CHANGES IN CABINET PROBABLY MADE PUBLIC BY MEIGHEN TOMORROW

Loughheed Likely New Minister of Interior and Calder of Public Works—Expect R. W. Wigmore to be Minister of Customs—Mention Sir Clifford Sifton For London High Commissioner.

Ottawa, July 8.—(Special)—Hon. Arthur Meighen will, it is expected, be able to announce his cabinet on Saturday, when he takes over the leadership from Sir Robert Borden. It is believed there will be even more additions to the cabinet than have been anticipated. It is expected that by-elections will only be required immediately in New Brunswick and Nova Scotia, although within a few months many other changes are expected. As all the old members have agreed to serve under Mr. Meighen he is not under immediate necessity of drastic cabinet reorganization. The old ministers will take over their present portfolios and return to their old positions or other departments within a few days. New Post for Loughheed. The new prime minister will follow the precedent set by Sir Wilfrid Laurier and Sir Robert Borden and become minister of external affairs and also president of the privy council. These departments were recently administered by Hon. N. W. Rowell. The department of soldiers' civil establishment will shortly be absorbed into the military department. Mr. Meighen will free Sir James Loughheed for some other important department. He will probably become minister of interior and it is being expected that the department of colonization will be absorbed into this department, permitting Hon. James A. Calder to become minister of public works. British Columbia will at present be given a second representative in the cabinet, nor will there be any successor to Hon. N. W. Rowell appointed from Ontario, but a solicitor-general will soon be named from that province. R. W. Wigmore is almost certain to be named as representative from New Brunswick and will probably be minister of customs. He is certain of re-election in St. John. To Chase Nova Scotia. The Nova Scotia minister will be chosen from Hon. F. B. McCurdy, Hector McInnes, K.C., and E. K. Spinney of Yarmouth. The first two are Conservatives and the latter a Liberal. Before a more thorough organization an effort will be made to secure greater representation from Quebec. In addition to cabinet appointments, the high commissioner at London and Canadian representative at Washington must also receive attention. Sir George Perley has long desired to retire, and his successor must be named. For this position, Ottawa connects the names of Sir Charles Gordon, Montreal; Sir Clifford Sifton, Toronto; and Sir George E. Foster, Hon. N. W. Rowell, particularly the latter. The Washington post, but it is understood, prefers returning to his law practice. C. A. Magrath is also mentioned in connection with this appointment. White in Toronto. Hundreds of messages of congratulations have poured in upon the new leader. They are from members of both parties and from all parts of Canada. Sir Thomas White returned to Toronto today, and, before leaving, assured the new leader of his support both in parliament and country.

DOHERTY PROMISES STRONGEST SUPPORT FOR O.A.C., GUELPH

At Alumni Banquet Says Government Realizes College Is Leading Force in Agriculture.

REYNOLDS REPLIES. Special to The Toronto World. Guelph, July 8.—(Speaking to 150 ex-students on the occasion of the O.A.C. alumni reunion banquet held at Macdonald Hotel in honor of Prof. J. B. Reynolds, who took over the presidency of the Ontario Agricultural College this week, Hon. Manning Doherty, minister of agriculture for Ontario, stated that never in the history of the province had there been a government so solidly behind the college as the Drury administration. He called attention to the fact that the recent salary increases to the teaching staff would aggregate \$25,000 a year, and while he admitted the salaries were not yet adequate, that was the largest amount ever given by any government of the province in increases in any one year. Says Salaries to Be Adequate. Mr. Doherty added that his policy, as head of the department, would be to give adequate salaries for efficient service, and he said President Reynolds will never appeal to him in vain for increased salaries when this kind of service is rendered. The minister stated there were tremendous problems ahead of the province and Dominion, and that most of the obligations of the country must be met out of the soil. "I realize the importance of the department of which I am the head," he said, "and were it not for my knowledge that I know I can rely for assistance and advice from the ex-students of this institution, I know I would fall." Praises Reynolds. Regarding Prof. Reynolds the minister said: "I know he will administer the affairs of the college frankly and fearlessly and without wavering, and that is the kind of a man the people of the province want at its head. I can assure him that as long as I hold the position I do it will be my aim to give progressive support, and I can assure him the same support from my colleagues of the cabinet. He will get this support because he is a realist, his institution is the leading force in agriculture in the province, and our aim for the future is to bring it closer to the real producer, the farmer. We hope to do much to solve these problems in the very near future." Reynolds Replies. Replying to Prof. Reynolds the minister stated that so far as any policy he had to announce, he only wished to say that he would endeavor to be fair and just, and would not be a favorite. He thought this policy would count in the long run. Regarding the O.A.C. the new president contended that the functions were teaching, research and extension, and he announced, with permission of Hon. Manning Doherty, that the extension work in agriculture would be removed from Toronto to Guelph.

BATHERS BOTHERED BY BABIES' BOTTLES

New York, July 8.—Perversity of infants who insist on tossing their bottles onto the beach, breaking them on stones and cutting bathers' feet, today caused Coney Island bathing house proprietors to place a ban on baby carriages. Police protection was asked against mothers invading bathing reservations with their offspring.

GOUIN HAS RESIGNED QUEBEC PREMIERSHIP TO CALL TASCHEREAU

Latter Likely to Be Handed Reins of Office Today by Lieutenant-Governor.

IS NATIVE OF QUEBEC. Quebec, July 8.—(By Canadian Press).—Sir Lomer Gouin, at a meeting of the provincial cabinet this morning, resigned as premier of Quebec. While no official announcement has been made, it is understood the lieutenant-governor, Sir Charles Fitzpatrick, will call on Hon. L. A. Taschereau, minister of public works, to succeed Sir Lomer. It is rumored that Mr. L. Letourneau, a prominent industrial man of this city, president of the Quebec Preserving Company and provincial member for East Quebec, will be sworn in today as minister without portfolio. Statement by Gouin. The official statement of the retiring premier is as follows: "In 1905, after having been called upon to form a government, I drew up a program which, since that time, has appeared to carry weight and which affected every branch of the administration. "During fifteen years, I have had the signal honor of enjoying the most complete confidence of our population and, with the co-operation of my colleagues in the cabinet, as also that of my friends in the legislative council and assembly, I have applied myself conscientiously to carrying out this program. "I have given the best of my energy and of my devotion and (Continued on Page 3, Column 5).

NOON TODAY THE LIMIT FOR GERMAN DECISION ON DISARMAMENT TERMS

Unless They Are Accepted Allies Will Occupy Ruhr or Some Other Territory—Terms of the Demands—Time Limit for Reduction of Army Is Granted.

