IRISH BISHOPS DENOUNCE THE HOME RULE BILL

OPINION GROWS THAT NEW IRISH MEASURE WILL NOT GO THROUGH

Archbishop Walsh Describes Bill as "Bad All Round" - Despite Possible Concessions by the Government, Believed that Great Nationalist Convention Will Decide Against the Measure.

LONDON, May 14.—Opinion in the lobbies of the House of Parliament on the prospects of the Irish council bill which is designed to meet the demands for home rule, took a very pessimistic turn last night by the growing belief that it is to be held in Dublin on May 21 and 22 will not accept the bill. In this case, in accordance with an understanding between the Irish Secretary, Mr. Birrell, and John E. Redmond, the Nationalist leader, reached during the negotiations which preceded the drafting of the bill, the government will make no further attempt to proceed with the measure.

During the last few days the Irish Catholic prelates have come out strongly in denunciation of the project. The Bishop of Limerick describes it as a "Groteous measure," while Archbishop Walsh says, "The bill seems to me to be a measure that I will find it difficult to say anything to induce the convention to approve of it."

It is believed that the effect of these utterances will be to prevent a qualified sanction, the condition being that the Government consent to certain amendments.

# IN A CLASS BY ITSELF

There are many emulsions of Cod Liver Oil, all more or less good, no doubt, and all very much alike, the principal difference being in the quantity and quality of the oil that enters into their composition, and perhaps something in the method of manufacture.

# FERROL

on the other hand, while it is an emulsion of Cod Liver Oil, occupies a place entirely above and beyond the ordinary preparations above referred to.

The reason is, that FERROL combines with the iron and phosphorus, which all other emulsions lack, and without which no emulsion is anywhere near perfect.

In FERROL the well-known virtues of Cod Liver Oil as a flesh and weight producer, the unparalleled qualities of Iron as a blood builder and purifier, as well as the undoubted advantages of Phosphorus as a Nerve and Brain tonic, are all not only combined and retained, but wonderfully enhanced by the process of amalgamation.

No argument is necessary to prove the inestimable value of such a preparation as FERROL in the treatment of Coughs, Colds, Bronchitis, Croup and all Bronchial or Lung Troubles.

FERROL is not a patent mystery. The formula is freely published. It is prescribed by the best Physicians. It is endorsed by the most eminent Medical Journals. It is used in prominent Hospitals, Sanitariums, etc.

## SIR WILFRID SAVES THE SITUATION

### CANADIAN PREMIER PRAISED FOR ATTITUDE AT IMPERIAL CONFERENCE.

LONDON, May 8.—Sir Wilfrid Laurier, Hon. Mr. Deakin and Dr. Jameson were unable to visit Manchester and to receive the freedom of the city, so the Lord Mayor of Manchester and other high officials are coming to London tomorrow to present the premier with the freedom of their city. The ceremony takes place at the Hotel Cecil.

At Lord Strathcona's garden party at Kenwood yesterday, Sir Wilfrid Laurier was congratulated many times on his attitude at the conference. The Canadian press representative heard one enthusiast warmly congratulate Sir Wilfrid for having "saved the situation."

Another Point of View.  
LONDON, May 8.—The Morning Post has an article signed "E. B.," in which the writer says the political issue of the Dominion is which guild of professional politicians in Canada is to enjoy the spoils of office after the general election of 1908. While the chiefs of both parties are men of unquestioned probity, the large proportion of the rank and file are actual or potential "hoodlums." It is for this reason that the Canadian politician will be degraded to the American level. There is nothing these petty creatures of small issues dread so much as the intrusion of large issues of national and imperial policy into party life, because they know whenever the people awake to some great and vital question the small man is relegated to his native obscurity. But he is now paramount and able to control the so-called leaders of Liberalism. This is the explanation of Laurier's attitude at the conference. Occasional attacks Laurier, for Ontario towns. Fielding, he says, would have acted much differently if he had represented Canada. Quebec hotels spread Laurier's silence, but the West "has no use for it."

## ANOTHER BIG FIRE.

Involving Loss of \$40,000, Reported From Haileybury.  
HAILEYBURY, Ont., May 8.—The silver district, that was nearly wiped out by fire a few weeks ago, suffered another heavy loss this morning. Seven business premises in the block opposite the Vendome hotel were burned with a loss of \$40,000 and small insurance. The losses are: Trimley's bakery, D. John's assay office, A. J. Garsen's grocery, A. H. Budd's drug store, Chinese restaurant and laundry, and T. Nicholson's barber shop.

No sale now for any but St. George's Baking Powder. Glad of it, but I don't get any more complaints—but lots of compliments. So out with these old lines. Write The National Drug & Chemical Co. of Canada, Limited, for a Free Cook-Book.

## THAW'S RETRENCH TO SAVE EXPENSES

DONATIONS ARE CUT SHORT—TRIAL MADE BIG HOLE IN FORTUNE.  
PITTSBURGH, May 8.—It was admitted by Frank Semple, the financial agent of the Thaw estate, that the financial condition of Mrs. William Thaw since the trouble into which Harry K. Thaw has plunged the family is not such that she is giving away large sums to charity. In fact, Mrs. Thaw was to give \$50,000 to Westminster College, a Presbyterian school to be built near Denver. The report also had it that Mrs. Thaw might possibly increase her donation to \$200,000.

## SENATOR GEO. ROSS MARRIED AGAIN

WEDDING OF LATE ONTARIO PREMIER A VERY QUIET AFFAIR.  
TORONTO, May 8.—The marriage of Hon. G. W. Ross, former premier of Ontario, to Miss Mildred Peel, a daughter of the late John Peel of London, was celebrated this afternoon at 2:30 in the home of Hon. Mr. Ross. Only the sister of the bride, Mrs. Bell, her family and the new relatives of the Senator were present. The bride couple left for a lengthy honeymoon in the Western States.

## EYESIGHT RUINED BY CARBOLIC ACID

BRANDON MAN MEETS WITH PAINFUL ACCIDENT—POLICE ITEMS.  
BRANDON, Man., May 8.—William Priest met with a painful accident last evening which may cost him the loss of his eyesight. Priest was holding a bottle of carbolic acid when he moved suddenly to catch a falling door, with the result that the acid flew over his face, causing severe burns. Both eyes were badly injured.

## G.T.P. HANDICAPPED BY LACK OF LABOR

### COMPANY WILL HAVE DIFFICULTY TO COMPLETE WITHIN CONTRACT TIME.

OTTAWA, May 8.—The Grand Trunk Pacific and its contractors are going to have a hard time to complete their line from Winnipeg to the coast by 1911, the date contracted for with Parliament. The weather has been going against the work and this, combined with the scarcity of labor and lack of motive power on other railways has thrown the contractors behind the better part of a year behind expectations. Thus time and transportation are the chief troubles. The contractors have had many miles of line between Portage la Prairie and Edmonton and have rails ready to lay them on. Contracts were entered into more than a year ago for all the ties that would be required, but the men had trouble last summer with low water in the Western end of the Yellowhead accessible points. This winter's snow was too deep to get them out and this summer there are none.

