PAIR LIGHT BRAHMAS, Scores 95½ and 95. Owned by C. S. JACKSON, International Bridge, Ont

# THE CANADIAN POULTRY REVIEW

DEVOTED TO POULTRY, IN ALL ITS BRANCHES

PUBLISHED BY H. B. DONOVAN.

VOL. XV.

58½ VICTORIA STREET, TORONTO, MARCH, 1892.

No. 3.

## NOTES AND COMMENTS

FROM BROCKVILLE

WE have received a letter making serious allegations against well known fanciers, but, as it is unsigned, of course we are unable to use it, and it has found its way to our waste paper basket.

W. BARBER & CO., TORONTO,

have purchased all the black-red Games formerly owned by the late H. P. Harrison, Toronto. The lot includes an imported hen, cock, 2 stags and 7 pullets.

DR. A. W. BELL,

now of Muskegon, Mich., where he is practicing his profession, formerly assistant to Mr. H. J. Hill, Manager of the Industrial Exhibition, was in Toronto recently on a sad mission, namely, attending the last obsequies of his sister. He has our sympathy.

MESSRS. C. A. SHARP & CO.,

Lockport, N.Y., for the third time in succession, won all first prizes on Indian Games at New York.

Indian Game Hen owned by C. A. Sharp & Co., Lockport, N.Y.

IN THIS ISSUE

we represent a pair of Mr. C. S. Jackson's light Brahmas. In April REVIEW we hope to depict a pair of his buff Cechins.

REVIEW OF FEBRUARY, 1890.

Can any reader oblige us with a copy of this date?

WE RECEIVED BY MAIL

a large photograph of the exhibitors at the recent International Bridge show, every one has a favourite bird in his arms or on his shoulder. We recognize many of the fanciers shown in the picture.

THE MONTREAL SOCIETY

is to be congratulated on the greatly increased list of entries this year. 700

entries and "no money prizes" is certainly a step in advance.

ALL THE SHOWS,

in fact this year have been liberally supported with large entries, and proves how the fancy is growing and the number of new breeders who have joined the ranks.

A CERTAIN POULTRY PAPER

copied the report of the Hamilton show which appeared in last REVIEW, and gave no acknowledgment whatever of the source from which it was taken. We hope this hint will suffice.

THE ILLINOIS STATE EXPOSITION BOARD

has set apart \$40,000 as a special fund for the encouragement of live stock exhibits at the World's Fair. The fund is apportioned as follows: horses, 37 per cent; cattle, 30 per cent; hogs, 15 per cent; sheep, 12 per cent; poultry, 6 per cent.

MR. W. COLE, BRAMPTON,

writes us that the purchase by Mr. Pletsch of his Leghorns was not consummated, for the simple reason that he would not send the birds C.O.D. He also claims a refund of \$2.00 from the New Hamburg Association, commission on sale; and states that he has written the Association and has got no reply. We await developments.

## MORTIMER'S MONTHLY MORSELS.

BY F. A. MORTIMER, POTTSVILLE, PA.

If the ground is not already frozen cut a load or two of sods and pile them up in one corner of the house. You have no idea how much the fowls will enjoy it.

[What time of the year does Mr. Mortimer imagine the ground freezes in Canada? Ed.]

Be sure and cut the size of your flock down to fit your accommodations. We have plenty of farmers and poultry keepers who get no eggs in winter simply because they keep a larger stock than they can care for properly. There is no profit in it.

In winter especially, it is desirable to have plenty of chaff scattered in the houses for the fowls to scratch and pick over, for otherwise they would have nothing to do but eat their meals at regular intervals, and would spend the intervening time in moping around or sleepily sitting on their roosting benches.

Do not put over 12 chicks with each hen. If more than this number is given to them, some will get chilled and die or become stunted.

Give each hen with her brood, a dry, roomy coop, with two or three inches of chaff in the bottom. Don't allow the hen to roam until the dew is off, but on bright sunny days let them range and hunt for insects for their brood. Chicks raised in this way are the birds that carry off the ribbons in the winter shows.

Beans and peas cooked and thickened with bran, and fed twice a week, is an excellent food for laying hens.

Feed boxes should not be kept full of feed. If they are, the hens will have no inducement to work and scratch.

Some goose hints.—No doubt the most profitable kinds are those that grow largest, says an exchange. A goose is never noted for its great number of eggs, as they usually lay but one litter, unless broken up. The number ranges from eight to fourteen. A goose will nearly always sit anywhere you wish, if you cover her for a few days, or until she gets wonted to her nest. She should be accustomed to handling while sitting, so that at hatching time you may be able to look over the eggs occasionally, for if any one should slip over another egg it would be nearly impossible for the unborn gosling to break both shells. The food for goslings may be the same as that for chickens, but after they have learned to eat grass they care but little for anything else and will grow finely. They should be allowed quite a field with running water.—*National Stockman.*

Do not forget to supply your fowls with plenty of charcoal as it assists in keeping the fowl's craw in a healthy condition, and assists in the digestion of its food. A good way to supply it is to sift coal ashes in a box in the yard.

If you do not wish your fowls to lay, get them very fat and keep them in idleness.

It should be advisable for those who look to utility or beauty after deciding on going into the poultry business, to look over the large varieties of fowls

now in our fancier's hands, learn all you can of their characteristic qualities and then make your selection.

Feathers on the legs, very large combs and wattles, and heavy chests do not add anything to egg production and can be dispensed with.

There is no difference in any respect between chicks hatched under hens and those hatched in incubators. If there should be a difference it will be due to the kind of food and management. All the incubator does is to get the chicks out of the shell. A hen will do the same thing for the duckling but the duckling does not become a chick.

Although many advise the use of red pepper, it should be given very moderately. A teaspoonful in the soft food for 50 hens, three times a week will be found sufficient.

There is nothing so handy for the good housewife as a nice flock of half-grown fowls to draw on for a meal when an unexpected emergency shall arise.

You want eggs for winter: use the ounce of prevention—give the fowls warm dry quarters and a variety of food shell and bone.

When your birds have bowel disease, change the food a day or two, and change grit, one half the troubles are from lack of sharp, hard grit.

Wheat is one of the best feeds you can give your fowls to produce eggs, it is also good to feed young chicks after they are a week or two old, for their evening feed.

Give your fowls plenty of oyster shells, lime and cinders from coal ashes, and you will not be bothered with soft shelled eggs.

March is a good time for separating the different breeds. No harm has been done if they have run together during the winter, but it is time they should now be separated.

The early hatched Brahmas and Cochins "take the blue ribbon" at the fall fairs. Birds intended for exhibition should break the shell early in March.

We cannot refrain from smiling over Mr. Cleman's "Reply to Mr. Mortimer." He does not comprehend us. We will give our attention to his reply when we have more time.

### EGGS OR CHICKENS.—WHICH?

BY H. S. BABCOCK, PROVIDENCE, R.I.

WHICH is the more profitable to raise, eggs or chickens? This is a decidedly practical question, the answer to which will determine the choice of the breed of fowls to be kept.

But it is doubtful whether it can be answered positively, that is, so answered that the reply will be applicable to all poultry keepers. It will probably be found that to some the production of eggs and to others the production of chickens will be the more profitable. For the man who is making the keeping of fowls his sole business, it is probable that the raising of chicks will be more profitable than the production of eggs. By the use of proper methods, from a small flock of fowls, occupying but a limited amount of space, a very

large number of chickens can be annually reared. And as the cost of rearing, when properly conducted is very much less than the market price of chickens when reared, there is a good margin for profit. But to manage this branch of the poultry industry successfully, one needs to give it very careful attention, and if nothing is done to make it a paying business, it will take the larger part of his time. I have no doubt, whatever, upon the greater profitableness of this branch of poultry keeping, from a careful study of the results attained by successful poultry-men. But in every instance these men have made this business a specialty and have conducted it upon the closest business principle. The study of foods and methods, the careful examination of market reports, the regulation of the time of hatching and marketing and the like, have engrossed their attention.

For most farmers, however, to whom poultry keeping is a side issue, the production of eggs is probably more profitable than the rearing of chickens would be. With such care as they can give, without seriously interfering with their other duties, a good profit can be made upon the hens kept from the sale of the eggs. Instead of taking all their time and thus preventing the carrying on of their general farming operations, they can give an hour or two daily to the management of their hens and get a larger return for the time occupied and the capital invested than they can from the regular crops, and still be able to attend to the raising of their crops.

For the first class of men, those who make poultry raising a specialty, the breed to be selected is one that will produce the finest and largest chickens upon the smallest amount of food. But before selecting the breed, the question of its suitability to the market in which they expect to sell must be considered: Does it demand a fowl with a white or

a yellow skin, with shanks of any specific color? Must the legs be feathered or clean? These are important questions, for the taste of the buyers, even though it rest upon no better basis than an unreasonable prejudice, must be consulted. The poulterer wishes to raise fowls that will sell, and if a yellow skinned fowl will sell better than one with a white skin, that is the fowl for him to raise. Having determined this preliminary matter, he is ready to select from the Dorkings, Indian Game or French breeds, some breed to meet his need.

