Greetings Office

Canada Vancouver, B. C.

On my way out from Vancouver I turn to tell a tale that only those have power to tell who saw what I have seen. A more superb site is not on earth. I had no idea that I was to see in this far part of the world so much beauty. Neither Constantinople nor Portland, no, not even Naples or Genoa have a finer site. Imagine if you can a combination of snow-capped hills, high, some of them, as the highest Alps, add their rich wooded slopes, a sea varied from dawn to dark as a southern sea. Picture waters green, glassy green, blue again, and now white, foam crested waters with white silver like patches, and waters washing white sands, or softly lapping rocks covered with seaweed. Run your eye over wide miles of these waters to where wooded islands loom. Fill in all with white-sailed yachts, the boats of fishermen or adventurous boys, with here and there an ocean steamer riding majestically at anchor or cutting the currents of the Narrows, and you have a skeleton, only a skeleton, of what Vancouver is. Oh! it is a pretty place.

Its population is over one hundred thousand and is on the way up to twice that amount in ten years, ten times that in less than half a hundred. Situated at a point favorable to the wheat farms of the greatest prospective wheat region of the world, mathematics may not measure its possibilities. Twenty-five years ago where this superb city stands stood a vast primeval forest, filled with big trees and wild animals. It, too, had a May-flower beginning, for it was in May, 1886 that the site of the new city was selected, and at that time the woods were full of wild flowers. A frightful fire burned every building but one erected between May, 1886, and July of the same year. Phoenix like, the little city started again out of its ashes, and has won.

To a picturequeness almost poetic in its beauty Vancouver adds a most wonderful harbor; water power, water, drainage, facilities for commerce and industry. All around it, on the mainland and islands, are splendid fruit orchards, vineyards and vegetable farms. Docks that would do credit to older cities, capacious basins, warehouses, fine hotels, beautiful churches, schools, magnificent public buildings, indicate a civic spirit and cannot be too highly commended. It has a long list of beautiful elm, maple and oak lined avenues, wide streets well paved, many of them with concrete and bytholical material. It has electric cars that carry city people into the country and country people to the city. One is constantly surprised at the up-to-date aspect of everything seen.

Think of big trees 40, even 50, or 60 feet around the base! Think of forests full of these imperial cedars, trees only a little smaller than 40 or 50 foot giants. Think, too, that these trees waved in Caesar's day.

Town Council

The Town Council met in regular session on Monday evening. In the absence of Mayor McGee, Ald. Craig was appointed chairman. All other Aldermen were present except Ald. Boyd. Tenders were received from George Ryter of Houston, Me., for the boring of the well on Carleton St., which was \$3.00 per foot and expenses, and Mr. Kennedy of this town, which was \$3.00 per foot bearing his own expenses. The latter tender was accepted. A number of bills were presented and referred to the various committees for endorsement. The following were appointed Constables of the town, Jas. S. McKay, John A. Crickard and French Meating. License was granted Wm. Mersereau to run a pool room during the coming year. The Council constructed a by-law by which boys under 16 years of age are prohibited from playing pool. After discussing a few minor questions the Council adjourned.

Campbellton Swept Out

ONE LIFE LOST 4,000 Homeless

Fire broke out in Campbellton on Monday afternoon at 2 o'clock and before midnight the town was swept from end to end. Every public building and practically every private house was burned to the ground, and four thousand people are homeless. It means of communication is cutoff.

The flames raged madly across the river to the five big lumber mills, two of which were owned by the Shives Lumber Company, the others belonging to the Richards Company, and in less than two hours time all had been destroyed. Just before dark the flames reached a little village some distance from Campbellton, known as Richards Settlement, and that, too, was destroyed.

The sleepers along three or four miles of I. C. R. track were burned and no trains could pass.

Several hundred of the homeless people spent the night at Dalhousie Junction, fifty were taken to the town of Dalhousie and several crossed the river into Quebec province. Families became broken up in the mad race to safety and all is one wild, weird scene of confusion and despair.

The I. C. R. loss is tremendous. The big railway bridge east of the town is twisted, broken wreck, the woodwork having caught fire early in the night.

Not only is Campbellton wiped out of existence, but the flames swept on two miles below the town, and Richardsville where the Richards mills are located, is also in ruins.

The fire was fanned by a high westerly wind, and the efforts of the fire department and citizens to stay its progress in the last stages were of no avail, and all energy was soon bent towards getting the people to places of safety out of range of the fire and saving what valuables could be carried.

Little, however, in the way of valuables were saved, reports say, and many people comfortably off yesterday are penniless today, with no roof to shelter them. The fire was one of the most destructive in the history of the province, and no place of proportionate size has been so completely obliterated from the map by the fire fiend as this busy North Shore lumber town.

Campbellton was the home of some of the biggest lumber concerns in the northern part of the province. The Shives, Richards and Mowats and smaller concerns operated from this section.

The three former had large mills in Campbellton and were the backbone of the place industrially. They were all swept out of existence, mills lumber and all.

A rough estimate of the total loss would be \$2,000,000 and if the residential portion is completely destroyed for mile or more around, as reports seem to indicate, the loss may exceed this by a half million or more.

The Massey-Harris concern had a warehouse in Campbellton and will suffer a loss of about \$4,000. The Reed Company of Moncton, also had a warehouse in Campbellton and will also suffer to the extent of probably several thousand dollars. It is reported that one life was lost the victim being a little child. The town of Dalhousie had a narrow escape from fire on the same day, but was saved by the prompt action of firemen and the perfect water system.

A tickling or dry cough can be quickly loosened with Dr. Sloop's Remedy. No opium, no chloroform, nothing unsafe or harsh. Sold by all dealers.

BIRTHS.

O'Brien--On Thursday, July 7, to Mr. and Mrs. Rannie O'Brien, a son.

By The Way.

It was a glorious 12th.

Lake Utopia--the only lake in New Brunswick.

The Lake crowd gives the town quite a summer resort appearance.

No use in keeping scarce, our friend the tax bill has extra good eye sight.

What about a fisherman's picnic this year? St. George should be interested in this matter.

There is only one place that was hotter than St. George on Monday and none of us of course will make further inquiries.

There will be no election this fall. Thus Sir Wilfrid took the earliest opportunity to relieve the anxiety of the Conservatives.

St. George, besides having the finest granite cutters in Canada, can also boast of having the largest and hungriest mosquitoes.

At the meeting of the council Monday evening a bye law was constructed prohibiting boys under sixteen from using pool rooms. This is a step in the right direction.

Gossipers? Why no, St. George has never heard tell of one. If some of our experts in this art were put into a place where their conversational powers would not run dry they would be happy. If the cap fits, wear it.

"Tommy," said the boss, "you quit smoking two or three months ago, didn't you?"

