#### THE HOUSE OF ASSEMBLY.

OF.

The Province of Nova-Scotia.

#### THURSDAY, 5th FEBRUARY, 1829.

A Message from His Excellency the Lieutenant-Governor, by Mr. Secretary George: Mr. Speaker,

His Excellency the Lieutenant-Governor commands this House to attend His Excellency immediately in the Council Chamber.

Accordingly, Mr. Speaker, with the House, went up to attend His Excellency in the Council Chamber.

And being returned,

Mr. Speaker reported that the House had attended His Excellency the Lieutenant-Governor in the Council Chamber, where His Excellency had been pleased to make a Speech, of which Mr. Speaker said he had, to prevent mistakes, obtained a Copy, which he read to the House, and is as follows :-

Mr. President, and Gentlemen of His Majesty's Council. Mr. Speaker, and Gentlemen of the House of Assembly,

I HAVE called you together at the time which best accords with the ordinary course HIS Excellenof the public business, and with the desire I have felt to obtain early, for my adminicy's Speech at the opening of stration, the advantage of your counsel and support.

It is a great satisfaction to me that I can rely with confidence for this constitutional aid, on that temper and public spirit which have ever been so honourable to this Legislature, and so productive of successful consequences to its labours:

Mr. Speaker, and Gentlemen of the House of Assembly,

I am happy to acquaint you that your Address, respecting the disposal of the Duties collected under the Statutes of the Imperial Parliament, for regulating the Colonial Trade, has received the consideration of His Majesty's Government; and I doubt not

you will discern, in the communication I am instructed to make to you, a fresh proof of that liberal policy towards towards the Colonies, which prevails in His Majesty's

The usual Accounts and Estimates shall be laid before you, and I trust you will make the necessary provision for the public service.

Mr. President, and Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen of the House of Assembly,

Fully sensible that it is my duty, as it is my inclination, to execute the trust committed to me by my Sovereign, with the utmost advantage to the Province, it has naturally been my endeavour to make myself acquainted with its general interests, and to ascertain how far the measures, recently adopted, by the Legislature, were, on trial, likely to

produce the results for which they were contemplated.

The Fisheries have, under the encouragement you have afforded them, been engaged in with spirit, and, it is hoped, with advantage to the persons most interested in their success; and although I am not yet enabled to give you all the information desirable, in regard to the operation of your Act for promoting the establishment of Schools, it aprears to have been extensively beneficial. A full report on his interesting subject shall be submitted to you, so soon as the Commissioners in the several Counties shall supply the necessary details.

I shall freely communicate with you by Message on all subjects touching the public interests, as occasions may arise, in the fullest assurance, that any suggestion which, by your labours, can be rendered subservient to the increase of the general welfare, will not

be recommended by me to your consideration in vain.

Ordered, That Mr. Uniacke, Mr. Haliburton, Mr. Stewart, Mr. Lawson, and Mr. Murdoch, be a Committee to prepare an Address in answer to His Excellency's Speech.

Ordered, That Mr. Lawson, Mr. J. R. Dewolf, Mr. G. Smith, Mr. Barry, and Mr. Stewart, be a Committee of this House, for the purpose of examining the Public Ac-Public Accounts counts, jointly, with a Committee of His Majesty's Council, and that the Clerk do acquaint the Council therewith.

THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES IN GENERAL ASSEMBLY.

May it please your Excellency,

E, the Representatives of His Majesty's dutiful People of Nova-Scotia, in GE Addres in Anneral Assembly convened, thank your Excellency for the Speech with which you lency's Speech were pleased to open the present Session, and for the confidence so kindly reposed in the Provincial Legislature at the commencement of your Administration.

It affords us much satisfaction to find that our Address on the subject of the Custom House Duties, has been considered by His Majesty's Government, and we thank your Excellency for your early communication on the subject.

The Provincial Accounts and Estimates shall receive our earliest attention, and the

claims of the Public Service due consideration.

It is gratifying to us to learn that the Fisheries have been promoted by the Acts recently passed for their protection and encouragement. They form an important branch of our industry, and merit the highest attention.

We fully agree with your Excellency in considering the establishment of Schools an interesting subject; and it is with much pleasure we hear of such beneficial results from

the operation of the late Act for their support.

Your Excellency's Messages on measures of public interest will meet with attentive deliberation on our part, and we shall always feel much gratification in being able to

communicate freely with the Representative of our Gracious Sovereign.

The conspicuous part which your Excellency bore in those achievements which gave happiness and prosperity to the British Empire, and the knowledge you have acquired from your residence in the Colonies, are pledges to the People of this Country of a continuation of that happiness which they have long enjoyed under the distinguished Menwho have presided over it.

Ordered, That the said Address be engrossed.

Mr. Secretary George also further acquainted the House, that he had a Message from His Excellency the Lieutenant-Governor, signed by His Excellency, and he presented the said Message to the House; and the same was read by Mr. Speaker, all the Members being uncovered, and is as follows, viz:

MESSAGE.

#### P. MAITLAND,

Message from Lieut.-Governor relative to Custom-House Establishment House of Assembly he was instructed to make, respecting the disposal of the Duties collected under the Statutes of the Imperial Parliament, for regulating the Colonial Trade, he has to intimate to the House of Assembly, that the Lords Commissioners of His Majesty's Treasury, having given due attention to the representations submitted to them, have been pleased to observe, that their Lordships trust they shall have no cause to regret that the abolition of Fees upon Shipping, from which the Officers of the Customs had, for a long series of years, derived their emoluments, should have taken place before some satisfactory arrangements had been made with the Colonies for permanently providing for the Salaries of those Officers.

Their Lordships cannot believe that the circumstance of the relief to the Colonies having been given, in the first instance, by the immediate abolition of the Fees, can operate upon the Legislatures of the several Colonies to the disadvantage of the Officers themselves, or can be considered a ground for throwing a further burthen on the Mother Country, or for invading the just and acknowledged right of the Crown to appoint the Ofcers of the Customs, and to assign to them a reasonable and proper remuneration; on the contrary, my Lords have the fullest confidence, that, when the Colonial Legislatures shall have had under their consideration the actual circumstances of the case, they will not be indisposed to acquiesce in an arrangement which cannot but be for their own advantage.

Their Lordships, however, have been pleased to say, "that it was no part of their intention, nor is it proposed, that a larger charge for Officers Salaries should, in consequence of the abolition of Fees, be imposed on any Colony;" still less, that the Mother Country should derive persuitary adventage from the charge

try should derive pecuniary advantage from the change.

A main object of the abolition of Fees was Colonial relief, and all that their Lord-ships desire is, that the relief to the Colonies should not be made the means of additional.

and unreasonable burthens upon the Revenue at home.

In order to illustrate the advantages derived by the Colonies from the new system, their Lordships remark, that the sum levied in the several Ports in the shape of Fees on Shipping, previous to the 6th Geo. IV amounted to above L. 103,000, while the total of the new and reduced Salaries for the Officers of the Customs, proposed to be defrayed out of the Colonial Revenue, amounts to no more than L.73,000; and their Lordships further observe, that the Fees to a large amount heretofore paid to the Naval Officers in the several Colonies, have been abolished; and that the compensation to these Officers, in lieu of those Fees, is now paid out of the Revenue of Great-Britain.

In what proportion the Fees on Shipping were a Tax upon the Colony; and in what proportion they were a Tax upon the Niother Country; their Lordships have not thought it necessary precisely to define;—To the extent of that proportion which fell upon the Colony, the repeal of them has been a measure of Colonial relief, and that relief has been further extended by the addition proposed to be made to the charges on the Revenue at Home.

Their Lordships propose, that, the Crown Revenues should continue to be charged with the incidental expenses of the collection of the Customs, and with the compensation which it has been found necessary to assign to the Customs? Officers, whose Salaries have been reduced; and if there should be any Colony in which the Sala-

See papers No.

ries.

ries of the Officers exceed the amount of the Fees formerly levied, their Lordships further consider it proper, that, in those cases, the excess should not be defrayed by

the Colony.

With these qualifications, however, their Lordships do not think it too much to expect, that, the Colonies should either acquiesce in the deduction from the Duties received in the Colonies of the adequate Salaries, now fixed for the Officers, or should themselves make a permanent provision for the Officers to that amount.

By the adoption of either alternative, the additional expense thrown on the Mother Country, will not be extravagant; and the Custom-House Officers, enjoying Salaries which must be admitted to be moderate, will still be placed in that state of independence

which is essential to the discharge of their duty.

To place, in the clearest light, the views entertained by their Lordships, the Secretary of State has transmitted to the Lieutenant-Governor, the Schedule which is annexed; in regard to which, however, it may be right, that the House of Assembly should be apprised, that the actual expense of the Custom-House Establishment, according to the annexed document furnished by the Collector and Comptroller, exceeds the sum stated in the Schedule.

See papers

See papers

The House of Assembly will permit the Lieutenant-Governor to express a hope, that he will not be considered by them to have characterized too favorably the substance of this Communication, and at the same time to intimate his sincere wish, that it may tend to an arrangement at once beneficial to the Colony, and satisfactory to His Majesty's Government.

P. M.

Government House, 10th February, 1829.

The several Papers annexed to said Message, were also read by the Clerk, and are as follows viz:

Papers annexed to Message

[COPY-No. 1.]

Provincial Secretary's Office, Halifax, 9th February, 1829.

GENTLEMEN,

In a Communication from the Lords of the Treasury, to His Majesty's Principal Secretary of State for the Colonial Department, a copy of which has been transmitted to His Excellency the Lieutenant-Governor, it is stated, in order to illustrate the advantages that have accrued to the Colonies from the new Commercial system, that the sums levied in the several Ports in the shape of Fees on Shipping previous to the 6th Geo. IV. amounted to above L. 103,000, while the total of the new and reduced Salaries for the Officers of the Customs, proposed to be defrayed out of the Colonial Revenue, amount to no more than L.73,000.

In this Province, however, it happens that the present charge upon it for maintaining its Custom House Establishment, is greater than it was previously to the abolition of fees. Their Lordships illustration therefore does not apply in this particular Colony, and His Excellency being desirous to know how this circumstance may be accounted for, I am directed to request that you will give me, for his information, any explanation on the

subject that you may be able to afford.

I have the honour to be, Gentlemen, Your most obedient: Humble Servant,

(SIGNED)

RUPERT D. GEORGE.

[COPY-No. 2.]

Custom House, Halifax, 9th February, 1829.

SIR,

In obedience to the commands of His Excellency the Lieutenant-Governor, by your Note of this date, we have the honour to state, for His information, that it is with much surprize we observe by a Statement, made by the Lords Commissioners of His Majesty's Treasury, of the reduction in the amount of the total charge for the new Salaries, proposed to be paid out of the Colonial Revenue compared with the amount which was levied in the shape of Custom-House Fees, in the several Colonies, previous to the passing of the Acts of the Imperial Parliament in the 6th year of His present Majesty.

From causes to be explained, their Lordships illustration appears unsupported as re-

gards this Province;—

The great and increasing trade of this Colony, under the new Acts, has required many new Officers and much additional increase in the Incidental Charges of this Department, and it will bear hard on the old Officers if the amount of fees formerly received by them should now be shared by the new and indispensable addition, when the great increase in the responsibility of the Officers is also considered, whereby the Colony derives a revenue of upwards of 18,000l. currency per annum, after the payment of the new Establishment, even in many branches of it with a paucity of salary inadequate to enable them to obtain other than the common necessaries of life.

We beg briefly to state also, for His Excellency's information, that had the Principal Officers of H.M. Customs, since the year 1803, when the present Collector came into Office considered themselves authorized to place the same construction on the Table of Fees bearing date 23d Dec. 1769, which those of the other North American Colonies

did, we have no hesitation in stating, that the Officers of this Colony would have derived an income, equal in amount, if not exceeding, that of any other; and had they received the Fees on the Trade which the Law Officers of England considered other than Coasting, and even on the Coaster that which by Law they had a right to demand, the old Officers would not at this hour, as is apparent, be liable to a deduction in their Incomes, which, on the score of Justice, ought not to be invaded.

With these views of the case, which we beg with the utmost deference to submit to

His Excellency for his pleasure thereon,

We have the honour to be, Sir, your obedient Servants,
T.N. JEFFERY, Collector. (Signed) J. WALLACE, Comptroller.

the Cherk's Table, where it was read, and is as follows, viz:

Committee report on instructions given to Commissioners under Act for encouraging the Fisheries

THE Committee to whom was referred the Instructions given to the Commissioners appointed to carry into effect the Act, entitled, An Act for encouraging the Fisheries of the Province beg leave to report to the House for their consideration, that during the last Session of this House, an Act was passed, entitled, An Act for encouraging the Fisheries of this Province, wherein, among other things, it was enacted, that a Bounty of One Shilling per Quintal should be paid for all Merchantable Fish which should thereafter be made fit for the Markets of South America, and Europe, to the extent of Two Thousand Pounds; that in consequence of such Bounty, the object this House had in view, the increase of Merchantable Fish, has been fully realized: as that desirable Article of Commerce has been made to a great extent, that the Fisherman, under the confidence of the Act of the Legislature, naturally looked forward to neceive the Bounties, but have been met by a code of Instructions which, if allowed to continue in operation without some modification, must damp all future enterprize, as it is in direct opposition to the spirit of the Law, and what this House had in view, namely, the encouragement of the l'isheries; they therefore recommend that His Excellency be requested to cancel that part of the fifth Instruction, which states, "the Bounty payable will not be paid "until proof is produced to the Treasurer of the Province by the Person to whom the "Certificate has been granted, or by his Agent, that the Fish has been actually ex-" ported from the Province in some British vessel or vessels, bound from some Port in "this Province to Europe, or some Port in South America, Southward of the River "Amazon;" and to leave it open to vessels of all Nations and Markets, because, so far from giving to the Fisherman an extensive market and an increased demand for the Article of his Industry, it confines him within a narrow limit, to the enterprize of a few British Vessels engaged in a specific Trade—excludes all Foreign vessels engaging in it, or the Fisherman from receiving the Bounty; thus so far from producing the end so long desired, he finds himself in a worse situation than before, placed in the hand of the Merchant, who cannot give a Certificate for the Fish he has made, because it has not been shipped in a British Bottom to either of the afore-described f'laces, although it may be shipped to all other parts of the World; and thus the Law, which tells him to make the Fish, is rendered nugatory, as the Trade to Europe or South America is limited; depends altogether on the state of the Market, and he can get no Bounty on his Fish, although it is taken in American vessels which have already been here for the purpose, nor even if it should be (which your Committee find has already been the case) shipped in British vessels for the West-Indies. The Committee also recommend, that the latter part of the second Section, which states, that those engaged in the Boat and Shore Fishery, who intend becoming Competitors for the Bounties on Merchantable Fish, must enter their names with the Commissioners, and state the mode in which they intend to carry on the Fishery. whether in Boats or Shallops; and also give proof to the Commissioners, that they have procured their supplies within this Province; such Entries to be made on or before the fifteenth of June should be cancelled, and that the time should

#### TUESDAY, 24th FEBRUARY, 1829.

should be extended, as they find several instances of Vessels which entered on subsequent days of June excluded.

Committee-Room, 23d February, 1828. Richard Uniacke. Charles R. Fairbanks. John Homer.

The Committee also conceive it their duty to state, that there is now in the Port of Halifax, a considerable quantity of Merchantable Fish, the catch of last Summer, on which the l'isherman expects to receive his Bounty; but which he will be prevented receiving under the present regulations, as, from the situation of the Markets in South America and Europe, there is little or no hope of the same being shipped.

Reportreceived by House

"And thereupon, Mr. J. R. Dewolf moved, that the Report be received by the House: which, being seconded and put, and the House dividing thereon, there appeared for the motion, thirty-one; against it, five.

So it passed in the affirmative, and the Report was received accordingly.

Scale referred Subdivision

On motion, ordered, That the Scale of Appropriations, for the service of Roads and to Members for Bridges throughout the Province, except such part thereof as relates to the Great Roads, be referred to the Members of the several Counties and Districts—and that the said Members for each County or District, do prepare and bring into the House on Tuesday morning next, a Scale of Sub-division of the Sum appropriated for their respective County, or District, for the service of Roads and Bridges.

Road Petitions referred to Members

Ordered, That the several Petitions praying aids for the service of Roads and Bridges, presented to this House on Tuesday last, be referred to the Members of the several Counties and Districts, who are to prepare and bring in the above Scale.

Letters relative to proposed

Mr. Speaker communicated to the House, a Letter received by him from Mr. Secretary George, dated this day, with other Papers accompanying the same, and the said on Cross Island Letter was read by Mr. Speaker, and is as follows, viz

Provincial Secretary's Office. Halijax, 27th February, 1829.

Şir,

I have it in Command from the Lieutenant-Governor, to express, through you, to the House of Assembly, His Excellency's regret at not being able to return a satisfactory reply to the application which the House have made for any information that may have been obtained by the Executive, (in pursuance of their request to Sir James Kempt, in the last Session of the Assembly) relative to the expediency and expense of placing a Light-House on Cross Island, at the entrance of Lunenburg Harbour; but I am desired to transmit to you the inclosed Copy of a Letter, written by Sir James Kempt's directions, to the Commissioners of Light-Houses, as well as a Copy of a Letter from them, which will at once shew that the wishes of the House, in this respect, were not unattended to by Sir James Kempt, and explain the reason why the Commissioners were amable to comply with the commands given to them by His Excellency.

> I have the Honor to be. SIR. Your most bedient Humble Servant. RUPERT D. GEORGE.

THE HON. THE SPEAKER OF THE HOUSE OF ASSEMBLY, &c. &c. &c.

The Papers accompanying said Letter, being the copies of Letters therein mentioned. were read by the Clerk, and are as follow, viz:

Provincial Secretary's Office. Halifax, 24th August, 1828.

GENTLEMEN.

The House of Assembly being of opinion that much benefit would result to the Coasting and Foreign Trade of this Province, from the establishment of a Light-House between Sambro and Liverpool, and having requested His Excellency the Lieutenant-Governor, to obtain information relative to the expediency of placing such Light on Cross Island, at the entrance of the Harbour of Lunenburg; I am commanded by His Excellency to request that you will take an early opportunity of making a personal examination of the site proposed for this Light, and report your opinion as to the expediency of having a Light on that part of the Coast, and the fitness of the situation suggested; and should you deem it advisable that a Light-House should be established on Cross Island or in its neighbourhood, his Excellency would be glad to receive, with your Report, a Plan for the Building, and an Estimate of the Expense of erecting it.

I have the Honor to be.

Gentlemen, Your most obedient, Humble Servant, (Signed) RUPERT D. GEORGE.

THE COMMISSIONERS OF LIGHT-HOUSES.

[A TRUE COPY,]
RUPERT D. GEORGE

Halifax, 26th Feb. 1829.

We have the honour to acknowledge the receipt of your Letter, dated yesterday, requesting us to report to you, for the information of the House of Assembly, any information we may have relative to the expediency of erecting a Light-House on Cross

### FRIDAY and SATURDAY, 27th and 28th FEBRUARY, 1829.

Cross Island, at the entrance of the Harbour of Lunenburgh; and in reply we beg to state, that in consequence of your letter of the 24th Aug. requiring us to make a Survey and Report on that subject, we waited on His Honor the President, and requested that he would allow the Chebucto to be employed on that service; his Honor informed us that the Chebucto could not at that time be spared for that purpose, and further recommended that we should not incur any expense, and in compliance with his recommendation we did not proceed in making the Survey.

We have the Honor to be,
Sir,
Your very Obedient Humble Servants,
(Signed) S. CUNARD.

THUS. MAYNARD.

SIR RUPERT D. GEORGE, BART &c. &c. &c.

#### PRAYERS.

Mr. Church presented to the House two Petitions, praying aid for Roads, viz:

A Petition of David W. Crandall and others, of Shelburne, in the County of Lunen-

burg: and a Petition of John Thomson and others, Inhabitants of Chester.

Ordered. That the Petitions be referred to the Members of the several Counties and Districts, who are to prepare, and bring in, a Scale of Division of the Monies granted for the Service of Roads and Bridges, for the present year.

A Petition of John Thomson and others, was presented by Mr. Church, and read. praying aid in the erection of a School-House in Chester.

Ordered, That the Petitions do lie on the Table.

Mr. Homer reported from the Committee, appointed to enquire into the operation of the Act relating to the Inspection, &c. of Pickled Fish, and to report whether any amendment or alteration be necessary for earrying the same into full effect, and he read the Report in his place, and afterwards delivered it in at the Clerk's Table.

where it was read, and is as follows, viz:-

THE Committee appointed to enquire into the operation of the Act for mere effectually enforcing the Inspection, and encouraging the Exportation, of Pickled Fish, beg leave to state, that they have made a thorough investigation of the business before them, by the examination of several of the most respectable Merchants, Coopers and other Persons acquainted with the nature of Pickled Fish, and of this business generally, who unanimously agree, that the Law in every point of view is a good one, and only wants a few medifications or amendments, and to be rigidly enforced, when it promises to be of incalcidable advantage to this Province; both by enhancing the value, and establishing the character, of that staple article of our Exports.—And the Committee are much gratified to hear from several respectable Merchants, who are engaged in Foreign Trade, that their Correspondents abreed, particularly those at the Island of Jamaica, are highly pleased with the Act, and with its operation, and that it has given a character to our Pickled Fish, before unknown.

But the Committee regret to find that abuses have crept in, which perhaps were in a great measure unavoidable in the enforcement of a new Law, that requires so many points to guard against, as is absolutely necessary in this new Inspection Act.

The greatest difficulty appears to have taken place in the town of Halifax, where the Chief Inspector, in violation, or misconstruction, of the Second Clause of the Act—instead of qualitying his Deputies, by taking Bends, according to said Second Clause, and allowing them to place their own Brands on said tierces, barrels or half barrels, of Pickled Fish, inspected by said Deputies; and said Deputies to receive seven pence per tierce, five pence per barrel, and three penee half penny per half barrel—according to the SixthClause of the Act, he through negligence, or misconception, of the Seventh Clause of said Act, hired men at the rate of four Shillings per day, while at work, to inspect Pickled Fish, and allowed others to place his own Brand thereon as occasion required; and in several in-

stances without being present himself. either at the inspecting, packing or branding said Fish.

This kind of management, with one or two gross abuses that have been detected, created a disgust in the minds of several of the Merchants and other well meaning Persons, who wished to see the Law go completely into effect; and this murmuring, the Committee hope, will lead to the most beneficial results, as it has caused an impartial investigation of the whole thing, and placed in our possession that kind of information, which perhaps was wanting before we could add such amendments as would make the Law better understood and more complete:

We are aware, that to rigidly enforce this Inspection Act, and to carry it into complete operation, the Chief Inspector has many difficulties to eurounter, such as getting men for Deputies, who are acquainted with the nature of Pickled Fish, and the different Duties of their Office, as, from the slovenly, loose manner, in which that article has been heretofore put up, in this Province, every one connected with the business, from the Fisherman to the Merchant, has something to learn, consequently many Men, who are well qualified for inspectors, were afraid to un-

And as the Chief Inspector is responsible for all Frauds, &c. that are committed by the congivance, or neglect, of his Deputies, and receives three pence per Tierce, two-pence-halfpenny per Barrel, and one penny-halfpenny per Half-Barrel, for all the Fickled Fish put up within this Province as an indemnity for his responsibility, it was never contemplated by the Act, that he would inspect Fish himself, although the Law allows him to do it. And ar it behaves him, both for the satisfaction of the Public, and for his own Security, to have Deputies that know

then business and can be depended on, the Commutee recommend, that all Deputy-Inspecters, hereafter appointed, shall be Cooper's business, they must be better acquainted with Pushed Fish, than any other class of people, consequently we are of opinion, that if the Wharves of the Town of Halifax were divided into Districts, and a Master Cooper appointed as the Inspector for each District, it would very much facilitate the operation and enforcement of the Law, and be satisfactory to all

Darites.

