## GERMANS LOST 30,000 MEN AT EPARGES IN 60 DAYS Canadian Mounted Rifles Probably Will Go to Egypt DEFINITE DATE IS FIXED FOR THE SAILING OF SECOND CONTINGENT

### BELGIAN RELIEF SHIP SUNK BY GERMANS IN NORTH SEA

Was Flying Flag of United States Commission When Struck By Submarine—Only 27 Members of Crew Were Rescued.

Special Cable to The Toronto World.  
ROTTERDAM, April 11.—The Belgian relief ship Harpaluce of London, the bearer of New York State's first cargo of gifts, which was sunk north of the Hinder Lightship, yesterday, by a German submarine, was flying the flag of the American Commission when she was torpedoed, according to the testimony of Captain Matroos, of the Dutch steamer Elizabeth, which brought to this port 22 of the 27 rescued members of the crew of 53.

The Constante Catherine, also a Dutch steamer, picked up five of the men. It is feared that all of the remaining members of the crew have been lost. The Harpaluce sank within five minutes of receiving the torpedo. Captain Matroos said he was in an excellent position to see the whole affair, and that the American Relief Commission's flag flying from the jib of the Harpaluce was plainly visible to him as he stood on the bridge of his vessel, which was then one mile astern of the Harpaluce.

Frederic Esplaner, "While I was watching the Harpaluce," said the captain, "suddenly I saw a cloud of smoke and heard a tremendous explosion. I got a glimpse of the ship. Then I saw the torpedo of a submarine about a hundred yards from the Harpaluce going away from the sinking vessel. The wash of the torpedo was quite plain. I got a lifeboat launched and picked up 13 men who were swimming about or clinging to the wreckage. Then I turned my attention to those in the boats. The second officer was unconscious when I recovered him, but I got him into a warm blanket with warm bottles and he recovered after two hours, just as the ship was disappearing. There were three or four distinct and heavy explosions as four boilers burst. Everyone was covered with shrapnel. Three Chinamen were badly injured. The Constante picked up five and I believe the American ship, picked up one or perhaps two, but no more.

"My boat circled around searching for survivors, but we could find none of the crew sunk just as one of my men was reaching out to grasp him. I immediately put back to Rotterdam and reported the matter to the British consul.

Edward Llewellyn, third officer, who was on the bridge at the time, told a thrilling story:

"A slight gale from the northwest

### Dutch Note of Protest Is Handed to Germany

Indemnity for Sinking of Medea off Beachy Head Is Expected—Hague Believes That War Will Be Avoided.

THE HAGUE, April 11.—(Via London)—The Netherlands Government has handed to Germany a note of protest concerning the sinking of the Dutch steamship Medea, which was sent to the bottom off Beachy Head on March 25 by the German submarine U-23. The German Government is considering a reply, and it is thought probable in ministerial circles here that it will offer to pay an indemnity in accordance with international law, but this is dependent upon the judicial decision. A feeling of the utmost confidence regarding the relations between Holland and Germany is expressed here, and the alarming rumors in London are considered inexplicable.

### FILMS BURNED CAUSING LOSS OF LARGE SUM

Hundred Thousand Dollar Fire in Childs' Richmond Street Building.

UNIVERSAL EXCHANGE Largest of Eight Firms Whose Premises were Gutted Last Night.

Seventy-five thousand dollars' worth of moving picture films were destroyed, and thirty moving picture theatres in Toronto will be without their regular programs today as the result of a sudden outbreak of fire in the offices of the Canadian Universal Film Exchange, Limited, above the Childs Restaurant, Richmond and Yonge streets, at 6:30 last night. The total loss is estimated at nearly \$100,000, and affects the following:

The Ramo Films, Inc.  
The Waterbury Burton Company.  
The New Method Employment Agency.  
James Parkinson, Engraver.  
The Childs Restaurant.  
Ambrose, Kent and Sons, regalia manufacturers.  
Sam Wilson, fire inspector in the Robert Simpson Company, on the opposite side of the street, saw the fire in the windows of the Canadian Universal office and turned in the alarm from the corner of Queen and Yonge streets. One of the engineers employed in Simpson's says he saw a young man and a young woman emerge from the Richmond street door of the building after Wilson had gone to turn in the alarm, but who they were could not be ascertained last night. An investigation is likely to be made by the police and fire authorities.

Had Good Start.  
The fire apparently got a good start within a few minutes after the alarm in the flames shot up thru the roof at least half the height of the ten-storey Kent building on the corner. The firemen, under Chief Thompson, got to work quickly and had the fire under control in half an hour. The contents of two big floors above were completely wiped out, the largest losses being the Canadian Universal

#### Hamadan City in Persia Occupied By Turk Forces

City With Population of Twenty-Five Thousand, is Important Trading Point to the Southwest of Teheran.

PETROGRAD, April 11.—(Via London, 8:45 p.m.)—A telegram to The Bourse Gazette from Tiflis, Transcaucasia, says that the Turks have occupied Hamadan, a city of Persia, 165 miles southwest of Teheran. Hamadan is an entrepot for the commerce between Bagdad, Tabriz, Isfahan and Teheran. It has a population of about 25,000.

