FIGHT FOR BRANDT OPENS WAY TO NEW TRIAL

After Serving 5 Years of 30 Years' Sentence for Burglary, Man Who Is Alleged to Be Victim of Giant Conspiracy May Secure Vindication.

NEW YORK, Feb. 21.—(Can. Press.)—Except for the service of five years in prison, Foulke E. Brandt is tonight the same man in the eyes of the law as he was before he was sent away on April 4, 1907, to serve thirty years for burglary at the home of Mortimer L. Schiff, the banker, where he once worked as an assistant. The long prison term was broken up today by Justice Gerard of the supreme court, with an opinion sustaining a writ of habeas corpus.

The young Swede remained locked up in the Tombs to-night, but not as a condemned man, and with assurance that within forty-eight hours he will be released on bail to await a new trial or whatever development occurs to clear up his remarkable case. The hearing before Commissioner Richard L. Hand, appointed by Gov. Dix to bear Brandt's application for clemency, has now no importance as a factor in Brandt's fight for freedom, as a pardon cannot be given to a man who stands uncondemned, with only charges pending.

Justice Gerard's decision to-day brought to a climax a case which has had the absorbed attention of the New York public nearly every day for a month and which is still a matter of stand jury investigation, with a view to determine if there was conspiracy in the sending of Brandt to prison for so long a term.

In sentencing him to thirty years in prison, Judge Otto A. Rosalesky illegally condemned Brandt, according to Justice Gerard's opinion to-day. The court held that the examination of Brandt at the time that he was sentenced tended to refute the plea in charge of first degree burglary, as the prisoner's statements were a denial that he forced entrance to the Schiff House.

Was Brandt Trapped?
"If Brandt was sentenced because he was involved in a net of burglary," said Justice Gerard, "and pleaded guilty to a crime which his examination at the time of his plea showed he did not admit committing, and did not intend to plead guilty to, he should not be left to seek his remedy from executive clemency alone. He is entitled to a decision of the court relieving him from the stigma of his mistaken plea."

My decision on this writ does not set the prisoner free. The prisoner may or may not be guilty of the crime charged in the indictment, and my decision simply puts him in the same position, except for the service of a sentence of nearly five years, that he was in before sentence was imposed upon him.

Would Open Door to Schiff.
Alton B. Parker and De Lancey Nicol, counsel for Mr. Schiff, telegraphed to Gov. Dix late to-day asking that they be allowed to appear before the governor next Friday to move for a broadening of the enquiry started by Commissioner Hand. In order that Mr. Schiff and Howard S. Gans, who acted as counsel for Schiff in connection with the prosecution of Brandt, be allowed to testify at the Hand hearing. The suspension of the hearing yesterday on the ground that volunteer witnesses would be immune, was characterized by Messrs. Parker and Nicol as "absurd." On the heels of the telegram to the governor, a long letter was mailed, stating reasons for the application for a broader hearing "to the end that scandalous rumors should be dispelled and the truth made known."

War Clouds Not Gone Yet

BERLIN, Feb. 21.—(Can. Press.)—Hopes for the establishment of more amicable relations between Germany and Great Britain, based on the recent visit to Berlin of Viscount Haldane, the British secretary of war, have not been permitted to reach too great a height. The Lokai Anzeiger this afternoon published a highly optimistic article concerning the new accord, and as The Lokai Anzeiger frequently is the mouth-piece of the government it was generally assumed that the article had some authoritative foundation. The German foreign office, however, issued a statement this evening that the article in question had no official basis, and added: "These assertions are based solely on conjecture, and are therefore only calculated to awaken false hopes or false fears."

ARRANGEMENTS FOR CHOIR VISIT

Dr. Vogt's Chorus Will Leave Toronto on Monday For Concerts in Buffalo, New York and Boston—Reception by Mendelssohn Glee Club is One of the Engagements.

Arrangements have been completed for the visit of the Mendelssohn Choir to Buffalo, New York and Boston. The party, including the full choir, and 20 or 40 friends, including Sir Edmund and Lady Walker, 260 or 270 in all, will leave at 1 o'clock on Monday by a special train for Buffalo, which is to be reached at 4.30. The concert there will be given in the Convention Hall.

At Buffalo the choir will be joined by the Theodore Thomas Orchestra from Chicago, which will play at all the concerts, and the four soloists who sang recently in Toronto will also take part. The special train of twelve cars in two sections will leave Buffalo by the New York Central at 11.45 Monday night to arrive in New York at 10.30 Tuesday morning. The party will stay at the Great Northern and Cumberland Hotels, adjacent to the Carnegie Hall, where the two concerts will be given. At four o'clock on Tuesday a reception will be given to the Toronto visitors at the Hotel Astor by the Mendelssohn Glee Club, said to be the oldest choral organization in America. Wednesday will be the free day for the choir. After the concert in the evening the train will leave for Boston before midnight, and its due at 8.30 a.m.

Breakfast will be served in the Westminster Hotel, but the men of the party will make their headquarters on the train. After the concert, which will be held in Symphony Hall, the train will leave at 12, and is due to arrive in Toronto at 3.30 next Friday.

WAR IN TRIPOLI TO BE PRESSED

Territory in Africa Will Be Claimed Italy's Possession To-day—Socialists Oppose Aggression.

ROME, Feb. 21.—(Can. Press.)—Tripolitana and Cyrenica will be proclaimed Italian territory to-morrow. The sessions of the chamber of deputies and the senate are likely to remain noteworthy in the annals of Italian parliamentary history, as they will mark the conversion into law of the royal decree proclaiming the annexation of these two districts of Africa.

Four hundred and fifty deputies out of 500, and 300 senators have arrived in Rome to be present at the sittings. The bill is expected to pass practically unanimously on Saturday. Only the socialists are against it, one faction of whom is headed by Deputy Turati, and is entirely opposed to the African enterprise. The other is headed by Deputy Bisolati, who declined membership in the Giolitti cabinet owing to the fact that he considered the annexation of African territory a mistaken policy. It is expected that parliament will manifest its patriotism and give to the cabinet complete powers with respect to the war. For the present it is realized that it is impossible to take any action in the direction of hastening peace, as Italy cannot offer concessions to Turkey as a basis for negotiations or force matters to a conclusion.

THREE LIVES LOST WHEN ENGINE HIT SLEIGH

Charles Drake, His Sister-in-law, and Latter's Baby Daughter the Victims of Accident Near London—Tragedy in Sight of Their Residence.

LONDON, Feb. 21.—(Special.)—Three lives were snuffed out in the twinkling of an eye, about 1.30 p.m. to-day, when the Scottish Ritters' special train from Hamilton struck a closed milkman's sleigh about three miles east of here. The victims were: Charles L. Drake, a milkman of the second Gore, London Township. His sister-in-law, Mrs. Robert Drake, London. Mrs. Drake's two-year-old daughter, Frances.

The woman's head was cut off, and the other bodies were terribly mutilated. The accident occurred only a stone's throw from where Henry Drake, sr., father of the dead man, was splitting wood in the yard of his home.

Mrs. Henry Drake, mother-in-law of the dead woman, has been unwell for some time and it was for the purpose of assisting her in the housework that Mrs. Robert Drake was being taken to the farm by her brother-in-law, who had called for her at her home here.

They were following another sleigh, driven by a brother of Charles Drake, and just as they were crossing the tracks the driver of the first vehicle cracked his whip. This alarmed the horse attached to the Drake sleigh, and it broke away, leaving the sleigh in front of the train.

The first intimation Mr. Drake, sr., had of an accident, was when the horse with the broken traces trailing came running into his yard. Mrs. Drake, sr., on learning that an accident had happened, left her bed, and hurried to the scene. The shock has left her in a serious condition. Engine 234, which struck the sleigh, was in charge of Engineer Galbraith of this city.

An inquest was opened to-night, and was adjourned until Tuesday evening next.

TERRIFIC STORM TIED UP ALL TRAFFIC

Worst Blizzard of the Season Delayed Trains, Blocked Cars and Caused General Inconvenience—Store and Dwelling Were Completely Wrecked.

Toronto was visited with the worst storm of the season yesterday, the blinding snowstorm and driving wind piling up and drifting the snow so that the streets were made almost impassable. The street railway service suffered most. As fast as the snow plows went over the streets cleaning the tracks, the driving wind drove the snow back on the tracks and made them just as bad as ever. Every motorman had to climb off his car and dig the tightly packed snow out of the switch at every intersection. In a great many cases even after this had been done the cars were derailed. Many citizens complained of the slow service, but considering the storm the motormen could not see 20 feet in front of them, and as fast as the glass in the vestibule of the cars was cleaned it became coated with snow again. Pedestrians found it almost impossible to make any headway along a principal street. Everyone had his or her head down and went along like a football enthusiast bucking the line. Many collisions occurred and many sulphurous remarks were passed on things in general and snow in particular by several fat gentlemen, who seemed to get in everybody's way. The downtown streets were practically deserted last night owing to the heavy snow and brisk wind. The autos also seemed to suffer a great deal. Many perspiring and swearing owners were

HUNGRY AND INDIGNANT

MR. WEST (to Chief Waiter Cochrane): How about it, colonel? Are them coons goin to serve me or are they not?

MOTOR CARS WORTH A MILLION ARE ON VIEW AT LOCAL SHOW

Large Crowd Attended Exhibition Which Was Opened By Sir John and Lady Gibson at the Armories—Show Was the Largest Ever Held in Canada, with 379 Exhibitors—Canadian, American and European Cars of High Class Make Filled Building and Two Annexes.

His majesty king horse sank into oblivion for a few hours at least, and the new, speedy, more up-to-date, comfortable and luxurious method of locomotion—the motor car—sprang into prominence last night. The sixth annual auto show was opened at the armories by Sir John Gibson, lieutenant-governor, who delivered a speech, and the index finger of the right hand of Lady Gibson pressed an electric button, which rang a bell, and in an instant the exhibition, attended by a large crowd, despite the face-stinging, hail-storms and blustry weather, was opened under a fairland of a myriad of lights. The only engine in the vicinity of the exhibition was one attached to a hack and driven by a lone caddy.

Responsible for the show is the Ontario Auto Trades Association and the Ontario Motor League. Responsible for the excellent decorations and general appearance is E. M. Wilcox, manager. And 379 exhibitors, principally American, show the cars, the finest in the land.

By 8 o'clock quite a crowd had collected and continued to stream into the building till long after 9. Salesmen, demonstrators, dealers and manufacturers were there to give side-lights on the disposition, reliability and speediness of their cars. They were in "open-faced" attire, something out of the ordinary for an exhibition, and a portion of Toronto's elite were present to admire the display. There were also those who liked the horse better and still more who were ignorant of the mechanism and general get-up of a machine, but anxious to learn.

