ANNUAL REPORT

Of the State of the Free Christian Baptist Churches of New Brunswick, for the year ending July 1st, 1857.

BRECOED BRETHERN;—Grace be unto you, and peace from God the Father, and from our Lord Jesus Christ. This is our twenty-fifth Annual gathering. The lapse of another year since our last General Conference has brought us to the completion of the first quarter of a century of our existence in associated capacity; and looking back upon the way in which God has led us, we are constrained in view of his divine grace to exclaim,—"What hath God wrought?" True brethren, we are not gathered to day within the guilded halls of earthly greatness—no costly edifice adds grandeur to our Annual Meeting; but we are here where the Gospel has been statedly preached, where the word of God has been quick and powerful, where many have witnessed for Christ—Yea, where the ere of God looks down upon us complaisantly, where in the simplicity and failness of our hearts we can tell what He has done for us, invite others to the same fountain of living waters from which we currelves have drank, and if we cannot as perfectly glorify our heavanly Father here as angels do in Heaven, we can at least, without fear or dread, pour

forth our hearty songs of praise to him that liveth, and was dead, and is alive for evermore.

You Brethren, are the representatives of the flocks over which the Holy Ghost hath made some of you overseers. We all are brethren in Christ Jesus. But in presenting our Annual Report to you, we have to regret again, as we did last year, that the information necessary for the work has not been derived from the legitimate sources provided for that purpose, that is, the clerks of Districts. Not having received a report from any of them, we have therefore been obliged to gather our materials from other sources, and if our report is not as full, and in every particular as explicit as it should be, you will attribute it to the difficulty of compiling a public document from such limited materials. This explanation we consider due to you and also to ourselves.

Our last Report chronicled the demise of a venerable father in the Gospel-with profound gratitude to Almighty God we are enabled to say to-day, that during this year death has not been permitted to enter the circle of our ministering brethren-we all live, although with much sorrow we learn that one of our number is prevented from being with us to-day in consequence of illness, which it is feared is of that character that will soon carry him to the grave. May divine grace and favour sustain him during his illness, and the presence of the Great Shepherd be with him, when he passes through the valley and shadow of death. A number of valuable lay brethren and friends have however been called to their reward since we last met. Some of our hearts have felt keenly, and the tenderest cords of earthly affections have been severed by relentless death. We are reminded by these things that this is not our home. "Our home is in the skies;" and beloved, ere our next Annual Meeting some of us that are here to day may be gone-where?-Let our holy lives and devotion to the cause of the Redeemer answer this when we lay low; while self examination suggests to our hearts now, the wise admonition,-Be ye always ready.

In now entering upon the progress of the gospel among us, and the state of our churches, we shall as before commence with the First District. This District embraces eight churches located on the Arostook and St. John rivers, and are our most westerly fields of labour. They were represented last year as very destitute of ministerial care; only one preaching brother residing in that part of the country. Our Missionary Board with a laudable desire this year to supply the destitute, engaged Elder Hartt as a Missionary to labour himself in the denomination as he might conceive most conductive to the advancement of the cause, and also to provide as far as he might be able occasional pastoral oversight for such churches as would enter into an arrangement of that kind. He accordingly pushed his way into the wildcress on these upper waters of the St. John, in search of the isolated flocks that had been planted there. And after labouring a short time with them he aided in securing a

mutual arrangement for the labour and care of Elder Siprill over a part of the churches in this First District. Brother Siprill we lear a with pleasure has faithfully laboured, and not in vain. In all of the four churches having his oversight, some prosperity has followed, the people have been encouraged, and have advanced, others have been added to them, and the cause generally has been promoted. The number baptized by brother Siprill in these churches during the year is reported to be twenty-three.

A large and inviting field lies before us in this district, and an adequate amount of faithful labour would, no doubt, be followed by an abundant harvest. Some Sabbath Schools exist in this District, which will be noticed particulary in the Report on Sabbath Schools.

