### ACADIA LOSES TO WANDERERS

In Hard Fought Game of Basket At Halifax Saturday Night

(From the Morning-Ch

(From the Morning Chronicle)

In a hard, fast game of baskestall, replete with heavy body checking and rough play in which both sides were forced to resert to long shooting, the Wanderers defeated the Audia quintette at the Y. M. G. A. on Saturday sight by a score of 37 to 15.

This was Acadia's first game in Halifax this season, and while the Wanderers outscored them by a wide margin, they nevertheless gave a good account of themselves against the local champions and had they been on the basket on their long shooting to the same extent as the Wanderers, the score would have been much more indicative of the game. The locals showed more speed than their rivals from Wellfville, and in many instances this gave them lots of time to absolt. Most of the shots from both teams were well guasded, however, and some of the gameding was well outside the rules of the game. Referes Barrowman, however, allowed them to hand out the heavy work to their hearts' content, and humps were given and talsen in good splirit.

George Rattic opened the scoring for the Wanderers after three minutes of play, when he threw a long basket from well over half way. The Reds accred again a moment later, but at the five minute mark the visitors evened things up. The Reds went and again by two points and again Audia evened the count. MacCoy and his cohorts, however, finding that they could not get in very close owing to the guarding of McBuilde and Rhodenizer, started their famous long range work and quickly ran up a comfortable lead. The first session ended with the locals leading 17 to 8.

The second half was just a procession with the Wanderers getting first her and the themselved and the second splirit.

The first session ended with the locals leading 17 to 8.

The second half was just a procession with the Wanderen getting farther and further ahead all the time. Aradia tried all kinds of long shots, but they were off the basket. The Wanderens, towards the end of the game, commenced to show to advantage, and they got in close for some pretty shots. #### PREMIER ARMSTRONG'S OPPORTUNITY

Hon. Mr. Armstrong, the new premier of Nova Scotia, has a splendid opportunity to show his loyality to his native province and establish a reputation as a statesman who has the courage of his convictions. His recent plea for a greater unity and a determined effort to keep our people at home and prosperous will find a ready response in the hearts of all patriotic citizens of the province. As a step in this direction THE Acadian would suggest a more business-like method of conducting public affairs, a greater economy in governmental expenditures and the introduction of such reforms as will tend to make the burdens of taxation bear less heavily upon those who have to pay the bills. For instance what need is there of a second chamber in our government, why such heavy administrative expenses, etc.? Why have two representatives from each county in the House of Assembly? The present would be a most opportune time for the introduction of a sane and wise curtailment in these and of our birth, and New Bagland. At an executive meeting of this Club held on 19th inst., the following resolution was unanimously passed: We forward this to you with the sincere hope that you will cause a Commission or Committee to take cognizance thereof, and take such steps as to bring the matter of Old Home Week throughout Nova sectia and Cape Breton to a successful conclusion in the summer of 1924.

Voted Whates, the matter of Old Home Week in 1924 has been before the people of Nova Sectia and the Maritime Frovinces for some years, and its many advantages have been fully explained and admitted, and as the matter of the province and at the same time add considerably to the efficiency the province and at the same time add considerably to the efficiency of government. If Premier Armstrong is consistent in his professions the present session should see many reforms—long apparent to the wayfaring man-set in operation.

#### MAKING NEWSPAPER SPACE PAY

If every business man should decide tomorrow to spend two per cent. of an average day's sales in newspaper advertising in quest of increased business our newspapers would not be found equipped to handle the traffic. And yet if all business men were smart enough to take advantage of past successful experience they would all advertise throughout the year or for seasonal effect.

Some would produce overnight results like department stores

with their heavy copy in evening newspapers, while others would merely put themselves on the map and before the public notice.

Those who had a real story to tell and the ability to tell it in the most convincing way would get most profitable results, just the same as if they were given opportunity to tell each prospective customer by word of mouth.

Some business men are born salesmen and sound merchandisers and some are not. One merchant can create more sales for a dollar spent in advertising than another can by spending many times as

Advertising will produce results every time it is used by an honest merchant to sell honest goods at honest prices.

