

THE ENGLISH MAIL.

Interesting Summary of News.

VALUABLE PRESENT TO LORD BEACONFIELD. The Earl of Beaconsfield's investment with the latter has been followed by a graceful compliment from Sir Richard Wallace.

On Thursday evening a fearful boat accident occurred on Lough Lillen, in the County Cavan. A schoolmaster named McCabe was on board.

THE EFFECT OF STIMULANTS.

The action of the stimulants is as far as they affect the system and tissues, as it is imperfectly understood, and the question of its elimination from the body or its retention and oxidation has been long and warmly debated.

DEATH IN THE WESLEYAN CONFERENCE.

A little before noon on the 25th ult. the Rev. Mr. Horton, speaking at the Wesleyan Conference in terms of affection and love for his friend, the Rev. Mr. Charles, died.

THE DUKES OF DEVONSHIRE.

The Duke of Devonshire presided at a large meeting held in Buxton, to listen to a lecture by Miss Emily Faithful.

THE STRATFORD HERALD.

Forty years ago Mr. Joseph Harrison, now a well-known member of the House of Commons, was a young man of about twenty years of age.

THE COLLINGWOOD BULLETIN.

Two bottles of Collingwood's Compound were sent through here last week, and were loaded with box stuff and shipped direct to a friend in London.

SPECIAL AND COMMON JOBS.

In charging the grand jury at Chester, England, on the 25th ult., the judge referred to the practice which exists among employers of separating jurors into two classes.

ITEMS.

Thomas Bayley, a telegraph clerk at H. & W. at Leeds Avenue, sentenced to five years' imprisonment for forging a telegram by which he obtained the sum of £20.

THE CENTRAL CRIMINAL COURT.

At the Central Criminal Court, James P. Farr, formerly manager, and Col. James P. Farr, formerly manager, were charged with having on the 15th (Wednesday), with intent to defraud, procured the signature of the defendant's name to a bill of exchange.

THE CATHOLIC INTEREST.

In the Catholic interest, the English Society, without doubt, the most important of the kind in the world, has been organized in London.

THE LITTLE REPUBLIC OF SWITZERLAND.

The little Republic of Switzerland has a population of 120,000, organized in eight cantons, and is situated in the heart of Europe.

A Gloomy Prospect.

The gloomy prospect is the result of the overstocked state of the market, which is likely to continue for some time.

We make the unwelcome announcement that on Wednesday the Ontario Wool Mills of 1878 were compelled, from want of orders, to suspend their operations.

THE EFFECT OF STIMULANTS.

The action of the stimulants is as far as they affect the system and tissues, as it is imperfectly understood, and the question of its elimination from the body or its retention and oxidation has been long and warmly debated.

GENERAL.

A Dublin case-man was lately fined £2. 6d. for being dirty and not dressed in a becoming manner.

The Duke of Beaufort has been elected Chairman of the Glasgow University. He died of the death of Sir W. Stirling Maxwell.

The loss took of a drunkard in Portmouth, N. H., has led to the arrest of several men for participation in a murder committed eighteen years ago.

A woman of Middletown, Mass., recently gave birth to a child with one face and head. She had been constantly worried by a black bat, that she finally killed.

Two girls in Bloomington, Ill., just for fun, boasted that they had participated in a recent murder there; but they were arrested by the police.

A Manchester schoolmistress lately obtained a verdict of £100 in a suit for libel against a teacher, who wrote letters to the newspapers, charging her with cruelty to the children under her care.

A woman at Fort Jefferson, on the Gibraltar, recently gave birth to a pair of triplets, one of the children being as black as any negro, while the other two were white.

The second person to be punished in Virginia under the new law re-establishing the white flag of seven years ago, was a man named John C. H. King.

The King has a lot to be said for himself. He is a man of high character, and his conduct in the past has been above reproach.

John C. King, of New York, says an exchange, did not have a chance to be elected to the office of Mayor of New York.

The report of Dr. David Allison, the Chief Superintendent of Education of Nova Scotia, is very full and complete.

The statistics given are very instructive and encouraging, showing that great advances have been made in the education of the people.

The Ontario Teachers' Convention meets in Toronto on Tuesday, the 13th inst.

An interesting programme has been prepared for the convention, and it is expected that it will be a most successful one.

The report of the Ontario Teachers' Convention is very full and complete.

GENERAL.

A Dublin case-man was lately fined £2.

The Weekly Mail

TORONTO, FRIDAY, AUGUST 16.

THE GENERAL ELECTION.