The Second District includes the churches between the First District and Woodstock. Last year it numbered twelve, one small church, organized by Brother Hartt and Siprill, has been added to it The church in Wakefield, and one church in Jacksontown, have enjoyed the constant labour of Elder Bell this year, and with a degree of success. A number have been added in both places, and flourishing Sabbath Schools exist. The library of the one at Wakefield was replenished a tew weeks since by an order on our Book Depository for Ten Pounds worth of books, which we note as a good omen. Elder McMullin has laboured with several churches, and endeavoured to preserve Gospel order among them. Labour has also been expended by Elder Orser in this District, but, we believe, not under any definite engagement. Brother Hartt has also visited a number of the churches, and endeavoured to encourage them. Brether G. H. Maxson, a licentiate from the church in South Hampton, through the recommendation of Elder Hartt, was engaged to labour with several churches in the upper part of this District, and we learn with pleasure that God has given him the hearts of the people generally, and made him a blessing among them. Several have been baptized, as the fruit of his ministry. Elder Noble has spent a portion of the Winter and Spring in Woodstock. The church in that town is still in conflict. The cause generally in the Second District is not as prosperous as last year, although there is, notwithstanding, much cause for gratitude to God. Progress in the right direction is apparent in several places.

The Third District reaches from Woodstock to Fredericton, and embraces ten churches. Elders Gunter, Kinghorn, Perry, and Hamilton, have laboured there. The two latter not all the time. Elder Gunter's labour has been confined to Fredericton; Elder Perry's to Douglass; Elder Kinghorn's has been divided with several churches, and Elder Hamilton's has been expended at Kingsclear, Bear Island, and Nackawick. At Kingsclear a new meeting house was openod in March last. He has baptized in these places twenty-eight, all of whom we trust are "born again." Brother Perry has added fifteen to the church in Douglass, over which he has pastoral care. Elder

McMullin has laboured with the church at South Hampton and Campbell Settlement, and a visit of brother Maxson to the Nashwaak early in the year, was attended with some blessing. Two churches have been organized during the year in this District by Elder Kinghorn, one at Nackawick, now numbering thirty-one members, and which are represented as being in great need of present care. The other at Nashwaak, now numbering twenty members, with a good interest still existing among them.

In connection with our report of this District, we would notice the illness of our beloved brother, Elder J. Hamilton. He was a member of the church in this city, first licensed to preach by us, and subsequently ordained in our midst to the work of the ministry, in which he has since faithfully laboured, too early wearing himself out, and is now sinking with consumption, and will probably soon go to his reward. With pleasure we record the information received. that he has endeared himself to the flocks where he has laboured. and that he lives in their affections. He now lingers at the house of a brother in Fredericton, who has kindly afforded him a home in his family. While he lives let us not fail to remember him in our

prayers.

The Fourth District embraces several churches between Fredericton and Upper Hampstead, and those on Oromocto. These have not enjoyed any special revival during the present year, except at Garey. Soon after our last Conference, Elders McKenzie and Conner (then licentiates) visited that place, and the Lord owned their labours. They were subsequently ordained and soon after baptized forty-five persons. The church which had long been a good deal scattered was re-organized, and brother McKenzie has since labored a portion of the time with them, and, we learn, with good success. Brother McKenzie also labours with the church at Upper Hampstead, and conjointly with Brother Knollin at Jerusalem. Elder Pennington has laboured during a portion of the year on the Oromocto, and Brother Downey with the church at Gagetown. A new place of worship is now in course of erection at the latter place, and several persons have been added to the church at the Oromocto by Brother Pennington.

The Fifth District embraces fourteen churches. Some of these have had additions during the year, and we think all, with perhaps a single exception, have held on to the faith of the gospel. A new and flourishing church, has been gathered at the Narrows, in the Parish of Johnson, a particular notice of which is worthy of a place in our report. The friends residing in this neighbourhood desirous of sustaining the worship of God among them erected a Meeting house, which was opened for use soon after our last Conference. An interest was awakened among them, but no regular course of labor taken up until a short time after. Elders Perry and McLeod held a series of meeting continuing for several days, and although at

