SEA SONGS.

One of the most popular as well as the most refined of our Sea Songs, is the famous ballad of GAY. The air of this ballad has been attributed to Handel; but it was the composition of Leveridge, a bass singer, who also composed 'The Host of Old England.'

BLACK-EYED SUSAN.

All in the downs the fies' lay moor'd, The streamers waving in the wind, When black-eyed Susan came on board, 'Oh! where shall I my true love find? Tell me, ye jovial sailors, tell me true, If my sweet William sail among the crew.'

## HOUSE OF ASSEMBLY.

FREDERICTON, Feb. 18.  
On motion of Mr. Keane the subject of reporting the debates was referred to the Contingent Committee.  
On motion of Mr. McQueen Dr. Sparden was appointed House Chaplain.  
The Speaker read the report of the Hon. Judge Allen on the Thierault election petition matter, showing why said petition was set aside.  
Dr. Dow, the Attorney General, Messrs. McQueen, Cotterell and Pickard were appointed a Committee on Privileges.  
On motion of Mr. Cotterell a committee to examine the old and report new rules for the House was appointed, consisting of Messrs. Cotterell, King, McQueen, Flewelling and Davidson.  
Messrs. Covert, Swin, Johnson, Thierault, Pickard, McLeod, Leighton, Marchie, Beveridge, Wynn, Rogers, Barker, McKay and McKenzie were appointed an Agricultural Committee.  
The Speaker informed the House that he had issued his warrant, directing the Clerk of the Crown to issue his Writ for the election of a member to serve in the General Assembly for the County of St. John, in place of the late Mr. Cairn.  
Fredericton, Feb. 22.  
The Lieut. Governor's reply to the Address was read.  
Hon. Mr. Stevenson for Mr. Murchie presented the petition of Joshua Babb and others praying that the road from St. Stephen to Clarke's Point be placed on the great road establishment.  
Hon. Mr. Stevenson presented the petition of John D. Greenlaw and thirty others for an act to incorporate the St. Croix Wharf Company.

Fredericton, Feb. 22.  
The Lieut. Governor's reply to the Address was read.

Hon. Mr. Stevenson for Mr. Murchie presented the petition of Joshua Babb and others praying that the road from St. Stephen to Clarke's Point be placed on the great road establishment.

Hon. Mr. Stevenson presented the petition of John D. Greenlaw and thirty others for an act to incorporate the St. Croix Wharf Company.

From our Fredericton Correspondent.

FREDERICTON, Feb. 20.  
Dear Editor.—On Thursday last was opened the Free School Parliament of New Brunswick, returned by the people at the general election by such sweeping and grand majorities—showing how the great heart of the people responded to the policy of the Government that introduced, and with such eminent success had worked for three years, one of the greatest boons that a legislature and government can give to a people. Education for all, by means to the provisions for which all must contribute in proportion to their property.

The ceremony of opening was in no way distinguishable from former occasions except in this, that the number inside and outside was larger. The Lieut. Governor in fine health, and in his full regulation dress of gold lace and cocked hat &c., occupied the chair in the Legislative Council, with that calm dignity which is always manifested by him when called on to fill any distinguished position. The attendance of both branches was very large, the only absent ones being the hon. Mr. Hamilton of the Legislative Council and the hon. Mr. Thierault of the Assembly. The members of the Assembly were all sworn in before Mr. Justice Weldon, at noon.  
There was on the part of some of the members of the House a disposition to object to the choice of Speaker as understood to be determined by the Government. The unanimous election of Mr. WEDDERBURN, shows the wisdom of the selection the Government made in this matter, and I feel satisfied the Legislature will at an early day be thoroughly convinced, that in his unanimous election, they have acted most wisely, as he manifests full knowledge of the duties of the position, and promptly applies it to the questions that are presented for his ruling.

The House of Assembly is composed 18 members of the last House—2 who have been in the Legislature and 21 who for the first time take their seats.

Looking at the members from the gallery, and reverting to those whose places they fill, one arrives at the conclusion that the present House is a better one than the last; and that the newly seated are fast doing the work of the country, is evident by the more than usual promptness with which the question of the debates of session was disposed of to-day, not one hour being occupied in its discussion.