It appears that the Seine Mickarel Fishery at Canso, has heretofore been a great injury to the character of our Mackarel, as at that place, for these several years part, they have been in the habit of drawing on Shore, larger quantities of this Fish than they could well save, and much of it has been allowed to get tainted before it was spir, and was then put up into Barrels, and imposed on this and other Markets, to the manifest injury of the Merchant, Consumer, and all concerned. We therefore recommend to all the Inspectors of Pickled Fish, to give particular attention to the Mackarel from Canso. Besides the evil before mentioned, it is supposed that by hauling large quantities of Fish in Seines, and allowing that Fish to get putrid in the Land Wash, and sometimes tripping Seines with a great number of half-dead Mackarel therein, it has had the effect of driving that valuable Fish, from our Coast, we therefore hope, that by rigidly enfecting this Law, and by condemning all had Fish it will cause the Fisherman to be more careful in Curing his Mackarel, which will probably enhance the value, and increase the demand, for that Article, when it will become an object to send our small Vessels on Mackarel Voyages from our shores, and in the Bay of Fundy, and generally to enter more extensively into that business.

Committee on Papers relative to proposed Light. House on Cross Island report

Mr. Rudolf reported from the Committee, to whom were referred, the Papers transmitted to the House by command of His Excellency the Lieutenant-Governor, relative to the erection of a Light House on Cross Island, at the entrance of Lunenburgh. Harbour, and he read the Report in his place, and afterwards delivered it in at the

Clerk's Table, where it was read, and is as follows, viz:—

That the Committee, on enquiring into the matters referred to them, regret to find, that the Commissioners of Light Houses, notwithstanding the positive Orders of His Excellency Sir James Kempt, given to them in accordance with the request and Besolution of this House, in the last Session, did not obtain the information desired by this House, owing to the recommendation of the late President, not to incur any expense, as set forth in their Letter to Sir Rupert George, dated, 29th Feb. 1829; that, consequently, the Resolution of the House has been rendered nugatory -the command of His Excellency not attended to, and the desirable object the House had view not accom-

The Committee have endeavoured to supply the defect, and have obtained every information on the subject in their power to cone at, and the result of their enquiry has convinced them, that the proposed ejection of a Light House on Cross Island. would be a measure highly expedient, and greatly advantageous to the Trade of this Province: in correboration of this statement, the Committee beg leave to refer to the opinions of several Centlemen, who, at their request, attended before this Committee, and who, being persons of great Nautical Experience, and intimately acquainted with the Coasts of this i'rovince, were peculiarly competent to give an opinion on the subject in question, and copies of whose examinations, as taken down in writing, are hereunto annexed, and will, this Committee trust, prove as satisfactory to the House as they have been to the Committee.

The Committee have therefore no hesitation in earnestly recommending to the House. that measures should be taken to procure, with all possible expedition, the erection of the proposed Light-House, which the Committee cannot but consider will prove extremely useful to all Persons concerned in Navigation, and the Trade of the Province in gene-

And this Committee are of opinion, that a Light-Flouse can be erected on said Island, at a very moderate expense, compared with other Establishments of this nature, as abundance of Materials can be had for Building in that neighbourhood.

The copies of examinations therein referred to, were also read by the Clerk, and are,

as follow, viz:-

Conics of Examinations taken before the Committee, relative to the Light-House on

Cross Island, 4th March, 1529.

John Jones, Master of His Majesty's Ship Hussar: I have been seven years on this station, and constantly in the habit of conducting His Majesty's Ships on this Coast; I am well acquainted with the position of Cross Island, and I think there is no place where a Light-House could be placed with more advantage, for it would not only be a guide to Halifax Harbour, but would also serve as a Light for St. Margarets Bay, which is a fine Bay with good anchorage, and in place of being afraid to run for that Bay, as we now are, if there were a Light-House there, we should seek it willingly; the Light would also serve as an excellent mark for vessels going to Halifax, as we should make Sambro Light before losing that on Cross Island. As a distinguishing mark 1 think that it would be advisable to have but one Light at Shelburne, and to place

posed Light.

House

relative to pro-

two Lights on Cross Island, which would make a sufficient distinction. From the prevalence of westerly winds on this Coast, every body endeavours to make the Western Shore when steering for the Harbour of Halifax, and, for that reason, I think the Light

on Cross Island would be highly beneficial.

John Douglas, Master Attendant of His Majesty's Naval Yard: I have been fourteen years on this station, and am well acquented with the Coast, and I think that Cross Island is the best position on the Western Shore, between Sambro Light House and Coffin's Island, for placing a Light-House and i consider it highly necessary and expedient to have a Light-House there, as well, for the benefit of His Majesty's Ships, as for the Trade of the Province in general; I also think the best distinction would be, to put out the Lower Light at Shelburne, and to have two Lights on Cross Island. My opinion is given from local knowledge, having visited every Island and Harbour along the Coast, as Commissioner of Light-Houses.

Samuel Cunard and Thomas Maynard, Commissioners of Light-Houses, having read \*the opinions given by Mr. Jones, and Mr. Douglas, from their knowledge of nautica affairs, and their acquaintance with the plan in question, which Mr. Jones, and Mr. Douglas possess, Mr. Cunard and Capt Maynard fully concur in their opinions, as to

the necessity and expediency of erecting a Light House on Cross Island.

Committee Room, 4th March, 1829.

On motion, ordered, that the said Report be received by the House, and do lie on the lable.

On motion, the House resolved itself into a Committee of the whole House, to consider further of a Supply.

Mr. Speaker left the Chair, Mr. Bishop took the Chair,

Mr. Speaker resumed the Chair.

The Chairman reported from the Committee, that they had made some progress in the business to them referred, and that the Committee had come to two kesolutions thereupon, which they had directed him to report the House; and he read the same in his place, and afterwards delivered them in at the Clerk's Table, where they were read, and are as follow, viz:

Resolved, That it is the opinion of this Committee, that a further sum of Seven Thousand Pounds should be granted for the service of the Great Roads and Bridges thereon, Resolution for Division, presented to the House on Friday the 6th inst. by the Committee appointed

for that purpose.

Resolved. That it is the opinion of this Committee, that the sum of One Thousand Five Hundred Pounds, be granted for the service of Cross Roads, not adequately provided for, to be distributed as follows, viz:

#### PRAYERS.

Report on. Petition of Messrs, Piers Mr. Fairbanks, reported from the Committee to whom was referred the Petition of Messrs. Temple and Lewis Piers, and he read the report in his place, and afterwards delivered it in at the Clerk's Table; where it was read, and is as follows, viz:

The Committee to whom was referred the Petition of Temple F. Piers and Lewis E. Piers of Halifax, Merchants, Praying to be allowed the amount of the Duties by them paid or secured on certain quantities of Hemp imported by them from Foreign Countries, for their Manufacture of Cordage, and praying for encouragement to such Ma-

That they have considered of the matters referred to them, and have been attended by one of the Petitioner's who was examined thereon before them and produced evidence that for the articles of Hemp imported to be used in their Roperwalk, or establishment on the Peninsula of Halifax, they had paid the Duty of seven and one half per cent under the Act 6 George the 4th, Chapter 114, amounting to two hundred and ten pounds six shillings and two pence, Halifax Currency, and had on sixty-six tons of the same article deposited in the Warehouse for want of Sore Room at the Manufactory secured the same rate of duty amounting to one hundred and sixty-eight pounds eighteen shillings and seven-pence, currency, which sum they will soon be obliged to pay as they have given notice, that it is intended for consumption here.

The Committee find that the manufactory established by the Petitioners, was commenced before the imposition of any duty on the raw material, and when no such tax was reasonably to be expected. That the Buildings, Stock and Machinery, which last is of the most approved and superior construction, have cost the Petitioners from 7.5001, to 8.6001, and that some further expenditures are required to perfect their establishment. That twenty one pers us and their hoises are in constant employment. That the Petitioners were obliged to resort to Scotland for their principal workmen, and to incur the great expense of bringing their families hither, and providing houses for their accommodation; and of engaging them for a period of years. That since it commenced operations, their Establishment has been found of very essential benefit to our shipping, by the dispatch with which orders are executed; the standing righing for a large ship being usually delivered within two or three days after the order for it, and also by the excellent quality of that important part of a ship's equipment, none but the most superior kind of hemp being ever used by the Fetitioners, and no worn cordage being ever relaid.

The Committee further find, that in the years 1827 and 1829, upwards of eighty three Tons of the best Hemp, have been entered for consumption by the Politioners, of which only ten Tons have been brought from Seutland, all the residue, with the quantity in Warehouse, being imported from Foreign Europe, and being the returns for the

produce of our Fisheries, exported from Halirax to Brazil, in Vessels which have made the circuitous voyage It is also stated, that the Petitioners by the aid of their Machinery, produce Cordage thence to Europe and back. of great and equal strength throughout, and can consume yearly, if duly encouraged, from 150 to 200 Tons of Hemp. the imporation of which would afford employment for a number of Vessels, and increase the exports of the Province.

But your Committee regret to find, that under the duty, payable on the Raw Material, and under the encouragement which the cheapness of labor in Russia, and the duties imposed on the export of Hemp, from thence give to the local Manufacturers of Cordage there, the Petitioners cannot compete in this market with that Foreign Article in those descriptions of Rope, which are required for the running rigging &c. of Ships; and that although the Petitioners have reduced the price of their Cordage. Five Shillings below the salling price of British made Rope, namely Seventy Shillings the Cwt. and sell for Sixty-five Shillings, yet the Foreign Cordage is freely sold at Fifty-five Shillings, to the injury as well of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Verselve and the sell of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Verselve and the sell of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Verselve and the sell of the Petitioners as of the sell of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Petitioners as of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Petitioners as of the Petitioners as of the Home Manufacture of Great Britain, and persons to the right of the Petitioners as of the Petitioner haps to the risk of the Vessels equipped with an Article, whose quality the purchaser, although tempted by its cheapness, has no means of ascertaining.

In reference to the future protection, the Petitioners seek, the Committee find, that although Hemp is subject to the aforesaid duty, when imported hither direct, yet that it may be brought duty free from a Warehouse, in Great Britain, under a recent Act. The Committee are however, satisfied, by the expences shewn to be incurred by one Vessel who pursued this method, that it can afford no relief to the importer of Hemp; and they therefore consider that as the enactment proves the inclination of the Government to waive, in favor of British Snipping, the existing duties, the Petitioners are entitled to any aid that can be afforded by this House, for procuring a more beneficial

arrangement in this matter.

The Committee in conclusion beg to state, that, in their opinion, the Establishment of the Petitioners is highly useful, and deserves the favourable consideration of this House, and as their heavy expenditures were commenced, when Hemp was free of duty, and as that duty has operated most injuriously upon them by occasioning an actual yearly loss on their business, of considerable amount, which, without those duties, would not have occurred. The Committee have agreed to recommend to the House that a sum of money in some degree commensurate with such injury be granted to the Petitioners by way of a Bounty on their Manufacture, and to encourage the prosecution of a Branch of business, which has a direct tendency to benefit the Shipping interest as well as the Fisheries of this

the Report on etition of Halifax
Whaling Association

### SATURDAY, 14th MARCH, 1829.

The Committee have taken into their consideration the Petition of the Whaling Association, praying for the immediate payment of the Bounty offered by the Legislature in the Session of 1825; this Petition on the 11th February last, had been transmitted to His Excellency the Lieutenant-Governor, in order that he might draw a Warrant on the Treasury for the amount; and it was accompanied with such documents and proofs, as the Company could furnish to escablish their claim for the money .- These Papers by command of His Excellency, were handed over to the Attorney General, for his legal opinion; and that Officer, after examining the condition; annexed to the bounty, and comparing the evidence produced, seems to have felt some hesitation, and did not venture to reconmend the immediate payment, but advised His Excellency to refer the Case to the General Assembly, now sitting

that they might express their opinion on it.

The Committee feel satisfied, that the terms on which the Bounty was offered, bave been punctually followed, and complied with, by the Association, in so far as the enterprise has been hitherto concluded—that the Ship fitted, out for this voyage, and called the Pacific, is owned in this Province; that she has crossed the equator-that she had reached the fishing ground and secured part of her cargo of Oil; and the only difficulty which occasions doubt arises from the Legislative grant requiring that satisfactory proof must be produced that the Ship, for which the Bounty is claimed has been actually engaged in such Whaling Voyage two full years; the Certificate of clearance obtained from the Officers at this port is dated on the 21st January 1827, and four days afterwards the Ship sail. ed from Halitax, and the voyage commenced. On the fourth day of last month viz: February 4th 1829, the period of two full years has expired; but the accounts of the Ship came no further down than the Sist May 1828. An American Newspaper, part of which is attached to the other documents, states as Maritime intelligence, that there had touched at Oahee, the Pacific, Cartwright, from Halifax, Nova-Scotia-May Sist 1928, this printed notice, along with the Affidavit of the Petitioners, is unquestionable evidence that at the date above referred to, the Ship was on the Pacific Orean, and engaged in the object of her voyage, and there is the strongest and most reasonable presumption that she is still prosecuting the Fishery, or if her Cargo be completed, on her way homewards. The registered burthen of the said Ship, as is attested by the Certificate of the Custom-House, amounts to 40° and the control of the custom strongest and ship as is attested by the Certificate of the Custom-House, amounts to 40° and the custom strongest and ship as is attested by the Certificate of the Custom strongest and ship as is attested by the Certificate of the Custom strongest and ship as is attested by the Certificate of the Custom strongest and ship as a strongest as a strongest and ship as a strongest and shi

Tous, and as the Bounty is at the rate of two Pounds ten shillings per Ton, the sum which can be claimed by the

Whaling Association from the Treasury, will be One Thousand and five pounds Currency.

Petition of Canal Company postpened

## TUESDAY 17th MARCH, 1829.

·PRAYERS,

A Petition of Joseph Allison and others, Merchants, and principal Inhabitants of Halifax, was presented by Mr. Fairbanks, and read, praying, that some measures may be adopted to afford a supply of small Silver Change for the advantage of trade throughout the Province; and thereupon,

Resolved, That the Petition be referred to Mr. Fairbanks, Mr. Stewart, Mr. G. Smith, Mr. Haliburton and Mr. Lawson, to examine and report thereon to the House.

Mr. Forman reported from the Committee, on the Petition of the Western Stage Coach Company, and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz:—
The Committee to whom was referred the Petition of the Western Stage Coach Company, having examined in-

to the merits of that Petition have agreed to report and do accordingly report as follows, that is to say:

That as regards that part of the Petition which prays a return of Duties paid by the Company on the importation of the Coaches, as the object in view was one, which has been productive of great convenience to the public.—The Committee recommend, that the said Duties amounting to the sum of sixty six pounds six shillings and one penny shall be repaid to the Company; but as respects that part of the Petition which prays a further annual allowance for the purpose of enabling the Company to increase the number of Coaches, and to run a daily Carriage between Halifax and Windsor, the Committee conceive that under the present circumstances of the Province, there does not exist any urgent necessity for a more frequent Communication than that which the Company are already bound to keep up; and as it is probable similar applications for aid to encourage Stage Coaches in other parts of the Province, may be made to the Legislature, the Committee do not think it would be advisable to make any additional allowance to the present Company.—That the Committee find that for a period of seven months the Mail was carried by the Western Stage Coaches, although the Deputy Post Master General could not make any allowance to the Company for that Service in consequence of his having already made the usual contracts with the Couriers for the whole year; the Committee therefore consider that the Company are entitled to some compensation on this Account and particularly as the public have derived great benefit from the Carriage of the Mail, by this mode of conveyance, which has enabled the Post Communication of the western part of the Province, to be more frequent than heretofore.

That the Committee do not preceive that any beneficial results will arise from granting to the Company a Charter of incorporation, and do not therefore consider it expedient to recommend that part of the prayer of the Petitioners to the favourable consideration of the House.

JOHN FORMAN,
THOS C. HALIBURTON,

Petitioners to the favourable consideration of the House.

ALEXANDER STEWART.

And thereupon, resolved, that the said Report and Petition, be referred to the Com-

mittee of Supply.

Mr. Uniacke reported from the Committee, on the several Petitions of Joseph Wiley, the Overseers of the Poor, for the Township of Yarmouth, and the Township of Cornwallis, and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read. and is as follows, viz:-

-The Committee to which was referred the several Petitions of the Overseers of the Poor for the Township of

Yarmouth, beg leave to report to this Honorable House, as follows : viz.

That they have examined into the merits of the said Petitions, and with respect to that from Cornwallis, they find the whole charge for the maintenance of a transient pauper, the medical attendance. &c. for above 6 months, together with the charges of his interment, to be 231.17s 11td. for which the items are furnished, and do not appear to be in any instance very exorbitant under the peculiar circumstances of the case. House shall deem it expedient to reimburse the Overseers of the Poor for the Township of Cornwallis, the expenses necessary and unavoidable in this case. Your Committee would not recommend any large deduction to be made from the before mentioned sum.

That with respect to the Petition from Yarmouth, they find a claim made for the maintenance of one transient pauper, with Medical attendance, &c. for about eight months, for the gross amount of 901. 16s. 6d. that the items of this sum of money are contained in three Bills annexed to the Petition,—the first is the Medical Bill amount ing to 181. 12s. 6d. for half a year's attendance, &c. which is not receipted, and which your Committee consider to be too large. The next Bill is for various articles furnished to the amount of \$1. 5s. 4d. and is receipted. The last Bill contains charges for Board alone of 571. Is which is charged for 24 weeks at 40s, per week, and a seperate charge for washing of 21. 2s. there are also contained in these accounts a charge of 51. 6s. 6d. for wire, 11. i5s. for porter, and 6s for rum, making 71. 7s. 6d. in all for Liquors not included in the charge for Board. And your Committee observe that this last bill amounting to 631. 17s. 8d. though signed by the person claiming it for Board, is not receipted.—Your Committee therefore consider most of those charges as of a most extravagant nature, particularly the third account for Board, &c. They beg leave however to recommend to the House to grant the Overseers of the Poor at Yarmouth, such moderate sum as will cover all necessary reasonable expens diture in this case, while they would respectfully suggest that if the principle be adopted of providing in the Assembly for future applications on the same grounds, that the most accurate Bills of all items of expenditure, accom-panied with receipts for every disbursement, however small, should be made a pre-requisite to any future grant of Aloney in similar cases.

Resolved. That it is the opinion of this Committee, that the sum of One Hundred and  ${f F}$ ifty Pounds should be granted and paid for the establishing and supporting a Gram-

mar School in Sydney, Cape Breton, for this year.

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again, on the consideration of a Supply: which the House agreed to.

The said Resolutions were read throughout a first and second time; and thereupon, Mr. Haliburton moved, that the Resolution for granting L.25 to Francis Penall, be not received by the House: which being seconded and put, and the House dividing thereon, there appeared for the motion, Sixteen; against it, Seventeen: So it passed in the negative.

Mr. Haliburton then moved, that the Resolution for granting L.100 towards rebuilding Sackville Church, be not received by the House: which, being seconded and put,

passed in the negative.

Mr. Oxley moved, that the resolution for granting 281. towards building a Public Slip at Digby be not received by the House, which being seconded and put, and the House dividing thereon, there appeared for the motion ten; against it twenty-two.

A Petition of Enos Churchill, jun. and others, was presented by Mr. Hartshorne, and read, praying that the seat of Mr. Barry, Member for the Township of Shelburne, may be vacated.

Ordered, That the Petition do lie on the Table.

Mr. R. Smith reported from the Committee to whom was referred that part of His Excellency's Communication of the 12th instant, relating to a Survey of a New Line of Road from Hall's to Wardrope's and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz.—

That were this Road opened, it would not only dispense with the necessity of keeping up Wardrope's Bridge, but avoid a number of very steep Hills, and shorten the distance

two miles and a quarter.

But were it not for the expenses and difficulty of erecting a bridge over the Shubenacadie, just below the Nine Mile River, your Committee would recommend the junction of this Road with Whitman's new line of Road at that place, in which case it would save the expense of making three miles of Road, and about Sixty Pounds for a Bridge across the Nine Mile River.

Report from Committee on over expenditure for roads, &c.

Mr. Fairbanks reported from the Committee to whom was referred the subject of the several over-expenditures of Monies for the service of Roads and Bridges, and he read the Report in his place and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

The Committee to whom was referred that part of the Message of His Excellency the Lieutenant-Governor, which relates to Monies over-expended on the Roads and Bridges in the Province, report as follows:

THAT the Committee have considered of the matters referred to them, and particularly stated in the accompanying Abstract marked A; and have also endeavoured to procure the fullest evidence and information relative

The Committee in the first place, as connected with the enquiry, applied for, and obtained, the Paper beneath, marked B, containing the appropriation of £3150 placed at the disposal of His Excellency Sir James Kempt, for Road improvements; the Paper marked C, containing his appropriation of the sum of £2000 for improving the eastern and western Roads, and the Paper marked D, containing the appropriation of £250 granted for the Cross Roads on the Peninsula .- These Documents explain how these several amounts were applied.

No. 8 Lower Gaspereau Bridge, Horton.—For this service a Grant was made of £200 in 1827, and of £225 in 1828, which were inadequate to the Work. On the 19th July last, the Commissioner reported that £40 was required to complete the Bridge, and £85 to sheath one of the Piers, and secure the foundation:-On this Report His Excellency authorized that Expenditure; by the accounts of the Commissioner, which the Committee have had before them, it appears that the whole cost of the Bridge was £503 18 2 and therefore that £78 18 2

has been expended beyond the Grants.

No 9. Roads and Causeway near Cunnabell's Bridge, Windsor.—For this service, two Grants amounting to £75, were made in 1828, and expended, but on the representation of the Commissioner David Dill, Esquire, strongly recommended by the Magistrates, and the Hon. the Chief Justice, His Excellency, upon the special circumstances, approved of £40 being advanced to the Commissioner in August 1828—This sum was expended, as appears by the accounts duly rendered thereof; and the Commissioner also found himself compelled, for preservation of the work done, to expend in addition, the sum of £32 10 4 as stated in his Petition referred to the Committee, of which last an Account is annexed to the Petition, making over-expended in all £72 10 4, for completing the object of the appropriation,

No. 10. Completing Salmon River Bridge in Truro .- The sum of 450l. was granted in 1828 for this Bridge, and 12:, for repairing the Causeway. In August the Commissioners represented that in consequence of the unexpected expense of the Foundation, the grant would not suffice for the erection, whereupon, His Excellency in consequence of the great importance of the Bridge, it being indispensible to the Post Communication, allowed of the advance of 150l. for the work. By the account of the Commissioner rendered, the expense of the whole Bridge, which some of the Committee, from personal knowledge, highly aprove of, amounted to 612l. the total

of the sums 4501. 121. and 1501. applied as aforesaid.