a very busy season of the year (the time of haying) they were well attended and revival followed. Twenty-four were baptized at that time, a church of thirty-eight members organized, and over twenty have been added since. They engaged Elder Perry to labor with them a part of the time, and we learn with pleasure that they have grown in grace and in the knowledge of our Lord and Saviour Jesus Christ. A flourishing Sabbath School also exists among them. The labours of Elder G. A. Hartly with churches on the Reach during last Autumn was attended with great good. A number were baptized by Elder French and united with the church were he resides. He has also exercised pasteral care over this church since, and we are happy to say this church is in a more prosperous condition now than for some time previous. During the labor of brother Hartly on the Reach, several experienced the religion of Christ on the Western side of the River, and a considerable interest was awakened. Nearly all the churches in this District have pastoral care .-Elder Taylor labours with the churches on the Islands of Campobello and Grandmanan. In the latter place great efforts are being made to erect a suitable place of worship, and this Island is represented as an inviting field of labour. Nine were added to the church during a recent visit of brother Doucett. No tidings have been heard from the church at St. Stephens. In Campobello some have recently been added to the church. At Carleton, and also at St. John additions have been made. Nearly all the churches in this District have stated pastoral labour, some flourishing Sabbath Schools exist, and as a general thing the cause of religion is advancing and souls are being gathered to Christ.

The SIXTH DISTRICT embraces our churches from Springfield east as far as Dorchester. We rejoice that God has in a good measure looked upon this extensive field, and during the last year a greater degree of prosperity has been enjoyed by the churches generally than for some time previous. Revival was experienced in consection with the church at the Millatream during the Autumn, under the labours of brother Doucett and others. At the Ward's Creek, also in Sussex, under the labour of brother Doucett, a revival took place, and a church was subsequently organized there by Elders Hartt and Wayman, Brother Hartly expended laboured at Upper Sussex, Portage, and the head of Smith's Creek. A number were baptized by him, and the labour of both brethren Hartly, Doucett and others were made a blessing to the cause in Studholm and Sussex. Early in January Elder Hartt, in the exercise of his "care of all the churches," came to St. John on his way to visit the churches in Westmorland. It had been determined previously to send Brother Hartly to this long-neglected field of labour, but from time to time at had been deferred. The way being now open, on the 9th of January these brethren left this city and immediately proceeded to Westmoriand. We need scarcely say, that notwithstanding the long neglect which these churches had felt, they received our brethren

with open arms, and God began at once to revive his work. Elder Hartt remained a few weeks, and made arrangements previous to his leaving, for the continuance of brother Hartly in that field. This young brother has laboured there, until he left to attend this Conference, and the information which we have received is that all the churches there have been greatly revived and strengthened. Many have found favor in the sight of the Lord, and forty have been baptised and added to the churches. At Coverdale a Meeting House is in course of erection, and earnest solicitations were made on his departure that he might return again. Faithfil gospel labour only seems necessary in order to enlargement in this District, and a harvest of souls to the glory of God.

Having thus briefly noticed the general state of the cause in the Churches, it becomes necessary for us to state, that since our last General Conference six biethren have been set apart to the work of the ministry by the laying on of hands. Others also have been licensed to preach, and we trust that God will make them all useful in his cause. We also conceive it necessary to state that the result of the Missionary labour employed this year has been attended with signal success, but this labour will be referred to more especially in our Missionary Report. The Sabbath School interest will be represented in a Report on that subject. The cause of Temperance also has not been forgotten by all our labourers.—Elder Hartt has taken a deep interest in this in the course of his labours. A report on this subject will probably be presented during our Conference, in which some details will be enumerated.

In closing this our Annual Report we wish to say, that although we cannot number as many additions as last year, and the revival influence has not been as general as then; yet with gratitude to God we would acknowledge his presence has been with us, and in several particulars we can discern a progress in these things which we believe will tend to our prosperity and elevation as a denomination of Christians. The whole number which have been added by baptism to our churches during the present year exceeds four hundred besides

others who were previously baptized.