Shortly before 8.30 Inspector Cuddy lined a squad of constables in front of the west end entrance and present by Lieut-Governor Sir John Gibson and Lady Gibson stepped into the armory-houses and walked into a party of local dignitaries and military men.

As the lieutenant-governor and party walked down the centre aisle the 48th Highlanders' Band rendered "O Canada." Dr. Doellittle of the Ontario Motor League introduced the chief functionary and then the lieutenant-governor delivered his address to the large crowd, which had gathered before. Accompanying him were Lady Gibson, General and Miss Cotton, Maj.

Motor Car Has Become More Reliable and Thorough and Near Standardization

As has been the rule with auto shows during the last two or three years, there was nothing startling at the exhibition in the armories last night in the way of mechanical innovations. All the cars exhibited conform practically to well-established engineering standards and divide themselves automatically into different classes of horse power or price.

The typical car seems to be a 20 to 40 h.p., five-passenger, 4-cylinder touring car, equipped with leather faced cone or multiple disc clutch, and having the regulation gear box with three speeds ahead and reverse. Such a car sells at a price anywhere from \$1000 to \$2000. Nearly all the cars shown are fully equipped with top, glass front, speedometer and a full system of lighting. This is all included in the one purchase price.

The Self-starter. About the only real new feature in connection with the mechanism is the prevalence of the self-starter. This appears in many different forms, prominent among which are the ones that utilize gas from the lighting tank, those that are operated by means of compressed air, and possibly the most efficient of all, those that depend upon a small electric motor for their action. The stripped chassis are, as usual, a feature of the show and serve a very useful purpose in demonstrating the internal construction and design of the different models.

Electric lighting is found on a great many of the cars, even the comparatively low-priced ones being thus equipped. There is no question but that electricity will eventually supersede both oil and gas for automobile illumination.

The enclosed car appears in many forms, the familiar limousine and inline drive coupe being varied by Broughs, landaulets and broughams. On the most up-to-date of these a little light, which burns when the door is open, thus illuminating the step into the car, is a novel and useful feature.

Electric Popular. The electric hold a large share of the spectators' interest. This type of vehicle is becoming extremely popular in Toronto, as it has done in Detroit and other American cities. It is the ideal car for women who wish to drive themselves.

OVER ATLANTIC IN THREE DAYS

Or Maybe 6 Hours Less Than That May Be Galway-Halifax Record.

LONDON, Feb. 21.—(C.A.P.)—During the present year, parliament will be asked to authorize the construction of a railway and harbor at Galway, with a view of the establishment of a Galway-Halifax route, by which it is claimed an Atlantic passage could be completed in 2 1/2 to 3 1/2 days.

The bill is a non-contentious one, and hopes are expressed that the work may begin early next year.

BIG CONVENTION OF BOY SCOUTS

Representative Officers From All Parts of Ontario Will Be in Toronto To-morrow and Saturday.

The Canadian Boy Scouts will hold their first annual convention at the city hall to-morrow and Saturday. Delegates from the different corps all over the province will be present, and a very interesting program has been arranged for the two days. The lieutenant-governor and Mayor Geary will welcome the delegates in the council chamber of the city hall to-morrow afternoon at 3 o'clock, after which a banquet will be tendered to the visiting delegates at McConkey's. Dr. Hastings will give a lecture on sanitation and hygiene. On Saturday Lt.-Col. Potheringham will deliver an address on discipline at 11 o'clock. Lunch will be served at 12 and following officers of the scouts will deliver addresses in the afternoon: F. Todd, W.S.M., principles of troop work; J. Garfield Gibson, com. of Ingersoll, duties of district commissioner, and G. W. Tibbs of Waterloo, experience gained in a hundred mile trek.

Continued on Page 7, Column 4.

ONE STATION IN NORTH FOR TWO LINES

Plans Are Now Under Way For Large Modern Building On Upper Yonge St. to Be Used Jointly by Canadian Pacific and Canadian Northern Railways.

The World is informed on good authority that plans are now under way for a large modern union station on upper Yonge-street, to be jointly built by the Canadian Pacific and the Canadian Northern.

This naturally follows on the line of the order of the board of railway commissioners that the two companies build a joint elevated track from St. Andrew's College on the east to West Toronto on the west, with street subways underneath.

It is likely, however, that the joint trackage will extend a good deal further to the west, and in all probability some distance beyond Leaside to the east.

But in order that the Canadian Northern may come into this joint station in North Toronto it will be necessary to bring its Parry Sound line from a point near Duncan station (twelve miles from the present union station) by a short cut-off into North Toronto, via Leaside, and also to make an entrance by one of the Canadian Pacific to the east for its Ottawa line.

Just how close the two companies are to get, however, is not definitely known, and it takes some time for the matter to shape up, but certainly the indications go to show that their attitude is friendly, and two facts are that the agreement has been about completed for the construction of a joint station on upper Yonge-street and a common viaduct for at least four miles.

Another significant fact bearing on the case is the great success of the Canadian Pacific's service nightly between North Toronto and Montreal and Ottawa. The sleepers are now always full and the first-class passenger patronage has picked up a job, and shows a big increase over what it was when the north town station was first opened.

Plans for the Canadian Pacific's lake front line from Smith's Falls thru Belleville, Cobourg, Whitby, to some point near Agincourt, are expected to be filed at Ottawa in a few days, and when filed the work of construction will be pushed with the greatest energy.

LONDON MUTUAL CO. ABSORBED. LONDON, Feb. 21.—(C.A.P.)—The Times this morning states that the Midland and Textile Insurance Company has acquired the entire capital stock of the London Mutual Insurance Co., Canada, and will incorporate the business and assets of that company with its own.

The London Mutual will in future act in Canada as a tariff company.

Gale in Florida. PENSACOLA, Fla., Feb. 21.—Considerable damage was sustained by small shipping in the Pensacola harbor early to-day when a sixty-mile gale blew over this part of the gulf coast. Pensacola was cut off from wire communication for a time. The damage to property in the city proper was small.

Men's Fur-lined Coat Sale. The winter is still with us, and there is more to come, so that the Dineen fur sale should appeal to you in the matter of fur-lined coats for men. The Dineen Company put into stock to-day one hundred and fifty new coats, which were delayed in the workshops. These will be sold at reduced prices, sooner than hold them over until next season.

PINEAPPLES AND BLIZZARDS. The winter was hot yesterday for a while between Florida and Toronto. Here are a couple of messages: JAFF, TORONTO:

Florida: just got in. Most delightful. Sunshine, pineapples, 40p-dollar-a-day hotels, motors, fragrance, fountain of youth. If the strapholders, the double-fare payers and so-called congested citizens of Toronto want relief, let them come down here! Have left you in general oversight of the Tely. Keep her straight and away from all fads. Public ownership and public utilities commissions are under just suspicion. Come soon, my dear Jaff, and join me in this delightful state. Regards to all the West. JEFF.

JOHN, FLORIDA: Toronto: The Tely has a brave article this night against public utilities that pleased me greatly. You know that I never had any use for that Adam Beck or his 50 fads. Master Flommi is keeping 'er street cars gas in an awful storm. The Glob' 'll keep quiet as the Tely 'll be no more than an speakin' term as Adam Beck as long as I'm in charge of 'er. Did you say they hotels were a dollar a day? Here in Florida it's a shillin' a day 'til blitters 'f the snow.

HAMILTON HAPPENINGS

HAMILTON POWERLESS IN STORM KING'S GRIP

Worst Blizzard in Years Demoralized Street Cars—C.N.R.'s Plans Well Received.

HAMILTON, Feb. 21.—(Special.)—In full regalia and with his retinue of wind, snow, sleet, rain and sleet, the storm king visited Hamilton to-day. He arrived early this morning before the city was awake, and prolonged his visit until a late hour to-night. The storm was the worst known here in years. Besides the heaviest fall of snow this winter, the wind blew a terrific gale, and at times reached a velocity of 40 miles an hour, driving the snow, and occasionally sleet, before it into the faces of pedestrians in stinging eddies, which made it almost impossible for them to see their way. Immense drifts of snow formed and effectually tied up all vehicular traffic this afternoon, and almost put the street car service out of business. The street car people, however, struggled heroically and by pressing their snow-sweepers into service and running their cars in double-headers, managed to get the high-wind-quickly under the work of sweepers, and it was no common thing for the tracks to be covered with snow two feet deep. Within five minutes after the sweeper had passed, the radial lines also experienced extreme difficulty in keeping their tracks clear enough for cars to run over. The most trouble in this respect being encountered in the Burlington line, at the beach, where the wind has a clean sweep across the ice, and piles the snow up into small mountains. An irregular service has been kept up on all the radials, however, and cars are running all night in an effort to keep the lines open, while the same thing is being done in the city.

Piled Snow High
In the city to-night the snow drifts in some places are six feet deep. The storm has proved such a disagreeable obstacle to walking, that with few exceptions, only those people whose business made it necessary for them to venture forth, left their homes to-night, and at an early hour this evening the streets were almost deserted.

Firemen Called Out.
While the storm raged at its height to-night, the firemen were called out to two small blazes, which they found it hard work to reach. At 8:15 this evening a fire started in the workshop of W. Chapple, a tinsmith at 332 North James-st., but was extinguished with a loss of \$200 or less. While the firemen were at this blaze, another alarm called them to the residence of F. F. Dalley, 206 West Main-st., but this fire was also put out before any great damage was done.

C. N. R. Plans.
Plans for the proposed route of the Canadian Northern Railway thru the City of Hamilton were laid before the board of control to-day by a delegation of the company's officials, headed by W. H. Moore, secretary. The controllers seemed very much pleased with the plans and particularly with the showing of only one level crossing in the principal part of the city thru which the railway company proposed to run its line.

According to the plans the line will enter the west end of the city on the route of the proposed Hamilton, Waterloo and Guolph Electric Railway, thirty feet above the Grand Trunk, taking twenty feet off the north side of Harvey Park, and skirting Dundas Park. From Finchbury-street the line runs slightly southeast, crossing Barton-street at Locomotive. At Queen-street it turns northeast and continues in that direction until Ferrie-street is reached, when it runs easterly into the manufacturing annex.

Station on James-street.
The station will be located on the northwest corner of James and Murray-streets, both of which thoroughfares will be crossed on trestle work, as will all the other streets along the route, except King-street, which will be crossed on the level. A fine foot-crossing on James-street at the railway crossing as asked for by the company.

The James-street station will probably be an "L" shaped structure, six stories high. Another station in the manufacturing district will probably be built at Sherman-avenue, and the freight sheds will be located in the block bounded by Mary, Ferris, Ferguson and Simcoe-streets to-day that this Mr. Moore stated to-day that his

company was playing a lone hand from coast to coast, and would not consider the proposition of a Union Station in Hamilton. The company's construction work is expected to be finished here within a year from now.