Spa, Belgium, July 8.—The joint allied-German conference on the terms of the peace treaty reached another critical point today. The Germans have until noon tomorrow to say whether they will accept the Poch-Wilson plan for disarmament. The alternative is contained in the specific threat that the allies will occupy the Ruhr or other territory if Germany cannot or does not accept. The German cabinet, of which seven of the nine members are here, held a meeting which continued from 5.15 o'clock this afternoon until eight. No decision was reached and the council adjourned until nine tomorrow morning. The prevailing view among the allies was that the allies had carried their demands, particularly the measure of occupying further German territory, much beyond any provision of the Versailles treaty, and also that the allies are taking up an aggressive position not contemplated by any clause of the treaty. The allied disarmament note was communicated to Berlin early in the day. Chancellor Brüning, after a quest with the direction that it be submitted to the reichstag and to the leaders of all the parties, whether supporters of the government or the opposition, Herr Feilerback, secretary for the views of the reichstag and the party leaders, but said that the decision would rest with the cabinet now at Spa. Private negotiations are reported to be going on tonight between Premiers Lloyd George and Millerand on the one hand and Dr. Simons on the other, but this could not be clearly established. Dr. Simons left the cabinet meeting shortly after midnight. It was said he had gone to meet the allied premiers. Demands of the Allies. The final decision of the allies sets forth: "First, Germany must immediately disarm certain of its forces, including the security police. "Second—Publish a proclamation asking for the immediate surrender of all weapons and firearms in the hands of the civilian population. "Third—Abolish immediately compulsory service. "Fourth—Surrender to the allies all arms, guns and cannon which it possesses above the limit fixed by the treaty of Versailles. The allied decision concerning disarmament reads: "On October 1 the German army will be reduced to 100,000 men, the allies will proceed to occupy German territory in the Ruhr or any other part of Germany, and will not evacuate it until all the conditions of the present agreement have been fulfilled. "Premier Lloyd George said that after three days of discussion the question it must be closed immediately. The treaty had not been executed, he asserted, and instead of 100,000 rifles there were 3,000,000 in Germany and six times as many machine guns as the treaty allowed. Suspicion Awakened. The allies had not shown strict execution of this clause of the treaty. Mr. Lloyd George continued, because they recognized the difficulties Germany was encountering. The discovery of hidden airplanes and other material, however, had caused suspicion. Dr. Walter Simons, German minister of foreign affairs, replied that the proposal was really a modification of the one-sided treaty. It did not represent an agreement arrived at as a result of a "round the table" discussion, he said. Dr. Simons declared the Germans would make every effort to carry out the conditions, recognizing that if they did not succeed Germany would have to bear the consequences, which would be serious not only for Germany but for the allies also. Mr. Lloyd George asked to have noted in the minutes formal acceptance by Germany of the conditions given by the allies. Dr. Simons asked for a postponement until noon tomorrow, which was granted. The German Delegates Agitated. Chancellor Feilerback, Dr. Simons, the foreign minister, and Herr Gessler, minister of defence, left the conference in an agitated state. They looked grim when they arrived at German headquarters in a little hotel in the pine woods. The chancellor immediately called a meeting of the German cabinet, the members of which have been arriving at Spa one by one, until only two now remain: Brüning—Herr Koch, interior, and Herr Raumer, treasury. Those who sat in the cabinet council, besides Feilerback, Simons and Gessler, were Vice-Chancellor Heink, minister of justice; Herr Wirth, finance; Herrmes, food; and Scholz, economic. General Von Seeckt, chief of staff, with some of the under secretaries, took part in the conference. Telegraphic communication was opened with Berlin, and the substance of the allied decision communicated to the foreign office, with instructions to have Ministers Koch and Raumer call together some of the leading personalities in German public life and consider the allies' demands, and then later inform the German cabinet here on their point of view. A German official, coming from the

COMPEL PULP FIRMS TO REFUND MONEY

Paper Tribunal Ruling Affects Ft. Frances Co.—Benefits Western Dailies.

Montreal, July 8.—(Canadian Press).—Late this afternoon the paper control tribunal, consisting of Justices White, chairman; Archer and Middleton, gave out a decision that the Fort Francis Pulp and Paper Company must refund to the various newspapers concerned all charges over and above the authorized prices for newsprint, amounting to about \$122,000. At the same time the tribunal allowed the appeal of the Fort Francis Pulp and Paper Company against an order ruling and allowing the company to charge \$80 a ton for paper from after December 31, 1919. While no date was set for the continuance of this order, it was understood that it would mean until the recent advance in prices allotted on July 1. In any event it was intimated by Mr. Helmuth, K.C., who appears for the company, that a decision of the tribunal would be carried to a higher court, since the company challenged the jurisdiction of the paper control tribunal. Mostly western journals are involved in the appeal of the newspapers, and the claims cover a period from January, 1919, to December 31, 1919, during which it was alleged the Fort Francis Pulp and Paper Company had charged and collected prices in excess of those allowed by the paper control tribunal. The final decision of the tribunal now states must be refunded. POISONED WHISKEY FOUND AT DETROIT. 1,000 Quarts Were Ready for Distribution in United States. DUBLIN MAIN ROADS HELD BY SOLDIERS

Military Believe Place of Detention of Gen. Lucas is About to be Changed.

Dublin, July 8.—Ten of the main roads into Dublin have been occupied since last night by soldiers, who erected barriers of barbed wire, where they halt and question occupants of all passing motor cars. The reason for this has not been disclosed, but it is understood, the military believe the Sinn Feiners are about to change the place of detention of General Lucas, who, with Colonels Danford and Tyrrell, was seized at a hut near Fermoy, County Cork, late in June. General Lucas was taken to an unknown destination, but the other officers made their escape. Reports have reached Dublin that other roads around Irish towns are also being guarded. The Dublin county council has instructed its officials not to supply any information to the British income tax authorities nor to allow these authorities to examine books or documents. Such information as is demanded is to be given only by The Dal Eiranne, the Irish republican parliament. The Sinn Fein executive in Cork has circulated among the Cork merchants several letters asking them to furnish income tax information, adding: "Any breach of this order will be severely dealt with." The Sinn Fein in the west and south is so serious owing to the stoppage of trains that many towns are adopting a rationing system as a precaution.

BELIEVED BODY TO BE SMALL'S

Birchcliffe Man Thinks Corpse on Beach Missing Millionaire's.

The discovery of the partly decomposed body of a man at the foot of Springbank avenue, Birchcliffe, last evening, at first gave rise to the conjecture that it was that of Ambrose Small, but investigation by Sergeant Tom Sockett of No. 10 police station and County Constable Davidson proved the hypothesis to be without foundation. Carodis Rhydwyn, Birchcliffe, who notified the police of the discovery, stated at the time that he had a party body to be that of Ambrose Small, the missing theatrical magnate. "Accordingly, Sergeant Sockett was immediately despatched to the scene. While the body was so decomposed as to make identity impossible, there was nothing to support the suspicion that it was that of Ambrose Small. Papers found in the coat pocket also substantiated this as there was a collected bill, dated June 10, denoting that it was since that time that death had taken place. The body was washed up on the beach and it is believed that it has been in the water about four weeks. According to Sergeant Sockett, the man would be about 45 years of age, was five feet eight inches in height and would weigh about 165 pounds. The clothes worn denoted that the body was that of a working man. The body was removed to the undertaking parlor of Nelson B. Cobbleick, 1506 Danforth, avenue, Coconet Dr. A. F. Demary was notified and an inquest will be held.

MOORE TO DEFENCE OF SIR ADAM BECK

Labor Leader Declares Drury Has Distorted Idea of Public Debt.

Ottawa, July 8.—Vigorous criticism of Premier Drury for holding up the purchase of the Hydro radials until a special commission investigates the entire situation, and declaring organized labor has fought for public ownership long to sit quietly by and see the whole proposition blocked and destroyed, Mr. Tom Moore, president of the Trades and Labor Congress of Canada, in a statement issued today, emphatically states that interference will not be quietly tolerated. Scores Dual Commission Idea. If the Ontario government has lost confidence in Sir Adam Beck and the Hydro-Electric Commission it should boldly appoint a new commission, Mr. Moore says. He believes that the creation of the dual commission will retard, if not entirely destroy the Hydro schemes. Mr. Moore declares Mr. Drury has a distorted idea of public debt and states that the Ontario government has not taken a single step to reduce the high cost of living. He asks why the provincial government should hurry so urgently to have the people from an imaginary debt. Refers to Chippewa Dispute. In his statement Mr. Moore says: "In his statement Mr. Moore says: "The Ontario government has not taken a single step to reduce the high cost of living. SIR ADAM BECK SCATHINGLY DENOUNCES DRURY'S ACTION TOWARDS HYDRO RADIALS

Hydro Knight Declares Credit of Province Jeopardized Unless Purchase of Line is Completed—Has No Intention of Resigning and Faces Judgment of the People Without Fear—Commision a Bolt From the Blue.

