CONSERVATIVE SLOGAN GOOD WORK

"A Government Owned Railway Not a Railway Owned Government."

R. L. Bordon, the Conservative London Makes a Great Speech in Massey Hall Teresto, to An Enormous Audiencegraphs That Furnish Food For Refle tion By Every Elector of Canada.

Toronto, Oct. 5 .- "A Government owned railway not a railway owned was the battle cry given by Mr. R. L. Borden, the Conservative leader at the great meeting held here in Massey Hall last night. The body of the great house was filled with men, and in the bal-conies there was a large gathering of women. The stage was appro-priately decorated with flags and suitable mottoes, the principal one being that quoted stretched across the entire stage. The band of the 48th Highlanders aroused enthusiam by rendering appropriate selections before the speaking began.

Cheers For the Leaders. When Dr. Nesbitt, the chairman, appeared at the head of a line of distinguished Conservatives, including in this order, R. L. Borden, J. P. Whitney, E. B. Osler, Hon. Geo. E. Foster, A. E. Kemp, Rev. Dr. Wild and W. R. Brock, the audience burst into cheers. The cheering was prolonged and gained strength as the minutes passed. Several times

local Liberal-Conservatives held a splendid rally last night in Northwood's Hall. There was a big crowd present and everybody was very enthusiastic. The Liberal-Conservatives are anxious for the election; are eager for the contest.

Dr. Thornton presided in his own happy and breezy way. He said that the Grits knew the power of ridicule and were attempting to use it against H. S. Clements. The Doctor pointed out that the Liberals were getting somewhat frightened when they found ot necessary to adopt such tacties and this was a good sign.

ties and this was a good sign.

Dr. Thornton called attention to the fact that the enemy were following out their usual tactics of belittlering our representation, but as he pointed out that intellectually, morally, physicially and in all other respects H. S. Clements was the equal to and superior of the Reform representation. The cry that he was a very strength rather than sentation. The cry that he was a young man was strength rather than weakness. A VOTE FOR GEO. STEPHENS MEANS A VOTE FOR A BONUS BY THE COUNTY OF KENT OF \$796,650.

The Hon. Mr. Blair, the only practical Railway man in the Laurier Cabinet, put the total cost to Canada of the building of the Grand Trunk Pacific Railway at \$139,000,000. This was before further concessions to the big corporation were made by the Laurier Government in 1904. The population of the Dominion at the last census was 5,371,315 and dividing this into \$139,000,000 the cost per head of population is \$25.87. That is, every man, woman and child in Canada will contribute this amount directly or indirectly to the big railroad corporation for the carrying out of this mad scheme. On this basis Electors of the County of Kent are asked to vote this bonus of \$25.87 per head, or, according to population in the County of Kent, \$796,-650.00 for the county. A vote for George Stephens is a vote for this great corporation bonus for a railway 600 miles to the north of us. ARE YOU VOTING FOR THIS BIG BONUS?

the tumult ceased, only to be revived when the chairman, Dr. Nesbitt, stepped forward promptly at 8 ed when the chairman, Dr. Neshit, stepped forward promptly at 8 o'clock, to open the proceedings. His remarks were very brief, and as the chief was introduced by E. B. Osler the audience in great part rose to its feet. Mr. Borden was undoubtedly pleased with the welcome. Two pleased with the welcome. or three times he attempted to start, when the cheering was renewed. Mr. Borden's address occupied two hours and covered all the topics prominently before the electors.

MR. BORDEN'S POINTS.

Summarized, Mr. Borden made

these very clear points in the course of his speech: "Laurier and the Larger Canada" is the watchword The Globe has given. I have been under the impression that Canada is a little bit smaller than it was when he took up the Government of this country. The true motto should be "Laurier" and the Larger United States."

The Railway Situation.

We have given to railways no less than \$226,500,000, or \$13,500 for every mile of railway we have; and we have given no less than 60,000,000 acres of land or 3,500 acres a mile. The total capitalization of the 19,000 miles of railway is \$900,000,000,000.

ooo.

If our resources are to be developed, it is necessary that we should have not only a national policy in fiscal matters but a national policy in transportation matters as well.

