soon after. Next year will be time enough to purchase the pedestal. It is intended to make the statue a full-size heroic figure, and to place it on the eastern side of the main building leading to the Parliament Buildings in a corresponding position to that of Hon. George Brown. The addition of this monument will add to the historic interest of Queen's Park, which already contains monuments to the Veterans of 1866, the Veterans of 1885, Queen Victoria, George Brown, and Sir John A. Macdonald, with a monument to Governor Simcoe, now being made ready for a place on the east side, to be unveiled on the 27th.

TO REBUILD HOSPITAL.

London, May 11.—An anonymous benefactor has guaranteed the sum of £200,000 for the rebuilding and modernizing of St. Bartholomew's Hospital.

CHINA RELIEVED BY ASSURANCES

Is Satisfied with Russia's Manchurian Statements.

WASHINGTON NOTIFIES PEKIN

That Russia Has No Intention of Crowding Out the Other Foreign Powers.

Paris, May 11.—The French Minister at Peking reports that Minister Conger, following instructions, has notified the Chinese Government of the assurances regarding Manchuria, which Russia has given the United States, directly through Ambassador McCormick, and also through Ambassador Cassini, and says the Russian charge d'affaires at Peking has given the Chinese officials similar assurances. The French Minister adds that the Chinese officials are not gravely concerned by Russia's alleged designs on Manchuria, being fully satisfied with the foregoing assurances.

The feeling here, which is strongly sympathetic with Russia, has been greatly relieved by the official assurances from Washington summing up the results of the conferences between Secretary Hay, Ambassador Cassini and the Japanese minister, particularly the assurance that the report that Mr. Hay had telegraphed to President Roosevelt relative to the question of joint action on the part of Great Britain, Japan and the United States, which report aroused serious apprehension here of possible international entanglements.

A BOATING TRAGEDY.

Kansas City, Mo., May 11.—Alfred Taylor, aged 24 years, and Mrs. E. E. Renney, aged 31, were drowned in the Kaw River last night, while boating. They fell overboard in midstream. The boat did not capsize, but a boy whom they had hired to row became so greatly excited that he could render no assistance.

REBUILD HOSPITAL.

London, May 11.—An anonymous benefactor has guaranteed the sum of £200,000 for the rebuilding and modernizing of St. Bartholomew's Hospital.

FIENDISH PLOT

TO BLOW UP SHIP

Infernal Machine to Be Placed on Cunard Liner.

TO EXPLODE 24 HOURS OUT

Was Discovered by Receipt of Anonymous Letter—Box Held 100 Pounds of Dynamite.

New York, May 11.—The discovery on Saturday afternoon of an ingeniously constructed infernal machine, containing 100 pounds of dynamite, in half-pound sticks, and an electrically operated mechanism, on the pier of the Cunard Steamship Line, frustrated what is believed to have been a plot to sink the steamship Umbria, which sailed at 2 o'clock, when she was 24 hours out at sea.

A letter received at police headquarters less than two hours before the discovery, and which was the receipt of the infernal machine. The letter appears to have been written by a woman of education. The handwriting is fine and cultured. It was signed, but the police refused to give out the name.

At the time the infernal machine was discovered the pier of the Cunard Line was crowded with prospective passengers and their friends. Almost a panic ensued when these were ordered from the pier, before the sinister-looking box was removed from its position alongside the gangway leading to the second cabin.

When the instrument of death was opened it was found to be a marvel of mechanical ingenuity. The 24 half-pound sticks of dynamite were enclosed within two smaller boxes, which held also three sets of clockwork mechanism, two dry-storage electric batteries, and a quantity of loose gun cotton and gunpowder.

The mechanism was clicking noisily when the box lid was thrown back. Chief Murray, of the bureau of combustibles, declared that it was the most perfect infernal machine he had ever seen of his kind.

Had it gone off, he said, it would have blown the Umbria out of the water. Nothing but its discovery on the pier, he declared, would have prevented the fiendish purpose of its constructors from having been carried out.

There was no name or assignment mark on the box which held the machine. It was taken to the Cunard Line pier by two men, supposed to be Italians.

This is the letter of warning addressed to Commissioner Greene:

"The box with two handles is among the trunks for the steamer Umbria."

"Dear Sir,—The Mafia gang you and wishes you would at the Cunard dock is a box containing 100 pounds of dynamite. Inside also is a machine that, properly set, can explode the stuff any time within 24 hours."

"The society has declared war against England, and has ordered the destruction of every steamer flying the British flag sailing out of New York harbor. The undersigned, by sinking the Oceanic, and so many women and children took passage on that boat that the society's plans were changed at the last minute."

"The machine in the box, the first made and a crude affair, is enclosed simply to show how easy it is to sink a steamer, and to convince those interested that the society is not making idle threats."

"The society has undertaken to clear New York harbor of British ships, and it will succeed. The reason for this movement the society does not wish to disclose. Suffice it to say that the society, to protect itself, must carry the war into the enemy's country. It proposes to wage war as fiercely as it knows how."

