FORMAN SAYS WANLESS PROPERTY ON YONGE ST. IS OVER-ASSESSED

Assessment Commissioner Makes This Claim in Letter Read by Alderman to Council Members—Property Rated According to Purposes for Which It May Be Used.

Regarding reports published in the World recently respecting his assessment in North Toronto, Ald. James C. Forman yesterday, in a letter published below, stated that the report of "a paper" on this question was untrue, he stated.

NO INCREASE YET IN WATER RATES

Council Decided to Get More Information Before Acting.

MCBRIDE SETTLED IT

His Vote Was the Deciding One When the Question Was "Put."

The mayor, Controller McCarthy and others of the council who advocated immediate passing of the water rate increase gave way to Ald. F. S. Spence, measure and party when the increases became an issue at last night's meeting, and acceded to repeated demands for "more information."

WANTS ALL LETTERS ON HYDRO RATES

Controller Simpson Anxious to Have Information Respecting Reduction Order.

The city council may now also take a hand in the hydro rate reduction matter. Yesterday Controller Simpson reported the local Hydro-Electric Commission make a return to the council of all the correspondence passed between them and the Provincial Hydro-Electric Commission respecting the reduction in electric lighting and power rates, with a view of informing members of council of the facts of the case.

The mayor stated that under present rates the city will lose \$400,000 this year. He took it as a fundamental fact of public ownership, that a utility must pay its own way. If increase was not made at once, no more could be realized from the last half of the year than from the first.

HAND HARD JOLT TO WINTER SHOW

National Exhibition Directors Advise City Not to Furnish Grant.

MISSION IS FUTILE

Government Now Perfecting Plans for Exhibit Which Deserves Support.

No matter what the mission of the Toronto Winter Fair Stock Show is, it is futile and worse still, is harmful to the fat stock show at Guelph, or the National Exhibition here, and the city should not spend its money "attempting to build up a show, which could only be a success in so far as it detracts from either the present winter show at Guelph or the great exhibition held under the auspices of the Canadian Exhibition."

This was the import of a statement issued yesterday after the National Exhibition directors had met. The statement also says: "Apart altogether from the unquestioned right of the Canadian National Exhibition, under its lease of the grounds, a similar exhibition on the grounds of the board of directors was unanimously of the opinion that the holding of a show such as proposed in November, is not in the interests of the Canadian National Exhibition, nor is it called for by necessary national or international interests of the country. If the show is to be run as a fat stock and stallion show, with educational features, it merely parallels the work already being done at Guelph, and the city should therefore not duplicate the work already being done by that exhibition."

In conclusion, the board recommends that no show be held paralleling Guelph Exhibition, and that no large live stock, horticultural and dairy show be attempted until such time as the Dominion Government, which is now working up a plan of a great national show, completes its plans. That when these plans are completed, the city should then place at the disposal of the government these grounds, and support liberally the carrying out of a national project of that kind."

Of the statement Mayor Hooker last night expressed the opinion that the Dominion Government would do little toward making Toronto the site of the winter show in the east until the city had done something to demonstrate its desire to secure the show.

WANTS ACTION ON RAILWAY PURCHASE

Controller Church Gives Notices of Motion Respecting Transportation Matters.

Controller Church yesterday gave notice of motion for a bylaw to purchase the street railway, and followed it with one for civic car lines.

The first read: "That the purchase of the Toronto Street Railway and Toronto Electric Light Co. be submitted to the people on Jan. 1 next."

"That G. R. Geary, K.C., be instructed to lay on the table of council forthwith on the present exact position of affairs, and causes of delay, the preparation of said agreement, and also reasons for not having carried out instructions of council on the subject, as the mayor announced in his inaugural address that the agreement had been prepared."

GOT BEST BOND PRICE IN SEVERAL MONTHS

City Accepts Offer of 97.40 for Half-Million Issue.

An offer of 97.40 for \$500,000 worth ten-year 4 1/2 per cent. local improvement debentures was yesterday accepted by the board of control from an insurance concern in New York. This represents a yield of 4 1/2 per cent., a somewhat better figure than the city has secured for some time. The value of the sale is in sounding the American market, since \$2,500,000 bonds of the same character are being prepared for sale by tender.

WIRELESS TELEGRAPHY EASIER BY NIGHT

NEWCASTLE, N. B., May 13.—Experiments in wireless signaling at this station have proved that stations that can reach a ship 1000 or 2000 miles at night cannot reach 200 or 300 feet in the daytime. This is laid to the supposed electrification of the ether by the sun's rays, which presumably makes it more difficult for the artificially created waves travel through the ether.

CHIC HAT MODELS FOR THE HOME MILLINER

Tailored Hat of Straw and Velvet. The New Paris Turban. Plaque for Summer Dresses.

By MADGE MARVEL

HERE is a hint for the girl who wonders what she can do with the bunches of faded flowers she has carefully ripped off her discarded hats, because they "seemed just too good to throw away" and yet look woefully shabby when she takes them out with the idea of making use of them on a new hat.

plume looks like solid gold, the effect of stickiness or heaviness is entirely lacking. Silver leaves used as a wreath about the crown of the hat is a much favored accompaniment to the lacquered ribbon. Gold flowers are frequently seen. The plan of gluing old flowers in perfectly feasible. Try it with a bottle of gilt paint.

"I cannot remember a season," said Ora Cox, in a recent talk, "when flowers were made such splendid use of by the milliners. The ban on alpacas is partly responsible for this, for we are not so much used to wearing them as we once were. I do not look for a thing to take its place, but I do not look for a thing to take its place."

to wear smaller and more delicate flowers, like button roses and lilies of the valley and violets. The average grown woman they are absurd. The stunning looking women of the June type have first call on the showy blooms. They can wear spilling blossoms like the hibiscus, the poinsettia, the calla lily, giant roses, orchids.

Peter's Adventures in Matrimony

By Leona Dalrymple

The truth about "the girl in the case" distinguishes this series by Miss Dalrymple. Her character studies will not appear unfamiliar to the majority of readers, who will follow the fortunes of "Peter" with interest.

