

TO THE ELECTORS OF HURON, PERTH AND BRUCE.

GENTLEMEN— You are aware that when I appeared before you at the late General Election I had not accepted Office, although I had been gazetted as President of the Executive Council. My reasons for refusing that Office I stated to you plainly and in full. I then explained to you, that although it is necessary to have a Chairman or President, the duties hitherto devolving upon the President were not such as to warrant the country in paying eight hundred pounds a year for his services. Since that time, however, the office of President of the Council has been materially altered and other important duties, till now neglected, have been attached to it—so that it is now in reality no longer a sinecure and hence my principle objection to it is entirely removed. Indeed, it may be presumed that the duties allotted to the President of the Council, in future, are equal in number, and almost equal in importance to the duties performed by any other member of the Cabinet.

So early as the year 1841, I urged in strong terms, upon the attention of the then Government, the justice and utility of establishing a Department of Agriculture, feeling then as I do now, that if any one interest or department was entitled to the consideration and vigilance of Legislature, that one should be the Agricultural. This is Canada's great interest—the foundation of all our hopes of wealth and prosperity; and notwithstanding the comparative indifference with which it has hitherto been regarded, it is the one which must furnish the "men women and money," that will ultimately raise us in the scale of nations.

The Government has now established a Department of Agriculture, the management of which, together with several other duties connected with emigration, and the statistics of the Province are entrusted to the Chairman of Committees, and His Excellency having been pleased to offer me this office in its altered and improved character, I felt it my duty and esteemed it an honor, to aid in the deliberations of an Administration in which I had full confidence—which I had assisted to form, and of which I expected to have been, from the first, a member.

And although I still feel that a gentleman of superior literary attainments would more properly discharge the duties of Chairman of Committees, yet as His Excellency and his Advisers have been pleased to consider me competent to the several duties now attached to the office, I have accepted it. And in doing so, I affirm in contradiction of the statements of the opposition and discontented Press, that my acceptance of it, in its present form, will be a considerable saving to the country. It has been alleged by certain portions of the Press that I am at liberty to accept and hold this office without again appealing to my constituents. But, Gentlemen, whatever the law may say on the subject, I have too much respect for public opinion and the principles of our Constitution, to evade both by availing myself of a legal quibble. I shall, therefore, so soon as a writ can issue, that is, so soon as Parliament meets, resign my seat and give you, the Electors of Huron, an opportunity of expressing at the Polls, your opinion of my conduct in thus concurring in the first attempt of any Canadian Government to recognize and elevate the agricultural interests by a distinct Governmental Department.

I have the Honor to be, Gentlemen, Your obedt servt, MALCOLM CAMERON

FROM THE CAPE DE VEREALES. BORON, March 1, 1852. Accounts from the Cape de Verde Islands to January 31, state that there has been a great deal of sickness there, especially at St. Antonio and St. Vincent. At the latter place nearly three-fourths of the population had died at the former, large numbers had died; and the mortality was increasing at the last accounts. The islands had suffered greatly from gales and rains, which had prostrated houses and destroyed crops. The inhabitants were obliged to live in mud hovels, and to this cause was ascribed the great mortality. A letter from Messina, of February 9, says that for ten days previous, severe shocks of earthquake had been experienced. The houses had thus far withstood the shocks, but the inhabitants were in a continual state of terror.

APPENDIX

REPORT

Of the Finance Committee.

MEMBERS.—Messrs. Holmes, Hill, Wallace, Smith and Robinson. Your Committee having taken into consideration the several documents submitted, beg leave to report.

No. 33 Letter from the County Treasurer respecting the loan anticipated, and other matters, we recommend to be filed. 37 Letter of John Nairn, Esq., Secretary to the Board of Public Instruction with accompanying documents, first statement of accounts due by the Board, amounting in the aggregate to £28 11 31. The items are, 1st, To Mr. Leturge for use of Room, refreshments, &c., for two days, £3 7 6.

