

The walking mania was last Wednesday by Miss Susan Peddie, who per-  
formed 25 miles in 54 hours,  
minute to spare. The track  
Exhibition building which  
is best to be had in the Prov-  
ence of Miss Freeman's  
the running race of 5 miles  
which some five or six competi-  
tors took part in. The  
winner, Charlotte, won first place,  
and with great ease, in the  
minutes and 30 seconds.

As you please, which  
fractures of the Queen's birth-  
day Friday night at ten o'clock,  
half past eight on Saturday  
past of the competitors  
were five. There were five  
Fairyville, Fletcher of Wood,  
London, Wanslow (colored) of  
Wheeler of this city. The  
y in the afternoon thoroughly  
was followed by Wheeler in  
at 7 o'clock. The remaining  
their respective order, Cahill  
and getting first prize, \$75;  
second prize \$25; and  
third prize \$15. The exhibi-  
to promote 24 hour contests,  
was thought a mere show of  
on being all thoroughly done  
also on this occasion another  
ch was won by J. M. Steeves,  
University student, in 35m. 40s.  
Birthdays were observed  
demonstration was the parade  
and 71st band, who wore  
ets for the first and looked  
After a *feu de joie* had been  
cheers given for the Queen, a  
made through the streets and  
dismissed. Several games of  
let were indulged in by the  
etic portion of the community.  
ions from Woodstock and St.  
buted a considerable number  
ulation. The day was marked  
not a case of drunkenness  
here. As usual, buying was  
the public buildings and on  
also.

Garrison, whose serious illness  
was 74 years old on the 12th  
He was born at Newbury-  
erved an apprenticeship to a

#### THE GREAT CAUSE OF HUMAN MISERY.

We have recently published a new edition of Dr. CULVERWELL'S CELEBRATED ESSAY of the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Impairment, Impediments to Marriage, etc. resulting from excesses.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author in this admirable Essay clearly demonstrates, from thirty years successful practice, that alarming consequences may be radically cured, without the dangerous use of internal medicine, or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and man in the land.

Address THE CULVERWELL MEDICAL CO.  
41 Ann St., New York.

### Parks' Cotton Yarns!

Awarded the Only Medal Given at the Centennial Exhibition

For Cotton Yarns of Canadian Manufacture.

No. 5's to 10's.

WHITE, BLUE, RED, ORANGE AND GREEN.

Made of Good American Cotton with great care. Correctly numbered and Warranted Full Length and Weight.

WE would ask the purchasers of Cotton Yarn to remember that our Yarn is spun on Thorpe Frames, which make a stronger yarn than the Ring Frames, used in making American yarn.

It is also better twisted and more carefully reeled; each hank being tied up in 7 leas of 120 yards each. This makes it much more easy to wind than when it is put up without leas—the American is—and also saves a great deal of waste.

Those acquainted with weaving will understand the great advantage it is to them to use yarn put up in this manner.

#### COTTON CARPET WARP,

Made of No. 10 Yarn, 4-cply Twisted.

WHITE, RED BROWN, SLATE, &c.

All fast colors.

Each 5 lb bundle contains 10,000 yards in length and will make a length of Carpet in proportion to the number of feet in width.

We have put more twist into this warp than it formerly had, and it will now make a more durable Carpet than can be made with any other material. Since its introduction by us, a few years ago, it has come into very general use throughout the country.

At our goods have our names and address upon them. None others are genuine.

FARM, GARDEN AND HOUSEHOLD

**Recipes.**

**PARSNIP FRITTERS.**—Many consider this the best way of cooking parsnips:

Boil tender and mash very smooth, re- move carefully the strings or woody por- tions. For three or four parsnips allow

two beaten eggs, three tablespoonfuls of cream, one tablespoonful of melted but- ter and a teaspoonful of salt. Stir in a

very little flour, and fry either as fritters or griddle cakes.

**FRIED POTATOES AND EGGS.**—Slice cold boiled potatoes and fry in good but- ter until brown; beat up one or two eggs

and stir into them just as you dish them for table. Do not leave them a moment

on the fire after the eggs are in, as if they harden they are not half so nice. One

egg is enough for three or four persons, unless they are very fond of potatoes; if they are, have plenty and put in two.

**OATMEAL CAKES.**—Into a quart of cold water stir oatmeal enough to make it about half as thick as heavy pudding. Be sure that the meal is sprinkled in slowly

and that the stirring is so active that the mush will have no lumps in it. Now put it on the buttered pan, where it can be spread out to half the thickness of a

common cracker, and smooth it down with a case knife. Run a sharp knife across it so as to divide it into the sized pieces you wish, and then place it in a

warm oven, and bake slowly, being care- ful not to brown it.

**TO SERVE COLD ROAST BEEF.**—I send you a nice recipe for using up cold roast beef, which I have never seen published:

Chop the beef, fat and lean together, and have ready an equal quantity of stewed

ripe tomatoes, then roll four or five crackers and stew them in an earthen

pudding-dish; now put in alternate lay- ers of tomatoes and beef until all is in; Season with salt, pepper and bits of but- ter if the beef is not very fat; add cold

beef gravy, which will usually be moist- ure enough, then put a layer of cracker- crumbs over the top and bake in a moder- ate oven until nicely browned on top.

