CONFERENCE IS WARRIED AGAIN

German Elections Promise Control by Moderate Party; British Plan for League Is Ready for Presentation; Advanced Tobacco Prices Not Warranted in Canada

UNTRUSTWORTHY NATIONS CANNOT ENTER THE LEAGUE

Under British Plan Germany, Austria, Turkey and Bulgaria Will Be Excluded—Militarism Must Go, Says Lord Robert Cecil.

Paris, Jan. 20.—Germany, Austria, Bulgaria and Turkey cannot be admitted to the league of nations at the present time, but they should be allowed to join as soon as the league is satisfied that they are entitled to be ranked among the trustworthy nations of the world.

WELFARE WEAKER OF LENINE REGIME, BUT ARMED STRONG

So Long as Bolshevik Control Well-Equipped Forces Rising Will Be a Failure.

SURRENDER PROPOSAL Advanced by Premier, But Defeated by Majority of 12 Votes Out of 200.

Paris, Jan. 20.—Authentic information received here concerning recent developments in Russia indicates that the strength and prestige of the Bolshevik government at home weakened somewhat in the last few months, although Premier Lenin and his associates have succeeded in strengthening their armies and gaining considerable military successes in Western Russia.

BRITISH FORCES TO QUIT BELGIUM

Foch Will Withdraw Them and American Troops to Relieve Railways for Requisitioning.

GERMANS THROUGH BOOTHS TO VOTE FOR NEW ASSEMBLY

In Sharp Contrast to Apathy of Bourgeoisie in Former Elections.

WOMEN'S VOTE HEAVY Only in Few Districts Have There Been Disturbances Due to Spartacans.

London, Jan. 20.—The course of the elections through the German states, says a German Government wireless dispatch received here tonight, was a big success for the government of a republican form of government interests the whole German nation.

WHY HAVE 'SMOKES' JUMPED PRICE, ASKS CONSUMER

Soldiers Can Buy Canadian Brands Cheaper in England Than Here.

LOWER IN HAMILTON Cigarettes There Two for a Quarter, But Are Fifteen Cents Straight Here.

The great jump in the prices of all kinds of tobacco, smoking and chewing, cigars and pipe tobacco, is not justified by the additional war tax. In cases where the tax is twenty cents and the dealers are taking 20 to 40 a cold dollar out of the user.

TROOPS STILL AT RHINE SAYS OFFICIAL OTTAWA

French Ambassador to Russia Tells Supreme Council They Are Beyond Pale of Humanity—Luncheon to Wilson.

Paris, Jan. 20.—The two notable events of the day were the meeting of the supreme council to consider the Russian situation and the luncheon to President Wilson at Luxembourg Palace.

MUST SIGN PLEDGE TO ABJURE UNION

New Police Debarred by Oath From Becoming Members.

All policemen taken on the strength of the Toronto police force are asked when they take the oath to sign a pledge that they will not join the union pending the decision of the royal commission. This new oath was the cause of much comment among the older men on the force, who did not know that the words "pending the decision of the royal commission" were inserted in the declaration. They were of the opinion that the clause prevented new men from ever becoming members of the police union.

CARLOAD OF PAPER WAS JUST 'BOOZE'

Police Make Seizure of Big Shipment From Montreal.

The police of Ossington avenue decided this afternoon to search a carload of whiskey, with a wholesale value of nearly \$4,000, and arrested six men in connection with the shipment. The seizure was made on the morning of the 19th, when a carload of 253 gallons of alcohol and 283 bottles of sealed whiskey was smuggled into the province as "preserved meat."

PACKING PLANTS MUCH EXERCISED

Sensational Despatch From Ottawa Causes Flurry in Bacon Circles.

A sensational despatch from Ottawa in an evening paper of yesterday, hazards the statement that the bacon and lard trade of Canada is in dire straits, and charges that unless drastic steps are taken by the Canadian Government within the interim between now and Saturday night Canadian plants will close down. While no official statement regarding the situation has been made public locally by the industries supposedly affected, live stock men and leading commission houses were last night not unduly excited over the rumor.

OPEN THE MUSEUM.

