MONDAY EVENING, JUNE 1, 1874.

Town and County News

The Wellington County Council meets to-morrow.

The Minto Agricultural Society will meet at Markle's Hotel on Saturday, 6th June, to arrange for the Fall show.

The Canadian Bank of Commerce has declared a dividend of 5 per cent. for the six months ending June 30th next.

Cool Burgess and the Comedian Taylor delighted the inmates of the London Lunatic Asylum with one of their entertainments on Friday gratis.

SODA WATER.—Mr. W. J. Little has made full preparations for the hot weather. His fine soda water fountain is now in full blast, and a nice cooling drink can be obtained at all times. Delicious ice cream can also be had at his store on Upper Wyndham St.

HEARING that his pastor intended to preach on the recognition of friends in heaven, a parishioner suggested that he should preach on the recognition of friends on earth, since he had been sitting in his pew for twenty years without being recognized by the occupant of the next pew.

GRIP.—Mr. T. J. Day has sent us Grip, which pokes fun at Edgar, who is represented as the twice jilted wooer, who lost the elections in Monk and also in South Oxford. This is the first number of the third half yearly volume. It is now a good time to subscribe for this clever little sheet.

CONGREGATIONAL SOCIAL.—There will be a social held in the basement of the Congregational Church to-morrow evening (Tuesday) A good programme has been prepared. All are cordially invited. A strawberry festival will be held in the Dr. L. Shed under the auspices of the above congregation, June 25th.

WATCH THEM.—Our readers who have gardens will do well to look to their currant and gooseberry bushes, as the destructive little caterpillars have already begun their work of destruction. Potato bugs are on the rampage, and are vigorously attacking the potato shoots as soon as they appear above ground. A good supply of hellebore for the former, and Paris green for the latter should be kept on hand by careful gardeners.

HORSE DROWNED.—John McGerin, teamster for Mr. Robert Stewart of the Planning Factory, took his horse down to the river on Saturday evening, to give him a good wash after the week's work. He rode him into the river opposite Dr. Clarke's grounds, and not knowing the depth of the water in some parts of it thereabouts, horse and rider soon got into the deep hole near the stone bank, known as "Kate's Hole." The horse after one or two struggles sunk out of sight, and McGerin himself had a very narrow escape from drowning. His cries attracted the attention of some people on the bank, who wrenched some planks off the sidewalk close by, which they threw out to him, and by means of which he reached the shore. Had no one been aside at the time he would in all probability have been drowned also. By this untoward accident Mr. Stewart loses a valuable horse.

RICH SILVER MINE.—A reliable North Shore correspondent informs the Mail that the small force now at work on the Shuniah or Duncan mine have made an amazing strike. Captain Nichol assured him that at the depth of one hundred and seventy feet in No. 3 shaft they met with a true sixteen-inch vein of rich silver, which he would, in mining phrase, have commenced to stop at once, had not his instructions, which are to sink, and to sink only, prevented him. Our correspondent says that he himself saw a large piece from this vein, weighing at least thirty pounds, which yields five thousand dollars to the ton, and which Captain Nichol stated was only an average specimen from this vein. This looks like another Silver Lake mine on the main shore, which is "good news," indeed for Prince Arthur's Landing.

BISHOPS CONSECATED.—The Ven. Archbishop McLean, D.D., late the well-known and energetic Archbishop of Assiniboine, and formerly Curate of St. Paul's Cathedral, in London, Ont., was consecrated a bishop on the 3rd inst., in St. Mary's Church, Lambeth, by the Archbishop of Canterbury and other prelates. His See is the Bishopric of Saskatchewan. The Rev. W. C. Bompass, was created at the same time to a similar dignity. He will preside over the diocese of Arthabasca. Both bishoprics are in the North-west Territory.

RAILWAY ACCIDENT.—About twelve o'clock on Thursday night some of the night employes on the Great Western Railway at London found the dead body of a man lying across a rail of the main line a short distance east of Clarence st. The remains proved to be those of George Lloyd, formerly hotel keeper Port Stanley, lately of London. The wheels, it is supposed of No. 24 freight, passed over his body, entailing the body literally in two, and doubtless causing instan-
taneous death. It seems to be a case of premeditated self-destruction.