For the second class, the egg producers, this is also a preliminary question to answer: What does my market prefer, white or colored eggs? And what difference, if any will this preference make in the price? In most places the differences will be slight, though in certain special markets it may be important. Speaking generally, eggs of good size and strictly fresh will bring the same price whether white or colored. But the egg producer ought not to rely upon general truths—he should know his own market and make his selection accordingly, most of the very prolific breeds, the Sicilians, Leghorns, Hamburgs and the like, lay a white egg, though I have known some of the above to lay tinted eggs, and unless color makes a considerable difference in price, some one of the most prolific breeds should and probably would be selected.

Whether one raises chickens or produces eggs, if he makes a proper selection of his breed, and manages it with reasonable care, he is certain to make it pay. Who goes in for fowls is certain of making no serious mistake, for this industry differs from many in that with fairly good management, whatever direction it takes, it is sure to be profitable. One branch may be more profitable than another, but the question is not one between profit and loss, but between a greater or lesser profit.

## CURRENT TOPICS.

DISCUSSED BY BLACK WYANDOT.

THE most common present day type of silver Wyandotte is a great departure from the original idea of what a good specimen should be. The breeders of this noble variety seem to have imbibed the idea that a "small white centre" means a narrow white stripe. The fact is that the most beautiful specimens of this breed approximate the markings of a silver Sebright Bantam, and the nearer we can come to such markings, the handsomer and more popular the breed will be. A silver Wyandotte should not be a black Wyandotte, but if we take some of the published cuts and some of the dark specimens which have won under misguided judgment, as a criterion, a beginner might get the impression that he might as well buy solid black Wyandottes at once and be done with it. The silver Wyandotte has undoubtedly lost in popularity in this country on account of this letting down in the required type, while in England, where the Sebright markings have been the popular conception of the breed, it is gaining in popularity to such an extent that it forms an important class in leading shows, and individual specimens of superior merit have brought prices unheard of on this side the pond.

\* \* \*

Some crosses are very valuable—probably more valuable as far as the product of the first cross is concerned than many of the pure breeds, from a practical point of view. The admixture of entirely different lines of blood which is always accomplished in crossing, produces hardy chicks, quick growers and fine layers quite often. Do not use these cross bred birds as breeders. Their progeny will be a

measly set of chicks every time. A white Leghorn-light Brahma cross is very valuable, producing quick growing, prolific laying birds, lightly feathered on shanks and nearly white. A nice market fowl. A Leghorn-Plymouth Rock cross is also valuable. A Leghorn Dorking cross is a fine cross if you want table poultry. The chicks are hardier and more precocious than Dorkings, and larger and nicer table-fowls than Leghorns. Strange to say, a brown Leghorn-P. Rock cross will produce a large percentage of solid black chicks.

## THE WORLD'S FAIR.

*Editor Review* :—

THE following contains a fact or two that I am sure will be of interest to your many readers, consisting as they do largely of poultry and pet stock breeders.

A deputation consisting of Messrs. Allan Bogue, London, (chairman), J. J. Mason, Bowmanville, J. Dilworth, Toronto, and W. H. Doel, Eglinton, representing the Poultry Association of Ontario, waited upon the Hon. Mr. Dryden, Minister of Agriculture, in Toronto on the 22nd inst., in relation to the advisability of the poultry interests of Ontario being represented at the World's Fair in Chicago, next year.

Mr. Dryden received the gentlemen in a cordial and friendly manner and became much interested in the reasons they assigned why the government should lend their assistance to further this object and bring it to a successful issue. Before leaving the delegates were very much pleased to receive a promise from the honorable gentleman to this effect, that the Ontario Government would take full charge of the poultry exhibit for the Columbian Exhibition and he had every reason to

believe that arrangements would be made that would be in every way satisfactory to all provincial breeders.

This Association would therefore call upon the poultrymen throughout Ontario to take the success of this matter as their own, and put forth their utmost endeavors to make the exhibit a creditable one, both in point of numbers and quality.

When the arrangements are fully matured, this Association will see that they receive such publicity as shall be necessary to bring them before the eyes of every interested person, and will be made as explicit as possible.

Your assistance, Mr. Editor, is also required to complete the means necessary to ultimate success, and trust to receive the same.

Future items which I may have of interest to your readers will be forwarded for your consideration and disposal.

Yours very truly,  
THOS. W. BROWNE,  
Sec'y P. A. of O.

January 26th, 1892.

*Editor Review* :

NOTICE in last issue of REVIEW re World's Fair at Chicago, the name of our old friend, A. Bogue, mentioned as superintendant of the Ontario exhibit. No doubt Mr. Bogue would make a good man, for no man has a much better knowledge of such things, out, with all due respect to Mr. Bogue, in my opinion we require a younger man, as it is not a position of ease by any means, and Mr. Bogue's advanced years would be much against him. If the matter is one subject to the different fancier's suggestions, let us hear from all parts of Ontario. I know of no better man for the position, nor a more deserving one than C. J. Daniels of Toronto. Of course this is only my humble opinion, let us hear from others. Thanking you, Mr. Editor, for the space I have taken in your valuable journal.

I am fraternally yours,  
S. M. CLEMO,  
Dunnville, Ont., Feb. 11th, 1892.

UNIFORMITY IN JUDGING.

Editor Review,—

Now that the winter shows are past and in most cases well attended by both breeders and their several varieties of fowls, I do not think it out of place to ask for information which I did not get by attending a few of our winter shows, namely: How are fanciers going to mate to get a bird to suit the Standard? I was an exhibitor at two of our winter shows held in Canada and inside of one week's time had a light Brahma cockerel scored by two different judges varying 8 points, first time 94½, second time 86½, the bird being all the time in good show trim.

Our judges seem at variance as to what constitutes a Standard bird. I would suggest that the poultry judges in Canada and the United States call a meeting to be held at some central point and each judge be provided with specimens he has handled and passed on as being his ideal bird. No breeder would refuse to furnish a specimen for that purpose, and come to a uniformity of opinion as to what constitutes a Standard bird. As it stands at present, breeders in my opinion don't know when they have a really good bird, we have a Standard very true, but when our birds go to a show room it seems to me a Standard is no good, because opinions differ so widely. I hope brother fanciers all over the country will take this subject in hand and try and have all judges of a uniform opinion, so when our birds come out next fall they will be under no detriment as to the opinion of judges. The new beginner will then see what kind of stock he should have in order to win, but as it is at present, the more shows he attends, the mystery of what he should have to win gets the deeper, finally he gets discouraged and goes

out of the fancy. I claim if there was more uniformity in judge's opinions, we would have more fanciers, more shows and a larger entry list, thereby making our shows more successful financially, as it is there is a limited number of exhibitors, the classes barely filling, in some cases only enough to take all the prizes offered, no extra entries to help to pay the winners thereby causing a draw on the reserve fund, if any, if not local fanciers get no prize money and after all their trouble have to go down in their pockets to pay outside exhibitors in order to give their show a good name. I know, because I have been there. I again say that if our judges had more uniformity of opinion of what a Standard bird should be all the various branches of the fancy poultry business would feel the benefit. Thanking you for space in your valuable journal,

I am yours truly,

R. H. MARSHALL.

Dunnville, Feb. 11th, 1892.

POULTRY ASSOCIATION OF ONTARIO.

Editor Review:—

YOURS of the 27th received and your wish complied with. The following are the competitors for the Wagner cup.

Oldreive & Nicol, 6 black-red Game cockerels, 93, 93½, 91½, 92, 93, 92. J. O. LaBelle, 6 Langshans, 1 hen, 95½, 5 pullets, 95, 96, 96, 95½, 94½. F. C. Hare, black Spanish, 3 hens, 91½, 94½, 91½, 3 pullets, 97½, 95, 94. Thos. Power & Son, brown Leghorns, 6 pullets, 94½, 93, 93, 92½, 92, 91½. R. Oke, black Hamburgs, 1 hen, 94½. 5 pullets, 94, 94, 94, 95, 92½. H. Grier, white Leghorns, 2 hens, 95½, 95, 4 pullets, 95, 94, 94, 93½. Thos. Rice, white Leghorns, 3 hens, 97, 94½, 94, 3 pullets, 98, 96,

94½. Allin Bros., white Rocks, 1 hen, 94, 5 pullets, 96, 94, 94, 94, 93½. Geo. G. McCormick, buff Cochins, 3 cocks, 92, 91½, 91, 3 cockerels, 94, 93, 92, 3 hens, 95½, 93½, 92½, 3 pullets, 94½, 93½, 93. F. C. Hare, buff Cochins, 1 hen, 94, 5 pullets, 95½, 96, 94, 93½, 92. A. & D. Bogue, colored Dorkings, 3 hens, 93½, 93½, 93, 3 pullets, 96½, 94, 94. white Dorkings, 3 hens, 97, 97, 96½, 3 pullets, 97½, 97, 94½. Thos. A. Duff, black Minorcas, 6 pullets, 97, 96½, 95½, 95, 94½, 95½; white Minorcas, 2 cocks, 93½, 92, 4 cockerels, 96, 94½, 93½, 93½, 3 hens, 96, 95, 94½. 3 pullets, 95½, 94, 93½.