The crowds of citizens of all classes who found their way to the Ontario Art Museum at the head of John-street Sunday afternoon last, gave excellent evidence of the fact that Toronto appreciates the opportunity to spend Sunday afternoons looking at good pictures. The open Sundays at the art museum are a decided success, just as The Toronto Sunday World said they would be when that paper argued for their few weeks ago. The next thing to do is to open up the Royal Ontario Museum at the corner of Bloor street and Avenue road. Many hundreds of thousands of dollars of public funds are invested in that building and its magnificent collection, and it is absurd to do it to open up the Ontario Art Museum at the corner of Bloor street and Avenue road. Many hundreds of thousands of dollars of public funds are invested in that building and its magnificent collection, and it is absurd to do it to open up the Ontario Art Museum at the corner of Bloor street and Avenue road.

PROTEST BANK MERGER IN OTTAWA TODAY

CARDINAL GIBBONS OPPOSES PROHIBITION

Baltimore, Jan. 20.—Cardinal Gibbons in a statement issued tonight says: "I have always been in favor of strict regulation of the manufacture and sale of liquor instead of absolute prohibition, because by a strict regulation the liberty of individuals is preserved, whereas by prohibition we face legislation which in the long run cannot be carried out and an early result of prohibition will be the secret and illicit manufacture and sale of bad liquor, whereby the government will be deprived of a large revenue besides being put to enormous expense in the employment of agents to enforce the law. Moreover, in carrying out the law, I see also an invasion of the homes which will do to now all men have agreed is a sacred and holy place. These agents may enter our homes with the violence of burglars and the immunity of officers of the law."

Princess Patricia's Regiment Permanent Canadian Force

Ottawa, Jan. 20.—Announcement was made at a dinner tonight of the Patricia Club, composed of the Princess Patricia's Canadian Light Infantry, that the regiment would always remain as a complete unit in the defensive forces of Canada. Incidentally it was stated that Lieut.-Col. Hames Ganit, the organizer of the regiment, who was wounded four times and lost a leg, is now commanding the battalion on the Rhine.

DORPAT RECAPTURED FROM BOLSHIEVISTS

London, Jan. 20.—The Estonians have captured Dorpat, about 25 miles west of Lake Peipus, from the Bolshevik forces. They captured three guns, a locomotive and more than one hundred cars.

MEN'S FURS ALSO REDUCED.

The same heavy reductions allowed off for ladies' furs at Dineen's apply also to men's. Fur-lined overcoats, heavy cloth shaks, minkrat lining and other collars, regular Dineen \$125.00 value, for \$87.50. There are very considerable reductions also on fur hats, caps and rugs and robes for driving in cold weather. All these bargains may be readily interviewed at Dineen's, 140 Yonge street, corner Temperance.

TORONTO'S NEW RADIAL TO BE FINELY EQUIPPED

Most Modern Construction and Complete Method of Service Promised for New Hydro Line to Niagara, Via Hamilton.

The real opposition to the construction of Sir Adam Beck's Hydro-Electric radial from Toronto to the Niagara River comes from the Grand Trunk and the Canadian Pacific, who fear its rivalry. The Hydro's engineers, and worked out in all detail, will be the most modern piece of railway construction in America. It will be immeasurably superior to the Grand Trunk and the Canadian Pacific's lines between Toronto and the Niagara River. Its grade will be better, its direction better; its mileage shorter, and its approaches and entrances to the cities of Toronto and Hamilton better than anything we have at present. There will be no trouble in running express trains on this new line at 50 miles an hour. There will be no locomotive smoke or dust. There will be better heating of the cars; better ventilation, and a dozen other improvements unknown to present railroading. There will be better siding accommodations, better accommodation for loading fruit at the fruit orchard stations, and better facilities for its distribution. In Toronto when it gets here, the passenger rates will be absolutely fair; and commutation tickets will be provided for school children's tickets.

To Employers :

There is an angle to this Appeal that directly interests you.

Deeds, not words, deeds—the Salvation Army does good deeds by the tens of thousands. The records in Albert Street prove it. Yet, like the British Navy, we hardly ever hear much about them.

The reason, perhaps, is that all Army workers are of the people. They are rich, oh, so rich in spirit; but in the world's goods, poor.

