MILES BREWER OF YORK MISSING
Has Not Been Seen Since Sunday Night
SEARCH PARTIES OUT

Country Around About is Heavily Wooded—Hedley F. Staples Dies in West—No Farm Laborers' Excursion This Year

Frederickton, N. B., July 29.—Miles Brewer of Stone ridge, York county, a small settlement a short distance from Bartlett's Corner, has been lost since Sunday night and there are grave fears for his safety. This morning fifty men from the saw mill of the E. J. Lumber Company at Bartlett's Corner, were sent out to aid in the search, the mill being closed.

Mr. Brewer is a brother of Byron Brewer of Fredericton, and is about forty-five years old. He made his home with his widowed step-mother, Mrs. Jeddiah Brewer. Last spring Mr. Brewer had a severe attack of influenza from which he never completely recovered. On last Sunday night his stepmother went to a neighbor to get some person to help him. On her return her stepson had disappeared.

An alarm was sent out and yesterday search parties looked for the unfortunate man but without success. The country is heavily wooded. Relatives here have received word that Hedley F. Staples, formerly a resident of Fredericton, died on Saturday in Regina, aged fifty years. Bright's disease caused death after an illness of some six weeks. He is survived by his wife, formerly Miss Margaret Allen of Fredericton; four brothers and one sister, Alonzo of Fredericton, Rainford of Woodstock, Millard of Cranbrook, B. C., Arthur of Los Angeles and Mrs. William Mills of Wilton, Ont. His eldest son, Lieut. Harold Staples, was killed in action in last August in France, having gone overseas with the 7th Battalion, C. E. F. from Regina. Four daughters and one son survive, of whom one, Marion, is now in Fredericton. Mr. Staples was some twenty years ago and established the insurance business there. While in Fredericton he was in the grocery and other businesses.

CAPTURED IN A HALIFAX STORE
Government Meeting

Halifax, N. S., July 29.—Two Montreal men, George Craig and Leo Gerwin, were captured by the police at 8:30 a. m. in a haberdashery store in Barrington street, into which they had gained an entrance. Gerwin has recently served a prison term in Halifax for burglary. Valises filled with loot were discovered. A cordon of police surrounded the store to prevent the culprits from escaping.

Transport of Soldiers—The St. Stephen - St. John Road

At a meeting of the provincial government this morning a delegation came before the members to enquire as to what was being done regarding transportation for soldiers to the city for August 14. The committee were given a definite answer for this afternoon. The delegation consisted of Mayor Hayes, A. O. Skinner and S. H. Mayes of the Citizens' Committee and N. F. McLeod and Wm. Vassie of the G. W. V. A.

SIR EDMUND WALKER IS HOME FROM ORIENT

Victoria, B. C., July 29.—Sir Edmund Walker, president of the Canadian Bank of Commerce, reached here last night from the Orient after a survey of conditions in China and Korea. He said that the trade leadership rested on trade knowledge, he had taken this trip to acquaint himself with conditions in the Far East. It was acknowledged that the commercial field of the future lay across the Pacific. Korea, with its vast possibilities as an export country, particularly in the matter of beans, held excellent possibilities in banking lines. He had found that the same banking system as used on this continent sufficed in the Orient.

Twenty Dead In Chicago Riots
Second Night of Terror In Black Belt

WILD TIME IN STREETS
Hundred Thousand Negroes and as Many Whites in Combat or in Centre of Melee—Firearms, Knives and Razors Used, Houses Burned and Stores Looted

Chicago, July 29.—Four thousand soldiers with full war equipment stood ready today to quell the rioting between negroes and whites that during two nights of terror in the south side black belt cost the lives of at least twenty men, including one negro policeman and the injury of hundreds of others, many seriously and probably a dozen fatally. The police and the soldiers were unable to make a complete check of the casualties but reports showed nineteen killed last night of whom twelve are whites and seven negroes.

Two Hundred Thousand. A hundred thousand negroes and an equal number of whites either fought the streets and alleys or crowded in their homes while shots were fired, mounted policemen galloped along the boulevards, patrol wagons dashed through the streets with prisoners and wounded women and children screamed as men fought with knives, knives and fists. When the rioting broke out fresh last night Mayor Thompson asked Governor Lowder for troops. By midnight four regiments were in armories on the south side, but by that time the police had cleared the streets for the rioting and rounding up looters.

The tactic of blood on Sunday night selected the appetites of hundreds of adventurous persons who had long grieved at the rapid influx of negroes, formerly constituting a fine residential quarter of the south side. Property had decreased in value and whites had migrated to other parts of the city by thousands, but many others had clung to their homes while the streets and one of the largest parks became thronged with negroes.

Both parties to the contest, changed by stories of the cruelties of the other during Sunday night's melee, deliberately armed themselves last night and went out to stalk their prey. As soon as darkness fell the fighting in various forms became fierce. In some cases negroes in automobiles dashed through the streets, firing at whites encountered. In other cases whites attacked the buildings occupied by negroes, while the inmates fired back from barricades. Bands of both races marched through the streets and fought battles that ceased only when the pavement was covered with dead and wounded, and the mounted police had spurred their horses through the mass.

Many individual fights, hand-to-hand struggles with knives and razors added to the casualties. Men and women were dragged from street cars until the company stopped running them through the affected area. In one instance a band of whites passing a mansion in Grand Boulevard and resenting the occupancy of the palace by blacks, were fired on from the house.

As the night wore on and the bands of terrorists swarmed through the streets, looters and incendiaries appeared. Several houses were fired, and one was burned. Some stores were broken open and sacked.

Toward daylight the less aggressive having been driven to cover, went out in force to the streets. Whites and negroes fought in the streets and dragged covering porters from all night restaurants and hotels to the streets and flogged them unmercifully.

Among those injured during the night were three members of the 7th Regiment, who were beset by negroes while on the way to their armories. Corporal J. Riggs was shot in the back; Charles Williams was shot in the side and J. N. Hibbins was slashed with a razor. Mayor Fred Hayes was found probably fatally beaten, presumably by negroes. An automobile containing Adjutant-General Dickson was fired on but without damage to the occupants.

Mr. Hiram Hornbeam was manifestly elated this morning. He entered the "Times" reporter's room with a lively step and fairly beamed as he sat down. "You look as if you had sold a fall this morning," casually observed the reporter. "I don't sell calves—raise 'em. We need 'em all to stock up this province." "You look like ready money, though," said the reporter. "Had a streak of luck?" "I've—I'm to be there when the Prince lands."

By that time, said Hiram, "I'll be right there." "Hired a room yet?" "To dress in." "What fur?" "I guess I kin do that afore I leave the settlement."