"Yes sir," answered the office boy.

"How much have you gained in weight?"

"Well, sir, countin' it in nickles, I reckon I've gained about four pounds."

One day the office boy went to the editor of the Soaring Eagle and said:

"There's a tramp at the door, and he says he has had nothing to eat for six days."

"Fetch him in," said the editor. "If we can find out how he does it we can run this paper for another week!"

Exchange.

We notice that the well on Carleton St. is to be bored by a local concern as their tender was lower than that of an American. We do not wish to question the doings of the town council, but even should the figures of our local well borers have been a little higher would it have been just the proper thing to bring an American concern in to do the work? However we have escaped being disgraced as the local concern produced the lower figures.

Walter William tells this newspaper story: "When the first child arrived in the family of an editor friend of mine he and his wife named it Alpha. When the fourth came years later they decided that was enough and called it Omega. But a year or two later No. 5 came along anyway. For a time it puzzled them to find a name which would not seem ridiculous for a child born after Omega, but the resourceful editor hit on a happy thought and named it Supplement."

Social and Personal

Invitations are out for the marriage of Miss Blanche Hickie and Mr. Russell Hooper of L'Etang, the marriage to take place on July 21st.

Mr. and Mrs. Thos. Kent entertained a party of young folks with a sail to the mouth of the river in their new motor boat on Saturday afternoon.

Chas. W. Murphy who has been for the past three years in Vancouver, B. C. is at home for a few weeks. He speaks very highly of the far West, but is glad of the opportunity of being among old friends and acquaintances again.

A delightful sail up the river to Lake Utopia was given on Saturday afternoon for the pleasure of Mr. J. M. McLay and Prof. Faville, by Mrs. Annie Dodds and her brother Thos. McIntyre. The party consisted of Mrs. Wm. McIntyre, Mrs. Annie Dodds, Misses Coffee, O'Brien (2), Goss, Stewart, Dodds, and Messrs McLay, Faville, McIntyre (2), H. Gillmor, Jarvis, Lawrence, Young, etc. The party was taken up by Mr. Lawrence's speedy motor boat early in the afternoon, and after spending a pleasant afternoon, luncheon was served on the beach and the party arrived home about dark.

The remainder of the evening was spent at the home of Mrs. Dodds. Mr. McLay and Prof. Faville spoke in glowing terms of the scenery and magnificence of our Lake and river and were only sorry not to have been able to remain longer and duplicate the trip.

ST. STEPHEN DEFEATED BY CALAIS STARS.

Upwards of three thousand people watched the game of ball on the Calais diamond on Thursday afternoon and saw the Stars of Calais vanish the Thistles of St. Stephen by a score of 7-2.

On Dominion Day the Thistles were victorious over the Stars with a score of 2-0, but on Thursday they were easy victims of O'Neill shoots and barely saved themselves from being blanketed. In the second inning St. Stephen made one run, and another in the third. Calais made two in the first, three in the sixth, and two in the seventh. Edward Doyle of Calais was umpire. Batteries were O'Neill and Cabb for Calais and Gerow and Murphy for St. Stephen.

### Decide Big Claim in

#### Russia's Favor

Berlin, July 1.—The high court especially summoned at the instance of the foreign office to determine the question of jurisdiction in the steamer Anhalt controversy between German citizens and Russia, has returned a verdict declaring that the German courts could not issue an execution of judgement against the property of a sovereign foreign state. This has been the contention of the Russian Government, whose funds in a German banking house had been levied against by the German claimants.

The foreign office announces it will present the claim of \$2,000,000 to the Russian Government, and in the event that payment is refused international law will be examined for a form of redress. In the closing days of the Russo Japanese war the Russian government purchased the German owned steamer Anhalt, and loaded her at Hamburg with artillery to be delivered at Vladivostok. On the voyage the Anhalt lay over at Tsingtau, China, awaiting an opportunity to get through the lines of the Japanese fleet. Maritime peace was concluded and the Russian Government refused to accept the cargo at the high war risk rates.

Capt. Von Helffeld and the syndicate which supplied the cargo thereupon through the German consular court at Tsingtau libeled the vessel and held her. The litigation accompanied with diplomatic exchange continued, and last December a Berlin court authorized the seizure of \$1,750,000 from the Russian Government deposits with the Berlin banking house of Mendelssohn & Co., in satisfaction of the claim allowed the syndicate by the Tsingtau court.

The St. Petersburg Government protested vigorously against the attachment and in consequence of this protest the foreign office constituted a special court to pass upon the matter.

### Professional Rat Catcher.

The greatest rat catcher in the world is a certain George Menart, of Paris, who according to the official card, is authorized to descend into all the sewers for the purpose of rat catching. The subterranean portion of Paris is quite large and it affords a home for multitudes of rodents. The original black rat has been replaced by the large, fierce, brown sewer rat, although many of the black rats has existed in the sewers for years under the Montmartre district.

A fancy-bred white rat was the founder of the colony, and they are more fierce and harder to catch than any of the others. Only a half dozen or so are captured each year, and these find ready sales as fashionable pets. Menart has caught as many as 117 rats in an hour. Not long ago he captured 282 in three days, and in 1909 his bag for that year was over 200,000. He sells his rats for twelve cents a head in rattodromes in Paris and Northern France.

In Mexico the daily forecasts of the central meteorological bureau are sent at an early hour to every postoffice, and these are inserted in the postmarks of inland letters, in addition to the date and place of issue. These forecasts are made 24 hours in advance, so that anyone receiving a letter the morning after it is posted knows what weather the meteorologist expects him to get during the day.

### Luxury Reaches Airships.

Life in the air will shortly be as luxurious and comfortable as on board a modern liner, "like a grand hotel," as Kipling has it. The passengers' cabin of the L. Z. VII, the first Zeppelin of the German Aerial company to carry passengers, was generally admired on the recent record trip to Dusseldorf.

The cabin, which was made at Stuttgart, is paneled in mahogany inlaid with rosewood and mother of pearl. The entire cabin, which is thirty feet in length and from six feet to eight feet in width, is divided off into five smaller cabins, each of these affording seating accommodations for four people. The seats are wicker armchairs screwed to the floor, but made to revolve. There are also small ante-room and a lavatory. The windows are very spacious and are fitted with glass, tentatively only, in the fore part of the cabin.

The walls are of thin mahogany, while doors, covered with sailcloth lead forward and aft on to the gondola of the vessel.

### Moncton May Have New Skate Factory.

Moncton, N. B., July 7. Mr. Whelpley, of the Greenfield State Works, had a conference with members of the city council and citizens tonight in regard to locating his factory here and greatly increasing the output.

The meeting was called by the industrial and advertising committee of the city council. Mr. Whelpley's statement seemed to create a very favorable impression and it is understood he will submit a definite proposition in the near future.