Being poor, they know what the poor suffer, and know best how to minister to them.

They were with the British Army at Mons. They won the heart and respect of the "Tommy" right at the start. AND THEY HAVE HELD IT. The Army just loves the army. It's "jake."

And, now, they have set themselves a big task in Reconstruction:—

To help the Returning Soldier and his Family adjust themselves to the routine of civil life.

Among the people there is no suspicion of the Army or its motives. To be a Salvation Army Officer is to consecrate oneself to this practical Christian work.

You know yourself that the Army is doing good.

You know that its administration is honest and economical.

And you know that no other appeal presents so great a challenge to your generosity.

Give liberally to it, therefore, when you are called upon. If you are not called upon—mail your cheque—don't fail to give because someone has not personally asked you.

To the Industrial Workers of Toronto:

The Salvation Army needs from Toronto a quarter of a million dollars to aid them in their work on behalf of the Returning Soldier and his Family.

We know that there is no section of the community from whom a more generous response to this Appeal will come than from you.

You know the Army. You see it in action and observe the regenerative results of its work every day. The Committee in charge of this Campaign are going strong after money to carry on this wonderful service to man. It is necessary to go hard after it among those people who are not as familiar with the work of the Army as you are, and need more education on the subject.

But we do not overlook the fact that the attainment of the objective must in the final reckoning depend upon you.

The gifts of the multitude count.

You have given time and time again to the Army. It is your gifts largely that have carried them to the place they have reached.

But this time we are not asking for the quarter or the half-dollar to be thrown into the tambourine. It is the \$1, the \$2, \$5 and \$10, and the \$20 (if you can spare it) that will make this Appeal successful.

You may have been asked to subscribe on the form that has been passed around in many factories, offices, and warehouses; but if you have not, don't let that prevent you from giving.

Mail or bring your donation in to Headquarters right now.

You know yourself that if ever there was a dollar given for any purpose for which a full dollar's worth of service was rendered, that purpose is the work of the Salvation Army.

The Salvation Army is of the people and for the people.

BE GENEROUS, THEREFORE, AND GIVE HEARTILY

Eddy's Matches Overseas. THERE are certain things "from home" which our soldiers demand. One of them is Matches. Foreign matches may be all right in their slow burning, odorous way, but when a quick, sure light is wanted for pipe or cigarette, it's "me for Eddy's."

Eddy's Matches are being shipped to the Y.M.C.A. Overseas Headquarters at the rate of 300 ten-gross cases (432,000 boxes) per month. A match is a comfort and convenience which is so commonplace that we do not appreciate it—until we are deprived of it for a while. For sixty-seven years the House of Eddy has been making matches for the Canadian public—more than 70,000,000 matches a day at the present time.

LOOKING AHEAD AT THE GRAND CIRCUIT

Schedule is Repetition of Last Summer's Program That Was Shortened Thru Flu.

Detroit, Jan. 20.—Starting with five weeks in the middle west, followed by as many weeks in the east, and ending with the same period working down to Atlanta, the Grand Circuit of 1919 is a perfect copy of that of last year

From the viewpoint of climate the logical place to open would be in the south, but North Randall is the center of the week, which was forced on it, but has become such a good paying investment

There was some doubt as to what Kalamazoo would do, but the Colby City track scored for the week with the rest of the herd and took the second week

Philadelphia again has the honor of introducing the high-toned trotting and steeplechase to the east, the meeting here opening Aug. 11, and being followed by Poughkeepsie, Readville, Hartford and Syracuse, in turn, which brings them back to Columbus on Sept. 15 for two weeks, thence to Lexington for the same period and the circuit is closed, Oct. 15 to 18

Following on the heels of the statement that many regard Lotto Watta as among the best prospects for this year comes word that Tommy Murphy agreed to the extent that he paid Ross and Alfonso Clark of Clarksville, W. Va., \$15,000 for their mare

Jack Wolfe, local champion of Cleveland, had a light round bout here tonight.

Harry Glad of this city, had a light round bout here tonight.

Roy Boyle of New Bedford, had a light round bout here tonight.

