

VES IN DANGER—S. S. Freia Lost at Mouth of Bay of Fundy ARSON IN LONDON—Suffragettes Try to Burn Noted Gallery

PARCEL POST BILL MAY BE INTRODUCED THIS SESSION
If Liberals Do Not Block It, Bill May Be Introduced.
WOULD BE GREAT BOON TO PEOPLE.
Lemieux, However, Intimates that Opposition will Work Against it—Growth of Rural Mail Delivery Shown.

Special to The Standard.
Ottawa, May 30.—The policy of the post office department was under review in the House today when the estimates for that branch of the public service were taken up in committee of supply. There were some encounters between Hon. L. P. Pelletier and his predecessor in office, Mr. Lemieux, and the former clearly stated his position with regard to the establishment of a parcel post system. "I am anxious to give this great boon to the public," he said, and stated that schedules of rates and other details were being worked out by the officials of the department.

He hoped that the opposition would not treat as controversial the bill before the House which merely authorized him to go ahead, and, therefore, strengthened his position. If the bill were passed, he pointed out a plan for a parcel post system might be prepared in a few months. If the proposed legislation was made a contentious question he would not seek to delay prolongation by pressing it. Mr. Lemieux and his colleagues of the opposition at once intimated that they would oppose the bill on the ground that it did not take into account the fact that they will be responsible for a postponement of action on the question.

During the day Mr. Pelletier announced that he was preparing to provide increases of pay for the letter carriers and also postmasters and also to do something for the railway mail service. He indicated that the number of rural mail routes had been doubled since the present administration took office in October, 1911. There were then 81 routes; there are now 1285. The number of delivery boxes on the routes was 16,815 in 1911. The number now is 35,000 and will be 71,600 when all those already authorized are installed. Mr. Pelletier defended the plan which he believed would break the back of the cable monopoly.

Mr. Lemieux attacked a general statement of revenue and expenditure of the Post Office Department for the year, pointing out that the management there had been substantial surpluses for a number of years. He commended the appointment of Mr. Plett as law clerk of the department nor did he criticize the increase of personnel in the service, but he thought the increase of salaries in the outside service would require some explaining.

PARCEL POST BILL MAY BE SURPRISED AT ATTITUDE OF GRIT SENATORS
New Zealand Minister Expresses Astonishment at Liberal Speeches on the Naval Aid Bill in Senate.

Special to The Standard.
Ottawa, May 30.—Sir Robert Buchanan, the oldest member of the New Zealand parliament, and who is now in Ottawa, called on the Prime Minister this afternoon. He is deeply interested in agricultural matters and has visited the Central Farm at Ottawa. He will also go to Guelph and Winnipeg.

While not wanting to express an opinion on the naval matter test it is interpreted as interference, he remarked that he was astonished at some of the statements he had heard by Liberal senators in the naval debate. He was particularly impressed with the utterances of Sir McKendrick Bowell which he regarded as remarkable for a man of ninety. He observed that when New Zealand had given its Dreadnought it was a free will offering and considered above party politics.

During the day Mr. Pelletier announced that he was preparing to provide increases of pay for the letter carriers and also postmasters and also to do something for the railway mail service. He indicated that the number of rural mail routes had been doubled since the present administration took office in October, 1911. There were then 81 routes; there are now 1285. The number of delivery boxes on the routes was 16,815 in 1911. The number now is 35,000 and will be 71,600 when all those already authorized are installed. He commended the appointment of Mr. Plett as law clerk of the department nor did he criticize the increase of personnel in the service, but he thought the increase of salaries in the outside service would require some explaining.

TREATY OF PEACE ENDED WAR
Eight Months Struggle Between Balkans and Turkey Over.
"PEACE OF LONDON" SIGNED YESTERDAY

Special to The Standard.
London, May 30.—The eight months war between Turkey and the allied Balkan States is ended. The "peace of London" was signed today in the picture gallery of St. James' Palace.

Sir Edward Grey, the British Foreign Secretary, presided over the formal signing of the peace treaty. The following peace delegates signed the preliminary treaty: Osman Nizam Pasha for Turkey; Dr. Danef for Bulgaria; Stejan Novakovich for Serbia; Stjepan Skokobrod for Greece; and M. Popovitch for Montenegro.

M. Popovitch, the Montenegrin chief delegate, after signing the preliminary treaty on behalf of Montenegro, delivered a short speech in which he said: "We have signed the preliminary treaty because nothing else remained for us to do. We are glad to have peace, but are profoundly dissatisfied with the terms we have been obliged to accept. We have been obliged to give up the fruits of our victory. We have been obliged to give up the Albanian frontier as an open route between Podgoritz and Lepk."

The Bulgarian delegate proposed that peace become permanent and effective without ratification of the treaty. This proposal was rejected and the delegates signed the treaty without reading it, evidently in full confidence that all seven articles were in such wording as the powers chose to have them.

IS GREAT CORRUPTION FUND NEXT
Ottawa Hears Liberals Are Busily Raising "War Fund."
Is This What the Telegraph Recently Issued an Appeal For?

Special to The Standard.
Ottawa, May 30.—The building up of a huge corruption fund seems likely to result from the latest activities of the Liberal machine which has been at work here all session blocking legislation in the hope that the government would provide a general election to satisfy the ambitions of a few Liberal ex-ministers and ex-members.

Rumor has it that a personal appeal has been made and is being made to the Liberals in Ontario and in some of the other provinces to send in contributions of one dollar and upwards to come to the aid of the Liberal republic in the way of sympathy and help. Rev. Dr. R. P. McKay, former moderator of the assembly, who is in charge of foreign mission work, says that there is need today for twenty thousand young men of British education in China. Rev. Dr. A. S. Grant, who has been the main cause of the holding of the present congress, will put before the congress his plans for the future work of the church. Dr. Grant says the Presbyterian church in Canada is in proportion to its numbers, richer than any church in the Dominion, and as rich as any church in the world. He states that ministers are in great need of financial support and of property equipment. He proposes to raise \$1,000,000 in ten million dollars and to see that every mile of field and acreage in the Dominion is provided with the necessary plant.

"Christianity has failed," said Dr. Grant, "because it has not been given a chance." He proposes that the wealth of the rich men of the church should be secured for its great purpose, and his success so far is taken as an assurance of what he will do in this regard in the future. It is conceded here that Rev. Dr. Murdoch McKenzie, of Houston, China, will be named as moderator of the assembly on Wednesday night of next week, when the election takes place. The programme of the congress to raise \$1,000,000 is as follows: Rev. Dr. G. G. McQueen, Edmonton; Rev. Dr. Murdoch McKenzie, Houston, China; Rev. Dr. Geo. Hanson, Montreal; Rev. J. Campbell White, New York; Professor Graham Taylor, Chicago; Dr. Robt. Johnson, Montreal; James Balfour, K. C., Regina; President Gandler, Knox College, Toronto; Rev. John McNeill, Cooke's church, Toronto; President Falconer, Toronto University; J. A. Patterson, K. C.; Dr. J. A. MacDonald, editor of the Globe, Toronto; Matthew Parkins, Prof. H. Law, Rev. C. W. Gordon, Winnipeg; Rev. C. M. Wright, Port George; Rev. W. T. Herridge, Ottawa, and Hon. J. K. Lemming, Premier of New Brunswick.

These men will deal with such questions as "Training for Service, by Means of the Home, the Press, the Church, the College." "The Church's Opportunity in Canada." "Canada's Opportunity Abroad." "The Foreign Problem in Canada." "The Rural Problem." "The Social Application of the Gospel." "Evangelism." "Temperance." and "The Stewardship of Money."

WILL SECURE TEN MILLIONS FOR MISSIONS
Rev. Dr. Grant to Provide Church Plant for Presbyterians.
WILL PUT HIS PLANS BEFORE CONGRESS

Special to The Standard.
Toronto, May 30.—Chinese missions will be discussed at the Presbyterian Congress to open here tomorrow. It is believed that an appeal will be made to the churches of Great Britain, the United States and Canada, to come to the aid of the Chinese republic in the way of sympathy and help. Rev. Dr. R. P. McKay, former moderator of the assembly, who is in charge of foreign mission work, says that there is need today for twenty thousand young men of British education in China. Rev. Dr. A. S. Grant, who has been the main cause of the holding of the present congress, will put before the congress his plans for the future work of the church. Dr. Grant says the Presbyterian church in Canada is in proportion to its numbers, richer than any church in the Dominion, and as rich as any church in the world. He states that ministers are in great need of financial support and of property equipment. He proposes to raise \$1,000,000 in ten million dollars and to see that every mile of field and acreage in the Dominion is provided with the necessary plant.

"Christianity has failed," said Dr. Grant, "because it has not been given a chance." CREW OF THE FREIA ALL REACH SHORE IN SAFETY
Norwegian Ship Broke Cable at Yarmouth in Storm.
LADEN WITH LUMBER FOR BAHIA BLANCA.
Anxiety Felt for the Safety of Twenty Men Who Went to Rescue of Ill-fated Vessel.

Special to The Standard.
Halifax, May 30.—A storm that swept over Yarmouth last night with a raging sea all of today, caused the total destruction of the Norwegian ship Freia, whose crew escaped and imperilled the lives of twenty men on board the stranded steamer, Gerold Turnbull, which had been placed there to save her. It is believed the Turnbull will stand the strain and that it will be possible to get the men off tomorrow.

The Freia, which was loaded with lumber and cleared for Bahia Blanca, was at anchor awaiting a number of men for the crew. She rode through last night's gale and made good weather of it. This morning as the storm was abating the cable parted and she was cast ashore on Sunday Point broadside on. The thirteen men on board were able to jump ashore immediately after she struck, her masts went by the board, her deck commenced to go, and shortly afterward the hull broke in pieces. The Freia was formerly an East Indian and she registered 1400 tons and was owned in Norway.

The Gerold Turnbull has undoubtedly gone to pieces, but the sea is still running too high for anything definite to be obtained from the scene of the wreck. Before the Freia parted and the wrecking steamer Bridgewater was standing by, her pumps had been transferred to the Freia and had twenty men placed on board. Captain Landry of the wrecking steamer Bridgewater says his ship hung on to the anchor and that the twenty men on the Gerold Turnbull could come off, but as the wind increased and the sea arose this anxiety is felt for the safety of the men on board the Turnbull. Through the mist she can be seen lying in about the same position as formerly, the seas breaking for a mile or more around her.

THE SENATE HAS PASSED BANK ACT
Minor Changes Made in Measure but They are of Technical Nature—Adjourned Until Monday.

Special to The Standard.
Ottawa, May 30.—The Senate today completed the consideration of the Bank Act. A number of amendments proposed by the department of finance were adopted. They are all of a technical character and do not affect the principle contained in the bill. An amendment which was also adopted provides that banks "may" establish stock transfer agencies in each province. As the bill came to the Senate this clause declared that banks "shall" establish such agencies. The amendments were approved and the bill read a third time. The Senate adjourned until Monday afternoon.

INQUEST AT PARRSBORO
Special to The Standard.
Parrsboro, N. S., May 30.—An inquest was held before Coroner Rand, this afternoon on the body of H. E. Conley, found dead yesterday. The evidence showed the deceased had been drinking, but appeared to be all right when last seen alive. The verdict was in accordance with the evidence. It has been reported that the deceased has a brother at Fall River, Mass., who will arrange for the removal of the body.

P. E. ISLAND MAN LEFT LARGE ESTATE.
Vancouver, May 30.—The will of the late J. E. Lefurgy, formerly of Charlottetown, P. E. I., has been filed for probate. He left an estate valued at \$200,000.

CONSPIRACY IN COREA.
Seoul, Korea, May 31.—Twenty Koreans have been arrested in the province of Chung-Hy-Ing, charged with conspiracy in planning the organization of an army to fight for the restoration of the independence of Korea.

QUEAL AND FINN WON TEAM RACE
New York, May 30.—William Queal, of Alexandria Bay, N. Y., and William Kolehmainen, of Finland, won the ten mile international professional team running race at Elizabethfields, Brooklyn, today. The winners' time was 45 minutes, 4.16 seconds. Tom Lombard and Alfred E. Wood, were the second team and J. Meadows and Ted Crooks, third.

ST. JOHN COUPLE IN DIVORCE ACTION.
Special to The Standard.
Fredericton, May 30.—James Reynolds, of St. John is the plaintiff and his wife Florence G. Reynolds is the defendant, in a divorce case which will be tried here during the August session of the divorce court.

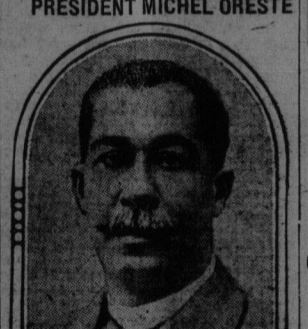

ITALY GLAD THAT PEACE IS SIGNED
Great Satisfaction at Vatican and Querinal—No Hostility is Felt Toward Greece.

TRANQUILITY PROMISED BY THE ELECTION OF PRESIDENT MICHEL ORESTE
Since the election of the new President of Haiti, Michel Oreste, recently the Republic has been in a quiet state, and tranquility is promised for the future. It is the first time that with military pressure all parties have joined together to elect this sympathetic and popular man. Mr. Oreste is fifty-four years old. He is a lawyer, having been admitted to the Bar in 1882. He has been in the Chamber of Deputies, was at one time Attorney General and was twice a Senator.

BRIDE OF A FEW HOURS IS SUICIDE
Girl of 17 Years Shot Self—Received a Letter Shortly After Wedding—Tore It Up Before She Died.

FELL 400 FEET AND LIVES TO TELL IT
New York, May 30.—Falling four hundred feet from an aeroplane today, Arthur Lampham, a youthful parachute jumper, landed feet first in a Staten Island marsh and was buried to his neck in the mud. With ropes and boards he was extracted. At a hospital he was found to be suffering from shock. Lampham was taken up by Harry B. Brown, an aviator, and was to have made a five hundred foot jump. His parachute failed to work when he made his leap.

NO ONE BLAMED FOR MONTREAL ACCIDENT
Montreal, May 30.—Although the verdict in the wreck commission enquiry into the fatal collision, which occurred last fall between the C. P. R. liner Montreal and a schooner below Quebec, in which a man was drowned, has not yet been made public, the result of the enquiry is understood to be in effect that in consequence of the sale which was blowing at the time the collision occurred, no one is blamed for the fatal result. The mishap, according to the same information, was purely accidental and therefore the court feels justified in exonerating all concerned.

