SEVEN PERSONS ADE DROWNED Crowded Ferry Steamer Struck ST. LAWRENCE RIVER TRAGEDY

The Ship Struck the Rock With Such a Terrific Impact That the Whole Company Was Swept From the Deck to the River—Four Bodies Recovered—Three Persons Missing.

MASSENA, N.Y., Aug. 1.—Seven persons were drowned late this afternoon in the St. Lawrence River, when the ferry steamer Sirius struck a shoal, eight miles below this city, and hurled its seventy-five passengers into the river. Four bodies have been recovered.

The steamer Sirius left the dock here this morning for Cornwall on the Canadian side, with seventy-five persons, bound for a day's outing there. Most of those aboard were residents of Ogdensburg and Massena. The picnic crowd boarded the Sirius on the return trip about four o'clock this morning and were seated on deck under the canvas awning when the crash came.

The deck was swept bare in a moment and the entire party was hurled into the water. The impact of the women who could not swim clutched at camp stools and other portable articles which were the only things that kept them afloat. The men, who were just opposite the scene of the wreck, managed to get off with the skirts available.

They picked up scores who had clung to the sides of the ferry boat. Others, benumbed and exhausted, were swept down stream to death. Among them were the Misses Parker, who were spending their vacation in Massena. Public attempts were also made by swimmers to save Miss Dewey and Elizabeth Hackett, but they were unable to do so.

So quickly did the river claim its victims that those who were drowned had scarcely met their end when boats from the International Park reached the scene, scarcely five minutes after the crash. The difficulty of rescuing under the circumstances was very great. These rescued were taken to the International Park and later recovered to this city.

Three of the bodies recovered are those of women. They are: Miss Hattie Parker of Ogdensburg, N.Y.; Miss Nellie Parker of Ogdensburg, N.Y.; Miss Florence of Massena. The identity of the three persons, who, according to the captain's tally, are missing, is not known. Scores of persons in motorboats and skiffs are endeavoring to recover the bodies.

The Sirius lies to-night near mid-way between the International Park and a former private yacht and saw service at the Thousand Islands. She is a trim little boat, owned by Capt. Weston Collins of Massena, N.Y., and has piloted that port and Cornwall, doing a passenger and excursion business of considerable magnitude, for close on ten years.

Not Picnic, But Big Rally.

Because the Dominion Government has ordered a general election on Sept. 21, the picnic that was to have been held next Saturday at the exhibition grounds by the Conservatives of the fifth and sixth wards has changed its character.

It will be a feast of reason without gastronomic features, and it is announced by Secretary J. S. Hunt that the speakers will include R. L. Borden, K.C.; Sir James P. Whitney, Hon. Frank Cochrane, Hon. J. J. Foy, and a number of Conservative members of the house of commons and legislature.

The committee is acting on the opinion to the effect that the election law would be broken if refreshments were supplied.

EIGHT BURNED TO DEATH IN FIRE AT ASYLUM

Terrible Holocaust at Hamilton Insane Hospital—Five Bodies Found in One Room in Upper Part of Building—Heroic Work of the Fire Brigade.

HAMILTON, Ont., Aug. 1.—(Special.)—Eight burned bodies in which the spirits of eight demented old men fluttered for years behind the bars of the Hamilton Asylum for the Insane lie to-night cold and stiff and charred and blackened beyond recognition in the morgue of the asylum where they were laid after being recovered from the ruins of the terrible fire which visited the institution early this morning.

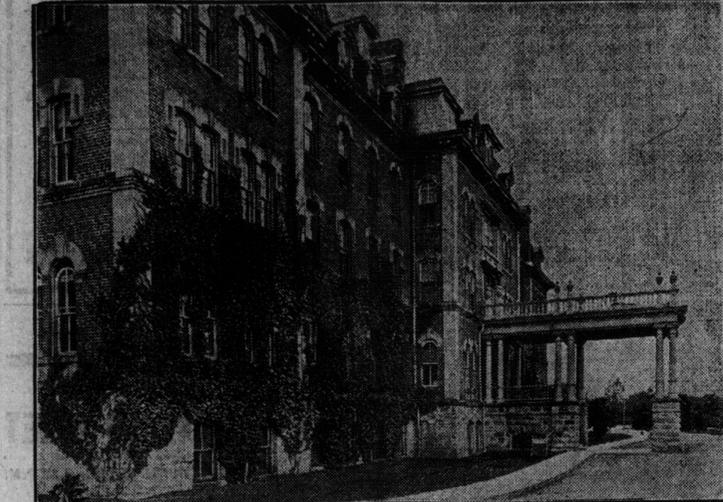

A picture more pathetic than eight smoking, feeble and tottering, gray-haired old men in wadded and padded cells without the possibility of escape, uttering helpless and beyond mortal aid, the flames began to lick their infirm bodies and slowly but surely burning out their lives, is seldom presented to the human mind. Such a spectacle was the death of these men. They were confined on the top floor of the building close to where the flames began to lick their infirm bodies and the rapidity with which the fire spread rendered their escape impossible.

Five comported bodies were found in one room, two in another room adjoining and one in the third. An attendant occupied the fourth and only other room opening on the hallway of this section of the building—but he escaped. In his flight for life, however, he left behind an impetuous cap and a bird, and when the World man went through the building this morning he found the bird in the cage with his cheerful warble forever stilled. Like his other unfortunate neighbors, his life, too, had been snuffed out without even a chance to fight for it.

No one connected with the asylum knows exactly when the fire started but no one can account for its origin, although defective wiring is ascribed as the cause. An attendant is supposed to have discovered the fire when he was discovered on his regular rounds at 1 o'clock. No sign of fire was then to be seen, but a few minutes afterwards a refractory patient made an attempt to visit the hall D necessary, and the blaze was then burning energetically. The attendant attempted to subdue the flames, but his efforts were futile and the alarm was then sounded. The asylum fire brigade attacked the threatening conflagration, but it soon became evident that the fight was hopeless, and at 1:45 a.m. the city fire department was notified.

Did Grand Work. Engaged at another fire which they had got control of, Chief Ten Eyck and his men quickly responded, and in ten minutes the new auto truck was on the scene and immediately the fire ladders began their battle with the devouring element. With hard work and conspicuous bravery and heroism the conflagration was shortly under control and at 5 o'clock the last ember had been extinguished. It was a hard fight, however, and before it was won Chief Ten Eyck and several of the firemen had been overcome by the smoke and heat. They were only temporarily incapacitated, and in a few minutes they returned to the fray with renewed determination.

Fireman Fitzgerald won the title of hero by his magnificent efforts to save the cooped-up occupants of floor D. After the fire had been doused skeletons in a catacomb. Thousands of gallons of water, which had been unable to seep through covered the floors in miniature. In all probability he will choose the former alternative.

Asylum for Insane at Hamilton, Where Eight Inmates Lost Their Lives in Tuesday's Early Morning Fire Which Swept Top Storeys of Main Wing.

McGILLIGUDDY TO TAKE THE STUMP

Will Tell the Electorate the Tale He Was Prepared to Relate to the Oliver Investigation Committee—Some Movements of the Cabinet Ministers.

OTTAWA, Ont., Aug. 1.—(Special.)—A development in the campaign of some interest is the necessity now shown as to Sir Wilfrid Laurier's opening move in the campaign. It was announced that he would commence with a series of meetings in Ontario. Today there is a note of uncertainty and it is highly possible that he may open his campaign in Quebec.

It seems that advances have reached Ottawa, that the premier's hold on Quebec is by no means satisfactory, a series of untoward incidents having created anxiety. He will speak in Ottawa on behalf of E. M. MacDonald. It is not stated yet what other places in the Maritime Provinces he will visit.

No definite plans have been settled yet for Mr. Laurier's tour, since the last election an immense amount of organization work has been done by the Conservatives and all parts of the Dominion are being visited.

To Go on the Stump. Dan McGilliguddy intends to go on the stump and take the tale which he would before the ministerial separation investigation committee. It is understood that he will relate in public the starting accusation which he made in his repeated conversations with the premier.

There was a meeting of the cabinet today and it will be the end of the week of the beginning of the coming week before the ministerial separation work in the field. Mr. Fielding's health is not at all good. When he returned from his European trip a report that there was an appendix operation in his condition. The two final trying weeks of the session until all the good Mr. Fielding desired while in office and his part in the campaign will not, therefore, be a very active one.

