

THE TORONTO WORLD

THURSDAY MORNING MARCH 27, 1936.

LOCAL NEWS PARAPHRASED.

Executive committee at 4 o'clock this afternoon.

The Ontario prohibitory alliance closed its business yesterday.

Mr. Landers' residence at Parkdale was sold yesterday for \$18,000.

The extensive alterations in the post office are well advanced.

On dit, that Ald. Ape is to be appointed tax collector for St. Patrick's ward.

Large attendance at the Royal museum yesterday. Two performances daily.

C. Hemmingsway, a Grand Trunk brakeman, had his fingers crushed while coupling yesterday.

Night before last the high wind blew down the chimney of the hat manufactory at 79 Niagara street.

The average monthly attendance at the Parkdale public school is 479.

Wimmer has been exonerated from the charge of cruelty to a boy named Street.

J. B. Hall, a well known member of the masonic, orange and workmen's orders, died the day before yesterday, and will be buried to-day.

The interment will take place at the Bolton cemetery.

Frank Cash, driving a wagon for H. T. Caldwell, No. 450 Yonge street, tried to turn a corner too suddenly yesterday and was thrown out and badly hurt.

Dr. McPherson sowed up a bad scalp wound.

Building permits: A. Ardagh two-story brick and Mansard residence on Yonge street, east of 5000; John Christie, two-story roughcast brick-fronted dwelling on the east side of Ontario street, between Gerrard and Carlton streets, cost \$900.

Chas. E. Power, business manager of Siberia, Barclay Campbell's new play, is in town arranging for its production at the Grand for the week commencing April 7.

The play portrays the prominent features of Russian life, and consists of six acts and seven tableaux, the scenery being striking and beautiful and the costumes correct to the letter.

Siberia will doubtless do big business.

The Toronto fencing club's assault arms which takes place in the Grand opera house on Monday evening promises to be very successful.

The tug-of-war between the Buffalo and Toronto police will be an interesting feature.

The club has decided to present a very handsome gold medal to each member of the winning team.

The medals are on exhibition in Taak's & Son's window at the corner of Yonge and Adelaide streets.

"The reason why 'Nonsuch Washing Compound' should be used in preference to all other washing preparations. First, it is perfectly harmless. Second, it saves more than half the labor. Third, it is the cheapest in the market. More can be given but this should be sufficient. For sale by all grocers. Lowden & Co., Wholesale, Agents for Toronto.

2-4-6.

WATER WORKS ESTIMATES.

What the Committee Wants to Carry on the Business of the Department This Year.

At the meeting of the water works committee yesterday afternoon, all the members attended except Ald. Farley.

An application from the foreman at the waterworks engine house for more pay was not entertained.

At the suggestion of Mr. Spratt it was agreed to have 500 copies of the annual report printed.

The following estimates to cover the departmental expenditures for the present year were submitted, the figures in the first column giving an idea of the increase over last year's appropriation:

Pumping machinery	1883	1884
Maintenance	\$50,000	\$58,000
Press house	5,000	7,500
Reservoir	1,000	400
Meters	1,300	2,400
Office and miscellaneous	613	1,000
Rental of water and island lots	2,927	3,700
Salaries	21,000	26,778
St. Paul's ward pumping station		850

IMPROVEMENTS AND ADDITIONS.

House services	\$100,000
Meters	5,000
Mains	40,000

At Mr. Spratt's request the item for new mains was increased to \$80,000, to provide for the increase in the service consequent upon the annexation of Brockton and Riverdale.

After reducing the item for salaries to \$23,000 the committee adjourned.

A DISORDERLY LODGER.

Tom O'Connor Rates Cain at the Model Lodging House.

Last night about half-past ten o'clock, an excited Englishman, very much blushed, and decidedly mad, tore into No. 1 station and called for a policeman right away.

The grave and spectacled Inspector Stuart kept on making out his books with characteristic coolness, and by degrees got the excited person to calm down.

The manager of the model lodging house, to tell his little story. He said that the man named Cain, an O'Connor raising a particular Cain in the lodging house and he wanted a policeman to eject him.

A reporter accompanied the policeman to the lodging house, and when the front door was flung open a gust of foul and corrupt air swept out into the street.

In the corridor a mob of ill-dressed men and women were congregated, all in the latest stages of dilapidation. The proprietor pointed out Mr. Tom O'Connor, who was hustled out into the street, where he made the atmosphere blue with an occasional streak of pea green in it.

These rows took place very often, and the manager has his hands full with the class of people who go there for shelter.

AT THE ANZIES.

Gilbert W. Gordon - The Military Case Against the Street Railway Company.

DOMINION DASHES.

The Latest and Best News Found in Our Canadian Exchanges.

Newfoundland has a surplus of \$152,520. The Hamilton police banned their spring uniforms yesterday.

Rev. Mr. McGregor, of Tilsonburg, was recently presented with \$400.