Local and Other Items.

W. S. Williams, Esq., of Nanapan, has been unanimously re-elected R. W. G. Secretary of I. O. G. T.

The revivalist Hammond estimates the conversions in Jacksonville, Ill., as high as 1,000 as the result of one week's labor.

An extraordinary revival of religion is said to have sprung up in Jacksonville, Fla., under the labors of Mrs. Palmer, of New York, well-known in Toronto.

FIRE AT PALMERSTON.—The saw-mill (washing) factory of John McDermott of Palmerston, was burned on Saturday, it is supposed by an incendiary. Loss, \$6,000; covered by insurance.

SUNSTROKE.—A labouring man named Webb, working on Carling's new brewery, London, received a sun stroke on Saturday, and died almost instantly. Another case of sun stroke occurred at a watch-making in the Grand Trunk, but it did not prove fatal.

WEST PETERBOROUGH.—Among the names of those mentioned as likely to be selected to contest West Peterborough Cox and Dumbell in the Reform interest, and W. H. Scott in the Conservative interest. These three are all local men.

The committee at work on the revision of the Bible do not expect to complete the translation in less than six years to come. No public funds have been voted to them, but they expect to receive ample pecuniary compensation by selling the copyright of the new version.

TO BE LAID UP.—The *Garmia Obersee* understands that the Gun-boat *Prinz Alfred*, which wintered at Chatham, and arrived there a few days ago, is to be laid up in ordinary, and the men paid off. This is a measure of judicious economy, for which our "war department" deserve credit, as there is really no necessity for keeping her in commission.

FATAL ACCIDENT AT AYL.—A most distressing accident occurred at Ayl on Saturday morning. A man named William Harper, servant of Mr. Tho. Marshall, was drowned at Mr. Goldie's dam. The men had been washing sheep, after which they proposed a bath. The unfortunate man was only a few minutes in the water when he sank, and did not rise again. When the body was found life was extinct.

ACCIDENT.—John Babb, jr., of Mitchell, met with an accident on Wednesday evening last. He was passing near a vicious horse belonging to Mr. Balfour, of Hibbert, when the animal kicked, striking him above the knee and across the thigh bone. One fragment of the bone was driven through the flesh and protruded almost through the skin, making a wound that bled rather freely.

THE NEW CENTRAL PRISON.—On Friday evening the first batch of prisoners, forty-one in number, arrived at the new Central Prison in Toronto. They came from London, St. Catharines, Hamilton, and other western cities. On Saturday night there was another arrival of seven-teen prisoners from the eastern cities. The men are employed in clearing up the building after the departure of the workmen employed by the contractor. The terms of imprisonment vary from six months to two years.

Twenty-one years ago a daughter of Peter Hawk, Esq., of Stroudsburg, Pa., was bitten by a mad dog. Although cattle bitten by the same dog were seized with hydrophobia, the girl did not show any symptoms of the disease. She grew to womanhood, and was married. Recently, as she was raising a glass of water to her lips, a shudder ran through her, and in a few minutes she was seized with hydrophobia in its worst form. A number of physicians were called, but they could do nothing for her. She died in great agony.

A decision of considerable importance respecting the disposal of liquor after legal hours, was given on Thursday morning by Police Magistrate O'Gara, Montreal. The offence consisted in a grocer having allowed half a dozen bottles of beer to be removed from his shop after seven o'clock on Saturday night. The offence proved positively that the beer had been bought and paid for during the early part of the afternoon, but the purchaser did not call for it until seven in the evening. His Worship dismissed the case, but declared that in future any such cases would be dealt with as an infringement of the liquor law, and a fine imposed accordingly.

A STRANGE FISH.—A rather odd piscatory specimen has been caught in Owen Sound. The following is a description:—Length 4 feet 11 inches from the point of the bill to the tail; the bill or mouth somewhat resembles that of a duck, but is much larger, being sufficiently large to permit it to swallow a child about a year old. In circumference it measures 2 feet 6 inches; length between the eyes and the nose, 13 inches; weight about 80 lbs; body covered with a tough skin without scales, something like a fish; tail shaped like that of a whale; long flapping ears something like an elephant, and nicely spotted; and a sort of double skin something like an apron extending from each side of the head and under the throat, backward.