The passage of the Address in reply to the Speech called for little speaking except from the mover, Mr. Keane, who in one of his practical addresses dwelt shortly on the several subjects referred to. The division on the third paragraph referring to the decision of the Judicial Committee of the Privy Council on the School case, was expected. Mr. O'Leary in a very decided, Irish accent, made a speech which was to be expected from an opponent of the Law, and a strong advocate of the separate school sentiment of the County of Kent. Mr. Burns on this section made his maiden speech, evidently well studied; delivered however in a style and temper that did him credit. He speaks clearly, slowly, and apparently weighs his words before utterance.

There is expressed generally in both branches of the Legislature, a strong desire to have a short session, and the report of policy of the Government to provide a sessional allowance, seems to meet with general approbation.

The Surveyor General though suffering from a severe cough, is in his place. The other members from Charlotte so far as I can learn, have made a good impression. Mr. Murchie and McKay made their maiden speeches on the subject of the debates. There are few Bills as yet introduced, but next week some will doubtless pass. The Speaker is early in the chair, and seems desirous of urging on the business of the session.

sion, and promptness on his part, will doubtless be caught up by the members generally; so the session may be very short, and hence you will not have as many letters as usual for publication, from your old correspondent.

## THE POLICE ACT.

For the Standard.  
Mr. Editor.—I observe in the Standard that application is to be made to the Legislature to pass an Act for the establishment of a Police Force in St. Andrews. Are we not already heavily taxed, so heavily, that the burden falls upon three hundred rate payers to pay something like six thousand dollars of a tax. Before any such Bill is introduced, I trust our member Hon. Mr. Stevenson will be satisfied that the Act is sought for, by expression of the inhabitants at a Public Meeting, held for that purpose. An Act empowering the Sessions to appoint good competent Constables, who might also be special Constables, and to place them on duty when required would answer the people. Other details as to payment, &c., would be embodied in the bill. A larger business is required before the burden of taxation is increased. Foster the schools, and there will be little need of Police.

## FAIR PLAY.

### The Standard.

#### SAINT ANDREWS, FEB. 24, 1875.

MANITOBA is growing rapidly in all the elements which make a country; and from recent accounts we learn that its population will be still further increased during the spring, by a thousand families of Menonites, from Russia—a hardy race of people, industrious and peaceful, accustomed to a climate more rigorous than that of Manitoba. According to our namesake the Standard, published at Winnipeg, (a copy of which was handed us by a friend,) they have most of the institutions of older places; fine Churches, Lyceums, a Court House, and other public buildings; and the inhabitants can enjoy themselves at concerts, a theatre, or at a skating rink, at which a Carnival was held last month, when nearly two hundred persons appeared in fancy dresses. The Standard gives a full report of a lecture delivered by Chief Justice Woon, on "Imagination." The subject is treated in a scholarly style by the learned Judge, who by the way is married to the grand-daughter of the late Col. Hatch. Winnipeg has its Mayor and Corporation, two well conducted newspapers, mercantile establishments and factories. The price of land in the vicinity of the city has risen nearly 200 per cent. within a couple of years, and it is probable that ere long it will have a railway connecting that splendid country with its vast and varied resources, with the lower Provinces.

THE CONCERT at St. George, given by the St. Andrews Baptist Choir, on Friday evening last, was a most successful one. The choir, who by the way is married to the grand-daughter of the late Col. Hatch. Winnipeg has its Mayor and Corporation, two well conducted newspapers, mercantile establishments and factories. The price of land in the vicinity of the city has risen nearly 200 per cent. within a couple of years, and it is probable that ere long it will have a railway connecting that splendid country with its vast and varied resources, with the lower Provinces.

## RAILROAD BRIDGE AT ST. STEPHEN.

This is not a mere sectional or local question, but one which should be viewed as an international one; it affects a large extent of country, and as such should be discussed upon its merits, and as "the noblest motive is the public good" we shall, according to our conviction point out as briefly as possible the advantages of and the necessity for such an undertaking.