### A Wonderful Cold Cure.

Just think of it a cold cured in ten minutes, that's what happens when you use "Catarrhocine." You inhale its soothing balsams and out goes the cold, the sniffles are cured, headache is cured, symptoms of catarrh and grippe disappear at once. It's the real "cure" for colds, throat, bronchitis, coughs and catarrh, it's a marvel. Safe even for children. 25c. and 50c. sizes at all dealers.

By the Canada Club, of Halifax, an appeal is made for a proper celebration of Dominion Day—a celebration that will do justice to the great event the day commemorates. The idea is excellent. Confederation was the foundation of the fortunes of Canada. We ought to remember the day, and the men as well. The union of the provinces was one of the great events of the nineteenth century. The fact that it was a state-ship act is made apparent by the fact that the other contiguous States of the Empire are imitating it.

### The Girl That is Pale.

She is in danger, her system is run down, weak, she needs nourishment, she needs Ferronine. More than all else she needs Ferronine, because it brings back the nerve energy which rapid growth and study have exhausted. The old-time vigor, happy spirits and new strength return with Ferronine. The delicate maid is energized, strengthened and rebuilt. Isn't it worth while to use Ferronine when it surely does so much. At all dealers in fifty cent boxes.

Some people would accomplish a lot more if they didn't waste so much time telling others what they are going to do.

### A Word for the Militia and The Need in Canada

The time has not yet come when we can afford to send our guns to the junk heap and convert our parade grounds into golf links. There may yet arise occasions when it will be necessary from abroad or to maintain order at home.

We are strongly inclined to say that the young man who grows up without knowing how he can defend his mother and sisters against a possible band of marauders, who if danger threatens the home of his sweetheart would have to call upon someone else to protect it, who takes to himself a wife and raises a family and never goes to the trouble to fit himself to defend his home and friends, is doing himself a very great injustice.

Don't let any one flatter himself with the belief that it will never be necessary for him to do anything of the kind. Storms often come out of the sky that appear cloudless.

In some parts of Canada there is much opposition among employers of labor to the militia, and it is said that to join a militia corps is in such places regarded as equivalent to giving up a situation. There is a very regrettable state of things. Employers ought to encourage those under them to qualify themselves for the defence of the country. There is opposition on the part of the labor unions in some cases to the militia, because an impression is abroad that the primary object of the force is to overawe workmen.

This is a very correct view of the place the militia in Canada may have been and probably may hereafter be, called upon to preserve the peace, but it is better far to have the peace maintained by trained citizens acting under the control of the government than by such armies as the so-called Pinkerton men. Private defence of private interests is an abomination which ought not to be tolerated.

We may be sure, however, that if the government does not provide a means whereby domestic peace can be maintained, the large employers of labor will not hesitate to employ a force for that purpose, and such a means of protection is foreign to the genius of our institutions. Moreover the workmen of the country are as deeply interested as anyone else in the defence of the country, and they ought to be ready to qualify themselves for it. In the case of war the workmen would be promptly enough to offer their service in defence of their country, but those services would be of vastly greater value if the men had received training.

We are glad to see the formation of cadet corps and corps of boy scouts. The young fellows are getting training in this way that is likely to prove of inestimable value. When they come to manhood they will be fit to take their place of national stress. Some others are shocked with the idea that their boys should be prepared to fight in defence of their country; they forget that some one's boys must do it.

### A Vegetable Constipation Cure.

Because they contain mercury and mineral salts. Many pills are harsh. The easiest and safest laxative is Dr. Hamilton's Pills of Mandrake and Butternut. They clean the stomach, intestines and bowels, drive out waste matter, tone the kidneys and forever cure constipation. As a general tonic and system cleanser nothing is so mild and efficient as Dr. Hamilton's Pills of Mandrake and Butternut. Sold everywhere in 25c. boxes.

Count Zeppelin's air ship, the Deutschland, has made a trip from Friedrichshafen to Dusseldorf, a distance of 300 miles, in nine hours, carrying twenty passengers. The Zeppelin craft is a huge balloon with propellers and a cabin for those who take passage by it. It does not depend for its power to rise on any mechanism. It is therefore more costly than the heavier than air devices, which better deserve the name of flying machines, and are more interesting as trumpets of invention and courage over the law of gravity. Zeppelin's success is a notable one and puts him in front of the front rank of air navigators. His service may not, however, be a paying one. A voyage with him means a call on the purse and the courage heavier than the ordinary man may meet.

### No Liniment Like Nerviline

**Fifty Years Proves It the Strongest, Safest, Best.**

The unexampled success of Nerviline is due to the fact that it is five times stronger, three times more penetrating, more pain-relieving than any other liniment.

One million bottles used every year, think what this means! Surely stronger proof is not possible that Nerviline is a trusty liniment, a household remedy upon which mothers can depend in case of accident or sudden sickness. Scarcely an ache or a pain that Nerviline won't cure, among the hundreds of ailments for which it is guaranteed as the following:—

- |           |                 |
|-----------|-----------------|
| Headache  | Neuralgia       |
| Sciatica  | Rheumatism      |
| Lumbago   | Chest Colds     |
| Sore Back | Toothache       |
| Earsache  | Cramps          |
| Diarrhoea | Bowel Disorders |

Doctors will tell you that the purest and most healing antiseptic drugs are used in Nerviline, that's why it is so safe for general family use, for the baby as well as the parent. If you haven't tried Nerviline, do so now, your neighbors are almost sure to know of its manifold merits and uses.

Refuse any substitute for Nerviline, sold the world over in two sizes 50c. and 25c. at all dealers, or the Catarrhocone Co., Kingston, Ont.

### Postage Stamps

A curious table, secluded at the back of the Postmaster-General's report each year shows the transactions in postage stamps. Last year the value of stamps issued to postmasters represented a total value of over \$9,200,000. Of this amount two-thirds, or over \$5,600,000, was in twenty-cent stamps. This includes not only twenty-cent stamps as ordinarily used, but also \$291,000 worth of stamped books, \$34,000 worth of stamped envelopes, and \$5,600 worth of newspaper wrappers, post bands and advertisement stamps. The change in the drop-letter rate from two cents to one cent was no doubt, the main reason why the issue of two-cent stamps fell off over \$180,000 while the one-cent stamps increased by \$515,000. The value of post cards issued was over \$251,000. Record is made of the return and destruction of some of the old Jubilee stamps of \$3, \$4, and \$5 denominations; but so far as the issue to postmasters is concerned, the highest denomination named is the fifty-cent stamp. Of these only \$47,500 worth were issued, or less than 100,000 stamps. The twenty-cent stamp has considerable popularity having attained an issue, last year, of almost \$120,000 worth, or nearly 600,000 stamps. Other less called for issues were: Half cent stamps, 13,275; five cent stamps, \$327,000; seven cent stamps, 237,000. The ten cent special delivery stamp is used less commonly than many suppose, an issue of \$7,900 worth having been enough to meet the demand. The decreases in the issues of stamps last year represented \$208,000, as against increases of \$738,900, making a net increase of \$530,000.—Toronto Star.

