Bengrove Attacked Close to Devon Coast---Crew Picked Up by Steamers and Carried Ashore in Lifeboats, While Thousands Gazed.

Canadian Press Despatch.

LONDON, March 8, 10.05 p.m.—The admiralty announces that the British collier Bengrove was sunk Sunday, probably by a torpedo, off Ifracombe, which lies ten miles northwest of Barnstaple, County Devon,

England.

The British steamer Bengrove was seen in distress sounding her siren five miles off the shore at Ilfracombe at 1.30 o'clock Sunday afternoon. Forty minutes later the ship's bow rose from the water and she sank by the stern. Thousands of people stood on the shore and watched her go down. Two steamers were in the vicinity, one of which the Paignton, of Liverpool, rescued the crew of 33 and local lifeboats brought them ashore amid the cheers of the populace. The captain of the Bengrove made this statement:

"We had no warning. There was a loud explosion forward, which threw everybody on board off their feet and covered them with debris and coal but nobody was seriously hurt. We took to the boats quickly and orderly. We watched the ship sink and then came ashore thru the agency of the Paignton."

A vigorous fight against the measure was put up in committee of the whole and upon the third reading W.

F. Maclean (South York), Major Sem Sharpe (North Ontario) and J. G.
Turrifi (Assiniboia). They pointed out that the company was about to place its vessels beyond the jurisdiction of the Canadian Parliament; that it was about to part with valuable assets without canceling any of its present capitalization, and that the credit of the Canadian Pacific Railway Company was to be used for the way Company was to be used for the creation of a steamship monopoly upon the Atlantic Ocean. They quoted from the recent statement of Sir Thomas Shaughnessy to prove that the lands, hotels and other assets of the C. P. R. were to be transferred to subsidiary companies, each with its own capitalization, while the railway

proper was still to be burdened with a capital stock issue of \$265,000,000.

Party Lines Forgetten.

Sir Robert Borden took the position that the company had a right to sell its steamships and that the stock in the new company would take the slock in the new company would take the place of the vessels, merely substituting an indirect for a direct ownership. Reporter with the Canadian Contingent. LONDON, March 8-One of the most dashing exploits of the war so far was the capture and blowing up of a German trench by the Princess Patriclas a week ago. Eight wounded members of the Pats who have arrived at the Queen's Canadian hospital, Shorncliffe, describe it as the first

bayonet charge by the regiment. Early in the morning the regiment charged a German position, killing eight and wounding more than 20. The remainder of the German detachment was put to flight. The German trench was then blown up.

Fight Lasted 20 Minutes. This all happened in twenty minutes. The Pats suffered two killed and sixteen wounded, including Major Hamilton Gault, who is now in the

hospital at Shorncliffe. Most of the Canadian casualties occurred when the Pats were return ing to their own trench, when machine guns were turned on them by the Germans. Several Germans who had been captured by the Pate were killed Much Praise for Regiment.

While one compan, now arring the German trench, mother held off the German supports. Much praise is given the regiment for its gallant feat.

I am informed that the Canadian Highland Brigade, including the 48th Regiment of Toronto, has been in heavy fighting in the trenches with slight losses. Canadian artillery, including big guns, are doing effective work.

BY GEORGE RENWICK. special Cable to The Toronto World. CAIRO, March 7.—The battlefield on the eastern bank of the Suez Canal yielded evidence of yet another in-stance in which Germans and Turks, too, at the instigation of their taskmasters, violated the rules of civilized warfare. After the fight a large quantity of ammunition fell into the hands of the British, nearly the whole of it being for rifles and revolvers. These cartridges are all dum-dums. The revolver cartridges have flat leaden noses and four slits in the body of each bullet. On the base of both kinds of cartridges are the letters D.W.M., indicating that they were manufactured by Deutsche Waffen Und Munition Fabriken, a large German concern which manufactures Mauser rifles and ammunition. The packets that contained them are in case rifle ammunition boxes marked fertig metal Patronen, or ready metal cartridges, to-gether with the name Calcutta and the description Ausfuhrgut, or goods for The cartridges were doubtless sports The cartridges were doubtless originally made there for the use of sportsmen in India, and it at present is a mystery how those deadly cartridges came into the hands of Turkish soldiers.

These are trying times on the nerves. There is worry over business affairs, anxiety

for those gone to the front, discouragement from lack of employment—everywhere you

find cause for eleeplessness and the wearing down of the reserve nervous force. The demand for a nerve tonic was never

so great, and this demand is being supplied by Dr. Chase's Nerve Food. By restoring

and building up the wasted nerve cells this food cure sharpens the appetite, improves

digestion, overcomes restlessness and sleep-lessness, and brings back health and vigor.