It will not be denied, that the building of railways through the country has been of incalculable benefit; that they have been instrumental in developing its resources, and affording a rapid means of transit to bring its products to a market, or to a place of shipment, and that where rivers have to be crossed, of course bridges must be built. This is the case at St. Stephen. Like all new projects it has met with opposition from some interested parties, who perhaps own wharves, and whose business they pretend will suffer by competition with Calais. Did these people consider the interests of St. Andrews or any other part of the country, when they were urging the building of their Branch Railway? They did not, but looked to the welfare of their own locality. The projectors and advocates of the Railway Bridge are not tied down by sectional views or local prejudices, but appear to be actuated by a desire to promote the prosperity of the whole country. They know that the erection of the bridge will ensure not only the Grand Southern Railway, but will form one of the links of a still more important line, viz: the Megantic Railway, which will be the shortest, and consequently the most rapid line, connecting Canada with an open sea terminus at all seasons. With all these prospective advantages we notice by the St. Stephen papers that a comparatively small meeting was held there last week, to adopt measures to prevent the Railway Bridge

from being built. From the meagreness of the attendance we infer that little interest is felt in the matter; the meeting, however, appointed a committee to obtain signatures to Petitions praying Parliament not to pass an Act for building the Bridge.

One of the speakers referred to Dr. Tupper, and expressed surprise that he should favor the project, and he could only account for the good will which the Hon. gentleman manifested towards the bridge, by his ignorance of the wants of the County. This is certainly charitable towards our distinguished neighbor—but not specially modest in the speaker. If there be any man within the limits of the County of Charlotte who has a clear idea of its future possibilities it is Dr. Tupper. He has selected his residence with a view to what it may become, and is disposed to act as well as to talk. It is such men as he, who believe, and speak, and act, with faith, that are to be a benefit to us. One man who says it will be and shall be, is worth a hundred who go about saying and thinking it is no use to try.

As to the Bridge, Dr. Tupper sees it is one of the means of developing the interior by affording trade additional facilities, and he knows it is upon the stimulated activity of the interior and upon Railroad connection with Northern Maine, and through it with the valley of the St. Lawrence that St. Andrews has to depend. And it is plain that the St. Croix cannot be bridged at a place further down stream than the site proposed. It is therefore across the projected bridge that the Megantic and other Roads are to cross, having their ocean terminus at St. Andrews. As we write the St. Croix is frozen for ten miles below the contemplated site for the bridge, showing plainly that there is no ocean terminus above us.

Dr. Tupper is too broad a man and has too much experience in affairs, to be governed by little local jealousies; and our neighbors of St. Stephen must excuse him for not listening to their narrow views. We will be surprised if Mr. Gilmor mixes himself up in the petty quarrel. There is no reason why he should do so—no possible good to the county can come from his adopting such a course.

Dr. and Mrs. Parker and child, who left here a fortnight ago, we learn, by cable, arrived in London yesterday, Tuesday.

None of our St. John exchanges were received last evening, as the mail bag did not arrive at the Post Office. There must be proper watch of attention on the part of some employee. But St. Andrews readers are a long suffering and uncomplaining people. A visit from C. J. Bridges to investigate the postal service, might be as serviceable as it was to the Railway management.

In the Parliament of Canada, the School question was to come up on Monday, and it is even hinted that Mr. John Costigan will move an address to alter the constitution of the Dominion, without reference to the Legislature of this Province. It is not probable that such a motion will pass, as New Brunswick being one of the parties to the Act of Union, will be consulted before any change in its provisions is made. The good faith of the Dominion with all its parts, must be kept—or each Province will find a way to withdraw. The Government and Parliament will without doubt protect the rights of each Province. New Brunswick was the main spoke in the wheel of Union; without its adhesion it is not probable there would have been a Dominion to-day; and as the battle of Union was first fought and won in this Province—Mr. MacKenzie's government will suffer no wrong to be inflicted upon it. Try again Mr. Costigan—the Judicial Committee of the Privy Council is still in existence.

There has been a marked and decided improvement in the state of the weather since Monday. The thermometer rose twenty degrees, and with the heat of the sun and rain the snow began to melt, and water is running in the gutters. It is to be hoped that the long continued cold weather has left us, and that the large drafts upon wood and coal has ceased, as the supply was reduced as low as it is generally about the middle of May.

A disastrous Fire took place at Portland, N. B., on Friday afternoon last, by which twenty-one buildings were destroyed, and upwards of fifty families left homeless. The firemen worked nobly, and succeeded in preventing the fire spreading. The origin of the fire was traced to an insane old woman, who was taken to the Asylum the same evening.

THE THIRTY-EIGHTH STATE.—The United States Senate will probably pass within the next thirty days the bill for admission of Colorado into the Union, which was passed by the House on the 18th of June last.

