Germans Adopt Russian Ways

And Take Up Construction of a Chinese Railroad.

Sensational Stories From Shanghai—Talk of a Great Rising in the South—Army of 100,000 Men Wanted to Suppress the Manchus.

New York, Oct. 12.—The German Navy League has received a telegram from Tsing Tau, says a Berlin dispatch to the Herald, stating that the construction of the railway from Kiao Chao to Kaumi has been taken up again, under German military protection. General Yuan Shi Kai retired with his regular Chinese force to a distance of 50 kilometers from the railway when requested to do so by the German governor, Herr Jaeschke. The Germans occupied Kaumi. It seems that the Germans are now following the Russian method in Manchuria.

SHANGHAI SENSATIONS. London, Oct. 12.—A Shanghai dispatch of the 11th says: Sheng, the taotai, has received a telegram from Gen. Su, reporting that a serious rebellion, has broken out in the south-eastern part of Kwang Si Province; that his 30,000 troops are inadequate and that he needs at least 100,000 to cope with the danger, which is directed against the Manchus, and threatens to become worse than the Tai Ping rebellion.

FIVE MISSIONS DESTROYED. The Hong Kong correspondent of the Daily Mail says that the rebellion in the Province of Kwang Tung is becoming anti-foreign and that five missions have been destroyed at Hian Kang Chau.

CRITICAL. Berlin, Oct. 11.—According to a dispatch received by the German Navy League, the situation in South China is exceedingly critical. The dispatch says that Chang Wei Hong, who advised the dowager empress to enroll the Boxers in the army, has been appointed governor of the new Chinese capital, Sian Fu. It is further asserted that many Chinese have been deported from Chin Kiang, Province of Kiang Su, and that Gen. Yuan Shi Kai has increased his army to 40,000.

Count Von Waldersee, an official telegram announces, will start for Peking Saturday. The Germans are awaiting reinforcements at Tien Tsin before undertaking further measures. They have effected telegraphic communication between Tien Tsin and Peking.

THE IMPERIAL PARTY. Shanghai, Oct. 11.—The Chinese report the arrival of the emperors and empress at Chsu Ching, Oct. 6, 150 miles southwest of Yai Yuan Fu. After a day's rest, the Chinese add, the imperial party proceeded, escorted by large forces.

Berlin, Oct. 11.—The semi-official press asserts that there is no further doubt regarding the reported removal of the imperial court to Si Ngan Fu. The declaration is accompanied by a statement that Emperor Kwang Su's return to Peking is highly improbable, although his presence there is absolutely necessary to insure peace.

RUSSIAN MOVEMENTS. It is reported here that Russian troops from the southward occupied Mukden, Manchuria, without opposition, while the Russians from the north captured Tie Ling, 40 miles north of Mukden.

WILL STAY IN PEKIN. New York, Oct. 12.—It has been decided that a Methodist missionary force shall remain in Peking during the winter. This missionary property at the capital has all been destroyed, scarce one brick remaining on another.

INVALIDS ON THE MAINE. London, Oct. 12.—The American ladies' committee in London has received a cable dispatch from Wei Hai Wei, province of Shan Tung, China, dated Oct. 10, reporting the return there of the hospital ship Maine from Taku, with many invalids, of whom two officers and 69 men are Americans. Eighteen of the latter belong to the Ninth Infantry. The Maine will sail for Nagasaki today.

REPLIES TO THE FRENCH NOTE. Paris, Oct. 11.—Negotiations are proceeding actively on the subject of the propositions contained in the note of M. Delcasse, the French minister of foreign affairs, regarding China, and it is said here the situation is as follows: Russia, Italy and Austria accept it unconditionally. Germany has not yet communicated her reply officially, but the French Government has been given to understand that the French notes "afford a basis for negotiations." Great Britain also adhered to the French note, except respecting the permanent prohibition of the import of arms into China, on which point it makes certain reserves. The answer of the United States is not known. Japan has not replied officially, but is expected to acquiesce.

SATISFACTORY. The French note has resulted so satisfactorily that Mr. Delcasse has asked that the Peking ministers be authorized to confer with the view of opening preliminary negotiations with Li Hung Chang.

Mems of the Merry War.

The Manitoba school question has been settled by Sir Wilfrid Laurier. Has it not? If not, how comes it no Conservative newspaper or speaker ever mentions it?

Toronto is furnishing some excellent candidates—J. D. Allan and John Flett, two well-known wholesale merchants, and Ald. Wm. Burns, a well-known and popular Catholic layman. Also, we see that S. F. McKinnon, the big wholesale millinery man, is likely to be the Liberal candidate in Halton.

Our morning contemporary now remarks: "The Free Press did not say that any Minister made money dishonestly." Why, then, should it insinuate what it declines to say?

Under Laurier, the full dinner bucket. As ex-President Harrison well says: "The full dinner bucket is not a world emblem. It has a spiritual significance for the spiritually minded. It means more comfort for the wife and family, more schooling and less work for the children, and a margin of saving for sickness and old age."

In London here, an elector may own one-half of the real estate in each ward of the constituency, yet he is only entitled to one vote—London Free Press.

This is as it should be. The Advertiser believes in the one-man-one-vote principle. One man may be a little richer than another in this world's goods, but a man's a man for a' that.

BETTER FOR WORKINGMEN

How Times Have Improved in London Manufactories

During the Past Four Years—Some Instances Given—There Are Others.

In common with the other cities of the Dominion, London has prospered greatly under the general tariff, and stability of the Laurier Government. Its industries have thrived and manufacturers generally have had five years of increased volumes of trade. It has been found necessary in the majority of cases to increase largely the number of employees. For instance, the McClary Manufacturing Company, who employ more hands than any other concern in the city, have more than 600 names on their pay roll now, and in 1895, the last year the Conservatives were in power, they had only 450. A corresponding increase has been made in all of their branch factories. The number of employees at D. S. Perrin's manufactory has increased from 150 to 255, and so on.

Appended is a short list of leading industrial concerns, showing the increases during the term of the Liberal Government. It may be lengthened considerably:

	No. of Employees, 1895.	1899.
McClary Mfg. Co.	450	600
E. Leonard Mfg. Co.	135	180
Wortman & Ward	50	80
D. S. Perrin	150	255
London Box Co.	20	45
London Bolt Works	30	60
Sievers Mfg. Co.	135	170
Bennet Furnishing Co.	54	74
Columbia Handle Co.	30	80

Totals 1,654 1,824
Increase as compared with 1895 .. 470
Or 44 1/2 per cent.

ATTEMPT TO MURDER

Charge Against a Man Who Resisted Arrest.

Verdict of Acquittal in the Oil Springs Case—A Boy's Sentence.

ATTEMPT TO MURDER (Hearings).

Smith's Falls, Ont., Oct. 12.—The charge of attempt to murder laid by Chief McGowan against Hudson Payne received preliminary attention before the mayor here yesterday. The trouble arose from an effort made by the chief to arrest Payne on a warrant charging him with theft. The chief went to Payne's house on Oct. 2, and invited himself to accompany him to the lockup. Payne at first agreed to go, and went to put on his coat. The chief waited outside, and when Payne again appeared he attacked the officer with some weapon, and wounded him severely on the left temple. The chief's call for help received no attention, and he, in a bleeding and dazed condition, began to run. Payne overtook him and struck him again, and then a crowd of men who appeared on the scene disarmed him, and he was taken to the police station. Payne will be tried at the Perth assizes on a charge of theft and attempt to murder.

