NEW MAN WHO POURED OIL ON TORCH CAN CAUSE "PICTON" FIRE

Unexpected Evidence of Jas. Kane at Inquest Explains Outbreak of Saturday's Fatal Blaze—Officials Secured Admission.

JURY CENSURES COMPANY FOR THE POOR FIRE DRILL

That George Kieskie came to his death by being suffocated on the Steamer Picton on Sept. 21 as a result of an outbreak of fire caused by an inexperienced hand accidentally dropping his torch.

We find the company negligent in not enforcing discipline in the handling of the fire fighting appliances.

A sensation was sprung last night at Coroner Wilson's inquest into the death of George Kieskie, who died on the burning steamer "Picton" last Saturday, when James Kane, a laborer, residing at 86 Sherbourne-street, who had been hired as a wiper at noon on Saturday by Pettit, the second engineer, told in the box how he accidentally set the boat on fire.

The R. and O. Navigation Co. officials have been in Toronto since Sunday afternoon investigating the cause of the fire, and late yesterday afternoon, after close examination, Kane admitted what he knew.

A man of thirty-six years of age, sharp looking, with pointed features, Kane at first was afraid of the consequences and did not tell all to the officials. Later he made a clean breast of it.

Called to the box after several witnesses had been fruitfully examined, Kane began to answer the crown attorney's questions in his own plain way, how he had been taken on the job as wiper about noon Saturday, telling how the second engineer had instructed and helped him to clean the piston rods of the big engines, of his leaving for his boarding house to change his clothes and his return to the boat. His torch had melted oil and down on the lower deck of the engine he had noticed a large oil tank. Down he went to fill his can, which would be needed later when the boat got out for shore. The coal oil tank was about 4 ft. high and about 4 ft. in length, and had about 4 or 5 ft. from the boiler.

How It Happened.
"I tried to fill my lamp lighted from the oil. Somehow I dropped a half pint of oil, and it caught fire and a sudden blaze went up. I called to the engineer to bring a pail of water. I went there as a green hand and was not employed in this boat before."

"That's how this fire took place," asked Mr. Drayton.

"Yes," said Kane. "The fire burned your fingers and you let the torch drop."

"Yes, I did it accidentally. Coming out of the box somehow the light caught and I got excited and dropped it. The oil went over my hand."

"Where was the lamp when it caught?"
"About 8 inches off the wick. I don't know, but somehow it caught."

The fire spread quickly, and the men had no opportunity of putting it out. He had rushed to get a pail of water. He said he had been quite sober.

Crown Attorney Drayton drew from the half-dozen other witnesses the admissions that, although the fire appliances were in good order, as demanded by the Dominion Government, still there was not the discipline nor the ability to cope with the emergency that had arisen.

Appliances on the Picton.
Capt. Redfern, the first witness, said that the fire appliances were inspected by the government last spring. There were forty-five full crews, and the government required twenty men to operate the appliances. The last fire drill was held on Aug. 27. The reason the appliances were not able to cope with the fire was that the pump was in the engine-room, where the fire broke out.

A. Demontigny, the chief engineer for three seasons, said that the fire fighting apparatus on board was first-class. It consisted of five steam and two hand pumps. There was about thirty or forty gallons of oil on hand, kept in separate tanks, removed from the furnace. There was not over a pound of dirty waste in the engine-room.

Joseph Pettit, the second engineer, was on the watch. Kieskie and another man were on deck. They had not been in the fire-hole for 15 minutes. Witness heard Kane call fire. The hose was working inside a minute. He went to the engine-room and stayed there about 8 or 10 minutes. When he first saw the fire there was lots of smoke.

Witness saw Kieskie and told him to go and tell everybody to get out.
"He did," continued the witness, "and came back, and I told him to save himself."

To the coroner witness said that the world of the boat was in the engine-room, and that he had conveyed to all parts of the boat by sending a man. There was no special signal.

Capt. Johnston, mechanical superintendent of the R. & O. Line, said torches were much more convenient than electric lights.

Where is Our Civic Pride?

MONTREAL, Sept. 23.—(Special.)—The Star says editorially to-night:

"In Toronto, where they are lining up for their annual selection of mayor, controllers and aldermen, it is asked why they do not put business men into these positions. The true answer would probably be that the people of Toronto have very little to do with the choice of their rulers."

A business administration at the Montreal City Hall would do wonders for us. It would know that it is bad business to meet every stranger with dirty streets right at the door of the railway station. How are we to get a business administration?

"Business men are as reluctant here as in Toronto to neglect their own affairs for the affairs of the community; and the result will not be the trouble of seeking the sacrifice. They must be sought out and labored with."

CANADA THE LAND OF SPLENDID OPPORTUNITY

Bishop of London Looks for Day When Dominion Will Be Backbone of British Empire.

NIAGARA FALLS, Ont., Sept. 23.—(Special.)—His Lordship the Bishop of London addressed an audience of some 4000 people to-night in Olympia, Rink, Niagara Falls South. The gathering represented every creed, not of the Niagara district alone, but of the American frontier as well. Baptist, Methodist, Roman Catholic and Presbyterian lived with the Anglicans to make the visit of the great churchman auspicious for the Dominion.

Special trains brought delegations from Hamilton, Welland, St. Catharines and from the villages for miles about.

Bishop DuMoulin of Niagara introduced Bishop Ingram, who was given an ovation. He took for the text of his talk, "The Garden of Canada and the Garden of Souls," contrasting the conditions there and in his diocese as regards the opportunities afforded for spiritual and physical development.

"Never have I seen such glorious children, strong, well fed and happy as here," he said, "and the bishop said, 'As I think of my own poor children of the slums, stunted and ill fed and sad, I feel that I wish they might share the abundance of yours.'"

The bishop also contrasted the observance of the Sabbath here and in London. Canada, he said, he found was a religious country, while in London the very opposite was true.

"I confidently look forward to the day when this great land shall be the backbone of the empire, a country of nearly one hundred million people," continued the bishop. "Canada spells opportunity and opportunity which men of all lands will be quick to grasp."

Then his lordship reverted to his work in London, telling of conditions as here in the diocese of the clergy. Much of their ministry, he said, had of necessity to be given over to a defence of Christianity, which was assailed on all sides by the distressed poor.

His lordship left after the meeting for Buffalo with the Right Rev. W. D. Walker, Bishop of Western New York. He will spend to-night with Bishop Walker, and will leave in the morning for New York.

During his stay here he was the guest of Bishop DuMoulin and Rural Dean Bevan.

He met the clergy of the Niagara district and Western New York at luncheon at 2 o'clock at the Clifton Hotel, and later dined with Bishop Walker and Bishop DuMoulin.

SCHOOL OF PEDAGOGY.

Formal Opening Exercises Will Be Held Next Wednesday.

Until the end of last session the Normal College at Hamilton trained first-class public school and all high school teachers of Ontario. With this session, however, the normal school disappears and the Ontario public and high schools are to receive professional training in the faculties of education at Queen's and Toronto Universities.

The inaugural exercises next Wednesday will be attended by Premier Whitney and the chiefs of the educational office.

All the collegiate institutes and high schools will be used for practical work and probably the Church-street and Ryerson Public Schools.

FEMALE "FAGIN" ROBBED GIRL THIEVES

Miss Elizabeth Maloney Alleged to Have Profited from Youngsters' Pilferings.

Is Mrs. Elizabeth Maloney, 79 Jarvis-street, a female Fagin? Her 12-year-old niece says so. The woman is charged with receiving stolen property from little Bertha Wilson, her 12-year-old niece, and 10-year-old Irene Drake, who was arrested Saturday afternoon in the Eaton store by Detective Geo. Kennedy, while they were engaged in the exciting operation of purse snatching.

Mrs. Maloney was arrested by Detective Kennedy at her home yesterday, upon information furnished by the chief.

Bertha Wilson told the detectives that her aunt had sent her out to steal and had reaped the fruits of her crimes, which were extensively pilfered. She told that she had given the woman over \$100 which she had stolen from purses. Once her aunt bought her a little fur hat out of the proceeds of \$30 which she took from a chateleine. So far from being amateur, the child is an expert pickpocket.

A search of her premises on Jarvis-street unearthed a deal of property for which the detectives want owners.

There is a small diamond ring, upon which are engraved the initials "E. E. R." a buckle ring with two red stones and one missing; a gold ring with two small diamonds with an opal between; an oblong amethyst with a gold flower set in a gold ring; a gold thimble engraved "H. A. K."; a silver thimble marked "G"; a pair of gold earrings in the shape of a knotted cord; a brown alligator purse containing car tickets and Hamilton boat tickets; a read leather purse with one American dollar bill, and numerous coins, among which is a Columbian half dollar.

In addition to this property Detective Kennedy wants an owner for a brown glass purse containing \$13, which was stolen Saturday.