"This is the society's first and last warning, and those who propose to patronize British steamers must take their chance in the future."

"The society asks and gives no quarter; so—Lay on, lay on, MacDuff, and damned be he that first cries, Hold, enough."

P. S.—The battery is not attached to fuse without caps, and lighter not set. Consequently there is no danger in handling the box."

Notwithstanding the reassuring character of the postscript, it was feared that, if there really was an infernal machine, it might not have been constructed with so much care for the safety of the persons handling it. This was found, as a matter of fact, to be correct, for, according to experts, the box was so arranged that it would inevitably have gone off with a single revolution of the main regulating wheel operated by the clock, which would have required about 24 hours.

Superintendent Murray declared positively that the time fuse of the infernal machine sent to blow up the Umbria was burning when found. There can be no doubt that the fuse was burning when the box was lowered into the water.

According to the opinion of Superintendent Murray and other experts, the dynamite would have exploded in exactly three minutes from the time the box struck the water. The amount of dynamite used in the infernal machine, experts said, was sufficient to dislodge 45 tons of solid rock.

If placed in the hold of a steamship of the type of the Umbria it would blow the bottom out of the ship.

LIKE A MIRACLE

Nelson Lefor Vouches for the Marvelous Cure of Mrs. Thos. Hughes—Dodd's Kidney Pills Again.

Morley, Grey County, Ont., May 11.—So marvelous is the cure of Mrs. Thos. Hughes, of this place, that it seems almost necessary to prefix the statement of Nelson Lefor, J. P., "I can vouch for its truth," Mrs. Hughes says:

"I had pains up my spinal column, in my head, over my eyes, across my back, through my left side, and occasionally through my right side. I would for three nights at a time never close my eyes in sleep."

Such was Mrs. Hughes' condition for four years. For nearly three years she was in bed. Five doctors treated her unsuccessfully. Hear the remarkable sequel in Mrs. Hughes' own words:

"I have taken fourteen boxes of Dodd's Kidney Pills and am now strong and able to do a good day's work. Thanks to Dodd's Kidney Pills."

CARDINAL VAUGHN DYING

Eminent Catholic Churchman Is Passing Away.

London, May 11.—Cardinal Vaughan, head of the Roman Catholic Church in England, is dying. His condition is so serious that the last sacraments of the church have been administered. When this was done the venerable prelate said devoutly to a friend who was with him:

"I am now ready and wish to go." The cardinal's probable successor is much discussed. It is regarded as most likely that the Bishop of Southwark will be selected.

FEVER AT SASKATOON

Several Cases Among the Barr Colonists.

Saskatoon, May 11.—A colonist named Hassel was accidentally shot in the leg at Battleford. The wound is not serious. The second death since the colony arrived occurred last night, when Leonard Ellis, a young unmarried man, died of pneumonia, complicated with scarlet fever. He was buried yesterday.

In the government hospital tent there are three cases of scarlet fever, all doing well under the care of the government physicians, who has also reported that the quarantine arrangements are satisfactory.

News from the Doukhobors' village seems to indicate that the affected people are going home. Veregin will be here in two weeks.

HONOR TO THE BRAVE

Great Crowd Attends Fireman's Funeral.

New York, May 11.—Details of firemen, 100 sailors of the United States navy, and about 5,000 other persons, gathered at the funeral of William McNally, a young fireman who was fatally burned while trying to save a man at a tenement house fire in this city last Sunday.

The funeral was held at the church of the United States battleship Iowa, on which McNally served during the Spanish-American war. The procession from the church to the cemetery was a sight to behold.

The engine, truck and horses of the station stood at the curb with the officials of the department near. As the hearse passed the bell in the tower was tolled and the gongs on the engine and truck were lightly tapped.

A STRANGE ROMANCE

A Rochester Man Reads His Own Epitaph.

Rochester, May 11.—A strange romance was narrated to Chief of Police Cleary by a man who was supposed to have been dead for years. It was told by a man who had come from Mount Hope Cemetery, where he had read his epitaph on a tombstone and then raised the stone to the ground. And it was told to a man who had acted as a pallbearer for the man supposed to have been dead.

Twenty-eight years ago this month the body of a man was found floating in a mill-race here, and identified as that of Wm. H. Stone. The identification was made positively, by Mrs. Stone, the supposed widow. One Hundred and Fifty New York Infantry, of which he had been a member, adopted a memorial, and attended the funeral in a body. Chief of Police Cleary (then a policeman) was one of the pallbearers. Interment was in the Stone family plot in Mount Hope. Today, Stone suddenly appeared and fully identified himself with his military and police. He has been a wanderer.

NO TRAINS RUNNING

Victoria's Railway Employees Are on Strike.

Melbourne, Victoria, May 11.—The employees on the state-owned railroads of Victoria went on strike at 12 o'clock Friday night in consequence of a curfew dispute with the Government regarding the right of the latter to affiliate themselves with the Victoria Trades Hall, the headquarters of trade unionism in this colony.