Never since we had an existence have we as a Denomination stood fairer for usefulness and enlargement than now, and it is important that we should, devise such measures in this Conference as will promote the best interests of religion. Many calls are reaching us for help—the Macedonian cry, "come over and help us" is coming from different quarters, and much is depending on the faithfulness and efficiency of our ministry. Our number of labourers is increasing. Young men are being raised up among us professing to be called of God to the sacredoffice. We would impress upon the minds of these that the conversion of souls is only a part of the results of the gospel, they must afterwards be taught to observe all things whatsoever Curist has commanded. And unless our churches are properly instructed through

the labour of the gospel and the ministry of those who profess to be teachers, and a healthy discipline exercised they cannot be efficient in promoting the interests of religion. Without this the freedom of our gitts for which we contend, which we believe to be the right of the church, and which is a peculiar feature of our denomination, will degenerate into an abuse of the liberty of God's house, and result in the injury of the cause of truth, rather than its promotion. Let every one of our ministers then take heed to the same admontion which Paul gave to his son Timothy—"give attendance to READING, to exhortation, to doctrine;" and let our churches not all to "Obey them that are over them in the Lord," so shall we prosper, our people grow in grace, and those be added to our numbers that shall be saved.—Amen.

HOME MISSIONS.

11. The Committee appointed to Report on Home Missions submitted the following:—

Home Missions have been prosecuted by the Free Baptists of New Brunswick from the rise of the Denomination: Our Churches are indebted to the Home Mission spirit for their existence, and nearly all our members have been gathered through this agency. systematic organization existed when our fathers in the ministry first went forth; but the same spirit which in the days of the primitive Church, said, "Seperate me Barnabas and Saul unto the work whereunto I have called them;" said to these men also, most of whom are now with us, "Go ye and preach the gospel." And under the constraining love of Christ at great sacrifices they ranged our Province, planted Churches, and raised up the F. B. Denomination. As time advanced, and circumstances became developed, it became evident that system must be adopted, and such a one as would enlist the sympathies of our people, and afford an easy mode of obtaining resources to sustain those who labour in the vineyard. Accordingly, as you well know, a system for Missionary labour was devised and adopted, and has now been in operation for three or four

years. We rejaice that God has owned it every year, and the labours of those who have been employed by our Missionary Board have been abundantly successful in helping not only our Churches but in the conversion of souls. The labour of Elder S. Hartt, who was employed as a general Missionary the last year, has resulted in much good, as may be seen by reference to the Annual Report. Brother Hartt's labours as Special Missionary has been signally owned, not only in our Eastern Churches, where he has more recently laboured, but also in other places, as our Annual Report shows. These are evidences that God does own the systematic and united efforts of His people to promote His cause.

Your Committe now recommend that the Mission work be prosecuted by us in the most judicious way that we can devise. We recommend that all our Ministers endeavour to instruct the people among whom they labour in their duty in this matter,—that the sympathies of our Churches be enlisted to the utmost, and that as means may be contributed to the funds of this Society, Missionary labour

be employed for the most destitute only.

We conceive that those Churches which have ability to provide for themselves should do so, and under the conviction that no church can long prosper without such oversight as God has appointed for its good, we therefore urge upon them the spriit of that Scripture maxim, "If any man will not work, neither shall he eat," which indicates that if we will not help ourselves, we shall not be helped. Neither should they be satisfied with providing for themselves,—the strong should help the weak, and the prosperous should help the poor. We therefore cannot advise that Missionary labour under existing circumstances be supplied to wealthy churches, unless this Conference feels warranted in the employment of a General Missionary, as last year, to aid all the churches as far as necessary in adopting a perfect system of Gospel order.

Report sustained by addresses from Elders Hartt, Hartly, Bailey, McLeod, and others, and unanimously received.

COLPORTAGE.

REPORT.

In absence of statistical and general information on this subject your Committee take what they know of former operations for their precedent, and thereon base their recommendation of leaving this branch of Conference operations discontinued.

brethren Truesdale, O'Donnell, (late colportuer) and others took part.

SABBATH SCHOOLS.

13. The following Report was submitted by the Committee on Sabbath Schools:—

Your Sabbath School committee have made an effort to ascertain the number, as well as the condition of the Schools connected with our Churches; and are pleased to be able to report progress in both.

The report of last year showed a large increase in numbers, and we have this year quite an addition even to that report. In our research we find in the—

It is a matter of much encouragement to us to see the deep interest that is being taken in many places by parents, teachers, and scholars in our schools. The fact that our preachers, deacons, and leading men in general, are becoming deeply interested in this good work, is one of great satisfaction. The moral and religious influence that they are exerting in many places is powerful. The Sabbath School institution is becoming, as it should be, highly appreciated. Still we believe that what has been done is but the commencement of what may yet be accomplished. A very large number of librares have been procured by our schools since the opening of the last spring. (Over 50 have been supplied frem our own Depositors.)