NIAGARA FALLS.—The Ogdensburgh Journal compliments the people of Niagara Falls thusly:—"The band of robbers who inhabit Niagara Falls, and keep hotel, drive hack, and take gate, are repairing their respective outfits, are arranging to make it usually interesting for any unsuspecting stranger who may fall amongst them. The famous cataraet is a tame and spiritless side show in comparison with the magnificent proportions of a Niagara Falls hotel bill or the sublime audacity of the highway-men who turn up at the Falls as hack drivers during the season."

ALEX. GERRIE, harness-maker at Fergus, while assisting at a race on Friday of last week had his left hand smashed into a jelly by the parlor plate falling on it.

Rehearsal arrived at Niagara Falls on Friday, and put up at the International Hotel. He reached New York on Saturday. He declines a public reception, or to be lionized in any way.

The Baroness Burdett Contts sent Mr. D. L. Moody a check for \$5,000, as a strong expression of her appreciation of the work which he has been doing in Scotland. Mr. Moody returned the check, with many thanks. It seems that those hostile to his work have been charging that it was a "financial speculation," and he thought it best not to give color to this slander by accepting the liberal gift.

London, May 30.—The celebration of Queen Victoria's birthday, which, as is customary here, occurs on the Saturday following the 24th of May, is taking place to-day. All the Government Departments are closed, and the streets are thronged with people. This morning the Guards were reviewed in St. James' Park by the Prince of Wales, the Duke of Edinburgh and the Duke of Cambridge. Flags were flying from all points, and bells ringing. To-night the city is illuminated.

London, June 1, 5:30 a.m.—A serious riot occurred in Limerick yesterday. A mob of a thousand persons attacked a party of militia. The police defended the latter, and were stoned by the rioters. Reinforcements arrived from the stations, and the riot was finally suppressed, after a considerable number had been injured.

Bismarck is slowly recovering his health on his estate at Varzin.

Greenstown, May 31.—The steamship Baltic from New York, with Mr. and Mrs. Sartoris on board arrived at ten o'clock this evening, all well.

Paris, May 30.—It is alleged in official quarters that German diplomacy is working to annul the London treaty settling the neutrality of Luxemburg.

Madrid, May 30.—Catal Cushing, the American Minister, is received officially to-day by Marshal Serrano.

Utica, N.Y., May 30.—Intelligence was received here this morning that the Hon. Charles H. Doolittle, Judge of the Supreme Court of this District, was lost overboard from the Abyssinia on the 21st inst. He was on his way to Europe on a short vacation for the restoration of his health.

New York, June 1.—Rocheport was besieged by lion hunters, Communists and reporters, yesterday, but saw little company. On the subject of the future policy of the French, the *Herald* reports him as speaking, thus:—"McMahon cannot last three months, that's certain; he has not the least idea about government, and is simply the most prominent incapable man in France. Only one thing is to be done, that is: Elect a new Assembly, and the 80 Departments will elect Thiers; and when the new Assembly sees that they will have to make him President, Gambetta has to come. He is a statesman and would make reforms that the Republicans, who are in such a majority, want. Directly McMahon goes out there will be an amnesty to political offenders, then I'll return to France. I will not go on a single pardon; there must be a general amnesty. In relation to the Communists he says:—"They would have a very different name had it not been for that stupid mistake of killing the Archbishop. They had a set of fools at their head. As for burning buildings, that was all nonsense; three quarters of the edifices in Paris were set fire by Versailles bombs. He says he shall not stop in England, but shall locate in Geneva. He shall wait coming events in that city. He will lecture here for the benefit of French prisoners."

A Tribune special says—Richardson acknowledges at last that he is going out of office. His resignation will probably occur to-day, when Gen. Bristow's name will be sent to the Senate as his successor. Richardson will be nominated for the vacant Judgeship of the Court of Claims. Assistant Secretary Sawyer and Solicitor Banfield will also retire.