The employees of the railroads are practically civil servants, and the Government claim that in case of a strike in other trades affiliated with the Trades Hall the railroad men would be obliged to strike in sympathy, and therefore the Government notified the railroad men that unless they withdrew from the Trades Hall by May 12 they would be dismissed. The Engineers' Association replied that unless the Government withdrew its notification before 5 o'clock this evening they would strike at midnight, and leave their locomotives wherever they happened to be. The Government guaranteed double wages for two months to non-strikers, and notified the men that they would lose their pensions if they strike. About 11,000 railroad men are involved in the dispute.

Troops are patrolling the streets, but the city is quiet.

Sully's Big Profits.

New York, May 11.—The speculative cotton syndicate of which Daniel Sully, the bull leader, is the head, is fast disposing of his holdings of about 500,000 bales of May, to clean up an estimated profit of \$5,000,000. Sully's personal profit in the gigantic deal is estimated at \$1,000,000. The net profit for the syndicate, it is estimated, will be in the neighborhood of \$5,000,000.

Will Be Punished.

Paris, May 11.—On the arrival of Governor-General Jourdain at Algiers arrangements will be made to punish the tribes of the Figuig district who, on May 7, attacked a convoy of 500 camels loaded with provisions and killed 18 men, wounding 30. The expedition, however, will not start until plenty of troops are available.

Ontario's Fuel Supply.

Toronto, May 11.—The Ontario Government published a report Saturday on the Ontario fuel supply. It estimates Ontario's fuel bill at \$15,000,000. The report is with special reference to the manufacture of Ontario coal.

The State of Michigan on a visit to Detroit next Wednesday, passed the House and will come up in the Senate on Monday evening. It is expected that a committee of five, consisting of three representatives and two Senators, will be appointed to extend the welcome at Detroit.

Michigan Welcomes Minto.

Lansing, Mich., May 11.—A concurrent resolution extending a formal welcome to the Earl of Minto, Governor-General of Canada, on behalf of the State of Michigan on his visit to Detroit next Wednesday, passed the House and will come up in the Senate on Monday evening. It is expected that a committee of five, consisting of three representatives and two Senators, will be appointed to extend the welcome at Detroit.

SECOND READING

OF LAND MEASURE

In British Commons Denotes a Social Revolution.

ENTIRE CHANGE OF SENTIMENT

In Those Who Formerly Bitterly Opposed Such a Bill—Analysis of the Vote.

London, May 11.—Parliamentary opposition has practically disappeared. The second reading of the Irish land bill, incomparably the most important measure of the session, was carried on Tuesday night by a majority of 443 votes against 26. This may justly be described as one of the most startling and puzzling events in the parliamentary history of England.

The bill, as Mr. Morley said in his powerful and interesting speech, is a social revolution. It aims at nothing less than the transference of agricultural Ireland from the rent-paying landlords to the rent-paying tenants. In form, no doubt, it is a voluntary measure, but the position of the landlord who refuses to sell will not be a happy one, and unless he be a man of iron resolution he will soon fall in with the wishes of his tenants to effect this purpose.

The sum of twelve millions sterling (\$60,000,000), which will be advanced from the treasury on the credit of the United Kingdom, will be increased on the lowest estimate to the extent of a hundred millions. There will be nothing between the state and the purchasing tenant paying his annual instalments for a period of nearly 70 years. Mr. Gladstone's land bill of 1886, denounced from every Tory and Liberal Unionist platform in England, made the Irish legislature responsible for every shilling. There is no such responsibility here. Mr. Balfour's act of 1891, which almost the whole Liberal party opposed, dealt with sums in infinitesimal in comparison with those now involved; yet the leader of the Opposition, with some exceptions, supports this bill. Mr. John Morley supports it with enthusiasm; Sir Edward Grey, on behalf of those Liberals who have abandoned home rule, pleads for it with as much earnestness as Mr. Redmond himself, and only a handful of Radicals, scarcely one of whom had ever been in office, had the courage to vote against it.

A few months ago Mr. Wyndham was putting Irish members of Parliament in prison, and those who remained in attendance at Westminster were cheering the Irish landlord Boers. The excuse for the Chief Secretary's prosecution was that Nationalist members invited Nationalist farmers to withhold payment of their just debts. This bill proceeds on the assumption that every Irish farmer is perfectly honest. The assumption rests upon solid ground. Mr. Gladstone once described the Irish tenant as the champion rent-payer, and the best defense for this bill, against which only four Unionist voted, is that in the transactions under former land purchase acts there have been virtually no arrears.

Mr. Wyndham's personal triumph will be grudging by no one, though at this moment the Nationalists are his particular friends, he is deservedly popular with all sections of the House of Commons.

There are doubtless many causes for this amazing change in the political situation, but the principal reason for it appears to be twofold. Those who dislike home rule believe the bill will be fatal to it. Those who like home rule believe the bill makes it certain. Which view is the right one, time alone can show.