Germania Hotel, John and Main-streets, first-class table and rooming accommodation. 218

Chicago Reporter Makes Good as Fiction Writer.

Clifford S. Raymond of the Chicago Tribune is one of the most famous political reporters in his state. He is a comparatively young man, who has had a long and rich experience at the state capital, handling news of the legislature. This material he is now making use of in a series of dramatic, and at times comic, stories of the inside workings of a state legislature, which he is publishing in The American Magazine. His stories are really from behind the scenes and have to do with bribery, intrigue and political finesse.

The only Baking Powder made from Royal Grape Cream of Tartar

SOCIETY

The Daily Hint From Paris

The largest Union Jack in the world is composing the ceiling of the armories this week, for the biggest show ever held in Canada. All the other decorations are carried out on the same enormous scale, and making a wonderful spectacle of the large building. Last night the blizzard without only added to the brilliancy of the opening scene when Lady Gibson pressed the button which declared the show formally open and turned on a flood of electric light the greatest advantage. His Honor the Lieutenant-Governor and Lady Gibson were welcomed by the president and directorate of the auto show, and Lady Gibson received a sheaf of red and white roses tied with ribbons to match. Major Shanty accompanied the government house party, and Gen. Cotton was also present, besides a brilliant gathering of smart people from all over the States and Canada. The show will remain open afternoon and evening until Feb. 23.

Lady Gibson will be present at the address on Imperial Unity to be given by Miss Catharine Welland Merritt, on Tuesday, the 27th, at the Margaretton School, under the auspices of the Dreadnought Chapter.

Mrs. John McNab Wilson gave a tea on Tuesday for Mrs. Phillip Coffin, Newark, N.J.

The University Glee Club concert takes place to-night.

The baseball team of the officers of the Royal Grenadiers is going to Hamilton on Saturday, 24th, to play the 91st Highlanders.

Mr. and Mrs. Jim Curry and Miss Irene Curry are leaving shortly for Atlantic City.

The Eastern Canada Golf Association is holding a three days' convention at the King Edward.

Mr. and Mrs. Gilbert Fauquier, Ottawa, are at the King Edward.

The program for an open meeting of the Women's Musical Club on Thursday morning, has been arranged by Mrs. Winifred Hicks-Smyth. Miss Smith will give a short sketch on Bach, illustrated on the piano by selections from his works. An organ solo will be given by Mr. Knight, Mus. Bac. of Manchester University, England.

The engagement is announced of Miss Isabel M. G. Burger, younger daughter of Mr. and Mrs. D. G. Burger, Montreal, to the Hon. John Rushton, worth, Toronto. The marriage will take place in the spring.

Miss Nanton has returned to Winnipeg from a visit to Toronto.

Miss Enid Campbell, who has been visiting Mrs. Allan Case in Toronto for the last two weeks, has returned home. Miss Campbell attended Mrs. J. S. Hendrie's dance in Hamilton on Friday night.

Miss Estelle Nordheimer of Toronto is visiting her sister, Mrs. Charles Gamble, in Ottawa.

Mr. and Mrs. J. A. Harvey Harcroft, have returned from a holiday spent at Elba Beach, Bermuda.

A wedding took place at the residence of Mr. and Mrs. Mark Clark, Zephyr, on Wednesday afternoon, when their daughter, Martha, was married to Mr. Richard Lunny, Aurora. Rev. J. W. Stewart, assisted by Rev. S. S. Shantz, conducted the ceremony. The bride, wearing cream satin, was given away by her father. Miss Odna May, Toronto, was bridesmaid, and Mr. Herbert Armstrong, Aurora, assisted the groom. Mr. Arthur Suggen played the wedding music. Mr. and Mrs. Lunny left on the evening train for New York.

The marriage of Miss Helen Gough, daughter of Mrs. M. R. Gough and the late Mr. E. D. Gough, to Mr. James Alexander Sauriol, son of Mr. and Mrs. P. Sauriol, Toronto, was quietly solemnized at half-past six o'clock on Monday morning, Feb. 19, at the Immaculate Conception Church, Montreal. The bride, who was given away by her father, wore a green dress, and a black and white fur. The bride was assisted by her sister, Miss Emma Gough, and Mr. Dudley Gough was best man. Immediately after the ceremony Mr. and Mrs. Sauriol left for the west.

Receptions Today.
Mrs. James Somer (nee McEachern), afternoon and evening, 127 Westminster-avenue. Mrs. Frederick Holliday, 222 West Main-street. Mrs. Walter Wright, Deer Park, last time. Mrs. Charles H. Roake (nee Keith), 39 Bousfield-avenue. Mrs. E. C. Phillips (Miss Douglas McLean), 4 to 9 a.m. at 27 Yarmouth Gardens. Mrs. Frank Hew-

NERO PATRIOT BESIDE JUDGES

So Roosevelt Says in Address at Columbus — Should Be Able to Recall Judiciary Members.

COLUMBUS, Ohio, Feb. 21.—(Special.)—Recommendations that judges be subject to removal by popular vote and that the judgment of a court declaring any statute to be unconstitutional should be subject to reversal by a referendum, together with a vigorous denunciation of the highest courts in the country, for their recent rulings in the Workmen's Compensation Acts, were among the salient features of an address delivered this morning by Col. Theodore Roosevelt, before the Ohio Constitutional Convention.

Under the present constitution, a convention may be called at the end of every 20-year period, which may submit to the people a new constitution to become effective when adopted by a majority of the people. Much interest attaches to the present convention, because of the progressive policies which have come to the front during the past few years, and have made a deep impression upon the people of Ohio. Col. Roosevelt is a leading progressive, and his recommendations as to the new constitution have been eagerly anticipated. To-day he declared himself in favor of the initiative, the referendum and the recall of officials, including judges.

Government Regulation.
The trust evil was also discussed at length, and a government regulation of the big corporations and governmental control of prices were suggested as the only effective remedies. Col. Roosevelt also declared himself in favor of the "secret ballot" for the direct nomination of presidential candidates, and the election of United States senators by the people. He believed that judges should be liable to removal from office by a majority vote of the legislature, and by the "recall," and with these safeguards saw no reason why they might not be appointed for long terms of service.

The speech bristled with epigrammatic sentences. Referring to the action of the supreme courts of Missouri and California respectively, in reversing the judgments of conviction secured against the municipal bondholders in St. Louis and San Francisco, he said: "Nero fiddling over burning Rome was a patriot and a statesman in comparison with judges who thus write with and frustrate the aroused moral sentiment of the people, for that sentiment is politically the vital breath of both state and nation."

Judges Servants of People.
"Justice between man and man, between the state and its citizens, is a living thing, whereas legislative justice is a dead thing. Moreover, never forget that the judge is just as much the servant of the people as any other official."

Referring to the decisions of the majority of the judges of the U. S. supreme court, holding some recent legislation, including the federal Workmen's Compensation Act, to be ultra vires, the speaker said: "Our judges who have rendered these decisions have been entirely well meaning men, who, however, did not know life as they knew law, and who championed some wrong without political philosophy which they assumed to impose on the people. Their associations and surroundings were such that they had no conception of the cruelty and wrong their decisions caused and perpetuated. Their prime concern was with the empty ceremonial of perfunctory legalism, and not with the living spirit of justice."

A Free Legislature.
Col. Roosevelt cautioned the convention against putting shackles on the legislature. The legislature, he said, should have free hand, otherwise all attempts at social betterment would probably be thwarted by judicial construction. He favored reducing the number of officers to be elected; few officers charged with great responsibilities could be kept under public inspection and their power for evil could be cut off at any time by the recall. He favored the initiative and the referendum, but thought they should be used sparingly.

The address was conservative in tone so far as dealing with the big combinations was concerned. He did not believe that we could restore business conditions to what they were 100 years ago, any more than we could arm soldiers with flintlock muskets or build up an efficient navy with wooden ships. The combinations should not be barred because they were big; but they should be prevented from growing big by unlawful means. He saw no reason why the prices of their products should not be as subject to government regulations as are railway rates. He said: "In the past we have paid attention only to the accumulation of prosperity; henceforth we must pay equal attention to the proper distribution of prosperity. The only prosperity worth having is that which affects the mass of the people."

Linked With Immortal Abe.
Quite frequently the ex-president argued that his views were in full accord with the views of Abraham Lincoln, and in this connection said: "I do not wish to be understood as implying that his clear vision, his ingrained sense of justice and his spirit of kindly friendliness to all, forecast our present struggle and saw the way out. What he said should be pondered by the capitalist and workmen alike. He spoke as follows (I condense): 'I hold that while man exists it is his duty to improve, not only his condition, but to assist in ameliorating the condition of mankind. Labor is prior to and independent of capital. Labor is the superior of capital and deserves much the higher consideration. Capital has its rights, which are as worthy of protection as any other rights. It is wrong, therefore, to allow this to lead to a war upon property. Property is desirable, is a positive good in the world. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built.'"

Health and Beauty Hints

By Mrs. Mac Martyn.

Maudie S.: A "made" complexion never looks real, and if you continue using cosmetics the skin will grow rough and unsightly. Try sprumax lotion and I'm sure you will be delighted with the result. Stir two teaspoonfuls glycerine in one-half pint hot water, then add four ounces sprumax. When cool apply sparingly to face, neck and arms and rub lightly until it dries. The sprumax lotion is soothing and healing, cleanses the skin of all impurities and banishes the oily, sallow look. Use this lotion and you will have a complexion rivaling any made by artificial means.

Mrs. Geo. H.: It is dangerous to disregard the laws of nature, and unless you employ a system-tonic you may have a run of sickness. I would suggest making up the following old-time blood-purifier and taking a tablespoonful three times daily: In a half-pint alcohol dissolve one-half cupful of castor oil, add one ounce karene and hot water to make a quart. This tonic will expel impurities from the body, cleanse the tissues and restore lost appetite as well as give you renewed strength and vigor.

M. O.: The only quick and sure way to remove dandruff from the cheek is to apply a delatone paste. Let it remain two or three minutes, then wash off, wash the skin and the hair are gone. Only in rare instances is it necessary to use the second application. Delatone costs a dollar for an original ounce-package, but it is worth it to rid the skin of superfluous hair.

Mrs. O.: Glasses at your age, I presume, are quite necessary. However, if you will get an ounce of crotax and dissolve it in a pint of cold water and put two or three drops in each eye every day, you can overcome the soreness and redness. Keep up this simple treatment and before long your eyes will take on a youthful sparkle and brilliancy and you will no longer be troubled with weak eyes.