If newspaper advertising does not pull it is because either the copy does not ring true, the seasonal appeal is lacking, or the ad-

vertising does not inspire that degree of confidence that is necessary to produce consumer demand.

A casual study of merchandising clearly shows that the dif-ference between the big stores doing the heavy volume of business and those which merely live from hand to mouth is—advertising.

# THE CANADIAN DOLLAR

Of the currencies depreciated by the war the Canadian almost alone has come back to par or thereabouts. Many factors have entered into the recovery of the dollar of the Dominion. The Canadian people have exercised caution in the matter of purchasing goods abroad and have put greater energy into the increase of their export trade. Pulpwood, paper, and wheat have played a part in bringing the Canadian dollar back. A large consideration, however, has been American willingness to invest in Canada.

The United States has the bulk of the world's gold today and faces the problem of employing it to the best advantage. Here is a neighbor nation of vast undeveloped resources, inhabited by people of our own race. Business relationships between the two countries have always been very close. In a business sense, therefore, Canada is a good risk, and much of America's idle gold has found its way across the border to be invested in the development of Canadian

It would be quite unfair to attempt a comparison, in this spect, between Canada and any European nation. The Dominion is a young country, with untold and untapped wealth in forest and mine. Further, Canada is far removed from the after-war complications which, like contagious disease, keep all Europe in unhealth. It is possible, nevertheless, to draw a moral. Canada is not sup porting a huge army instead of paying her debts. Canada has not asked for the cancellation of the quite large loans she made in this country during the war. In other w credit good.—Saturday Evening Post. In other words, Canada has kept her

# THE TELEPHONE GOT NEW YORK IN QUICK TIME

• Few of us need to be reminded of the excitement in the sugar market the other day.

At that time the Acadia Sugar Company had to get in touch with New York one afternoon, and had to get in touch quick!

They had no hesitation as to what course they would adopt; they Telephoned,

At 2:54 they put in a Long Distance call and six minutes later they were talking with their New York

The talk passed over the wires with the satisfactory clearness and distinctness that characterises our Long Haul Service.

As for speed of connection—well, while at times we have furnished speedier connections, this was one of our quickest, and we received for it the commendation of the Sugar Company.

It will be recollected that King Edward accumulate a vast amount of sherry of which he was very fond, while the stock of por and claret was also very valuable. But to-day very little alcoholic liquor is

laid down. As a matter of fact a great deal of the costly and heavy wine at Windsor is

being disposed of.

It may be noted that the Prince of Wales has inherited from his Royal grandfather an "intelligent interest" in cookery. Indeed, when quite a lad there is a story told that he wandered into the kitchens of Buckingham Palace and watched with fascinated interest the whitecapped head chef preparing din Later he essayed to try his hand at culinary concoctions and astonished his parents by producing a rather fearsom mess announced proudly as his own The well-established styles are the it is probable that Marlborough House

The Kentville hockey team defeated the Lunenburg team, champions of the South Shore League, at the Kentville rink on Tuesday evening, by the score of 10 to 1.

Windsor won the first of the home and home games with Lunenburg in the Nova Scotia hockey championship series at Windsor on Monday evening. The score was 8 to 0. The next game will be played at Lunenburg to-night.

A former Wolfville resident, Dr. G. E. Herman deWitt, now of Regina, Sask, in renewing his subscription to THE ACADIAN for the coming year, writes:
"It is now fifteen years since I first left Wolfville and many strange names appear in your paper, nevertheless I am always pleased to receive it and note the progress of my old home which is still dear to me."

The death took place suddenly on Wethesday, at her home in Avonport, of Miss Martha Allen, an aged and respected resident of that place. The deceased was a daughter of the late Daniel Allen, and a sister of Mr. James A. Allen, of North Grand Pre. She was in her seventy-third year and was well known and highly respected. The funeral will be held to day, the interment being at Willow Bank

The many school-girl friends of Miss Bernice Porter will be pleased to know that she has recovered from her long illness and will soon be able to resur her classes in high-school. Her winter's confinement in the house has been eliven-ed by many kind remembrances from Among these the attention and visits of her Sunday-school teacher. Mis Richardson and members of her class of girls have been especially appreciated.

