The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

The Association has two Classes of Policies, A and B, having distinctive arrangements as regards Bonuses, &c.

CLASS A.

Cash Bonuses are allocated every year to Policy-holders of five years' standing, who have paid six years' premiums, and are applied in part payment of the next premiums payable for the policies. The outlay required, after the sixth payment, is thus much below the usual amount.

CLASS B.

The Bonuses are declared every five years, and are in the form of Contingent Additions to the Sums Assured, and reserved for those who do not die before the average period. These Bonuses are accordingly three or four times larger than the ordinary Bonuses of other Offices.

The Association is Distinguished by its Liberal and Protective Regulations in favour of the Policy-holders.

The Policies are unusually favourable as regards Indisputability—Non-Forfeiture—Place of Residence, &c. In Class B, the assured may proceed to any part of the World.

The utmost Protection is afforded under accidental omission or inability to pay premiums, and the policy-holder's convenience is met by arrangements for postponing payments; by Loans to the extent of the Value of the Policy; or by Reduction of the Assurance to a smaller amount, &c.

In Discontinuing payment of his premiums, the policy-holder is protected against loss by the Non-Forfeitable Premium System, now extended to almost all kinds of Assurances.

OF 1875, OTTAWA.

The Safes I manufacture, justly considered at present as the best ever offered to the public, combine all the qualities required as to strength and safety. In order to avoid moisture in the interior of the Safe, and offer the greatest possible resistance in case of fire, an air space has been secured between the Iron sheets which form the envelope or frame of the Safe.

The hinges are not of Cast, but Wrought Iron, resting on a solid base of Steel with aperture, in order to remove the doors in case they should in time require any repairs. This improvement gives an undoubted superiority over all other Safes.

These Safes are all they are represented to be, and a visit to my Factory will convince every thinking man of the truth of what I affirm.

I also Manufacture to order

Iron Vault Linings, Burglar-Proof Vault Doors, Fire-Proof Doors.

Iron Shutters, Iron Doors for Public Buildings, Messengers' Chests and Deed Boxes, Cell Doors and Gratings, Jail, Safe, Bank and Store-door Locks, Iron Beams and Iron Bridges, &c.

MONTREAL,

PREFACE.

THE PUBLISHERS have much pleasure in submitting herewith the MONTREAL DIRECTORY for 1877-78, and trust it will meet the approval of subscribers and advertisers. The difficulty of securing thoroughly reliable agents necessitates, in a large number of cases, the revision of their work. To some this repetition may have proved somewhat annoying, but by no other means could correctness be secured.

It will be noticed that the usual classification of subscribers and advertisers is, in the present issue, confined to advertisers. The omission will be readily understood and excused when the Publishers announce that a separate volume will presently be issued under the title of

LOVELL'S CLASSIFIED BUSINESS DIRECTORY.

The Business Directory will contain a complete classification, under their respective profession, business or trade, of every person doing business in this city, as well as a large amount of valuable Miscellaneous information. It is the intention of the Publishers to canvass the Dominion for subscribers to this Directory, and, as the price is only \$1.00, there can be no doubt an immense circulation will be secured. It is intended, moreover, to place a copy in every leading hotel and manufactory in the cities and towns of the Dominion.

With so widespread a circulation, and the exceedingly comprehensive range of the classification—for heads of which see pages 69 to 94—a wide publicity is assured to business men throughout the Dominion.

In this issue will be found a small PLAN with KEY, indicating the position of the important points in the city. For a large portion of this Plan we are indebted to Mr. G. N. TACKABURY, the material being taken from the admirable plan contained in TACKABURY'S ATLAS OF THE DOMINION OF CANADA.

The Publishers have to thank subscribers and advertisers for their continued generous support, and beg also to acknowledge the courtesy of those to whom they are indebted for the large volume of Miscellaneous information contained in the Directory.

ATTENTION !

Good News for the Ruptured.

PERMANENT RELIEF OF

ABDOMINAL HERNIA OR RUPTURE.

ALEXANDER'S

Electro-Galvano-Magnetic Truss

Positively relieves the most inveterate cases.

The Best is always the Cheapest.

Spring Band Trusses abandoned.

TO THE PROFESSION.

Having been afflicted with right Inguinal Hernia for sixteen years, and left Inguinal Hernia for eleven years, I have had abundant opportunity for experimenting practically upon myself, and now propose devoting my *attention solely* to this **Department of Mechanical Surgery** not being otherwise engaged in practice.

I therefore appeal with confidence to the *profession*, for their encouragement in introducing a Truss, which I feel assured will meet a want not hitherto supplied and afford to all (even the worst cases) immediate and permanent relief.