The proposal of the former Canadian centres that the local centres be combined with eight Ontario centres

War to Peace

One Employment Agency for All Canada

THE Dominion and Provincial Governments are co-operating to distribute employment quickly and fairly. Employment Offices are being set up throughout Canada—a single, complete chain from East to West.

In all, some 60 Employment Offices are being established. They will be located in all centres of 10,000 people and over—and wherever the need for them exists. One-third are already in operation.

Through these Government Employment Offices, all persons in need of employment, both male and female, will secure such positions as are available. Through this same source an employer's particular needs will be promptly filled.

Indeed, the service rendered by these Government Employment Offices will be such as to warrant the heartiest co-operation and support on the part of employers of labor. They will endeavor to supply only such help as an employer can confidently take on—the right man for the right position.

Thus, to the small employer of labor, they will take the place of the Employment manager. To the large employer of labor they will be of appreciable assistance.

The service of the Employment Offices will be given both to employers and to those who seek employment entirely without charge.

How They Work. A superintendent is in charge of each local Employment Office. Inside the office he has interviewers, to confer with those seeking employment and to direct them to positions. In the larger cities he also has canvassers or salesmen to call on the employers and show them the value of the services rendered by the Employment Office.

In this way the work-seeker and the work-giver are quickly brought together. Every effort is made to secure up-to-date, business-like offices, conveniently located.

For the Soldier. The same Employment Offices are used to provide positions for returned soldiers as well as for every other person in need of employment. In each employment office there is a representative of the Department of

active strength of the battalion, with a large number of others on indefinite leave, who will be called up from time to time.

ROSA PAID TEN FRANCS TO GERMAN TO WED HER. Berne, Jan. 20.—How Rosa Luxemburg, the dead Spartacist leader of Berlin, managed to gain German citizenship is related by The Tageblatt of Berne. Rosa, who had been expelled from Russia for activities among the Jews there, was living in Zurich when she learned that she would be expelled, so she sought a lawyer in Zurich and demanded to know whether it was possible to contract a mock marriage with a German citizen so as to become a German herself and hence immune from expulsion. The lawyer said there would be some difficulties as to obtaining a man to go thru such a ceremony.

TRANSFER BATTALION. Kingston, Jan. 20.—The men of the First Depot Battalion arrived in Kingston from Belleville on Monday morning, and went into their new quarters at Barrville Barracks. There are at present about seventy men on the

permanent committee appointed for relief. The council considered the results of the negotiations of the preceding days at Trepes, especially the agreement reached for the handing over of the German mercantile marine. They continued the examination of the financial problems involved in repositioning Europe. They had before them information supplied by the commander-in-chief of the allied forces in eastern Europe as to the needs and resources of the territories in that sphere.

The council appointed a permanent committee, which held its first meeting on Sunday.

THINK "CASTALIA"

BANK CAPITAL CENTRES IN MONTREAL AND TORONTO

Vigorous Protest Made by an Ottawa Business Man Against the Latest Merger of Financial Powers.

Ottawa, Jan. 20.—Considerable criticism has been voiced in Ottawa over the latest bank merger.

"When the proposition of the merger between the Bank of Hamilton and the Bank of Montreal came up, the people of Hamilton had sufficient local pride and patriotism to make determined protests, and I have no doubt these had some influence in causing the refusal of the government to allow the merger."

It is probable that some organized action will be taken to voice the almost general opposition of Ottawa business men to the disappearance of the Bank of Ottawa.

EX-PRESIDENT AT THE EMPIRE CLUB

W. H. Taft Addresses a Record Audience on National Themes.

Ex-President William Howard Taft addressed a record audience at the Empire Club yesterday at luncheon in the King Edward.

He spoke in a highly complimentary strain of the spirit and effort of Canada in the war.

Of the Germans he observed that "a bad immoral influence demonstrates the yellow streak in the bulges of Germany."

There was still a burden to be borne, he said, and that was the time when your souls stood the test.

There was still a burden to be borne, he said, and that was the time when your souls stood the test.

He spoke in a highly complimentary strain of the spirit and effort of Canada in the war.

Of the Germans he observed that "a bad immoral influence demonstrates the yellow streak in the bulges of Germany."

These troops are expected to arrive at North Toronto station some time this afternoon.