Notwithstanding that a resolution was carried, amid vociferous applause, that Sir Adam Beck, the chairman of the Hydro-Electric Commission, be urged to accept the nomination for the vacancy in the northeast riding of Toronto, the electric knight, in a strong, vigorous and amfuf address, which lasted two hours, when he expounded his views on the Hydro situation to delegates who assembled in the council chamber yesterday from nearly all of the one hundred and ninety-eight municipalities served by the commission, said not a word on this important subject. His speech, which held the attention of the numerous delegates, dealt entirely with the Hydro Commission business. He was not alone in his scathing denunciation of the latest move of the Drury government. He said he was more than agreeable to give all information that the government wanted, but he denounced the government's policy of appointing a royal commission. He assured his listeners that he was not a coward and that the work he had been appointed to do by the public of Ontario he would proceed with, and he had no doubt but that a radical system, which he considered of vital importance to the province, municipality-owned, would, in due course, materialize. At the outset of his peroration, Sir Adam said that he was not discouraged by the fact that he was not appointed to do by the public of Ontario he would proceed with, and he had no doubt but that a radical system, which he considered of vital importance to the province, municipality-owned, would, in due course, materialize. PROVINCE PLEDGED TO RADIAL POLICY

Says Hartley Dewar, Stating Attitude of Liberals to Hydro Policy.

H. Hartley Dewar, K.C., M.P.P., leader of the Liberal party in Ontario, gave out the following statement today: "The policy of the provincial Liberal party was declared at the convention held in June, 1919, in the following terms: "The construction of a system of Hydro-radial railways thruout the province, wherever conditions warrant expectation of successful operation. In the construction of these railways there should be co-operation with the directors of the National Railways, so that duplication of services shall be avoided and the Dominion and provincial authorities may work together for the development of province-wide systems of transportation. "Since that convention was held the taking over by the Dominion government of certain radial railways operating in the province of Ontario and thruout Northern Ontario, is the pleasing intelligence conveyed to the minister of mines by M. Y. Williams, the noted geologist, on a return from a survey of these resources. The oil, says the report, is of fair commercial quality, according to analysis, but whether it is to be easily obtained will remain for a more thorough survey, together with extensive borings, to decide. Mr. Williams is, however, privately optimistic that the amount is considerable. (Continued on Page 4, Column 4).

TROOPS IN BELFAST READY FOR TWELFTH

Belfast, July 8.—In preparation for next week's Boyne celebration, three hundred troops have arrived and more are coming tomorrow. There was a parade of artillery thru the streets today with a view of impressing possible trouble-makers. Every road into the city is being patrolled and drivers of motor cars are being held up. These precautions are the result of representations by the Ulster Unionists that, in view of the events in Londonderry, if the authorities are not prepared to keep order the Ulster Volunteers will undertake the task.

J. H. Burnham, M.P., Peterboro, Resigns His Seat in Parliament

Peterboro, Ont., July 8.—J. H. Burnham, M.P. for West Peterboro, has resigned from the house of commons, his resignation having been forwarded to the Speaker today. In a letter to Hon. Arthur Meighen, the premier, Mr. Burnham declares that the returns to pre-war political conditions have been delayed at Ottawa, "but cannot in honor be longer delayed by me," he adds. Mr. Burnham explains that he was elected by members of different political parties in West Peterboro to form part of a government that had as its purpose the successful prosecution of the war, and that now that the war is over, he has no other choice than to hand back the trust that was handed to him in 1917.

EDUCATION BOARD DIVIDES BIG MELON

Cool Million Granted by Controllers Allocated to School Buildings.

LESS THAN EXPECTED

Administrator Pearce Gives Reasons Why Sum Was Not \$1,385,800 Asked.

One million dollars, exactly, a cool million size, was the melon cut at the love feast held yesterday afternoon at the board of education administration building, College street, by the property committee, instructed by the \$1,385,800 variety which had been asked for. The \$1,000,000 schedule having been served up, devoured, and inwardly digested in private on the previous day, it was accepted smilingly yesterday afternoon, and adopted with lightning speed and alikent smoothness.

A letter was read from W. W. Pearce, business administrator, showing why the melon was of necessity of the \$1,000,000 variety. "On June 8, 1920, the board of education passed an amount of \$1,385,800 for new buildings and sites. On May 12, 1920, the board of control passed a resolution that \$1,000,000 be granted to the board of education for buildings and sites. This was adopted by the city council. I would call your attention to the fact that the board of education's estimates amount to by the council. "I have conferred with our solicitor, E. P. Brown, and he informs me that it will be necessary for a new schedule to be submitted to the council, covering the \$1,000,000 appropriation. Upon receipt of this information, I immediately conferred with the acting treasurer, Mr. Black, and he confirmed what our solicitor had stated."

PREMIER'S WIFE HAS THREE INTERESTS

They Are Her Husband, Her Children and Her Home.

Mrs. Arthur Meighen, wife of the new premier, is said to have three great interests—her husband, her children and her home. C. N. R. CROP REPORT

The agents along the western line of the Canadian National Railways, between the great lakes and the Rockies, continue to be optimistic regarding the yield of cereals to be harvested this season. The detailed crop report for the week ending July 3, which was received at the head offices of the company here this morning, contains some hard down references to such temporary conditions as need of rain, presence of grasshoppers or presence of cutworms, with attending slight all are agreed that the prospects for a bumper crop are excellent. The tone more like that of 1915 than any since that year of record crops in western Canada.

SINGLE TAXERS BAR LA FOLLETTE

Set Back For United Third Party With Candidate for President.

Chicago, July 8.—Plans of a group of liberal and radical organizations for one united third party in the United States with candidates for president and vice-president in the field received a setback today when single tax party members announced they would not support Senator Robert M. La Follette, who is expected to be the choice of the other groups.

The single taxers, who arrived today to prepare for their convention, which opens Saturday, declared they would bolt the combine and nominate a separate ticket if the majority chose La Follette. While the single taxers were threatening to present their own ticket, Amos Pinchot and George L. Record, of the committee of forty-eight, were in Madison, Wis., today, conferring with La Follette, who has received a majority of a mail straw vote of the party.

The committee of forty-eight and single tax conventions open Saturday, and on Sunday the Labor party of the United States, another prospective member of the proposed third party combination, meets here. The National Non-Partisan League, Triple Alliance of the Northwest, National People's League of Minnesota, World War Veterans, and National Public Ownership League, have been invited to send fraternal delegates to the conventions and later endorse the platform and candidates.

SOVIET WILL OPEN OFFICE IN CANADA

Ludwig Martens Declares He Has Received Permission To Trade With Canada.

New York July 8.—Ludwig C. A. K. Martens, chief of the Russian soviet government bureau here, this morning announced that he had received authorization from Ottawa for the establishment of a Russian soviet commercial office in the Dominion.

The soviet agent formally applied for permission to open a Canadian office about two weeks ago and has been in correspondence with the department of trade and commerce in regard to this move since then. This morning, he informed the Canadian Press, he received a letter from Sir George Foster, stating that the Canadian government would offer no objection to the maintenance of a commercial office by the soviet government representatives for the purpose of looking after purchases made in Canada.

Martens told the Canadian Press that he could not say yet where the Canadian bureau would be situated. "We will open the office just as soon as the necessary arrangements can be made," he said, "but none of the details has been worked out as yet. It will probably be either in Montreal or Toronto, however."

Martens this morning issued a statement regarding the lifting of trade restrictions with Russia by the United States government. He expressed skepticism as to the effectiveness of the United States government's declaration as an explicit declaration for free trade between Russia and the United States, but "undoubtedly it will lead to further modification of America's

ORNAMENTALISTS RETURN TO WORK

Canada Wire and Iron Company Grant Strikers 85 Cents an Hour.