This is the lot.

Yours respectfully,

J. M. HERN,

Sec'y.

Editor Review:—

Please make the following corrections in Ontario prize list in Red Caps, I won 2nd on cockerel, 3rd on cock.

W. F. LANGDON.

Port Hope, Feb. 4th, 1892.

Editor Review:—

Will you please to give credit in your next month's REVIEW of prizes won by us at Bowmanville or Ontario show, 1st and 3rd on R. Pyle cockerel and 1st on pullet, and oblige,

Yours truly,

CHAMBERLAIN BROS.

Guelph, Feb. 15th, 1892.

From the appearance of golden Wyandottes, one would not imagine the weight they scale. Mr. T. H. Scott writes us of a pair he recently weighed, the cock going 12 lbs. and the hen 9 lbs., or a total for the pair of 21 lbs. As offal is light in this variety, they should dress well.

## HAMILTON SHOW.

*Editor Review,*

BEING an exhibitor at the Hamilton Poultry Show, I would like on behalf of the outside exhibitors and myself to express the kind way we were all treated while there. And, Mr. Editor, we all got the green goods in full before leaving the city. I notice the show is reported in a Western U. S. A. poultry journal as been a small concern and held in a dark, cold, dirty, tumble-down building. I beg to say such was not the case, the building was the best I have shown at this season, being heated by two furnaces in the basement. I admit the weather was very cold, the coldest snap we have had this winter. I heard several exhibitors remark that they were glad that their birds were in such comfortable quarters rather than in their own poultry houses, the only fault I could find with the building was there were 3 or 4 side rooms, the birds being exhibited in so many rooms did not show off to advantage, the coops were all new ones, very strong made of lumber all through with wooden bars for fronts, and lots of room in them. Our Hamilton friends felt a little grieved that the Guelph fanciers did not patronize the show. I understand Hamilton sent over 100 birds to Guelph, it may be our Guelph friends can explain why they did not send.

Without doubt Hamilton is a good centre to hold the Ontario at next winter, and I feel sure we can have a good building (good coops they already have), a jolly good lot of fellows to run the show, and above all a tip top good show and lots of visitors to see the prize cocks and hens.

C. J. DANIELS.

Toronto.

## STRATFORD ASSOCIATION.

ON the evening of Jan. 26th, a number of fanciers met together to re-organize the Stratford Poultry Association. The meeting was called to order at 8 o'clock and Mr. J. L. Corcoran appointed chairman. The principal business of the meeting was the election of officers which resulted as follows :

President, W. T. Davis ; Sec'y-Treas., E. B. Cale ; Directors, W. Sanderson, H. Yeandle, J. L. Corcoran with other officers. Delegates to the Industrial Exhibition Committee, J. L. Corcoran and E. B. Cale.

The time of meeting and other business was left over till next meeting

Yours truly,

E. B. CALE, Sec'y-Treas.

## NEW HAMBURG SHOW.

*Editor Review,—*

IN your issue of February, you credit Mr. John Pletsch with the silver medal from the Hamburg, Poultry show. I wish to state he did not win that medal and honor for the five highest scoring birds in the Spanish class, but I am the winner and claimant in that class, having beaten Mr Pletsch by one point.

Yours very truly,

WM. COLE.

Brampton, Feb. 19th, 1892.

[The error is not ours.—ED.]

## EAST YORK ASSOCIATION.

*Editor Review,*

I WOULD like to ask what is the matter with the East York Poultry Association, and especially the gentlemen from Todmorden,

who so liberally donated specials at the Markham fall fair. Reference was made some months ago in the *Poultry Journal* boasting of how they had contributed to our Poultry prize-list, and branding some of the members as kickers. Gentle readers of REVIEW we have nothing to fear in that respect and I see no reason for being anxious about winning specials donated by some of those gentlemen as some of them have never been paid. Personally, I might remark that I was fortunate, or unfortunate, if the term be correct, in winning two of their specials, and I must admit I have only received the one as paid. I sent the order to one gentleman who did not even answer my letter and in conclusion I wish to state that I am not the only disappointed winner. Hoping you will insert the above in your valuable journal,

I remain yours,

GEORGE ROBINS,

Malvern.

## TORONTO POULTRY, PIGEON AND PET STOCK ASSOCIATION.

ON Thursday Feb. 11th, the above Association held its regular meeting in Temperance Hall. The President, Mr. Jno. Miles in the chair. The minutes of the last meeting were read and confirmed. One new member, Mr. W. J. Bailey, was proposed and accepted. The debate on "borrowing birds for show purposes" was postponed. A large number of birds in Games, light Brahmas, Minorcas and Game Bantams were on exhibition, and prizes awarded as follows : Light Brahmas, cock 1st and 2nd, hen 1st John Miles, cock 3rd, hen 2nd and 3rd J. A. Patterson. Minorcas, pullet 1st. C. Wood, 2nd Patterson, 3rd T. Darwent.

Games, pyle, 1st cock, 1st hen Henderson; black-red, 1st cock, 1st and 2nd hen Henderson. Game Bants, black-red, cock 1st and 2nd, hen 1st and 2nd G. Macdermott, 3rd cock, 3rd hen J. Rowell; pyle, cock 1st and 2nd, hen 1st and 2nd Mackenzie. The judges were Messrs. Otter, Barber, Bennett & Duff. For our March meeting, dark Brahmas, Cochins, Langshans and pigeons will be on hand. Judges, Messrs. Dilworth, J. Patterson. Otter and Durston on fowls and Messrs. Doty and Mackenzie on pigeons. There is a probability of a winter show being held in Toronto next winter, as there appears to be a desire on the part of the leading members to curtail expenses as much as possible to further that end. Several members have chickens out, and many others their incubators and setting hens busy, "the World's Fair" is stimulating the boys, and we expect the Toronto birds will be in it next year. After some discussions on the Government grant for that event the meeting adjourned. Receipts \$7.50.

JOHN GRAY,

Secretary.

### ONTARIO SHOW.

*Editor Review:—*

IN looking over the REVIEW I see that you are not more perfect than any one else, in 2nd prize Pekin Bant hen, you say she is a little large, well, she weighs just 19 ounces, and if you call that large I am going to try and breed them smaller. You give R. G. Martin credit for winning 1st and 2nd on silver Poland hens, you also give him credit for winning 2nd on silver Poland cockerel; I won 1st on silver Poland hen, Mr. Bogue won 2nd, I won 2nd on silver Poland cockerel.

Yours respectfully,

WM. MCNEIL.

London, Feb. 22nd.

[My dear boy, we don't pretend to

be perfect, far from it. If you say the 2nd Pekin was *small* (not light in weight) of course we give in to you. We said she was a trifle larger than 1st, not "she is a little large." The errors in list are not ours, it was printed just as we got it. We are always glad to correct mistakes.—ED.]

### LONDON POULTRY ASSOCIATION.

REGULAR monthly meeting of the London Poultry and Pet Stock Association was held in their rooms Albion Block, on the evening of the 18th inst., President McNeil in the chair, with a fair attendance of members. Two new members were balloted for and accepted. Mr. McCormick stated that the work in connection with remodelling the poultry building on Western Fair Grounds was nearing completion, and said the Association intend painting all the coops white. Mr. McNeil favored the meeting with an excellent description of the exhibit at the late Detroit exhibition where he with other Canucks had been exhibiting. He stated they had a grand show of birds, and thought the Canadians held their end of the string up well with the Yanks, and brought over quite a number of the coveted blue ribbons. Game Bantams were brought up for competition at our meeting and were well represented (seven entries), the contestants being McLeod, Gage and Oke. Mr. McNeil was appointed judge and wielded the stick rather severely, as the score will testify, in fact one bird barely escaped with his life. The following carried off the honors: First, pyle hen, score 93, owned by R. Oke; 2nd, black-breasted red cockerel, score 92½, owned by W. McLeod.

There being no other business the meeting adjourned. Receipts for the evening, \$3.

R. OKE, Sec'y.

### GAME.

BY MR. W. COOK.