Mr. Graham is reported to be disappointed at a large number of his estimates being held over, also his legislation respecting taking over branch lines in the Maritime Provinces. A large number of items for public works in Nova Scotia and New Brunswick also fell by the wayside.

Off for the East. Mr. Pugsley leaves for New Brunswick at the end of the week. To-night in the local government organ he denies that there is anything strange in his action in calling for tenders for the whole of the proposed extensive works in the harbor of St. John, whereby the tenders have to make a bid for the whole or nothing. Mr. Pugsley also points out that the deposit of \$500,000 required with each tender is not at all out of the way when the magnitude of the work is taken into consideration. He claims that this is half the deposit required with tenders for the Quebec Bridge. In this Mr. Pugsley is entirely wrong. The Quebec Bridge tenders had to deposit \$1,000,000, as he alleges. As to any contribution to the Gibraltar from the St. John works, Mr. Pugsley holds up both hands in horror at any such suggestion.

There are strong rumors abroad concerning Mr. Templeman, and it is even stated that he will retire from the cabinet to be succeeded by Fred Conroy of the Yukon as minister of mines. If Mr. Templeman does run in Victoria he will certainly see both hands in horror at any such suggestion.

Mr. Templeman must either choose between retirement before the election or defeat at the hands of the voters of Victoria. In all probability he will choose the former alternative.

BUILDING PERMITS SHOW BIG INCREASE

July's Record of Over \$2,700,000 Meant a Gain of \$800,000—\$14,000,000 for Seven Months.

The figures showing the value in dollars of the building permits taken out during the month of July last, but not given out until to-day, but an approximation secured by The World last night puts an increase of about \$800,000 on the figures for July of last year. This July's figures are over \$2,700,000, while those of July, 1910, were only a little over \$1,900,000. For the first seven months of last year building permits for the expenditure of \$11,000,000 were taken out, while for the same period this year over \$14,000,000 worth have been taken out.

JOHN P. DUGGAN DEAD

Well-Known Figure at Union Station Passes Away Suddenly.

One of the best known men around the Union Station passed away yesterday in the person of John P. Duggan, who died suddenly at his home, 8 Duquesne-street. Mr. Duggan was born in Toronto and had lived here all his life. Being a member of the Duggan Transfer Company, deceased spent a considerable part of his time for the past 25 years around the Union Station where his jovial face and rotund person made him familiar with everybody and a friend of all.

He leaves four brothers, of whom Thomas is with the Wagon and Carriage Manufacturing Company, and the other three brothers, Charles, James and Eddie, are all in the transfer business. Deceased also leaves four sisters, Mrs. Martin McCarron, Mrs. Wm. Cader, Mrs. W. J. Kelly and Margaret, at home. The funeral arrangements have not yet been completed.

FIRE ON LAUNCH CAUSED ONE DEATH

Alex Harris Loses His Life and His Four Companions Are Injured in River Tragedy Near Gananoque—Cause of the Accident is Unknown.

KINGSTON, Ont., Aug. 1.—(Special.)—A terrible accident, whereby one man was drowned and four other badly burned, occurred opposite Gananoque on the river this morning at three o'clock.

A small gasoline launch, owned by Alex Harris, who was running the boat, took fire near Huckleberry Island and was destroyed.

With Harris in the boat were four others: William Depeter, William Smith, Thomas Haig and a young man by the name of Jake.

The four passengers, the badly burned, managed to swim ashore, but Harris is missing and it is certain he has been drowned.

No one seems to know just how the accident happened.

Searching parties have gone out to grapple for the body of Harris. The victim was married and about thirty years of age. He leaves a wife and three small children.

CHATHAM MAN IS MURDERED Tragedy Occurred at Emancipation Celebration BY BRUTAL NEGRO ASSAILANT

Charles Hurst, Colored, Beats Thomas Brown, a White Man, to Death on the Street With a Club—Police Capture and Jail the Murderer—Cause of Act Unknown.

CHATHAM, Ont., Aug. 1.—(Special.)—As a tragic sequel to the colored emancipation celebration here to-day, Thomas Brown, white, aged about fifty years, was struck on the head and killed by Charles Hurst, a negro, aged about 25 years.

Brown and Hurst were walking along Colborne-street together at six o'clock, when some altercation took place. The negro grabbed a heavy club and beat the white man over the head with it in such a brutal manner that he died ten minutes later. The negro left his hapless victim and fled down William-street. A policeman started in hot pursuit, aided by enraged white citizens. Hurst doubled on his pursuers and ran back down town, but was caught and arrested by Officer Thomas Groves, before he could get in hiding. Hurst was locked up charged with murder. The chief of police immediately ordered the hotel bars in the vicinity of the park where the negroes were celebrating, closed up for the night about the time the killing took place there were a great many drunken negroes around the streets; it is supposed that Hurst was much the worse of liquor when he struck Brown.

The deceased, Thomas Brown, leaves a wife and one daughter, Mrs. W. J. strong of Toronto, who is now contending in the courts with her husband for the custody of their child.

Hurst was a colored porter in the Gaiety Hotel here.

'OLD GLORY' FILM UNDER SEIZURE

Censors Act Promptly on Being Apprised of the Situation—Task of Examining Films Proves Much Heavier Than Anticipated.

That the number of moving picture films now on exhibition in Ontario is vastly more than was anticipated has been brought to light by the exposure in yesterday's World of an objectionable film, which has been shown for the past few days at a theaterium on Yonge-street.

The pictures in question are no longer to be seen. They have vanished from the public gaze. The provincial government's censors appropriated them yesterday and will examine them to-day.

The manager of the theaterium stated yesterday that the film had been "taken off" to make room for a new picture of western life, but it develops that official interference helped the film called "A Mother and Sons of '76" to make a hasty exit after the article was published in The World. The moving-picture censors have power to prohibit the exhibition of any films whether they have been inspected or not.

The whole incident of the "Moulin Rouge" picture demonstrates what a tremendous job the censors have on hand in inspecting the moving-pictures of the province, as compared with what they anticipated. It was first believed that two or three weeks would be sufficient to "catch up" that is, to inspect the films now on exhibition in the province. Once this is accomplished the rest is easy, for every new film being put on the market in Ontario will have to carry the official mark of the censors before it is allowed to be put on view.

A Herculean Job.

The experience of the censors since they assumed their duties reveals the fact that it will require for months instead of weeks before all the films now being shown in this province have got the official seal of approval attached.

As The World was told yesterday: "The censors have not yet been able to inspect even the films in Toronto, and this particular one on Yonge-street is one of those which have not yet been examined." A little leniency, however, is being shown towards the proprietors of the moving-picture shows in the meantime, but when the official mark is recorded on all the films every exhibitor will have to "toe the mark."

Twenty films per day is about the most that the censors can inspect, and as there are 4000 films in Toronto alone, it is not easy to see what a job they have on hand.

UNIONISTS IN LOSING GAME

Will Likely Be Outvoted on Veto Bill in House of Lords—Party Divided.

LONDON, Aug. 1.—Head counting in the house of lords on the veto bill has now been transferred to the Liberal side of the chamber. Viscount Morley has written a letter to all the Liberal peers, intimating that the veto bill again will be submitted to lords probably on August 9, and after referring to the hostile intentions of the Conservatives against the measure, asks in view of this emergency whether he may count upon the attendance in the chamber on August 9 of the respondents.

This move of Viscount Morley's is interpreted to mean that the government now is confident of its ability to outvote the Conservatives without the necessity of creating more peers. It is estimated that from sixty to seventy Liberals will respond to Lord Morley's invitation and attend the session, while it is tolerably certain that the Earl of Halsbury cannot vote. It is considered more likely that he will be able to gather in only 20 or 30.

Further, it is still expected that several of the Unionist peers will vote with the government, although the bulk of them will follow Lord Halsbury's advice and abstain from voting. Under the present circumstances the question whether the divided Unionist party will be able to close its ranks became a subsidiary matter.