PRESIDENT MICHEL ORESTE

PARCEL POST BILL COME UP THIS SESSION

Continued from page one. In regard to the parcel post bill, Mr. Lemieux said that while he agreed with the principle of it he considered that the country should be informed as to the rates which were intended and the nature of the matter which would be conveyed.

Turning to the arrangement for the placing of pillar boxes and stamp vending machines on the streets, the postmaster general said he was not responsible for that contract.

Mr. Lemieux said he had passed legislation but had never made a contract for twenty years for stamp vending machines.

The postmaster general said he had considered the contract for a long time and had been endeavoring for months past to get rid of it. It was signed May 20, 1911 and was brought to his attention only last fall.

Mr. Lemieux said he had passed legislation but had never made a contract for twenty years for stamp vending machines.

Mr. Lemieux said he had passed legislation but had never made a contract for twenty years for stamp vending machines.

Mr. Lemieux said he had passed legislation but had never made a contract for twenty years for stamp vending machines.

WORKMEN SAY BODY AFLOAT IN HARBOR

Employees at Sugar Refinery Saw Gruesome Sight on Thursday Afternoon—Were Unable to go to it.

Thursday afternoon, while some laborers were working on the site of the new sugar refinery at the government pier, they saw what looked very much like the body of a man being carried down the harbor by the current.

It is thought that if it really was a corpse they saw floating by it might possibly be the remains of Charles Cunningham, who was drowned in the Kennebecas river a few weeks ago.

Inspector Kenney was in court and stated that the body was found in a shallow bay at the foot of the pier.

Mr. Spencer was before the Police Magistrate yesterday afternoon, having been charged by Officer Rankin with allowing fourteen people on May 24th to stand in one aisle of the Unique Theatre, and twenty-three people in another aisle, all of which was contrary to the law.

Mr. Spencer stated that he did not know about the matter, as he did not witness the violation, but he stated that the fault he found in many theatres was that the aisles were too narrow.

Magistrate Ritchie referred to the heavy fine for allowing people to stand in the aisles of public houses, and suggested it would be a good thing to have signs about the theatres giving warning to the people that by standing in the aisles they were breaking the law.

The court was adjourned until Wednesday next.

Mr. Proulx—Does not a municipality control its own streets?

The postmaster general as representing His Majesty has a right to put pillar boxes wherever he likes.

Mr. Pelletier said that the lady had a right to assign the contract and had already done so to the Dominion of Canada Postage Stamp Co.

Mr. Pelletier recalled those of the names of those contractors with the company. Mr. Pelletier recalled those of the names of those contractors with the company.

FACIAL BLOTCHES GONE AFTER USING POSLAM

Only a day or so ago, face broken out with pimples and red spots. Today face clear and fair. This is the way Poslam acts, quickly, surely and easily driving away unsightly skin affections.

LOOK FOR HAPPINESS. Some one has said that we find what we are looking for in this world. It is that we find—and it is true to a certain measure—how very much better and more wholesome to be looking for kindness, rather than slights, for happiness, for joy, rather than misery, for the flowers of life rather than its thorns.

BUSINESSLIKE METHODS.

The National Transcontinental estimates have been before the House of Commons for some days and the friends of contractors have been busy objecting to economical and businesslike methods of railway building. The Liberal party built the road to please the contractors and the contractors must have done something very substantial to win their gratitude, for ever since the disaster of Sept. 21, 1911, they have watched the National Transcontinental like so many hawks. There shall be no economy there if they can help it. The people will not get the best of the bargain if they can put a spoke in somewhere.

The lowest depth probably was sounded by Mr. Carvell, who, elected to represent the people of Carleton, declared that the money saved by the new administration was stolen from sub-contractors—whose counsel he apparently was—but more important persons than Mr. Carvell said things which, though not put so coarsely, and brazenly, were in effect so many pleas for extravagance and so many outrages against economy. The Laurier government declares that the 1800 miles of National Transcontinental would cost about \$54,000,000 or some \$30,000 a mile. That was an unreasonably low estimate, put forward deliberately to deceive the people: everybody who looked into the matter knows that a line of the standard proposed could not be built for so small an amount. The road will cost upwards of \$150,000,000, or nearly \$90,000 a mile, and that is unreasonably high. The dishonestly low estimate is balanced by the dishonestly high actual cost and when the new government instituted businesslike methods the Liberals rallied to the cause of high expenditures and raised the cry of "degradation." In the Liberals' day of power two things helped to make the cost of the line excessive. There was "over-classification." That is, the charges for the work done were calculated on an improper basis, earth being paid for at rock prices. There was unnecessarily expensive construction, and it is this that the Liberals are bent upon maintaining.

The general theory of the expensive construction of the National Transcontinental is attractive and within limits, is sound. It is proposed to make it a perfect railroad from the start, so that the future operators of the road will have no expensive reconstruction work to face, no straightening of curves and lowering of grades. This is correct enough, but in the hands of theorists this was pushed to mean the sinking of every possible dollar in the first construction. The object is not to make all reconstruction work in the future unnecessary: that is an impossible ideal. The object is to eliminate expensive reconstruction. It is, for example, impossible to build a road through a wilderness such as that which exists in Northern Quebec and Northern Ontario, and finish it for all time. Large portions of it are so swampy that solid construction must be postponed until the country has been cleared and drained sufficiently to allow the soil to dry and become firm. It thus would pay to get a fairly good road established and then, under more favorable conditions, bring the road up to its final condition.

Another question over which there has been much talk is that of momentum grades. The principle is that if two grades slope down towards each other a train running down the one will acquire sufficient momentum to run up the other so that the effect in hauling loads is almost the same as if the line were level. There is some dispute about these grades in engineering circles but there is weighty evidence in their favor. For example, Mr. Willard Bihahn, in his "Field Practice of Railway Location," says: "We have seen that the grade to consider is the virtual profile grade. We have seen that without exceeding usual freight train speeds, a train will pass down and up in a 25-foot sag with only the usual demand on the locomotives, that is, such sags may be operated by the same motive power in the same time and at the same cost as so much straight level track."

While there may be some dispute about the engineering efficiency of momentum grades there is no dispute about the saving in cost, and saving in capital cost means saving of interest charges for years to come. Mr. Cochrane and Major Leonard in resolving to introduce a few momentum grades this had to warrant them:

1. An undoubted saving in money.
2. Weighty engineering evidence that it was judicious.

The case is well stated by W. E. Tye in an address which he delivered last January to the Canadian Society of Civil Engineers, of which body he is president: "Momentum grades are a great source of saving in cost with-

out increasing the operating expenses. The use of momentum in overcoming short stretches steeper than the ordinary grade is almost always justifiable. The exception is where the traffic is so congested that the possibility of a delay due to the failure of an occasional train to surmount the grade is more important than the undoubted saving in interest charges which they ensure. It will probably be many years before conditions prohibiting their use prevail on any portion of our Canadian railways."

The last two sentences hit the point. The National Transcontinental in time will have vast quantities of freight: so we all hope. But it is to be expected that for some years after it is thrown open to traffic the quantity of freight offering will not be large enough to tax its full capacity. This has proved true in the west: the Grand Trunk Pacific is hauling trains of thirty cars over a line good enough for trains of sixty cars, merely because the country traversed does not as yet provide the freight. By the time the volume of freight passing over the line has become so great as to require the numerous extremely heavy trains which the opposition talk about, the country along the route will have dried out and other conditions will render the changing of the grades, if it prove necessary at all, a cheaper and easier business.

Another striking deliverance by Mr. Tye may be quoted. It was written by him on November 26 last to Mr. Cochrane: "These changes in grade will not decrease the haulage capacity of the locomotives, will not increase the running time of either freight or passenger trains, and will not increase the operating or maintenance expenses. On the contrary they will, by decreasing the cost of construction, reduce the interest charges. The total cost of transportation is the sum of the operating expenses, and the interest charges. A railway to handle a given traffic is the most effective commercially, or can handle the traffic at the least cost, when the sum of these two items is the least. Any change of alignment, or grades, which reduces the fixed charges without increasing the operating or maintenance expenses is therefore an improvement in the effective standard of the road. These changes will reduce the interest charges without increasing the operating or maintenance expenses, or decreasing the haulage capacity or speed of the locomotives, and are therefore an improvement in the effective standard of the road."

Such testimony is worth any quantity of opinions from men who promised to build a road for \$54,000,000 and let the country in for \$150,000,000. The opposition want to have the line built in the most expensive manner possible and care nothing for the cost today or the interest charge tomorrow. The government and Major Leonard are building the railway as a business proposition. Such a course was bound to hurt the feelings of the Lauriers and Grahams—to say nothing of the Carvells.

THE MEN RESPONSIBLE.
 The scathing arraignment of both the leader of the opposition of the House of Commons and the leader of the same body in the Senate delivered by Senator Pope will be echoed by all good Canadians. He did not spare the two arch-offenders who under a cloak of fine words for the Empire have succeeded in holding up Canada before other parts of His Majesty's possessions as a selfish and halcyon Dominion. The shipping was well deserved and Senator Pope is to be congratulated upon his courage and honesty in tracing the records of Sir George Ross and Sir Wilfrid Laurier.

It is well that in considering the merits of the Naval Bill the people should know something of the record of the men who are either its chief critics, or supporters. What are the facts? The proposal to help Britain was introduced by Premier Borden, a good Canadian and a staunch adherent to British connections whose public record has always been above reproach. His chief lieutenant in supporting these proposals was Hon. Mr. Hazen who, unlike the member for the City of St. John, the prime obstructionist of the naval proposals, has always been held in high esteem by the people of the country and has secured the confidence of the best men of Canada by the reforms he has introduced since becoming a federal minister.

On the other hand Sir Wilfrid Laurier has always been a lukewarm supporter of British ideals. He has never disclosed the fact that Canadian independence is his dream, and the less to do with Britain the better. He reached the climax of these dreams in endeavoring to pass through the House of Commons a reciprocity

IN LIGHTER VEIN

THE WOMAN-TAMER.
 He said, "She shall be my slave! Lesser in all than I; Feeble of body and brain She shall carry a golden chain, And dwell until she die In the golden cage I gave." . . .
 And he found a treacherous feature of hate and fear, With teeth and claws that were ready when he came near!

He said, "She shall be my star! This dusty world of mine, I will bow me down at her shrine, Pray for the light of her love, And worship her from afar." . . .
 But he found that the light of her love had been withdrawn, Leaving only a faint chill, a faint chill score.

He said, "She shall be my friend! Side by side let us stand, For I need your help and you, Comrades tried and true, With my hand in your dear hand We will see life out to the end."

And she turned and her eyes met his; (But she laughed through her tears) and she came to her place by his side. —Thomas O'Meara in The English woman.

The Limit.
 He—Your cousin Clara seems exceedingly shy and modest.
 She—Modest? Why, she'd blush if a man glanced at her when she was changing her mind.

No One Has His Nanny.
 An indignant old man of Tralee appealed to the authorities for help. In considering his case, one of the guardians of the poor remarked: "The poor man should have some relief. Sure he has no bed clothes but his goat."

Gymnastic Stunt.
 Barbour—You seem warm; have you been exercising?
 Waterman—Yes, indeed; I went to the mutes' dance and swung dumb-bells around all evening.

Embarrassed.
 "Didn't you feel pretty cheap sitting there with a young and innocent girl at such a shocking play?"
 "I did. She had to explain a good many of the innuendoes before I was able to get them."

A Little Fellow.
 Teacher (to Peper), who has caught in his apple tree)—Come down a moment; I want to tell you something.
 Peper—It can wait, sir, I'm so small, I don't need to know much.

The Best Quality at a Reasonable Price
Every Face Is Different
 When you realize that no two faces are exactly alike you will readily understand the advantages there are in having your glasses made so that the shape and size of the lenses will conform to your features and that the mounting selected is the one best suited to keep these in the proper position before your eyes.

No Summer Vacation
 We would greatly enjoy one, but as many of our students come from long distances and are anxious to be ready for situations as soon as possible, our classes will be continued without interruption.
 Then, St. John's cool summer weather makes studying during the warm months just as pleasant as at any other time. Students can enter at any time. Send for Catalogue.

THE NEW OLD SPIRIT OF CHRISTIAN PHILANTHROPY

Rev. Dr. A. J. Lyman, of Brooklyn, Preaches Striking Sermon
TO DO EFFECTIVE CHRISTIAN WORK

Necessary Steps to be Taken Before Efforts for Betterment of Humanity Can be Productive of Best Results.

New York, May 26.—The Rev. Dr. A. J. Lyman of the South Congregational Church, preached a week ago a sermon on "The New-Old Spirit of Christian Philanthropy." This sermon attracted so much attention that its publication has been requested. It is here with give entire. Dr. Lyman took his text from Leviticus xxvi:10: "Bring forth the old because of the new." Dr. Lyman said:

You have heard of the Scotch professor of theology who was once asked how he prepared his sermons. "Oh," said the hard-boiled old orthodox, "I just begin w' infinity and gang right on." One wonders what he would end with if he began with infinity of forces.

I do not mean today to begin with infinity; but I would like to begin by calling attention to the very general and universal law of life in this world of ours, which we may call the law of dualism, or, steering clear of a technical word, the law of "two-ness," according to which the fine result in every field and department of action is reached, not by one force acting alone and independently, but by the joint action of two forces, apparently in contrast—each modifying the other, yet really both contributing to one composite result.

I pick up this sermon page by page. The opposing pressure of finger and thumb is seen anywhere round your face by the binocular of my two eyes, each giving a slightly different picture. So everywhere. From the climb of the hand on the tree on May day to the swing of the planets in their orbits, every finest result in nature is accomplished by balanced dualities of forces.

And in the human realm the same law holds. The quality of sex in marriage; the balance of parties in round meat, are but higher notes in this vast music of contrasted opposites—the most universal of all the very nature of things in ethics. We must need balance freedom on the one hand and obligation on the other; justice and kindness. We never meet anywhere save by such a two-horse team, apparently pulling apart, but really working together. So in religion, the very nature of things implies the binding together of two contrasted personalities—God and man. So in the Bible. All real Bible truth is twofold—an Old Testament and a New.

Now in the importance of this principle of twoness we are apt to forget for the moment when we are in a great movement sweeps over the face of society. Then it is that people get excited and divide into camps, each displaying a partisan conviction—the conservative or reactionary camp; the progressive or radical camp—none dwelling altogether upon the fact that in our recent exclusive attention to institutionalism, that is, attempting to reach results by scientific and organized processes, we have been in danger of forgetting the contrasted and older force of personalism.

Perhaps you know those three fine lines of Ernest Crosby:
 None could tell me where my soul
 lay hidden.
 I searched for God, but God eluded me.
 I sought my brother, and I found all three.