An analysis of the vote on the second reading of the bill shows the following facts:

For Agst. 443 26

Ministerialists 104 22

Liberals 104 22

Nationalists 75 0

443 26

Allowing for the Speaker and vacancies, there were present 128 Ministerialists, 61 Liberals and 8 Nationalists. It is a notable circumstance that the division lobby contained the largest number of members on record—443 votes against 26 votes. The greatest number in any previous division was on the Tichborne case, when the numbers were 433 to 1. Many amendments were proposed, but the bill was carried by a large majority.

A. Thomas, Radical member for Merthyr-Tydvil, has given notice of his intention to move an instruction, empowering the committee to extend the provisions of the bill to Wales.

Douks Quiet Again.

Saskatoon, N. W. T., May 11.—News received from the Doukhobor committees is that all the restless elements have been removed to the settlement by the authorities, and are now quiet. The police patrol will be kept up until more arrive. The Barr colonists have all left Saskatoon.

There are now west of Battleford, and moving fairly satisfactory.

ABSOLUTE SECURITY.

OFFER \$1,000 REWARD

For the Arrest of Miss Reichlin's Murderer.

Lorain, O., May 9.—The county commissioners of this Lorain County, have offered \$1,000 reward for information leading to the arrest of the murderer of Agatha Reichlin, who was found dead in her bed early on the morning of May 1. It is understood that the Knights of Columbus, a Catholic organization, will also offer a reward of \$1,000. Little, if any, progress is apparently being made towards a solution of the mystery surrounding the murder.

DR. BRIDGLAND'S FUNERAL

Large Representation From Legislature Attends.

Bracebridge, Ont., May 11.—The funeral of the late member for Muskoka, Dr. Samuel Bridgland, took place here. The Legislature was represented by Messrs. Davis and Latchford from Government side and Messrs. St. John and Willoughby from the Opposition. Messrs. Tudhope and Garr, members for East Simcoe and Parry Sound, also present.

The House of Commons was represented by Mr. Bennett, M. P. for East Simcoe, and C. D. Grant, M. P. for North Ontario. Delegations from Toronto, Huntsville, Newmarket, North Bay and Pembroke, as well as all parts of Muskoka district, came to pay their last respects. The chief mourners were Messrs. White, Toronto, Fred Bowden, Ottawa, Samuel Bridgland, Toronto, father of the late member, and H. B. Bridgland, Bracebridge. The universal respect in which the doctor was held was evidenced by the immense concourse of people present at the funeral, which was the largest that has ever been held in this district.

BLAMES THE RAILWAYS

Jury Places Responsibility for West Lorne Collision.

St. Thomas, May 11.—The inquest into the death of three men in the recent wreck on the L. E. and D. R. R. was resumed at West Lorne Friday. The crew of the colliding train and the dispatchers at Ridgeway were the principal witnesses. After deliberating twenty-five minutes, the following verdict was arrived at by the jury: That the collision was caused by the culpable neglect of the said railway company in not adopting a proper system as to the running of their trains, and of not furnishing and supplying to their trainmen proper rules, so intelligible to their employees that the existing rules could arise as to the duties of their trainmen. We further recommend that semaphores be forthwith constructed on the said railway, proper directions from the station.

CANADA WANTS WORKERS

Ontario Seeks a Share of Prospective Immigrants.

London, May 11.—The Daily News publishes a column interview with Mr. W. T. R. Preston, the Canadian commissioner of emigration, stating that the existing demand for farm laborers in Ontario and warning men who are not desirous of working for a living to keep out of Canada. The newspaper has also published a cablegram from the deputy minister of agriculture for Ontario, advising a diversion of the stream of emigrants to that province. The cablegram states that the demand for labor in Manitoba will not be so great until haying and harvesting begins. It is pointed out that the existing demand for farm laborers in Ontario is likely to cause a considerable migration to Ontario. The booking of emigrants continues active. Second cabin passages are all taken to the middle of June.

The emigration figures for April, just announced, show that 7,727 English, 1,716 Scotch, 320 Irish and 5,219 foreigners, left for Canada in that month. The total emigration to Africa was 4,247, and to Australia 732.

KENT TAKES THE STAND

And Relates His Experiences With Dead Girl.

Rochester, N. Y., May 11.—Leland D. Kent, charged with the killing of Ethel B. Dingle, the pretty Canadian nurse, today told on the witness stand how they became interested in each other, how they traveled to different places together, how they lived together as Mr. and Mrs. Crosby, and how he finally agreed not to again leave her. "We spent many pleasant hours on the back piazza at the hospital," said Kent. "There she told me her physical ills and I prescribed for her. Then we met by appointment at a shoe store a little way from the hospital. We lunched together. She asked me to go to Toronto with her, and I did. After that she said she could not stand the work at the hospital, and must leave. I brought her to St. Mary's hospital here, and she remained there. She must have an operation. She said if she should die under the anesthetic she would submit. I told her she would not, and she refused to have the operation for peritonitis."

Kent told how he prevented her from jumping into the river, and at another time, he said, he knocked bottles of deadly poison from existing hands. She agreed to give up her suicidal notions, he said, if he would live with her and not leave her. He agreed, but only to quit her, he said, and she refused to have the operation for peritonitis."