FIVE TO FIFTEEN SECONDS TOOK BRIDGE TO COLLAPSE

Evidence of an Eye-Witness Who Saw the Great Structure Tatter and Fall.

QUEBEC, Sept. 23.—(Special.)—Five to 15 seconds was the time occupied in the collapse of the Quebec Bridge, according to the evidence of witnesses of the catastrophe heard to-day by the royal commission.

F. E. Cudworth, engineer in charge of the field instruments, being asked to describe the occurrence, said that at the time he was in the little house at the approach, a thousand feet away from the collapsed section. Hearing a peculiar rumbling noise, he turned about and looked over, his notice being then first attracted to the movement of the top of the main posts and of the main post peaks.

He did not happen or have time to notice the anchor arm at the moment. The main posts assumed a succession of distinct motions. They moved sideways and then out towards the river. Then the peaks followed towards Quebec and the towers soon broke her to pieces.

Life-Saving Station No. 9 is located on the point and thru the heroic efforts of the life-savers 11 of the crew were saved. They were unable to save Capt. Randall and five of the crew, who were washed ashore by the heavy seas. Early Sunday morning three bodies were washed ashore by the waves. A searching party, headed by Mate Gordon, is looking for the remaining three.

MAN SWEEP OVERBOARD.

William Roberts Lost Life in Mid-Ocean.

MONTREAL, Sept. 23.—(Special.)—Struck by a terrific wave, and swept overboard to death, was the fate of William Roberts, a seaman of the S.S. Dominion of the Dominion Line, which arrived in port to-day, after a stormy passage.

T. J. Rowlands, another of the crew, was hurled by the wave against the side of the ship and had two ribs broken.

AMERICANS GET CONTRACT.

Boston Firm to Build Montreal's \$884,000 Conduit.

MONTREAL, Sept. 23.—(Special.)—The city council to-day by a vote of 33 to 7, decided to accept the tender of J. McGovern, Boston, for the construction of the new waterworks conduit for the city.

The contract price is \$884,000, and the conduit will be five miles long and 81.2 feet in diameter.

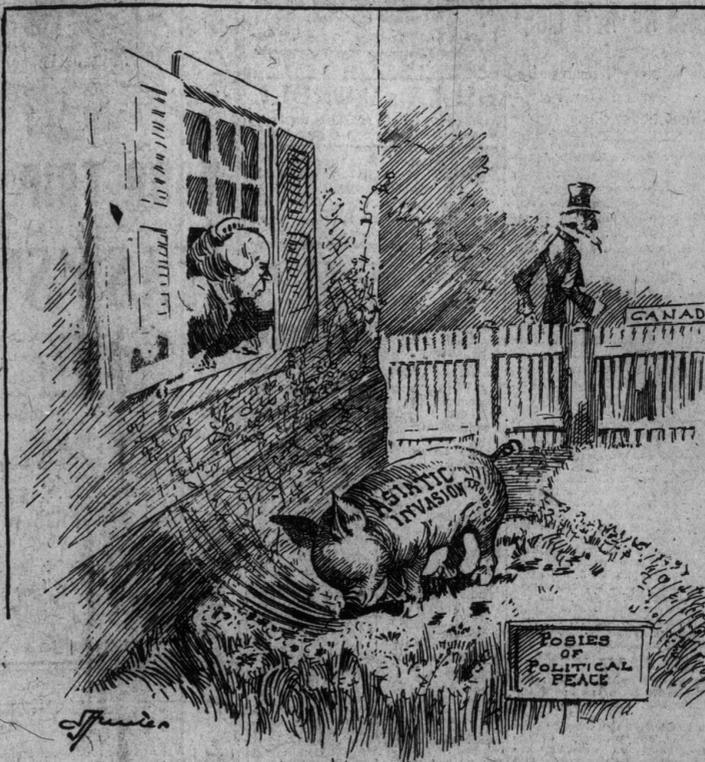

WANT LABOR BUREAU.

A preliminary meeting will be held to-day for the purpose of selecting a delegation of members of the Trades and Labor Council to wait upon Dr. Reaume some time during the present week, with the object of securing the establishment of a branch of the labor bureau in this city. A number of these branches have been organized elsewhere.

NEW BAILIFFS.

STEAMER NIMICK WRECKED CAPTAIN AND 5 DROWNED

Canadian Members of the Crew Weir Rescued—The Machinery Broke Down in Heavy Gale and Vessel Was Smashed Into Pieces on Vermilion Point—Some Bodies Recovered.

CAPTAIN RANDALL, Algonac, JOHN JOHNSTON, Glasgow, Mich. LOUIS DUBEY, Detroit. THOMAS PARENT, Port Huron. Fireman and watchman from Chicago, names unknown.

SAULT STE. MARIE, Sept. 23.—(Special.)—One of the most disastrous wrecks on the lakes this season occurred Saturday night at 11 o'clock, when the steamer Alexandra Nimick went ashore at Vermilion Point and Capt. Randall and five of the crew were drowned.

A heavy northwest gale was blowing at the time and when off the point, 13 miles above White Fish, the Nimick's machinery suddenly broke down. The steamer was driven about helpless in the waves and finally beached on the point, where the heavy pounding of the waves soon broke her to pieces.

Life-Saving Station No. 9 is located on the point and thru the heroic efforts of the life-savers 11 of the crew were saved. They were unable to save Capt. Randall and five of the crew, who were washed ashore by the heavy seas. Early Sunday morning three bodies were washed ashore by the waves. A searching party, headed by Mate Gordon, is looking for the remaining three.

The first news of the wreck was received at Grand Marais by phone from the scene of the wreck, and the tug to the rescue. She arrived at the Soo this morning about 11 o'clock, carrying the three bodies washed ashore and 11 survivors.

The sailors say the steamer grounded about 7.30 o'clock Saturday evening and before being beached waves were continually washing completely over her and the ship began taking water. She was filling so rapidly that the captain deemed it best to run her ashore. This was done, but immediately upon striking the bow went to pieces, casting the men who were lost into the waves. Only those who were in the stern escaped.

A yawl boat was launched and ten men made way in her. The sailors say the chief engineer threw himself into the water and swam ashore. The drowned men were: Capt. Randall, Algonac, John Johnston, Glasgow, Mich. Louis Rubey, Detroit. Thomas Parent, Port Huron. A fireman and a watchman, from Chicago, unknown.

Of these men Johnston and the unknown fireman were brought to the Soo this morning.

The survivors are: Gordon Tobin, mate, Amherstburg; Charles Gray, Buffalo; John Smith, Detroit; Fred Brenner, Detroit; R. B. Ewing, Doyletown, Ohio; Harry Hutton, Detroit; William Kock, Detroit; Austin McDougall, Goderich, Ont.; James Hurley, Buffalo; Frank Shaw, New Orleans; James Warburton, Detroit.

The Nimick, a wooden steamer, built in 1890, was 318 feet long, 40 feet wide, with a gross tonnage of 1965.

ST. JOHN, N.B., Sept. 23.—(Special.)—In an address to-night before the Canadian Club, General Booth, after speaking at length of the work and plans of the Salvation Army, said that he hoped to live until he could see perfected a scheme which he had long had in his head, that is, the establishment of two great Salvation Army Colleges—one in England and the other in Canada.

"I have long dreamed of this thing," said General Booth, "and may now say that that dream is soon to be realized."

General Booth went on to explain that affiliated with these colleges will be smaller institutions all over the world. Their aim will be to educate men and women to the Army's work.

MORMON IMMIGRANTS.
MONTREAL, Sept. 23.—(Special.)—A party of Mormons numbering fifty-two arrived on the Dominion to-day from the British Isles. They are bound for the Western States.

THE TRUTH ABOUT THE WESTERN TROUBLE

World Commissioner Writes of the Sentiment and the Situation on the Pacific Coast.

(Special Correspondence of The World.)
VANCOUVER, Sept. 17.—The whole trouble with British Columbia and the Japanese immigration rests in the determination of the people of this province to look at the problem as one of Canadian responsibility. It is in no way remarkable that labor organizers from the other side of the line should see the difficulty in this convenient light; but that representatives of the people, and the people themselves, when they express their opinions, should cut the matter short at the point of federal authority, implies if anything their resolve not to have the issue they see confronting them sidetracked on lines of foreign politics and international rights.

The story of the development of the trouble introduced with Asiatic labor is short and simple. The Chinese who were first brought in for railway construction proved to be steady and methodical workers, and settlement along the Fraser River and in the interior country assimilated them as well, perhaps, as it is possible for yellow men to blend into the process of white colonization.

Chinese Good Workers.
It is not gainsaid that the Chinese supplied good railway building labor, that they had a worker who was naturally in the canneries, that they have done well as small gardeners and domestic servants, and that, so far as they have taken to commerce, they have invariably proved themselves honest. What they were needed for in the beginning was to supply coaling labor; and most white people, who have in the past been averse to having them utilized in the wider economy of the country.