A New Toy. ARE women hopeless optimists? Do they rebound in a panic of hysteria from one phase to another? I'm beginning to think so. Mary was not born with a bump of order, nor was she trained to any comprehension of system. Yet she has developed a passion for order and detail. Sometimes, however, acquired tastes are an evil as inherent ones.

A Wife's Duty. A woman marries with the express understanding that she will care for a man's home and bear his children, yet most from the beginning she professes to hate her job. She hates housework, and speaks feelingly of the terrible care of a man's home. When a man selects the law as his profession he doesn't begin to grieve about its dry and dusty details—neither does he mind the long hours he must spend on his desk one night in business-like hours.

Beginning a Reform. After all, I may be a little hide-bound in my notions. Surely the world has gone through the mill and learned to solve the problems of a home can write a genuinely helpful book for other women. I'm beginning to discover after years of prejudice that housekeeping may be learned and learned well from books.

CHARLIE has the whooping cough," says your family doctor. "Keep him away from Jane and William, give him his medicine, and I will drop around again in a few days."

"Thank you, doctor," says the harassed mother as he hurries away. The physician has been brief and methodical, has no doubt written the correct prescription; but, unluckily, he has left the poor mother a warning without explicit directions for its heeding.

Protection Against All Forms of Contagion Should Be Rigid and Unceasing.

However, from whichever room is taken for this home hospital all loose hangings, embroidery, upholstery and carpeting must be removed. Free ventilation that is warm, and dampened walls and floors to keep down dust are also necessary. The ceiling, floors and walls must be wiped with some mild antiseptic such as a 1 per cent. carbolic acid.

Disinfect Sick Room. When the tiny patient has recovered, the room, its contents and the articles that have been in contact with the ill child are more dangerous than the little convalescent. Playthings that are not burned or disinfected have been known to cause the same disease years afterward.

The "Mystery" in Wanting to Be Useful

By Winifred Black

Winifred Black

MISS HELEN CUDAHY, the youngest daughter of Patrick Cudahy, the millionaire meat packer, is going to register in the Massachusetts General Hospital as a student in the school for trained nurses.

Patience, courage, resourcefulness, self-reliance, tact, a quick wit, a sense of humor, a gentle hand, a light heart, a generous soul—all these are the things that go to make up the character of the trained nurse.

What should the daughter of a rich man want with such a list of the beatitudes?

WINTER FAT STOCK SHOW.

A good deal of misrepresentation is occurring over the fat stock show last winter. It was a great deal more than a fat stock show, and really a winter exhibition, and the finest show of the kind, as all good judges admitted.

There was a deficit, but everybody knew there was going to be a deficit when the show was authorized. The deficit was estimated and allowed for. Special efforts were made to keep it as low as possible, and they were fairly successful.

They might have been more so had one former member of the city council performed all he had undertaken to do in connection with the show. It is not fair, at any rate, to emphasize as something new and unexpected a deficit that was regarded as part of the program. The point to be determined in that respect was whether the city got value for its money. That point has been settled with decided favor.

It is evident that the Canadian National Exhibition board is not satisfied that the winter show should have support from the city. There should be no rivalry of an invidious character, and a generous rivalry would do neither show any harm. Above all, no good can come of misrepresentation. If there is money owing the big exhibition from the little one, it is the city that should be looked to, as the fat stock board passed the bills and have no more to do with the matter.

But this is a small affair to rest the decision of the future of the fat stock show upon. The live stock interests of the city are of very considerable importance, and probably the returns to Toronto in one way and another, as the result of the show, are well worth the expense. At all events, the show should be judged on its merits and not on side issues.

THE FRENCH ELECTIONS.

French ministries are short-lived. Their average term is less than a year and this is due to the fact that during the forty odd years of the last Republican Government French politics have been conditioned by the group system. Parliamentary rule to be in its measure effective postulates the existence of two parties or at least of two main parties to whom other groups are only subsidiary.

The trouble in France has been the existence of the group system, with no single group predominant and with the consequent dependence of ministries on fluctuating alliances having themselves no internal element making for stability. Hence the continuing spectacle of a cabinet supported by a huge majority today and left in a minority tomorrow.

Perhaps the most important feature of the French elections that have just been concluded by the taking of the second ballots is the evidence it provides that a reorganization of parties on real dividing lines is in progress. Out of the chaos of parties, three groups are emerging. The Socialists led by Jaures, the Radicals still supported by Caillaux, despite the tragedy of the shooting by his wife of Calmette, editor of the Figaro, and the Federation of the Left, a new group owing its existence to M. Briand. In a chamber consisting of 602 members the Briandists are credited with 177 votes; the ministerialists, of various shades of independent opinion, with 150; the extreme Socialists will number 102, and the United Republicans and Progressives 69. The party of the Rights, which includes all sections hostile to the Republican form of government, will have only 73 votes, a return which does not indicate any desire on the part of the electorate to revert to the monarchical or imperialist mode.

M. Briand's attempt to form an influential central party of moderate Republicans is a conscious effort after the creation of a two-party system, which will ensure greater stability and continuity of policy. It heralds the division of the various Republican groups into Conservative and Radical and leaves the opponents of the Republic free to act much as the Labor party does in the British Parliament.

Now that the Clerical party has been practically eliminated it presents the side of even-handed administration to all minorities whatever the nature of their religious beliefs. In this it differs from the Radical Republicans

MEXICO AND SILVER PRICES.

Time was when disturbances in Mexico, unaccompanied by the prospect of outside interference, would have created only slight general interest and scarcely, if at all, disturbed the markets of the world. But during the last half century the world has been growing smaller and the nations with more independent, interference with the normal course of supply, of any important commodity is felt simultaneously wherever the chain of trade and commerce reaches, and a broken link brings trouble in its train. This protracted trouble in Mexico, with the consequent suspension of internal activity, has not been locally confined. Its effects are being experienced in every financial centre and in large departments of trade and industry.