I have not one word to say against the Grand Trunk Railway directors for making the best bargain they for making the best bargain they can; they are trustees for their shareholders. But the Government of Canada should have seen to it that \$150,000,000 of the people's money did not go to build up American ports.

can ports. A Telling Contrast.

I have said that the direct liability of this country in respect to this railway is between \$155,000,000 and \$171,000,000, including \$6,000,000 for the Quebec bridge. The total financial liability of the Grand Trunk is a guarantee of bonds to the extent of \$14,500,000.

We are partners of the Grand Trunk in this project. We supply nine-tenths of the capital and the G. T. R. supplies one-tenth, but what is the division of the profits? It would be better for the people of Ca-

A GOOD -TART

It was very gratifying to local Liberal-Conservatives and their friends who attended the inaugural rally in the Northwood's Hall rooms last night to see the zeal and energy with which the workers are entering the campaign. The spirit or unanimity and confidence was prevalent and every man in that splendid audience was volunteering for service. A good cause, a worthy lead r and loyal y and enthusiasm all down the line are magnificent inspirations to the best work. And the best work means wictory !

WELL DONE!

Just a word of congratulation to the members of the City Council for taking up so promptly and vigorously the project to build a new market building.

In strongly urging this move upon them The Planet was giving vent to the unanimous verdict of every citizen who had the interests of this splendid civic institution at heart.

And the citizens-one and all-will heartily endorse their representatives in the action taken.

IN A NUTSHELL.

One of the great issues of the present campaign is the Grand Trunk Pacific. Much has been said about it-more will doubtless be said. It is a big matter-it is much beclouded in mathematics by our "Liberal" friends. Why?

What does this big corporation deal mean to us? What effect has it on the peckets of the people of Kent

Simply this: A VOTE FOR GEORGE STEPHENS MEANS A VOTE TO GIVE A BONUS OF \$796,650,00 TO THE BIG RAIL ROAD CORPORATION FROM THE PEOPLE OF KENT COUNTY.

Just figure it out-and think it

A DANGEROU COMPACT.

The fact that the Ottawa ministers have entered into a compact with Messrs. Ross and Stratton for the purposes of this election is the startling feature of the campaign just opened. It is a declaration of war by the forces of evil against the rights and liberties of the sovereign people. By Geo. W. Ross the terms of this

deal are candidly acknowldged. That politician announces in an interview with La Presse of Montreal that he has engaged to "Deliver Ontario" to result that I gave away several tried and I was so pleased at results that I gave away several deal are candidly acknowldged. That the Ottawa men. When he has "delivered" the goods the other parties to the contract are to repay him by helping to hold Ontario against the will of the province.

crimes is to be turned Ottawa people, and these gentlemen are to reciprocate by finding the money with which to enable the Ross government to recover itself by buying or stealing a majority.

One of the many signs of the activity of the employes of Mr. Ross, under the agreement that has been entered into, has been exhibited at the Soo. There officers of the Ross government have been engaged in the preparation of federal voters' lists for polling divisions in the woods where no voters are to be found. Hundreds of names have been enrolled, that they may be voted on the Minnie M. plan on polling day, and that the vote of the honest taxpaying citizen may be nullified.

That the compact is both criminal and corrupt there is no manner of doubt. It is criminal because of the work that is to be done under it. It is corrupt because of the reciprocal considerations that are to be given for such work. In an essecial sense it is an insult and a danger to the province of Ontario, and as such it ought to be resented.

Why should not each Government be judged by itself and upon its own issues? Why should not the people be free to express their own views? Why should a provincial ministry that is disliked because it is dishonest be allowed to "deliver" the province to politicians in the federal arena?

Are the people of Ontario to be sold as chattels, or as cattle, by Messrs. Ross and Stratton? Are we going to permit these men to "Deliver The Goods" and to receive in return money or other considerations by which they may steal for the third time the positions which the people have or-dered them to vacate? If we wish to strike at political rottenness and public immorality we must aim a blow on Nov. 3 at the corrupt and insulting Ross-Stratton compact with the Laugier Government .- Mail and Empire.

TRUSTEES LAUD SCHOOL FAIR

Arrangements Completed For Unique and Mammoth Enterprise at Central School.