GERMAN LABOR MEN ON GRILL

THEY ARE HEARD IN DEFENCE

SAY THEY ACTED CORRECTLY AND WERE UNDER IMPRESSION THEY WERE FIGHTING DEFENSIVE WAR—WHAT BECAME OF LATER GIVEN BERNSTORFF TO DELIVER?

Amsterdam, July 29.—The preliminary gathering today of the International Trades Union Congress developed a series of accusations by British, French, American and Belgian delegates against the German workers for their conduct during the war. This led to sharp imprecations by both sides. The meeting was to clear up the affairs of the old trades union international and make preparations for a new organization. Mr. Merens, Belgian, declared that the German trade unionists had not protested against their military authorities during the war.

THE AMERICAN LEADER TO LIGHT A COMMUNICATION HE SENT TO LEGISLATION IN explaining the letter. In which he endeavored to persuade the Germans to protest against the Lusitania incident. This was contained in a letter carried by Count von Bernstorff, German ambassador to the United States, when Bernstorff was recalled. Legation officials having received the letter, Herr Sassenbach, a German Socialist, handed in a resolution containing a statement in explanation of the German workers' attitude during and since the war. Many things were done, the resolution said, under the full knowledge of the German government, and that would never have been done in the light of the truth now being brought home. It is said the German workers' attitude during the war was to do their duty without wronging the laboring classes of other countries and without falling in their own national obligations.

WASHINGTON, July 29.—President Wilson today transmitted to the senate the special treaty with France by which the United States pledges itself to come immediately to the aid of that republic in the event of an unprovoked attack by Germany and to its early ratification, "along with the treaty with Germany."

Substitution of the treaty came after sharp criticism by senate Republicans, who for several days had openly charged the president with falling to present the draft of the pact along with the treaty of Versailles, the president had vetoed one of the articles of the document. The president did not follow his usual custom of presenting the treaty in person. He sent it to the capital by special messenger along with a message explaining its object.

THE PRESIDENT told the senate the purpose of the treaty was to provide assistance for France in case of unprovoked aggression by Germany without waiting for the advice of the council of the League of Nations, but under it, "The covenant of the League of Nations," the president said, "provides for military action for the protection of its members only on the advice of the council of the league—advice given, it is presumed, only upon deliberation and acted upon by each of the governments of the member states only if its own judgment justifies such action."

Pointing out that the "treaty shall receive the approval of the council of the league," the president said it would remain in force "only until upon the application of one of the parties to it, the council of the league, acting if necessary, by majority vote shall agree that the provisions of the covenant given by the league afford her (France) sufficient protection."

Mr. Wilson said he was moved to sign the treaty by the ties of friendship binding the two countries and the assistance France gave America in its struggle for independence. Without this assistance, the president said, it was seriously to be doubted whether America could have won its independence and added: "Nothing can pay such a debt."

AT THE HOSPITAL. It was reported from the General Public Hospital today that Mrs. Catherine Woodley, who was injured recently when she was thrown out of a carriage, is improving and will be quite recovered in a few days.

John Kelly, who was thrown from a horse at Mispic recently and was taken to the General Public Hospital, was discharged from the hospital yesterday, recovered.

PRESENTATION TO REV. MGR. VARRILY

Priest Ends Work as Pastor of West Bathurst Where He Has Been Since 1877

On the evening of last week representative members of the congregation of the Holy Family Church invaded the presbytery and surprised the pastor of the West Bathurst parish last week, addressed his farewell remarks to his parishioners at the home of the Rev. Mr. Varrily by presenting to him a delicately worded address and a parting evidence of their respect and affection. Varying in length from a few minutes to a half hour, the address was a masterpiece, ornamented with precious stones.

Mr. Varrily, who closed his long and distinguished career as pastor of the West Bathurst parish last week, addressed his farewell remarks to his parishioners at the home of the Rev. Mr. Varrily by presenting to him a delicately worded address and a parting evidence of their respect and affection.

In 1880 a disastrous fire destroyed the Holy Family Church and for two years services had to be held in the Convent. In the same year the parish was divided and the following year Rev. William Doucet was appointed the first priest of the Bathurst parish. Father Varrily's parish being known as Bathurst of St. John's.

During the pastorate of Mr. Varrily great changes have taken place in the community, in a worldly sense as well as in a spiritual. The condition of the people has vastly improved and the town and the surrounding country have wonderfully prospered. The population of the district has increased greatly during the last ten years.

MISER MURDERED; HIS MONEY GONE

Quebec, July 29.—In the Chicoutimi district a Patis, Theodore Kostino, was killed and robbed to death on Sunday morning in a bank house at Kenogami. Kostino was attacked in his sleep. A verdict of murder was turned in by a jury. The victim lived alone and was exceedingly avaricious. He was said to have hidden a large sum of money somewhere in his shack and the fact that no money was found either on his body or in his place of abode leads the police to believe that he was murdered for loot.

GLACE BAY MINERS PUT INTO EFFECT A FIVE DAY WEEK

Glacé Bay, N. S., July 29.—Beginning this week the miners employed by the Dominion Coal Company will inaugurate a five-day week in accordance with an overwhelmingly favorable vote at a referendum held recently in connection with the U. M. W. decision. The intention is that no coal mining or hoisting will be done on Saturdays, only repairs and similar work. The five-day week is being put in force by the U. M. W. on its own initiative, no arrangements being made with the company for it.

NEW IRISH PROPOSAL?

(New York Times.) London, July 25.—The Irish question is expected to come up for parliamentary discussion at an early date, when it is suggested by the parliamentary controller of the Daily Chronicle, who is in close touch with Lloyd George, the prime minister may announce a definite government policy. It has been too hastily assumed, according to this authority, from Lloyd George's references to the matter on last Monday, that the government has no policy. In the contrary, the government not only knows its own mind but has formed definite conclusions as to the best course of action, which is so great a danger in misty and foggy weather, it is not unlikely, we think, that every ship which goes to sea will be eventually fitted with this new installation, and we shall all be spared the harrowing accounts of the daily press resulting from some terrible collision at sea.

CONQUERING THE FOG

(New York Post.) William Marconi's new invention for the purpose of protecting vessels during a fog was discussed recently at the annual meeting of the Marconi International Marine Communication Company, Ltd., in London. Godfrey Isaacs spoke of the direction finder, saying that, in connection with Marconi's latest invention, it promised to prove a great boon to navigation. "This new discovery provides a means whereby a ship in the dense fog which is so great a danger in misty and foggy weather, it is not unlikely, we think, that every ship which goes to sea will be eventually fitted with this new installation, and we shall all be spared the harrowing accounts of the daily press resulting from some terrible collision at sea."

FOUND TWO BODIES.