**QUEEN OF PUDDINGS.**—One and one-half cupfuls white sugar, two cupfuls

fine, dry bread-crumbs, yolks five eggs, one tablespoonful of butter, flavored to

taste, one quart fresh, rich milk, one-half cupful jelly or jam. Rub the butter into a

cupful of the sugar and cream these to- gether, with the yolks beaten very light. The bread-crumbs soaked in the milk

come next, then the seasoning. Bake this in a large butter-dish, but two-thirds full, till the custard is "set." Spread over the top of this a layer of jam or

jelly and cover this with a meringue made of the whipped whites and the half cupful of sugar. Bake till the meringue begins to color.

**Artichokes.**

There seems to be an unusual interest manifested in regard to the artichoke. I

have lately read several articles in the Rural World and other papers, some of which I can endorse almost entirely,

while others differ widely from my ex- perience. But I did not set out to criti-

cise, for I feel sure all are aiming to do good. The more we talk and write upon

this important subject, the more we will know about it and the better we can

appreciate the importance of it. The time has come when the farmer must devise

some plan by which he can produce pork at a less cost than he can with corn, or

the must quit the hog and turn his atten- tion to something else. I have grown the

artichoke for a number of years, and during that time I have experienced in

various ways, and am now ready to say that growing it for hogs is one of the

means to produce cheap pork. Usually the crop is ready to turn on to by the

first of October. One acre will keep twenty hogs in good growing condition

from that time till the middle or last of March; or, with the addition of half the

corn usually fed, it will fatten them in less time than all corn, and, as far as I

have been able to see, the pork is just as good. A portion of the crop should be

digged and housed, or put in mounds, to be fed when the ground is too hard

frozen for the hogs to root.

While the artichoke is generally val- ued only for hogs, I have found it quite

valuable for all kinds of stock. Horses relish them, and work horses

will look better and feel better on half the corn usually fed, if they get plenty

of artichokes. They are fine for sheep, and especially ewes with young lambs.

And if you want gilt-edged butter in midwinter, feed your Jersey cow no

corn, but plenty of artichokes, with good clover and timothy hay, and you

will get the best.

I will not undertake to say that arti- chokes will cure the so-called hog chol-

era, but I believe it to be a good pre- ventive. I have never known hogs to

have any disease while feeding on them. Indeed, I believe they are as near a nat- ural hog food as any product we grow.

I grow a variety known here as the large white. I have had but little ex- perience with any other, but from all I

can learn from persons who have grown other varieties, I consider it preferable to all others. I wish to say here I have

none for sale.

I would like to hear from others on the subject of cheap pork. The nations

of the world must be fed, but the farmer cannot do it in the old style at present prices.—J. C. Evans, in Rural World.

**Health Hints.**

**WARTS.**—To destroy any kind of wart, paint occasionally with butter of anti-

mony.

**A RED NOSE OR FACE.**—Refined chalk made into a thick plaster with one-third as much glycerine as water and spread on the parts with moist inflammation and

reduce redness of the nose or face.

**TO KEEP THE HANDS SOFT.**—Mix honey, almond meal and olive oil into a

paste; use after washing with soap. Cas-

tle soap is best for use; it will cure a scratch or cut, and prevent any spot.

**FOR INFLAMMATORY RHEUMATISM.**—Take half an ounce of pulverized salt- peter, put in half a pint of sweet oil,

bath the parts affected, and a sound cure will speedily be effected.

**TEAS FOR THE SICK ROOM.**—Dried leaves of sage, one half ounce; boiling

water, one quart; steep for three-quar- ters of an hour and then strain for use;

sugar can be added to suit the taste. Peppermint, spearmint, balm, hoar-

hound and other herb teas are made in the same manner.

**TO GO TO SLEEP.**—When ready for bed sit down in an easy position, relax-

ing all the muscles of the body, and let the head drop forward on the breast, as

low as it will fall without forcing it. Sit quietly in this way for a few minutes,

and a drowsy feeling will ensue, which, if not disturbed, lead to a refresh-

ing sleep. If the sleepless fit comes on in the night, sit up in the position de-

scribed.

**MEDICAL EFFECTS OF OPTIC.**—A

mother writes to an English agricultural journal as follows: "Twice a week--

and it was generally when we had cold meat minced--I gave the children a

dish which was boiled with delight and looked forward to. This was a dish of

boiled onions. The little things knew not that they were taking the best medicine

for expelling what most children suffer from--worms. Mine were kept free by

this remedy. It was a medical man who taught me to eat boiled onions as a

specific for a cold in the chest. He did not know at the time, till I told him, that

they were good for anything else." The editor of the journal adds: "A case is

now under our own observation in which a rheumatic patient, an extreme sufferer,

finds great relief from eating onions, freely, either cooked or raw. He asserts that it is by no means a fancy, and he

says so after having persistently tried Turkish baths, galvanism, and nearly all the poisons and plasters that are

advertised as certain alleviators or cures."