THE OIL SPRINGS CASE.

Petrolia, Ont., Oct. 12.—The verdict rendered in the Oil Springs tragedy held at Oil Springs virtually means: "Died from some unknown cause." This is the case in which the brothers, James and Joseph Clarke, had a quarrel, and a fight, in the course of which Joseph was supposed to have received fatal injuries.

PUGILIST EXONERATED.

Philadelphia, Oct. 2.—The coroner's jury investigated the death of "Steve" Flanagan, ex-bantam weight champion pugilist, who died last Saturday from the effects of a boxing match with James Devine, the previous night. A verdict was rendered that Flanagan's death had been due to over-exertion. Devine was exonerated from blame and discharged.

INTENT TO KILL.

Montreal, Oct. 12.—Aldred Lalonde, an 18-year-old boy, who was convicted of shooting, with intent to kill, a boy named Chausse, was yesterday sent to the penitentiary for seven years.

MAY GO CRAZY.

Frankfort, Oct. 11.—H. E. Youtsey, one of the alleged murderers of Governor Goebel, is likely to become insane. He is comatose part of the time, but sometimes says: "There is no blood on my hands—there is no man's blood on my hands."

ANAEMIA OR POOR BLOOD

The Cause of Many a Broken Down Body—Put New Life Sustaining Richness Into the Blood by Dr. Chase's Nerve Food (Pills), the Great Blood Builder.

When the blood gets thin and watery and is lacking in certain elements such as iron, sulphur, phosphorus and various carbonates, it fails to sustain life and vitality and to repair the waste which is always going on in the organs of the body.

The result of this depleted state of the blood is paleness, weakness, debility, and the failure of the body to withstand the attack of deadly constitutional diseases.

Young women become pale and languid. There are breathlessness, severe indigestion, hysteria and melancholy feelings and deficiency or absence of the periodic discharge.

Young men complain of dyspepsia, pimples on the face and back, palpitation, liver ailments, and have gloomy forebodings or fears of some fearful disease.

This anaemic and weakened condition of body prepares the way for consumption, or some other constitutional disease; hence it is that so many thousands of young men and women die annually from the white scourge—consumption.

Dr. Chase's Nerve Food (pills) is considered the greatest of all blood builders because it supplies in proper proportions the very elements of nature that are lacking in the blood of a person who is weak and run down. It creates new, rich blood, and nerve force, and thoroughly and completely restores the body wasted by disease, over-work or lack of proper nourishment.

To young men and young women with weakened and debilitated constitutions Dr. Chase's Nerve Food (pills) bring hope and courage for future health and happiness. To the pale, weak and emaciated who daily fear consumption it comes as the only certain means whereby they can avoid an early grave.

Dr. Chase's Nerve Food (pills) is the greatest of all restoratives, and a preparation of most unusual value. Sold everywhere for 50 cents a box. Imitations do not care to reproduce the portrait and signature of Dr. A. W. Chase, which are on every box of the genuine. Edmondson, Bates & Co., Toronto.

Militia Orders.

Ottawa, Oct. 12.—The following militia promotions and appointments are announced:

1st Hussars—To be second lieutenant, provisionally, J. A. E. Thomson, vice J. Weld, retired.
2nd Regiment, Oxford Rifles—Capt. E. L. Morton resigns his commission, retaining rank of captain. To be captain, Lieut. E. J. Carlyle, vice E. L. Morton, retired; to be lieutenant, Second Lieut. G. P. Pattullo, vice E. J. Carlyle, promoted.
28th (Waterloo) Regiment—To be captain, Lieut. A. J. Oliver, vice W. M. Kerr, promoted; to be lieutenant, Second Lieut. J. Brewster, vice J. Lampert, promoted.
30th Regiment, Wellington Rifles—To be second lieutenant, provisionally, T. R. Henry, vice C. E. Livingstone, promoted.
Capt. Hewitt, the new professor of strategy, tactics and staff duties, will leave England for Canada on the 27th inst. He takes the place of the staff of the Royal Military College formerly held by Lieut.-Col. Burney, who has gone to South Africa.

ARE QUICK TO SEE

Good Doctors Are Quick to See and Appreciate Real Merit in New Medicines.

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases of dyspepsia and disordered digestion. Almost everybody's digestion is disordered, and the organs are in a clogged condition they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good. Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the bowels. They are membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help and you will have no trouble.

It is a common sense medicine and a common sense treatment, and it will cure every time. Not only does it ease, but cure the cause. Goes about it in a perfectly sensible and scientific way. We have testimonials enough to fill a book, but I won't publish many of them. However—Mrs. E. M. Faith, of Byrd's Creek, Wis., says: "I have taken all the Tablets I got of you and they have done their work well in my case. For I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time."

H. E. Willard, Onslow, Ia., says: "Mr. White, of Canton, Iowa, telling me of your Dyspepsia Tablets curing him of dyspepsia from which he had suffered for eight years. As I am a sufferer myself, I wish you to send me a package by return mail."

Phil Brooks, Detroit, Mich., says: "Your dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia, but am now entirely cured, and enjoy life as I never have before. I gladly recommend them."

It will cost 50 cents to find out just how Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

All druggists sell them. A little book on stomach diseases will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

CORDETTE LINING

This superior Lining has been used in our dressmaking department with marked success. Therefore we have no hesitation in recommending Cordette to our customers. It is superior to canvas, is lighter weight, more elastic and durable. We have it in white, black and regular shades, 29 to 30-inch, at 25c yard.

The "Model" Corset Vest.

These are the only Moulded Forms—the only Corset Vests that are light and comfortable for the wearer. The "Model" weighs but three ounces and is free from heavy, bulky lapped seam pockets. It brings out the lines of beauty and makes the form accord with present-day dress styles, avoiding the use of wadding that tailors and dressmakers have been obliged to resort to. FOR GOLFING, WHEELING OR ROWING it can be worn with or without a corset, affording freedom of action of the arms, body and limbs, and yet perfecting the form of modern dress. Price..... \$1 00

We also have in stock a splendid range of New York Dress Improvers, Hip Pads, Combination Bustles, Etc.

SAULT STE. MARIE CANAL.

NOTICE TO CONTRACTORS. SEALED TENDERS, addressed to the undersigned, and intimated "Tender for Look Gates," will be received at this office until 10 o'clock on Thursday, the 18th day of October, 1900, for the construction and setting in place in working order of one pair of Look Gates at the Sault Ste. Marie Canal.

Plans and specifications of the work can be seen on and after the 23rd day of September, 1900, at the office of the Chief Engineer of Railways and Canals, Ottawa, where forms of tender can be obtained.

In the case of firms there must be attached to the tender the actual signatures of the full name, the nature of the occupation and residence of each member of the same, and further, an accepted bank check for the sum of \$2,000, must accompany the tender. This accepted bank check must be indorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the other documents.