LOCUST HILL FARMER SUMMONED BY DEATH

William Armstrong, a Markham Township Pioneer, Who Was Highly Respected.

LOCUST HILL, March 8.—(Special.)—
The death of William Armstrong, a ploneer of Markham Township, and one of the best-known men in York County, which took place at the family residence here at a late hour on Saturday, removes a worthy citizen. The late Mr. Armstrong was in his 74th year, and until recently had enjoyed a fair measure of health, and took a lively interest in local affairs. He was one of a large family, the other members of which were: Mrs. Adam Scott, Mrs. John Jenan and three bro-thers, Thomas, Robert and Peter. Mr. Armstrong was for many years actively identified with the Farmers' Institute, and his fine farm, bordering the

Canadian Pacific lines here, was a model of neatness. As a horseman he had few superiors, and his services as judge were frequently in demand. Dr. Armstrong is In political life Mr. Armstrong was a Liberal-Conservative, and it was very largely thru his efforts that the Anglican Church in Markham Village was first inaugurated. The funeral will take place from his late residence on Wednesday to Grace Church Cemetery.

Anyone who has been much with the British army on campaign has heard the same remark many times, and spoken in the same language; it had a peculiar appeal.
Rattle of Machine Guns

With darkness falling over the flat shadowy, the correspondents walked away from the cover of a village with the commanding officer of that section of the front, with the rattle of a machine gun growing louder toward the trench. Whenever anyone goes near the front he is bound to hear the mahine gun,
"They can't be firing at any definite object in the dark?" queried a

"Perhaps — perhaps not," the officer replied. "The gun is laid for the top of their trench. We do not hold the fire too much as we want the Germans to know we are on deck."

"There is, of course, great difficulty in bringing home particular crimes to any individual German submarine, and it may be that the evidence necessary to establish conviction will not be obtained until after the conclusion of peace. Meantime, persons against whom such charges are pending must be subject to a special restriction, and cannot be accorded the distinction of their rank or be allowed to mingle with other prisoners of war."

A raport received from Rear-Admiral the Hon. Walking Under Difficulties.

On in that gigantic zig-zagging ditch in the darkness, slipping off the planks at times and catching one's self by stretching up the hands for support against the wet and slippery walls, for a mile the visitors proceeded with heads below the parapet while the German flares lighted the sky, and while the British rapid fire gun whirred at intervals and the German snipers made reply. Then the correspondents left the trench and wallowed in the mud back to a point in the read outside the bullet range, where a column of sturdy soldiers was waiting before going up for their turn in the trenches. Behind them were supplies for the trenches, and an ambulance to care for any wounded who had accumulated during the day in the trenches or those hurt during the entrance of relief parties or the departure of the men relieved when the German rapid-fire guns sent out a spray of bullets in the hope of finding a target under cover of the night. Work Done at Night

At night all the work in the neighborhood trenches is done Across the fire zone behind the trenches food and timbers and everything needed in the trenches is carried up by hand, in a wallow of mud. Yet one hears no one growling or swearing when it would seem that human irritations must have an escape vaive.

Operations Before Smyrna.

The admiralty announces that the commander-in-chief in the Fast Indies, Vice-Admiral Sir Richard Peirse, has reported further on his operations before Smyrna. From the report if appears that having bombarded Fort Yenf Kale on March 5 and severely damaged it, the admiral proceeded on the sixth to sweep his wa; thru the mine fields until he drew the fire of several subsidiary batterles—one containing four 6-inch guns, near Paleo Tabia Point, another with five 47 guns 150 feet up the hiliside, and three field guns in the earthworks in the Chiffik guardnouse. There also were several smaller guns concealed along the shore to the eastward.

conscripts, far exceeds anything experienced in the earlier stages of the war. Of the first consignment, numbering 700 of the total of 10,000 prisoners taken during the Przasnysz battles, recently brought from the first field base to the railhead, scarcely 50 could walk steadily. The others were crippled in both feet and complained that their boots were bad and too heavy. They attempted to climb into carts, which were only for the wounded, and when prevented they complained that they were unaccustomed to such marches. They had already done ten miles and could not manage the remaining six. They had been two days advancing and two days retreating, without food, and were absolutely used up.

The Russian soldiers said to them: "But you come to a war, not to a promenade!"

"Oh!" groaned the Germans, with gestures of weary despair.

From them it has been learned that four corps were involved in the defeat of Przasnysz. Two were newly formed, one from the Guards' Reserve Corps and one from the Silesian Landwehr Corps. When the prisoners reached the railway they collapsed and slept in heaps on the wet platform.