For a time this feeling against the Chinese remained passive, but as they increased in numbers the advisability of restriction was practically admitted in the terms of a new law, which after a time was increased to \$500. The Chinese have paid this heavy tribute and have uncomplainingly advanced themselves in spite of it.

I have been talking to a member of a large Toronto house who has been going business for years in British Columbia, and he says that he estimates the Chinese population of the province to-day at 60,000, and he and the business men of his acquaintance cannot attribute the loss of a single dollar to Chinese dishonesty.

So that the character they have borne, together with the constantly increasing need for their labor, has been an antidote to the white man's sentiment towards his yellow hewers of wood and dressers of skins, which after a time was increased to \$500. The Chinese have paid this heavy tribute and have uncomplainingly advanced themselves in spite of it.

When the Hindoos were brought in last year it was with a flavor of Bill Nye's grievance that white labor called for a broad and free trade against all Asiatics. The Chinese were given the head tax; and the Hindoos, by reason of physical inferiority and inability to handle the work, were more likely to give a set-back than a fresh impetus to Asiatic immigration. However, Vancouver at that time took the notion that it was ruined by Chinese cheap labor, and, according to the Nye precedent, it went for the pious Hindoo.

But the worst was still to come. It came with the advent of the Jap. The "brown man," as he is called by way of distinction in the Mongolian family, was also brought in to supply the labor market. On every hand it is conceded that neither as an economic asset nor as labor supplying material is he in the class of the white man. He will not work in the canneries, but only in the fisheries. He is ambitious and has the aims at the white man's paid lines of work in the woods. Give him trade credit and he will skin his white ally every time. So at least the Jobbers in British Columbia are soberly declare. And the Jap comes in without the head tax. It is probably because the authorities knew these things concerning his smoothness and ambition that the endeavor was made to restrict Japanese immigration to a specified number every year.

And it is because the Jap has risen superior according to his ethics to the white man's policy of labor and taken, and because he snaps his fingers at the caste of the white race that the Vancouver mob lost its head.

TRADITION.

Said a well-known lawyer: "There may be a local Liberal who has made party sacrifices sufficient to command the office of postmaster Toronto, but if there is, I do not know of him. Why not respect the tradition of the office and give it to an Ontario newspaper man who has done good service to his party? There was a time when Mr. Willison could have commanded it, or better than it, and he advocates promotion of the deputy-postmaster."

BROWN AND THE HAT.

The brown hat is without doubt the popular fall headwear with the dressy man. This was evidenced at the races. The hard felt style seems to be the favorite, and the choice of color is divided between taupe, olive, coffee and Cuba shades. Dineen's have the widest range of the smart hats in both hard and soft styles. The prices are \$2.50 and \$3.00. Satisfaction is certain when you deal with Dineen's, Canada's oldest hatters, Yonge and Temperance-streets. All the new fall styles in silk hats are now at Dineen's.

DASH FOR NORTH POLE.

Dr. Cook 190 Miles Away From the Goal.

NORTH SYDNEY, Sept. 23.—(Special.)—The Gloucester yacht, John R. Bradley, which left here in July with Dr. Cook of New York and J. R. Bradley, the famous hunter, on an exploring trip in Greenland, is on the way here, and is expected this week.

The yacht left Dr. Cook and a Norwegian steward at Etah, 190 miles from the north pole, together with provisions. Both will take Esquimaux and dogs and make a dash for the pole.

Dr. Cook accompanied Peary on a previous trip north, and is confident of making good where Peary failed. Mrs. Cook and family are at Margaree, C.B.

INQUEST ON INFANT BODY THROWS NO NEW LIGHT

Hamilton Mystery Remains Unsolved—General News of Ambitious City.

HAMILTON, Sept. 23.—(Special.)—The inquest on the body of the infant found in Mrs. Simpson's shed on North James-street was concluded this evening without throwing any light on the identity of the mother. The verdict was that it came to its death thru exposure.

Detective Huckle, one of the jury-men, wanted his colleagues to censure the police for neglecting the case. The board of works and the street railway had a session this afternoon on the width of the devil strip, and the Herkimer-street tracks without coming to any decision. G. H. Levy, who represented the company, termed the action of the board in seeking to force the company to pave the streets between the pieces of track known as special work, as a hold up and blackmail.

He said the company did not care whether the strip was four or five feet wide, but wished a definite answer as to which it was to be. The company offered to contribute to the cost of the paving on Herkimer-street as far as the part between the tracks was concerned.

A sub-committee of the markets committee met this afternoon and agreed to give Klein and Binkly a six year lease of two of the city stores, the first year at \$240 a year, and the remaining five years at \$1400 a year. John Dale and Fred Taylor, the pair arrested with the dynamite on Sunday, were remanded until Wednesday. The defence is that the stuff belonged to Taylor's father.

Commissioner Wild of the parks board says he will retire from the board unless Superintendent Weaver is dismissed. Manager Loudon of the Grand Opera House attached the property of the Biddle Bros. show on Saturday because the company declined to pay \$200 for failure to appear the afternoon.

A special train will be run every day to the Hamilton races, leaving Toronto at 1:30. Mrs. Annie Markie is suing Wynn & Co., Milton, boot manufacturers, for an account, and George H. Rilleit is suing his former partner, Adam Rutherford, for a similar reason.

The death of Mrs. Elliott, wife of the late city assessor, Richard Elliott, is deeply regretted by his numerous friends. The funeral will take place Wednesday next from her late residence, 45 South Walnut-street, at 10 o'clock.

The announcement was made following the big procession on Saturday, that Trudell & Tobey had secured the exclusive right for this city of the famous "Foot-rite," the Napoleon of shoes. This will be one of the features of the two big shoe stores now being opened on James-street North.

The opening of the Trudell & Tobey store has been fixed for Saturday next at 10 o'clock, and full orchestra. The first rehearsal will take place on Monday evening, Sept. 30, in the hall of the Conservatory of Music, South James-street. Lists for signature should be found at the home of Mrs. Heimerl, McDonald's and Anderson's music stores. Copies to be used, Novello's edition.

The World's Home Magazine for women
 Edited by LAURA E. McCULLY, B.A.
 Fads and Notions.

Metal belts, so long neglected by fickle fashion, are now to be seen at all jewelers, and are popular. Owing to the vogue velvets are having this fall, these belts come exactly apropos. The prettiest are in medallion style, each medallion being set with a stone, semi-precious in the more expensive ones, and frankly imitation in the cheap. Quite unique, too, is the neck ornament which goes with this belt. It is designed in exactly the same style, and of a size to fit nicely on a three-quarter length dress. It is an admirable collar for evening, or may be fastened round a fancy stock for use with an afternoon costume.

London smokes, the latest thing in colors, is a very remarkable and artistic triumph of the dyer's art. The older ladies have been shamefully neglected by designers of fashions lately, and this new color will also be a boon to them. It is both distinctive and quiet. It is impossible to describe, except to say one may say it is just what it is named, London smoke. In velvet, especially panne, it is simply delightful, and combines perfectly with the richest of backgrounds for either. London smoke will undoubtedly stand high in favor with the fashionable milliner, and we may expect to hear more of it as the season advances.

Some women do not know that it is no longer necessary to run the risk of losing beautiful and costly jewelry, in the form of brooches. Formerly these ornaments formed a source of revenue to the "find thief" and the pickpocket, but now there is a remedy. A simple attachment fastened to the catch prevents its opening without an effort sufficient to break the brooch. Back in college days some girls remember when the class pins were first supplied with catches. One girl got hers too soon, and lost it, and is wiser about pins ever since.

At the home of the bride's father, West Brock, Ont., on Sept. 18, Dr. John D. Christie of Mattawa was married to Mary Vella, daughter of Mr. John Farrow. The Rev. Gilbert Agar of Sunderland performed the ceremony under a floral arch on the lawn, in the presence of about one hundred guests. The bride was given away by her father and wore a gown of net and Valenciennes lace over white tulle with veil and orange blossoms, and carried a shower bouquet of white roses. Miss Zella Gillson and Miss Lillian Smith, cousins of the bride, made charming bridesmaids. Miss Rheta Howell, white and pink sweet peas. The groom was supported by Dr. Christie. The ushers were Dr. Wallis of Toronto and England; Robert Kelly, New York; A. W. Farrow, brother of the bride. After supper, which was served in the tastefully decorated dining-room, the bride and groom left for their honeymoon in Toronto, their future residence being Mattawa.

WHO FOUND THE WATCH?
 Lady's Timepiece Lost Between Crescent-Road and the Market.
 Somebody has found a watch in Toronto. The question is: Will that somebody give it up or keep it? A wager has been made that the watch will be given up.