The second train will probably arrive later in the evening and the third some time on Wednesday.

On board the Olympic were 1308 of all ranks for this district alone and as it is necessary to handle the troops, the board they had to be cleared from Quebec.

Syrup for Sore Throats Of Shouting Soldiers

Some idea of the joyous scenes attending the opening of London on the signing of the armistice was given by Miss Babs Magann, who with her brother, Lieut. Allan A. McEgan, arrived in Toronto yesterday morning.

Miss Magann has been doing V.A.D. work at Perkins Bull Hospital, Putney Heath, for 18 months.

She told of the principal London thoroughfares packed with private motors and officers of high rank, shouting and cheering from omnibus tops.

She said, and when they returned they had to be given syrup to soothe their throats, as horses were they. Lieut. Magann was wounded while serving with the 8th divisional trench mortars.

ORDERS AS TO DISCHARGE

It is notified for the information of all concerned that no man on the list in this district will be discharged from the service until he has been referred to the A.A.G., M.D. No. 2.

NO CLAIM SAYS CROWN

In the exchequer court before Sir Walter Cassels, the crown suing John M. Kibbour for the expropriation of Campbell's land to be used for the Trent Valley Canal, the crown does not admit Kibbour's title to the land nor his claim for \$20,000.

organizer as Col. Dinnick he knew it would succeed and go far beyond the objective.

Col. Dinnick spoke of the kindness of Dr. Abbott, head of the Organization of Resources, who, he said, had practically given up his entire staff to the work.

Other campaigns had to be driven, this one was driving the workers. Mr. Miller also referred to the 700 War Veterans and to the Kiwanis Club, who are making part in the work.

No commander would have been worth anything in the war but for the man in the front line, said Brigadier-General Gunn, who made a very sympathetic address, speaking of the work of the Army as he knew it, and telling of the case which one of his men could not meet and nurse for his sick wife but he tried the city over for two or three days.

Col. Beattie, director of chaplains, was the next speaker. He said the people of the Salvation Army were people of simple creeds, but bold hearts.

Loew's Theatre Interests Invade Ottawa Circuit

The Loew's Theatre interests of this city and Montreal have purchased the Maynoe property in Ottawa, on the north side of Queen street, between O'Connor and Bank streets, and will erect a theatre on it to complete the Loew's vaudeville circuit.

May Land Canadian Troops at Portland

Major Howard B. Jeffs, M.C., deputy A.D.M.S., embarked on a ship at Quebec, who is an old Toronto soldier, has been ordered to proceed to Portland, Maine, on duty.

The authorities at Ottawa will disembark some of the remaining troops at this point, besides climbing into the congestion at Halifax, when a large number of men arrive, the route thru the States to Montreal would be much shorter than the one via Quebec from Halifax.

CITY ITEMS

The Belgian Relief Committee, 35 West King street, reports receipts for the week ending Jan. 17th, \$11,216.20, making total to date \$217,387.19.

James A. Collie, an old time telegraph operator of Toronto and Montreal, died in the last city Sunday evening, January 19, of spinal meningitis and pleurisy.

Dr. Alex. Fraser, provincial architect, delivered an interesting address to a large audience at the Camera Club last night, when he spoke on the "Value of Photography in the Preservation of Historical Records."

If children saved a quarter of a dollar a week each, it would mean \$20,000,000 a year to Canada, according to L. A. Sheaf of Concord, N.H., in an address on Thrift Stamps given the members of the Business Women's Club.

Among the party of officers who arrived in the city yesterday morning from the S.S. Olympic was Maj. M. Rose, who made the many workers of the campaign, and he was absolutely ashamed of the reward they received, which was more than thirty dollars a week.

Grand Knight Roach of the Knights of Columbus was received with delight at being present at the large gathering and as representative of the great Catholic society to bring best wishes to the campaign. They were not unkindful, he said, of the assistance given by the members and ladies present, and was delighted to be able so soon to reciprocate. One hundred members, he said, had their coats off and were going to stick to the campaign in making it a success. With such an

HEALTH OF EX-EMPEROR HAS GREATLY IMPROVED

Amorogon, Holland, Jan. 20.—William Hohenzollern, the former German emperor, is greatly improved in health. He is able to walk in the castle grounds in the morning and afternoon. In the evening he enjoys a piano concert or the music of the members of his suite perform on the piano, harp and violoncello.