No. 11. Completing De Burt Bridge, Londonderry : for this service 1001, was granted The amount appeared wholly inadequate, the state of the work was examined by John Wier, Esq. who reported thereon, that 501.

## THURSDAY, 19th MARCH, 1829.

or £60 was required, for its completion. His Excellency, in consideration of the Bridge being on a Great Road allowed £50 to be advanced. By the Commissioners Accounts it appears that £55 7s. 9d, has been properly expended on the work beyond the criginal grant of £100.

No. 12. Alteration of Pictou Road on Mount Tom. For this service, His Excellency applied £1000 ont of the £2000 in abstract C. The work was commenced by Peter Crearer, as Commissioner, under instructions which have been furnished to the Committee, and which direct the work and the mode of its execution. The Commissioner The Commissioner finding that the sum of £1000 would not be adequate to complete the alteration, applied for a further sum towards it. His application was submitted to His Majesty's Council on the 9th September, by His Honor the President, who by an order of that date authorized Mr. Crearer to expend £300 in completing the alteration. By the account furnished the Committee, they found that £1208 14s. 6id. has been actually expended, and it further appears that two orders for £25, and £75 of the Commissioner on the Treasurer were advanced by the Collector at Pictou, who has charged them in his account. The Committee regret that previous to the advance of the £300, the Members of the County of Halifax were not consulted thereon, and the advice of those Gentlemen taken, who, from residence, were more intimately acquainted with the necessity of the expenditure.

No. 13. Opening Road between River Inhabitants and Grande Dique, in Cape-Breton.
For this service £400 was granted, and Alexander Grant appointed Commissioner; on the 11th August, he reported his progress in the expenditure, and stated that the vote would be insufficient by nearly £220 for the opening this Road, and stated that if the money could be advanced, the expenditure would be made with more advantage, while the men and tools were on the spot than at any other period. This application was made with the concurrence of Richard J. Uniacke, Esq. Member for Cape-Breton, and strongly recommended by him; and he now states, that, from the state of the work and of the Country, and the necessity of the Road, the benefit of the vote would have been greatly diminished, unless the additional sum had been allowed. Upon these applications his Honor the President sanctioned the advance of £220, and the whole sum has been expended on the Road as applications had been expended on the Road as applications.

pears by the accounts of the Commissioner which the Committee has had before them. On the subject of over-expenditure of Public Money, beyond the amounts provided by this House, the Committee consider, that although circumstances have and may frequently occur where the public interest will be effectually served by further advances, yet the principle and practise is attended with serious objections, and must for the future be effectually resisted. For this end, they beg to submit for the adoption of the House, a resolution which they trust will put a stop to such unauthorized applications of the Public Monies, which the House, and no other, has the sole right to dispose of; nevertheless as this House by former votes, and by a relaxation of its own strict rules on the subject, appears in some degree to have overlooked former proceedings of this nature, and have frequently heretofore granted to Road Commissioners the sums over-expended, the Committee have concluded to recommend to the House to grant the sums required, to replace what has been so over-expended, and they rather adopt this recommendation from the opinion they entertain that the services are rather of a general than a local nature, and such principally as the House in the present Session would otherwise have been called on to provide

The accounts and vouchers for the expenditure appear regular, and the presumption in many cases is that the Commissioner while he had a party of men employed in the work, and tools, and other necessaries provided, can complete the objects of the grants at a much less expense than it could be done by another party of workmen at a different season, and the Committee know that under the present practice of beginning Bridges and other important works without regular estimates being first obtained of their probable expense, must unavoidably occasion an additional cost on their erection, or subject the public to some loss from leaving them in an incomplete state; but in recommending the grant of the sums over expended as appears by the message, the Committee cannot in justice exclude other parts of the Country from the same benefit, and they have therefore considered of the follows ing over-expenditures:

On the Road from Dartmouth to Fletcher's-Amount over-expended £698 5 3 On the New Line on the Truro Road, 198 12 1 On the Wallace Bridge in Cumberland, 289 18 6 On the alteration in the County of Sydney, from Lucas Bridge to Campbell's Bridge on the Road from Guysboro' to Antigonish, 48

Being in all, The Accounts, properly authenticated, for all these advances, have been considered by the Committee, and appear correct. They are made on great and important Public Roads, and by the recommendation and particular sauction and request of the Members for the Counties, and in consequence the Country has had the benefit of the expenditure. These are not included in the Message, being made, not on the public account, but, on private responsibility, and from the necessity of the cases respectively, and the objects for which those amounts were give deserve the favorable consideration of the House.

The Committee therefore recommend, that the Sum of £2110 12s. 7d. be granted to pay the said over-expendi-

ture	as follows-	No. 8, Completing Gaspereau Bridge	£ 78	18	2	•

Bill relating to liberty of Subject deferred three months An engrossed Bill from the Council, entitled, An Act for the preservation of the liberty of the Subject by preventing Arrests in certain Cases, was read a second time; and thereupon,

Mr. Haliburton moved, that the further consideration of the Bill be deferred to this day three months: which being seconded and put, and the House dividing thereon, there appeared for the motion, Twenty-two; against it, Eight: So it passed in the affirmative.

Abstract of
Bonds of Provincial Officers laid before the
House

Mr. Speaker communicated to the House, a Letter recived by him from Mr. Secretary George, dated this day, transmitting, in compliance with the request of the Committee, who waited yesterday upon His Excellency the Lieutenant-Governor, for the information of the House, and which Mr. Speaker also laid before the House, an Abstract of the Bonds deposited in the Office of the Provincial Secretary, by such Provincial Officers as by Law are required to give Security.

The said Abstract was read by the Clerk; and thereupon,

Ordered, That the Letter and Abstract do lie on the Table, to be perused by the Members of the House.

Further Conference on general state of Province, with instructions as to Road Service Mr. Haliburton moved, that further a Conference be requested with His Majesty's Council, by Committee, on the subject of the last Conference; and the Committee of this House who manage said Conference, be instructed to state, that this House consider the Great Post Roads, the Great Roads, and Cross Roads, or Communications into new Settlements, as possessing equal claims upon the consideration of this House, inasmuch as the former facilitate the intercourse of the Interior with the Capital, and the latter promote the settlement of the Country; and that this House has made a careful and equitable distribution of the Money appropriated for that Service, to and among the said Roads, so far as the Money would extend; and that the Committee be further instructed to state, that this House consider the Law passed during the last Session of this House, to regulate the Expenditure of Money upon the Great Post Roads, as applicable to the Great Western and Great Eastern Roads only: the former terminating at Yarmouth, and the latter at Pictou and Cumberland—which being seconded; thereupon,

Amendment moved and negatived

Mr. Stewart moved an amendment thereof, as follows: Leave out the words of the original Resolution after the word "state," and in place of the words so left out, insert the following, viz: "That the House are desirous of confining the operation of the Act of the last Session to the Great Roads, East and West, to New-Brunswick;" and that they

A Message from the Council, by Mr. Hill:

Mr. Speaker,

The Council agree to the Conference desired by this House, on the subject of the last from Council Conference,

Resolved, That the Managers of the last Conference, do manage this Conference.

So they went to the Conference,

And being returned,

Mr. Haliburton reported that the Managers had been at the Conference, and com-

plied with the instructions given them by this House.

Mr. Fairbanks moved, that the House do come to a Resolution as followeth, viz: Resolved, That this House do highly disapprove of advances from the Treasury, or over-expenditures of Public Monies, either upon the Road Service, or for any other purpose not expressly sanctioned by the vote of the House; and that in future this House ry will not grant Monies for the repayment of any such over-expenditures, unless in cases of the most pressing emergency, and where the public service would otherwise suffer severely by delay; and in such cases, the House will require that the advances be recommended by the Members for the County where the expense is needed; that it be approved of by Mr. Speaker, and be paid only upon the express order of the Lieutenant-Governor, by the advice of His Majesty's Council; and further that the account and particulars of the advance be laid before the House in the first week of the Session: which being seconded: thereupon.

Mr. Stewart moved, as an amendment thereof, as follows:—

Amendment moved and negatived

Leave out all that part of the Resolution which relates to the recommendation of the Members and Speaker, as to the advances of the Monies; which being seconded and put, and the House dividing thereon, there appeared for the motion, sixteen; against it, twenty-one: so it passed in the negative.

The original Resolution was then put, and the House dividing thereon, there appear-

ed for the motion, twenty; against it, seventeen:

So it passed in the affirmative.

On motion of Mr. Haliburton, resolved, that such over-expenditure, if approved of by on same the House, shall be provided for out of the share of public money set off, or to be set off, subject at the next Session of the Assembly for the Town or County in which such over-expenditure shall take place, and that this House will in nowise authorise an over-expenditure except for Bridges.

## FRIDAY and SATURDAY, 20th and 21st MARCH, 1829.

Report from Committee on advances for relief of distressed Emis gratits and Negroes Mr. Rosch reported from the Committee to whom was referred that part of His Excellency's Message relating to advances made from the Treasury for the relief of distressed Emigrants and Negroes, and he read the report in his place, and afterwards delivered it in at the Clerk's table where it was read, and is as follows, viz:—

The Committee to whom was referred that part of the Lieutenant-Governor's Message on the subject of the advances made from the Preasury in the year 1828, for the relief of Negroes at Hammonds Plains, Settlers in distress on the Dras d'Or Lake, Settlers in distress on the Ohio Settlement in the County of Sydney, and Ship-weeked Mariners, Report as follows:

First, it appears that at Hammonds Plains there are settled many Negroes who were brought to this Country in the late wars; they suffer much through the Winter from Poverty, and towards last Spring they were found to be in that state of wretchedness and misery, that the Executive had no alternative but to afford relief, which was done to the extent of £55 1 7½; the accounts appear correct and the expenditure judicious.

Second,—The Negroes of the above description have generally received £100 to purchase Seed Potatoes: from inadvertance or some cause unknown, the usual vote was not given during the last Session, consequently to prevent distress, the Executive advanced £100 to purchase Seed Potatoes, which appear to have been faithfully distributed among them, and for which sum of £100 the House in the last Session passed a resolution.

Third,—In St. Andrew's Channel, Bras d'Or Lake. Cape Breton, one hundred and twenty-seven Scotch Settlers arrived, passed the Winter in great misery, and in last May a Pention was sent to the Licutenant-Governor stating their destitute situation and the misery they had endured, being dependant on the bounty of the Scotch Families already settled there, who it appears shared to the last their provisions with them: This Petition coming before the Executive, vouched by the Magistracy, a supply of Potatoes was sent down to them for planting, to the amount of £91 5 which were divided among them.

Fourth,—The Right Reverend the Bishop of Tanen, and several Gentlemen, represented to the late President the distressed situation of many Settlers at a place called Ohio, on the West River of Antigonish, from the total failure of their crops: it appears from the best information the Committee have received, that it was necessary to afford relief, consequently a supply of Oatmeal was forwarded to the amount of £120 6 5. The Committee must here remark that the persons receiving those Supplies are, to the extent afforded, to give their labor on the public Roads.

Fifthly.—The Committee highly approve of this expenditure; Sir Richard Grant commanding His Majesty's Ship Tyne, saved from the Brig Dispatch 200 Irish Emigrants, bound from Ireland to Quebec, wrecked near Port aux Basques, on the Newfoundland Coast: they arrived here destitute of Clothing, and every comfort, and must have perished on the rocks where Sir Richard found them had they not been brought up here. His Excellency, by the advice of His Majesty's Council, appointed a Committee, who with economy relieved their distresses and wants. An expenditure of 2001, was made, which under all circumstances, from the information obstained, appears to have been reasonable and judicious.

Sixth.—A number of Irish Emigrants arrived on the shores of Cape-Breton, destitute of food and the means of procuring it. The Report brought up from the Magistracy of the County, showed them to be in a starving state, and no alternative was left but immediate relief: supplies of Fish and Potatoes were furnished and an expense incurred of 2611. Ss. 0d.

As the expenditure of these sums appears to have been made by the Exacutive Government from unforeseen constingencies of distress and misery, the Committee consider it their duty to bring under the notice of the House, the very prompt and effectual manner in which the late Lieutenant Government Sir James Kempt, and the Administrator of the Government, the Honorable Michael Waltace, aided by His Majesty's Council, relieved these true by unfortunate People, a measure alike honorable to themselves, as it will be gratifying to the People of Nova-Scotia.

Report on Sher ft's Account, referred to Committee of Supply

Mr. Haliburton reported from the Committee, to whom were referred the several accounts of Sheriffs for taking the Census of the Province, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz:—

## SATURDAY, 21st MARCH, 1829.

The first object which this Committee had in view, was to establish, if possible, some scale by which the service of every Officer should be estimated, either by allowing a certain sum per diem, or fixing a scale proportioned to the population, but in neither case would any general rule apply to all: the extent, local situation, and population of every County or District having something peculiar to distinguish it from every other. The total amount for this service appearing to the Committee to be very large, they turned their attention to the enquiry whether it arose from the over-charge of the officers, or from any peculiar difficulty encountered in performing the duty, and they discovered that it arose in a great measure from the circustances of their being required to collect returns of the Harvest of 1827, of the stock of the country, of the quantity of cultivated land, and of the number and extent of the several religious denominations, which rendered the returns complicated and difficult, and occasioned great additional trouble, and much time. In order to embrace the productions of the soil of that year, it become necessary to delay the reports until after Harvest, by which means this labor, instead of being performed at different times throughout the summer, at the leisure and convenience of the officers, and as best comported both with their private and official labors, it was executed in one continued, laborious effort. vendered more expensive and more fatiguing from the late season of the year, the bad state of the Road, and the shortness of the days, in addition to which it appears that after a part of the service was performed, an important alteration was made in the form by which all the previous service was rendered useless, and was to be again performed. On the several accounts we beg leave to observe as follows-

That the Sheriff of the County of Halifax appears to have taken the Census in the most accurate and careful manner, and, by separating the returns of the different Settlements, has rendered it a most valuable document. In addition to the general observations contained in the report we have to add that at the time he performed this ser-chester disproportioned to others, and recommend a deduction of £10 0 0

Aiso, a deduction for the same reason on account of Sheriff of District of Pictou, of

Also, a deduction in the account of Sheriff of Queen's, for same reason of The Accounts of the Sheriff of Cumberland, Cape. Breton, Sydney, Lunenburg, Annapolis, Shelburne, King's

County, and Hants, we think not unreasonable, and the balance that remains due we recommend to be paid. Resolved, That the Report and Accounts be referred to the Committee of Supply.

Mr. Stewart reported from the Committee on the Accounts relating to the Provincial Stud, and he read the report in his place, and afterwards delivered it in at the

Clerk's table, where it was read, and is as follows, viz:

The Committee to whom were referred the accounts of the expenses of the Provincial Stud, Report, that they have examined the same, find them to be correct, and have prepared an abstract of them [which accompanies this Report] for the information of the House. It will appear by this abstract that the House will have to provide the present Session, the sum of £55.4 10½, there being undrawn of the vote of 1827, the sum of £93 14 3½, and the whole sum due up to the 20th Feb. last, being £148 19 1½. It will further appear that the annual expense of the Stud for the years 1827 and 1828 to the Province has been about 200 Guineas. The Committee therefore cannot recommend that the Stud should be retained as the Property of the Public, for although the Commissioner has expended the Public Monies which have passed through his hands with the greatest economy, and although from the low rate at which the Horses served at the different parts of the Province, a benefit perhaps commensurate with this expenditure has been derived to the Country, yet the Committee are satisfied that greater advantages will result from the Horses becoming Private Property, while the Colony will be relieved from a very considerable annual charge.

The Committee therefore respectfully recommend to this Honorable House, that the Commissioner be directed to sell the same at Public Auction, giving two or three weeks notice of the time and place of Sale; that the proceeds of the Sale should be paid into the Provincial Treasury, and the Purchasers required to give sufficient Bonds to the Secretary of the Province, that the Horses shall be kept and employed as Seed Horses within this Province, vince for a period of at least three years from the day of Sale. The Committee would not be doing justice to Mr. Uniacke, who, at the particular request of His Excellency Sir James Kempt, took charge of the Stud in the year 1827, and has since unremittingly given his particular attention to it, if they did not express their sense of the ability, care, and economy with which he has discharged the trust reposed in him. From its nature, his time must have been much occupied in the discharge of it, not only while the Horses remained in Town but when they were in the Country. The Committee therefore feel it to be due to themselves and to the House [although against the wish of Mr. Uniacke] to submit to the House the justice as well as propriety of remunerating that Gentleman for the services he has thus rendered to the Public

Ordered, That the Report do lie on the Table.

Mr. Church moved that the House do come to a Resolution as followeth, viz:

Resolved, That this House will not make any further provision for the Avon Bridge in future beyond the sum of L1,500 already granted, nor pledge the Provincial Funds in tive to any way, it being a work of too great magnitude to be entered upon while a debt hangs over the Province, which being seconded, thereupon-

On motion of Mr. J. R. Dewolf, resolved, that the question be not now put. .

Mr. Dickson, pursuant to leave given, presented a Bill for Incorporating the Wes-Bills reported

tern Stage Coach Company; and the same was read a first time.

Mr. Young, pursuant to leave given, presented a Bill in addition to and amendment of an Act, made and passed in the seventh year of the reign of His present Majesty, entitled, An Act for the more easy recovery of Debts against Co-Partners and Joint Debtors; and the same was read a first time.

Mr. Fairbanks, pursuant to leave given, presented a Bill, in amendment of the Act to make further provision for the Equal Administration of Justice in the Province of No-

va-Scotia—also.

A Bill in further addition to, and amendment of, the Act relating to Highways, Roads and Bridges-also,

A Bill for aiding the Shubenacadie Canal Company—also,

A Bill for amending the practice of the Court of Chancery, and diminishing the ex-

pense thereof—also.

A Bill to enable the Inhabitants of the respective Townships in the Province, to hold Lands for public purposes; and the same were severally read a first time.

Resolved. That the Bills be read a second time.

Mr. Fairbanks reported from the Committee, to whom was referred the Message of Report on His Excellency the Lieutenant-Governor, on the subject of the Custom-House Establishment, and he read the report in his place, and afterwards delivered it in at the blishment Clerk's Table, where it was read, and is as follows:

The Committee to whom was referred the Message of His Excellency the Lieutenant-Governor, respecting the

Fees and Salaries of the Custom-House Establishment, have agreed to report as follows:—
In considering the important subject referred to the Committee, their enquiries have been, beyond the more immediate object of the Message, necessarily extended to the construction of the late Acts of Parliament, and their operation on the Revenue and Commerce of the Province. This investigation has also rendered essential the examination, upon several points, of Merchants conversant with the Trade to Foreign Countries, and the existing Custom House regulations;—in order that the Honorable House might be possessed of all possible

information upon the question for its decision—and the results are now respectfully submitted.

The Committee first refer to the new Colonial System, which commenced in 1826—and, after examining it in its general operation, agree in opinion, that it was both intended to confer, and has actually procured to this Province, very great and essential advantages. Until that time our Shipping had, with Foreign Countries, an intercourse only of the most limited kind.—Now it is general, and without restriction. Formerly the circuitous voyages, now very advantageously pursued, could not be attempted—and the produce of our Fisheries was principally exported to the West-Indies. Under the new System, this Market is relieved by the demand for that produce in more distant Countries, heretofore seldom visited by Colonial Vessels; and to Foreign Ships, against that they that we had with far avantions have developed our province are now freely opened. The convenience which they had, with few exceptions, been always closed, our ports are now freely opened. The convenience of Warehousing Merchandise, as practised in England, is extended hither; and, for the first time in the History of British America, its navigation participates in the conveyance of Foreign Produce, wholly or partially, to its ultimate destination.

These privileges present a very gratifying contrast, not only to the ancient system of restriction and prohibition, by which a barrier was interposed against all intercourse between British and Foreign Possessions, but also to the later and changeable policy, which periodically, and in a limited degree, afforded openings for Colonial enter-prise. And whatever may have been the immediate objects of the Imperial Parliament in conferring these privileges, whether for the promotion of the Manufactures, Navigation or Commerce, of the Mother Country; or for the more liberal and generous purpose of restoring to the Colonists their equal rights with the native British Subjects, it cannot be questioned that the new system must become fruitful in benefits, wherever it can freely operate. But it was accompanied by these further advantages: The intricate, confused and indigested code of Plantation Laws, was succeeded by simple and perspiruous enactments:—and the abolition of all Fres, with the rexatious and illegal exactions in too many Ports attending them, gave general relief to all engaged in Navigation, and effected an immense saving to the Shipping interest. In all these points of view the new System of Inter-Colonial and Foreign Intercourse came recommended by powerful claims on the approval and gratitude of the Colonists; and entitled His Majesty's Government to their sincerest acknowledgments for the benefits thus con-

'I be principles developed in the Statutes of 1826 are adhered to in the later Acts that modify or amend them : and although in these last the interests of the British Ship Owner seem more distinctly pursued, yet they extend

with these favorable impressions of the new System, the Committee proceed to notice such parts of it as more simmediately bear on the Question of the Customs Establishment. The principal Statute is the 6th Geo. IV. Chapter 114, entitled, "An Act to regulate the Trade of the British Possessions abroad." This imposes duties on the Intercourse with Foreign Countries—restored by the repeal of the Prohibitory laws,—and contains numerous mogulations for the security of the Revenue. As these Duties are levied for the regulation of Trade, they appear regulations for the security of the Revenue. As these Duties are levied for the regulation of Trade, they appear plainly within the saving of the Declaratory Statute of the 18th year of His late Majesty, concerning Paxation in the Colonies; and although the rate on many articles is, perhaps needlessly, very high, and although the regularead 1st time

tions are in some instances of a nature totally repugnant to Colonial habits and feelings, yet the Committee conceive it unnecessary on these grounds to remark upon the Act. But they deem it their duty to point out, to the most particular attention of the Honourable House, the tendency of this Statute, perhaps unperceived or undersigned by its framers, to impair the most essential of the Prerogatives of this House—its control over the Revenue raised in the Colony. In its present shape, it may be asserted that this Act places at the disposal of the Executive a very large sum of duties, not annually but permanently granted; it diminishes in no moderate degree that indispensable and constitutional protection which the right of originating and applying the taxes raised on the People affords to their Representatives; and in times of excited feeling, happily as yet foreign to Us, may restrain within narrow limits that legitimate influence which this House, as the proper source whence the wants of the Provincial Government are supplied, ought ever to retain. Surely, if such results be possible under any circumstances, measures of prevention now become indispensable; and it nearly concerns the House, to provide that, so long as this permanent and productive Impost exists, no part of its Revenue shall be applied without the concurrence of the Assembly. To the local Legislature the thirteenth section of the Statute confines the appropriation; and in considering the express and unequivocal terms there used, the Committee find it difficult to comprehend on what principle of construction the right of the Province to the whole produce of these duties has ever been questioned.