### German Bride for Prince of Wales.

Berlin, June 27.—Rumors are in circulation in military and society quarters at Potsdam to the effect that the Kaiser and Kaiserin are thinking of a matrimonial alliance between their only daughter, Princess Victoria Louise of Prussia, and the eldest son of the King and Queen of England, who became the Prince of Wales last week.

The Princess, who will be 18 next September, is one year and three quarters older than the Prince of Wales.

It is hoped in Potsdam court circles that when King George and Queen Mary make their first official visit to Germany, they will be accompanied by the Prince of Wales, and that the latter may have the agreeable opportunity of forming an acquaintance with his fair-haired third cousin which may some day ripen into affection.

### Never Pare a Corn.

It's a sure way to get blood poisoning. Use Putnam's Corn Extractor. Painless and sure to cure in a day.

### THE WORLD LOOKS DARK

To the Dyspeptic. How to  
Make it Bright.

Father Morrisey, the learned physician, realized that many of the difficulties and troubles of this world are due to indigestion. He believed that to get a proper mental and spiritual attitude, a small digestive apparatus is very helpful. The good Father therefore gave much study to the important question of the stomach.

His famous prescription, "No. 11," for dyspepsia and indigestion, consists of simple tablets cleverly compounded from the materials in Nature's laboratory. Each tablet will perfectly digest a full meal of 1 1/2 pounds of food.

Father Morrisey's "No. 11" has brought ease and continued health to thousands of sufferers who had previously tried other remedies in vain. It instantly relieves and in due time restores the stomach to full vigor.

If you suffer at times or regularly from a sick, sour, dyspeptic stomach, try No. 11, and see how quickly you can again enjoy hearty meals, and how bright the world looks once more.

In convenient flat boxes at 50c each. Get a box from your dealer, or from Father Morrisey Medicine Co., Ltd., Chatham, N.B.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars to any case that it fails to cure. Send for list of testimonials.

Tell some deserving Rheumatic sufferer, that there is yet one simple way to certain relief. Get Dr. Shoop's book on Rheumatism and a free trial test. This book will make it entirely clear how Rheumatic pains are quickly killed by Dr. Shoop's Rheumatic Remedy—liquid or tablets. Send no money. The test is free. Surprise some disheartened sufferer by first getting for him the book from Dr. Shoop, Racine, Wis.

Porter Charlton, who killed his wife in Italy, threw her body into Lake Como and disappeared without anyone seeing or knowing of what he had done, was arrested at Hoboken as he stepped from the steamship that had brought him from Europe. The telegraph makes the world small for the criminal. Once his offence has become known eyes open to look for him wherever the white man's civilization has extended, and sometimes farther.

A book on Rheumatism, by Dr. Shoop of Racine, Wis., tells some plain truths, and in a plain and practical way. Get this treatment of Dr. Shoop's Rheumatic Remedy for some disheartened sufferer in your vicinity. Make a grateful and appreciative friend of some one who is discouraged because of the failures of others to help him. Help me to make this test, and I'll certainly help your suffering friend.

### Jokers' Column

And some people make a specialty of being suspicious.

"But me no Butts" appears to be the slogan of President Taft's new secretary.

Emperor William has a slight attack of laryngitis, and T. R.'s bronchial tubes are a bit inflamed. A house-keeper.

Teacher—Bobby, you were not at school yesterday.

Bobby—Nope. I was paired with Skippy Jones.

Boes (on sidewalk) Sav, you fellows stop letting off so much "hot air," will you? First thing you know you'll melt 'he ice and we'll go in short.

"It seemed she did something rather out-wedded her first love, or some silly thing." "No. It was far more remarkable—loved her first wedded."

We waste too much. Yesterday you had beef, today you make a nourishing soup from the bone. "But it was canned beef." Well, boil the can.

She—So you aren't a bit nervous of the world coming to an end?  
He—No; what harm can come to me? I'm fully insured.

"Why do you have such enormously fat servant girls?"  
"Clever idea of my wife's. They can't wear her clothes on their evening's outing."

"Have you anything that will cure corns?" asked the customer in the drug store.

"What seems to be the matter with your corns?" asked the new clerk.

First Girl (at seashore)—I don't care what kind of a husband I get.  
Second Girl—Gracious!  
First Girl—So long as he's rich, handsome, kind and generous.

Owlett—I had an awful time thinking up an excuse to give my wife when I got home from the club last night.  
Ascum—Did she demand one?  
Owlett—Of course; I got home so early it piqued her curiosity.

Mr. Jawback—Do you mean to tell me that everything I told you before we were married was a lie?  
Mrs. Jawback—No, my dear, you told me one truth. You used to say you weren't worthy of me.

No stream from its course flows seaward, however lonely its course, but that some land is gladdened. No life is pure in its purpose and strong in its strife and all life not be purer and stronger thereby.

Howard—When Dr. Incision operated on me he left a pair of surgical scissors in my anatomy. Can I sue him for damages?  
Lawyer—Better just send him a large bill for storage.

The state proposes to train country girls to become good home-makers. About the time they learn they will marry and come to New York to live in a family hotel from which dogs and children are barred.

He was eager to kiss her. And she? She heard two voices speaking, and one was the voice of the mother that bore her. "Don't!" it said. But the other, which was the voice of all her mothers since Eve, said: "Do!" And the majority rules.

His mother was rocking the infant Hercules to sleep, but the young giant refused to go. "I'll call the bogey man," she threatened.

"Hah, and Hercules, I could choke him with one!" and

"I'll call the police," she added.

"Hah," said an impatient Hercules.

"I'm going to clean the Augean stables and they can't even clean up the illegal voters."

"I'll call the President," she suggested.

"Hah," the one who could not see or sleep in Europe, laughed to his heart and howled anew.

"But his mother had received the greatest threat for the last."

"I'll call the suffragette," she triumphantly pronounced.

With a cry of infinite distress Hercules turned over and fell asleep.

Little Harold was getting some instructions before starting for a party, "now cautioned his mother, 'at supper time if they ask you the second time, have something, you must decline.'

Harold agreed and trotted off.

At one stage of the feast the hostess noticed how eagerly the little fellow was applying himself to the task of disposing of a generous dish of marmalade. When he had finished she inquired: "Would you have some more, dear?"