Apparently his only distraction is the week-end visit from the secretary of the Dutch premier and the governor of Utrecht, Count Lynden van Sandenburg, who are charged with surveillance over the emperor.

Yesterday the ex-emperor attended a church service in the castle, read by clergymen from Seist.

ADANAC ADVANCES ON HEAVY BUYING

Developments at Property Make Decided Impression—Gains by Gold Stocks.

Adanac was thrust into the foreground in no uncertain manner in trading on the Standard Exchange yesterday, and, although its advance in price was modest in comparison with the dazzling performances of Crown Reserves and Tretwey recently it succeeded in reaching the highest mark since 1917.

A number of the gold stocks scored fairly substantial advances yesterday. Thompson-Krist had a revival of activity, ruling firm through at from 7 3/4 to 7 7/8.

Schumacher's Outlook. Schumacher was firm at 37. A circular being sent to shareholders of the company concludes as follows: "Already it is noticeable that labor is becoming more plentiful for mining."

ATTRACTIVE OFFERING OF SOVEREIGN STOCK

One of Company's Claims is Tied up to Hollinger. The firm of F. C. Sutherland & Co. brokers, Denwick Bldg., Toronto, are making an attractive offering of a block of the stock of the Sovereign Bullion Mines, Limited.

ADANAC'S RICH ORE

According to official information received yesterday by Hamilton B. Willis, over his private direct wire from Cobalt, the vein on Adanac, upon which a raise is being sent up from the 310-foot level, shows a width of six to seven inches with silver values running between 2,000 and 3,000 ounces to the ton.

OPHIR'S GOOD OUTLOOK

That the Nipissing Mining Co. have taken an option on and intend developing the Ophir Mine is now officially confirmed. Already they have started to get ready to resume operations. It means a lot for the future of Ophir in that its excellent prospect of becoming a producer is endorsed by the conservative management of the Nipissing property.

ON NEW YORK CURB

Hamilton B. Willis received the following wire at the close of the New York Curb Market yesterday: "Indications are that the silver issues are getting ready for a well merited advance. The market action of the silver market is expected to have some time past reflected important buying and Toronto Belmont, Mining, Extension, and West end were especially good demand. Glenrock Oil was in good demand today and advanced fractionally. The stockholders will soon receive rights to subscribe to the balance of the treasury stock at \$25 per share of about one new share for every four shares held."

LIVERPOOL, Jan. 20.—Cotton futures closed unsettled. Jan. 17-52; Feb. 16-51; March, 15-51; April, 14-51.

FALLING PRICES

Another sharp break in the price of corn at Chicago was yesterday's feature in the commodity markets.

Another sharp break in the price of corn at Chicago was yesterday's feature in the commodity markets. Great public pressure is being placed upon the United States Congress to take measures to reduce the cost of foodstuffs, and food administration officials are reported to be ready to go a long way to still the clamor.

LAKE SHORE MAKES EXCELLENT SHOWING

Surplus Fairly Earned After Dividends—No Statement of Ore Reserves.

Net profits of \$144,978 for the fiscal year ended Nov. 30 last are shown in the fourth annual report of Lake Shore Mines, Limited, presented at the annual meeting held at Kirkland Lake yesterday.

President Harry Oakes points out that the authorized capital of \$2,000,000 remains the same as on Nov. 30, 1917. The building program is described as nearing completion, with the certainty of an efficient and complete plant when work is finished.

DOMINION WAR LOANS ACTIVE IN MONTREAL

Listing of Last Year's Bonds Has a Decidedly Stimulating Effect. Montreal, Jan. 20.—Heavy buying of Dominion war loans, which was stimulated by the listing of the two maturities of the 1918 Victory issue, the only war bonds not previously in the open market, overshadowed trading in stocks on the Montreal exchange today.