Sault Ste. Marie, Mich., July 29.—Members of a party returning after a fishing trip made in a privately-owned hydroplane, reported that while fishing on the north shore of Lake Superior, they found the bodies of two men, believed to be members of the crews of two French minesweepers, lost in a terrific storm late last year.

Wreckage and a little raft from the steamer John S. Dunham, lost some years ago, also was discovered by the hydroplane party.

The most terrible thing a man can hear

Back from the war, this son of wealthy parents had to confess a secret marriage to a poor village girl. He knew he had broken his mother's heart. And then he heard the most terrible thing a man can hear.

In "Home to Mother," Kathleen Norris has written what Major Norris declares to be her greatest story since "Mother."

He was punishing himself for falling in love—

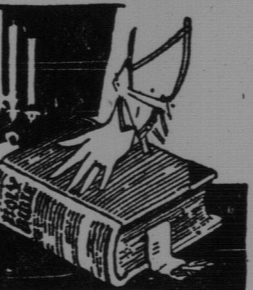

And then he came back in the strangest way. Read "The House of Baltazar" by William J. Locke. It's the best yet.

If your child is different—

Could your child pass a test for mental efficiency? Do you know that what is often mistaken for stupidity is caused by bad eye-sight? Do you know one child in every five is handicapped by malnutrition? Dr. Frederick Peterson's article on "Child Training" is one of the greatest yet published anywhere.

Does a woman know how to be honorable? A woman's club proposed 86 women for membership—in order to black-ball them. Do you know of a man's club which would do that? "A Woman's Honor" is a challenge. And Good Housekeeping is offering a hundred dollars for the best answer to the charge.

CONCERNING CANDIDATES

The Standard recently named a provincial government ticket for this constituency, and asserted that the ticket had been formed by a small group of men. Indeed it intimated that this method of nominating candidates was always adopted by the Conservatives. Nobody gave any serious attention to what the Standard said about the alleged government ticket, and now it repeats the assertion. It also pretends to believe there will be a third party, composed of bolters from the government party.

In its transparently artful and foolish way the Standard is trying to make capital out of the names of the candidates for the group that the Standard and the liquor dealers, and to foment suspicion and prejudice among Liberals. When the time comes to hold the provincial elections a convention of the government party will nominate its candidates, and they will be supported by so many of those who formerly supported the Standard's machine-made candidates that a government victory will be assured.

The Standard would be giving some real news if it would give the names of the opposition candidates the machine has selected. Has it found anybody willing to go before the people and shout for a return to office of the men whose record in the Valley Railway, the crown lands, the patriotic potato deal and other matters was revealed by royal commissions? If there are any such persons, the people should not have the knowledge concealed from them for a moment. They should be warned at once.

ROADS AND AUTOMOBILES

There are quite too many automobile accidents to be charged up against the state of the roads. The roads are far from perfect. An immense amount of work has been done on them, but they were in such condition when Hon. Mr. Veniot became head of the department of public works that it will still take a long time and a large expenditure to put all of them and all parts of them in good condition. The like is true in regard to bridges. The work is being done, however, and whoever travels through the country and is honest pays tribute to the minister for the extent of the improvement already made. He himself would be the last to say that there are no bad places in the roadways that need places of replacement. What he does say, and with justice, is that he only began looking after the roads two years ago this month, and that in all only about ten months of work have been possible since that time. In an interview in today's Telegraph he tells what has been done on the trunk roads of the province, and it is a record of which he has every reason to be proud, for a great deal of work of a heavy nature has been done. He is able to quote the Chatham World, which is not a supporter of the Foster government, and whose editor sharply criticizes the Standard for its senseless misrepresentation in discussing the roads.

To refer again, however, to the question of automobiles, the number of accidents and near-accidents brings out very clearly the fact that there must be a great deal of incompetent as well as reckless driving. The only remedy for that appears to be a system of licenses, and public opinion is steadily moving in the direction of such a provision in our laws.

PRINCIPLES AND LEADERS

The Toronto Globe has this interesting paragraph in an article on the political situation in Canada:

"There is no need for Liberal-Unionists to say that they would rather return to their old political home than dwell in the tents of Conservatism, were it not that they distrust the present hope of greatly reduced cost would not be justified."

The Soldier Day parade promises to set a new standard for such events in St. John. All who can should lend hearty assistance in everything relating to the success of the celebration. The decision of the Labor men to take part in the parade is another assurance that it will be an imposing one; for the unions can turn out great numbers of men.

The Sackville Post calls attention to a problem that grows steadily more serious in this province when it says: "Some of the schools of the province are not likely to open very promptly next term, the simple reason they will be without teachers. The daily papers already contain many teacher-wanted advertisements. One St. John daily carried over forty such advertisements yesterday."

A MACHINE GUN BRIGADE HERE

Authority Granted and Organization to Be Begun at Once—Total Strength 472

Authority has been granted for, and instructions issued to organize a machine gun brigade, Canadian Militia, in New Brunswick to be known as the New Brunswick Machine Gun Brigade, with headquarters at St. John. Organization is to commence immediately and it is hoped to interest recruit machine gun officers and men and any others who would care to join this attractive unit.

Training establishment is as follows: Headquarters and 3 companies—each company, 3 platoons of 8 guns each; each platoon, 2 sections of 4 guns; each section, two sub-sections of 2 guns. A platoon consists of one captain and two subalterns and forty N. C. O.'s and men. The total brigade is forty officers and 469 rank and file, making a total of 472.

It is proposed to recruit headquarters and one company in St. John city; one company headquarters at Fredericton with platoons at St. Stephen, Fredericton and Woodstock; one company headquarters at Moncton and platoons at Moncton, Bathurst and Sackville; this arrangement being subject to change to suit the success met in organizing the department, beginning immediately will issue passports without restriction as to sex or age on statement that the proposed visit is "legitimate and reasonable."

The department, however, in view of the crowding of transatlantic steamships, advises all persons planning to visit Europe to ascertain in advance from steamship agents whether they will be able to obtain passage. Such persons also are advised to inquire of the consuls of the countries which they proposed to visit, whether they will be able to have their passports issued therefor.

Secretary Lansing said that issuance of passports to persons planning pleasure trips to Europe would begin on Nov. 1, unless reasons now unforeseen prevented.

NO SIGHT SEING IN EUROPE TILL NOVEMBER

Washington, July 29.—Relaxation of restrictions on the issuance of passports to European countries, except Germany, Austria and Russia, is announced by Secretary Lansing.

While passports will not be issued until after Nov. 1 to persons wishing to visit Europe solely for pleasure, the department, beginning immediately will issue passports without restriction as to sex or age on statement that the proposed visit is "legitimate and reasonable."