Mr. Robertson Urges Discontinuance of Opera House Concerts-Other Matters Discussed by the

The citizens, and especially the parents of Chatham, are to have presented for their benefit, by the pupils and teaching staff of the Central school, something the like of which has never before been attempted in the educational circles of the Maple City. It is a School Fair, and cial price it will be held on October 20th, 21st and 22nd.

The idea of a School Fair, which is being met with by universal favor, originated with the energetic princ:pal of the school, J. W. A change was made in the janitorship of the Central school. The managers found that under the present arrangement Mr. Snell, the janitor, had too much work to look after. Now that the winter season is coming on his duties will be necessarily increased. Mr. Snell's present salary is \$776 per annum.

Mr. Paxton moved, seconded by Mr. Clements, that Mr. Snell's salary be fixed at \$500 per annum and that Mr. Edwards, a skilled fireman, be appointed assistant janitor at a salary of \$275 per annum—the duties of each to be defined by the managers of the school. Both of these gentlemen have been approached on this arrangement and both have expressed themselves perfectly satisfied with it. The resolution, therefore, was carried.

JAIL STATISTICS

Some Facts and Figures in Regard to the Chatham Jail and its Inmates During the Past Year.

The jail year ends on Sept, 30th and the returns for the year are then figured up in the Sheriff's office, this has been done for the year just closed, and the figures are interestinging. Just 130 persons were committed to jail during the year, 122 men and eight women. Of that number 11 were under 16 years of age. Apparently the Chatham girls are better than the Chatham boys, for of the eleven only one was a girl. Apparently the punishment meted out under the statutes is sufficient and answers the purposes of not only out under the statutes is sufficient and answers the purposes of not only deterring some from crime, but as also having a curative effect on first offense criminals. While 119 were committed for the first time only 10 were second offense persons and only one was a thirder. This is a satisfactory feature. Nine were given another chance and released on suspended sentence.

ed sentence.

In the matter of nationality, the Scotch had two representatives. The English and the Irish had this beaten by one, but the only female in the three nationalities was a Scotch woman. Canada furnished 96 of the criminals and the United States 25.

In religions, the Methodists had 38. In religious, the Methodists had 38. They led. While of the other denominations classified the Presbyterians had the Tewest representatives, with 15. Marriage seems to have a good effect, as 50 of the prisoners were married, while 80 were single. Whiskey didn't seem to be the cause of all the crime, as 95 were reported temperate and 35 interverse.

eported temperate and 35 intemper Following are the statistics for the year ending Sept. 30th, 1904, the first figures being the number of males, second the temales, and third the total.

The possessor of 14 diplomas and certificates, who wants no money that he does not earn. In order to convince patients that he has the ability to do as he says, Dr. Goldberg will accept you case for treatment, and you need not pay one penny until a complete cure has been made; he wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for all chronic, nervous, blood and skin diseases, which he accepts for treatment. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney troubles, heart disease, physical and nervous debility, lack of vitality, etc.

The doctor realizes that it is one thing to make claims and another thing to back them up; so he has made it a rule not to ask for money unless he chair that you will willingly pay him a small fee. It seems, therefore, that it is to the best interests of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge; if you have lost faith write him, as you have everything to gain and nothing to lose; you must remember not one penny need be paid until you are cured. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him simply 17. Detroit, Michigan. QUAINT ALKMAAR AND ITS ANCIENT

Town In Northern Holland Which For Over Two Hundred Years Has Had the "Rights to Weigh" Every

Though Eldam, on the Zuyder Zee, rives its name to those rose red spheres we know as "Dutch cheeses," which are instinctively associated with in-digestion, yet it is Alkmaar, in northern Holland, that conduces to the weeky importance of this edible of commerce, as any one who has ever stood in the quaint old market place upon a Friday, and about the hour of noon will have speedily come to understand.
For the Dutch cheese producer, indeed, "all roads" may be said to lead to Alkmaar, likewise all waterways, and there are many of them. Thither come the cheeses by rail, by cart and by boat; you stumble over them inside the station as you alight from the train; they dispute the right of way between the rows of narrow, many col-ored and curiously gabled houses; they stand in solid stacks upon the landing stages—heaped up like cannon balls in readiness for an immediate bombardment and, if 'twere not libelous to breathe aught savoring of disrespect to a friendly country's national comesti-ble, as deadly, possibly, also to an unaccustomed stomach as their leader prototypes. But, be that as it may, the cheese

