MacKenzie, older son of Mr. and Mrs. George MacKenzie of Colbourne street, London. The bride, carrying a sheaf of roses and wearing a gown of white canton crepe, beautifully embroidered, and the customary veil and orange blossoms, entered the living-room on the arm of her brother Harold, to the strains of the wedding march played by Miss Lillian Leach, aunt of the bride. Miss Olive Leach, sister of the bride, wearing a pretty dress of peach-colored crepe de chene assisted the bride, while Mr. Wm. MacKenzie the groom's only brother, performed the duties of groomsmen.

The ceremony was performed by Rev. T. A. Steadman, pastor of Bethesda church, in the presence of thirty five friends and relatives of the contracting parties. After partaking of a wedding dinner the newly married couple took the evening train for London where they will make their home. ## DEDICATION OF MEMORIAL FONT

Tenth Anniversary of New Trinity Church, Watford

Nearly three hundred people assembled in Trinity Church on Sunday evening to take part in the tenth anniversary service of the opening of the new church, on which occasion the memorial font presented to the church by the family of the late Capt. Mansell R. James was unveiled and dedicated. The ceremony of dedicating the font to the service of God was performed by the rector, Rev. J. H. Hosford, M.A., after the third collect, Mr. Cecil James, of Strathroy a brother of the late Capt. James, withdrawing the union jack which covered the font. At the close of the dedication the hymn "For all the Saints who from their labors rest" was sung by the choir. The rector preached an excellent sermon from the text Matt 21:42, "Christ the Corner Stone", and the choir rendered a lengthy anthem in a telling manner during the offertory, Miss Raines and Mr. Connolly taking the solos. Cut flowers and flowering plants tastefully adorned the building.

The memorial font is a massive affair cut out of a solid piece of fine Italian white marble, is 36 inches high with 16 inch base, and stands on an oak platform. On the front is the crest of the R.F.C. and the motto "Per Ardua ad Astra"

On the right side is engraved: In Memory of Capt. Mansell R. James, D.F.C. Born June 15, 1893 Lost May 29, 1919 and on the reverse side a passage from Ps. 57:1.

"In the shadow of Thy Wings will I make my refuge."

Fire at the village of Gesto Sunday night destroyed the general store of Thos. Kennedy, the loss being estimated at \$15,000. Origin of the blaze is undetermined. A quantity of oil and gasoline in the building was destroyed and for a time an explosion was feared.

Captain John McDonald is mayor-elect of Marine City. He is 58 years old and was born in Canada four miles south of Sombra in 1865. He has lived in Marine City 28 years. In that time he has held one municipal office. This was in 1916 when he was named to take the place of a retired alderman for a period of months. He was the republican candidate for mayor in 1922, but was defeated by Otto A. Guy by a majority of 54 votes.

The funeral was held from the family residence to Froomfield cemetery on Saturday at 2.30 p.m.

He was taken to Sarnia in a caboose and conveyed from the depot to Sarnia General Hospital. It is believed that both ankles are fractured. The presumption is that the top of the car was slippery from the early morning frost and that Harris lost his footing and fell. He is a married man, living in Sarnia.

#### RECEIPT TAX TO GO

Rumors of two or three more or less drastic changes in business taxes are discussed in an Ottawa special to Canadian Grocer. These are said to be:

1. Cancellation of the Receipt tax.
  2. Cancellation of the Excise Tax on beverages and confectionery.
  3. Change in stamp tax on cheques, documents, etc. This change would be maintaining the present 2c stamp on cheques up to \$100, and above that 4c only, instead of the present graded scale.
- The Government has secured a much greater revenue from the Sales tax than it anticipated, which leaves it in a position to make some changes in those taxes that have proven more or less of an annoyance to business men.—Financial Post.

#### MR. FIELDING'S SENATE REFORM

Hon. W. S. Fielding, Minister of Finance, submitted to the House of Commons a scheme of Senate reform. In brief, his scheme—and he emphasized that he was not speaking for the Government but expressing a personal view—provided for a nominated Senate as follows:

- 1—One half nominated (as the Senate is now nominated) by the Dominion Government and to be known as "Dominion Senators."
- 2—One half nominated by the Provincial Governments, and to be known as "Provincial Senators."

The nominations would be for a period of ten years, with eligibility to a second ten years. At eighty years of age, senators would be retired. Mr. Fielding would not disturb existing senators, but would give them the right to retire at 75 on a pension of two-thirds of their present indemnity.