Mexico has been an influential factor in the world's supply of silver, a metal whose price for years has been mainly dependent on an requirement. Production exceeded demand and in countries with a silver standard large stocks were accumulated and the metal was increasingly in demand in the applied arts. But political disturbances have so diminished the output of the Mexican exports as to cause grave apprehension regarding the possible results of the shrinkage of supply. Operators have already difficulty in forming an opinion as to the future price of silver, and any new demands for it by countries with a silver currency might prove difficult to meet.

As it is, silver has already touched the highest price since the winter of 1913. And that tendency is still upwards.

WILL NOT FORGET. We are told by the authorities who got a bill passed postponing possible purchase of the street railway that the transportation of the war steel is the best evidence of the need for such a body. Work to the amount of \$12,000,000 is recommended, and not a dollar's worth of the whole program is necessary. The highway engineer has had his program approved in full by the Ontario Government and with the commission, and all that now remains is to have the work put in hand.

GOOD ROADS COMMISSION.

In the exclusive story which The World published yesterday, giving the program of the Good Roads Commission for the County of York, there is the best evidence of the need for such a body. Work to the amount of \$12,000,000 is recommended, and not a dollar's worth of the whole program is necessary. The highway engineer has had his program approved in full by the Ontario Government and with the commission, and all that now remains is to have the work put in hand.

SEVEN BOYS HELD BY POLICE AT GALT.

Must Stand Trial for Entering and Ransacking Residence—Two More Wanted.

Special to The Toronto World. GALT, May 13.—Miss Dickson's residence, which in the absence of the mistress, was entered by burglars and ransacked from cellar to garret. Every room was searched, and articles of furniture were opened and their contents strewn over the floor. Closets and trunks were emptied, and a general search of the interior made for valuables. The housekeeper discovered the matter. St. John's chief of Police Gorman, who found a clue which led to the rounding up today of seven boys, the oldest 15, suspected of the crime. Two more are wanted, but have disappeared. Just how much loot was secured is not known, but a considerable quantity of the stolen stuff has been recovered. The boys were remanded till Saturday to allow the police time for additional work on the case.

SWAMP LAND HAS BEEN RECLAIMED.

Government Activity Responsible for Remarkable Feats in Drainage.

WHERE THE FROGS SANG.

Land Long Regarded as Hopeless Now Converted Into Productive Soil.

The Ontario Government is taking pride in some rather remarkable feats of land reclamation, which have been carried through successfully on the farms in connection with provincial institutions. Lands which were once swampy and beneath frog ponds have been drained with an extensive tile system and are this year under crop. The extent of the reclamation of the soil in each case promises to deliver harvests of large size. This work has been done in the direction of Farm Director Todd, in spite of the ill-concealed sneers of farmers in the neighboring districts who scoffed at the age-long existence of the swamps under treatment. They are now taking the result as an object lesson.

The stretches which have been put under cultivation are managed in connection with the institutions at Whitby, Orillia and Brantford. At this latter place an abandoned C.P.R. cut was utilized and ganglopes speedily developed a course for a powerful creek that meandered about for miles. The water was diverted and the land hitherto practically useless was reclaimed. As an instance of an average encouragement received, huge quantities of tile were found in this part, showing where farmers in the past had tried drainage and had given up in disgust. Garden produce of every variety is now set out in rows where the water once stood.

In Orillia also a venture in the way of diverting water was attempted and the results have been good. A large flow of water tumbling into the city was trained into a new channel and made to carry off the effluent of the surrounding country. As the new drainage was being made, a "stretch of land where the frogs sang as long as the memory of man has been made arable and productive soil. Every acre in all was gained at this place.

At the Whitby Asylum Farm the water which had been kept in a small portion, are brought under seeding and prospects are good for a bumper crop. Here there are thirty miles of the drainage late in the patients of the institutions in each case assist in the manual labor.

NORTHWEST VETS. RECALL BATOCHÉ.

Twenty-Ninth Annual Reunion Marked by Stirring Addresses.

HAVE DONE THEIR DUTY.

Col. Knox Leslie Points to Achievements of Canadian Militia.

The 29th annual reunion of the Battalion Column in commemoration of the Battle of Batoche (Northwest rebellion of 1885) was held Tuesday evening in the sergeants' mess of the Royal Grenadiers, 77 Queen street west. Among the company present were the following past presidents of the Battalion: Col. Alex. Stretton, E. Stinson, Robert Hazleton and W. Collins; also Sergt.-Major Tom Moon, G.B.G., a South African veteran, and Capt. W. G. Fowler.

Mr. J. D. Lewis, late 20th battalion, Winnipeg, presided and opened proceedings by proposing the toast of the King, which was heartily responded to. The toast, "Canada," followed, and in replying to it Mr. Hazleton paid a tribute to a noble work accomplished for their country by such notable Canadians as Col. George T. Denison, Col. Sam Hughes, General Sir W. Otter, Col. Grassett and General E. B. Lussard.

Lieut.-Colonel J. K. Leslie, late commanding officer of the 12th Regiment in the course of a brief and breezy speech, remarked that from 1812 till 1890 the Canadian militia had all the way down history proved themselves the right men in the right places. They had succeeded in coming out victorious on every occasion when called upon. They had kept Canada not only a part of the British Empire but a shining jewel in the crown. They had done practically nothing in recognition of the splendid service of the Northwest Field Force but it was now on foot to take charge of the matter before the two governments in view of having this grievance rectified.

The address was well received by awarding first prize to Lieut.-Col. Leslie and second prize to George Miles, an ex-member of the Northwest Mounted Police.

OFFER CATHOLIC SCHOOL TO PROTESTANT BOARD.

Development in Winnipeg Expected to Raise Controversy Anew.

Canadian Press Dispatch. WINNIPEG, May 13.—New developments in Manitoba's school controversy are expected to be the result of a letter from the trustees of St. Mary's Catholic School to the Winnipeg Public School Board. It formally requests the school board to take charge of St. Mary's School and manage it under the terms of the Public School Act. The trustees also request the board to choose a committee to go into the matter. No intimation was given at the meeting as to what the decision would be.