Von Hindenburg is again striying

and slept in heaps on the wet platform.

Von Hindenburg is again striving to distract attention from this tragic end of his northeastern campaign by directing sharp infantry attacks on the six mile front above the left bank of the Pilitza, in the direction of the Rawa road. The sharp battle in this district of Central Poland has now lasted three days. It evidently aims at preventing the Russian outer lines in the region southwest of Warsaw from sparing forces to go elsewhere. From our indications the Germans fear a new strong offensive on the Nida and Donajec Rivers against the armies protecting Cracow.

session was prorogued and it was not session was prorogued and it was not reintroduced at this session because we were supposed to be devoting all our time to the war. Why should not the bill before the house be laid over until the policy of the government had been crystallized into legislation? If the government bill could work, why could not the C. P. bill work also?

Mr. Maclean then reviewed the history of the Canadian Pacific Company and read from the original acts of incorporation. By that act the company had been required to efficiently maintain and operate its system forever.

maintain and operate its system forever.

Volley of Queries.

At this point a fusillade of questions was directed at the member for
South York by E. A. Lancaster (Lincoln), ex-Speaker Marcil, Hon. Wilhiam Pugsley and others.

"You would think," said Mr. Maclean, "that I was trying to force thru
the house some most offensive and
atroclous legislation instead of merely
trying to defend the public interests."

After pointing out that the new
stock issues would open the way to
a meion for the C. P. R. stockholders,
Mr. Maclean discussed the necessity
of parliament controlling ocean freight
rates.

of parliament controlling ocean freight rates.

Surely this was not the time when farmers and merchants were complaining of extortionate ocean freight rates, to divest ourselves of any control. It was crazy cuilt legislation to stimulate production on the farm and then permit the farmer to be robbed of his product as soon as it reached the seaboard.

Turriff's Objections.

Mr. Turriff (Assinibota) said he could not see what disadvantage the Canadian Pacific would be under if it were compelled for the present to retain the ownership of its vessels in its own name, instead of putting them in the name of some dummy corporation. The company certainly could not raiso money to more advantage upon issues which it guaranteed than it could upon its own securities. The new company would be as free from our control if it were incorporated in England as it would be if incorporated in Russia or Germany.

Hon. Frank Cochrane: "Those ships have never been under the control of Canada."

Mr. Turriff: "Well, they should be.

gerties not strictly always gatem.

W. F. Macken: "But they were completed to cancet their capitalization associations of the control of the capitalization association of the member for South York (W. F. Macken)."

However, we have a superior of the member for South York (W. F. Macken). The member of the proposed the for South York (W. F. Macken). The member of the proposed the for South York (W. F. Macken). The member of the proposed the for South York (W. F. Macken). The member of the proposed the for South York (W. F. Macken). The member of the proposed the for South York (W. F. Macken). The member of the proposed the for South York (W. F. Macken). The member of the proposed the for South Y have never been under the control of Canada."

Mr. Turriff: "Well, they should be. The C. P. R. with our assistance and under our legislation has acquired not only these ships and hotels, but has invested heavily in timber, mines, smelters, electric railways and townsites. Shall that company now be allowed to transfer all these assets to various companies of its own creation and leave the dismantled railroad loaded down with its present capitalization? When the company sells these ships will be reduce it capitalization accordingly."

Rise in Ocean Rates.

Mr. Turriff pointed out that the ocean freight upon wheat had increased from six to eight cents a bushel between 1909 and 1914. The western farmer had been almost driven off the land by extortionate transportation charges. The present war had been a godsend to him, but he could not expect the present high prices to continue a day after the war was over.

Mr. Lancaster interrupted to say that the Canadian Pacific only desired to transfer its ships in order to carry on its ocean business in a more businessiike way.

Mr. Turriff: "I am surprised to learn the continue of the carry of its ocean business in a more businessiike way.

Mr. Turriff: "I am surprised to learn the carry of the c

Power to Seil.

It was argued that the new company might enter into some combine, but if some reports were true the C.P.R. was already a member of the North Atlantis Conference. The company owned its ships absolutely and could sell them outright to a stranger; why then could it not sell them to a subsidiary company. It was quite the usual thing for a railway company to guarantee the security if a subsidiary corporation and no objection could be taken to that provision of the bill which permitted the Canadian Pacific to guarantee the bonds of the Canadian Pacific Ocean Services, Limited. The prime minister said he could see no injury to the public interest in having the C.P.R. change the ownership of its vessels from a direct to an indirect ownership. The capital stock of the new company would merely take the place of the vessels transferred to it. As so railway rates, the government by order-in-council had declared the rates of the C.P.R. to be subject to the railway commission, and the company acquiesced in that order.