Mr. Hays expected that the G.T.P. would be able to assist in hauling out the crop this summer, but it does not appear that these expectations will be reached. The whole of the route from Winnipeg to the Pacific has been applied with the exception of about twenty miles on the Eastern end and also about seven hundred miles on the Western end from the Yellowhead pass to the coast. It is known that this will be within the grade limit of four-tenths of one per cent, with the exception of the last grade of twenty miles. On this stretch the grade will be about one per cent.

## A BROKEN RAIL CAUSES WRECK

### TWO PASSENGER COACHES OF HAMOTA-BRANDON TRAIN OVER-TURNED.

RAPID CITY, May 8.—At 8:50 this morning, mixed train No. 154, running from Brandon to Rapid City, was wrecked at a broken rail two miles east of Pettapiece. The first and second class coaches went down the dump track. The baggage coach and the first and second class coaches were overturned. Seven of the passengers, five men and two ladies, were hurt. Mrs. Ellis and Mrs. Rooker, of Hamota, seriously. G. L. Stone, of Rapid City, may also be seriously hurt. The others are all minor injuries. The wrecking train from Brandon reached the wreck at 12 o'clock and the track is now clear. The injuries were all sustained by falling in the coaches when they turned over. Dr. Crookshank, Dr. Altun and Dr. Dickson were taken to the wreck by the G. P. R. who are using every effort to make the coaches comfortable, using a farm house for a hospital.

## THE CHESTER CUP.

French Horse Wins Big Handicap—Cheeses as Prizes.  
LONDON, May 8.—The Chester Cup, a handicap of 2,500 sovereigns and a cup of 300 sovereigns and the third 200 sovereigns was run over the old cup course, which is nearly two miles and a quarter, at Chester this afternoon. The winner turned up in M. M. Callaghan's "Quercus," a four-year-old French horse carrying 8 stone. Mr. R. C. Thompson's "Biblic," 5 years, was second and "Torpunt," who was a yearling, was third. Twelve horses ran. A champion Chester cheese was presented to the owners of the first, second and third horses.

## EXPOSURE IN IRISH CIVIL SERVICE

OFFICIAL RETURN SHOWS MANY APPOINTMENTS ARE DUE TO FAVORITISM.  
DUBLIN, May 8.—An official document which is of supreme interest to Irishmen seeking employment in the Irish government offices has at last been issued on the authority of the new chief secretary. It gives the names, ages, lengths of service, official position, method of appointment of all salaried officers in every government department in Ireland except those appointed by open competitive examinations, and the postoffice staffs. This document has a history that is unique. Two years ago, Jaacomb MacVeagh, M.P., who combines the qualities of a wit and a statistician, moved in the House of Commons for this return with the object of showing that a number of hangers-on of the government then in power were being pitchedforked into lucrative appointments. He eventually won.

## CHORUS GIRL REFUSES TO WED.

LONDON, May 7.—Miss Estelle Christy, the prettiest of eight American girls who came to London to appear with Miss Eina May in "Nelly Kelly" absolutely declines to marry Lord Elliot, fifth son of the earl of St. Germain, one of England's wealthiest peers. Lord Elliot proposed to Miss Christy twice and has been twice refused. Miss Christy says that any subsequent proposals will have the same treatment. Instead of staying in England and becoming Lady Elliot, she declares she is going back to America to resume her work on the stage, sailing next week.

TO RE-ARRANGE MOUNTED POLICE

SEVERITY OF WINTER CAUSED CONCENTRATION OF STRENGTH AT CERTAIN POINTS.

OTTAWA, May 8.—The termination of the western strike will be an immense relief to the mounted police who have been hung up in the oddest manner during its continuance. Urgent need exists for a redistribution of the force throughout the two prairie provinces.

For one thing, the severity of the winter caused the force to be put on patrol work in the Saskatchewan settlements. The winter is over and it is necessary to return the men to their normal stations. Again there has been an accumulation of prisoners at points like Calgary and as the prison accommodation is insufficient, a comparatively large number of constables is needed at each place to guard them. To effect this concentration men have had to be withdrawn from important outlying points, so that on this score also a redistribution is immediately necessary. But in the frame of mind which existed among the western public while the mining troubles at Athabasca were being continued in a movement towards the miners. As a result men necessary to return the men to their normal stations. Again there has been an accumulation of prisoners at points like Calgary and as the prison accommodation is insufficient, a comparatively large number of constables is needed at each place to guard them. To effect this concentration men have had to be withdrawn from important outlying points, so that on this score also a redistribution is immediately necessary.

TERROR REIGNS IN GUATEMALA

GENERAL EXODUS OF BETTER CLASSES—GEN. TOLEDO TO HEAD REVOLUTION.

MEXICO CITY, May 12.—It has been learned that General Salvador Toledo, who is designated as the leader of the coming revolution against the Cabrera Government in Guatemala, is enroute to New Orleans and will reach there in about a week. Gen. Toledo is said to have completed all arrangements for the invasion of Guatemala and that actual fighting will start within thirty days. According to refugees a veritable reign of terror now exists in Guatemala. Ten thousand of the wealthy and business classes have left Guatemala since the alleged attempts on President Cabrera's life. The stories of the atrocities practised in the overcrowded prisons are revolting in the extreme. Cabrera is believed to have 30,000 troops along the Mexican and Honduran frontiers.

FRAUD IMPERILS SEVERAL LIVES

SEAMEN ALLEGED TO BE ENDANGERED BY POOR BOILER TUBING.

PITTSBURGH, May 9.—Wholesale

trifling with the lives of American seamen was alleged at the opening in the United States District Court today of the case against J. J. Dunne, Charles L. Clapp and Frank L. Emmet, charged with conspiring to furnish defective boiler tubes for some of the largest warships in the United States navy. These men were employed at the plant of the Shelby Steel Tube Company at Greenville, Pa., which had a subsidiary contract from the Babcock & Wilcox Company for 450,000 feet of boiler tubing.

Emmet, who made the information that set these proceedings on foot, pleaded guilty. The other two pleaded not guilty. United States District Attorney Dunne, in an opening, explained that Emmet had turned state's evidence to let the sensational details of this alleged plot to defraud the government and place the war vessels, Pennsylvania, Louisiana, Maryland, Charleston, Nebraska, Minnesota, Vermont, Washington and Tennessee, in jeopardy. Each vessel named carried a crew of from 600 to 800 men, whose lives would be in constant danger.

He told how the alleged plot was carried out, including the theft of government inspector's stamps from a desk and the placing of them on tubes to secure their acceptance. Leading officials of many of the big shipbuilding concerns have been summoned as witnesses in this case.

DIGS GRAVE AND KILLS HERSELF

"MAKING A PLACE TO DIE IN," GIRL DECLARES WHEN DIGGING TRENCH.

PHILADELPHIA, PA., May 9.—Brooding over a disappointment in love affairs, Elva A. Ellison, a servant in the employ of Stirling Johnson, of No. 501, Allen Lane, Chestnut Hill, committed suicide early this morning after having first dug a grave in the cellar of the house.