I FIND a great falling off in the number of Game chickens bred this season. I do not know whether the season has been an unusually bad one for Game more than any other breed, but I have never seen so few chickens of this variety. No doubt they will turn up all right at the shows, as they usually do. I am often asked whether Game are good layers. My answer is, there are good layers amongst them the same as there are amongst other breeds, but they are not considered a good laying variety. Occasionally a Game hen has been known to lay 200 eggs in one year, but they more often lay between seventy and eighty. Thirty years ago they were much better layers on the whole than they are now, especially the black-breasted red. They were much shorter in the leg, and appeared to have larger bodies, which was no doubt owing to the shortness of legs. I find all breeds are liable to run long in the leg, but when it is remembered that Game are selected every year, especially for that purpose, it can hardly be wondered at. Whenever long legs are encouraged in a breed there is always a large per cent. of them come weak on the leg. Of course if people will go in for such fashions they must put up with the consequences. I do not object to long legs in Game as much as in some other breeds. Poultry keepers who go in for other varieties make a great mistake in this respect, they are trying to get almost every breed long in the legs, even Dorkings. Minorca cocks are getting quite the cut of Game, consequently a number of the chickens become weak in the legs, and a large percentage of them have to be killed. I am quite aware

some breeds are not thought much of in the show pen unless they stand well upon the legs, especially Game, but I am writing this article more particularly for amateurs who have not had much to do with this breed of fowl.

I was judging a show some little time ago, and was much struck with the fact that some of the best-bred birds did not show themselves to advantage. Game may be well bred, and yet if they are not trained properly for the exhibition pen very few will win a prize. If Game do not hold their heads up and show their thighs no judge can award prizes. At the present day the principle points to study in Game for the show pen are long legs, close feathers, and very long heads. I would say to amateurs who have been breeding Game this season and intend showing them, train your birds; and I will mention the best way of doing this. Put them in a coop; if you have not got wire, make one with laths, or, better still, put them in a little wire pen. Feed them through the top with little pieces of bread and meat and green stuff, so that when the birds see the feeders coming, instead of running away and moping in the corner, they will stretch themselves up and look at the top of the pen for something to eat. It is when the birds stand in this reachy position that they show themselves off. Professional Game breeders have a little narrow wire pen, and feed the birds through the top at least once a day, sometimes twice, and by this means they are taught to stand erect. Unless Game chickens have been handled and prepared for the show pen they are rather wild, and will crouch up in one corner or jump up to the top of the pen when the judge approaches, and if the birds open their wings and flutter about they do not stand a shadow of

a chance for a prize. Their feathers should be closer than those of any other breed, the wings held well up, and clipped as close to the body as possible. Working men who are not at home to train their birds in the daytime can easily get over this difficulty by leaving word that the birds are not to be fed in the evening for a few nights, then they should be put in a coop and fed from the top with soaked bread. If a lamp is placed so that they can see there will be no difficulty in doing this. It is well whilst they are chickens to get them accustomed to peck from the hand, as then they walk about in a reachy position. Game fowls are now got to a greater perfection than years ago, and London breeders who used to get the money at the shows are now out of it altogether. Breeders in the country are able to give their birds more exercise and fresh air, and know how to feed them; consequently their plumage becomes very tight, and has a beautiful gloss upon it. In fact, they are got up to a state of perfection that it is almost impossible to get when they are kept in confined runs. Those who breed Game in London allow them to have too much soft food, and also keep them too warm in the houses. When Game fowls are reared in towns they ought to have a long narrow run. Even if the owner has only a little back yard he should make a narrow pen right round it, so that the birds get exercise. In every case they should have a wire front to their house, so as to get plenty of fresh air. When in low warm houses the feathers grow much longer, and do not lie so close to the body. To prove this, let someone who lives in the country allow some of the chickens to sleep out of doors and keep the others in the fowl house. Of course Game fanciers in towns cannot let their birds sleep out all night, but a wire front to

the house is the best way the London Game breeder can manage. I mentioned that it is wrong to give Game fowls too much soft food, but as chickens they may have it once a day till they are six weeks old, but after that they should have very little. Those who breed Game for the show pen should give them scarcely any wheat as that has a tendency to cause the feathers to grow rather long. Barley and French buckwheat are the two principal grains with a little hempseed occasionally, say about twice a week. Many Game breeders use roup powder for their birds about twice a week, which helps to tighten the feathers, very much but when that is used it should be mixed in a very small portion of meal. Do not give the birds as much meal as they can eat. Some people think Game chickens are very delicate to rear, but I have never found it so. They feather very quickly as young birds, but I have always found them to do better when they have had a good range. They are very active, and if brought up at a farm, or where they can have a good run, only require feeding twice a day, as they will range after flies and insects. When they do this there are not half so many come weak in the legs. If poultry keepers would feed the birds more on barley and French buckwheat, with a feed of good oats occasionally, they would get on much better, as there is more bone making material in the husks than in the kernel itself. I am often asked, "Which are the most popular varieties of Game?" There are more black-breasted red and Indian Game kept than any of the others. There used to be a great demand for black-red cocks to turn down on the farmyard for crossing for table purposes, but the Indian Game have taken their place to a very great extent. There are more of these used for crossing than all the

other varieties of Game put together, but there is a tendency to get them too long in the legs. I think the beauty of an Indian Game is the shortness of leg and a good broad breast. They are most valuable for crossing purposes, and I do hope Indian Game breeders will keep the length of leg down, as when a long legged bird is turned down to run with other hens the cockrels come weak in the legs. — *Poultry.*

NOTES.

**M**R. F. W. MOLSON, Montreal, has received from Mr. A. S. Pitts, England, through Messrs. Spratt's Patent, 1 black Minorca cockerel and pullet, both highly commended at the Crystal Palace show.

The following officers were elected at the annual meeting of the American Poultry Association, held at Los Angeles, California, February 12th, 1892: President, Oren Scotten, Detroit, Mich.; Vice-Presidents, H. S. Babcock, Providence, R. I.; H. A. Bridge, Columbus, O.; Sid Conger, Flat Rock, Ind.; E. R. Spaulding, Jaffrey, N. H.; David A. Nichols, Monroe, Conn.; Col. R. J. Hamilton, Springfield, Mass.; F. A. Mortimer, Pottsville, Pa.; J. Y. Bicknell, Buffalo, N. Y.; J. E. Diehl, Beverley, N. J.; Loring Brown, Bolingbroke, Ga.; Ross A. Smith, Summerville, S. C.; G. O. Brown, Baltimore, Md.; Jas. H. Cayford, Montreal; John D. Mercer, Seattle, Wash.; Secretary and Treasurer, Geo. E. Peer, Rochester, N. Y.

When the Poultry Committee of the Industrial Exhibition meets, we hope special consideration may be given to the question of incubators and brooders. It may be remembered that no incubator was on exhibition last year, and we were surprised at the great number of people who enquired,

"where the chickens were being hatched by steam?" and like questions. Whether the test is a criterion of the utility of the machine or not, an artificial hatcher is certainly a great attraction, as we had ample opportunity of learning last year, being on the grounds from Monday morning until Friday night. Some arrangement could probably be made whereby incubators could be exhibited entirely aside from any competitive record.

The meeting of the A. P. A. at Los Angeles, must have been considerable of a fiasco. We learn from the *Orange News*, Mr. James Fullerton's bright little weekly, that only five members of the A. P. A. were present. The Southerners, as expressed by the *News*, were much disappointed, and rightly so, Mr. Fullerton says:

"We have very little, if any occasion to thank the American Poultry Association or eastern Fanciers. Of the 1000 to 2000 birds promised by eastern Fanciers but six were received. These were from the veteran breeder and thorough gentleman, Philander Williams of Taunton, Mass. And instead of an attendance of 100 members of the American Poultry Association as promised, we had five—the president, Oren Scotten of Detroit, H. R. Bridge of Columbus, Ohio, superintendent and judge; R. Twells of Montmorenci, Ind., secretary, *pro tem*; Geo. O. Brown, Baltimore, Md., and Sharp Butterfield of Windsor, Can., judges—the latter gentleman being the only one that was not in attendance under pay either from the local association or the American Poultry Association.

In an editorial in the same issue Mr. Fullerton writes:;

"We had the pleasure last week while attending the poultry show at Los Angeles of meeting our old friend, Sharp Butterfield, of Windsor, Canada. We have known Sharp for about seventeen years—have slept with him, travelled with him, visited him at his home and entertained him at ours, have quarrelled with him, praised and scolded him in turn as he deserved it in the columns of the CANADIAN POULTRY REVIEW, but never for one moment have we held any other opinion than that he was one of the best all-round judges of poultry on this continent, and a warm-hearted, generous and jolly gentleman. We are glad to again feel the firm clasp of his hand and see evidences that the world is dealing kindly with him. We greatly regret that his time was so limited on this coast that he could not visit us in our California home.

MONTREAL SHOW.

(From our Special Correspondent.)