#### A SMALL TOWN, CLEAN BOY

A girl who left London, Ont., some time ago, and who has since figured prominently in a divorce suit in Detroit, has been in the old home town again. Of experience she has had more than the share that fall to most people in a whole lifetime. Reports have it that she is reconciled once more to her husband, reputed to be a millionaire. There is something in her remarks, though, that has a lot of human feeling when she says: "I wish I had married some good, clean boy in a small town." There's a thought for the girls who imagine that the man elsewhere are better than those at home; that the boys of the small towns are a bit dull and uninteresting. Yes, sir, a good clean boy in a small town is a pretty fair chance for a happy married life.

#### A GOOD MEDICINE FOR THE SPRINGTIME

Do Not Use Harsh Purgatives—A Tonic is All You Need.

Not sick—but not feeling quite well. This is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in the spring is a tonic that will enrich the blood and build up the nerves. Dr. Williams' Pink Pills do this speedily and surely. Every dose of this medicine helps to enrich the blood which clears the skin, strengthens the appetite and makes tired, depressed men, women and children active and strong. Miss S. L. McEachron, Nairn, N.B., says:—"I have been in the habit of taking Dr. Williams' Pink Pills in the spring and they keep me in the best of health. I think it is entirely due to the use of these pills that I always have such good health."

Sold by all medicine dealers or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

#### NOTE AND COMMENT

The Michigan senate passed a two cent per gallon tax bill by 19 to 11, after a very bitter battle.

Hundreds of thousands of pupils in the United States schools are studying Spanish. It is a reminder that English and Spanish divide almost the whole of the New World between them.

The first lot of store cattle shipped from Canada to Great Britain in 25 years was landed in Glasgow last Friday in first class condition. Some of the cattle sold for 12 cents per pound live weight.

Steel Company stockholders may cogitate a whole lot over revelation that the head of the stock-selling end of the business in Canada received an income of more than \$1,000 a week in 1922, according to an official record at Toronto.

The L. R. Steel collapse will perhaps give Canadians of moderate means a lesson in the folly of putting their money in foreign investments. It is calculated that nine millions of Canadian money was invested in the stock of the United States end of the Steel concern. Many of the investors no doubt thought they were buying stock of the Canadian company and were fooled by glib-tongued stock salesmen.

St. John Telegraph—The Soviet authorities have refused to pay attention to the urgent appeal from the British Government, the Pope and other influential sources to spare the lives of several clergymen who have incurred their displeasure. Bolshevism is a menace to the world. The sickening list of crimes it is responsible for is increasing every day. In enlightened countries it must be trampled upon whenever it rears its ugly head.

The bill before the Ontario Legislature which would change the personnel of county councils, the deputy reeve ceasing to function, would seriously affect Lambton county as at the present time there are six municipalities, Brooke, Dawn, Enniskillen, Sarnia township, Sombra and Petrolia with deputies serving. Under the new legislation, however, it is proposed to give the reeves voting powers in proportion to the population of their respective municipalities. Towns with 2,000 and 3,000 people would be given two votes.

Amherstburg Echo—Too many children are evading school these days. Frequently the parents are to blame and a flimsy excuse on the part of the juvenile is too readily accepted by many parents. This stay-at-home scheme is being overworked and the disinterested attitude of some of the parents in this connection is amazing. The home and the school make for the child his future, and where the home training lacks those essentials which combine to properly govern and direct a child, the school remains his one great hope.

Lapse of memory is made responsible for the crooked doings of many a crank who is trying to dodge responsibility for unlawful frolics. One of the latest bobs up at St. Catharines, when a clothes line was cleared of the garments by a prowler, whose mind appeared to be a blank when brought to book for his desire to add to his laundry equipment. A "cheerful" liar and "lapper" are two difficult propositions to enclose within a fence. The "lappers" constitute no insignificant portion of the population. Every newspaper has scores of them on its subscription list, and in some instances they have had the ailment for years.

Blenheim Tribune—We notice that some of our exchanges are carrying advertisements by municipal clerks giving notice of the posting of Part Three of the Voters' Lists prepared by the authority of the Chief Election Officer of Ontario for the coming provincial elections. We find from the clerk of the town of Blenheim that this is unnecessary and unauthorized, and he has on file at his office a letter from the Department to this effect, and that his duties are ended with the completion of the list. Any revisions are to be made at a latter date by a revising officer appointed by the Department. One newspaper last week from Perth county had a half dozen notices for as many different municipalities whose lists had been prepared at that office. This is fine business for the newspapers, but if instructions from headquarters had been more explicit or had been better understood by the clerks this expense in a great many municipalities might have been saved. The clerks of both Blenheim and Harwick were wise in the interests of their ratepayers.

