The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol $\rightarrow$ (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole $\rightarrow$ signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

BULLETIN No. 308

PARIS GREEN.

CORRECTIONS.

Referring to Bulletin No. 296 (Food and Medicines for Cattle) on page 13—the proteid value for Sample No. 2273 should be 7.10 per cent instead of 5.25 as printed.

The sample meets its guarantee.

A. MCGILL,
Chief Analyst.

Referring to Bulletin No. 290, page 29, Sample 54474, Coffee sold by Walsh Bros., Stratford.

The sample is reported as adulterated containing chicory and roasted grain. Upon re-examination the sample is found to contain less than two per cent (2 per cent) chicory and no roasted grain. The minute amount of chicory present may be regarded as accidental.

A corrected statement will appear in the next revision of Bulletin No. 290.

A. MCGILL,
Chief Analyst.

BULLETIN No. 303

PARIS GREEN.

OTTAWA, Feb. 12, 1915.

J. U. VINCENT, Esq.,
Deputy Minister Inland Revenue.

SIR,—I have the honour to hand you a report dealing with twenty-four (24) samples of Paris Green purchased by our inspectors in October of last year.

Inspection was made in the districts of Toronto, Hamilton, Windsor, Rocky Mountains and Vancouver, consequent upon complaints received to the effect that an article of unsatisfactory character was being offered as Paris Green. It is pleasing to note that, so far as this report is concerned, such complaints have been without foundation.

Paris Green is defined in the 5th schedule to the Adulteration Act, as follows: "An insecticide containing at least fifty per centum of arsenious acid, and at least thirty per centum of cupric oxide and being completely soluble in aqueous ammonia." All samples analysed are found to meet legal requirements within such narrow limits as to make the article perfectly satisfactory.

Paris Green has been systematically examined on several occasions, since 1895, and the results may be summarized as below:

Bull.	Year.	Samples Analysed.	Samples Genuine.	Samples Doubtful.	Samples Adulterated.	Percentage of Adulteration.
40	1895	72	52	5	15	21.0
42	1895	174	155	3	16	9.0
88	1903	169	162	3	4	2.4
158	1908	150	149	0	1	0.7
303	1915	24	24	0	0	0.0

The showing is very gratifying, and justifies the inference that adulterated Paris Green is practically unknown on Canadian markets.

I beg to recommend publication of this report as Bulletin No. 303.

I have the honour to be, Sir,

Your obedient servant,

A. MCGILL,

Chief Analyst.