It was lost yesterday somewhere between 112 Crescent-road and the St. Lawrence Market, by way of the Espinade and Yonge-street.
 It is a gold watch, ladies' size. It has a blue, enamel face and a monogram on the back. On the inside of the back case is the inscription: "M. N. McConnell, Evanston."
 Attached to the watch is a silk fob, with a very old-fashioned locket and buckle.
 Will it be given up?
 A liberal reward will be given if it is returned to 712 Traders' Bank Building.

C. P. P. OCEAN RATES CUT.
 Minimum First Cabin on Empresses Down to \$55.
 MONTREAL, Sept. 23.—The first indication of the Canadian lines taking a hand in the Atlantic rate war is the announcement this morning by the Canadian Pacific Atlantic Steamship Line of the following minimum rates, effective at once and until further notice, from Montreal to Liverpool:
 On Empress of Britain and Empress of Ireland, first cabin, \$55; second cabin, \$42.50.
 On S.S. Lake Manitoba—first cabin, \$45; second cabin, \$35.
 On Lake Champlain and Lake Erie (one class cabin ships), \$40.
 The rates westbound from Liverpool are not yet affected, but it is expected that, commencing Nov. 1, the rates now obtaining to Liverpool will become effective from Liverpool.

DREADNOUGHT GUNS.
 New Battleships Will Have Eight 13.5 Gups 50 Feet Long.
 LONDON, Sept. 23.—At the admiralty, it is said that all the vessels of the Dreadnought class now building shall be armed with eight new type 13.5 gups, so disposed that they all can be fired on either broadside.
 The new weapon will be 60 feet long and a shell from it, it is calculated, will pierce 20-inch Krupp steel armor at a range of 3000 yards.

HAS RECEIVED MANY HERE.
 Prepare it at Home by Shaking Well
 What will appear very interesting to many people here is the article taken from a prominent health journal, giving a simple prescription, as follows: "A noted authority who claims that he has found a positive remedy to cure almost any case of backache or kidney or bladder trouble, and who has followed the following simple prescription, if taken before the stage of Bright's disease:
 Fluid Extract Dandelion, one-half ounce; Compound Kardon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake in a bottle and take in teaspoonful doses after each meal and again at bedtime.
 A well-known local druggist, when asked regarding the prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy. He stated that the remedy is a prescription is often prescribed in rheumatic affections with splendid results, he could see no reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the entire kidney structure, cleansing these most important organs and helping them to sift and filter from the blood the foul acids and waste matter, which cause sickness and suffering. Those who suffer from kidney trouble, if they take this prescription can make no mistake in giving it a trial.

PRICE OF POWER.
 Editor World: Referring to the letter of J. J. Wright, general manager of the Toronto Electric Light Company, the other day, regarding the cost of electric power, I would call your attention to the fact that for the seven years we used power at the meter rate and only once did our bill exceed \$1 a month. Three years ago the company cancelled while this contract, and gave us a minimum rate of \$5.50 per month. A Small User.

Executed Without Trial.
 LODZ, Russian Poland, Sept. 23.—Seven workmen and one girl were executed by shooting here yesterday without trial, for participating in the murder of Marquis Elberstein, owner of a large cotton mill, who was killed by his employees Sept. 15, because he refused to pay them for the time they were out on strike.

MAUND BUILDERS' RELICS FOR TORONTO UNIVERSITY
 Prof. Montgomery Secures Many Valuable Specimens in Souris, Man., District.

Professor Montgomery of the University of Toronto, has been prosecuting researches in the Souris district of Manitoba for relics of the ancient mound builders. No mounds have ever been found near Souris, but on the banks of the Souris River, where the north and south Antler Creeks join the main stream, there are some twenty mounds.

Recently W. S. Wilson discovered seven of these ancient mounds, and seven of these mounds are now in the possession of the University of Toronto. The mounds are of the type known as "mounds in Dakota" and further south with one exception. In this he found the complete set of six buffaloes, which had evidently been buried with a sacrificial purpose.
 Eight large boxes and five crates of specimens were shipped to the Toronto University. Professor Montgomery believes that these mounds were built at least 700 years ago.
 In the vicinity of Souris the professor found a number of arrowheads, which a squaw was buried, perhaps a century ago. Bead ornaments were the only relics secured. There is evidence of an Indian village on the banks of Plum Creek, where numerous arrow heads and broken pieces of pottery have been found, turned up by the plow. The style of pottery indicates that it is probably 500 years since the village was there.
 Recently W. S. Wilson discovered an Indian sweat bath, constructed of willows and young birch trees. It was a curious expression of the Indian's method of treating disease. This was created by Professor Montgomery and sent to Toronto University.

PUPILS TRANSFERRED.
 150 Leave Harbord for Annex in Public School.
 Senior Principal Embree and Principal Hagarty of the Harbord Collegiate buried the hatchet yesterday, and 150 pupils of the collegiate paraded to the five rooms in King Edward School set apart as an annex to the institute. The teachers who accompanied them are Messrs. L. A. Kennedy, teacher of literature; Fletcher, science; McKinley, Latin and drill; Keast, mathematics, and Miss Ketcheson.

Amid cheers, Principal Hagarty informed the contingent that they would still be entitled to wear the Harbord insignia and use the Harbord-street playgrounds and libraries.

MAIL REFUSED DENENBERG.
 Defence Claims He Was Only an Employee.
 OTTAWA, Sept. 23.—(Special.)—Today, in the police court, D. Denenberg, who was arrested in Montreal on an order from Kenora to Kenora, for stealing jewelry to the value of \$2000 from Gustave Graub of Toronto.
 M. J. Gorman, who represented Denenberg, claimed that Denenberg was merely an employee of a man named Jack Kaplan, who conducted a store in this city, but who unexpectedly left for Kenora, leaving \$2000 worth of goods shipped him by Graub.
 The goods also disappeared, and Denenberg, who is the grandfather of Kaplan's wife, is now accused of having obtained the jewelry at his Montreal address.
 Bail was refused.

TROLLEY TO G. T. P.
 Will Run From Kenora Along the Winnipeg River.
 KENORA, Sept. 23.—(Special.)—A company has been formed for the promotion of an electrical railway to run from Kenora to Keewatin, and thence along the Winnipeg River, where it will connect up with the G.T.P.
 The government has been applied to for land necessary for the purpose, and the town's power will be utilized for that object.

LOCAL FRUIT MARKET.
 Business was slack at the wholesale market yesterday, and the express company employees and commission men generally are on a strike for the just at present. Really choice stock would probably bring \$2 a basket, but the bulk of the offerings on Saturday were from \$1.25 to \$1.50, with some lower prices quoted. The price paid by the commission men for the fruit is not so high as output, is responsible for the scarcity.
 Grapes are coming more freely, and it is thought that the crop will be large as in recent years.
 Pears and plums are plentiful, but the season is getting on for these fruits, and a few days will see the last of them. Tomatoes, which are not a drug by any means, are about the cheapest thing on the market, selling at from 20c to 25c a basket.

Risky to Drink City Water Boiling Won't Better It.

Every day 40,000 gallons of sewage pour into the lake from the Dufferin Street sewer. It is thought that much of this sewage gets into the intake which brings Toronto's water supply into YOUR house. Dr. Amyot, Government Bacteriologist, avers that the water has been infected. The Medical Health Officer of Toronto recommended citizens to boil their drinking water at the time the infection first appeared.

In any drop of that polluted water which flows from your taps enough dreadful disease may lurk to kill everyone in your household.
 City water is dangerous drinking—the physicians of the city will tell you so.
 Boiling it kills the disease germs—but doesn't remove the filth that pollutes the water.
 Until they build a filtration plant—and that will take a long time—city water will at times be unfit to drink. Your own experts have told you why repeatedly.

Quit drinking city water—quit NOW—you run too much risk. Drink PURE water—water that is zestful and refreshing, as only crystal clear, pure water can be.

YORK SPRINGS WATER
 WHOLESOME, LIMPID, REFRESHING

The highest authorities in Canada declare, officially, that York Springs Water is "of extraordinary purity."
 It is a natural water, without any excess of mineral salts, which flows from a great depth underground, and is bottled right at the Springs under the most rigid scientific supervision.

York Springs Water is pure beyond the shadow of a doubt—and it is certain to get to you in that same state of purity.
 York Springs Water is fit to drink—you will not want to go back to city water once you have learned how good a really pure water is. And you won't need to, for York Springs Water is as economical as it is wholesome. It is delivered anywhere in the city at these prices:

CERTIFIED ANALYSIS
 "In parts per million
 "Ammonia, free 0.014
 "Ammonia, organic 0.029
 "Nitrogen, as nitrates none
 "Nitrogen, as nitrites a trace
 "Chlorine, as chlorides 7.000
 "Total solids 452.000
 "Volatile matter 46.000
 "Residue did not darken during incineration."
 The chemical constituents of the water comprise the salts of sodium, magnesium and calcium, mainly as carbonates, and as the reaction is alkaline, the water, as such, possesses every necessary qualification.
 Dr. A. R. PYNE, M.D., Dominion Analyst, in summing up the results of the appended analysis, says: "The water may be classed as one of extraordinary purity."