The dinner given to-night to Lord St. Austen, who sits on the bench, and Lord Hood was the Unionist party's whip in the house of commons, was private. Lord Lansdowne, the Earl of Halsbury, the Earl of Selborne, Austen Chamberlain, Frederick Edward Smith and Lord Hugh Cecil all attended and the feature of the dinner was the extreme cordiality displayed toward Mr. Balfour, who, contrary to expectation did not allude in his speech to the constitution of the cabinet.

Whether anything of a conciliatory nature was achieved in a conversation which took place at the dinner is not yet known.

DR. ALGUIRE ACCEPTS STORMT NOMINATION

Signifies to Executive of Association His Willingness to Become a Conservative Candidate.

CORNWALL, Ont., Aug. 1.—(Special.)—Dr. O. G. Alguire, of Cornwall, one of the best known medical practitioners in Eastern Ontario, finally consented to-day to accept the Conservative nomination for the coming Dominion election.

The name of R. A. Pringle, K. C., ex-C. P., was also prominently mentioned in connection with the nomination but three days ago Mr. Pringle informed the association that it would be advisable for them to secure another man. Pringle's retirement was entirely voluntary.

The Conservatives of Stormont will meet at Newington on Thursday, Aug. 10th, for the formal selection of a candidate. The sudden dissolution of parliament has caused some hurry up orders in the matter of the selection of candidates.

Dr. Alguire is especially strong in all parts of the riding and his election as a supporter of Mr. Borden is conceded on all sides here.

At the same time Mr. Pringle is looked upon as an equally strong candidate, and his retirement is much regretted by a wide circle of friends who consider him one of the strongest men in Eastern Ontario; and one who in an ill-humored would be called a seat in the cabinet in the event of a change of government at Ottawa.

FOUND HUSBAND DEAD

Body of Destitute Man Discovered in Soo Bathhouse.

SAULT STE. MARIE, Ont., Aug. 1.—(Special.)—Patrick Donnelly, aged about 35, and a stranger here, was found dead in Miller's bathhouse, near the foot of East-street, late this afternoon. He had been dead several days and investigation by Coroner McCall shows death resulted from natural causes. Donnelly is not known in the Soo, being identified only thru the name on the bottle of medicine in his pocket. From all appearances he was in hard circumstances and had made the bathhouse his home. The body was interred at the expense of the corporation.

OTTAWA GIRL DROWNED

Walked Out into the River Beyond Her Depth.

OTTAWA, Aug. 1.—Marion Smith, the 19-year-old daughter of the secretary of the postoffice department, was drowned while bathing with two other young women at Britannia this afternoon.

The three walked out over their depth and two were rescued by the bathers nearby, who did not notice the deceased until it was too late to reach her.

NIobe CADETS GET HOLIDAY.

HALIFAX, Aug. 1.—Of the hundred almighty boys and recruits who arrived to-night from the Niobe about 150 go to the upper provinces, some of them as far as Port Arthur. They will be furnished with free transportation, a month and a half pay, and they have three weeks' leave of absence. They start to-morrow morning.

Canadian Cruiser Niobe In Danger of Foundering

Water is Slowly Gaining in the Ship, in Spite of All the Pumps That Can Be Set to Work and She May Have to Be Beached.

HALIFAX, Aug. 1.—The condition of the cruiser Niobe at Clarke's Harbor, where she is anchored, is one of grave peril for the warship. A despatch from there to-night says that in spite of all that her own pumps can do and also the pumping apparatus on wrecking steamers is kept going day and night, the water is slowly gaining, and the Niobe is settling by the stern.

This evening not more than ten feet were visible above the surface. The cruiser is anchored in seven fathoms of water, three quarters of a mile off West Head, a point in Clarke's Harbor. A red flag has been set half way between the ship and the shore, marking the most suitable spot to beach the cruiser if it comes to the worst. This will be done in six fathoms of water with a smooth, muddy bottom. The weather conditions clear and fine.

One of the holes in the bottom of the Niobe is said to be twenty-five feet long and ten feet wide. One hundred and ninety boys and recruits were disembarked from the cruiser to-day and forwarded to Halifax. The reason given by Admiral Kingsmill for this is that they were only in the way and that as no training was going on it was better for them to be ashore, thus leaving the petty officers free for duty.

Additional pumps and divers were despatched from Halifax to-night in the hope of keeping the cruiser afloat and of more quickly determining the exact extent of the damage sustained. The crew are still aboard.

Clarke's Harbor is twelve miles from the southwest ledges where the Niobe struck.

Admiral Kingsmill, who commands the Canadian Navy, and who arrived from Ottawa last night, paid a warm compliment of the discipline on board the Niobe when she was ashore on the southwest ledges. Admiral Kingsmill based what he said on a letter received to-day from the Niobe, by the boys and young recruits. Admiral Kingsmill observed, was everything that one could wish. With the ship in the position she was, a gale of wind blowing and dense fog over all, the Canadian boys behaved fully up to the traditions of the British Navy. The discipline left nothing to be desired. Of course the ship's crew and officers displayed the discipline, but I am speaking now of the Canadian boys and recruits.

The Civic Holiday number of The Sunday World will be out Saturday night.

Besides all the big regular colored and illustrated features and sporting results, a review of the political situation in the federal arena will appear.

For sale by all newsdealers and newsboys.

TAKING G.T.R. MEN BACK SAVORS OF POLITICS

Coming Election Sole Cause of Move, Says J. Harvey Hall.

Some scepticism is called forth by a report from Ottawa to the effect that the 250 Grand Trunk Railway strikers who have not yet been taken back into the employ of the company, will be installed in their old positions by to-morrow. All railway men are aware that their fellows will be taken back soon, but many profess to see a wily move on the part of the present administration to secure support for the coming elections.

"I am sorry that the election did not come along just a few months ago," said J. Harvey Hall, legislative representative of the Brotherhood of Railway Trainmen, to The World last night.

"I do not think the men would ever have been taken back had it not been for the coming election. There is no doubt about it that the election was the cause of the reinstatement. The election is the sole and only cause."

"In all there are about 250 of the strikers who are still out of railway employment. They are of the northern, middle, and Vermont divisions, and there are a few Montreal men who have not been taken back."

"There is no reason whatever why they should not have been taken back long ago, except that the management of the railroad wanted to be nasty," he said.

There are one or two out of the 250 who will probably be left out because of their having done damage to G.T.R. property. The decision to put the men back into employment with the G.T.R. is said to have been reached in a conference between Sir Wilfrid Laurier and Charles M. Hays, general manager of the G.T.R.

In many quarters it is declared that the reason is that the failure of the government and the Hon. W. Mackenzie King to force the G.T.R. to carry out the agreement with the men would have damaged the Liberal side too seriously in the coming election to be passed over. Mr. Hall said that he was very much gratified to hear that the men were to be taken back.

WAS FINED \$500.

KINGSTON, Aug. 1.—(Special.)—A Kingston Chinaman employed as cook on the steamer America, was fined \$500 for evading customs duties by procuring tobacco from the other side.

It is alleged that the cook has been carrying over large hauls of tobacco for his friends, but the officials got the tip and caught the criminal.

MOISANT, AT 12 TO 1, WINS HOTEL STAKES AT FT. ERIE Makes Runaway Race of Feature, and Just Lasts to Beat Another Long Shot. FORT ERIE, Ont., Aug. 1.—The Iroquois Hotel Stakes for two-year-olds was offered as a feature at Fort Erie this afternoon, and it brought out a band of good youngsters. The winner turned up in Moisant, who made a runaway victory of it, lasting long enough after a hard stretch drive to beat Sherlock Holmes out by half a length. The latter showed a special performance. He was shuffled back at the start and closed a gap of ten or fifteen lengths. Hamilton, Burley and Sherlock Holmes were added starters. Jockey Shilling left this morning for his home in Texas. Shilling has given second call on his services for next year to Bar-on Rothschild of England. Hildreth will also race a few horses this fall, and will have first call on the boy, when they clear track fast.

O'Keefe's Special Extra Mild ALE Not a headache in a barrelful—and never makes you bilious. It's extra mild and absolutely pure. Alcycle Paces 2.12 Over the Half Mile Track at Delorimier MONTREAL, Aug. 1.—The fastest local mile of the year on the half-mile Delorimier track was done by Alcycle in the third heat of the 2 1/2 mile race at the second day's racing to-day. With Burnham driving, the horse circled the track twice in 2.12. This performance, following the second heat, which was won in 2.18, and in which Alcycle ran last, looked fairly to the judges, and they called Lang, Pickle and Burnham, drivers respectively of St. Anthony, I.O.B., Kentucky, Long (Seale), 4 to 1, 3 to 1, and 2 to 1. Alcycle to the stand and fined them \$5 each for stalling. The entries for the 2 1/2 mile race were so numerous that the event was run in two divisions. The Rebuilder, a small bay, ran first in all three heats of the second division. The first division was won by Frankie Bogash after four heats.