The accepted check thus sent in will be returned to the respective parties whose tenders are not accepted.

The Department does not bind itself to accept the lowest or any tender.

By order, L. K. JONES, Secretary. Department of Railways and Canals, Ottawa, 12th Sept., 1900.

SAULT STE. MARIE CANAL.

NOTICE TO CONTRACTORS. SEALED TENDERS, addressed to the undersigned, and intimated "Tender for Deepening the Lower Entrance of the Sault Ste. Marie Canal," will be received at this office until 10 o'clock on Wednesday, the 24th day of October, 1900, for the work connected with the widening and deepening of the Lower Entrance of the Sault Ste. Marie Canal.

Plans and specifications of the work can be seen on and after the 10th day of October, 1900, at the office of the Chief Engineer of the Department of Railways and Canals, Ottawa, and at the Engineer's office at Sault Ste. Marie. Printed forms of tender can also be obtained at the places mentioned.

In the case of firms there must be attached to the tender the actual signatures of the full name, the nature of the occupation and residence of each member of the same, and further, an accepted bank check for the sum of \$7,500, must accompany the tender. This accepted bank check must be indorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for the work at the rates and on the terms stated in the other documents.

The accepted bank check thus sent in will be returned to the respective parties whose tenders are not accepted.

The Department does not bind itself to accept the lowest or any tender.

Contractors are specially notified that the conditions requiring the works to be wholly completed by the 1st day of October, A.D. 1902, will be rigidly enforced, and all penalties for delay exacted. By order, L. K. JONES, Secretary.

AT LEXINGTON.

Lexington, Ky., Oct. 11.—When the
bell rang for the first heat in the 2:10
trot today the weather was raw and
chilly, but the wind gradually died
away, and the afternoon was compar
atively pleasant. There was a large
crowd in attendance, and the racing
was fine over the best-conditioned
track of the meeting. There were eight
starters for the 2:10 trot, and York,
setting at \$30 to \$25 for Lamp Girl, was
a big favorite. He won the race in
straight heats, but not, however, until
he had lost the first two to the great
California mare Neeretta, who also
gave him a close race in the third.

White Watery Pimples.

Five years ago my body broke out in white watery pimples, which grew so bad that the suffering was almost unbearable.

I took doctors' medicine and various remedies for two years but they were of little benefit, whenever I got warmed up or sweat the pimples would come out again.

A neighbor advised Burdock Blood Bitters, and I am glad I followed his advice, for four bottles completely cured me.

That was three years ago and there has never been a spot or pimple on me since.

RAINED 118 HOURS

New Brunswick Deluged—Railway Traffic Suspended.

St. John, N. B., Oct. 11.—The entire Province of New Brunswick resembles a lake at 9 o'clock tonight. It rained steadily for 118 hours and 10 inches of rain have fallen. No trains are moving on the C. P. R. between St. John and Vancouber, or on the branch lines of the road to St. Andrews, St. Stephen, Fredericton or Woodstock, caused by an aggregation of washouts. The bridge at Hoyton, on the main line, was swept away. Between St. John and Vancouber and branch lines there are 25 washouts, some 150 feet long and 25 feet deep. Conditions are the worst in years, and thousands of dollars of damage has been done. The Shore Line and the I. C. R. also suffered some damage.

Right Honorable Sir Wilfrid Laurier.

STRUCK BY A TRAIN

Five Persons in a Farm Wagon Killed at a Crossing.

Holbrook, Neb., Oct. 12.—As Mrs. Herman Kelbeck and family were crossing the railroad in a farm wagon last evening, an engine ran into them, instantly killing Miss Lizzie Herman, Mrs. Kelbeck and her baby girl and Mrs. Charles Bartenbeck; also fatally injuring the latter's 18-month-old baby girl and seriously injuring her 4-year-old boy. Mrs. Bartenbeck's husband was shot and killed near here on Monday night by his brother-in-law.

KIDNEY TROUBLE FOR THREE YEARS.

A Young Lady of Middlesex Co. Tells How She Was Cured at Last by Doan's Kidney Pills.

A great deal of suffering that women are called upon to endure is the result of kidney trouble.

When the back, the head and the limbs ache, when there is tiredness and weakness, dizziness and dimness of vision, in all probability the kidneys are out of order and poisons are being absorbed in the system that these organs should carry off.

The most effective remedy to correct the kidneys so that they will remove all poisons from the blood is Doan's Kidney Pills. Just read what Miss Gertrude E. Steele, Belton P. O., says about them: "For three or four years I have suffered very much from pain in my back, especially in the mornings, and felt run down and worn out. I doctored off and on for some time and took a good deal of medicine, but derived little benefit from it."

"I started taking Doan's Kidney Pills on the advice of a friend, and before I had finished the first box I felt a great deal better. The next box I got another box and by the time that was done the pain had left my back and now I feel stronger and better in health than I have for months."

The Boers

Tear Up Railway North of Bethulie.

Indications of a General Surrender Before Many Days.

Bravery Acknowledged by Lord Roberts—Kruger Going to Holland.

London, Oct. 12.—A dispatch dated King William's Town yesterday says: The Boers have torn up the railway north of Bethulie and captured a British outpost. Bands of marauders are still operating actively in various districts, but their numbers are being rapidly reduced by the columns which are moving about the country.

TALK OF SURRENDERING.
Pretoria, Oct. 11.—Commander Dirksen has decided to surrender with his small force, and a train has been sent out for their conveyance hither.

A delayed dispatch from Lydenburg, dated Oct. 8, says: It is reported in the British camp that the Boers intend to make a general surrender on Oct. 29.

BRavery RECOGNIZED.
Lord Roberts visited Dursfont, where are encamped the 140 Australian bushmen and 160 Rhodesians who successfully defended themselves at Eland's River against Delarey's attack in August. He addressed the men, thanking them for their bravery, devotion, and fine defense.

DEATHS AMONG THE CANADIANS.
London, Oct. 11.—Three deaths among the Canadians have been reported to the war office from South Africa. Enteric fever was the cause in each case.

The victims of this disease, which has played such havoc with the troops were: Pte. W. F. Whiteley, late of the 5th Regiment, R. C. A., British Columbia and Manitoba Company, Royal Canadian Regiment of Infantry; Pte. W. Haines, formerly with R. C. R. I., Toronto Company, R. C. R. of Infantry; Pte. L. P. Davis, late 45 Leonard street, New York C. Squadron, Strathcona Horse.

Pte. W. Haines came from Newmarket, Ont., where he was employed as a harness maker. He was 19 years of age.

[Note.—This cable officially confirms the news that the Boers are reaching Canada concerning these young soldiers.]

TAMPERING WITH TELEGRAMS.
The Pretoria correspondent of the Daily Mail sends the following: "From an English telegraphist who was controller of things for the Transvaal, I learn that there was systematic tampering with all telegrams during the war in order to misrepresent operations in favor of the Boers. He says that Mr. Kruger was constantly wiring to the commanders-in-chief as to how many of the British had been killed, and that Gen. Cronje, after his flight at Magersfontein, wired Mr. Kruger that he had counted many thousand British dead on the battlefield."