Speaking only a few days ago with the newly appointed superintendent of the Brooklyn City Mission Society, one of our brainy and up-to-date experts, he informed me that within two years the entire charitable and philanthropic force of Manhattan had been incited with a new sense of the absolute necessity of hand-to-hand work, as supplementing the more impersonal method of scientific bureaus.

The truth is, institutionalism alone is already beginning to break down in this country.

After we have cleared the ground by scientific methods, said Mr. Schaufert, for substance, then individuals must penetrate into the homes of the wretched. Warm hand must touch cold hand.

"Of all the lights you carry in your face, joy will reach farthest out to the needy," said Mr. Beecher.

Personality must touch personality, or else all our method and mechanism will come to naught. The results must be external and so temporary. You will not misunderstand me. This congregation never did have what some churches have a genius for misunderstanding its ministers.

This does not by any means imply that the method and the mechanism of the new social service methods are not valuable. They are more than valuable; they are indispensable—more than indispensable; they are in a true sense supreme. We have waited for them. We have miserably failed in the past because we have not had

THE NEW OLD SPIRIT OF CHRISTIAN PHILANTHROPY

Rev. Dr. A. J. Lyman, of Brooklyn, Preaches Striking Sermon

TO DO EFFECTIVE CHRISTIAN WORK Necessary Steps to be Taken Before Efforts for Betterment of Humanity Can be Productive of Best Results.

New York, May 26.—The Rev. Dr. A. J. Lyman of the South Congregational Church, preached a week ago a sermon on "The New-Old Spirit of Christian Philanthropy." This sermon attracted so much attention that its publication has been requested. It is here with given entire. Dr. Lyman took his text from Leviticus xxv: 10: "Bring forth the old because of the new." Dr. Lyman said:

You have heard of the Scotch professor of theology who was once asked how he prepared his sermons. "Oh," said the hard-headed theologian, "I just begin with 'Infinite and gang right on.' One wonders what he would end with if he began with infinity."

Do not mean today to begin with infinity; but I would like to begin by calling attention to the very general and universal law of life in this world of ours, which we may call the law of dualism, or, steering clear of a technical word, the balance of the fine line in every field and department of action is reached, not by one force acting alone and independently, but by the joint action of two forces, apparently in contrast—each modifying the other, yet really both contributing to one complete result.

I pick up this sermon page by two forces: the opposing pressure of finger and thumb, as you would say. From the climb of the tree on the planet to the orbit of every finest result in nature is accomplished by balanced dualities of forces.

And in the human realm the same law holds. The duality of sex in marriage, the balance of anyone save one, are but higher notes in this vast music of contrasted opposites—the most universal of all.

So in ethics. We must need balance freedom on the one hand and obligation on the other; justice and kindness. We never get anywhere save by such a two-horse team, apparently pulling apart, but really working together. So in religion. The very word religion implies the binding together of two contrasted personalities—God and man. So in the Bible. All real Bibles must be twofold—an Old Testament and a New.

Now in the importance of this principle of twoness we are apt to forget for the moment when we are engaged in a movement sweeps over the face of society. Then it is that people get excited and divide into camps, each disclaiming a portion of the other, the conservative or reactionary camp; the progressive or radical camp—one dwelling on the past and the other on the future, the one clinging to the old, the other to the new, one taking up with the new and falling in line to the old.

Both are in error, as presenting only half the truth. Take as an illustration one of the most sweeping and beneficent movements of our age—the modern development of philanthropy in this country.

We have now come to the time when the intelligent and progressive thoughts of many of the up-to-date social workers in this country are beginning to recognize the fact that in our recent excitement in the matter of institutionalism, that is, attempting to reach results by scientific and organized processes, we have been forgetting the better housing, fairer wages, and protective protection of the child, fuller liberty on the one hand and firmer law, sterner inspection on the other.

Then fifth—Co-operation. This modern battery of investigation, mobilization, education, prevention, is a co-operative effort.

Our committee of the Old South-Brooklyn Civic League includes a Roman Catholic Italian priest, a Norwegian pharmacist, a trained woman physician, head-teacher, as well as several ministers and laymen of different Protestant denominations, including Mr. Raymond, our own pastor. Again I thank God!

There has been no movement in this section for forty years, the result has been half so broad in its assemblage of varied and widely representative elements as in this.

We must cultivate aptitude for team work. Even Lancelot and Galahad needed the "Round Table." The twentieth century is the comrades century.

Well, you say, will the movement amount to anything permanent? That is for you to say. It is for the intelligent, law-loving, philanthropic, public-spirited citizens of this region to say.

If the movement can incorporate itself to itself and maintain, together with the new features the old conserved, sacramental, sacrificial spirit of Christ what I have called Christian Personalism, then I believe the result will be permanent. And that is primarily a question for us, as avowedly Christian people.

Let us do what we can. Let us take a hand. Let all our religious social civic societies and organizations in the sixth and Tenth Wards, put in their hands, be ready to contribute something right on and annually, for we care for what we pay for, and a dollar bill is a good flag of fidelity.

And just now, during these weeks, let every man and every woman of us, visit this housing-exhibit and induce

ANOTHER PAGE FROM THE LIFE OF JOSEPH AND BRETHREN

Mysterious Tests of Honesty of Benjamin And Others.

INTERESTING STORY IN THE S. S. LESSON Joseph's Generous Intentions to His Brethren after they had Successfully Passed the Difficult Tests Imposed.

The Sunday School Lesson by Evangelist. June 1st, Gen. 45: 1-15.

Golden Text—"Confess your sins one to another and pray one for another, that ye may be healed."

It was midday. A caravan had halted at the crossing place on the banks of the broad, blue Nile awaiting the ferry. The asses and asses having been provided for, eleven men sat in a group resting after the morning's journey. The conversation turned naturally in the following strain:

"How glad father will be to see you, Simeon!"

"This was awfully cut in when we returned without you. Thank God you are a free rigger once more."

"His anxiety about Benjamin is intense. How glad father will be to see you, Simeon!"

"Won't he be surprised to hear that we have dined with the steward?"

"How glad father will be to see you, Simeon!"

"Who is that on horse back coming down the hillside?"

"It looks like some of the government horse men."

"Who is that on horse back coming down the hillside?"

"It looks like some of the government horse men."

HORRIBLE TORTURE TWELVE YEARS

Ontario Lady Suffered Tortures for 12 Years with Burning Eczema — "Fruit-a-tives" and "Sootha-Salva" Completely Cured Her.

MISS LAURA E. MATTICE.

NEWTOWN, ONT., Jan. 21st, 1913

"I was a dreadful sufferer from that awful complaint Eczema, or Salt Rheum, and this trouble bothered me for about 12 years. My hands and arms were chiefly attacked, and the pain and irritation were terrible. I consulted several doctors and tried every remedy I heard of, but nothing did me any good. Last June, when in Ottawa, a friend asked me to try 'Sootha-Salva' Ointment and to take 'Fruit-a-tives' at the same time. I had little hopes that this would be any better than the other remedies, but after I had taken two boxes of 'Fruit-a-tives' and used one box of 'Sootha-Salva' I was entirely cured and all the irritation and annoyance left me. My hands have been, ever since, perfectly free from the Salt Rheum, and I have had no return of the disease. I look upon the cure as wonderful, inasmuch as no physician was able to cure me, and I had tried every remedy that I had been told about, yet without the slightest benefit, until I used 'Sootha-Salva' Ointment and took 'Fruit-a-tives.' 'Fruit-a-tives' cooled the blood, and practically relieved the disease and the Ointment completed the cure."

"I cannot sufficiently thank the proprietors of these medicines for my relief and I make this statement with the hope that some sufferers from Chronic Eczema or Salt Rheum, will read my testimony and try this wonderful ointment and 'Fruit-a-tives' and get well. No one can estimate the torture of this terrible disease who has not suffered from it, and I want the good news, that a remedy has been found, to be known everywhere."

(Miss) LAURA E. MATTICE.

"Fruit-a-tives" and "Sootha-Salva" will cure any case of Eczema, no matter how severe or how long you have suffered. Eczema is caused by impure blood, chronic indigestion, constipation and nervousness, but there is usually a tiny parasite or germ which attacks the skin and causes the burning and itching. "Fruit-a-tives" removes all impurities from the blood, cleans up the stomach, improves digestion, and regulates the bowels. "Sootha-Salva" kills the germs of Eczema, always the burning and inflammation, and stops the intense itching. If you are suffering with Eczema, no matter what you have tried for it, take the advice of Miss Mattice and use the wonderful combination of "Fruit-a-tives" and "Sootha-Salva."

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for \$2.50. Trial size, 25c. "Sootha-Salva" is 50c. box. Send on receipt of price by Postal Note, Limited, Ottawa.

Presbyterian Notes

Several of the New Brunswick ministers will occupy pulpits in Toronto on Sunday. Rev. D. McDermott of Moncton will preach in one of the Baptist churches in Toronto. H. Smith in the Dominion street Methodist and Rev. Gordon Dickie in the Blair street Presbyterian.

All the Presbyterian ministers of the city, with the exception of Rev. J. A. Morrison and Willard McDonald were out of the city this week attending the conference Toronto. A good many pulpits throughout the province are being supplied by Methodist and Baptist ministers.

Much sympathy is expressed for Dr. McVicar in his recent bereavement. Great hopes were entertained for Mrs. McVicar's recovery, but the end came unexpectedly on Friday of last week. Mrs. McVicar will be greatly missed in St. Stephen's church, where she had just entered upon an energetic and useful career. Dr. McVicar expects to be absent from his congregation during the months of June and July.

The St. John Presbyterian of the Province have raised over three thousand dollars for missions. A motion was passed granting \$200 to the subject. Heaven. Male quartets will sing "Heaven is My Home." Mid-week service Wednesday, 8 p. m. Strangers welcome.

Rev. J. C. Mortimer, who spent the greater part of the winter in Glasgow, has again returned to this country and is under call to the church which he will take effect here next week. This will probably be at the General Assembly in Toronto.

Rev. G. H. McIntosh of East River, Pictou, has accepted a call to Dorchester and Sackville, and will probably be inducted into that charge early in July. This congregation has been vacant for some time and it is hoped that there will be a speedy settlement.

Mr. H. L. Somers, who attended the University of New Brunswick last winter, is preaching at Grand Bay this summer. He will also hold service at South Bay and Westfield.

During the Conference at Toronto a dinner will be given for the alumni of the Halifax Theological College. Principal Falconer of Toronto, United and Principal Gordon of Queens, both Maritime Province men, are likely to be speakers at this function.

Sunday Services

MAIN ST. U. B. CHURCH
Rev. D. Hutchinson, D. D., Pastor.
Services at 11 a. m. and 7 p. m. In the morning special sermon to Sons of England Subject, The Ideal Man, 2.30 p. m.—Sabbath School and Men's Bible Class, 7 o'clock—Regular service followed by Communion and reception of new members.

NEW CUBAN PRESIDENT INAUGURATED AMID SCENES OF PATRIOTIC JOY

GENERAL MARIO G. MENOCAI

The above is a photograph of the new President of Cuba, General Mario G. Menocal, who was inaugurated May 20. He is tremendously popular, and many scenes of patriotic joy were expressed and many orations are being given him. He was born in 1860. He was educated in the Military College and at Cornell University, where he graduated as a civil engineer.

SACKVILLE FARMERS MAKE FERTILIZER. (Sackville Post.) The farmers of Sackville, like the farmers in many other parts of the province, have felt that the cost of fertilizers has long been a burden greater than they could conveniently bear. This spring they have been experimenting, buying the raw materials and mixing them themselves. They have gone about it very carefully, and they believe they have a fertilizer in every way equal to the imported article, and the cost to the farmer will be very little more than half, and in some cases not quite that. For instance they have been paying \$33 a ton for what is known as Rockville fertilizer. In conversation with the Post yesterday, an Upper Sackville farmer declared they had been able to make just as good a fertilizer themselves for \$15 per ton. For a higher grade of fertilizer the farmers have been paying \$44 per ton, but to make this grade at home will cost them only \$27. This is undoubtedly a very substantial saving in the cost, and if the home made article works as well as the imported, the Sackville farmers have made a very valuable discovery. The idea is spreading, and the farmers are saving money and making money.

Investment News 137 Years Ago this successful business was established

The large and progressive business of Robin, Jones & Whitman Ltd., is the present day evolution of the fishing and trading post established by Charles Robin at Paopabiac, N. B., in the year 1776. The annual trade continues few romances more interesting than the one exemplified in the history of this well known enterprise. With headquarters at Halifax, Robin, Jones & Whitman Ltd., now operate twenty-eight flourishing branches in Nova Scotia, New Brunswick and Quebec. The Company's large and growing revenue is made up of trading profits from these stores, and profit from the export of dry fish to the West Indies and South America, where the Company's brand has been the standard for over a century. An opportunity is now available to become a partner in this highly profitable enterprise through a purchase of the Preferred Stock which now yields 7 per cent. Will you call for the particulars—or shall we send them?

FOREGOING NEWS TOLD IN BRIEF

Sir Max Aitken Sails Today for Canada to Recover Health—Valuable Jewels are Stolen. RACING REVIVED AT BELMONT PARK. New York, May 30—Reports that the employment of the state militia to stop gambling were current today, coincident with the revival of horse racing at Belmont Park this afternoon. Adjutant General Hamilton, of the National Guard, admitted that he had a midnight conference with the Governor regarding the racing situation and that while he did not believe any such measures would be necessary, he was in readiness to call out state troops to prevent violation of the law.

WILL BECOME A DUCHESS. Berlin, May 27—The Kaiser's only daughter, who married Prince Ernest Augustus of Cumberland, last Saturday, will become regnant Duchess next November 1, according to statements published in today's newspapers. It is stated that the Federal Council of the Empire has decided to end the reign of Prince Augustus, son of the Duke of Cumberland, and his bride, will make their formal entry into the capital, Brunswick, as reigning Duke and Duchess of an independent federal state the next day.

SIR MAX SAILS TODAY. London, May 30—Sir Max Aitken, who sails tomorrow for Canada, addressed his constituents at Ashton, Lancashire, last night. "I have been a failure as a member of Parliament," he said. "I have had one illness after another and have been quite unable to attend to my parliamentary duties. The nature of my illness is such that for months to come I cannot hope to sit in Parliament."

VALUABLE JEWELS STOLEN. London, May 30—The safe at the Berkeley, one of London's smartest hotels, at the same time the safe containing \$35,000 worth of jewels belonging to its visitors, the Countess of Yarmouth, was broken open by burglars. The jewels were found to be inside. Screams and yells at the locked door of the hotel brought policemen, who forced the doors and found the two hall porters trussed up with ropes. One of them had been gagged and the other struck the back of the head with the butt of a revolver and rendered unconscious for some time.