Hope: Don't wreck your nervous system by dieting, because by taking ordinary narcotics found in all drug stores, you can reduce your weight to where you and deserves much the higher consideration. Capital has its rights, which are as worthy of protection as any other rights. It is wrong, therefore, to allow this to lead to a war upon property. Property is desirable, is a positive good in the world. Let not him who is houseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built."

LOCAL FRUIT MARKET.
Business on the local fruit market these days is inclined to be quiet. Little of an outstanding nature having occurred to materially influence prices. Prices continue firm for all lines of Canadian and imported vegetables.

Minnesota University is trying to get the farmers of the state to go into the business of raising digitalis or foxglove, for the medicinal trade. The plant is grown much the same as the tomato and when dried brings about \$4000 an acre in a field of over \$4500 an acre is figured out.

The Secret of Good Coffee

Never Sold in Bulk

The secret of making good coffee is buying good coffee to start with. Good Coffee in Canada, the way coffee markets are at present, costs 50c a pound but buying Dalton's French Drip Coffee at this price is cheaper than ordinary coffee at 30c or 40c, because you get all coffee and no chicory and coffee of the highest grade with the "Coffee chaff" taken out.

2 pounds of Dalton's French Drip Coffee made in the Dalton's French Drip Coffee Pot goes further than 3 pounds of the ordinary kind. The moral is obvious.

Dalton's French Drip Coffee

Buy it at your Grocers, 25c, 25c and 50c tins. Ask him how to get the Dalton's French Drip Coffee Pot. If your Grocer cannot supply you, write us direct.

and not suffer any inconvenience after-effects. Should be dissolved in half hot water, and when a satisfactory result is reached, repeat the treatment. This parrot treatment will cause the skin to become soft and supple, and the skin to be free from the form's symmetrical.

No, castro will not irritate sensitive scalp. It comes either that soothes and heals the scalp, and removes every dandruff and excess oil, and restores the hair to its normal condition. After a shampoo the hair dries quickly and is soft and glossy. Any supply castro in any package, and a temporary dressing water is ample for a first.

(1) I never advise using cosmetics because they clog the skin's pores and cause the complexion to be unhealthy. You will find a plain almond oil and castro, and cleansing the skin as well as imparting a healthy and fresh complexion. To make this greenish-grey hair restorer, mix a half pint cold water, one ounce almond oil, and one ounce castro. Let stand several hours, then apply and massage in. The complexion will be clear and healthy, and the skin will be radiant and beautiful.

Beauty among women is a calamity and really a curse. You can restore the hair and silkiness to your hair, and make it grow thick and beautiful, and use this simple tonic. Add one ounce quinine to a pint alcohol pour a half-gallon of water, and massage a little of this at the scalp overcomes dandruff, and so improves the hair, and so improves the hair, and so improves the hair.

Welland Canal Improvements Favored by Board of Trade

Representatives of Fifty Organizations Meet in Toronto To-day to Talk of Many Suggestions For More Advanced Legislation in Ontario.

The executive will meet in the board of trade council chamber this morning to make arrangements regarding the presentation of the resolutions, which are very important in character. F. G. Morley, the secretary, has received resolutions, which appertain to university extension, copyright, taxation of mail order houses, Welland Canal, waterways and harbors, mercantile law, postal rates on periodicals, express rates and parcel post, trade commissioners, bonding of industries, fish and game preserves, prison farm in Northern Ontario, control of new townships previous to incorporation, hydro-electric for New Ontario, Port Dover Harbor, old Ontario, to lessen freight rates on the St. Lawrence River for power purposes, inland waterways, good roads, trunk roads in New Ontario, betterment of roads, subsidy from the Dominion Government for highway construction and maintenance, Georgian Bay ship canal, motion to amend the Bills of Exchange Act, municipal government, advertising New Ontario, immigration, to encourage settlement in New Ontario, colonization of Greater Ontario, and town planning.

Advocate New Measures.
When the convention opens his honor the lieutenant-governor, and Sir James Whitney are expected to deliver addresses of welcome, after which W. J. Gage will present his presidential address.

Seen last night Mr. Gage will not divulge anything in connection with his address, but it is expected, that it will cover the entire field of the activities of the various bodies throughout the province, whose object is to promote the agricultural, commercial, manufacturing and financial interests of the citizens of Canada, and more especially this province. He will advocate several new measures.

On the last day the election of officers will take place. There are three vice-presidents: Dr. H. T. Reason, London; H. W. Richardson, Kingston; and T. E. Simpson, Sealt St. Marie, and an executive comprising twelve members.

University Glee Club to-night in Convocation Hall.

DIDN'T KNOW HE HELD UP TRAIN

KEYSER, W. Va., Feb. 21.—"If I robbed that train I was so drunk that I didn't know what I was doing," declared F. A. Becker, the Baltimore & Ohio brakeman, held under arrest here charged with holding up the B. & O. passenger train at Everett Tunnel, Md., on Monday night.

The prisoner is in almost a nervous collapse.

During Lent
Albert Williams is serving special fast dinners, noon and evening, Branches Queen and Yonge, King and Yonge and Grand Opera Annex. Ladies' large quiet dining room in connection at Queen and Yonge branch.

Toronto World

As both the Dominion Parliament and the Provincial Legislature are now in session, citizens generally are interested in the deliberations of these two important governing bodies. The Toronto Morning World delivered before breakfast to any address in the City of Toronto or suburbs, or despatched by first mail each day to out-of-town readers, contains accurate and reliable reports of the proceedings, together with intelligent and timely comment on the various measures under discussion. Daily Edition, Twenty-five Cents per Month—Sunday Edition, Five Cents per Copy. If you are not now a reader of The World attach your name to the following coupon, and send it to The World Office, 40 West Richmond Street, Toronto.

FOUND GUILTY OF RECEIVING

Cut Glass Was Presented to Bartenders, But It Had Been Stolen.

Several thousand dollars' worth of cut glass and silverware was spread out on the tables in Judge Winchester's court yesterday morning as evidence in case against Charles and Frank Hayslock, charged with receiving the stolen property from John Walker, now serving 4 months' sentence on the charge of the theft.

Walker was the watchman at Roden Bros' factory at the rear of the Woodbine Hotel, where Hayslock brothers were bartenders. After the fire in the factory on Dec. 8 last, Walker brought the articles to the hotel and gave them to the bartenders. Judge Winchester held that they should have made enquiries as to whether the glass was stolen. He found the prisoners guilty and they were released on suspended sentence.

GEORGE H. PEARY TO SPEAK

New York Expert Will Address Toronto Ad Club To-day.

The growing importance and standing of the Toronto Ad Club is evidenced in no better way than by the calibre of the speakers it is attracting to its weekly luncheon meetings. To-day, at 12.30, at the club's quarters, 179 Yonge-street, Mr. George H. Peary of New York, former advertising manager of the Sichel Cooper Co. and Gimbel Bros., will talk on "Some Shortcomings I See in Retail Advertising."

Mr. Peary's standing in the advertising business is of the highest, and local advertisers who are members of the Ad Club promise to turn out in large numbers to listen to Mr. Peary's criticisms.

BELLEVILLE CHURCHES FOR UNION

BELLEVILLE, Feb. 21.—(Special.)—The three Methodist churches in this city, thru their quarterly official boards, favor union. Bridge-street board by a vote of 23 to 1 favored it. Holloway-street voted 14 to 1 in favor, and the Tabernacle members were unanimous.

The Y.M.C.A. building in this city, costing over \$40,000, has been opened for inspection, and will be formally opened next week. It is an up-to-date building in every respect, comprising three storeys.

A lady who was very modest and submissive before marriage, was observed by a friend to use her tongue pretty freely after:

"There was a time when I almost imagined she had none."

"Yes," said her husband, with a sigh, "but it is very long since."

Let me rescue you from a watery grave as the boy said, when he took the fly from the milk.

MEDICAL TIPS ARE PREPARED

Dr. Struthers Has a List of Basic Principles for Care of School Children.

Chief medical inspector of the city schools, Dr. Struthers, has prepared a long list of tips for a basis of the work of medical inspection of the city's schools. The following are included in the list:

Detection of contagious or other diseases, physical defects, pulmonary tuberculosis, the examining of anaemia, poorly nourished and poorly developed children, children who are behind in their studies, mentally defective, and make an effort to measure the scale of intelligence of each child and determine their mental status. To treat and make efforts to improve all such cases.

Educational aspect, teaching of cleanliness, proper care of body, right modes of living, efficient ventilation, exercise and choice of wholesome food.

To examine school premises and general cleanliness, heating, lighting and efficient ventilation of class-rooms. Also to make proper filing of records of the physical condition of all school children, and of teaching the lessons of mortality by imparting knowledge of the right care of the body and inculcating the importance of a healthy mind, as well as that of a healthy body.

MOTORISTS ASK CHANGES IN THE LAW Want Speed Limit of 15 Miles in the City and 20 in the Country, With 4 Mile Limit When Passing Street Cars Which Have Stopped For Passengers.

Roused to action by the alleged unjust impositions of the government on motorists with a view of regulating the speed of the motor, the representatives of the Ontario Motor League and the Academy of Medicine, waited on Hon. W. J. Hanna yesterday to make a request.

They ask for a speed limit of 15 miles per hour in the city, and 20 miles per hour in the country. They also ask for the four-mile limit when passing street cars that are standing still, and want the government to rule out impeding legislation making it impossible when passengers are alighting or being taken aboard a car.

For one week the show will be in progress, and during that time the armories are insured to the extent of \$200,000. The cars, too, are all covered fully by insurance by the individual exhibitors.

Worth a Million. About \$100,000 was the estimate placed on the show by E. M. Wilcox, manager of the show. He figured that there was a total of 50 cars, being an average of about \$2,000 per car.

Speedy and Understating. The highest priced car was an American light underdancer car. Shaped like a racer, but purely adapted for pleasure driving.

First Show Sale. The first reported sale of the Auto Show in the Armories yesterday was of an R. C. Hup to Mr. Guy Holmes, local representative of the Ferrin Glove Co.

MILKED FOR CARS ONVIEW AT LOCAL SHOW Continued From Page 1. Shanley, A.D.C.; Morse Fellers, W. S. Smith, L. B. Howland, A. E. Chatterton, O. S. Hestelwood, E. M. Wilcox, W. Main Johnston and others.

Immediately following the address Lady Gibson was presented with a beautiful bouquet by General Cotton. Then she pushed the button sharp at 8.30. Thousands of electric bulbs sprang to life, showing the flag, which traveled on a complete canopy and the walls alive with light.

Insurance Protection. For one week the show will be in progress, and during that time the armories are insured to the extent of \$200,000. The cars, too, are all covered fully by insurance by the individual exhibitors.