Washington despatches state that the chances of the final passage of the Civil Rights Bill are small indeed, as it is in such a condition between the two Houses of Congress that each can decline the responsibility for its failure. An effort will be made to pass it through the House to-day under suspension of rules.

New York, May 30.—The decoration of the graves of the Union dead in the cemeteries of the neighborhood of Washington, took place this morning under the auspices of the Grand Army of the Republic. The chief scene of attraction was Arlington Cemetery, thousands of persons there congregating.

Detroit, May 3.—Last night, as the Atlantic express, leaving Chicago at 5.15 p.m., was between New Buffalo and Niles, two unknown men pried open the front door of the express car and knocked down J. B. Heath, messenger, who was sorting his money packages for different stations. One of the robbers seized a package containing \$2,700, jumped from the car and escaped, leaving the other struggling with Heath in the darkness, the light having been extinguished. Heath finally drew a pistol and shot the scoundrel in the head, and then fell insensible from his injuries. As the train approached Niles he recovered sufficient to call for help, but was unable to rise. The robber lived only a few seconds after he was taken from the car.

Nashville, May 30.—A man named Murphy, claiming to have come from

Dover, Stewart & Co., Tenn., went to a house in Tipton County yesterday, and cut Mrs. Milton Donaldson's head open with an axe, killing her instantly. He also cut two great gashes in the head of a negro servant girl, who subsequently gave the alarm. Murphy was caught, and confessed to the killing of the negro, but denied the murder of Mrs. Donaldson. One negro, however, identified him as having committed both deeds, and he was shot at eight o'clock last night by the citizens, his guilt being fully established. He committed the deed with the view of robbing Mr. Donaldson's safe, which he supposed contained \$7,000. The negro cannot survive.

Two boys were drowned at Merriton on Saturday while bathing.

A very old book is in the possession of Mr. Francis Hay, of Paisley. It was printed in London, England, 237 years ago.

A daughter of Michael Hannan, Suspension Bridge, five years old, was drowned in a cistern in her father's yard one evening last week.

The steamship Austrian has brought over a large number of immigrants, chiefly English labourers, who intend to settle in Canada.

According to the report of the Postmaster General, only one registered letter in every 23,600 went astray, and the few which did not reach their destination have been discovered or made good.

A eccentric person named Johnston, has just died in England who spent the whole of his fortune, estimated at £100,000, in trying to demolish the Malvern Hills.

Peace is preserved in a household in Elkard, Iowa, by a long withy rawhide hung up in the bedroom of the juvenile portion of the family, bearing upon its handle the legend: "Boys, please be kind to your 'mother.'"

ACCIDENT TO A HORSE.—A valuable horse belonging to Mr. A. Young, Goshen, broke his leg by getting its foot into a hole in a crossway, and it had to be shot. The horse was valued at \$200.

PROFESSOR GOLDWIN SMITH has been appointed to represent Quebec at the Sixth International Congress of the Society for the Prevention of Cruelty to Animals, which meets in London on the 15th inst.

A little boy named McNeerney was drowned at Niagara Falls last week. He fell through a hole in the Fourth-street Bridge into the water. The bridge was condemned a year ago, and there is talk of a prosecution of the village for damages.

On Thursday the platform men in Mr. Eddy's employ, at Hull, who were getting \$1.25 daily, struck for \$1.50, which was refused, and the police had to be called to get them out of the way. The strike ended by the men going to work at the old rates.

The body of George Lloyd was found in the yard of the Great Western Railway, London, on Thursday night in a terribly mutilated condition. He had been run over while attempting to cross between the cars of a freight train.

His Excellency the Governor-General and the Countess of Dufferin, together with many prominent persons, will be invited by the Premier and a number of members of the Ministry, to participate in a pleasure trip on Lake Superior during this summer.

The surveyors of the Dominion have adopted the following scale of prices: \$10 per day for field or office work; \$5 for each astronomical observation; \$2 minimum charges, for descriptions. Eight hours to constitute a day's work, and time charged from leaving the office until return.

A LIVERPOOL paper is responsible for the following:—"Some time ago a vase which had been buried in the time of St. Louis was unearthed in St. Astier, France. Among other things it contained an onion which after having lain unexpanded for a short time to the air, was set. In spite of its age, 600 years, it has grown into a healthy plant."