**M**ONTREAL Poultry, Pigeon and Pet Stock Society held their annual exhibition in the Victoria Armory Hall, on Wednesday, Thursday and Friday, January 27, 28 and 29. The number of entries exceeded 700 which is the largest number for several years past. The number of exhibitors was also larger than usual. Judges, L. G. Jarvis, of Port Stanley for poultry and I. B. Johnson, Toronto for pigeons and pet stock. The principal exhibitors were, Sir Joseph Hickson, Wm. Cox, A. Seers F. W. Molson, W. H. Ulley, A. Jennings, Riorden & Maher, H. Eddy, T. Costen, W. K. Lowden, Thos. J. Virtue, J. Sheatler, Hugh Paton, Thos. Hall, Dr. T. W. Mills, G. C. Howison, J. C. Stockwell, A. Thompson, U. Bonneville, A. F. Dawes, J. Penny, E. M. Kneeshaw, F. F. Rolland, Lumsden & Smith, Mrs. Dr. C. McEachran, T. W. Kermodé, M. T. Keatinge, J. Bedlow and others.

The highest scoring birds in the show were Pekin ducks which scored 98½, owned by A. Thompson; a pyle Game Bantam cockerel owned by A. F. Beevor, scoring 98. There was considerable competition for the 60 egg incubator which was offered for the eight highest scoring birds any one variety. The following is the score: A. Thompson, Pekin ducks, 782½; Sir Joseph Hickson, black Hamburgs, 768½; W. K. Lowden, Minorcas, 765½; F. W. Molson, Minorcas, 750½; W. H. Ulley, silver Wyandottes, 749½; E. M. Kneeshaw, Langshans, 747½; T. Hall, lt. Brahas 747; J. Bedlow, brown Leg-

horns, 741½; Sn Jos. Hickson, G. S. Hamburgs, 739; T. Costen, white Leghorns, 738½; J Penny, light Brahmas, 731 1-2.

It will be noticed by the above scores that all these breeders had eight birds, scoring considerably over 90 points.

There was also offered a silver cup for the ten highest scoring Asiatics any one variety with the following result:

Thomas Hall, light Brahmas, 931½; James Penny, light Brahmas, 908 1-2; Thos. Costen, white Cochins, 913 1-2; E. M. Kneeshaw, Langshans, 928 1-2.

It is very gratifying that so many good birds should be exhibited by one exhibitor, as it is the best guarantee to the public that a man has more than an exhibition pair of birds and it is to be hoped that some of the prizes offered in the future will be given on the same lines. There was a falling off in the Games, but one of our old fanciers is into the business again and next year we expect to see a revival of the interest in the Game classes.

#### PRIZE LIST.

**BRAHMAS**—Light, cock 1st 93½ 2nd 88½; hen 93, 3rd 93; cockerel 1st 92½, 2nd 92, 3rd 92; pullet 1st 94½, 2d 93½, 3d 93; B pen 1st 187, Thos. Hall; cock 3rd 88, hen 1st 94½, cockerel 2nd 92½, B pen 2nd 185½, James Penny, Owen Sound. Dark, pullet 1st 91 U. Bonneville, Dunville. **COCHINS**—White, cock 1st 94, hen 1st 94, 2nd 90½, 3rd 88, cockerel 1st 94½, 2nd 88, pullet 1st 92, 2nd 92½, 3rd 92, B pen 187½ T Costen. Partridge, cock 1st 92½, hen 1st 92, cockerel 1st 94½, pullet 1st 92½, 2nd 92½, 3rd 90½; B pen 1st 186½ Sir Joseph Hickson; cock 3rd 84½, cockerel 3rd 86½, B pen 2nd 175½, Capt Sylvester. Buff, cockerel 2nd 90, pullet 2nd 88½ T Serafini, hen 1st 90½, cockerel 1st 90½ Sir Joseph Hickson. **LANGSHANS**—pullet 1st 90 John Wood, B pen 1st 186, 2nd 183½, 3rd 178½ E M Kneeshaw, St Andrew's. **DOR-KINGS**—Colored, cockerel 2d 88½, 3rd 87½, pullet 1st 90½, hen 1st 93, 2nd 92, 3rd 91½, B pen 1st 180 T W Kermod. **HAMBURGS**—S P, Cockerel 1st 93, pullet 1st 92 Hugh Paton. G P, cock 1st 92½, hen 1st 93, 2nd 92, 3rd 91½; B pen 1st 184½ L Beauudin. S S, cockerel 3rd 87 A Thompson, Allan's Cornets; cockerel 1st 92½, 2nd 91; hen 1st

93, 2nd 93, 3rd 92; pullet 1st 93½, 2nd 93½, 3rd 93; B pen 1st 186 Sir Joseph Hickson. G S, cock 1st 92; hen 1st 94½, 2nd 94½, 3rd 93½, cockerel 2nd 86½, pullet 1st 92, 2nd 91½, 3rd 91, B pen 1st 186 Hickson. Black, cock 1st 95½, cockerel 1st 96½, 2nd 95½, 3rd 95, hen 1st 96½, 2nd 96, pullet 1st 96½, 2nd 96, 3rd 96, B pen 1st 193 Hickson. **LEGHORNS**—White, pullet 1st 95½, 2nd 95, 3rd 94½, cockerel 1st 95, 2nd 92½, B pen 1st 190 G C Howison, Brockville; hen 1st 93½, cock 1st 90, B pen 2nd 183½ N M Yuill. Black, cockerel 1st 90, 2nd 89½, pullet 1st 93, 2nd 92½, hen 1st 94½, 2nd 93, B pen 1st 183½ A F Dawes. Brown, hen 2nd 92, 3rd 91½ Hugh Paton; cockerel 2nd 91½, pullet 3rd 94, B pen 2nd 184½ Costen; cockerel, 1st 94½, pullet 1st 96, 3rd 94 F W Boxer; hen 1st 93½, cockerel 3rd 90, pullet 2nd 94½, 3rd 94½, B pen 1st 184½ J Bedlow, Brockville. **SPANISH**—Black, cockerel 1st 95, pullet 3rd 94, B pen 1st 188½ J Shetter; hen 1st 93½ T Virtue; cockerel 2nd 93½, pullet 2nd 95 J H Farrar; cock 2nd 91 E Andette; cockerel 3rd 90½, B pen 2nd Serafini; pullet 1st 95½ Bedlow; cock 1st 93, hen 1st 92½ G Constantineau. **MINORCAS**—cockerel 1st 93½, hen 2nd 93, pullet 1st 96½, 2nd 96, 3rd 96, B Pen 1st 189½, W K Lowden; cockerel 3rd 90, B pen 3rd 184½, Costen; cock 1st 91½, cockerel 2nd 93, hen 1st 94, 3rd 93, B pen 2nd 187½, F W Molson. **HOUDANS**—cock 1st 92, hen 1st 96, cockerel 2nd 89, pullet 1st 94 2nd 93½, 3rd 93, B pen 1st 185 Lowden; cock 2nd 88 Benoit. **POLISH**, buff—hen 1st 93, cockerel 1 90, 3rd 90, pullet 1st 94, 3rd 92½, B pen 1st 183 J L Taylor; cockerel 1st 91, pullet 2nd 92½, B pen 2nd Lumsden & Smith. Silver bearded, cockerel 1st 92, pullet 1st 92 2nd 90½, Lumsden & Smith. Golden B, cockerel 1st 90½, pullet 1st 92½, Lumsden & Smith. Unbearded, golden, cockerel 2nd 89½, pullet 1st 92 Lumsden & Smith. White crested black, cockerel 2nd 93, 3rd 91½, pullet 1st 93½, 2nd 92, B Pen 1st 186 Bedlow; hen 1st 94½; 2nd 93½, cockerel 1st 96, Hickson. **GAMES**, B R—hen 1st 93½, cockerel 3rd 88½, pullet 1st 93½, 2nd 92, B Pen 2nd 181½ T Hall; cock 1st 92½, hen 2nd 93 Cox; cockerel 2nd 91½, B pen 1st 183½ Bonneville; cockerel 1st 93, hen 3rd 92½ A E Esdon. Pit, cockerel 1st 92, hen 2nd, pullet 1st, J C Stockwell Danville; hen 1st Esdon; cock 1st Bedlow. Duckwing, cockerel 1st 92½, hen 1st 93½, 2nd 89½, 3rd 88 Dr Wesley Mills; cock 1st 90 Bonneville. Pyle, pullet 1st 93½, 2nd 93 Mills. Any other variety, cockerel 1st Bonneville. Bant, pyle, cock 1st 93, 2nd 93, hen 1st 95, cockerel 1st