Miss Ellison was twenty-five years old. She was brought from New York by Mr. Johnson about four months ago. Her sweetheart ceased paying her attentions several weeks ago and the young woman became melancholy. Mrs. Mary Snell, the housekeeper, found the young woman in the cellar yesterday digging a lone deep hole in the earth floor. "What in the world are you doing?" asked the astonished woman. "Making a place to die in," replied the servant. "Well, you get up stairs and forget this nonsense," said the housekeeper, for the time the matter was forgotten. Mrs. Snell and the servant arose early this morning. The housekeeper went to the kitchen to prepare breakfast, and the girl remained up stairs to make the beds. Mrs. Snell heard two shots fired in rapid succession a few minutes after five o'clock and rushed up stairs. She found the servant lying dead beside a bed with two bullet wounds in her head. Both bullets had penetrated the base of the brain. Elva Ellison had no relatives in this city. A sister, Mertie Ellison, lives in Ithaca, N. Y.

THUGS IMPEDE PARIS FIREMEN

WHILE FIGHTING FIRES BELIEVED TO HAVE BEEN OF INCIDENTAL NATURE.

PARIS, May 12.—The entire fire-fighting force of the city was called out tonight to fight two great fires, both believed to have been of incendiary origin. The first was at the Avenue de la Chapelle, where violent and strong drink. He came to the city as usual and, upon entering, Denne's room a horrible sight was seen. Denne had thrown himself down on his back on his cot and had taken a dose of cyanide. Both barrels being loaded and the hammer pulled up, and had placed the muzzle against his right temple with the occupant of the room. Holding the muzzle firmly against his head with his left hand he had reached down and shoved back one of the triggers with his right. The big charge contained in a No. 12 Ely shell literally tore the top of the man's head and splattered his brains and the contents of his stomach all over the opposite walls. The dead man still retaining its grip on the barrel of the gun.

METHODIST MISSIONARY DROWNED.

NORTH PORTLAND, May 12.—Rev. E. Sibley Hines, aged twenty-five, and his wife, who were on a boat, were drowned while crossing the rough near Roche Percé yesterday on his circuit. Hines arrived from England last summer.

SPAIN IMPATIENT FOR THE STORK

NON-ARRIVAL OF ROYAL BABY CAUSES OUTBREAK OF PUBLIC INDIGNATION.

MADRID, May 9.—The extraordinary and as it may seem, elsewhere, the indelicacy of the queen and the condition of her majesty have been made from time to time by the Royal Faculty of Medicine, published in the Gaceta de Madrid. The last report dated April 2, and led to the belief that the birth would occur at the end of April or the beginning of May, but as it did not occur the people began to get rest excited and then alarmed. They indulged in wild speculations and suspicions. It is now recalled by the Correspondencia de Espana that the last previous official report on December 22 indicated the latter part of May as the date of the accouchment, and that paper prints the two bulletins side by side with a view to restoring public tranquility, showing a mistake obviously made by the court officials, who appear to be the victims of the public. It is now stated that the accouchment will not occur before May 20.

Preparations have been going on in expectation of an earlier date. Grandees and other exalted personages, including the prince of Spain and a host of bishops, have been staying in Madrid for days, expecting momentarily to be summoned to the palace. Meanwhile the queen goes about daily in the employ of Stirling Johnson, of No. 501, Allen Lane, Chestnut Hill, committed suicide early this morning after having first dug a grave in the cellar of the house.

THE "BARONESS" A CANADIAN

Madame Louise de Massy, Convicted of Manslaughter, Native of St. Cesaire.

DETROIT, Mich., May 9.—A Worcester, Mass., despatch says: Identified as Della Benoit of St. Cesaire, Que., by the statement of Worcester relatives, the so-called "Baroness" Louise Anlisa de Massy, the convicted murderer of Gustav Simon in New York, is no longer in the employ of Walter J. Malatesta. She is identified as the "Baroness" as that of her cousin, as has also Mrs. Henry Foley, both of Worcester. "Yes, I identified her picture in the papers, but I don't believe she committed that dreadful deed," said Mrs. Malatesta. The "Baroness" she said, was born in St. Cesaire, in 1831, and educated here.

BLOWS OUT BRAINS WITH A SHOTGUN

FARM NEAR THE CITY COMBUSTIBLES RASH ACT.

From Monday Morning's Leader. John L. Denne, a hired man on the farm of Thomas Young, near the Indian Industrial School, committed suicide by shooting on Saturday afternoon or evening. Denne, who was a man of about 40 years of age, has been in the employ of Mr. Young for about two years. A portion of his duties was to deliver milk in the city and he therefore carried a shotgun with him. He was addicted to strong drink. He came to the city as usual and, upon entering, Denne's room a horrible sight was seen. Denne had thrown himself down on his back on his cot and had taken a dose of cyanide. Both barrels being loaded and the hammer pulled up, and had placed the muzzle against his right temple with the occupant of the room. ## GIRLS SOLD FOR \$50 IN CHICAGO

DR. GRAY SAYS THAT PRICE IS PAID BY DISORDERLY HOUSES.

CHICAGO, May 10.—The Rev. Geo. W. Gray, leader of the "Forward Movement," told 500 clubwomen that traffic in young country girls is carried on in Chicago. He said that \$50 is the price paid for each victim corralled by the agents of disreputable resorts who make it their business to home-er every beautiful country girl who comes into the city alone and unprotected.

Dr. Gray was a speaker at the annual meeting of the Social Economics club. The meeting was held at Hill house, and fifty-seven representatives of fifty-seven women's clubs unburdened themselves of fifty-seven troubles.

Then came Dr. Gray. Every speaker was expected to talk troubles. Some were modest and contented themselves with telling of one trouble. Dr. Gray said he wanted to make trouble for the people who are responsible for the sale in Chicago to the highest bidder of beautiful young girls who come into the city from the country to make an honest living.

"The price of a beautiful young woman in Chicago today is \$50," he said. "Inside of an area one-fourth of a mile square, lying near here in Halsted Street, I have found 257 resorts and 1,769 fallen women. By our investigations we have discovered that when a pretty girl comes into Chicago from the country districts she is made a target for the agents of vice. She is watched. It may be for a week, perhaps a month, and again she may be doled for years until she falls into the traps that are set for the young, beautiful, the virtuous. Apart from the moral side of the question, look at the financial side of it. More than \$20,000,000 is expended each year in this traffic of shame."

Navigation will open next week, and Fairbanks will be relieved from want by steamers which are about to leave here by May 21.

## BERLIN MAKES BIG PROFITS FROM GAS

MUNICIPAL OWNERSHIP PROVES BIG SUCCESS IN GERMAN CITY.

In view of the near approach of May 15th, when the citizens of Regina will decide whether or not a private corporation shall be granted a franchise for the purpose of operating a gas plant in the city, the following account of municipal gas as opposed to private owned gas plants in the city of Berlin, will not be without interest to the people of this city.

How Berlin, at a uniform rate of gas of 2 1/2 cents per 1,000 feet, delivers an annual income of \$2,170,000, exclusive of the taxes paid by a private gas company, was told to members and guests of the City Club of Philadelphia by Dr. Robert C. Brooks of Swarthmore College.

"I found," he said, "that Europe is far ahead of us in the justice, the integrity and the efficiency of municipal government. They solve their municipal problems cleanly and quickly. It is part of their everyday life to know how much their light and fuel cost; why it costs so much; where they get their water supply; how much it costs, and how it can be improved."