Sir Robert then went on to say that in the United States many railway companies had been obliged to part with their steamship, coal mines and other properties not strictly a portion of the railway system.

W. F. Maclean: "But they were compelled to cancel their capitalization associations."

Graham Sceptical.

An evolution of the overblouse is seen this spring in the smart little boleros which are already making a great, "hit" in the fashion realm. Most of the models seen as yet hang straight, over a smart vestee of some contrasting material, and are attractively ornamented with military braiding.

Elaborate braiding appears on many of the dainty little sleeveless blouses which are also much in vogue. These are greatly enhanced by the charming bodices over which they are worn. Shoulder strap effects are popular, as are the laced-front models. The underbodice is rendered very smart by the employment of the suit material for collars and cuffs in many instances.

Paul Doucet is very much more at home as the business friend and former lover of Kent's wife, and without descending to coarseness, he shows what the physical and moral coarsening of brandy can accomplish. There is a positive beast of a brother in the play, an unmitigated cad, liar and coward, after the manner of Giuseppe in "Joseph Vance," and James Ryley succeeds in making him so thoroly contemptible that the audience regrets that summary vengance is not dealt out to him. There was a good audience, responsive and appreciative, and the play was an entire success in acting, scenery, mount-

Undoubtedly one of the best motion picture films yet realized in Toronto is on view at Loew's Winter Garden this week, in the production of "Her Triumph," with Gaby Deslys as the star. Many in the audience present last night, who had supposed Gaby to last night, who had supposed Gaby to be only a dancer, were astounded by her wonderfully versatile performance on the screen. She proved beyond the slightest doubt the possession of dis-tinct dramatic ability. In the course of the feature, Mile. Deslys supported by her dancing partner, Harry Pilcer, presents the dances which have won for her such triumph

which have won for her such triumph on the stage.

The subject offers many striking ef-fects with little intimate touches of the theatre, the dressing-rooms, the stage, which by the way is one of the most unusual sets conceived for the most unusual sets conceived for the screen, and many other novel ar-rangements. A carefully chosen cast of distinguished stage performers assist the star in making "Her Triumph" doubly appropriate.

NOT A WAR STORY

Pleasing Three Act Comedy Worn Around Title That is Well Rendered.

Little Act, the Dairy Maids, Includes Good Music and Clever Stepping.

Dainty singing and dancing by eight pretty girls feature the bill at Loew's Yonge Street Theatre this week. The little act is inusually well staged, and Miss Lea Latore and Eddie Foley sing well and dance to perfection.

Charlie Kenna, the "Street Fakir," has a funny skit. He sells powder to an imaginary crowd, and incidentally swats files with a small broom. "The Way Out," a dramatic sketch by Roland West, author of the Dairy Maids, is also good. It is well staged and acted, and has a large amount of heart interest. Val and Ernie Stanton talk a great deal and are really funny, warren and Frances in their acrobatic dance introduce many novel features, and the Cycling McNutts have a new bicycle act in which they feature Miss Tiny McNutt, a small rider, full of surprisce.

Golden and West elever the single forms.

Surprises.

Golden and West, clever clog dancers, and several good motion pictures round out an excellent bill.

AUDIENCE PLEASED WITH SHOW AT STAR

After the first performance yesterday at the Star Theatre, where the City Belles are successfully carrying out their contract to amuse, the deors opened and a jolly crowd came forth. Sam Green and Charles Brown, the chief funmakers, caused a riot of laughter with their clown band. May Brown and Mae Alberta in the leading feminine roles were good. During the second act a number of good vaudeville specialties were introduced. Golden and Clarke sang some catchy songs and did some fancy steps; Mile. Mazie and her "Fairyland Grotto of Models" were well received, as was David Kindler, whistier.

CONGRATULATES CHOIR AT FINAL REHEARSAL

The fact that Toronto is still music hungry was demonstrated yesterday by the rush of ticket purchasers who besieged the box office of Massey Hall in quest of seats for the Schubert Choir concert, in association with Mile, de Treville this evening. Mile, de Treville, after listening to several numbers by the choir at the final rehearsal last night, enthusiastically congratulated Mr. Fletcher and his singers on their wonderful form. She is giving this evening one of the longest programs which she has ever sung. One of her newest songs is "My Belgium," written specially for her by Mrs. Natalie Townsend of Washington, D.C., wife of L. E. Townsend, former United States minister to Belgium, and it contains a stirring patriotic refrain, in which the chorus will join.