Herchmer and Davis Admit Hundreds of Applications Allowed Were Bogus, Former Pleading Instructions From Hon. Frank Oliver—Three Toronto Men in Deal With Ex-Superintendent Pedley—Liberal, M.P. for Dauphin Accused.

OTTAWA, April 11.—A portion of the report of T. R. Ferguson, the commissioner who was appointed to examine into the reported frauds in connection with the granting of homesteads and the malfeasance of officials of the department of the interior under the administration of Hon. Frank Oliver, was tabled in the commons on Saturday. Mr. Ferguson investigated matters relating to the disposition of Dominion lands, timber and mineral lands, Indian lands and Indian reserves.

The portion of the report which was given the house on Saturday deals with (1) Robert Cruise, Liberal M.P. for Dauphin, Man., and W. A. Davis, lands and forest ranger. (2) The Blood Indian reserve and Frank Pedley, until recently superintendent of Indian affairs.

Not Real "Squatter."  
The report shows that Robert Cruise represented himself as a "squatter" on a quarter section which now forms part of the Riding Mountain reserve in the Dauphin district. Cruise was not a "squatter" and obtained this homestead by fraud. In his evidence he admits that he never lived on the land in question, that his home was some miles away, and that for years prior to and subsequent to 1907, when he got the homestead, he had lived on the same farm which is near Dauphin.

Davis, with whose connivance Cruise got the farm, and who was at that time chief forest ranger for the reserve in question, stated in his evidence that Cruise was not a "squatter" and not entitled to file on this homestead.

Borrowed Cattle.  
The commissioners find further that Mr. Cruise was not the owner of all the cattle mentioned in the memorandum filed in his behalf, and that he obtained his patent on an "improper representation" of the facts. The

### SECOND CONTINGENT HELD AT REQUEST OF KITCHENER

#### Premier Says Canada Has More Than Hundred Thousand Men Under Arms—Canadian Mounted Rifles May Go to Egypt.

By a Staff Reporter.

OTTAWA, April 11.—In the house of commons Saturday night, Sir Robert Borden spoke at length on what has been accomplished since the outbreak of the war in recruiting, mobilizing and equipping the volunteers and sending them to the front. Canada now has over 100,000 men under arms. The force, according to the prime minister, quadruples the number of British troops under Wellington at Waterloo and largely exceeds the entire force on either side at that world famous battle. In this connection, he called attention to the fact that the first contingent had taken more guns from Canada than was possessed by the allied forces at Waterloo.

No Needless Delay.  
The prime minister said he desired to lay at rest comments and speculation respecting the delay in forwarding the second contingent. The contingent was ready to sail last December, but the British war office requested that they be not sent to England until a date not yet arrived, which of course he was not at liberty to give to the house. The reasons for this decision were given by the

war office and acquiesced in by the Dominion Government. For one thing the war office was already greatly overtaxed in providing for the huge military force already in training in the British Isles. It was also desired that the second contingent should not be exposed to some of the unavoidable hardships endured by the first contingent during the past winter at Salisbury Plains.

A Fine Response.  
Sir Robert spoke in eloquent praise of the generous and patriotic response to the call for enlistment. The young men under training in Canada as well as those already sent overseas were a credit to the Dominion and our troops already at the front had behaved with the greatest gallantry. The general program already announced has been carried out to date and should the war last for another year, Canada would have at least 100,000 on the plains of Europe, and 50,000 more in training in Canada.

The total number of officers and men now enlisted amounts to 191,580, which includes units of the active militia on active service in Canada of 9,777; units recruited and organized for overseas service but not mobilized, 6500, and permanent force in Canada, 2,340.

The remainder, classified as the overseas forces, number 85,765.

The troops are distributed as follows:

GERMAN RAIDER REACHES PORT AFTER EVADING ALLIES' CRUISERS

Kronprinz Wilhelm Has Five Hundred Prisoners Aboard and Coal and Food Were Almost Gone—Commander Boasts He Will Run Gauntlet Again.

NEWPORT NEWS, Va., April 11.—The German converted cruiser, Kronprinz Wilhelm, the elusive raider of commerce in the South Atlantic, slipped into this port today and asked for fuel and provisions. Many times reported destroyed, the former North German Lloyd liner had evaded hostile warships for eight months, while she sent 14 merchantmen to the bottom. Her officers said she was forced to steal her way past four allied cruisers off the Virginia Capes to reach this refuge.

"We got in without being seen by the enemy, and we can get out the same way," declared her commander, Lieut.-Capt. Paul Thierfelder, formerly navigating officer of the German cruiser Karlsruhe, in a statement tonight. When she dropped anchor the Kronprinz Wilhelm had less than 25 tons of coal and scarcely any food for 500 men and 61 prisoners from the

Dardanelles Bombarded From Gulf of Saros While Fleet Awaits Arrival of Land Forces For Big Attack.

LONDON, April 11.—The allied fleet has, according to unofficial reports, been bombarding the Dardanelles forts from the Gulf of Saros. This doubtless is being done to prevent the Turks from repairing the forts, for it is not believed here that the big attack will be resumed until the land forces arrive.

Unofficial reports also continue to come in regarding the gun firing off the Norwegian coast on Wednesday night, concerning which the admiral's office as yet has made nothing public. The Scandinavian papers are convinced that a sea battle has occurred, although they variously describe it as a battle between British and German cruisers and a chase by British or German submarines.