market is a rare good sight in quaint Alkumar when the peasant proprietor and his vrouw come in to drive their bargain at the weigh hoouse with the wholesale agents for and near, and every hostelry does its own brisk trade with both parties. Across those rounded bridges peculiar to Holland come shoals of peasant folk in pic-turesque attire. Who does not know by now the dress with its glorious cap and golden "corkscrew" ornaments, the pride of many a generation, making pretty faces doubly bewitching and lending some subtle attraction to even the hardest featured dame well up in years? On they come--clatter, clatter, clatter, voluble with their guttural fluency we somehow feel we ought to un derstand because of its confusingly familiar sound, but its very kinship to German sends us astray, and we listen and Misten till the jargon about the weigh hoouse becomes a more hopeless jumble of sounds than ever to our ears, and we content ourselves with turning our attention to the building itself. It stands where its richly painted facade can be seen clearly reflected in the cool, smooth waters of the neighboring canal, a dignified old pile, built in 1651, with an especial eye to the growing importance of Dutch cheeses, Alkmaar having in that year received its "right to weigh" from William of Orange, and thus every cheese changing hands from that date onward having passed from the producer to the dealer across the Alkmaar scales. The present ones, by the way, which have hung in their place since 1692, were made in Amsterdam at a cost of 858 guilders and, having conscientiously performed their duties without a hitch ever since, certainly speak volumes for the workmanship of 200 and odd years

Though the little town is thronged from earliest morn with orderly crewds of heavy Hollanders, it is not until the musical chimes within the all important weigh hoouse turret have signified the hour of noon by breaking forth in melody, generally from some well known comic opera, that the actual business of the day begins, although, "unofficially," both parties to already taken time by the forelock over a glass of hollands in some inn on the maarkt. Now, however, the cumbersome ware is carried within doors, the time honored ceremony is gone through and the ticket stating the correct weight of each given, after which act the money changes hands. It is a study in temperament, this weigh hoouse scene in the little Dutch town. No "hurry skurry" mars the calm of the place or disturbs the phlegmatic, pipe sucking individuals primarily interested in the transactions here going forward. The cheese alone seems riotous and inclined to wholesale insubordination, with a mind to roll hither and thither, possibly resulting from some "subconscious" cows, green meadows and buttercups and a disinclination to coming bondage upon the prosaic shelves of some pro

vision dealer. If so, we honor the "last kicks," futile though they be, for accustomed hands soon pounce upon and gather up the stock, of which each single cheese weighs from two to six kilos, and they are swiftly carried out to make way for the next lot. And so on, all through the day, does the trade proceed until the last "Eidamer" has been disposed of, but the extent of the business done in so quiet and orderly a fashion on "cheese market days" may to some extent be gauged from the fact that no less than 5,000,000 pounds weight of Eldam cheeses are computed to pass through the Alkmaar weigh hoouse annually before proceeding to Amsterdam and Rotterdam, where each is duly invested with it familiar red coat, prior to more extended trav els, by land and by sea, often into the heart of the unknown, travels, however, which almost invariably end within the interior of man.

Their experiments so far have been with magnetic ore obtained from Taranaki, N.Z., but they claim that they have now so far perfected their process as to be able to treat with equal success all classes of iron ore and effect a saving of fully \$10 per ton over the present manner of making iron and steel.

CURIOUS CALENDARS.

The Sunshine Society, one of the Maple City societies which is doing a magnificent and telling work among the poor of the city, met Monday afternoon in Mrs. George Heyward's parlors, Victoria Block.

There was a good attendance and much interest was taken in arranging the work for the coming season. It was decided to hold a cooking sale a week from Saturday.

This Society is one of the best charitable associations in the Maple meaning of parapegma, or peg-cal-endar, a name by which other stones have been rather mysteriously known.

THE S. S. CENSUS

There was a fine muster of the church and Sunday school forces of the city last night in the school room of the First Presbyterian church at the call of the City Sunday School Association.

There is no more inspiring sight and there is no more hopeful sign of the times than such a gathering of earnest and enthusiastic workers in the common cause, irrespective of sect or denomination.