**A Mohammedan Funeral.**

A correspondent of the Springfield Re-

publican writes from Tunis as follows: Yesterday I saw a Mohammedan funeral

passing through the streets. My atten- tion was first attracted to it by hearing

a murmur of many voices approaching from the distance. The sound was un-

like anything I ever heard before. Soon there appeared two or three hundred

Arab men, crowding through the nar- row streets, all joining in singing, or

chanting, a song for the dead. In the midst of them several Arabs bore upon

their shoulders a bier, like a crib. The bottom of it was covered over with a

Turkish or Tunisian rug, on which was stretched the body of the dead Arab,

enveloped in what appeared to be a Per- sian shawl. I would have followed after

the procession, but was told that none but a Mohammedan was allowed to wit-

ness the burial ceremony. Old residents of Tunis tell me that the final act of de-

positing the body in mother earth is a most strange and novel procedure. The

Arabs have a superstition that as soon as the new-made grave is ready for its

occupant, the evil spirits at once take possession of it. To drive them out, they resort to all manner of strange de-

vices. The most efficacious, and the one usually resorted to, is based upon the be-

lief of Satan's fondness for gold, and that "money is the root of all evil." As

soon as the body is placed by the side of the grave, the grave man or saint

exercises Satan, and signifies by signs that his satanic majesty with all his

imps are in the grave below. The near- est relative of the deceased, who is pre-

pared for the emergency, takes from his pocket a handful of small gold, silver or

copper coins, according to his wealth, which he throws in the distance as far

as possible as if he was sowing grain for the evil spirits are believed to scramble

after it, and while picking it up the body is hustled into the ground as quickly as

possible, and the stones and earth are placed over it, before the cloven-footed

money-hunters can return.

**Diamonds in Georgia.**

It is not generally known, says the

Washington Post, that there is in Georgia an immense ledge, the forma-

tion commonly called "elastic sand-

stone," which is the matrix of the di-

mond. It is described by Dr. M. F. Stephenson, in his book, now almost out

of print, on "The Mineralogy and Geol-

ogy of Georgia." It extends for many miles. A few splendid diamonds were

found there years ago by gold-washers, who were ignorant of what they found.

Some of these were cut in England and set in jewelry, but most of them were

lost. They were of weight from two to six carats, and three are remembered

which were of large size. One of these was broken up by the miners to learn

the cause of its luster. Another was used for years by the boys in playing

marbles. By far the largest one was lost by a Dr. Lloyd, who was employed to

Traveling is Extra Hazardous.

If the tourist is unprovided with some medi-

cinal resource. Chances of temperature, food and water of an unaccustomed or unwhol-

some quality, and a route that lies in the tropics or other regions where malaria exists,

are each and all fraught with danger to one who has been improvident enough to neglect

a remedial safeguard. The congested traf-

fic of many foreign ports by land and sea es-

tablishes the fact that Hostetter's Stomach Bitters enables those who use it to encounter

hazards of the nature referred to with im-

punity; and that, as a medicine adapted to sud-

den and unexpected exigencies, it is pecu-

liarily valuable. Disorders of the liver, the bowels and the stomach, fever and ague,

rheumatism and nervous ailments, brought on by exposure, are among the maladies to

which emigrants, travelers and new settlers are most subject. Those and others yield to

the action of the Bitters promptly and com-

pletely.

**PATENT RIGHTS AT AUCTION.**—The regular

monthly auction sale of Patent Rights occur-

Monday last at the New York Patent Ex-

change, 67 Liberty St., N. Y. Among the most notable

were Combination Table Bedstead, \$600;

Pump, \$1,100; Wood Ching and Splitting

Machine, \$5,100; Spring Bedsteads, \$5,000;

Hay Loaders, \$1,500; Car Windows, \$550;

Insect Destroyer, \$550; Potato Dropper,

\$1,000; Saddle Tree, \$800.

**Caught at Last.**

The notorious depredator, Kate Arrh, who

has for so many years eluded the most com-

petent and skillful detectives, has been caught at last in Buffalo, N. Y. For further particu-

lars ask your druggist for a bottle of Dr. Sage's Catarrh Remedy, admitted to be the best re-

medy for catarrh yet compounded.

Though they may obstinately resist the

action of other external remedies, ulcers con-

taining proud flesh, swellings, tumors, lepro-

sus and scrofulous sores speedily heal under the purifying and soothing influence of

Henry's Carbolic Salve, the promptest and most efficient topical application ever dis-

covered or used. It is believed that there is no chronic sore or eruption that may not be erad-

icated by this incomparable purifier. Sold by all druggists.

A neglected cough, cold or sore throat, which might be checked by a simple remedy, like

"Brown's Bronchial Troches," if allowed to progress may terminate seriously. 25 cts.

Every one who thinks of buying an organ

should read a circular headed "Useful In-

formation for Purchasers of Parlor and Cabinet Organs." A postal card addressed to the

Mason & Hamlin Organ Co. will bring one free.

The Mendelssohn Piano Co., No. 21 East

15th Street, N. Y., sell Pianos at Factory

Prices. Write for a catalogue.