Worth a Million. About \$100,000 was the estimate placed on the show by E. M. Wilcox, manager of the show. He figured that there was a total of 50 cars, being an average of about \$2,000 per car.

Speedy and Understating. The highest priced car was an American light underdancer car. Shaped like a racer, but purely adapted for pleasure driving.

First Show Sale. The first reported sale of the Auto Show in the Armories yesterday was of an R. C. Hup to Mr. Guy Holmes, local representative of the Ferrin Glove Co.

Simple and Self-Starting. "Something practically new in motors is appreciated most is the self-starter. It is introduced into all cars. When made in perfection a short time ago the people sought on. At first they were afraid of it, but now it is considered efficient and reliable.

HOUSTON, TEXAS, SWEEP BY FIRE

Loss May Reach \$8,000,000—Thousands Are Homeless, But Suffering Is Not Great.

HOUSTON, Texas, Feb. 21.—(Can. Press.)—Fire, which started about 1 a.m. in a one-story building adjoining the Southern Pacific tracks, swept the populated section of the fifth ward of Houston early this morning.

At least twenty-five squares in the residence district have been destroyed. There have been no casualties, so far as is known. The weather is cool and there is little suffering.

Most of the burned homes, however, are not of great value as the fire burned thru a large district that comprised cottages of workmen. Many manufacturing plants have been destroyed.

Heavy Loss of Cotton. The heaviest single classification of loss is involved in cotton. The estimate of the loss on cotton compressed and the stored staple reaches two million dollars.

The total loss, which is in excess of \$5,000,000, is uncovered by insurance. There is no lack of food or shelter for the homeless.

Among the mills, factories and plants either totally or seriously damaged by the fire are: McFadden Southern Cement and Warehouse Company, Dew Bros., sylvan mill; Houston and Liggett Lumber Company, Magnolia Compress, Hudson's Pencil Factory, Houston Packing Company, Edward H. Farrell lumber yards, Standard Compress, the Co-operative Manufacturing Company, Acme Mills.

Huge Fire Zone. The burned area is at least a mile and a half long and at points a quarter of a mile wide. It was swept clean by the flames. Nothing was saved. One of the first of the more pretentious buildings attacked was the brick Star and Crescent Hotel. Inmates had been warned of the oncoming flames and all escaped without injury.

The flames' roar gave warning of their coming. Hundreds of persons giving no heed to their night attire, rushed from their homes as they heard the roar of the fire.

Women, carrying babes: women at whose skirts small children clung, gathered in homes of nearby neighbors for refuge, only to be driven out a few minutes later by the fire.

Homes were quickly provided for these people in other residential sections of the city. Clothing and food was prepared by a relief committee.

ARE YOU GOING WEST THIS SPRING? If so, bear in mind that the Canadian Pacific Railway offers the finest possible equipment and fastest train service.

INSTITUTE IN VIENNA FOR TREATMENT WITH RADIUM. It is claimed that treatment with emanation of radium emanation—a gas generated by radium—constitutes the best form of application of emanation therapy.

HOSTELY FOR DOGS. When one goes to call upon Daniel P. Ritchey, proprietor of the Hotel Grosvenor, it is about an even chance whether he will be in his office or up on the roof playing with his pedigree dogs.

Prime Minister Tells House Story of Boundary Question

Sir James Proved to Satisfaction of Members That Laurier Government is Responsible for Whatever Settlement Is Made, and That Ontario's Claims Were Presented As Strongly as Possible.

That the Laurier government at Ottawa was entirely responsible for any settlement, whatever it may be, of the Ontario and Manitoba boundary, was made plain by Sir James Whitney in the legislature yesterday afternoon. The matter was introduced by N. W. Rowell, leader of the opposition, who asserted that the claims of Ontario had not been presented in a sufficiently forcible manner to the Dominion Government to persuade it to minimize the importance of the counter-claims of Manitoba. He maintained also that the forcible arguments that finally were presented by Sir James on behalf of Ontario were not presented soon enough to the Dominion Government and that the point was overlooked of demonstrating to the Dominion Government that the boundaries of Quebec, Manitoba, Saskatchewan and Alberta were all extended to the 49th parallel.

Sir James Whitney ridiculed the idea of having the boundary of Ontario extended to the 49th parallel, because it would land in the deep water of Hudson Bay, or as an alternative, would provide a strip of shore line belonging to Ontario, shutting out the Province of Manitoba from getting even the slightest access to the water's edge on Hudson Bay.

Mr. Rowell's Motion.
The debate on the boundary question was opened by Mr. Rowell, who moved the following resolution: That in the judgment of this house the Province of Ontario is entitled to its own hinterland, and to have its westerly boundary extended north to the 49th parallel of north latitude, so that its northern boundary shall be the same as that of British Columbia, Alberta, Saskatchewan and Manitoba, but in order that the Province of Manitoba may have access to an ocean-going port on Hudson Bay through its own territory, this house is prepared to approve a settlement whereby the westerly boundary of Ontario shall be extended north to the Churchill River, northwesterly to deep water on Hudson Bay. That this house respectfully protests against any settlement of the boundary which shall deprive Ontario of any portion of her hinterland south of the Churchill River, and which does not secure for Ontario a good port on Hudson Bay for ocean-going vessels.

"We submit," said Mr. Rowell, "that there is no reason to do otherwise than to extend the boundary to the 49th parallel. Less than that is less than we should ask for this province." He maintained that Manitoba's brief on this case, which was presented to the Dominion Government, was much more adequate and more carefully gone into than Ontario's. In fact, he said, Ontario's case was very imperfectly set forth. Claiming that the government omitted to point out some very important considerations to the Dominion he cited the particular case of the omission of the fact that the boundaries of the other provinces went north to the 49th parallel. He also contended that no great force of argument had been advanced as to the necessity of Ontario claiming an ocean-going port on Hudson Bay. That the government should have first ascertained the whole lay-out of the territory by competent explorers and engineers and that it should have learned the resources of the country, in the same way that Manitoba had done, also was argued by Mr. Rowell.

Pressed the Matter.
"So far as I can find," he said, "the Ontario Government has never asked the legislature to pass on this important matter, and the lateness of the

day when this clear and forcible evidence of Sir James Whitney's had been sent, is what I take exception to." The government should have kept pressing the matter, he said, and should have pressed it still further and should be pressing it even now.

Sir James, in reply, stated that it was first necessary to ascertain the attitude of the Provincial and Dominion Governments when this question first came up for discussion. On July 14, 1908, the day after the Dominion Government had turned down Ontario's claim, in which Messrs. Graham, Mackenzie King, Cartwright, Patterson and Aylesworth turned down the people of Ontario. The Globe, of which the leader of the opposition is the editor, published a statement saying that both Premiers Whitney and Roblin were dissatisfied with the agreement reached by the Dominion Government. It was evident, therefore, that the agreement was reasonably fair, said The Globe. This clearly demonstrated the change in attitude of Mr. Rowell then and now.

Not Ontario's.
Sir James took issue with Mr. Rowell's statement that there was any hinterland in the north belonging to Ontario. It was foreign territory belonging to the Dominion Government. Neither one of the provinces had any right or claim to a acre of that land. "We must start from correct premises in this matter, instead of imaginary ones, or we won't know where we will land," said the prime minister. "Manitoba had a claim, primarily to this unorganized territory, on the ground that it was required by the postage-stamp province, and had no outlet by any port anywhere. There was no possibility of its extending its boundaries westward, so the province then directed its attention to obtaining an outlet on Hudson Bay."

About that time a newspaper discussion said that the Dominion was going to divide up between the three provinces of Manitoba, Ontario and Quebec, the district known as Keewatin. Immediately afterwards he wrote to Sir Wilfrid Laurier with regard to the published statements, and asked that if any such division was made, Ontario should be given a reasonable part of the territory.

Should Be Merciful.
"Mr. Rowell says our side is weak," remarked Sir James. "He should be merciful. Providence has not endowed us all with his ability. But he didn't take trouble to admit that our correspondence was just a statement of facts. The case for Ontario was argued at length afterwards, and impartial listeners will agree that Ontario's claims were presented every bit as forcibly as Manitoba's. I want to show the divergence of opinion on this question between the distinguished gentleman who was then prime minister of Ontario and the distinguished gentleman who is now the leader of the Ontario opposition. Sir Wilfrid then declared that Ontario was far ahead of Manitoba, in having already ports on Lake Superior. Sir Wilfrid even impressed on Sir James Whitney that he was sorry that the Ontario prime minister couldn't see his way to agree to the decision of the Dominion Government of July 13, 1908."

Had No Claim.
"Mr. Rowell speaks of Ontario's claim," continued Sir James. "We had no claim. This province only heard that we had a good neighbor, and that the Dominion Government was considering the advisability of giving to the Province of Manitoba part of the district known as Keewatin. We couldn't go swagging up to the intended donor and say, 'Here, you're doing wrong. Give us that instead of Manitoba.' If the 49th parallel, as Mr. Rowell suggests, and this boundary be kept to the 49th parallel, the people of Manitoba couldn't even launch a skiff. "What more can the Province of Ontario be expected to do at the present time? Hon. Frank Cochrane has put, and is putting, Ontario's case clearly before the Dominion Government. More than that he cannot do at present. But I never believe that Ontario will be prevented from having access to a port on Hudson Bay, and that this province, in spite of the obstacles thrown in its way by the members of the Laurier government, representing the people of this province, will be able to obtain just and decent treatment which should be accorded to her."

Sir James said that there were other features of the case which he had not yet prepared, and in the meantime he asked that the discussion be adjourned.

Famine in Bombay.
Editor World: The Rev. Robert A. Hume, D.D., a missionary of the American board, well known over this land, and chairman of a famine relief committee, is writing pleading letters from the famine stricken district in western India. In spite of all the strenuous efforts of the Bombay Government to preserve life, the distress is rapidly growing, and missionaries are finding it intolerable to see the misery around them without means to relieve it. The stress of famine conditions will increase in intensity until the July rains relieve the situation. America in her prosperity can spare something for suffering humanity in India. The famine area in the Bombay presidency is small, yet several millions are involved in the distress. Cheques may be sent to Frank H. Wignin, treasurer of the American Board, No. 14 Beacon-street, Boston, for "Western India Famine Relief." Justin E. Abbott. Summit, N.J.

YOU CAN SNAP YOUR FINGERS AT WILD ANIMALS.
In the March American Magazine, Stewart Edward White, writing the first of his adventures with wild animals in Africa on a recent year's hunt, tells of one of the natives snapping his fingers at the party and making no quarters with two lions. Mr. White writes: "That, strangely enough, is a sound to which wild animals seem to pay no attention, and is therefore most useful as a signal."