#### HIGHER TEA PRICES EXPLAINED

The Salada Tea Company, the larges distributors of tea in Canada, recently announced an increase in price on each of their blends. This course was forced upon them, according to information received about the situation in order to maintain the quality of "SALADA" Tea, when paying the higest prices eve recorded on the primary markets for the unblended leaf. The story of riots on the tea plantations, dock strikes in Calcutta to delay shipping, and the difficulty to obtain coolie labor to pluck the tea from the bushes, all bring home ) us the fact that the social unrest that has been everywhere apparent since the war has spread even to the remotest tea gardens in India.

# ASSESSMENT APPEAL COURT

The Assessment Appeal Court which met at the Council Chamber at 2 o'clock on Tuesday afternoon was attended by a number of interested spectators which taxed the accommodation provided. There were over sixty appeals although the greater number of those who appealed were not present, preferring to fyle statements which were admitted as evidence. Some of the argument which the public had the privilege of hearing not a little amusement. Only a few o the appeals were disposed of, the greater number being deferred until an adjourned Monday afternoon next at four o'clock when decisions will be rendered. ACADIAN will endeavor to give a detailed report of the findings in its next issue.

### 5000 FACTS ABOUT CANADA

A popular and hardy annual is the "5000 Facts about Canada" issued for twenty years by Frank Yeigh, the well known Canadian writer and lecturer. The 1923 edition is now out and contains many additions and improvements including a valuable map of the natural resources of the Dominion. The booklet is a wonderful compilation in brief of the story of the Dominion under fifty subjects, ranging from "Agriculture" to "the West" and "the Yukon" and is indispensible to any educated and in telligent Canadian who wants to keep up to date about his country, or who wishes to advertise it by sending copies away, as many do, while it is widely used in schools. Leading newsdealers keep the book in stock or it may be had by sending 30 cents for a copy to the CANADIAN FACTS PUB. CO., 588 Huron Street, Toronto

# Explored the Rockies in Advance of Railroad

NE by one the pioneers of Canadas are passing on and the ranks of the men who blazed the way into this or that once new land grow yearly thinner. The generation to whom it was given to first penetrate the Rocky Mountains and to seek out the routes which are today avenues of uninterrupted travel has all but passed, and while for the eyes of other adventurous spirits the Canadian Pacific Rockies still reserve in countless valleys and untravelled mountain passes scenes as splendid as any of its well-known wonders, it is to the men of this passing generation that Canada owes its greatest debt of gratitude. They penetrated the wilderness, and made it possible for others to follow. Backed by the men of imperial vision and determination who imagined and then built Canada's first national railroad, the Canadian Pacific, as the corner stone of Canada's future, they found their way against almost the corner stone of Canada's future they found their way against almost insuperable difficulties and mapped the roads for other men to travel

the roads for other men to travel over.

On January 26 iast, at Vancouver, another of these men died in the person of Captain Frank Armstrong, the history of whose life is but a history of the opening up to civilization of the Rocky Mountains and British Columbia. Frank Armstrong was born in Montreal and educated at the High School of that city. He began his career in the office of the Harbour Commissioners as assistant secretary. The family connection with that office was of long duration, his great-grandfather having been Commissioner about 100 years ago when the office was an Imperial appointment.

The call of the West with its adventure and conventions a strong account.

Imperial appointment.