MADEE RECORDED BY B. L. AT THE BUFFED RACE TRACK

Paces Half Mile in 1.07 1/2-- Four Races Decided Under Toronto Driving Club Auspices--Track Notes.

There was a fair attendance at the Dufferin track yesterday afternoon to witness the regular weekly matinee of the Toronto Driving Club.

The day was fine, the track good and the racing first-class.

Of the four races the card, two were won in straight heats--Classes A and C--while the other two--Classes B and D--were split.

In Class A, Burns & Sheppard's handsome pacer, Riley (2:38), won handsily without ever being headed, and in the second heat he set a new matinee record for the season by stopping the half-mile in 1.07 1/2.

The well-known reinsman, Jack Fleming, was up behind the gelding and handled him skilfully.

Hanna's trotter, Roger, with the veteran George Gray driving, won the opening heat in Class B, but he had to lower his colors to Norman Voden's pacer, Madge W., in the second heat.

In Class C, Ross's recent purchase, the trotter Chalet B., was a straight-heat winner, being at no time in danger of losing.

As the Toronto Driving Club limit the number of heats in their matinees to three, the spectators had to watch the track undecided as to which was the better horse in Class D, the final race of the day.

John E. Russell's big pacer, Reservation, made his appearance with the hobble on, landing the opening heat of the race, and when he had looked like a winning lead in the second heat, made a bad break, which gave Wm. Hezlie-wood the opportunity of slipping in with Bourbon Boy.

In the third heat, Charlie Snow got his little mare, Rhoda Wilkes, away by taking the pole at the first turn, and led trotting, winning by an open length from Reservation, who came fast in the stretch, but could not get in time to beat Snow's mare.

The winner finished last in each of the first two heats, owing to breaks, and started in the third heat with a bad start, with nobody backing her. The summary:

Class A, b.k.g., by Happy Riley: Burns & Sheppard (Fleming) 1-1; Emma L., b.m.; James Lamb (Lamb) 2-2; Baby Teth, b.m.; A. Allison (Robinson) 3-3; "Matinee record for season."

Class B, b.m., by Satrap: N. Voden (Voden) 2-1; Roger, b.g.; H. Gray (Gray) 3-2; Marnie Abbott, b.m.; J. J. Doran (Snow) 4-2; Battle B., b.g.; W. Hezlie-wood (Lochrie) 5-2; Barrett, b.g.; Jos. Russell (Russell) 6-2; Time 1:15, 1:14, 1:14.

Class C, b.g., by Bryson: Jos. Russell (Russell) 1-1; Billy C., b.g.; W. Hezlie-wood (Lochrie) 2-2; Goldfinger (den) 3-3; Electric Girl, chm.; T. O'Neill (Fleming) 4-2; E'La, b.m.; J. E. Russell (Russell) 5-2; Time 1:14, 1:14, 1:13.

Class D, b.g., by Fadr: J. E. Russell (Russell) 1-2; Bourbon Boy, b.g.; W. Hezlie-wood (Hezlie-wood) 3-1; Rhoda Wilkes, chm.; Frank Rogers (Rogers) 4-2; Uncle Sam, b.k.g.; J. H. Lock (Lock) 5-2; Baron Powers, b.g.; Frank Rogers (Rogers) 6-2; Time 1:14, 1:14, 1:14.

The officials for the day were: Judges--Dr. Parks, J. Elliott, H. Tomlin, Timers--P. Callen, H. C. Tomlin, Starter--Robert McBride.

Notes of the Track. Lady May (2:04), Burns & Sheppard's great pacer, won the 2 1/2 mile race, Sunday having gone a mile in 2:15 1/2 over a slow track.

Riley B. (2:34) now holds the season's half-mile track record for the matinee races--1:07 1/2. A fast pair to be owned by one firm.

Several Toronto horses have been shipped to Ottawa, where they will be shipped to the Ontario County Fair, which begins to-day.

The race for horses without a record, the 2 1/2 class, and a running race, will be the speeding events at the Ottawa Fair to-day.

The association reports that all classes have filled satisfactorily at Ottawa, and that some great racing is expected.

WANT FRUIT INSPECTOR.

Grocers' Section of Retail Merchants Voice Their Indignation.

The grocers section of the Retail Merchants' Association held their first monthly meeting of the fall season last night.

The report of the joint committee of fruit dealers, butchers and grocers was received by the appointment of a fruit inspector, and the decision reached was that a representative should visit Ottawa and lay the facts before the Hon. Mr. Fisher.

There was quite a discussion over the very unsatisfactory yield of the fruit this season. It was stated that it has been the poorest yield for the last twenty years, and that the fruit has been dearer in proportion to the quantity than has been ever known to the knowledge of those present.

Complaints were made that of the large quantities of fruit which came in the bottom layer was much poorer than the top, and this is one of the greatest needs for a fruit inspector.

Reduction in Ocean Rates. The C.P.R. steamship department notified their representative, Mr. S. J. Sharp, in Toronto to-day, of a general reduction in the minimum rates in both saloon and intermediate class, taking effect immediately.

The 'Empress of Britain' and 'Empress of Ireland' first cabin rate is now \$55 and upwards, eastbound; second cabin \$42.50 and \$45. On the 'Lake Manitoba' in the first cabin \$45 upwards, second cabin \$35. On the two popular steamers 'Lake Champlain' and 'Lake Erie,' which carry one class of cabin passengers only, the rate will be \$40 for the upper deck and \$42.50 on the promenade deck. There is no doubt but that this reduction in rates will be the means of increasing Atlantic travel this fall and Xmas season.

It is worthy of note that no reduction has been made on westbound accommodations nor have the third-class rates been so far affected.

SON DEAD; NO JOY IN LIFE.

NEW YORK, Sept. 23.—Maurice Renl, a retired merchant, aged 52 years, and his wife, to-day were found dead in their apartments in the Bronx. A letter left by them explained that after their son Victor, 19 years old, died at Liberty, N.Y., in August a year ago, they found no joy in life.

CUMMINGS CONVICTED AND BAIL IS REFUSED

Toronto Junction Man Is Found Guilty by Jury on a Revolt-ing Charge.

George R. Cummings, the elderly Toronto Junction undertaker, was found guilty in the sessions yesterday of sending obscene and disgraceful letters to Lena Tucker. He will be sentenced by Judge Winchester at the close of the sessions. The extreme penalty is two years in the Central Prison. No bail was accepted and Cummings was locked up.

Miss Mrs. Cummings stuck with her husband through the trial and was present when the verdict was announced. Her head was bowed in the attitude of prayer during the judge's charge. Cummings himself seemed to shrink from the commencement of the trial.

In his address to the jury, County Crown Attorney Drayton pointed out several instances of the prisoner's conduct which had apparently deliberately lied in the box, and had tried to blacken the name of the girl to whom he had written protestations of love, and whom he had chased over the city in a vain attempt to get her back to him again.

"On one hand, gentlemen of the jury," said Mr. Drayton, in closing his address, "you have the girl, the circumstances and the letters, and on the other hand, the man—and I should not have said man. He tried to blackguard the girl's character and endeavor to besmirch her name. He could hardly realize what she had done for him. He said she 'had made a man' of him. He was wrong. She had not made a man of him. He is today the thing that he was before."

Wrote to Sister. When the court opened in the morning the crown attorney asked Cummings for the memorandum book containing the list of men whom Lena Tucker had said she had been intimate with. Cummings said that the book had probably been destroyed.

"Here's a letter you wrote, addressed to Miss Pansy Tucker," said the crown officer. Cummings admitted that Pansy is a younger sister of Lena's. Mr. Drayton read a note from Cummings asking her to meet him on Carlton-street, which was addressed to his friend George. He explained that this meeting was to get from the girl an explanation of a statement of her sister.

"You said before in the box that you never did anything to Lena Tucker for which you should reproach yourself. Is that true?" asked the crown officer. Cummings admitted that he had never done anything to her.

"I liked the girl as anyone would like a girl whom you wanted to see 'right,' he replied.

"What did you put an 'x' after your name in these letters for?" asked the crown officer. Cummings admitted that it was used as others use it for "kiss."

After much hesitation Cummings said it signified kindness.

"You say," said the attorney, "that you had never done anything to her, but what did you mean by that?" Cummings admitted that it was used as others use it for "kiss."

C.M.A. CONVENTION OPENS THIS MORNING

Large Attendance of Delegates From All Parts of the Continent.

This morning the preliminary session of the thirty-sixth annual convention of the Canadian Manufacturers' Association opens at the King Edward Hotel. Men of note in Canadian industrial circles will gather from all parts of the Dominion, and in the various business sessions which extend over Wednesday, Thursday and Friday many discussions dealing with Canada's position and manufacturing progress will take place.