Ornamental work on the Fantages Theatre, on the union station, and partly on the board of education and university buildings recommences this morning, the Canada Wire and Iron Co. having granted the 85c demand of the union. Hours and conditions are to be settled later. Work on Loew's Theatre is still delayed. Inside ornamental iron construction on other buildings remains untouched. This was the situation in the strike of the Ornamental Iron Workers up to 10 o'clock last night. Colonel Cowan, manager of the Luxfer Prism Company, which has charge of the inside iron work on Loew's Theatre, stated to The World yesterday afternoon that if it was to pay more than 70c an hour he did not continue in business. He further stated that the fact that bricklayers were receiving \$1 an hour by agreement formed no criterion for the ornamentalists, the bricklayers' time being regulated by climatic conditions, and the ornamentalists, being on the inside construction work, were not hindered by rain or an climatic conditions; in fact, inside men could work the whole time, outside men only part time at the best. The situation was such that workmen were demanding increasingly exorbitant wages.

Leonard Bowring, business manager, replying to Colonel Cowan's statement, said that the men demanded a living wage consonant with the skill involved in the work. He stated that the men anticipated effecting a satisfactory agreement.

The shipyard people have had no trouble of any sort with the union. The Architectural Bronze Company and others not already mentioned remain adamant in their refusal to meet the men's demands. Wages Greatly Increased. In the course of his interview with The World, Colonel Cowan of the Luxfer Prism Company stated that he had increased the wages of his men 25 to 30 per cent, since the beginning of the year, or by 15c. The representatives of the men in reply stated that this wage merely indicates that the wages current at the close of 1919 in this industry were far below the average, and that Colonel Cowan merely acted in consonance with his knowledge and appreciation of the situation.

PREPARING TO STAGE REVOLT IN BRUNSWICK

London, July 8.—A Central News despatch from Berlin dated Wednesday reports that preparations are proceeding for a revolution in Brunswick. The extreme radicals, it is declared, are working feverishly on plans for a general strike at the week-end, and a new revolutionary committee is said to have arranged for a big mass-meeting within a day or two to consider the question of drastic action.

Two Nurses' Associations in Convention at Pt. Arthur

Port Arthur, July 8.—The annual convention of the Canadian National Association of Trained Nurses and Canadian Association for Nurses' Education, two distinct bodies, is in progress here this week. Among distinguished delegates are: Mrs. Plumtree, president of the Ontario Red Cross Society; Miss Gunn, superintendent of Toronto General Hospital, and president of the Trained Nurses' Association, and Miss Johns, Vancouver dean of British Columbia University.

Aim to Abolish Piece-work Among Employes of Quebec

Montreal, July 8.—A special committee of the superior council of hygiene now sitting in this city, will make a recommendation to the parent body, when it convenes in August, that manufacturers of the province be asked to abolish piece work and "sweating" among their employes, in order to conserve the health of the population and prevent the now alarming spread of tuberculosis.

BIG FIRE LOSS IN SPAIN

Toledo, Spain, July 8.—Fire has destroyed a big mill in the village of Villaseca, with enormous quantities of wheat and flour. It is estimated that the damage will amount to 4,000,000 pesetas. At the same time, the electric power house adjoining is said to have been destroyed, leaving 15 villages in the province of Toledo without light, while the irrigation works were damaged to such an extent that a quarter of a million acres are without water.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over ninety years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuralgia, Joint Pains, and Pain generally. A tin box of 12 tablets cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers. Manufacturers, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross".

NORRIS GOVERNMENT DECIDE TO CONTINUE

Stated to be Official Announcement—Not Fearing a Coalition.

LABOR MEETING THIS WEEK

Winnipeg, July 8.—The Free Press bulletin today says: "Definite decision to carry on the administration has been reached by the Norris government, according to information supplied today from an official source. The government, according to the Free Press informant, has decided that there is no other alternative, even if they believed the vote showed a lack of confidence in the government. The government, however, has decided that the public to a large extent, is behind their return to power and that a sufficient support will be accorded them in the next legislature. Little stock is taken by ministers in the reports that a coalition strong enough to command a majority can be formed by members of the opposition to government support, and according to the statement the administration is certain of a good working majority. As a matter of fact," declared a high official, commenting on the report, "we would not be allowed to do other than continue."

Interests with regard to the groups which will compose the house caucuses today about the meeting of labor members to be held Saturday. Observers point out that the failure of the Conservative group to amalgamate with either the Labor or the Independent members makes it certain that the opposition will be largely composed of Labor and members supporting them.

Rumors that the government would meet the Farmers with a view to the formation of a Farmer-Liberal coalition were stated to have no official foundation by members of the cabinet interviewed today.

CHAIRMAN OF REUTERS ARRIVED IN LONDON

London, July 8.—Sir Rodrick Jones, chairman of Reuters Limited, and Miss Edith Barnold, daughter of Col. Arthur Barnold, were married at Chelsea Old Church this afternoon by the Archbishop of Capetown.

Among the bride's attendants were Lady Hermione Lytton and Lady Cynthia Lytton. Sir Campbell Stuart acted as best man. The honeymoon will be spent in Puttindin Manor, Surrey.

Armour and Co. Announce Recapitalization Plan

Chicago, July 8.—Armour & Co., bankers, have announced a recapitalization plan, under which a syndicate will be formed for the distribution of \$80,000,000 7 per cent. ten-year convertible gold notes, dated July 15, and redeemable at 105 and accrued interest.

The entire proceeds will be devoted to the reduction of current liabilities, it was announced. The notes will be offered at 94.44, and will be convertible on Jan. 1, 1921, par for par, into class A stock of the company.

BECK DENOUNCES DRURY'S ACTION

(Continued From Page 1).

construction of radials. "Inside information, however,"

Speaking with great earnestness, Sir Adam declared: "My resignation will not go into the hands of the public, who have their trust in me until I see indications from them that I should do so. I will not leave the work as a coward." He said if the government was not satisfied with the estimates they had the remedy in their own hands. He would not become a snigger. "Only ill-health will make me quit."

Sir Adam told his audience that he was going on as usual. Today he goes to interview the officials in regard to radial activities at the Suspension Bridge sector, where the Hydro lines will be considered, have the patronage of at least half a million people. "Some one must build radials. Is it to be the municipalities, the Dominion government or the private corporations?" queried the speaker. He thought it significant that Attorney-General Meighen should have said a few days ago: "Shall radials be conducted as a provincial, municipal, or private undertaking?"

Province is solvent.

Sir Adam deprecated the croakery which said that the credit of the province would be jeopardized thru the activities of the Hydro system. He quoted from a reputable bond house that they offered half a million bonds of the town of Peterboro on its own credit. "Surely the municipalities, backed by the public of Ontario, can get as easy credit for a miserable one million dollars as the citizens of that progressive city obtained. If we go to the bank and are refused, surely there is something radically wrong," asserted the speaker.

Attacks Latchford, J.

The Hydro knight with some reluctance referred to a report of the proceedings held in connection with the timber probe which has recently been aired. His reluctance, however, was overcome by his duty to the public. Quoting from the official stenographer's notes, he said that Mr. Justice Latchford had queried from ex-member of parliament Carriek how the Hydro commission could expropriate private concerns thruout the province. "What a timber probe has to do with the Hydro system is beyond me, and I have no doubt has caused many thoughts in anxious minds."

Banker is Scared.

Sir Adam thought it very significant what he learned from Sir Albert Edmund Holt, president of the Royal Trust Company, whom he placed as one of the strongest financial men in Canada, when that gentleman told him that his company would not put a dollar into the province of Ontario because of the interference with vested rights. "This means that he is asking the working men, the farmers, the taxpayers of this province to invest their hard-earned savings with his corporation at three per cent. and loaning it at least at seven per cent. but not in this province. Has he denied this statement?" quoth the speaker.

Why a Commission Went.

"Why should Attorney-General Raney ask the people of the province to waste ink and paper in answering the question what the majority is for and against the Hydro system were?" He has got them, said Sir Adam, who affirmed that in 19 townships, 2 villages, 12 towns and five cities, the total votes polled, involving an expenditure of thirty-six million dollars (including Windsor) the vote was 60,114 in favor and 13,618 against. "Those who voted were ratepayers."