The child looked up at her quickly. "I can't accept the second time," he said earnestly after a slight pause, "but if you will ask me a third time, I think it will be right."

He was asked—Woman's Home Companion.

"Porter!" The passenger for London hailed a railway servant at a small Scotch station.

"Yes, sir?" The man instinctively held out his hand.

"Do you think this parcel well enough tied to go in the van?"

"Well, I'll see," answered the porter, dropping the parcel with a bang. She'll get that here, and she'll get that at the junction," give it another drop, 'and she'll get that at Perth!' hanging it so lastly that all the contents scattered over the pavement. "Well, sir, if you're going further than Perth she'll see do whatever!"

The Man—I heard you tell the census man you were 30.

The Woman—Yes, dear—I told the truth.

The Man—But when you married me a year ago, you said you were 22.

The Woman—How time flies when one is happy.

Driver (on front)—I wasn't always driving an ice wagon. I once owned a string of horses and wore diamonds.

Weigher (on back)—That's nothing. I used to own me own mansion and matter every day to kill time.

"There's a fellow out in Chicago who has written a book to prove that a college education ruins a man's career."

"He's an ass. Why, many of the best ball players we have were signed right out of college."

Curry, of Montreal, formerly of Amherst, president of the Rhodes Curry Co.

### States Barring Fight Pictures

Rosen, July 6. The officials of the Christian Endeavor Society were much pleased to-day over the result of their movement started here yesterday against the exhibition of the pictures of the Jeffries-Johnson fight. Urgent telegrams have been sent to all branch societies throughout the world to continue the agitation against the pictures.

Mayor Fitzgerald, of this city, who has the granting of all licenses for exhibitions of this nature, said to-day that Boston ought to take the lead in banishing the pictures of the fight.

Harrisburg, Pa., July 6.—Mayor E. S. Cook today issued an order prohibiting the showing of the Reno prize fight pictures in this city. The Mayor said that Harrisburg has many colored people, and he did not intend to take any chances of disturbances.

Los Angeles, Cal., July 6.—There is an ordinance in Los Angeles prohibiting the exhibition of moving pictures, which in the opinion of the authorities tend to lower morals or are harmful to the young. City Prosecutor Eddy said he would invoke the law if necessary to prevent the reproduction of the Reno battle on the screens of the moving picture houses in Los Angeles. Mayor Alexander declined to answer a direct question as to whether he would take action, but as the actual fight had been barred from the state, the pictures would certainly meet the same fate.

Austin, Texas, July 6.—Among the first propositions Governor Campbell will submit to the Texas legislature when it convenes in special session July 12th, will be a law prohibiting the exhibition of moving pictures of the Jeffries-Johnson fight at Reno. The Governor fears such exhibitions would stir up racial feeling and result in bloodshed.

St. Louis, Mo., July 6.—President Matt G. Reynolds of the St. Louis police board, announces that he will take action to prevent the exhibition of the Johnson and Jeffries moving pictures in St. Louis.

The officials of the Independence Day Association and the Society for the Prevention of Cruelty to Children have a formal protest against the display of the pictures with the board.

A number of counts of disease germs upon a large number of flies examined showed a range from 550 to 6,600,000 germs, representing typhoid, consumption, dysentery, not to speak of the presence of fish upon their bodies, collected from their visits to every sort of haunt. Not only do flies transmit disease through their capacity to carry disease germs upon their feet, wings and bodies, but often in feeding they take germs into their bodies, many of which in passing through the digestive tract, not only remain alive

### We do not Need him

It is intimated that the directors of the Exhibition to be held in St. John in September are endeavoring to bring ex-President Roosevelt from his Oyster Bay retreat to our Commercial Capital to open the Exhibition. Is it necessary? Do we need him? Has he not had sufficient notoriety already? Would Boston send for Earl Grey to perform a similar task? We know the directors are looking for attractions, and the man of the African Jungles would be an attraction, but when we have said that we have said all. We would remind the directors that this is Canada not the United States. We celebrate the first and not the fourth of July. Would they like to fly the stars and stripes over the main building on the day of the opening of the Exhibition, instead of the Old Union Jack? The one would be about as fitting as the other. We honor our neighbors and we favor reciprocity, but we would maintain our dignity, and they will honor us the more for so doing. There would be no objections whatever to inviting the ex-President as a guest, but we would not have him invited to open the Fair. If the Governor General or the Premier are not able to attend, there we have other men by the score who could be secured for the service, any one of whom would be preferable to the ex-President or the representative of any other country. Our national dignity is worth more than any amount of money that may be turned into the treasury of the Exhibition directors by any special attraction.

### The Fish Situation

The time has come at last when we can chronicle the good news that the herring are really coming and that the hearts of the fishermen along our coasts are made glad. Every day news comes to us that the three local factories are receiving fish in large quantities. The weirs around St. Andrews Bay, Boacbec, along the Macarene shore, up the L'Etang river, Frye's Island, and Back Bay are all getting fish every day. Fish have also struck the Lepreau Shore and the fishermen in that place are getting a few every day.

In fact, the way the situation looks now, the prospect for a prosperous season among the fishermen is the brightest it has been for years.

Our hardworking fishermen have gone through two very hard years caused by the strike and scarcity of fish, and all eyes have been anxiously turned toward this season and up to a week or two ago, the prospect was far from being a bright one, but now things are different.

The price of \$12 per hoghead remains until August 1st when it will be reduced to \$6, and from now until that time the fishermen will put forth an extra effort to gather in as many of the little dollars makers as possible. We rejoice with them in their bright prospects, and "Greetings," the fishermen's paper, wishes them full weirs throughout the season.

### Printing Bureau is to be Re-Organized;

Ottawa, Ont., July 4—Officials at the Printing Bureau state that the irregularities with which the late Frank Gouldthrite was connected date back only the beginning of 1907. An estimate of the frauds committed can be obtained only when there is

an expert valuation of the supplies and comparison with the prices paid. Some of the officials say the defalcation is about \$30,000, but they have no knowledge as to extent of any gratuities. A new superintendent will be appointed in succession to Gouldthrite and the purchasing system is being reorganized. Other changes are talked of, but as to these there is nothing official. Hon. Charles Murphy said this afternoon that he had no statement official or otherwise to make in the Printing Bureau case until the investigation was completed.

### A Modern Solomon.

An old gentleman, some time ago, had occasion to engage a gardener. One morning he had two applicants for the position, one was a very decent looking man, while the other was much less prepossessing in his appearance and manner.

After a moment's hesitation the old gentleman chose the latter applicant.

A friend who was present evinced a good deal of surprise at the selection, and asked: 'Has that man worked for you before?'

'No,' replied the old gentleman, 'as a matter of fact, I never saw either of them before until today.'

'Then why did you choose the shorter man. The other had a much better face.'