#### ITEMS FROM FAR AND NEAR

Some Wise, Some Otherwise  
Some Newsy, All Readable.

Sale of intoxicating liquor to any youth under 21 years of age in New Mexico has been made a felony and punishable by a penitentiary sentence of from two to fifteen years.

Recently issued legal directories show that there are at present 597 law firms in Toronto as compared with 515 last year. At Osgoode Hall 121 lawyers were called to the bar last year.

A hog weighing 250 pounds, believed to have been accidentally buried under a straw stack on an Ohio farm last October, was found last week, still alive but scarcely able to stand, and weighing but 100 lbs.

Canada lost 1,975,276 working hours in 1922 owing to strikes and lockouts, according to figures published by the Labor Gazette for March. From 1901 to the present time the country has lost 20,579,530 working hours, from the same causes.

June 4 this year will be observed in Canada as the birthday of his Majesty King George V. June 3 this year falls on a Sunday, and the proclamation provides for the following day being observed as a national holiday.

A new smokeless railroad locomotive has been invented by a Russian in Berlin. The new engine has no smoke stack and looks like an ordinary baggage car. The inventor says his invention will make it possible to build railroads in the Sahara Desert and other great stretches where water is not found.

It now turns out that the auto license markers this year cost the department 23c a pair, whereas the auto owner was forced to pay one dollar for these markers, in addition to the regular license fee. If a mercantile concern extracted the same rate of profit from the public as the department does, more than likely someone would be asking for a Government investigation.

Housewives of the country should declare "sugarless days" until the price of sugar is forced down. Senator Arthur Capper, of Kansas, leader of the Farm Bloc, declares. In the meantime, the Federal Government should vigorously prosecute those responsible for market manipulations, which boosted the price and put an extra expense on the public of \$15,000,000 a month, he said.

Farm laborers in Great Britain are on strike. Why should not a few thousand of these men be brought to Canada, where farm laborers are scarce, and where they could readily be placed with farmers who would be glad to pay them more than the pittance of \$5 or \$6 a week they receive in the Old Country. When one considers the comparative size and population of Great Britain and Canada—forty million people living on an island that could be tucked away in a corner of Canada and hardly noticed, while this immense country has fewer than ten million people—the wonder is that there is not a great rush from the overcrowded land to the sparsely-settled areas of this Dominion.

Two notable discoveries are reported from Bolshevik Russia, one by Prof. Figu Pasazoff, who, it is claimed, has discovered a method to harness the latent energy of the atmosphere and use it for hurling articles of any weight almost unlimited distances. It is stated that "The prospects opened by the new invention are of incalculable importance, and certainly surpass by far the discovery of steam and electric power." The other discovery is by Professor Katz who, after fifteen years labor has perfected a "semi-artificial eye", consisting of a celluloid cup inserted in the socket so that light is reflected through it enabling the blind to see. Fully half the world's blind, it is claimed, may regain perfect sight through the new discovery. All that is required is that the light perception nerves be intact, and this, it is claimed, is true of at least 50 per cent. of the cases of blindness, including those born blind.

When a mother detects from the writing and fretting of a child that worms are troubling it, she can procure a reliable remedy in Miller's Worm Powders which will expel all worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worms can long exist where these Powders are used.

**CHANGE IN REGULATIONS RE LOWER SCHOOL EXAMINATIONS**

The necessity for all pupils writing departmental examinations in lower school subjects has been removed, according to a recent circular published by the Department of Education. Pupils to be granted credit in any subject shall have completed the prescribed course of study in that subject and shall have passed comprehensive tests conducted by the teacher of the subject with a standing of at least fifty per cent. of the marks assigned to that subject in all the tests of the school year.

The regular departmental examinations will be held as usual and any pupil who fails to pass the teacher's test shall have the opportunity of trying again.

This regulation applies to the following subjects: Art, grammar, Latin, zoology, botany, Canadian history arithmetic, geography and physiography.