The eleventh Section of the Act also demands particular attention. By the Proviso there inserted, a large portion of the ordinary and long established Provincial Buties, is required to be collected by the Officers of the Customs, and by the means and powers contained in that Statute. The effect of this regulation is, to a certain extent, the annulling the Provincial Statutes; the subjecting a branch of the Revenue, received at a small expense by our own Officers, to the heavy charge of collection by the Custom House—and, as has been strongly asserted, and this Levilleum to the during levied under it.

a prohibition to this Legislature to interfers with the Imperial Act, with regard to the duties levied under it.

Here, however, the Committee submit that, in their opinion, none of its clauses preclude the imposition of Duties by the General Assembly on Foreign Imports. As as title indicates, the Regulation of Trade is its object, and first and principally, the protection of British produce and manufactures from Foreign competition in the Colonies. These interests it effectually secures by a high rate of duties, and by the provision for their collection at the Custom-House, even though raised under Provincial Acts; and it leaves the exaction of any further tax to the local

The practical Operation of the new System on our Revenues is now to be noticed; after briefly adverting to that partial relaxation which preceded it. The Acts of 3d and 4th of Geo. IV. chapters 43, 44, and 45, passed on the 24th June, 1822—and opened more widely than before the Trade with the United States and Foreign Europe; subject however to reasonable duties, from which several unmanufactured articles were exempt. They also provided that those Duties should only be levied where no Colonial Tax on the Article existed, or only for the amount for their exsess over the latter: and those clauses are particularly deserving of remark, which direct the produce of the Duties to be paid to the Colonial Treasury where there exists a local Legislature, but the nett proceeds only where there is no Assembly. Accordingly, pursuant to this enactment, the Officers of the Customs paid over the whole produce without deduction; and in their Return specified either the amount received for the Colonial Duty on the respective imports, or stated that it exceeded the rate imposed by the Stature, and was so certified by the Excise. The Act of the same year, chap. 77, further regulated the Trade; and on the 23rd September, 1825, an Order in Council for levying 4s. 3d. sterling per ton, on Foreign American vessels went into operation. From the Returns received from the Customs, the Committee have prepared the statement A. exhibiting the produce of those Duties as well as the Provincial Duties received at the Custom-House—and it will be remarked how regular and gradual an increase took place during that period in the Foreign Commerce of the Province: proving the beneficial consequences from the partial removal, then effected, of the pre-existing restrictions. The Committee add, that Imports from Foreign Countries could then be made into every Port in the Province.

add, that Imports from Foreign Countries could then be made into every Port in the Province.

In January, 1826, the Acts, chapters 44 and 45, ceased. Till then, their provisions were the first that interfered with the Provincial Revenue;—the Officers of the Customs having always been, with one exception, confined to the main and important object of their appointment, the enforcing the Laws of Trade and Navigation, and the Registry of Shipping. The exception referred to is the collection of the Crown Duties so called. These we re, collected under several Statutes of which the principal was the 4th, Geo. III. chap. 15, but of these all that passed subsequent to the 18th Geo. III. declaratory of the right of taxation, are repeated. Until 1826 also, the whole establishment of the Customs was maintained by Fees of various kinds. These were chiefly paid by Ships not owned in the Province; but the amount levied on our Coasting Trade proved so burthensome, that repeated and strenuous, exertions for their reduction were made by the Assembly, on the ground of their being far beyond the legal allowances.

Yet, however just and urgent their representations, and notwithstanding the manifest inutility of the Naval Office as constituted, whose continuance was always complained of, no satisfactory result could be obtained until, by the New System, not only the Naval Office with its exactions, but Custom House Fees of every kind, were entirely abolished. That this House may know the extent of the charge then removed, the Commissee refer to the statement B. for the years 1823, 1824 and 1825, which shows that the average yearly amount received at the Customs was £5576 12s, 194d. currency; to which must be added at least £900, currency tor the sums collected by the several Naval Officers, making together an average yearly expense of about £6476 12s 104d. currency, or £5828. 19s. 7d. sterling. However, the precise sums then received by the Naval Officers the Committee have no means of acceptaining.

The new Acts took effect on the 5th January 1826, and were followed by the discriminating duty of 10 percent directed by an Order of His Majesty in Council of the 27th July 1826,—and by the repeal of 4th Geo. IV. chapter 77. The Tonnage Duty still continued; and in August 1827, the Acrs: 7 and 8 George IV. chap 56 made a material increase of the Duties on various Foreign Manufactures. Other regulations accompanied by some privileges to the Shipping interests were introduced by the 9th Geo. IV. chapter 76. Under these various enactments, the Officers of the Customs have collected for the three years ending on the 5th January, 1829, the sum of £66,007 is 5td, sterling, of which they have paid into the Treasury £40,149 19 6d, retaining a balance of £25,857 is 11td sterling, for the purpose of defraying, under the alleged order and direction of the Right Honorable the Lords of the Treasury, the Salaries and Expenses of the whole Establishment.

# MONDAY, 23d MARCH, 1829.

To exhibit a clearer view of the sums collected and paid over, with the charge thereon, as compared with that on the Provincial Revenue, the Committee have arranged the Table herewith marked C. and desire particularly to state that Provincial Duties to the amount of £7474 5s 34d form part of the gross sum received at the Custom-House:—and that £8462 14s.5d were produced by the Tennage and Discriminating Duties on American

Vessels; a source of Revenue which in future must be considered somewhat precarious.

From this Table it would appear, that a large Revenue to the Colony is the result of the new Duries. This, however, is not wholly correct. When these commenced, there were levied under Provincial Acts (besides specific duties) a tax of ten per cent on articles from the United States;—a Duty of 1s 3d, per gallon on the superior and 9d, on smaller Wines;—1s, per gallon on Brandy and Gin;—and S and S-4 per cent. on almost all other articles now taxed by Parliament. In the Session of 1836, a desire to avoid interference with these Acts, led to an alteration of our Reven e Laws. by which, with the exception of Wines, all Foreign Articles have ever since been exempt from Provincial Duties. Considering what otherwise these last would have produced, and the in-

-crease of Commerce even then manifest, the Committee cannot estimate the additional Revenue derived from the

Imperial Duties higher than one fourth of their gross annual produce.

In the same Session, commenced the remonstrance of the Assembly against the appropriation of this Revenue towards the charges of the Custom-House Establishment,—Till then the principle solemnly declared by the 18th George III, had been, with few exceptions, strictly adhered to. The whole proceeds levied under 4 George IV. chapters 45 and 78, were regularly paid into the Provincial Treasury—and if the abstract right of Parliament thus to tax the Colonist, was sometimes questioned, the objection was borne down by the weight of accompanying benefits. But when, without consulting this Legislature, instructions were received from the Board of Customs to detain and appropriate nearly one half of these Duties to the maintenance of its own Officers who were neither accountable to nor under the control of the Assembly, it became an imperative duty to oppose the innovation. Entrusted with Rights of too high and sacred a character to be surrendered by silence, the House conveyed, in firm and respectful terms, to His Majesty's Government, their complaint against the intended infringement of the Constitutional Rights of the Assembly-and asserted, in distinct terms, that no other Authority than this Legislature can legally direct the Collector of His Majesty's Customs to pay over the duties levied under the new Statutes to any Person but the Treasurer of the Province. The Address, on this subject, was answered by a proposal, on the part of the Lords of the Preasury, communicated to the present Assembly in 1927. In this, after referring to the common of His Majes y's Law Officers, that the charges of collecting the Duties might legally be deducted from their gross Produce, and after stating that the rates of Salary then payable were only fixed provisionally, until a fuller Report on the subject—their Lordships proposed, as a temporary arrangement, that three-fourths of the average amount of duties for three years should be paid to the Colonial Treasury, and the remaining produce be applied in payment of the assigned Salaries. That proposition was deliberately discussed in this House, and answered by an Address—wherein—after testifying in warm terms their gratitude for the removal of the former restrictions, and for the benefits produced by the abolition of Fees on the Coasting Trade-this House declared that the removal of the Restrictions and Abolition of the Fees, ought not to impose any additional burthen on the Mother Country, ; yet asserted, with all deference and respect, but firmly and distinctly, that the Daties imposed by the Imperial Parliament do of right belong to, and are by the Statutes placed at the sole disposal of, the Colonial Legislature, and that their appropriation can originate only in this House. The House further representedthat a deep sense of the important trust committed to them, precluded their assent to the arrangements under which the Duties had been retained and paid to the Custom-House Officers; but expressed a willingness, by an Act of the Assembly, to grant to His Majesty, out of the Duties of Cusioms, a sufficient sum to defray the just and reasonable expense of that Department; and suggested their desire that the Salaries might be proportioned to the limited Provincial Revenue; and to the allowances of our own Officers, and also that the Officers of the Customs should account for these Duties to the Legislature.]
This Address was forwarded by His Excellency the late Governor; but remaining unanswered at the last Ses.

This Address was forwarded by His Excellency the late Governor; but remaining unanswered at the last Ses. sion, this House decided for the present not to adopt any measures for altering the system of Revenue, but declared that the House held the Officers of the Customs personally responsible for the sums retained, and applied

in payment of the Salaries and Expenses of the Department.

After this detail, necessarily protracted, of the nature, effect and operation, of the Imperial Statutes—the Committee trust that the Message received during the present Session, from His Excellency the Lieutenant Governor will be more readily understood. It conveys the result of the deliberations of the Lords of the Treasury, upon the various representations from the Colonies on the subject of the Customs-and being intended to apply to all of them does not, ou that account perhaps, answer explicitly the Addresses from this Legislature: although the Committee feel that it would have been more desirable that, as formerly, a Copy of the Freasury Minute had been communicated to the House, rather than an abstract of its contents. It appears then, in this Message, to be distinct. y avowed, that, "it was no part of their Lordships intention, nor is it proposed, that, in consequence of the abolition of Fees a larger charge for Officers Salaries should be imposed on the Colony." and on this principle their Lordships' require, that as Relief to the Colonies should not create an additional and timessonable burthen ch the Revenue in England, the Colonies should either acquiesce in the deduction, from the Duties, of the adequate Salaries now fixed for the Officers, or should make a permanent provision for the Officers to that amount. There being no Schedule with the Message, shewing what these adequate salaries are, that are said to be "now fixed for the Officers," and "must be admitted to be moderate," the Committee cannot ascertain on what Scale they are settled, or what proportion they bear to the required Duties, or to the allowances of Provincial Officers. They are equally in the dark as to the numbers or stations of the Custom-House Officers; and can only conclude that a considerable reduction has been made in the whole Establishment, by comparing the sum requested, with the amount hitherto annually retained ;—the difference being nearly £3000 of saving to the Province, accompanying the Message specifies £8801.8.8 sterling, as the now fixed allowance for the Customs, of which £1870 14.8 is to be provided by the Crown, and the remainder, being £6430 9s sterling, by the Province; the excess of this sum over £5800 .19 1, [stated by their Lordships to be the average of Fees for the three years, ending 5th Jan 1826] the Committee presume, was the average of the Naval Officers Fees during the same period. As these Fees then ceased, and the Committee find them noticed in no other place, they must therefore have been taken into the computation their Lordships have made of the annual burthen which the abolition of Less removed at the close of 1825.

Report

On the point most strenuously insisted on by this House-Its sole right to appropriate all duties, taxes and impositions, levied from the People of this Province, the Message is wholly silent—either from an acquiescence in that position, or a desire to waive its discussion. The Committee incline to the opinion that their Lordships have conceded it. But whether they have or have not admitted this Right, it is manifestly one which this House ought not, under any circumstances, to compromise or relinquish. In other respects the Message appears to the Committee founded on fair and reasonable principles-and, on many points, deserving of the favorable consideration of this House.

The Difficulties attending the acceptance of the Proposal are the following-

FIREX, and in importance far beyond all others, is the Risk, lest, by acquiescing in the Plan submitted, the right and privilege just referred to, in regard to taxation—and the appropriation of Duties,—should be impaired in the least point. This risk can only be guarded against by the most distinct and full declaration of the right to the

whole Duties and to the sole disposal thereof.

SECONDLY. The mode of granting the Salaries.—Under other circumstances the Committee would long hesitate before they advised a relinquishment of any restraint the Assembly possesses over Public Officers. In this Province none, except the Judges, are permanently provided for; and these only from the necessity of securing their independence. All others, and even the Judges for their payments, depend on the Annual Enactments of this Legislature—But the case is different in respect to the Customs. The Fees were established by Acts of Parliament over which we had no control; and were allowed by Officers in the Mother Country equally independent of the Assembly. This Legislature has it not therefore in its power to render the Officers of the Customs dependent on it for their yearly allowances; and perhaps, in reference to their other duties, it is not just that they should be so dependent. The only mode therefore of qualifying the permanent character of the required provision is,—to make at co-existent only with the duties from which it is to be derived.

THIRDLY. The heavy increase which the Salaries will make to the Civil List. This objection is doubtless

deserving of great weight-and not lightly to be overlooked. The Fees, when levied, were paid by individuals The Salaries are to be paid out of the Revenue and, to a great extent, fell on those who were not inhabitants.

arising from the consumption of the taxed articles in the Province

It is only by a comparison of the advantages resulting from the New System, with the inconvenience of a great and disproportioned Civil List, that the choice must be decided; and it made, as the Committee presume it should, on the ground of the preponderance of benefits, the burthen will have this further alleviation, that—by assuming it now-an important discussion is quieted, and any future increase in the expense of the Customs effectually pre-

On the whole subject, the Committee have agreed, in accordance with the Address of 1827, to recommend, as

1st. That an Act of the Assembly be passed for granting to His Majesty, in lieu of all Fees, &c. at the Customs, the sum of £6430 9s. sterling, annually, to defray the expense of the whole Establishment. This sum to be paid out of the Treasury Quarterly, in such monies as are usually paid thereat, and to the persons appointed to receive it—and out of the proceeds of all Duties levied on Foreign Imports under the Imperial Acts, but not from any other portion of our Revenue. That the balance retained by the Custom-House Officers be granted as a free gift to His Majesty

2. That the Bill contain the most express Declaration of the Right of this Assembly to the sole disposal of the Duties; and also Provisoes to compel the due payment of the Produce, and the rendering of the Accounts; also to secure the accountability of the Officers for the Duties, in the same way as Officers of the Provincial Revenue

3d. That a suspending clause be added till His Majesty's Assent be obtained.

In the method thus recommended, the Committee perceive a fair and reasonable acquiescence with the propesals of their Lordships, and a due adherence to the Principles on which the Addresses from this House proceeded :--great saving on the present salaries is effected—and the rights and privileges of the House preserved unimpaired. At the same time, there will be manifested, on the part of this Colony, a deep and gratefully expressed sense of

the benefits derived from His Majesty's Paternal Government;—and full confidence in its Justice.

The Committee further suggest, that a scale of Salaries and Allowances should accompany the Bill, if passed, to England; in order that His Majesty's Government may consider thereof, and that the Allowance granted by the House may plainly appear to exceed what is necessary to pay adequate Salaries to the present Officers, and to any others which the extension of the Warehousing System may require. A Table marked D. containing such Scale—is herewith submitted for this purpose:—although the Committee do not desire to interfere with the Salaries of the present Principal Officers of the Customs at this Port, since it may well be considered that they received their allowances in hen of the Income they enjoyed from Fees prior to the passing of the Statutes which abo-

The Committee now beg leave to call the attention of the House, to the effect of the Imperial Acts on the Trade of Halifux, -and to some practical difficulties experienced in their operation. For this purpose the Statement herewith, narked F, received from the Meschants, is in the first place referred to. Its details on the subject of the Currency—the mode of paying the Duties in Doubloons or Silver at the now stated prices—the increased charge thereby on those Provincial Duties which are received at the Custom-House, the closs arising from the immediate payment of Duties on Articles taken out of the Warehouse-and other subjects-appear to merit the particular attention of this House. If the House decide to accept the proposal of the Lords of the Tressury, then the Committee would suggest, that this Legislature do so change its own system of Revenue, as to impose on Foreign Produce, Duties equivalent or superior to those Levied under the Acts of Parliament; and that, in order to have those Duties wholly collected by the Provincial Officers, an application be made to His Majesty's Government, to repeal or suspend the operation of the Provisces in the 11th section of 6 Geo. IV. ch. 114; which render Provincial Duties receivable at the Customs. To obtain such alteration, the Committee conceive it would only be necessary to provide, that the Officers of the Custome shall have satisfactory evidence that those Duties are paid, or effectually secured. This measure will enable the Merchant to avail kinself of the privilege of giving Bond, for the Duties on Articles imported or taken from the Warehouse;—thus securing a credit which, in a country where Capital is limited, is of great importance,: The Duties will be paid to our own Officers, who have given Bonds for their conduct and payments: The amount will be received in Proxincial Currency;—thus securing the stability of the Treasury Notes at their nominal value, and remedying the great loss and inconvenience, arisa ing from the present mode of paying Duties only in Doubloons ;- and further, the Customs Officers will be relieved

## **MONDAY. 23d MARCH. 1829.**

relieved from the heavy charge and responsibility under which they now labour; and will partly avoid the necessity of accounting to the Province.

[Again, by the first of the Imperial Statutes, many articles—necessary for, or which could be used in, our Manufactories—are burthened with Duties that, in a great measure, preclude their Importation; yet, by the Act of the last year, many of these articles may be imported hither, Duty-free, if brought from a Warehouse in England. It is evident, from this Statute, that the benefit of British Shipping was its decided intention; and the course of Trade hence to South America and to Europe, is such, that many Vessels would immediately be employed on these voyages, were it not that they are prohibited by the expense and detention in England for the purpose of Warehousing and Re-shipment. This is manifest from the Statement E. herewith of the expenses on a Vessel which performed such a voyage. It therefore seems expedient, that this House should apply for the adoption of some measure by which the needless charge of landing and relading a Cargo in England may be avoided, and the advantages of so important a carrying Trade be realised; and it appears more necessary when it is remembered, that some Atticles, particularly Hemp, now beginning to be extensively manufactured, cannot be put on shore without the greatest risk of damage.

Further-to give employment to Capital, and to add to the productive Labor of the Province-it has been represented that many articles might be manufactured here, were the Duties on the Raw Materials reduced or respealed :—and the Committee trust that this subject may be connected with any application for Commercial relief.]

There remains another point, to which the Committee would turn the attention of the House, it being allied to the general subject under consideration. They refer to the old Crown or King's Duties so called—chiefly levied by virtue of the Statute 4 Geo.-III, chapter 15. The existence of this Impost has been long complained of; and some insist that it was repealed by force of the Statute of 18 Geo. III. The amount collected under it in this Province is but small, amounting in 1826 to £1980 10 5, in 1827 to £2540 8 04, and in 1828 to £2031 14 34 sterling. The same objections apply to these duties, on the ground of principle, as have been already urged in regard to the new Acts; and their collection and appropriation can never be looked on in a Colony with approbation. They form the only remnant of a System that has disappeared, and are too trifling in amount to merit being pre-

served. The Committee therefore submit the propriety of an application for their discontinuance.

In concluding this Report, the Committee have agreed, and so directed the Chairman, to report the draft of a Bill, framed upon the principles above stated; and, if it should pass, they recommend that Addresses be transmitted—to pray His Majesty's Gracious Assent thereto—to explain the grounds on which the House pass the Bill, and grant the Provision required by the Lords of the Treasury,—and further, for Promoting our Commerce and the encouragement of Manufacturing Industry—to pray for such of the suggested alterations and relief as the House may

approve of. All which is humbly submitted.

By order of the Committee CHARLES R. FAIRBANKS, Chairman

S follows, viz:

THAT the Committee have considered the subject matter of the Memorial, and are impressed with the image of the committee have considered the subject matter of the Memorial, and are impressed with the image. The portance of adopting some effectual measure for remedying the evils now suffered from a deficient Currency. method suggested in the Memorial appears worthy of attention, and may perhaps alleviate the inconvenience complained of; but, as it would involve a large appropriation of the Provincial Funds, and require an application to His Majesty's Government, even if adopted by the House, the Committee are of opinion, that, for the present, another method, of easier execution, may be tried, until the House can, with more attention, investigate the whole subject; and the Committee therefore recommend, that, by a Resolution of this Flouse, the Treasurer of the Province, and the several Collectors of Impost and Excise throughout the same, be authorised to receive and pay the British Shilling and Six Pence Coins, at the following rates namely: the British Shilling at one Shilling and three Pence Currency, and the British Six Pence at Seven Pence half penny Currency, being nearly the present Market value of those Coins respectively.—The Committee further suggest that this arrangement be in force until the next Session or further order thereon—The propriety of issuing Treasury Notes of Five Shillings and ten -Shillings is also suggested for consideration.

A Message from the Council, by Mr. Hill:

Mr. Speaker,

The Council have passed a Bill, entitled, An Act to make an addition to the Township of Windsor, and some alteration in the ancient bounds thereof: to which Bill they desire the concurrence of this House.

The Council have agreed to the amended Bill, entitled, An Act to regulate the Weighing of Beef; also to the amended Bill, entitled, An Act to prevent the sale of

Spirituous Liquors to Indians, and to provide for their instruction.

The Council have also agreed to a Bill, entitled, An Act in addition to and amendment of the several Acts of the Province, relating to the Office of Sheriff, with several amendments: to which amendments they desire the concurrence of this House.

And then the Messenger withdrew.

The said amendments were read throughout a first and second time; and thereupon, Resolved, That the House do agree to all the said amendments except the last amendment; and that this House do adhere to their original Bill, as regards the said last amendment; and that the Clerk do carry the Bill, with the amendments, back to the Council, and acquaint them therewith.

The engrossed Bill from the Council, entitled, An Act to make an addition to the Township of Windsor, and some alteration in the ancient bounds thereof, was read a

Resolved, That the Bill be read a second time.

Mr. Secretary George, acquainted the House that he had a Message from His Excellency the Lieutenant-Governor, in writing, signed by His Excellency, and he presented the said Message to the House, and the same was read by Mr. Speaker, all the Members being uncovered, and is as follows:

MESSAGE.

#### P. MAITLAND.

The Lieutenant-Governor, at the suggestion of His Excellency Sir Howard Douglass, submits to the House of Assembly, a Report made by the House of Assembly of New-Brunswick, on the subject of the contemplated Canal, to connect the waters of the Bay of Fundy with those of the Gulf of St. Lawrence, and transmitted by His Excellency with the view of ascertaining whether the Legislature of Nova-Scotia would be disposed to contribute, with the other North-American Colonies, towards the execution of the work.

Mr. Secretary George, also delivered to the House, by order of His Excellency the Lieutenant-Governor, the document referred to in said Message, and the same was read by the Clerk, and is follows:

House of Assembly, New-Brunswick, 8th January, 1829.

#### REPORT OF CANAL COMMITTEE.

Your Committee having examined the Papers and Plans laid before the House, by order of His Excellency the Lieutenant-Governor, are of opinion, that a good Water Communication may be made from the Bay of Fundy, by way of the Au Lac River to the River Tidnish, which discharges into the Bay of Verte, and that this, so far as the Committee can judge, is the most practicable route for the contemplated Canal between the Bay of Fundy and the Gulph of Saint Lawrence.