98, 2nd 94½, 3rd 93½, pullet 1st 94, A F Beevor; hen 2nd 89½ Cox. Japanese, cock 1st 91½, 2nd 90, hen 1st 96, 2nd 95½, 3rd 95, cockerel 1st 95, 2nd 91½, pullet 1st 95, 2nd 95, 3rd 94, B pen 1st 190½ Keatinge. Silver Sebright, cock 2nd 89½, hen 1st 94½, 2nd 92½, pullet 1st 92½, B pen 1st 182½ Keatinge. Duckwing, hen 1st 94 Stockwell; B Pen 1st 182½ Bonneville. Rose-comb, cock 1st 96, hen 1st 95, 2nd 93½ Kermod. Pekin, cockerel 1st 93½, pullet 1st 93 Stockwell; cock 1st 92½, hen 2nd 88 Paton. White game, cock 2nd 87½ H Boon. Black red, cock 2nd 89½ Stockwell; pullet 3rd 91, cock 1st 91½ Virtue; 3rd 89½, hen 1st 94, pullet 1st 94, 2d 92, B pen 2d 92, cockerel 1st 94½, 2d 92, pen 1st 187 7-12 Stockwell; cockerel 3rd 90½ Bonneville; hen 3rd 91½ H Boon. **PLYMOUTH ROCKS**—Barred, cockerel 2nd 90½ Stockwell; pullet 1st 92, hen 3rd 91½, cock 3rd 87½, B pen 2nd 187½ Virtue; cockerel 3rd 89 Farrar, cock 2nd 88½, hen 1st 93, 2nd 91½, cockerel 1st 91, pullet 2nd 91, 3rd 90½, B pen 1st 180¼ James Ainslie. White, cockerel 1st 92½, pullet 2nd 95½, B pen 2nd 185½ Howison; cock 1st 92½ 2nd 90½, hen 1st 93, 3rd 90, pullet 1st 96, 3rd 94½, B pen 1st 187½ A Thompson; hen 2nd 90½, cockerel 2nd 91 Kneeshaw. **WYANDOTTES**—Silver, hen 1st 96, cockerel 3rd 88½ Stockwell; cock 2nd 87, cockerel 1st 91, hen 2nd 92½, 3rd 92½, pullet 1st 95, 2nd 95, 3rd 94, B pen 1st 185½, 2nd 179 W H Ulley; B pen 3rd 174 A Tooke; cockerel 2nd 90 F W Baker. Golden, cockerel 3rd 86, hen 2nd 91½ Jennings; cock 2nd 89½, hen 3rd 90½, cockerel 1st 90, pullet 1st 94½, 2nd 89, B pen 1st and 2nd Mrs Dr C McEachran; hen 1st 92½ Stockwell. White, cock 1st 91, cockerel 1st 93½, 2nd 85, hen 1st 91½, pullet 1st 94½, 2nd 94 Stockwell. **RED CATS**—Cockerel 1st 91 Bedlow. **TURKEYS**—Bronze, cock 1st, hen 2nd, cockerel 1st 2nd and 3rd, pullet 1st and 3rd Thompson; cock 3rd, hen 1st Bonneville; cock 2nd, hen 3rd, pullet 2nd Kneeshaw. **GEESE**—Toulouse, old gander 1st, old goose 1st Andette; young gander 1st, young goose 2nd Bedlow. Emblen, old gander 1st, old goose 1st, young gander 1st, young goose 1st Thompson. White China, goose 1st Thompson. Brown China, gander 1st, goose 1st Thompson. **DUCKS**—Pekin, old drake 3rd 94½, old duck 3rd 95 Paton; old drake 1st 98, 2nd 97, old duck 1st 97½, 2nd 97, young drake, 1st 98½, 2nd 98½, young duck 1st 98, 2nd 98 Thompson. Rouen, old drake 1st, old duck 1st, young drake 1st, young duck 1st do. Cayuga, drake 1st, duck 1st Thompson. Muscovy, drake 1st Thompson. Crested

white, drake 1st, duck 1st Thompson. Aylesbury, drake 1st, duck 1st Thompson.

**SPECIALS.**—For the eight highest scoring birds any one variety, A Thompson; ten highest scoring Asiatics of one variety, Thomas Hall; highest scoring B Pen of light Brahmas, do; highest scoring light Brahma cock, do; highest scoring light Brahma hen, Jas Penny; highest scoring dark Brahma, U Bonneville; highest scoring P Cochin cockere, Sir Joseph Hickson; highest scoring B Pen of P Cochins, do; highest scoring W Cochin cockerel, T. Costen; highest scoring B Pen W Cochins do; highest scoring B Cochin, Hickson; highest scoring Langshan hen, E M Kneeshaw; highest scoring B Pen Langshans, do; best exhibit of colored Dorkings, Kermod; highest scoring B Pen of Dorkings do; best exhibit of Hamburgs. Hickson; best exhibit of Hamburgs, do; best exhibit of G. P. Hamburgs, L Beaudin; best exhibit of black Hamburgs, Hickson; highest scoring Spanish cockerel, J Shetler; highest scoring B Pen Spanish, do; highest scoring white Leghorn G C Howison; highest scoring B Pen white Leghorns, do; highest scoring brown Leghorn, F W Boxer; highest scoring B Pen of brown Leghorns, Redlow; highest scoring black Leghorn, A F Dawes; highest scoring B Pen black Leghorns, do; highest scoring Minorca cockerel, W K Lowden; highest scoring Minorca, do; highest scoring B pen Minorcas, do; highest scoring Houdan, do; highest scoring B Pen Houdans, do; highest scoring Poland, Hickson; highest scoring B pen Polands, Bedlow; highest scoring Game, Thos. Hall; highest scoring B. Pen Game, Bonneville; highest scoring pair of Game Bantams, A F Beavor; highest scoring B Pen Bantams, Keatinge; highest scoring barred Plymouth Rock cock, J Ainslie; highest scoring B pen barred Plymouth Rocks, do; highest scoring white Plymouth Rock, Thompson; highest scoring B pen white Plymouth Rocks, do; highest scoring Golden Wyandotte cock, Mrs. Dr. C. McEachran; highest scoring Wyandotte hen, Stockwell; highest scoring B pen silver Wyandotte chicks, W H Ulley; highest scoring silver Wyandotte cock, do; highest scoring silver Wyandotte hen, Stockwell; highest scoring B pen silver Wyandotte fowls, Ulley; ten highest scoring silver Wyandottes, cock or cockerel and 9 hens or pullets, Ulley; highest scoring pen in American classes, Thompson; highest scoring pen of White Wyandottes, Stockwell; best exhibit of Turkeys, Thompson; best bronze Turkey, do; best pair of Embden Geese, do; best exhibit of Geese, do; best pair of Pekin Ducks, do; highest scoring

pair of black African Bants, Kermod; highest scoring Houdans, Lowden; best exhibit of Ducks, Thompson; highest scoring silver Wyandotte cockerel, Ulley; winner of the highest number of first prizes in classes 1 to 11, Hick on; winner of the highest number of first prizes in classes 12 to 14, Thompson; winner of highest number of first prizes in classes 15 to 36, Lumsden & Smith; best collection of ducks or geese Thompson.

### EAST NORTHUMBERLAND ASSOCIATION.

**A** SMALL show was held under the auspices of this newly formed Association in Colborne in January. The Association deplores the small entry but we fail to see how more could be expected as no one knew anything of the show. Mr. J. M. Hern, Bowmanville, judged acceptably.

#### PRIZE LIST.

Light Brahmas—1st J Bradd. Langshans—B Lacy; chicks, 1st and 2nd G. A. Gummer. Plymouth Rocks—1st Hinman, 2nd Gummer; chicks, 1st and 2nd Lacy. Wyandottes—chicks, 1st and 2nd Lacy. Dominiques—1st and 2nd G Sanderson; chicks, 1st and 2nd Sanderson. Black Spanish—1st J. Davy; chicks, 1st G A Gummer, 2nd T A Sprung. Black Minorca—1st J Davy; chicks, T A Sprung, J Davy. Leghorns, S C white—1st H Gale, 2nd Gummer; chicks, 1st Lacy, 2nd Gummer. S C black—1st G McGlennon, 2nd Hinman; chicks, 1st Sprung, 2nd McGlennon. R C—1st Sprung; chicks, G O Fowler, 2nd Sprung. Games, exhibition—1st and 2nd Davy. Pit—1st Sprung, 2nd Bradd. Hamburg, G P—chicks, 1st Davy. S P—1st F Lacy; chicks, 1st Lacy. Houdans—1st and 2nd E Gould. W C Black Polands—1st Davy. Peacock—1st Lacy, 2nd McGlennon.

### INTERNATIONAL BRIDGE SHOW.

(Communicated.)

**T**HE second poultry exhibition, under the auspices of the International Poultry, Pigeon and Pet Stock Association, was held at International Bridge.

The weather was very unfavorable, the extreme cold militating against the attendance of visitors and keeping the door receipts a good deal below what they would have been had the temperature ranged a few degrees higher. Monday was devoted to placing the exhibits and getting them ready for judging on Tuesday. With two or three exceptions the birds were all in on Monday, and on the following morning, judge J. Y. Bicknell got to work on the score cards, but the number of exhibits was so large that it was Wednesday evening before he finished. The entries were far in excess of last year and totalled up to 700, an excess of over 250 over last year, but the unfortunate interference of cold weather prevented the arrival of many of the entries. The old Mansion House was secured for the Exhibition, and most admirably it filled the bill, giving plenty of room and allowing for good arrangement of different departments. Secretary C. W. Vahey and Director H. Emrick, whose time was much occupied in looking after entries and answering questions, had a commodious office in a front room with a good coal fire and a comfortable lounge. The room through which entrance was made to the building was well heated and used as a concert room in the evenings, while the fowls occupied several apartments on the west side. The exhibition was an excellent one, with all the birds in prime condition, and the scoring good in all classes. Many well-bred birds were at a dis-

vantage in the keen competition, from the fact that they had been shown at numerous shows during the past few weeks. More than half of the birds exhibited were from over the river and the property of some of the best breeders in New York State.