COUNTING BRIGADE INCREASING DAILY. Many Contestants Making More than One Estimate in Puzzle Contest. The second week of The Standard's Big Puzzle Contest closes today, and the interest manifested clearly proves that the counting habit prevails not only in the City of St. John, but in nearby towns and rural districts. And the more the answers multiply the greater becomes the variation in the count. One contestant writes that she expects to send in several solutions, as she gets a different result each time she counts; that she knows one of her estimates is right, but is not sure which. Many methods are being employed to count the circles that appear in the puzzle. Some contestants count the circles and count each square separately. Others use red ink in their effort to get the exact number, while others use pin points to aid them in their counting. Instances are arising where the contestant neglected to send in money for subscriptions to The Standard in accordance with the conditions of the contest. Every one should read all the conditions carefully before attempting a solution. All rules apply alike to old as well as new subscribers, and it may save some disappointments when the results are published to study them now.

Old subscribers who are paid in advance may send in a solution, now or later, and have the amount applied to the extension of their subscription. All that one has to do, whether a subscriber or not, is to send in coupons provided beneath the puzzle chart and forward them with the money. If you haven't joined the counting brigade it is time to get busy and if you expect to have some real fun out of the contest, it is to this end. It has been going through the preliminary stages, but interest grows daily and the first thing you know all your neighbors will have sent in a solution and you can't afford to be inactive in a contest like this. The North Pole will be discovered within an hour, or the many obstacles overcome without grid and determination. Remember, the live wire is the effective wire. Be one yourself.

For the benefit of those who may desire to have their friends verify their counts, The Standard publishes today four charts on the puzzle page. Each one contains the same number of circles and it is well to be sure of your count before sending in a solution. If additional charts are desired, write the contest department and as many as you wish will be mailed promptly to your address.

Geo. St. Moncton, Toronto, Ontario, Montreal, St. John, N. B., and other cities. The Standard's Big Puzzle Contest continues to attract a large number of contestants, and the interest in the puzzle is increasing daily.

FEARFUL NEWS TOLD IN BRIEF

Sir Max Aitken Sails Today for Canada to Recover Health - Valuable Jewels are Stolen.

RACING REVIVED AT BELMONT PARK New York, May 30—Reports that Governor Sulzer had authorized the employment of the state militia to stop gambling were current today, coincident with the revival of horse racing at Belmont Park yesterday.

WILL BECOME A DUCHESS. Berlin, May 27—The Kaiser's only daughter, who married Prince Ernest Augustus of Cumberland, last Saturday, will become reigning Duchess next November 1, according to statements published in today's newspapers.

VALUABLE JEWELS STOLEN. London, May 30—The safe at the Berkeley, one of London's smartest and at the same time most conservative hotels, was robbed early today of \$35,000 worth of jewels belonging to its visitors.

COUNTING BRIGADE INCREASING DAILY Many Contestants Making More than One Estimate in Puzzle Contest.

The second week of The Standard's Big Puzzle Contest closes today and the interest manifested clearly proves that the counting habit prevails not only in the City of St. John, but in nearby towns and rural districts. And the more the answers multiply the greater becomes the variation in the count.

Old subscribers who are paid in advance may send in a solution, now or later, and have the amount applied to the extension of their subscription. All that one has to do, whether a subscriber or not, is to fill out the coupons provided beneath the puzzle chart and forward them with the money.

OFF TO PRESBYTERIAN CONVENTION.

Moncton, May 30—A large passenger special passed through Moncton last evening over the I. C. R., carrying about 225 persons, including ministers, their wives and laymen, who are delegates to the Presbyterian General Assembly in Toronto. The train is financed by ten prominent Presbyterians in Toronto, and a large number of pastors and elders are taking advantage of the opportunity.

CRUSHED TO DEATH. Glouce Bay, C. B., May 30—As a result of a fall of coal in Esmondton No. 8 Colliery, yesterday, Whitford Andrews, a road maker, was crushed to death, and Parke Murrant, an electrician, had both legs broken. Both are young men.

A 20TH CENTURY LUXURY

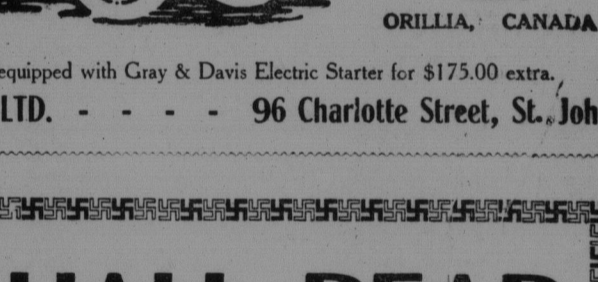

"SALATA" Fresh Boiling Water, a clean Tea-pot, a five minute infusion, and you will have a cup of Tea fit for a king. Sealed Packets Only... Black or Green

A duty-saving "Six" \$2,500 FROM the moment you press the starting pedal and turn this powerful "Six" into the road among the hundreds of Motor Vehicles large and small—as you open out and jump ahead—when you feel the strong steady pull on the hills and heavy parts of the road—you know that no matter what car you buy the Tudhope "Six" is the car you would like to own.

This "Six" is surely the modern idea of a perfect car. It has Gray & Davis Electric Lighting and Electric Cranking. It has a distinctive appearance—Torpedo low-hung body with graceful side lines and well-rounded back. The force-feed gasoline tank is carried at the rear along with spare tire, which is included, of course, as a part of Tudhope equipment. In comfort it is above the ordinary: 127-inch wheel-base, 36 x 4 1/2 inch tires, double-drop frame, full-clipper underlugs rear springs and shock absorbers—every equipment for riding ease. The tonneau is wide and roomy—with the new extra deep cushions.

The Axles of the Tudhope "Six" are planned for hard service. The front axle is extra heavy with Timken tapered bearings. The rear axle is the floating-type with chrome-nickel gears and shafts. The 48 h.p. motor, long-stroke cast iron block type, is a silent, powerful machine, thoroughly tested and inspected before leaving our shop. The Tudhope "Six" is a lot of car value for \$2,500! But remember! It is made in Canada. No part of the price is duty. The same car imported would cost you 35% more. Write for your copy of the Tudhope book.

TUDHOPE "6-48" with complete equipment, including Gray & Davis Electric Lighting and Cranking and extra Tire and Rim, \$2,500, f.o.b. Orillia. TUDHOPE "4-36" has Gray & Davis Electric Lighting—a 115-inch wheel-base—34 x 4 tires, detachable tires—double drop frame. Long-stroke motor (4 x 4 1/2) cast iron block. Full-clipper rear springs and shock absorbers. Highest grade, complete equipment, including Speedometer and extra tire. 5 Passenger Touring Body and 2 Passenger Torpedo. Reader, \$1,625 f.o.b. Orillia.

Tudhope "4-36" may be equipped with Gray & Davis Electric Starter for \$175.00 extra. TUDHOPE MOTOR CO., LTD. - - - - 96 Charlotte Street, St. John

THE WEATHER.

Toronto, May 30—The storm mentioned last night is centered over the north coast of Newfoundland. The weather continues generally fair, and quite warm in the west, and it is now clearing in Eastern Canada.

AROUND THE CITY

Will Meet in Bangor. M. G. Teed returned to the city last night from Fredericton where he attended a meeting of the International St. John River Commission yesterday.

Will Erect Cottages. It is reported that the Montreal syndicate which bought the Lewin property on Sand Cove road intends to put up a number of cottages this summer.

Had Good Luck. Among the successful anglers of the season is W. H. Fowler, who has returned from the North Shore where he had exceptionally good luck.

Boilermakers Meet. The regular fortnightly meeting of the Boilermakers' Union was held last evening in Oddfellow's Hall, Union street.

Claimed He Was Robbed. Considerable commotion was caused around Pond street last night about half past eleven o'clock when a young man sorrowfully informed the policeman on the beat that he had been robbed of a large sum of money.

Enjoyable Entertainment. A neat little playlet, interspersed with catchy musical numbers, was the programme last evening in Temple Hall, when a delightful entertainment was given by members of the congregation of Douglas Avenue Christian church.

North End People Ask Aid of Police. More Proof Found of Incendiarism—Belief is that Small Boys have been Setting Fires.

Residents of the North End who have recently been affected by fire are convinced that incendiaries are at work, and they are seeking police protection.

David Roberts called at the North End police station last evening to complain that on the previous evening a fire had been discovered in his work house which he was positive had been intentionally set and was extinguished before it had reached an advanced stage.

Proof that in this case a firebug had been at work is found in the fact that on the floor of the shed were found some old clothes saturated with oil, which were partly burned and scattered as though they had been left hurriedly while the person was scared away.

It is probable that the building would have been destroyed, for it is believed that the firebug was frightened and made a hasty retreat when about nine o'clock in the evening a member of the family was heard going to the shed. The property of Mr. Roberts adjoining that of James Elliott which was burned, supposedly by incendiaries, on Wednesday evening.

Other residents of this section have asked the aid of the police in the prevention of such fires as they feel sure they are being wilfully set. The belief that the majority of the incendiaries have is that the work of destruction is being carried on by mischievous boys who seek a little excitement.

CITIZENS MAKE LEWIS KEEPING FARMERS AWAY FROM MARKET

What John E. McAuley, of Millstream, has to say about Present Day Market Conditions — By-laws Tend to Divert Produce which St. John Citizens Need.

Owing to the decision of Com. McLellan to charge a rental for the use of the stands that have hitherto been free in the city market, some of the farmers and produce dealers who have been in the city market, and strike against the city market, and an agitation is in progress to have the farmers refrain from sending their produce to the city market.

Wanted Test Cases. "There has been a great deal of talk in St. John recently about the increasing cost of living. You can thank Com. McLellan for a good deal of that increase. His arbitrary actions have made the farmers and small traders indispensible to use the city market.

Fears Possible Combins. "St. John is increasing its population, and more produce is used, but the market revenues are going behind. I have looked into the matter pretty closely, and I have no hesitation in saying that the city is losing \$2500 a year that it ought to get from the market, and besides, the new methods of handling produce made necessary by the market regulations have increased the cost of living.

Objects to Market By-Laws. "Some time ago a few of us interested in sending produce to the market had a conference with the city council, and I might get a chance to tell the public about the effect of his regulations.

CHILD DIES OF DIPHTHERIA CONTRACTED IN HOSPITAL

Little Willie Gaskin, while being treated in hospital for Broken Limb, Survived Measles but succumbed to Diphtheria.

Sad indeed are the circumstances surrounding the death of three-year-old and six-months-old William Gaskin, son of William Gaskin of 30 Kennedy street, who died in the General Public Hospital early Thursday morning, of diphtheria, after successfully recovering from the ill effects of a broken leg and measles.

Of the last hour of his son in the hospital for contagious diseases Mr. Gaskin spoke in tones of the greatest sorrow. For hours during the last night, he said, he paced up and down near his window, and could hear his boy calling in his pain for a glass of water or a cup of milk.

The funeral was held from the hospital yesterday morning at the Cedar Hill cemetery, where Rev. R. P. McKim, rector of St. Luke's church, read the burial service.

Dr. Malcolm, superintendent of the General Public Hospital, when asked by The Standard last evening, how the little fellow could contract two different diseases in the hospital while being treated for a broken leg, was of the opinion that the measles were probably caught from the children, who had been ill in the same ward.

CONFIRMATION AT THE GOOD SHEPHERD'S. Bishop LeBlanc Administers the Sacrament for First Time Since Consecration.

His Lordship Bishop LeBlanc yesterday afternoon administered the Sacrament of Confirmation for the first time since his consecration, when he confirmed twelve children in the Chapel of the Good Shepherd, Non-sactory.

In the morning at eight o'clock high mass was celebrated by Rev. Father Howes, after which three in the institution received their first Holy Communion. The Blessed Sacrament was then exposed in the tabernacle during the day until five o'clock when Benediction was sung.

Other residents of this section have asked the aid of the police in the prevention of such fires as they feel sure they are being wilfully set. The belief that the majority of the incendiaries have is that the work of destruction is being carried on by mischievous boys who seek a little excitement.

RODMAN LAW SAYS HE WILL TRY IT TODAY

New York Death-defier Declares He will be Lowered into Reversing Falls this Afternoon to Test Tides.

"Please find me a new way to play a joke on death," said Rodman Law, the noted dare-devil, to a friend in New York the other day. "Do you really want to go against something that has killed a former St. John man?" "It's a go," said Law, and accordingly he is very much here and plans to carry out the stunt in connection with a moving picture play on Tuesday afternoon next.

This afternoon at half past two Mr. Law will take a preliminary poke at the grim reaper and will be lowered over the Suspension Bridge on the end of an inch manila rope. He plans to tie one end of this rope to something solid and have a dozen buxites ready to haul him in. When asked why? by a wondering Standard reporter last evening, Mr. Law said, "Oh, just for fun and to test the strength of the current."

The report of this bold feat of logs going down in that same little, harmless whirlpool, and coming up with the bark peeled off in strips, like that, said the humorist, "why, that won't hurt me, not for a minute."

This afternoon Mr. Law will take two or three trips through the rapids and will conduct a close investigation into the devouring power of the gorge. When it was pointed out that the strain on the rope would probably cause him to be under water for several minutes at a time, he wasn't fazed in the least and stated that a few minutes with the fishes would only improve his acquaintance with the finny tribes.

Mr. Law decided that while he will fulfill his part of the bet, the rapids are too dangerous for Miss Bolton and the motion picture will be taken in two sections. Miss Bolton will come through the gorge at slack tide, and will be rescued while Mr. Law will do his stunt at low water. The two films will then be joined together and shown to a wondering public.

The general opinion is that interment will take place in New York.

PLANS NEW ROUTE FOR MARBLE COVE SEWER

Commissioner Wigmore has Idea which will Probably Solve Problem — Council will Consider it Monday.

After considerable investigation into the different methods proposed for the solution of the Marble Cove sewerage problem Com. Wigmore submitted to the commissioners yesterday a plan for having the proposed sewer extended from a point on the present sewer about half way between the car shed and the Power Boat club property along the line of the shore to Rowan's wharf, where it would empty into the bay.

Com. Wigmore is of the opinion that a sewer built along this route would solve the problem for the city and would make possible the diversion of all sewerage which might originate with the growth of the city to the river proper. The estimated cost of building the sewer by the proposed route along the shore to Rowan's point is \$10,000, the sewer would be thirty inches in diameter, and constructed of brick and concrete.