The defense Saturday got a letter in evidence to show the despondent state of the girl's mind two days before the tragedy. Police department extracts from it were addressed to a Miss Clark: "I am not at the hospital now, Miss Clark. I left three weeks ago, and since then have been very sick. I want to enter a hospital out side of the city, if I can, as I don't think I am fitted for any other work, and am unhappy and discontented. If it was not for Dr. Grant I should try to nurse in the city, but he bothers me so I could never keep up. Write and advise me, if you care to. We love, your broken-hearted friend, Ethel B. Dingle."

THE WEATHER TODAY—Fine and warm.

These

on Tuesday.

The Vice-Regal party will be here Tuesday, and we don't want to let so special an occasion to pass without celebrating the event here in a manner pleasing to our customers. Tuesday will therefore be a fitting occasion to bring on such bargains as these. Come down early, get your share of these wonderful bargains, and participate in the sights and delights of the day.

THREE DOZEN MUSLIN MORNING SUITS.

Only three dozen. Sorry we haven't more. You'll be sorry, too, when you read that the price is only \$2 per suit. Every one of the lot will be held till Tuesday morning, at 9 o'clock. These desirable Summer Wash Suits are of Printed Polka Dot Muslin; blouse front of large stitched panel pleats; back of pin tucks; collar and cuffs to correspond. Skirt very wide and full; deep flounce with wide hem and stitched strap at top; all beautifully finished; sizes 32 to 40. A splendid summer suit—stylish, cool and dainty. We never sold such good suits at nearly so low a price. You never heard of such bargains before at only \$2.00

TUESDAY MORNING, 65c SILKS AT 47c.

This is a shipment that has just come in—early enough for you, but not early enough for us to ask what it is worth. The whole lot of 460 3/4 yards goes on sale Tuesday morning at 9 o'clock. Be on hand early to secure your dress or waist length. We have had frequent inquiries for this particular kind of silk, and now that we are going to sell it at such a bargain price don't miss it. We describe as follows:

Extra Fine Figured Cream Japanese Habutai Wash Silks. Beautiful patterns, comprising small figures, small and medium spots and leaf designs. A pure silk, free from dressing, and washing cannot possibly affect the silk or finish. (See sample that has been tested by washing.) The soft, bright finish is pleasing; nine patterns in the lot; 23 inches wide. See display in our east window. The value of this silk is 65c yard at any time, but we'll start to sell it on Tuesday morning, at per yard 47c

CEYLON FLANNELS FOR SUMMER WEAR.

Just received a nice assortment of these goods for ladies' and men's summer wear. Will make very serviceable shirtwaists and dressing gowns for the ladies, and pajamas and outing shirts for men and boys. Will wash perfectly without fading or shrinking. In blue, fawn and pinks, striped patterns. Per yard only 25c

SMALLMAN @ INGRAM,

149, 151 and 153 Dundas Street.

Township Councils.

LONDON. The London Township Council met in the town hall, St. Johns, on Monday, May 4, all the members being present. The minutes of previous meetings were read and signed. The following communications were read: From S. F. Glass, stating that the residents of Pottersburg must have the road repaired. It was decided to enforce the provisions of the by-law regarding necessary repairs immediately.

From Charles Talbot, county engineer, re repairs to 5th concession bridge. Referred to J. McLeod.

From Wesley White, re white award fund. Referred to G. Kimball.

From Henry Roe, re Talbot Settlement Centennial celebration. Filed.

William Hodgson, lot 13, con. 7, Lobo, reported an accident on April 5, at a culvert on the road opposite lot 31, con. 10, Lobo, whereby his horse was injured. Referred to John R. Hodgins, to investigate and report at next meeting.

Mr. Brode and Mr. Walker addressed the council re C. P. R. bridge, con. 3. Moved by Joseph McLeod, seconded by Hamilton Neesham, that permission be granted to the C. P. R. Company, to cross the bridge over the tracks in place of the present skew bridge, be not granted. Carried.

The assessor returned his roll. Contracts for gravel for the current year were let to J. B. and J. C. Blynn No. 56, to appoint roadmasters.

Coughs, Colds and Asthma

As Well as Croup, Bronchitis and Whooping Cough Are Quickly Cured by

DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

The virtue of this great prescription of Dr. Chase is so well known in Canadian homes that it seems useless to do more than remind you that it has a larger sale and is curing more people than ever before.

Mrs. J. W. Lloyd, Albion street, Belleville, Ont., states:

"In the beginning of last winter, I took a very severe cold, accompanied with a bad cough, and was almost laid up for a time. I tried several remedies, but with indifferent results. On the advice of a friend I got a bottle of Dr. Chase's Syrup of Linseed and Turpentine, and found that it relieved the cough at once. By the time I had taken the one bottle my cold was gone, and I can truthfully recommend it as a splendid remedy for coughs and colds."