ANGRY BULL GOES BOY THROUGH HEART

Saco, Me., July 29.—Pursued by a bull which he had struck with a stick when he and Wesley Smith, aged twelve, went after the cows in the pasture of George Nutter on the Buxton road, Frank Chick, eleven, struck his head against the animal's horns, which pierced his heart, killing him instantly. Lifting the boy's body on his horns, the bull threw him in one side.

Chick's companion ran to his side, and finding him dead, told some neighbors who hurried to the scene and got the body from the pasture.

The two boys were charges of the New York County Children's Aid Society, and had been placed in the home of the Nutters, who were very much attached to them. Usually Mr. Nutter accompanied the boys to the pasture, but this time he and his wife were picking blueberries and the lads thought they would provide a surprise for them by putting the cows in the barn before they returned home.

Believes End Of The World Is Near

James Moore Hickson, "healer," who has been in Boston for some time, declared the other day in an interview that he believes the end of the world is quite near. "The return of the Lord is drawing nigh," he said. "The signs of the times clearly demonstrate it. Read the Bible. The prophecies are being fulfilled. Look at the war we have gone through. See all the struggling yet going on. What of the masses of the Armenian? If we were so unfortunate as to be among those people, we too, might believe the end of the world is here.

"Another proof is the return of the world to the three planes of education and training. We are a trinity and there is a trinity of planes, the mental, physical and spiritual. For many, many years they have eliminated and forgotten the spiritual, and trained along the other two. What is the result? We see it all around us. People are now learning we must have the three and are returning to the spiritual again."

In the Chathamian tent on the High School grounds yesterday afternoon an able address on "The World's Triumph" was delivered by Sergt. Ruth Farmann of the Serbian Army.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curved lines of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Thinness and weakness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by the Ross Drug Co. in St. John and most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphate food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright, and pale cheeks glow with the bloom of perfect health.

CAUTION—Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not, owing to its remarkable flesh-growing properties, be used by anyone who does not desire to put on flesh.

HIGHER PAY FOR THE STORE GIRLS

Minimum Wage Set by Board in Saskatchewan \$9.50, Rising to \$12.50 Before End of a Year

Regina, Sask., July 29.—Minimum wages for female employees in retail stores in Saskatchewan have been fixed at \$9.50 for beginners during the first three months, \$10.50 the next three months, \$11.50 the third three months, and \$12.50 for the balance of the first year. Thereafter the employees are to be deemed experienced and to receive a minimum wage of \$15 a week. The hours of work are to be forty-eight in the first year, and to be reduced to forty-four in the second year. These were the decisions announced tonight by the Saskatchewan Minimum Wage Board, following sittings at which evidence was heard at Moose Jaw, Prince Albert, Saskatoon and Regina.

Out of 639 adult women and girls reported employed in this class of work in this province, 841 are being paid wages from \$6 to \$15 a week, and a large proportion will have their pay automatically increased when the board's order becomes effective, which will be about the middle of September. Provision is made for an extension of the hours of work under special circumstances, when permits may be issued by the secretary of the board not to exceed thirty-six days in any one year. The minimum of \$15 a higher for than any effect in the other western provinces, the figure being \$12 in Manitoba, \$12.75 in British Columbia and \$9 in Alberta.

The board will meet again to fix hours and minimum wages in other classes of employment provided for in the act.

Stores Open 8.30 a.m.; Close 5.50 p.m.—Friday 10 p.m.—Saturday 12.50 p.m.

RECENT WEDDINGS

Stevens-Morell.

In the Baptist church at Springfield, N. B., on July 16, Gertrude Morrell, daughter of Anna Jane and the late Solomon Morell, was united in marriage to Roy O. Stevens of Lancaster, N. H. The service was performed by Rev. J. E. Gosline, pastor of the church, assisted by Rev. J. E. Shandlin, pastor of the Methodist church, Belleisle Station. The bride was attended by her sister, Miss Edith Morell, of Cambridge, Mass., and the groom was supported by Avarc C. Northrup, a nephew of the bride. After a short honeymoon trip, they returned to Belleisle Station, where a reception was given in their honor by Mrs. E. A. Northrup, a sister of the bride, and Mrs. Stevens will reside in New Hampshire.

The marriage of Elijah Shaw of Bath (N. B.) and Mrs. Adelia I. Currie, formerly of Bath, was solemnized at 4 o'clock yesterday afternoon at the residence of George W. Currie, 76 Queen street, Rev. S. S. Poole, of the German street Baptist church, officiating. Mr. and Mrs. Shaw will make their home in Bath.

RECENT DEATHS

Alexander Duncan.

The death of Alexander Duncan, who for many years was a faithful employe of the C. N. R. in St. John, occurred yesterday. Mr. Duncan had been in poor health for a long time but he bore his sufferings with great patience. He was the only son of the late Stephen Duncan, of this city. He is survived by his wife, one daughter, Miss Mary, of Manning, James and Frederick, all at home and one sister, Mrs. John Willis, of Amherst (N. S.), besides a number of relatives. He has many friends who will mourn his death.

Many friends in St. John and elsewhere will hear with regret the death of Mrs. Eliza J. Payne, which occurred yesterday at 70 Westworth street. Deceased was a highly respected resident and leaves one daughter, Mrs. Emma Logan, two sons, Ernest B. McDonald, of St. John and Albert E. of San Francisco. One brother and one sister also survive. The funeral services will be held on Tuesday evening at 8 o'clock. The burial will be at the Chipman for burial Wednesday morning.

The death of Rev. Canon F. S. Sills occurred in Cobeco, New York recently. He was formerly of this city, having been assistant to Rev. Canon DeVeber at St. Paul's previous to 1884.

TWINS CELEBRATE 68TH BIRTHDAY

Penobscot, July 26.—On Wednesday Mrs. Elizabeth H. Penobscot celebrated her sixty-eighth birthday. A unique feature of the celebration was the presence of her twin sisters, Mrs. Thomas Taylor of Salisbury. It is seldom that twins of their age both live to hold their sixty-eighth birthday anniversary under the same roof tree.

Among those present, beside the immediate members of the family, were her brother, William Chittick, Anagance; Mr. and Mrs. Thomas Taylor, Salisbury; her other sisters, Mrs. Sarah Smith, Anagance; Mrs. Emma Manning, Lowell, Mass.; and Mrs. Margaret Chittick, Penobscot; also Mr. and Mrs. A. E. Pearson and Miss Carrie Hall, Sussex, and Mr. and Mrs. Herbert Hall, Lonsdale.

An unusual fact was that it was also the birthday anniversary of the third member of the immediate family, her daughter-in-law, Mrs. Byron Hall.