Mile, de Treville's encore numbers, with her own harp accompaniment, are also to be a novelty, as will be the numbers by the choir, in which bugles and trumpets will heighten the patriotic feeling.

EXCEPTIONAL DRAMA SEEN AT PHOTODROME

A six part drama entitled Capitain Alvarez is being shown at the Photodrome. West Queen street opposite James street, this week. It is a thrilling picture embracing war, love, romance and intrigue. It is the story of a young American who arrives in Argentina during a rebellion. He falls in love with the foreign minister's daughter, but has to contend with Tirzo, a spy.

The adventures which follow and the manner in which the captain wins his sweetheart and quelis the rebellion form an interesting story. Other good films complete an exceptional program.

For New York the house was booked four months ahead, and immediate preparations took a month.

"I got out all my own posters, designed and have arranged new senery and new costumes—the costumes of cotton to encourage the trade of the south—and I was back on the stage with my skirts tucked up arranging last touches just when the concert was about to begin."

Madame de Treville has a beautiful home in Brussels, where she had hoped to go this year, but its destiny and that of its collection of souvenir from many parts of the world are somathing yet in the future.

"But I have my mother with me on somathing yet in the future.

DUMPED FREIGHT ON ITS OWN TOWN SITE

Grand Trunk Pacific Railway Severely Slated by H. L. Drayton.

OTTAWA, Mar. 8.—The Grand Trunk Pacific Railway is severely slated by H. L. Drayton, chairman of the railway commission, in a judgment just handed down. He intimates that the Grand Trunk Pacific, in order to assist a townsite proposition in which it is interested, has refused proper railway accommodation to a rival nearby town. The judgment rose out of the application of the Town of St. Louis, Sask for better railway accommodation. An order was given sometime ago for better accommodation for St. Louis, but despite this order freight for St. Louis has been dumped at Hoey, a station three miles away, in which the railway is interested.

K. P. WEEK AT GRAND

First Presentation Commend- Pleasing Three Act Comedy ed by Members of Order-Two Performances Daily.

A magnificent presenttion of the photo-drama, "Damon and Pythias," is shown at the Grand Opera House this week, under the auspices of the Knights of Pythias, many prominent members of the order being present at the graning presentation. House of Lies," than in the play of the previous week. The performance was above the average, and showed a state deal of talent on the part of the leading members of the cast.

Miss Elsie Rizer especially had an opportunity to show what she could do in a part which makes a considerable demand upon her power to display womanly strength and charm combined. Miss Vivian Laidiaw, also, in the part of Fayette de Montville, which is by no means a grateful one, showed considerable power, and carried herself with an easiness and artistic control which supported the play in the weak spot of its construction, when the interest is broken by a new motive, and the plot has to be bridged over into a new act.

Mr. Cummings as Kent, the millionaline, who is unmillioned, has not quite so much opportunity as in a character part, but his experienced manner holds the play together in good style. Paul Doucet is very much more at home as the business friend and former lover of Kent's wife, and without descending to coarseness, he shows what the playsical and moral coarsening of brandy can accomplish.

There is a positive beast of a broat the play succeeds in making him so thoroly contemptible that the audience regrets that summary vengeners.

For their finished work, attractive personalities, and artistic dancing, set off by smart costuming, the Sully Family won applause at the Hippodrome in the opening performance yesterday. members especially was dainty to a dogree.

King and Queen in their musical offering were also favorites—the cornet sole, in which an exceptionally high note was taken being rendered with spirit and confidence. The 'cello number displayed excellent technique.

A unique act was that of the Meries and their wonderfully trained cockatoos, these beautiful feathered creatures performing inticate and difficult tasks with alacrity.

Graham and Randall in their impersonations are clever and provoke plenty of laughter in their "take off" of a "real" melodrama.

Bert Hanlon has a host of funny stories, philosophies and new song hits. Another episode of "Runaway June," with other new films, completes a very good bill.

GABY DESLYS SEEN IN SPLENDID FILM

"Her Triumph" Rated as an Outstanding Production and is Showing at Loew's.

Undoubtedly one of the best motion picture films yet realized in Toronto is on view at Loew's Winter Garden this week, in the production of "Her Triumph," with Gaby Deslys as the Triumph," with Gaby Deslys as the star. Many in the audience present last night, who had supposed Gaby to be only a dancer, were astounded by her wonderfully versatile performance on the screen. She proved beyond the slightest doubt the possession of distinct dramatic ability.

agreeable interpretation.