Your Committee are fully convinced of the importance of this measure, not only as a great national undertaking which would fully deserve the attention of the Mothet Country; but also, one which when accomplished, annot fail to be highly beneficial to this Province, as affording a more safe and easy communication between its different Sea Ports; and also enabling the interchange of commodities between the Canadas and Prince Edward Island and Ports of this Province, situate on the Bay of Fundy, to be made in a much shorter time, and at a much less risk than can be now effected.

Your Committee think the advantages which will be derived by our Sister Colonies from this work, are so obvious that they cannot doubt that large contributions would be made by the Legislature of the Canadas, Nova-Scotia and Prince Edward Island, towards the completion of it, and it appears proper, that any measure, which it might be deemed advisable to adopt, should be taken in concert with those Provinces.

Report of Committee of New Brunswick Assembly on Bay Verto Canal

## TUESDAY and WEDNESDAY, 24th and 25th MARCH, 1829.

Taking into consideration the yet infant state of this Colony, the various and increasing demands made on the Revenue for the advancement of Learning and Education, improvement of the internal Communications of the Country, encouragement of Agriculture and the Fisheries, crection of Public Buildings, and other matters which may be deemed of paramount importance; and viewing also the great depression that still exists in the various branches of Commerce in which this Province was unhappily too deeply engaged to recover from in a very short period, your Committee do not think it would be expedient as yet to commence the great work recommended to their consideration, without large aid from the Mother Country, and the cordial co-operation of the other North American Colonies.

Should the British Government, for the general benefit of His Majesty's Dominions, either in a Military or Commercial point of view, determine that it ought to be undertaken, your Committee consider it would be the duty of the General Assembly to render every aid in its power, by passing, in conjunction with Nova-Scotia, the necessary Legislative enactments, and appropriating such sums as might appear to correspond with the peculiar

position and circumstances of this Province, viewed relatively with the general object of the measure.

Mr. Speaker left the Chair, Mr. Ruggles took the Chair,

Mr. Speaker resumed the Chair.

The Chairman reported from the Committee, that they had gone through the Bill to continue and amend an Act for the further increase of the Revenue by imposing a duty upon Articles imported from Foreign Countries, and had made several amendments thereto, which they had directed him to report to the House; the Chairman further reported that the Committee recommend that the further consideration of the Bill for providing a fund for Common Schools, and other purposes, by imposing an additional duty on Tea, be postponed to this day three months, which Report the House agreed to.

The Chairman also acquainted the House that he was directed by the Committee to move for leave to sit again on the consideration of the several Bills to them referred,

which the House agreed to.

The said amendments were read throughout a first and second time, and thereupon Mr. J. E. Morton moved that the amendment to strike out of the Bill so much thereof as imposes an additional duty of twenty shillings per hundred weight upon Hops be not received by the House: which being seconded and put, and the House dividing thereon, there appeared for the motion, eleven; against it, twenty-one in the negative.

The said amendments were then, upon the question severally put thereupon, agreed

to by the House.

Ordered, That the Bill with the amendments be engrossed.

On motion the Order of the Day was read, and thereupon, On motion, resolved, that the further consideration of the Petition of the Shubenacadie Canal Company be postponed until Friday next, the 27th inst.

And being returned,

Mr. Hartshorne reported that the Managers had been at the Conference, and stated the substance of the Conference to the House.

Mr. Stewart reported from the Committee to whom were referred the Petition of Witter and Lynds, and the subject generally of Eastern Stage Coach Communication. and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:-

THAT they have witnessed with much satisfaction the success which has attended the running of the Western Stage, and are of opinion that similar facilities for travelling on the Great Eastern Road, are well worthy of public assistance. The conveyance of the Mails to those places costs annually more than £500, and the Committee doubt not that the Deputy Post-Master General will afford every facility in his power to the undertaking by giving the transmission of those Mails to such Persons as will satisfactorily ensure to him their regular and ex-

peditions conveyance to Truro, Pictou and Cumberland.

The Committee have reason to believe that a Company will be formed in this Town without delay, for the running a Line of Stages to Pictou and Cumberland, if Legislative aid be afforded. The Committee therefore recommend that the sum of £300 be granted and placed at the disposal of His Excellency annually for five years to any Person or Persons whom His Excellency may think fit to License for that purpose, for the said time or any part thereof; the Money to be drawn from the Treasury, and the respective payments made, at the end of each half year, upon its being satisfactorily shewn to His Excellency, that a Goach, drawn by two or more Horses, shall run twice dwing the respective payments. twice during the week, from Halifax to Truro, and such description of Carriage Ito be covered, easy and comforta. ble for the accommodation of Passengers] as may be most convenient to be drawn by two or more Horses, twice in the week between Truro and Picton, and once between Truro and Amherst, from the month of May to the month of November, inclusive; and during the temainder of the year, such Carriage as may best suit the state of Roads, shall run once in the week between Halifax and Pictou, and Amherst provided the journey from Halifax to Truro, shall be performed in fourteen hours; from Halifax to Pictou in thirty-two hours, and from Halifax to Amberst in fifty-two hours at the least.

With respect to the Petition of Witter and Lynds, the Committee do not deem it expedient to report thereon particularly, but submit it to the House, to say what sum if any, should be granted to them for their services.

Ordered, That the Report and Petition be referred to the Committee of Supply.

Mr. Fairbanks reported from the Committee of Privileges on the Petitions of John Mr. Barry A. Barry, Esq. and of Enos Churchill and others, and he read the Report in his place,

may be declared vacant, and measures adopted for a new election therefor, have agreed to report as follows:
That the Committee have carefully examined the precedents and rules of Proceeding adopted both by the House of Commons, and this House, on subjects of the nature referred to the Committee, and find, and do so report, that it is entirely inconsistent, both with such precedents and practice to vacate the seat of any Member of this House, on his own request, or at the application of any other Parties.

So lately as the Session of 1825, a similar request from Richard Blair, Esq. then Member for the County of Cum-

berland, and who declared his intention to be permanently absent from the Province, was refused on the same principle, and the Committee can find in the present case, no circumstances requiring a departure from establish-

ed Rules.

The Petition of Enos Churchill, and others, is couched in language which the Committee think reprehensible, but attribute this rather to ignorance of what is due to this House, than to any design on their part to offend the Assembly. It contains the prayer of five only of the Freeholders of the Township of Shelburne, and can there. fore afford no satisfactory evidence of the sentiments of the great body of the Freeholders, which may widely differ from those of the Petitioners; but even were the signatures of every inhabitant of that Township appended to a Petition praying that the Seat of their Representative should be vacated, the Committee cannot conceive on what principle such request could be complied with. In the conscientious discharge of the sacred trust reposed in him, a Member might find it his duty to support measures most displeasing to his constituents, and if any precedent should be established by which at their instance he could be displaced, it must be very evident that consequences highly injurious both to the dignity and independence of this House, and its individual Members, will inevitably ensue,

The Committee have been unable to find one instance of refusal by a member to make any apology required by this House, or the House of Commons, but perceive very many cases of ready compliance with orders of this Lincoln, in the House of Peers, "His Lordship was brought to the Bar, and reprimended by the Speaker, he asked pardon of the House, and of Lord Rochester, to whom the disorderly words were addressed." To the same effect is the case of Mr. Waller, and that of Capt. Bertie, and Mr. Harbord, where apologies were ordered to the offended Party: the Speaker, in the latter, proposing the form of words to be written down and spoken by both the Members, and very recently, Mr. Otway Care was obliged to apologise to Mr. Peel, as well as the

House, for some offensive language used to the former.

If therefore the Township of Shelburne could at present, in consequence of Mr. Barry's absenting himself from the House, be considered unrepresented. it is only to his indiscretion and contumacy that such a result can be attributed.—The course adopted of requiring an apology from him, and of discharging him from sitting as a Member, until the order of the House be complied with, rather than committing him to Prison for his disabedience, affords a proof of the great forbearance of the House towards the offending Member, since, by the practice of the Commons, and the rules here adopted, a refusal to comply with any of its orders, whatever they be, is severely punished; and to shew the promptness and power of the House on such occurrences, the Committee beg to refer to the case of Alexander Murray 6th February, 1750 ; this Genuleman, not a Member, had, for misconduct at an election, been brought to the Bar of the Commons to receive its sentence, and being ordered to receive it on his knees, as was then the regulation in all cases, he refused to be upon his knees.—This refusal to obey the order, was resolved to be a high and most dangerous contempt of the authority and privilege of the House, and Mr. Murray was committed a close Prisoner to Newgate, without the use of pen, ink, or paper, and all communication with him forbidden until he complied with that order.

Instead, however, of exerting these higher powers in the case of Mr. Barry, a milder course has been adopted upon his disobedience of the command of the House. Had he been confined in Prison from the time of his offence, the Township he represents would have been as effectually deprived of his services, as by the present consequence of his abstaining from the performance of the duty he owes to the House, as well as to his constituents, and as it is in the power of the House at the next and succeeding Sessions to renew his Punishment, [See Common's. Journal, 18th Feb. 1750,] until he discharge himself of his contempt : so while his continued imprisonment would

add to his punishment, it would in nowise tend to relieve the Township from its alleged inconvenience.

By one of the rules of the House, the continuance of the privation complained of for any very long period is provided for a since any Member who absents himself for two successive Sessions from his duties in the Assembly, without reasonable excuse, does thereby vacate his seat. But how far this rule should be enforced with respect to Mr. Barry, or whether the order of the present Session under which he absents himself should be renewed at the next Session, are points for future consideration. All which is humbly submitted. CHÁRLES R. FAIRBANKS, Chairman.

Report Res

For Conference on General State of Prosvince, relative to appropriations for Road service

### FRIDAY, 27th MARCH, 1829.

That this House have duly considered the importance and necessity of providing for the Road Service, and are sensible that the appropriations therefor should be made with every attention to the state of the Province: that, nevertheless, the system of improvement on the Great Roads, recently adopted, required the extensive Grants which were made last Year, and now for their completion demands, in addition to the large amounts which have been advanced for that service, a very considerable expenditure this Year to realize the advantages of those improvements.

That, notwithstanding the large appropriation for the Road Service last Year, the execution of those improvements seemed of so much importance that, to promote them, the ordinary roads were left without that provision which they required, and are now, in many instances, in a very bad state, and may soon offer serious obstacles to travelling.

That these considerations induced the House to extend the grants for the Roads and Bridges to L.7,500 beyond the L.15,000 already agreed upon, and beyond the amount of the over-expenditures; and in reference to the state of the Revenue, and the annual increase of consumption of Dutiable Articles, and the deductions that may be made on other services, the House is satisfied, that the several sums, which are far under the grant of last year, may be now voted without prejudice to the Public Funds of the Province, even if the Revenue be only estimated at the same sum as it produced last year.

That the House assure Ris Majesty's Council, that in passing the Resolutions for L.7,000, L.8,000 and L.7,500, with the amount of the over-expenditures, this House had not the remotest intention of interfering with the course so long observed of allowing His Majesty's Council their negative on each individual sum; but considered particularly, when the last vote passed, that it would be most desirable to afford a clear view of the extent and manner of dividing the same, and to shew to His Majesty's Council, the intention of the House to provide effectually for the Main Roads of the Province; and the House sincerely regret that any misconception of their intention should have led to the rejection of this vote. That entertaining a strong conviction of the necessity of completing the alterations now commenced, and of providing for the repairs of the principal Roads, this House believe a less sum than that which they have already voted would prove insufficient for these essential objects; and the House also conceives, that, while permanent and important alterations are being perfected, no serious injury would result from a resort, if necessary, to the credit of the Province, so that the present advances, for these purposes, may partly be discharged in future Sessions.—That the House therefore trust, that His Majesty's Council will be disposed to review this subject with a view to concur in appropriations that may be adequate to the indispensable objects which the House has in view.

That the House, at the same time that they deem it expedient to limit the further sum to be expended in one Resolution, do not intend thereby to interfere with the Right claimed by His Majesty's Council, to exercise their opinion upon each separate vote, should the subdivision either accompany the Resolution, or be made after the same may

have been agreed to.

And on subject of Pictou Academy Bill. Resolved, That it is the opinion of this Committee, that it be recommended to the House, that a further Conference be requested with His Majesty's Council, on the subject of the Pictou Academy Bill, and that the Committee of this House be instructed to state to the Committee of His Majesty's Council, that this House indulged the hope that His Majesty's Council would have concurred with them in the Bill now before His Majesty's Council for making a permanent provision for that Institution, particularly when it is considered that this is the seventh Bill that has passed for the same purpose in the present and former House of Assembly. That this House are well satisfied with the manner in which that Institution is conducted under the present Trustees, who have contributed, from time to time, from their private funds, and have also procured from others, friendly to the Institution, large sums of money towards its sup-

port, and the House feel they would be doing great injustice to the Trustees were they to assent to any measure for removing them from the trust, particularly as such measure would have the effect of repealing the Law, and setting aside the Charter under which the Academy was founded; but should His Majesty's Council object to the number of the Trustees already appointed, the House would agree to the number being reduced to five or seven, to be selected from the persons now acting as Trustees, by the Lieutenant-Governor, provided the persons so selected, should retain all the powers already granted by the Law and the Charter or if His Majesty's Council are desirous of enlarging the Trust, the House would readily agree to any reasonable number to be added by the Lieutenant-Governor or Commander in Chief, with power to him, to fill up any vacancy among those thus appointed.

The said Resolutions were read throughout a first and second time; and thereupon, Mr. Uniacke moved, that the last Resolution relating to a Conference on the Pretou Motion notte Academy Bill, be not received by the House: which being seconded and put, and the House dividing thereon, there appeared for the motion, Ten; against it, Twenty-four.

A Message from the Council, by Mr. Hill:

Mr. Speaker,

The Council have agreed to the Bill, entitled, An Act, for ascertaining the Commencement of the Acts of the General Assembly; also, to the Bill entitled, An Act in amendment of the Act to exclude ignorant and unskilful persons from the practice of Physic and Surgery. Also, to the Bill, entitled, An Act in amendment of the Act for encouraging the Fisheries of this Province, severally, without any amendment.

The Council have not agreed to the Bill, entitled, an Act to continue and amend An Act for the further increase of the Revenue by imposing a duty upon articles imported

from Foreign Countries. And then the Messenger withdrew.

On motion of Mr Hartshorne, resolved, unanimously, that the thanks of this House be communicated to Thomas C. Haliburton, Esquire, for the very laudable and laborious effort which he has made to illustrate the history, Topography, and resources of the Province, in the Historical and Statistical account of Nova-Scotia, now issuing from the Press, and that Mr. Speaker be requested to convey to Mr. Haliburton, the substance of this Resolution; and thereupon

Mr. Haliburton being called into the House, and standing in his place, was thus

addressed by Mr. Speaker,

Mr. Haliburton, I am directed by this House to communicate to you that they have Mr. Speaker, had under their consideration, a Work now issuing from the Press, of which you are the case the Reso-Author, entitled, the Historical and Statistical Account of Nova-Scotia, which they

think alike useful to the Province, and honorable to yourself, and that to mark the approbation they entertain of this first effort to describe the Country, and develope its resources, they have unanimously passed a vote of thanks to you for this laudable undertaking, which Resolution will be read to you by the Clerk.—It affords me a great deal of pleasure to add my own opinion of the Work, to that of the Representatives of the People, who deem it an object of this Honorable notice; as the production of a native of this Province.

The Resolution was then read by the Clerk.

Mr. Haliburton, replied to Mr. Speaker, as follows:-

Mr. Haliburton's reply

Mr. Speaker, I beg leave to return you and the House my most grateful thanks for the honor this day done me: I regret that I find myself unable to express fully the high sense I entertain of this flattering distinction, and can only say, that I feel the labor I have performed, more than amply compensated by the notice this House has been pleased to take of it.

On motion, resolved, that the Members from each County and District respectively, do prepare and bring into this House, a Scale of Subdivision of the respective sums of L100 granted this Session to each County and District for Agricultural purposes.

Mr. Dickson, from the Committee appointed to prepare and bring in the Revenue Bills presented A Bill for the further increase of the Revenue by imposing a Duty upon articles imported from Foreign Countries, and the same was read a first time.

Resolved, That the Bill be read a second time.

Also, to the conference desired by this House on the General State of the Province, and that the subject thereof be the Road Service, and the Committee of the Council are now ready to meet the Committee of this House on the last mentioned conference in the Committee Room of the Council.

And then the Messenger withdrew.

Ordered, That Mr. G. Smith, Mr. Dickson, Mr. Haliburton, Mr. Uniacke, and Mr. Lawson, do manage the Conference on the Pictou Academy Bill.

Ordered, That Mr. Fairbanks, Mr. Uniacke, and Mr. Haliburton, do manage the

Conference on the General State of the Province.

So the last mentioned Managers went to the Conference.

And being returned,

Mr. Fairbanks reported that the Managers had been at the Conference, and stated the substance of the Conference to the House.

On motion, a Bill for the further increase of the Revenue, by imposing a Duty upon Articles imported from Foreign Countries, was read, a second time.

Mr. Dickson reported from the Committee, to whom were referred the Communication from His Excellency the Lieutenant-Governor, with the Accounts of the Deputy Post Master General of Disbursements for the Post Communication; the Account of Messrs. Howe, for extra Printing, and the Account of W. Cantrell; also the Petition of Lemuel Morehouse; and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read and is as follows:

That the Committee have examined the account of expenditure of the Sum granted for the support of the Post Committee have examined the account of expenditure of the Sum granted for the support of the Post Commitment of the last year, and that for that service there was required, and paid from the Treasury the sum of £971 10s. including a small balance; due the Postmaster; for 1927; and the Committee report that for the support of this service for the present year, there will be required the sum of £934 10s. which sum includes the expenses of all services at present established, and all charges connected with the same as well as the sum of £956 10s. being the sum allowed by the Province to the Proprietors of the Stage Coach for carrying the Mail from Halifax to Amandus

Mail from Halifax to Annapolis.

The Committee have also had under consideration the propriety of continuing the Line of Post Communication, at present established from Pictou to Forshier's, in Wallace, to Amherst, and thereby prevent the necessity of sending Letters from Pictou to Halifax, that may be directed to Bersons in New-Brunswick and Canada, and asso establish: a direct Line of Communication between all the Trading Ports and Market Towns situate, on the Gulf Shore between Pictou and Mranchi. On this point, the Committee recommend that notice be given to the Courier on the route at present established between Londonderry and Remaines, that at the end of the current Six Mouths that service will be discontinued, and in the meantime measures be taken for the purpose of establishing the proposed Line from Forshner's, in Wallace, to Amnerst, to run once each week, in such way as the Deputy-Post-master-General shall deem most advantageous for the Public.

That the Committee have examined the account of Messrs. John Howe and Son, for Extra Printing for the Province, and find on reference to the Journals of the House of Assembly for 1827; that the same subject was at that time brought under the consideration of the House, and referred to a. Mr. Speaker resumed the Chair.

The Chairman reported from the Committee, that they had made some progress in the business to them referred and had come to a Resolution thereupon, which they had directed him to report to the House; and he read the same in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz.-

Resolved, That it is the opinion of this Committee, that the further sum of L7,250 be granted for the Road Service for the present year, to be divided and appropriated for the principal Great Roads, and other Roads and Bridges, of the Province, as may afterwards be agreed on by this House and His Majesty's Council; the appropriation of the whole to be sent together to the Council, who are to consider each sum in such appropriation as subject to assent or dissent as a distinct vote, and the Great Roads to be first provided for.

The Chairman also acquainted the House, that he was directed by the Committee, to move for leave to sit again on the consideration of a Supply, which the House agreed to.

A Message from the Council, by Mr. Hill:

Mr. Speaker.

The Council have agreed to the amended Bill, entitled, An Act relating to the Halifax Steam Boat Company; also, to the Bill, entitled, An Act to aid the Shubenacadie Canal Company, without amendment; also, to the Bill, entitled, An Act concerning the Common of Halifax, with amendments, to which they request the concurrence of this Honorable House.

The Council do not adhere to their amendment to the Bill, entitled, An Act to continue and amend the several Acts for the regulation of the Militia, but agree to the

Bill as originally sent to the Council.

The Council do not adhere to the last amendment made by them to the Bill, entitled, An Act in addition to, and in amendment of the several Acts of this Province, relating to the Office of Sheriffs, but agree to the Bill with the amendments concurred

in by this Honorable House.

The Council do not agree to the Bill, entitled, An Act in further addition to the Act for regulating the rates and prices of Carriages; nor to the Bill, entitled, An Act to amend and continue the Act for establishing a Bridewell or House of Correction for the County of Halifax, and for the better and more effectual Administration of the Office of a Justice of the Peace in the Township of Halifax, and for providing a Police Office in said Town, with proper Officers to attend the same.

The Council have agreed to a Resolution of this Honorable House, for supplying

the deficiency of Silver Change in this Province.

The Council have not agreed to two Resolutions of this House, for granting the following sums, viz.

L 150 for establishing a Grammar School at Sydney, in Cape-Breton.

lution, paga-

Resolved, That it is the opinion of this Committee, that it be recommended to the House, that a Select Committee be appointed to make the necessary enquiries during the recess, to enable the House to take into their consideration the Answer of the Right Hon, the Secretary of State for the Colonies to the Address of this House, respecting the Quit Rents, and that the said Committee report thereon at the next Session

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again, on the consideration of the business to them referred, which the House agreed to

The said Resolution was read throughout a first and second time; and thereupon,

Mr. Fairbanks moved, that so much of said Resolution as follows the word "resolved," be not received by this House, and that in place of the part not received by the House, the following be substituted as an amendment of said Resolution, viz:— That the collection of His Majesty's Quit Rents in this Province will be most highly injurious to its best interests; and that it is the duty of this House to adopt methods for preventing all injurious results.

Resolved, That it be recommended to the House, to adopt measures for ascertaining the value of the Quit Rents, and whether His Majesty's Government will be disposed; to compromise therefor, on terms that can be accepted by this House; which being seconded and put, and the House dividing thereon there appeared for the motion,

#### PRAYERS.

A Bill, entitled, An Act to continue the Act to enable the Proprietors of Land in the Rear Blocks or Divisions of Land in the Township of Guysborough, to open Roads through the same, was read a second time.

Resolved, That the Bill be committed to a Committee of the whole House.

A Bill to regulate the Inspection of Pickled. Fish, was read a second time.

On motion resolved. That the further consideration of the Bill be deferred to this day three months.

An engrossed Bill from the Council, entitled, An Act to provide for the regulation and management of a Grammar School or Academy, at Karmouth, was read a second time; and thereupon,

On motion, resolved, That the further consideration of the Bill be deterred until the

next Session.

