**Bath Mats**  
Great values at 75c up.

**JOHN CATTO & SON**  
King Street—opposite the Post-Office.  
TORONTO.

**RAILWAY COMMISSION.**  
Held its Meeting at Winnipeg Yesterday Morning.

Winnipeg, Aug. 8.—(Special)—The opening session of the railway commission took place this morning in the board room of the Grain Exchange building, with Mr. Blair as chairman. Dr. Jas. Mills commenced the sitting. Both railroad companies were well represented. Wm. Whyte, W. B. Lanigan and F. W. Peters, with J. E. McCullough of the solicitor's office at Montreal, The Hon. J. G. Maclean, minister of railroads, and Mr. Blair, solicitor general, were present. The board of trade was represented by W. Hutchinson, president, W. Georgeson and several other members. In opening the proceedings Mr. Blair stated that the commission was ready to hear any person who wished to bring up any matter which came under the jurisdiction of the board. All the statements were under consideration. The morning session was taken up with excessive transfer charges on the cars of the two railroads running into Winnipeg. In the afternoon T. R. Deacon, Manitoba Iron Works, showed the rate for iron plates from the east was ten cents a hundred higher than on the finished. This was under consideration at adjournment.

**HOW TO PREVENT DUMPING**  
**JUST REVISE THE TARIFF**  
Member for East York Suggests an Effective Remedy for the Evil.

Ottawa, Aug. 8.—(Special)—The "anti-dumping" clause, designed to meet the growing evils of American commercial encroachment in this country, was discussed at length in the house of commons. None of the opposition members displayed the slightest faith in the means of checking the evil. It was shown that the regulations could be evaded in various ways, and that the only effective way was to prevent dumping in Canada, was to revise the tariff.

When the house went into committee on the resolution an amendment was made to the dumping clause, whereby the dumping penalty is not exacted in the case of goods on which the duty is 50 per cent. or over.

Col. Hughes took the case of a bill of American goods entered at one hundred dollars in Canada, the market value of which was held to be \$115, which was to be charged on the goods upon \$15, making \$34.50, to which would be added the difference of \$11.50, a total of \$46.00 under the dumping clause.

Col. Hughes then proceeded to say one result of this would be to drive wholesalers out of business in Canada; the clause would also mean that the dumping clause could be evaded by Americans shipping their goods to London and then having them forwarded to Canada under the preferential tariff.

In this latter connection he was supported by Mr. Brock, who also declared that for the sake of pleasing Mr. Fielding and the government, the government had withheld for four years the protection now given to the textile manufacturers.

"Even now," said Mr. Brock, "the government was endeavoring to do this roundabout and crooked proposal of a dumping clause which had far better be done in the straight forward way of increasing the protection by means of an adequately high tariff."

W. F. Maclean suggested that what was needed in Canada was the system advocated by Mr. Chamberlain's committee in England, namely, a general tariff, a preferential tariff, and a maximum tariff which would be levied upon United States goods.

Mr. Maclean did not place any great reliance on the proposed method of revising the dumping clause. The United States did not meet the difficulty by entering into a tariff, but by imposing high duties on the goods of other countries. Why not adopt in Canada the policy of maintaining a high tariff on all goods, and a lower tariff on goods from the United States? Mr. Maclean mentioned the United States Steel Company as one of the chief contributors to the dumping evil. Through the Canadian Hardware Association he raised the prices on Canada, and imposed penalties on firms which would not conform to his rule.

"How would this company be dealt with?" asked Mr. Maclean.

Mr. Fielding replied that the United States tariff, which the member for East York and his friends advocated, should not only shut out dumped goods, but also goods that were not dumped. The Canadian tariff was designed to allow fair competition. As to the United States Steel Company, it was not proposed to deal with it in any special way. Mr. Fielding thought that when the contracts of the United States Steel Company and the dumping concerns expired, they would not renew them, as under the new customs regulations they could not operate successfully in Canada.