Judging from the title of the play one might expect something warlike, but the only war parlance in the lines was given when Susan reaching the room of Prosper Courant for the scrap of paper said, "An Englishman smoking Turkish tobacco, and in a German pipe." but it was far from disappointing. The entire company acquitted themselves admirably, and all of the settings were well planned.

The plot is woven around a little scrap of paper, a love-letter, and the love tangle of a bachelor who is bidden to mairry in orde rto inherit a fortune is finally straightened out by Susan Ruseville (Miss Haswell), who, finding the scrap of paper in his tobacco jar, finds herself in the arms of the man as well.

At the close of the performance Mile, Santi appeared in "Las Flores" and danced Pavlowa's "Dying Swan."

Little Act, the Dairy Maids, Includes Good Music and Clever Stepping.

Dainty singing and dancing by eight pretty girls feature the bill at Loew's Yonge Street Theatra this week. The little act is unusually well staged, and Miss Lea Latore and Eddie Foley sing well and dance to perfection.

Charlie Kenna, the "Street Fakir," has a funny skit. He sells powder to an imaginary crowd, and incidentally swats files with a small broom, "The Way Out," a dramatic sketch by Roland West, author of the Dairy Maids, is also good. It is well staged and acted, and has a large amount of heart interest. Val and Ernie Stanton talk a great deal and are really funny. Warren and Frances in their acrobatic dance introduce many novel features, and the Cycling McNutt's have a new bicycle act in which they feature Miss Tiny McNutt, a small rider, full of surprises.

AUDIENCE PLEASED WITH SHOW AT STAR

After the first performance yesterday at the Star Theatre, where the City Belles are successfully carrying out their contract to amuse, the deore opened and a jolly crowd came forth. Sam Green and Charles Brown, the chief funmakers, caused a riot of laughter with their clown band. May Brown and Mae Alberta in the leading feminine roles were good. During the second act a number of good vaude-ville specialties were introduced. Golden and Clarke sang some catchy songs and did some fancy steps: Mile. Mazie and her "Fairyland Grotto of Models" were well received, as was David Kindler, whistler.

CONGRATULATES CHOIR AT FINAL REHEARSAL

The fact that Toronto is still music hungry was demonstrated yesterday by the rush of ticket purchasers who besieged the box office of Massey Hall in quest of seats for the Schubert Choir concert, in association with Mile, de Treville this evening. Mile, de Treville, after listening to several numbers by the choir at the final rehearsal last night, enthusiastically congratulated Mr. Fletcher and his singers on their wonderful form.

She is giving this evening one of the longest programs which she has ever sung. One of her newest songs is "My Belgium," written specially for her by Mrs. Natalie Townsend of Washington, D.C., wife of L. E. Townsend, former United States minister to Belgium, and it contains a stirring patriotic refrain, in which the chorus will ioin.

Mile de Treville's encore any long the stirring patriotic refrain, in which the chorus will ioin.

Mile, de Treville's encore numbers, with her own harp accompaniment, are also to be a novelty, as will be the numbers by the choir, in which bugles and trumpets will heighten the patriotic feeling.

Her Own Manager.

It is not for her glorious voice alone that Mademoiselle de Treville is noted. She has a unique reputation from a business standpoint. She is the only prima donna in the world who is her own manager. When the collapse came in her projected European tout this quality stood her in good stead, and she arranged a wonderfully successful tour in the south, another to Honolulu, and, most wonderful of all put on a great performance in New York—a feat that dozens of others had given up as an utter impossibility. AND FOOD FERMENTATION

By a Stomach Specialist. As a specialist who has spent many bars in the study and treatment of tomach troubles, I have been forced the conclusion that most people who omplain of stomach trouble possess tomachs that are absolutely healthy and normal. The real trouble, that which causes all the pain and difficulty, is excessive acid in the stomach. Hypersendity invitates the delicate lining. r-acidity irritates the delicate lining per-acidity irritates the delicate lining of the stomach and food farmentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and termentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind, in all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necesoulties—the first and only step neces-ary is to neutralize the acid and stop the fermentation by taking, in a little warm or cold water immediately after eating, from one to two tenspoonfus of bisurated magnesia, which is doubtless the best and only really effective intacid and food corrective known.

Government Advertising

Newspaperdom of New York, a periodical dealing specially with journalism and its varied interests, comments as follows on the advertising campaign of the Canadian Government in aid of increased food production.

tion:
The Canadian Government is advertising for bigger crops. It is going into the newspapers with display advertisements and reading notices, for which it pays the regular rates, in an effort to induce the farmers of the Dominion to increase their acreage this year, and to cultivate intensely all the crops that are planted. It is instead of being an axet as healthy and industrious people are.