Mrs. A. A. Vanbuskirk, Robinson street, Moncton, N.B., and whose husband is a carpenter on the I. C. R. R., states: "For years I have used Dr. Chase's Syrup of Linseed and Turpentine for my children whenever they take cold. I used it first with one of my children suffering with a severe form of asthma. It seemed as though the least exposure to cold or dampness would bring on an attack of this disease. I began using this medicine and must say that I found it most excellent. We have never tried anything in the way of a cough medicine that worked so satisfactorily. It seemed to go right to the diseased parts and brought speedy relief."

Do not be satisfied with imitations or substitutes. The portrait and signature of Dr. A. W. Chase is on every bottle of the genuine. 25 cents a bottle, family size, three times as much. 50 cents, at all dealers, or Edmondson, Bate & Co., Toronto.

LOST AND FOUND.

TRAINS COLLIDE IN MOUNTAINS

Fatal Disaster in the Adirondacks on N. Y. C.

THEY MET IN A DEEP ROCK CUT

Three Men Were Killed and Eight Seriously Injured—Accident Due to Wrong Orders.

Utica, N. Y., May 11.—Three Uticans are dead and eight other persons are seriously injured as the result of a head-on collision between two passenger trains on the Mohawk division of the New York Central and Hudson River Railroad at Nelson Lake, in the Adirondacks, between McKeever and Fulton Chain, which occurred about 3:15 Saturday afternoon. The accident is the worst in the history of that road.

The dead are as follows: Frank H. Foulkes, conductor; William Yerdon, fireman; and John Glynn, newsboy. The wreck occurred near the siding at Nelson Lake, one of the sharpest curves on the road, and in a deep rock cut. The trains which collided were No. 650, south-bound, from Montreal, and No. 651, which leaves this city at 1:15 p.m. daily for Montreal. Both trains had several extra coaches because of heavy traffic during the last few days, and it seems almost miraculous that more lives were not lost.

Instead of meeting the south-bound train at McKeever, Engineer Plato received orders to proceed to the Nelson Lake siding. He ran his train through at the rate of 12 miles an hour. The engineer of the south-bound train, it is said, received orders to wait on the siding at Nelson Lake until the arrival of the north-bound train, but he thought he could reach McKeever in time to pass the other train safely.

According to the statement of the railroad men, the signals were complicated. The train leaving Utica was running slowly at the time of the accident, while the Montreal train came thundering along at a high rate of speed.

When Conductor O'Connor, of the south-bound train, saw that his train had passed the switch at Nelson Lake he immediately pulled the bell-rope to signal the engineer to stop, but it failed to work. He then sprang to the emergency brake and applied it. The brake worked all right, but the two trains came together before the speed had been slackened very much. It is believed, though, the result of the collision would have been even more serious but for Conductor O'Connor's prompt action. The two trains met a few rods from the bank of Moose River, and some of the cars were reduced almost to kindling wood.

DON'T WANT AMERICANS

Prussia Places Restrictions Upon Their Sojourn in Kingdom.

Washington, D. C., May 11.—The restrictions on the sojourn of naturalized American citizens upon their return to Germany for the purpose of communication from Secretary Jackson, of the United States embassy in Berlin, to Secretary Hay, says the Times.

It appears that the Prussian Minister of the Interior called the attention of provincial officers to the desirability of curtailing the sojourn in Prussia of naturalized Germans who had not performed military service before their emigration. The general subject was brought up by the American representatives in Berlin in a conversation at the German foreign office, and the following statement was made on behalf of the American embassy as defining the attitude of the United States Government in the matter.

"No sympathy whatever is felt with the person who deliberately emigrates and avails himself of the American naturalization laws for the mere purpose of escaping military service in Germany, and there is no wish on the part of the American authorities to enable such persons to make a business of it. The American government has consistently declined to intervene in behalf of persons whose wish was to make their permanent residence in Germany."

"It is thought, however, that where German emigrants have fulfilled the conditions necessary to enable them to be treated as American citizens they should actually be so treated, and when they have emigrated in good faith they should be permitted to sojourn in Germany for their business or pleasure, to visit at their former homes, or to enjoy the benefits afforded by German watering places, in accordance with the terms of the treaty with Prussia of 1828."

"The sovereign right of Prussia to expel persons whose presence is not considered desirable, is not contested, but it is thought that the American Government has the right to know why the presence of any American citizen is so considered."

Unable to Work.

"I have had rheumatism of a very severe nature for three years, principally in the arms and shoulders. I was affected so badly that I was laid up for three weeks, unable to work. It was a form of muscular rheumatism that affected me, and physicians prescribed all sorts of pills, but I did not obtain very much relief. My arm was so sore at times that I could not move it. One visit of Munyon's Rheumatism Cure has given me more relief than all the medicines I have ever taken. It is a wonderful preparation. Joseph W. Woon, 25 Sincere street, London. Your druggist will recommend Munyon's Rheumatism Cure. Ask him about it. Only 25c a bottle."

There is nothing more fearful than imagination without taste.—Goethe. If you would predict a man's future, get the proper focus on his past.

BAYLEY'S

FORTUNE'S SMILES

One-Time Sweetheart Leaves Poor Man \$25,000.