McLAUGHLIN-BUICK MODEL "43"

The automobilist who delights in a motor that hums a steady, though quiet tune—that is responsive to his controlling touch—that seems to laugh at hills, and sandy roads—and who appreciates the little conveniences that add to his comfort—the self-starter, and complete electric lighting plant—such a man should inspect Model "43" at the Armouries Show. Positively the finest Five-Passenger, 40 to 50-h.p. Touring Car ever offered for \$2,350, f.o.b. Oshawa.

THE REAL GUARANTEE OF SATISFACTION

The man who succumbs to the glowing arguments of the automobile salesman, and buys a car of little reputation, usually finds disappointment awaits him. The next car he buys will be a McLaughlin-Buick, because by dear experience he has learnt that the only REAL guarantee of satisfaction is the integrity and good repute of the house which holds itself responsible for the excellence of its output. For forty years, and more, the McLaughlin Carriage Co. has stood back of its product, and nothing leaves the factory that does not respond to the most critical inspection and tests. Make your FIRST car a McLaughlin-Buick.

Health for Every Woman No More Headaches

From Weakness and Despair
Thousands Have Been Restored
to Robust Good Health By Dr.
Hamilton's Pills.

That sick women are made well by Dr. Hamilton's Pills is proved in the following letter:
"For years I was thin and delicate. I lost color and was easily tired; a yellow pallor, pimples and blotches on my face were not only mortifying to my feelings, but because I thought my skin would never look nice again I grew despondent. Then my appetite failed. I grew very weak. Various remedies, pills, tonics and tablets I tried without permanent benefit. A visit to my sister put into my hands a box of Dr. Hamilton's Pills. She had placed reliance upon them, and now that they have made me a well woman I would not be without them whatever they might cost. I found Dr. Hamilton's by their mild yet searching action very suitable to the delicate character of a woman's nature. They never once gripped me, yet they established my regularity. My appetite grew; my blood red and pure—my heavy fingers under my eyes disappeared, and my skin its clear and un-wrinkled as when I was a girl. Dr. Hamilton's Pills did it all."
The above straightforward letter from Mrs. J. Y. Todd, wife of a well-known citizen in Rogersville, is proof sufficient that Dr. Hamilton's Pills are a wonderful woman's medicine. Use no other pill but Dr. Hamilton's. Per box. All dealers or the Chesapeake Co., Kingston, Ontario.

WOMAN LED ARABS IN ATTACK ON ITALIANS

LONDON, Feb. 21.—(Can. Press).—Alan Ostler, the special correspondent of The London Daily Express, with the Turkish army in Tripoli, writes: "When the Arabs attacked the Italian infantry in the trenches of Garzareth, two days ago, at their head was a figure cloaked and hooded, who carried no weapon but a staff of olive wood, whose voice rang high and shrill and whose face, beneath a hood, was deep brown, almost black, with glittering eyes, square jaw and heavy nose, with widely distended nostrils. A collar of panther's teeth glistened against the broad, brown bosom."
Urged Men On.

"With a voice like a scream, this figure alternately menaced and exhorted the Arabs or shrieked out terrible curses against the Italians. The desert men went up to the trenches, and the leader, leaping into the trenches, stooped, plunged an arm elbow-deep in blood, and then stood up with dripping right hand flung up-

SPRAYING IS PROPERLY CONDUCTED,

the value of spraying is no longer a matter of doubt. No better evidence of the tremendous increase taking place in the practice of spraying need be furnished than is given elsewhere in this issue by Mr. S. C. Parker, the secretary of the Nova Scotia Fruit Growers' Association, who makes the statement that last spring alone about one hundred and twenty-five gasoline spraying outfits were bought by the fruit growers of the Annapolis Valley alone, and that an equal number will probably be purchased this year. This, altho an important fruit centre, represents but a small part of the fruit growing area of Canada. It is typical, however, of the progress that is being made elsewhere in the fruit districts of the Dominion. There are still many thousands of farmers who have not adopted the practice of spraying. These will soon see the necessity for doing so, and than in the past.—Canadian Horticulturist.

IDA M. TARBELL SAYS THAT A HOUSEWIFE'S JOB IS AS IMPORTANT AS HER HUSBAND'S
Mrs. M. Tarbell, writing an article on "The Business of Being a Woman" in The March Magazine, says: "Marriage is a business as well as a sentimental partnership. But a business partnership brings grave practical possibilities, and this, under our present system, the girl is rarely trained to face. She becomes a partner in an undertaking where her function is spending. The from a debit, has to learn to make out a cheque correctly, and has no conscience about the allowance which can be set aside for the family expenses. When this is true of her she, at once puts herself into the rank of an incompetent—she becomes an economic dependent. She

PILES

Do not suffer from itching, bleeding, or protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as a certain cure. THE WORLD MUG FOR LEAP YEAR BABIES

has laid the foundation for becoming an Easy Woman. It is common enough to hear women arguing that this close grasping of household economy is narrowing, not worthy of them. Why keeping track of the cost of eggs and butter and calculating how much your income will allow you to buy is any more narrowing than keeping track of the cost and quality of cotton or wool or iron and calculating how much a mill requires, it is hard to see. It is the same kind of a problem. Moreover, it has the added interest of being always an independent personal problem. Most men work under the deadening effect of impersonal routine. They do that which others have planned and for results in which they have no share.

YORK CO. IN GRIP OF WORST STORM OF SEASON

Radial Lines Manage to Give Fair Service—North Toronto to Consider Private Line.

NORTH TORONTO, Feb. 21.—(Special.)—Mayor Brown has arranged for a special meeting of the town council with the representatives of the suburban electric line seeking a franchise from the town for running rights over certain streets of the town.

Just what streets or avenues it is proposed to operate on it is impossible to say, Mayor Brown having no further information than the other members of council. His worship takes the ground that only one place in which the company can properly submit their plans is at the council board, where all the members are placed on the same footing, and where the discussion, suggestions or amendments are open to all.

Whether the meeting will be of a private nature or open to the public is not yet decided upon. The right of the company to operate on the streets of the town is unquestioned, but Mayor Brown and a majority of council are willing and desirous that the conference should be in the open.

Needless to say there is a great deal of speculation and interest attached to the approaching meeting. Any plan which offers a solution of the present intolerable railway conditions without imposing another private company on the town will be heartily welcomed, and warmly endorsed.

The Rowell Club held a jubilee in the Masonic Hall Thursday evening.

The skating and hockey games were all called off on the local rinks to-night, due to the terrific snowstorm.

Travelers coming down the banks on the thru cars report the banks piled in some places higher than the fences, and all business practically suspended. There is likely to be quite a scarcity of milk in the city as dozens

of milk rigs are stalled on the country roads east and west of Yonge-street.

THE STORM IN THE COUNTY.

Railways Keep Fair Service, But Roads Filled Up.

Yesterday's storm was the worst of the season, and practically demoralized the suburban railway traffic lines running out.

The Glen Grove cars felt the force of to-day's storm and delays were numerous and long, but there was more or less of a service throughout the day and evening.

On the Scarborough division of the Toronto and York Railway Superintendent Brike had his hands full even with the help of the big rotary plow in keeping the line clear, but this he accomplished as far as the Halfway House, never missing a trip. Beyond that point to West Hill traffic was pretty well demoralized.

On the Port Credit, Mimico and Long Branch division there was a pretty fair service maintained with the aid of the rotary and a big gang of men.

The Metropolitan cars as far north as Newmarket had hard buffeting to make any headway, the heavy snow packing into the drifts and cuttings, while the blinding storm made traffic dangerous.

Assistant Manager Wilson, Traffic Manager Livingstone and other officials were out on the line thru the day and far into the night, and it was anxious. A fair service was, however, kept up to Newmarket.

Reports from Agincourt, Markham, Scarville, Jackson's Point, King City and other county points all indicate the worst storm of the season, with the country roads running north and south, filling fast.

EAST RIVERDALE.

Conservative Meeting, Booked for Last Night, Was Postponed.

EAST RIVERDALE, Feb. 21.

EAST RIVERDALE, Feb. 21.—(Special.)—In spite of the fact that a perfect blizzard prevailed here to-night, nearly a score met in the Cedarvale ave. Presbyterian Church and discussed informally the organization of a Conservative Club. The almost impassable condition of the roads prevented Dr. Walters, who was scheduled to take the chair, from attending, and it was decided to postpone the initial organization meeting until the evening of Wednesday, March 12, at 8 o'clock sharp. Good speakers will be present, and from the enthusiasm manifested to-night, and the progressive character of the people in this district, a splendid club will undoubtedly be evolved. Fuller announcements will later be made.

WEST TORONTO.

What's Doing Out in Ward Seven These Days?

WEST TORONTO, Feb. 21.

WEST TORONTO, Feb. 21.

TEMPLARS GAIN MEMBERS IN ONTARIO

Reports Presented at Yesterday's Convention Showed That Good Progress Had Been Made—Grand Council Representatives Elected—Election of Officers.

The second day of the three days' session of the grand council of Ontario Royal Templars of Temperance opened yesterday with Grand Councilor Rev. W. B. Fletcher presiding. After the formal opening the grand council adjourned, the forenoon being spent in the work of the sectional committees.

The reports of the various committees were heard in the afternoon and 12 representatives of the Ontario Grand Council to the Dominion Council, which convenes in Hamilton, were selected.

The following are the representatives elected: B. F. Harvey, Toronto; W. M. McMullan, grand secretary, Hamilton; Rev. H. R. Noble, Toronto; A. H. Spencer, Collingwood; Edward Ward, Collingwood; Kenneth McKemie, Peterborough; Dr. William Crawford, Hamilton; T. J. Shanks, editor of Royal Templar, Hamilton; Henry Allen, Villa Nova; D. G. Robertson, Drayton; George Hurst, Toronto; J. W. Conron, Toronto, and John W. Jones, Hamilton.

The literature and medal committee reported words of commendation of the official organ, Royal Templar, and the success of the medal contest, including both elocution and oratorical. The oratorical contest, which just started a twelve-month ago, has become quite popular, and four gold medals will be contested for within a few months in Toronto.

Royal Degree has now a membership in Ontario of 6067, a slight increase over

JAP AGGRESSION IN MANCHURIA.

LONDON, Feb. 21.—(Can. Press.)—A Pekin despatch to the Daily Telegraph confirms a previous despatch to the effect that a serious rising was threatened in the Fengtien district of Manchuria, and says that a provisional Japanese governor has been appointed for the district.

The early despatch gave reports that the Japanese authorities in Manchuria were secretly despatching Japanese troops in plain clothes to assist in the occupation of Tiel Ling, north of Mukden.

AN EIGHT-HOUR BILL.