"Early in the campaign Commandant-General Joubert appealed to Mr. Kruger to stop the Boers looting, but he received no reply. Later on he wired from Kruger, advising the president to sue for peace. Mr. Kruger replied, 'Have you lost all faith in God?' On another occasion, when the Boers were suffering severe reverses, Mr. Kruger wired that 10,000 men were coming to their assistance from the Cape."

KRUGER'S REFUGUE.
Paris, Oct. 11.—It is semi-officially denied here that the French Government has been approached on the subject of the suggested disembarkation of former President Kruger at Marseilles, whence he could cross France to the Hague. On the contrary, it is added, Mr. Kruger is expected to land directly in Holland.

The Contest in the City—Let It
Be Fair.

It is many years since there has been a fair contest in this city, or even reasonably so, making allowances for those whose enthusiasm exceeded their discretion. Notwithstanding this fact, we believe it is the desire of the respectable members of both parties that the contest should be fairly conducted, and we believe it can be if the leaders on both sides discountenance all that is unfair.

It is not necessary on either side to throw stones. For the sake of argument we might admit that questionable things have been done on both sides; and that some of the witnesses at the Beattie election trial touched bottom, and we would have the judgment of all shades of politicians with us. But for the future we hope the practices of the past will be abandoned and the acts themselves forgotten.

Both sides have again reached the best court of appeal—the people; and if the contention of the Liberals on that occasion, that the victory was won by fraud and clinched by perjury, is true, the electors can redress the wrong; can give the seat to the man justly receiving the largest number of votes. We believe that man will be the Liberal candidate.

If we look back over the London contests of the last 25 years, or, for that matter, 50 years, we will find the parties very evenly divided, except during a portion of the time Sir John Carling had large majorities. Prior to Sir John Carling's time the contests were between the late Judge John Wilson and Thomas Dixon, and it was always hard to tell who would win, the majorities ranging about sixty. Judge Wilson carried the riding as a Conservative, resigned, and contested it as a Reformer, and carried it again. The Reformers appear to have lapsed for a time, and until the late Col. John Walker became their candidate, they contested election after election with little success. From that time on, the older order of things again prevailed. Walker and Carling made a close and even fight, and Hyman and Carling kept up the pace. When Sir John Carling retired, there should have been a lull, during which Mr. Hyman could have held the seat as easily as Sir John Carling did in the sixties. But it had been decreed otherwise, and although not entitled to it, Mr. Beattie held the seat during the last term. Let there now be a fair appeal to the voters, and let them say whether they desire to maintain or abolish the present Dominion Administration.

He Said and They Said.

We have not given the free trade we promised, they say. First of all, we never promised it, and five years ago I declared that I was a free trader in principle, but that free trade was impossible under existing circumstances, and that 50 years might pass before that idea could be realized. And yet the Conservatives say I have not given the country free trade, etc., and reproach me with the fact. That reproach might come from the free traders, and no free trader hopes for free trade from the Conservative party.—Sir Wilfrid Laurier at Sohmer Park.

Pay of the Militia.

One very sensible reform which Gen. O'Grady, the new head of the militia forces in Canada, suggests is that there shall be a graduated scale of pay, the remuneration being increased as the experience of the militiamen is gained. By this means, the young men who enter the force would find additional incentive to remain in it longer than a year or two. In the past the large majority of the force who have annually gone up for drill have been "green." If we mistake not, the pay of the second and third year men in the old world militia is increased over that of the first year, and it works well.

Laurier and Canadian unity.

Increase of Canadian trade in July and August, this year, \$7,200,000. The good times continue. The sensible electors are not going to vote to disturb the conditions that have so powerfully aided to make them so.

Among the other yarns that the Opposition papers are telling to discredit the Liberal Government is this one, brought forward by the Hamilton Times: "Galvanized barbed wire costs from \$4 to \$4.50 per hundred (pounds) more than in 1896." We have not taken the trouble to look up the price in 1896, but the price quoted in the Monetary Times of Oct. 5, 1900 is \$3 per hundred. If the Opposition papers tell the truth the farmers must have got their barbed wire in 1896 for nothing, with a cash bonus of \$1, to \$1.50 thrown in with every 100 pounds of wire they bought. Did they?

Within a Month.

Within a month the electorate will have the opportunity, privilege and duty of deciding whether Sir Wilfrid Laurier and his colleagues are to carry on the good work they have begun, or whether Sir Charles Tupper and his friends have to try their hands at handling the affairs of the country. We do not think that there is much doubt in the matter. The voters do not need to be reminded of the old story of the man who sent for the doctor when he was well, and as a result of needless ministrations, grew sick, got worse and died. The people of Canada are sensible and content to let well enough alone. We do not mean to say that the government of the country has reached perfection and finality. That would be absurd in any case, as there is no perfection in this world, and no finality in politics. What we mean is that the Government has got lines laid down to continue the policy of internal expansion and imperial loyalty, which has marked their first few years of power, and it would be foolish, according to present prospects, to decline to renew their lease of power. Within a month, then, each elector must face this question, and come to a decision before the opportunity, the privilege and the duty pass away. Let every man remember that this is a duty. We have representative government, and each intelligent citizen has a share in the responsibility.

The polling comes at a convenient time for the farming community, after the harvest time and before winter sets in; so let every man take the trouble, slight as that is, to record his vote. Above all, let not friends of the Government give way to a false feeling of security. They have reason to be confident, but their confidence should show itself in recording every possible vote. The confidence that would lead a man to stay at home, instead of appearing at the polls, is not of the right kind. If the Government wins he can under such circumstances take no credit to himself; and in any case, a sensible man would feel after the opportunity had passed that he had failed of his duty.

We are glad, as we said before, that the unsettledness of conflict is to be short, and we feel sure that within a month Sir Wilfrid Laurier will have been sustained and have received a new lease of power.

Within a month, if Sir Charles Tupper has not found his programme, he will be able to postpone the search and give a little more time to the detailed study of cold storage and questions of a similar nature. In the higher politics, he has failed, and his so-called "mutual preference" is an absurdity.

Within a month, we believe that the country will give him an answer in clear and unmistakable terms, by giving a majority for Laurier—in other words, for a reasonable imperialism, for preferential trade, and for a healthy development of the country's resources.

Canada's Horses the Best.

Lieut.-Col. Steele of the Strathcona Horse writes home that Canadian horses have stood the test in South Africa remarkably well. They have turned out the best in the British army, thus giving the Dominion horse an advertisement that in the immediate future will be worth a great deal to our farmers and ranchers.

Canada did much for herself when her Government sent the two contingents to aid the Motherland in re-establishing law and order and British fair play in South Africa.

Which Is the Stick?