Week of the Queen City Yacht Club, at the foot of York street. Rottling of the underpinning precipitated the whole structure into the lake on Wednesday morning. The caretaker, who was uninjured, escaped by a window.

to carry on the gigantic operations to which we are pledged." He wanted to ensure whether it was the advice and experience of these experts or the opinion of a royal commission which should rule. The meeting gave a very decided answer in favor of the staff. He reminded the delegates that the Hydro Commission had secured the best talent from the G.T.R., the C.P.R., the C.N.R., to help make the Hydro the success it was, and in his opinion, would accomplish.

Scored Ingram.

While not intending to be unkind to Vice-Chairman Ingram of the Ontario Railway Board, Sir Adam could hardly be said to have offered the "glad hand." He observed that Mr. Ingram had stated that "we are not able to run the London and Port Stanley Railway." He dares not say it is not a successful railway. How many votes would you get against that railway? Everyone is satisfied but Ingram. The scheme, said Sir Adam, was prepared by the Hydro engineers, and approved by no less an authority than William S. Murray, consulting engineer of New York city, so well known in electrically operated railways in the States.

Government's Liability.

Speaking in regard to the government's liability for bonds guaranteed in the operations of the Hydro, Sir Adam said: "The government has no liability until every municipality becomes bankrupt." He pointed out that steam roads were faced with coal at double the price of pre-war days, wages and other things in proportion, yet municipalities have shopped or electrically ran them at the beginning of the Hydro undertaking.

Sir Adam considered the agreement that the Hydro Commission had come to with the Dominion government was highly beneficial to our provincial interests. He instanced what had happened in Hamilton, where a right of way had been acquired alongside the national line, for the Hydro, which, with others, would save the municipalities about six million dollars. "We can become co-partners with the Dominion government. We have a big friend there. Other interests have got millions from that government, why not the municipalities? We will get the best of the bargain," said Sir Adam, amidst much applause.

Mr. Cooper, on July 8, replied to Sir Adam as follows:

Cooper's Letter.

"Sir Adam Beck—

"With respect to the probable time when two units of the Chippawa plant can be made available for commercial operation.

"You have given me a complete outline of your future construction program and with this program I am in accord. If you carry out this program you should have the two Wellman-Seaver-Morgan units (20,000 h.p. each), ready for commercial operation on Oct. 1, 1921.