**KNIFE GRINDERS' ROT.**  
Dr. W. O. Eastwood of Whitby, Ont., has the following letter in The New York Tribune: I have just read a clipping from The Tribune, copied into The Weekly Sun, published in Toronto, which tells of the mortality prevalent among the men engaged in sweeping New York streets. As it is just possible that you may not, in your reading, have met with an account of a form of consumption popularly known as "knife grinders' rot," that prevailed some years ago to a much greater extent than it does now, I will, I trust, excuse my directing your attention to it. "Knife grinders' rot" affected chiefly those engaged in grinding on the dry stone. It was recognized as the well-nigh universal cause of death among those who were engaged in this occupation. After many lives had been sacrificed in this way, a doctor of an exhaust or blow was devised that carried or drove the grit and particles of steel in such a direction that they were no longer inhaled by the workmen, and in this time the occupation began to be practically free from the danger from this source. That a specific cause of consumption could be regarded as proved. Nevertheless, a good deal of evidence has been adduced to show that the indirect or predisposing causes that help to do in its dissemination as the germ itself. Were it not sufficient to convince any one of ordinary intelligence that in former years no case of what is now known as "rot" was taken to guard against the evil, which had escaped its attack. As you could have observed, the knife grinders were not to an unusual extent afflicted by the disease, and yet it was said to be a medical fact that the grinders of Sheffield who grind dry, died from 20 to 32 years of age; those who grind with water, who died from 40 to 45 years of age, while table knife grinders, who grind on wet stones, lived to 40 and 50 years." It becomes then a question for serious consideration whether in our endeavors to stay the evil in our endeavors to stay the evil, we ought to direct our chief efforts to the work of destroying the germ, or otherwise to the task of getting rid of the favoring or predisposing causes, unaided by which the disease would almost seem, would be comparatively harmless. Fascinatingly, it may be the hope that we will ever get rid of the disease by the complete destruction of the germ, which is surely in order. It may be, however, that the history of past efforts that have failed, would lead us to believe that the disease is not so easily eradicated.

**HEALTH AND PLEASURE**  
The result from trips across the lake via the Niagara River Line, the real beauty of the Niagara River is always delightful. Six trips daily, at hours to suit everyone.

**BEARS HOLD UP A TRAIN.**  
Williamsport, Pa., Aug. 8.—An excursion train on the Black Forest Railroad was held up for an hour Saturday by four bears that a trestle crossing the mountain stream. One of the bears was caught between the ties and the engine was stopped. Then it was found that the portions of the trestle had been undermined by the bears as to be unsafe. Stone throwing did not frighten the animals, and they were finally driven off with torches made of long sticks and waste material from the axle boxes of the cars. Then temporary repairs were made, and the train resumed its journey. There were 100 passengers on board, mostly women and children. The Black Forest Railroad is a narrow gauge which penetrates a dense forest.

**THE STANDARD ROUTE**  
The best of everything—double track—absolute safety—superb equipment—every convenience.

FROM THE NATURAL PULPIT 500 FEET ABOVE GROUND

Rev. Mr. Copen Had to Use a Megaphone to Carry His Voice Downward.

Parkburg, W. Va., Aug. 8.—The "Devil's Tea Table" was the queer pulp from which the Rev. John Copen preached yesterday to an audience of nearly 5000 persons.

From a point 500 feet in the air he discoursed on Paul's sermon on Mars Hill, using a megaphone to carry the sound of his voice to the throng below.

As a means of attracting the crowds Pastor Copen had advertised for ten days that there would be light traps and trapeze performances and swimming contests before and after the sermon.

The "Devil's Tea Table" is a freak of nature in West Virginia, twenty miles from any railroad, overlooking the Little Kanawha River.

The table is a flat rock, 200 feet high, rests on a hill 200 feet high, and the preacher's pulpit yesterday was 500 feet above the congregation.

The sides of the table are almost perpendicular. To ascend the pulpit the preacher had to wind around the elevation for a distance of about a mile, and after he had climbed the rock almost to the top he had to climb fully 45 feet, climbing to a rope which had been thrown over it in order to reach his pulpit.

This feat was one of the features of the day. The preacher remained on the rock between the morning and afternoon sermons, eating his solitary lunch so high in the air that he looked like a midge.

Trapeze and Tight-Rope. Before the morning sermon, while the people were gathering, the trapeze and light-rope performances were held according to program, and twenty-five small boys engaged in a swimming contest in the Little Kanawha River.

The "Devil's Tea Table" is at the mouth of Rock Camp Creek; the preacher lives over on Standing Stone Creek. Not only the entire neighborhood, but people from adjoining counties were there by hundreds.

With a megaphone borrowed from an Ohio River steambot, Mr. Copen talked for an hour in the morning, and every word was distinctly heard by his immense congregation. Again in the afternoon he repeated the performance.

Mr. Copen likened himself to Paul. After repeating the words of the apostle to the congregation, he spent some time in exhortation in his own peculiar manner. He is called the cyclone exhorter of West Virginia.

An Old-Fashioned Exhorter. The Rev. Mr. Copen is not an educated man, but his exhortation is very effective with the mountain folk, among whom his work lies. He is tall and gaunt and his hair falls over his shoulders. His manner and language are those of the backwoods revivalists of half a century ago.