The World's Selections BY CENTAUR ... To-Day's Entries Dufferin Park Card. Following are the entries for the first day at Dufferin Park, Aug. 1, 1911. FIRST RACE—1 1/4 furlongs, selling: Norman Girl, 104 California, 105 John Henry, 107 Lora Lighton, 110 Fitch, 111 Batsion, 112 Duke Daffy, 115. FIFTH RACE—Five furlongs, selling: Lucky Boy, 107 Erella, 108 Pancho, 109 Curson, 110 Spard, 111 Twenty-One, 112. THIRTH RACE—Six furlongs, selling: Ivanhoe, 100 Billy Barnes, 108 Ben Sand, 109 Abrasion, 109 Miss Den, 110 Ontario, 111. FIFTH RACE—1 1/4 miles, selling: Goodacre, 108 Dorothy Webb, 109 Warner Griswold, 110 Oberson, 111. FIFTH RACE—Five furlongs, selling: Homs, 107 Miss Detroit, 108 Bell of Kerry, 110 Massoit, 112 Dr. Walte, 112 Onnason, 113. NINTH RACE—5/8 furlongs, selling: Dolly Bulman, 102 Grace Kimball, 105 Wander Worker, 107 Plev Jim, 107 Peter Pender, 108 Montague, 110 Ben Double, 112 Mapleton, 111 Ed Keck, 111. APPRENTICE ALLOWANCE CLAIMED.

NOBLEMEN CIGARS IF someone, for experiment, imported wheat into this country, there are those who would buy it. Most men are hypnotized by the word "imported," like a moth is drawn into the flame, and like the moth, they get singed. The smoker of imported cigars gets singed to the extent of 50 per cent., because the DAVIS "NOBLEMEN" CIGAR (2-for-a-quarter) costs fully half the price of "imported" brands—yet it is equal in every respect. The leaf in "NOBLEMEN" is the finest Havana grown; the workmanship in "NOBLEMEN" is the highest skilled Cuban hand-work. Shakespeare says "Custom is the tyrant who robs us all." This is a good maxim for the cigar smoker — BREAK AWAY FROM TRADITION — save yourself 50c in the DAVIS "NOBLEMEN" CIGAR. S. DAVIS & SONS, LIMITED MONTREAL Makers of the famous "PERFECTION" 10c Cigars.

AND WILLARD BY AIR ROUTE Race Here from 6-day For Big Meat ... Willard will fly here this afternoon to participate in the race at Sunnyside. ...

WEDNESDAY MORNING, AUG. 2, 1911.

CANADIAN vs. AMERICAN FARMERS.

The Globe is trying to dodge the issue that The World put up to it and to the champions of reciprocity, namely, that the certain effect of that arrangement would be to give the Canadian home market for the stock to the American farmer, and we have especially instanced the case of sheep. In our argument we used the words "the American farmer can beat the Canadian farmer out of his boots in many things." So instead of The Globe answering our charge in regard to the sheep, namely, that even under a duty of 25 per cent, which averages \$1 a head, the American sheep raiser can undersell the Canadian farmer, it simply says in reply that we are reflecting on the Canadian farmer's ability as a farmer. And then it goes on to say that some farmer in the west set a price for cats and beat the American farmer in regard to wheat. Now this is not the issue that The World brought up. The World brought up one question, that of live stock, and we propose to stick to that for the present.

The American farmer, as we have already stated, can beat the Canadian farmer at sheep and can invade the Canadian farmers' market. Is that so, or is it not so? Is it so that 20,000 American sheep and lambs have been sold on the Toronto stock market within a few months, after \$1 duty on each sheep has been paid? If it is so, it proves the case. It is so, therefore the case is proved.

Now let us go back to the question that The Globe raises, whether the American farmer can beat the Canadian farmer in certain things. Our answer is simply this: that he can beat him in sheep, and that he can beat him in raising cattle, hogs and horses, the American has the Canadian beaten. Let us begin with hogs. The Mississippi Valley is the most productive portion of the habitable globe. Its crops of corn are nowhere else equaled in the world and the corn crop of the western and southwestern states is the backbone of the immense herds of beef cattle, sheep, most of all hogs, and horses raised in that country. The climate also is more favorable and earlier and we simply rest our case on this, namely, that the American can beat us in this respect.

And we, therefore, leave it to the Canadian farmer whether he is prepared to give up his home market for sheep to the American, who can beat him out in the production of them. Horses, hogs, cattle, sheep, are all dearer in the Canadian market, and the Canadian market is at the present moment preserved to the Canadian farmer; but take down the tariff wall and the American farmer will invade the Canadian market. Now this is either true, or not true, and it is either true, or not true that the American has advantages over the Canadian. If it is not so, let The Globe prove it not so.

The American fruit raiser and vegetable grower has climatic advantages, and so has the man who is engaged in poultry. The Arkansas farmer can supply eggs for the Canadian market and is supplying them by the carload, brought right in here to Toronto. Carload after carload of butter has been brought into Toronto this year from Chicago, and with the duty of hundreds of carloads of eggs and poultry and butter will be brought in to the Canadian market from the United States. If this is not so, let The Globe go to the man who handles the business and get them to deny it.

The World proposes to fight out this issue in regard to reciprocity and the farmers on the facts and on the individual cases, and at the present moment we are engaged in discussing the live-stock end of it. We have cleaned up in the argument as far as sheep are concerned, and we propose to deal with the hog market, which is a much more serious condition, within a couple of days. But we a preliminary way say that the American farmer with his corn, can beat the Canadian farmer in hogs.

NEW LIGHT ON ANNEXATION

While North Toronto has not been very courteously treated by the Toronto City Council, we believe our good neighbors up Yonge-street are sufficiently intimate with our city hall ways, not to take too seriously the rebuff administered last week by the votes of one or two members of the council. Since Thursday last there has been a good deal of enquiry and discussion, and considerable light has been afforded to some of the aldermen on aspects of the annexation

problem with which they had not before been familiar. A notable instance of this is the situation of the town with regard to the awarding of the electric light and power contract. The aldermen will probably now be in a better position to appreciate what the loss of this contract means to the city, and when they understand that a vote adverse to annexation means depriving the hydro-electric commission of the contract, they will view the matter differently. There are prospective franchisees, also, which should not be left unguarded by the city, and the important question of the Metropolitan Railway has been left open by the Ontario Railway Board in order to give the city a chance through annexation to settle it.

The board of control has decided to send the recommendation to annex North Toronto, on to council once more. We trust that the North Toronto Council will take no further action until the council passes upon the matter at an early meeting. Controller Church explained yesterday that he understood he was voting to refer the matter back and not to kill it, and some of the aldermen had the same impression. We are unable to understand why there should have been any hesitation about a move so greatly in the city's interests, but no harm will have been done, if it is only a question of a few days' delay.

AUSTRALIA'S IMPERIAL POLICY.

Premier Fisher now cables that he has been grossly misrepresented by W. T. Stead's interview. The explanation is that Mr. Stead's interview probably was grossly misrepresented in the C.A.P. despatch sent out last week. Premier Fisher cables that "our objective was the world's peace, our policy an effective defence, and our aim the unity of the empire."

T. & N. O. SERVICE.

While Ontario is proud and justly proud of its provincial railway and freely appreciates the efficiency of the commission of management, the service is yet capable of improvement in certain parts. This is not marked in any carping spirit, for the rearrangements in view are concerned more with the connections made with the T. & N. O. than with that road's own service. To begin with, Ontario passengers for Port-au-Prince or Montreal, for example, are obliged to arrive at North Bay by the 8.30 p. m. Grand Trunk train in order to get to the T. & N. O. train in time to catch it. This is not a very convenient arrangement, and it is to be hoped that the T. & N. O. will be able to make a better arrangement in the future.

REGINA'S STREET RAILWAY.