'Face,' exclaimed the old man in disgust, 'let me tell you something, when you choose a gardener choose him by his breeches. If they are patched on the knees you want him. If they are patched on the seat you don't want him.'

### Britain Supreme

By setting a new standard, Great Britain has condemned to the ranks of the inefficient all of her great squadrons of older battleships and cruisers. They need not be dropped at once from the first-fighting line. The naval construction of her rivals, even Germany, is not competent to turn out modern fighting machines at more than a very moderate speed, but the day of their degradation is, nevertheless, close at hand. For other Power is within measurable distance of Great Britain when it comes to a question of naval supremacy. Her traditional policy, since the navy became her first line of defence, of building and designing warships, is costly, but the interests at stake are too great to allow of any playing with economy at the expense of efficiency.

### Acadia University

The Board of Governors of Acadia University met in special session in Wolfville on June 30th. The meeting was called to consider an offer Mr. John D. Rockefeller has recently made. Mr. Rockefeller offers to give to Acadia the sum of \$50,000, on condition that \$150,000 shall be raised by Acadia. The pledges for this amount must be in hand by June 1, 1911, and the money all paid in by June 1, 1913. The offer was enthusiastically accepted by the governors and preparations are being made for the prosecution of a vigorous canvass. Already two pledges amounting to \$50,000 have been given and further pledges have been verbally made. The prospects seem very bright for the completion of this movement in the time named. No effort will be made to engage the co-operation of the churches in raising this amount, but individual subscriptions of large amounts will be solicited. The year 1913 will be the seventy-fifth anniversary of the founding of the College, and the fund will be known as the Seventy-Fifth Anniversary Fund.

### 'You boy over in the corner'

'The boy over in the corner shot up like a bolt.  
'Answer this,' continued the examiner.  
'Do we eat the flesh of the whale?'  
'Yes, sir,' faltered the scholar.  
'And what,' pursued the examiner, 'do we do with the bones?'  
'Please, sir,' responded the boy, 'we leave them on the sides of our plates.'

## THE GRANITE TOWN GREETINGS

EVERY statement, every claim, every guarantee concerning Red Rose Tea from the time it was first put on the market until to-day has been lived up to to the fullest degree. Its remarkable success and enormous sale are the result of this method of doing business, coupled with the all-important fact that Red Rose Tea has always been good tea.

Every guarantee made on behalf of Red Rose Tea applies to Estabrooks' Red Rose Coffee.

It is of a very fine quality and is prepared by an improved process of manufacture: crushing instead of grinding. Described on the label. Will you try them? Both will please you.

Estabrooks' Coffee for Breakfast and Red Rose Tea for other meals.

### TO REVOLUTIONIZE

#### STEAM DRIVING

Claiming that it will revolutionize an important part of the lumbering business and prevent any drives from being held upon other small streams or the largest rivers, William Canney of Manserville, lumberman, has invented a portable dam.

Mr. Canney is the only surviving son of four brothers who were alive and well four years ago, three brothers having met with tragic death in that time, the last being killed in the accident on the Fredericton-St. Mary's highway bridge construction last winter. He has followed the lumber business all his life, and at present is in charge of the D. D. Glazier and Sons' bracketing at Lenoir.

Thus far Mr. Canney has not given any public demonstration of his invention, and he has not as yet endeavored to interest any of the wealthy lumbermen in the matter, but when he receives the Canadian and United States patents which he has applied for he will endeavor to get the lumbermen to use his invention, and if they don't take it up he will place it before the public himself.

"I can dam a river the size of the Tonique in fifteen minutes and take the dam away again in a little time," said Mr. Canney to the Gleason. "The dam is made in sections and can be carried along with the drive, and according to Mr. Canney, 'will run in a foot of water just the same as a spruce log.'"

A small model has been built and used in a small stream and worked effectively. It is built so that it buckles up the bottom of the river, if the bed is rough, and a section of it can be used without the entire river of stream being dammed when it becomes necessary to flood a bar.

Lumbermen are much interested in the new invention, the details of which Mr. Canney as yet refuses to divulge.

From Chicago comes a report that a consignment of 7,000 dressed hogs has been received at San Francisco from China. The shipment of Chinese pork to London is a comparatively old thing; but London gets food from every part of the world. The Chinese invasion of the American home of the hog was hardly looked for. It is proof for the high prices for meats in the western world, and also of the efficiency and cheapness of the steamship service.

### Our Growing Time

On July 1 the Dominion of Canada entered upon its forty-fourth year of Federation. Among all the historic prophets who sat about that historic table in Quebec, or looked out from lofty windows upon the blue St. Lawrence, not one would have dared to predict a Canada such as we know. Even Sir John Macdonald, who had an imagination, would have hesitated to believe that such development could come in less than a century. Sir Richard Cartwright, twenty years afterward, asserted that the Canadian Pacific Railway would never, owing to the cost of greasing the bearings of the rolling stock. And yet most politicians are optimists and usually have the faculty of rosy prediction developed to an ordinary pitch. Manitoba, a desert in 1867, is covered with a network of Railways. The great plains where buffalo fed are Provinces with Legislatures, universities, newspapers and distinguished subscribers. Fruit farms are blooming in the heart of the Rockies; cities have sprung up in a night. Leagues upon leagues of wheat are waving in the summer breeze. Ships eastward bound carry full cargoes. Banks are flourishing, manufacturers are prosperous. From one end of Canada to the other we find pulsing, leaping life, wonderful unanimity of sentiment, wonderful hopes for the future, wonderful happiness. Canada is on the road to nationhood. Untold wealth of forest, field, and mine is hers. "Apples of gold in pictures of silver"—this represents her resources. Best of all the people are determined that these resources shall be guarded against despoilers of all kinds. Clifford Sifton heads the Conservative Commission. His duty is to "lay for" Canadian counterparts of the Guggenheims, the Ballingers, and all their kind and kin. It is a big job, but well worth doing. In Britain, during the last election one party sang, "God made the land for the people." It is a good sentiment, worthy of remembrance in Canada, on this, our forty-fourth birthday.—Canadian Collier.

King George is pursuing a very democratic course. The other day called upon Mr. Chamberlain, and as the report says, "stayed to tea." A Royal visit to this kind is quite unusual. It shows that his Majesty has a little tendency towards Imperialism.

#### Month of Your Birth.

Here is an astrologer's table from which you may learn your characteristics according to the month in which you were born.

If in January, a prudent house-intelligent, but likely to be good-tempered.

If in February, a humane and affectionate wife and loving mother.

If in March, a frivolous chatter-box somewhat given to quarrelling.

If in April, inconstant, not very intelligent, but likely to be good looking.

If in May, handsome, amiable and likely to be happy.