The Montreal Star, in one of its latest cartoons shows its artist in a moment of high inspiration. He has actually hit upon such a novelty as to represent Sir Wilfrid Laurier "going up like a rocket and coming down like a stick." He thought of the old saying, and all there was to do was to make a picture of it and apply it to Laurier. But note, according to this Sir Wilfrid went up like a rocket blazing with promises in 1896, and he is to come down "like a burnt-out stick" in 1900. Just so; 1900 is now pretty well advanced, and Sir Wilfrid has not yet come down; and we are so blind that we cannot discover any signs of a sudden and disastrous descent. Four years is, moreover, rather a long time for a rocket to stay up, especially in the political firmament. And further, it occurs to us that the boot would fit the other leg much better. Sir Charles went up a few years ago. There was no mistake about it. He staked his reputation as a prophet on the fact that he saw quite clear. With prophetic eye he swept the country from the Atlantic to the Pacific, and led his hosts to glorious victory.

But what came of it? Surely he came down like a stick. His career was rocket-like; lots of sparks flying about, but no abiding substance or power. And today he is, if not an extinct volcano, a burnt-out stick.

We do not think Sir Charles will fare any better in the pending contest. He has no real policy, no real power to awaken real enthusiasm. He is not equal to the task of regenerating and renewing his own party, and he must do that before he can carry the country. The Conservatives may whistle to keep their courage up, but they know well that it is not Laurier who is the burnt-out stick.

The World-Wide Rise in Prices.

One result of the war in South Africa, as indeed the inevitable result of war, no matter where it is fought, is that nearly every commodity consumed by the average household in Great Britain has gone up in price, and in sympathy with this advance, the price of these articles when exported abroad has also been advanced. We in Canada have felt this advance less than other outlying portions of the British Empire, thanks to our preferential tariff in favor of the products of the mother country. But for the fact that goods brought from Great Britain to Canada are subject to but two-thirds of the tax charged on goods brought from the United States and from other foreign countries, the cost to the consumer of all these imported necessities would have been considerably higher than it is. It stands to reason that if the duty on an article purchased in the United States is \$1, while that on a similar article brought in from Great Britain is but 66¢ cents when laid down here, the cost of the British import will be lower than that from the United States, unless the United States dealer, for the purpose of getting into the market cuts off the 33½ cents on the dollar. In like manner, the price of the home-produced article must be lowered. The beneficial effect of the preference given to British goods required by Canadian consumers is thus demonstrated.

In Great Britain, the enhanced prices commanded by the necessities of life are causing much comment. The rise in the price of coal, for example, has been enormous. Last year the price was considered high when it ranged from 16s to 18s a ton; this year it is quoted at 24s to 26s per ton, which, considering the nearness of the source of supply, is very high. Gas, which is made from coal, has, of course, risen in price, in sympathy with the price of coal. An increase of 6d on the 1,000 feet is common in many towns. Bread has lately gone up in price, 1d at least being added to the price. Sugar, too, is costing more money, though in Great Britain, this necessity has always, in recent years, been low in price. About 2s has been added to the cost of the hundred weight within the last year. Coffee has been advanced by 3d per pound, and cocoa has risen nearly 11s per hundred weight. Tea has remained very steady in price, and as it is an article of universal consumption, this is a blessing; but fears are expressed that the disturbances in China may cause an increase in price in this commodity, too. However, tea culture has enormously increased in British territory in recent years, and the world is not nearly so dependent on China for its supplies as was formerly the case. Fruit is up all round. Currants, owing to a short crop, have doubled in price since last year, and raisins now cost 7s more per cwt. Canned salmon, owing to the great shortage in the catch on the Pacific coast has also risen greatly in price. House furnishings have participated in the general advance, the rise in linoleum and waxcloth being especially marked. Matrimonial, even more than the male head of the house must have observed how the charge for clothing is growing. The cost of clothing of all kinds has gone up, but especially those into which wool enters. The rise in the price of wool is put at 20 per cent. Underclothing, women's dresses, and babies' clothes have all advanced. Leather has also been rising of late, and though prices are keenly out in the boot and shoe trade, footwear has been dearer for months back, and threatens to become more so as time passes. The British railway companies, too, asserting that the general increase in their supplies rendered it necessary have made a general increase in their passenger fares. It is fortunate that work is so plentiful, and wages fair, or it would be pretty severe on the masses. In this country, as we have pointed out, the world-wide increase in prices of commodities has not made itself felt to any great extent, partly owing to the greatly increased prosperity of the people, and partly owing to the arrangement of our tariff, under which the very heavy specific duties collected by the late Government have been abolished and a tariff preference in favor of Great Britain, to the extent of one-third, has been put in force.

Canada is well satisfied with Laurier.

Liberalism is always a winner in a short campaign in London.

Let no friend of good government be left unregistered in the ensuing registration.

Canada's trade for July and August, 1900, is \$7,000,000 greater than for the same months in 1899, and \$20,000,000 greater than for the same months in 1898.

"The Man Who Turns Back" has now gone back on the N. P., and is keeping the apologists for that idiot busy apologizing and trying to explain away his eccentricities.

The young men will vote for the Government candidates in the ensuing election. They would have no votes under the old system that disfranchised thousands of the flower of the young manhood of the land.

The United States elections take place on Nov. 6; those of Canada on Nov. 7, and the Newfoundlanders have a general election on Nov. 8. Thus the people will have their say in the whole of North America. It is generally conceded that there will be no change of government in either Canada or the United States.

On the Side of Providence.

Here is a bright bit from Sir Wilfrid Laurier's pleasing speech at Action Vale in Quebec:

"Is it not true that there has never been a time in the life of any one of you when you were as prosperous as you are now? (Cheers.) Do you not sell your goods at better prices than ever? (Yes.) Do you not sell your butter at better prices than ever? (Yes.) Do your cattle fetch better prices? (Yes.) In every house there are bread in the cupboard, and meat in the larder, and money in the purse. Are there not? (Yes.) The Conservative leaders who hear us say that this is the work of Providence, Providence has done much no doubt. In fact, Providence has done all. But Providence has chosen us as its instruments, and if Providence has chosen us, should you reject us? (Cheers on laughter.) God helps those who help themselves. He has helped us, and we have not been idle."

What Economy in Coal Means.

The strike among the anthracite coal miners, and the rise in the price of coal, already high enough in all conscience, brings to the front once more the question whether our domestic arrangements are such that we get the best possible value out of the quantity of coal that we now consume. Harper's Bazar, which has been discussing the subject, reaches the conclusion that if the average housewife knew political economy, as, indeed, many do, and all should, she would be conscience-stricken, and declare herself a miserably sinner because of the way she wastes fuel. Kitchen fires strong enough to run an engine broil the breakfast chop. The furnace is heaped with coal and forgotten until the house is unbearably heated; then windows and doors are thrown open to cool it off, and no one heeds that energy—heat—sufficient to work wonders in producing wealth is being cast to the winds. The same housewife who permits this wrong is sensitive to the fact that by her moral and intellectual acts the future of unborn generations is conditioned. She knows she has it in her power—the power of every individual—to increase or diminish the moral force of humanity. Is it not worth while remembering, too, that she has it in her power to increase or diminish the industrial force? The greatest single factor of industrial force is coal. The housewife who economizes coal does something more than save her husband's money. She is conserving for all humanity a necessary of life, on which, in the first instance, the bread and butter of present and future generations depend.