A late number of the London Graphic has a Shipwreck Chart of the British Isles for the first six months of 1873. It is a painful picture to study, full of the saddest suggestions. On its outline of the British Coast wherever a shipwreck occurred during the period specified it shows a dot; and all around the Eastern and Southern shores of England the dots are frightfully numerous. Each dot, no doubt, has its own tale of suffering and sorrow. The most mournful consideration connected with the study of this Chart is that in all probability a very large number of the wrecks recorded on it was preventable.

## [SPECIAL TO STANDARD.]

Fredericton, Feb. 21.  
Crawford's bill disqualifying Dominion and Local Government employees from becoming members of the Upper House, passed. It does not apply to the present members.

Murchie introduced a Bill to incorporate the Union Meeting House Society, St. James.  
The Auditor General's report was laid on the table by the Provincial Secretary.  
In reply to Cotterell, the Atty. Genl. said he would answer in a few days, as to whether the Government intended to amend the School Act.

Davidson introduced a Bill to repeal the Attachment and Imprisonment for Debt Act.

LEGISLATIVE INTELLIGENCE.—On the outside page we have published the Speech at the opening of the Session, and given a summary of the proceedings in another column. Our attentive and well informed Fredericton correspondent, Kappa, has written the first of his letters. He has attended the gallery for several years, and understands what to write. It will be noticed from his letter, that Messrs. Murchie and McKay made their maiden speeches, and from it we regret to learn that the Surv. Genl. is suffering from a cold, still he is in his place. Mr. Cotterell is busy at work on committees. It is satisfactory to hear that the Session will be a short one.

A NEW BLOCK.—We have the satisfaction of announcing that our member of Parliament Mr. GILLMOR, has, with a promptness and success, which entitle him to much credit, succeeded in his application for a Block to be erected on the sand bar at the Eastern ballast ground; the block will cost about \$5,000. The plans, specifications, and tenders will be here in a short time. Mr. Gilmor is to say the least, as successful as his predecessors, and may possibly outstrip them.

Chatham has great natural advantages as an ocean terminus over St. Andrews.—St. Lawrence Advance.

Well done Advance, you can "tell that to the Marines for the Sailors won't believe you." The assertion can only provoke a smile, from the fact, that for more than 40 miles below Chatham to the entrance of the Miramichi it is frozen like a rock for four months of the year, while St. Andrews harbor is open and easy of access at all seasons. Even as a summer terminus Chatham has other superiors as well as St. Andrews. Such statements as the Advance has put forth, will militate rather than advance any pretended claims for Chatham.

THE LATE COLD. The lowest the mercury fell in the Registering Thermometer at the Observatory in St. Andrews during the severe weather this winter, was 9½ below zero. Nevertheless the St. Croix was frozen down to within a short distance of Robinson, and the floating large cakes of ice were carried into the inner harbor by the ebb tide and remained, leaving only a few open spots of water. The outer harbor from Indian Point is as navigable as in summer, and vessels arrive and depart without any obstacle.

RESIGNATION.—We learn from the Scottish American Journal that Dr. Thomson, has resigned his charge of the Fourth Presbyterian Church, New York, in consequence of ill health, and advancing years. He will return to Scotland to spend his remaining years. Dr. Thomson was stationed in St. John for some time, and removed to New York about 24 years ago.

BALLOU'S MONTHLY MAGAZINE FOR MARCH.—We have received the March number of Ballou's Magazine, and find it as interesting, instructive and useful as ever. For the price Ballou's Magazine is the best in the country, as it has something to suit every taste. Love stories, sea yarns, adventures, and poetry, engravings of merit, and those of a comic nature.  
Published by Thomas & Talbot 36 Broomfield Street, Boston, and for sale at all the periodical depots in the country.

Mr. Wm. P. Petridge formerly of Boston and now editor of Harper's Handbook of Foreign Travel, recently gave a grand dinner in honor of Col. Hoffman, who leaves the legation at Paris to serve in London under Minister Schenck. Minister Washburn and all the notabilities were present. Boston Journal.

[Mr. Petridge was a school-teacher in Yarmouth 29 or 30 years ago.]  
Newfoundland is about to take her first step towards Confederation and is following the example of Prince Edward Island. A big railroad scheme is projected, and by the time a large sum of money is sunk, the Dominion will be asked to step in, and assume the debt, and pay a large sum of money beside. We see that the Government propose to remove many of the restrictions

on lumbering, and to throw open the lumbering lands of the colony to all-comers. Of the value of these lands there is a wide difference of opinion among persons who have "prospected" them.