The call of the West with its adventure and opportunity was strong among the youth of Montreal of those days, and the old city gave richly of its best to the upbuilding of newer Canada. Frank Armstrong was among those who went into the new country, and early in his career he was a member of the C. P. R. survey that, under the late Major Rogers, found the Rogers Pass through the Selkirks. One of the most interesting of the events in which he figures was connected with the finding of the Eagle Pass through the Selkirk range in 1831. On this trip he accompanied his life-long friend, the Hon. Fred Aylmer, of Richmond, and Major Rogers after whom the Rogers Pass is named. The engineering party wintered at Moberly Peak in 1832, and through a combination of circumstances suffered great privations. When things got most desperate Frank Armstrong volunteered to go south to Idaho on snowshoes with a toboggast to get food, and this arduous task he successfully accomplished in the face of great difficulty. The Aylmer and Armstrong ranches on the upper Columbia and upper Kootenay rivers When the railway was finally built through, the first load of freight earried into the Columbia valuely included boilers and engines for his steamboats. These were built at Sorel, Que., and hauled across the continent. He was one of a party to go by canoe from Lake Windermere, and being reach the continent. HOW TO CONSTRUCT A HOTBED

Garden crops such as tomatoes, cabage, lettuce and celery, can be greatly advanced in the spring by the use of hotbeds. On the farm the making of such a bed is a simple matter because of the presence of manure of a suitable kind. Whereas the greenhouse has to depend on steam heating for the neces-sary warmth, the heat for a hotbed is secured from that arising from fresh God.—Luke 9:62. top of the ground or in an excavation. Whichever plan is decided upon, the site chosen should drain so as not to site ensure to stand. If the below-ground plan is adopted, the soil should my life; of whom shall I be afraid? be taken out to a depth of about 18 Psalms 27:1. inches and for about three feet wider than the frame, so that there may be room for banking up outside the frame. The banking is very important as it conserves the heat. Horse manure is the best. It should be turned once or the work of the last of the course of the last of the same way brethren, we have done it unto twice, and should be quite hot and ready for use in five or six days.

PORT WILLIAMS HAPPENINGS

Mrs. Mark Regan went to Middl eon on Monday, being called there on account of the serious illness of her brother's wife, Mrs. Anderson Lockwood.

Mrs. (Dr.) Best, of West Pembroke, laine, a former resident of Port Williams, ad one who will be remembered as Miss Lulu Fisher, has recently been admitted as a patient in the "Henry Phipps" Psychiatry clinic of the John Hopkins

lebrated Dr. Adolf Meyer. Miss Pauline Lockwood, of the tele ne staff, of Wolfville, spent Sunday with her parents here.

Miss Jean Murphy, of Halifax, ac companied by a friend spent Sunday with her parents, Mr. and Mrs. Cameron

Mrs. Campbell Clarke left on Feb. 28th for St. John, where she will attend the millinery openings.

About twenty persons braved the bad roads of Feb. 27th and went to nard to attend the farewell service which was held in the Baptist Church for Rev. and Mrs. A. J. Prosser and were well paid for their going. There were six pastors on the platform, and each one spoke in well fitting words, a loyal tri-bute to Mr. and Mrs. Prosser, recognis-ing the very wonderful work they have accomplished during the seven and one half years in which they have been with the first Cornwallis Church. At the close of the service the chairman Mr. Walter Eaton, presented Mr. Prosser with a substantial check, also Mrs. Percy Mac-Donald, on behalf of the W. M. A. S. presented Mrs. Prosser with a very fine gold braclet watch. To these gifts each responded in a few well chosen words. One of the most touching incidents of the evening, was a farewell song, sung by six pupils of the Sunday School at "Gibson's Woods" where Mrs. Prosser has worked so long and so faithfully. This work has been Mrs. Prosser's own special work, and through sunshine and storm she faithfully attended to it, and has dy seen the "fruits of her labors" May the work still be carried on with earnest effort. After refreshments were served many "Good Byes" were said and everyone bids them "God Speed" as they enter upon their new field of labor at Bridgetown.

The social of the "Loyal Workers" S. S. class, which was to have been held on Tuesday was postponed until Friday, March 2nd, at 7.30 p. m. Every one is invited to attend and enjoy the programme also the refreshments. A silver offering will be taken at the door.

Miss Gwendolyn Fullerton entertaine a number of her friends to a skating party and dance on Feb. 28th.