THE Paisley Advocate says that the new cannon burst with the first shot on the morning of the 25th. The charge was a tremendous one. This primitive piece of artillery, was placed on Test-water Bridge, and the explosion carried off a portion of the railing. Some of the fragments of the gun were thrown into the river. Luckily no one was hurt.

A MEMORIAL signed by a large number of business and professional men in Mount Forest, has been forwarded to the Judge, recommending the appointment of Mr. Jonathan Conklin, in the place of Mr. John Sheppard, who has resigned his position as Bailiff of the Eleventh Division Court.

The fleet of ocean steamers that left New York on Saturday numbered no less than fifteen. Times have changed since the day when the arrival or departure of a fortnightly steamer—and a little two-thousand-ton ship at that—was something which excited general interest. It will not be very long before steamers will be leaving America for Europe as frequently and regularly as the through trains on the great railway lines.

By a return just issued the area of London is 122 square miles. The river is crossed by seventeen bridges. The average daily supply of water is 514,269 metric tons, and the annual taxable value of property is £20,000,000 sterling. Last year the number of births was 121,100 in fifty-three weeks, or 2,285 weekly; and as the death was 75,654, or 1,446 weekly, the excess of births over deaths was 42,366 or 839 weekly.

The old discussion over the use of fermented wines at the Communion Table appears to have taken a practical turn in the case of the First Congregational Church, Peru, Ill., which has voted to discontinue their use, as inconsistent with the spirit of Christ's teachings in their application to the needs and exigencies of the present day. When it is impossible to obtain unfermented wine, the deacons are instructed to furnish cold water instead.

The enormous increase of railway casualties in England has become a subject of Parliamentary inquiry. The Marquis of Salisbury, a railway director, said the only thing that could be done by law to prevent railway accidents was to make want of punctuality in the arrival and departure of trains punishable by heavy fines. The fact is that the railways need more rails, while their small dividends of four per cent. would not justify the outlay.

Changes in the Cabinet.

We notice that Chief Justice Duval, who is at the head of the Bench in Quebec, has resigned, that his resignation has been accepted, and that his successor will be appointed in a few days. We should judge from a paragraph in to-day's Globe that the Hon. Mr. Dorion will be appointed in his place. This change has been spoken of for some time past, but was probably laid over till after Parliament was prorogued. In Mr. Dorion's retirement from public life the Reform Party of Ontario loses the ablest, most consistent and devoted Reformer in Quebec. Mr. Dorion has been many years a member of Parliament, and we well remember in the early struggles of the Reform Party, from 1854 to 1866, what valuable assistance he gave on the floor of the House in all matters affecting its interests. As the Reform leader of the Lower Canadians he was of great service in every contest, and in every struggle for the right. His great ability and his untiring industry made him a valuable co-worker, while his gentlemanly bearing, his pleasant manner and his sterling honesty endeared him to all—whether friends or opponents. He has well earned the honour about to be conferred on him, and his long and consistent public life and valuable services to the Reform Party, will be held in grateful remembrance by every member of it in Ontario as well as in Quebec.

There are rumors of other changes in the Cabinet. The Sarnia Observer generally well informed on these matters, says that the Hon. Mr. Mackenzie intends to resign the Premiership, in order to be able to devote more attention to the Public Works, at this time the most important of all the departments, and enough to tax the energies of any one man. The same authority says Mr. Blake is to succeed Mr. Dorion as Minister of Justice. It is further said that Messrs. Ross and Coffin are to retire from the Cabinet, and that they are to be succeeded by Messrs. Jones and Killam. Perhaps the changes may not be precisely as indicated, but that important changes are contemplated, there is no reason to doubt. If Mr. Blake should decide to enter the Cabinet and assume the duties of the Department of Justice, he will find that the duties of Premier and those of his department are more in consonance with each other than those of any other department. It is moreover said that, in addition to this impression has begun to gain ground that the Presidency of the Council should be abolished, and a Department of Railways should be created. The Presidency of the Council is a mere fiction, and its amalgamation with some really executive office would be beneficial.