Enemy's Blockhouse in Argonne Demolished by Infantry and Artillery Fire.

Special Cable to The Toronto World.  
PARIS, April 11.—The German foundry and submarine base at Bruges were again the target of ariel bombs dropped from French aeroplanes today. After making a descent to within close range of their objective the daring aviators let their projectiles fall on the two spots and then got away safely. No estimate of the damage done is made by the war office.

In a sharp all-night struggle in the Argonne forest the French infantry and artillery demolished a blockhouse and captured about 300 yards of a trench. The angry Germans delivered two fierce attacks to regain their lost ground, but were driven back.

New Trenches Captured.  
A new line of trenches was captured by French troops in the Ally wood Saturday. But the Germans recaptured the trenches which they had lost in the Montmartre wood in Saturday's fighting. The French tenaciously held to the ground which they had occupied in the middle of last week.

ADVANTAGES SHOWN

Good Response Made After Demonstrations in Many London Centres.

LONDON, April 11, 7:50 p.m.—A great patriotic campaign to secure recruits for Field Marshal Earl Kitchener's new army was opened in London today. The campaign is to be carried on for a fortnight.

Meetings addressed by Liberal, Unionist, Labor and Irish members of parliament were held in Hyde Park, Trafalgar Square and other centres of the capital, while recruiting sergeants distributed pamphlets showing the pay, separation allowances and other advantages given to soldiers of the King. As the result of the Trafalgar Square meeting 200 recruits registered at the chief recruiting office nearby.

During the fortnight's campaign 1500 meetings will be held, while troops will engage in street marching.

### EXCELLENT SIGHT WHEN BOAT CAME

"Hail, Hail, the Gang's All Here," the Soldiers Sang.

#### A GREAT RECEPTION

Hamilton Proud of the Boys Who Have Answered Call.

One of the most interesting night scenes ever witnessed on the Toronto harbor was the arrival back on Saturday evening of the crowded steamer "Macassa" with the 19th Battalion, second contingent, from its regimental visit to Hamilton. Soon after the lights of the ships became visible through the mist which overhung the bay faint sounds could be heard of soldiers singing. As the sounds became louder, the words of "Hail Hail the Gang's All Here" took the place of the first of the songs. The ship pulled up to the wharf at 10 p.m., and the men stopped singing and sent up a hearty cheer as the boat glided into the slip.

Considering over 800 men were on board the comparatively small steamer and about a dozen horses (the officers' mounts), the work of disembarking was carried through very quickly. Owing to the water level being much lower than usual, a special gangway was attached to the upper deck and all the men had to leave by this practically in single file. The disembarking was done in a very orderly and soldierly way, and the progress made by the whole battalion in twenty minutes on the big wharf in company form, including the big black bear, the mascot of the regiment. The bear showed more discipline and came down the double turn gangway and onto the wharf without causing any trouble.

By 10.20 the whole battalion, with mounted officers, pipe band, buglers and stokers at the head, was ready for the march to Exhibition Park camp. The men looked somewhat tired, as they were in heavy marching order and had put in a long day, since 5 a.m., but they all had a satisfied about them and looked happy. All declared that they had enjoyed the trip immensely. The bear showed more discipline and came down the double turn gangway and onto the wharf without causing any trouble.

The march back to camp was by way of Yonge Street, King, Queen and Dufferin streets. It happened that the battalion was passing the Alexander Hotel and had put in a long day, since 5 a.m., but they all had a satisfied about them and looked happy. All declared that they had enjoyed the trip immensely. The bear showed more discipline and came down the double turn gangway and onto the wharf without causing any trouble.

President Falconer of the University of Toronto was the speaker at the Sunday morning service held in the transportation building. The attendance of soldiers was larger than for several weeks, over four thousand being present. Maj. Rev. J. Russell Maclean, camp chaplain, took the service and read the lesson. President Falconer in his address dwelt on the necessity of good habits and a good morale, as by strengthening themselves in every way the troops would be ready to meet the most efficient when they went into action. He stressed the need of being prepared by telling what a soldier's life was and what the men were now experiencing in Belgium and France.

#### Gave Fine Concert.

Under leadership of Bandmaster Moore the 40-piece brass band of the 20th Battalion yesterday afternoon at Exhibition Park gave the first Sunday concert since the formation of the band. The program given was a high-class one.

The first half of the program was given outside from 3 to 4 p.m., but at the end of the hour the band moved heavily and a rush was made to the large transportation building, where the remainder was heard, the concert lasting until 5 o'clock.

After the morning service, Col. W. A. Logan, camp commandant, inspected the quarters occupied by cavalry, artillery, Eaton Machine Gun Battery, the Army Service Corps and the No. 1 Field Ambulance.

A correspondence of the officers who took part in the night operations last Thursday evening is to be held at 10 o'clock this morning in the administration building, the main headquarters. The manoeuvres and tactics part of the night battle will be gone over in detail.

Van Ardenne Cody, rector of St. Paul's, was the preacher at the church service, held by the 35th Battalion (third contingent), in the armories on Sunday morning.

Speaking on the subject of "Burdens," he said that every man must bear his own burden of individual responsibility. By sympathy and service others could be helped.