MCKINLEY'S NEW VEIN AVERAGING UP WELL

Cobalt, Jan. 20.—The new vein found in a prospect on the 250 feet level of the McKinley has been drifting about twenty feet. It has been found to be patchy, but nevertheless of good average grade. In the present direction, and continues that far, it will probably extend into the Princess property of the Rose.

CROWN RESERVE'S FIND GROWS IN IMPORTANCE

Cobalt, Jan. 20.—As drifting continues on the Crown Reserve's find at the 250 foot level it grows in importance. The drift is now about 140 feet long, showing ore.

Other veins have been encountered, and what is of equal importance to the high grade vein where encountered, may develop as well.

Operations have been handicapped somewhat by air troubles.

ANOTHER SHARP BREAK IN CORN

Insistent Demand for Cut in Price of Foodstuffs Has Bearish Effect.

Chicago, Jan. 20.—Assertions that food administration officials recognized the necessity of lower prices for consumers had a decidedly bearish effect today on corn. The market closed heavy at 30 to 35c decline, with February \$1.28 1/2 to \$1.29 1/2, and May \$1.24 1/2 to \$1.25 1/2.

TRADE TOPICS

The feature of the week in business has been the presence of western buyers making selections, but ordering in limited quantities. In wholesale dry goods travelers are now on the road and report that orders are being given for immediate requirements on the part of buyers.

While the leather market is quiet, boot and shoe manufacturers report increased activity, and eastern manufacturers report orders for export to France.

D. M. FINNIE TO RETIRE. Ottawa, Jan. 20.—D. M. Finnie, general manager of the Bank of Ottawa, will retire from the banking business when the amalgamation with the Bank of Nova Scotia is complete.

OTTAWA, Jan. 20.—The monthly commercial letter of the Canadian Bank of Commerce says: "Manufacturing industries generally find that orders are still available on a remunerative basis, and plants are in full operation, as far as the supply of labor will permit. While large numbers of operatives in munition factories were released shortly after the armistice was signed, there is, on the other hand, a very general demand for labor in textile, boot and shoe, foundry and other industries."

White--Gold--and Green

Do colors have any significance?

We think they do. That's why we chose these three colors---white, gold and green---for the Farmers' Dairy wagons.

We think they typify the three things that The Farmers' Dairy ideal stands for---purity, richness and freshness.

Purity---because of the scrupulous care that is taken with this milk---on the farm, in transit, at the big sunshine-flooded dairy for which our name is known all over the continent.

Richness---because this milk comes from the finest herds in Ontario---from cows that are well-tended and well-fed to produce milk of the highest quality.

Freshness---because that is the service which The Farmers' Dairy is ever aiming to perfect.

Next time you see The Farmers' Dairy wagon on the street note these three colors---remember their significance.

Don't try to make a pint of milk do the duty of a quart. Save money---live better by using more milk. Order extra---tonight---now---especially for the children's sake. Phone Hillcrest 4400---our driver will call next trip.

RECORD-BREAKING TRADING IN BONDS

Listing of Latest Victory Issues Creates Furore on Toronto Exchange.

The listing of the Victory bonds of last year's issue, thereby removing the last of the government war loans from beneath the protecting wing of the special committee, resulted in record-breaking transactions in the bond list on the Toronto Exchange yesterday. The day's total reached no less a sum than \$47,150, par value, all in the war loans, apart from \$3,000 in Canada Bread bonds, and all in the 1918 and 1919 issues. The first day of unrestricted trading memorable by contributing totals of \$189,000 and \$157,000, respectively, easily leading the other issues in point of activity. The 1918 loan sold freely around 102, the former prescribed selling price, but in the afternoon edged off to 101 3/4. The 1919 loan, which had been offered thru the committee at 100 1/2, sold as high as 101 for small lots, but sagged at the close to par. Owing to the short-term character of this issue it cannot be expected to range much above par, and some of the selling yesterday was probably leading to a more active market in the long-term bonds. The other active loans were the Victory issues of 1912 and 1917, which held firm at 99 7/8 and 104, respectively. Leading stocks were relatively dull, dealings outside of mining stocks, totaling only 1,356 shares. The trend was somewhat variable, with interest centering in the utility group. Barcelona was unloaded rather freely, and declined 3-4 to 12, closing at the low. Cabled reports of more or less serious public unrest in Spain have given rise to some apprehension. Brazilian declined sympathetically to 53 1/2. Toronto Railway was rather markedly weak, declining 1-2 to 47 3/4 with the closing bid down to 44. There appears to be considerable doubt as to the continuance of the four per cent dividend. Twin City was, however, up a point at 41.