There is much truth in this criticism, which will, no doubt, suggest to householders generally the propriety of a reform being resolved on before the cold days set in. Too often is the care of the furnace and other fires left entirely to the tender mercies of the

hired man or hired girl, who may be entirely ignorant of the first principle that should govern the supply of heat for domestic use, and who may, in the course of a season, waste many dollars of hard-earned money that might be saved if a little intelligent supervision over their actions—and the disposal of the cinders—were exercised by the heads of the household.

The Toronto Telegram (Conservative) concedes a majority of from 8 to 10 to the Government in the election on Nov. 7. It will be much more, but this concession on the part of an opponent is significant.

It is spurious. Beware of it! The Weekly Sun says: "A statement headed 'Laurierism and Prices' credited to the Weekly Sun is going the rounds of the Canadian press. No such statement has appeared in this journal."

Business men are highly gratified that in fixing the length of the campaign the Government has been as careful of their interests as they have been of the general welfare of the country. A long campaign is always injurious to trade.

"Laurier is too British for me." So says Sir Charles Tupper.

Lord Strathcona, who has just come from Great Britain, says there is no hope in the near future of the British people consenting to revolutionize their trade policy, and tax any portion of the food supply which they procure abroad. It would, he said, raise the cry of dear corn and dear bread, and that no public man would now care to face.

It turns out that the reason why the word "labor" is spelt "labour" in the "Labour Gazette," now published by the Dominion Government, is because there is an order-in-council, passed by the last Government, by which the spelling of this and other words is fixed. In Great Britain "labor" is generally spelt with a "u." In the United States they have come to drop the "u" in this and other words as superfluous, and in Canada we have followed suit. We suppose the late Government, when by order-in-council it undertook to control the spelling of words at the Printing Bureau, was alarmed lest our spelling might become too

much like that of our neighbors, just as former governments used every expedient to prevent the adoption of decimal currency, lest the replacing of pounds, shillings and pence by dollars and cents might result in annexation! Indeed, the Liberal party in the early 50's were denounced as Yankees in disguise because they favored the system of money now in force in preference to the old world one.

American Markets.

CHICAGO, Oct. 11.—The strength which wheat exhibited early today, influenced considerably by the reopening of mills at 30 days, was lost in the afternoon, when it closed under yesterday's closing. The market was quiet, with corn closed 1/4c higher, and oats 1/4c lower. Provisions closed but little changed. Primary receipts were 1,036,000 bushels, against 873,000 bushels last year. A year ago this month was included in the aggregated receipts. Seaboard clearances in wheat and flour were equal to 805,000 bushels. Estimated receipts tomorrow: Wheat, 245 cars; corn, 530 cars; oats, 255 cars; hogs, 24,000 head.

The leading futures closed as follows: Wheat—No. 2 Oct., 74 1/2c; No. 2 Dec., 75c; No. 2 Jan., 75 1/2c; No. 2 Feb., 76c; No. 2 Mar., 76 1/2c; No. 2 Apr., 77c; No. 2 May, 77 1/2c; No. 2 June, 78c; No. 2 July, 78 1/2c; Lola's Secret,

A Romance.

"I will sing now, Sir Karl," she said, "if you still wish it."
"Certainly I do," he replied, again offering her his arm.
She laid the tips of her white fingers on it. If she had looked, she would have seen that he cared so little for the red rose that it lay upon the ground. She went at once to the piano; and the words she sang haunted him ever after:

"Good-bye, lost friend!
The time will come when thou wilt stand
Where I am standing now,
Thinking of our friendship and its end,
With a strange, yearning sorrow on
my brow.
"Too late, too late!" I say, with tearless
eye.
Good-bye, good-bye!"

CHAPTER VI.

It was all over now, Dolores told herself. There was an end of her dream. Someone else had taken her place at the piano, and a beautiful voice was filling the room with melody. Just then she was hardly capable of a clear thought. She did not know that Sir Karl stood watching her with wistful eyes, full of pain and wonder, that just "Good-bye" ringing in his ears and stirring his heart. He could not help seeing that she had sung it with a purpose, and that purpose was to bid farewell to him. "Too late!" Ah! it was indeed too late! But if it would be for her happiness he must be content.

"She does not look like a girl who would sell herself for money," he thought. "She has the face of one who could give her life for the man she loved."

Lola was quick enough to see that there was something amiss, and she was not far wrong in her surmise. Dolores never knew how the rest of the evening passed. It must have been a very pleasant one, for there was plenty of laughter, dancing and music, and the characters were highly applauded; but Dolores sat in a long, painful dream, as though she were taking her part in a play; while her thoughts and heart were elsewhere. It had been a proper test, that little incident of the red and white roses. It seemed to Dolores as real as though Lola had said, "Which of us two do you prefer, Dolores, O'Brien or myself?" and Sir Karl had answered, "I prefer you, Lola!" whereas to him it had been so unimportant that the red rose he had chosen still lay upon the floor.

"She might have said good-bye quietly," he thought, "and not have sung it in words that must haunt me until I die. She sang them reproachfully, too, as though it were my fault that I am

her lost friend. I should have been her friend until death, but she was marrying for money and not for love."

The miserable night came to an end at last. Sir Karl went away first, and Dolores was driven home in madame's carriage. The girl was thankful to be alone, to be where she was not compelled to smile and talk while her heart was ready to break. The stars were shining, and the air was laden with sweet odors. She was very young, but she said to herself that all was ended now except duty. Never again would the sound of a voice or the fall of a footstep make her heart throb; never more would her pulses thrill at the touch of a hand. She would live her life, do her duty, and at the end would come sweetest rest. She had nothing to do now but to write to the generous man who had laid his fortune at her feet and tell him that she had decided, and was ready to marry him.

When she reached the White Cliffs, she heard that the squire had gone to bed. She was relieved to know that she would have regained her composure, and would be able to meet him with a smiling face.

It was her own fault entirely; she regretted that she had hesitated again. She ought to have had more sense than to give even one thought to a man who did not care for her. All that she suffered was the just reward of her own folly. No one could pity her. She could only feel ashamed for herself. She knelt down and prayed as she had never prayed in her life before, and when she laid her head on the pillow, it was with the feeling of weary relief which one who has fought a good fight and conquered.

Early the next morning she went to the squire. He was in his study, his favorite room, with a cup of coffee before him. He looked up quickly as she entered, and she read in his eyes the anxiety, the hope, the fear, that he did not express in words. She went and knelt down by his side.

"I've come to a decision, papa," she said. "I thought I would ease your mind by telling you at once. I have decided to marry Lord Rhyssworth."

The squire pushed his coffee cup aside, looked at his daughter earnestly, laid down his paper, and sat for some moments in silent delight.

"Is it really true, Dolores?" he asked at last.

"Yes, papa; you shall live at White Cliffs until you die. You shall never leave it to go among strangers; and you shall have all your comfort, dear papa. I will be rich again, and have money to do with as you like. You will be very happy, my dearest—happier than you have ever been."

"Something in her voice seemed to disturb the squire, for he raised his head, and in his turn, drew the beautiful face down to his. He looked at it long and anxiously; even to his dim eyes there was a wonderful change in it. The brightness was gone, the light that shone there now was of heaven rather than of earth; it was the calm of content hardly acquired; it was an expression quite different from anything he had seen on his daughter's face before.