#### MIMIC MYSTERY IS PARTLY SOLVED

James Heaney, 147 Tecumseh street, has identified the body found at the beach last Thursday as that of his brother, John Heaney, who was employed as a night watchman after Warner Construction and Paving Co.

He said his brother was early in October, when he came up from the beach, where he had been fishing, and found a body floating in the water.

John Heaney was born in Montreal 48 years ago and was a member of the St. James' parish. He was west end during about 25 years and had never seen all in his life.

Altogether it has been reported that the body was post-mortem and autopsy was held in St. James' parish. Heaney stated that when he identified the body as his brother's, he was very shocked, and the mouth was bruised, as if he had been overcome after a violent struggle.

#### STOVE WAS DEFECTIVE

#### Record Congregation Attended Dedication Ceremony at St. Cecilia's.

Richard Kennedy, of 39 Abbott avenue, had a narrow escape from death from gas asphyxiation early yesterday morning in the kitchen of his house. About 4.30 his wife awoke and noticed his absence. As he had not returned home when the family had retired on Saturday night she became alarmed, and arousing her daughter, the two women descended the stairs. As they neared the ground floor the small illuminating gas became strongly asphyxiated by illuminating gas.

The strength of representations employed on the board of education has ordered an investigation into the charge that a contractor had employed on a North Toronto school was paying less than the prevailing rates of wages.

#### First-Hand Information.

A number of workmen employed on the job were interviewed, and it was stated that they were paid at the rate of 20 cents an hour, some of them engaged in running the concrete mixer.

The foreman employed on the job was also present and declared that the reason foreigners were employed in preference to the latter were not always available. When requested by Ald. Bell to name the rate of wages paid to the contractor whether he had been paid by the contractor, the man employed on the job were married men supporting families, residents of North Toronto, foreigners or British.

The whole system is wrong and must be changed, declared W. G. Biles.

#### Motion Carried.

Finally, on motion of Ald. H. H. Ball, seconded by E. V. Donnelly, the following motion was unanimously adopted: "That this association is strongly of the opinion that the board of education should insert in all contracts a clause for the rate of wages to be paid to the laborers employed on the job, and that the board should be authorized to retain the control of all work possible by the city and having the work done by day labor."

#### SOLDIERS ATTEND YORK MILLS CHURCH

Divisional Cycle Corps Parades to Service at St. John's.

The parade of the Divisional Cycle Corps of the second Canadian contingent being under the command of Lt. Col. Denison, J. to St. John's Church, York Mills, yesterday, was a notable event, and aroused great interest locally.

The parade, numbering 150 men, started from the Exhibition grounds by way of King and Yonge streets, arriving shortly before the opening of division service at 11 o'clock. The parade was led by the rector, Rev. Richard Ashcroft.

He gave an excellent address on "Mansions," having his remarks on First Corinthians, 16th chapter, 15th verse: "Quit you like men, strong."

#### Canada's Pride.

He paid a glowing tribute to the loyalty shown by the Canadian soldiers to British institutions and British ideals, referred with pride to the outstanding work of Canadian soldiers in the present war.

The men of the corps joined heartily in the singing of the hymns, which were "Onward Christian Soldiers," "The God of Battles," and "All Hail the Power of Jesus Name," being rendered, concluding with the national anthem.

#### Fine Old Organ.

Following the services a number of the soldiers at the invitation of the rector and with the kind permission of Lt. Col. Denison, visited the organ loft, manifesting the keenest interest in the organ installed in the building, built in London, England, and believed to be the only one of its kind in the province. The remarkable purity of tone was a source of wonder to the men, a number of whom were skilled in music.

Prior to their departure Lt. Col. Denison, on behalf of himself and the service and the beautiful location of the church.

#### RATEPAYERS MEET AT BEDFORD PARK

Resent Delay in Starting Mount Pleasant Avenue Civic Car Line.

The Northern Heights Ratepayers' Association at their meeting in Bedford Park School on Saturday night, discussed the delay in starting the Mount Pleasant Railway, and took strong ground against the statement of Commissioner Harris that there would be no extension beyond Broadview avenue. No formal resolution was adopted pending further information.

The association justify their existence by the fact that they have secured temporary crossings on Randolph, Bowwood, Roslin and Bickle avenues, and to the fact that it was due to the energetic action of the association in Bedford Park that the City Council established. The latter are now running to the extreme northern end of the city limits at the golf links, making the trip from the City Hall for 5 cents, or six tickets for 25 cents.

Last year's Reo was found to have more power than was really necessary. Refinements of construction, recently made, increased that power still more.

In building the new Reo, the Reo engineers might have reduced the power. But no—they had a better idea—they increased the size of the car. And so it's three-and-one-half inches longer—wider, too—a finer, more luxurious car, and still with power to spare.

To get the full story of this bigger, better Reo, you need a copy of the Reo Book—Just off the press.

A. D. Foster and Dr. Chipman Will Be Heard at Ottawa.

SALE OF HOUSEWIVES

Witness Said Story of High Prices Was Absolute Rubbish

By a Staff Reporter. OTTAWA, April 10.—Contrary to expectation, A. D. Foster, M.P., and Dr. Chipman, who was associated with him in the purchase of horses for the government in the County of King's, N.S., did not give evidence before the public accounts committee of the commons today, but they will appear on Monday. Hon. Dr. Ross made this announcement to the committee this afternoon, and an adjournment was made until next week.