Announcement of the impending Nova Scotia coal merger has little effect upon the shares of these institutions. There was no trading in Nova Scotia with 257 bid, while Ottawa sold a point higher at 206. Dominion advanced two points to 219, closing at 218 1/2, but Hamilton at 203 was off two points.

NEW YORK STOCKS WEAKEN AT CLOSE

U. S. Steel Sells at Lowest Point Since Middle of Last Year.

New York, Jan. 20.—Stocks fluctuated aimlessly during the greater part of today's quiet and professional session, the general irregularity of the morning becoming more accentuated in the broader offering of the final dealings. News and other developments over the week-end seemed to exert little influence in any quarter, although rails became heavy later when a denial was circulated of published reports that the government intended to advance freight rates. Foods resumed their bullish maneuvering, Hide and Leather fell, paper shares and some of the food and clothing issues, resulting in gross gains of 2 to 4 points, subject to material reductions at the end. Shipbuilders contributed to the market's weaker side at reactions of 1 to 3 points, copper, rubbers, sugars and tobaccos also sagging variably, and standard equipments cancelled much or all of their forenoon gains. The market closed at a net loss of 1 1/2 points, minimum prices prevailing at the heavy close. Sales amounted to 350,000 shares.

The Story of the World's Greatest Gold Mine

At the end of 1917 the Hollinger Consolidated had a total production of \$19,728,383. All this metal was taken from 1,950,121 tons of ore. In the ground it was only worthless rock; mined and sent to the mill it gave \$10.11 for every ton. The production for 1918 was \$6,250,000, making a grand total of \$25,978,383 in 6 1/2 years from the time the mill began the reduction of ore. Operating profits to the end of 1917 were \$11,079,745, or 56 per cent. of the total output, while dividends to the end of 1918 amount to \$9,178,000. But now we are in the period of the great war. Its baneful effects are spread over at least 3 years of the total span of the productive life of the mine. It could have battled successfully against the increasing cost of supplies, but labor became inefficient, and besides, there was a shortage of nearly 50 per cent.

Production fell off, profits decreased both absolutely and relatively, and all plans for expansion received a serious check. But for the war the total output of the Hollinger Consolidated would have been \$35,000,000, on 1st January, 1919, and a dividend rate of 20% could have been maintained without interruption on the \$24,600,000 of issued stock.

At the time of the consolidation it was intended to bring the mill to a crushing capacity of 3800 tons per day, but men could not be secured to complete this work, and even if they had been available there were not enough men to raise the necessary ore. Something like partial paralysis brooded for a spell over the great enterprise. 2,000 men were required, but the average of 1916 was only 1056, and of 1917, 1045 on the pay-rolls.

In 1917 production fell to \$4,261,938. In 1918 it had risen to \$6,250,000, and now the mine is fairly on the road to a greater destiny. Over \$3,000,000 has been spent on plant. The very best modern devices in mining and metallurgy are fully expressed therein. In fact the Hollinger Consolidated is now in a position to make good its bid for world supremacy.

With the close of the war, supplies and machinery are falling in price, and labor is becoming more plentiful, and it is expected that there will be 2000 men on the pay-roll of the Hollinger Consolidated before the end of 1919.

In 1920 we may look for earnings greater far than any gold mine in the world, and probably greater than the joint earnings of the two largest Canadian banks. The Great Hollinger Mine has taken out \$26,000,000 in gold, and experts say the mine has not yet gotten into its stride. Immediately adjoining the Hollinger lies 40 acres of the 160 acres owned by the Sovereign Porcupine Gold Mines, Limited, awaiting proper development to show its gold contents. To renew development, 100,000 shares of Sovereign Porcupine is now being sold at the low price of 25c a share. A small block of this stock should return handsome profits, and we strongly urge our clients to execute their orders before the offering is allotted. No reservation will be made unless a substantial payment accompanies the order.