The birthday cake was set in a wreath of sixty-eight rosettes and was jointly cut by the twin sisters. Their many friends wish them many happy returns of the anniversary.

MORNING NEWS OVER THE WIRES

In further riots between white and colored people in Chicago yesterday, five of the former and two of the latter were reported killed.

Dr. P. J. Strycker, secretary to Cardinal Mercier, has arrived in New York to arrange for the visit of the Belgian prelate in September.

Mrs. Gladys Dunn pleaded guilty to manslaughter yesterday in the court at Mass. She said she had intended to shoot herself following a quarrel with her husband. The bullet struck her child.

The Owen expedition to Labrador has arrived safely at Battle Harbor. A former St. John boy, Joseph Halpin, is with the party.

Arrangements have been made whereby the Prince of Wales will invest Royal Air Force members in Canada with decorations won in the war, but not yet received. It is announced that he will be accompanied by the Royal Marine Light Infantry Band.

Mayor Gray of Winnipeg gave evidence yesterday in connection with the trial of the eight strike leaders under arrest there, saying the strike committee had ruled the city for ten days.

THE TRANSFORMATION CONTINUES. Toronto, July 10th, 1913.

To the Editor of the Times:—Sir,—All over Ontario, premises that were formerly used for the manufacture or sale of intoxicants are being changed into buildings for useful purposes. Breweries and distilleries are being converted into factories or storage houses; bar rooms into drug stores or banks; liquor stores into groceries or bakeries.

This is occurring all over the province with a resultant improvement in the appearance of many streets in the towns and villages, and the moral betterment of the community as a whole.

The same thing is already in progress in the United States. The National Adu-vocate reports that a brewery in Flint, Michigan, has become a church; one in Aberdeen, Wash., has become a cannery; one in Spokane is making vinegar; one in Mobile is making syrup and stock feed from watermelon; one in Rhode Island is producing moving pictures; one in Seattle is turning rice into syrup; one in Chicago is a hospital, and another is a soft drink factory; one in Salem, Ore., is now making logan berry juice; one in Washington, Pa., is making paints, oils and var-

nish; one in Wheeling is packing meat and several others are in the dairy business. The huge Anheuser-Busch brewing plant in St. Louis, according to report, is to be converted soon into a packing plant establishment; one in Kansas City is passing into the hands of a food products concern. Many of these establishments now employ more workers than when in the beer business.

If we add to these wonderful changes for the better the number of men who have been withdrawn from a harmful business and engaged in useful occupations, and add to that the food stuffs that were turned into poison, but now go to feed the people, we will get a glimpse of some of the blessings that follow prohibition.

CROWDS ENJOY IMPERIAL BILL

Norma Talmadge in "The Probation Wife" Charms Large Gatherings

Imperial Theatre actually turned people away last evening so great was the volume of patronage. The attraction was Norma Talmadge—that delightfully refreshing little star—in Angela Rosser's well known romance "The Probation Wife." The other pictures included British News Budget with late movies of the Prince of Wales, the Mutt and Jeff cartoons and the Literary Digest Topics of the Day.

The Probation Wife proved a charming picture. To Mowbray is the most attractive girl in the Domino Cafe. She has been taught to steal money from the patrons of this establishment, and when Harrison Wade, a wealthy New Yorker, enters on a slumming party, he is suggested to her as a victim. Wade notices that she is inexperienced and offers her money, part of which she is to keep for herself and thus make her escape. The management is notified of Jo's intentions and prevents her escape. A few days later the cafe is raided, and Jo with the rest of the other girls is sentenced to three years in the reformatory. At the end of the second year she escapes.

Jo decides that the one way to get the things in life she wants is through men. That was the only way she had ever been taught. On the train she sees Harrison Wade and offers herself to him for pretty clothes, a home, and whatever else he may be willing to give her. She receives the surprise of her life when Wade informs her that he is going to marry her. Jo soon becomes established in Wade's home, acting as his wife in name only. She calls herself his probation wife.

HON. MR. VENOT AND THE ROADS

Regarding a resolution passed by the Retail Merchants' Association relative to the highway between St. Stephen and St. John, Hon. P. J. Venot, minister of public works, said yesterday that had the association read the report of the chief road engineer which appeared in the press some time ago they would have seen that provision had been made for the necessary work on this road. The department has been at work on the road and the poor section complained of forms no part of the trunk road.

Mr. Venot said that he did not contend that all the roads in the province were in good shape but since he had taken them over in July, 1917, he had been busy upon them since, about nine and a half months in all, for that was all the time they had been able to work. He was quite willing to have representatives of the association take a trip over the road at his invitation and to accept their verdict.

A car in which were William Griffin and his two sons, Thomas and William, skidded on the Golden Grove road yesterday, turned over twice in a roll down a fifteen foot embankment; but neither the car nor the occupants were injured.

BROWN'S FLAT MAN IS KILLED BY LIGHTNING

Walter Parker of Brown's Flat was killed instantly and his wife severely shocked when lightning struck their house yesterday morning. A few years ago Mr. Parker had a close call when his skull was fractured by a falling tree. Besides his wife he leaves three brothers and two sisters—Arthur Parker of Greenwich, Fred of Queenstown, John of Princess street, St. John, Ethel, a tailor with A. Gilmour & Co., St. John, and Alice, now Mrs. Lyden of this city.

"I were a-layin' down behind the breastworks one day," said the veteran prevaricator, "a-ferm' at the benemy, an' a-tittin' of 'em hevy time, when 'eas the patter of a 'orse's soles be'ind me. Then a voice said:

"'Hi, there, you with the deadly hair! Just come 'ere, 'alf a mo'."

"'I turned round an' saluted at who should be it but the general. 'E come up and shook me by the hand."

"'Logan General,' sez I."

"'Your first name?' sez 'e."

"'Dan, sir,' sez I, 'Dan Logan.'"

"'Well, Dan, sez 'e, 'so 'ome. You're killin' too many men. It don't seem 'ardly fair. It's massacre, that's wot it is. An' look 'ere, Dan, don't call me general—call me Herbert.'"

ARREST DE VALERA IF HE COMES INTO CANADA

Ottawa Despatch Intimates Intention to Hand Him Over to British Authorities

Montreal, July 29.—A special despatch from Ottawa to the Gazette says: If Eamon De Valera, "provent of the Irish republic," visits Canada, he will be arrested and handed over to the British authorities. While the government has made no official pronouncement on the subject, there is little doubt of the course that will be pursued if the Sinn Fein leader comes to this country. One minister has said that on the arrival of Mr. De Valera, he would soon realize that this country is British, and no sanctuary for fugitives, political or otherwise, from British justice. The Sinn Fein leader is a political prisoner who escaped from custody.