Rev. Geo. H. Cobbledick, B. A., B. HISTORY SIDE OF WAR AN EDITOR'S **EXPERIENCE**

PROF. M'CURDY, OF TORONTO UNI-VERSITY, GIVES MUCH DATA.

Asks Mis Audience to Choose Between Pagan God of War and Christian Prince Moab-The Prophet's Ideal Was Distinctly One of Peace...The Present Day

At the great peace meeting of the recent Friends' Conference in Toronto. Prof. McCurdy of Toronto University stated that he wished to deal with the historical side of his subject, "Religion and War." The Song of Miriam, he said, in which the line occurs, "The Lord is a man of war, the Lord of Hosts is His name," was narallaled in the great hymn of the the Lord of Hosts is His name," was paralleled in the great hymn of the first Tiglath-Pileser, the Bible morarch being the third of the name. Tiglath-Pileser had lived 1200 B.C., and erected a monument to Asshur, the king of gods and men; Shamash, judge of Heaven and earth; Raman, the here who overwhelms his enemies; Adar, and Ishtar, the queen of war. The inscription showed that the spirit of the time in this respect was distinctly pagan, and the "Books of the Wars of Jehovah," of which a part remained, were in the same spirit. The Old Testament historians thought Jah a stronger God than Chemosh of Moab, but they knew by the Moabite stone that the Moabites thought their God stronger than Jah of Israel. A change came with the advent of the prophets. In Isaiah X, the great King of Assyria, claimed his conquests, "By my might and by my wisdom," and presented an early type of aggressive Imperialism. Habakkuk had a picture of a great king of Babylon, but addressed a God "of purer eyes" than did the

pagan monarch.
The prophets had introduced a new set of terms. Peace, truth, righteousmess, justice, loving kindness, were new words, or had different meanings than of old. Prof. McCurdy traced the development of the idea of peace, which was the salaam of the present

east, and at first meant complete-

ness, then contentment, and came to express the completeness of one's re-lations with some one else, and fin-

ally in a noble way came to mean satisfactory relations with outside communities. In the second chapter of Isaiah they had the splendid com-

sword against nation, and the earth shall lear." war no more." The war god in contrast to this ideal was a

pagan Moloch, to whom deluded Christian parents still sacrificed their children. The soldiers' oath was but the Roman sacriementum, and all wars now were undertaken to spread

righteousness. The first Emperor William of Germany had been "pious beyond the verge of unctuousness" in undertaking the Franco-Prussian war,

though Bismarck had schemed for

Great Britain had been the great-

pines.

Three factors were making for the ending of war; the progress of the arbitration idea; the fact that nations, armed to the teeth, were afraid of the result; and the fact

that shame was beginning to creep into the heart of the militarist. No true patriot and no true Christian could be a militarist. He joined with the poet who sought the God of Peace:

"I found Him in the shining of the stars; I marked Him in the flowering of the field; But in the ways of man I found Him not."

The color of the skin in the various races of man has never yet been scientifically accounted for, although numerous mythological stories have been told and senseless theories advanced as reasons for the remarkable variations in hue. Nor have we any certain data concerning the color of the cuticle of the primeval man, the original "lord of creation." A pretty African legend is that he was as black as the prover-bial ace of spades and that the present pale color of the Caucasian race is the result of the scare God gave Adam at the time of the fall.

It is proper to state here that the same legend says that the present black race are descendants of one of Adam's sons that was born and left Eden before the great change in color overtook our first parents. The Chinese believe that the original man was creature half god and half man and tha, his color came about as a result of bathing in a river of liquid gold. The Mussulmans, the American Indians and several oriental tribes and nations account for their prevailing red or copper color by telling the story of the Great Being creating the first pair from red kaolin, the common fire clay of the potter shops.

"LIFE PLANT" OF JAMAICA.

There is a creeping moss found in Jamaica, in Barbadoes, and other is-lands of the West Indies, which is called the "life tree," or more proper-ly the "life plant." Its powers of vitality are said to be beyond those any other plant. It is absolutely or any other plant. It is absolutely indestructible by any other means except immersion in boiling water or application of a red hot iron. It may be cut up and divided in any manner, and the smallest shreds will throw out roots, grow, and form buds. The leaves of this extraordin-ary plant have been placed in a closed air-tight, dark box, without moisture of any sort, and still they grew.