Over six hundred members have registered. This is by far the largest number that has attended any previous convention. The night train of special cars brought in two hundred members from Montreal. Amongst these visitors are D. Lorne McGillivray, general manager of the Canadian Rubber Company, and vice-president for Quebec; Hon. J. D. Rolland of the Rolland Paper Company, vice-president of the board of harbor commissioners, and S. H. Ewing. Big representations are coming from the east and the west. St. John, N.B., will have their quota of members present.

Ontario is expected to have a particularly large representation in attendance. Cyrus Burge of Hamilton, Robert Hobson of Hamilton Steel and Iron Works, D. B. Dauph of International Harvester Company, Hamilton; C. R. McCulloch, E. Gurney, E. Frey, S. M. Wickert, C. S. Meek, George Bridgen, W. B. Syndell, A. S. Roger, George Booth, T. M. Cutler, Lloyd Harris, G. A. Vandry, L. C. McIntyre, J. B. House, and T. A. Russell will all be in attendance.

This morning the manufacturing grocers, furniture, engine and boiler, manufacturing jewelers, agricultural implement, woolen, stone and paper box sections will be in session. The officers and various committees, including section, treasury, industrial and reception will report in the afternoon, and President H. Cockshutt will deliver his annual address.

The first of a series of addresses by prominent men not connected with the association will be given by A. Blue, chief officer of the Dominion census, who will take as his subject "The Progress of Canada in the Twentieth Century."

In the evening the social program will be ushered in with a reception at the King Edward, given by members of the Toronto branch. A large and welcome are to be delivered by Mayor Cassworth, Hon. J. P. Whitney and Chairman E. Freyberg of the reception committee, while Hon. J. D. Rolland will reply on behalf of the committee. A special feature of the gathering will be the presentation of an illuminated address to ex-President C. Ballantyne of Montreal.

Painter Robs Hotel. William Stockdale, 158 Markham-street, a painter, employed about the Walker House, was arrested yesterday by Detectives Tipton and Wallace, charged with theft from the hotel. A search of his home brought out two suit cases, a fur coat, suit of clothes, trousers, linen and underclothing. The property is identified as having been stolen from the hotel.

Funeral of T. C. PATTESON Was Strictly Private, But a Few Intimate Friends Attended.

The funeral of the late Mr. Patteson took place yesterday. The funeral was private.

Archbishop Sweatman read the services at the house and Rev. Bernard Bryan, rector, at the Church of the Epiphany, conducted the services at the cemetery.

The pallbearers were the chief mourners, and were all relatives, being: Godfrey Patteson, son; Charles J. Jones of Ottawa; Louis K. Jones of Ottawa, Ralph Jones and A. R. Palmer, brothers-in-law, and Charles McGorrie, son-in-law.

The attorney-general, Hon. J. J. Foy, was present, as was also Joseph E. Seagram, M.P. of Waterloo, J. A. Macdonnell, K. C. of Alexandria, Walter Beardmore, George Beardmore and Col. Ross.

The postoffice department was represented by Dr. R. M. Coulter, deputy postmaster-general, of Ottawa, and George Ross, superintendent of post-offices.

SAID CHIMNEY SMOKED.

Others Said It Hadn't and the Case is Adjudged.

J. G. Greay, trading as William Greay & Sons, Church-street and the Esplanade, was summoned to the police court yesterday afternoon for infringing the smoke bylaw on May 21 last.

Mr. Davidson, who defended, objected to the proceedings being held in open court, as his client had not received the statutory notice, but Magistrate Kingsford overruled the objection.

Inspector Fife of the property commissioner's department said that on the date he kept observation on the stack for three hours, during which time he saw dense black smoke emitted for 12 minutes, 11 minutes and 15 minutes, respectively. Notice was served ordering an abatement within ninety days. On going there again on Sept. 12 he found an improvement, but on three distinct occasions of 9, 10 and 7 minutes dense smoke was emitted.

Mr. Greay and his engineer gave evidence that a new chimney stack and boiler had been put in and everything done to prevent the nuisance, and contradicted the inspector's evidence, which was uncorroborated. The case was adjourned for ten days to allow the inspector to make further tests to see if the bylaw was complied with.

AMERICAN HEALTH ASS'N.

Province and City Will Send Delegates to Atlantic City.

The annual meeting of the American Public Health Association will be held in Atlantic City, next week. Special features of the present meeting relate to a tolerably thorough reorganization of the association, and the establishment of a section, which shall wholly concern itself with the collection of vital statistics. Hon. W. J. Hanna has named Dr. Hall of Chatham, and Dr. Bauman of Newburgh as the representatives of the provincial board of health at this meeting. Dr. Amyot, associate provincial pathologist, will also probably attend. Dr. Sheard and Chief Health Officer also as civic representatives.

JOURNALISTS AT HAILESBURY.

HAILESBURY, Sept. 23.—(Special.)—The touring British journalists were given a civic reception to-day, and presented with addresses each sealed with native civility.

The whole problem of Asiatic immigration must obviously be taken up more intelligently if the will of the white population is to prevail for the future guarantee of this magnificent province as a white man's country. The people here see the situation exactly and are now deeply in earnest over it.

Beach Grows Younger. It was a typical midsummer night at Scarborough Beach for thousands of visitors to the east end lake resort last evening. With its myriad electric lights shining on lawns and flower beds as fresh and bright as if they were a new lease of life, and the big crowd enjoyed everything as if the park was an entirely new sensation. The chutes, the scenic railway and the cascades did one of the largest business of any Monday evening this season. Two new acts were given on the elevated stage by Kennedy Brothers and Mack, a nimble acrobatic trio, and the Larues, a man and woman, who do clever stunts on a trapeze. The same bill will be given all week, and the park will remain open indefinitely.

THE TRUTH ABOUT

Continued From Page 1.

Two Views. See him in a Calgary hotel where he is exclusively employed for waiting on tables and the Jap is faultless. But when with a Russian cap thrust back upon his black head, he strides with military pace along the platform of a Fraser River town he affords material for different impressions. The police authorities of Vancouver caught the correct impression of him, no doubt, after the recent riot when the Japanese residents of Powell-street sent word to neither about protective measures because they preferred being allowed to protect themselves. The mob also got a similar impression, for instead of the Japanese it was the Chinese quarter it essayed to clean out.

It is only the truth to say that the mob was a comparatively harmless affair, accidentally collected, so far as the motive of attacking either the Chinese or the Japanese impelled it. And as it is an ill-wind blows nobody good, so the hasty violence of a week ago may prove to have been a profitable experience. It has demonstrated the great injury that a real outbreak of popular fury might and probably would, entail. It has made the Japanese quarter an armed camp and it has frightened many of the harmless Chinese so much that they had the money they would pull out of British Columbia. But it will only bring in the Jap in greater numbers than ever.

Still They Come. There are at the present moment, large reinforcements of brown men on the Pacific Coast, nearing Victoria, whilst others will follow. For the cry is still they come.

But this is not the most serious part of it. Hamar Greenwood, M.P., speaking to the Canadian Club of Winnipeg on the Monday after the outbreak, said very truly that it had brought Canada right into the centre of foreign politics. And by so doing a real obstacle was introduced to the intention which the intelligent people of British Columbia have met at heart. That intention, as has been said at the outset, is to force the necessity for the restriction of Asiatics upon the attention of the government of Canada and insist that it shall be treated strictly as a Canadian problem. British Columbia realizes to-day that it cannot stick by this claim of a domestic issue if there are to be any more charivaris, serious or otherwise, in the Japanese quarter of Vancouver. And there will not be any more. The lesson has had its effect. But what is evident is that deliberate plans will be set on foot to secure restrictive laws that can and will be enforced.

There is no getting away from the needs of the railways; the mines, the mills, the canneries and the fruit-growing areas of British Columbia for coarse labor, cheap or dear. The Chinese who have been supplying a good deal of this labor so far with the all-enduring patience that pleases the white man best, have become the greatest sufferers thru no fault of their own, but by the very irony of fate. The head tax law that restricted the Chinese immigration is the Jap's own, but by the very irony of fate, it is a belief that both sides

NEW ROAD IN HALTON. The government has approved of the good roads scheme, which was recently submitted for their consideration by the members of the County Council of Halton. It is proposed to expend in the improvement of the county highway the sum of \$200,000, one-third of which will be contributed from the provincial exchequer. No less than 100 miles of roadway are concerned in the proposition.

TO INSPECT RAILWAYS. Messrs. Letch, chairman, and Ingram of the Ontario Railway and Municipal Board leave town this morning to make an examination of the electrical railways in the Niagara Peninsula, in respect to equipment, rolling stock and condition of tracks.

A Union Fight. David Sexsmith, said to be a striking machinist, fought with John Richardson, 124 Wolseley-street, who is employed at the Toronto Gas and Gasoline Engine Company's works, as the latter came to work last night. Both were locked up, charged with disorderly conduct.