Like them, Mr. Copen dwells much yesterday upon the awful fate of those who reject the gospel of Christ. Many conversions are reported as the result of his day's work. In explanation of his unique methods yesterday, Mr. Copen said:

"I do not advertise these innovations for any purpose other than to attract and entertain a crowd. There are many persons who are not reached by the church, for the church offers no attraction. These are the people I want to get at. It is not the good church people who go to the church regularly that I am after. The persons I want to reach are the sinners, and some means must be devised to get them into the church. If I can do that I care not what means I shall have employed so long as they do no harm in trapeze performances or tight-rope walking any more than in golf on Sunday. The people among whom my work lies need amusement and novelty to set them in reach of the word of God, and I believe I am doing a good work in providing these attractions.

I propose to continue my religious novelties until I have caused all the people of West Virginia to come within the sound of my voice.

FUTNAM'S PAINLESS CORN EXTRACTOR.

Your father used it, your grandchild will be sure to use it because you add to the already great reputation of Futnam's Painless Corn Extractor as a never failing remedy for all kinds of corns.

Back From the Old Land. Jack Reed of aerial No. 1 and Samson Reed of aerial No. 2 have returned from a six weeks' trip to the Old Country. They spent three days in Paris and they say they saw all that was worth seeing in London they visited the great stations, but were not greatly impressed by the slow methods there in vogue of turning out to an alarm.

To Build Good Factories. Ottawa, Aug. 8.—The proposed payment of bounties for the destruction of Goats has been abandoned by the minister of marine and fisheries. In its place he will construct three factories in the Maritime Provinces for the reduction of fish oil into oil, glue, etc. Each of these factories will cost about \$5000.

Snow Fall in Colorado. Denver, Colo., Aug. 8.—Specials from points in Southern Colorado tell of the heaviest rain and windstorm that has swept over that portion of the state in years. Floods damaged property and interfered with the running of trains.

UNEXPECTED DECREASE

Continued From Page 7. movement indicates that the new crop will grade high and move freely.

New York Dairy Market. N.Y. York, Aug. 8.—Butter, irregular receipts, 3072; street price; extra creamery, 15 1/2; to 17 1/2; official common, 15 1/2; to 17 1/2; state dairy, common to extra, 10 1/2 to 11 1/2; renovated, common to extra, 10 1/2 to 11 1/2; imitation creamery, common to extra, 10 1/2 to 11 1/2.

Cheese—Firmers' receipts, 1988; state, full cream, mild cheddar, 10 1/2 to 11 1/2; full cream, mild cheddar, 10 1/2 to 11 1/2; full cream, mild cheddar, 10 1/2 to 11 1/2; full cream, mild cheddar, 10 1/2 to 11 1/2.

Liverpool Grain and Produce. Liverpool, Aug. 8.—Wheat, spot nominal; futures, 10 1/2; to 11 1/2; to 12 1/2; to 13 1/2; to 14 1/2; to 15 1/2; to 16 1/2; to 17 1/2; to 18 1/2; to 19 1/2; to 20 1/2; to 21 1/2; to 22 1/2; to 23 1/2; to 24 1/2; to 25 1/2; to 26 1/2; to 27 1/2; to 28 1/2; to 29 1/2; to 30 1/2; to 31 1/2; to 32 1/2; to 33 1/2; to 34 1/2; to 35 1/2; to 36 1/2; to 37 1/2; to 38 1/2; to 39 1/2; to 40 1/2; to 41 1/2; to 42 1/2; to 43 1/2; to 44 1/2; to 45 1/2; to 46 1/2; to 47 1/2; to 48 1/2; to 49 1/2; to 50 1/2; to 51 1/2; to 52 1/2; to 53 1/2; to 54 1/2; to 55 1/2; to 56 1/2; to 57 1/2; to 58 1/2; to 59 1/2; to 60 1/2; to 61 1/2; to 62 1/2; to 63 1/2; to 64 1/2; to 65 1/2; to 66 1/2; to 67 1/2; to 68 1/2; to 69 1/2; to 70 1/2; to 71 1/2; to 72 1/2; to 73 1/2; to 74 1/2; to 75 1/2; to 76 1/2; to 77 1/2; to 78 1/2; to 79 1/2; to 80 1/2; to 81 1/2; to 82 1/2; to 83 1/2; to 84 1/2; to 85 1/2; to 86 1/2; to 87 1/2; to 88 1/2; to 89 1/2; to 90 1/2; to 91 1/2; to 92 1/2; to 93 1/2; to 94 1/2; to 95 1/2; to 96 1/2; to 97 1/2; to 98 1/2; to 99 1/2; to 100 1/2; to 101 1/2; to 102 1/2; to 103 1/2; to 104 1/2; to 105 1/2; to 106 1/2; to 107 1/2; to 108 1/2; to 109 1/2; to 110 1/2; to 111 1/2; to 112 1/2; to 113 1/2; to 114 1/2; to 115 1/2; to 116 1/2;