George v. Wilkinson—J. G. Smith and C. W. Widdifield (Aurora) for plaintiff moved for judgment for \$1000 for defendant. Judgment for plaintiff with reference to take the accounts. Costs in cause.

Re Culliton Estate—J. Gibson for administratrix appealed for leave to pay money into court and to be relieved from any further liability and for an issue between claimants. A. MacGregor for claimants. Order made with costs at \$15.

Re Kell v. Heel—Aylesworth (Aylesworth & Co.) for defendant obtained order on consent dismissing action without costs and vacating its pending.

Carter & Co. v. Hewson—Collier (Ross & H.) for plaintiff obtained order for judgment for part of amount claimed in enforcement on writ of summons. Action as to balance claim dismissed.

Judges' Chambers. Before Kelly, J. Re Albert Waring Estate—E. C. Cattanech for infants obtained order for payment of money into court and payment to widow of her share forthwith and of infants' shares as they fall due.

Re David Ward Estate—E. C. Cattanech for infants obtained order coupling for another month the payment of \$1,000 per year for maintenance.

Re John A. Robinson Estate—E. C. Cattanech for infants obtained order continuing maintenance for another year.

Hoy v. Coste—Gordon (Bicknell & Co.) obtained order for subpoena and test et duces tecum to witness in Quebec.

Single Court. Before Kelly, J. Re Charles Thomas Kirk Estate (claim of Charles, J. and Martha M. Goodfellow—F. M. Field, K.C., for estate for appellants; W. F. Kerr (Co-bour) for claimants. Appeal by administrators of estate of Charles Thomas Kirk from order of acting Judge of Surrogate Court of United Counties of Northumberland and Durham, allowing claimants \$194 on claim for \$475.50 made against estate. Appeal allowed with costs. Appeal by appellants against order of original claim exceeds that sum. The question involved in this appeal is whether the appellants are liable for payment of \$194. Should they succeed they would be relieved from payment of that sum; should they fail they would remain liable for it; so that what is in dispute, or as the statute puts it, what is contested in the appeal, the liability to pay \$194. I am of opinion that upon the true construction of sub-section 6 of the appeal does not lie in this case, and the motion should be dismissed with costs.

Foster v. Ackerman—W. D. Gwynne, for plaintiff, moved for judgment; no order. Judgment for plaintiff for balance of purchase money.

D. Gwynne, for City of Toronto—W. D. Gwynne, for applicant, Parker, on motion to quash writ, stated that matter is being arranged and asked enlargement. Enlarged until June 10 accordingly.

FOREST FIRE WASTE HAS COMMENCED AGAIN

Season Has Early Start in Western States—Already Extensive Losses.

Canadian Press Dispatch. WASHINGTON, May 13.—Reports of forest fires in the western states from the Canadian border to Mexico began to filter into the forest service today and indicate an unusually early start of the forest fire season. There already have been extensive fires in California and Arizona, with weather conditions unfavorable from the beginning. In the northwest there was light snow on the mountains at the winter's end than for years and roads right of way, which were last year deep in snow, are now clear and dry enough to burn.

Schulack v. Canada Steel Co.—J. M. Godfrey for defendants; G. S. Kerr, K.C., for plaintiff. Appeal by defendant from judgment of Snider, J., of County of Wentworth, of April 2, 1914. Owing to irregularity in case having been referred from supreme court to county court case, directed to stand until 18th, and parties to endeavor to agree on a correct formal judgment as of supreme court.

Chatterton v. Deeth & Sons—J. M. Langstaff for defendants; H. T. Beck for plaintiff. Appeal by defendants from judgment of county court of York, of March 27, 1914. Action by a painter to recover \$654.18, claimed to be balance due for work done for defendants. Defendants counter-claimed for \$500 damages on account of plaintiff's failure to complete, and carry out contract. At trial judgment was given for plaintiff for \$186.87 and \$75 costs, and counter-claim was dismissed without cost. Appeal partly by argued, but not concluded.

Geary, K.C., for City of Toronto; A. C. McMaster and R. G. Agnew for harbor commissioner. Appeal by plaintiffs in each action from the judgment of the chancellor, of Feb. 14, 1914. Argument of appeals assumed from May 6, but not concluded.

ST. JOHN'S LODGE, I.O.G.T.

After the ordinary business meeting of the Toronto St. John's Lodge, I.O.G.T., a splendid program was arranged by Miss Shinton, it being her birthday.

Mr. Brown, the lodge deputy, took the chair, and the following entertained: Miss Brown, song; Mr. Miller, recitation; Mr. Beard, song; Mr. Miller, recitation; Mr. Beard, song, after which a little social was given. The grand chief, temporary, Bro. Dyson, also said a few words, and altogether a most pleasant evening was spent.

TORONTO L. L. HAS LIVELY SESSION

Heated Discussion Over Senior Series Rules—O.A.L.A. Decisions Not Liked.

A very lively meeting of the Toronto Lacrosse League was held last night at the Iroquois Hotel, and every club in the league was represented.

The question was raised as to whether or not the league could run its own affairs and form its own rules and still be affiliated with the O.A.L.A.

The president will draw up all the schedules and the games in all series will be played in two rounds, the first to be the preliminary round, and the second the qualifying round, and the winners of these rounds to play home and home games in the final.

The following Maitland Intermediates are requested to turn out on Saturday night: Chapman, Thornton, Harper, Newland, Sanderson, Wright, Jardine, Bennett, Hewitson. They play Brampton seniors on Saturday at Brampton.

STALLS ALL FILLED AT WOODBINE PARK

Busy Morning at Track—Two-Year-Olds School at the Barrier.

Yesterday was work day at Woodbine Park, the track and weather conditions were not ideal. There was a good lot of useful gallops, and most of the two-year-olds were schooled at the barrier. Assistant Starter McQuinty had quite a busy morning.

Secretary Fraser reports that they are very much crowded for stall room, although the O.J.C. has accommodation for 650 horses. The demand is so great this spring that a number of strings will have to be stabled outside. The management are very anxious to do all they can for owners.