Mr. M. G. Galt of the firm of J. L. Galt and Company told the committee that he had furnished some of the goods in the "Housewives" to Stewart McManis, who sold 100,000 lbs. of flour to the department. He produced invoices. The question of a letter written by Stewart McManis to Mr. Galt, in which his sister's account was paid as soon as possible, then came up. Mr. Galt refused to give evidence because he had seen a statement in the Morning Citizen concerning his name with first-class contracts. It was Mr. Kite of Richmond who had introduced the deputy speaker's name by reading the letter to the committee.

Two letters were read by Mr. Sevigny, dated July 22 and Aug. 13, and sent by him to J. W. Borden, accountant of the department. These showed that the reference was to an account of \$50,000 for drugs supplied under her regular contract and had no reference to the Valcartier supplies.

Mr. N. Rhodes asked Mr. Kite why he had read that letter to the committee. Mr. Kite said that the reading of the letter was simply to connect the Sevigny with the Valcartier transaction and to bring discredit on him.

Mr. Sevigny stated that he never saw Mrs. Flanagan's account in connection with the Valcartier and knew nothing of her affairs. She was lucky enough to get the bill's contract before the war because she was the lowest tender. It was not fair, he said, to put his name up indirectly in this investigation.

Mr. Galt said it was also unfair to bring Mrs. Flanagan to give evidence, but he asked her why she had charged certain prices, and bring along someone else to prove the accounts fraudulent.

Mr. Carvell objected to be lectured. Hon. Dr. Ross: A little lecture won't do you any harm. Mr. Sevigny reiterated that it was very unfair to try to connect his letters with the war contracts when they were regarding an account long since paid.

ELECTION IS NEAR ROGERS INTIMATES

Country Demands Opportunity to Overrule Senate, He Declares.

CHIEF ISSUE OUTLINED

Minister's Vehement Speech Was Received with Vigorous Applause.

By a Staff Reporter. OTTAWA, April 10.—In the house of commons this morning Hon. Robert Rogers declared that we could not have democratic government in Canada until after the dissolution of the present parliament, and amid loud applause from the government benches went on to say that all over the country the demand was heard for an immediate appeal to the people.

The speech delivered by Mr. Rogers was in many respects notable. He is seldom heard in the house, but the address delivered had been carefully prepared and was delivered with force and vehemence. It was accepted on both sides of the chamber as outlining the chief issue of the Conservative platform at the next election.

It will be remembered that last year the house passed a joint address to the King praying that the B.N.A. Act be so amended as to give increased senatorial representation to the four western provinces. When the address came to the senate a rider was added to the effect that the increased representation should not go into effect until the next general election. In this amendment the house of commons by unanimous vote refused to concur. At this session the same address was again passed by the house and the senate tacked on the same amendment.

This morning Sir Robert Borden stated that the government had reluctantly decided to accept the amendment. He said the motive which had actuated the senate were so obvious that they need not be further discussed.

To the remarks of the prime minister Sir Wilfrid Laurier demurred. He thought much could be said for the position of the senate that increased representation in the senate and house should go hand in hand. After the next general election the four western provinces would have many more members in the senate of commons, and at the same time they would gain additional members in the senate.

Hon. Robert Rogers said that an irresponsible partisan body arrogated to itself the power to veto legislation passed by the house of commons and desired by the people of Canada. It was kaiserism, not democracy.

Senate Was Inquiring. The people of Canada had returned the present government to power in 1911, upon a constructive platform which was not intended to be as far as the house of commons was concerned, had crystallized into legislation, but as bill after bill passed the house it was the senate which was the obstacle.

SOLDIERS' VOTES ARE DISCUSSED

Those at the Front Will Soon Have Their Ballots

ALL SAFEGUARDS TAKEN

Men in Camp in Canada Will Vote in Regular Way

By a Staff Reporter. OTTAWA, April 10.—Section one of the bill to give votes to soldiers was adopted after some discussion. Hon. Charles Marcell and other opposition members, contend that the franchise should be extended to all volunteers, whether under 21 years of age or not. Sir Wilfrid Laurier suggests sending a commission to the front, upon which both government and opposition would be represented for the purpose of taking the vote.

Hon. Frank Oliver complained that the Conservative candidate in his riding was a commandant of the camp at Edmonton, and under section one of the bill votes could be massed in West Edmonton to the colonel's advantage.

Two important changes in the bill were forthwith adopted. The first of these is that the soldiers in Canada are to vote in camps, but under conditions as similar as possible to the ordinary election. That is to say, they will all vote on election day with polling clerks, scrutineers, and all legal safeguards. Another is that the distribution of ballots which soldiers at the front will be made thru the regimental paymasters, Judge McKenzie, the Liberal member for North Cape Breton, who has been thought against repeating. He said some young fellows had enlisted from his constituency who might err in that direction.

Those Who Vote. Sir Wilfrid Laurier said in the excitement of an election men did things for the sake of their party which they would never think of doing for their own personal advantage. Section one of the bill, which passed this afternoon, herein provides that every British subject twenty-one years of age who has enlisted will be entitled to vote in the riding in which he resided for thirty days within the six months preceding his enlistment.