The Grand Trunk employees at Hamilton are firmly resolved to oppose any reduction in their salaries.

E. Hicks, son of Isaac Hicks, Dorchester, N.B., went into the barn to feed the horses, and was found dead a few moments later.

The new lieutenant of the Kingston salvation army is Miss Crosby, from Chatham, a clever young girl and a clear and pleasant speaker.

A branch of the Credit Valley railway is to be built from Woodstock to London and through to Detroit, thus forming another through route from Montreal and Toronto to Chicago and the west.

Frank Taylor, the Merchant's bank clerk who absconded last week, is in trouble with a girl and had to skip.

It is whispered that the amendments of Sir Hector Langevin to the McCarthy act will contain a clause cutting out the power of the corporation to restrict liquor licenses and also extending the time for applications.

The dominion grand council, Royal Templars of Temperance, was in session at Hamilton on Tuesday, preparing for the transfer of Canadian councils from the jurisdiction of the American supreme council to their own.

A. Wright, for many years foreman in the Midland railway shop, Port Hope, was presented with an address and a valuable gold watch and chain last Monday, by his fellow-workmen on the occasion of his leaving to go into business in Belleville.

Thomas Hothers, foreman in a furniture factory, Windsor, while operating a circular saw, was struck in the abdomen by a flying splinter of hard wood, and a deep and dangerous wound was inflicted.

Careful treatment the injured man may recover.

Between 300 and 400 Cape Breton fishermen passed through St. John, N.B., this week en route for the Gloucester fishing fleet. They go to man American vessels and come back to make the necessary repairs.

Over 2000 of them passed through St. John during March and April last year.

On Monday, Mrs. A. Drinkwater, Brockville, was driving a motor car, which is described as unfit for anything but horse-drawn use, with a dead baby, but a few hours later, lying on the road. There was no fire, no explosion, and no accident.

The woman died a few hours after being found.

THE OLD WORLD IN BRIEF.

Bismarck has directed the senate of Bremen to ask for admission to the imperial customs union. The senate is unwilling to do so but must yield.

A man named Leduc, formerly American consul agent for Alexandria, has asked the Porte for permission and concession to build a ship railway from El Arish to Suez, and to make the Mediterranean with the Red sea.

Chas. Mitchell Boies a Dray.

Boston, March 26.—Five thousand persons were present at a sporting match in this city to-night between Chas. Mitchell and John Kilbane. The match was an exhibition and was declared a draw.

A Fair Offer.

From the Detroit Free Press.

A few days ago a farmer drove up to the door of a Springville saloon and called out to several men standing around that a neighbor of his living about four miles away had fallen into the family well and probably killed himself.

"Well, what of it?" asked one of the men.

"Why, I want two or three of you to ride out with me and help to get the body out."

"For how much?"

"You don't pretend to want pay for such an action as this?" gasped the farmer, but they said they did, and he entered the saloon to make a bargain.

"I tell you how it was," began the farmer, "I let you drink beer, and I hire a pony for two shillings to drive you home. But what else I can do to-day."

"I can't go, my friend, but I tell you how it was. I let you drink beer, and I hire a pony for two shillings to drive you home. But what else I can do to-day."

"I can't go, my friend, but I tell you how it was. I let you drink beer, and I hire a pony for two shillings to drive you home. But what else I can do to-day."

"I can't go, my friend, but I tell you how it was. I let you drink beer, and I hire a pony for two shillings to drive you home. But what else I can do to-day."

THE CABE

Is the Oldest and most Reliable Brand of Cigars in Canada.

Nearly a Quarter of a Century in the Market.

Smokers are cautioned to see that every CIGAR is stamped, as unscrupulous dealers use in the habit of palming off inferior goods as our make, because it pays them a larger profit.

Manufactured Only by S. DAVIS & SON.

Factories - MONTREAL.

TORONTO BRANCH - 34 Church Street.

A French Opinion.

In Toronto the enemies of the archbishop are protestants; while here, the detractors of episcopal authority call themselves catholics; there is the contrast. Toronto resembles Quebec in the fact that men are to be found there who make it a business to be public corruptors, but whilst here the corruptors splash pedestrians with the mud of their carriage wheels, there they put in prison; there is the contrast.

There the member tempted by corruptors does not fear publicly to denounce the tempter, even before the latter has attained his ends; here a member keeps silent, so that the corruptor may enjoy his misdeeds in peace.

What is Catarrh

From the Mail (Canada) Dec. 15.

Catarrh is a most prevalent disease caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances and does not exist in the nose of either healthy or diseased persons.

The blighted corpuscle of tubercle, the germ poison of syphilis, and other diseases, are either eliminated or destroyed by the action of the vegetable parasite.

Many attempts have been made to discover a means of destroying the vegetable parasite, but all have failed, without success, in relieving the disease, without doing harm to the patient.

Many attempts have been made to discover a means of destroying the vegetable parasite, but all have failed, without success, in relieving the disease, without doing harm to the patient.