New York, May 9.—That fortune has twice smiled on a poor man was revealed yesterday through an application made by Ignace Witner, attorney for Stephen Neederman, of 150 Nassau street, for permission to serve by publication the papers in a suit brought against Thomas Vezzer to compel the surrender of 1,000 shares of stock in the Rapid Envelope Sealing Company. The application was made to Justice Giegerich, who reserved decision, says the Times.

Neederman had battled hard with the world for many years, and the two fortunes have just come to him, as was explained to the court. The first fortune, according to Mr. Witner, came by the death of a former sweetheart, who jilted him ten years ago for the man he is now suing. Neederman was left \$25,000 by her will. The other stroke of luck came two months ago, when, after trying for eight years to perfect an envelope sealing machine, he was successful and now has organized a company with a capital of \$1,000,000.

Mr. Neederman was an officer in the Hungarian army when he became engaged to Marieperite Tomori, an heiress. Vezzer also aspired to her hand and won for a time, but before they were married the woman again changed her mind and married a young noble, who also was a clergyman.

Neederman has been in this country for eight years, and since that time has spent every cent he could raise toward perfecting his envelope machine. He says that some time ago he again met Vezzer and secured from him \$5,000 to use for the envelope company, giving 1,000 shares of stock as security. Now he says Vezzer refuses to return the stock for the money, and so suit is brought.

DEATH OF MR. DYMOND

Blind Institute Principal Has Passed Away.

Brantford, Ont., May 11.—Mr. A. H. Dymond, principal of the Ontario Institution for the Blind here for the past twenty years, passed away this morning. He had been ill with pneumonia for the past two weeks.

AUSTRALIA'S STRIKE

The Men Are Accused of Derailing Trains.

Melbourne, Victoria, May 11.—Railroad strike reports show that the railroad lines have been tampered with, causing the derailing of engines. A strong force of police is held in readiness for eventualities. The street car service has been greatly augmented. A splendid reception was given to President Irvine at the mayor's luncheon Friday. Mr. Irvine said the Government had left nothing undone to avert a calamity, and come what may the community will never allow the control of its property to pass into the hands of a section of the people.

TOLSTOI HEADS LIST

On Vote of the Ten Most Remarkable Men.

Berlin, May 11.—The Tageblatt asked its readers: "Who are the most distinguished men alive today?" It received 1,000 answers. Tolstoi's name heads the list, with 502 votes; Mommsen comes next, with 496, then Marconi, with 445, Ibsen, with 425, Edison, with 368, Nansen, 270; Röntgen, 264; Meusel, the artist, 218; Professor Koch, 228, and Emperor Wilhelm, 202 votes.

These the Tageblatt readers deem the ten greatest men alive. Among those who got between 180 and 100 votes are Björnson, Chamberlain, Gorky, Hauptmann and Max Klinger, the painter and sculptor. Something less than 100 votes were given to the portrait painter, Leubach, and J. Pierpont Morgan. Kruger, Pope Leo, Richard Strauss have under 50 votes. Maeterlinck, Mascagni and Dr. Herzl have 25. D'Annunzio, Leoncavallo, the aeronaut Santos Dumont and Zeppelin, Sarasate, Paul Heyse have about ten votes apiece. Mark Twain had one vote. So had Karl Goldmark, Massenot Scholiet, Van Hoff and many others.

The Tageblatt is now getting answers to the question: "Who are the most distinguished five women of the day?"

NECESSARY ELEMENTS.

Strengthen your throat and lungs with Angier's Petroleum Emulsion. It cures chronic coughs, makes breathing easy, cleanses the system of impurities, creates healthy blood, firm flesh, and supplies all the elements necessary for the successful treatment of consumption. Pleasant to take.

MOTHER GRAVES' Worm Exterminator has no equal for destroying worms in children and adults. See that you get the genuine when purchasing.

"KNIGHT OF DEATH" BLOWS UP MOSQUE

Two Hundred Moslem Worshipers Were Killed.

THE SULTAN HAS APOLOGIZED

For the Domiciliary Visits Made to Bulgarians in Constantinople.

Vienna, May 11.—A mosque at Kinyri, in which 200 Moslems had assembled, was, according to a dispatch to the Die Zeitung from Sofia, Bulgaria, blown up with dynamite May 2. The worshippers were buried in the ruins. The perpetrator of the outrage, a man named Popov, committed suicide by shooting. A paper found in one of his pockets described him as a member of the "Macedonian Knights of Death."

PROTECTING HER INTERESTS. Budapest, May 11.—In the Hungarian Diet Saturday Premier De Szell, replying to an interpellation in regard to the presence of Austro-Hungarian warships at Salonica, said they were there for the purpose of protecting the interests of Austro-Hungarian subjects. There was no question of any naval demonstration, seizure of custom houses of occupation of territory, which steps were excluded by the country's policy, which was based on the maintenance of the status quo.

THE SULTAN APOLOGIZES.