Three operators returned to work last week, and two more yesterday.

MARKET DOES NOT INSPIRE CONFIDENCE

World Office, Monday Evening, Sept. 23.

The action of the Toronto market to-day was not any too reassuring, taken as a whole. There were instances of strength, but these were offset by spots of weakness, and to an observer of the transactions, the situation presented a muddled appearance.

The market to-day encountered heavy profit-taking with London sales of fully 15,000 shares on balance. It is understood that a sizeable bill account in Americans will be disclosed in the London settlement.

Call money was easier to-day, and a relaxation in time rates in the near future seems highly probable.

WIRELESS STATION READY FOR COMMERCIAL GRAMS

Marconi Will Stay at Glace Bay till First Over Water Message is Despatched.

SYDNEY, N. S., Sept. 23.—Signor Marconi reached Sydney this morning and at once proceeded to Glace Bay to inspect his wireless telegraph station.

"We shall have just a few friends present at the opening," he said. "We shall have some gentlemen of the press, but outside of these men we shall have no prominent men."

The Canadian Pacific and Western Union have connections with the station, Signor Marconi said, and he hoped to do business with both companies.

"The wireless messages will be received at Clifton Island, with the Cornwall station as a second string, to help out Clifton."

"Bad weather will have no effect on our system, provided it does not damage our masts and poles. Lightning storms will do us no harm," said Marconi.

"After the messages reach Clifton the government lines will take hold of them. The company has a contract with the British Government and the latter will look after the company's messages. The company has also a contract with the Canadian Government, and can use the I. C. R. wires."

JUNCTION MAYOR SAYS RAILWAY WILL ACCEDE

Roadway Will Not Long Be Delayed—Suburban Schools Are Full—County Matters.

TORONTO JUNCTION, Sept. 23.—An exciting scene occurred about 10.30 o'clock to-night, resulting in the arrest of George Marritt of 23 Hook Avenue. It appears that the married life of Marritt and his wife is marred by many means smooth sailing. Mrs. Marritt had been married before, and has one daughter, about 13 years old, who lives with her mother and step-father. Marritt states that he is under the doctor's care and that he cannot return promptly and when she did it was without the acid. This annoyed her stepfather as much that he struck the child several times, and when her mother interfered he turned his wrath on her. The scene of operations was somehow transferred from the house to the railway yards, where two young men, attracted by the screams of Mrs. Marritt, succeeded in pinning her husband to the ground while the police were sent for. Serg. Peters and Constable Heff arrived on the scene and took the man to the police station and will appear before Police Magistrate Ellis to-morrow morning on a charge of disorderly conduct.

Dealers Up in Arms. The local milk dealers are protesting vigorously against the practice of many customers in not returning milk bottles, being estimated that upwards of \$2000 worth of bottles have been lost by the Junction milk dealers during the past twelve months. It is the common practice to keep the bottles for preserved fruit, and some of the milk men have recognized their bottles being used for this purpose. There is in addition a considerable quantity of milk stolen from door steps, and the dealers have determined to prosecute severely any who are detected in this offence. Customers are expected to return the empty bottles, as heavy penalties will be imposed if this rule is not adhered to.

Manager Fleming Consents. Work on the paving of Dundas-street will go on again. Manager Fleming of the Toronto Railway Co. came up to the Junction this afternoon and made a personal inspection of the roadbed, where the tracks will be taken up. Mayor Baird stated to-night that the railway company have promised not to delay the contractors in their work, and will have the tracks raised in a day or two.

Rev. Dr. Pidgeon of Victoria Presbyterian Church leaves this week for Halifax, N.S., to attend the meeting of the synod of the Maritime Provinces, where he will present the claims of the Temperance and Moral Reform Association. W. R. Taylor, M.A., the assistant pastor, will conduct the church services and be in charge of the congregation during Dr. Pidgeon's absence.

The corner stone of the new Methodist Church at the corner of Annette-street and High Park-avenue will be laid on Saturday, Sept. 29, at 2.30 p.m. by the Rev. T. E. E. Shore of Toronto, a former pastor of Annette-street Methodist Church.

Nelle Fitkin, aged 18 years, whose father was buried about ten days ago, died yesterday of phylis at her home on Weston-road. The funeral will take place on Tuesday at 2.30 p.m. to Prospect Cemetery.

Jas. Chas. Stanton, aged 29 years, died to-day in the Western Hospital of typhoid fever, after a week's illness. He came to Canada about 2 1/2 years ago, and is survived by his parents and one sister, who reside on South Keele-street. The body was removed by Wm. Speer's undertaking rooms, and the funeral will take place from Mrs. Weeks' home on Weston-

road on Wednesday at 2 p.m. to Prospect Cemetery. The funeral will be conducted by the Salvation Army.

The harvest home festival given by the Salvation Army in St. James' Park to-night turned out a big success. About 400 people were present, and enjoyed the program immensely. The whole process of planting and harvesting grain was practically demonstrated, a plough being used on the stage for tilling the soil, after which the seed was sown and finally cut down and gathered into sheaves. At the close of the program an auction of fruits and vegetables of many varieties brought in a handsome sum.

The Brotherhood of St. Paul of Annette-street Methodist Church have elected the following officers: Hon. president, F. J. Johnston; vice-president, L. O. Horner; secretary, J. E. Parsons; treasurer, J. R. Joy; pianist, H. C. Haselwood; orator, W. A. McMaster; auditors, W. A. McMaster, J. E. Parsons.

The Sterling Business College, to be opened on Oct. 1, will be conducted under absolutely individual teaching system.

DOVERCOURT.

Dovercourt Presbyterians Will Hold "Rally" Day.

DOVERCOURT, Sept. 23.—Next Sunday will be rally day at Dovercourt. Presbyterian Church Sabbath School. Mr. Gibson of Central Church will address the pupils, and a special feature will be the display of flowers raised from seed given the scholars in the spring.

Rev. B. H. Spence will address a local option meeting in the Presbyterian Church on Friday evening at 8 o'clock, under the auspices of Victory Lodge, I.O.G.T.

NORTH TORONTO.

Funeral of Dead Lineman Takes Place on Tuesday.

NORTH TORONTO, Sept. 23.—The funeral of the late John McHughan, who died in St. Michael's Hospital on Saturday night from burns received last Wednesday by coming in contact with a live wire, will take place to-morrow afternoon at 2 o'clock from the Oulcott House to Mount Pleasant Cemetery. McHughan was 22 years old, and was engaged to be married at an early date. He came from Edinburgh, Scotland, 11 years ago, where his parents died a year previously. His brother James of the Oulcott Hotel is the only relative he has in this country, but he leaves another brother and sister in Scotland.

Mr. and Mrs. C. J. Wilson of Roper-avenue celebrated their silver wedding last Saturday. About thirty invited guests paid homage to Mr. and Mrs. Wilson. Those who were present were Mr. and Mrs. Taylor of Toronto, parents of Mrs. Wilson, as were also the best man and bridesmaid, who acted at the wedding 25 years ago.

Harry Rupert Horton of Bramford and Miss Louise Hibbert of Richmond, Surrey, England, were on Saturday evening united in marriage by Rev. Mr. Pickett, at the residence of Mr. and Mrs. Piper, "Hatherleigh Cottage," Soudan-avenue.

Herbert Darling is building an addition to the old "Little Palace" meat store, in which Hy Hides conducts a shoe repairing business. Mr. Hides will live in it with his family.

The laborers of Johnston & Jennings, employed on the Davisville-avenue drain, went on strike this morning, but it is reported returned to work again in the afternoon.

Mrs. W. Loach, Glenwood-avenue, and her mother, Mrs. Jones, returned home from a trip to the northwest. Mrs. Cooper of Richmond Hill and Mrs. Raymond of Thornhill are visiting their sister, Mrs. Mason of Merivale-street.

Mr. Barker of the Bank of Montreal is inspecting the business of the local branch here.

Herbert Darling cut his left thumb severely this morning when cutting meat. His saw slipped, lacerating it badly.

Mr. and Mrs. Ruthven and Miss E. M. Ruthven have returned home from a visit to Italy and other European countries.

Lee Hock of the Chinese laundry here left to-day for China on a winter's visit. He expects to be back again on May 21, bringing with him his wife and child.

WYCHWOOD.

Pastor and Wife Return From Trip—New Store Going Up.

WYCHWOOD, Sept. 23.—Rev. and Mrs. McTaggart of the Presbyterian Church have returned home from their wedding trip to Scotland. Mr. McTaggart occupied his pulpit on Sunday. On Wednesday evening the congregation will tender Mr. and Mrs. McTaggart a reception.

George Bedford is erecting a new store and stable on Bathurst-street. The Church of England will hereafter occupy the fire hall for divine services during the winter months.

BRACONDALE.