"Dolores," he cried, in a sharp voice, "you—*are* you happy?"

"Quite happy," she answered.

"There is no one who cares for me, who should? I do not see many people. I am too young to have thought of such things. No one cares for me, believe me, papa."

If he had been more shrewd and worldly, he must have noticed that although she repeated her statement that no one cared for her, she never once said that she cared for no one. The squire went on:

"I was a coward yesterday, Dolores. The idea of poverty frightened me. I could have cried like a child then; but now that I look at you, Dolores, in the light of another day, I feel braver and stronger. In the course of nature I cannot live many years. What does it matter, if only you are happy, dear?"

There was a faint quiver on her lips, and then she said:

"I am quite happy, papa. In the years to come, when you think about this, and about my marriage, always remember that I was quite happy, that I had no regrets, and that I was most grateful to the generous man who rescued me."

He listened attentively.

"Those are pleasant words, Dolores, but they have not the right ring."

"You may believe me," she said. "You must always remember that I am perfectly happy. If ever you see

How Strong Are You?

The dial of the punching machine won't answer that question. Strength depends on nutrition. When the stomach and other organs of digestion and nutrition are diseased, the body fails to receive its full supply of nourishment and hence grows weak. That is why no man is stronger than his stomach.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and the allied organs of digestion and nutrition. The food eaten is then perfectly digested and assimilated and the body is made strong in the only possible way—by nutrition.

"I was troubled with indigestion for about two years," writes Wm. Bowker, Esq., of Julietta, Utah Co., Idaho. "I tried different doctors and remedies but to no avail, until I wrote to you and you told me what to do. I suffered with a pain in my stomach and left side and thought that it would kill me. Now I am glad to write this and let you know that I am all right. I can do my work now without pain and I don't have that feeling that I used to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two vials of his 'Pleasant Pellets' cured me."

a cloud on my face, tell me about it; if you find my spirits flag, then you may believe that I am not happy. Kiss me, papa, and tell me you believe me."

He kissed this sweet face, and laid his hand caressingly on the golden head.

"I believe you, my darling, and I am quite happy in the belief."

Then she rose from her knees and busied herself in arranging his papers.

"I will write to Lord Rhyssworth today," she said, "and perhaps he will come over. Papa, grant me this favor. If he comes, see him for me this once. I will see him tomorrow."

This the old squire promised to do.

FRANCE FEELS CONCERNED

At the Result of British Elections.

Afraid Chamberlain's Success May Cause Trouble.

Expected to Recoup Her Treasury With \$14,000,000 From China—The Dicker for the Danish West Indies.

Paris, Oct. 11.—The French revenue for the nine months ending with October shows a surplus of \$23,400,000 over the estimates and an increase of \$13,000,000 over the similar period of 1899. This increase will be nearly all swallowed up by the Chinese war credits, which already amount to \$14,000,000, but the Government expects to make the Chinese pay this.

THE DANISH WEST INDIES.

London, Oct. 12.—Referring to the mooted purchase of the Danish West Indies by the United States, the Copenhagen correspondent of the Daily Telegraph says: "The renewed negotiations on this subject, which have been the purchase, the opposition party in the Danish Parliament favors the transaction, but urges the government to obtain a larger price than the United States previously offered. It is understood that America wishes to use St. Croix as a naval coaling station."

BRITISH ELECTIONS.

London, Oct. 12—3 a.m.—In the pollings in the parliamentary general election yesterday the Ministerialists gained two seats, making their total gains 29, out of the 92.

In Sutherlandshire Mr. F. S. Leveson-Gower, Liberal Unionist, defeated Mr. John McLeod, Liberal, who held the seat in the late parliament, and in the Scotch division of the west Lancashire, Mr. Marshall Hall (Con.) wrested the seat from Sir George Augustus Pilkington, who secured it in the bye-election last year. This far is as follows:

Ministerialists 374
Opposition 234

As yet there has been no Ministerial gain in Wales and no Liberal gains in Scotland.

The list of the re-elected includes the nephew and heir of the late Earl of Beaconsfield, Mr. Ralph Disraeli, who has represented the Altrincham division of Cheshire in the Conservative interest since 1892.

Dr. Gavin Brown Clark, the former consul-general of the South African republic and a noted pro-Boer, Liberal, was badly beaten in Caithness-shire, the Liberal-Imperialist candidate, R. L. Harmsworth, winning the seat.

Sir Charles Dilke easily retained his seat for the Forest of Dean.

CONTRADICTION.

Officials of the foreign office here informed a press representative that there is absolutely no foundation for report in circulation here that Viscount Cromer had been summoned from Egypt to take a seat in the new cabinet.

AFRAID OF CHAMBERLAIN.

Paris, Oct. 12.—The British general election is exciting a good deal of interest and comment in continental Europe. The opinion is expressed that it is a personal triumph for Chamberlain, and that if he becomes preeminent in the British Government an era of aggression and imperialism will be inaugurated, which will seriously threaten the peace of Europe.

In France especially are sober men anxious. It is felt that if in future difficulties arising out of Newfoundland, Siam, Africa, etc., the negotiations are in the hands of Chamberlain, war may easily be provoked, especially as Chamberlain is likely, as in the case of the Transvaal, to refuse all compromise and to offer to settle on the basis of absolute surrender by the other party.

After Fashoda, France will never again back down completely, and with Chamberlain at the British helm things are likely to go to extremes. It is impossible to describe the dislike and suspicion with which Chamberlain is regarded in continental Europe. It is not an exaggeration to say that Britain with Chamberlain as premier would have all Europe against her, hostile and watchful. Many Transvaalers, excited men, who are expected to arrive in Europe and the stories they tell of British brutality and arbitrariness also add to the flame. Never before, perhaps, was Britain regarded with so much suspicion.

CABLE NOTES.

The premier of West Australia, Right Hon. Sir John Forrest, in introducing the budget on Wednesday, asked to be relieved of the premier's ship early in 1891. Reviewing the satisfactory condition of the colony, the premier said it was his intention to visit the San Francisco of Australia.

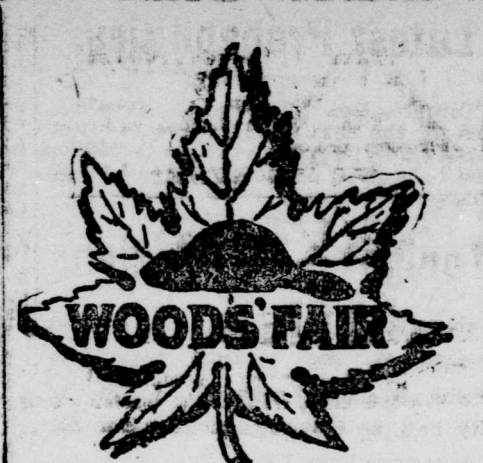

The officials of the Anglo-Austrian Bank declare that the stories of a panic on the Vienna Bourse are unfounded.

The Fall Fairs.

—Lieut.-Col. Holmes, D. O. C., of this city, paid Chatham a visit yesterday to aid in the formation of the 14th Regiment, Kent Infantry. He met the prospective officers in the evening.