"With respect to the probable costs

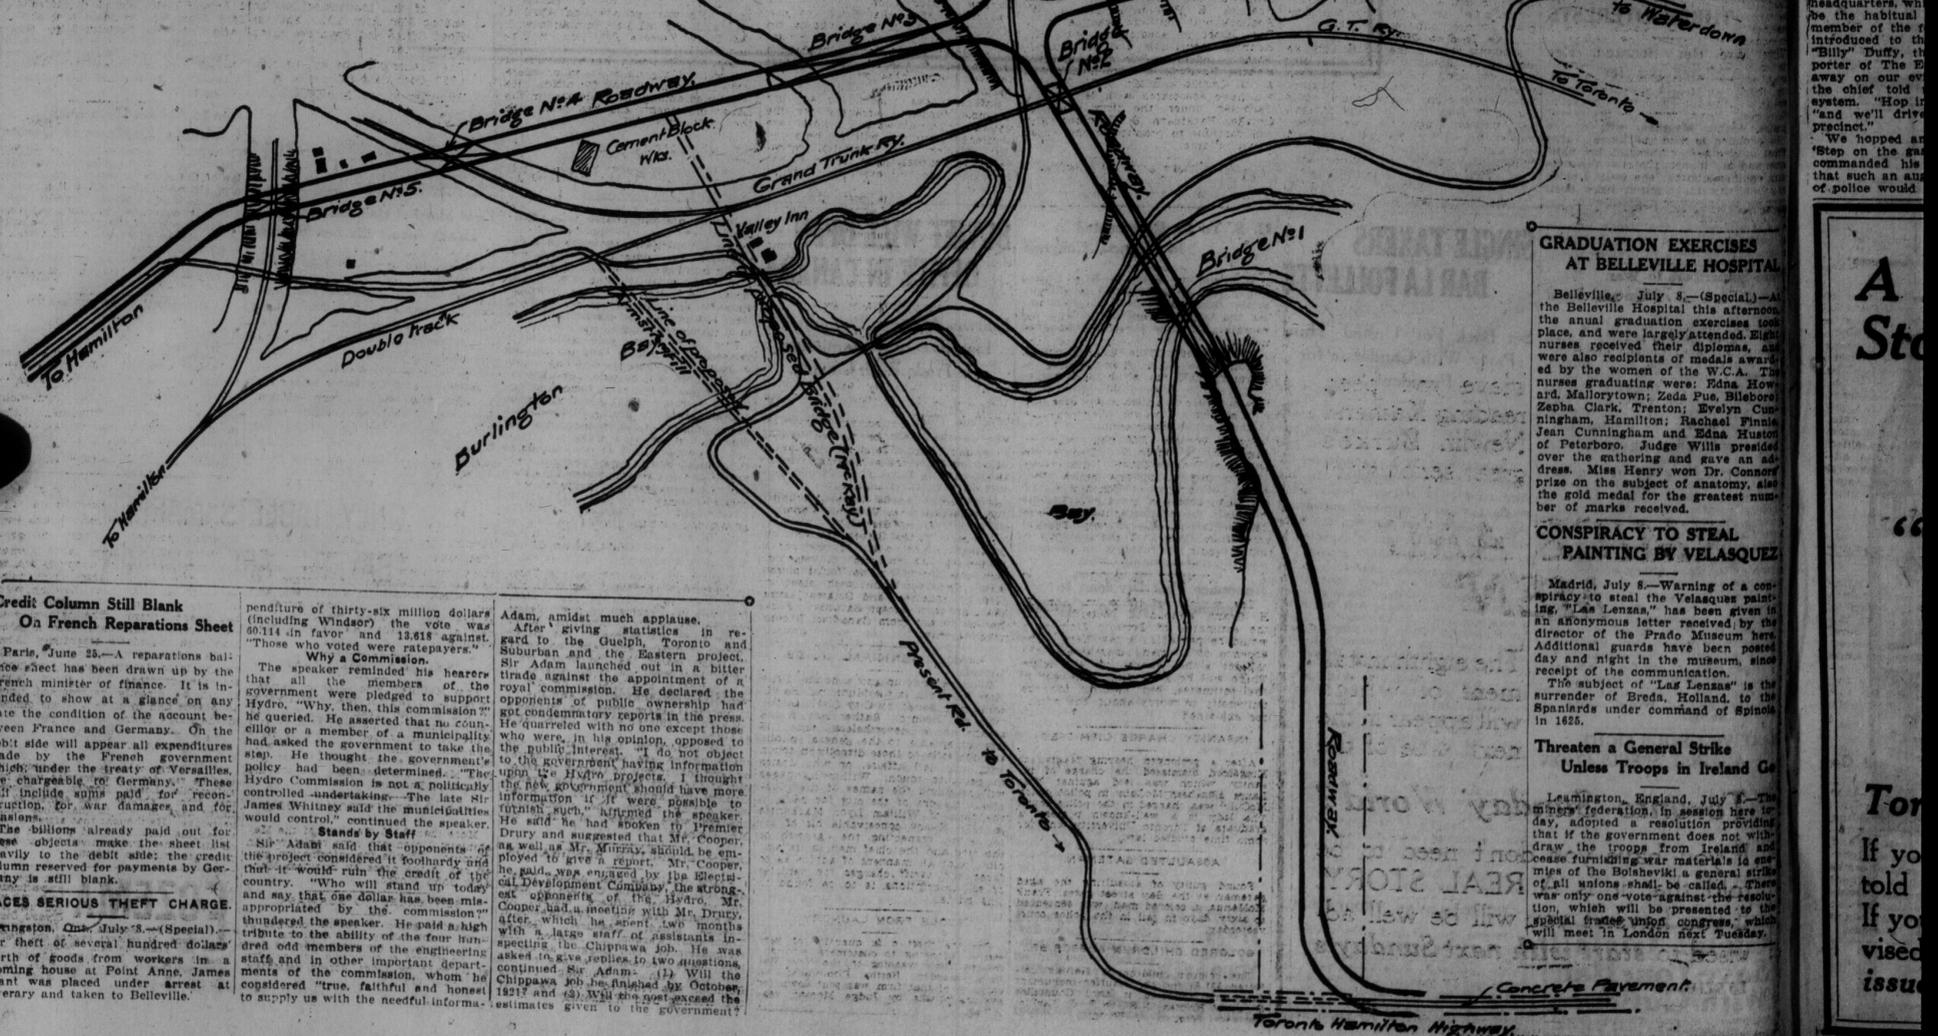

of the works as now designed, we are in substantial agreement with the figures you have recently submitted to the provincial government.

"Hugh L. Cooper & Co."

In conclusion, Sir Adam said that he was more than pleased with the arrangement made between the Dominion government and the Hydro for the interchange of traffic. He said the people of Ontario represented half the people of Canada, and pointed out the advantages which would accrue from the arrangement. "Trust the people. Ask the people, not a royal commission, to determine. If my life and health are pre-

HAMILTON'S NEW HIGHWAY ENTRANCE

In Hamilton the other day Hon. F. C. Bligg announced the plans that have been decided upon for the new entrance to that city from the Toronto-Hamilton Highway. As shown in the above map, the new roadway leaves the highway at a point east of Hamilton Bay, crosses the narrow end of the bay over a bridge and turns to the left, where it is joined by the highway from Guelph and Dundas street, going from there straight into the city. The present road goes over Burlington Beach and to the city by a round-about way and the new roadway represents a considerable saving of distance.

Credit Column Still Blank On French Reparations Sheet

Paris, June 25.—A reparations balance sheet has been drawn up by the French minister of finance. It is intended to show at a glance on any date the condition of the account between France and Germany. On the debit side will appear all expenditures made by the French government which, under the terms of Versailles, are chargeable to Germany. These will include sums paid for reconstruction, for war damages, and for pensions.

The billions already paid out for these objects make the sheet list heavily to the debit side; the credit column reserved for payments by Germany is still blank.

penditure of thirty-six million dollars (including Windsor) the vote was 60,114 in favor and 13,618 against. "Those who voted were ratepayers."

The speaker reminded his hearers that all the members of the Hydro. "Why, then, this commission?" he queried. He asserted that no councillor or member of a municipality had asked the government to take the policy had thought the government's of the interference with vested rights. Hydro Commission is not a politically controlled undertaking.—The late Sir James Whitney said the municipalities would control the commission.

Stands by Staff.

Sir Adam said that opponents of the project considered it foolhardy and that it would ruin the credit of the country. "Who will stand up today and say that one dollar has been misappropriated by the commission?" thundered the speaker. He paid a high tribute to the ability of the four hundred and other members of the engineering staff, and to the other important departments of the commission, whom he considered "true, faithful and honest" to supply us with the useful information.

After giving statistics in regard to the Guelph, Toronto and Suburban and the Eastern project, Sir Adam launched out in a bitter trade against the appointment of a royal commission. He declared the "opponents of public ownership had got condemnatory reports in the press, who quarrelled with no one except those who were, in his opinion, opposed to the public interest."

to the government having information upon the Hydro project. I thought the new government should have more information if it were possible to furnish such," affirmed the speaker. He said he had spoken to Premier Drury and suggested that Mr. Cooper, as well as Mr. Murray, should be employed to give a report. Mr. Cooper, he said, was engaged by the Electrical Development Company, the strongest opponent of the Hydro. Mr. Cooper had a meeting with Mr. Drury after which he spent two months in a large staff of assistants inspecting the Chippawa job. He was asked to give a report to two associations, continued Sir Adam. (1) Will the Chippawa job be finished by October, 1921 and (2) Will the cost exceed the estimates given to the government?

BOLSHEVIKI CROSS BERESINA RIVER

Poles Call for Volunteers Service Against the Advancing Reds.

Warsaw, July 8.—Bolsheviks, after several fruitless attempts, succeeded in effecting a crossing of the Beresina in strong force near Navosnalki, southeast of Borisov, announced by today's Polish official communiqué. "A smaller detachment forced the Beresina south of Beresina village, further to the southeast, and effected a crossing of the river. The advance against the advancing Bolsheviks are called for by the Polish national council of defence in a message just issued. Besides calling on the Polish army, the communiqué urges men unfit for active military service to register in order to release themselves from military duty at the front. The communiqué bears the signature of President Pilsudski; declared the struggle against Bolsheviks rather than against Russia."

Another proclamation, addressed to the Polish army, says "The Bolsheviks have arrived in which Poland's fate is to be decided. It aures the soldiers that in case they are wounded, their families will be cared for by the government, and that provisions will be made by the government for the families of those killed in battle."

Soviet Army Successes.

London, July 8.—Russian Bolshevik forces have smashed their way toward the southern flank of the Polish front and Soviet military authorities claim success in a serious battle near Staroborski, in the district which town they are distributing heavy fighting is going on between the Bolsheviks and Polish command by General Wrangel, on the southern front, the struggle being particularly intense in the region Orlikow, the statement says.

Rovno Capture Confirmed.

Paris, July 8.—Reports of the capture of Rovno, one of the three main fortresses in western Russia, by the Bolsheviks are confirmed by Polish official statement issued yesterday and received here today.

GRADUATION EXERCISES AT BELLEVILLE HOSPITAL

Belleville, July 8.—(Special).—At the Belleville hospital, this afternoon, the annual graduation exercises took place, and were largely attended. Eight nurses received their diplomas, and were presented with medals awarded by the women of the hospital. The nurses graduating were: Edna Howard, Mallorytown; Zeda Puse, Belleboro; Zepha Clark, Trenton; Evelyn Cunningham, Hamilton; Eastern Finlay, Jean Cunningham and Edna Hunter, of Peterboro. Judge Willis presided over the gathering and gave an address. Miss Henry won Dr. Connor's prize on the subject of anatomy, and the gold medal for the greatest number of marks received.

CONSPIRACY TO STEAL PAINTING BY VELASQUEZ

Madrid, July 8.—Warning of a conspiracy to steal the Velasquez painting, "Las Lencas" has been given in an anonymous letter received by the director of the Prado Museum here. Additional guards have been posted day and night in the museum, since the receipt of the communication.

The subject of "Las Lencas" is the surrender of Breda, Holland, to the Spaniards under command of Spinola in 1625.

Threaten a General Strike Unless Troops in Ireland Go

Leamington, England, July 8.—The miners' federation, in session here today, adopted a resolution providing that if the government does not withdraw the troops from Ireland and cease furnishing war materials to enemies of the Bolsheviks a general strike of all unions shall be called. The vote was only one vote against the resolution, which will be presented to the special trades union congress, which will meet in London next Tuesday.

ROSES PROFUSE IN ALEXANDRA PARK

Beautiful Display Attracts Hundreds—Educational Features.

How many in Toronto are frequenters of the Alexandra Gardens? Passing the park now established on the site of the old Goswami homestead, a number of people, mostly women and children, may be noticed resting or engaged in some sport. Few, however, seem interested in the wealth of roses which form a riot of color and fragrance in the section wired off and devoted to the culture of the queen of all the flowers—the real rose.