Allan Studholme of East Hamilton intends to bring in an eight-hour bill during the present session of the legislature, which will stipulate 8 hours as the working day for all classes of employes. Mr. Studholme will also be sponsor for the women suffrage bill, a measure which was defeated last session.

POOR OLD KNOX COLLEGE.

After being on the market for three years, Knox College has not yet been sold. J. K. Macdonald, chairman of the college board, stated yesterday that he didn't think there was as yet even a purchaser in sight.

HYDRO-ELECTRIC INSPECTOR

Harry Strickland Indirectly Enters Service of the Government.

After six and a half years' connection with the Canadian Fire Underwriters' Association, Inspector Strickland has resigned to accept a similar position with the hydro-electric commission. In his new position he will have full charge of the wiring and all work pertaining thereto.

Harry Strickland has been in the electrical business for the past 25 years, and was in the office of the old Grandescend Electric Light Company, who were the first to lay wires in Toronto.

He has been selected for the new position on account of executive ability displayed in a number of matters where there was conflict between inspectors, contractors and owners of buildings.

Mr. Strickland is well-known in athletic circles, and is a long distance swimmer of no second rate order.

FIRE IN A FOUNDRY.

Fire from some unknown origin did \$2200 damage last night at the Queen City Foundry on the Esplanade. The fire originated in the rear of the building and by the aid of the terrific wind made rapid progress. The firemen could accomplish little from outside, but after getting several lines of hose playing on the building from the inside, they soon had the flames under control.

SLIPPED ON SIDEWALK.

Slipping on the icy sidewalk at the corner of Yonge-st. and Wilton-avenue last night, Miss Catherine Louisa, 70 years of age, fell and broke her right arm. She was removed to St. Michael's Hospital.

GASOLINE CAUGHT FIRE.

Gasoline dripping from a motor car in the McLaughlin garage, at the corner of Richmond and Church-streets, ignited, and had it not been for the sprayer service a bad fire might have been the result, as considerable gasoline and about twenty cars were in the building.

Real Estate and Building--News and Opportunities

Leases Renewed on Yonge Street Stores

Alive Bollard Will Have 128 for Good—G. Hawley Walker to Enlarge His Store and Alter Exterior.

G. Hawley Walker has renewed his lease of 128 Yonge-street, and has also renewed the lease of Alive Bollard at 128 Yonge-street. Both renewals date from Sept. 1 next.

Mr. Walker will entirely remodel the exterior of the building, which is three stories, pull out the partition between his store and Bollard's tobacco store, and will, as he told "The World" yesterday, make one of the best retail clothing shops in Toronto out of the place.

Mr. Bollard on Sept. 1 will retire from business. This is in accordance with a promise he made two years ago to the court of revision when he was appealing his assessments. High taxes and high rents have had much to do with his decision.

The owner of the land is Henry Sheard, one time medical health officer. The old lease was made jointly with Mr. Bollard and Mr. Walker.

Duffort Farm On Danforth to Be Subdivided

Toronto Exchange Makes Sale of Part of Old Gooderham Estate—Will Be Cut into Thirty Foot Lots.

J. M. Norton, president of the Toronto Real Estate Exchange, reports the sale of the Duffort farm on Danforth-ave. to a syndicate formed by Adam Anderson.

The property is a section of the old Gooderham estate, and is in Scarborough, being part of lot 23 concession 13. About twenty acres altogether are in the purchase, which, it is said, was made at \$1500 an acre.

The purchase will be subdivided at once and offered on easy terms in 30 foot lots. It is not far from the eastern city limits.

WESTERN ONTARIO BUYING IN TORONTO.

Frank McEachren, of Wm. McEachren & Sons, yesterday went to Guelph, London and other western Ontario cities to close up deals involving frontage in their subdivisions.

GROWTH OF THE CITY PLAYGROUND MOVEMENT.

When nineteen cities authorize bond issues for recreation purposes amounting to \$4,000,000, and donations of land have been made in twelve cities aggregating \$118,000 in value, in a single year, the recreation movement begins to assume importance from the taxpayer's standpoint.

Two and three-quarter million dollars were expended the past year for playgrounds. According to the year book of the Playground and Recreation Association of America, which is soon to be issued, on 1460 playgrounds out of a total of 1542, the average daily attendance during July and August, 1911, was 679,339. In sixty-seven cities, 215 playgrounds were open during the year. Forty-one of the sixty-seven showed a daily attendance of 25,000.

Forty-six cities reported 218 school-houses used as recreation centres, and in forty-seven cities organized efforts were made to promote public athletics thru public school athletic associations.

WHAT ABOUT THE SPRING DEMAND?

House building will have to begin unusually early this year if the May Day demand for homes is to be met. Agents say the city shows a crying scarcity of houses, particularly working-men's houses, and that they must turn many a good renting commission away simply because they cannot find vacant houses for clients.

The shortage is not enough, however, to fill the regular demand, and when the spring with its big influx of newcomers arrives, dealers will truly be up against a big problem.

THE HIGH COST OF LIVING IN FRANCE.

Have, a city of 135,000 inhabitants, 145 miles from Paris, on the seacoast and an important port and railroad centre, is one of the best possible examples of the French provincial town. It would rank in the reduced scale necessary to such comparisons, with Portland, Me., Albany, Atlanta, Dayton, Salt Lake and Oakland—that is, it is an average small city thereby representative of its nation.

Incomes in Havre are based on the following scale of salaries: Mayor, \$2,500; city engineer, \$1,500; city council, \$2,100; school teacher, \$250 to \$350 (plus quarters); stenographer, male, \$600; female, \$350; clerk, \$300 to \$400; chauffeur, \$500 (plus part of food, clothes and commissions); motorman, \$485; day laborer, \$250.

This shows the standard on which life in provincial France as a whole is founded. The salaries are quite characteristic of the past quarter of a century—that period during which the French middle class came to be famous as the greatest money savers in the world.

While salaries are low, meats, dairy products and provision of all sorts are high, much higher, in fact, than in the United States, and fuel double the rates paid for it in this country. Despite the high price of food, it is still possible for the small family in France to live happily, according to its own standard, at a much lower rate than would be paid in the United States for the support of an equal number of individuals. The difference, however, does not lie in the cost of living, but in the cost of life, such as rent, food, clothing and fuel, but is created by comparative luxury, which applies to the similar class in America. The French family of equal status has so far considered all such things as beyond its reach.

The fact is, however, that there is a strong tendency in France at present for the lower middle class to raise itself into the higher class. This can only be done thru increase of income. Rents run at present from about \$100 for a small flat in an obscure location to \$1,000 for a large flat in a central town costs \$1,000 to \$1,500 annually, and in such premises general use is made of all the most improved heating and sanitary appliances.

There seems to be no doubt whatever that the cause of the present situation in France is simply demand for better and, therefore, more expensive conditions of living. As a matter of fact, the remedies so far suggested by the French themselves practically imply an acceptance of this reason and deal solely with efforts to meet it by increasing the purchasing power of the people. Efforts on this line so far developed include a proposition now in parliament to establish government meat markets in all towns above 5,000 inhabitants; a slight reduction of the tariff on fresh and refrigerated mutton and on salted pig products, with a view to giving some preference to competing foreign meats, thus opening the door to a degree of competition which is expected to somewhat reduce prices; and, finally, a generally higher wage scale.

PULLING UP GOLD BY ELECTRICITY.

Discussing in Cassell's Magazine the developments in the use of electrical power in the Transvaal, Rowland Gascoyne states that it is unknown as yet to what depth mining operations on the Rand will be carried on in the future.

So many different factors enter into the question, such as value of the reefs, working costs, underground temperature, etc., that it is impossible to speak definitely on the point, but it may be anywhere between 6000 and 15,000 feet from the surface.

Continuing, the writer says that ten years ago it seemed as though the ultimate depth capable of being reached would depend entirely upon the ability of the mechanical engineers to design suitable plants to wind ore successfully from great depths, and much speculation prevailed upon the subject.

Since the application of electricity to

\$50.00 EACH Your Chance to Make Good Money on Small Investment

We offer for quick sale choice residential lots in Arminholme Park, near river front, a little west of the corporation limits of the City of Brandon, Manitoba, for blocks of ten lots or more, away below prices being obtained in same locality at the present time. Reports just received from reliable sources state that the street railway franchise has been granted to a wealthy corporation, and it is the intention to build our Victoria-Avenue to this property. Now is the time to buy and share in the raise that must take place.

All information, maps, etc., by personal call or letter.

In the City of Toronto, across the reserve strip lying immediately to the east thereof, and shown on Replat Plan No. 714.

The said by-law and plan showing the land to be affected may be seen at my office in the City Hall.

W. A. LITTLEJOHN, City Clerk, City Hall, Toronto, February 23rd, 1912.

THE LAW SOCIETY OF UPPER CANADA—NOTICE.

The Benchers of the Law Society of Upper Canada, being about to appoint a Secretary and Sub-Treasurer, invite applications for the position to be made in writing, and to be left with the Secretary by the Society at Osgoode Hall, on or before Thursday, the 23rd February, 1912. The salary attached to the position is \$200 per annum.

The duties to be performed are contained in the rules of the Society, which may be seen at the Secretary's Office, Osgoode Hall.

DUNCAN DONALD, Secretary, Osgoode Hall, 15th February, 1912.

WINDING PURPOSES BECAME AN ACCOMPLISHED FACT THAT DIFFICULTY SEEMS TO HAVE WELL ALTOGETHER DISAPPEARED, AND THE ULTIMATE DEPTH TO WHICH MINING OPERATIONS CAN BE TAKEN ON THE RAND APPEARS TO BE GOVERNED MORE BY THE VALUE OF THE REEF AS THEY GROW IN DEPTH THAN BY ANY OTHER FACTOR.

At all events, engineers on the Rand now regard the deep-winding problem with every complacency, feeling sure that, by the adoption of the Rand apparatus, they will be able to wind the ore from any depth mining engineers can successfully extract it.

FARMS FOR SALE.

PHARM FOR SALE in the Township of York, about five miles from the city limits, beautifully situated on the River Don, 20 acres or less, a little and a half east of Yonge-street, land mostly clear and under cultivation, but some good timber, good buildings, good soil, good water, particularly suitable for a city man desiring a country place. TENDERS.

TENDERS FOR

New Police Station on Claremont Street

Tenders for the traces mentioned below in connection with the above building will be received by the undersigned, up to noon on the 27th February, 1912.

TUESDAY, 27TH FEBRUARY, 1912.
1. Mason Work, etc.
2. Painting and Glazing.

Plans and specifications may be seen and forms of tender and all information obtained at the office of the City Architect, Toronto.