The appointments of Vice-Chancellor Strong to be senior Justice of the Court of Error and Appeal has been gazetted.

An associated press despatch states that President Grant has issued a proclamation extending to Newfoundland the execution of the fishery clauses of the Washington Treaty.

The Hon. L. Letellier de St. Just is going to Manitoba on matters connected with the Immigration Department, and the Premier proposes to visit British Columbia this summer, in order to become more thoroughly acquainted with the people and requirements of that Province.

The Ottawa Times of Saturday says: We believe that rather encouraging accounts of the progress of the reciprocity negotiations at Washington have reached the town.

From the Berliner Journal we learn that a delegation of the German inhabitants of Waterloo county have gone to Manitoba to erect temporary dwellings for the Russian Menonites now on their way to that Province. They intend to inspect the country thoroughly, looking out the best places for settlement, and will be absent one month.

Goldwin Smith, in reply to a letter sent to him by the Secretary of the Toronto Teachers' Association, informing him that he had been nominated as a candidate to represent the Teachers in the Council of Public Instruction, states that he will accept the honour if conferred on him, and do his best for his constituents.

The Stolen Letter.—Hon. Mr. Chapleau has written to one of the proprietors of La Minerve a letter which that paper publishes, in explanation of his inaction after the information given him last September by Colonel Bacon as to Boyes' suspected guilt in the abstraction of the Pope-Macdonald letter. He says that Col. Bacon was the sixtieth who had come to tell him the name of a culprit. He had no reason to suppose his information better founded than that of the fifty nine who had preceded him, which would have given two years useless trouble had action been taken.

A colored brother who, in Conference in Cincinnati, proposed a resolution on joining colliery on the membership, was constrained to take the back track by the remark of a Kentucky brudder, who sweetly said: "He knew de antecedents and seeders of Brudder Morgan, oh New York, who was now in de joyment ob de early felicity ob his four wife, and dat her batiful form would scarcely be laid in de cold and silum tomb, and dat her angelic fingers would scarcely touch de strings of de golden harp in de celestial city afore Brudder Morgan, oh New York, would be looking out for No. five."

DEATH OF A NOTED ASTROLOGER.—"Zadkiel" is dead. Commander Richard James Morrison, of the Royal Navy, died a few days ago at a very advanced age. Under the well-known signature of Zadkiel Tuo-Sze, he had for nearly half a century brought out yearly an astrological almanac, in which not only he but thousands of other people in England thoroughly believed, and the income of which produced him a competence. He was a Hebrew scholar and mathematician of excellent acquirements, and as far as possible removed from the vulgar charlatan that many considered him. When Admiral Sir Edw. Belcher in a careless hour called him an impostor, Lieut. Morrison promptly sued him for slander, and brought on the stand as witnesses the late Lord Lytton, the Earl of Wilton, and other persons prominent in the social and literary world. The Court found for the plaintiff. It is hard to believe it in this nineteenth century, but there are, not only in England but in New York as well, a great many cultivated and intelligent men who regard Astrology as a science as worthy of respect as Chemistry or Astronomy.

NOVEL STYLE OF SMUGGLING.—A queer system of smuggling has been brought to light by a Bill presented by the Finance Minister to the French Assembly a short time ago. It seems that large dogs, bred and trained for the purpose, are taken across the Belgian and Swiss frontiers and are despatched to French territory, under cover of the night, laden with tobacco and other colonial produce on which a high duty is leviable in France. It is said that the average profit on each journey is six francs, and the Bill referred to proposed to levy a like duty on all dogs exported above a certain size. This would, of course, put an end to the "canine smugglers" being taken into Belgium and Switzerland, and effectually extinguish this curious contraband traffic.

A GEORGETOWN (Ky.) dentist advertises to extract teeth "without pain to the operators and very little to the bystanders."

BREAKFAST.—Epps's Cocoa.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills."—Civil Service Gazette. Made simply with boiling water or milk. Each packet is labelled—James Epps & Co., Homoeopathic Chemists, London."