When Don Carlos made his entry into Spain against the Republican Government and forces he asked and received the "joyful salutations, and the benediction of the Pope." When Prince Alfonso returned to wear the crown his mother had to abandon one of his duties was to free the country from Don Carlos and his followers, but notwithstanding this, the Papal benediction was also forwarded to him, and we suppose, the one sent to the Carlist pretender would be withdrawn. Alas! for the traditions of the church when it believes that might becomes right, and it blesses only where some substantial return is likely to be made. This policy in the instances here stated, has caused no little talk in the political and religious circles in Europe, and Cardinal Antonelli in coming to the rescue of the Holy See through his organ, the Osservatore Romano, merely placed the policy of the Pope and his advisers in a more degrading light, by making it clear, that their good will only accompanies Alfonso so long as he holds the balance of power. "If the new King," says the Cardinal, "perseveres in the accomplishment of his programme, if he holds aloft the banner of religion, we shall rejoice at his accession, without being untrue to our selves, and without being unfair to towards Charles IV. If the contrary happens, we shall look upon what has happened as a misfortune, and we shall regret to think that the glorious flag upon which is inscribed 'God, Country, and King,' should have been furlled to make way for the Revolution." Surely Cardinal Antonelli has been studying with admiration the story of the "Vicar of Bray."—Scottish Am. Journal.

ENGLAND'S SOUTHERN EMPIRE.—England's Empire in the South Sea Hemisphere covers 3,000,000 square miles, the size of the United States, less Alaska. The white population of Australasia, at these great islands are called, was, in 1850, about 2,000. Now it is but a little less than 2,000,000. Victoria has grown from 77,000 to 732,000 in these twenty-five years a ten-fold growth. Queensland has grown from 9,000 to 122,000. Tasmania which had a population too small to be counted in 1850, has 100,000 now. New Zealand has grown ten-fold, in the quarter of a century, from 26,000 to 226,000. The population of Australasia is largely English and strongly Protestant. Emigration has been freely encouraged. Several of the colonies are no longer penal, and the actual number of criminals is very small.

If the Irish Home Rulers do not make an impression in the House of Commons during the present session, it will not be for want of energetic action in the country, or terrible threats what will be done with in the hated walls of Westminster. Mr. Butt, for instance, has intimated his intention of sleeping in the House along with his followers, so that the Scottish and English members will regard them as a nuisance, and be only too glad to grant every demand that their hateful presence may be got rid of. Major O'Gorman was wildly cheered by an Irish rural audience when he said that he hated every day he spent in London. Such talk as this, although it undoubtedly pleases the ignorant peasantry to whom it is usually addressed, and is the means of the agitators acquiring a little power and prominence, is but ill-fitted to gain the object they pretend to have so much at heart.

St. Andrews, Jan. 31, 1875. Feb 3 41

**Government House, Ottawa.**  
Friday, 15th day of January, 1875.

**HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.**

**WHEREAS** it has been represented that large importations of Coal Oils are continually taking place in various parts in the Dominion, samples of many of which will not stand the test required by the Inland Revenue Act, 1868, and amendments thereto: also that large importations of certain products of Petroleum, such as Gasoline, Benzine and Benzole are being made, such articles being very explosive at a very low temperature.

His Excellency, on the recommendation of the Honorable the Minister of Customs, and under the provisions of the 17th section of the Act passed in the session of the Parliament of Canada, held in the 31st year of Her Majesty's reign, chapter 59, and entitled "An Act to increase the excise duty on spirits, to impose an excise duty on refined Petroleum, and to provide for the inspection thereof" has been pleased to order, and it is hereby ordered, that with a view of the better regulation of the foreign Petroleum trade and the security of the lives and property of Her Majesty's subjects, the following regulations be and they are hereby adopted, and established, that is to say—