Britain Means to Promote Cultivation of Cotton There

London, July 29.—The House of Commons last evening unanimously passed the second reading of a government bill to aid the Sudan to raise a loan of £2,000,000 for irrigation, railway construction and the development of 300,000 acres of land at the confluence of the White and Blue Nile rivers.

The main purpose of the bill, which is meeting with strong approval in the House of Commons, is to promote cotton cultivation in the Sudan, and thus render Lancashire less dependent on the United States for cotton.

SHOWED HUNS WHERE FRENCH SOLDIERS HID

Eleven Death Sentences and Six Acquittals in Case of "The Laon Informers"

Paris, July 29.—Sentences were delivered last evening in the case known as "The Laon Informers." Of twenty-eight accused, eight were condemned to die, two of them being women; three others were condemned to death by default. Six were acquitted and the remainder received sentences of from one to twenty years' imprisonment.

The charge was denouncing compatriots to the German authorities during the occupation of Laon. In many cases the hiding places of French soldiers, who had escaped the German advance, were pointed out, with the result that a large number of soldiers were executed.

Old Folks' Coughs, Catarrh, Bronchitis Quickly Cured

This Tells of a Method That Cures Without Using Drugs.

Elderly people take cold easily. Unlike young folks, they recover slowly. That is why so many people past middle life die of pneumonia.

Cough Syrup seldom do much good because they upset digestion. Any doctor knows that a much more effective treatment is "CATARRHOZON," which heals and soothes the irritated surfaces of the throat.

In using Catarrhozone you do not take medicine into the stomach—you simply breathe into the throat, nose and lungs rich piney balsamic vapor, so full of healing power that colds, catarrh and bronchitis disappear almost instantly.

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure medicinal essence, whereas with a syrup the affected parts could not be reached and harm would result through beaoming the stomach with drugs.

Catarrhozone inhaler in your pocket or purse enables you to stop a cold with the first sneeze. Large size costs \$1.00 and small size, 50c. Trial size, 35c.; all storekeepers and druggists, or The Catarrhozone Co., Kingston, Canada.

NURSE HAS NEVER SEEN ITS EQUAL

Miss Murray, in Twelve Years Professional Experience Had Never Seen Anything Like Tanlac for Building Up Run-down People.

"I have been a trained nurse for twelve years, and have had a great deal to do with medicines, but when it comes to building up people on a weak, run-down condition, I have never seen anything to equal Tanlac," said Miss A. Murray, who lives at 222 Warwick Block, Winnipeg, while talking to a Tanlac representative the other day.

"I turned thirty-five cases of influenza last winter," continued Miss Murray, "and I had to work night and day almost and that was too much for me, and pulled me down something awful. Finally I had an attack of the 'flu' myself, and after pulling through that, it was in an extremely weak, run-down condition. I was just utterly exhausted all the time, I was very nervous, and for the first time in my life, I was unable to sleep well, and would very often lie in bed and read for hours, trying to get sleepy. Why, I was just so nervous and run-down that I was actually irritable, and the most trivial things would annoy me. My appetite left me entirely, and there were many days when a cup of tea was all I could take at a meal."

"One of my friends induced me to take Tanlac, and it certainly is wonderful the way it has built me up. Why, I have actually gained fifteen pounds already, and I have only taken two bottles so far. All that nervousness and sleeplessness and that tired exhausted feeling has left me altogether. In fact, I feel just fine all the time, and I unhesitatingly recommend Tanlac to everybody I never lose an opportunity to advise people who are weak and run-down like I was, to take Tanlac for I believe it is the best medicine they can get to build them up. I am sure that anybody who gives Tanlac a fair trial will feel just as I do about it—that it is a real medicine and can be relied upon to do just what they say it will do."

Tanlac is sold in St. John by Ross Drug Company and F. W. Manser, under the personal direction of a special Tanlac representative.

Governor Orders Flogging Stopped

Probes Punishment at New Hampshire State School

Manchester, N. H., July 29.—Reports in circulation recently alleging abuse of inmates at the Industrial School, a state institution for the improvement of boys and girls, in this city, called forth comments from Governor Bartlett, Councilor John G. Whipple, and the superintendent of the school, Vernon B. Backus.

Governor Bartlett said that the practice of flogging had been customary for fifty years and he had ordered it stopped. "The superintendent is no more to blame than any of his predecessors," said the governor. "I do not intend to bring charges against him. I have seen the room in which the boys are flogged and the instruments used. I have been told that in some instances the clothing of the boys was removed when they were flogged. I understand that the punishment is left entirely to the whim of the superintendent and the officials, and the boys are flogged whenever the officials think they should be."

Mr. Whipple, a member of the governor's council, and thereby a member of the board of trustees of the industrial school, said: "The charges of wholesale punishment of the inmates of the industrial school are three weeks old, they have been investigated, and I do not feel that they were well founded."

Superintendent Backus said: "Since I took charge of the industrial school in September, 1917, flogging has been reduced one-half. The smaller boys are spanked with the open hand, and in the case of the larger boys a rubber tubing is used over their clothing. They are never punished on their bare skin. I believe Mr. Backus has been a model superintendent. Not a single complaint was made to the last board of trustees,

Chess Masters Sail For England

New York, July 29.—Bound for Hastings, England, to take part in the tenth tournament of his career, Jose R. Capablanca of Havana, holder of the Pan-American chess championships sailed on board the Cunard Line steamship Aquitania, on which Boris Kostich, Serbian master, was also a passenger bound on the same errand. The Victory Tournament of the British Chess Federation will be the first contest of real international importance held in Europe since the sudden outbreak of the war in the midst of the Mannheim masters' tournament.

In the will of Capablanca's third appearance among the European masters, but his task is expected to be much easier, because of the enforced absence, under the rules of so many continental experts. He made his debut abroad at San Sebastian, in 1911, when he carried off the first prize, and in 1914, at St. Petersburg, he was placed second to Dr. Emanuel Lasker, the world's champion, who surpassed him by a few half points.

The other tournaments, wherein Capablanca figured, were played in New York and Havana. Invariably he was either first or second, his record comprising six first prizes and three second prizes. On two occasions, including that at Havana, he took second place to Frank J. Marshall, the United States champion, who will be absent from Hastings, where the late Harry F. Pillsbury, a former United States champion, astonished the chess world by capturing highest honors in 1895 from a field including Dr. Lasker, Dr. Tarrasch, Steinitz, Tschigorin, and Schlechter.

Sidelights On Sport

Jimmy Wilde, English flyweight champion, is anxious to come to America to take a fling at the boxing game in this country. He has been offered a large purse to meet Pal Moore again in London, but is holding off until he decides about whether or not he will visit America.