On Friday last Regina celebrated the opening of its own transportation service. The occasion was a notable one in its history, for the capital of Saskatchewan can now boast the honor of being the first city in the province to have a street railway in operation. As an advocate of public ownership at a time when the bare mention of it invited nothing but ridicule from franchise exploiters who dreaded its advent, their spokesman in parliament and their press organs, The World, heartily congratulates Regina on its progressive spirit and confidence both in its future and in its capacity to handle its public utilities. Its citizens may rest assured that they will never regret pursuing a policy that retains their own control and encourages and sustains the growth and strength of the best of civic duty so necessary in the best interests of the community. In an excellent editorial on the formal inauguration of the enterprise, The Morning Leader justly commends the foresight of the city in keeping its franchises out of the hands of greedy corporations and very properly remarks that the first consideration of a public utility should be less the making of a profit than the providing of an efficient service. Conducted on that principle the course on which Regina has entered cannot but prove of inestimable benefit. That public ownership of franchises may become universal throughout the new and great provinces of the west is the hope of all who desire to see them making the most of their magnificent resources and opportunities.

LOST PROPERTY.

The World was the first to propose that articles lost on the street cars be handed over to the police, following the Scotland Yard method in London. Manager Fleming now expresses his willingness to adopt this plan. Instead

of going to the northwest end of the city, absent-minded citizens will only have to go to the city hall.

Laurier and Larger Trusts.
Laurier and Taft and larger markets for the United States farmer.

There should be a register for aspiring husbands at the new Household Science building.

Did Hon. Frank Oliver say, as The Star reports him, that the fault "lays" with the opposition?

Considerable credit is due to the attendants, especially Charles Piper, and the Hamilton fire department, for having confined the fire in the asylum to the top floors in which it originated.

If obstruction caused the election, the election certainly has proved the reinstatement of the Grand Trunk Railway workmen displaced ever since the strike last year. Obstruction has not been a bad thing for the strikers.

Owen Sound is coming within range of hydro-electric power. A proposal to use 1200 h.p., increasing to 2000 h.p. within a couple of years, has been before the council and a substantial reduction in rates commended the plan.

ORIGIN OF BUSH FIRES.

Editor World: Having spent fifty years of active life in the lumber woods of Ontario, I wish to give your readers a correct idea of how bush fires are started. The lumbermen sell the lumber by the hundreds of square miles. They make no laws or place no restrictions upon the cutting of that timber. The lumbermen are allowed to cut and slash, take out the best and leave ten feet of tops and brush over the ground to get dry. A lightning strike strikes a tree, runs down into the dry brush and in a few hours there is a fire that all the forest rangers in Ontario cannot stop.

The lumbermen, by cutting the timber in that way, are merely setting a fire trap to burn up the soil of the country and burn out many a poor settler's holdings. I can assure your readers that where lumbering is done in that way it is an utter impossibility to prevent forest fires. The writer has seen from a hill in the morning after an electrical storm fire burnings in five different places. Before the next day the vivid glare of the roaring flames could be seen and the lumbermen were busy cutting up the timber. There is only one way to cut lumber so as to conserve the soil and prevent forest fires and that is to make a law which will compel the lumbermen to take off a certain block each and every year and in the spring when the ground is moist to pile up all the tops and brush and burn it when it will not run or do any harm, which men often do this around their camps to save them, otherwise they slash it by the square mile and leave it. Another thing to note is that we know is that the settlers are the builders of our country. They are the men who dot this country with farm buildings and prospering settlements. They are the producers of the country and also the taxpayers of the country. It is a shame for any government to make laws that will do away with the lumbermen, who are the backbone of the country and who are the taxpayers of the country. It is a shame for any government to make laws that will do away with the lumbermen, who are the backbone of the country and who are the taxpayers of the country.

PROVIDE MORE CAPITAL.

Mr. D. R. Wilkie, president of the Imperial Bank, when recently asked as to the money situation outlook, said: "Regarding the possibility of a money stringency in the autumn, I do not think it is at all likely. It is true that at the end of June the circulation of the banks amounted to \$38,913,889, out of a possible \$101,065,306, which is a margin of only about thirteen millions to provide for the top notch. But in addition to this available amount, there is the 15 per cent upon the paid-up capital, representing a further sum of about sixteen millions. Having in view the fact that the increase in circulation last year, between the end of June and the end of October, which was the highest point, did not only about seventeen millions, I do not apprehend that the strictest difficulty will be found in providing the circulation to move the crops, even if they are as bountiful as has been predicted. But, all the same, there is a warning for the chartered banks that they must do their duty to the country and provide additional capital."

WELL DIGGING CASE.

I want to acknowledge receipt of the following additional sums for costs of appeal of William Brown convicted of breach of Sunday laws:
C. Norie, miller.....\$5.00
Wm. L.....1.00
P. E. H.....1.00
J. Enoch Thompson.

POWER CORPORATIONS.

Peterborough Review: Hamilton could not stand for Cataract methods of squeezing the people for power and lighting, and altho \$50,000 looked good

Who Owns Lost Articles

Application to the Ontario Railway Board will be made by the city to decide what right the city has in regard to articles lost by citizens on the street cars. The company at present takes no notice of the articles, and the city has a loss of time on the part of the losers in reporting them. The Nationalists do not credit the company with being willing to hand over that branch of their business to civic officials. It will be a pleasure for Toronto Railway Co. to hand over to the city daily all articles found on the cars," writes Mr. Fleming to the city.

to the citizens, they decided to spend it on a municipal power and light system. This is an age not of competition, but of cooperation. In these days of anti-corporation sentiment in the matter of public utilities, he is a wise manager who does not unnecessarily antagonize the public. The utilities of the people must be reasonably and judiciously handled, for the squeezing process is a game at which two parties can play. During the recent power campaign in Hamilton one business man told of asking for power from the Cataract Company. He wanted 200 h. p. continuous power, and was quoted as saying that he would pay for it at the rate of \$4.50 per horse power. Such a rate is unheard of in many small municipalities that cannot boast of being electrical centres like Hamilton. The truth of the situation in Hamilton and which is of interest to Peterborough, indirectly—is that while the Cataract Company has given cost prices to some big manufacturers, it has pursued the policy of extorting whatever it has been able to get out of smaller consumers, and some small users are paying as high as \$100 a horse power.

The Cataract has sold power almost to its present capacity to develop, and it is so with every corporation which finds its product absorbed—it seeks to increase its profits by advancing the price. Peterborough is safe from extreme prices, or from the squeezing process, while there is still a large unmet demand, but the city has no guarantee, except its franchises, that it will not be made to advance the price if the companies' production was not to be limited by a petition between private companies, but of combination, and co-operation.

Another thing to note is that we know is that the settlers are the builders of our country. They are the men who dot this country with farm buildings and prospering settlements. They are the producers of the country and also the taxpayers of the country. It is a shame for any government to make laws that will do away with the lumbermen, who are the backbone of the country and who are the taxpayers of the country.

J. C. HAYES & CO.

154 BAY STREET

NORTH TORONTO BRANCH

SMALL FARMS INTENSIVE CULTIVATION

The intensive cultivation of small farms is of great importance to a growing and already congested city like Toronto.

FIVE AND TEN ACRE FARM

must be devoted to the raising of little things that bring big prices; crops which, as you would make a child's dependence is attained. The old ways of clerking and salary are at an end.

ON YOUR OWN LITTLE FARM

forty-five minutes from this big city, compare it with your own lot. As a rule, you have a better chance of raising children, sickly wife, no pleasure in life, and nothing to look forward to.

BUOK UP. BE A MAN.

Throw off the yoke. See Mr. Hayes at once, do not delay; make up your mind that

NOW IS THE DAY

and hour to see.

BROOKSIDE

Brookside is situated on Yonge St. cars stop at your door. Forty-five minutes from the city. Here you can buy

FOUR AND A HALF ACRES FOR \$900.00.

Three hundred cash puts you in possession, the balance spread over five years. We are ready to show you Brookside more than any day. Try and arrange for to-day.

CONTRACTOR SAYS HE WASN'T DELAYED WORK

Had Sufficient Number of Men at Oakwood School—Labor Not Scarce.