Some excellent sales were made: S. M. Clemo, of Dunnville, sold a trio of Wyandottes to Dr. C. Maynard Smith, Buffalo, N. Y., at a good figure. Hammerschmidt of Buffalo, sold the 1st prize Indian Game cockerel, to E. Nettle, Esq., Victoria. C. S. Jackson, sold a buff Cochin cock for \$25 to J. N. Coles of Buffalo, also 2nd prize buff Cochin pullet for \$5 to the same gentleman; to Amos & Scyres, of Buffalo, 1 trio of Silkies at a good figure; to Mr O'Brien of Victoria, 1 trio buff Cochins; to E. P. Field of Buffalo, pen of black Sumatras; to Mr. F. Dell, of Victoria, 1 trio Partridge Cochins; to Mr. Williams of the Press Club, Buffalo, 1 trio buff Cochins. All the above realizing a good price. J. B. Clark of Dunnville made some sales and booked orders for eggs; many other sales were made that were not reported. C. H. Ackerley sold to C. S. Jackson 1st prize light Brahma cockerel, also 1st prize buff cockerel. On the second day of exhibition, all exhibitors present were photographed with their favorite specimens and I have mailed you one of the photos to show you the handsome lot of exhibitors that attended our show, on the last day we had a Grand organ competition which was a good drawing card. Refreshments were at the disposal of exhibitors, free of charge, and all seemed to have enjoyed themselves.

## PRIZE LIST.

**BRAHMAS** light, cock 1st 91½ C S Jackson, International B, 2nd 91½ R H Marshall, Dunnville, 3rd 91 Jackson; hen, 1st 94 Jackson, 2nd 93½ E P Field, Buffalo, N Y, 3rd 92½ Jackson; cockerel 1st 95 C H Ackerley, Tonawanda, N Y, 2nd 94½ Marshall, 3rd 92½ Jackson; pullet 1st 94½ A H Hayes, Buffalo, N Y, 2nd

94 Marshall, 3rd 93 Jackson. Breeding pen, 1st 186½ Marshall, 2nd 184 5-6 Hayes, 3rd 183½ Jackson. Dark, cock 1st 90 T Cockburn, Hamilton, 2nd 89½ Grape City Poultry Yards, Pa; hen 1st and 2nd 92½ and 89 Grape City Poultry Yards; cockerel 1st 93½ Grape City Poultry Yards, 2nd 90½ Cockburn; pullet 1st and 2nd 91 and 86½ Grape City Poultry yards. **COCHINS**—Partridge, cock 1st and 2nd 92½ and 91½ Jackson, 3rd 90½ Hy Emrick, Victoria; hen 1st and 2nd 93 and 91½ Jackson, 3rd 90½ Marshall; cockerel, 1st 93¼ Jacks n, 2nd and 3rd 92 and 92 Marshall; pullet, 1st and 2nd 93½ and 92½ Jackson, 3rd 91½ Marshall; B Pen, 1st 186¼, Jackson. Buff, cock 1st 92½ Jackson, 2nd 91½ Arthur Dell, Victoria, 3rd 90¼ Jackson; hen 1st and 2nd 93¼ Jackson, 3rd 87½ Dell; cockerel 1st 95½ Ackerley, 2nd & 3rd 92½ & 91½ Jackson pullet, 1st and 2nd 94 and 93½ Jackson, 3rd 93½ Emrick; B Pen, 1st 184. 83 Jackson. Black, cock 1st 93½, Cockburn. White, cock 1st 90½, Field; hen 1st 2nd and 3rd 93½, 93 and 90, Field; cockerel 2nd 89; pullet 2nd 89½, Ackerley; B pen 2nd 182.86. **PLYMOUTH ROCKS**, barred—cock 1st 91, Hiram Bender, Niagara Falls, 2nd 88¼, Bender, 3rd 88, J B Clark, Dunnville; hen 1st and 2nd 91 and 90½, Bender, 3rd 90, Clark; cockerel 1st 92, Clark, 2nd and 3rd 91 and 89½ Bender; pullet 1st 92 Bender, 2nd and 3rd 92 and 91½, Clark; B pen 183.17, Clark. White, cock 1st 2nd and 3rd 90½ 89½ and 89 Bender; hen 1st 2nd and 3rd 94½ 93 and 91½ Bender; cockerel 1st 91¼ Bender, 2nd 94 S M Clemo, Dunnville, 3rd 92 Bender; pullet 1st 2nd and 3rd 96½ 96½ and 95½ Bender; B pen 1st 191 Bender. **GAMES**, Indian cock 1st and 2nd, hen 1st and 2nd, cockerel 1st Hammerschmidt, Buffalo, 2nd Ackerley; pullet 1st and 2nd Hammerschmidt. Pit, cock 1st and 2nd, hen 1st and 2nd, pullet 1st and 2nd D W Williams, Buffalo. B B R, 1st and 2nd in all J N Coles, Buffalo. **HAMBURGS**, Golden S—cock 1st 90½, hen 1st 91, Cockburn Silver S—cockerel 1st 90, pullet 1st 91, Butcher & Ivey, 2nd 91 A G Brown; hen 1st and 2nd A McIntosh. Black, cock 2nd 89½, hen 1st 95, Brown, 2nd 94 Cockburn, 3rd 91 Brown; cockerel 1st 93½, Cockburn; pullet, divided, 1st and 2nd 96½ Cockburn, Brown; B pen 1st Brown. Golden Polands, cockerel 1st 91 Cockburn. **LEHORN**s, brown—cock 1st 93½, hen 1st and 2nd 94½ and 93½ Hammerschmidt, 3rd 93 C H McRae, Dunnville; cockerel 1st and 2nd 94 and 91½ Hammerschmidt, 3rd 89 Williams; pullet 1st 94½ Hammerschmidt, 2nd 93½ McRae, 3rd 91 Williams; B pen

2nd Hammerschmidt. Rose Comb, cock 1st 91½, hen 1st 94 Clemo. S. C. white, cock 1st 94, hen 1st 93, McRae, Dunnville; cockerel 1st 94 Grape City Poultry Yards, 2nd 93, McRae, 3rd C W Vahey, International Bridge; pullet 1st and 2nd 95½ and 95 Vahey, 3rd 94 McRae; B pen 1st Vahey, 3rd McRae-Buff, cockerel 1st White & Dennison, Marilla, 2nd Jackson; pullet 1st Jackson, 2nd White & Dennison, 3rd Jackson. **MINORCAS**, black—cock 1st J N Coles; hen 1st and 2nd 2nd 94 and 93½ Hammerschmidt, 3rd 87 Coles; cockerel 1st and 2nd 95 and 94½ Hammerschmidt, 3rd 88 White & Dennison; pullet 1st and 2nd 96 and 94½ Hammerschmidt; B pen 1st Hammerschmidt. **WYANDOTTES**, S L—cock 1st 90½ Butcher & Ivey, 2nd 88½ Hammerschmidt, 3rd 88 Clemo; hen 1st 91½ Clemo, 2nd and 3rd 91 and 90 Hammerschmidt cockerel 1st 91½ Clemo, 2nd 91, Butcher & Ivey, 3rd 90½ Clemo; pullet 1st 93 Hammerschmidt, 2nd and 3rd 91 and 90½ Clemo. White, cock 1st 93 Clemo, hen 1st and 2nd 93½ and 88 Clemo; cockerel 1st and 2nd 93½ and 92, F Foreman, Dunnville, 3rd 91 Butcher & Ivey; pullet 1st 95 Foreman, 2nd 94 Clemo, 3rd 91½ Butcher & Ivey; B Pen 1st 185½ Foreman, 2nd 185 Clemo Golden, cockerel 2nd 88½ Butcher and Ivey, 3rd 88 Butcher and Ivey. **HOUDANS**—Cock, 1st and 2nd 92 and 90 Butcher & Ivey; hen 2nd 88½ Butcher & Ivey; cockerel 1st 91½ Ackerley, 2nd and 3rd 90½ and 89½ Butcher & Ivey; pullet 1st 94½ Ackerley, 2nd 93 Butcher & Ivey, 3rd 92½ A kerley. **JAVAS**—Black, cock 1st 95 Field, Buffalo, 2nd 92½, hen 1st 95½ Hammerschmidt, 2nd and 3rd 95 and 95 Field; cockerel 1st 94 Field, 2nd and 3rd 94 and 92, pullet 1st and 2nd 97 and 97 Hammerschmidt, 3rd 94 Field; B pen 1st 190.50 Hammerschmidt, 2nd 189.33 Field. Mottled, cock 2nd 88½ Hammerschmidt; hen 1st and 2nd 92½ and 89½ Hammerschmidt; cockerel 1st 90 Hammerschmidt; pullet 1st and 2nd 94 and 91 Hammerschmidt. **ANY OTHER VARIETY**—Cock 1st 94 Williams, 2nd Jackson, 3rd Ackerley; hen 1st 95½ Jackson, 2nd Jackson, 3rd Ackerley; cockerel 1st 95 Jackson, 2nd Jackson; pullet 1st 97½ Jackson, 2nd Jackson, 3rd Ackerley. **BANTAMS**—Fekins, cockerel 1st 92½ Hays, Buffalo; hen 1st 96½ Hays, 2nd 89½ Clemo; pullet 1st 94½ Hays, 2nd 93 Clemo, 3rd 91½ Hays. **GAMES**—B B red, cock 1st 93¼, hen 1st 93¼, cockerel 1st 93¼, pullet 1st 95 Brown. **TURKEYS**—cock 1st, hen 1st Mrs. Fuller, Ridgeway; cockerel 1st and 2nd Jno Brown, Dunnville; pullet 1st Mrs Fuller, 2nd Brown. **DUCKS**—Cockburn won 1st and 2nd on old and young in following breeds: Aylesbury and Cayuga, McRae on Pekin. **GERSE**—Toulouse, Gander 1st, goose 1st Cockburn.