Mrs. Jones has gone through the experience of thousands of others. She has suffered as millions of patient women are suffering all over the world until they find the proper remedy. Mrs. Jones found it in Bu-Ju, the Kidney Pill, and naturally feels like telling her friends and the public generally of the benefit she received so that they too may be cured.

Rheumatism is only one of the many maladies that result from disordered kidneys and Bu-Ju is an infallible cure for Rheumatism if taken as directed. All druggists sell Bu-Ju. Do not continue to suffer: try it and you will and found that sixty of them were unnecessary. He is particularly anxious as to the two buttons behind on a frock coat. Taking a survey of the whole human family, he finds that there are \$00,000,000 buttons worn, all of them useless. MULAL ABOUL AZIZ AND THE PERDI-

The Sultan's Brief Reign Has Been Full of Turmoil-He Would Like to Rule His Subjects Better Than They Will Permit Although Theoretically He Has Absolute Power in His Realms.

His sheeresian majesty Mulai Abdul Aziz, the Sultan of Morocco, who has come into prominence in connection with the capture by bandits of an American citizen names Ion Perdicaris, is a monarch of progressive tendencies who does not get as much tendencies who does not get as much chance to reign as he would like in spite of his theoretically absolute powers. In the feudal age of Europe brigandage was a very profitable though more or less perilous means of livelihood. Morocco is one of the countries where it still flourishes in its pristine vigor, and the advisers of the Sultan, who like to have things jog along in about the old way, are averse to any energetic meaures looking to its suppression.

Abdul Aziz is a clever sort of young fellow in his way. He likes foreigners and in their company is

His liking for foreigners and his desire to promote trade with foreign counto promote trade with foreign countries are not approved by the Moors, and there is always a good deal of scheming going on to thwart the progressive ideas of the ruler. The feeling against foreigners is so strong that they are practically kept out of the capital, Fez, altogether. Ion Perdicaris, who was seized and carried away to the mountains by the brigand chief, Raisuli, and his band, is of Greek parentage, but American birth. The bridge went down as well as the load on my back and I struck on the ends of the back and I struck on the ends of the sleepers, causing a serious injury to my leg. Only for its being very fleshy would have broken it. In an hour could not walk a step. Commenced using MINARD'S LINIMENT and the third day went to Montreal on business and got about well by the use of a cane. In ten days was nearly well. I can sincerely recommend it as the best Liniment that I know of in use.

CONFIDENCE UNDER WATER. Strained His Back

How This First Essential In Swin A person who is timid about the wacan overcome the greatest part of difficulty of learning to swim by

the proper use of a wash basin. obstacle that nervous persons meet in the water is not the conscious fear of drowning, but an involuntary nervous shock that causes them to gasp for air even before their faces are water. It is this gasping for breath that drowns people.

They cannot control the gasping, and consequently they often snap for breath when their mouths are under water. As the buoyancy of a human body is easily disturbed, a few pints or quarts of water swallowed in these involuntary gasping acts serve to sink s person who otherwise would float long

enough for help to arrive.

Now, if a person afflicted with this involuntary fear of getting under water will thrust the whole face gently into an ordinary basin full of water every day and stay there as long as possible it will be only a short time before the gasping sensation begins to disappear.

n the bathtub should be used, so that the bather, lying full length, can immerse the entire head. At first this will bring back all the old frightening sensations of suffocation, but the attacks will be of short duration, and within a few days it will be found that the total immersion can be maintained for almost a full minute without dis

comfort of any kind. Once a person has learned how perfectly comfortable one can be under the first great step has been taken toward learning to swim.

Many otherwise good swimmers have never really acquired this calmness under water. The result is that when such a swimmer is caught in an under-tow or a swirling current his confidence leaves him as soon as he feels himself dragged under the surface. Instead of diving or remaining motion-less and so preserving his breath he gasps involuntarily and naturally swallows water, and the choking sensation at once forces him to exhale what breath he has left and gasp again. Confidence under water should be the first lesson in swimming.