Base Ball Notes.
Speaking of the match between the Independents and Restless Club on the 26th, the *Georgetown Herald* says: "No one was astonished at the result, for the 'Restless' have had no practice this year."
The Base Ball Tournament Committee of Watertown, N. Y., have concluded to offer \$1,000 in prizes, to be divided into two classes, \$700 to the first class and \$300 to the second class. The prizes will be awarded to amateurs only, and the tournament will commence on the last Monday in June.

BLACKWOOD.—We have received from the Leonard Scott Publishing Company, the May number of *Blackwood's Magazine*, which opens with the continuation of "Valentine and his Brother." The interest of the story increases, as the boys and their father, who have been so strangely separated, are drawing very near to each other. The article on "Hercules" was suggested by a recent picture—the *Aleosis* of Mr. Leighton—which the writer characterizes as one of the most beautiful of modern pictures.

"Convivium Templare" is a festive scene, somewhat in the style of the famous "Noces Ambrosiennes," and like them, requiring minute local knowledge, for full appreciation. In "Alice Lorraine, Part III," we are carried to the lovely valley of Medway, and are treated to a graphic medley of fruit-picking, and love-making in an old-fashioned Kentish farm. The present series, No. V., of "International Vanities," treats of Emblems. A brief description is given of these various symbols, followed by a very entertaining history of the French and other flags. "Dates and Dates," by Lord Lytton, a clever-off hand plea for fable, by way of good humored response to some recent criticisms on "Fables in Song." In the "Budget and the Income-Tax" we are told that "there is hardly any subject within the range of English politics about which so much has been written and spoken as the Income-Tax, and there is hardly any subject about which the public mind is so little matured." A history of the tax in question follows this remark.

MYSTERIOUS.—A recent Parliamentary report informs us that on the resolution of the House the Hon. Mr. Tupper was added to the Committee on the shortest route to Europe. Now what does this mean? What dark nefarious scheme lies hidden under the apparently harmless resolution that Mr. Tupper is to be added—we had nearly written added—to the Committee on the shortest route to Europe? Mr. Tupper's proverbial long-windedness—which by this time is as famous as his namesake's proverbial philosophy—would hardly, we should think, tend to shorten the proceedings of the House. Happy thought! Mr. Tupper is a Doctor of Medicine. What more natural than that he should be placed on the Committee on the shortest route to the other world?—*Montreal Star.*

FATAL ACCIDENT.—On Monday evening last an accident occurred to Rincar Vansickle, a teamster in the employ of Mr. Wm. Nisbett, of Beverly, which resulted in his death. He had been to Dundas with a mast, and in going home the hind axle of the heavy truck having broken down near one of the wheels, was supported on a long stick which dragged on the ground, when from some cause or other unexplained, Vansickle fell off the truck, and the stick which supported the weight of the truck and dragged on the ground, passed over his body, and inflicted injuries of such a serious character that he died in about twenty-four hours. He was about thirty years of age and a married man.—*Dundas Banner.*
The "Zar" is about forty-eight years old; he is six feet high; he has light whiskers and moustache, with a clean shaven chin; his hair is cut short; his complexion is fair, and he has a good color. He is strongly built, without being fat. He is the very picture of a fine soldier. He wore the dress of a Russian general—a high blue tunic, with gold braid and epaulettes, blue trousers with gold stripes. On his head a gilt helmet, with a double eagle for a crest. In his manners he is very courteous and easy. He speaks English with perfect fluency and ease.

Dr. Guthrie, in his inimitable autobiography, referring to the affected address of certain modern young ministers, speaks of one particularly, who, instead of calling children by the wholesome old Scotch term "bairns," spoke of them as "those sweet and interesting bipeds that call man father."

DR. WHEELER'S ELIXIR OF PHOSPHATES and Calisaya—After having used your Compound Elixir of Phosphates and Calisaya for over two years in the practice, I must give it my unqualified approbation. During a practice of over twenty years, I have used many scientific and prepared compounds, made to fulfil the same therapeutic indications as your Elixir, but none of them with the same valuable as yours. To the medical profession and the public, I would especially recommend it as the best remedy with which I am acquainted for the successful treatment of cases of over-worked and nerve-exhausted women. Your truly,
W. WATKINS BUEL, M.D.