Mr. B. Dewolf moved, that the House do come to a Resolution, as followeth, viz :-Whereas, the Establishment of a sufficient Steam Boat to ply as a Packet between the Port of Windsor, in this Province, and of St. John, in New-Brunswick, is deemed highly essential to the inferest of the Country, and will be attended with important advantages. And whereas, a subscription has been recently, opened in Windsor, and the sum of Two Hundred Pounds, or thereabouts, has been subscribed towards such objects, and sufficient Funds for effecting the same, will be raised, provided the Associates obtain a. Chapter of Incorporation; and whereas, it is expedient to encourage the Establishment of such Packets; Therefore, resolved, That if, within three years from the present Session, a Steam Boat of at least, Forty: Horses Power, and properly fitted to ply as a Steam Packet, between Windsor and St. John, shall be provided and put in operation, then, and in such case, this House, will concur with the other Branches of the Legislature, in providing by Law that the Associates of such undertaking shall be incorporated with all usual and necessary privileges and powers for carrying on the business of a Steam Packet Company : which being seconded and put, and the House dividing thereon, there appeared for the motion, sixteen,; against it, sixteen; so Mr. Speaker gave his casting vote against the motion, and it passed in the Negative.

Mr. Uniacke, reported from the Committee, to whom, was referred the Message of His Excellency the Lieutenant-Governor, relative to a proposed Canal from the Gulfof St. Lawrence to the Bay of Funday: and he read the Report in his place, and after-

wards delivered it in at the Clerk's Table, where it was read, and is as follows, viz:—
The Committee to whom was referred a Message from His Excellency the Lieutenant Governor, submitting a
Report of the House of Assembly of New Brunswick; respecting an intended Canal to connect the waters of the Bay of Fundy, and, the Gulf of St. Lawrence, which Message appears to have been transmitted by Major Gene. relating to ral Sir Howard Douglass, with a view, of ascertaining whether the Legislature of Nova-Scotia would contribute. Bay Verte with the North American Colonies towards the work, have agreed to report as follows:

That the Committee have made every enquiry to gain information on the subject, and find that the line of Canal was surveyed in the year 1825, by Mr. Hall an Engineer. The Isthmus where this Canal may be made, is eleven miles and 24) rods from the Au Lac River to the Bay Verte the natural position favorable to Canal operations: the estimated expense £36,000; of great Importance to all these Northern Colonies, Canada, Nova Seq. tia, and New Brunswick; It would bring all into close connection, would afford great facility for the interchange of their Productions by Trade and Commerce, would create an easy communication among their Inhabitants, from which an intercourse of sentiments, mainers, and benefits, would produce that kind of union, which would lead all to, act in conjunction, should efforts be made by war with America, or otherwise to detach them from their allegiance, on to make Conquests.

The line of Country bespeaks so forcibly to His Majesty's Government the advantage of this Canal, in a Mililary point of view, by connecting these Colonies, giving such safe transport for I roops and Military Stores, though as it were an Inland-Sea, whereby they would be protected so much from the attacks of the Enemy or Privateers, [so annoying and destructive in the late war,] that the Committee think it only requires to, bring the subject before them to receive every attention and assistance.

Situate as Nova-Scotia is at present, engaged in:a Canal of an expensive description, by the Shubenacadie Riwer and lakes, an heavy and increasing Civil List, great demands for a service of all others the most improving and useful, Roads and Bridges; engaged in a most expensive work on the River Ayon; claims deily made

for Education of the most finished and ordinary description, make it imperative on the Committee to be guarded in making any pledge which should involve the Province in the undertaking. However, should the British Government place herself at the head of the undertaking, the Committee trust that Nova-Scotia would contribute, as has ever been her habit, in proportion to the benefit she will derive with other Colonies, and in the prodent exercise of the disposable means she may derive from her limited Revende, or by passing any Legislative Enactment which may be required.

RICHARD J. UNIACKE, Chairman. CHARLES R. FAIRBANKS, A. STEWART.

Ordered, That the Report do lie on the Table.

On motion of Mr. Uniacke, resolved, That a Committee be appointed to wait on His Excellency the Lieutenant-Governor, to present to him a Copy of the foregoing Report.

Ordered, That the same Committee that made the Report be a Committee for

the above purpose.

Mr. G. Smith, pursuant to leave given, presented a Bill to provide for a supply of Water for the Town of Pictou; and the same was read a first time.

Resolved, That the Bill be read a second time.

A Message from the Council, by Mr. Hill;

Mr. Speaker,

The Council have agreed to the Bill, entitled, An Act in amendment of the Act relating to Commissioners of Sewers, with several amendments, to which amendments they desire the concurrence of this Honorable House.

The Council have not agreed to a Bill, entitled, An Act in addition to the Act for

founding, establishing and maintaining, an Academy at Pictou, in this Province.

The Council request a Conference, by Committee, on the subject of the Division of the Sum granted to each County and District, for the encouragement of Agriculture.

And then the Messenger withdrew.

On motion, resolved, that this House do agree to a Conference, as desired by the Council, and that the Clerk do acquaint the Council therewith.

Ordered, That Mr. G. Smith, Mr. Young, and Mr. J. E. Morton, do manage the said

Conference.

And they went to the Conference.

And being returned.

Mr. G. Smith reported that the Managers had been at the Conference, and that the Committee of the Council had in Conference expressed a wish, on the part of His Majesty's Council, that the Resolutions for the encouragement of Agriculture should be altered by the House of Assembly, so that the grant to each County and District should be applied for the encouragement of the Local Agriculture in such way as the Agricultural Society of each County and District shall think best; and that the Governor should draw a Warrant in favor of each Society, so soon as it should be certified to the Governor that such Society shall be regularly founded, and be established in each County and District.

On motion of Mr. Stewart, resolved, that a further Conference be requested with the Council by Committee, on the subject of the last Conference; and that the Committee of this House be instructed to state to the Committee of His Majesty's Council, that the Sum of L.100, allotted to each County and District, was sub-divided by the Members of each County, and applied to such purposes, and in such manner, as appeared to them to be most beneficial for the Agricultural Interests of the Province, and that the House do not wish to subject the disposal of the Agricultural Vote to the Agricultural Societies now in existence, or by means of this Vote to encourage their Institution, where they are not at present in operation.

Ordered, That the Clerk do request the said Conference.

Mr. Speaker,
The Council have not agreed to eleven Resolutions of this Honorable House, for specifically applying the sums of L. 100 granted to each County and District, for the encouragement of Agriculture.

The Council request a Conference, by Committee, on the General State of the Pro.

vince.

And then the Messenger withdrew.

On motion, resolved, that the House do agree to a Conference, as desired by Council, and that the Clerk do acquaint the Council therewith.

Ordered, That Mr. Fairbanks, Mr. Lawson, Mr. G. Smith, Mr. J. R. Dewolf, and Mr. Haliburton, do manage the said Conference.

And they went to the Conference,

And being returned,

Mr. Fairbanks reported that the Managers had been at the Conference, and that the Committee of His Majesty's Council had stated, upon the Conference, that His Majesty's Council have had under consideration, the appropriation of L7,250 for the Road Service, and are sorry to find that a sufficient Sum in the opinion of the Council is not applied to the repair of the Road between Halifax and Windsor. His Majesty's Council are unwilling, if it can be avoided, to disturb the distribution which the House of Assembly have made of the above Sum, and are therefore disposed to agree to a further appropriation to be applied to the Windsor Road, and the Road between Falmouth and Horton.

Mr. Fairbanks reported from the Committee to whom was referred the Petition of Joachim Martin de Sardinia; and thereupon, presented a Bill to secure to Joachim Martin de Sardinia, and his Assigns, the exclusive privilege of establishing Vapour and Steam Baths within this Province, for a limited time, and the same was read a first time.

Resolved, That the Bill be read a second time.

Further Conference to be asked on subject of sider

On motion, resolved, that a further Conference be requested with the Council, on the subject of the last Conference, and that, at said Conference, the Committee of this House do state to the Committee of the Council, that the House of Assembly will consider of the suggestions of flis Majesty's Council, received during the last Conference, with every disposition to agree to them.

Then the House adjourned until To-morrow, at Twelve of the Clock.

N. Binney, ought to have been renewed agreeably to the Act of 1817, particularly as one of the Sureties died many years ago; the Commitatee also find, that the Bonds for the Treasurer of the Province. and the Collector of Excise for Lunenburg, ought

to be renewed in consequence of the death of some of the securities.

The Committee also beg leave to state, since the Act of 1817 was passed, the increase of the Revenue, particularly at some of the Out-Ports, renders it necessary to double the Securities now required by the Collectors of Liverpool, Lunenburg, Pictou, and Yarmouth. The Committee are also of opinion, that no Member of either Branch of the Legislature should be accepted as a Surety of any Revenue Officer.

Ordered, That the Report do lie on the Table.

On motion, the House resolved itself into a Committee of the whole House, on the on Bills consideration of the several Bills which stood committed.

Mr. Speaker left the Chair. Mr. Ruggles took the Chair. Mr. Speaker resumed the Chair.

The Chairman reported from the Committee, that they had gone through the Bill in amendment of the Act, entitled, An Act for the more effectually enforcing the Inspection, and encouraging the Exportation, of Pickled Fish, and had made amendments thereto, which they had directed him to report to the House.

The Chairman also acquainted the House that he was directed by the Committee to move for leave to sit again on the consideration of the Bills to them referred, which the

House agreed to.

The said amendments were read throughout a first and second time, and, upon the Amendments question being put thereupon, severally agreed to by the House.

Ordered, That the Bill with the Amendments be engrossed.

Then the House adjourned until To-morrow, at Eleven of the Clock.

Original Resolution then put, and agued to

#### PRAYERS.

Mr. Fairbanks reported from the Committee of Privileges to whom were referred the several Petitions of John Locke, and others; John M'Mullin, and others; Charles Roche, and others; Alexander Robertson, and others; Samuel Muir, and others; and A. H. Cocken, and others; and also to the consideration of what, (if any) further order should be made with respect to John A. Barry, Esq. the Member for the Township of Shelburne, and he read the report in his place, and afterwards delivered it in at the

Clerk's Table, where it was read, and is as follows, viz:

The Committee of Privileges, upon the several Petitions of John Locke, and others; John McMullin, and others; Charles Roche, and others; Alexander Robertson, and others; Samuel Muir, and others; and A. H. Cocken, and others, Freeholders of the Township of Shelburne, praying that the Seat of John A. Barry, Esq. the Member for that Township, may be vacated: Report, that they have again maturely considered the subject referred to them, and continue of opinion, that it would be attended with consequences destructive alike of the rights of the People, and the independence of the Assembly, if the House assumed the power (not possessed by the House of Commons,) of declaring the Seat of a Representative vacant upon his own application, or that of his

Constituents.

With reference to the conduct of Mr. Barry, and what further steps should be taken thereupon by the House, the Committee submit that the House has the sole and exclusive power of punishing its own Members, either by

Commitment, Suspension, Expulsion, or otherwise.

Thus Mr. Payne, for an offensive Speech, and complained of as a Surveyor, &c. was suspended the 3d of April, 1604, till the doubt be cleared whether he might serve; Mr. Hollis, for offensive words, was suspended the 26th April, 1641, during that Session of Parliament; Mr. Culleford, for several misdemeanors, was suspended the 8th of March, 1692, till he attend to answer. Arthur Hall, for a slanderous libel derogatory to the authority of the House, was expelled 14th February. 1580; Mr. Taylor for words, impeaching the justice of the House, 27th May, 1641; Mr. Steele, for a scandalous and seditious libel, 18th March, 1718, and Mr. Prynne, for a contempt of the House, 3d March, 1715, were expelled. For other instances, the Committee refer the House to the Journals of the Commons, of the 10th May, 1571; 3rd March, 1620; 21st January, 1628; 21st January, 1640; 2d February, 1640; 27th May, 1641; 30th October, 1641; 9th December, 1641; 2d February, 1641; 9th March, 1641; 12th May, 1642; 10th August, 1642; 11th June, 1660; 21st April, 1668; 1st February, 1677; 25th March, 1679; 28th October, 1680; 13th May, 1689; 12th March 1694: 26th March, 1695; 1st February, 1607.

tions agreed

Petitions from Shelburne, and case of J. A. Barry, Esq.

### WEDNESDAY, 8th APRIL, 1829.

Report

1697; 20th February, 1695; 22.1 February, 1695; 16th April. 1701; 1st February, 1702; 19th February. 1711; 10th January, 1715; 22d January, 1716; 23d January, 1720; 28th March. 1720, and many others. From these cases the House will perceive the various causes for which members have been suspended or expelled from the House of Commons, i. e. " Sometimes for offences against religion; sometimes for offences against the State; sometimes for offences against morality, and at other times, against the House only." From these cases it also appears that the House have suspended their members sometimes during pleasure, and sometimes till the member suspended does a certain act, and the causes of those suspensions and expulsions are as well for of-fences committed within the House as without it. The authority of the House being thus ascertained, the Committee proceed further to remark that, when lately they reported upon the Petition of the Member for Shelburne, they refrained from suggesting to the House any circumstances which might prevent him from retracing his steps, but the recent occurrences have rendered it their duty to remark, that on the day when Mr. Barry was called to order, it was not until after many attempts had been made to induce the Member for Queen's County, and Mr. Barry, to compromise the unpleasant affair themselves; nor, until after the latter had been fully heard in his place in explanation, that he and Mr. Freeman were, (conformably to the Rules of the House,) directed to with. draw, and the House proceeded to consider and adjudge upon the offence complained of.

In reviewing the conduct of Mr. Barry, the Committee regret to state, that it appears to have been one continued series of aggression. Commencing in an unprovoked and ungentlemanlike attack on private character, continued by repeated publications of a similar nature in the newspapers, and terminating in a violation of an order of the House, and is an indecent and gross insult to the Speaker, and to the Assembly. Had the displeasure of the House been expressed in the first instance, as sometimes occurs, by a majority only of its members, it would have at least afforded some grounds for supposing that it was possible his conduct might have admitted of a different construction, in the minds of some who were present; but the House were unanimously of opinion, that his behaviour was reprehensible, and even the three Gentlemen who did not concur in the vote of suspen-

sion, had previously journalised in favor of his being reprimanded at the Bar of the House.

If any thing were wanting to prove the propriety of this unacimous sentiment of the House, Mr. Barry has exhibited ample grounds of confirmation, in the numerous papers be has subsequently sent to the press, subscribed with his own name, in which, instead of confining himself to an explanation of his own conduct, he has continued to reiterate the personalities which first incurred the displeasure of the House. Strong personal dislike, private pique, and excited feelings, although they can neither justify nor palliage such conduct, may at least in some measure account for it; but your Committee are at a loss to know to what cause should be ascribed the deliberate insult offered to the House itself. The violent manner and indecorous language of the Member for Shelburne, on that occasion, are deeply impressed upon the minds of those who feel that a man who deliberately insults the Representatives of the People, does, so far as he can, degrade the People whom they represent. That his resuming his Seat, contrary to the Order of the House, was a measure for this purpose preconcerted, is too apparent to require proof. In resorting to it, he lost sight of what was due to himself as one of the Representatives of Nova-Scotia, while in carrying it into effect be violated those rules of gentlemanly intercourse which are essential to\_its existence,

Your Committee therefore, while they regret that the Township of Shelburne should be deprived of the services of their members, can only repeat that, this misfortune is wholly attributable to the contumations and im-proper conduct of the person whom they have sent to represent them. Under these circumstances, the Committee proper conduct of the person whom they have sent to represent them. Under these circumstances, the Committee are of opinion, that although expulsion should necessarily follow such numerous and aggravated offences, yet, this measure having been deliberately sought by Mr. Barry, for the purpose of evading the first order of the House, would fail to be a punishment, and as the notoriety of expulsion seems unfortunately to be an object of ambition to the misguided, and offending member, your Committee are also of opinion, that as far as this House can, they are imperatively called upon to enforce obedience to its orders; nor should they lose sight of the opportunity afforded by the recess—to Mr. Barry to calm his excited feelings, and to make reparation as far as possible by submitting himself to the judgment of the House, and expressing his sorrow for the delusion and infatu-

ation of his past conduct.

All which is respectfully submitted. Committee Room. 8th April, 1829. CHARLES R. FAVERBANES, Chairman. THOMAS, C. HALIBURTON, W. H. SHEY, GEORGE SMITH, ALEXANDER STEWART, CHARLES: D. ARCHIBALD. JOHN YOUNG.

Ordered. That the Report do lie on the Table.

On motion, resolved, That Philip J. Holland, Printer of the Acadian Recorder; P. J. Holland and Edmund Ward, Printer of the Free Press, having in their last papers, published remarks derogatory to this House, and containing reflections on the Privileges of this House, are guilty of a breach of Privileges; and that for such their offence they be brought to the Bar of the House, and be reprimanded by Mr. Speaker for their conduct.

The said Philip J. Holland, and Edmund Ward, were accordingly ordered to attend repectively at the Bar of this House: and, severally appearing at the Bar, were respectively reprimanded by Mr. Speaker, pursuant to the foregoing Resolution, and after-

wards had leave to withdraw, and retired accordingly.

Mr. Speaker acquainted the House, that, in pursuance of an order of yesterday, he had communicated to Sir Richard Grant, the Thanks of this House, together with a copy of the Resolution of this House thereupon, accompanied by a Letter which Mr. Speaker laid before the House, and the same was read by the Clerk, and is as follows,

### House of Assembly, at Halifax, 7th April, 1829.

IN making provision for the relief afforded by His Excellency Sir James Kempt to the Shipwrecked Emigrants, who were brought by you to Halifax, in His Majesty's Ship Tyne, in the Month of July last, the attention of the House of Assembly was necessarily led to the consideration of your meritonious exertions in resa cuing these unfortunate Persons from their perilous situation; and also to the prompt and humane assistance ex-tended to them, by you, in their distress—and it is with great pleasure. I now comply with the directions of the House, in transmitting to you, their unanimous resolution, expressing the high sense they entertain of your conduct on that occasion. - I have the Honor to be, Sir,

Your most obedient humble Servant, S. G. W. ARCHIBALD

Speaker of the House of Assembly of Nova-Scotia.

CAPT. SIR RICHARD GRANT.

His Majesty's Ship Tyne.

Mr. Speaker, also laid befor e the House, a Letter received by him from Sir Richard Grant, in answer to the foregoing Letter, and the same was read by the Clerk, and is as follows, viz:

His Julijesty's Ship Tyne, Halifax, 8th April, 1828.

HONORABLE SIR,

IF any thing could add to the happiness' I feel in having been used as an instrument in the Hands of Divine Providence, to relieve from the miseries which surrounded them, so many of my fellow creatures,

It is the Resolution of the Honorable House of Assembly, on the 7th instant, conveying to me the Thanks of

the House, for my humble endeavours on that occasion.

I have to request, that you be pleased to express to the House, my most grateful acknowledgement of the honor thus conferred upon me; and I avail myself of this opportunity, to thank you, Sir, for the very handsome manner in which you have conveyed the same to me. I have the honour to be, Sir,

Your most obedient, very humble Servant,

To the Honorable the SPEAKER of the

House of Assembly of Nova-Scotia. Ordened, That the Letters do lie on the Table.

A Message from the Council, by Mr. Hill:

Mr. Speaker,

To His Excellency Lieutenant-General SIR PEREGRINE MAITLAND, Knight Commander of the Most Honorable Military Order of the Bath, Lieutenant-Governor and Commander in Chief, in and over His Majesty's Province of Nova-Scotia, and its Dependencies, &c. &c. &c.

### THORSDAY, 9th APRIL, 1829.

The Liddress of the Llouse of Representatives of Nova-Scotia, in General Assembly.

. MILWIT: PLEASE YOUR EXCELLENCY.

Tiff & House of Assembly respectfully sequest your attention to the Undertaking of the Shubenasadie Canal Company, for opening an Inland Navigation from the Basin of Mines to the Harbour of Halifax.

For the execution of this work, comprising an extent of fifty-six miles, the nature of the intervening Country, extensive Lakes, and the River course of the Shubenacadie, afforded unusual facilities. In 1826, that Company, with Subscriptions to £18.000, and a donation of £15,000 from the Legislature, commenced their operations, and have bithesto, specessfully prosecuted them. The most difficult, and tedious parts of the Canal Line are already executed; and during the present year, more than twenty miles will be rendered navigable for. Yeasels drawing uight feet of water; and supply the Town with much produce.—The residue of the work, including many improve. ments, not originally contemplated, may be completed of the same dimensions, for the estimated expense of Fifty Thousand Pounds.

In a new Country, where Capital is very limited, Your Excellency will perceive the impossibility of taising the whole Sum, required for a Work of such magnitude, and the necessity of resorting to assistance from abroad. The donation made by the Legislature from its limited Revenue, and the Act of the present Session, whereby an Interest of Five per Cent. to the extent of £1500 a year for ten years, is guaranteed to all who hereafter become Shareholders in, or lend money to the Company—sufficiently testify the deep interest which the General Assembly take in the success of the undertaking, while the numerous and urgent, claims of the various, branches, of the Public Service preclude its adoption as a Provincial measure.—The Company have therefore, from the beginning, depended, for raising the requisite funds, on obtaining subscriptions in England, and from Ris. Majesty's Government, the same support it has so liberally accorded to similar works in other Colonies. Having now proceeded to the extent of their present means, the Company find it necessary to apply for assistance nowards raising the remainder of the original Captital; and upon examining the actual state of their affairs, receipts and expenditures, this House has considered it expedient to promote the objects of the Company, by submitting them to the considere ation of His Majesty's Government.

The Town and Port of Halifax, so advantageously situate for the prosecution of the Fisheries and General Commerce, have hitherto, by the delay and expense of Land Carriage, been excluded from the great Mineral and Agricultural resources of the Interior. To obtain them this short, safe and direct, Water Communication, has now become indispensable. But when the connexion of this Habour with the extensive waters of the Bay of Fundy is considered; when the present work is viewed as the means of maintaining a secure and rapid intercourse with New-Brunswick, and a part of that system of Inland Navigation, which the opening of the Bay of Verte Canal will perfect as well for Military Defence as Commercial Purposes, the enterprise presents itself as a measure not of

local but of general interest, and deserving support and assistance. It is therefore, under a persuasion of the very beneficial character and general utility of this Public Work, and after bestowing on it every aid in the power of the Legislature, that the House of Assembly desire most res-

pectfully to, convey to your Excellency the application of the Shubenacadie Canal Company for assistance from His, Majesty's Government, towards procuring the funds still wanting to complete this Sanal; and the House trust, that, under Your Excellency's favorable recommendation, His, Majesty's Government will be induced, as heretofore, in other. Colonies, to aid an undertaking, now regarded, as being of the greatest importance to this loyal

Province.

ReportResolutions, viz: The Chairman reported from the Committee, that the Committee had considered the business to them referred, and had come to several Resolutions thereupon, which they had directed him to report to the House; and he read the same in his place, and afterwards delivered them in at the Clerk's Table, where they were read, and are as follow. viz.—

For issue of Treasury Notes AmoundimiResolved, That it be recommended to the House to provide Ways and Means for meeting the Appropriations for the Public Service, by an issue of Treasuary Notes.

Resolved, That it be recommended to the House, that such issue of Treasury Notes be made to an amount not exceeding, in the whole, the sum of Fifteen Thousand Pounds, beyond the sums authorized by the Act now in force for issuing Treasury Notes.

Description Notes

That the said Notes so to be issued be in Notes of Ten Shillings to the extent of L1000; in Notes of Twenty-five Shillings to the extent of L4000; and in Notes of Twenty Shillings to the extent of L10,000; and that the said several Notes be in all other respects issued under, and in conformity to the said Act now in force, and be delivered to the Treasurer, upon the Warrants of the Lieutenant-Governor, from time to time, to be granted therefor.