Yesterday a representative of The World lifted the latch of the gate and, venturing over the finely clipped grass which lay between the flower beds, walked to where a gardener in the distance was bending over his task of raking the earth about the flowers. All about were roses in many varieties of specie and color, and their guardian and cultivator, J. H. Harrison, appointed by the parks commission to work with his favorites with all the tenderness and knowledge which the Scotch gardener brings to his work.

From him it was learned that people come from all over to see the roses and learn something of methods of growth and improvement.

Then some of the plants nearby were described. There were "Ellen Poisons," the baby rambler, with its pretty white and pink petals; "Pharis" with the large pale pink corolla; "Trassau Tepitz," with peculiarly rich dark red shades; and in another bed the stately "Duchess of Sutherland," with pale pink ravishing beauty. The "Lyon" variety had blossoms of the coral shade which is so fascinating, and the tea rose "Earley Kirk" was of the somewhat rare yellow. Among others were the "Mrs. J. J. Welsh," a big loose pink variety; "Killarney," now fairly well known; the "British Queen," pure white; the "Prince of Bulgaria," pale pink; and the beautiful "Lady Berrie," with strong, straight-standing buds in delightful coral shades.

"Come and see the original Briar Bush," was the introduction to the plant that has become famous in story and song, the specimen shown standing about five feet in height, the small dark green leaves being a striking foil for the open blossoms of pure white.

Many Imported. Rose growing in Toronto has become more than a hobby. Many are making it a serious scientific and artistic study. Some are achieving such professional skill in the art of growing roses as to be able to import from Scotland and other lands. For the information of the public small wooden labels are attached to sticks stuck in the earth, bearing the name and the date of importation. Last month the roses were at their best, but the bloom is still brilliant and in quantities sufficient to form a delightful "rosarium," the rose-lover's delight. The establishment of rose culture under the supervision of the parks commission is a tangible sign of the ever-increasing interest in the development of the flower so dear to the people of the world over. As an educational feature the Alexandra Gardens are of a delightful character, knowledge of the courteous and well-informed gardener being at the service of all inquirers.

SOCIETY

Conducted by Mrs. Edmund Phillips.

The marriage of Mr. Douglas Walter Campbell, cousin and heir-presumptive of the Duke of Argyll, to Mrs. Harrington Morgan, widow of the Hon. Harrington Morgan, judge of the civil courts of justice, Khartoum, took place on June 11 in the chapel of the old Charterhouse, London. The master of the rolls officiated. Mr. H. de la Duchesse of Argyll was present. The bride was dressed in champagne crepe de chine, draped with gold lace, veiled with brown crepe, embroidered in gold, and she carried a bouquet of orange and yellow roses. There were four bridesmaids, Mary and Teresa Morgan, the bride's little daughters, and Misses Elizabeth Probyn and Patricia Ravencroft. They wore frocks in newest shades, and had wreaths of sweet peas in their hair, and carried baskets of the same flowers. The bridegroom was in a tuxedo, and the bridal party left the chapel, sprays of flowers were distributed among the guests.

PROVINCE PLEDGED TO RADIAL POLICY

(Continued From Page 1).
Members of the legislature that this matter was in process of adjustment.

"The province is pledged to the Hydro-radial policy, but no one expects that the whole system of radial transportation can be built at once. Financial conditions have to be considered."

"I have had no opportunity for consulting with the Liberal members of the legislature as to how far they approve of the new commission, and I cannot therefore express any views that bind them, nor do I desire to do so."

"At the very beginning of the year, I took the liberty of urging upon Hon. Mr. Drury the reconstruction of the Hydro-Electric Commission. Sir Adam Beck was in favor of a commission of five members. I urged upon Mr. Drury then the necessity for reorganization of the commission. One member, Mr. Lucas, had no confidence in the people, and should never have been retained after his government went out of power. Sir Adam Beck represented the Conservative party, and Labor government, and I suggested then to Mr. Drury that the people of the province of Ontario, whom the Liberal party in the legislature represented, were equally entitled to recognition and representation."

Parsonnel of Commission.
"I took the position also that there should be added a representative of the municipalities, and that the fifth member of the commission should be a competent engineer."

"The appointment of such a representative commission of five would have enabled us to understand the whole question of finances and cost of operation."

"In my personal opinion, reorganization of the Hydro-Electric Commission would have been unnecessary to have another commission appointed to advise as to what the first commission and the government should now do."

"Mr. Clarkson's reports upon financial matters have been submitted, but they are simply advisory reports, which the commission is not bound to accept."

"I am absolutely satisfied that the Liberal members of the legislature are in favor of Hydro-radial development, coupled with the reorganization of the commission, and the responsibility of the commission to report all its expenditures in detail to the government, and thru the government to the people of the province. The government must act for all the people of the province, and they have an interest in every part of the expenditures which the government guarantees on behalf of all the people of the province."

SUCCESS IN RAISING MINISTERS' SALARIES

Bay of Quinte Methodist Conference Meets and Hears Reports.

Belleville, Ont., July 8.—(Special).—The Bay of Quinte conference Methodist ministerial support committee met in the Albert College this afternoon. Mr. J. M. Green of Peterboro (chairman) and Dr. J. E. Middleton of Peterboro (secretary) conducted the meeting. Representatives, both lay and ministerial, were in attendance from every district, and the Dominion committee was represented by Mr. Denzil G. Ridout, secretary. Reports as to the progress of the campaign to raise ministers' salaries to the new minimum were made. Evidence was given to show that every circuit in the Bay of Quinte conference will make a special effort to give adequate financial support to its pastor. Among those present were Rev. Coon, the president of the conference; chairmen of districts, H. K. Denyes, M.L.A., of Halloway, F. E. O'Flynn, K.C., of Belleville, and R. W. Ireland of Wellington.

CLAIMS JAPAN DISLIKED BY THE WHOLE WORLD

Tokyo, July 8.—Umehiro Suzuki, member of parliament for Tokyo, in an attack on the budget in the house of representatives yesterday, declared that Japan was disliked by the whole world, and asked if the government had any definite policy to steer it thru the present critical period.

Premier Hara, in reply, said he did not think that Japan was disliked by the world at present, but that on the contrary, he was inclined to the opinion that Japan was fairly on the way to be regarded as a progressive nation and one of the five great powers. There were undoubtedly many things which Japan, as a great nation, must be more watchful about, the premier added, but he wanted to denounce the attitude of the minority which considered that Japan was fairly on the way to be regarded as a progressive nation and one of the five great powers. LICENSE CHIEF CALLED BY DEATH

Edward Charles Davenport Served for Thirty-five Years at City Hall.

Edward Charles Davenport, who for thirty-five years had held the position of chief of the license department at the city hall, died at three o'clock yesterday afternoon at his home, Dundas street, Lambton, in his 75th year. Deceased was born in Leek, Staffordshire, England, in 1844, and came to New York in 1873 to take charge of the mercantile business of John P. Jones. In 1878 he came to Toronto and was bookkeeper for Smith & Wilby, Weston, afterwards being taken on the staff of the license department, which position he held until his death.

GOVIN HAS RESIGNED QUEBEC PREMIERSHIP

(Continued From Page 1).

I have had the satisfaction of having attained the goal that I set before myself.

"I feel that I should now confide to other hands the work of peace, concord and prosperity which the Liberal party has striven to accomplish in this province since 1897."

"My successors, I am convinced, will pursue this work with energy and success."

"Thanks to the harmony that reigns among all the groups of our population and to their intelligent and effective collaboration our province is developing rapidly and already occupies a very enviable position in the Dominion. I have an unalterable faith in the brilliant future that attends it. The ambition of my life has been to merit the confidence of my fellow-citizens and in taking leave of them as prime minister, I am gratified to think that I have been worthy of that confidence. I offer to them my profound gratitude for having afforded me the opportunity of working so long for the welfare of our province, and, at the same time, thank my zealous and devoted collaborators very sincerely."