THE Globe of Friday corroborated the news which appeared in The Mail the same morning, that the General Election will take place next month, polling to be on or about the 19th.

We join with our Grit contemporaries in the belief that the people of Canada are ready for the contest. The issues have been fully placed before them, and they are intelligently prepared to mark their ballot for the one party or the other.

If we agree with the Grit organ in this respect, we must differ from it most decidedly in its forecast of the election. It is indeed impossible for us to suppose that Mr. MACKENZIE, or Mr. BROWN, or Mr. PATULO, or anybody else on the Grit Party who has any knowledge of the feeling of the country or of the drift of public opinion, can have the slightest faith in the statements of the Ministerial Press.

We are confident Mr. MACKENZIE has no such belief, but he has no more the most grievously disappointed man in this country on the day after the polling. As sure as we are of anything human, we are sure that the general election is going to reverse the state of parties in the Dominion, and we have this certainty of assurance on the testimony of shrewd and experienced men in every Province of the Confederation as well as on our own observation.

It requires a change of sixteen votes to elect the Opposition in the Middlesex riding, and a change of a hundred and fifty votes to elect the Opposition in the York, North and West, or in the York, East and South, or in the York, North and South, or in the York, North and West, or in the York, East and South, or in the York, North and South, or in the York, North and West, or in the York, East and South.

And, except as to British Columbia and Manitoba, we believe the Government organ to be in error in its forecast of the result of the Dominion elections. Any one who has any knowledge of the feeling of the country, or of the drift of public opinion, can have the slightest faith in the statements of the Ministerial Press.

It will be the bounden and solemn duty of every citizen in Canada who loves his country and desires to see it prosper, during the next five weeks to exert himself to the utmost of his ability to secure the overthrow of the present Government, and the election of the Grit Government.

There is no man in Canada who is more deserving of the name of a traitor to his country than the present Premier, Mr. MACKENZIE. He has not only failed to do his duty as a Minister of the Crown, but he has also failed to do his duty as a citizen.

ment without a change of Government. This will bring a change of policy. The demon of Free Trade, which is blighting the land must be killed, and National Policy take its place. Impotence must give place to competency.

THE EXTRAVAGANCE CRT. The Ministerial stump-speaker no longer indulges as of yore in vehement denunciation of Coalitions or eloquent appeals on behalf of the Independence of Parliament Act, for the best of reasons.

As far as the threshing machines have yet told the story, the anticipation of an abundant crop of fall wheat is fully realized. Both in Canada and the States the yield per acre is unusually large, while it is certain that more acres than ever before were sown with this crop.

With regard to fall wheat, therefore, the results anticipated for the early fall are fully confirmed. Concerning spring wheat, however, there is a different tale to tell. The crop certainly had a good growth, and earlier in the season looked well on the ground, though not so heavy as fall wheat.

These surpluses were applied to the construction of public works and to other Capital Account matters. Moreover, in the years referred to, a vast outlay was incurred by the extension of the Dominion and the Fenian raids, which may be called a special outlay, particularly as the present Government had nothing of the kind to meet.

It cannot be said, then, that the MACDONALD Government either lived beyond its income or squandered its income needlessly. They had no debt to the public, and they had no debt to the public, and they had no debt to the public, and they had no debt to the public.

THE OLD REFORMERS. The organs of the Government are frantically calling on the old Reformers to stand up shoulder to shoulder, etc., in defence of Reform principles. Now, what are these Reform principles?

In Economy one? Then is Mr. MACKENZIE no Reformer, for he has largely increased the expenditure at a time when Economy was imperatively necessary, although he promised to curtail it largely, in proportion to time.

In Hostility to Coalitions one? If so, how can Mr. MACKENZIE be numbered among true Reformers seeing that half his Cabinet is composed of old Tories? In Purity one? Then the Premier is not a Reformer, for he has either knowingly, or through gross carelessness, etc., matters not which, allowed the Speaker and many members of Parliament to possess themselves of the contracts, etc.

In Parliamentary Control one? Then Mr. MACKENZIE has no claim on the Reform vote, for he has invested three millions of dollars in his brother's firm without asking the consent of Parliament. It was not an urgent case where the public interests would have been prejudiced by waiting for the meeting of the House, for the rails being laid in 1874 are still unused.

tion of the Governor-General's salary. Or Compulsory Voting? Or the Representation of the People? If these are among the Reform principles, in himself way has Mr. MACKENZIE shown himself a Reformer!