A plan which was under consideration a short time ago was to have a trench dredged from near the Boat House through the Cove to the deep water of the river, and to lay a ball and socket pipe through this trench to carry off the sewerage. It was found, however, that to carry out this plan would involve an expenditure of about \$30,000.

Com. Wigmore is of the opinion that it will pay the city to spend \$10,000 to construct a sewer by the new route, as owing to the activity of the Board of Health a large number of people in the district to be served have been obliged to put in sanitaries. When the new sewer is constructed the outlet for the present sewer in Marble Cove will be closed, and the evil of which the Boat Club and the Medical Health Officer have so frequently complained will be done away with.

M. R. A. STORES CLOSED ON THE HOLIDAY. Next Tuesday, June 3, being the birthday of King George V., all the stores and warehouses of the firm of Manchester Robertson Allison, Ltd., will be closed on that day.

Explorer Does Not Drink Or Attend Complimentary Banquets

MISS MABEL FRENCH IN LEGAL ACTION

Veterinary Sues Her for Fees for Professional Services Rendered to Her Prize Winning Horse—Other Western News.

Winnipeg, May 24.—One of the features of the week, has been the visit of Raouil Amundsen, discoverer of the South Pole. This visit is merely in the nature of a passing through, a preliminary to be followed by an official visit later. The entertainment to be accorded the famous explorer by the civic authorities, has been somewhat of a puzzle to those who have the matter in charge. Mr. Amundsen absolutely declines to attend a banquet, to drink anything stronger than coffee and limits his daily consumption of that beverage to one cup, or to be the recipient of any of the complimentary affairs usually conferred on a celebrity. He states that he is in training for a trip to the Arctic regions, which will last seven years and that he must put himself in the best possible condition. One of the ailments who have been a great charge has hit upon the expedient of holding a luncheon at Assiniboine Park. The explorer has the habit of unbending himself of tributes and the honor. The food on that occasion will be principally sandwiches.

There is still much complaint in business circles that money is exceedingly tight. Country merchants in all lines have been curtailing credits and as there is no surplus of money in the country, collections are tight and the volume of business in general lines is not heavy. Real estate is quiet and sales are not nearly so great in volume and number as is usual at this time of the year, although values are very firm. There is no lack of confidence in the future and the opinion is freely expressed that conditions will improve as soon as there is even a moderate slackening of the money market. In the western country, the situation hinges to a most important extent upon the crop; should the crop continue to be favorable and the situation at present, that circumstance will have a most favorable effect upon the business of the whole west. The influence of the crop element should begin to be felt early in July. If the crop should be very good, it is no doubt that all lines of business would show a corresponding improvement. Harry Hodgson of Springfield, Manitoba, a veteran of the Indian mutiny, died at his home on May 17th.

The following paragraph from a Vancouver exchange, concerns a young lady who was formerly a resident of St. John: Miss Mabel Penery French's grey hunter, Schuetzer, which carried off the hunter's championship, and six other prizes at the recent horse show and won the hunters' event at Victoria, last week, from a field of thirty-seven, is "Exhibit One" in interesting litigation now before the county court. The action arises over a bill for veterinary services rendered by Dr. T. R. Hogan, V. S., during last autumn, when Schuetzer was ill with pink eye, a form of equine influenza. The bill was disputed on a number of grounds and an action was then started by Dr. Hogan's solicitors. Miss French, who is a practicing barrister, undertook to defend the case and a retrial ordered, producing affidavits to show that her clerk neglected to advise her that the case was set for trial on the day in question. Judge Grant consented to a new trial being allowed and the case was set down for trial on the 1st today, coming again before His Honor Judge McInnes. "I cannot hear the case again. It was before me some weeks ago, and I gave a judgment. I rule that the re-trial case." His Honor, in firmly declining to hear the case. As the matter now stands, one county court judge has ruled that a new trial is to be allowed, and the other county court judge has ruled that a new trial is not to be allowed and legal speculation is rife as to which ruling will hold good. If the judgment is pressed to execution in the meantime "Exhibit One" the cause of all the trouble, is cheerfully munching his hay and not bothering

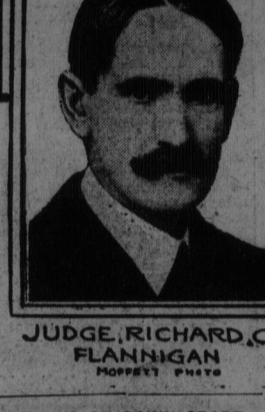

SCENES AT MR. ROOSEVELT'S LIBEL ACTION AGAINST EDITOR.

VETERANS ON DOWN GRADE. Minneapolis, May 23.—Bob Engle, former pitcher with the Cincinnati baseball team of the National League, who this season joined the Minneapolis team of the American Association, has been unconditionally released. Barney Pelly, recently purchased from the St. Louis Americans, has been sold to the Baltimore club of the International League.

SCOTTISH HOME RULE BILL IN BRITISH HOUSE OF COMMONS

Member for East Aberdeen Introduces it and Gets Second Reading — Would Largely Follow the Irish Measure.

London, May 30.—The Scottish Home Rule Bill passed its second reading in the House of Commons today, and was then referred to committee. It follows somewhat the line of the Irish Home Rule bill, and was introduced by Mr. William Henry Cowan, the member from East Aberdeenshire. Now that Ireland is in a fair way to receive self-government, the unofficial Scottish Liberal members have taken up more seriously the question of securing home rule for their country. A committee of these members of the House of Commons drafted a bill, which was read a second time today. It is not thought likely that it will go very far this session, but the Scottish Liberals are determined to show, if they can, that the movement is a live one.

As described by Mr. Cowan, the bill represents a further instalment of the policy of devotion initiated by the government of Scotland bill. It provides for the establishment of a parliament, subordinate to the Imperial parliament, and consisting of 110 members representing the existing constituencies, and returned by parliamentary electors, with the addition of peers. The representation in the House of Commons will continue as at present conferred on the Irish parliament, except the control of the post office and the power to vary customs and excise, but with the addition of the administration of old age pensions, national insurance and labor exchanges. The executive power, it is proposed, shall continue vested in the King, who is to be represented in Scotland by an executive committee of a Scottish party council.

The powers of varying Imperial taxes, except customs and franchises is by the bill to be conferred upon the Scottish High Commissioner, advised by a committee to have the exclusive power of levying the existing Imperial taxes on heritable property in Scotland. Pro-

THRONE FOR ROOSEVELT?

Foolish Proposition as to Throne of Albania Now Receiving Attention from Some European Newspapers.

Vienna, May 30.—Great difficulty is being experienced in finding an occupant for the throne of the new kingdom of Albania, which is being created out of territory won by the Balkan League from Turkey. The Italian government today lodged formal objections against the Duke of Urach, extinguishing his kingly hopes just as it had put the quietus on the royal ambitions of the Duke of Montpensier several weeks ago.

Although the proposition that the throne be offered to Mr. Theodore Roosevelt was made in jest, recently some of the European newspapers have begun to consider it seriously.

TUESDAY, THE KING'S BIRTHDAY.

Several Big Stores Decide to Observe the Day as Holiday.

Tuesday next, June 3rd, is the King's birthday. The day is a statutory holiday and all the civic departments will be closed. A telegram to the effect that the day is a statutory holiday was received yesterday at City Hall.

While it is not known whether the day will be generally kept by the merchants and manufacturing concerns as a public holiday, a number of the larger firms told The Standard yesterday afternoon that they intend to close their premises and give their employees the day. Among those who informed The Standard of their intention to close are Manchester Robertson and Co., T. McAvity and Sons, W. H. Thorne and Co. It is more than probable, however, that the holiday will be general. No proclamation has been made yet, and there was talk yesterday of a meeting of the merchants to discuss the matter.

PRESBYTERIAN DELEGATES WILL OUN TORONTO

THEY PAID SIX MILLIONS FOR COMPETITOR

Thos. Plant Concern of Boston Was Bought Up By United Shoe Company For That Sum.

Boston, May 29.—The Thomas C. Plant Co. of Boston, was an active competitor when the United Shoe Company acquired it, according to testimony introduced today by the government in the dissolution proceedings against the United Shoe Company.

It was the largest and most important of the fifty-five subsidiary companies bought up by the defendant, and its purchase is regarded as one of the principal points in the government's case. Plant had acquired a complete line of shoe machinery and had fitted his shoe factory with it, in place of the defendant's machines, when the latter bought him out for \$6,000,000. This was after St. Louis manufacturers had opened negotiations for the purchase of a half interest in Plant's shoe machinery business. The government contends that the Plant concern was bought up in pursuance of a plan to monopolize the shoe machinery business of the country.

In support of this contention, conversations between Sydney M. Winslow, president of the United Shoe Machinery Company, and Charles H. Jones, treasurer of the Commonwealth Shoe & Leather Co., of Boston, were introduced. The conversations, which extended over three days, related to the objections of shoe manufacturers to the so-called "tying" clauses in the leases, whereby shoe manufacturers were required to use certain machines produced by the defendant, with certain other machines. President Winslow declined to abandon the leases, and said in substance, according to Mr. Jones, who was on the stand, that the clauses gave him complete control and that without this control other manufacturers would creep in with the result that the shoe manufacturers would use one company against the other, and the intense competition that formerly existed would return, making it difficult for the machinery manufacturers to get their money from the shoe manufacturers.

The trial was adjourned until next Tuesday.

GERMAN CRUISER GROUNDS DURING FOG

The Blucher Lost Way, Near Island of Romso King — No Danger is Feared However.

Kiel, Germany, May 30.—The German armored cruiser Blucher, went aground today during a fog to the north of the Island of Romso King, the great belt between the Baltic Sea and the Kattegat. She is lying on a sandy bottom and the commander believes that there is no danger.

CAN'T DRIVE BASEBALL QUITE AS FAR AS GOLF BALL.

New York, May 30.—The dispute between golfers and baseball players as to whether a golf ball could be driven from the home plate at the Polo Grounds over the centred bleachers was decided in the affirmative Friday. Accompanied by Manager McGraw of the Giants, who had affirmed the feat could not be accomplished, Grantland Rice, golfer and baseball writer, and Oswald Kirkby, widely known amateur golfer, went out on the field with golf equipment and both succeeded in making the drive. Rice put over one ball in four and Kirkby two in four. The golfers drove against the wind, but the balls carried over the top of the fence, which is about fifty feet high at this point, by about fifteen feet.

Great Congress Will Open In the Queen City Today

UNION QUESTION TO BE DISCUSSED

Very Important Hotel in Toronto Has Ministers and Friends as Guests—Congress Expected to be Greatest Ever Held.

Toronto, Ont., May 30.—The Presbyterian Congress will open in this city at three o'clock tomorrow, and all the present indications are that the fullest expectations of the committee in charge will be realized.

Toronto is the home of Knox College, the most important theological college of the denomination. This union here of the alumni of the college will be by far the greatest that has ever occurred. Arrangements are being completed for formal receptions of the graduates of all the colleges of the church in Canada and all of these will be the most important that have ever occurred.

Special trains carrying large parties for the congress have already arrived and every-where in the city there is a number of ministers and their friends among its guests. By the ministers the congress and its practical as an interesting part of the assembly than the inspirational meetings of the congress.

No announcement has yet been made regarding the report which the committee on union will present. The general tone of the report is, however, well known and it is concluded that this important cause will be advanced another stage toward consummation.

Rev. Dr. Charles W. Gordon, now a distinguished leader of the church in Western Canada, was asked whether in his opinion the meeting of the great Presbyterian Congress with its appeal to denominational loyalty would have the effect of checking the movement for church union.

Dr. Gordon made a vigorous and definite reply. "The great congress which we have looked forward with so much interest," he said, "will work in the opposite direction."

LIKELY TO GRANT LOAN TO THE G.T.P.

National Character of Grand Trunk May Induce Government to Aid—Railways Feel Money Tightness.

Ottawa, May 30.—The standard understands that the application of the Grand Trunk Pacific Railway for a loan from the government, made last session and again during the first part of the present session, is being renewed. The world wide financial stringency is affecting all securities and the railway companies of Canada are affected in common with similar interests elsewhere.

CONFESSES MANY MURDERS.

Missoula, Montana, May 30.—A series of murders, including the assassination of General Thomas Francis Meagher, once governor of Montana, territory, were acknowledged as his own misdeeds in a confession made by a man known as Pat Miller, who gave his correct name as Frank Diamond in the town of Plains on Tuesday, according to information made public today.

MISS MABEL FRENCH IN LEGAL ACTION

Veterinary Sues Her for Fees for Professional Services Rendered to Her Prize Winning Horse—Other Western News.

Winnipeg, May 24.—One of the features of the week, has been the visit of Raouil Amundsen, discoverer of the South Pole. This visit is merely in the nature of a passing through, a preliminary to be followed by an official visit later. The entertainment to be accorded the famous explorer by the civic authorities, has been somewhat of a puzzle to those who have the matter in charge. Mr. Amundsen absolutely declines to attend a banquet, to drink anything stronger than coffee and limits his daily consumption of that beverage to one cup, or to be the recipient of any of the complimentary affairs usually conferred on a celebrity. He states that he is in training for a trip to the Arctic regions, which will last seven years and that he must put himself in the best possible condition. One of the ailments who have been a great charge has hit upon the expedient of holding a luncheon at Assiniboine Park. The explorer has the habit of unbending himself of tributes and the honor. The food on that occasion will be principally sandwiches.

There is still much complaint in business circles that money is exceedingly tight. Country merchants in all lines have been curtailing credits and as there is no surplus of money in the country, collections are tight and the volume of business in general lines is not heavy. Real estate is quiet and sales are not nearly so great in volume and number as is usual at this time of the year, although values are very firm. There is no lack of confidence in the future and the opinion is freely expressed that conditions will improve as soon as there is even a moderate slackening of the money market. In the western country, the situation hinges to a most important extent upon the crop; should the crop continue to be favorable and the situation at present, that circumstance will have a most favorable effect upon the business of the whole west. The influence of the crop element should begin to be felt early in July. If the crop should be very good, it is no doubt that all lines of business would show a corresponding improvement. Harry Hodgson of Springfield, Manitoba, a veteran of the Indian mutiny, died at his home on May 17th.