Jim Thorpe, utility outfielder for the Braves, intends to play football again this fall and is contemplating joining a professional team in Canton, Ohio. He is reputed to be one of the best football players that ever donned a uniform. Cicotte is out in front of the American League pitchers having won nineteen and lost four games so far this season. Williams of Chicago is second, having won sixteen and lost six. Johnson of Washington has won fourteen and lost nine. Alexander has won six and lost five games for the Cubs. Baltimore has seven players hitting well over the 300 mark, while Toronto

has only Whiteman and Onslow. The percentage of .312 and the latter .308. The next horse racing meet of note to be held in this province is looked for Sussex on Friday and Saturday. Fern Hill, White Sox, Exposure and other fast horses are entered. Nineteen hundred dollars will be given in purses. Two four-ounce shells and two singles were seen in the harbor yesterday and those who watched the osprey predict that there will be some good racing on the 14th. There is talk of having a fishermen's race on that day. This should prove interesting as the fishermen are all good osprey.

Weather permitting there will be several ball games in and about the city this evening. These games will be played if the grounds are in any kind of condition, as many of the leagues have postponed games on their hands and are not anxious to be bothered with any more.

BASEBALL SEASON IS RECORD MAKER

Many Performances This Year Have Surpassed Best Figures of Any Recent Campaign

Bating Feats Head List—Ruth, Peckinpaugh, Gharrity, Konetchy and Felsch in Spotlight—Yankees' Home-Run Exploits

(New York Times.)

This is a season of the unusual in baseball. With the major league clubs only a trifle beyond the half-way mark, numerous records of other years have been tied or left in the distance, and all indications point to the campaign of 1919 being long remembered as the season when the unusual almost reached the stage of commonplace. The game has come back with a boom that has been beyond all expectations from an attendance standpoint, and even more so in events on the field of play.

Since the home run stands out as the high happening on the ball field, the record-breaking performances of Babe Ruth, the Boston slinger, perhaps are entitled to the place of prominence in the long stretch of record making. Ruth is now shooting for the major league home run mark of all time, after eclipsing the best performance in his own league over a stretch of seventeen years.

1922. He is bound to set up a new mark for the American League, and has a fine chance of eclipsing the old-time figures which were established in the National.

Back in 1888 Ed Williamson of the Chicago team punched out twenty-seven drives for the circuit. The more modern record is that of Buck Freeman of the Washington Club, who hit twenty-five homers in 1908, when the Capitol city was represented in the old twelve-club National League. In 1918, the old-time slinger of the Phillies made twenty-four home runs, the top mark in the National League since Freeman's day. At the club which Ruth is now going he faces the opportunity of passing all these marks. The American League record for homers is sixteen, set by Socks Seybold of the Athletics in 1902. Ruth punched out his fifteenth home run of the current campaign against Bob Shawkey at Boston

on Thursday, so this one particular record may be said to be in his grasp.

A new mark for pennant winners by any one manager seems to be the prospect for John McGraw, manager of the Giants. When the Little Napoleon led his 1917 team to a pennant he tied the mark which Connie Mack set up back in 1914 with the last championship segregation led by the crafty Cornelius. Six pennants have been won by each and now McGraw is on his way to a seventh, despite the Cincinnati durr.

Yankees Home Run Feats.

One has to go far back into the baseball records to find the equal to the bating performance of the Yankees at the Polo Grounds on June 26, when the Huggins' maunders assaulted the slants of Tom Rogers and Claude Thompson, Philadelphia pitchers, for five or six runs. The feat had been performed before, but not in recent years. The baseball records fail to show in instances of any such home run activity over a stretch of twenty-five years. The Boston National League team collected ten home runs in a game against the Cincinnati Reds on May 30, 1904, made five home runs. It was on that day that Bobby Lowe made four circuit clouts off Pitcher Chamberlain of the Reds.

Another unusual home run exploit was furnished by the Yankees on the morning of July 4 in a game against Washington at the Polo Grounds. In one inning, the seventh, the Yankees collected three home runs off Pitcher Eric Erickson of the Senators. In the next round Baker poked a homer off Whitehouse, making a total of four for this game. Getting three home runs in an inning is quite unusual. It had not happened in the American League since 1909, and once in the National League since 1901. Zimmerman, Erwin, and Wheat of Brooklyn did the trick in 1911, the last time it happened until the outbreak by the Yankees.

The batting of Roger Peckinpaugh over a stretch of twenty-nine consecutive games, from June 11 to July 10, qualifies for the unusual, though it is not a record. Such a prolonged hitting streak has not been the portion of many players in the history of the game. Peck got at least one smash in each of these games, and his total for the twenty-nine games was forty-eight hits, 110 times at bat for an average of .436. Elmer Myers of the Indian stopped Peck's streak. Willie Keeler's stretch of forty-two consecutive games in 1888 is the major league record. Cobb reached thirty-five games in 1917, as the Zach Lutz' run streak to twenty-nine games in 1916. Such extended hitting streaks are rare, however, few players ever getting to twenty games without failing to hit safely.

Ed Gharrity, Washington catcher, stepped out on June 28 in a game against the Boston Red Sox and compiled the largest total of base hits to be collected by any major league player in many years. Complete records are not available as to individual batting feats, but Gharrity went all figures of the last few years. Gharrity got two home runs, two doubles, and a single in this game. An idea of the feat may be gained from the fact that Larry Lajoie never went beyond a total of eleven bases during his long career in the majors, and Ty Cobb also has eleven as his top figure for total bases in a game. The total base records for a single game during the last four seasons have been as follows: 1915—Heinie Groh, eleven; 1916—Walter Maravilla, eleven; 1917—George Ruth, ten; Ping Bodie also had a big batting day this season, having a total of fourteen bases, but he compiled it in a double-header, getting two home runs, two doubles, and two singles, playing against the Mackmen at Shibe Park on June 2. Ping equaled the best total made by either Cobb or Lajoie when he poked two home runs, a double, and a single in the second game.

Ed Konetchy's ten consecutive hits in as many times at bat was another unusual feature of the current season. Complete statistics for consecutive hitting are not available, but none of the record keepers has come forward with a better performance during recent seasons.

A PLEASANT OUTING

The lady employees of the office staff of T. McAvity & Sons, Ltd., King street, were very pleasantly entertained by Miss Mabel Rogers at her summer home, Ononette on Saturday afternoon. Dancing, swimming and a kind of good times were indulged in, the girls returning to the city on the evening train after a very delightful outing.