"They pay close attention to all details of municipal housekeeping. The municipal bookkeeping is an example. All over Germany the same system of accounts in municipal affairs is followed. You want to find out how much water per capita is used in a given city, and in a moment, it is before you. You seek to know what is the consumption of gas per capita, and you have the data in a moment."

## No Uniformity Here.

"Here there is no uniformity. Try to dig beneath the surface for a vital fact in any American city, and when you are under the generalities in the published statistics you find yourself floundering in quicksand."

"Americans put up with bad, wasteful, criminal municipal governments for the sake of the freedom that is expressed in the Federal government. They are willing to follow parties in civic matters because of the principles those parties represent in national struggles."

"In Europe the city governments are administered capably and honestly, but Caesarism rules in the central government. We think we have chosen wisely, if it is not possible however, to combine freedom and honesty—big principles in national affairs and common sense in civic governments."

## PHILADELPHIA. FROM 1825 TO 1847

the field was occupied solely by an English company, the Imperial Continental Gas Association. Its franchise was granted by the royal authorities of Prussia and was for a period of twenty-one years. The cost to consumers was \$2.38 per 1,000 feet. For that it gave a service that was unsatisfactory.

"In 1847 municipal ownership under the sanction of the Prussian king brought fruit in a plant constructed by the city. Because of faults in the franchise of the English company that corporation has been unable to extend its life indefinitely beyond the twenty-one year limit. It could have had a continuance of its monopoly if it had agreed to a reduction in the rate to \$2.02 per thousand feet and had made several other trifling concessions."

"The municipal enterprise had a hard road to travel from the outset. The rate was cut exactly in half, from \$1.19 per thousand feet. There were heavy losses at first, but gradually these ceased and small profits began to show."

"In 1860 there was another cut to \$1 per 1,000 feet, and the municipal system greatly extended its lines. Up to this time the use of gas in residences was small, shops were the principal consumers. About this time, American petroleum made its appearance in Berlin."

## Both Make Good Profit.

"A uniform price for both fuel and illuminating gas was established in 1900. This was made \$3 1/4 cents, and that rate gives to both the private corporation and the city plant a handsome margin of profit."

"In the early troubled days, before profits could be seen, there was talk of selling the city's plant, and bids for it were actually made. The city found that the price named in the bids anticipated profit on this fact."

"The population of Berlin in 1904 was 1,931,710. The city's gas plant, including four suburban plants, is valued at \$20,000,000. It has a net worth of \$11,500,000.

## RAILWAYS TO BE BUSY IN THE CITY

ALD. PEVERETT REPORTS SUCCESSFUL ISSUE OF DELEGATION TO WINNIPEG.

Second Vice-President Whyte Approves Spur Track Plans and Promises Immediate Construction. C. N. R. Repeat Promise to Enter Regina this Year—Important Conferences Likely Next Week—Biminous Base a Failure.

From Saturday Morning's Leader. Ald. J. R. Peverett returned yesterday from Winnipeg, whither together with His Worship Mayor Smith, he went for the purpose of interviewing Second Vice-President Whyte on railway matters affecting the city.

Whyte Approves Plans. The interview with Mr. Whyte proved in every way satisfactory, the comprehensive scheme of spur tracks prepared by the city for the wholesale section north of the city receiving Mr. Whyte's hearty approval and endorsement. This means that the 25 degree stumbling block to the scheme thought approved by the Railway Commission and favorably passed on by John Woodman, the Winnipeg engineer, will now undoubtedly go through.

As the immediate result of the visit of Mayor Smith and Ald. Peverett work will almost immediately be commenced on the spur lines through blocks 200 and 183 as well as on the proposed passenger track to the Exhibition Grounds, orders to this effect having been issued by Mr. Whyte.

C. N. R. Will Get Busy. The deputations also waited on D. B. Hanna, 2nd Vice-President and acting general manager of the Canadian Northern, with a view to discussing the plans of that railway as far as they relate to Regina.

Mr. Hanna speaking on behalf of the company gave an assurance of the immediate construction of warehouse spur tracks required east and west of the Prince of Wales Hotel, and also of the H. W. Laird Co., Gear Scott Co., and other wholesale houses in that neighborhood the facilities for which were being discussed.

Mr. Hanna further repeated the promise made on behalf of the company by General Manager E. A. James, to the effect that the C. N. R. will enter the city from the east during the present year.

To Consult With The City. That the promise given in this respect is made with every intention of making good is demonstrated by the fact that the city will be visited during the week O.N.R. officials will visit the city for the purpose of conferring with the city authorities on matters concerning the entrance of the C. N. R. into the city. While Ald. Peverett stated that he was not able to present a proposition to discuss in detail the questions which would come up for consideration at such a conference, there is little doubt but that the question of sites for a large round-house and provision for a passenger depot will be dealt with. It being absolutely necessary that these matters should be settled within a comparatively short period.

C. P. R. Official Expected. It is probable that several C. P. R. officials will also be in the city next week to discuss railway matters in detail with the council, so that some-thing will be accomplished in that regard at an early date be settled with regard to the union station project.

On the whole the visit of the Mayor and Chairman of Finance may be considered as having been highly successful and as having accomplished considerably more than was set out originally in their programme when they were deputed to visit Winnipeg in the city's interests.

An Undesirable Base. Incidentally, Ald. Peverett informed the Leader representative, he and Mayor Smith had an opportunity of inspecting certain repairs being carried out in Winnipeg in connection with paving laid upon a bituminous base and the information supplied to them went to show that such a base was far from being desirable on a soil similar to that which is found here in Winnipeg and Regina. Those who have studied the question in Winnipeg did not hesitate to claim that had the pavement, the repairs of which are now being carried out at considerable expense, been laid on a concrete base, it would have been in good condition today.

WOULD RESTORE VATICAN WALL. Pope Inquires as to Cost of Rebuilding Property.

ROME, May 9.—A few weeks ago about 100 feet of the wall of the quadrangular garden next to the Vatican museum fell, and this morning the pope was informed that the whole of the surrounding wall threatened to fall, which would mean destruction to the best type of a renaissance garden existing.

The pontiff asked how much money would be necessary to restore the wall and what the cost would be. The cost of the work is estimated at \$25,000. The pope said that in view of the financial condition of the church he thought it would not be right to spend so much for a restoration, no matter how valuable the garden.

The wall is the Vatican gardens which is especially threatened is the one which overhangs the Ziella, or Maiden's alley. Part of it has already fallen, and in doing so destroyed a beautiful orange grove below. The threatened renaissance garden is surrounded by walls about 550 to 1,000 feet long.

Would Not Face Enquiry. OAKVILLE, Ont., May 9.—Young Tom Jones, who escaped from the burning hot near Palermo where the negro, "Black Frank," and William Clark, his companion, were cremated, committed suicide yesterday. It is supposed he was connected with the burning of the shack in some way.

## WILL HAVE A SURPLUS OF 16 MILLIONS

FINANCIAL RETURNS SHOW NO LET-UP IN THE DOMINION'S PROSPERITY.

Expected that Fielding's Estimated Surplus of Thirteen Millions Will Be Largely Exceeded—Surplus Large Enough to Meet All Capital Expenditure and Reduce the Public Debt—Nine Months Revenue Over \$67,000,000.