If in June, impetuous, will marry early and be frivolous.

If in July, passably handsome, but with a sulky temper.

If in August, amiable and practical and likely to marry a rich man.

If in September, discreet, affable and much liked.

If in October, pretty and coquetish, and likely to be unhappy.

If in November, liberal, kind and of a mild disposition.

If in December, well proportioned, fond of novelty and extravagant.

#### The Beauty of Sympathy

The woman who desires to please cannot rely on physical beauty alone although the really pleasant woman is never plain. Her power lies in her true sympathy with the troubles and sorrows of others. That sympathy expressed not so much by words, as by a sweet smile of encouragement, and a tenderly spoken word. No sympathetic woman is ever tactless. She never upbraids one whose head is bowed with grief, and never affects to be superior to the little weaknesses which trouble others. What a wondrous power she has! Her very presence encourages and brightens the path to those who come in contact with her. They go to her in all their troubles for they know they will be understood. And if she cannot show them a way out of their difficulties she will at least cheer them with her sympathy.

#### HAPPY MARRIAGES.

Are the result of knowing the laws of health and nature. All the knowledge of a young man or woman, wife or daughter, should have is contained in the People's Medical Advertiser by R. V. Pierce, M. D. This big Home Doctor book containing 1008 pages with engravings and colored plates, and bound in cloth, (over 150,000 copies formerly sold for \$1.50 each) is sent free to any one sending 31 one-cent stamps to prepay cost of wrapping and postage. There are no conditions to this offer and the reader must not associate it with the advertising pamphlets prepared by quacks throughout the country. Address: World's Publishing Association, 663 Main Street, Buffalo, N. Y.

#### Hints for the Housekeeper.

Tack the rug on a bit of bare floor, the back porch being as good a place as any. Scrub thoroughly with warm ammonia suds and rinse with many clean waters until the soap is removed. Allow the rug to dry on the floor without removing the tacks, take it up and will not shrink, roll or pull out of shape.

A preparation for washing carpets and rugs is made of four ounces of any good soap dissolved in four ounces of boiling water; when cold, add five ounces of ammonia, two and one-half ounces of alcohol, two and one-half ounces of glycerine, and two and one-half ounces of chloroform.

Bottle this and cork tightly. To clean a carpet add a teaspoonful of the preparation to a pail of tepid water. The same preparation is also used for cleaning men's clothing.

Kansas City, July 5 Dr. B. C. Hyde, convicted of having poisoned Col. Thos. H. the millionaire philanthropist, sentenced to life imprisonment by Judge Luskaw in the t here this morning.

#### Every Day is a new Beginning

Every day is a new beginning. Every morn is the world made new: Yet who are weary of sorrow and sinning, Here is a beautiful hope for you-- A hope for me and a hope for you. All the past things are past and over, The tasks are done and the tears are shed; Yesterday's errors let yesterday cover, Yesterday's wounds which smarted and bled Are healed with the healing which night has shed. Yesterday now is part of forever, Bound up in a sheaf, which God holds tight, With glad days, and sad days, and bad days which never Shall visit us more with their bloom and blight, Their fullness of sunshine or sorrowful night. Let them go, since we cannot relieve them, Cannot undo and cannot stone; Go, in his mercy, receive, forgive them; Only the new days are our own, Today is ours, and today alone. Here are the skies all burnished brightly Here is the spent earth, all reborn; Here are the tired limbs, springing lightly To race the sun and to share with the morn In the charm of dew and the cool of dawn. Every day is a fresh beginning; Listen, my soul, to the glad refrain, And spite of old sorrow and older sinning, And puzzles forecasted and possible pain, Take heart with the day and begin again.

#### A Natural Poet

The father of Isaac Watts was determined that his boy should not become a poet, and when he caught him making rhymes, after tiring of remonstrating with him, he flogged him. As he applied the whip, young Isaac cried out: "O father, do some pity take. And another rhyme I shall never make. This provoking the father still more, he applied the lash with more severity, and young Watts again cried out. "O my father, do spare my back from pain, And I shall never make a rhyme again. The father, thoroughly discouraged in his vain attempt to beat the poetry out of the boy, sent him away to school with a special request that the principal flog the boy if he caught him making rhymes. The first morning at the chapel exercise the boy Watts, looking up at the ceiling during prayers, saw a rat coming down the bell rope. He laughed so loudly that the teacher, stopped in his prayer, demanded why he laughed. The boy tremblingly answered. Well, teacher, as there were no stairs, the rat came down the rope to say his prayers. The teacher discovered the genius of the boy, and encouraged his rhyme-making, and his rhymes to this day are sung the world around. --Literary Digest.

#### Dress Suggestions.

Very striking are the long evening gloves of white suede, with the back-stitching of the seams done in black. Some of the handsome new sweaters are of white, with large sailor collars and cuffs in color. The chantecler belt pin may be in gilt or silver with the rooster head in red. Rough straws are decidedly smart this season, and the rougher the straw the more costly the hat may be. Exceeding effective are the one-piece evening coats of broadcloth, trimmed with Persian banding or a border of effective metal embroidery. Large, flat buttons, covered with silk or velvet, are used for trimming on some of the tailored coats and costumes. Linen crotches are being used for blouses to wear with tailored suits. They are strictly tailored.

#### Will Seat Nearly 2,000 People

Modern New Grand Stand at Dominion Exhibition, St. John, N. B.

In deciding upon a new and more commodious Grand Stand, the Executive Committee of the Dominion Exhibition, to be held in St. John, N. B., September 5th to 15th, have realized that outdoor attractions lose much of their effectiveness if the sight-seeing crowd is not provided with proper accommodations. This new Grand Stand will be situated almost directly opposite the old structure, which has been removed by the military authorities to make room for a new armory. It will be 208 feet long by 40 feet deep, with comfortable seats for 1,750 people. The plans call for the best of sight-seeing facilities, and the rows of seats are so carefully graded that no difficulty will be experienced by any occupant in seeing all that is going on in the fireworks, open-air entertainment and stock-exhibiting departments. There will be a 10-foot promenade in front of the Grand Stand and a covered bazaar promenade underneath in the rear, as part of the Pike. The aisles will be large and amply wide, making access and egress easy. From this monster point of vantage some of the finest programmes of thrilling feats, pyrotechnics, etc., will be seen.