Mackintosh Hutchinson, contractor, has written to L. & S. Leves, chairman of the board of education, as follows:

My attention has been called to the report of the proceedings at the board meeting yesterday which appears in this morning's paper, where it is stated that my name was called to account in connection with delays at Oakwood School.

I desire to point out that I am in no way responsible for this delay if such has occurred. I have always had a sufficient number of skilled men on the job to proceed with the work as far as the progress made by the other trades, and the information and details supplied by the board's officers would allow me, and have from time to time been forced to lay my men off owing to such information not being forthcoming. As a specific instance of this I would beg you to refer to my letter addressed to the superintendent of buildings under date 17th June, 27th June, 15th July and 15th July, all enquiring for details, some of which have not even now been supplied me.

Moreover, I have to point out that the plasterers and concrete contractors are still at work, which makes it most difficult for a carpenter contractor to proceed with finishing work, but nevertheless, in spite of this, I am sending a large number of men to-morrow morning to get on with the finishing work with all possible speed and I trust that there may be no further cause for complaint, so far as I am concerned.

In conclusion I would add that owing to delays referred to on the part of others, I have been put to very considerable expense, as I had figured on completing this job before the rise in the price of labor, of which by the way, there is no scarcity whatever.

HOUSEHOLD SCIENCE BUILDING

Fine Structure, Costing \$500,000, Soon to Be Opened.

The work on the new Household Science Building, which is being built at Avenue-road and Bloor-street by Mrs. John Massey, is being hurried and it is expected that the building will be ready for occupancy in the fall.

The building has a frontage on North-drive of 134 feet, and is built around the three sides of an open court, the wings extending about 106 feet.

In the basement, which extends around the entire building, are the bathing, swimming pool and gymnasium. The library, museum, faculty room, students' common room, the large lecture hall, seating two hundred, and a class room for household art occupy the first floor. The second floor is devoted to fine laboratories for household science. Household management and food chemistry are studied on the third floor where there are three laboratories and a large lecture room.

ESTATE NOTICES

IN THE HIGH COURT OF JUSTICE

Judicial Sale of Lands, on Yonge Street, Toronto.

RE JOHN PHIPPS ESTATE

Pursuant to the order for sale made herein on the third day of May, 1911, tenders will be received at the Master in Ordinary, at his office in Osgoode Hall, in the City of Toronto, up to twelve o'clock noon, on the thirty-first day of August, 1911, for the purchase in one parcel of the following lands and premises:

All and singular that certain parcel of land situate in the City of Toronto and known as lot number thirty-seven and corner Yonge and Gerrard-streets, on the plan or survey made by John Lynn, a Deputy Provincial Land Surveyor, in 1857, being a frontage of fifty (50) feet on Yonge-street, by one hundred (100) feet deep on Gerrard-street.

This is a very desirable property situate at the northern corner of Yonge and Gerrard-streets. On the Yonge-street frontage are erected frame buildings now known as numbers 37, 39 and 41 Yonge-street, and in the rear, fronting on Gerrard-street, is a brick and frame building, now known as numbers 4, 6 and 10 Gerrard-street East.

All tenders sealed and shall be endorsed. Tenders for John Phipps Estate property.

Tenders will be opened by the Master in Ordinary at his Chambers at Osgoode Hall, at six o'clock on Tuesday, the fifth day of September, 1911, at the hour of eleven o'clock in the forenoon. All persons who are interested in or other persons interested in the estate are at liberty to be then present.

The highest and best tender not necessary. A certified cheque for ten per cent of the purchase money, payable to the account of the Supreme Court of Judicature for Ontario, shall accompany each tender as a deposit, and the balance of the purchase money shall be paid within thirty days after acceptance of the tender, into the court by the purchaser by the credit of the purchase money, or if the purchaser shall have the option of paying an amount, which with the deposit, will be sufficient to make one-third of the purchase money within said thirty days; the balance to be secured by a mortgage repayable in half-yearly instalments of \$500 each, for four and a half years, and the balance at the end of five years, with interest at six per cent, payable half-yearly.

The purchaser is to search the title at his own expense and fifteen days from the date of acceptance of tender are allowed for such purpose, and the vendor will not be required to be bound to produce any abstract of title or any title deeds or proofs of evidence of any title in these in their own possession.

The frontage and depth are assumed to be as stated in the description, but in less than as stated above a mortgage of increase or deduction, as the case may be, will be made in the purchase price, so as to cover any variation in the frontage or depth of the land. The purchaser is to take the property adjustments as to the existing tenancies and all other matters fixed for completion of the purchase.

In all other respects, in so far as they can be applicable, the terms and conditions of sale with the tendering conditions of sale of the court.

Further particulars and conditions of sale may be had from H. Harcourt, of Suite, R. C. Official Guardian, from Messrs. C. G. Crouhast & Paze of No. 75 Richmond-street East, Toronto, solicitors for the vendors.

Geo. O. Alcorn, Master in Ordinary. Dated 11th July, 1911. YOUNG HEROINE GIVES LIFE FOR LITTLE ONES

Twelve-Year-Old Edith Jarvis Dies Saving Two Children From Runaway Team.

WINGHAM, Ont., Aug. 1.—A very sad accident occurred here yesterday which resulted in the death of Edith Jarvis, the twelve-year-old daughter of R. W. Jarvis of this town.

The young girl was walking down Diagonal-street and had two small children in her charge, one of them in a baby carriage, when a runaway team of horses with a heavy wagon came running up the street and over the pavement.

The girl saw the danger and managed to push the carriage into a safe place but was run down herself, sustaining serious injuries, which resulted in her death a few hours later.

Would-be Gallant Punished. For addressing a woman in the street when he did not know, Albert Lamb received a wallop over the head with the lady's umbrella at the time and a fine of \$20 and costs from Magistrate Denison in police court yesterday morning.

Piano Agencies Unite. The Nordheimer Piano Co. and C. W. Lindsay of Montreal are uniting their selling agencies with a view to increasing sales in the four main piano selling cities in the Dominion, Montreal, Ottawa, Toronto and Winnipeg.

Porcupines Develop Improved Tone and Prices Advance

Hollinger Leads in a Rally Which Extends Throat List

Mining Market Develops Strength and General Advance Is in Order—Cobalts Quiet, But Mainly Firmer.

Tuesday Evening, Aug. 1. Trading in the mining stocks took on a more favorable aspect today, the market stiffening all round under a more sustained buying demand.

There was no news over night to affect sentiment to any appreciable extent, but it was apparent early in the day that there was less of an inclination to sell than during the preceding session and this idea was carried out throughout the day.

There was an almost all-round improvement in evidence in the Porcupines, advances being generally in the active issues, and running from small fractions in some of the lesser stocks to 35 points in Hollinger, which was the leader in the trading.

Hollinger shares at the opening were quoted around 114.5, but a gradual advance was in order and the stocks rose as high as 118.5 towards the close. This represented a gain of 35 points from last night and was taken as the result of a movement on the part of short traders to cover their commitments.

The big Porcupine issue has been in a somewhat congested state during the last few days, but it would seem that the air has now cleared and conditions are favorable to a better tendency. After the close of business last night, traders were bidding up to 118.5 for Hollinger, and it was stated that little of the stock was available around that figure.

The improvement in the cheaper Porcupines was not marked in the majority of instances, but was sufficient to warrant the statement that the market was unduly in better condition. Dome Extension held remarkably firm between 85 and 86, at no time reaching the low point recorded yesterday. Preston East Dome was decidedly strong, the shares opening up over a point at 25 1/2 and gaining an additional point during the day. Excellent buying of this issue was in evidence.

A flurry in Coronation constituted about the only real feature in the lesser gold stocks. These shares were for some unknown reason, suddenly in the market in large volume and the price slumped 7 points from the opening sale in short order. The market was evidently of a manipulative nature, for a rapid recovery was made later and the stock closed at the same figure for the day. The range of prices was between 22 and 32.

The Cobalts shared in the general improvement, and in the case of Timiskaming and Beaver, marked strength was displayed. The former issue moved up two points, and the latter Beaver was in good demand around 46.

Rebuilding Plant At the Imperial Mine Company Will Be Doing Underground Work Again in a Few Days.

General Manager Crampton of the Porcupine Imperial has completed his arrangements for the necessary supplies to resume operations on the property left Toronto last night for Porcupine to personally superintend the rebuilding of the company's plant, and the resumption of the work on surface until such a time as the shaft is in shape for underground developments.