Section two, which was under consideration at six o'clock, provides for despatching the blank ballots to the officer commanding at Bermuda and to the secretary of the high commissioner at London.

Affidavits to Sign. Sir Wilfrid Laurier thought the ballot should not be sent out of the country until there was a dissolution of parliament, but the minister of justice insisted that there might not be enough time intervening between dissolution of parliament and the election.

It is understood that the government will amend the bill so as to provide that the affidavit to be made by the soldier at the front shall be filed on the back of the ballot. This will involve the handling of only one paper instead of two.

MILLE VERLET TO SING IN TORONTO

Will Be Heard at Massey Hall on May First

Altho the coloratura artist's sphere of activities is known to be considerably more circumscribed today than it was several decades ago, and altho the taste for operatic music of the dramatic order has resulted only too frequently in a deplorable neglect of those perfectly legitimate principles of vocalism upon which florid singing is based, it is manifestly erroneous to assume that the voice of every great singer is extinct. Of the contrary, the relative scarcity of its exponents today serves to lend signal interest to the appearance of every gifted one. And as the love for dazzling vocal fireworks seems to be an inherent as ever in the public at large, the advent of a capable coloratura is very often hailed with extravagant demonstrations of popular approval.

Vertical text on the far right edge of the page, including "SPEAK TO EMPIRE CLUB" and "J. M. Dent, the well-known London publisher, arrived in Toronto this morning from New York."

MONDAY MORNING, APRIL 12.

A General Election

From what occurred in the house of commons on Saturday, it is evident that a general election for the Dominion will take place within the next six or seven weeks.

The main issue will be the war, and Canada's share in it; and only second to this, the fact that the Conservative party, which carried the country in 1911 by a large popular majority, disposed of the Liberals of 1911 by a large popular majority.

As Hon. Mr. Rogers put it in the house of commons on Saturday, the issue is whether we have democratic institutions or not, whether the will of the people is to prevail. Or to put it another way, if in Great Britain they have taken away the veto of the house of lords, why should it be allowed to remain in Canada?

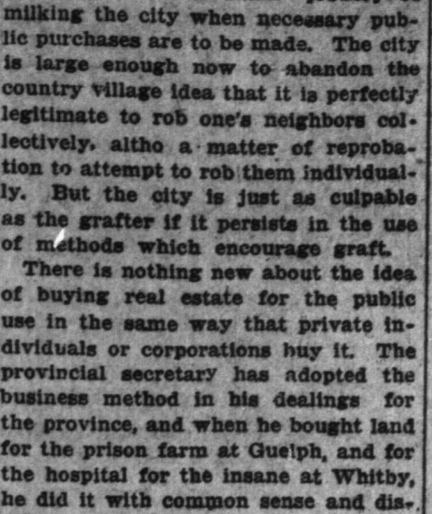

Buying Real Estate for the City.

A big complaint has been made about the cost of sites for public school buildings. The council has re-proached the board of education with its extravagance and the board has retaliated on the council, and there are strained relations between these two high contracting parties.

The city has been moved by the arbitration award on the Miller and Dufferin street property, and the council will probably refuse to have anything to do with such a palpable hold-up. But there have been already a great many equally palpable hold-ups where land has been purchased for school purposes.

There would undoubtedly be opposition to the adoption of a sensible plan, for it would mean less profits to the ring which haunts the city hall and does the milking when real-estate is to be bought. But the interests of the taxpayers are of more importance than those of a little real estate ring.

HE HAS SUPPED AND HE MUST PAY

There is nothing new about the idea of buying real estate for the public use in the same way that private individuals or corporations buy it. The provincial secretary has adopted the business method in his dealings for the province, and when he bought land for the prison farm at Guelph, and for the hospital for the insane at Whitby, he did it with common sense and discretion.

Turning the Tables

What "kultur" has done for the German people is nowhere more apparent than in the extraordinary arrogance that is among their conspicuous characteristics. They not only take it for granted that they are entitled to lord it over everybody and everything, but assume that their right to do this is so evident that it cannot be questioned by any reasonable human being.

But now, when the allies are establishing their supremacy in men and guns, these same arrogant Germans whimper and squeal like whipped dogs or struck pigs. Take, for example, that wounded Prussian officer, described by the British "Eye-Witness" as of that particularly offensive and truculent type which is not uncommon, who expressed the greatest contempt for British methods at Neuve Chapelle. "You do not fight," he is quoted as having said, "you murder. If it had been straightforward, honest fighting we should have beaten you, but my dear friend never had a chance from the first; there was a shell every ten yards, nothing could live in such a fire."

When an evil spirit of this kind has laid hold of a whole people it cannot be exorcised by bell, book and candle or dispossessed by sprinkling with rose water. Germans of Prussian training must be treated to an experience of their own methods of making war. Not that there is any likelihood of the soldiers of Belgium, France or Britain indulging in the orgies that will remain an everlasting blot on the German escutcheon. But in the matter of waging legitimate war, no inclination will be felt to let the punishment be inflicted with the German notion that what was sauce for the Belgian hare is not sauce for the German pig.