Recommend increase of Light Duties

Resolved, That it be recommended to the House to increase the Light Puties in Vessels not owned in the Province to sixpence per ton.

Loan to Dalhousie College to be called in

Resolved, That it is the opinion of this Committee, that the Sum of Five Thousand Pounds, heretofore advanced to the Governors of Dalhousie College, by way of Loan, should be collected and paid into the Treasury of the Province, and that the House do take immediate steps to require the payment thereof.

Motion to rescind resolution relative to Stone Bridges negatived

Upon reading the Journal of the Proceedings of yesterday. Mr. Murdoch moved that the Resolution relative to Stone Bridges be rescinded, which being seconded and put, and the House dividing thereon, there appeared for the motion, twelve; against it, twenty-two. So it passed in the negative.

Report of Commutee to wan on Governor relative to Dalnousie College Mr. Haliburton reported from the Committee appointed yesterday to wait on His Excellency the Lieutenant Governor, with the Resolution of this House relative to the Loan to Dalhousie College, that the Committee had complied with the order of the House, and had delivered to His Excellency a Copy of the said Resolution, and that His Excellency was pleased to say to the Committee, that it should receive his immediate attention.

Report of Committee to wait on Governor relative to Province Stud

Mr. Ruggles reported from the Committee appointed vesterday to wait upon His Excellency the Lieutenant-Governor, in relation to the Provincial Stud, that the Committee had complied with the order of the House, and that His Excellency had signified to the Committee that he would meet the wishes of the House on that subject.

Report of Bill relative to Light Duties

Mr. Fairbanks reported from the Committee appointed vesterday, to carry into effect the Resolution relating to an increase of Light Duties, and thereupon presented a Bill, in amendment of the Act to provide for the erection and support of a Light House on Maugher's Beach, and to regulate the Light Duties hereafter to be paid—and the same was read a first time.

Resolved, That the Bill be read a second time.

Report of Committee on accounts of Chairman of Committee preparing Province Maps Mr. Stewart reported from the Committee appointed to examine the Accounts of the Chairman of the Committee appointed last Session to superintend the preparing a Map of the Province; and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That of the Two Grants for this purpose, i. e. for L300 and L50, Mr. Fairbanks has withdrawn L240, leaving L110 thereof in the Treasury; in addition to this sum, L400 will be required to continue the execution of the work, to be voted the present Session. For the payments made by this Gentleman, there are regular receipts and vouchers. The accounts of the Surveyors, appear in some instances extravagant, and this remark applies to an account for other services performed in the progress of the work; but, as before those accounts are paid, they must be examined and approved by the Committee for preparing the Map, the subject will be more properly investigated, when it is completed, and the general statements and accounts submitted to the House.

It is suggested, however, to that Committee, that 18s. per day is in the opinion of the

On motion, resolved, that the Report be referred to the Committee of Supply.

Mr. Hartshorne moved that the House do come to a Resolution as followeth, viz:

Whereas, it appears by the Report of the Committee of Privileges, that the conduct of Mr. Barry, the Member for Shelburne, has not been of such a nature as would require this House to expel him; and whereas, by his protracted suspension from his functions, as a Member, very great injury and inconvenience must arise to his constituents.

A Message from the Council, by Mr. Hill:

Mr. Speaker,

The Council request a Conference, by Committee, on the subject of the Bill, now before the Council, to authorise an additional Issue of Treasury Notes.

And then the Messenger withdrew.

On motion, resolved, that this House do agree to a Conference, as desired by the Council, and that the Clerk do acquaint the Council therewith.

Ordered, That the Committee who prepared the said Bill do manage the Conserence.

And they went to the Conference.

And being returned.

Mr. Fairbanks reported, that the Managers had been at the Conference, and stated the substance of the Conference to the House.

On motion, resolved, that the Publication, in the Acadian Recorder of last Saturday, signed, "John A. Barry," and with the initials "J. A. B." be read, and entered on in Recorder the Journals: and the same was read by the Clerk, and is as follows, viz.

To the Freeholders of the Township of Shelburne,

· I advised you, in the Acadian Recorder of last Saturday, what had been then done respecting your interests: ¥у

entered on Journals

On that day I came to a determination of resuming my seat in the House, unless prevented "vi et armis," and

for this reason,—that, in having tried every possible measure, short of such determination, I had been foiled.

It is true that, by the Resolution of the 26th February. the House had said, "that it was not consistent with its dignity to permit me to take my seat, &c." but I felt that the House might choose to think, and to say, that it was not consistent with its dignity to allow a great many others to sit therein. This h wever, I imagined would not render it inconsistent with my duty to sit there, and attend to the interests of my constituents, unless prevented by some other act of the House.

I accordingly, about half-past 2 o'clock on Saturday, advanced to the Bar of the House, where I bowed in the most respectful manner of which I was capable, and took a seat a little below the left of the Chair. Having determined beforehand to say but little, and to avoid if possible any collision with the House itself, or the Speaker, I seated myself merely for a few seconds, in order to turn in my mind just the identical words of which I had previously determined to make use, and having so done, knowing if I did not seize that moment I should have no chance whatever, I rose and said, amongst repeated calls for order, and the repeated clappings of a book upon the table by the Speaker, "Mr. Speaker, I have exerted myself, in every possible way, in order that the interests of my constituents might be represented in this House, but without avail: and I therefore appear here with the determination of taking my seat, and retaining it while it is in my power so to do." Having said these words, I resumed my seat, when the Speaker stated to the House, that 'he intended to have asked me, when I first entered, whether I had not come for the purpose of complying with the Order of the House, but as I had already answered that question, it was his duty to inform me that he was directed by the House to order me to retire, to which I replied distinctly, "I will not, Sir." The gallery was then cleared, and the Speaker appealed to the House for instructions, when Mr. Stewart rose, holding a paper in his hand which had been ready written, and prepared for the occasion, and asseverated, that, by all his hopes of happiness in a future state, he had acced-towards me in his former votes, with what he conceived to be leniency and, kindness, or something to this effect, and that it was under the most painful feelings he felt himself bound to offer to the House the Resolution he held in his hand. He then read as follows, viz :-

"John A. Barry, Esquire, the Member for the Township of Shelburne, having this day taken his seat without having made the apology dictated by this House, in violation of the order of this House, made on the 26th day

of February, 1829.

Resolved, That the said John A. Barry is thereby guilty of a high contempt of this House, and of the Privileges

And it is further resolved, That for the said contempt the said John A. Barry be forthwith committed to the custody of the Sergeant at Arms, there to remain until the further order of this House, and that the Speaker of this House forthwith make out his Warrant accordingly:"

Mr. Haliburton seconded the Resolution, and thought that if ever the House should take a stand to maintain

its dignity it ought to do so in the present case. He seemed however at a loss for his usual volubility, and of him at that mament it might be truly said, not only "vultus est index animi," but "vox faucibus hæsit." Mr. Uniacke supported the Resolution, and thought that hy resuming my seat I had added "insult to insult."

Mr. Hartshorne thought differently; that the House had hastily adopted a course in which it was decidedly wrong; and proposed this amendment to the Resolution, viz:

"Whereas John A. Barry, Esq. Member for the Township of Shelburne, in consequence of having offended this House, has been suspended from holding his seat in this House for a considerable period, and has not yet complied with the order of this House.—Resolved therefore, that the said John A. Barry, Esq. be reprimated by Mr. Speaker at the Bar of this House, and, in consideration of the suspension he has so long undergone, that the order formerly made respecting him be rescinded, and that after such reprimand he be permitted to take his seat in

Mr. Murdoch said "he was greatly surprised at the observations of the Hon'ble Member for Cape-Breton. He viewed my conduct in a very different light. He thought I had acted by advice; and that I had come into the House as be considered, respectfully merely for the purpose of bringing the affair to an issue. He acknowledged he had or a former day been misled by the call for unanimity, and had voted with the majority under the impression that would make the apology required if the decision of the House was only unanimous. Finding his mistake how ever, he was glad of the opportunity of acknowledging his error, and thought that although I had been suspended I was still a brother, and I ought to be dealt with as having some little claim to brotherly feeling. He seconded the amendment.

Mr. Roach supported it, stating that he had never had but one opinion on the subject. He had all along contended that the House was wrong; and he was satisfied I had not taken my seat for the purpose of insulting the House, but of advocating the interests of my constituents, in which he would ever feel happy to support me. The amendment being put, and the House dividing thereon, there appeared for the amendment, Ten.; against the amendment, Twenty-six.

For the amendment-Messis. Homer, Hairis, Murdoch, Hartshorne, Oxley, Roach, Barss, B. Dewelf, Growe, and R. Smith.

Against the amendment—Mesers. Dimock, Stewart, Chipman, Forman, Morse, J. E. Morton, Fairbanks, Poole, Archibald, Wier, Dickson, G. Smith, Uniacke, Church, Ruggles, Rudolf, M. Kinnon, Haliburton, Dill, J. Morton, Lovett, Heckman, Young, Lawson, Bishop and Shey.

The Original Resolution was then put, and there appeared For it, 26. Against it, 10.

Names the same as on the amendment, only on opposite sides. The following Warrant was then prepared, and baving been signed by the Speaker, was by him read aloud, and delivered to Thomas Boyd, Esq. the Sergeant at Arms.

To Thomas Boyd, Esq. Sergeant at Arms of the House of Assembly, for the Province of Nova Scotia. Whereas by a Resolution of the House of Assembly, passed on this 4th day of April, 1829, in Legislatve Session assembled, it hath been adjudged that John A. Barry, Esq. Member for the Township of Shelburne, hath been guilty of a high contempt of the said House, and of the rights and privileges thereof; and, for such his contempt, it hath been also adjudged that he the said John A. Barry be immediately committed to the custody of you, the said Sergeant at Arms, there to remain until the further order of the House; - I Samuel George William Archibale

the Speaker of the said House, by the order of the said House, do hereby authorise and require you, the said Sergeant at Arms, forthwith to apprehend him, the said John A. Barry, and him to take, and detain in your custody until the further order of this House.

Given under my hand and seal, as such Speaker, and by the order and authority of the said House of Assembly, and in the execution of my duty as such Speaker, thus fourth day of April, A. D. 1829, in the said House of As-

sembly.

S. G. W. ARCHIBALD, SPEAKER.

This Gendeman having advanced into the body of the House, through the opening at the Bar, bowed to me, and desired me to accompany him. This I refused to do, and replied, that it he required me he must take me. He then took me by the arm and led me from the House. Having got without the walls, he desired me to inform him what he was to do with me, to which I replied, that ' having no particular instructions from the House; I did not think he could place me in safer keeping than by leading me across the street, and depositing me in the custody of Mrs. Barry, which he accordingly did, on my parole of honor that I should be formcoming at any moment the House might require me at his hands. On Monday I was pleased, by receiving Five Petitions per mail, signed by 256 Freeholders and Inhabitants of the Township of Shelburne, which Mr Harshorne presented to the House an hour or two after their reception. They were referred to the Committee of Privileges. The arrival of the Rival Packet, Captain Snow, yesterday morning, put me in possession of another Peution signed by 60 more, which was also on the Table of the House shortly after its reception. This was also referred to the Committee of Privileges This day (Wednesday) a Report has been submitted to the House on these Petitions, and although I had learnt from the Clerk of the House that, while in custody of the Sergeant at Arms, I am not entitled to the privileges of a Member, I have been enabled to obtain a copy thereof, with which at this earliest possible moment I hasten to furnish you. .It is as follows, viz:

The Committee of Privileges upon the several Petitions, of John Locke and others; John McMillin and others; Charles Reche and others; Alexander Robertson and others; Samuel Muir and others; and A. H. Cocken and others, Freeholders of the Township of Shelburne, praying that the seat of John A. Barry, Esq. the Member for for that Township, may be vacated, report that they have again maturely considered the subject referred to them, and continue of opinion that it would be attended with consequences destructive alike of the rights of the People and the independence of the House of Assembly, if the House assumed the power (not possessed by the House of Commons) of declaring the seat of a Representative vacant upon his own application, or that of his constituents,

With reference to the conduct of Mr. Barry, and what further steps should be taken thereupon by the House, the Committee submit that the House has the sole and exclusive power of punishing its own members, either by

commitment, suspension expulsion, or otherwise.

Thus Mr. Payne for an offensive speech, and complained of as a purveyor, &c. was suspended the 3d April, 1604,

till the doubt be cleared whether he might serve.

Mr. Hollis for offensive words was suspended the 26th April 1641, during that session of Parliament. Mr. Culliford, for several misdemeanors, was suspended the 8th March, 1692, till be attend to answer.

Arthur Hall, for a slanderous tibel, derogatory to the authority of the House, was expelled 14th February 1580.

Mr. Taylor, for words impeaching the justice of the House, 27th May 1641.
Mr. Steel, for a scandalous and seditious libel, 18th March, 1718.

And Mr. Prynne for a contempt of the House 28d March, 1715, were expelled.

For other instances the Committee refer the House to the Journals of the Commons of 19th May 1751; 3d March 1620; 21st January, 1628; 21st January, 1640; 2d February, 1640; 27th May, 1641; 30th October, 1641; 9th December 1641; 2nd February, 1641; 9th March 1641; 12th May 1642; 10th August, 1642; 11th June, 1660; 21st April 1668; 1st February 1677; 25th March, 1679; 28th October 1680; 13th May, 1689; 12th March, 1694; 26th March, 1695; 1st February 1697; 20th February, 1698; 22th February, 1698; 15th April, 1701; 1st February, 1702; 19th February, 1711; 10th January, 1715; 22d January, 1716; 23d January, 1720; 28th January, 1720; Sth March, 1720; and many others.

From these cases the House will perceive the various causes for which members have been suspended or expelled from the House of Commons, s. e. "sometimes for offences against religion; sometimes for offences against

the State; sometimes for offences against morality; and at other times against the House only."

From these cases it also appears that the House have suspended their members sometimes during pleasure, and sometimes till the member suspended does a certain act; and the causes of those suspensions and expulsions, are as well for offences committed within the House ar without it. The authority of the House being thus ascertained, the Committee proceed further to remark that, when lately they reported upon the petition of the Member for Shelburne, they refrained from suggesting to the House any circumstances which might prevent him from retracing his steps : but the recent occurrences have rendered it their duty to remark, that on the day when Mr. Barry was called to order, it was not until after many attempts had been made to induce the member for Queen's County and Mr. Barry to compromise the unpleasant affair themselves, nor until after the latter had been fully heard in his place in explanation, that he and Mr Freeman were (conformably to the rules of the House) directed to withdraw, and the House proceeded to consider and adjudge upon the offence complained of

In viewing the conduct of Mr. Barry, the Committee segret to state, that it appears to have been one continued series of aggression, commencing in an unprovoked and ungemlemanlike attack on private character; continued by repeated publications of a similar nature in the Newspapers, and terminating in a violation of an order of the House, and in an indecent and gross insult to the Speaker and to the Assembly. Had the displeasure of the House been expressed in the first instance, as sometimes occurs, by a majority only of its Members, it would have at least afforded some ground for supposing that it was possible his conduct might have admitted of a different construction in the minds of some who were present; but the House were unminously of opinion that his behaviour was reprehensible, and even the three gentlemen who did not concur in the vote of sospension had previously journalized in favor of his being reprimanded at the Bar of the House If any thing were wanting to prove the propriety of this unanimous sentiment of the House, Mr. Barry has himself exhibited ample grounds of confirmation, in the numerous papers he has subsequently sent to the Press, subscribed with his own name, in which, instead of confining himself to an explanation of his own conduct, he has continued to reiterate the personalities which first incurred the displeasure of the House. Strong personat dislike, private pique, and excited feelings, al-

though they can neither justify or palliate such conduct, may at least in some measure account for it: but your Committee are at a less to know to what cause should be ascribed the deliberate insult offered to the House it eff. The violent manner and indecorous language of the Member for Shelburne, on that occasion, are deeply impressed upon the minds of those, who feel, that a man who deliberately insults the Representatives of the People docs, so tar as he can, degrade the People whom they represent. That his resuming his sear, contrary to the order of the House, was a measure for this purpose preconcerted, is too apparent to require proof.

In resorting to it, he loss sight of what was due to himself as one of the Representatives of Nova-Scotia, while

in carrying it into effect, he violated those rules of gentlemanty intercourse which are essential to its existence.

Your Committee therefore, while they regret that the Township of Shelburne should be deprived of the services of their Member, can only repeat that this misfortune is wholly attributable to the contumations and improper conduct of the person whom they have sent to represent them. Under these sircumstances the Committee are of opinion, that although expulsion should necessarily follow such numerous and aggravated offences, yet this measure, having been deliberately sought by Mr. Barry, for the purpose of evading the first order of the House, would fail to be a punishment: and as a notoriety of expulsion seems unfortunately to be an object of embition to the misguided and offending Member, your Committee are also of opinion that as far as this House can, they are imperatively called upon to enforce obedience to its orders; nor should they lose sight of the opportunity, afforded by the recess to Mr. Barry, to calm his excited feelings, and to make reparation, as far as possible, by submitting himself to the Judgment of the House, and expressing his sorrow for the delusion and infatuation of his past conduct. All which is respectfully submitted.

Charles R. Fuirbanks, Chairman. W. H. Shey, Alexander Stewart, Thos. C. Haliburton, George Smith, John Young, Chas. D. Archibald.

Committee Room, 8th April, 1829. It is not my intention fully to dissect and review this document, still more extraordinary than the former one, at present. I shall do so are AND are. Meantime I do unequivocally say, and I dely the successful cone tradiction of not only the Committee of Privileges but the whole House of Assembly when I say it, that the Commines of Privileges have lant themselves to a most positive falsehood by stating in their report, that "on the day when Mr. Barry was called to order" (which I never was by simer the Speaker or any member within the walls of the House) "it was not until after many attempts had been made to induce the member for Quoen's County, and Mr. Barry to compromise the unpleasant affair themselves; not until ofter the latter had been fully heard in his place in explanation, that he and Mr. Freeman (conformably to the rules of the Bouse) were directed to with-draw, and the House proceeded to consider and adjudge upon the offence!!!"

I therefore feel myself bound, by every sanction of truth, and value of character and reputation, most posi-

tively and most solemnly to affirm and declare, that no attempt solutiver was made to induce the member from. Queen's County and myself to compromise the affair between ourselves, but the observation made by some member of the House, (I think Mr. Dimock) which I published in the Recorder of the 3th ultimo, and which led me to say all that a gentlemanicould say, and all that a gentleman ought to have required. As to my being really Heard in explanation, or even heard ax all therein, I challenge every individual of the Committee of Privileges with an assertion of the most downright and deliberate falsehood in their Report. I was never heard for a single moment in explanation. That very instant I attempted to explain I was put down by the Speaker, and Mr. Thomas Dickson instantaneously moved, and it was almost as instantaneously decided, that we (Colonel Freemsn and myself) should both withdraw, which, I did, under a conviction of the most cruel injustice on the gart of the House towards me;—not merely as a member thereof, but even had I been the vilest miscreant, inhabiting any portion of His Majesty's Dominions, having even understood it to be the grand and proud motto of the British Constitution, "Frat justifier rust column." It is true that the few moments I embraced to repel the imputations of Mr. Haliburton, "of having pointed my finger at Colonel Freeman, and turned my face to the gallery with a laugh," might have sufficed to give a satisfactory explanation to the House; but I fall myself bound to do the other first, and having so done, at the very instant of entering on an explanation of my intentions in using the words of Gough to Colonel Freeman in reply to Mr. Dewolf, [I do again assert and I can prove it] that I was silenced by the Speaker, and had to withdraw, as stated by me in the Recorder of 7th March. The statement I then made is full and ample, and I defy the Committee of Privileges, and any or all the Members of the House, to point out to me any part of it as untrue, or any thing which took place while I was present, that I have not there fairly and condidly stated. If I had stated any thing untrue would not the Committee of Privileges have noticed it is being untrue. it in their former Report made to the House, 14 days after such statement had been publicly given by me to the world in the Recorder? But various of the members have themselves acknowledged its truth, and some who were present and voted against me, and are aware of all that occurred, have actually sont the Recorder to their

friends in the Country, referring them to its contenus for the truth of the whole affair.

If the Report of the Committee he not false, they should show to you and to the world, who the parties are by whom "many attempts were made to induce the Member for Queen's Country and Mr. Barry to compromise." No such attempt was made with me, unless by being called to from the opposite side, to reiterate, a third time, what I had said twice, but which I refused to do. A corry attempt this at compromise! If I was fully heard, or at all

had said invice, but which I relused in do. A corry attempt this at compromise. It I was fully heard, or at all heard in explanation, they should shew to you and to the world what the explanation was which I gave, as some of them would surely pussess a memory sufficiently good to retain it.

The attempt to shew, that, from the unanimity of the House, I must have deserved censure, is plainly seen through by me, and I shall by and by shew how nobly and successfully my friend, the Chairman of the Committee of Privileges, pleaded for unanimity on the question (see Mr. Murdoch's remark above) and what have been the consections of individuals allowing themselves to be misled by sophism.

The Editor of the St. John City Gazette, says that, "the particular forwardness and zeal of a certainGentleman on this occasion, who has never been too fastidious in the use of words himself, is, among the mysteries requiring to be explained; and, until it be accounted for, is considered as completing the climar." The Editor of this Parper little dreamed of this Report, or he would have said that the climax would not be completed, until he had been permitted its perusal. I have however to request, as with the former, so with this Report of the Committee of

<sup>\*</sup> Let Justice be done, though the Heavens should tall.

Privileges, that you will reserve your opinions on those parts of it to which I have not alluded. To my eye as as flims as a bit of gauze," and I shall ere long tear into shreds, and expose to public gaze, in true colors, that which it is intended to conceal.

I view it, and I think every cool and dispassionate man will view it, as a document intended to stab my character and reputation to their very vitals, in the estimation of my constituents and the public generally:—but I live in a community where I trust I am as well and as generally known, as are the individuals who compose the Committee of Privileges, and I can therefore smile at their malignity. To quote their own language, "strong permittee of Privileges, and I can therefore smile at their malignity. To quote their own language, "strong personal dislike, private pique, and excited feelings," and I may add, penhaps, mortification at seeing me possessed of some little ability to maintain the rights of others, and to defend myself, "although they can neither justify nor palliate such conduct, may in some degree account for it;" and your Representative is at no loss to know to what cause it should be ascribed. Could I have yielded to become the minion of a Party or an Individual;—truckled as many men are known to do;—sacrificed the interests of the subject; to m; own personal feelings or advantage;—been browbeaten and silenced by the low jests and scurrile mirth of an attorney;—ridiculed his Majesty's Council as an assemblage of old women unfit to take part in framing the Laws of the Country;—or in short, made a speech for five minutes in favour of the Pictou Academy, or even without this, given my voice for the Parmanent Grant so eagerly and vehemently sought after, to the utter reckiesiness of all other important business, I should, in the estimation of a party who have had influence enough to cause the Township of Shelburne to be virtually disfranchised, and the privileges of His Majesty's loyal subjects to be invaded, have been doubtless considered one of the "cleverest fellows" among the Representatives of the People

But such measures will not do for me. An old copy I used to write when a Boy, taught me that " Honesty is the best policy," whether in private or in public life, and I wish not to be in any situation where I cannot make this the guide of my actions. I have been ever governed, I trust, since I sat within the walls of the Assembly, by higher notives than the consideration of personal objects of any kind, unless it were the gratification of an apa preving conscience. I sought no place;—I was anxious for no emolument.—Fame could render me no advantage: and I had nothing to gain from popularity. I desired only to discharge the duties of that situation to which I had been appointed, and by taking upon me the responsibilities of which I had pledged myself to exert my best talents, however humble they might be, for the interests of my constituents, and for the good of my country.