Superintendent Hughes left last Saturday to start clearing up some putting the boiler in condition, this being only slightly damaged by the fire. He is also overhauling the hoist and other machinery, preparatory to re-embarking the shaft.

It is expected that by the tenth of the month the Imperial will be operating along the same active lines in the development and prospecting of the property, as was the case when the property was burned over.

The lesson derived from the burning over of the Porcupine Imperial has convinced the management of the main properties that a complete clearing of the properties is absolutely necessary to avoid any future occurrences, and with that end in view the Imperial has decided to clear their lot entirely of trees, and other material will be systematically cleared and burned, immediately.

WORKING WIDE GOLD REEF NEAR KENORA

Manitoba Mine in Lake of the Woods Belt Shows Great Promise.

KEENORA, July 21.—(From Our Special Representative.)—It will doubtless be surprising to Manitobans to learn that in their own province, south of the main line of the C.P.R., there is a gold property that has a mighty good chance of becoming a valuable low-grade ore gold mine.

The property is only a couple of miles from the Ontario boundary, but still the province will get the credit for it, this Kenora will get the benefit, for the mine is in a territory tributary to this bustling Western Ontario town.

The company owning the mine is the Peninsula Reef Gold Mines, Ltd., and if they are successful in raising sufficient money to work the property on a large scale, and financially they appear pretty prosperous, the result of the work should be astounding.

Their money raising methods are unique. To the recent Winnipeg exhibition they sent a couple of hundred pounds of ore and at a booth, broke it up in a mortar and panned the gold from it. Several of the spectators bought stock in the deal as a result of the success attending this operation.

Their prospectus is subject to well-merited criticism, however, it is rather flimsy, and over-hopeful. The property is good, the prospectus is good. Reef of Ore 200 Feet Wide. They have a reef or belt of gold-carrying ore that the company say is 200 feet wide, and from appearance is at least 600 feet wide. Assays have been made across the 200 feet that are stated to have averaged 2 1/2 tons, but there was no way of verifying this outside of occasional pannings that would run this figure in a few of the best looking spots across the 200 feet of cross-cut.

Even so that the Peninsula has this extent of paying ore is a rather big statement, and would be incredible comment, but it is there. The only way the company can prove it is to develop the property. Samples taken from the dump made by former owners in sinking shafts 10 shaft, give the best values, picked specimens running to \$50 a ton. The shaft is down about 60 feet and the values have held well to depth.

The property is not a clear-cut vein proposition, also there are several narrow and good looking veins within the mineral belt. The enclosing rock carries gold in good quantities. In the long run the more profitable method of mining is to develop an expensive at the start, would appear to be to work the whole belt without selection.

Geological Characteristics. The ore belt belongs to the "break" class. It is a conglomerate, composed of shales, chertic shales and slightly altered granites, containing also chlorite porphyries and other intrusive rocks, the whole intermingled with quartz, several of the dikes cut through the reef diagonally. The reef probably from ore dyke to the other has been created the ore carrying reef.

The reef, or fault band, can be traced through the company's claims for nearly a mile. The assays made have been of ore taken from the small section. It is the intention to establish an assay plant on the property just as soon as possible, and then the whole property can be developed in detail.

ELDERADO LOOKS GOOD

The mining market has been moving along in a rut during the last few days, but all indications point to the fact that conditions are now ripe for an advance. This will extend through the whole list, and we believe it will only be a matter of a few days until the upward movement is inaugurated.

We strongly advise the purchase of Eldorado shares at the market, believing that this issue will record a sharp advance as soon as development work has made a little further progress.

Speculation as a Fine Art

There is a wide gulf between scientific stock speculation and ordinary gambling. In the former you do not trade until satisfied that you have inside information or in some way the best of the bargain, in the latter you have less than an even chance of winning.

Winning speculation is fascinating and very profitable if conducted along sane lines. There are opportunities in Porcupine to-day that if they make good will not only double your money, but will manifest your investment several times over.

We make a business of pointing out these speculative chances. See "The Letter on Porcupine," sent free.

NEW VEINS ON HUGHES

Mining Men Inspecting Hughes and Coronation Properties.

Messrs. Fred C. Doran and R. R. Black, the latter a well-known mining man of Halesbury, are in the Porcupine on an inspection trip, and will pay special attention to the Hughes and Coronation properties.

Mr. Doran wired W. J. Neill and Co. yesterday to the effect that he had just returned from a thorough inspection of the Hughes. He was highly impressed with the visible gold showings. Two new veins of splendid quartz were discovered last week.

Mr. Doran wired on Monday that he had secured some splendid samples, one showing free gold on the Coronation, and that he was bringing these down to Toronto with him.

BIG NIPS HALF YEAR.

The following shows the output of silver from the Nipissing for the first six months of the year, with the estimated value:

Table with 2 columns: Month, Shipments, Net value at 100 cents per ounce.

The above figures fall somewhat short of what was expected, but the shortage of output is due to the fact that the new power up to March, in the succeeding quarter the output was more than sufficient to dividend requirements.

Files, fixtures, etc., successfully treated without an operation. Write for free booklet and references, Dr. Hawke, 21 Wellesley-street, Toronto.

Firmen Rescued Family

Seven thousand dollars' damage was done and the lives of H. King and his wife and child endangered by a fire which broke out in his drygoods store, over which he lives at Dovercourt-road and West Queen-street early yesterday morning. The family were taken out by way of the firemen's ladders.

Steel Trade Is Improving

NEW YORK, Aug. 1.—U. S. Steel Corporation this week will establish a new high record in operations since first of year. Output is now 76 per cent. of capacity, compared with previous high of 73 per cent. Improvement in Steel conditions is general, but it cannot be expected that U. S. Steel will be able to maintain present percentage output for any great length of time unless specifications and orders increase.

U. S. Steel net earnings in current quarter are likely to exceed returns in second quarter by several million dollars and manufacturers are very much encouraged over outlook.

Some Changes in City Dairy Officials

At a recent meeting of directors of the City Dairy Co. held, some changes were made in the positions of officers of the company. The title of general manager is superseded by that of managing director. Mr. Charles E. Potter to hold that office. Mr. W. J. Northgrove was appointed manager of the company, and Mr. C. C. Mowry, secretary.

The business of the Dairy Co. has become so large that it was felt that a re-arrangement in this way was desirable. It will leave Mr. Potter freer for developing plans relating to the various interests of the company, which include the distributing plant in Toronto, Ontario, Park Farm, the 740-acre farm at New Lowell and the stores in the city and on the island.

AMES & CO.'S NEW LOCATION.

The trend of the financial movement has been westward from Yonge-street during recent years, and it has been the financial centre of the city is to be in the vicinity of King and Bay-streets. Recognizing this fact, it is pleasing to note that the well-known brokerage firm of A. E. Ames & Co. has moved into new quarters at that corner, in the new building of the Home Bank of Canada. Messrs. Ames & Co. have been handicapped thru lack of room to accommodate their rapidly growing business for a number of years; their new headquarters are everything that could be desired in the line of spaciousness, and it would be hard indeed to find a better equipped broker's office within the confines of the city. The firm is to be congratulated on the acquisition of the new location.

One More Salary Increase.

An increase in salary from \$1200 to \$1300 was granted J. Race, chemist of the sanitation department, yesterday. The increase was approved after some discussion by the controllers, but the appointment was not made permanent. It was suggested that F. Henning, engineer of the island pumping plant, who invented a chlorinating device, after it had been declared impossible to be recognized in some way by the council. The board instructed the secretary to inform the city engineer that they wished to recognize Mr. Henning's service in some way.

A House of Trouble.

A house divided against itself cannot stand still. This was shown in police court yesterday morning when mother and nine-year-old child were arrayed against William Jones, the father and husband, that was charged with excessively beating the little chap for unauthorized bathing. A doctor and a policeman said that the child had been beaten so severely. More will be heard Thursday.

THE PROSPECT OF CHEAPER MONEY.

World Office, Tuesday Evening, Aug. 1.