Beehive, Otter and Martlets were schooled at the barrier. The latter two were breezed three-eighths in 38 hands. The balance of the string were given useful work.

Henry McDaniel returned yesterday morning from New York, and had the Davis string out. Goldie, the pacer, was sent a nice easy mile, evenly rated, in 1:48. Calgary and First Best went the mile in 1:47 1/2; Record and Usher a mile in 1:46 3/4. The hunters, Beware and Fair Annie, went a mile in 1:54.

The Seagram two-year-olds were schooled at the barrier. The rest of the stable were given slow gallops in preparation for faster work tomorrow.

Lady Curzon and John Thompson, from the Dymott string, breezed a quarter in 29 3/4; Earlswagon, and Tippecanoe five-eighths in 37 1/2; Jack Morgan and Kelton three-eighths in 38.

G. W. Scott worked J. H. Houghton five-eighths in 38 1/2. He in right good now. Dr. R. L. Swearingen went a half in 51 3/4; Captain Ben three-eighths in 39; Montague three-eighths in 37 1/2.

Volvoed, from the Gorman string, romped three-quarters in 1:21 1/4, and Gerald G. three-quarters in 1:24 1/4.

Magic Star, from Wm. Walker's stable, worked three-eighths in 38 1/2.

Sir Blaine worked a half in 50 1/4 in handy fashion. He is in W. F. Fine's stable.

Tom Savers and Aram breezed together a quarter in 28 1/2. They will be given a work tomorrow. Jim L. and Tomquill went a half in 50.

Geo. Ritchies' Yorkville worked a nice three-quarters in 1:19 1/2 under restraint all the way.

Banty Rogers worked Canine Jean and Pepper three-quarters in 1:21 1/4, the latter in the lead at the finish. Luckola, the jumper, was galloped at a two-minute clip.

Mausolus, from John Nixon's stable, was given slow exercise, and seems much improved. The many friends of John Nixon will be pleased to know this. The Pacific Coast Amateur Lacrosse Association has forwarded a protest against the awarding of eastern teams of mid-season dates for the championship series of the Vancouver A.C. An answer to the protest is expected from Joe Lally, the most active of the cup trustees, in a few days.

The protest is based on a clause of the association constitution which prohibits any of the league teams from competing in matches with outside teams during the progress of the championship series. The Calgary Chinooks have dates with the V.A.C. in May, and the Brampton team in July. Therefore, if the V.A.C. plays these matches, and the constitution is upheld, the Vancouver Club will be disqualified for the coast series.

Victoria players and officials are very much interested in this protest, and Vancouver is not far from seeking, according to report, and the Victoria's chances of winning the coast title never looked brighter. If the cup stayed with the Vancouver Club, until the close of the season, it would go with the title, whereas, if one of the eastern teams were to capture it in mid-season, the team winning the P.C.A.L.A. championship would have to go to all the bother of challenging and playing post-season matches for it.

It may be, however, that the locals are agitating themselves needlessly. Reliable lacrosse critics, who have seen the Calgary Chinooks and the Brampton team in action, are of the opinion that the Vancouver A.C. or any of the three coast clubs could beat them without any difficulty.

HARBOR FIELD DAY. Harbor Collegiate are holding their annual field day on Friday at 3 o'clock at Varsity field. All the old boys are specially requested to attend.

The Overseas team to play the Irish at Exhibition Park at 6 o'clock; Downham, Dewis, Hayes, Townsend, McKenna, Evans, F. Shepherd, Sprunt, Savill, Waterfield, W. Watson, McTucker, Spire, Race, Aikenhead.

Billy Hay says: "Emerson it was who said that every man passes his life in search of a friend."

"Do you remember the little girl's definition of a 'friend'? 'One who knows all about you, but likes you.'"

"Those are the kind of friends Semi-ready Tailored Clothes are making for themselves in Canada today."

"That is the kind of friend I want to make of you. I want you to know all about the Semi-ready Clothes, so that you will fully appreciate the service they will give you."

"Call in and we will both be happier for the acquaintance, whether you buy or not." Semi-ready Tailored Clothes, R. J. Touke Furnishings, 143 Yonge Street, Toronto.

Men's Soft and Stiff Hats, Thursday, Many Half-Price and Less, At 50c and \$1.00

MANY men doubtless will be ready now for a new spring hat, for with sun and dust, a hat gets shabby quickly, and no man can afford to wear a hat that is not presentable.

Many will, therefore, be pleased to learn of this great special selling of men's hats, both in the soft and stiff styles, that starts Thursday, offering values at half-price and less.

It's the usual thing in our Hat Department to keep all broken and odd lines cleared out, and these two lots, which we feature Thursday, are a collection of lines we've rounded up, together with special purchases at special prices, which makes it one of the greatest events of the kind we've ever offered.

If you want to save on a new hat, come Thursday, and as early as possible.

Hats at 50c—At this price are about 200 hats, including soft hats, in the high crown, telescope shapes, so much in style at the present time.

Also the ever-popular black fedora shapes and a number of low, rounded crown shapes, with soft brims that can be worn any way desired. Colors include steel, dark green, grey, brown, and black.

Stiff hats are in good quality felt, and in a variety of the smart shapes featured this spring. Complete range of sizes in both stiff and soft hats.

Thursday, half-price each 50 Hats at 1.00—Men's fine quality stiff and soft hats. Stiff hats are in the full roll rim style, including some light, flexible styles; also a number of square crown styles, very suitable for elderly men.

Soft hats are mostly in trooper shapes, and are in the popular navy blue, grey and green and brown shades. Many of these are less than half-price. Thursday, each 1.00

Cricket Tournament At Coast Annual Event

VICTORIA, May 13.—Announcement is made that the Pacific Coast cricket tournament will be held during the week of May 24-28, this year, at Victoria. It is thought that there may be a larger entry than before, teams being expected from Seattle, as well as Vancouver, Nanaimo, Cowichan and other parts of the province. Cowichan won the title in 1913.