The following paragraph from a Vancouver exchange, concerns a young lady who was formerly a resident of St. John: Miss Mabel Penery French's grey hunter, Schuetzer, which carried off the hunter's championship, and six other prizes at the recent horse show and won the hunters' event at Victoria, last week, from a field of thirty-seven, is "Exhibit One" in interesting litigation now before the county court. The action arises over a bill for veterinary services rendered by Dr. T. R. Hogan, V. S., during last autumn, when Schuetzer was ill with pink eye, a form of equine influenza. The bill was disputed on a number of grounds and an action was then started by Dr. Hogan's solicitors. Miss French, who is a practicing barrister, undertook to defend the case and a retrial ordered, producing affidavits to show that her clerk neglected to advise her that the case was set for trial on the day in question. Judge Grant consented to a new trial being allowed and the case was set down for trial on the 1st today, coming again before His Honor Judge McInnes. "I cannot hear the case again. It was before me some weeks ago, and I gave a judgment. I rule that the re-trial case." His Honor, in firmly declining to hear the case. As the matter now stands, one county court judge has ruled that a new trial is to be allowed, and the other county court judge has ruled that a new trial is not to be allowed and legal speculation is rife as to which ruling will hold good. If the judgment is pressed to execution in the meantime "Exhibit One" the cause of all the trouble, is cheerfully munching his hay and not bothering

Happenings of the Week

TWO PROMINENT SOUTHERN FAMILIES WILL BE UNITED BY PENN-KRUTTSCHNITZ MARRIAGE

Mrs. Andrew Jack was hostess at the tea house Wednesday afternoon at her residence Garden street, in honor of Mrs. Percy Donville and Mrs. Jack. Mrs. Jack received her guests in a black and gold gown with touches of white lace on the bodice. The dainty tea table was provided with a very dainty gown of froilard with large black hat trimmed with plumes. Among the guests were Mrs. Dorcas Hazen, Mrs. Susan A. Jones, Mrs. Murray McLaren, Mrs. Malcolm Mackay, Mrs. Sherwood Skinner, Mrs. Stewart Skinner, Miss Jack, Mrs. Silas Alward, Mrs. F. E. Sayre, Mrs. E. T. Sturdee, Mrs. S. E. Stetson, Miss Bayard, Miss Isabel Sidney-Smith, Miss Armstrong and others.

Mrs. Ada Bayard returned home this week from Montreal where she has been the guest of Mrs. Timmerman.

Mr. and Mrs. Horace King spent last week at Lake Tatol, California.

Mrs. Charles Bostwick was hostess at a delightful luncheon at her residence on Thursday afternoon at her residence on Water street in honor of her sister Mrs. Percy Donville. Mrs. Bostwick was given in a very becoming, hellebore, robe de chambre. Mrs. Donville, who received with her sister, wore a very handsome blue dress with white lace on the bodice. The fortunate winners were Mrs. Charles Eason, Miss Lou Parks and Miss Bessie Adams. Among the guests were Mrs. George F. Smith, Mrs. Leigh Harrison, Mrs. J. M. Robinson, Mrs. Simon A. Jones, Mrs. deB. Carrille, Mrs. P. W. Thomson, Mrs. Skinnon, Mrs. Anglin, Mrs. James V. Thomson, Miss Louise Parks, Mrs. Wilder, Mrs. P. E. Sayre, Mrs. P. W. Thomson, Mrs. Sherwood Skinner, Mrs. Stewart Skinner, Mrs. Malcolm Mackay, Mrs. Isabel Sidney-Smith, Mrs. Neales, Mrs. D. P. Chisholm, Mrs. Carleton Clinch, Mrs. J. Royden Thomson, Mrs. P. Caverhill Jones, Mrs. W. E. Sayre, Mrs. Anne Puddington, Mrs. J. W. Water Holly, Miss Edith Skinner, Miss Grace Skinner, Miss McMillan and others.

Miss Olive Stone, who has been visiting in Boston and New York, returned home on Tuesday. She was accompanied by Mrs. Leonard Beer, of Toronto, N. Y., who will be her guest for a few days.

A petition is being circulated by those who are urging the return of the nuns of the Sacred Heart to St. John. The petition is addressed to His Lordship Bishop LeBlond and expresses the hope that when the time comes a school established here and their promise of support for the movement. From the large number of signatures which have been received, it is regarded as apparent that there is a general demand for the return of the nuns.

Mr. and Mrs. William Downie, who have recently returned from Vancouver, B. C., on their arrival there, Mr. Downie, who is now in St. John, celebrated their twenty-fifth anniversary at which Mr. Downie presided as past president of the British Columbia Club. The ceremonies were held at the home of Mrs. Downie, who was made the recipient of a past grand master's jewel and Mrs. Downie was presented with a diamond ring and a diamond pendant set in platinum. A banquet followed and Mr. Downie presided.

Mr. and Mrs. Hugh Ryan has issued invitations to the marriage of their daughter, Agnes, to William P. McDonald, Jr., at the Cathedral of the Immaculate Conception on Wednesday, June 11th, at 3 o'clock.

Mr. and Mrs. Theo. Cushing, Lancaster Heights, have taken the home lately occupied by Mr. Thomas, Duke street, and will move there next week.

Miss Gertrude V. deBury is the guest of Mr. and Mrs. Daniel Mullin at the Dufferin. Miss deBury has just returned from Ottawa, where she will go to Montreal to visit her brother, Mr. James deBury.

Mr. Allan Thomas left on Tuesday night for Montreal. He will be an usher at the wedding of Mr. Aubrey Schofield, which takes place today.

Many young hearts were made happy on Friday afternoon through the kindness of Mr. Thomas Knight, who gave upwards of over two hundred children in all the orphanages in the city a genuine treat by entertaining them at the Opera House at the wonderful pictures of animal life in Africa, which were shown there. The entertainment was educational and instructive and thoroughly enjoyed by them all.

Mrs. F. Peniston Johnston returned for the first time since her marriage, on Thursday and Friday, at her residence, King street East. Mrs. Johnston is looking forward to with much pleasure by society in general. Tea will be served by different lady members of the club every Thursday of each month during the summer.

Mr. and Mrs. W. C. Rothwell have moved to Westfield for the summer.

Mrs. Harold Beverly Robinson is visiting her parents Mr. and Mrs. Sills, in Geneva, New York, while Mr. Robinson is in England.

Miss Gardner and Miss Kate Bartlett, have been the guests of Lieut. Governor and Mrs. Wood at Sackville this week.

The annual Provincial Tennis tournament will take place this year in Sackville and probably will be held some time in August. Immediately after the close of the tournament a number of the representatives of the St. John Club will go to Chester, N. S., to take part in the Maritime Province meet. The usual matches with Fredericton and other towns will also be played this year, but the dates have not yet been arranged.

Mr. and Mrs. J. D. Dodd and family, Mrs. George Wetmore was hostess

ROTHESAY

Rothesay May 25.—In spite of the very unfavorable weather conditions on Saturday, many attended the opening of the Royal Society of Canada, at the Hotel Grand, Tea Room, at an interesting event next week. Among the other guests were Miss Lillian Raymond, Miss Dances-Cross, Miss Jean White, Miss Katherine McAvity, the Misses Sturdee, Miss Vouppard, Mr. Don Skinner, Mr. Percy McAvity, Mr. Tom McAvity, Mr. John Pugsley, Mr. Guy Merritt, Mr. Malcolm Mackay, Mr. Stanley McDonald and the Messrs. Church.

SHE WAS HELPLESS FOR TWO YEARS

WHY MRS. BALDWIN RECOMMENDS DODD'S KIDNEY PILLS

She Could Find Nothing to Cure Her Rheumatism Till On a Neighbor's Advice She Tried Dodd's Kidney Pills.

St. Walburg, Sask., May 30.—(Special)—I can truly recommend Dodd's Kidney Pills for any one suffering from rheumatism." These are the words of Mrs. W. A. Baldwin, a highly respected resident of this place. And Mrs. Baldwin gives her reasons. "I was nearly helpless with rheumatism for two years," she states. "I got medicine from the doctor and tried several other remedies but nothing helped me. Then one of my neighbors advised me to try Dodd's Kidney Pills. I bought four boxes, and they helped almost from the first. I have used nearly two dozen boxes and am nearly cured."

"That rheumatism is one of the results of diseased kidneys is again shown in Mrs. Baldwin's case. She had headaches, stiffness of the joints and backache, her sleep was broken and unrefreshing, and she always felt tired and nervous. Her limbs ached and she was always thirsty. These are all symptoms of diseased kidneys. When she cured her kidneys with Dodd's Kidney Pills the symptoms vanished—and so did the rheumatism."

ROTHESAY

Rothesay May 29.—In spite of the very unfavorable weather conditions on Saturday, many attended the opening of the Royal Society of Canada, at the Hotel Grand, Tea Room, at an interesting event next week. Among the other guests were Miss Lillian Raymond, Miss Dances-Cross, Miss Jean White, Miss Katherine McAvity, the Misses Sturdee, Miss Vouppard, Mr. Don Skinner, Mr. Percy McAvity, Mr. Tom McAvity, Mr. John Pugsley, Mr. Guy Merritt, Mr. Malcolm Mackay, Mr. Stanley McDonald and the Messrs. Church.

stored before cure can possibly be effected.

In many cases neuralgia is easily curable by the use of Dr. Chase's Nerve Food. The patient is thin and bloodless and needs tonic treatment to form new, rich blood.

The application of Ointment wrapped from hot water will afford relief from the suffering, and the regular use of Dr. Chase's Nerve Food for a few weeks will completely overcome the neuralgic condition.

Powerful drugs are to be avoided because of their injurious effect in further weakening the nervous system. The Nerve Food cures by building up the feeble, wasted nerve cells, and for this reason is of lasting benefit.

Neuralgic Condition of the Nerves

Neuralgia is a nervous disorder which is a very common. The first thought is of neuralgia in the head or splitting headache, but neuralgia may affect any part of the body in which there are sensitive nerves.

The teeth are often blamed and extracted in error, when the cause of the trouble is in the impoverished condition of the blood and the starved nervous system.

While neuralgic pains are usually sharp and shooting, and consequently difficult to locate, the seat of trouble is usually sore and tender under pressure.

Neuralgia is pain, and as such is the symptom of a disease—nervous exhaustion. The nerves must be re-

BETTER PROSPECTS FOR ST. JOHN RIVER DRIVES.

Fredericton, May 30.—A telegram from W. J. Nobles says stranded drives on the upper St. John will all be out in four or five days. Two inches of rain fell here.

E. B. Staples, manager for the Partington company, said that there had not been a big enough rise of water on the Nashwaak to make good driving and that no effort was being made to bring out the company's stranded drives, but that they would wait for more favorable conditions later on.

Lowther estate at Lowther's Lake, has been recently purchased by Messrs. J. H. and C. S. Hickman, of Dorchester.

Mr. and Mrs. David Johnson have returned from Boston and will resume charge of the Hotel Howard, Port Elgin, after an absence of two years.

PROVINCIAL PERSONALS.

(Digby Courier.)

Mr. and Mrs. W. M. Morine, of Bear River, arrived in St. John Wednesday.

Paul Yates returned Wednesday from a business trip to Boston and New York.

Mrs. Eber Turnbull returned home Wednesday from her visit to St. John and vicinity.

William German, of Meteghan, was among the passengers from St. John Tuesday.

Mrs. J. A. P. Smith and Miss Violet Smith have returned home from their visit to Yarmouth.

Mr. and Mrs. George A. Taylor, and Graham Taylor returned to Fredericton on Tuesday, after having spent the holidays with Mr. and Mrs. A. D. Holyoke.

Norman McIntosh returned on Tuesday from Acadia College, for the summer vacation.

Dr. and Mrs. R. G. Thompson and Master Victor Thompson left on Friday for a few days visit to friends in St. John.

Mr. Arthur M. Fisher, a medical student at McGill College, Montreal, arrived home on Thursday to spend the summer months.

Miss Alice Robichaud left last week for Moncton to undergo an operation for the throat.

Miss Nellie Fitzpatrick, who has been confined to the house with a gripe, is able to be out again.

Mrs. James McCaffery and daughter, Miss Minnie, who spent the winter in St. John, returned home Monday.

FOR SALE.

NEW HOME AND OTHER MACHINES, \$5 to \$40. M. and T. tailoring machine, \$8. Genuine needles, all kinds; best oil. Domestic and other machines. Repairs, if have no travelers. Buy in my shop and save money. William Crawford, 105 Princess street.

FOR SALE.

A NEW AUTO FOR SALE.—A McLaughlin-Bullock new—never run more than 150 miles, never registered, will be sold at a bargain. Cost price \$1,250. Price \$1,100. It was originated by Denis de Sallio, ecclesiastical counselor in the parliament of France, whose literary nom de plume was Hedouville. The first publication of this kind in English was the Review of Daniel Defoe, published in 1702. It was followed by a magazine called The Works of the Learned, in 1710, and four years later by the Wailes first year outwards.

The Monthly Review came out in 1749, the Edinburgh in 1802, the Quarterly in 1809, the North American in 1815, the Westminster in 1824, and the Revue des Deux Mondes in 1831. The legality of literary criticism was established by the English courts in 1794, when an author brought an action against a reviewer for a severe critique of his work. The suit was decided in favor of the defendant reviewer, on the principle that criticism, however sharp, is allowable if not malicious.

AGRICULTURE

SOME DIFFICULTIES OF THE BUTTER-MAKING DURING THE SPRING MONTHS

Several difficulties are usually encountered in the spring by the butter-maker, mainly on account of too much stale milk and the effects of feeding on the flavor of the butter.

1. **STALE MILK.**—Conditions are sometimes such that there is too much stale milk and not enough fresh milk to mix with it. Cream from stale milk is difficult to churn and cools to sleep, taking hours before forming grains. The aim should be to have enough fresh milk to mix with the stale. No fresh milk should be used for butter or cheese-making till after the ninth milking.

2. **Feeding.**—The tendency in spring is to give roots and silage in excess and brewers' grains to stimulate the flow of milk. Where butter is made, brewers' grains should not be fed as they give a tainted flavor to butter, and if butter is kept several days it becomes quite rancid. The only instances where brewers' grains are good for dairy products are when stillon or Wensleydale cheese are made, as they aid in the production of that green mould so necessary to a good stillon or Wensleydale.

3. **COLORING OF BUTTER.**—The colour is usually pale and talloxy, owing to the artificial feeding and the stale milk. Colouring should be added at the rate of 4 to 8 drops per gallon of cream, and added after the cream is strained through the muslin into the churn. Hansen's butter colouring I have found very satisfactory. Still has considerable influence on the production of good butter. Milk from a good loam or limey soil and where the herd is drinking limey water will produce butter of the best flavour and keeping quality.

EGGS TO BE BOUGHT AND SOLD ON QUALITY BASIS AFTER JUNE 1ST

After June 1st next, eggs will be bought and sold in Canada, on their merits of freshness, cleanliness and quality. Such was the resolution adopted by the Canadian Farm Produce Association, at their recent meeting in Toronto.