(Specials in next issue.)

BRAMPTON SHOW

(Communicated.)

THE County of Peel Poultry Association started their big show in Brampton on Tuesday February 2nd. The large number of entries made and the superior class of poultry exhibited was of the most creditable kind. The crowing and cackling intermingled with the songster canary had an admirable effect especially to the bird fanciers and they were not few. There were over 600 entries in the different classes a finer or better lot of birds were never exhibited in our town before. Tuesday was the day set apart for the school children and they came in swarms and enjoyed it to high extent. Mr. Roberts kindly loaned his wax exhibit to the Association as a special attraction which was highly appreciated. The attendance this year was much in excess of former years. It also took a decided change financially. Mr. Bicknell performed his duties in a most creditable manner although he cut some birds 4 and 5 points. Birds that had scored away up at other shows were cut on an average from 2½ to 4 points, so that birds scoring from 89 upwards deserved all they got. Exhibitors all round were well pleased with Mr. Bicknell's judging, although some were surprised to see their birds that had previously scored 95 only 90½ and 92. Among those from other places we noticed C. J. Daniels, Mr. Barber and Mr. Downs of Toronto, John Gray, Todmorden, Dewar & Mitchell, Milton, James Main, Milton, &c., &c.

PRIZE LIST.

**BRAHMAS**—Light, cock 2nd S7 George Bailey, Brampton. Dark, cock 1st 90, cockerel, 1st and 2nd 91½ and 90, pullet 2nd S9 C J Daniels, Toronto. **COCKINS**—Buff, hen 1st 90½ T Cockburn, Hamilton; cockerel 2nd SS, pullet 1st 92½, 2nd 87½ John Gray, Partridge, cock 2nd S7½ Daniels; hen 1st 91½ Cockburn, 2nd SS½ Daniels

cockerel 2nd 89, pullet 2nd 87 Daniels. White, cock 2nd 89½, pullet 1st 90 Cockburn. **LANGSHIANS**—cock 2nd 89½ Bailey; hen 1st 91 Gray, 2nd 90½ Bailey; pullet 1st 94½ Daniels. **GAMES**—B B R, cock 2nd 89½ C V Gifford, Brampton; hen 1st 92½ Joseph Tomalin, Brampton, 2nd 91½ Jos Foster, Brampton; cockerel 1st 93½ Dewar & Mitchell, Milton, 2nd 90½ Foster; pullet 1st and 2nd 93¼ and 93½ Tomalin. **ANSWERS TO CORRESPONDENTS ON DISEASES, BREEDING, MANAGEMENT, ETC.**

Q.—Will you please tell me the cause of white froth gathering in my turkey hen's eyes? Sometimes they are completely covered so it is difficult for her to see. She is healthy, her nostrils are dry, I don't think it is roup. Please answer in next month's REVIEW.

MANITOBA.

A.—(From indications we would say your turkey had cold in the eyes. Use coal oil (inserted with a feather, or better a roup syringe) in nostrils and both eyes in a weak solution of salt and water. We have found this remedy quite efficacious. Use a teaspoonful of common table salt to a quart of warm water, dry thoroughly and keep out of drafts.—ED.]

Found at last, a positive cure for roup, cholera and other diseases of poultry—Mortimer's "certain" cure, see advt in another column.

"The Dog in Health and Disease" by Prof. Wesley Mills, Montreal, \$2.25, free by mail from REVIEW office.

Toronto, Feb. 13, '92.

This is to certify that I have sold to Mr. C. J. Daniels of Toronto, my entire flock of pure white Malays, including all my imported birds, and can safely say they are the finest flock of pure bred white Malays in America to day. My only reason for parting with them is want of room; my attention and pens being given to the different rare varieties of Pheasants and Poland fowls.

A. McLEAN HOWARD, JR.

Mr. J. F. Knox, the well known fancier of Buffalo, N.Y., says "I have thoroughly tested Mortimer's certain cure and find it to be just the thing to keep birds in healthy condition."

The vexed question—how to raise young chicks. Answer—use Mortimer's prepared chick feed. See advt. in another column.

Major Gen. Gordon, the well known importer and breeder of Dorkings says: "We think Mortimer's prepared chick feed is very fine. We use it in our yards and cannot say too much in its favor, by your system the work of caring for chicks is reduced to a minimum point less than half the time and labor required by the old way. All who use it regard this feed as a great success. It will certainly soon be universally used, for having once used it, no one will ever think of raising chicks without it."

Lice are a great nuisance to the poultrymen. Do you know how to get rid of them? Use Mortimer's sure shot. See advt in another column.

Mr. W. W. Browning, Ogden City, Utah, says: Inclosed find \$1.00 for more chicken lice paralizor (M rtimers sure shot), it is the best insect powder I ever used for which my sitting hens and chicks seem thankful. I am greatly pleased with it and do not care who knows it.

**AN EASY WAY TO GET FELCH'S GREAT BOOK.**

To any one sending us five new subscribers with \$5 we will send a copy of "Poultry Culture" by I. K. Felch, value \$1.50, a book no fancier should be without. We have lots of these books so don't be afraid the supply will run out.

**ON 40 DAYS' TRIAL**  
The Great Truss for  
**RUPTURE**

This Pad closes Hernia as if your extended hand was drawn together, closing the aperture. Truss is held positively without friction day and night, and healed like a broken leg. There is no duty to pay, which many Canadians found more expensive than the truss. The easiest, most durable, and cheap Truss. Sent by mail.

**CLUB FEET** made natural in five months without cutting. (Appliances for above patented).  
**SPINAL INSTRUMENTS** half the weight of other makes, and more effective. Send stamp for illustrated book. Valuable information. Address,

**DEPOSIT DEPARTMENT.**

To facilitate business between buyer and seller we have opened a department under above head, and will receive purchase money till the bargain is consummated. The plan is as follows: Suppose A in London desires to purchase a bird or birds from B in Montreal, but naturally does not like to send money to one who is entirely unknown to him. Instead of doing so A sends us the money, writes to B same time, and we notify both of the receipt of amount. B then ships the purchase to A on approval and when A writes us that the purchase is satisfactory we forward amount to B less our commission. If the birds are not satisfactory A returns them to B and we return money to A less our commission.

**RULES**—1. All purchases must be sent on approval, buyer to pay charges each way unless otherwise arranged.

2. Our commission on sales up to \$50 is 50 cents, over \$50 2 1/2 per cent. If no sale is made we return money less same amount.

3. Packing must be supplied free of charge by seller unless otherwise arranged.

**FOR SALE OR EXCHANGE.**

Advertisements of 27 words, including address, received for the above objects, at 25 cents for each and every insertion, and 1 sent for each additional word. Payment strictly in advance. No advertisement will be inserted unless fully prepaid.

This Coupon is good for one advertisement of 30 words in the "For Sale and Exchange" or "Stock Transfers" columns. Canadian Poultry Review, Toronto, Ont. To meet the wants of advertisers who are continually using this column, and who find it a great trouble to be constantly remitting small amounts, we have adopted the plan of issuing Coupons (as above) good for 30 words each, 4 for \$1. Any one buying these Coupons can use them at any time in lieu of money, when send ad in an advertisement. Not less than four Coupons sold.

**For Sale**—A few black rabbits, or will exchange for first-class light Brahma pullets. Henry P. Stockwell, Danville, Que.