It is interesting to note that Cowichan was defeated by Seattle last year, but this season as they were in 1913, although they have lost the services of their best player, Curgenven, whom the Australian tourists classed as the best all-around cricketer in America.

The champions, however, have partially lost by the acquisition of two very capable players, Armitage, one of Vancouver's best batsmen, and Orr, 1913 captain of the Oak Bay side, whose Cowichan's greatest rival last season.

A cricket match, St. Edmunds v. St. Davids, will be played on Saturday, at Levee court park, defeated, the latter St. Edmunds will be W. B. Wainlin (captain), J. W. Lambert, W. Strow, A. G. Wakelin, G. E. Jones, W. J. Butterfield, Rev. E. A. Vesey, R. Walker, H. A. Weller, W. Watson, W. S. Reeves, J. Mariner, P. Ashworth. Match starts at 2:30 p.m. sharp.

LONDON, May 13.—R. E. Foster, the English international cricketer, died yesterday.

Many county cricket matches were finished in England yesterday. Kilner 77, Denton 58 and White 51 were the chief scorers for Yorkshire, when they defeated Northamptonshire by an innings and 166 runs. First took six wickets for 34, and Drake six for 40 runs.

Kent defeated M. C. C. by an innings and 19 runs. Hubble 75 and Woolley 94, were the chief batsmen for Kent, while Fairweather took six wickets for 36 runs. Surrey won from Somerset by 241 runs. Hayes for Surrey made 128 runs, while Gootly 77 and Hobbs 85 were the other chief scorers for Surrey. Duca 50 not out, was the best batsman for Somerset.

In the first innings Fender bowling for Surrey performed the hat trick. In the second innings, a victory over Worcester was secured by a narrow margin. In a low scoring game by 34 runs, while Slater scored a victory over Worcester by an innings and 158 runs. Slater's good bowling was responsible for the victory. He took five wickets for 24, and Oliver with 79 and Cadman 62 were the chief scorers.

Hampshire scored a narrow victory over Cambridge by two wickets. Mead 68, and Remond 63, were the best batsmen, while Kennedy took five wickets for 31 runs. Loden was the chief batsman for Cambridge with 106.

MARSHALL BEAT TARRASCH. ST. PETERSBURG, May 13.—In second round of the 15th international chess tournament today, Marshall beat Tarrasch and Capablanca 2-1. The scores: Capablanca 9 1/2, Lasker 8 1/2, Alekhine 8 each, Marshall 7, Tarrasch 6 1/2.

CANADA'S ARTISTS AND FOREIGN ART

"Cadmium" Claims That the Government Stimulus Does Not Invigorate.

PICTURES AND NAMES

One Dead Dutchman With Sixty Live Canadian Artists.

Art has received official recognition in Canada to the extent of a few thousand dollars a year spent in the purchase of meritorious or promising works by Canadian artists.

How it is Done. But the government goes further in its desire to stimulate him by the purchase of examples of work by foreign artists, famous and otherwise, which examples are housed in the National Museum.

Name Collectors. In art there are two sorts of collectors, the one who gathers names, and the other who collects works of art for the sheer love of the thing.

In the National Museum are many famous names, and yet the artist does not travel to Ottawa for inspiration.

collection of Cezanne's still-life paintings, or a room devoted to Winslow Homer, Monet or Pissarro, and the museum at Ottawa would be famous, but one can have an example of every artist from Giotto to Picasso, and possess no works of art at all.

Is He Pampered? If buying foreign works of art by the government or the private collector is helpful to the Canadian artist then surely he is the most pampered individual in the country.

Judgment, Not Money. Unless one is prepared to battle with millions of dollars for the possession of great masters there is little hope of forming anything but a second-rate art collection, except one collects the work of his own time.

Are Discreet. From the artists themselves there is little protest, the unruly one will most likely lessen his chances of publication when exhibition time comes around.

But there is a healthier sort of art patron growing up, who is taking a joke in the Canadian art, who is the courage of his convictions, who is not a dealer's puppet.

PROTESTANTS ARE GROWING FEWER

SCHOOLS STILL LACKING

Many Roman Catholics Attend Protestant Schools — Children Uneducated.

Canadian Press Dispatch. MONTREAL, May 13.—The Presbyterian Synod of Montreal and Ottawa began its business sessions in St. Andrew's Church, Westmount, this morning.

Rev. Dr. Love of Quebec, the moderator, reported that in the rural parts of the Province of Quebec there had been a diminution of the Protestant population.

The totals worked out are: Protestant pupils attending Catholic schools of all kinds, 1195, and Catholics attending Protestant schools, 218.

SEVENTY CADETS TO BE DEDICATED

Imposing Salvation Army Ceremony in Massey Hall Tomorrow.

A HARD PREPARATION

Military College Training Child's Play Compared to S. A. Institution.

On Friday 70 cadets who for the last eight months have been in training at the Salvation Army College will graduate, or, in the phraseology of the Salvation Army, be dedicated to officer-

Each of these people will first be presented to Commissioner Rees by Brigadier Chas. A. Taylor, principal of the Territorial College, and will afterwards declare themselves, in the presence of the congregation, as willing to work for the cause.

They will then receive notification of what appointment has been allotted to them, they having no voice in selecting the district, but going wherever it may please their superiors to place them.

In the evening another big meeting will be held in Massey Hall, with Commissioner Rees in command, and the new officers will take up their official duties.

The Salvation Army, at all times, gives most careful attention to the training of its officers. It is a very common mistake that no training is required to become an officer of the Army. It is generally thought that if you can beat about and groan, and have a voice that carries across the street, and beat a drum or tambourine, you are quite capable of rising to a high position.

This, however, is a great mistake. As a matter of fact, before an officer of the Army can receive a commission he has to undergo a course of training which is, at least, as good a test of efficiency as that required of officers entering the King's Army.

Indeed, in some respects, the military colleges are but playgrounds, where a pretty game is light-heartedly played, as compared to the discipline awaiting the young Salvation Army cadets when they go to their training college to be prepared for their life's work.