When the tables are turned and the Germans can be shelled from their hold on Belgian and French soil by a concentrated action of heavy guns in the field, greater than what the Germans can now offer, no scruple need be felt about using it to the uttermost even if they have the effrontery of complaining that the lessons they have taught are bettered on themselves.

Going Ahead With Garbage

Mayor Church expressed his belief that a little common sense, combined with the opinions of the scavenging department, should be sufficient for the city in settling the incinerator project. Commissioner Wilson has plenty of common sense for the work, and he showed it when he said that if there was money in it for a contractor to handle garbage there was money in it for the city.

Mr. Wilson can make as much out of the garbage disposal for the city as any man. He has made his calculations and recommended a certain course of action. He also specified the kind of incinerator he wanted. He assumes the responsibility, and hitherto he has made good in what he has undertaken. There is every reason therefore for giving him not only a free hand but whatever encouragement

SAYS FAIR WAGES NOT BEING GIVEN

Editor World: Seeing that investigations are taking place concerning army contracts, I would like, with your permission, to throw a little light on the unfair treatment of the workers engaged in the manufacture of steel shells for the army.

When the war broke out and contracts for shells were to be given out, there was a great rush on the part of local firms to get a big share. For it is well known that government contracts are profit-making.

The Canada Foundry Company was successful in getting orders, but the workers employed soon found that the wages paid were not compatible with the fair wage clause, which should be inserted in all government contracts.

A fair wage officer would be sent to make inquiry regarding the rates in force in this establishment. The A.S.E. then communicated this to their general office, London, England, asking them to use their influence with the imperial government to bring about fair conditions.

Mr. Baker informed that the Canadian Government was responsible for fixing up the conditions of all contracts for the British Government, but the Canadian Government would use all their influence with the Canadian Government to have these contracts in harmony with the fair wage clause.

On January 4, 1915, N. B. Osborne, assistant director of army contracts, was directed by the war office to write to the High Commissioner of Canada requesting him to advise the Dominion Government that "Whilst it is realized that the fair wage resolution of the House of Commons is inoperative outside the United Kingdom, the war department would be glad to know that the spirit is operating in the execution of all contracts placed by the minister of militia in the Dominion of Canada on behalf of the imperial government."

Conditions did not improve, so we applied to the general executive office of the National Labour Party, who have some of our members in the Old Country for some of our members. We appealed again to the minister of labor, Ottawa, and on Feb. 4 he replied that he was pleased to be able to inform you that he has assurances which I cannot regard as other than emphatic and satisfactory, which have been received from the chairman of the shell contract committee, that the committee will exact from every firm having any share of the contract, fair conditions as to hours and wages and will not permit any departure from what can be fairly deemed the established practice in these matters, and the shell committee advise me that it is taking steps immediately to that end.

A WONDERFUL DISCOVERY. After four years of scientific research work Sir William Crookes, the eminent British scientist, who some years ago discovered Crookes' tubes, from which X-rays were first made, now has discovered a glass for spectacles and eye-glasses, which eliminates the harmful ultra-violet or chemical ray in the white light, and the red heat rays, which are intensely irritating to the sensitive retina, and cause people who wear glasses to have a smarting and gritty feeling in their eyes.

**PASTOR RUSSELL**  
BOSTON, Mass., April 11.—Pastor Russell spoke here twice today. His discourse, based on Luke 16, 23, set forth a most reasonable explanation of a parable which has long perplexed Christians. He said in part: "Those who wrote the Bible did their best to give the plain meaning of the Hebrew and Greek Scriptures, and the history of over four thousand years, tells us that all mankind at death go to Sheol—the tomb. The New Testament, when it speaks of Hades as the equivalent of the Hebrew Sheol. But in modern translations of the Bible the difficulty is encountered, particularly in the English. Nearly all these translations have been made within the last five centuries. For thirteen hundred years before that time the Bible had been little known."

When the Hebrew word Sheol was being translated into English, the translators tried to fit their ideas. Hence often when the translation was impossible did they give the proper meaning—the grave. There is another word for Sheol (Hebrew, Sheol, Greek, Hades) which is the Greek word Hades. It is a Greek word which was used in the New Testament. SOCCER SEASON IN FULL SWING

Devonians Keep Up Their Winning Stride—T. and D. Results and Records.

Devonians have opened the season in championship style. After defeating Caledonians a week ago by four clear goals they lowered the colors of the Thistles on Saturday in no uncertain manner. With swift returning to the team the men showed up splendidly against the victors of the Old Country a week ago.

Wychwood added another win to their good starting record when they defeated the Caledonians by four clear goals. The Caledonians are not playing at all certain this season and must put some steam behind their work to get in the running. It is not a creditable performance to have lost two successive games, even if they are the first of the season, by such a large majority as 5 to 1.

After drawing with Davenport on Good Friday Sunday the two points at the expense of Old Country, who have to score a full goal at the expense of Eaton's, Manchester Unity and Baracca could not get into the game, neither side netting the ball. After losing to Wychwood a week ago the Devonians made a fine start against Queen's Park, defeating them by two clear goals.