Your Committee beg leave to say that there is no voucher for this account, and cannot recommend it to be paid in its present shape. Second. Board of Education to L. Rattenbury, Dec. 9, 1850. To three glasses of Hot Brandy, £0 16 To four Dinners including Beer, 0 6 To two Bottles Brandy, 0 6 To four Lunches, 7/4, 0 2 6 To two Bottles of Porter, 1s 6d, 0 3 0 To two glasses Brandy, one hot drink, and two Lunches, 0 2 4

Your Committee beg leave to say that we are not aware of a Bill such as the above should be discharged by the Public. We refer this matter to the Council. Third. Board of Public Instruction, To Alfred W. Otter, For services as Secretary, £2 5s. This we recommend to be paid. Account of Benjamin Parsons for Stationery 18s 10d, we recommend to be paid. Account of Rev. J. Logie for expenses, £3, we recommend to be paid. Account of Mr. John Nairn for expenses attending Board amounting to 15s., we recommend to be paid. Account of James Redford for expenses in attending Board 5s., we recommend to be paid.

Account of the Huron Signal for advertising, amounting to £2 8 8, we recommend to be paid. Account of the Huron Loyalist, for advertising, amounting to £1 15 2, to be paid. Account of Mr. John Nairn for services as Secretary to the Board, amount £5 5s, we consider rather extravagant, as it appears that Mr. Nairn was occupied with the duties of Secretary a much less period of time than Mr. Otter was engaged in the same duty. Your Committee would, therefore, recommend that he be allowed only the same amount of compensation, viz: £2 5s. The houses had thus far withstood the shocks, but the inhabitants were in a continual state of terror.

Account of Mr. Peter Woods for use of Room, Stage fare and refreshments amounting to £1 11 10, we recommend that the use of Room and Stage fare only be paid, amounting to 18s 9d. Account from Mrs. Baskwell for use of Room and refreshments, the same delinquency as the last. Account for Mr. McKid's travelling expenses, as there is no voucher for, we cannot recommend to be paid. 45 Petition of Lowell Alvord—with regard to which it appears to your Committee that there can be legal difficulty in the way of Benjamin Miller and others, who proceeed the subscriptions alluded to in the above Petition, which would prevent the collection of the same, if the suits were entered in their own names, or of that of any individual to whom they might assign such list for collection in the matter, as it does not appear that the subscription list ever was the property of this Council. 38 Letter and account from the Government Secretary's Office for Books furnished to the County Registrar, amounting to £7 11 6, we recommend to be paid. 66 Petition of James Brown, Contractor for Carron Brook Bridge, praying for an advance on contract. Your Committee would recommend that the prayer of the Petition be complied with. 67 Being a document from Ira Lewis and Wm. Wallace relative to the taxation of the town of Goderich. It appears to your Committee that we have no right to interfere with the Assessors Rolls of the Town of Goderich at this time. But as it appears that the annual value is more in proportion than the real value on said Rolls, we would recommend that due consideration be given thereto at the time of laying on the taxes of the current year. 71 Motion of Mr. Robinson for £150 towards building a Bridge at St. Marys. Your Committee would recommend that out of the taxes of 1852, the sum of one hundred pounds be granted for that purpose. 68 Account of James Redford, Local Superintendent, for the County of Perth, for Stationery and Postages, amounting to £1 9 2, we recommend to be paid. 76 Letter of the Clerk of the Peace, relative to his fees under the amended Jury Act. Your Committee would reiterate the words of the Finance Committee in December last on this subject, that we never anticipated that the fees connected with the new Jury Law would be of such magnitude and consequently, made no provision for its payment. But as it appears imperative on the Treasurer to pay the amount of fees stipulated, we would recommend that the County Treasurer be instructed to pay out of the general funds of these Counties to the Clerk of the Peace, for services performed by him under the Jury Law as amended the amount due for 1850. And as this Council is required to meet (by the amended Assessment Law) on the first Monday in May for the purpose of taking into consideration the several Assessors' Rolls, and levying a tax for the current year, we would recommend that the Clerk of the Peace be instructed to produce to the Clerk of the Peace, at the time of taking into consideration at that time. Your Committee beg leave to recommend that the Warden be instructed to again petition the Provincial Parliament, praying that all County Clerks may have authority to settle the salaries or other remuneration of all County officers paid by the County, and also that he do again petition Parliament on the annual appointment of Constables, and that these petitions be forwarded to the Representative of these United Counties on or before the meeting of Parliament. 77 Account of Huron Loyalist for advertising, being £3, we recommend to be paid when audited. 78 Account from Board of Public Instruction, this has been already reported on. 79 Letter from W. & E. Woodcock relative to County Printing.—We would recommend that the County Printing be let by competition, the contract to extend for one year, and that the County Clerk be instructed to take sufficient security for the performance of the contract, to be confided to the Printers of these United Counties. All which is respectfully submitted by JOHN HOLMES, Chairman. Committee Room, Jan'y 30th 1852.