OTTAWA, May 10.—The final financial returns for the fiscal year ending March 31st are not yet all to hand, but there are enough to show that the year will be one of the best in the history of the Dominion. The revenue for the nine months is \$67,135,584, but this will be increased by two millions when all the collections are made. Fielding in his budget speech made an estimate of \$65,000,000, but it will be about four millions more. The expenditure, Fielding put at \$52,000,000 on ordinary revenue, and on capital account \$12,500,000. To date ordinary expenditure is \$45,000,000 and the surplus on the ordinary revenue is \$12,000,000, which will be increased by half a million or more. The surplus on ordinary revenue, Fielding estimated at thirteen millions, and judging from all appearances it will be increased by two millions better, which will be the largest on record. This will be sufficient to meet the capital expenditure and all other liabilities, and reduce the net debt by a handsome sum.

## SNOW STORM IN NEW YORK STATE

WINTER STILL HOLDS SWAY IN EASTERN STATES OF AMERICA.

NEW YORK, May 12.—In the northern part of New York state from three to eight inches of snow covered the ground today. The weather is below the freezing point.

TROOPS HAVE LEFT KOREA. Russian War Office Has no Knowledge of Solitary There.

ST. PETERSBURG, May 12.—The foreign office applied to the War Office for information as to what grounds, if any, there were for the reported Japanese protests against the non-withdrawal of the Russian troops from Korea; and if the troops remain there, what is the reason for it.

The officials profess to have no knowledge of the presence of Russian troops in Korea and say that they supposed practically all the post holding conferences would be settled by the negotiations now approaching completion. One of the few outstanding points being the navigation of the Sungary river, which Russia still insists should be a prerogative of Russia and China alone.

It is anticipated here that the signature of the various conventions will be signalled by the elevation of the legations at Tokio and St. Petersburg to the rank of embassies.

WANTS A MONARCHY. Former Boulanger Elected to French Chamber as Monarchist.

PARIS, May 11.—Jules Delahaye, the former supporter of the late General Boulanger, has been elected on a monarchist platform to the Chamber of Deputies from Cholet, department of the Maine and Loire, centre of a great textile manufacturing district, and a town which figured in the wars of the Vendee. M. Delahaye, who was the author of the famous Boulanger manifesto of March 7, 1880, declared that the idea of restoration of the monarchy in France frightens no one. He added: "It appears to be preferable to the horrible shrew—the republic. The experiment which I have made constituted me. I am convinced that one thing alone inspires the disgust and fear of honest men—the republic of the Clemenceau, Briand and Viviani and of the general federation of labor."

HARDING DAVIS POW.  
LY ABRAIGNS KING  
LEOPOLD.

May 11.—Richard Hard-  
ing, American aviator and  
agent, has returned from  
here he made a personal in-  
of the charges against  
held in the administration  
of Free State.  
"opinion," said Davis, "the  
is true that King Leopold  
20,000,000 people, over  
was placed as a protector,  
and prevented any foreign  
ing in the Congo, although  
aced in authority on the un-

lieve that King Leopold  
where one man has devel-  
oped over thousands, the stor-  
barbarous cruelty would also  
do. I am willing to accept  
of the point given to  
officers, missionaries, and  
the most part, the Belgian  
men with a past. They  
who have made a bad mes-  
sage at home, and have been

INSANE MAN SLAYS  
SIX, FEARING PLOT

ARMED WITH SHOTGUN, HE  
MAKES ROUND OF ROOMS IN  
SAN FRANCISCO HOUSE.  
SAN FRANCISCO, May 12.—Slaying  
six persons with whom he resided at  
No. 414 Pierson street, Walter C. Davis,  
a carpenter, spared the life of a young  
girl because, he said, she looked like  
his daughter, and was captured by sev-  
en policemen after a riotous and dan-  
gerous fight in which he had been  
armed in white clothing, the double-  
barrelled shotgun he had used. He is  
said to be insane.  
The dead are—Oran Bush, aged 37,  
a carpenter, who was the father of  
W. S. Bard, a carpenter, with relatives  
at St. Louis and Denver; M. E. Win-  
ston, a surgeon of New York, son of  
Mick, D. Wilson, president of the Mid-  
west Securities Company, and Mrs.  
Lillian D. Crothers, an elderly woman,  
who boarded at the house.  
Davis and his victims all resided  
with the Bush family, who conducted  
a boarding house. Davis' home was in  
Farmersville, near Visalia, this state,  
where he has a wife and six children.  
Davis, who slept in the same room  
with young Bush and Bard, arose  
shortly after five o'clock and shot his  
two roommates. Then he visited each  
room in turn, killing the occupants  
extensively. This fact may be taken as  
a sure sign that it is increasing  
demand. Probably the largest order  
ever placed in Canada for a standard  
remedy, was recently given to Fru-  
it-A-Lives Limited by The National Drug  
and Chemical Company of Canada.  
Lithiated, calling for 100 gross (14-  
40 boxes) of "Fruit-A-Lives" or  
"Fruit-Liver Tonic."  
Inside of two months, The National  
Drug and Chemical Co. sold the entire  
quantity, and purchased an addition-  
al 100 gross.  
These two orders of 200 gross, ag-  
gregating 28,800 boxes, show how  
large the sale of "Fruit-A-Lives" has  
grown, and prove, too, that people  
all over the Dominion are fully alive  
to the value of this excellent prepara-  
tion.  
This fruit remedy no doubt has  
real merit, yet were it not for the  
best kind of newspaper advertising,  
which has told the story of "Fruit-A-  
Lives" to so many of our people, its  
virtues would be known only to the  
few.  
Real merit and newspaper adver-  
tising success.

TWENTY YEARS FOR  
WINNIPEG BURGLAR

MAGISTRATE DALY INFLECTS RE-  
CORD SENTENCE ON F. C.  
HAWKINS.  
WINNIPEG, May 12.—After plead-  
ing guilty to nine additional charges  
of burglary, making ten in all, Fred C.  
Hawkins, alias "the burglar," was this  
morning sentenced by Magistrate Daly  
in the Police Court to serve twenty  
years in the Stony Mountain peniten-  
tiary. The penalty was not only the  
most severe ever inflicted by Magis-  
trate Daly, but was the greatest ever  
imposed in the Winnipeg municipal  
court.  
When sentenced, Hawkins clutched  
spasmodically at the dock railing as  
though on the verge of collapse, and  
then gazed dazedly from the court to  
the crown prosecutor and upon the in-  
terested faces of a room full of spec-  
tors.  
At the request of the crown, the man  
was sentenced on only nine charges,  
the charge of burglary, the charge of  
house being suspended, pending an  
investigation into the man's record in  
the old country. It is found that one  
or more convictions have been entered  
against him in his former home, he  
will likely be sentenced on the charge  
held in abeyance here.  
Hawkins was in this city from Por-  
tage la Prairie about four weeks ago  
and immediately engaged in the pur-  
suit of crime. His first offence was  
a burglary of a house, in which he was  
abandoned by him, which being sur-  
prised by the inmates of a house, he  
was hospitalized.  
It is said that he was married only a  
few months ago to a respectable young  
lady of Portage la Prairie, who will be  
taken to Stony Mountain tonight.