OBJECTS TO CASH PRIZES

A citizen who has continued money to promote interest in the swimming races at the Kennedy street swimming pool, spoke this morning about the matter of giving cash prizes to the boys for these events. He said that this was unfair to the boys themselves as it would bar them from competition amateur sport in the future. He said he was not aware that donations were to be used as cash prizes, but was in favor of having more lasting trophies awarded for excellence in this line of sport.

REPORTS CONFLICTING

A report reached the city that the steamer Francis Boutiller, which plies between St. John and St. Mary's Bay ports, ran aground at Gulliver's Cove, N. S., during a dense fog. It is said she refloated in four hours, but reports as to her conditions are conflicting, some being that she was filled with water and quite badly damaged and another that she was not damaged and proceeded to her destination. The Francis Boutiller is owned by A. Boutiller & Company of Centerville, Digby county, N. S., and is a new vessel.

TWO NOTABLE SPEAKERS

Secretary Romans of the Canadian Club has received a letter from Gilbert Grosvenor, director and editor of the National Geographical Society, Washington, accepting an invitation to address the club the last week in September. He will spend August in western Canada and September in Cape Breton. Mr. Romans has been endeavoring for three years to get Mr. Grosvenor to address the club and has at last succeeded. J. C. Wilder, chief sea agent of the United States, who was here with Baden-Powell, will address the club early in September.

NOVELTY SHOWER

On Monday evening friends of Miss Ruby K. Irvine gathered at the home of Mrs. Robert D. Campbell, Fairville, and tendered her a novelty shower. Many useful gifts were received, including cut glass, china and linen. The house was prettily decorated for the occasion with wild flowers and ferns. Streamers of yellow and white paper were hung from the chandeliers and the rooms presented a very artistic appearance. Following a programme of music and games a very dainty luncheon was served, including a special ice which was suitably styled "Blagton Sundae." Miss Irvine will be one of the principals in an interesting event in the near future.

INDICTMENT IN HAYES CASE IS QUASHED

Mr. Mullin's Objection to Course Pursued Sustained—Charge was Assaulting Sheriff

The Circuit Court, Mr. Justice Crockett presiding, opened its adjourned session this morning at ten o'clock. The case of the King against John Hayes, K.C., appeared for the Crown. An indictment was preferred against the prisoner for assaulting the High Sheriff when in the execution of his duties on June 6, 1919. There were eleven out of the twelve grand jurors in attendance and a true bill against the prisoner was brought in. The prisoner was brought into court, but before he was arraigned, his counsel, Daniel Mullin, K. C., moved to quash the indictment on the following grounds:

First, that the sheriff being disqualified as he was the prosecutor, the court ordered that Coroner Kenney summon the grand and petty jury, and the coroner obtained the assistance of the deputy sheriff in selecting and summoning the grand and petty jury.

Second, that he also availed himself of the sheriff's staff of constables to serve the summons on the grand jurors. Mr. Mullin contended that under section 89 of the criminal code, he was entitled to have the constables quashed. In these objections and also, he said, because of the course adopted by the coroner, prejudice was or might have been occasioned to the prisoner.

After hearing Dr. Wallace, contra, for the crown, His Honor said that he did not see Mr. Mullin to substantiate his objections. Armstrong B. Clifford, deputy sheriff, was then called by and his evidence it appeared that the coroner obtained the official list of jurors from the sheriff and handed them to him, who prepared the list of grand jurors and petty jurors from the official list of jurors. He said the coroner was there part of the time, but would not say that he was there all the time.

In view of this, His Honor held that he must quash the indictment and he ordered the prisoner to be remanded till this afternoon at 2.30, to allow Dr. Wallace, the counsel for the crown, to consider what course he would pursue.

Those summoned as grand jurors are: Richard Arscott, Daniel Allan, Frank G. Bent, Michael L. Bohan, Harold Climo, Angus A. Chaisson, Alexander I. Flower, C. Percy Humphrey (foreman), Herbert G. Harrison, B. Kelle Jones (absent), H. E. Lennon and D. W. Leddingham.

PLANNED VISIT TO ST. JOHN THIS WEEK; TAKES ILL IN PORTLAND AND DIES

Mrs. Sarah A. Fowler, wife of the late Rev. LeBaron W. Fowler, who some thirty years ago was pastor of St. George's church in Carleton, died on last Saturday in Portland, Me., from heart trouble. She was visiting with her daughters and was planning on coming to St. John this week. She was a native of this city and a daughter of the late Joseph A. Fowler. She is survived by three sons, Rev. Cuthbert Fowler of St. Stephen's College, St. John, and two brothers, J. Dixon Fowler of New York, and Charles G. Fowler of Chicago. Mrs. Fowler was a woman of kindly disposition and was beloved by all who knew her. The news of her death will be heard with regret by a wide circle of friends.

HAWTHORNE AVENUE WORK IS TO BE DONE

Bond Issues for This and at East St. John — A Stanley Ward Assessment Matter

It was decided at a meeting of the common council today to go ahead with the extension of the water and sewerage system from Park street to the location in Hawthorne avenue at an estimated cost of \$14,000, the work to be paid for by bond issue. A resolution authorizing the issuing of bonds to the extent of \$10,500 for the extension of the water system from the vicinity of the Municipal Home to the dry dock site at Courtenay Bay was also passed. Although the work has already been commenced on the latter extension, the authority for bond issue could not be given on account of the absence of Commissioner Bullock. The mayor presided and all the commissioners and the city engineer were present.

The council went into committee to discuss the Hawthorne avenue extension and heard E. M. Olive, chairman of the board of assessors. He said the total assessed value of property in this street was \$48,450, but this value would be greatly increased by the water and sewerage extension. In reply to Commissioner Bullock, he said there was some lots on which there were no buildings. Commissioner Bullock said that he would look into the matter as the housing commission might find an opportunity of carrying out part of their scheme there, provided the council decided to provide water and sewerage.

After the committee arose and met in council, Commissioner Jones put the motion authorizing the extension and it was carried unanimously.

It was brought to the attention of the council that property in Stanley Ward was being assessed on one-half valuation under one of the old terms of the union of Portland with St. John. The mayor suggested that this be looked into and that those sections of the ward which were receiving the same privileges as other parts of the city be assessed in the same way.

The commissioner of public works was given the authority to purchase a car load of cement for the work on retaining walls recommended at yesterday's committee meeting and which were passed at this morning's council meeting. The public works department was also authorized to pool the unexpended balances of the various items of street appropriations for the present year, the fund to be used for such part of the street department services as may in the opinion of the department require the outlay.

Commissioner Bullock called the attention of the commissioner of public works to a depression in the granite paving in Nelson street.

The board of conciliation appointed to consider the relations and by-laws of the Police-men's Protective Association submitted a report but this was laid over until the next committee meeting.