Poetry

From Dickens' Household Words. THE WASTE OF WORK.

Give me the gold that war has cost, Before this peace expanding day; The wasted skill, the labor lost— The mental treasure thrown away; And I will buy each rod of soil, Where every poor man's child may gain Pure knowledge, free as air and light. Where many peopled cities stand.

I'll clothe each shivering wretch on earth, In needful, nay, in brave attire; I'll feed the hungry, and I'll cheer the wretched, and I'll give the wretched cheer; Which mights might envy and admire. In every vale, on every plain, A school shall gladden the peasant's sight; Where every poor man's child may gain Pure knowledge, free as air and light.

I'll build asylums for the poor, By age or ailment made forlorn; And none shall thrust them from the door, Or sting with look a little word of scorn; I'll link each alien hemisphere! Help honest men to conquer wrong; Art, Science, Labor, nerve and cheer; Reward the poet and his song.

In every crowded town shall rise Halls academiad, snugly clad; Where ignorance may soon be wised, And coarseness learn both art and taste. To every province ample shall rise, Elaborate structures, and not few— Filled with a truth exploring throng, And teachers of the good and true.

In every town and people'd clime, A vast Waldiana hall shall stand; A Phœnix for the truly great, The wise, the beneficent, and just; A place of pride and lofty state To honor or to hold their dust.

A temple to attract and teach Shall lift its spire on every hill, Where pious men shall feel and preach Peace, mercy, tolerance, good will; Music of bells on Sabbath days shall ring, And round the whole earth shall gladly rise, And one great Christian song of praise, Stream sweetly upward to the skies!

Literature

NEWSPAPER SUBSCRIBERS.

The following classification of newspaper subscribers is taken from the Prairie Farmer. First comes the class of "Uprights"—these are men who take newspapers, pay for them and read them. Observe the order in which these things are done: the paper comes first, the reading next, the money last. These men are the backbone of their money in this bargain. It seems to them as fair and just that newspapers should be paid for as well as for his paper, and they never entertain any other opinion. When the year runs out or a little before, they are on hand with the pay, they are not a moment behind in their remembrance of this period, that Sunday or the first of January. If any one of them wishes to stop his paper, he either calls, or writes a letter by his postman like a man, and this class is dear to the Editor. Their image is embalmed in his warm affections: May they live a thousand years, and see their country to the fourth generation. The second class now in mind is the "Do Wells."—This class is nearly related to the other, so near, that it is hard to tell where one begins the other ends. These men always pay in advance in the beginning, and intend to do so continually. But memory fails a little, sometimes on a rainy day, and the time runs by sometimes a little, sometimes for quite a period. But their recollection, though nodding occasionally, never gets sound asleep. It pronounces the word in due time, "The printer must be paid," and forthwith they try to do well kindly a little, sometimes on a rainy day, and the time runs by sometimes a little, sometimes for quite a period.