From the moment a person professes conversion at the penitent form and signifies an intention to become a soldier in its ranks, there is an opportunity for useful work. Every candidate is warned to count well the cost, and having ascertained themselves that they are right, an application for officership is forwarded to their divisional commander, who immediately takes steps to secure the filling in of the necessary papers.

An accepted candidate is immediately set to work to commence his training without being hampered by the surroundings, and without interfering with his work. Under the direction of the corps officers he assumes certain responsibilities, and at the same time studies his Bible and other books pertaining to the organization, and the rules and regulations of the Army, upon which examination papers are prepared by the principal of the training college.

COUNSEL UNABLE TO CONFUSE ROSE

Informer Stands Five Hours Cross-Examination by Lawyer for Becker.

A HARD PREPARATION

Military College Training Child's Play Compared to S. A. Institution.

NEW YORK, May 13.—Evidently Jack Rose, chief witness for the prosecution at the second trial of Charles Becker, charged with being the instigator of the murder that resulted in the murder of Herman Rosenthal, came from the stand today at the conclusion of the hours of relentless cross-examination, bright-eyed and smiling.

Rose's expression never changed during the grilling. The tone of his voice was never raised, nor lowered at any time. He reiterated his story of the world intrigue and murder with a calm and matter-of-fact air. He showed no fear, no emotion and no remorse, except on one occasion, then he said his conscience pricked him when he thought over how he had plotted to have Herman Rosenthal murdered.

Manton managed to get Rose to admit there were minor discrepancies between the testimony he offered at the first trial and that he gave on direct examination yesterday. Rose said his testimony yesterday was more complete in that his former testimony. At the same time, he said, he told some things at the first trial he did not mention at this one.

HESSIAN FLY IS SERIOUS MENACE

Report of Widespread Damage Stiffened Wheat Prices at Chicago.

CHICAGO, May 13.—Increased damage from Hessian fly and a widening of the infested zone made wheat today with sudden vigor. Prices closed firm at 3-8c to 2-4c not advanced. The outcome for corn was 1-8c off to 1-4c up, oats were unchanged to 3-8c higher and provisions the same as last night in a range of 7-1-2c.

Some of the avowals regarding injury which the Hessian fly is said to be doing to wheat throughout important districts in Missouri and Southern Illinois and Indiana bordered on the sensational. In St. Charles County, Missouri, for example, the damage was estimated as already 40 to 50 per cent. Decatur, Ill., reported fields in all directions from there covered with the insects, 5 to 15 on a stalk. Alarming advances came, too, from Evansville, Indiana.

A Belated Flurry. Bears in wheat had the advantage until the flurry began as to danger from Hessian fly. Growing reports were at hand relative to the crop outlook in most of the winter belt and signs indicated that, contrary to some predictions, the acreage in the spring wheat states would be up to normal. Belief, however, that millers and foreign buyers were actively buying under cover acted as an offset in part, and prepared the way for a somewhat excited bull market late in the session.

Altho corn was easy during the greater part of the day prices hardened in the end with wheat, and as a result of estimates that owing to storms the Argentine crop had been diminished 40,000,000 bushels since maturity.

May oats tightened in a notable manner in consequence of elevator buying. Otherwise the market seemed disposed to follow corn.

Provisions rallied with grain. Before the upturn quotations had been pulled down by depression at the yards.

ST. LAWRENCE MARKET. Receipts of farm produce on the street market were nine loads of hay.

Hay—Nine loads sold at \$18 to \$20 per ton. Wheat, fall, bushel, \$1.02 to \$1.03. Barley, bushel, \$1.00 to \$1.01.

Wholesale seed merchants are selling to the trade: Per 100 lbs. Red clover, No. 2, \$19.00 to \$21.00. Alsike, No. 1, \$21.00 to \$23.00.

Apples, per barrel, \$3.75 to \$7.00. Dairy Produce—Butter, farmers' dairy, \$0.27 to \$0.32. Eggs, new, dozen, \$0.25 to \$0.32.

STOCKS ARE AGAIN MAKING NEW LOWS

Steel Corporation Strikes a New Bottom and Brazil Gets Close.

MONEY LESS EASY

Private Lenders Are Offered Six and a Half Per Cent. on Call Loans.

Outside of Toronto Railway there was little evidence of firmness on the Toronto Stock Exchange yesterday. C.P.R. weakened perceptibly on all markets and was followed to lesser extent by Brazilian, which sold down a full point, and came close to getting into new ground on the down grade.

Steel Corporation continued its downward movement and actually got into new ground at 20 7/8. The market was quiet for fresh weakness, and the only explanation was continued pressure from holders not enamored of the outlook.

Those Guaranteed by Government Rank After All Existing Securities.

Commenting on the intention of the Dominion Government to guarantee new securities of the Canadian Northern for \$45,000,000, the Investors Chronicle says: "These will form a charge on the undertaking and rank after all existing securities including convertible debentures. No more income convertible debentures are to be issued. We have frequently referred to these convertible debentures as the junior security of the Canadian Northern. They are now quoted 86, against 82 on March 14, and the April 1914 coupon of \$2 1/2 has been deducted coupon of 82 1/2. They were 95 earlier this year, and last year touched 103 3/8.

TRADERS AWAIT RATES DECISION

New York Market is Almost Lifeless With Slightly Downward Drift.

SOME C. P. R. SELLING

Liquidation of Syndicate Holdings Said to Have Been in Effect.

NEW YORK, May 13.—Monotony ruled unchallenged on the stock exchange today. Nothing occurred to break the deadlock into which the market has been drifting for several days. Even professional traders who usually are able to find something in a dull day's news to advance as far as they can, failed to buy or sell any stocks, save as they were retired from the field, and the market was at a standstill much of the time. Most stock held through the session within small fractions of yesterday's close.

It was general opinion that the market had gone as far as it could in weighing and translating into stock movements the influences in the present uncertain situation. Accordingly, it was felt that barring the unexpected, not much could be looked for pending the clearing up of one or more of the important questions hanging over the market, such as Mexican mediation and the freight rates case. There were reports from Washington that the decision in the rates case would be announced this week, but these reports were not taken seriously and attempts to base a buying movement on them came to naught.