1. From and after the date thereof, the officers appointed to gauge and test spiritsuous liquors, wine &c., at the respective ports of Toronto and Hamilton, in Ontario; the port of Quebec in Quebec; the port of St. John, in New Brunswick, and the port of Halifax, in Nova Scotia, shall be and they are hereby appointed Inspectors of Imported Refined Petroleum at those Ports respectively; and that it is respectively Collectors of Customs at all other ports and out-ports in Canada shall be and they are hereby appointed Inspectors of Imported Refined Petroleum at their respective ports and out-ports, with power to employ in the actual process of testing such oils, any officer or officers under their respective surveys whom they shall consider competent for that purpose.
2. That the instrument to be used for testing all imported refined Petroleum shall be the "Coal Oil Pyrometer," made by Charles Potter, Toronto, Ontario, and all such Petroleum as will not stand the fire test of 108 degrees, as required by section 2 of chapter 16, of 24 Victoria, when used according to the instructions accompanying the same shall be dealt with as may be ordered by the Minister of Customs in each case.
3. That every package of Imported Refined Petroleum, inspected as before provided, shall be lightly marked or stamped in such manner as the Minister of Customs may direct.
4. That no imported refined Petroleum, which will not stand the said test, whether designated as "Coal Oil," "Naphtha," "Benzine," "Benzole," "Paraffine," or other oil or fluid, distilled, manufactured or produced by any process or treatment whatever, shall be admitted to entry for consumption or for use in Canada unless the importer shall have produced a license from a Collector or other proper Officer of Inland Revenue, authorizing him to import and keep the same on hand.

W. A. HINSWORTH,  
Clerk, Privy Council.

**Government House, Ottawa,**  
Friday, 15th day of December, 1874.

**WHEREAS**, by Order in Council of the 7th day of June, 1871, it is directed that sworn declarations and machinists' certificates be in all cases required preliminary to the admission free of duty of machinery not manufactured in the Dominion for use in Canadian manufactures, and whereas, by the Act 37 Vic, chap. 6, the same machinery is made subject to an ad valorem duty of ten per cent, to take effect on the first day of January next, and whereas it is desirable to simplify the practices of the Customs in such cases—due regard being had to the security of the revenue—

His Excellency the Governor General in Council, on the recommendation of the Hon. Minister of Customs, and under the provisions of the 125th section of the Act 31 Vic, chap. 6, has been pleased to order, and it is hereby ordered, that from and after the first day of January next, the said Order in Council be, and the same is hereby rescinded, and that Collectors of Customs be and they are hereby authorized and instructed to accept entry of such machinery on and after that date at ten per cent. duty ad valorem, requiring the following affidavit to be filed in each case and a copy thereof to be attached to the entry.

**W. A. HINSWORTH,**  
Clerk, Privy Council.

I, A. B., the importer of the following described machinery, viz:—(here a full description of each machine, giving name of maker and use to which it is to be applied, shall be inserted), do solemnly swear that, to the best of my knowledge and belief, no machine such as that above described is manufactured in Canada, and that the same is imported for use in the manufacture of which I am the (proprietor, or one of the proprietors, or legally authorized agent), and that the same is not to be offered for sale.

Sworn to before me at \_\_\_\_\_ on the \_\_\_\_\_ day of \_\_\_\_\_ 187 \_\_\_\_\_

**Probate Court.**  
New Brunswick, ss.  
CHARLOTTE COUNTY.

In the matter of the Estate of MARY A. SMITH, late of Saint Stephen, in the County of Charlotte, widow, deceased, intestate.

**WHEREAS** Charles E. Smith, of Saint Stephen, aforesaid, hath filed his Petition duly verified, praying that Letters of Administration of the said Estate and effects of the said Mary A. Smith, may be granted to him in due form of Law, NOTICE thereof is therefore hereby given to all the creditors and next of kin of the said deceased, and to all persons interested in the said estate, and they are hereby cited to appear before me at a Court to be held at the Office of the Judge of Probates in Saint Andrews, on FRIDAY, the 26th day of FEBRUARY next, at Eleven o'clock, a.m., to show cause, if any they have, why Letters of Administration should not be granted to the said Charles E. Smith in said Estate as prayed for.

Given under my hand and the seal of the said Probate Court, this 27th day of January, A. D. 1875.

GEO. D. STREET,  
Judge of Probates for County of Charlotte.  
S. H. WHITLOCK, Registrar of Probates for Charlotte County. fe 5 41

**BRIDGE CONTRACT.**

**TENDERS** will be received at the Office of Public Works, Fredericton, until THURSDAY, 25th day of February next, at noon, for the erection of a NEW BRIDGE OVER AROOSTOOK RIVER, Victoria Co., according to plan and specification to be seen at said office and at the store of Hon. B. Beveridge, at Amherst. Each tender to be marked "Tender for Aroostook Bridge" and to give the names of two responsible persons willing to become sureties for the faithful performance of the contract.