THE FARMERS' WARNING. As far as the threshing machines have yet told the story, the anticipation of an abundant crop of fall wheat is fully realized. Both in Canada and the States the yield per acre is unusually large, while it is certain that more acres than ever before were sown with this crop.

With regard to fall wheat, therefore, the results anticipated for the early fall are fully confirmed. Concerning spring wheat, however, there is a different tale to tell. The crop certainly had a good growth, and earlier in the season looked well on the ground, though not so heavy as fall wheat.

These surpluses were applied to the construction of public works and to other Capital Account matters. There is no man in Canada who is more deserving of the name of a traitor to his country than the present Premier, Mr. MACKENZIE. He has not only failed to do his duty as a Minister of the Crown, but he has also failed to do his duty as a citizen.

far more interested that the rich man in getting good bread for his family; and for this special season, the fact that he has to "make it go down," as we may say, "our first warning is, however, to neglect the interests of the working men, while the severest sufferers by what is coming upon us, owing to the want of a National Policy. This year—from now till next year, the Government will do pretty severely the non-commercial theorizing in which our present rulers indulge, about buying in the cheapest and selling in the dearest market. It will be by buying in the dearest and selling in the cheapest market, with a vengeance, until a change of Government comes, which the country hopes will come ere long.

THE REAL QUESTION. At the close of the American war, when our cousins were agitating the forcible annexation of this country, Mr. DAVID MILLS had risen from his dusty books and proposed that Canada should not attempt to defend herself, inasmuch as Peace was a Reform doctrine, the philosopher would probably have been driven back to Ann Arbor, to-day, would have shut us out from our markets, are organizing to crush out Canadian industry, and succeeding too, his request that we should not raise a tariff on sugar, because Free Trade is a Liberal principle, is received with applause by a Party which professes to be loyal to Canadian independence.

THE FARMERS' GRAIN MARKET. We point out elsewhere the injury that Canadian farmers must suffer during the next twelve months, from the crowding upon Dominion markets of inferior Northwestern wheat and flour, of which that section of the United States will, by all accounts, have an immense quantity to get rid of in some way or other.

We point out elsewhere the injury that Canadian farmers must suffer during the next twelve months, from the crowding upon Dominion markets of inferior Northwestern wheat and flour, of which that section of the United States will, by all accounts, have an immense quantity to get rid of in some way or other.

THE REAL QUESTION. At the close of the American war, when our cousins were agitating the forcible annexation of this country, Mr. DAVID MILLS had risen from his dusty books and proposed that Canada should not attempt to defend herself, inasmuch as Peace was a Reform doctrine, the philosopher would probably have been driven back to Ann Arbor, to-day, would have shut us out from our markets, are organizing to crush out Canadian industry, and succeeding too, his request that we should not raise a tariff on sugar, because Free Trade is a Liberal principle, is received with applause by a Party which professes to be loyal to Canadian independence.

Here is a recent indication. The week before last there was held at Syracuse, in a State of New York, a Greenback-Labour Convention, to start the formation of a new "National party." The ground taken by both bodies is, that we are neglecting the interests of the working men, and that therefore a new party was necessary, and in the platform adopted by this party was the demand for a protective tariff, prohibiting the importation of all manufactured articles of which the raw material is produced and labour not "manufacture the same is found in this country; all articles which do not "or cannot produce to be admitted free."

THE REAL QUESTION. vidence, however, that to loss in this respect, which comes not of our sending another loss due entirely to our folly should be added. The latter we have power to avoid, and it is our own fault if we suffer from it. We cannot order the Government to do as we choose, but a stop to the stupid system of allowing our home market to be taken advantage of by foreigners, to the great injury of our own producers, and without any equivalent rendered. Let the distinction between what is and what is not preventible be borne in mind; and also the other distinction, which we have above pointed out, between manufacturing goods and raising grain for market. The injustice from which Canadian farmers suffer under the present system is without parallel in the wide world; there is actually no other instance like it to be named. Here two communities, touching each other along a border line three thousand miles in length; one of forty millions, with high Protection, and another of four millions, with Free Trade. No wonder the Australians who visited America two years ago were struck with the peculiarity of the situation, and declared that it was unlike anything they had ever seen or heard of.

WEDNESDAY, AUGUST 10. The Government Engineer, under the Mackenzie Government, is like Brigham Young's mother-in-law, somewhat "numerable." He is now showing the Maritime Provinces examining harbours, and prospecting breakwaters, and choosing sites for new light-houses, for the elections are near, and the Government is using its "material advantages."