We recommend and urge that all our public brethren, private brethren and sisters, fathers and mothers, yea, all who wish well to the cause of God, and the state of society, would continue to manifest an increasing interest in Sabbath Schools, both in word and in deed. We consider it a matter of great importance, and feel that we cannot urge it too earnestly. The means for destroying the usefulness and the souls of the children of our country are increasing, and we consider the Sabbath School is the chief and the great means for the counteraction of these ungodly influences, and for the preservation of our rising generation. We believe new to be the time

and we say let us as a religious body of people, arise and do all we

can this year.

We further recommend that each Church be particular and report their Sabbath School to the district to which it belongs, and also that the clerk of each district meeting be more punctual in forwarding their report to the Corresponding Secretary of the General Conference in time, (to be examined by the Sabbath School Committee.)

TEMPERANCE.

The Committee on Temperance reported as follows:

Your committee on Temperance beg leave to report, that further measures should be adopted without delay for the carrying forward of the cause of Temperance among us as a denomination. We therefore give it as our opinion that every church aided by their pastor (if they have a Pastor) and Deacons' labour in carrying forward this cause in their respective localities. And also that each church have a Temperance Society established in it, to include themselves, their children, and as many others as will join with them; also that the churches give a statistical report at their respective District Meetings in this cause.

We moreover recommend that one or more preachers be appointed to oversee and engage, as far as they can consistantly with their other labours, in establishing Total Abstinance societies not only in our denomination but elsewhere, if a door should be opened.

We further recommend that the rules of Temperance already received by a number of churches be sanctioned by this Conference

with such amendments as may be deemed necessary.

We observe that the efforts put forth during the past year have been crowned with much success, especially in the localities of sixteen churches in which the rules referred to were received.

We recommend that both Elders and Licentiates be particularly

urged to take a deep interest in this work.

Lastly, we cannot but express our conviction that not withstanding moral sussion has done much in reducing the evils of intemperance, yet legal prohibition is the only means of its entire suppression.

A TREATISE

On the Faith of the Free Christian Baptists in New Branswick.

CHAPTER I.-Being and Attributes of God.

The Scriptures teach that there is only one true and living God, who is a Spirit, self-existent, eternal, immutable, omnipresent, omniscient, omnipotent, independent, good, wise, holy, just, and merciful; the Creator, Preserver, Governor of the universe; the Redeemer, Saviour, Sanctifier, and Judge of men; and the only proper object of divine worship. The mode of his existance, however, is a subject far above the understanding of man. Finite beings cannot comprehend him.

CHAPTER II.—Creation, Primitive State of Man, and his Fall.

SECTION I.—CREATION 1. Of the World. God created the world and all things that it contains, for his own pleasure and glory, and the enjoyment of his creatures.

2. Of the Angels. The Angels were created by God, to glorify him, and obey his commandments. Those who have kept their first estate he employs in ministering blessings to the heirs of salvation, and in executing his judgments upon the world.

* 3. Of Man. God created man, consisting of a corporeal body, and a thinking, rational soul. He was made in the similitude of God to glerify his Maker.

SECTION II .- PRIMITIVE STATE OF MAN AND MIS FALL.

Our first parents, in their original state of probation, were perfectly righteess; but in consequence of the first transgression, the nature of their descendants is so unboly, that none by virtue of any natural goodness can become the holy children of God: but they are all dependant for salvation upon the redemption effected through the blood of Christ, and upon being created anew unto heliness through the operation of the Spirit; both of which are freely provided for every descendant of Adam.

CHAPTER III .- Of Christ,

SECTION 1.-The Son of God possesses all Divine perfections.

His Divine perfections are proved from his titles, his attributes and

1. His Titles. The Bible ascribes to Christ the titles of Saviour, Lord of Hosts, the First and the Last God. true God, great God, God over all, mighty God, and everlasting Father.

2. His Attributes. He is eternal, unchangeable, omnipresent, omniscient, omnipotent, holy, and is entitled to divine worship.

3. His Works. By Christ the world was created, he preserves and governs it, he has redeemed man, and he will be their final Judge.