GOVERNMENT MAY

IN CONNECTION WITH FUTURE  
LEASES OF DOMINION  
COAL LANDS.  
CALGARY, May 12.—Interviewed to-  
day, Frank Oliver stated that the Gov-  
ernment was taking an important step  
regarding irrigation in Alberta and  
Saskatchewan, at present in the hands  
of the coal lands. He also stated that  
the new coal regulations are in line  
with the announcement he made  
some weeks ago, in the future no con-

NEW YORK GIRL GETS HEAVY  
DAMAGES AGAINST RAIL-  
ROAD COMPANY.  
NEW YORK, May 12.—Miss Mar-  
garet Noakes, sixteen years old,  
daughter of George Noakes, residing  
at 325, 400 against the New York Cen-  
tral and Hudson River Railroad Com-  
pany, before Judge Hendrick and a  
jury in the Supreme Court. Stephen  
C. Baldwin represented Miss Noakes  
and C. Paulding and A. Kutzbach  
the railroad company.  
Miss Noakes told the lower third  
of her left leg at the grade crossing  
was crushed at that time. The Van  
Cortlandt station of the Putnam divi-  
sion of the New York Central Rail-  
road, in Van Cortlandt Park.  
Mr. Noakes, with his wife, son and  
daughter and a guest, Mr. Read, were  
struck the automobile as it was cross-  
ing the track, which was cut off by  
the leg of the chauffeur.  
Immediately after the accident the  
New York Herald demanded that the  
State Railroad Commission investigate  
and abolish the crossing. This  
was done and the menace removed.  
This verdict is the largest of its  
kind ever returned in the State.  
Died on Way Home.

INQUEST WILL BE  
HELD ON LE FLEM

GORONER DECIDES THAT CIR-  
CUMSTANCES CALL FOR  
AN ENQUIRY.

The death by drowning of William  
Le Flem, which was recorded in the  
today's Morning Leader, will be in-  
quired into by a coroner's jury to-  
morrow afternoon. From additional  
facts gathered yesterday, it appears  
that the deceased man came into the  
city on Saturday to make some pur-  
chases. While in town he spent some  
time in company with a man named  
Oliver Leveaux and the latter ac-  
companied him when he left for  
home at night. In the dark they ap-  
parently missed the bridge over Boggy  
Creek on the continuation of Win-  
dipleg Street and the horses and at-  
tempted to cross the creek between that  
bridge and Grant's bridge, where the  
drowning occurred.  
The first word of the accident  
which Mr. Le Flem's family received  
was when Leveaux reached their  
farm at six o'clock Sunday morning.  
Awakening the family he asked: "Is  
your father at home?" Receiving a  
reply in the affirmative, he had  
idea of the location where it had  
taken place. Le Flem's son William,  
a boy of eighteen, started for the ra-  
vine and followed the path until he  
saw their horses and found his father's  
remains in the wagon. There  
were only a few inches of water in  
the wagon box and Mr. Le Flem's  
face was not under water. One of  
the horses died shortly after being  
released from the wagon, but the  
other was rescued, borrowing a  
wagon from a neighbor, young Le  
Flem brought his father's body home.  
Mr. Le Flem was a well known  
seaman, Man, about a year ago and  
settled on 2-19-19.

ATTACK McLELLAN'S TITLE.

HEART'S OPPONENT IN MAYORALTY CON-  
TEST MUST MAKE GOOD.  
NEW YORK, May 12.—The Court  
of Appeals today sustained the right  
of Attorney General Jackson to attack  
in the name of the people the title of  
George B. McClellan, as mayor. It was  
claimed as Jackson's predecessor de-  
fended Heart's claim, Jackson de-  
fended his own. Jackson opened the case  
which will be tried on its merits.

LONDON PAUPERS  
LIVE IN CLOVER

PALACES OF BELTED  
EARLS.  
LONDON, May 12.—London paupers  
live in luxury that has been de-  
scribed even to King Edward.  
Few baronial mansions or castles  
of the past are better preserved than  
the workhouse of the London borough  
of Hammersmith. The workhouse  
of the local government  
poor law, which has been investigated  
by a committee of the House of  
Commons, is a palace of the  
British taxpayers contemplate  
the figures in sheer amazement.  
The entrance to the building is  
a handsome screen of plate  
glass. One of the floors is tiled  
mosaic work, surrounded by a dado  
of encaustic ware of the most ex-  
travagant type. The interior of  
the building is brilliantly lighted  
with electricity.  
A system of duplicate wiring has  
been installed.  
Council for the Rate Payers' associa-  
tion said this system had been sug-  
gested recently by Buckingham pal-  
ace, but it was rejected on the  
ground of expense.  
The dining hall is almost baronial  
in style, and equal to anything in  
the great colleges of the  
country. The light to this room is  
softly diffused by means of stained  
glass windows.  
The site and the building cost over  
\$1,300,000, which is equivalent, so  
far as has been ascertained, to the  
cost of \$1,000,000 for the same  
greater than the cost of many houses  
occupied by hard working families.  
This magnificence the Ham-  
mersmith workhouse has been  
built in the name of the poor.  
The workhouse was built and sup-  
plied by the seal of the socialist  
council which for years ruled Lon-  
don.  
So extravagant was the socialist  
expenditure for the benefit of these  
paupers that even John Burns has  
said: "It is a disgrace to the  
local government board and is de-  
termined to lift this matter down  
and prevent such amazing waste of  
money."  
There is a growing agita-  
tion to abolish the boards of poor  
law guardians and turn over the con-  
trol of workhouses to the coroner  
authorities.  
Mexico and Guatemala.  
WASHINGTON, May 12.—It is of-  
ficially stated that the trouble between  
Mexico and Guatemala has been de-  
finitely and satisfactorily settled.

YEARS IN CELL,  
BUT INNOCENT

CONAN DOYLE ACTS AS SHER-  
LOCK HOLMES AND SURELY  
PARDON.  
LONDON, May 12.—As a result of  
an official inquiry into the case a free  
pardon has been granted George Edalji,  
a young Birmingham lawyer who  
was convicted four years ago charged  
with mutilating a neighbor's horse  
and cattle and sentenced to seven  
years in prison. The investigation,  
conducted by Henry Labouchere  
and Sir Arthur Conan Doyle, demon-  
strated that the police blundered  
badly as they did in the famous Beck  
case.  
Sir Conan Doyle's interest in the  
peculiar case of Edalji was aroused  
by numerous printed comments on it  
and a widespread public effort to get  
the home office to pardon the man,  
and by letters asking him to take it  
up from a standpoint of a detective.  
He became finally convinced that the  
conviction of Edalji was due to police  
blunders and perjury owing to a  
preconceived belief that Edalji was  
guilty. Sir Conan had no hesitation,  
after a personal investigation into the  
case, in pronouncing it similar to the  
Dreyfus case.