The Commissioner does not bind himself to accept the lowest or any tender.

WM. W. KELLY,  
Chief Commissioner.

Representative and Champion of American Art Taste.  
PROSPECTUS FOR 1875—EIGHTH YEAR.

## THE ALDINE.

THE ART JOURNAL OF AMERICA.  
ISSUED MONTHLY.  
"A MAGNIFICENT CONCEPTION, WONDERFULLY CARRIED OUT."

The necessity of a popular medium for the representation of the productions of our great artists, has always been recognized, and many attempts have been made to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal, did not prove the indifference of the people of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was a grand artistic and commercial triumph—THE ALDINE.

THE ALDINE, while it is used with all the regularity, has none of the temporary or timidity of a similar publication. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it is bound up at the end of the year. While other publications may claim superior cheapness, as compared with those of a similar class, THE ALDINE is a unique and original conception—alone and unsurpassed—at a volume's worth of competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings in any other single or number of volumes for ten times its cost; and then, there is the chromo, besides!

The national feature of THE ALDINE must be taken in no narrow sense. The art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself entirely to the reproduction of native art. It is a mission to disseminate a broad and appreciative art taste, one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from foreign masters.

The artistic illustration of American scenery, original with THE ALDINE, is an important feature, and its magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The judicious interposition of landscape, marine, figure, and animal subjects, sustain an unbroken interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical discussions as do not interfere with the popular interest of the work.

**PREMIUM FOR 1875.**  
Every subscriber for 1875 will receive a beautiful portrait, in all colors, of the same noble dog whose picture in a former issue attracted so much attention.

**"MAN'S UNSELFISH FRIEND"**  
will be welcome in every home. Everybody loves such a dog, and the portrait is executed so true to the life, that it seems the veritable presence of the animal itself.

Besides the chromo, every advance subscriber to THE ALDINE for 1875 is constituted a member, and entitled to all the privileges of THE ALDINE ART UNION.

The Union owns the originals of all THE ALDINE pictures, which, with other paintings and engravings, are to be distributed among the members. To every series of 5,000 subscribers, 100 different pictures, valued at over \$2,500 are distributed as soon as the series is full, and the awards of each series, as made, are to be published in the next succeeding issue of THE ALDINE. This feature only applies to subscribers who pay for one year in advance. Full particulars in circular sent on application, enclosing a stamp.

**TERMS.**  
ONE SUBSCRIPTION, ENTITLING TO THE ALDINE ONE YEAR, THE CHROMO AND THE ART UNION.  
\$5 per annum in advance.  
(No charge for postage.)  
SPECIMEN COPIES OF THE ALDINE, 50 CENTS.

THE ALDINE will, hereafter, be obtainable by subscription. There will be no reduced or club rates; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac simile signature of James Sutton, President.

**CANVASSERS WANTED.**  
Any person wishing to act permanently as a local canvasser will receive full and prompt information by applying to  
**THE ALDINE COMPANY,**  
58 Maiden Lane, New York.

**REMOVAL.**

By order,  
CHARLES C. WARD,  
June 17, 1874.—nm Secretary.

## NOTICE.

ALL persons having any demands against the Estate of the late Capt. John J. Robinson, Owen, of Campbellville, are requested to present the same duly attested, within three months from this date; and all persons indebted to the said Estate are required to make immediate payment either to George D. Street, Esq., of St. Andrews, or to the undersigned.

JOHN C. ALLEN,  
Executor.  
St. Andrews, May 4, 1874.

**Dr. J. Walker's California Vinegar Bitters** are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use VINEGAR BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

**R. H. McDONALD & CO.,**  
Druggists and General Agents, San Francisco, California, and cor. Washington and Charlton Sts., New York. Sold by all Druggists and Dealers.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Biliousness, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, &c., &c. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painting and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itchiness, Spots, Pimples, Pus-tules, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scuffs, Discolorations of the Skin, Humors, and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use VINEGAR BITTERS.

Cleanse the Vitiated Blood whenever you find it impure, burning through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

**R. H. McDONALD & CO.,**  
Druggists and General Agents, San Francisco, California and cor. Washington and Charlton Sts., New York. Sold by all Druggists and Dealers.