**CHILDHOOD INDIGESTION**

Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution or more likely to pave the way to dangerous disease. Fully nine-tenths of all the minor ills of childhood have their root in indigestion. There is no medicine for little ones to equal Baby's Own Tablets in relieving this trouble. They have proved of benefit in thousands of homes. Concerning them Mrs. Jos. Lunette, Immaculate Conception, Que., writes: "My baby was a great sufferer from indigestion, but the Tablets soon set her right and now I would not be without them." Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**WATFORD HIGH SCHOOL TERM REPORT**

The following is the standing obtained by the pupils of the Watford High School at the Easter examinations. Parents will receive after the holidays a fuller report which they are expected to carefully examine and to remember that the pass mark in any subject is 50. A failure to obtain at least that mark would mean that the pupil must do much better work in the next two months or forfeit their chance of promotion.

Complimenting Miss Eva Leach, an Easter bride-elect, a number of her girl associates in the Income Taxation Office gathered at the home of one of their number on Friday evening, March 23rd, to spend an hour or two in a social way. An interesting feature of the evening was the presentation to Miss Leach of a quantity of silverware and a cut glass lemonade set, accompanied by the best wishes of the girls present.

Robert Bartley, formerly of Moore township, passed away on March 24 in New Bridgen, Alberta. Mr. Bartley was born near Warwick Village, Lambton county, 66 years ago. Later he moved to Moore township, residing there until eleven years ago, when he moved to the West. In politics he was a Conservative, and a prominent member of the Orange Order. He is survived by his wife, two sons and one daughter, all residing at New Bridgen, Alberta.

On Monday evening, April 2nd, a miscellaneous shower was tendered Miss Eva Leach at the home of her parents, Mr. and Mrs. Thos. Leach, 6th line west. Friends to the number of 65 assembled to express their good wishes to the bride-elect who was presented with many beautiful presents. The evening was spent in games and music after which lunch was served and the company dispersed after expressing their best wishes for the happiness of the guest of honor whose marriage took place the following Thursday, April 5th.

On Thursday evening the "Girls Club" of the Income Tax Office presented Miss Leach, who has been an employee of the office for nearly three years with a beautiful silver casserole and silver bread tray. On Wednesday evening March 28th, the staff and girls in residence at "Lennox" the Kings street Y.W.C.A. where Miss Leach has made her home since going to London three years ago, presented her with a beautiful electric reading lamp, accompanied by their best wishes for her future happiness.  The light should come through ground glass to soften it. Never use clear glass for either gas or electricity. Oil lamps give out a soft light, therefore clear glass chimneys.

#### PLYMPTON

(more Plympton news on Page 6)  
 The following is the report of S. S. No. 8, Plympton, for the month of March. Names in order of merit. Sr. IV—Agnes Cochrane, Margaret McEwen, Clayton Kerton, Glen Sanders, Mary Cochrane, Jr. IV—John Hodgins, Clarence McEwen, Jr. III—Thelma Minielly, Neil Minielly, Glen McEwen, Mary Kerton, Harold Hodgins, Sr. II—Gordon Morgan. I—Leslie Minielly, Allan McLean, Donald Minielly, George Hodgins, Pr.—James Hart, Catherine McRae, Charles McEwen, Billy Canton, Marjorie Minielly, Gilbert Hart.—Catherine MacDougall, Teacher.

Gordon Morgan is recovering from a severe attack of pneumonia. Dr. C. L. Houghton and Mrs. R. Burnham, nurse, are in attendance.

Alex. McAlpine has been laid up with the gripe.

Gordon and Harry Watson have made over a hundred gallons of syrup this spring.

Mr. and Mrs. J. A. Clements and daughter, Sarnia, spent Monday at the home of John MacDougall.

Mrs. Alex. Nesbit, Sarnia, visited with Mrs. John Dewar on Monday.

Mr. and Mrs. Will Dennis and family, Winnipeg, are visiting with Mrs. Dennis' mother, Mrs. Jos. Kerton.

Miss Myrtle and Hazel Haney, Roy Haney and Jack MacDougall motored to London one day last week.

Oscar Jarrott, who spent Easter holidays with his aunt, Mrs. J. Wakefield, has returned to his home in Sarnia.

#### WANTSEAD

La gripe is very prevalent at present.

Miss Gladys Ramsay, teacher, returned to Aylmer Sunday.

Mr. Charles Patterson, who has been spending the winter in Florida returned Monday.

Mr. Stanley Morningstar, Merlin, spent the holidays at his home here. Stan sports a new coupe.