ZAMBUK CURES A CASE WHICH  
FOR TWO YEARS HAD DEFIED  
EVERY REMEDY TRIED  
A Farmer's Grateful Testimony  
No case of eczema, skin disease,  
or ulceration, should be despaired of  
until Zam-Buk has been applied. The  
case of Mr. Francis Penoit, of St.  
Anne's (Man.), is a powerful illus-  
tration of Zam-Buk's efficacy. He  
says: "I suffered from eczema for two  
years, and tried a great number of  
remedies. None of them, however,  
seemed to do me any good. The ail-  
ment was mostly in my legs, and both  
these were actually raw from the  
knees down. A small sample box of  
Zam-Buk was given to me, and even  
so small a quantity did me a little  
good. I then obtained a proper sup-  
ply, and by the time I had used a few  
boxes I was completely cured."  
Zam-Buk differs from ordinary  
salves and embrocations in contain-  
ing no animal oil or fat. It is com-  
pounded from rich healing, herbal  
essences, and is an ideal natural com-  
bination of power and purity. It is  
highly antiseptic, and instantly kills  
bacteria and disease germs, which set-  
tling on to wounds and skin diseases  
set up festering blood poison, etc.  
For cuts, burns, ulcers, ulcers, abs-  
cesses, pimples, boils, skin eruptions,  
scalp sores, spreading sores, children's  
skin troubles, chafing sores, etc., Zam-  
Buk is unequalled. It also cures piles.

# SUNSHINE FURNACE

NOT SHAKING. JUST A GENTLE ROCKING OF THE LEVER.

Shaking is a hard, back-breaking exercise, peculiar to common furnaces, while you can stand erect at the Sunshine—and moving the lever, to and fro, about half the length of your arm, a few times, is mere play. A child can easily do it.

Grates of the Sunshine are in two sections—right and left. By gently rocking the lever, a few times, the ashes are released from the right. Repeat the operation on the left and the ashes from that side drop into the ash-pan, too. You couldn't wish for anything easier than the Sunshine Method.

When this lever is not in use it can be disconnected from the grates and the opening capped. But when connected it fills up the opening so snugly that no dust from the falling ashes can escape.

Every detail is thought of on the "Sunshine"—that's what makes it the best.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

### PREMIERS OPPOSE ONE PER CENT DUTY

LONDON, May 9.—The Canadian Associated Press was informed that at today's sitting of the Conference, the proposal brought forward by duty on all foreign goods imported into the British Empire fell through, being opposed by premier Laurier, Botha and Ward. The naturalization question was discussed and referred to the proposed new secretaries committee. The proposal for a double income tax was defeated and this was followed by a discussion of the question of coinage, the outcome of the discussion, in which Mr. Asquith took part, being that the Colonies were left to make their own coin if they thought fit, and this they promised to consider. The proposal of the publication of a verbatim report was discussed and there is reason to believe such will be published.

### LEGISLATORS OF ILLINOIS REFUSE TO PASS ANTI-BUCKET SHOP LAW

CHICAGO, May 9.—Illinois will be the mecca of bucket-shoppers henceforward. Despite the fact that nearly all the surrounding states have enacted legislation putting bucket-shop men out of business, Illinois Solons have gone to the opposite extreme. This action was taken when the anti-bucket-shop bill was killed by the House after midnight. It is reported that Douglas Pattison, the minority leader, was successful in substituting for the definition of a bucket-shop, as carried in the bill, the provisions of the present law, which renders the measure useless for the purpose for which it was intended. The opposition to the bill was practically that which defeated the board of trade bill two years ago and the circumstances surrounding it are so similar that there were no lobbyists to expell from the floor.

### BUCKET SHOPS' LAST REFUGE

LEGISLATORS OF ILLINOIS REFUSE TO PASS ANTI-BUCKET SHOP LAW.

CHICAGO, May 9.—Illinois will be the mecca of bucket-shoppers henceforward. Despite the fact that nearly all the surrounding states have enacted legislation putting bucket-shop men out of business, Illinois Solons have gone to the opposite extreme. This action was taken when the anti-bucket-shop bill was killed by the House after midnight. It is reported that Douglas Pattison, the minority leader, was successful in substituting for the definition of a bucket-shop, as carried in the bill, the provisions of the present law, which renders the measure useless for the purpose for which it was intended. The opposition to the bill was practically that which defeated the board of trade bill two years ago and the circumstances surrounding it are so similar that there were no lobbyists to expell from the floor.

### MOROCCO FAILS TO SATISFY FRANCE

REPLY TO DEMANDS FALLS FAR SHORT OF FRENCH REQUIREMENTS.

PARIS, May 9.—An unofficial note issued tonight sets forth the reply of the Moroccan Government to France's demands growing out of the murder of Dr. Mauchamp at Morocco City on March 22nd. While showing a dissent not acceptable, as it only partly agrees to the French demands. The French troops, however, will continue to occupy Oudja, but instructions have been sent to the French minister, M. Regnaud, to accept any kind of a fair offer looking to a settlement.

From Friday Morning's Leader. W. Hilliar, formerly of H. J. Miner & Co., Butchers of Regina, but now of Strassburg, is in the city purchasing horses, he having gone into the heavy business in the thriving northern town. Mr. Hilliar states that Strassburg is growing rapidly and that many new buildings will be built this year, several of which are already under construction. Seeding in Strassburg district is now fairly under way.

The Moose Jaw News road race will be run at Moose Jaw on May 24, over a course some six and one-half miles in length. The race will be open to all residents of Saskatchewan of amateur standing. The judges will be Messrs. W. B. Willoughby, W. E. Seaborn and W. Lorne. Messrs. E. B. Flaxton and Thomas Miller have consented to act as timekeepers. The cups, which are presented by the Moose Jaw News, are to become the property of the winners.

An individual who refers to himself as "Mr. R. Newton May, 29 John Street, Bedford Row, London, W. C.," from which address he runs a concern styled "The Canadian Cities Development Association," has issued a booklet on Regina which is described as "the official publication of the Board of Trade." Spoken to yesterday concerning the publication in question, officers of the Board of Trade stated that while they had no objection to a man called May, they were not aware that such a person had been authorized to issue any publication in behalf of the Board.

From Saturday Morning's Leader. Alfred Deschambault, of Whitecourt, has been granted a patent for a stone pulper.

Chief of Police Harwood is at present seriously indisposed. During the Chief's absence from duty, Sgt. Sample will act in his place and for that purpose will today assume day duty.

All persons who placed orders for copies of the Leader's Special Building Number and who have not yet called at the office for the same should do so at once as such orders cannot be reserved indefinitely and will be otherwise disposed of if not claimed within the next few days.

When the G.T.P. Regina-Yorkton line is built, hotels within the twenty mile area along that line will probably have to close. Says the Qu'Appelle Progress, according to this view the hotels at McLean and Fort Qu'Appelle will be affected, with only exceptions being those in incorporated cities and towns.

John and Alexander Ewen, the millionaire merchants with factories in England and Scotland, New Zealand and Melbourne, are making a short stay in the city, en route to England. Messrs. Ewen, who are cousins of E. C. Rossie of this city, are going to the old country for the purpose of laying the corner stone of a great memorial building being erected by them in memory of their father.

From Monday Morning's Leader. Work has been started on the excavation for the Y.M.C.A. building on Victoria Square.

The death occurred on Saturday of Mrs. Wells, wife of A. J. Wells of the Department of Agriculture.

The rain and snow of Friday followed by the milder weather of Saturday had the effect of causing the Wascona and other creeks to rise very rapidly.