"When I am called to a house where "When I am called to a house where is a baby whose sex I do not know," said one, "I am always embarrassed as to how to speak of it. A mother always feels better if you ask her, 'How is the little girl?' or 'How is the little boy?' as the case may be, as she usually takes pride in the sex of the child, whichever it is." One of the most famous physicians

in the world remarked:

"I never have any trouble in that regard. I make it a rule to call all babies whose sex is unknown to me 'Francis.' The mother doesn't know whether I

mada to go just one step forward and pay ten-tenths for that railway and wn and operate the whole road. A Knock-Down Query?

Will any Liberal tell me if Government operation is good from Quebec to Montreal it is not good from Montreal to Georgian Bay?

We have been told by Mr. Blair that the only way to make the Intercolonial Railway pay is to extend it to the Georgian Bay. That is our policy.

policy.
Why cannot we free the Intercolonial Railway from political interference? If the Conservative party is returned to power we will free that railway from partizan politics and political interference. In Europe, Government railways have been made a success and I'm slow to believe a success and I'm slow to believe that we in Canada are so incapable or so partizan as not to make a success of Government ownership railways as they do in Eurpe.

The Wish of the People. If it is the wish of the people of Canada, expressed by their voice at the polls, that the transcontinental the polls, that the transcourage railway, railway shall be a national railway, will then the Comservative party will place such legislation on the statute book of this country. The motto of the Grand Trunk

Company in constructing the rail-way seems to be "No Canadians need apply." We don't want our labor to compete with the pauper labor of the United States. We stand for that grand old national policy which was laid down by Sir John A. Mac-The policy of the Liberal party in

the west is laid down in a pamphlet. It is directly opposed to the policy of protection. If that be the issue we are prepared to accept it.

Adequate Protection

The policy of the Conservative party in respect to the tariff is the same in the west as it is in the east. Ours is a policy of adequate protection for the industries of this country.

The British preference was hailed as a proof of the loyalty of the Liberal party, but in reality it was the result of a compromise between the two warring factions in the Cabinet in respect to the tariff.

in respect to the tariff.

The Conservative party is ready to negotiate with the mother country and the sister nations for the consummation of this great policy (Chamberlain). Our policy on this question is a policy of action as opposed to a policy of inaction on the part of the Liberals. Government On Trial.

It isn't Lord Dundonald who is on trial; it is the Government of Canada. Was Lerd Dundonald right when he said that the efficiency of the militia was impaired by the interference of politicians? Lord Dundonald

is a man who believes in a citizen soldiery and not in militarism.

Let us believe that the votes are counted as they are deposited. I am not charging these crimes against the rank and file of the Liberal party but the rank and file of the Liberal party. the rank and nie of the Liberal par-ty, but against the machinists on be-half of the Liberal Government who are willing to accept the returns. Remember the machine first belonged

to the Federal Liberal party.
Let me admit that the very best
service you can perform to the country is that you turn us out of power the very first time we are found un true to pledges we have given.

THE O. O. I. LITERARY AND DEBATING SOCIETY

The first regular meeting of this Society was held yesterday afternoon n the room of Form 3A, President B. Bedford eccupying the chair. Miss Olive Fletcher, Secretary, read the minutes of the organization meeting

of last week.

The subject, "Resolved that a monarchial system of government is better than a republican system," was ably debated by J. B. Lawrence and W. G. McGeorge, affirmative Misses Mary I. Oliver and Annie White negative. The judges gave their decision in favor of the affirmative. As a fitting conclusion to the debate, a clever essay in the form of a letter. as a clever essay in the form of a letter, after the manner of Jane Welsh Carlyle, was read. It was written by Florence Dunlop, and being in a humorous vein, it sent the Society into convulsions of laughter. D. S. Paterson acted as critic.

... THE HOUSE OF QUALITY ...

"If a man can write a better book, preach a better sermon or make a better mouse trap, though he build his house in the woods, the world will make a beaten path to his door."-EMERSON.

In other words, superiority, like truth, is mighty, and will prevail. We are selling the BETTER CLOTHING, and true to the prophetic lines of Emerson, the world is making a beaten path to our door. We were never satisfied when we sold clothing just as good." That availed us little, though it kept us alive. But it was not until we produced the "better" and the "best" that the potency of the Emersonian pnilosophy burst upon us with full force.

If you haven't found the path, you will. It is only a question of time.