Mr. P. W. McPhedran has lately purchased a splendid young Short-horn bull. This animal was first in his class at the Guelph Winter Show.

Miss Mary Parker, teacher in the Wantstead school, and who has spent the holidays at her home in Kerwood returned Monday to resume her duties.

Mr. W. P. Macdonald attended the meeting of the Wantstead Farmers' Club last Wednesday evening and gave a splendid talk on the need of organization for the farmers.

The play, "The Young Village Doctor," which was advertised for last Friday evening, was postponed indefinitely, on account of illness with several of the cast. Announcement will be made later, and it will no doubt be put on in the schoolhouse in the course of a few weeks.

Mr. Arch. Williamson, secretary and shipper for the Club, is in Toronto this week attending the fourth annual convention of the U.F.O. Livestock Shippers Association. All farmers interested in the co-operative marketing of farm livestock should arrange to attend the next meeting of the Club and hear what Mr. Williamson has to say regarding this convention.

The Wantstead Farmers' Club loaded a car of cattle for Toronto on Monday. They will also load hogs on Saturday, April 14th. The Club is selling hogs on the graded basis now and getting splendid results. Men not favorably disposed towards the co-operative marketing of farm livestock would have us believe that selling hogs on the graded basis does not pay. The wish is father to the thought. Ask the man on the London road who had hogs in the last shipment if it pays. He received \$11.13 per hundred clear of all expenses, while his neighbor, who does not patronize the Club, shipped his the same week and received \$9.35. The farmer who is raising the approved type of bacon hog and who does not take steps to market his hogs when he gets this 10 per cent. bonus is not getting all that rightfully belongs to him. The man who feeds the hogs is the man who should get and who is supposed to get this bonus, not the other fellow. Farmers are not feeding hogs for the good of their health but for what there is in it, therefore why not market your hogs with an organization that is getting all there is for the farmer. The fact that the Wantstead Farmers' Club can show an increased volume of business year after year proves that the method of doing business must be satisfactory and in no way do they show to better advantage than in returning this bonus to the farmers. Ship your hogs with the Club and be convinced.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thousands have benefited by it and would use no other preparation.

#### COUNTER CHECK BOOKS

The Guide-Advocate is agent for the Appleford line—a better grade book and at the lowest price. Before you give your order to any travelling agent phone 11w. There is a tendency among some of the check book firms towards higher prices in the near future; however, we have been instructed to accept orders at present prices for delivery any time in the next three months. Look up your supply and if you will require more in the next six months, give your local agent the order.

#### PECULIAR THINGS ABOUT RADIO

Radio is not materially affected by wind. The best time for radio is a damp night. Fading is a peculiarity of radio transmission in bad weather, but seems confined more to certain stations. This is very noticeable on one Pittsburg station at nearly all times. This station comes out loud and then the music etc., dies down in volume. Radio waves penetrate through buildings and good results can be had by using an aerial inside a house, and even stove pipes etc., can serve as a collector of broadcasting from distant stations. Provided an outdoor aerial is properly grounded it is valuable in providing protection for buildings so equipped against atmospheric electrical discharges. There is no increase in insurance rates on such buildings.

#### KERWOOD

Mr. Harry Woods spent the holiday with friends in London.

Miss Gretta Richardson spent Sunday with Miss Merle Freer.

Miss Cook of Toronto was the guest of Miss M. Barnes over Sunday.

The Misses Clothier of Strathroy spent the weekend with Miss Irene Eastabrooke.

Mrs. Dave Wilson has returned home after spending two weeks with her mother, Mrs. Lambert of Longwoods, who was ill.

The Ladies Aid of the Methodist church met over thirty present. The church quilted and bound three quilts beside other sewing. A dainty lunch was served at the close of the meeting.

Miss Gwennie Manicom, youngest daughter of Mr. and Mrs. Wm. Manicom is a patient in St. Joseph's Hospital, London, where she underwent a serious operation for mastoid her speedy recovery is hoped for.

The Women's Institute will meet at the home of Mrs. John Johnson on Wednesday afternoon, April 18th. The District President, Miss Walker of Glencoe, will be present and address the meeting. Mrs. (Rev.) Deihl will give a paper on "Worry, Worth and Work." This promises to be a very interesting meeting and a good attendance is expected.

A large number of the friends gathered at the home of Mr. and Mrs. Lou Thomas on Wednesday evening. The good wishes of the community were given them for their new home in Strathroy and regret was expressed at the loss sustained by the community through their removal as Mr. and Mrs. Thomas were excellent citizens.