Canon Cosgrave addressed a large audience yesterday afternoon in St. Paul's church when he delivered the first of his two lectures on "New Theology taking 'Man's Origin' as his subject. Next Sunday afternoon he will lecture on 'Man's Future.'

As the new Metropolitan Methodist Church will not be completed in time for the meeting of the Saskatchewan conference which meets here next month, the board of management of Knox Church have placed their church at the disposal of the Hamilton St. Methodist congregation for the conference sessions.

Willie Ailla, a young man twenty-one years of age, died yesterday in a Victoria hospital. The body has been removed to the undertaking parlors of Speers, Maxwell and Boyd, but up to the present time it has not been possible to learn anything of the whereabouts of any friends or relatives of the deceased. Any information leading to the locating of his friends would be gladly received.

From Tuesday Morning's Leader. The many friends of N. S. Edgar were pleased to see him out again after his recent serious accident. Mr. Edgar is, of course, still unable to walk about but he has sufficiently recovered to take driving exercises.

Rev. G.O. Falls occupied the pulpit of the Indian Head Methodist church on Sunday, the pastor, Rev. Mr. Wootton, preaching the anniversary sermons at Rae St. Church. Mr. Falls left last evening for Winnipeg to be present at the graduation of his state, being accompanied by his mother, Mrs. Falls, of Grand Coulee.

At Rae Street Methodist Church Sunday School, E. J. Thom, the retiring superintendent of the school, was made the recipient of a handsome

leather travelling companion in recognition of the way in which he has contributed to the successful up-building of the school. The presentation was made by J. W. Mowbray, secretary-treasurer of the school.

A small fire at the residence of A.M. Thomson required the services of a portion of the fire brigade last evening. The outbreak occurred apparently in connection with the family construction of the fire place. It was not found necessary to ring in a general alarm, the work of Chief White and two or three of his men being sufficient. At a later hour Dr. Thomson had again to call for the assistance of a couple of the brigade, but the outbreak was again soon got under.

The anniversary supper and entertainment at Rae Street, Methodists, Church last evening passed off most successfully. Supper was served from 6 to 8 by the Ladies' Aid Society of the church and following this a very attractive musical programme was rendered in which Miss Fornier, of Indian Head, Mr. Huber and Mr. Hayes took part. Recitations were given by Miss Killbourn and Mr. Doull, while Miss Lazenby gave a piano solo, Mrs. Bailey and Miss Lazenby acted as accompanists. The church was filled to its utmost capacity and the proceeds to go toward the extinction of the church debt, amounted to \$55.

ENTENTE BETWEEN FRANCE AND JAPAN

NOT AIMED AGAINST UNITED STATES SAY FRENCH PAPERS

PARIS, May 13.—Several of the Paris newspapers traverse the suggestion made in the German press that the new Franco-Japanese understanding constitutes a danger to the United States. The Liberte, which announces that the treaty will be signed within a month, describes the Berlin Reichsbote's statement that Japan, by her treaties with various European Powers, is seeking to strengthen her position in regard to America, as fantastic and somewhat perfidious, for it says: "We must expect to find Japan's system of treaty making received coolly in San Francisco, if not in Washington."

M. Kurino, the Japanese ambassador in Paris, in an interview in the Temps, said that the agreement constituted a decisive proof of the moderation of Japanese policy. He added that he hoped "the legend of the yellow peril" and Japanese ambitions would be finally dispelled by the new treaty.

M. Kurino said that the understanding besides guaranteeing the possessions of the contracting parties would include guaranteeing the independence and integrity of China. Minister Kurino denied that the Franco-Japanese entente was in any way aimed at the United States, adding:

"Japan, in spite of the San Francisco incident has always been most sympathetic to the United States because she was the first to treat the Japanese people on a footing of equality. If Japan could obtain advantages from an understanding with the United States, it is entirely probable that the Government at Tokio would not hesitate to negotiate with Washington."

Continuing, M. Kurino said that as Germany had no possessions in the far East, Kiaochow simply being leased Chinese ground, a treaty with her similar to the one between Japan and France would be useless.

FIRM MADE OVER EIGHT MILLIONS

JOHN W. GATES TELLS SOMETHING OF THE RETIRING CONCERN

NEW YORK, May 13.—From March, 1904, to March, 1907, said John W. Gates today, his firm of business in Wall Street. One of the partners tabulated the statistics of the business, and I understand that we did 8 per cent. of the total business done on the Stock Exchange in the last three years.

In Anacosta, for example, the firm had a large following, and the transactions in our house amounted to fully 1,500,000 shares, or 6,000,000 quarter shares. Similarly, in Reading, the transactions were large, amounting to 7,500,000 half shares.

At one time the firm had 1,400,000 shares of stock, which it was carrying for its clients. We had 2,400 accounts for people in all parts of the world. Some addresses were from St. Petersburg, and there were accounts for people in Melbourne, Australia. My son Charles and I have never been away together in the last six years, and we now propose to take a holiday together, and will sail for Europe soon.

"How did it come about that he wanted to go out of the brokerage business was asked. "Well, that point was settled last December. I think Charles got tired of the business and its strain. There are very few banks in this city that did the loan and credit business of this firm and its management rested almost entirely on his shoulders. I did not blame him when he told me about his decision. The responsibility was too great for the young man, and I think he was wise in declining to take a rest for a few years. I don't mind telling you that the gross profits of the firm, of which I was a special partner, amounted to a little more than \$3,000,000."

A Complete Confession.

MIDDLETOWN, N.Y., May 13.—Chas. H. Rogers, charged with having murdered the Gray Brothers and Alice Ingerich near here in October, 1905, was arraigned in the police court here on Saturday and pleaded not guilty. It is rumored that Rogers later made a complete confession.

To-Day We Inaugurate A New Overall Business THE NEW "Carhartt" Overall

'TIS the secret of good storekeeping to hunt out and select lines that are from time to time being placed on the market. When a certain manufacturer whom we know is reliable "hits on" new methods of buying raw products and of better ways of manufacturing, thus producing goods at lower prices. We believe we would be failing in our duty to the public if we were found without these same goods. Go through this store from end to end and you will find the current markets of the world reflected in all our stocks. If there is anything new, we have it.

"Carhartt" Overalls have many commendable features. Every garment large and roomy. Made of the very finest Overall fabrics. Unquestionable washing qualities. Will not rip or tear. Lapped double-stitched seams. All buttons detachable with ring fasteners. Carhartt Overalls come in plain Blue, Black and Stripes Per garment \$1.25

Millinery Styles for May

While the drooping brim is unquestionably one of the most favored features in this season's millinery, Dame Fashion who is ever fickle is beginning to show an inclination toward the straight brims particularly in sailor models. The sailor hat will not only be worn for street and outing purposes but many of the dressy hats to be made from this model. The sailor as it appears at present is made of rough or smooth straw, with elongated sides, short front and back and low crown. The trimmings for the street hats consist invariably of long pointed or broad wings and silk or velvet ribbons. The Leghorn hats are being shown in numerous attractive models and are particularly pretty in the tailored hats. Our millinery artists are constantly in touch with the various style centres and are daily producing new models on the latest and most approved lines.