#### Why Leave Canada?

We hear of the Canadians who achieve success in the dominion of Uncle Sam; of the who do not, never a word. But the restless, the many who are wearied of the monotony of their surroundings and of small pay for much work, hear in every paragraph chronicling the success of a compatriot, a voice that summons them across the border. Ignorant of what they have to face, they rally forth as eagerly as boys on a vacation. Forsaking friends and country, they plunge into the whirl of cities, hoping that fortune may keep watch and ward over them. And what happens as a rule? Disappointment sits at the hearth. The gold that tempted them is elusive. If they secure employment they find out that working under a foreman who looks upon them as cogs in the business wheel is not an easy path to affluence. They become part of a ravening, tumultuous, straining crowd who are fed on scraps and flung to them from the temple of Prosperity. They will be broken on the wheel of labor. The experience of Canadians who are struggling in the great centres ought to prove a deterrent to the wandering propensities of their compatriots. --Catholic Record.

#### The Deadly Fly

but increase in numbers so that fly "specks" have been found to contain a large number of disease-producing germs. It is disgusting to read about these things, is it not? But it is not more disgusting than to see these same flies after their repast of filth, drown in the milk pitcher, drop their specks on a frosted cake, or clean their feet on the bread. Is it pleasant to see flies that may have been feasting on the sputum from a consumptive or upon the waste from a typhoid patient crawl over the lips of a nursing bottle? These are daily occurrences in homes unprotected from their visits. --Mrs. F. L. Stevens in Progressive Farmer.

North Carolina has 3,696 square miles of water area, Minnesota has 3,824 and Florida has 3,805. Michigan's water area is 500 miles, but it has 16,653 square miles in lake Superior, 12,922 in lake Michigan, 9,923 in lake Huron and 460 in lakes Erie and St. Clair--a grand total of 40,460 square miles. Michigan has as large an area in water as Ohio has in land.

#### The Abriter

"Fit audience let me find though few" --I read In one who sang his song because he must; Now all those listless ears are filled with dust, And all that brood of jealousy is dead. All honor to the heedful few who said: "Sing on; undaunted be, for you may trust That Time's wise jury to you will be just!"-- And now that noble brow is garlanded! So blinded Prejudice shall pass away, And time shall clear his court of all the throng That fills the air as with a babel voice; Then, as some lyre which long-forgotten lay, And on whose strings their slept Orphan-sons, Thrills to the touch,--so Beauty shall rejoice.

#### New Use for old Money

All the paper money sent into the treasury department at Washington for redemption is destroyed in a huge iron tank by boiling it in a mixture of water and alkali. After boiling for several hours the money comes out of the tank in the form of a pulp, which as it makes the very best of paper stock, is bought at a good price by paper makers. Much of it however, is sold to persons who make a business of converting it into plaques, small statuettes, copies of the Washington monument in miniature and other objects for sale as souvenirs.

#### Aurora Helped Uncle Sam's Gunboat Out of Trouble.

During the southeast blow on July 3rd United States gunboat Salem dragged her anchors and grounded at Eastport. The steamer Aurora, which trades between this port and Campobello, happened to be in that vicinity and went to assistance of Uncle Sam's warship and towed her into safe anchorage. The Aurora was detained on her trip to this port on account of this incident. The Salem had been sent to Eastport to help celebrate July 3. Some other small craft suffered during Monday's storm, but no lives were lost.

### Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale-people look good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach. A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery --the Great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of unknown composition as a substitute for "Golden Medical Discovery," which is a medicine of known composition, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath. Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

### Red Rose Tea

"is good tea"

Always exactly the same quality  
Those who have used it for years  
are the ones who give it the name  
of "good tea."

### FROM OUR CORRESPONDENTS

#### ST. STEPHEN

A very gay dancing party was given last Friday evening by Mrs. David Maxwell for the pleasure of her two sons Reginald and Alan Maxwell, and their young friends. The evening was a charming one, warm and balmy, and after the dance the guests could promenade about the grounds. Dancing began at 9 o'clock and continued until an early hour on Saturday morning. During the evening ices and cake were served. The party was one of the pleasantest that the young society element has enjoyed this season. The guests were Misses Lois Gimmer, Gladys Blair, Rachel Walker (Hampton), Mildred Todd, Rhoda and Georgie Young, Doris and Pauline Clark, Marjorie Baskin, Helen Morrison (Fredericton), Myrtle Ganong, Dorothy Nason, Elva Nicholson, Anna Nicholson, Phyllis Watson, Marion Black, Valona Pike, Elsie Sullivan, Murray Paine, Alta Farnham, Marion Murray, Edith Stevens, Roberta Gimmer, Muriel Chapman (Dorchester), George Sheppard (Moncton), Mary Gimmer, Muriel Eaton (Fredericton), Messrs Sterling Hutchison, Keith Eaton, Hardy Young, Carleton Eaton, Paul Lord, Ross Eaton, Earle Gardner, Fred Tarbox, Frank Nicholson, Harry Murchie, Deane Murchie, John Young, Harold Murchie, Howe Grant, Keane Murchie, C. Coombs, A. McCormick, James Inches, H. Thornhill, Roy Lavin, Ike Farrington, Will Hole, Fred Fraser, Alton Dinsmore, Kenneth Vavasour, Louis Dwyer, Seymour Murchie.

On Tuesday afternoon the home of Mrs. Henry Graham was the scene of a brilliant reception given in honor of her daughter, Mrs. Harry Pethwick of Charlottetown, P. E. I., who has been here during the past week for a brief visit. The house was beautifully adorned with roses for the occasion. There was a large number of guests beautifully gowned in pretty bright colors. Mrs. Graham and Mrs. Pethwick received their guests in the long drawing room. Mrs. Graham was attired in a handsome gown of grey silk trimmed with lace and jet. Mrs. Pethwick looked very attractive in a pretty frock of white with trimmings of blue. Pink ices and cake were served by young lady friends—Misses Gladys Blair, Mildred Todd, Anna Sullivan, Pauline Clark and Mrs. Don Grouse. The hours of the reception were from 4 until 6 o'clock. It was a very pleasant afternoon. Everybody enjoyed meeting Mrs. Pethwick, who, when she was Miss Alice Graham, was a favorite with her friends. Much to the regret of all she leaves this morning for her home, accompanied by her children.

Miss Muriel Sadler arrives today to visit her friend, Miss Gladys Blair. The reception given by Mrs. David Hume Bates last Friday afternoon at her residence in honor of her daughter

ter Mrs. McKusick, the hours between 4 and 6 o'clock passed away quickly with the assistance of Mrs. Bates. The house was prettily adorned with roses, marguerites, ferns and smilax. On the dining room table was a magnificent bouquet of American beauty and Marshal Neil roses. In the dining room, to assist in the serving the guests were—Mrs. Edward Lacour, Misses Alma Sullivan and Lelia Grant. There were pretty gowns worn.

### Synopsis of Canadian North-West Land Regulations.

Any person who is the sole head of a family or any male over 18 years old, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months residence and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along side his homestead. Price \$3.00 per acre. Duties—must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties—must reside six months in each of three years, cultivate fifty acres, erect a house worth \$300.00.