For a long period the wholesale egg dealers in this country have been dissatisfied with the ease count basis, upon which eggs are bought and sold. The chief fault is that it puts a premium on bad eggs, whether one hour one month or one year old. This is manifestly unfair to shipper of even reasonably fresh eggs, he getting no benefit being placed on the same price level as the careless, indifferent producer. The aim is to put the egg trade on a better basis. All who handle eggs, the producer, merchant and consumer have to pay their share for the bad that are marketed. The purpose is to remedy this.

Eggs will be handled by receivers and paid for according to grade. Rots will not be paid for, but a higher price will be given for good eggs.

Legislation has been proposed to penalize for the sale of impure (stale and rotten) eggs. Education does not seem to remedy this evil and legislation must be had to give more force to the teaching.

The Poultry Superintendent will be pleased to render any assistance to dealers in the way of instruction in testing eggs. With the present facilities of egg testing it is an easy matter to detect every impure egg, and thus prevent the loss of receiving bad eggs and have them turned down by the dealers, after expressing them long distances.

Poultry Super't.

THE POTATO CANKER—A WARNING

(Journal of Agriculture.)

Last year we called the attention of our readers to the dangerous nature of the Potato Canker disease of potatoes, and to the need of vigilance in preventing its appearance in Canada. We pointed out that for some years it has been very destructive in England, in certain countries of Europe, in Newfoundland, and that it was hoped that by taking precautions its importation into Canada might be prevented. Unfortunately, however, this hope has not been realized, for potato canker was found last summer in two or three districts in Ontario and Quebec, and there is every likelihood that the disease will be found in other sections this coming summer.

Potato growers have enough trouble to contend with in the potato-bug, the blights, rots and scabs, without the introduction of a new disease and that perhaps the worst of them all. Consequently they should be extremely careful to ascertain the source of their seed potatoes this spring, and under no consideration should they obtain the supply from districts where the canker is known to exist. The seed potatoes should be most carefully examined for traces of the disease, and a little practice will enable anyone to detect it, not in its early stages but in its later stages. In a mild attack the "eyes" turn gray and then black, but in more severe cases the wrinkled, wart-like nodules appear on the surface. These are green or white at first, becoming brown or black, and may convert the tuber to a brownish-black soft mass with a putrefactive odor.

One of the bad features of this disease is the difficulty of controlling it, as no satisfactory means of control is known. Moreover, land that has borne potatoes with the canker remains infested for seven or eight years. Under no circumstances should the soil be used for growing other crops, and once he sent to the Dominion Botanist, Central Experimental Farm, Ottawa, for examination.

CANADIAN APPLES IN GREAT BRITAIN

Direct shipments of Canadian apples from Montreal to Lancashire are some 16,000 barrels less during the season of 1912 than 1911. The big decrease is at the port of Manchester, there being some 34,000 barrels less shipped from Montreal to this port than in the shipping season of 1911. It was pointed out in Weekly Report No. 448, page 850, that owing to certain conditions, the Manchester fruit brokers, who depend almost entirely on consignments. However, it is gratifying to note that in Liverpool increased its imports from Montreal by about 17,000 barrels. The figures for total shipments from Nova Scotia have not come to hand as yet, but there is sure to be a large increase to Lancashire in the Nova Scotia apple.

With very rare exceptions, which have been reported to the Department, the trade here commands very highly the Canadian fruit and packing this year. Particular reference is made throughout the trade to the packing of Nova Scotia apples. There have been much larger shipments this season from Nova Scotia of No. 3 grade than in previous years, and some company shipping from there has adopted a new system, adding to the grade No. 3 such words as "ordinary" or "plain" "A". The brokers and wholesale dealers in connection with the sale rooms here do not approve of this system, as it has the effect of inducing some unscrupulous people in the fruit trade to sell such fruit designated as No. 3 'extra large' as No. 1. This creates great dissatisfaction. On the other hand Nova Scotia apples have been sold to firms who have no connection with the sale rooms, and these people of course approve of the system, as they say that for No. 3 of different grades they secure prices in proportion. As to results financially, the shipping trade of Nova Scotia will know best. If it has been of advantage to make what is practically several grades in Canada's No. 3 apple. There is no doubt that generally speaking the system, which has been in existence here for some time, of three grades only, viz: No. 1, 2 and 3, and to which the fruit trade here has been educated, would seem the best system.

GOOD ROADS AND COST OF LIVING

In a recent address at Macdonald College, Dr. C. C. James, best known on account of his valuable work as Deputy Minister of Agriculture of Ontario, laid emphasis on the importance of good roads as a factor in the lowering of the high cost of living. This factor has to a large extent been overlooked by economists, but the Provincial Government has been grappling with it for some years. As we pointed out in a previous issue, the Government has devised a plan of helping the municipalities to finance the construction of good roads under the supervision of competent government engineers. In a few years it is hoped the province will be covered with a network of well-built highways which will permit the producer to market his produce at a lower cost than formerly.

As Dr. James pointed out, the transportation charges are the chief item in the cost of food to the consumer, so that anything that will lessen these charges will cheapen the price of farm products to the consumer. Moreover, it is just probable that a galvanized iron bottom, is very satisfactory for the farmer, for he has to buy as well as sell.

Good roads mean also a smaller amount of wear and tear on vehicles, horses, and harness,—a considerable item of expense; a saving of time in travelling and much bodily discomfort; and greater pleasure in country life.

LIME-SULPHUR

(By F. M. Clement, Dept. of Horticulture.)

Lime-sulphur is today generally recognized as the best spray for fruit trees. The material is made from just what the name implies—lime and sulphur. For those who have but a small number of trees it is recommended that a few gallons be purchased from the hardware merchant, or if a barrel or two only are required purchase through the Co-operative Association if there is one in the district. Many of the best growers, however, manufacture their own lime-sulphur solution. This may be done by boiling together for one hour one hundred pounds of fresh lime in forty gallons of water. Almost any receptacle that will hold this quantity may be used for the boiling, but one made of two inch plank, fifteen or sixteen inches deep, 6 feet long and 3 feet wide, with a galvanized iron bottom, is very satisfactory. This is placed on the fire and used much the same as the similar vessel that is used for boiling sap. Forty gallons of water is first added and brought almost to a boil. The sulphur is then mixed with water in pails, or in a barrel to form a paste, and as soon as all the lumps are broken, is added to the water in the boiling vat. Mix the sulphur and water well together and then add the lime. Fresh lime will bring the water to a boil immediately, and this must be kept up at a moderate rate by the fire beneath for one hour. The boiling causes the evaporation of some of the water, and more must be added at the end of the hour to bring the whole up to forty gallons. Remove the solution and sediment to a barrel and allow to settle. The reddish colored liquid is the valuable part, and this diluted one-to-seven is the solution that is recommended for the first spray. That is, add enough water to the one barrel or forty gallons of the concentrated solution, bring the whole up to seven barrels. The clear solution may be siphoned or drained off and kept for a number of weeks without waste, until the spraying season opens, if placed in a strong barrel and a thin film of oil put on the top to check evaporation.

PRACTICAL RECORDS.

(Agricultural Department Bulletin.)

Almost every dairy farmer who commences to weigh and sample his cows' milk individually says at the end of a few months "I find some of my herd were kept at loss." Some men find only one or two cows, others state that they have lost too many in the herd, play a losing game. What does this mean? Just this, that despite all the experience gained from years of practical dairying the farmer finds that in order to become thoroughly practical, he must requisition the aid of dairy records. Neither the cow's appearance, nor the owner's knowledge of some short-period yield of milk, (extraordinary as that yield may have been for a day or one week, or a month,) will testify with certainty as each individual cow's ability to pay her way for the whole year. Cow testing provides a simple and eminently practical way of discovering, not only if each cow pays, but which cow pays the most profit on the twelve months' transaction of feed consumed, and milk and fat produced. Those large-profit cows are revealed only by practical cow testing.

Cows are apt to cheat the unsuspecting farmer, unless he keeps tab on the performance of each one; many dairymen have found this out to their utter astonishment and regret. Don't take chances with your herd, be certain that each cow pays; it pays you to find out. Individual cow records help the practical farmer to build up a profitable herd.

"A prophet is not without honor save in his own country," said the man who complains. "Well," replied Farmer Courtesel, "that's one way o' sayin' it. You might also mention that it's easier for a man to sell a gold brick in a town where they don't know him."

PHARMACEUTICAL EXAMINERS.

Fredericton, May 28.—The Provincial Government today named the examiners for the present year for the

PILES

Do not suffer another day with itching, bleeding piles. No operation required. Dr. Charles Clement will send you a box of his certain cure, free of charge, to all patients, or send you a box of his certain cure, free of charge, to all patients, or send you a box of his certain cure, free of charge, to all patients.

No room inside

What would it cost to lose them?

The man who keeps too small a safe—for economy's sake—may some day find that it has cost him far more than one big enough to hold all his records.

The difference in cost is not great either. We will exchange your safe.

For the cleaner the teeth are kept, of course the longer they will last and the better they will look.

Why should any other cereal be called "just as good" as

Kellogg's CORN FLAKES

Because Kellogg's is known to be the best and most nutritious cereal on the market—

Because the sale of Kellogg's Corn Flakes is enormous as trade returns will show—

Because another large modern factory, the best and most sanitary in Canada had to be built to take care of our constantly increasing trade—

Because the imitator, knowing these facts and having few selling arguments for his own product thinks to create a market for it by comparing it to Kellogg's:

But---the flavor and the sustaining qualities of Kellogg's Corn Flakes cannot be counterfeited. Sold in big packages at 10c. Look for the signature.

OF INTEREST TO WOMEN

SPRING CAMPAIGN AGAINST THE FLY

It is well known that flies increase with wonderful rapidity, but most people are ignorant of the exact rate of multiplication. Not only does a swat in time save nine but it may save nine million. It is estimated by Dr. O. L. Howard of the United States Bureau of Entomology, that one pair of healthy flies will produce during a single summer 5,538,720,000,000 living descendants.

Suppose for a minute you left your house with two flies in it, with sufficient provender for these two and their children, grandchildren, great-grandchildren and the rest of the descendants. When you returned at the end of the summer, you would find five trillions, five-hundred-ninety-eight billions and seven-hundred-twenty millions—5,538,720,000,000—flies swarming through your house. One could swat all day, day after day, and week after week, and still make but a small impression on this rapidly increasing horde. You must keep in mind then that one swat at the beginning of the open season can save trillions of potential swats.

The important point of the campaign against flies is to catch them early—early in the spring before they get a start.

Flies, as you well know now, because of the campaign of education that has been waged, carry germs in their little travelling bags, they carry malaria germs, typhoid, infantile paralysis and other deadly microbes. The flies that arrive with the early spring may bring infection into your house as well as the swarm that comes later, and it does little good to look the stables after the horse is gone. If one's tiny girl sickened because the early arrivals brought the germs of disease with them, you could not console yourself with waging war on the pests during the rest of the summer.

The Federal Public Health Service, thinks that a fly is more dangerous than a rat, a pig, or a dog; it is almost the deadliest animal alive. This fact that people to a great extent have learned within recent years, is not admitted by everyone. Most country women will confess that a fly is unpleasant—the lights on grandpa's bald head, he wakes the baby, and he wades in strawberry jam, but some of the old-fashioned farm women think that it is the most evil of devils.

Last year I talked to "Auntie," the old housekeeper on our farm. She admitted there was a strong case against the fly as a public nuisance, but that he was a dangerous criminal seemed doubtful to her.

"The fly, like the poor, she said, we always have with us. Her grand-mother 'shooed' flies out of the house, vigorously shaking her apron or the 'fire-side companion' at them, and sternly ordering them to 'shoo,' but she did not kill them; still she lived to be eighty-seven years old. Uncle Toby, 'Triam Shandy,' greatly let a fly go, as he was too kind hearted to injure it. Auntie thought fly swatting was cruelty to animals, but failed to recognize that not to swat them was cruelty to children.

Her objections summed up amounted to: If you swat the fly you leave a mark on the clean wall paper or cleaner kitchen table. If you poison him the fly inconspicuously selects the cream pitcher for a graveyard. If you put sticky fly paper around the room the cat sits down in it. How then are you to be cured?

Let the poor little "critters" alone, she declared. They must have some reason for living, or they never would have been created.

Now, Auntie named the three chief ways of fighting flies after they are allowed to get a start. Taking them in order we find that swatting flies as she says "smudges up" clean walls and tables. Most people use a newspaper to swat the little germ carriers; of the few that own a patent fly swatter, not many are skilled enough to kill the pests without dirtying up the house. But of this way of killing flies it must be said that it is interesting. It is a "sporting" game wherein the fly has some chance, but it is a slow way to get rid of them.

Last year in my little house on the farm, I tried swatting flies—and I found that little chickens like to eat them. By the way, flies fly faster than I could swat them. It took time to hunt down each single—and married—fly and time, as you probably have known by this time, is valuable. Poisoning flies kills them off rapidly, but an inquisitive baby is apt to indulge in a meal of fly poison, and one can not recommend it as a baby food. Furthermore, as Auntie says, the flies have a habit of choosing the more plentiful flies faster than they drop in the milk crocks, in the open churn, in the apple butter and in every place where one doesn't want them.

All in all, the most satisfactory method is the stick fly paper. It catches the germs on the flies' feet as well as the flies themselves. It can be placed on tables, chairs and window ledges out of reach of babies, dogs and cats. Even if the cat food wade into it you can get the satisfaction of a hearty laugh out of it.

In fighting flies as in many other things, prevention is far better than cure. In this case prevention is not only better but easier. Don't let the flies get started; catch the early birds. Swat 'em, poison 'em or imprison them on fly paper, but "do it early."—Woman's World for June.

NO REAL STYLISH WOMEN HERE, SAYS PRIMA DONNA.

Miss Carolina White, who, when singing in the Chicago opera company, in Mrs. Paolo Longone, started for Paris not long ago on board the France, of the French line, "glad to be going to a land where women know how to dress," she explained as she was leaving. Miss White was so garbed that she might well delve deep into the subject of feminine raiment without running the risk of having any of her remarks reflect.

"American women dress disgustingly," she said. "They have no sense of time, it would seem, for one sees morning gowns at half-past four in the afternoon and evening dresses for garden parties. I have seen," Miss White emphasized the location of this sight as Chicago, "women wearing evening gowns for luncheon, and such evening gowns as they do wear, out there" in Chicago, remember.

It was morning when Miss White made these remarks, and she was delightfully clad in a plain blue tailored suit set off a bit at the neck by a white and very flimsy collar piece. And her hat! "Just a mere hat," she exclaimed indifferently, but that hardly covered the creation, demure though it was.

