ATHENS, Dec. 26 (by mail.) Field Marshal Earl Kitchener left to-day a vivid impression on the Athens population, and especially on Constantine, the King of the Greeks. Speaking of the British War Minis-ter's visit to the Greek monarch said the Associated Press correspond-t: "Kitchener is a soldier, we speak the same language and we under-stand one another perfectly." One story which Lord Kitchener told in thens made a particularly deep imression on the public, on account o the incident being given out. CONSTIPATIENTS Read This

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning. The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.

Abbey's Effervescent Salt, sold everywhere at 25c and 60c, stimulates and restores the stomach digestion, increases the flow of bile into the intestine, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.

HELP THEM OUT!

The six public spirited citizens got to work last night in arranging to con-trol the sale and distri-bution of the coal that was in stock in the city on December 31st, and they should receive the co-operation of all other citizens in their efforts. The Government has arranged for the arrival of 6,000 tons of coal by the Alconda in the first week ranged for the arrival of 6,000 tons of coal by the Alconda in the first week of February and there is a good chance of obtaining a similar load later, as it is likely that a Harmsworth steamer will call here for a second load of paper, as the arrangements for shipping from Heart's Content will not be perfected for another two months. The Government is also chartering a steamer with a deadweight capacity of about 3,500 tons. The problem before them is to keep the public, householders, stores and factories going especially during the winter; and to keep prices as low as later, viz. at 3,20, a messenger arrivales. factories going especially during the winter; and to keep prices as low as possible. The immediate problem is to make the present stock last until additional supplies are secure in port. That is the reason precautions are being taken to supply householders by the half ton and limit it to those who are actually without coal or running close to it, and also to keep factories and stores running. It therefore behoves citizens who have coal to carry them through the next month not to them through the next month not to put in orders to the detriment of those who are without such supplies. There is a distinct duty cast upon them to exercise restraint and consideration for others who are not in such favourable circumstances. The work of the committee of six citizens will be arduous and incessant, and it is the

systems is credited with saying, "Give me any old shop, in any old street, and I'll guarantee to make it in twelve months the most widely known and best frequented shop in the district." He was asked to explain. Holding up three fingers he said, "I believe in the trinity of LIGHT, WARMTH, COMFORT. I should dazzle the moths until the candle drew them, I should bring them into a warm, comfortable shop, filled with a soft, pleasing radiance, and the rest is-well, mere child's play."

Mixed metaphors, perhaps, but expressive. Now we can more than imagine the kind of shop this well-known individual would open, for we pass it in almost every town—always a landmark open, for we pass it in almost every town—always a landmark to the street. No one fails to notice it. There is an indefinable air of welcome and invitation as one stands for a moment on the pathway and lets one's gaze travel inside it. The subdued, restrul lighting effect that so charms because of its very unobtrusiveness, the absence of dark corners, the intangible feeling that if one would step inside one would be sure of experiencing a delicious sense of warmth and comfort and cheerfulness-all these are part of its appeal. Truly a shop with an individuality.

We cordially invite all progressive business men to visit our showroom and see our latest Lighting and Heating Appliances, by the adoption of which the ideal outline in the above extract from a London paper may be easily secured. year has been the best in volume of business done, and in the amount of profits earned as shown by our statements. While we have met some heavy losses it is a pleasure to your directors to be able to report that upon all classes of risks accepted by the Company the results of the year's operations have been satisfactory. A very gratifying result is the increased volume of business done, the creased volume of business done, the advance being over, sixty per cent upadvance being over sixty per cent upon the figures of the previous year but there are various way in which the business can be largely increased. Your directors feel that confidence in the Company is growing, and that the promptness and fairness shown by the Company in all cases when particulars of claims are presented, should induce all stockholders to place as much of their insurance business as possible with the Newfoundland Marine Insurance Co., especially as it is found to be more and more difficult to place Marine Insurance clsewhere, and there is sufficient evidence to show that but for the exist-

ESSENCE OF GINGER WINE.

Having had considerable correspondence with parties in the Old Country, I have at last succeeded in obtaining the genuine and original recipe for the "Essence of Ginger Wine." which I now offer at 15 cents per bottle. This recipe has been safely guarded for a great many years. It was originally prepared by an old Squire in Lancastershire, A.D. 1575. It is made from the purest ingredients, and is strictly non-alcoholic. It makes an ideal Christmas drink for the year and also giving each Share-holder Script for (15%) fifteen per cent. paid up stock in the Company. Needless to say, the shareholders were perfectly satisfied and confirmed that their first practice for the sea-son last night at 6.30 and 10, respectively.

When Will Peace be Declared?

VICTORY denotes success with a termination of something successfully finished.

The correct answer, or nearest to correct, as to the date peace is declared and VICTORY for the Allies given, will receive at our office from FRANKLIN'S AGENCIES, LTD.,

3rd Prize 20.00 4th Prize 10.00

Provided the answer is accompanied by a bill from your dealer for a barrel or more of VICTORY Flour. Send your answer in quickly, the first correct an-

swer gets the first prize.

Our decision will be final.

Guess when the war will end, it costs you nothing, as you will likely be buying a high grade flour, any-

The Higher Form of Dress!

Instead of wearing a blanket like an Indian, civilization prescribes a certain style of clothes—it's a higher form of dress. Society by the same token won't tolerate a man with shabby, untidy garments.

We are ready to help you meet the demands of society. Our Dry Cleaning process keeps your apparel immaculate. NICHOLLE, INKPEN & CHAFE, St. John's, Nad., Agts.