Constantinople, May 11.—It is denied here that the powers have lodged claims for damages resulting from the Salonica outrages. The Turkish Government has apologized to the Bulgarian diplomatic agent here for the domiciliary visits made by the police of Constantinople last week, when about 60 Bulgarians were arrested, and when the papers of the secretary of the Bulgarian diplomatic agency were seized at his residence. The agent threatened to leave Constantinople unless satisfaction for this action was given. The statement that the Porte has requested Austria and Italy to withdraw their warships from Salonica has been confirmed.

REVOLUTIONISTS FOILED.

Washington, D. C., May 11.—The Turkish minister to the United States has received the following cablegram from his Government: "On the 6th of May the Bulgarian revolutionists attempted to commit, at Monastir, an archaic outrage, analogous to those perpetrated at Salonica. Thanks to efficacious measures taken by the Imperial authorities, however, they have been unable to put their designs into execution. Stambouff, one of the leaders of the Bulgarian revolutionary committee, perished with five of his accomplices in the village of Frashina (Florina)."

BIGGEST EVER PRINTED

Remarkable Issue of the New York World.

New York, May 9.—To commemorate the 20th year of Joseph Pulitzer's direction and proprietorship the World issues tomorrow a remarkable anniversary number, retaining its usual size, remarkable for the number and character of its contributors.

The number will consist of eleven sections of 150 pages each, and will include 1,000 columns of matter, including over 500 of advertising, and will be the largest newspaper ever printed. It will contain contributions from all the leading writers in literature and in art, statesmen and former President Grover Cleveland and England's Prime Minister, Arthur James Balfour, the head of the army, General Nelson A. Miles, the head of the navy, Admiral Dewey, and Judge Brewer, of the United States supreme court, will contribute articles from the great men in science, like Professor Pierre Curie, the discoverer of radium, that marvelous new metal, and Professor Pupin, American's leading electrician, and Santos Dumont, the developer of the flying machine, and Secretary Wilson. There are articles from England's greatest historian, W. E. H. Lecky, and from her keenest literary mind, Andrew Lang.

CORELLI VS. CARNEGIE

The Fiery Novelist Gets After the Steel King.

London, May 11.—Marie Corelli has a terrible grievance against Andrew Carnegie. She came to London specially to lay before him her views on the alleged vandalism of demolishing two ancient houses on Henley street, Stratford-on-Avon, to erect a Carnegie free library.

But the steel king refused to see the fiery little novelist, who has written some slighting things about him for the press here on this controversy. Mr. Carnegie explains his position himself: "When I gave the money at the request of the local authorities for a free library, my responsibility ceased. I have no right and do not wish to interfere with the action of the local authorities in selecting a site. I am quite sure they are as anxious as Miss Corelli to destroy no relic of Shakespeare."

Miss Corelli has returned home, nursing her wrath against Mr. Carnegie, and probably will caricature him in her next book.

Duse Very Ill.

Paris, May 11.—While Duse was on a tour of Austria she got the grip, which prevented her from playing Donny's "L'Autre Danger" ("The Other Danger") in Vienna. The grip was followed by a severe form of bronchitis, and she has now been obliged to give up all starring plans and go to San Remo to recuperate. Her projected tour in Russia this year has been given up.

DR. A. W. CHASE'S 25c CATARRH CURE ... 25c.

Is sent direct to the diseased parts by the Improved Flowing. It cures catarrh, clears the air passages, stops droppings in the throat and permanently cures. Can be used in every case. Free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

When charity begins in the homes of some men they lock the door and keep it there.

BICKLE'S Anti-Consumptive Syrup stands at the head of the list for all diseases of the throat and lungs. It acts like magic in breaking up a cold. A cough is soon subdued, tightness of the chest is relieved, even the worst case of consumption is relieved, while in recent cases it may be said never to fail. It is a medicine prepared from the active principles or virtues of several medicinal herbs, and can be depended upon for all pulmonary complaints.

Gray & Parker, 150 Dundas Street

DIDN'T WEAR A CROWN

Princess Yolande Disappointed With the King.

London, May 11.—King Edward, says the Rome correspondent of the Westminster Gazette, has come, seen and conquered all with the exception of the Princess Yolande, the eldest daughter of King Victor Emmanuel.

She had imagined that King Edward was coming especially for her benefit, so her disaffection is easily imagined, when not only did he prove to be middle-aged, but she was kept in her nursery and not allowed to come out without special permission. The princess, however, decided not to endure such an injustice. One morning while her parents were busy she drew the door open and slipped out unseen. But mamma's eyes were sharp and she discovered her daughter hiding behind a huge chair.

"Yolande, why did you run away?" asked the Queen.

"I did not," she replied. "I only wanted to see King Edward's crown, and Miss Dickens kept me in the nursery. The nasty man has not got a crown after all."

REDUCING STOCK

.....SALE.....

THERE ARE A hundred and one reasons why

our REDUCING STOCK SALE should be attended.

Our stock must be reduced, and we are able and willing to make price reductions, the equal of which no other store is offering at the present time. Briefly specified, we mention a few of the BARGAINS. There are hundreds of others that never get a word in the papers.