—The Venerable Archdeacon Mills, bishop-elect of the diocese of Ontario, has arrived in the city and is making a short visit at St. James' rectory. He preached an instructive and earnest sermon Wednesday evening for Archdeacon Davis from Philipians, iv, 13.

—A concert was given in the Masonic Hall at Thorndale Wednesday night by Sandy Brennan, of this city, assisted by Messrs. John Birmingham and O'Neil, Miss Annie Davis and Miss Ina Riddell, the Highland dancer. Mr. Frank Gruber was the accompanist. A concert was also given before a very large audience in the Harding Hall, among those taking part being Miss Eva N. Robyn and Miss Susie McGill, of this city.

HONORED THEIR CARETAKER.

A large number of members of the London rowing club assembled at the club house yesterday, when President Beddome, in a few complimentary remarks, on behalf of the members, presented the caretaker, Mr. Richard Sparrowhawk, with a meerschaum pipe and package of tobacco. Mr. Sparrowhawk has proven himself the past few years a very capable man, and always courteous and obliging to the club's members. In a few well-chosen remarks, he thanked the members for their kind remembrance.

BOARD OF WORKS.

At last night's meeting of No. 2 committee, Messrs. Eckert and Walters, two gentlemen who live on Queen's avenue, between Elizabeth and Adelaide streets, where the ratcatchers petitioned against the construction of a cement walk, appeared before the board and complained that 200 feet of the walk in front of their property had been torn up and replaced by sand, although they thought the plank walk good enough to last some time longer. Mr. Graydon explained that this had been done according to the council's instructions. If a cement walk were laid on one street, others would want one. With Aid. Bartlett, he will see what can be done in the matter.

Frank Jackson's request for the use of the pavilion on the fair grounds for athletic purposes was filed, one city engineer saying that the Y. M. C. A. afforded ample facilities for these young men who desire athletic training.

A sufficiently signed petition for a sewer on Wellington street, between Sydenham and St. James, was received. It will be advertised.

Ald. Douglas' motion to have no walk laid on the west side of Richmond street, between Kent and Maple streets, passed.

The board now has a balance of \$2,736.94.

CLOSE OF THE CONFERENCE

Two Interesting Sessions—Timely Papers and Bright Addresses.

A number of gratifying reports were submitted to the Y. W. C. A. delegates at yesterday afternoon's session, and several interesting papers and addresses were given. "Junior Work," as carried on by the Toronto association, was the subject matter of a paper read by Mrs. Hall, of that city, and similar work in Montreal was described by Miss Tenny. An excellent and practically suggestive paper on "Physical Meetings" were read by Miss Innes Mackenzie, of Brantford, and Miss Tenny, of Montreal, followed with another on "Library Work." The two subjects of "Education Work" and "Religious Meetings" were dealt upon by Miss Sara Carson and Miss Fraser of Hamilton, respectively. Miss W. Macdonald, of Toronto, assisted in the discussion of the latter subject. Most of the remaining portion of the afternoon was occupied by two pleasant talks, one by Miss Carson, on "Self-Government Clubs," the other on "Drawing-Room Meetings," by Miss Ethel Hayes. The afternoon session was concluded by the reading of a report of the Nurses' Union at Victoria Hospital, and passing votes of thanks to all who had assisted in making the conference a success.

In the evening it was announced that Rev. A. L. Gorgie, who was to have spoken, had missed his train in To-

REMEMBERED BY HIS COMPANY

Pte. Hessel Honored by His Command of "B" Company.

When the regular drill at the drill shed was concluded last night the officers, non-commissioned officers and men of B Company gathered in their armory, and called Sergt. Frank Hessel, whom they surprised in a very pleasing manner. The sergeant was a non-com. before he went to South Africa. Capt. Campbell explained the purpose of the gathering, and then asked Sergt. Amor to read the following address:

"To Mr. Frank Hessel,—We, as members of B Company, Seventh Regiment, desire to take this opportunity of expressing to you the high esteem in which you are held by us, and of assuring you of the heartiness of our welcome. We cannot forget the ready response which you made when the call for men went forth last October. The magnificent manner in which you upheld the honor of this country is a matter of which you may feel justly proud, and it is also one which redounds to the credit of our company. For we remember with much pride that up to the time that you left for the seat of war you were one of our most valued non-commissioned officers.

"We desire to assure you that we most anxiously watched all the movements of the R. C. R., and though prevented by fever from marching into Pretoria, yet you did your part most nobly in all the battles in which the Canadians won their honors, and earned the undying gratitude of a thankful Queen and empire.

"And now that you have returned to the scenes where the roar of cannon and bursting of shells are almost unknown, we would have you accept this watch as a token of esteem from the officers, non-commissioned officers and men of B Company, who at the same time desire to express the hope that you will long live to participate in the honor which your heroic conduct has brought us."

The address was signed on behalf of the company by A. A. Campbell, captain; Color-Sergt. Amor, Sergt. A. G. Barnard, and Pte. H. Housen. The presentation was accompanied by three cheers and a "tiger." Engraved on the inside of the case of the watch, which was of gold, was the following inscription: "Presented to F. W. Hessel, on his return from South Africa, from the officers, non-commissioned officers and men of B Company, Seventh Regiment, London, Ont."

FINANCIAL POSITION

Of the Board of Trade Considered at Last Night's Meeting—Other Business Transacted.

A meeting of the board of trade was held last night, with Mr. John Mattinson in the chair. The principal business was the consideration of the advisability of the raising of the annual fee from \$5 to \$10, and the question of cutting down expenses.

Mr. T. R. Parker brought forward a motion providing for the increase of fees, but no action was taken in the matter, pending an endeavor to secure less expensive quarters. The board's annual expenses are now about \$600, one-half of which is incurred for rent. The membership of the board is about 75, and the membership fees are the only source of revenue. The board holds only ten regular meetings a year, and a few special meetings, and the balance of the time the rooms are practically unused by them. The movement begun last night looking to the betterment of the board's financial position will have the effect of enabling the board to take a more prominent part in working for the development of the city's interests.

Professor Robertson, of the department of agriculture, wrote asking for names of exporters of farm produce connected with the board. They will be furnished him.

The Ontario assessment commission notified the board that they will meet in Toronto on Oct. 30, and following days. The president of the board and Mr. John Campbell will confer with Mayor Rumball on the advisability of having London represented before the commission.

A circular was received from the secretary of a proposed China League, whose object will be to protect trade in the far east. The board will ask for further information.

A letter from Mr. John Law, regarding trade with Florida, was filed for reference.

Commissioner Grant Henderson, of Hamilton, representing the Pan-American Exposition, asked the board to co-operate in securing a suitable exhibit from Canada.

Resolutions asked for by the parliamentary committee of the Canadian Manufacturers' Association will be furnished them.

STILL ANOTHER TRIUMPH—Mr. Thomas S. Bullen, Sunderland, writes: "For fourteen years I was afflicted with Piles; and frequently I was unable to walk or sit, but four years ago I was cured by using Dr. Thomas' Electric Oil. I have also been subject to Quinsy for over forty years, but Electric Oil cured it, and it was a permanent cure in both cases, as neither the Piles nor Quinsy have troubled me since."