Record Attendance When 27 New Members Were Added.

BRACONDALE, Sept. 23.—At the service in Zion Methodist Church, St. Clair-avenue, on Sunday, 27 persons were received into the church, and five infants were baptized. At the evening service the church was filled to its capacity for the first time on Sunday in its history. The pastor, Rev. C. V. Follett, is arranging a scheme to raise funds to pay off the mortgage debts on the church.

On Sunday, Sept. 23, the services will be conducted entirely by the ladies, and a cordial invitation is extended to all to attend. The services will be held at 7.30 p.m. The Edwards Bros. and their Toronto friends returned from their hunting and fishing trip glad to resume their daily vocation again.

DEER PARK.

Funeral of Mrs. Adams—Building Coiffures Active.

DEER PARK, Sept. 23.—New fences are being erected on the east and west sides of the public school.

Mr. and Mrs. Story of Illinois are visiting at W. J. Mitchell's, St. Clair-avenue.

WESTON.

WESTON, Sept. 23.—The sale of village property announced for Saturday afternoon, did not draw a large crowd, some 40 being present. The property offered was part of the old Gage estate, and consisted of four parcels, none of which were sold at the sale, the reserve price not being reached, and some of which were not offered.

One parcel of land containing some 200 x 140 feet, on the south side of North Station-street, was bid up to \$200, but withdrawn.

Subsequently Mr. Rowntree bought some 40 x 125 feet of the corner of John and Main-streets, north of the Methodist Church, at \$150 per foot. It was stated by Solicitor Forté that other offers had been received for the adjoining property. Property said to be advancing in the town and the erection of the large new cannery factory in the southern part of the village, with the coming of it directly and indirectly employed, will, it is confidently expected, give a solid boom to the town.

CHESTER.

Property Owners Suggest Name of Thorndale in Lieu of Chester.

CHESTER, Sept. 23.—Among a number of property-owners in this place there is a movement to have an appropriate suburb name for the northern portion of this locality. The name Chester is wholly and solely a parish one, and is not in any way connected with the town, either from a historical or municipal viewpoint.

There are the two postoffices, Doncaster and Thorndale, and the whole of the territory accommodated by these offices is in the municipality of the Township of Chester, which extends north, east, and south from the old Butcher's Arms Tavern, on Mill-road, just north of Sparkhill-avenue, to the old mill race, which runs in the township. The old tavern, a rough-cast building now still stands on the old site, but the swinging sign, with its meat

ly occupied by Mrs. Davison, who moved to Toronto.

The funeral of the late Mrs. J. J. Adamson took place this afternoon to Mr. Pleasant Cemetery.

The township workmen have just completed the laying of a new floor on the Moore Park bridge.

Several of the boys of the public school have entered for the half-mile event at the exhibition grounds, to be run off on Saturday, Oct. 12, between the start and the finish of the big "Warrior" race.

Rev. Mr. Du Val, a well-known Presbyterian clergyman of Winnipeg, has been spending a few days with A. M. and Mrs. Laughlin at Clair-avenue.

Pursuant to a motion passed at the Easter vestry meeting of Christ Church, at which the rector, Rev. T. W. Paterson, together with the church wardens and the delegates to synod, were appointed a committee to secure the curate, as the duties of the rector become too onerous, a congregational meeting was held to-night to present its report. The meeting was small in number, but it made up for this deficiency in enthusiasm. The rector presided and stated that on account of such a great demand for young men to the mission fields, it was hard to secure the proper person needed, but he had two young men in view. He asked the congregation in what way the extra curate's stipend of \$300 should be raised.

Mr. Clubb suggested that the congregation should pledge themselves, not only to raise the necessary \$300, but also to raise the rector's stipend considerably above the present \$300.

Mr. McGee, church warden, stated that to raise the extra \$300 by means of offerings would require to be increased at least one-third, and suggested that every member should be asked an extra amount.

Mr. Armstrong was enthusiastic and not only spoke in favor of engaging a curate, but was in favor of building a new church. He suggested that a finance committee be appointed to make a systematic canvass among the parishioners to try and secure the necessary funds.

The congregation adopted a resolution that the rector shall engage a curate and advise the vestry to adopt this recommendation at next Monday's meeting.

The raising of the extra \$300 was not settled, as the rector volunteered \$50 a year extra towards the curate's fund, which Mr. Armstrong supplemented by another \$50 and Mr. Williams by \$25. The other nine gentlemen promised another \$70.

The parish was then divided into four districts, and a systematic canvass will be made by the finance committee, consisting of eight gentlemen, all of whom were volunteers.

MIMICO.

MIMICO, Sept. 23.—(Special.)—The Methodist Church in this village was crowded both morning and evening today on the occasion of the annual home services. The sacred edifice was beautifully decorated with fruits and flowers and the service was conducted in the morning by Rev. Mr. Campbell, and in the evening by Rev. Jos. Tait. The church rendered admirable service and altogether the day was a delightful one.

The public school resumes to-morrow morning after being closed for a few days, thru the enforced absence of Mr. English.

The continuation of the "harvest home" services in the Methodist Church to-night, taking the form of a lecture by Rev. Dr. Haselwood, was well attended and most enjoyable. "A trip thru Ireland, described and beautifully illustrated," was greatly appreciated. A vocal and instrumental concert was also given by resident artists. Archie Campbell, M.P., was chairman.

The condition of the public highway, a good deal of the way from the Humber to Mimico, is a standing disgrace to the street railway company, and the township council and probably both. All thru the summer no attempt has been made to cut the weeds and rubbish along the Lake Shore-road, which grow in profusion from 2 to 4 feet high. The law governing the matter ought to be rigidly enforced against whoever is responsible.

Considerable dissatisfaction prevails over the manner in which the work of improving is being carried out. It is said that no proper grading is being done to the water, that the road should have been widened in some places 30 ft., and a shorter section undertaken, giving greater permanency to the road.

To-day four teams of horses and about a dozen men were engaged in plowing up the roadway just west of Mimico-avenue.

Two short stretches of cement sidewalk are being laid on the south of the Lake Shore-road in the village.

George Stubbs and Mr. Book are each erecting comfortable brick residences on Albert-street.

WESTON.

WESTON, Sept. 23.—The sale of village property announced for Saturday afternoon, did not draw a large crowd, some 40 being present. The property offered was part of the old Gage estate, and consisted of four parcels, none of which were sold at the sale, the reserve price not being reached, and some of which were not offered.

One parcel of land containing some 200 x 140 feet, on the south side of North Station-street, was bid up to \$200, but withdrawn.

Subsequently Mr. Rowntree bought some 40 x 125 feet of the corner of John and Main-streets, north of the Methodist Church, at \$150 per foot. It was stated by Solicitor Forté that other offers had been received for the adjoining property. Property said to be advancing in the town and the erection of the large new cannery factory in the southern part of the village, with the coming of it directly and indirectly employed, will, it is confidently expected, give a solid boom to the town.

CHESTER.

Property Owners Suggest Name of Thorndale in Lieu of Chester.

CHESTER, Sept. 23.—Among a number of property-owners in this place there is a movement to have an appropriate suburb name for the northern portion of this locality. The name Chester is wholly and solely a parish one, and is not in any way connected with the town, either from a historical or municipal viewpoint.

There are the two postoffices, Doncaster and Thorndale, and the whole of the territory accommodated by these offices is in the municipality of the Township of Chester, which extends north, east, and south from the old Butcher's Arms Tavern, on Mill-road, just north of Sparkhill-avenue, to the old mill race, which runs in the township. The old tavern, a rough-cast building now still stands on the old site, but the swinging sign, with its meat

ly occupied by Mrs. Davison, who moved to Toronto.

The funeral of the late Mrs. J. J. Adamson took place this afternoon to Mr. Pleasant Cemetery.

The township workmen have just completed the laying of a new floor on the Moore Park bridge.

Several of the boys of the public school have entered for the half-mile event at the exhibition grounds, to be run off on Saturday, Oct. 12, between the start and the finish of the big "Warrior" race.

Rev. Mr. Du Val, a well-known Presbyterian clergyman of Winnipeg, has been spending a few days with A. M. and Mrs. Laughlin at Clair-avenue.

Pursuant to a motion passed at the Easter vestry meeting of Christ Church, at which the rector, Rev. T. W. Paterson, together with the church wardens and the delegates to synod, were appointed a committee to secure the curate, as the duties of the rector become too onerous, a congregational meeting was held to-night to present its report. The meeting was small in number, but it made up for this deficiency in enthusiasm. The rector presided and stated that on account of such a great demand for young men to the mission fields, it was hard to secure the proper person needed, but he had two young men in view. He asked the congregation in what way the extra curate's stipend of \$300 should be raised.

Mr. Clubb suggested that the congregation should pledge themselves, not only to raise the necessary \$300, but also to raise the rector's stipend considerably above the present \$300.