Uster are going great guns to start with this season. In the two games they have already played they have scored no less than ten goals, and their opponents have not been defeated once. On Saturday the Sons of Scotland put up a sorry fight against the Irishmen and were defeated by eight goals to nil. The Scottish team are certainly not in defence for they had no fewer than 13 goals scored against them already without replying.

Don Valley scored another win over the Maple Leafs who have yet to score a win. Hiawatha managed to make a draw with Hearts, and as both these teams were defeated a week ago they have managed to enter the league figures with one point each. Bank of Commerce scored their first win when they defeated Orchard on Saturday. The bank made a poor effort last week against the Street Railway but were in much better form on Saturday. Lanscahire are going strong with 11 goals already to their credit. On Saturday they defeated Fraserburgh, who defeated Orchard a week ago, by five clear goals.

Devonians and Thistles met at Eaton's field, the game going all in favour of the Englishmen. In the first half the Devonians had matters all their own way, scoring five goals to their opponents' nothing. In the second period the Scottish team came more in the limelight and scored one goal. The game was splendidly contested, the Devonians playing a rattling game. Result: Devonians 5, Thistles 1.

The line-up: Devonians (3)—Hunt, Burns, McKenzie, Clancy, Leonard, Swift, Horne, Bruce, Hopner, Moaling, Allan. Thistles (3)—McAdam, Campbell, Johnston, Buchan, Allan, Cowan, McLaren, Walker, Thompson, Gow, Nicol. Referee—J. Buckingham.

T. & D. RECORDS

Table with columns: Team, P, W, L, D, F, A, Pts. Lists records for various teams like Devonians, Wychwood, Davenport, etc.

Exciting Finish. A last minute goal on the part of the Hiawatha team robbed the Hearts of scoring a victory. With five minutes to go the Hearts were leading by one goal to nothing, when McAlpine, Hearts' goalkeeper, let thru an easy one. A minute later Hearts came thru and won twice in the second period both teams scored one goal.

Bank of Commerce Won. A good game was seen at Willowvale Park when the Bank of Commerce beat Orchard by two to one. In the first twenty minutes the Bank had the better of the play, but after that things evened up. The strong fight was put up. Twice in the first half the Bankers scored, but in the second period both teams scored one goal.

Maple Leafs Whitewashed. Don's had but little trouble in defeating the Maple Leafs on Saturday on Don Flats. They scored Don's first goal, then pulled off some great goalkeeping and saved many likely scores. Blackwell scored the second for the Don's.

Maple Leafs (2): Drover, Bright, Allen, Lafferty, Lloyd, Wallace, Murray, Simpson, Stoneham, Fraser, Hay. Lanscahire (3): Dwyer, Holt, Featherstone, Knowles, T. Jones, Arden, Jones, Thompson, Bowman, Hammett, Abbott. Referee—G. Wilton.

Street Railway Defeated. Dunsford defeated the Street Railway at Scarborough Beach in an easy manner by three goals to one. T.S.R. (1)—Goal, Bennett; full-backs, Baker, Jones; half-backs, Arrowsmith, Tunstall, Lewis; forwards, Cooper, Owens, Oakley, Farrage, Jones. Referee—T. O'Neill.

FIELDER WILSON LIMPS IN RUNNING

Showing Result of Broken Leg—Leaf's Training Routine at Durham.

DURHAM, N.C., April 10.—The work of the Toronto ball team, and every other one for that matter in training, is the same today as yesterday, and it won't be any different tomorrow. It grows a bit monotonous, but the men are too keen on their sport to let the routine and too dog tired at night to notice that part of it. The routine is the same as the home game every day at the island before a game everybody taking a preliminary warm-up yet have arrived at the field in a practice taken part in against the pitchers; followed by a fast half hour's fielding.

Not all of the candidates will make good. The letting out of a few of them is to be expected. Many times, but that neither argues that the team is in a bad way nor that the men let out are no good. There isn't a man in the camp who hasn't made good in this class AA company, or at least shown ability in a lower class sufficient to warrant him a trial for a place. Some of the older ones may be worn out; some of the younger ones may not yet have arrived. That is to be expected; that is what spring training is for.

Right now Manager Clymer is keeping the wires hot for good-looking big league leaguers. He is not taking anything and everything because of the present material at hand he has possibly quite a good number of little better than average major league comebacks. Any player he accepts from now on may be called up to the major league.

Games and Referees For Next Saturday. The T. and D. games and referees for next Saturday are as follows: Division I. Eaton's v. Wychwood; M. Com. Sunderland v. Caledonians; M. J. Hurley. Queen's Park v. Devonians; H. Baker. Thistles v. Manchester U.; J. Bowie. Baracca v. Davenport; Young, Donald. Old Country v. Davenport; A. J. Phillips.

# Economy Does Not Lie Always in Saving, But in Spending Wisely

Is your overcoat all right? Is your boy's school suit rather the worse for the fences he has been climbing? Have there been casualties among the table china-- and doesn't the cupboard need reinforcements? What about the sheets? Getting pretty near the end? How about granulated sugar? Are you getting it at the cheapest rate? We have assembled on this page again this morning items from the various departments of the store especially to give you an opportunity to save money. Don't forget. Don't thrust the paper in your pocket and then continue paying top prices for everything. Pick out the items you need, mark them, and come down at 8.30 tomorrow morning--or send a member of the family down to save money by spending it!