I cannot refrain from cursorily remarking on the notice the Committee of Privileges have taken of "the numera ous papers I have sent to the Press subscribed with my own name, and which they say reiterate the personalities which first incurred the displeasure of the House." But others besides myself seem to have an iron for publishing what they write. I, however, have some excuse. I have published little more, probably, then what I should have said, unless what is in windication of myself, had the opportunity of freedom of debate been afforded me. But for the blouse to do business with the doors closed, whereby nobody may know what is going on, and, for one of the Committee of Privileges, to be the first to run to the Press with a Report like the above. and request its insertion, and that before a copy had been furnished to the party so deeply interested and involved in it as myself, seems to argue, on the part of such individual, an intensity of desire for the good of my constituents, for which I can account only on the principle of his having forgotten the tremendous retribution with which another member of the same Committee [Mr. Smith of Pictou] was visited, for having broken the Speaker's injunction of secrecy on a late occasion, when another member of the same Committee [Mr. Hailburton] endeavored to induce the House to vote away, in closed doors, one thousand pounds of the public money for an object, to effect which the Inhabitants of the Town of Halifax had lain their fingers on their private means. The next time Mr. Stewart goes on such an errand five minutes after the House has risen for the day, he had better take a look behind him, and if the communication be one intended for the benefit of the Township of Shelburne, in which I shall ever feel a deep interest, he may possibly see me at his heels.
Suffice it to say, that the Report of the Committee of Privileges which was to be a secret, until it should burst

upon us this day like a meteor; was, in consequence of Mr. Stewart's over anxiety last evening to have it published before I could be aware of its contents, not ten minutes out of his hand before it was in mine, by permission of the Editor of the Nova-Scotian, with whom it had been left; and to whom I had applied to be allowed to peruse it, in consequence of a Gentleman meeting me in the street, and kindly informing me that he had reason to believe it had been carried to the Nova-Scotian as above stated for publication. Neither Mr. Howe not any of his friends, however, have a knowledge of the source from which I obtained my information. with little assonishment, I copied it, and it was in type as forming part of this letter, before the manuscript was

sent by the House this day for insertion in Mr. Spike's paper of to-morrow.

I magine you will think it among the anomalies of the present day, that, in consequence of what I have written and published in the Recorder, Mr. Holland, the Editor thereof, has been brought to the kar of the House for punishment;—whilst Mr. Ward, the Editor of the Free Prees, fol publicly thanking whom, for the fair and importial view he has taken of the affair. I embrace this opportunity has been also, for publishing an extract from the St. John Uity Gazette, and an article which he wrote himself explaining his reasons for omitting a paragraph which he thought personal, was also brought to the Bar for the same purpose. These Gentlemen, I am informs ed, were given to understand, that any reflections upon the conduct of the House, issuing from the Presses under their controll, during either its sitting, or its recess, would be visited by punishments within the power of the House; and they will no doubt give you, at an early day, their own sentiments on the matter, which it is neither my province nor my intention to anticipate. But why such a document as the above Report should be attempted to be smuggled, under closed doors, into a Newspaper, by a Member of the Committee of Privileges, containing untruths, and, "an ungentlemanlike attack," on both my "private" and public character, and the party not to be infinitely more punished than either of these two Public Journalists, I leave to the consistency of the House itself to decide.

I have made this communication longer than I intended, and shall therefore say but little more on the matter.

at present. These reports are important documents to me, and shall be attended to in due course; and when I am about to take them up for this purpose, I shall be apt to say, in Shakspeare's words, "I thank him, he hath bid me to a Culf's head, the which of I don't caree most curiously, say my knife's nought." I am indeed extremely sorry to have been obliged to use such strong language as I have employed, and nothing short of a proper consideration for my character should have called it form. But as a most base and insidious attempt has been made by the Commattee of Privileges, or rather as it should seem this privileged. Committee, to foist the odium of the late occurrences

in the House on my shoulders,—although they are broad enough to bear considerable weight, I will not quietly consent, not will I a mely submit, to become the scape-goat for the sins of those who, in digging a pit for me, have tumbled into it themselves, and would now most gladly sacrifice me on the alter of public opinion for the purpose of extricating themselves from their own awkward condition.

I am, Gentlemen, Your faithful Representative, JOHN A. BARRY,

Halifax, April 7, 1929.

Friday Afternoon, 10th April, 5 o'clock.

I have this instant been furnished by a friend with the proceedings of the House of Assembly this day, so far as regards you and myself, and I basten to lay them before you.

Mr. Hartshorne moved the following, viz:—
Whereas it appears by the report of the Committee of Privileges that the conduct of Mr. Barry, the Member for Shelburne, has not been of such a nature as would require this House to expel him; and whereas, by his procuacted suspension from his functions as a Member, very greatingury and inconvenience must arise to his constituents;
And whereas, also, the long suspension under which he has already suffered, and his commitment to custody.

constitute, in the opinion of this House, a serious punishment for his offence;

Resolved, therefore, That Mr. Barry shall be reprimanded at the Bar of the House; and on his being so reprimanded, and on his then making a full and satisfactory acknowledgment to Mr. Speaker and this House for the offence committed by him against the decorum of this Assembly, he shall be released from custody, and may again take his seat as a Member of this House.

Mr. Dickson moved this amendment—Resolved, That the circumstance of Mr. Barry, the member for Shelburne, being in contempt, prevents this House from considering of any thing in reference to his present situation, without a petition from Mr. Barry, setting forth that he is now willing to make sufficient satisfaction for the offence committed by him against this House.

For the Amendment-Messrs. G. Smith, Ruggies, Bishop, Dimock, Wier, Heckman, Stewart, Young, Archibald, Poole, Forman, M.Kinnon, Haliburton, Dickson, Morse, Crow, Chipman, Dill, J.Morton, Shey, Fairbanks,

B. Dewolf. Rudolf, J. E. Morton and Barss.

Against the Amendment—Messis, Reach, Oxley, Murdoch, Hartsborne and Homer.

I do not intend to remark at present on the above subject, further than merely to call your attention to the fact of three of the members having to-day voted in opposition, to that of which only last Saturday they journalized in favor.—Two of those who then voted in support of Mr. Hartsborne's amendment were not present on the di-

vision to-day. The remainder were consistent.

And thereupon, Mr. Chipman moved that the House do come to the following Resolutions, viz:

Resolved, That a certain Letter, or Publication, printed and published in the Town of Halifax, in a certain Newspaper, called the Acadian Recorder, of Saturday, the 11th of April, 1829, and purporting to be addressed to the Freeholders of the Township of Shelburne, and signed with the name of John A. Barry, is, and this House doth adjudge the same, and every part thereof, to be a false, scandalous, malicious, and libellous Publication, grossly, falsely and scandalously, reflecting on the Committee of Privileges of this House, and is a gross violation and contempt of the proceedings, power, authority, and privileges of this House.

Resolved, That John A. Barry, Esquire, Member in this General Assembly for the Township of Shelburne, having, at the Bar of this House, admitted that the said Letter, or Publication, was written, and published, by him, the said John A. Barry, has thereby been guilty, and the House doth hereby adjudge him to be guilty, of a high contempt of this House, and of a gross and indecent breach of the Privileges of this House.

Resolved, That, by such his offence, the said John A. Barry hath rendered himself utterly unworthy to continue a Member of this House, or to sit as a Representative in this Assembly.

Resolved, That, for such his offence, the said John A. Barry be, and this House doth adjudge him to be, expelled from this House, and to be detained in custody in the Gaol of the County of Halifax until the last day of the present Session inclusive, and that Mr. Speaker do issue his Warrant accordingly.

Resolved, That Mr. Speaker do take the necessary steps to procure a new Writ to be issued for the election of a Member to represent the Township of Shelburne in the General Assembly, in place of the said John A. Barry: and thereupon,

Report grant for discovery of Rioters assaulting Members

The Chairman reported from the Committee, that they had considered the business to them referred, and had come to a Resolution thereupon, which they had directed him to report to the House; and he read the same in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows, viz.

Resolved, That it is the opinion of this Committee, unanimously, that the sum of Five Hundred Pounds be granted for the purpose of defraying the expences of offering Rewards for, and procuring the discovery of the Offenders guilty of the riotous and gross insults, and of the infamous assaults, and personal violence, which, on Saturday last, were offered to, and committed upon, the Members of this House; and also, towards defraying the expence of prosecuting, and bringing to condign punishment, the Authors, Parties, Aiders and Abettors, of and in the said Outrages -The said sum to be placed at the disposal of His Excellency the Lieutenant-Governor, for the purposes aforesaid, and further, for defraying the expence of prosecuting the Parties engaged in the late rescue of Mr. Barry from the Officers of this House.

The Chairman also acquainted the House, that he was directed by the Committee to move for leave to sit again on the consideration of a Supply: which the House agreed to The said Resolution was read throughout a first and second time, and, upon the

question put thereupon, unanimously agreed to by the House.

Then the House adjourned until To-morrow, at ten of the Clock.

Mr. Poole moved, that the following Message be sent to the Council, viz.

Resolution to send Mesa sage to Council relative to Riot, &c.

The House of Assembly acquaint His Majesty's Council, that, on Saturday last, ar outrageous attack was made upon several Members of the House of Assembly, who were proceeding to Government-House, by a great number of People of this Town: that one of the Members was severely wounded on the head, two of them knocked down and seriously injured, and a missile thrown into one of the Chambers of the House of the Speaker, and the Speaker himself, together with the Members, treated with the grossest contumely and insult. The House of Assembly have reason to believe, that this outrage was premeditated; but they have been unable to ascertain particularly the Individuals who were guilty of conduct so disgraceful to the Town in which the Legislature holds To enable the Government its sittings, and so subversive of all order and government. to bring the Offenders to punishment, the House have passed a Resolution, by which the sum of Five Hundred Pounds is placed at the disposal of His Excellency the Lieutenant-Governor, to which the House request the assent of His Majesty's Council: which being seconded,

The original motion was then put, and agreed to by the House.

On motion of Mr. Uniacke, resolved, that the said Message, together with the Resolution therein referred to, be sent to His Majesty's Council by a Committee of three tee of Senior of the Senior Members of this House.

Ordered, That Mr. Poole, Mr. Chipman and Mr. Lawson, be a Committee for the

above purpose.

And they went to the Council with the said Message and the Resolution,

And being returned,

Mr. Poole reported that the Committee had delivered the said Mesage and Resolution to the Council at their Table.

A Message from the Council by the Hon. Michael Wallace and the Hon. Charles Message from Morris, who, being admitted, advanced to the Clerk's Table, (all the Members rising in their places and being uncovered,) and the Hon. Michael Wallace addressing Mr. Speaker, said, that they had been directed by the Council to deliver to the House of Assembly the following MESSAGE :

In Council, Tuesday, 14th April. 1829.

His Majesty's Council having this day received a Message from the House of Assembly, by three Members of the House, informing them that an outrageous attack had been made upon several Members of the House of Assembly, who were proceeding to of Rictors, 40 Government-House, by a great number of People of this Town, that one of the Members was severely wounded in the head, two of them knocked down and seriously injured, a missile thrown into one of the Chambers of the House of the Speaker, and the Speaker himself, together with the Members, treated with the grossest contumely and insult; thereupon resolved, unanimously, that a Committee be appointed to inform the House of Assembly, that His Mejesty's Council deeply participate in the indignation and regret which this outrage has excited in every Member of the Community possessed of proper and decent feelings, and do most readily concur in the vote for granting the sum of L.500 for the purpose of defraying the expences of discovering and punishing all Persons concerned in the commission of acts of violence so disgraceful to the Character of this hitherto peaceful Community.

And, after reading the same, he delivered it in at the Clerk's table.

And the Messengers withdrew.

Ordered, That the Message dolle on the Table.

On motion the amendments made by the Council to the Bill, entitled, An Act in amendment of the Act, entitled, An Act for the more effectually enforcing the Inspection, and encouraging the Exportation, of Pickled Fish, were read throughout a first and Amendments second time, and thereupon,

On motion, resolved, that this House do agree to the said amendments, and that the Fish Bill Clerk do take the Bill with the amendments back to the Council, and acquaint them

therewith.

On motion of Mr. Fairbanks, resolved, That a further Conference be asked with His Majesty's Council, relative to the Bill before the Council to authorise a further Issue of Treasury Notes.

Resolved, That the Committee of Conference be instructed to state, in conference, that this House cannot consent to make at present any Vote of Credit, or to authorise

any Loan to the Province on Interest.

That the House are decidedly of opinion, that the credit of the Treasury Notes in circulation, and of those which may be issued under that Bill, cannot be affected, when it is considered that the Public Debt, bearing Interest, has been so greatly reduced, and that the whole amount of Treasury Notes, hereafter to be in circulation, is limited to less than One Year's Revenue of the Province.

Resolution to bring Frederick Major to the Bar for aiding in rescue of Mr. Barry

On motion, resolved unanimously, That it appears to this House that Frederick Major, the Elder, did, on Saturday last, aid and assist in preventing the Sergeant at Arms of this House from executing the Warrant issued by Mr. Speaker, under the authority of this House, for the Committal of John Alexander Barry, Esq. to the Gaol at Halifax; and was at the same time assisting, aiding and abetting, in the rescue and escape of the said John A. Barry, from the custody of the said Sergeant at Arms, while lawfully in his custody under and by virtue of said Warrant.

Therefore, resolved unanimously, That the said Frederick Major, the Elder be forthwith brought to the Bar of this House, to answer for such his conduct, and to abide the turther order of this House thereupon, and that Mr. Speaker do issue his Warrant,

therefor to the Sergeant at Arms.

Philip J. Holland being brought in the custody of the Sergeant at Arms, and placed land broughtat the Bar of this House: the Resolutions of this House, passed yesterday, relative to to the Bar, him and to his Publication of the Acadian Recorder of last Saturday, was read by the Clerk, and Mr. Speaker demanded of the said Philip J. Holland what he had to say in publication

defence of his conduct in publishing the Libel therein mentioned; whereupon,

The said Philip J. Holland stated to the House that he had not done so with any intention of offending this House, nor had any feeling against this House, and had inserted said Publication under an impression and assurance that the author, Mr. Barry, was acting under the best legal advice, and that he (the said Holland) did not know that the Letter the death of complained of was libellous, the full import thereof not having been understood by him: The said Philip J. Holland also stated, that his Brother-in-law died at Halifax on the 13th inst. and had not yet been buried-he was then directed to withdraw: and there-

The House, having considered the foregoing circumstances, came to the following Re-

solution:

#### TO THE KING'S MOST EXCELENT MAJESTY.

THE HUMBLE ADDRESS OF THE HOUSE OF REPRESENTATIVES OF NOVA-SCOTIA, IN GENERAL ASSEMBLY.

#### Most Gracious Sovereign,

Address

E, the Representatives of your loyal People of Nova-Scotia, approach Your Majesty with sentiments of analterable attachment to your Person and Government, and with fervent Prayers for the long continuance of a happy and prosperous Reign.

We most gratefully acknowledge Your Majesty's constant solicitude for the welfare of your Colonial Possessions and desire particularly to express the satisfaction which the liberal Policy of Your Majesty's Government, in removing Commercial Restrictions, and abolishing the system of Custom-House Fees, has diffused throughout this

portion of the Empire.

Influenced by these sentements, the House of Assembly took into consideration the proposal recently transmitted by the Right Honorable the Lords Commissioners of Your Majesty's Treasury, relating to the support of the Custom-House Establishment in Nova-Scotia, and, desirous of satisfying the just expectations of their Lordabips, have agreed to contribute towards the expense of that Department, and, duly appreciating the important benefits so frequently conferred on this Colony, and the influence of the New Colonial System on its best interests, have been induced to make a turther Grant to Your Majesty.

The Assembly have therefore passed an Act of this Legislature, whereby the sum of £6480.9s. Sterling, out of the produce of the Duties levied under the authority of the Act of the Imperial Parliament, on Foreign Productions imported into this Province, is annually appropriated towards the Salaries of the Custom House; and further, have freely granted to Your Majesty, what the House has hitherto claimed, the whole Balance which the Officers of the Customs have left unpaid of those Duties into the Treasury.—Those enactments are made subject to Your Majesty's

Royal approbation.

Sensible that the faithful discharge of our own Duties, forbade us in the least to impair those high and valued privileges which are entrusted to the Representatives of the People—we have felt bound to provide, by the same Statute, for their entire preservation. The protection of our Revenue, and the accountability inseparable from the receipt of the Public Funds, are also secured by what appeared reasonable and necessary precautions.

When, thus granting the required contribution towards the support of the Customs, the Assembly perceived that additional Officers at the Out Ports might hereafter become indispensable, and had also in serious consideration the rate of Salaries in that Department, as compared with those of the Judges and other Colorial Officers—Upon reference to the present amount of the Provincial Revenue, and the numerous claims on the Legislature, we have deemed it a dury incumbent on us to state, that the sum now granted to your Majesty appears to the House sufficient for making adequate compensation both for the Officers now established in the Customs, and for future and necessary appointments. In the accompanying Statement, prepared by order of the House, these Salaries are arranged on a scale that is deemed not only liberal, but duly proportioned to the duties and responsibility of the respective Officers, as compared with others in the service of the Province, and without desiring to diminish the income now levied by Your Majesty's Principal Officers at Halifax, we humbly present this Statement for the approval of your Majesty's Government.

Convinced that the Commercial Prosperity of Nova-Scotia is a subject of great interest to your Majesty's Mis nisters, we further represent that some of the Regulations in the recent Imperial Statutes have here produced much inconvenience. The present high Duties on Hemp, Wheat, and other raw Materials of Manufacture imported from Foreign Countries, the expense of Warehousing these Articles, in England, when designed for this Colony; and the collection of the Provincial Duties at the Custom House, are severally matters by which Commerce is injuriously affected; and wherein, the Assembly respectfully trust rollef will be afforded by Your Majesty's Ministry.

May it therefore please Your Majesty, at the humble prayer of your dutiful and loyal Subjects graciously to ellow and confirm the Act of this General Assembly, entitled, An Act to make Provision for the Gustom House. Establishment in Nova-Scotia; and further, for the protection and support of the Commercial and general interest of this People, may it please Your Majesty favorably to consider the Representations which are now humbly substituted to the control of the Commercial and general interest of the control of the Commercial and general interest of the People, may it please Your Majesty favorably to consider the Representations which are now humbly substituted to the control of the Commercial and general interest of the Commercial and general in

The Humble Address of the House of Representative in General Assembly.

Address.

MAYIT PLEASE YOUR EXCELLENCY.

THE House of Assembly having considered of your Excellency's Message on the Subject of the Salaries of the Custom House Officers, and, feeling anxious to satisfy the expectation of His Majesty's Government in that particular, have passed a Bill, entitled, An Act to-make Provision for the Custom-House Establishment in Nova-Scotia; and, in order that His Majesty's Pleasure thereon may be obtained, have made the Act subject to the Royal Assent. In this, His Majesty's Council have since expressed their concurrence.

The Assembly have also voted an Humble Address to His Majesty, praying, that the said Bill may be allowed;

and submitting, for the consideration of His Majesty's Government, several matters connected with these Salaries, or relating to the Commerce and General Interest of the Province. The Act and Address they are now anxious

of having transmitted by your Excellency to His Majesty's Government.

The House therefore respectfully pray your Excellency to forward the said Act of the General Assembly and the Address of the House, with the accompanying Statement, to the Right Honorable the Secretary for the Colonies, to be laid before His Majesty, with your Excellency's recommendation in support of the object of the Legislature.

And thereupon, on motion, resolved, that the said last mentioned Address be receiv-

Resolved, That this House do humbly request that His Excellency will be pleased to direct the proper Law Officers to take the necessary measures for bringing to punishment the several Parties guilty of the outrage and rescue aforesaid, or of aiding or a-

betting therein.

Ordered, That the same Committee who went with the Resolution to the Council on the foregoing subject, be a Committee for waiting on His Excellency the Lieutenant-Governor, with the above Resolution, and the Documents above referred to.

On motion of Mr. Bishop, resolved, that a Committee be appointed to wait on His Excellency the Lieutenant-Governor, with instructions to inform His Excellency that the Members of this House have for their several Counties been particularly cautious and careful in the selection of suitable Persons to recommend to His Excellency as Com- with regard missioners for the expenditure of Public Monies on the Roads and Bridges, and to request that His Excellency will be pleased to give such recommendations his favourable em consideration. to by
Governor

I beg leave to present to your Excellency, on behalf of His Majesty's faithful and loyal Subjects, the Commons of Nova-Scotia, a Bill for appropriating the Supplies granted in the present Session for the support of His Majesty's Government for the present year, and to request your Excellency's Assent to the same.

His Excellency was pleased to give His Assent to the Bill following, viz:

An Act for applying certain Monies, therein mentioned, for the Service of the Year of our Lord One Thousand Eight Hundred and Twenty-nine; and for appropriating such part of the Supplies, granted in this Session of the General Assembly, as are not already appropriated by the Laws or Acts of the Province.

## SATURDAY, 18th APRIL, 1829.

His Excellency was then pleased to make the following Speech:

Mr. President, and Gentlemen of His Majesty's Council, Mr. Speaker, and Gentlemen of the House of Assembly,

Y best acknowledgments are due to you, for the zeal and assiduity with which you have disposed of the business that required your attention, and enabled me to consult the convenience of the different Branches of the Public Service, by closing, at the present period, this Session of the Legislature.

My concurrence in the several Bills which have resulted from your deliberations, has been attended with the satisfaction that I must always feel in joining with you to pro-

mote the general good, by the adoption of wise and salutary Laws.

I thank you, in the Name of His Majesty, for the Supplies you have given for the Services of the present year; you may rest assured that no attention shall be wanted to

... render them effectual for the purposes for which they were granted.

Your Bill making permanent Provision for the Custom-House Establishment, I shall transmit with pleasure for the consideration of His Majesty. It will not fail to convey a fresh proof of the enlightened Public Spirit, and the sense of Justice towards the Mother Country, which have guided your Legislative Proceedings, and tended to confer on them a Character so honourable to this Province.

Afterwards, the President of His Majesty's Council, by His Excellency's Command, said—

It is His Excellency's Will and Pleasure that this General Assembly be prorogued to Thursday, the sixteenth day of July next, to be then held at the usual place, and this General Assembly is accordingly prorogued to Thursday, the sixteenth day of July next.

J. WHIDDEN, Clerk of Assembly.