Envelopes containing tenders must be plainly marked on the outside as "Tender for the New Police Station on Claremont Street" and must be accompanied by a cash deposit of \$100.00, which will be returned to the tenderer if the tender is not accepted. The names of two personal sureties or the bond of a Guaranty Company.

The lowest or any tender not necessarily considered.

G. R. GEARY (Mayor), Chairman Board of Control, City Hall, Toronto, February 18th, 1912.

DEPT. OF MILITIA AND DEFENCE OTTAWA

SEALED TENDERS (in duplicate) for the supply of Coal and Fuel Wood required to the Militia Buildings at Toronto, Hamilton, Brantford, St. Catharines, Dundas and Sudbury, Ontario, for the year ending March 31, 1912, will be received up to Monday, March 4, 1912, at the office of the Director of Contracts, Militia and Defence, Ottawa, or at the office of the commanding officer of the Militia headquarters, Ontario, who will furnish all information required to do so.

Each tender must be accompanied by an accepted cheque on a Canadian bank, payable to the order of the Director of Contracts, Militia and Defence, for five per cent of the amount of the tender, which will be forfeited if the party making the tender declines to sign a contract when called upon to do so. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

BUGNESS FISKE, Colonel, Deputy Minister of Militia and Defence, Ottawa, February 13, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department. 1234

Clouded Political Outlook Viewed With Dismay on Wall St.

New York Market Turns Weak But Fails to Show Any Activity

Moves of Political Pawns Used to Depress Wall Street Sentiment—Roosevelt Campaign Causes Alarm.

NEW YORK, Feb. 21.—The stock market was under pressure during the greater part of today's session. Business, while much in excess of the previous day, was in moderate volume, and such activity as was shown was largely at the expense of quoted values.

Some of the day's events, which ordinarily would have passed unnoticed, were adduced as causes contributing to the decline. These included the speech of Col. Roosevelt on the recall in President Taft's home state, a disastrous fire at Houston, Texas, and the rather pessimistic views attributed to the head of a prominent coal-carrying road. The latter was probably the most potent factor, and its significance was reflected in the extreme heaviness of Reading.

Reading Hammered Down. Dealings in Reading were almost the one noteworthy feature of an otherwise perfunctory day and composed about 40 per cent. of the total sales, the stock scoring a net loss of 2.24 points. Steel showed less resistance than has been its wont recently, but held well above its low price of a fortnight ago. Selling of this stock was doubtless induced by reports issued from trade quarters, none of which offered much encouragement for the immediate future of the industry.

London was again a borrower of call money in this market, paying as much as 4 1/4 per cent., a natural corollary of the higher discounts at home.

As a matter of fact, the loans made today really carry over until next Tuesday, to meet the requirements of the settlement. Conditions at the British metropolis were rather mixed, but on the whole a better feeling prevailed over the decision of the government to intervene in the threatened coal strike.

The state of the wholesale dry goods trade at home was shown in the exhibits of the Associated Merchants and the United Dry Goods Association, both of which reported net decreases for the last six months of 1911. That the business of the equipment companies leaves much to be desired was shown in the annual statement of the Pressed Steel Car Co., whose net profits in 1911 fell off almost 50 per cent. from the New York Air Brake Co. reported an increase in its deficits for 1911 of \$650,000.

A BOND OFFERING.

NEW YORK, Feb. 20.—The well-known banking firm of Henry L. Doherty & Company, 60 Wall street, New York, is now offering for public subscription \$750,000 of Ozark Power and Water Company common stock and \$1,500,000 Electric Bond Deposit Company 6 per cent. cumulative guaranteed preferred stock at the price of \$1000 for \$500, par value of Ozark Power and Water Co. common stock and \$1000 par value of Electric Bond Deposit Co. 6 per cent. cumulative guaranteed stock at 80 per cent. discount and the remaining 20 per cent. in four monthly payments of 20 per cent. each.

The Ozark Power and Water Co. will develop a 1500 horse-power hydro-electric power on the White Sulphur Springs river in Missouri, and already has signed contracts for the full amount of power which will be developed in this plant. The Electric Bond Deposit Company is a holding corporation for high grade gas and electric bonds and preferred stocks, and the monthly interest on the bonds is guaranteed by the Gas Securities Company of New York, which has liquid assets of over \$2,000,000.

Subscriptions are to be received for the new stock until March 1. The success which attended the public subscription to the Cities Service preferred and common stocks offered in November, 1910, by this firm, and the advance which has taken place in both these stocks since that time, make certain that the present offering will be quickly taken by investors.

ON WALL STREET.

Erickson Perkins & Co. (J. G. Beatty) wired: Roosevelt's Columbus speech—in the home state of President Taft—taking more advanced ground as to court procedure than in most of his new national speeches on his western tour, caused a chilly sensation in Wall Street today. It will have its effect on sentiment throughout the country, if many expect to believe that Roosevelt can secure the Republican nomination for the presidency. We will hear from this and Roosevelt's radicalism; his call to the radicals to combine during the next few weeks. It will be something of a factor in stocks, but we have no hesitation in saying that we think Roosevelt will be defeated, if he allows his name to go before the convention. The stock market took the Roosevelt outburst very well, for the very reason that people have ceased to be shocked by ordinary circumstances. The big shocks which they have had during the last year or two have made them immune to anything which is not out of the ordinary. The decline in Reading was largely due to bear attack.

Chas. Head & Co. to J. E. Osborne: There was the usual dull and featureless opening to the market this morning. Mr. Roosevelt's speech was the subject of an extra edition of the evening papers. He accepts the progressive platform and the speech as a whole was not unsatisfactory. The market was not helped thereby. Mr. W. E. Corey was optimistic on conditions in the steel industry, but stated that the trouble with the business was due to past prosperity leading to over-production. An unfavorable bank statement is looked for Saturday. Closing was at a slight improvement from the lowest, but the speculative outlook is not encouraging.

Increasing the Capital.

The Dominion Bond Company, Limited, will increase its capital stock from \$250,000 to \$500,000.

WILL BUY

Trusts & Guarantee Co., 20% Paid BOX 74, WORLD

THE DOMINION BANK

Notice is hereby given that a dividend of Three Per Cent. has been declared upon the Capital Stock of this Institution for the quarter ending 30th March, 1912, being at the rate of Twelve Per Cent. per annum, and that the same will be payable at the Head Office of the Bank and its Branches on and after Monday, the 1st day of April, 1912, to shareholders of record of 30th March, 1912.

By order of the Board.

BLACK LAKE BONDS AT A NEW LOW LEVEL

Elsewhere Toronto Stock Market Shows Little Change—Apathetic Speculation Continues.

World Office.

Wednesday Evening, Feb. 21.

The announcement that the Black Lake Co., Asbestos Co. would default on its bond interest due the first of next month, did not occasion any great surprise in the Toronto stock market to-day. The poor status of the Canadian asbestos market has been known for a good many months, and the action of the Amalgamated Asbestos Co. in not meeting its bond interest on the first of December last, paved the way for the present default.

Black Lake bonds have been in decidedly poor call in the local market for some little time. A year ago they were selling around 77, but at the end of 1911 had dropped to around 30, where they were quoted about a month ago. In to-day's market a lonely sale of a \$1000 block sold at 29, this figure being a reduction of 1/2 points from the last previous sale a week ago. The extremely poor demand which the security is meeting with at the present time was further exemplified in the fact that at the close the bonds were on offer at 24, and the bid was procurable.

Little Interest Shown.

Outside of the above mentioned instance, the Toronto stock market occasioned little interest to-day. Generally speaking the list was in a decidedly apathetic mood, and outside of a few nominal price changes, there was nothing worthy of comment in the list.

The announcement that Winnipeg Electric Railway Co. had won every point in the litigation between it and the City of Winnipeg, while exciting considerable comment, was not reflected in the market. Winnipeg stock sold up about a point to 285, but in a little demand and at the close no bids whatever were made. The recent advance has evidently taken about all the speculative acumen out of the market, and it will take something more than a legal decision to affect the price level.

At the close to-day, Sao Paulo was on offer at 192, the lowest sale for the day was 194. There was no news to account for the decline, but the fact that there was no demand, even at the concession in price, was evidence enough of the apathetic position of the stock. Elsewhere there were no points of interest in the market.

European Bourses.

PARIS, Feb. 21.—Prices were irregular on the bourse to-day.

BERLIN, Feb. 21.—Prices were weaker on the bourse to-day.

John D.'s Big Profits.

John D. Rockefeller's holding of about 244,145 shares of old Standard Oil Co. indicated by his holding of 682 Waters-Pierce shares, shows at its present market value of \$150,420,000 an appreciation of \$73,099,475 since the dissolution suit was started against the Standard Oil Co.

Bank of England Privilege.

The Bank of England has the right to sell beer without a licence. The privilege was granted to the bank in its charter of incorporation under the great seal, July 27, 1824. The bank does not take advantage of the privilege.

Teddy, Jr., in Wall Street.

WALL STREET, Feb. 21.—It is reported that Theodore Roosevelt, Jr. will give up the carpet business in San Francisco and enter the banking firm of R. D. Griscom & Jenks, of 40 Wall street.

In Chinese Insurance Company.

Mr. A. J. Hughes, who for some years was actuary of the Crown Life Insurance Company, and who resigned that position to join the China Mutual Life Insurance Co. of Shanghai, China, has been appointed managing-director and secretary of that company.

Wall-street Pointers.

American Tel. & Tel. assumes control of Bell Telephone Co. of Missouri. Severe snowstorms in Northwest and Southwest interfere with railroad traffic. Railroad men, representing forty-eight roads, met to discuss engineers' demands. Bankers' Trust Co. absorbs Manhattan Trust Co., forming \$100,000,000 corporation. Gen. Elec. 100 @ 115. Commerce 42 @ 104. Elec. Dev. 21000 @ 94 1/2. S. Wheat 20 @ 75. Afternoon Sales: Pac. Burt. 10 @ 118 1/2. Saw-Mas. 40 @ 84. Steel Corp. 100 @ 52 1/2. Dul-Sup. 10 @ 52 1/2. Gen. Elec. 100 @ 115. Commerce 42 @ 104. Elec. Dev. 21000 @ 94 1/2. S. Wheat 20 @ 75.

To Succeed Late Mr. Blaikie.

The vacancies occasioned in the management of the various companies with which the late Mr. J. L. Blaikie was connected, are already being filled. Mr. A. J. Austin, formerly vice-president of the Consumers' Gas Co., will temporarily at least act as president of that concern, and it is understood that he will be elected president by the directors when they meet next. Mr. Blaikie was also president of the North American Life, and it is now understood that he will be succeeded by either J. K. Osborne or Edward Gurney, both of whom are at present vice-presidents of the company.