The special services continue to increase in interest, the services Sunday morning and evening being well attended. The attractive feature of the day was the musical part of the service, the singing of the Jackson sisters, delighted all who heard them, while their playing of the piano, harp and violin is a source of great delight. The people of Kerwood are privileged and have a rare musical treat. The Rev. A. E. Moorhouse of St. Thomas is assisting in the services this week.

The annual meeting of the Mission Circle was held in the Sunday school rooms of the Methodist church and the following officers were elected for the coming year: hon. president, Mrs. Seymour Langford; president, Miss Alice Johnson; 1st vice-president, Miss Beatrice Foster; 2nd vice president, Miss Freida Richardson; rec. sec., Miss Gladys Johnson; cor. sec., Miss Ruby Woods; treasurer, Miss Eva Wright; supt. of C.E., Miss Mildred Morgan; supt. of mite boxes Miss Mildred Richardson; pianist, Miss Freida Richardson; delegate to convention, Miss Irene Eastabrooke; heralds for Japan, Miss Hazel Patterson; herald for India, Miss Gwennie Morgan; for the West, Miss Nona Wilson; for China, Miss Florence Johnson.

## FOREST FRUIT GROWERS HOLD DEMONSTRATION

A meeting of the Fruit Growers of Forest and vicinity was held in the U.F.O. rest rooms on Wednesday afternoon, March 28th, when addresses and demonstrations of box and barrel packing were given by the following gentlemen:—P. J. Carey, Fruit Branch Instructor, Toronto; R. R. Waddle, Inspector, St. Thomas; and T. L. Gable, District Inspector, Burlington. W. P. Macdonald of Petrolea, District Representative, acted as chairman. Mr. Carey was the first speaker, and gave a full and detailed account of the Great Fruit Show, held in London, Eng., last year, he being one of the three judges selected. He spoke of the number of prizes and medals awarded to Canadians on their exhibits, and strongly urged Lambton County to send one or more exhibits this year, when the show will be held in Manchester. He urged the growers present to pay all attention to their orchards, as only apples of high grade would command a ready market. Mr. Waddle illustrated pruning by sketches on a blackboard, and advised no pruning or very little on young trees set out until the 10th or 12th year, stating that if not pruned they would come into bearing two or three years sooner than if pruned every year, and in older trees good judgment was needed to form the tree, and not take too much wood out any one year, pruning some every year. As to spraying he advised that the work be done thoroughly, not in a hap-hazard way and at the right time. He himself uses bordeaux mixture as well as lime sulphur, but thinks the lime sulphur is good.

Mr. Gable spoke on general lines, urging that only by constant care and close application to the work, could success be achieved. Prune intelligently, spray thoroughly and thereby do away, or nearly so, with No. 3 apples. The demonstration of box and barrel packing was then given by Mr. Carey. There was a very good attendance and much interest manifested.

## HYDRO AND COAL

By J. E. Middleton  
The Hydro-Electric System is selling 544,000 horse-power of energy derived from water-power to 335,000 customers. In 1915 the output was 104,000 horse-power, sold to 120,000 customers. The average rate is the lowest in the world. The service is reliable and of the highest grade and the demand is steadily increasing throughout all the Province.

The amount of coal required to generate one horse-power of continuous electrical energy varies from 6 to 32 tons in accordance with the efficiency of the plant. In a generating station producing 100,000 horse-power under the most modern and economical conditions a consumption of 6 tons has been registered. But this is an exceptional, as is the 32 tons needed by an ancient boiler wastefully fired. There is authority to justify the use of 20 tons as an average, but to be on the conservative side, let it be supposed that one hydraulically produced horse-power is the equivalent of 10 tons of coal.

Then the present production of the Hydro-Electric System is equal to 5,440,000 tons of steam coal per annum which is worth at present prices more than Fifty Millions of Dollars. The customers of the "Hydro" pay for their service about \$10,000,000 a year, so that co-operative municipal ownership is saving the people of Ontario fully \$40,000,000 a year and is reducing the production-cost of all manner of manufactured goods.

Furthermore the reduction in the demand for steam coal by reason of the use of "Hydro" power is lessening materially the burden on the railways. It would take 136,000 cars to transport 5,440,000 tons of coal at 40 tons to the car. That is the equivalent of a train 1,030 miles long—or of one train 3 miles long every day in the year.