MRS. GREATON'S AWFUL EXPERIENCE

During Change of Life—How Lydia E. Pinkham's Vegetable Compound Made Her a Well Woman.

Natick, Mass.—"I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—Mrs. MARION SWERTY GREATON, No. 1 Jefferson St., Natick, Mass.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co., confidential, Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

HELPFUL SUGGESTIONS.

Chees Recipes.

Luncheon Cheese.

Cut stale bread in one-third-inch slices, spread with butter, remove crusts, and cut in finger-shaped pieces. Arrange near together around pieces of a round buttered baking-dish, having fingers extend about one-inch above dish with the bread. Beat two eggs slightly, add one cup milk or cream, one teaspoon melted butter, one teaspoon salt, one-half teaspoon mustard, one-fourth teaspoon cayenne, and one-half pound mild cheese, cut in small pieces. Pour mixture over bread and bake in moderate oven thirty minutes. Serve very hot.

Roxbury Cheese Croquettes.

Melt three tablespoons butter, add one-third cup flour and stir until well blended; then pour on gradually, while stirring constantly, one cup of milk. Bring to the boiling point and add yolks two eggs, slightly beaten and salted with two tablespoons cream and two cups soft, milk cheese, cut in small cubes. Season with one-half teaspoon salt and one-eighth teaspoon pepper. Spread on a plate and cool. Shape, dip in crumbs, egg and crumbs, fry in deep fat, and drain on brown paper.

Berkshire Rarebit.

Put one tablespoon butter in blazer and when melted add one teaspoon salt, one-fourth teaspoon pepper, four grains cayenne, one cup of milk, and six eggs, beaten slightly. Cook stirring constantly, from bottom and sides of pan until the whole is of a creamy consistency, like scrambled eggs. When nearly done add one small cream cheese worked until soft. Serve on unwatered water crackers.

Cheese and Olive Canapés.

Cut white bread at least twenty-four hours old in one-fourth-inch slices, shape with a small oblong cutter with rounded corners. The cover of a spice-box may be utilized for this purpose. Cream butter and add an equal quantity of soft mild cheese. Work until smooth, and season with salt and pepper. Spread bread with mixture and garnish with a one-fourth-inch border of finely chopped olives and a piece of red or green pepper (cut in diamond or any fancy shape) in the centre of each.

Imperial Sandwiches.

Cream two tablespoons butter, and add one-third cup grated Roquefort cheese. Work until smooth, and moisten with brandy until of a creamy consistency to spread; then season highly with salt and cayenne. Spread mixture between butter or water thins. Arrange on a fancy plate covered with 2 dolly.

French Rarebit.

Heat one-third of a cup of white wine to the boiling-point and add one-half pound Gruyère cheese, finely chopped, one and one-half teaspoons

Worcestershire sauce and salt and cayenne to taste. Stir briskly until cheese melts, then add the yolks of three eggs and cook for three minutes, stirring constantly. Serve at once on slices of toast.

SCISSORS READY.

The habit of reading with a pair of scissors close at hand is an invaluable one to the busy housewife, according to the San Diego Union. So often, there are recipes, household hints and other odd bits of information that would prove useful, but we have lost account of when or where they are. In every kitchen there should be a scrap book for such items as these, and the more methodically they are arranged the more useful they will be.

GLOVES FOR TRAINS.

To me and my commuting friends this idea has proven of inestimable value, writes a contributor to the Ladies' Home Journal. When having to take a dirty train trip in going to a reception, matinee or evening function, I am able to appear in immaculate white kid gloves by wearing a pair of short, thin, white silk gloves over my kid ones. The silk gloves appear like kid when placed over the kid ones.

SALAD BOXES.

Make window boxes for the back windows and in them sow thyme, parsley, radish, lettuce, carrot and cucumber seed. Also set out several dozen onion sets. Four such window boxes kept a family of three in crisp salads and fresh green vegetables throughout the summer, being replanted about every three weeks, says Harpers Bazar. This means a saving of many dollars.

MARKING CLOTHING.

The best way to mark clothing, etc., is to embroider the initials in Filo Silk. If that is not practicable there is nothing better than Payson's Indefinite Ink. With a bottle of this ink and a common pen, one can easily mark tablecloths, napkins, sheets, pillowcases, towels, shirts, collars, cuffs, etc.

THE GIRL WHO SUCCEEDS.

She has so much to do that she has no time for morbid thoughts. She never thinks for a moment that she is not a trader in the secrets to look as charming as possible.

She is considerate of the happiness of others and it is reflected back to her as a long-term gain. She never permits herself to grow old, for by cultivating all the graces of heart, brain and body, age does not come to her.

She awakens cheerfully in the morning and closes her eyes thankfully at night. She believes that life has some serious work to do and that the serious work lies very close to the homely, unassuming duties, and that kind words cost nothing.

She is always willing to give suggestions that will help some less fortunate one, over the bad places in life's journey. She is ever ready to talk about a book, a picture or a play, rather than to permit herself to indulge in idle words about another.

She is her own sweet, unaffected, womanly self; therein lies the secret of her popularity, of her success.—Woman's Life.

JEALOUSY.

When we are jealous, we imagine it is because we love so much. But jealousy has nothing to do with love. Perfect love forgives all. Jealousy is nothing more than a disease of self-love.

Our jealousy rage is violent exacting in proportion as our vanity is wounded, our pride called. Yet, as jealousy springs from an over-love of self, so a sound and sensible self-esteem is the best cure for it.

For, if one I love had proved untrue to me, it is not my fault that she is worthy of my anger. As Le Rochefoucauld says, "It is only persons who avoid causing jealousy who are worth being jealous of."

The trouble lies in the fact that love inordinately raises our self-complacency, and, in small souls, to be loved gives a sense of boasting pride, hence when they suspect that the flattery of love has ceased their fly into a passion of self-hating wrath.

To love is to forgive.

WHY MEN OPPOSE SUFFRAGE

According to the latest reports from London, "the hand that rocked the cradle" is busily engaged in stoning policemen, smashing shop windows, destroying the King's mail, dynamiting the home of the Chancellor of the Exchequer and dispersing itself generally in a manner which upsets the fond traditions that have for centuries inspired poets and ballad writers to their sentimental best.

Frenzied as succeeded earnestness, fanaticism unsurpassed reason in this bitter political war of sexes.

Speaking as "mere men," we venture to suggest to Mrs. Pankhurst and her Boadicean cohorts, that the program of the militant suffragette is intensifying the conviction of anti-suffragists: that most of the women clamoring loudest for the franchise are the least competent to exercise it. The traditions of humanity are deep-

rooted—one of them, and the most persistent, perhaps, is that the job of motherhood's an unthinking sufficient to occupy a full working day, twelve months in the year.

In the light of these statistics, home-making likewise assumes the proportions of a problem as yet unsolved by a vast number of wives, and it will require time and patience before the male world will surrender its conviction that there is a division of labor in society which definitely limits the activities of the gentle sex.

Women have made a tremendous advance in recent years, and have disclosed adaptabilities and resources, the existence of which our grandfathers scouted. But prejudices die hard, and by acts of rosydianism and vicious folly strengthened the attitude of countless men whose hitherto opinions have become irritated into a stubborn resolve to resist. Kaufman in Woman's World for April.

THE PROBLEM

The problem is to count the circles. Every circle is complete and intersects or touches one or more other circles. There are no parts of circles or shams or deceptions of any sort in the puzzle. In the event that no one counts the exact number the prizes will be awarded for the nearest correct solutions. Accuracy and patience are the main requisites for arriving at the correct or nearest correct count. Those who display these qualifications to the best advantage will solve the puzzle best.

How to Enter

This contest is restricted to people residing in the Provinces of New Brunswick and Nova Scotia.

A payment on subscription to The St. John Standard of from \$1.00 to \$5.00 entitles the contestant to submit a solution of the puzzle. The amount of money paid in will cover the subscription price for the paper according to the regular rate, whether the rate be for city delivery or by mail.

AS MANY DIFFERENT SOLUTIONS MAY BE SUBMITTED AS THE CONTESTANT DESIRES UPON MAKING AN ADDITIONAL PAYMENT WITH EACH ONE, BUT NOT MORE THAN \$5.00 CAN BE PAID WITH ANY ONE SOLUTION.

It is not necessary to pay the same amount with each solution if more than one be submitted.

As the main prizes have an added value according to what is paid in on subscription with the winning solutions, contestants should familiarize themselves with the DIVIDEND schedule before sending in their subscription and solutions.

Remit by check, money order, registered letter or in 1 or 2-cent stamps.

What ever is paid, whether on one or a number of solutions, will apply on a continuous subscription to The Standard.

Solutions unaccompanied by cash subscription will not be registered. This contest is open to both old and new subscribers within the territory designated.

Count the Circles!**

THE PRIZE LIST

- FIRST PRIZE.**
\$100.00 in gold, to which will be added 40 times the amount paid by the subscriber with the winning solution. This prize may be worth \$300.00.
- SECOND PRIZE.**
\$75.00 in gold, to which will be added 20 times the amount paid by the subscriber with the winning solution. Value of this prize may be \$175.00.
- THIRD PRIZE.**
\$50.00 in gold, to which will be added 15 times the amount paid with the winning solution. Value of this prize may be \$125.00.
- FOURTH PRIZE.**
\$30.00 in gold, to which will be added 10 times the amount paid with the winning solution. Value of this prize may be \$80.00.
- FIFTH PRIZE.**
\$25.00 in gold, to which will be added 5 times the amount paid with the winning solution. Value of this prize may be \$50.00.
- FIVE PRIZES.**
\$10.00 in gold, plus 3 times the amount paid with the winning solution. Each of these prizes may be worth \$25.00.
- TEN PRIZES.**
\$5.00 in gold, plus twice the amount paid with the winning solution. Value of each of these prizes may be \$15.00.
- FIFTY PRIZES.**
\$2.00 in gold, plus the amount paid with the winning solution. These prizes may each be worth \$7.00.

The following table shows what the first and second prizes will be worth, including dividends according to amounts paid in on subscription.

ON THE FIRST PRIZE.		ON THE SECOND PRIZE.	
\$1.00 wins	\$140.00	\$1.00 wins	\$ 95.00
2.00 wins	180.00	2.00 wins	115.00
3.00 wins	220.00	3.00 wins	135.00
4.00 wins	260.00	4.00 wins	155.00
5.00 wins	300.00	5.00 wins	175.00

SPECIAL ATTENTION

While the winning of the prizes does not in any measure depend upon the time the solution is sent in, it is best to begin counting at once and send in your solution as soon as you have finished. There is no limit to the number of different solutions you may send in. A solution, once submitted, cannot be changed.

All those entering the contest will be required to abide by the ruling of the Contest Manager. In the event of any questions arising the Contest Manager, if he deems wise, can appoint a committee to assist him in deciding them, and those who enter the contest do so with the understanding that such decision will be final. All charts on this page are the same.

Contest Closes Saturday, June 14, 1913.

Always use the solution blank and read it carefully before filling out. Write your name and address plainly.

\$1.00 up to \$5.00 on your subscription allows you one solution, but \$5.00 on your subscription gives you one solution and five times as much in dividends.

An additional payment of \$1.00 up to \$5.00 entitles you to another solution. Remember, that the more you pay on your subscription the larger will be your dividends should you win one of the dividend prizes.

Study the first prizes and dividends offered and send in your solution today.

 Do you wish Daily or Weekly.

DECIDING TIES

In case there are ties, as many prizes will be reserved as there are contestants tied before any prizes are awarded for less correct solutions. For instance, if ten people tie on the correct solution, they would receive the first ten prizes, and those having the next nearest correct answers would receive the remaining prizes.

If there should be more ties than there are prizes offered a second puzzle will be presented. No money will have to accompany the solution of the second puzzle. The second puzzle will be practicable and solvable.

In the event of ties on the second puzzle, a third will be presented to those that have tied. The second and third puzzles will be used only in case of ties. Their purpose will be merely to decide ties, so that in the event there is a tie, the prizes can be awarded without having to divide them or without resorting to chance.

However, only three puzzles will be presented, and in the seemingly impossible event of still another tie, the prizes will be equally divided. If there are no ties, there will be only one puzzle.

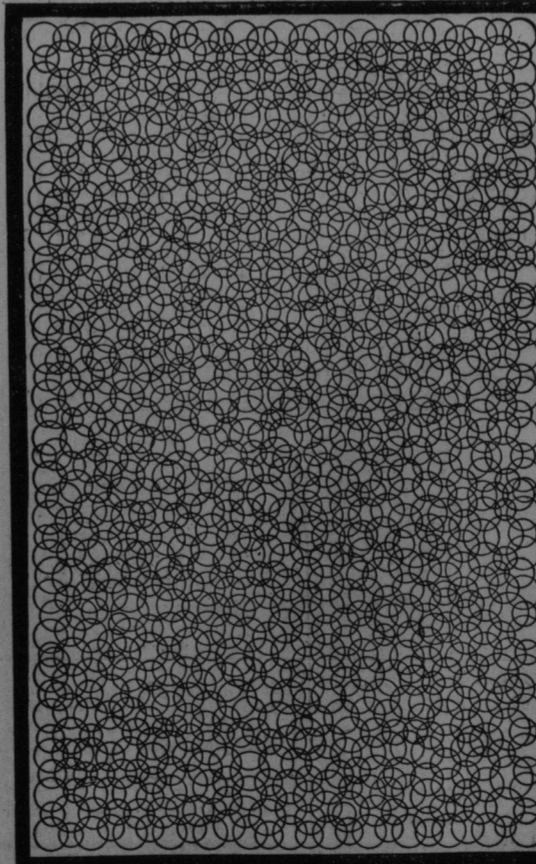

AS TO DIVIDEND PRIZES.

Same will be divided between those who have the correct or nearest correct answers. ALL DIVIDEND prizes will be divided pro rata according to the amount paid in by the winner.

For example, if there are two contestants who tie having the correct or nearest correct answer, they will divide the first and second prizes of \$100.00 and \$75.00, giving them \$87.50 each, and will also be entitled to DIVIDEND prizes, which is forty times the amount paid in for the first prize and twenty times the amount paid in on the second prize, the two tying will then be entitled to divide sixty times the amount they have paid in, making thirty times the amount paid in on their subscription.

Now, if one paid \$2.00 and the other paid in \$5.00, the one paying in \$2.00 would receive thirty times the amount paid in or \$60.00 as his DIVIDEND prize, while the one paying in \$5.00 would also receive thirty times the amount paid in, or \$150.00 as a DIVIDEND prize.

This same rule and example will be followed throughout in the awarding of prizes in case of ties.