SECTION IS. -THE INCARNATION OF CHRIST, The Word which in the beginning was with God, and which was God, by whom all things were made, condescended to a state of humiliation in becoming united with a bedy like ours, pollution and sin excepted. In this state, as a subject of the law, he took our infirmi-ties, was tempted as we are but livid our example, and rendered perfeet obedience to the divine requirements.

CHAPTER IV .- Holy Spirit.

1. The Scriptures ascribe to the Holy Ghost the acts and attributes of an intelligent being. He is said to guide, to know, to move. to give information, to command, to forbid, to cond forth, to reprove, and to be sinned against.

The attributes of God are applied to the Holy Ghost : such as

eternity, omnipresence, omniscience, goodness and truth.

The works of God are ascribed to the Holy Ghost : creation, inspiration, giving of life, and sanctification.

The same acts, which in one part of the Bible are estributed

to the Holy Gheet, are in other parts said to be performed by God.

5. The Apostles assert that the Holy Ghost is Lord and God.

Prom the foregoing, the conclusion is, that the Holy Ghost is in reality God, and one with the Father in all Divine perfections. It as also been shown that Jesus Christ is Ged, one in essence with the Father. Then in essence these three, the Father, Son and Holy Chost are one.

CHAPTER V.-Atonement and Mediation of Christ.

As sin cannot be pardoned without a sacrifice, 1. Atonement. and the blood of beasts could never actually wash away sin, Christ gave his life a sacrifice for the sine of the world, and thus made salvation possible for all men.

Mediation of Christ. Our Lord not only died for our sins, but he arose for our justification, and accorded to heaven, where as mediator between God and man, he will make intersession for as till the final judgment or videosing bod aux out the real he

effects of the fall, man is placed in a salvable state; the grace of God, the influences of the Holy Spirit, and the invitations of the Gospel are given to a lanea and by these they receive power to repert and obey all the requirements of the Gospel. We mean only to say, that salvation for all men is possible, for though in its provision it is free and absolute, yet in its application, it is expressly conditional. Salvation, then, being freely provided, and man being capable through grace, of obtaining it, if he perish whom can be blame but himself?

CHAPTER VII, Repentance.

The repentance which the gospel requires as a deep conviction, a penitential sorrow, an open confession, w decided hatred, and an entire foresking of sell-sin. This repentance, God has enjoined on all meb, and without ir in this life, the same must penish eternally.

CHAPTER VIII Paith

True Faith is an assent of the mind to the great and fundamental truths of revelation; an act of the understanding in giving credit to the geopet through the influence of the dioly. Spirit, and a firm loon-more and trust in the living God! The fruit of faith is obedience to the Gospek. The power to believe is the gift of God; thurbelieving is an act of the creature. Repentance and faith are required as good condition of pardons of besigns are bod to some conditions of pardons of besigns and conditions of pardons of besigns and conditions.

pers : head CHAPTER TX on Regeneration

As God is a hely Being, and heaven a hely place, man must be regenerated before he can enter a state of happiness. This change is a renewation of the soul by the grace and spirit of God, whereby the penitent sinner receives new life, becomes a child of God, and is enabled, to perform appritual service. It is called a peing born again, born of the Spirit, &c.

CHAPTER X. Perseverance.

As the regenerate are placed in a state of trial during this life, their future obedience is not determined. Consequently their eternal salvation is depending on their shiding in Christ; it is therefore their duty and privilege to be steadfast in the truth; to grow in grace, persevere in holliess, and make their election sure.

The Charon but you be to be the our sine but on the charon as not

A Christian Church is an assembly of persons who believe in Christ and worship the true God, agreeably to his word. [In a more general sense, it signifiles the whole body of real Christians throughout the worlds The church being the body of Christ, none but the regenerate, who obey the gospel, are its real members. Believers

are received into a particular church, on their giving evidence of repentance and faith and being baptized.

Section 1.—Orricks of the Church.—The Officers in the primitive church were spostles, bishops, and descons. The spostles were the especial Witnesses of the works and sayings of Christ; and of course this office ceased when their work was accomplished. The Gifts perpetuated in the church are evangelists, pastors, teachers, helps, and governments. These, however, do not appear to be distinct officers, but they imply different kinds of duties, which are performed by histops of elders, deacons and others.