There is no margin for safety in the present scale of wages in comparison with the cost of food and other necessaries, and whatever may be thought of the high rate of wages by those who have to pay, and whose circumstances perhaps remove them from any knowledge of the struggles that are soing on among wage-carrers, it is clear that if society is to continue on a sound basis the present system must be radically altered. Unfortunately it sometimes takes a long time for crops such as this to ripen, and people say they see no evidences of trouble. But they can judge from the conditions in other and older lands where similar difficulties prevailed in the people significant the conditions in other and older lands where similar difficulties prevailed in the people shap the conditions in other and older lands where similar difficulties prevailed in the people shap the conditions in other and older lands where similar difficulties prevailed in the people shap the conditions in other and older lands where similar difficulties prevailed in the people shap the conditions in other and older lands where similar difficulties prevailed in the people shap the evidence of the full year's pay granted the widow. This, Mr. Alten said, would at least of the money which it now burns up to brought about the evils which now distinguish much European life.

It is a comfortable habit which motives. There is not a newspaper in this country that depends for its existence upon government advertising, and very few indeed whose policies would be changed because of any such revenue.

New Haven, Conn., Register. The Cologne Gazetto's assurence that as "Great Britain wishes war to the inife she shell have it." is superfluous as well as misleading. Great Britain never wished war of any sort less than she did last summer, and the White Papers are witness to the fact that the diplomate of no country ever worked harder to prevent war than did Sir Edward Grey and his associates. But since the war came without Great Britain's wish, it is to be to the knife, with Kitchener in command.

Creighton on behalf of the ratepayers of the corporation of Chapleau and himself agginst the corporation and J. B. Dexter, asking for an injunction restraining the council of the municipality from operating a moving picture house.

The plantiff stated that the council chaplit a town hall at a cost of \$25,000, and when the building was nearing completion the plans were changed to make provision for the installation of a picture machine. The defendant Dexter was appointed manager. He claims that the copporation exceeded its powers in engaging Dexter in the business, and that he was illegally appointed, as he was a member of the corporation.

Canadian Press Despatch.

LONDON, March S.—A proposal to establish a censorahip over the American mails was opposed in the house of commons today by the home secretary, Reginald McKenns. The question was raised by Sir Henry Craik, who said he desired to prevent the distribution in New York of pamphlets emanating from Genman sources. These pamphlets, he said, acoused Great Britain and her allies of treachery in connection with their diplomatic action in Belsium. Mr. McKenna characterized these pamphlets as practically harmiess, and added:

"It has not been considered necessary in the past to establish a censorship over postal matter to or from the United States. To do so would involve an enormous addition to the censorship staff."

VARSITY PLAY IN BERLIN TONIGHT

First Game of Junior Finals-Return Game Here Thursday-Hockey Gossip.

St. Michaels make their final local appearance of the season tomorrow night, when they meet an all-star team at the Arena. The other local teams will supply the players to make up the seven to play the Saints. The runners up for the O.H.A. honors play the St. Nichelas Club in New York on Saturday night.

Varsity play the first game of the O. H. A. jumfor finals in Berlin tonight, and will take up a big crowd of rooters. Varsity have had a good rest, and should be at their best for this game. The Berlin style of play is vastly different from anything that Varsity have tackled this roar, and it remains to be seen if the smooth-working university machine will be stopped. Berlin check every inch of the way, but if they play their defence at the from forward as they did against Collingwood the students will break thru them fast. Varsity are hoping for hard ice, and with their speed, they should be able to hold Berlin and return for Thursday's game with nearly an even break. Dr. Gliffillan will 'referee tonight, and Oscar Bernhardt will handle the game at the Arena on Thursday night.

Frank: Patrick, president of the Pacific Coast Hockey Association, announces that he will insist on the appointment of western officials for the world's series this month. He has submitted the names of Tommy Phillips and Skinner Poulin to the National Hockey Association. The dates fixed for the rames are March 22, 24 and 26, and on alternate nights if further play is necessary.

President Taylor of the Canadian Hockey, Association has sent out letters to the presidents of all the leagues in the associat masking them to send delegates to Winnipeg for a special meeting on March 15. It is understood that the Regins Victorias have deposited \$500 with the C.A.H.A. to pay the expenses of the various delegates to the meeting and that the main object is to reconsider the Vics' case. Other questions will likely be dealt with also. British Columbia. Alberia, Ontario, Saskatchewan and Manitoba all have agreed to attend.