The regular meeting of the "Women's of Port Will will be held in their room at "Citizens Hall' on Thursday, March 8th, at 2.30 p. m The speaker for the afternoon will be Rev. Ross. Collins, who will give glimpses of his travels in Europe. Every one come.

The Institute is planning to hold a oncert on Mar. 9th in "Temperance Hall". The program will consist of both vocal and instrumental music, violin, and readings, also a playlet given by the school children.

The children's carnival which was given on Saturday afternoon, Feb. 24th, was quite a success. Among the prize winners were Madeline Elliott, Donalda oital under the treatment of the Harvey, Ivan Bezanson and Winston

Cogswell.
On Tuesday evening another carniva was given for the adults. The prize winners were: 1st, Miss Laura Hanson (Hallowe'en); 2nd, Miss Hilda Thomson (Britannia) for the ladies; and the gentle man's prizes were given to Mr. Gerald Eaton, and Miss Dorothy MacKinnon. Miss A. M. Cogswell is in Avonport this week being called there on Monday to relieve Miss Miner, nurse.

The piano fund of the S. S. is steadily growing, being enlarged this week by the sum of \$25.00, a gift from Senate Nathaniel Curry. A few weeks ago Mrs. Sarah Rhodes, sister of Senator Curry, made a donation of \$25.00 also. Both Mrs. Rhodes and Senator Curry were born and lived here in Port William and they have certainly not forgotter childhood home and friends, of whom there are still a few remaining Dr. Zwicker, of Belcher Street, went

to Berwick on Wednesday. The "Lily of the Valley" Division No. 440, met as usual on Monday even and enjoyed a fraternal visit from three Division workers who are students at Acadia University. Each, one entered into the spirit of the meeting and brief addresses were listened to with much interest from each of the three. We hope they will repeat the visit again soon.

Mr. Joseph Hill, who has been working as carpenter for Mr. G. H. Gates this last year, has moved back to West Gore. Mr. Robie Thomson has gone to St. John with his brother Gordon, who has been successful in securing work for

A comparison of the per capita taxation in Great Britain, France and the United States, given by Stanley Baldwin, British Chancellor of the Exchequer, in the House of Commons, shows: Great Britain, direct taxes 210 shillings, indirect 122 shillings; France, direct 242 francs, indirect 193 francs; United States, federal taxes direct 57 shillings, and indirect 57 shillings. A farewell reception was held in the Baptist Church on Tuesday evening for Mr. and Mrs. Prosser. The church was filled and a very pleasing program was rendered. Addresses were given by Dr. DeWolfe, Revs. Hodg:on, Barber, Chipman, Logan and Ross; also a history of the church during the seven years of Mr. Prosser's pastorate was given by MissGertrude Eaton, showing the church's progress during that time. Mrs. P. G. McDonald then presented Mrs. Prosser with a gold wrist watch, the gift of the ladies of the church, and spoke of Mrs Prosser's work among the people and their regret at her leaving Canard. A purse of \$100.00 was presented to Mr. Prosser from the church. The good wishes of all go with Mr. and Mrs. Prosser to their new field of labor at Bridget

> The reason that we assume this position, so at variance with a former stand is that we have lived to see that the re striction of the sale of liquor has worked to the happy advantage of all the people. Take Oroville, for instance. Under the old reign of King Rum it was a commo and disgusting sight to see men reeling drunk on the streets, making a beastly and children. Passing saloons one's ears were assailed with boisterous and brutal profanity, men participated in nightly orgies and conditions prevailed that were repulsive to every cle ing human being. Since the dry law wen-into effect we do not remember of see ing a single drunken man on the public streets and the swearing, quarreling boisterous scenes formerly so commor in this balliwick have been eliminated That people do drink and get drunk sad be it said, is true from the reports is done under cover and is gradually growing less and less and if the law continues on the statute books, in time these unfortunates cursed by the thirst

In all our pe egrinations we did not see a single individual under the influence of liquor. On the train, on the water fronts, in those regions formerly designated as below the dead line, there was no intoxication. Could any on imagine that such a condition could exist in the days before this country went dry? The dry law is defied.