Career of Louis Taschereau.
The Hon. Louis Alexander Taschereau, attorney-general of the province of Quebec, and tomorrow most certainly its prime minister, is head of the law firm of Taschereau, Roy, Cannon, Parent and Fitzpatrick of Quebec. He comes of a distinguished family that has given many leaders to the church, to the state in the provincial legislature, and subsequently lieutenant-governor of the province. Mr. Taschereau was educated in the Quebec Seminary and Laval University, beginning his professional career as a partner of Sir Charles Fitzpatrick, the present lieutenant-governor of Quebec.

First elected to the provincial legislature in 1900, the attorney-general has been one of the strong men of the Liberal party ever since, and has been for some time the chief lieutenant of Sir Lomer Gouin. In 1907 the portfolio of minister of public works and labor was offered him and he remained the

Manitoba's Crop Outlook is Still Very Encouraging

Winnipeg, July 8.—"On the whole the crop outlook in Manitoba is very encouraging," says an official report given out this afternoon by the provincial department of agriculture. It is stated that reports from probably 75 per cent of the points are entirely satisfactory, while from others there is some word of lack for recent harvesters.

YOU NEED MORE THAN A WISHBONE TO CUT LOOSE AT POKER

Did you ever take a walk up thru the swill districts and pipe all the things that money can buy? Pink lamp shades, striped awnings, big machines, smooth lawns and toy poms—and did you ever wonder where the fashion fiends get all the kale? Say, you'd be surprised.

With a lotta reporters gettin' back to nature for a spell, I've had a chance at the newspaper game for a couple days, and what a scoup scoup don't find out it aint worth mentionin', grab that from me!

In the old days, if a dame ticked a ticket in a lottery game at a ice cream social she'd be classed as too speedy to be spoken of above a whisper, but, nowadays, a big bird can do a lotta things and get away with it, and its real thing to belong to poker clubs and wile away a bunch of perfectly good afternoons and evenin's liftin' somebody else's Louies. Gamblin' is bein' gone in for more than its worth and believe me, Carl, it aint worth such a muck in if it takes away both your principal and your principle and leaves you nothin' but a pile of unpaid bills.

But where there's a loser there's always a profiteer and the dame who organizes these harmless little poker clubs is the same dame who swishes around in a classy machine and sports a coupia summer house. Her kale come easy, for the modern Jane is usually a ninny when it comes to "harmless amusement." New members start fresh every day.

Breakin' into one of these sunshine clubs where they play for profit aint so hard—if you've got the kale—it's breakin' out that's the difficulty, for once you're invited to sit in at a game it's all off with your roll and your rep. Its get all the pile, then you lose, still, little by little, you're cleaned out and first thing you know you're throwed out into the jug for gitchin' somebody's bracelet to help pay taxi bills—and bluey, you're done!

And it all comes from leavin' y ur fingerprints on a pack of harmless cards.

CONNAUGHT PARK JOCKEY CLUB LOSES CUSTODY OF LITTLE BOY

RAIN INTERFERES AT NORTH RANDALL

Cleveland, July 8.—After the first race, a dash for three-year-old trotters, had been raced at North Randall today, a heavy rain set in, flooding the track to such an extent that the balance of the Grand Circuit program was postponed until tomorrow. Miss Montgomery, favorite, won, cascaded up. It was Miss Montgomery's sixth victory of the year. Today's postponement makes it necessary to crowd three days' racing into tomorrow and Saturday. Six races, including the Ohio Stake for 2,000 class trotters, and the Taverser Stake for 2,14 class trotters, both with a value of \$5,000, will be decided tomorrow, weather permitting, and five events will be continued Saturday. The 2:05 trotting sweepstakes was definitely called off. The summary: 1/2 mile dash, 3-year-old trotters, purse \$250—Miss Montgomery, b.f., by Peter Montgomery (Edman) 1. Torbay, b.c., by Dillon Axworthy 2. Sister Azoff, b.f., by Azoff (McMahon) 3. St. Roberts, b.c., by Lord Roberts (Willis) 4. Betty K., b.g., by Binjolla (Erakine) 5. John Waits also started. On Saturday Broadview ground again supplies the soccer tit-bit, and the two games staged there are bound to attract a crowd that will tag the ground to capacity. In the first game, commencing at 2:15, Ulster United meet All Scots in the first division of the Senior League, and a sterling game is certain to result. On the last occasion on which these teams met All Scots gave the Ulstermen quite a scare, and it was only after a very exciting finish that they were able to claim the points by a narrow margin of one goal. The second game, between Old Country and Toronto Scottish, will be no less exciting, and, as each team is determined to capture the points, a close and exciting game will take place.

REGATTA COURSE NEEDS DREDGING

RAIN INTERFERES AT NORTH RANDALL

The Dominion Day Regatta Association held a meeting last night at the Toronto Canoe Club to receive reports on the balance left to carry over until next season, and it was shown from the numerous entries that it was the most successful regatta ever held in Canada. The future policy of the association will be to foster ladies' events, and all the local clubs will be encouraged to enter crews. A special committee was appointed to wait on the harbor commission and endeavor to have improvements made on the Hanlan memorial course. It is as present too shallow for canoe events, and with very little work it could be made into the finest course in Canada. The committee will also try to have the course kept absolutely clear of all craft on regatta day. The C.C.A. championships will come to Toronto next year, and it is hoped that the course will be in the proper shape by that time. The champion Balm Beach ladies' war canoe are hunting for new laurels. They are endeavoring to get a series of races with some of the crews of American ladies' colleges. Other postponed games are as follows: St. Marys v. Bellwoods, 6:30 p.m., Ramaden Park, Monday, July 12; Bellwoods v. St. Patricks, 6:30 p.m., Ramaden Park, Thursday, July 15; St. Francis v. St. Marys, 6:30 p.m., Ramaden Park, Monday, July 19; Hebrews v. Melbas, 6:30 p.m., Riverdale Park, Monday, July 12; Herzle v. St. Adams, 6:30 p.m., at Riverdale Park, Wednesday, July 14. RESULTS AT DELORMIER. Montreal, July 8.—Delormier Park results today are as follows: FIRST RACE—Purse \$500, 2-year-olds, 4 1/2 furlongs: 1. Miss Holland, 107 (Connors), \$12.70, \$5, \$4.80. 2. Laura, 117 (Dunkinson), \$3.70, \$3.10. 3. Dorothy, 107 (Gibson), \$4.50. Time 1:00. Bonnet o' Blue, Buaybird and Voornut also ran. SECOND RACE—Purse \$500, 3-year-olds and up, claiming, 3/4 furlongs: 1. Sandriver, 117 (Connors), \$5, \$3.40, \$3.30. 2. Mildred, 100 (Atkinson), \$9.10, \$5.10. 3. Alex Gutz, 112 (Hunt), \$4.40. Time 1:07 4/5. Dr. Hall, Ella Jennituz, Lobelia, Cousin O'Mine also ran. THIRD RACE—Purse \$500, 3-years and up, claiming, 1/2 furlongs: 1. Pleasure Bent, 110 (Dunkinson), \$4.40, \$3, \$2.40. 2. Lady Betty, 117 (Garner), \$3.20, \$2.60. 3. All Amias, 112 (Hayward), \$3.30. Time 1:24. Galopin, Mondaine, Dix Rogers, Rose Richmond also ran. FOURTH RACE—Purse \$500, 3 years and up, 5 furlongs: 1. Resist, 110 (Garner), \$4.80, \$3.60. 2. Skyman, 112 (Hayward), \$3.20, \$3.50. 3. Yorkville, 112 (McIntyre), \$2.90. Time 1:08. Guardeman, Canvasback, Bipestle also ran. FIFTH RACE—Purse \$500, handicap, 3 1/2 year-olds and up, 6 furlongs: 1. The Desert, 109 (McIntyre), \$3.30, \$3.10, \$2.70.