Considerable business was ground out on a narrow margin at the Toronto Stock Exchange to-day, and in the present stagnant speculative condition it is hard to account for the number of transactions. Any upward movement is being contested by a few brokers who consider themselves shrewd, and short sales by these are covered as soon as fractional turns are available. The real market interests are endeavoring to raise prices by placing stock where it will remain undisturbed and are meeting with some success. The prospect of a permanent cheapening of money is one of the incentives for the purchase of the responsible securities.

New York Market Lacks Support And Prices Sag Lower All Round

Wall Street Interests Show No Inclination To Check the Decline—Stocks Simply Drifting in Toronto Market.

World Office, Tuesday Evening, Aug. 1.

In actual public interchanges the Toronto stock market was exceedingly quiet to-day. There was no buoyancy and despite the arguments against the general dragging tendency, it simply existed.

As a reason for the inert condition there can be only one explanation, viz., that speculation is at a low ebb, and until something transpires to change sentiment, no amount of argument on the part of traders will change the situation.

In the whole market to-day prices simply drifted. Here and there a straggling speculative holder took his loss, and the selling otherwise was accounted for by stock put out by those willing to try a turn on a market decline.

Stirring movements in Packer's preferred and Canadian Machinery, preferred were regarded as so much by-play, and the sales can only be effective on those not conversant with stock exchange dealings.

London news reported better this morning, but New York took the opposite view and the internationally listed stocks moved in accordance. C.P.R. fell 3 points from yesterday's high, but Rio and Sao Paulo maintained their position.

Canadian General Electric appeared to be wanted during the morning, but more stock was offered at that figure. The Montreal interests were less aggressive to-day, and refused to take action to hold that office. Mr. W. J. Northgrove was appointed manager of the company, and Mr. C. C. Mowry, secretary.

MORE GOLD ENGAGED.

NEW YORK, Aug. 1.—There has been withdrawal from sub-treasury \$250,000 more gold coin for Canada.

ON WALL STREET.

Ericksen Perkins & Co. had the following: Stocks dragged off all day, showing little support, they touched lowest prices in the last half hour. Traders became tired of trying to put them up and some of them threw over their holdings and took the opposite side. They were induced to do so by a number of considerations. We had a lot of poor railroad reports for June to-day. One reason for lack of support was perhaps the desire of banks to reduce loans. They have again been loading substantial amounts of cash to the sub-treasury. Some did not like the weekly crop report, which told of damage to corn in Iowa and Nebraska, although improvement in some sections. Reading was one of the weakest stocks to-day, for no particular reason. Union Pacific and Steel acted better.

London news reported better this morning, but New York took the opposite view and the internationally listed stocks moved in accordance. C.P.R. fell 3 points from yesterday's high, but Rio and Sao Paulo maintained their position.

Canadian General Electric appeared to be wanted during the morning, but more stock was offered at that figure. The Montreal interests were less aggressive to-day, and refused to take action to hold that office. Mr. W. J. Northgrove was appointed manager of the company, and Mr. C. C. Mowry, secretary.

WALL-STREET POINTERS.

John W. Gates very low.

American stocks in London irregular.

Farmers free hat bill expected to pass senate.

Government cotton report will be issued Wednesday.

Standard Oil Co. begins its dissolution. Distribution to be made to stockholders, Dec. 1.

Havana cable says Cuban political situation becoming more difficult.

The Journal of Commerce says the condition of American cotton is best at this time in many years.

House committee on rules meets to decide whether it will authorize investigation of so-called money trust.

American Tobacco Co. begins its to-day and moderate settlements, official reorganization plan to be submitted to court next month.

Atchison's July loading for four weeks was 84,000 cars, or a 5 per cent. increase, although the fourth week showed a slight decrease.

Burlington crop report says corn in eastern part of Nebraska only 76 per cent. of normal; other divisions good backward. State crop estimated at 50 to 60 per cent. of normal.

Joseph says: Bull M. K. & T. Good subscription will be held in London, Jan. 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1911.

Cotton Markets

Ericksen Perkins & Co. (J. G. Beatty), 11 West King street, report the following prices on the New York Cotton Market:

Prev.	Close.	Open.	High.	Low.	Close.
Aug. 10.28	10.26	11.05	10.82	10.94	10.94
Oct. 10.28	10.26	11.05	10.82	10.94	10.94
Dec. 10.28	10.26	11.05	10.82	10.94	10.94

Cotton Goods.

Ericksen Perkins & Co. had the following:

Selling pressure was less in evidence to-day and moderate settlements, encouraged by the better cable about 10 cents the 48s met with increased offerings, which checked the upturn. Sentiment continues very firm, but it seems to have discounted crop prospects for the present, and any unfavorable August developments would cause a sudden change in the speculative attitude. We continue to feel that purchases on weak spots are advisable.

Liverpool Cotton Exchange.

LIVERPOOL, Aug. 1.—Cotton futures closed very steady: Aug. 6.30, Aug. and Sept. 6.27, Sept. and Oct. 5.97, Oct. and Nov. 5.90, Nov. and Dec. 5.82, Dec. and Jan. 5.85, Jan. and Feb. 5.82, Feb. and March 5.88, March and April 5.80, April and May 5.81, May and June 5.82.

MONTRÉAL STOCK MARKET.

MONTRÉAL, Aug. 1.—Trading on the Montreal stock market to-day was in very light volume and the tone was generally bearish. The most active issue, which was the most active issue, with transactions of 818 shares, after advancing fractionally to 53 1/2, sold back to 53, with 57 3/8 bid at the close. Montreal Steel weakened fractionally to 225 3/4, recovering to 226, Toronto Steel was back to 100, 221, sold at 114 1/4. The rest of the list was quiet, with price changes slight. Crown Reserve eased to 215 and sale of Nipissing was made at 750.

Our August Furniture Sale

is the great oak that grew from the factory-co-operation idea.

The idea of the best store being allied to the best furniture factories has thrived like the proverbial acorn; come and see the result.

We're very enthusiastic about this sale; you'll understand why if you pay a visit to our Fifth Floor.

Carloads of dependable furniture coming in! We're proud of every piece, and prouder of the price at which we can offer it. Your savings will run from 10 to 50 per cent. of regular prices, and will average 25 per cent.

For instance; instead of paying as you intended, \$100 for certain Furniture, you'll get exactly what you wanted here, and be \$25 in pocket.

Look for these yellow tags tomorrow:-

Dressers, in selected quarter-cut oak, also in mahogany, good drawer space and oval or square shaped bevel plate mirror, trimmings either of wood or brass. Regular price \$19.50. August Furniture special14.95

Chiffoniers, in quarter-cut oak and mahogany to go with above dressers. Regular price \$19.50. August Furniture special14.95

Four Thousand Pairs of Goodyear Welt Boots on Sale To-morrow at About Half Price

The Murray Shoe Company, Limited, of London, Ontario, makers of the well-known "Cleo" and "Derby" brand boots make a clean sweep before stock-taking. We bought their entire "floor stock" below actual cost of production. Absolutely reliable boots and Oxfords, stylish, easy fitting and long wearing. On sale to-morrow at about half the regular prices. Don't miss this opportunity.

2,000 pairs Women's Custom Grade Boots, Pumps and Oxfords, Blucher, button, lace and ankle strap styles, made from tan calf, gun-metal, vic kid and patent colt leathers, on lasts with pointed, medium and college toes, New York, Cuban, military and college girls' heels. All sizes 2 1/2 to 7 1/2. Regular prices \$3.50 and \$4.00. On sale Thursday, all one price1.99

1.99

2,000 pairs Men's Custom Grade Boots and Oxfords, every pair Goodyear welted, Blucher and button styles, made from patent colt, Russia tan and oil storm calf, vic kid, gun-metal and velours calf leathers; single and double soles, some of the shafts are double thick and reinforced; some styles are ten inches high, with straps and buckles at tops as used by prospectors and hunters. All sizes 5 to 11. Regular prices \$4.50 to \$6.00. On sale Thursday, all one price2.49

2.49

Difficult to tell you here how good these shoes are—but they're really the best we've been able to offer for some time.

Extra sales people, extra cashiers, and extra space on the second floor will facilitate your buying. And we are just as particular about the quality of special purchases as of our regular stock.

The **SIMPSON** Company Limited

Beautiful range of styles for women, including new short vamp, the dressy button shoes, the dainty last with the high heel, the new college girl's last, and the black corded cloth top.