HEAVY TOWARD CLOSE.

In the first hour prices hardened, but the upturn was checked before it had sufficient proportions to be of significance. Toward the close the undertone became heavier, influenced by pressure against Canadian Pacific and Lehigh Valley. Selling of C. P. R. was said to be due to liquidation of holdings taken over by a syndicate to assure a London house which was in difficulties. Slight losses were the rule at the end of the day.

LONDON MARKET CLOSED UNCERTAIN

MONTREAL, May 13.—A weak spell in C.P.R. during the afternoon started some selling of Brazilian in the local market today, and the price broke quickly from 78 1/4 to a new low of 77 1/4. However, after a new low of 77 1/4 was reached, the price recovered to 78 1/4. Less than 200 shares of C.P.R. were traded in the afternoon. The market was quiet for fresh weakness, and the only explanation was continued pressure from holders not enamored of the outlook.

DECLINE IN C. P. R. ALSO BRAZILIAN

These Two Issues Were Main Features of Montreal Trading.

MONTREAL, May 13.—A weak spell in C.P.R. during the afternoon started some selling of Brazilian in the local market today, and the price broke quickly from 78 1/4 to a new low of 77 1/4. However, after a new low of 77 1/4 was reached, the price recovered to 78 1/4. Less than 200 shares of C.P.R. were traded in the afternoon. The market was quiet for fresh weakness, and the only explanation was continued pressure from holders not enamored of the outlook.

WEAKNESS WAS FROM ULSTER

Outlook and Further Realizing.

LONDON MARKET CLOSED UNCERTAIN

MONTREAL, May 13.—The stock market was quieter today. The least cheerful Ulster outlook and further realizing weakened gill-edged securities, home rails and Argentine issues. Consols recovered in the afternoon, and Brazilian and Rubber shares improved, but the market still was uncertain and somewhat anxious regarding the outcome of the settlement.

AMERICAN SECURITIES WERE QUIET

and featureless during the forenoon. In the late dealing prices hardened a fraction on New York buying, and the market finished quiet steady. Money and discount rates were scarce.

MINING MARKET CONTINUED FIRM

Big Dome Was Easier and Four Other Favorites Advanced.

The mining market was strong yesterday in almost every department except Big Dome which reacted to 9.50. The brokers have a great many buying orders on their books, but they are slightly below present market levels.

Peteren Lake was steady all day, with sales between 48 and 43 1/2. The stock was quiet, but ex-dividend today and will look cheap. Timiskaming had another big day, selling up to 17 3/4. A big strike is reported on this property, and no doubt this will be officially given out in a few days. It is thought that the stock from this property are excellent, and McKinley-Darrah was steady at 63 bid, but with very little stock offered.

An advance in price in this stock is liable to happen any day. Crown Reserve was stronger at 1.80. Now that the private company have given their decision in favor of Crown Reserve this stock should see higher prices.

Bailey was selling around 2 1/4. It is said that an effort is being made to get control of Bailey and unless there is something radically wrong Bailey should be a buy for a turn.

Right-of-Way sold at 46. This company has about \$30,000 in the treasury and is still working in fairly good ore. The market price of this stock looks like to happen any day. Beaver sold up to 27. There is very little of this stock in the market, and a few buying orders would cause a quick advance.

Big Dome was the weak feature, selling down to 9.50. The reports from this property are excellent, and the coming statement should show a handsome balance on hand. The trouble with this stock is that it seems to be manipulated by a well-known New York house just as they please, and the street is of the opinion that it is just about time that the big holders of Dome took it out of their hands.

Dome Lake was the feature of the market, selling three points up to 41. It is said that the big holders of Dome took it out of their hands. The market price of this stock looks like to happen any day. Beaver sold up to 27. There is very little of this stock in the market, and a few buying orders would cause a quick advance.

Chambers-Ferland

Messrs. R. T. Shillington and C. A. Richardson have served on a notice under the libel act, complaining of a statement in reference to the Chambers-Ferland meeting, in one of our recent issues. We are not conscious of having libeled Mr. Shillington or Mr. Richardson, nor do we desire to do so. Neither of these gentlemen, as it happens, was mentioned in the article complained of.

But Messrs. Shillington and Richardson are directors of the Chambers-Ferland Mining Company, Limited, and as such are supporting the proposed agreement to force the minority shareholders to exchange their shares for shares of Aladdin Cobalt, Limited. No justification has been made nor attempted by Messrs. Shillington and Richardson or anyone else, in the public prints or elsewhere, of this deal. From all we can learn this is the rawest deal that has been offered to a minority, even in Cobalt, for a long time. Such being our view, and until we are satisfied that the deal is justified, we conceive it our public duty to lend our assistance to the Chambers-Ferland minority.

It is up to Messrs. Shillington and Richardson to come forward and justify the transaction, and our columns are open to them.

Surface trenching has started on Shirley Crag and Hutton in the Kirkland Lake district, and developments will be watched with a good deal of interest.

These claims are under option to H. Cecil, of London, Eng., who has already made substantial payments. The Shirley Crag adjoins the Tough Oaks on the east. The Hunter is four claims south of the Tough Oaks.

Many prospectors are now going in to the Kirkland Lake district to do assessment work. The small amount of snow in the bush will be gone in four or five days.

OUTLOOK IN CANADA. SUITS LONDON BANKERS. LONDON, May 13.—Franklin Jones, London manager of the Bank of Commerce, has just returned from a tour of Canada, and says: "The period of recuperation that was needed is proceeding rapidly in London not in the least pessimistic about the outlook in Canada. My attitude is one of cautious optimism. So long as agriculture is flourishing we need not fear for Canada's future. Happily the latest crop advices from Canadian and American, including London, are excellent."

IDLE MONEY. Accumulated in the hands of investors may be safely placed in the most conservative of Canadian Bonds and Debentures to yield both high income-return and substantial profit. Our Investment-Service is at Your Disposal. BANKERS BOND COMPANY. 20 VICTORIA ST. LIMITED. TORONTO.