GREATEST BONEHEAD PLAY IN BASEBALL

The bone plays come and the bone plays go; there are new bones sprung every year, and the old ones are revived—but Larry McLean still proudly claims pre-eminence and asserts that in all the history of ivory breaks there has never been one to equal his best endeavor in the osteologic line.

Thursday night at West End Y. the University of Toronto and West End seniors will meet for the city championship. The collegians made a great run in the Intercollegiate, finishing second to McGill, and the West Enders are tie with Hamilton in the Senior O.B.A. The West Enders have played great ball all season, and played to win, but have had very poor support and are facing a deficit on the season. However, they are still in the game and will make a great bid for the championship when they meet Hamilton on Saturday next at Hamilton in the final game. The locals have the edge on the Ambitious City team, having defeated them three times out of four starts. Thompson, the West Enders' good defence man, graduates this year, and this will probably be his last appearance with the local team.

The disadvantage of owning horses in England has been brought home to various thorobred fancilers since the outbreak of the war, but in the last few weeks the system of confiscation has been extended to German sportsmen. Prince Kinsky, who owner a pretentious stable, is the first to suffer, and his possessions have been seized by the Britains, as one London paper naively explains. "Quite as if he were not one of the enemy." At the outbreak of hostilities Prince Kinsky's string was in training at Newmarket under the supervision of the Hon Francis Lambton. The latter's sudden death, however, left the norses without a superintendent, and the sovernment decided to dispose of them by auction, using the proceeds for the war fund.

Mr. Rowell Says Liberals Wi Continue Fight for Franchise.

Thirteen women sat in the gallerie of the legislature yesterday to see the cause of woman suffrage brought into the debating arens on its annual apearance, and after a scattering halfhearted discussion vanish once more without leaving a trace of legislation behind. Married women will not this year obtain the franchise privileges of their single sisters, the government believing that they can perform the work of a war year to much better advantage if all their interests are kept out of the political field. The bill of J. C. Elliott, of West Middlesex extending the privilege failed to pass second reading.

It fel ito Major Tolmie, of Windsor, to voice the opposition appeal this parties who would benefit if cattle and traction machinery were kept off the position. But to give the same ground.

A New Point Raised.

Maintenance matters caused another discussion, and the assessing back of excess cost over the \$600.000 planned as local improvements on the town-phips was strongly opposed. Also they desired the cities to share in the maintenance after the first 20 years as well as before. The point had never been raised before and was allowed to stand over.

The total net revenue of the Timis-kaming and Northern Ontario Rail-way for the fiscal year of 1914 was \$258,199. This sum includes the return from ore royalties and is derived as an from ore royalties and is derived as an excess after operating expenses of \$1,468,574 had been paid. The total operating revenue amounted to \$1,670,898. There is an item of \$29,221 set to the account of hiring equipment which when deducted brings the total net revenue slightly lower than that of 1913, \$255,323. Decline in ore royalty receipts is the cause of the lower balance as running expenses have not

varied.

Transportation last year was a little ahead of 1913, the total return from this source being \$1,580,668. The payroll on the otrer hand standing at \$1,-112,866 is less than before. Revenue per mile of road was valued at \$5698, with operating expenses for that distance \$4548. Net revenue per mile amounts to \$549, which compares with \$613 in 1918.

There are now 453.06 miles of road in operation. Branch lines include:

WINNIPEG, March 8.—The wheat market was strong from the outset today, opening prices being he to he higher, and previous to noon further advances occurred to the extent of 3% and 3% com. May and July over Saturday's close. The gain on the day was 3%c to 5%c, July leading.

During the early part of the forencon there was a fair volume of business in futures, the principal buying coming from exporting houses.

Cash demand for No. 3 northern wheat was good, and also for all grades of oats, but few offers were on the market. Exporters and millers were both buyers of cash grains.

Total inspections on Saturday were 300 cars, as against 247 last year, and in sight today 400 cars.

Canadian Press Despatch.

MONTREAL; March 8.—At the Montreal stock yards, west end market, in sympathy with the Toronto prices, coupled with the continued small supplies coming forward of late, the ione of the market was stronger today and prices show an advance of life to 25c per cwt. There was also an increased demand to supplies from both packers and butches owing to the fact that they allowed the stock of dressed beef to run down to

stock of dressed beef to run down to a low level, consequently this also tended to add strength to the aftuation. Trade, however, was more active than it has been for the past few weeks. Sales of a few full loads of really choice steers were made at \$7.65 to \$7.75, and picked stock brought \$7.75 to \$8, but the bulk of trading was done in the lower grades with sales of full loads of good steers at \$7.15 to \$7.25 and medium at \$6 to \$6.75 per cwt.