By the wider and still wider use of electricity in all branches of industry it will be possible to reach the place where all the coal imported from the United States to Ontario may be reserved for heating purposes. The economic advantage to the Province by keeping all this money at home cannot be plain to every business man.

In the rapid growth of the Hydro-Electric system and in its prospective expansion Ontario and Canada have a potent creator of Prosperity.

## Cariboo and Caribou

1. Casting on Quesnel Lake; 2. A fair morning's catch; 3. Cleaning the gun for the hunt.

WHAT is one of the finest big game and fishing sections of North America and one of the last great stands for big game, lies within easy reach of the Canadian Pacific Railway in the Cariboo district of British Columbia. Here, as nowhere else on the continent, are found in abundance the bear, grizzly, brown and black; the moose and caribou, and the wary mountain goat and sheep. The cougar is often seen and heard and the smaller fur bearing animals make a trappers paradise of this vast virgin territory. As will be seen from the picture above, the fishing is superlatively good; it is this fishing country of the west.

"Who is the man with soul so dead and bent on irrisome chores, who hath not sometime to him said, 'I'll seek the Great Outdoors'?" Each year an increasing number of hunters and fishermen are absorbed by the district, but so vast and extensive is it, that there are yet parts of it that have never been visited by the hunter, and streams that have never had a line thrown-over-them. To reach the Cariboo district one usually leaves the railway at Ashcroft from

which place, arrangements having previously been made, one starts out by automobile over the famous Cariboo road to Quesnel Lake, Harpers Camp, Horseshoe Lake or one of the numerous camping sites. The road, which winds among the foothills for hundreds of miles, climbs to an elevation of 5,000 feet and drops gradually to below the 2,300 foot level by the lakes, was made famous by the horde of gold seekers who passed over it in the days of '49. The old road houses built in those days are still there, and white many of them are used as headquarters for the large ranches in the district they afford simple but comfortable accommodation on the trip.

From the camps one can just paddle along the still, black green bordered streams and lakes over which the snow capped ranges tower or one can sit at ease by the camp fire and watch the sun sink behind the hills set ablaze with its glory, listening the while to the soft rustle of the wind in the tree tops and the gentle splashing of the water on the crags. If one is of a more aggressive nature one can, accompanied by a careful and well tried guide, strike through the wilderness in search of its natural denizens, or, armed with rod, fly and other bait, angle to the hearts content. One may spend weeks, making short trips by boat, canoe, or saddle horse, fishing in the lakes and streams near by, and getting back to camp each night, or travel with the necessities for bivouac and commune with the wilds for days or weeks at a time.

The Cariboo hunting and fishing grounds are located in the Great Interior Plateau, lying between the Rockies and the Cascades, east of the Fraser River. Ashcroft, the jumping off place, is on the main line of the Canadian Pacific 200 miles east of Vancouver. Equipment for trips can be purchased there or at one of the various hunting centres in the district close by. Guide and outfitting companies cater to every necessity and the "Cariboo" and other lodges adequately care for the wants of the business or professional man who does not care for an extended hunting or fishing trip but desires to get away from something or everything for a while.

DR. A. C. ANDERSON, D. C. Chiropractor

Dr. Anderson, who is a practitioner of London, Ont., and also has an office in Watford each Monday, Wednesday and Friday, from 9 to 11 a.m. over Mr. Roger's grocery store, is a highly praised man by those who have been sick and visited him. He opened his office in Watford in July 1922.  
When asked how he got such a fine practice in such a short time, Dr. Anderson stated, "There are three reasons, first, I get good results; 2nd, My method of adjusting is much easier than the old way; 3rd, I tried to use every patient the way I would like to be used, thereby giving them a square deal."

Dr. Anderson says some patients thought he performed miracles, but not so. He just removed the cause and nature cured them. Others thought because they had no faith in him or Chiropractic, he could do nothing for them, but they soon found out they got well every bit as quick as the patient who had faith.  
Dr. Anderson intends in the near future to have some of the testimonials he has from different patients at Watford with their case and results signed by the patient and Justice of the Peace, printed in this paper.

Dr. Anderson gives free consultation and spinal examination to every one and when you come for this you are under no obligation whatever as to taking the adjustments. He simply examines your spine and tells you what your trouble is and where it is. You tell him nothing. Then it is for you to decide whether you wish to take the adjustments or not.  
The Doctor says:  
"You have the rest, Now try the Best—Chiropractic."
